Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Sales Analyst job role.

Business Object	Policy Description	Policy Store Implementation
Activity	A Sales Analyst can delete activity a member of an access group associated to the activity with delete access	Role: Access Groups Enablement Privilege: Delete Activity (Data) Resource: Activity
Activity	A Sales Analyst can update activity a member of an access group associated to the activity with update access	Role: Access Groups Enablement Privilege: Update Activity (Data) Resource: Activity
Activity	A Sales Analyst can view activity a member of an access group associated to the activity	Role: Access Groups Enablement Privilege: View Activity (Data) Resource: Activity
Application Attachment Category	A Sales Analyst can delete application attachment category for all miscelleneous category attachments data	Role: Sales Analyst Privilege: Delete Application Attachment Resource: Application Attachment Category

Business Object	Policy Description	Policy Store Implementation
Application Attachment Category	A Sales Analyst can delete application attachment for all miscelleneous category attachments data	Role: Sales Lead Processing Privilege: Delete Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Analyst can read application attachment for all miscelleneous category attachments data	Role: Sales Lead Processing Privilege: Read Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Analyst can update application attachment category for all miscelleneous category attachments data	Role: Sales Analyst Privilege: Update Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Analyst can update application attachment for all miscelleneous category attachments data	Role: Sales Lead Processing Privilege: Update Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Analyst can view application attachment category for all miscelleneous category attachments data	Role: Sales Analyst Privilege: Read Application Attachment Resource: Application Attachment Category
CRM Asset	A Sales Analyst can delete asset a member of an access group associated to the asset with delete access	Role: Access Groups Enablement Privilege: Delete Asset (Data) Resource: CRM Asset
CRM Asset	A Sales Analyst can update asset a member of an access group associated to the asset with update access	Role: Access Groups Enablement Privilege: Update Asset (Data) Resource: CRM Asset
CRM Asset	A Sales Analyst can view asset a member of an access group associated to the asset	Role: Access Groups Enablement Privilege: View Asset (Data) Resource: CRM Asset
Cases	A Sales Analyst can delete case header a member of an access group associated to the case with delete access	Role: Access Groups Enablement Privilege: Delete Case Header (Data) Resource: Cases

Business Object	Policy Description	Policy Store Implementation
Cases	A Sales Analyst can update case header a member of an access group associated to the case with update access	Role: Access Groups Enablement Privilege: Update Case Header (Data) Resource: Cases
Cases	A Sales Analyst can view case header a member of an access group associated to the case	Role: Access Groups Enablement Privilege: View Case Header (Data) Resource: Cases
Classification Code File Import Activity	A Sales Analyst can view classification code file import activity object type for all classification code file import activities of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Activity Object Type (Data) Resource: Classification Code File Import Activity
Classification Code File Import Mapping	A Sales Analyst can view classification code file import mapping object type for all classification code file import mappings of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Mapping Object Type (Data) Resource: Classification Code File Import Mapping
Classification Code File Import Object	A Sales Analyst can view classification code file import object type for all classification code file import objects of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Object Type (Data) Resource: Classification Code File Import Object
Consumer File Import Activity	A Sales Analyst can view consumer file import activity object type for all consumer file import activities of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Activity Object Type (Data) Resource: Consumer File Import Activity
Consumer File Import Mapping	A Sales Analyst can view consumer file import mapping object type for all consumer file import mappings of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Mapping Object Type (Data) Resource: Consumer File Import Mapping

Business Object	Policy Description	Policy Store Implementation
Consumer File Import Object	A Sales Analyst can view consumer file import object type for all consumer file import objects of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Object Type (Data) Resource: Consumer File Import Object
Contact File Import Activity	A Sales Analyst can view contact file import activity object type for all contact file import activities of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Activity Object Type (Data) Resource: Contact File Import Activity
Contact File Import Mapping	A Sales Analyst can view contact file import mapping object type for all contact file import mappings of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Mapping Object Type (Data) Resource: Contact File Import Mapping
Contact File Import Object	A Sales Analyst can view contact file import object type for all contact file import objects of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Object Type (Data) Resource: Contact File Import Object
Conversation	A Sales Analyst can delete conversation a member of an access group associated to the conversation with delete access	Role: Access Groups Enablement Privilege: Delete Conversation (Data) Resource: Conversation
Conversation	A Sales Analyst can update conversation a member of an access group associated to the conversation with update access	Role: Access Groups Enablement Privilege: Update Conversation (Data) Resource: Conversation
Conversation	A Sales Analyst can view conversation a member of an access group associated to the conversation	Role: Access Groups Enablement Privilege: View Conversation (Data) Resource: Conversation
Conversation Message	A Sales Analyst can delete conversation message a member of an access group associated to the conversation message with delete access	Role: Access Groups Enablement Privilege: Delete Conversation Message (Data) Resource: Conversation Message

Business Object	Policy Description	Policy Store Implementation
Conversation Message	A Sales Analyst can update conversation message a member of an access group associated to the conversation message with update access	Role: Access Groups Enablement Privilege: Update Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Sales Analyst can view conversation message a member of an access group associated to the conversation message	Role: Access Groups Enablement Privilege: View Conversation Message (Data) Resource: Conversation Message
Customer File Import Activity	A Sales Analyst can view customer file import activity object type for all customer file import activities of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Activity Object Type (Data) Resource: Customer File Import Activity
Customer File Import Mapping	A Sales Analyst can view customer file import mapping object type for all customer file import mappings of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Mapping Object Type (Data) Resource: Customer File Import Mapping
Customer File Import Object	A Sales Analyst can view customer file import object type for all customer file import objects of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Object Type (Data) Resource: Customer File Import Object
Deal Registration Product	A Sales Analyst can manage deal registration product a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Product	A Sales Analyst can view deal registration product a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Summary	A Sales Analyst can update deal registration approval details a member of an access group associated to the deal registration with update or full access and deal is in pending approval status	Role: Access Groups Enablement Privilege: Update Deal Registration Approval Details (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Deal Registration Summary
Deal Registration Summary	A Sales Analyst can update deal registration deal details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Analyst can update deal registration deal details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Analyst can update deal registration opportunity details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Analyst can update deal registration opportunity details a member of an access group associated to the deal registration with update access and deal is in pending approval or approved status	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Analyst can update deal registration partner details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status and the deal is created by an internal user	Role: Access Groups Enablement Privilege: Update Deal Registration Partner Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Analyst can view deal registration a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration (Data) Resource: Deal Registration Summary
Deal Registration Team	A Sales Analyst can manage deal registration team a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Team (Data) Resource: Deal Registration Team
Deal Registration Team	A Sales Analyst can view deal registration team a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Team (Data) Resource: Deal Registration Team

Business Object	Policy Description	Policy Store Implementation
Express Report Definitions	A Sales Analyst can delete express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with delete access	Role: Access Groups Enablement Privilege: Delete Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Sales Analyst can update express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with update access	Role: Access Groups Enablement Privilege: Update Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Sales Analyst can view express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting	Role: Access Groups Enablement Privilege: View Express Report (Data) Resource: Express Report Definitions
Field Service Work Order	A Sales Analyst can delete field service work order a member of an access group associated to the field service work order with delete access	Role: Access Groups Enablement Privilege: Delete Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Analyst can update field service work order a member of an access group associated to the field service work order with update access	Role: Access Groups Enablement Privilege: Update Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Analyst can view field service work order a member of an access group associated to the field service work order	Role: Access Groups Enablement Privilege: View Field Service Work Order (Data) Resource: Field Service Work Order
File Import Activity	A Sales Analyst can view file import activity for all standard file import activities that are accessible for sales analyst	Role: Sales Analyst Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Activity	A Sales Analyst can view standard file import activity object type for all standard file import activities that are accessible for sales lead processing duty	Role: Sales Lead Processing Privilege: View Standard File Import Activity Object Type Resource: File Import Activity

Business Object	Policy Description	Policy Store Implementation
File Import Activity	A Sales Analyst can view standard file import activity object type for all standard file import activities that are accessible for trading community batch import management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Mapping	A Sales Analyst can view file import mapping for all standard file import maps that are accessible for sales analyst	Role: Sales Analyst Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
File Import Mapping	A Sales Analyst can view standard file import mapping object type for all standard file import maps that are accessible for sales lead processing duty	Role: Sales Lead Processing Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
File Import Mapping	A Sales Analyst can view standard file import mapping object type for all standard file import maps that are accessible for trading community batch import management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
Group Customer File Import Activity	A Sales Analyst can view group customer file import activity object type for all group customer file import activities of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Activity Object Type (Data) Resource: Group Customer File Import Activity
Group Customer File Import Mapping	A Sales Analyst can view group customer file import mapping object type for all group customer file import mappings of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Mapping Object Type (Data) Resource: Group Customer File Import Mapping
Group Customer File Import Object	A Sales Analyst can view group customer file import object type for all group customer file import objects of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Object Type (Data) Resource: Group Customer File Import Object

Business Object	Policy Description	Policy Store Implementation
Hierarchy File Import Activity	A Sales Analyst can view hierarchy file import activity object type for all hierarchy file import activities of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Activity Object Type (Data) Resource: Hierarchy File Import Activity
Hierarchy File Import Activity	A Sales Analyst can view standard file import activity object type for all standard file import activities that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: Hierarchy File Import Activity
Hierarchy File Import Mapping	A Sales Analyst can view hierarchy file import mapping object type for all hierarchy file import mappings of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Mapping Object Type (Data) Resource: Hierarchy File Import Mapping
Hierarchy File Import Mapping	A Sales Analyst can view standard file import mapping object type for all standard file import maps that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: Hierarchy File Import Mapping
Hierarchy File Import Object	A Sales Analyst can view hierarchy file import object type for all hierarchy file import objects of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Object Type (Data) Resource: Hierarchy File Import Object
Hierarchy Node File Import Activity	A Sales Analyst can view hierarchy node file import activity object type for all hierarchy node file import activities of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Activity Object Type (Data) Resource: Hierarchy Node File Import Activity
Hierarchy Node File Import Activity	A Sales Analyst can view standard file import activity object type for all standard file import activities that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: Hierarchy Node File Import Activity

Business Object	Policy Description	Policy Store Implementation
Hierarchy Node File Import Mapping	A Sales Analyst can view hierarchy node file import mapping object type for all hierarchy node file import mappings of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Mapping Object Type (Data) Resource: Hierarchy Node File Import Mapping
Hierarchy Node File Import Mapping	A Sales Analyst can view standard file import mapping object type for all standard file import maps that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: Hierarchy Node File Import Mapping
Hierarchy Node File Import Object	A Sales Analyst can view hierarchy node file import object type for all hierarchy node file import objects of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Object Type (Data) Resource: Hierarchy Node File Import Object
Legal Entity File Import Activity	A Sales Analyst can view legal entity file import activity object type for all legal entity file import activities of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Activity Object Type (Data) Resource: Legal Entity File Import Activity
Legal Entity File Import Mapping	A Sales Analyst can view legal entity file import mapping object type for all legal entity file import mappings of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Mapping Object Type (Data) Resource: Legal Entity File Import Mapping
Legal Entity File Import Object	A Sales Analyst can view legal entity file import object type for all legal entity file import objects of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Object Type (Data) Resource: Legal Entity File Import Object
MDF Budget	A Sales Analyst can delete marketing budget a member of an access group associated to the mdf budget with delete access and budget status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Budget (Data) Resource: MDF Budget

Business Object	Policy Description	Policy Store Implementation
MDF Budget	A Sales Analyst can update marketing budget a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget (Data) Resource: MDF Budget
MDF Budget	A Sales Analyst can view marketing budget a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget (Data) Resource: MDF Budget
MDF Budget Team	A Sales Analyst can delete marketing budget team a member of an access group associated to the mdf budget with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Sales Analyst can update marketing budget team a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Sales Analyst can view marketing budget team a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Claim	A Sales Analyst can delete marketing claim a member of an access group associated to the mdf claim with delete or full access and the claim status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Claim (Data) Resource: MDF Claim
MDF Claim	A Sales Analyst can update marketing claim approval details a member of an access group associated to the mdf claim with update or full access and the claim status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Claim Approval Details (Data) Resource: MDF Claim
MDF Claim	A Sales Analyst can update marketing claim details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Details (Data) Resource: MDF Claim
MDF Claim	A Sales Analyst can update marketing claim partner details a member of an access group associated to the mdf claim with update or full	Role: Access Groups Enablement Privilege: Update Marketing Claim Partner Details (Data)

Business Object	Policy Description	Policy Store Implementation
	access and the claim status is draft, returned, failed or withdrawn	Resource: MDF Claim
MDF Claim	A Sales Analyst can view marketing claim a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim (Data) Resource: MDF Claim
MDF Claim Settlement	A Sales Analyst can delete marketing claim settlement a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Sales Analyst can update marketing claim settlement a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Sales Analyst can update marketing claim settlement details a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement Details (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Sales Analyst can view marketing claim settlement a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Team	A Sales Analyst can delete marketing claim team a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Claim Team	A Sales Analyst can update marketing claim team a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Claim Team	A Sales Analyst can view marketing claim team a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim Team (Data) Resource: MDF Claim Team

Business Object	Policy Description	Policy Store Implementation
MDF Request	A Sales Analyst can delete marketing fund request a member of an access group associated to the mdf request with delete access and the request status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request (Data) Resource: MDF Request
MDF Request	A Sales Analyst can update marketing fund request approval details a member of an access group associated to the mdf request with update or full access and the request status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Approval Details (Data) Resource: MDF Request
MDF Request	A Sales Analyst can update marketing fund request details a member of an access group associated to the mdf request with update or full access and the request status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Details (Data) Resource: MDF Request
MDF Request	A Sales Analyst can update marketing fund request partner details a member of an access group associated to the mdf request with update or full access and request is in draft, returned, failed or withdrawn status and the request is created by an internal user	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Partner Details (Data) Resource: MDF Request
MDF Request	A Sales Analyst can view marketing fund request a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request (Data) Resource: MDF Request
MDF Request Team	A Sales Analyst can delete marketing fund request team a member of an access group associated to the mdf request with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request Team (Data) Resource: MDF Request Team
MDF Request Team	A Sales Analyst can update marketing fund request team a member of an access group associated to the mdf request with update access	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Team (Data) Resource: MDF Request Team
MDF Request Team	A Sales Analyst can view marketing fund request team a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request Team (Data) Resource: MDF Request Team

Business Object	Policy Description	Policy Store Implementation
Marketing Integration Campaign	A Sales Analyst can delete marketing integration campaign a member of an access group associated to the marketing integration campaign with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Marketing Integration Campaign	A Sales Analyst can update marketing integration campaign a member of an access group associated to the marketing integration campaign with update access	Role: Access Groups Enablement Privilege: Update Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Marketing Integration Campaign	A Sales Analyst can view marketing integration campaign a member of an access group associated to the marketing integration campaign	Role: Access Groups Enablement Privilege: View Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Note	A Sales Analyst can delete note a member of an access group associated to the note with delete access	Role: Access Groups Enablement Privilege: Delete Note (Data) Resource: Note
Note	A Sales Analyst can update note a member of an access group associated to the note with update access	Role: Access Groups Enablement Privilege: Update Note (Data) Resource: Note
Note	A Sales Analyst can view note a member of an access group associated to the note	Role: Access Groups Enablement Privilege: View Note (Data) Resource: Note
Opportunity	A Sales Analyst can manage opportunity general profile a member of an access group associated to the opportunity with update access	Role: Access Groups Enablement Privilege: Manage Opportunity General Profile (Data) Resource: Opportunity
Opportunity	A Sales Analyst can manage opportunity restricted profile a member of an access group associated to the opportunity with delete access	Role: Access Groups Enablement Privilege: Manage Opportunity Restricted Profile (Data) Resource: Opportunity

Business Object	Policy Description	Policy Store Implementation
Opportunity	A Sales Analyst can manage opportunity revenue a member of an access group associated to the opportunity with full access	Role: Access Groups Enablement Privilege: Manage Opportunity Revenue (Data) Resource: Opportunity
Opportunity	A Sales Analyst can manage opportunity team a member of an access group associated to the opportunity with full access	Role: Access Groups Enablement Privilege: Manage Opportunity Team (Data) Resource: Opportunity
Opportunity	A Sales Analyst can view opportunity a member of an access group associated to the opportunity	Role: Access Groups Enablement Privilege: View Opportunity (Data) Resource: Opportunity
Partner Profile	A Sales Analyst can manage partner account a member of an access group associated to the partner with update access	Role: Access Groups Enablement Privilege: Manage Partner Account (Data) Resource: Partner Profile
Partner Profile	A Sales Analyst can update partner account a member of an access group associated to the partner with update access	Role: Access Groups Enablement Privilege: Update Partner Account (Data) Resource: Partner Profile
Partner Program Enrollment	A Sales Analyst can manage partner program enrollment a member of an access group associated to the partner program enrollment with delete access	Role: Access Groups Enablement Privilege: Manage Partner Program Enrollment (Data) Resource: Partner Program Enrollment
Partner Program Enrollment	A Sales Analyst can manage partner program enrollment a member of an access group associated to the partner program enrollment with update access	Role: Access Groups Enablement Privilege: Manage Partner Program Enrollment (Data) Resource: Partner Program Enrollment
Partner Program Enrollment	A Sales Analyst can view partner program enrollment a member of an access group associated to the partner program enrollment	Role: Access Groups Enablement Privilege: View Partner Program Enrollment (Data) Resource: Partner Program Enrollment
Price Book	A Sales Analyst can delete price book a member of an access group associated to the price book with delete access	Role: Access Groups Enablement Privilege: Delete Price Book (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Price Book
Price Book	A Sales Analyst can update price book a member of an access group associated to the price book with update access	Role: Access Groups Enablement Privilege: Update Price Book (Data) Resource: Price Book
Price Book	A Sales Analyst can view price book a member of an access group associated to the price book	Role: Access Groups Enablement Privilege: View Price Book (Data) Resource: Price Book
Product Group	A Sales Analyst can delete product group a member of an access group associated to the product group with delete access	Role: Access Groups Enablement Privilege: Delete Product Group (Data) Resource: Product Group
Product Group	A Sales Analyst can update product group a member of an access group associated to the product group with update access	Role: Access Groups Enablement Privilege: Update Product Group (Data) Resource: Product Group
Product Group	A Sales Analyst can view product group a member of an access group associated to the product group	Role: Access Groups Enablement Privilege: View Product Group (Data) Resource: Product Group
Products	A Sales Analyst can delete product a member of an access group associated to the product with delete access	Role: Access Groups Enablement Privilege: Delete Product (Data) Resource: Products
Products	A Sales Analyst can update product a member of an access group associated to the product with update access	Role: Access Groups Enablement Privilege: Update Product (Data) Resource: Products
Products	A Sales Analyst can view product a member of an access group associated to the product	Role: Access Groups Enablement Privilege: View Product (Data) Resource: Products
Sales Business Plan	A Sales Analyst can delete sales business plan a member of an access group associated to the business plan with delete access	Role: Access Groups Enablement Privilege: Delete Sales Business Plan (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Sales Business Plan
Sales Business Plan	A Sales Analyst can update sales business plan general a member of an access group associated to the business plan with update access	Role: Access Groups Enablement Privilege: Update Sales Business Plan General (Data) Resource: Sales Business Plan
Sales Business Plan	A Sales Analyst can update sales business plan status a member of an access group associated to the business plan with full access	Role: Access Groups Enablement Privilege: Update Sales Business Plan Status (Data) Resource: Sales Business Plan
Sales Business Plan	A Sales Analyst can view sales business plan a member of an access group associated to the business plan	Role: Access Groups Enablement Privilege: View Sales Business Plan (Data) Resource: Sales Business Plan
Sales Business Plan Team	A Sales Analyst can manage sales business plan team a member of an access group associated to the business plan with full access	Role: Access Groups Enablement Privilege: Manage Sales Business Plan Team (Data) Resource: Sales Business Plan Team
Sales Competitor	A Sales Analyst can manage sales competitor a member of an access group associated to the sales competitor with update access	Role: Access Groups Enablement Privilege: Manage Sales Competitor (Data) Resource: Sales Competitor
Sales Competitor	A Sales Analyst can view sales competitor a member of an access group associated to the sales competitor	Role: Access Groups Enablement Privilege: View Sales Competitor (Data) Resource: Sales Competitor
Sales Contests	A Sales Analyst can delete sales contest a member of an access group associated to the contest with delete access	Role: Access Groups Enablement Privilege: Delete Sales Contest (Data) Resource: Sales Contests
Sales Contests	A Sales Analyst can update sales contest a member of an access group associated to the contest with update access	Role: Access Groups Enablement Privilege: Update Sales Contest (Data) Resource: Sales Contests

Business Object	Policy Description	Policy Store Implementation
Sales Contests	A Sales Analyst can view sales contest a member of an access group associated to the contest	Role: Access Groups Enablement Privilege: View Sales Contest (Data) Resource: Sales Contests
Sales Forecast	A Sales Analyst can delete sales forecast participants a member of an access group associated to the sales forecast with delete access	Role: Access Groups Enablement Privilege: Delete Sales Forecast Participants (Data) Resource: Sales Forecast
Sales Forecast	A Sales Analyst can update sales forecast participants a member of an access group associated to the sales forecast with update access	Role: Access Groups Enablement Privilege: Update Sales Forecast Participants (Data) Resource: Sales Forecast
Sales Forecast	A Sales Analyst can view sales forecast participants a member of an access group associated to the sales forecast with read access	Role: Access Groups Enablement Privilege: View Sales Forecast Participants (Data) Resource: Sales Forecast
Sales Forecast Item	A Sales Analyst can manage sales forecast item a member of an access group associated to the territory forecast with full access	Role: Access Groups Enablement Privilege: Manage Sales Forecast Item (Data) Resource: Sales Forecast Item
Sales Forecast Participant	A Sales Analyst can manage sales forecast participant a member of an access group associated to the territory forecast with full access	Role: Access Groups Enablement Privilege: Manage Sales Forecast Participant (Data) Resource: Sales Forecast Participant
Sales Goal Participants	A Sales Analyst can delete sales goal participants a member of an access group associated to the goal participant with delete access	Role: Access Groups Enablement Privilege: Delete Sales Goal Participants (Data) Resource: Sales Goal Participants
Sales Goal Participants	A Sales Analyst can update sales goal participants a member of an access group associated to the goal participant with update access	Role: Access Groups Enablement Privilege: Update Sales Goal Participants (Data) Resource: Sales Goal Participants
Sales Goal Participants	A Sales Analyst can view sales goal participants a member of an access group associated to the goal participant	Role: Access Groups Enablement Privilege: View Sales Goal Participants (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Sales Goal Participants

Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Unit Of Measure Conversion List of Values by Web Service	Allow viewing unit of measure conversion list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Units Of Measure List of Values by Web Service	Allow viewing units of measure list of values by web service.
Trading Community Data Quality Administration	Configures, reviews, and edits predefined data quality server configurations and the predefined matching, synchronization, and cleansing configurations.	Manage Enterprise Data Quality Cleansing Configurations	Allows management of cleansing configurations associated with Oracle Enterprise Data Quality integration.
Trading Community Data Quality Administration	Configures, reviews, and edits predefined data quality server configurations and the predefined matching, synchronization, and cleansing configurations.	Manage Enterprise Data Quality Key Generation	Allows management of key generation associated with Oracle Enterprise Data Quality matching.
Trading Community Data Quality Administration	Configures, reviews, and edits predefined data quality server configurations and the predefined matching, synchronization, and cleansing configurations.	Manage Enterprise Data Quality Matching Configurations	Allows management of matching configurations associated with Oracle Enterprise Data Quality integration.
Trading Community Data Quality Administration	Configures, reviews, and edits predefined data quality server configurations and the predefined matching, synchronization, and cleansing configurations.	Manage Trading Community Data Quality Cleansing Setup	Allows reviewing and updating of configurations for real-time and batch address cleansing.
Trading Community Data Quality Administration	Configures, reviews, and edits predefined data quality server configurations and the predefined matching, synchronization, and cleansing configurations.	Manage Trading Community Data Quality Lookups	Allows reviewing and defining of the lookup values that provide choices for data matching and address cleansing, such as entities supported for matching and cleansing, cleansing modes, and match options.
Trading Community Data Quality Administration	Configures, reviews, and edits predefined data quality server configurations and the predefined matching, synchronization, and cleansing configurations.	Manage Trading Community Data Quality Matching Setup	Allows the reviewing and updating of matching configurations for both real-time and batch usages.

Granted Role	Granted Role Description	Privilege	Privilege Description
Trading Community Data Quality Administration	Configures, reviews, and edits predefined data quality server configurations and the predefined matching, synchronization, and cleansing configurations.	Manage Trading Community Data Quality Server Setup	Allows configuration of the data quality server to be used for both matching and cleansing data quality functions.
Trading Community Data Quality Administration	Configures, reviews, and edits predefined data quality server configurations and the predefined matching, synchronization, and cleansing configurations.	Manage Trading Community Data Quality Synchronization	Allows the review and update of data synchronization configuration, to synchronize trading community registry data with the data quality engine repository. Allows to view the latest synchronization results, evaluate errors, and reset for continued processing after resolving error conditions.
Trading Community Data Quality Administration	Configures, reviews, and edits predefined data quality server configurations and the predefined matching, synchronization, and cleansing configurations.	Run Trading Community Data Quality Data Synchronization Process	Allows scheduling and monitoring of the process to synchronize trading community registry data with the data quality engine repository.
Trading Community Data Quality Administration	Configures, reviews, and edits predefined data quality server configurations and the predefined matching, synchronization, and cleansing configurations.	Run Trading Community Data Quality Data Synchronization Sub-Process	Allows monitoring of the data quality synchronization sub-process that synchronizes trading community registry data with the data quality engine repository for a specific identity table. If assigning, also assign the ability to schedule and monitor the trading community data quality data synchronization process.
Trading Community Import Batch Management	Manages trading community data import batches.	Enter Trading Community Import Batch Information	Allows the creation of a trading community data import batch by entering batch definition parameters through user interface. If assigning, also assign the ability to view the trading community import batch information.
Trading Community Import Batch Management	Manages trading community data import batches.	Enter Trading Community Import Batch Process Information	Allows the specification of trading community import batch process information, such as the import process mode, the batch and registry deduplication parameters, address cleansing parameters, and acceptable error limit.
Trading Community Import Batch Management	Manages trading community data import batches.	Purge Trading Community Import Batch	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	Run Trading Community Import Batch Error Report	Not Available

Granted Role	Granted Role Description	Privilege	Privilege Description
Trading Community Import Batch Management	Manages trading community data import batches.	Run Trading Community Import Batch Process	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	View Trading Community Import Batch Details and Statistics	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	View Trading Community Import Batch Errors and Details	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	View Trading Community Import Batch Information	Not Available
View Item Redwood	Allows users to view item details.	Get Failure Condition Event Codes	Allow the query of asset failure condition event code using a service.
View Item Redwood	Allows users to view item details.	Get Item Attribute Control REST	Allows access to view operational attribute controls for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Get Item Lifecycle Phases Read Rest	Allows access to view Item Lifecycle Phases for a single item and attributes for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Get Item Status REST	Allows access to view item statuses for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Get Template REST	Allows access to view templates for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Manage Material Planner	Allows definition and maintenance of material planners.
View Item Redwood	Allows users to view item details.	Manage Subscription Setup	Manage subscription setup
View Item Redwood	Allows users to view item details.	Set Up Receivables Payment Terms	Create payment terms to specify the due dates, discount dates, and installment details for customer open items.
View Item Redwood	Allows users to view item details.	View Procurement Buyers List of Values using REST Service	Allows access to REST services list of values for buyers that will be consumed cross pillars.

Granted Role	Granted Role Description	Privilege	Privilege Description
View Item Redwood	Allows users to view item details.	View Purchasing Hazard Classes List of Values using REST Service	Allows access to REST services list of values for hazard classes that will be consumed cross pillars.
View Item Redwood	Allows users to view item details.	View Purchasing UN Numbers List of Values using REST Service	Allows access to REST services list of values for UN numbers that will be consumed cross pillars.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Sales Lead Qualifier job role.

Business Object	Policy Description	Policy Store Implementation
Activity	A Sales Lead Qualifier can delete activity a member of an access group associated to the activity with delete access	Role: Access Groups Enablement Privilege: Delete Activity (Data) Resource: Activity
Activity	A Sales Lead Qualifier can delete activity where they are either the owner or a delegator of an activity.	Role: Sales Lead Qualifier Privilege: Delete Activity (Data) Resource: Activity
Activity	A Sales Lead Qualifier can update activity a member of an access group associated to the activity with update access	Role: Access Groups Enablement Privilege: Update Activity (Data) Resource: Activity
Activity	A Sales Lead Qualifier can update activity where they are either a resource or a delegator of a task or an owner or a delegator of an appointment or an owner or a delegator of a call report activity.	Role: Sales Lead Qualifier Privilege: Update Activity (Data) Resource: Activity
Activity	A Sales Lead Qualifier can view activity a member of an access group associated to the activity	Role: Access Groups Enablement Privilege: View Activity (Data) Resource: Activity
Activity	A Sales Lead Qualifier can view activity where they are either a resource or a delegator of an activity.	Role: Sales Lead Qualifier Privilege: View Activity (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Activity
Application Attachment	A Sales Lead Qualifier can delete application attachment for all application attachments of categories including sales lead document and miscellaneous	Role: Sales Lead Qualifier Privilege: Delete Application Attachment Resource: Application Attachment
Application Attachment	A Sales Lead Qualifier can read application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Contract View Access Across All Contracts Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment	A Sales Lead Qualifier can update application attachment for all application attachments of categories including sales lead document and miscellaneous	Role: Sales Lead Qualifier Privilege: Update Application Attachment Resource: Application Attachment
Application Attachment	A Sales Lead Qualifier can view application attachment for all application attachments of categories including sales lead document and miscellaneous	Role: Sales Lead Qualifier Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment	A Sales Lead Qualifier can view application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Sales Lead Qualifier Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment Category	A Sales Lead Qualifier can delete application attachment category for all miscelleneous category attachments data	Role: Sales Lead Qualifier Privilege: Delete Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Lead Qualifier can update application attachment category for all miscelleneous category attachments data	Role: Sales Lead Qualifier Privilege: Update Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Lead Qualifier can view application attachment category for all miscelleneous category attachments data	Role: Sales Lead Qualifier Privilege: Read Application Attachment Resource: Application Attachment Category

Business Object	Policy Description	Policy Store Implementation
Asset Export Object	A Sales Lead Qualifier can view asset export object for all asset export objects in the enterprise	Role: Marketing Sales Party Management Privilege: View Asset Export Object (Data) Resource: Asset Export Object
Asset Export Object	A Sales Lead Qualifier can view asset export object for all asset export objects in the enterprise	Role: Sales Party Management Privilege: View Asset Export Object (Data) Resource: Asset Export Object
Asset Export Object	A Sales Lead Qualifier can view asset export object for all asset export objects in the enterprise	Role: Sales Party Review Privilege: View Asset Export Object (Data) Resource: Asset Export Object
CRM Asset	A Sales Lead Qualifier can delete asset a member of an access group associated to the asset with delete access	Role: Access Groups Enablement Privilege: Delete Asset (Data) Resource: CRM Asset
CRM Asset	A Sales Lead Qualifier can update asset a member of an access group associated to the asset with update access	Role: Access Groups Enablement Privilege: Update Asset (Data) Resource: CRM Asset
CRM Asset	A Sales Lead Qualifier can view asset a member of an access group associated to the asset	Role: Access Groups Enablement Privilege: View Asset (Data) Resource: CRM Asset
Cases	A Sales Lead Qualifier can delete case header a member of an access group associated to the case with delete access	Role: Access Groups Enablement Privilege: Delete Case Header (Data) Resource: Cases
Cases	A Sales Lead Qualifier can update case header a member of an access group associated to the case with update access	Role: Access Groups Enablement Privilege: Update Case Header (Data) Resource: Cases
Cases	A Sales Lead Qualifier can view case header a member of an access group associated to the case	Role: Access Groups Enablement Privilege: View Case Header (Data) Resource: Cases

Business Object	Policy Description	Policy Store Implementation
Classification Code File Import Activity	A Sales Lead Qualifier can view classification code file import activity object type for all classification code file import activities of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Activity Object Type (Data) Resource: Classification Code File Import Activity
Classification Code File Import Mapping	A Sales Lead Qualifier can view classification code file import mapping object type for all classification code file import mappings of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Mapping Object Type (Data) Resource: Classification Code File Import Mapping
Classification Code File Import Object	A Sales Lead Qualifier can view classification code file import object type for all classification code file import objects of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Object Type (Data) Resource: Classification Code File Import Object
Consumer File Import Activity	A Sales Lead Qualifier can view consumer file import activity object type for all consumer file import activities of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Activity Object Type (Data) Resource: Consumer File Import Activity
Consumer File Import Mapping	A Sales Lead Qualifier can view consumer file import mapping object type for all consumer file import mappings of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Mapping Object Type (Data) Resource: Consumer File Import Mapping
Consumer File Import Object	A Sales Lead Qualifier can view consumer file import object type for all consumer file import objects of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Object Type (Data) Resource: Consumer File Import Object
Contact File Import Activity	A Sales Lead Qualifier can view contact file import activity object type for all contact file import activities of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Activity Object Type (Data) Resource: Contact File Import Activity

Business Object	Policy Description	Policy Store Implementation
Contact File Import Mapping	A Sales Lead Qualifier can view contact file import mapping object type for all contact file import mappings of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Mapping Object Type (Data) Resource: Contact File Import Mapping
Contact File Import Object	A Sales Lead Qualifier can view contact file import object type for all contact file import objects of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Object Type (Data) Resource: Contact File Import Object
Contract	A Sales Lead Qualifier can view contract for all business units	Role: Contract View Access Across All Contracts Privilege: View Contract (Data) Resource: Contract
Contract	A Sales Lead Qualifier can view contract for all business units	Role: Sales Lead Qualifier Privilege: View Contract (Data) Resource: Contract
Contract Note	A Sales Lead Qualifier can view contract note for notes that are not private or private notes where they are the author.	Role: Contract View Access Across All Contracts Privilege: View Contract Note (Data) Resource: Contract Note
Conversation	A Sales Lead Qualifier can delete conversation a member of an access group associated to the conversation with delete access	Role: Access Groups Enablement Privilege: Delete Conversation (Data) Resource: Conversation
Conversation	A Sales Lead Qualifier can update conversation a member of an access group associated to the conversation with update access	Role: Access Groups Enablement Privilege: Update Conversation (Data) Resource: Conversation
Conversation	A Sales Lead Qualifier can view conversation a member of an access group associated to the conversation	Role: Access Groups Enablement Privilege: View Conversation (Data) Resource: Conversation

Business Object	Policy Description	Policy Store Implementation
Conversation Message	A Sales Lead Qualifier can delete conversation message a member of an access group associated to the conversation message with delete access	Role: Access Groups Enablement Privilege: Delete Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Sales Lead Qualifier can update conversation message a member of an access group associated to the conversation message with update access	Role: Access Groups Enablement Privilege: Update Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Sales Lead Qualifier can view conversation message a member of an access group associated to the conversation message	Role: Access Groups Enablement Privilege: View Conversation Message (Data) Resource: Conversation Message
Customer File Import Activity	A Sales Lead Qualifier can view customer file import activity object type for all customer file import activities of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Activity Object Type (Data) Resource: Customer File Import Activity
Customer File Import Mapping	A Sales Lead Qualifier can view customer file import mapping object type for all customer file import mappings of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Mapping Object Type (Data) Resource: Customer File Import Mapping
Customer File Import Object	A Sales Lead Qualifier can view customer file import object type for all customer file import objects of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Object Type (Data) Resource: Customer File Import Object
Deal Registration Product	A Sales Lead Qualifier can manage deal registration product a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Product	A Sales Lead Qualifier can view deal registration product a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Product (Data) Resource: Deal Registration Product

Business Object	Policy Description	Policy Store Implementation
Deal Registration Summary	A Sales Lead Qualifier can update deal registration approval details a member of an access group associated to the deal registration with update or full access and deal is in pending approval status	Role: Access Groups Enablement Privilege: Update Deal Registration Approval Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Lead Qualifier can update deal registration deal details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Lead Qualifier can update deal registration deal details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Lead Qualifier can update deal registration opportunity details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Lead Qualifier can update deal registration opportunity details a member of an access group associated to the deal registration with update access and deal is in pending approval or approved status	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Lead Qualifier can update deal registration partner details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status and the deal is created by an internal user	Role: Access Groups Enablement Privilege: Update Deal Registration Partner Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Lead Qualifier can view deal registration a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration (Data) Resource: Deal Registration Summary
Deal Registration Team	A Sales Lead Qualifier can manage deal registration team a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Team (Data) Resource: Deal Registration Team

Business Object	Policy Description	Policy Store Implementation
Deal Registration Team	A Sales Lead Qualifier can view deal registration team a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Team (Data) Resource: Deal Registration Team
Express Report Definitions	A Sales Lead Qualifier can delete express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with delete access	Role: Access Groups Enablement Privilege: Delete Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Sales Lead Qualifier can update express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with update access	Role: Access Groups Enablement Privilege: Update Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Sales Lead Qualifier can view express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting	Role: Access Groups Enablement Privilege: View Express Report (Data) Resource: Express Report Definitions
Field Service Work Order	A Sales Lead Qualifier can delete field service work order a member of an access group associated to the field service work order with delete access	Role: Access Groups Enablement Privilege: Delete Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Lead Qualifier can update field service work order a member of an access group associated to the field service work order with update access	Role: Access Groups Enablement Privilege: Update Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Lead Qualifier can view field service work order a member of an access group associated to the field service work order	Role: Access Groups Enablement Privilege: View Field Service Work Order (Data) Resource: Field Service Work Order
File Export Batch	A Sales Lead Qualifier can view file export batch for all export batches	Role: Marketing Sales Party Management Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Batch	A Sales Lead Qualifier can view file export batch for all export batches	Role: Sales Lead Qualifier Privilege: View File Export Batch (Data) Resource: File Export Batch

Business Object	Policy Description	Policy Store Implementation
File Export Batch	A Sales Lead Qualifier can view file export batch for all export batches	Role: Sales Party Management Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Batch	A Sales Lead Qualifier can view file export batch for all export batches	Role: Sales Party Review Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Object	A Sales Lead Qualifier can manage file export object for all export unit test objects	Role: Sales Lead Qualifier Privilege: Manage Export Unit Test (Data) Resource: File Export Object
File Import Activity	A Sales Lead Qualifier can view standard file import activity object type for all standard file import activities that are accessible for trading community batch import management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Mapping	A Sales Lead Qualifier can view standard file import mapping object type for all standard file import maps that are accessible for trading community batch import management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
Group Customer File Import Activity	A Sales Lead Qualifier can view group customer file import activity object type for all group customer file import activities of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Activity Object Type (Data) Resource: Group Customer File Import Activity
Group Customer File Import Mapping	A Sales Lead Qualifier can view group customer file import mapping object type for all group customer file import mappings of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Mapping Object Type (Data) Resource: Group Customer File Import Mapping
Group Customer File Import Object	A Sales Lead Qualifier can view group customer file import object type for all group customer file import objects of object type 'group customer'	Role: Trading Community Import Batch Management

Business Object	Policy Description	Policy Store Implementation
		Privilege: View Group Customer File Import Object Type (Data) Resource: Group Customer File Import Object
Hierarchy File Import Activity	A Sales Lead Qualifier can view hierarchy file import activity object type for all hierarchy file import activities of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Activity Object Type (Data) Resource: Hierarchy File Import Activity
Hierarchy File Import Activity	A Sales Lead Qualifier can view standard file import activity object type for all standard file import activities that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: Hierarchy File Import Activity
Hierarchy File Import Mapping	A Sales Lead Qualifier can view hierarchy file import mapping object type for all hierarchy file import mappings of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Mapping Object Type (Data) Resource: Hierarchy File Import Mapping
Hierarchy File Import Mapping	A Sales Lead Qualifier can view standard file import mapping object type for all standard file import maps that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: Hierarchy File Import Mapping
Hierarchy File Import Object	A Sales Lead Qualifier can view hierarchy file import object type for all hierarchy file import objects of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Object Type (Data) Resource: Hierarchy File Import Object
Hierarchy Node File Import Activity	A Sales Lead Qualifier can view hierarchy node file import activity object type for all hierarchy node file import activities of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Activity Object Type (Data) Resource: Hierarchy Node File Import Activity
Hierarchy Node File Import Activity	A Sales Lead Qualifier can view standard file import activity object type for all standard file	Role: Trading Community Import Batch Management

Business Object	Policy Description	Policy Store Implementation
	import activities that are accessible for trading community import batch management duty	Privilege: View Standard File Import Activity Object Type Resource: Hierarchy Node File Import Activity
Hierarchy Node File Import Mapping	A Sales Lead Qualifier can view hierarchy node file import mapping object type for all hierarchy node file import mappings of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Mapping Object Type (Data) Resource: Hierarchy Node File Import Mapping
Hierarchy Node File Import Mapping	A Sales Lead Qualifier can view standard file import mapping object type for all standard file import maps that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: Hierarchy Node File Import Mapping
Hierarchy Node File Import Object	A Sales Lead Qualifier can view hierarchy node file import object type for all hierarchy node file import objects of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Object Type (Data) Resource: Hierarchy Node File Import Object
Legal Entity File Import Activity	A Sales Lead Qualifier can view legal entity file import activity object type for all legal entity file import activities of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Activity Object Type (Data) Resource: Legal Entity File Import Activity
Legal Entity File Import Mapping	A Sales Lead Qualifier can view legal entity file import mapping object type for all legal entity file import mappings of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Mapping Object Type (Data) Resource: Legal Entity File Import Mapping
Legal Entity File Import Object	A Sales Lead Qualifier can view legal entity file import object type for all legal entity file import objects of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Object Type (Data) Resource: Legal Entity File Import Object
MDF Budget	A Sales Lead Qualifier can delete marketing budget a member of an access group	Role: Access Groups Enablement Privilege: Delete Marketing Budget (Data)

Business Object	Policy Description	Policy Store Implementation
	associated to the mdf budget with delete access and budget status is draft	Resource: MDF Budget
MDF Budget	A Sales Lead Qualifier can update marketing budget a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget (Data) Resource: MDF Budget
MDF Budget	A Sales Lead Qualifier can view marketing budget a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget (Data) Resource: MDF Budget
MDF Budget Team	A Sales Lead Qualifier can delete marketing budget team a member of an access group associated to the mdf budget with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Sales Lead Qualifier can update marketing budget team a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Sales Lead Qualifier can view marketing budget team a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Claim	A Sales Lead Qualifier can delete marketing claim a member of an access group associated to the mdf claim with delete or full access and the claim status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Claim (Data) Resource: MDF Claim
MDF Claim	A Sales Lead Qualifier can update marketing claim approval details a member of an access group associated to the mdf claim with update or full access and the claim status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Claim Approval Details (Data) Resource: MDF Claim
MDF Claim	A Sales Lead Qualifier can update marketing claim details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Details (Data) Resource: MDF Claim

Business Object	Policy Description	Policy Store Implementation
MDF Claim	A Sales Lead Qualifier can update marketing claim partner details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Partner Details (Data) Resource: MDF Claim
MDF Claim	A Sales Lead Qualifier can view marketing claim a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim (Data) Resource: MDF Claim
MDF Claim Settlement	A Sales Lead Qualifier can delete marketing claim settlement a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Sales Lead Qualifier can update marketing claim settlement a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Sales Lead Qualifier can update marketing claim settlement details a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement Details (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Sales Lead Qualifier can view marketing claim settlement a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Team	A Sales Lead Qualifier can delete marketing claim team a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Claim Team	A Sales Lead Qualifier can update marketing claim team a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Team (Data) Resource: MDF Claim Team

Business Object	Policy Description	Policy Store Implementation
MDF Claim Team	A Sales Lead Qualifier can view marketing claim team a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Request	A Sales Lead Qualifier can delete marketing fund request a member of an access group associated to the mdf request with delete access and the request status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request (Data) Resource: MDF Request
MDF Request	A Sales Lead Qualifier can update marketing fund request approval details a member of an access group associated to the mdf request with update or full access and the request status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Approval Details (Data) Resource: MDF Request
MDF Request	A Sales Lead Qualifier can update marketing fund request details a member of an access group associated to the mdf request with update or full access and the request status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Details (Data) Resource: MDF Request
MDF Request	A Sales Lead Qualifier can update marketing fund request partner details a member of an access group associated to the mdf request with update or full access and request is in draft, returned, failed or withdrawn status and the request is created by an internal user	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Partner Details (Data) Resource: MDF Request
MDF Request	A Sales Lead Qualifier can view marketing fund request a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request (Data) Resource: MDF Request
MDF Request Team	A Sales Lead Qualifier can delete marketing fund request team a member of an access group associated to the mdf request with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request Team (Data) Resource: MDF Request Team
MDF Request Team	A Sales Lead Qualifier can update marketing fund request team a member of an access group associated to the mdf request with update access	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Team (Data) Resource: MDF Request Team

Business Object	Policy Description	Policy Store Implementation
MDF Request Team	A Sales Lead Qualifier can view marketing fund request team a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request Team (Data) Resource: MDF Request Team
Marketing Campaign	A Sales Lead Qualifier can view marketing campaign for all marketing campaigns in the enterprise	Role: Sales Lead Qualifier Privilege: View Marketing Campaign (Data) Resource: Marketing Campaign
Marketing Integration Campaign	A Sales Lead Qualifier can delete marketing integration campaign a member of an access group associated to the marketing integration campaign with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Marketing Integration Campaign	A Sales Lead Qualifier can update marketing integration campaign a member of an access group associated to the marketing integration campaign with update access	Role: Access Groups Enablement Privilege: Update Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Marketing Integration Campaign	A Sales Lead Qualifier can view marketing integration campaign a member of an access group associated to the marketing integration campaign	Role: Access Groups Enablement Privilege: View Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Note	A Sales Lead Qualifier can delete note a member of an access group associated to the note with delete access	Role: Access Groups Enablement Privilege: Delete Note (Data) Resource: Note
Note	A Sales Lead Qualifier can update note a member of an access group associated to the note with update access	Role: Access Groups Enablement Privilege: Update Note (Data) Resource: Note
Note	A Sales Lead Qualifier can view note a member of an access group associated to the note	Role: Access Groups Enablement Privilege: View Note (Data) Resource: Note
Opportunity	A Sales Lead Qualifier can manage opportunity general profile a member of an access group	Role: Access Groups Enablement

Business Object	Policy Description	Policy Store Implementation
	associated to the opportunity with update access	Privilege: Manage Opportunity General Profile (Data) Resource: Opportunity
Opportunity	A Sales Lead Qualifier can manage opportunity restricted profile a member of an access group associated to the opportunity with delete access	Role: Access Groups Enablement Privilege: Manage Opportunity Restricted Profile (Data) Resource: Opportunity
Opportunity	A Sales Lead Qualifier can manage opportunity revenue a member of an access group associated to the opportunity with full access	Role: Access Groups Enablement Privilege: Manage Opportunity Revenue (Data) Resource: Opportunity
Opportunity	A Sales Lead Qualifier can manage opportunity team a member of an access group associated to the opportunity with full access	Role: Access Groups Enablement Privilege: Manage Opportunity Team (Data) Resource: Opportunity
Opportunity	A Sales Lead Qualifier can view opportunity a member of an access group associated to the opportunity	Role: Access Groups Enablement Privilege: View Opportunity (Data) Resource: Opportunity
Partner Profile	A Sales Lead Qualifier can manage partner account a member of an access group associated to the partner with update access	Role: Access Groups Enablement Privilege: Manage Partner Account (Data) Resource: Partner Profile
Partner Profile	A Sales Lead Qualifier can update partner account a member of an access group associated to the partner with update access	Role: Access Groups Enablement Privilege: Update Partner Account (Data) Resource: Partner Profile
Partner Program Enrollment	A Sales Lead Qualifier can manage partner program enrollment a member of an access group associated to the partner program enrollment with delete access	Role: Access Groups Enablement Privilege: Manage Partner Program Enrollment (Data) Resource: Partner Program Enrollment
Partner Program Enrollment	A Sales Lead Qualifier can manage partner program enrollment a member of an access group associated to the partner program enrollment with update access	Role: Access Groups Enablement Privilege: Manage Partner Program Enrollment (Data) Resource: Partner Program Enrollment

Business Object	Policy Description	Policy Store Implementation
Partner Program Enrollment	A Sales Lead Qualifier can view partner program enrollment a member of an access group associated to the partner program enrollment	Role: Access Groups Enablement Privilege: View Partner Program Enrollment (Data) Resource: Partner Program Enrollment
Price Book	A Sales Lead Qualifier can delete price book a member of an access group associated to the price book with delete access	Role: Access Groups Enablement Privilege: Delete Price Book (Data) Resource: Price Book
Price Book	A Sales Lead Qualifier can update price book a member of an access group associated to the price book with update access	Role: Access Groups Enablement Privilege: Update Price Book (Data) Resource: Price Book
Price Book	A Sales Lead Qualifier can view price book a member of an access group associated to the price book	Role: Access Groups Enablement Privilege: View Price Book (Data) Resource: Price Book
Product Group	A Sales Lead Qualifier can delete product group a member of an access group associated to the product group with delete access	Role: Access Groups Enablement Privilege: Delete Product Group (Data) Resource: Product Group
Product Group	A Sales Lead Qualifier can update product group a member of an access group associated to the product group with update access	Role: Access Groups Enablement Privilege: Update Product Group (Data) Resource: Product Group
Product Group	A Sales Lead Qualifier can view product group a member of an access group associated to the product group	Role: Access Groups Enablement Privilege: View Product Group (Data) Resource: Product Group
Products	A Sales Lead Qualifier can delete product a member of an access group associated to the product with delete access	Role: Access Groups Enablement Privilege: Delete Product (Data) Resource: Products
Products	A Sales Lead Qualifier can update product a member of an access group associated to the product with update access	Role: Access Groups Enablement Privilege: Update Product (Data)

Business Object	Policy Description	Policy Store Implementation

Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing	View Unit Of Measure Conversion List of Values by Web Service	Allow viewing unit of measure conversion list of values by web service.

Granted Role	Granted Role Description	Privilege	Privilege Description
	inventory organizations, plant parameters, carriers and units of measure list of values.		
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Units Of Measure List of Values by Web Service	Allow viewing units of measure list of values by web service.
Territory Management	Manages sales territories, territory proposals, and quotas.	Manage Sales Territory	Allows managing of sales territories. A Territory is the jurisdiction of responsibility of a sales representative over a set of sales accounts.
Territory Management	Manages sales territories, territory proposals, and quotas.	Manage Sales Territory Account Exclusions	Allows excluding individual accounts from the territory definition, on exception basis.
Territory Management	Manages sales territories, territory proposals, and quotas.	Manage Sales Territory Account Inclusions	Allows including individual accounts into the territory definition, on exception basis.
Territory Management	Manages sales territories, territory proposals, and quotas.	Manage Sales Territory Proposal	Allows managing of sales territory proposals, for example proposal name, description, and activation date.
Territory Management	Manages sales territories, territory proposals, and quotas.	Manage Territories Work Area	This work area is the landing page for accessing the frequently used tasks and reports useful for managing sales territories.
Territory Management	Manages sales territories, territory proposals, and quotas.	Run Territory Inheritance Recipient Update Job	Allows scheduling and monitoring of the process of updating the inherited dimensionality of recipient territories.
Territory Management	Manages sales territories, territory proposals, and quotas.	Run Territory Proposal Activation Job	Allows scheduling and monitoring of the process of activating sales territory proposals.
Territory Management	Manages sales territories, territory proposals, and quotas.	Run Territory Restore Job	Allows initiating the process of restoring territory definitions.
Territory Management	Manages sales territories, territory proposals, and quotas.	Run Territory Validation Job	Allows initiating the territory validation process.
Territory Management	Manages sales territories, territory proposals, and quotas.	View Sales Territory	Allows viewing of sales territories. A Territory is the jurisdiction

Granted Role	Granted Role Description	Privilege	Privilege Description
			of responsibility of a sales representative over a set of sales accounts.
Territory Management	Manages sales territories, territory proposals, and quotas.	View Sales Territory Proposal	Allows viewing of sales territory proposals, for example proposal name, description, and activation date.
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Export Sales Territory	Allows initiating the process of exporting territory definitions for offline review and editing.
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Import Sales Territory	Allows initiating the process of importing territory definitions that have been edited offline.
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Run CRM Export Process	This privilege would grant a user the ability to schedule CRM object to export to a file
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Run File Import Scheduler	Allows scheduling and monitoring the process that schedules file import activities.
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Run Import Territory Definitions Job	Allows importing of territories and related standard objects.
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Run Import Territory Extended Definitions Job	Allows importing of top level territory custom objects.
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Set Up CRM Objects for Export	This privilege would grant a user the ability to register CRM objects for Export
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Set Up File Import Activity	Allows creating and maintaining import activities that contain process criteria, file mapping, and schedule to import external files containing business objects, such as customers and contacts, into staging tables.

Granted Role	Granted Role Description	Privilege	Privilege Description
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	View Sales Territory Export Status	Allows viewing the status of territory export processes.
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	View Sales Territory Import Status	Allows viewing the status of territory import processes.
Trading Community Import Batch Management	Manages trading community data import batches.	Enter Trading Community Import Batch Information	Allows the creation of a trading community data import batch by entering batch definition parameters through user interface. If assigning, also assign the ability to view the trading community import batch information.
Trading Community Import Batch Management	Manages trading community data import batches.	Enter Trading Community Import Batch Process Information	Allows the specification of trading community import batch process information, such as the import process mode, the batch and registry deduplication parameters, address cleansing parameters, and acceptable error limit.
Trading Community Import Batch Management	Manages trading community data import batches.	Purge Trading Community Import Batch	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	Run Trading Community Import Batch Error Report	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	Run Trading Community Import Batch Process	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	View Trading Community Import Batch Details and Statistics	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	View Trading Community Import Batch Errors and Details	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	View Trading Community Import Batch Information	Not Available
View Item Redwood	Allows users to view item details.	Get Failure Condition Event Codes	Allow the query of asset failure condition event code using a service.
View Item Redwood	Allows users to view item details.	Get Item Attribute Control REST	Allows access to view operational attribute controls for which the

Granted Role	Granted Role Description	Privilege	Privilege Description
			user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Get Item Lifecycle Phases Read Rest	Allows access to view Item Lifecycle Phases for a single item and attributes for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Get Item Status REST	Allows access to view item statuses for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Get Template REST	Allows access to view templates for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Manage Material Planner	Allows definition and maintenance of material planners.
View Item Redwood	Allows users to view item details.	Manage Subscription Setup	Manage subscription setup
View Item Redwood	Allows users to view item details.	Set Up Receivables Payment Terms	Create payment terms to specify the due dates, discount dates, and installment details for customer open items.
View Item Redwood	Allows users to view item details.	View Procurement Buyers List of Values using REST Service	Allows access to REST services list of values for buyers that will be consumed cross pillars.
View Item Redwood	Allows users to view item details.	View Purchasing Hazard Classes List of Values using REST Service	Allows access to REST services list of values for hazard classes that will be consumed cross pillars.
View Item Redwood	Allows users to view item details.	View Purchasing UN Numbers List of Values using REST Service	Allows access to REST services list of values for UN numbers that will be consumed cross pillars.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Sales Manager job role.

Business Object	Policy Description	Policy Store Implementation
Activity	A Sales Manager can delete activity a member of an access group associated to the activity with delete access	Role: Access Groups Enablement Privilege: Delete Activity (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Activity
Activity	A Sales Manager can update activity a member of an access group associated to the activity with update access	Role: Access Groups Enablement Privilege: Update Activity (Data) Resource: Activity
Activity	A Sales Manager can view activity a member of an access group associated to the activity	Role: Access Groups Enablement Privilege: View Activity (Data) Resource: Activity
Application Attachment	A Sales Manager can read application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Contract View Access Across All Contracts Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment	A Sales Manager can view application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Sales Manager Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment Category	A Sales Manager can delete application attachment category for all miscelleneous category attachments data	Role: Sales Manager Privilege: Delete Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Manager can delete application attachment for all service categories that are visible to internal users	Role: Service Request Contributor Privilege: Delete Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Manager can read application attachment for all service categories that are visible to internal users	Role: Service Request Contributor Privilege: Read Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Manager can update application attachment category for all miscelleneous category attachments data	Role: Sales Manager Privilege: Update Application Attachment Resource: Application Attachment Category

Business Object	Policy Description	Policy Store Implementation
Application Attachment Category	A Sales Manager can update application attachment for all service categories that are visible to internal users	Role: Service Request Contributor Privilege: Update Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Manager can view application attachment category for all miscelleneous category attachments data	Role: Sales Manager Privilege: Read Application Attachment Resource: Application Attachment Category
Asset Export Object	A Sales Manager can view asset export object for all asset export objects in the enterprise	Role: Sales Party Management Privilege: View Asset Export Object (Data) Resource: Asset Export Object
Asset Export Object	A Sales Manager can view asset export object for all asset export objects in the enterprise	Role: Sales Party Review Privilege: View Asset Export Object (Data) Resource: Asset Export Object
Assignment Grade	A Sales Manager can choose assignment grade for grades in their grade security profile	Role: Sales Manager Privilege: Choose Assignment Grade (Data) Resource: Assignment Grade
Business Unit	A Sales Manager can choose business unit for business units in their organization security profile	Role: Sales Manager Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
CRM Asset	A Sales Manager can delete asset a member of an access group associated to the asset with delete access	Role: Access Groups Enablement Privilege: Delete Asset (Data) Resource: CRM Asset
CRM Asset	A Sales Manager can update asset a member of an access group associated to the asset with update access	Role: Access Groups Enablement Privilege: Update Asset (Data) Resource: CRM Asset
CRM Asset	A Sales Manager can view asset a member of an access group associated to the asset	Role: Access Groups Enablement Privilege: View Asset (Data) Resource: CRM Asset

Business Object	Policy Description	Policy Store Implementation
Cases	A Sales Manager can delete case header a member of an access group associated to the case with delete access	Role: Access Groups Enablement Privilege: Delete Case Header (Data) Resource: Cases
Cases	A Sales Manager can update case header a member of an access group associated to the case with update access	Role: Access Groups Enablement Privilege: Update Case Header (Data) Resource: Cases
Cases	A Sales Manager can view case header a member of an access group associated to the case	Role: Access Groups Enablement Privilege: View Case Header (Data) Resource: Cases
Classification Code File Import Activity	A Sales Manager can view classification code file import activity object type for all classification code file import activities of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Activity Object Type (Data) Resource: Classification Code File Import Activity
Classification Code File Import Mapping	A Sales Manager can view classification code file import mapping object type for all classification code file import mappings of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Mapping Object Type (Data) Resource: Classification Code File Import Mapping
Classification Code File Import Object	A Sales Manager can view classification code file import object type for all classification code file import objects of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Object Type (Data) Resource: Classification Code File Import Object
Consumer File Import Activity	A Sales Manager can view consumer file import activity object type for all consumer file import activities of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Activity Object Type (Data) Resource: Consumer File Import Activity

Business Object	Policy Description	Policy Store Implementation
Consumer File Import Mapping	A Sales Manager can view consumer file import mapping object type for all consumer file import mappings of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Mapping Object Type (Data) Resource: Consumer File Import Mapping
Consumer File Import Object	A Sales Manager can view consumer file import object type for all consumer file import objects of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Object Type (Data) Resource: Consumer File Import Object
Contact File Import Activity	A Sales Manager can view contact file import activity object type for all contact file import activities of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Activity Object Type (Data) Resource: Contact File Import Activity
Contact File Import Mapping	A Sales Manager can view contact file import mapping object type for all contact file import mappings of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Mapping Object Type (Data) Resource: Contact File Import Mapping
Contact File Import Object	A Sales Manager can view contact file import object type for all contact file import objects of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Object Type (Data) Resource: Contact File Import Object
Contract	A Sales Manager can view contract for all business units	Role: Contract View Access Across All Contracts Privilege: View Contract (Data) Resource: Contract
Contract	A Sales Manager can view contract for all business units	Role: Sales Manager Privilege: View Contract (Data) Resource: Contract
Contract Note	A Sales Manager can view contract note for notes that are not private or private notes where they are the author.	Role: Contract View Access Across All Contracts Privilege: View Contract Note (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Contract Note
Conversation	A Sales Manager can delete conversation a member of an access group associated to the conversation with delete access	Role: Access Groups Enablement Privilege: Delete Conversation (Data) Resource: Conversation
Conversation	A Sales Manager can manage conversation for all crm conversations	Role: Sales Manager Privilege: Manage Conversation (Data) Resource: Conversation
Conversation	A Sales Manager can update conversation a member of an access group associated to the conversation with update access	Role: Access Groups Enablement Privilege: Update Conversation (Data) Resource: Conversation
Conversation	A Sales Manager can view conversation a member of an access group associated to the conversation	Role: Access Groups Enablement Privilege: View Conversation (Data) Resource: Conversation
Conversation Message	A Sales Manager can delete conversation message a member of an access group associated to the conversation message with delete access	Role: Access Groups Enablement Privilege: Delete Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Sales Manager can manage conversation message for all customer conversation messages associated with a sales channel	Role: Sales Manager Privilege: Manage Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Sales Manager can update conversation message a member of an access group associated to the conversation message with update access	Role: Access Groups Enablement Privilege: Update Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Sales Manager can view conversation message a member of an access group associated to the conversation message	Role: Access Groups Enablement Privilege: View Conversation Message (Data) Resource: Conversation Message
Customer File Import Activity	A Sales Manager can view customer file import activity object type for all customer file import activities of object type 'customer'	Role: Trading Community Import Batch Management

Business Object	Policy Description	Policy Store Implementation
		Privilege: View Customer File Import Activity Object Type (Data) Resource: Customer File Import Activity
Customer File Import Mapping	A Sales Manager can view customer file import mapping object type for all customer file import mappings of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Mapping Object Type (Data) Resource: Customer File Import Mapping
Customer File Import Object	A Sales Manager can view customer file import object type for all customer file import objects of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Object Type (Data) Resource: Customer File Import Object
Deal Registration Product	A Sales Manager can manage deal registration product a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Product	A Sales Manager can view deal registration product a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Summary	A Sales Manager can update deal registration approval details a member of an access group associated to the deal registration with update or full access and deal is in pending approval status	Role: Access Groups Enablement Privilege: Update Deal Registration Approval Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Manager can update deal registration deal details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Manager can update deal registration deal details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary

Business Object	Policy Description	Policy Store Implementation
Deal Registration Summary	A Sales Manager can update deal registration opportunity details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Manager can update deal registration opportunity details a member of an access group associated to the deal registration with update access and deal is in pending approval or approved status	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Manager can update deal registration partner details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status and the deal is created by an internal user	Role: Access Groups Enablement Privilege: Update Deal Registration Partner Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Manager can view deal registration a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration (Data) Resource: Deal Registration Summary
Deal Registration Team	A Sales Manager can manage deal registration team a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Team (Data) Resource: Deal Registration Team
Deal Registration Team	A Sales Manager can view deal registration team a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Team (Data) Resource: Deal Registration Team
Department	A Sales Manager can choose department for departments in their organization security profile	Role: Sales Manager Privilege: Choose Department (Data) Resource: Department
Express Report Definitions	A Sales Manager can delete express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with delete access	Role: Access Groups Enablement Privilege: Delete Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Sales Manager can update express report access the express reports for table zca_srt_report_def as a member of an access group	Role: Access Groups Enablement Privilege: Update Express Report (Data)

Business Object	Policy Description	Policy Store Implementation
	associated to express reporting with update access	Resource: Express Report Definitions
Express Report Definitions	A Sales Manager can view express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting	Role: Access Groups Enablement Privilege: View Express Report (Data) Resource: Express Report Definitions
Field Service Work Order	A Sales Manager can delete field service work order a member of an access group associated to the field service work order with delete access	Role: Access Groups Enablement Privilege: Delete Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Manager can manage field service work order where they or their subordinate created the field service work order	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Manager can manage field service work order where they or their subordinate created the service request associated with the field service work order	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Manager can manage field service work order where they or their subordinate is a member of the field service work order account team	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Manager can manage field service work order where they or their subordinate is a member of the field service work order contact team	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Manager can manage field service work order where they or their subordinate is a member of the service request team associated with the field service work order	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Manager can manage field service work order where they or their subordinate is assigned to a field service work order	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Field Service Work Order
Field Service Work Order	A Sales Manager can update field service work order a member of an access group associated to the field service work order with update access	Role: Access Groups Enablement Privilege: Update Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Manager can view field service work order a member of an access group associated to the field service work order	Role: Access Groups Enablement Privilege: View Field Service Work Order (Data) Resource: Field Service Work Order
File Export Batch	A Sales Manager can view file export batch for all export batches	Role: Sales Manager Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Batch	A Sales Manager can view file export batch for all export batches	Role: Sales Party Management Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Batch	A Sales Manager can view file export batch for all export batches	Role: Sales Party Review Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Object	A Sales Manager can manage file export object for all export unit test objects	Role: Sales Manager Privilege: Manage Export Unit Test (Data) Resource: File Export Object
File Import Activity	A Sales Manager can view file import activity for all standard file import activities that are accessible for sales manager.	Role: Sales Manager Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Activity	A Sales Manager can view standard file import activity object type for all standard file import activities that are accessible for trading community batch import management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: File Import Activity

Business Object	Policy Description	Policy Store Implementation
File Import Mapping	A Sales Manager can view file import mapping for all standard file import maps that are accessible for sales manager.	Role: Sales Manager Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
File Import Mapping	A Sales Manager can view standard file import mapping object type for all standard file import maps that are accessible for trading community batch import management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
Group Customer File Import Activity	A Sales Manager can view group customer file import activity object type for all group customer file import activities of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Activity Object Type (Data) Resource: Group Customer File Import Activity
Group Customer File Import Mapping	A Sales Manager can view group customer file import mapping object type for all group customer file import mappings of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Mapping Object Type (Data) Resource: Group Customer File Import Mapping
Group Customer File Import Object	A Sales Manager can view group customer file import object type for all group customer file import objects of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Object Type (Data) Resource: Group Customer File Import Object
HR Job	A Sales Manager can choose hr job for all jobs in the enterprise	Role: Sales Manager Privilege: Choose HR Job (Data) Resource: HR Job
Hierarchy File Import Activity	A Sales Manager can view hierarchy file import activity object type for all hierarchy file import activities of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Activity Object Type (Data) Resource: Hierarchy File Import Activity
Hierarchy File Import Activity	A Sales Manager can view standard file import activity object type for all standard file	Role: Trading Community Import Batch Management

Business Object	Policy Description	Policy Store Implementation
	import activities that are accessible for trading community import batch management duty	Privilege: View Standard File Import Activity Object Type Resource: Hierarchy File Import Activity
Hierarchy File Import Mapping	A Sales Manager can view hierarchy file import mapping object type for all hierarchy file import mappings of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Mapping Object Type (Data) Resource: Hierarchy File Import Mapping
Hierarchy File Import Mapping	A Sales Manager can view standard file import mapping object type for all standard file import maps that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: Hierarchy File Import Mapping
Hierarchy File Import Object	A Sales Manager can view hierarchy file import object type for all hierarchy file import objects of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Object Type (Data) Resource: Hierarchy File Import Object
Hierarchy Node File Import Activity	A Sales Manager can view hierarchy node file import activity object type for all hierarchy node file import activities of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Activity Object Type (Data) Resource: Hierarchy Node File Import Activity
Hierarchy Node File Import Activity	A Sales Manager can view standard file import activity object type for all standard file import activities that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: Hierarchy Node File Import Activity
Hierarchy Node File Import Mapping	A Sales Manager can view hierarchy node file import mapping object type for all hierarchy node file import mappings of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Mapping Object Type (Data) Resource: Hierarchy Node File Import Mapping
Hierarchy Node File Import Mapping	A Sales Manager can view standard file import mapping object type for all standard file import	Role: Trading Community Import Batch Management

Cases	A Sales Representative can delete case header a member of an access group associated to the case with delete access	Role: Access Groups Enablement Privilege: Delete Case Header (Data) Resource: Cases
Cases	A Sales Representative can update case header a member of an access group associated to the case with update access	Role: Access Groups Enablement Privilege: Update Case Header (Data) Resource: Cases
Cases	A Sales Representative can view case header a member of an access group associated to the case	Role: Access Groups Enablement Privilege: View Case Header (Data) Resource: Cases
Classification Code File Import Activity	A Sales Representative can view classification code file import activity object type for all classification code file import activities of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Activity Object Type (Data) Resource: Classification Code File Import Activity
Classification Code File Import Mapping	A Sales Representative can view classification code file import mapping object type for all classification code file import mappings of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Mapping Object Type (Data) Resource: Classification Code File Import Mapping
Classification Code File Import Object	A Sales Representative can view classification code file import object type for all classification code file import objects of object type 'classification code'	Role: Trading Community Import Batch Management

Business Object	Policy Description	Policy Store Implementation
		Privilege: View Classification Code File Import Object Type (Data) Resource: Classification Code File Import Object
Consumer File Import Activity	A Sales Representative can view consumer file import activity object type for all consumer file import activities of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Activity Object Type (Data) Resource: Consumer File Import Activity
Consumer File Import Mapping	A Sales Representative can view consumer file import mapping object type for all consumer file import mappings of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Mapping Object Type (Data) Resource: Consumer File Import Mapping
Consumer File Import Object	A Sales Representative can view consumer file import object type for all consumer file import objects of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Object Type (Data) Resource: Consumer File Import Object
Contact File Import Activity	A Sales Representative can view contact file import activity object type for all contact file import activities of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Activity Object Type (Data) Resource: Contact File Import Activity
Contact File Import Mapping	A Sales Representative can view contact file import mapping object type for all contact file import mappings of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Mapping Object Type (Data) Resource: Contact File Import Mapping
Contact File Import Object	A Sales Representative can view contact file import object type for all contact file import objects of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Object Type (Data) Resource: Contact File Import Object
Contract	A Sales Representative can view contract for all business units	Role: Contract View Access Across All Contracts Privilege: View Contract (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Contract
Contract	A Sales Representative can view contract for all business units	Role: Sales Representative Privilege: View Contract (Data) Resource: Contract
Contract Note	A Sales Representative can view contract note for notes that are not private or private notes where they are the author.	Role: Contract View Access Across All Contracts Privilege: View Contract Note (Data) Resource: Contract Note
Contract Request	A Sales Representative can manage contract request for which they are a creator or managers of such a creator.	Role: Contract Request Authoring Privilege: Manage Contract Request (Data) Resource: Contract Request
Contract Request	A Sales Representative can manage contract request for which they are an owner or managers of such an owner.	Role: Contract Request Authoring Privilege: Manage Contract Request (Data) Resource: Contract Request
Conversation	A Sales Representative can delete conversation a member of an access group associated to the conversation with delete access	Role: Access Groups Enablement Privilege: Delete Conversation (Data) Resource: Conversation
Conversation	A Sales Representative can manage conversation for all crm conversations	Role: Contract Request Authoring Privilege: Manage Conversation (Data) Resource: Conversation
Conversation	A Sales Representative can manage conversation for all crm conversations	Role: Sales Representative Privilege: Manage Conversation (Data) Resource: Conversation
Conversation	A Sales Representative can update conversation a member of an access group associated to the conversation with update access	Role: Access Groups Enablement Privilege: Update Conversation (Data) Resource: Conversation
Conversation	A Sales Representative can view conversation a member of an access group associated to the conversation	Role: Access Groups Enablement Privilege: View Conversation (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Conversation
Conversation Message	A Sales Representative can delete conversation message a member of an access group associated to the conversation message with delete access	Role: Access Groups Enablement Privilege: Delete Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Sales Representative can manage conversation message for all crm collaboration messages	Role: Contract Request Authoring Privilege: Manage Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Sales Representative can manage conversation message for all customer conversation messages associated with a sales channel	Role: Sales Representative Privilege: Manage Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Sales Representative can update conversation message a member of an access group associated to the conversation message with update access	Role: Access Groups Enablement Privilege: Update Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Sales Representative can view conversation message a member of an access group associated to the conversation message	Role: Access Groups Enablement Privilege: View Conversation Message (Data) Resource: Conversation Message
Customer File Import Activity	A Sales Representative can view customer file import activity object type for all customer file import activities of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Activity Object Type (Data) Resource: Customer File Import Activity
Customer File Import Mapping	A Sales Representative can view customer file import mapping object type for all customer file import mappings of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Mapping Object Type (Data) Resource: Customer File Import Mapping
Customer File Import Object	A Sales Representative can view customer file import object type for all customer file import objects of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Object Type (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Customer File Import Object
Deal Registration Product	A Sales Representative can manage deal registration product a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Product	A Sales Representative can view deal registration product a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Summary	A Sales Representative can update deal registration approval details a member of an access group associated to the deal registration with update or full access and deal is in pending approval status	Role: Access Groups Enablement Privilege: Update Deal Registration Approval Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Representative can update deal registration deal details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Representative can update deal registration deal details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Representative can update deal registration opportunity details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Representative can update deal registration opportunity details a member of an access group associated to the deal registration with update access and deal is in pending approval or approved status	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Representative can update deal registration partner details a member of an access group associated to the deal registration with update access and deal is in draft, returned	Role: Access Groups Enablement Privilege: Update Deal Registration Partner Details (Data)

Business Object	Policy Description	Policy Store Implementation
	or withdrawn status and the deal is created by an internal user	Resource: Deal Registration Summary
Deal Registration Summary	A Sales Representative can view deal registration a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration (Data) Resource: Deal Registration Summary
Deal Registration Team	A Sales Representative can manage deal registration team a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Team (Data) Resource: Deal Registration Team
Deal Registration Team	A Sales Representative can view deal registration team a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Team (Data) Resource: Deal Registration Team
Express Report Definitions	A Sales Representative can delete express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with delete access	Role: Access Groups Enablement Privilege: Delete Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Sales Representative can update express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with update access	Role: Access Groups Enablement Privilege: Update Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Sales Representative can view express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting	Role: Access Groups Enablement Privilege: View Express Report (Data) Resource: Express Report Definitions
Field Service Work Order	A Sales Representative can delete field service work order a member of an access group associated to the field service work order with delete access	Role: Access Groups Enablement Privilege: Delete Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Representative can manage field service work order where they or their subordinate created the field service work order	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order

Business Object	Policy Description	Policy Store Implementation
Field Service Work Order	A Sales Representative can manage field service work order where they or their subordinate created the service request associated with the field service work order	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Representative can manage field service work order where they or their subordinate is a member of the field service work order account team	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Representative can manage field service work order where they or their subordinate is a member of the field service work order contact team	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order

Field Service Work Order	A Sales Representative can update field service work order a member of an access group associated to the field service work order with update access	Role: Access Groups Enablement Privilege: Update Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Representative can view field service work order a member of an access group associated to the field service work order	Role: Access Groups Enablement Privilege: View Field Service Work Order (Data) Resource: Field Service Work Order
File Export Batch	A Sales Representative can view file export batch for all export batches	Role: Sales Party Management Privilege: View File Export Batch (Data) Resource: File Export Batch

Business Object	Policy Description	Policy Store Implementation
File Export Batch	A Sales Representative can view file export batch for all export batches	Role: Sales Party Review Privilege: View File Export Batch (Data) Resource: File Export Batch
File Import Activity	A Sales Representative can view file import activity for all standard file import activities that are accessible for sales representator.	Role: Sales Representative Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Activity	A Sales Representative can view standard file import activity object type for all standard file import activities that are accessible for trading community batch import management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Mapping	A Sales Representative can view file import mapping for all standard file import maps that are accessible for sales representative.	Role: Sales Representative Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
File Import Mapping	A Sales Representative can view standard file import mapping object type for all standard file import maps that are accessible for trading community batch import management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
Group Customer File Import Activity	A Sales Representative can view group customer file import activity object type for all group customer file import activities of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Activity Object Type (Data) Resource: Group Customer File Import Activity
Group Customer File Import Mapping	A Sales Representative can view group customer file import mapping object type for all group customer file import mappings of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Mapping Object Type (Data) Resource: Group Customer File Import Mapping
Group Customer File Import Object	A Sales Representative can view group customer file import object type for all group customer file import objects of object type 'group customer'	Role: Trading Community Import Batch Management

Business Object	Policy Description	Policy Store Implementation
		Privilege: View Group Customer File Import Object Type (Data) Resource: Group Customer File Import Object
Hierarchy File Import Activity	A Sales Representative can view hierarchy file import activity object type for all hierarchy file import activities of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Activity Object Type (Data) Resource: Hierarchy File Import Activity
Hierarchy File Import Activity	A Sales Representative can view standard file import activity object type for all standard file import activities that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: Hierarchy File Import Activity
Hierarchy File Import Mapping	A Sales Representative can view hierarchy file import mapping object type for all hierarchy file import mappings of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Mapping Object Type (Data) Resource: Hierarchy File Import Mapping
Hierarchy File Import Mapping	A Sales Representative can view standard file import mapping object type for all standard file import maps that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: Hierarchy File Import Mapping
Hierarchy File Import Object	A Sales Representative can view hierarchy file import object type for all hierarchy file import objects of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Object Type (Data) Resource: Hierarchy File Import Object
Hierarchy Node File Import Activity	A Sales Representative can view hierarchy node file import activity object type for all hierarchy node file import activities of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Activity Object Type (Data) Resource: Hierarchy Node File Import Activity
Hierarchy Node File Import Activity	A Sales Representative can view standard file import activity object type for all standard file	Role: Trading Community Import Batch Management

Business Object	Policy Description	Policy Store Implementation
	import activities that are accessible for trading community import batch management duty	Privilege: View Standard File Import Activity Object Type Resource: Hierarchy Node File Import Activity
Hierarchy Node File Import Mapping	A Sales Representative can view hierarchy node file import mapping object type for all hierarchy node file import mappings of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Mapping Object Type (Data) Resource: Hierarchy Node File Import Mapping
Hierarchy Node File Import Mapping	A Sales Representative can view standard file import mapping object type for all standard file import maps that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: Hierarchy Node File Import Mapping
Hierarchy Node File Import Object	A Sales Representative can view hierarchy node file import object type for all hierarchy node file import objects of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Object Type (Data) Resource: Hierarchy Node File Import Object
Incentive Compensation Measure	A Sales Representative can review incentive compensation measure for themselves	Role: Sales Representative Privilege: Review Incentive Compensation Measure (Data) Resource: Incentive Compensation Measure
Incentive Compensation Participant	A Sales Representative can review incentive compensation participant for themselves	Role: Sales Representative Privilege: Review Incentive Compensation Participant (Data) Resource: Incentive Compensation Participant
Incentive Compensation Participant Attainment Balance	A Sales Representative can review incentive compensation participant attainment balance for themselves and the period enabled for reporting	Role: Sales Representative Privilege: Review Incentive Compensation Participant Attainment Balance (Data) Resource: Incentive Compensation Participant Attainment Balance
Incentive Compensation Participant Earning Balance	A Sales Representative can review incentive compensation participant earning balance for themselves and the period enabled for reporting	Role: Sales Representative Privilege: Review Incentive Compensation Participant Earning Balance (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Incentive Compensation Participant Earning Balance
Incentive Compensation Participant Subledger	A Sales Representative can review incentive compensation participant subledger for themselves and the period enabled for reporting	Role: Sales Representative Privilege: Review Incentive Compensation Participant Subledger (Data) Resource: Incentive Compensation Participant Subledger
Incentive Compensation Payment Plan	A Sales Representative can review incentive compensation payment plan for themselves	Role: Sales Representative Privilege: Review Incentive Compensation Payment Plan (Data) Resource: Incentive Compensation Payment Plan
Incentive Compensation Payment Transaction	A Sales Representative can review incentive compensation payment transaction for themselves and the paysheet that is at least submitted	Role: Sales Representative Privilege: Review Incentive Compensation Payment Transaction (Data) Resource: Incentive Compensation Payment Transaction
Incentive Compensation Paysheet	A Sales Representative can review incentive compensation paysheet for themselves and the paysheet that is at least submitted	Role: Sales Representative Privilege: Review Incentive Compensation Paysheet (Data) Resource: Incentive Compensation Paysheet
Incentive Compensation Plan	A Sales Representative can review incentive compensation plan for themselves	Role: Sales Representative Privilege: Review Incentive Compensation Plan (Data) Resource: Incentive Compensation Plan
Incentive Compensation Plan Component	A Sales Representative can review incentive compensation plan component for themselves	Role: Sales Representative Privilege: Review Incentive Compensation Plan Component (Data) Resource: Incentive Compensation Plan Component
Incentive Compensation Transaction	A Sales Representative can review incentive compensation transaction for themselves and the period enabled for reporting	Role: Sales Representative Privilege: Review Incentive Compensation Transaction (Data) Resource: Incentive Compensation Transaction

Business Object	Policy Description	Policy Store Implementation
Installed Base Asset	A Sales Representative can manage installed base asset for all installed base assets	Role: Sales Representative Privilege: Manage Installed Base Asset (Data) Resource: Installed Base Asset
Inventory Reservation	A Sales Representative can manage inventory reservation for the inventory organizations in which they can operate	Role: Service Request Contributor Privilege: Manage Inventory Reservation (Data) Resource: Inventory Organization Parameter
Legal Entity File Import Activity	A Sales Representative can view legal entity file import activity object type for all legal entity file import activities of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Activity Object Type (Data) Resource: Legal Entity File Import Activity
Legal Entity File Import Mapping	A Sales Representative can view legal entity file import mapping object type for all legal entity file import mappings of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Mapping Object Type (Data) Resource: Legal Entity File Import Mapping
Legal Entity File Import Object	A Sales Representative can view legal entity file import object type for all legal entity file import objects of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Object Type (Data) Resource: Legal Entity File Import Object
Location	A Sales Representative can manage location for all locations in the enterprise	Role: Service Request Contributor Privilege: Manage Location (Data) Resource: Location
Location	A Sales Representative can manage location for all reference data sets in the enterprise	Role: Service Request Contributor Privilege: Manage Location (Data) Resource: Location
MDF Budget	A Sales Representative can delete marketing budget a member of an access group associated to the mdf budget with delete access and budget status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Budget (Data) Resource: MDF Budget

Business Object	Policy Description	Policy Store Implementation
MDF Budget	A Sales Representative can update marketing budget a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget (Data) Resource: MDF Budget
MDF Budget	A Sales Representative can view marketing budget a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget (Data) Resource: MDF Budget
MDF Budget Team	A Sales Representative can delete marketing budget team a member of an access group associated to the mdf budget with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Sales Representative can update marketing budget team a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Sales Representative can view marketing budget team a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Claim	A Sales Representative can delete marketing claim a member of an access group associated to the mdf claim with delete or full access and the claim status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Claim (Data) Resource: MDF Claim
MDF Claim	A Sales Representative can update marketing claim approval details a member of an access group associated to the mdf claim with update or full access and the claim status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Claim Approval Details (Data) Resource: MDF Claim
MDF Claim	A Sales Representative can update marketing claim details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Details (Data) Resource: MDF Claim
MDF Claim	A Sales Representative can update marketing claim partner details a member of an access group associated to the mdf claim with update	Role: Access Groups Enablement Privilege: Update Marketing Claim Partner Details (Data)

Business Object	Policy Description	Policy Store Implementation
	or full access and the claim status is draft, returned, failed or withdrawn	Resource: MDF Claim
MDF Claim	A Sales Representative can view marketing claim a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim (Data) Resource: MDF Claim
MDF Claim Settlement	A Sales Representative can delete marketing claim settlement a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Sales Representative can update marketing claim settlement a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Sales Representative can update marketing claim settlement details a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement Details (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Sales Representative can view marketing claim settlement a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Team	A Sales Representative can delete marketing claim team a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Claim Team	A Sales Representative can update marketing claim team a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Claim Team	A Sales Representative can view marketing claim team a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim Team (Data) Resource: MDF Claim Team

Business Object	Policy Description	Policy Store Implementation
MDF Request	A Sales Representative can delete marketing fund request a member of an access group associated to the mdf request with delete access and the request status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request (Data) Resource: MDF Request
MDF Request	A Sales Representative can update marketing fund request approval details a member of an access group associated to the mdf request with update or full access and the request status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Approval Details (Data) Resource: MDF Request
MDF Request	A Sales Representative can update marketing fund request details a member of an access group associated to the mdf request with update or full access and the request status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Details (Data) Resource: MDF Request
MDF Request	A Sales Representative can update marketing fund request partner details a member of an access group associated to the mdf request with update or full access and request is in draft, returned, failed or withdrawn status and the request is created by an internal user	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Partner Details (Data) Resource: MDF Request
MDF Request	A Sales Representative can view marketing fund request a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request (Data) Resource: MDF Request
MDF Request Team	A Sales Representative can delete marketing fund request team a member of an access group associated to the mdf request with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request Team (Data) Resource: MDF Request Team
MDF Request Team	A Sales Representative can update marketing fund request team a member of an access group associated to the mdf request with update access	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Team (Data) Resource: MDF Request Team
MDF Request Team	A Sales Representative can view marketing fund request team a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request Team (Data) Resource: MDF Request Team

Business Object	Policy Description	Policy Store Implementation
Marketing Integration Campaign	A Sales Representative can delete marketing integration campaign a member of an access group associated to the marketing integration campaign with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Marketing Integration Campaign	A Sales Representative can update marketing integration campaign a member of an access group associated to the marketing integration campaign with update access	Role: Access Groups Enablement Privilege: Update Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Marketing Integration Campaign	A Sales Representative can view marketing integration campaign a member of an access group associated to the marketing integration campaign	Role: Access Groups Enablement Privilege: View Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Marketing List	A Sales Representative can delete marketing list where they are the owner of the marketing list	Role: Sales Representative Privilege: Delete Marketing List (Data) Resource: Marketing List
Marketing List	A Sales Representative can update marketing list where they are the owner of the marketing list	Role: Sales Representative Privilege: Update Marketing List (Data) Resource: Marketing List
Marketing Treatment	A Sales Representative can delete marketing treatment where they are the owner of the marketing treatment	Role: Sales Representative Privilege: Delete Marketing Treatment (Data) Resource: Marketing Treatment
Marketing Treatment	A Sales Representative can update marketing treatment where they are the owner of the marketing treatment	Role: Sales Representative Privilege: Update Marketing Treatment (Data) Resource: Marketing Treatment
Marketing Treatment E-Mail Footer	A Sales Representative can view marketing treatment e-mail footer for all marketing treatment e-mail footers marked as unrestricted visibility in the enterprise	Role: Sales Representative Privilege: View Marketing Treatment Unrestricted E-Mail Footer (Data) Resource: Marketing Treatment E-Mail Footer
Note	A Sales Representative can delete note a member of an access group associated to the note with delete access	Role: Access Groups Enablement Privilege: Delete Note (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Note
Note	A Sales Representative can update note a member of an access group associated to the note with update access	Role: Access Groups Enablement Privilege: Update Note (Data) Resource: Note
Note	A Sales Representative can view note a member of an access group associated to the note	Role: Access Groups Enablement Privilege: View Note (Data) Resource: Note
Opportunity	A Sales Representative can manage opportunity general profile a member of an access group associated to the opportunity with update access	Role: Access Groups Enablement Privilege: Manage Opportunity General Profile (Data) Resource: Opportunity
Opportunity	A Sales Representative can manage opportunity restricted profile a member of an access group associated to the opportunity with delete access	Role: Access Groups Enablement Privilege: Manage Opportunity Restricted Profile (Data) Resource: Opportunity
Opportunity	A Sales Representative can manage opportunity revenue a member of an access group associated to the opportunity with full access	Role: Access Groups Enablement Privilege: Manage Opportunity Revenue (Data) Resource: Opportunity
Opportunity	A Sales Representative can manage opportunity team a member of an access group associated to the opportunity with full access	Role: Access Groups Enablement Privilege: Manage Opportunity Team (Data) Resource: Opportunity
Opportunity	A Sales Representative can manage opportunity where they are a territory resource in the opportunity territory team or a territory resource with a descendant territory in the opportunity territory team	Role: Sales Representative Privilege: Manage Opportunity General Profile (Data) Resource: Opportunity
Opportunity	A Sales Representative can manage opportunity where they are a territory resource in the opportunity territory team or a territory resource with a descendant territory in the opportunity territory team	Role: Sales Representative Privilege: Manage Opportunity Restricted Profile (Data) Resource: Opportunity

Business Object	Policy Description	Policy Store Implementation

View Project Attribute Defaults by Web Service	Allow viewing Project Attribute Defaults by web service.

Granted Role	Granted Role Description	Privilege	Privilege Description
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Project Type Cost Exclusions by Web Service	Allow viewing Project Type Cost Exclusions by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Schedules by Web Service	Allow viewing schedules by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Transit Times by Web Service	Allow viewing Transit Times by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Unit Of Measure Conversion List of Values by Web Service	Allow viewing unit of measure conversion list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Units Of Measure List of Values by Web Service	Allow viewing units of measure list of values by web service.
Territory Management Export Import Read Only	Read Only role for Territory Management Export Import Duty.	Export Sales Territory	Allows initiating the process of exporting territory definitions for offline review and editing.
Territory Management Export Import Read Only	Read Only role for Territory Management Export Import Duty.	Run CRM Export Process	This privilege would grant a user the ability to schedule CRM object to export to a file
Territory Management Export Import Read Only	Read Only role for Territory Management Export Import Duty.	View Sales Territory Export Status	Allows viewing the status of territory export processes.
Territory Management Export Import Read Only	Read Only role for Territory Management Export Import Duty.	View Sales Territory Import Status	Allows viewing the status of territory import processes.
Trading Community Import Batch Management Read Only	Read Only role for Trading Community Import Batch Management Duty.	View Trading Community Import Batch Details and Statistics	Not Available

Granted Role	Granted Role Description	Privilege	Privilege Description
Trading Community Import Batch Management Read Only	Read Only role for Trading Community Import Batch Management Duty.	View Trading Community Import Batch Errors and Details	Not Available
Trading Community Import Batch Management Read Only	Read Only role for Trading Community Import Batch Management Duty.	View Trading Community Import Batch Information	Not Available
View Item Redwood	Allows users to view item details.	Get Failure Condition Event Codes	Allow the query of asset failure condition event code using a service.
View Item Redwood	Allows users to view item details.	Get Item Attribute Control REST	Allows access to view operational attribute controls for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Get Item Lifecycle Phases Read Rest	Allows access to view Item Lifecycle Phases for a single item and attributes for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Get Item Status REST	Allows access to view item statuses for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Get Template REST	Allows access to view templates for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Manage Material Planner	Allows definition and maintenance of material planners.
View Item Redwood	Allows users to view item details.	Manage Subscription Setup	Manage subscription setup
View Item Redwood	Allows users to view item details.	Set Up Receivables Payment Terms	Create payment terms to specify the due dates, discount dates, and installment details for customer open items.
View Item Redwood	Allows users to view item details.	View Procurement Buyers List of Values using REST Service	Allows access to REST services list of values for buyers that will be consumed cross pillars.
View Item Redwood	Allows users to view item details.	View Purchasing Hazard Classes List of Values using REST Service	Allows access to REST services list of values for hazard classes that will be consumed cross pillars.

Granted Role	Granted Role Description	Privilege	Privilege Description
View Item Redwood	Allows users to view item details.	View Purchasing UN Numbers List of Values using REST Service	Allows access to REST services list of values for UN numbers that will be consumed cross pillars.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Sales Restricted User job role.

Business Object	Policy Description	Policy Store Implementation
Activity	A Sales Restricted User can delete activity a member of an access group associated to the activity with delete access	Role: Access Groups Enablement Privilege: Delete Activity (Data) Resource: Activity
Activity	A Sales Restricted User can update activity a member of an access group associated to the activity with update access	Role: Access Groups Enablement Privilege: Update Activity (Data) Resource: Activity
Activity	A Sales Restricted User can view activity a member of an access group associated to the activity	Role: Access Groups Enablement Privilege: View Activity (Data) Resource: Activity
Application Attachment	A Sales Restricted User can read application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Contract View Access Across All Contracts Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment	A Sales Restricted User can view application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Sales Restricted User Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment Category	A Sales Restricted User can delete application attachment category for all miscelleneous category attachments data	Role: Sales Restricted User Privilege: Delete Application Attachment Resource: Application Attachment Category

Business Object	Policy Description	Policy Store Implementation
Application Attachment Category	A Sales Restricted User can delete application attachment for all service categories that are visible to internal users	Role: Service Request Contributor Privilege: Delete Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Restricted User can read application attachment for all service categories that are visible to internal users	Role: Service Request Contributor Privilege: Read Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Restricted User can update application attachment category for all miscelleneous category attachments data	Role: Sales Restricted User Privilege: Update Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Restricted User can update application attachment for all service categories that are visible to internal users	Role: Service Request Contributor Privilege: Update Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Restricted User can view application attachment category for all miscelleneous category attachments data	Role: Sales Restricted User Privilege: Read Application Attachment Resource: Application Attachment Category
Asset Export Object	A Sales Restricted User can view asset export object for all asset export objects in the enterprise	Role: Sales Party Review Privilege: View Asset Export Object (Data) Resource: Asset Export Object
Assignment Grade	A Sales Restricted User can choose assignment grade for grades in their grade security profile	Role: Sales Restricted User Privilege: Choose Assignment Grade (Data) Resource: Assignment Grade
Business Unit	A Sales Restricted User can choose business unit for business units in their organization security profile	Role: Sales Restricted User Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
CRM Asset	A Sales Restricted User can delete asset a member of an access group associated to the asset with delete access	Role: Access Groups Enablement Privilege: Delete Asset (Data) Resource: CRM Asset

Business Object	Policy Description	Policy Store Implementation
CRM Asset	A Sales Restricted User can update asset a member of an access group associated to the asset with update access	Role: Access Groups Enablement Privilege: Update Asset (Data) Resource: CRM Asset
CRM Asset	A Sales Restricted User can view asset a member of an access group associated to the asset	Role: Access Groups Enablement Privilege: View Asset (Data) Resource: CRM Asset
Cases	A Sales Restricted User can delete case header a member of an access group associated to the case with delete access	Role: Access Groups Enablement Privilege: Delete Case Header (Data) Resource: Cases
Cases	A Sales Restricted User can update case header a member of an access group associated to the case with update access	Role: Access Groups Enablement Privilege: Update Case Header (Data) Resource: Cases
Cases	A Sales Restricted User can view case header a member of an access group associated to the case	Role: Access Groups Enablement Privilege: View Case Header (Data) Resource: Cases
Classification Code File Import Activity	A Sales Restricted User can view classification code file import activity object type for all classification code file import activities of object type 'classification code'	Role: Trading Community Import Batch Management Read Only Privilege: View Classification Code File Import Activity Object Type (Data) Resource: Classification Code File Import Activity
Classification Code File Import Mapping	A Sales Restricted User can view classification code file import mapping object type for all classification code file import mappings of object type 'classification code'	Role: Trading Community Import Batch Management Read Only Privilege: View Classification Code File Import Mapping Object Type (Data) Resource: Classification Code File Import Mapping
Classification Code File Import Object	A Sales Restricted User can view classification code file import object type for all classification code file import objects of object type 'classification code'	Role: Trading Community Import Batch Management Read Only Privilege: View Classification Code File Import Object Type (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Classification Code File Import Object
Consumer File Import Activity	A Sales Restricted User can view consumer file import activity object type for all consumer file import activities of object type 'consumer'	Role: Trading Community Import Batch Management Read Only Privilege: View Consumer File Import Activity Object Type (Data) Resource: Consumer File Import Activity
Consumer File Import Mapping	A Sales Restricted User can view consumer file import mapping object type for all consumer file import mappings of object type 'consumer'	Role: Trading Community Import Batch Management Read Only Privilege: View Consumer File Import Mapping Object Type (Data) Resource: Consumer File Import Mapping
Consumer File Import Object	A Sales Restricted User can view consumer file import object type for all consumer file import objects of object type 'consumer'	Role: Trading Community Import Batch Management Read Only Privilege: View Consumer File Import Object Type (Data) Resource: Consumer File Import Object
Contact File Import Activity	A Sales Restricted User can view contact file import activity object type for all contact file import activities of object type 'contact'	Role: Trading Community Import Batch Management Read Only Privilege: View Contact File Import Activity Object Type (Data) Resource: Contact File Import Activity
Contact File Import Mapping	A Sales Restricted User can view contact file import mapping object type for all contact file import mappings of object type 'contact'	Role: Trading Community Import Batch Management Read Only Privilege: View Contact File Import Mapping Object Type (Data) Resource: Contact File Import Mapping
Contact File Import Object	A Sales Restricted User can view contact file import object type for all contact file import objects of object type 'contact'	Role: Trading Community Import Batch Management Read Only Privilege: View Contact File Import Object Type (Data) Resource: Contact File Import Object
Contract	A Sales Restricted User can view contract for all business units	Role: Contract View Access Across All Contracts Privilege: View Contract (Data) Resource: Contract

Business Object	Policy Description	Policy Store Implementation
Contract	A Sales Restricted User can view contract for all business units	Role: Sales Restricted User Privilege: View Contract (Data) Resource: Contract
Contract Note	A Sales Restricted User can view contract note for notes that are not private or private notes where they are the author.	Role: Contract View Access Across All Contracts Privilege: View Contract Note (Data) Resource: Contract Note
Conversation	A Sales Restricted User can delete conversation a member of an access group associated to the conversation with delete access	Role: Access Groups Enablement Privilege: Delete Conversation (Data) Resource: Conversation
Conversation	A Sales Restricted User can update conversation a member of an access group associated to the conversation with update access	Role: Access Groups Enablement Privilege: Update Conversation (Data) Resource: Conversation
Conversation	A Sales Restricted User can view conversation a member of an access group associated to the conversation	Role: Access Groups Enablement Privilege: View Conversation (Data) Resource: Conversation
Conversation Message	A Sales Restricted User can delete conversation message a member of an access group associated to the conversation message with delete access	Role: Access Groups Enablement Privilege: Delete Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Sales Restricted User can update conversation message a member of an access group associated to the conversation message with update access	Role: Access Groups Enablement Privilege: Update Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Sales Restricted User can view conversation message a member of an access group associated to the conversation message	Role: Access Groups Enablement Privilege: View Conversation Message (Data) Resource: Conversation Message
Customer File Import Activity	A Sales Restricted User can view customer file import activity object type for all customer file import activities of object type 'customer'	Role: Trading Community Import Batch Management Read Only Privilege: View Customer File Import Activity Object Type (Data) Resource: Customer File Import Activity

Business Object	Policy Description	Policy Store Implementation
Customer File Import Mapping	A Sales Restricted User can view customer file import mapping object type for all customer file import mappings of object type 'customer'	Role: Trading Community Import Batch Management Read Only Privilege: View Customer File Import Mapping Object Type (Data) Resource: Customer File Import Mapping
Customer File Import Object	A Sales Restricted User can view customer file import object type for all customer file import objects of object type 'customer'	Role: Trading Community Import Batch Management Read Only Privilege: View Customer File Import Object Type (Data) Resource: Customer File Import Object
Deal Registration Product	A Sales Restricted User can manage deal registration product a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Product	A Sales Restricted User can view deal registration product a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Summary	A Sales Restricted User can update deal registration approval details a member of an access group associated to the deal registration with update or full access and deal is in pending approval status	Role: Access Groups Enablement Privilege: Update Deal Registration Approval Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Restricted User can update deal registration deal details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Restricted User can update deal registration deal details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Restricted User can update deal registration opportunity details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Deal Registration Summary
Deal Registration Summary	A Sales Restricted User can update deal registration opportunity details a member of an access group associated to the deal registration with update access and deal is in pending approval or approved status	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Restricted User can update deal registration partner details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status and the deal is created by an internal user	Role: Access Groups Enablement Privilege: Update Deal Registration Partner Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales Restricted User can view deal registration a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration (Data) Resource: Deal Registration Summary
Deal Registration Team	A Sales Restricted User can manage deal registration team a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Team (Data) Resource: Deal Registration Team
Deal Registration Team	A Sales Restricted User can view deal registration team a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Team (Data) Resource: Deal Registration Team
Department	A Sales Restricted User can choose department for departments in their organization security profile	Role: Sales Restricted User Privilege: Choose Department (Data) Resource: Department
Express Report Definitions	A Sales Restricted User can delete express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with delete access	Role: Access Groups Enablement Privilege: Delete Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Sales Restricted User can update express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with update access	Role: Access Groups Enablement Privilege: Update Express Report (Data) Resource: Express Report Definitions

Business Object	Policy Description	Policy Store Implementation
Express Report Definitions	A Sales Restricted User can view express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting	Role: Access Groups Enablement Privilege: View Express Report (Data) Resource: Express Report Definitions
Field Service Work Order	A Sales Restricted User can delete field service work order a member of an access group associated to the field service work order with delete access	Role: Access Groups Enablement Privilege: Delete Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Restricted User can manage field service work order where they or their subordinate created the field service work order	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Restricted User can manage field service work order where they or their subordinate created the service request associated with the field service work order	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Restricted User can manage field service work order where they or their subordinate is a member of the field service work order account team	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Restricted User can manage field service work order where they or their subordinate is a member of the field service work order contact team	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Restricted User can manage field service work order where they or their subordinate is a member of the service request team associated with the field service work order	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Restricted User can manage field service work order where they or their subordinate is assigned to a field service work order	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order

Business Object	Policy Description	Policy Store Implementation
Field Service Work Order	A Sales Restricted User can update field service work order a member of an access group associated to the field service work order with update access	Role: Access Groups Enablement Privilege: Update Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales Restricted User can view field service work order a member of an access group associated to the field service work order	Role: Access Groups Enablement Privilege: View Field Service Work Order (Data) Resource: Field Service Work Order
File Export Batch	A Sales Restricted User can view file export batch for all export batches	Role: Sales Party Review Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Batch	A Sales Restricted User can view file export batch for all export batches	Role: Sales Restricted User Privilege: View File Export Batch (Data) Resource: File Export Batch
File Import Activity	A Sales Restricted User can view file import activity for all standard file import activities that are accessible for sales restricted user	Role: Sales Restricted User Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Mapping	A Sales Restricted User can view file import mapping for all standard file import maps that are accessible for sales restricted user	Role: Sales Restricted User Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
Group Customer File Import Activity	A Sales Restricted User can view group customer file import activity object type for all group customer file import activities of object type 'group customer'	Role: Trading Community Import Batch Management Read Only Privilege: View Group Customer File Import Activity Object Type (Data) Resource: Group Customer File Import Activity
Group Customer File Import Mapping	A Sales Restricted User can view group customer file import mapping object type for all group customer file import mappings of object type 'group customer'	Role: Trading Community Import Batch Management Read Only Privilege: View Group Customer File Import Mapping Object Type (Data) Resource: Group Customer File Import Mapping

Business Object	Policy Description	Policy Store Implementation
Group Customer File Import Object	A Sales Restricted User can view group customer file import object type for all group customer file import objects of object type 'group customer'	Role: Trading Community Import Batch Management Read Only Privilege: View Group Customer File Import Object Type (Data) Resource: Group Customer File Import Object
HR Job	A Sales Restricted User can choose hr job for all jobs in the enterprise	Role: Sales Restricted User Privilege: Choose HR Job (Data) Resource: HR Job
Hierarchy File Import Activity	A Sales Restricted User can view hierarchy file import activity object type for all hierarchy file import activities of object type 'hierarchy'	Role: Trading Community Import Batch Management Read Only Privilege: View Hierarchy File Import Activity Object Type (Data) Resource: Hierarchy File Import Activity
Hierarchy File Import Mapping	A Sales Restricted User can view hierarchy file import mapping object type for all hierarchy file import mappings of object type 'hierarchy'	Role: Trading Community Import Batch Management Read Only Privilege: View Hierarchy File Import Mapping Object Type (Data) Resource: Hierarchy File Import Mapping
Hierarchy File Import Object	A Sales Restricted User can view hierarchy file import object type for all hierarchy file import objects of object type 'hierarchy'	Role: Trading Community Import Batch Management Read Only Privilege: View Hierarchy File Import Object Type (Data) Resource: Hierarchy File Import Object
Hierarchy Node File Import Activity	A Sales Restricted User can view hierarchy node file import activity object type for all hierarchy node file import activities of object type 'hierarchy node'	Role: Trading Community Import Batch Management Read Only Privilege: View Hierarchy Node File Import Activity Object Type (Data) Resource: Hierarchy Node File Import Activity
Hierarchy Node File Import Mapping	A Sales Restricted User can view hierarchy node file import mapping object type for all hierarchy node file import mappings of object type 'hierarchy node'	Role: Trading Community Import Batch Management Read Only Privilege: View Hierarchy Node File Import Mapping Object Type (Data) Resource: Hierarchy Node File Import Mapping

Business Object	Policy Description	Policy Store Implementation
Hierarchy Node File Import Object	A Sales Restricted User can view hierarchy node file import object type for all hierarchy node file import objects of object type 'hierarchy node'	Role: Trading Community Import Batch Management Read Only Privilege: View Hierarchy Node File Import Object Type (Data) Resource: Hierarchy Node File Import Object
Incentive Compensation Measure	A Sales Restricted User can review incentive compensation measure for subordinates in their person and assignment security profile	Role: Sales Restricted User Privilege: Review Incentive Compensation Measure (Data) Resource: Incentive Compensation Measure
Incentive Compensation Measure	A Sales Restricted User can review incentive compensation measure for themselves	Role: Sales Restricted User Privilege: Review Incentive Compensation Measure (Data) Resource: Incentive Compensation Measure
Incentive Compensation Participant	A Sales Restricted User can review incentive compensation participant for subordinates in their person and assignment security profile	Role: Sales Restricted User Privilege: Review Incentive Compensation Participant (Data) Resource: Incentive Compensation Participant
Incentive Compensation Participant	A Sales Restricted User can review incentive compensation participant for themselves	Role: Sales Restricted User Privilege: Review Incentive Compensation Participant (Data) Resource: Incentive Compensation Participant
Incentive Compensation Participant Attainment Balance	A Sales Restricted User can review incentive compensation participant attainment balance for subordinates in their person and assignment security profile	Role: Sales Restricted User Privilege: Review Incentive Compensation Participant Attainment Balance (Data) Resource: Incentive Compensation Participant Attainment Balance
Incentive Compensation Participant Attainment Balance	A Sales Restricted User can review incentive compensation participant attainment balance for themselves and the period enabled for reporting	Role: Sales Restricted User Privilege: Review Incentive Compensation Participant Attainment Balance (Data) Resource: Incentive Compensation Participant Attainment Balance
Incentive Compensation Participant Earning Balance	A Sales Restricted User can review incentive compensation participant earning balance for subordinates in their person and assignment security profile	Role: Sales Restricted User Privilege: Review Incentive Compensation Participant Earning Balance (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Incentive Compensation Participant Earning Balance
Incentive Compensation Participant Earning Balance	A Sales Restricted User can review incentive compensation participant earning balance for themselves and the period enabled for reporting	Role: Sales Restricted User Privilege: Review Incentive Compensation Participant Earning Balance (Data) Resource: Incentive Compensation Participant Earning Balance
Incentive Compensation Participant Subledger	A Sales Restricted User can review incentive compensation participant subledger for subordinates in their person and assignment security profile	Role: Sales Restricted User Privilege: Review Incentive Compensation Participant Subledger (Data) Resource: Incentive Compensation Participant Subledger
Incentive Compensation Participant Subledger	A Sales Restricted User can review incentive compensation participant subledger for themselves and the period enabled for reporting	Role: Sales Restricted User Privilege: Review Incentive Compensation Participant Subledger (Data) Resource: Incentive Compensation Participant Subledger
Incentive Compensation Payment Plan	A Sales Restricted User can review incentive compensation payment plan for subordinates in their person and assignment security profile	Role: Sales Restricted User Privilege: Review Incentive Compensation Payment Plan (Data) Resource: Incentive Compensation Payment Plan
Incentive Compensation Payment Plan	A Sales Restricted User can review incentive compensation payment plan for themselves	Role: Sales Restricted User Privilege: Review Incentive Compensation Payment Plan (Data) Resource: Incentive Compensation Payment Plan
Incentive Compensation Payment Transaction	A Sales Restricted User can review incentive compensation payment transaction for subordinates in their person and assignment security profile	Role: Sales Restricted User Privilege: Review Incentive Compensation Payment Transaction (Data) Resource: Incentive Compensation Payment Transaction
Incentive Compensation Payment Transaction	A Sales Restricted User can review incentive compensation payment transaction for themselves and the paysheet that is at least submitted	Role: Sales Restricted User Privilege: Review Incentive Compensation Payment Transaction (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Incentive Compensation Payment Transaction
Incentive Compensation Paysheet	A Sales Restricted User can review incentive compensation paysheet for subordinates in their person and assignment security profile	Role: Sales Restricted User Privilege: Review Incentive Compensation Paysheet (Data) Resource: Incentive Compensation Paysheet
Incentive Compensation Paysheet	A Sales Restricted User can review incentive compensation paysheet for themselves and the paysheet that is at least submitted	Role: Sales Restricted User Privilege: Review Incentive Compensation Paysheet (Data) Resource: Incentive Compensation Paysheet
Incentive Compensation Plan	A Sales Restricted User can review incentive compensation plan for subordinates in their person and assignment security profile	Role: Sales Restricted User Privilege: Review Incentive Compensation Plan (Data) Resource: Incentive Compensation Plan
Incentive Compensation Plan	A Sales Restricted User can review incentive compensation plan for themselves	Role: Sales Restricted User Privilege: Review Incentive Compensation Plan (Data) Resource: Incentive Compensation Plan
Incentive Compensation Plan Component	A Sales Restricted User can review incentive compensation plan component for subordinates in their person and assignment security profile	Role: Sales Restricted User Privilege: Review Incentive Compensation Plan Component (Data) Resource: Incentive Compensation Plan Component
Incentive Compensation Plan Component	A Sales Restricted User can review incentive compensation plan component for themselves	Role: Sales Restricted User Privilege: Review Incentive Compensation Plan Component (Data) Resource: Incentive Compensation Plan Component
Incentive Compensation Transaction	A Sales Restricted User can review incentive compensation transaction for subordinates in their person and assignment security profile	Role: Sales Restricted User Privilege: Review Incentive Compensation Transaction (Data) Resource: Incentive Compensation Transaction

Business Object	Policy Description	Policy Store Implementation
Incentive Compensation Transaction	A Sales Restricted User can review incentive compensation transaction for themselves and the period enabled for reporting	Role: Sales Restricted User Privilege: Review Incentive Compensation Transaction (Data) Resource: Incentive Compensation Transaction
Inventory Reservation	A Sales Restricted User can manage inventory reservation for the inventory organizations in which they can operate	Role: Service Request Contributor Privilege: Manage Inventory Reservation (Data) Resource: Inventory Organization Parameter
Legal Employer	A Sales Restricted User can choose legal employer for legal employers in their organization security profile	Role: Sales Restricted User Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Legal Entity File Import Activity	A Sales Restricted User can view legal entity file import activity object type for all legal entity file import activities of object type 'legal entity'	Role: Trading Community Import Batch Management Read Only Privilege: View Legal Entity File Import Activity Object Type (Data) Resource: Legal Entity File Import Activity
Legal Entity File Import Mapping	A Sales Restricted User can view legal entity file import mapping object type for all legal entity file import mappings of object type 'legal entity'	Role: Trading Community Import Batch Management Read Only Privilege: View Legal Entity File Import Mapping Object Type (Data) Resource: Legal Entity File Import Mapping
Legal Entity File Import Object	A Sales Restricted User can view legal entity file import object type for all legal entity file import objects of object type 'legal entity'	Role: Trading Community Import Batch Management Read Only Privilege: View Legal Entity File Import Object Type (Data) Resource: Legal Entity File Import Object
Location	A Sales Restricted User can choose location for locations in their location security profile	Role: Sales Restricted User Privilege: Choose Location (Data) Resource: Location
Location	A Sales Restricted User can manage location for all locations in the enterprise	Role: Service Request Contributor Privilege: Manage Location (Data) Resource: Location

Business Object	Policy Description	Policy Store Implementation
Location	A Sales Restricted User can manage location for all reference data sets in the enterprise	Role: Service Request Contributor Privilege: Manage Location (Data) Resource: Location
MDF Budget	A Sales Restricted User can delete marketing budget a member of an access group associated to the mdf budget with delete access and budget status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Budget (Data) Resource: MDF Budget
MDF Budget	A Sales Restricted User can update marketing budget a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget (Data) Resource: MDF Budget
MDF Budget	A Sales Restricted User can view marketing budget a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget (Data) Resource: MDF Budget
MDF Budget Team	A Sales Restricted User can delete marketing budget team a member of an access group associated to the mdf budget with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Sales Restricted User can update marketing budget team a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Sales Restricted User can view marketing budget team a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Claim	A Sales Restricted User can delete marketing claim a member of an access group associated to the mdf claim with delete or full access and the claim status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Claim (Data) Resource: MDF Claim
MDF Claim	A Sales Restricted User can update marketing claim approval details a member of an access group associated to the mdf claim with update or full access and the claim status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Claim Approval Details (Data) Resource: MDF Claim

Business Object	Policy Description	Policy Store Implementation
MDF Claim	A Sales Restricted User can update marketing claim details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Details (Data) Resource: MDF Claim
MDF Claim	A Sales Restricted User can update marketing claim partner details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Partner Details (Data) Resource: MDF Claim
MDF Claim	A Sales Restricted User can view marketing claim a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim (Data) Resource: MDF Claim
MDF Claim Settlement	A Sales Restricted User can delete marketing claim settlement a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Sales Restricted User can update marketing claim settlement a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Sales Restricted User can update marketing claim settlement details a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement Details (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Sales Restricted User can view marketing claim settlement a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Team	A Sales Restricted User can delete marketing claim team a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Team (Data) Resource: MDF Claim Team

Business Object	Policy Description	Policy Store Implementation
MDF Claim Team	A Sales Restricted User can update marketing claim team a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Claim Team	A Sales Restricted User can view marketing claim team a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Request	A Sales Restricted User can delete marketing fund request a member of an access group associated to the mdf request with delete access and the request status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request (Data) Resource: MDF Request
MDF Request	A Sales Restricted User can update marketing fund request approval details a member of an access group associated to the mdf request with update or full access and the request status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Approval Details (Data) Resource: MDF Request
MDF Request	A Sales Restricted User can update marketing fund request details a member of an access group associated to the mdf request with update or full access and the request status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Details (Data) Resource: MDF Request
MDF Request	A Sales Restricted User can update marketing fund request partner details a member of an access group associated to the mdf request with update or full access and request is in draft, returned, failed or withdrawn status and the request is created by an internal user	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Partner Details (Data) Resource: MDF Request
MDF Request	A Sales Restricted User can view marketing fund request a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request (Data) Resource: MDF Request
MDF Request Team	A Sales Restricted User can delete marketing fund request team a member of an access group associated to the mdf request with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request Team (Data) Resource: MDF Request Team
MDF Request Team	A Sales Restricted User can update marketing fund request team a member of an access	Role: Access Groups Enablement

Business Object	Policy Description	Policy Store Implementation
	group associated to the mdf request with update access	Privilege: Update Marketing Fund Request Team (Data) Resource: MDF Request Team
MDF Request Team	A Sales Restricted User can view marketing fund request team a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request Team (Data) Resource: MDF Request Team
Marketing Integration Campaign	A Sales Restricted User can delete marketing integration campaign a member of an access group associated to the marketing integration campaign with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Marketing Integration Campaign	A Sales Restricted User can update marketing integration campaign a member of an access group associated to the marketing integration campaign with update access	Role: Access Groups Enablement Privilege: Update Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign

Territory Management	Manages sales territories, territory proposals, and quotas.	View Sales Territory	Allows viewing of sales territories. A Territory is the jurisdiction of responsibility of a sales representative over a set of sales accounts.

Granted Role	Granted Role Description	Privilege	Privilege Description
Territory Management	Manages sales territories, territory proposals, and quotas.	View Sales Territory Proposal	Allows viewing of sales territory proposals, for example proposal name, description, and activation date.
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Export Sales Territory	Allows initiating the process of exporting territory definitions for offline review and editing.
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Import Sales Territory	Allows initiating the process of importing territory definitions that have been edited offline.
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Run CRM Export Process	This privilege would grant a user the ability to schedule CRM object to export to a file
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Run File Import Scheduler	Allows scheduling and monitoring the process that schedules file import activities.
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Run Import Territory Definitions Job	Allows importing of territories and related standard objects.
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Run Import Territory Extended Definitions Job	Allows importing of top level territory custom objects.
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Set Up CRM Objects for Export	This privilege would grant a user the ability to register CRM objects for Export
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	Set Up File Import Activity	Allows creating and maintaining import activities that contain process criteria, file mapping, and schedule to import external files containing business objects, such as customers and contacts, into staging tables.
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	View Sales Territory Export Status	Allows viewing the status of territory export processes.

Granted Role	Granted Role Description	Privilege	Privilege Description
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.	View Sales Territory Import Status	Allows viewing the status of territory import processes.
Trading Community Import Batch Management	Manages trading community data import batches.	Enter Trading Community Import Batch Information	Allows the creation of a trading community data import batch by entering batch definition parameters through user interface. If assigning, also assign the ability to view the trading community import batch information.
Trading Community Import Batch Management	Manages trading community data import batches.	Enter Trading Community Import Batch Process Information	Allows the specification of trading community import batch process information, such as the import process mode, the batch and registry deduplication parameters, address cleansing parameters, and acceptable error limit.
Trading Community Import Batch Management	Manages trading community data import batches.	Purge Trading Community Import Batch	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	Run Trading Community Import Batch Error Report	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	Run Trading Community Import Batch Process	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	View Trading Community Import Batch Details and Statistics	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	View Trading Community Import Batch Errors and Details	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	View Trading Community Import Batch Information	Not Available
View Item Redwood	Allows users to view item details.	Get Failure Condition Event Codes	Allow the query of asset failure condition event code using a service.
View Item Redwood	Allows users to view item details.	Get Item Attribute Control REST	Allows access to view operational attribute controls for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Get Item Lifecycle Phases Read Rest	Allows access to view Item Lifecycle Phases for a single item

Granted Role	Granted Role Description	Privilege	Privilege Description
			and attributes for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Get Item Status REST	Allows access to view item statuses for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Get Template REST	Allows access to view templates for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	Manage Material Planner	Allows definition and maintenance of material planners.
View Item Redwood	Allows users to view item details.	Manage Subscription Setup	Manage subscription setup
View Item Redwood	Allows users to view item details.	Set Up Receivables Payment Terms	Create payment terms to specify the due dates, discount dates, and installment details for customer open items.
View Item Redwood	Allows users to view item details.	View Procurement Buyers List of Values using REST Service	Allows access to REST services list of values for buyers that will be consumed cross pillars.
View Item Redwood	Allows users to view item details.	View Purchasing Hazard Classes List of Values using REST Service	Allows access to REST services list of values for hazard classes that will be consumed cross pillars.
View Item Redwood	Allows users to view item details.	View Purchasing UN Numbers List of Values using REST Service	Allows access to REST services list of values for UN numbers that will be consumed cross pillars.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Sales VP job role.

Business Object	Policy Description	Policy Store Implementation
Activity	A Sales VP can delete activity a member of an access group associated to the activity with delete access	Role: Access Groups Enablement Privilege: Delete Activity (Data) Resource: Activity

Business Object	Policy Description	Policy Store Implementation
Activity	A Sales VP can update activity a member of an access group associated to the activity with update access	Role: Access Groups Enablement Privilege: Update Activity (Data) Resource: Activity
Activity	A Sales VP can view activity a member of an access group associated to the activity	Role: Access Groups Enablement Privilege: View Activity (Data) Resource: Activity
Application Attachment	A Sales VP can read application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Contract View Access Across All Contracts Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment	A Sales Vp can view application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Sales VP Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment Category	A Sales VP can delete application attachment for all service categories that are visible to internal users	Role: Service Request Contributor Privilege: Delete Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales VP can read application attachment for all service categories that are visible to internal users	Role: Service Request Contributor Privilege: Read Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales VP can update application attachment for all service categories that are visible to internal users	Role: Service Request Contributor Privilege: Update Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Vp can delete application attachment category for all customer message attachments	Role: Sales VP Privilege: Delete Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Vp can delete application attachment category for all miscelleneous category attachments data	Role: Sales VP Privilege: Delete Application Attachment Resource: Application Attachment Category

Business Object	Policy Description	Policy Store Implementation
Application Attachment Category	A Sales Vp can update application attachment category for all customer message attachments	Role: Sales VP Privilege: Update Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Vp can update application attachment category for all miscelleneous category attachments data	Role: Sales VP Privilege: Update Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Vp can view application attachment category for all customer message attachments	Role: Sales VP Privilege: Read Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Sales Vp can view application attachment category for all miscelleneous category attachments data	Role: Sales VP Privilege: Read Application Attachment Resource: Application Attachment Category
Asset Export Object	A Sales VP can view asset export object for all asset export objects in the enterprise	Role: Sales Party Management Privilege: View Asset Export Object (Data) Resource: Asset Export Object
Asset Export Object	A Sales VP can view asset export object for all asset export objects in the enterprise	Role: Sales Party Review Privilege: View Asset Export Object (Data) Resource: Asset Export Object
Assignment Grade	A Sales Vp can choose assignment grade for grades in their grade security profile	Role: Sales VP Privilege: Choose Assignment Grade (Data) Resource: Assignment Grade
Business Unit	A Sales Vp can choose business unit for business units in their organization security profile	Role: Sales VP Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
CRM Asset	A Sales VP can delete asset a member of an access group associated to the asset with delete access	Role: Access Groups Enablement Privilege: Delete Asset (Data) Resource: CRM Asset

Business Object	Policy Description	Policy Store Implementation
CRM Asset	A Sales VP can update asset a member of an access group associated to the asset with update access	Role: Access Groups Enablement Privilege: Update Asset (Data) Resource: CRM Asset
CRM Asset	A Sales VP can view asset a member of an access group associated to the asset	Role: Access Groups Enablement Privilege: View Asset (Data) Resource: CRM Asset
Cases	A Sales VP can delete case header a member of an access group associated to the case with delete access	Role: Access Groups Enablement Privilege: Delete Case Header (Data) Resource: Cases
Cases	A Sales VP can update case header a member of an access group associated to the case with update access	Role: Access Groups Enablement Privilege: Update Case Header (Data) Resource: Cases
Cases	A Sales VP can view case header a member of an access group associated to the case	Role: Access Groups Enablement Privilege: View Case Header (Data) Resource: Cases
Classification Code File Import Activity	A Sales VP can view classification code file import activity object type for all classification code file import activities of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Activity Object Type (Data) Resource: Classification Code File Import Activity
Classification Code File Import Mapping	A Sales VP can view classification code file import mapping object type for all classification code file import mappings of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Mapping Object Type (Data) Resource: Classification Code File Import Mapping
Classification Code File Import Object	A Sales VP can view classification code file import object type for all classification code file import objects of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Object Type (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Classification Code File Import Object
Consumer File Import Activity	A Sales VP can view consumer file import activity object type for all consumer file import activities of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Activity Object Type (Data) Resource: Consumer File Import Activity
Consumer File Import Mapping	A Sales VP can view consumer file import mapping object type for all consumer file import mappings of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Mapping Object Type (Data) Resource: Consumer File Import Mapping
Consumer File Import Object	A Sales VP can view consumer file import object type for all consumer file import objects of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Object Type (Data) Resource: Consumer File Import Object
Contact File Import Activity	A Sales VP can view contact file import activity object type for all contact file import activities of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Activity Object Type (Data) Resource: Contact File Import Activity
Contact File Import Mapping	A Sales VP can view contact file import mapping object type for all contact file import mappings of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Mapping Object Type (Data) Resource: Contact File Import Mapping
Contact File Import Object	A Sales VP can view contact file import object type for all contact file import objects of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Object Type (Data) Resource: Contact File Import Object
Contract	A Sales VP can view contract for all business units	Role: Contract View Access Across All Contracts Privilege: View Contract (Data) Resource: Contract

Business Object	Policy Description	Policy Store Implementation
Contract	A Sales Vp can view contract for all business units	Role: Sales VP Privilege: View Contract (Data) Resource: Contract
Contract Note	A Sales VP can view contract note for notes that are not private or private notes where they are the author.	Role: Contract View Access Across All Contracts Privilege: View Contract Note (Data) Resource: Contract Note
Conversation	A Sales VP can delete conversation a member of an access group associated to the conversation with delete access	Role: Access Groups Enablement Privilege: Delete Conversation (Data) Resource: Conversation
Conversation	A Sales VP can update conversation a member of an access group associated to the conversation with update access	Role: Access Groups Enablement Privilege: Update Conversation (Data) Resource: Conversation
Conversation	A Sales VP can view conversation a member of an access group associated to the conversation	Role: Access Groups Enablement Privilege: View Conversation (Data) Resource: Conversation
Conversation Message	A Sales VP can delete conversation message a member of an access group associated to the conversation message with delete access	Role: Access Groups Enablement Privilege: Delete Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Sales VP can update conversation message a member of an access group associated to the conversation message with update access	Role: Access Groups Enablement Privilege: Update Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Sales VP can view conversation message a member of an access group associated to the conversation message	Role: Access Groups Enablement Privilege: View Conversation Message (Data) Resource: Conversation Message
Customer File Import Activity	A Sales VP can view customer file import activity object type for all customer file import activities of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Activity Object Type (Data) Resource: Customer File Import Activity

Business Object	Policy Description	Policy Store Implementation
Customer File Import Mapping	A Sales VP can view customer file import mapping object type for all customer file import mappings of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Mapping Object Type (Data) Resource: Customer File Import Mapping
Customer File Import Object	A Sales VP can view customer file import object type for all customer file import objects of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Object Type (Data) Resource: Customer File Import Object
Deal Registration Product	A Sales VP can manage deal registration product a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Product	A Sales VP can view deal registration product a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Summary	A Sales VP can update deal registration approval details a member of an access group associated to the deal registration with update or full access and deal is in pending approval status	Role: Access Groups Enablement Privilege: Update Deal Registration Approval Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales VP can update deal registration deal details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales VP can update deal registration deal details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales VP can update deal registration opportunity details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Deal Registration Summary
Deal Registration Summary	A Sales VP can update deal registration opportunity details a member of an access group associated to the deal registration with update access and deal is in pending approval or approved status	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales VP can update deal registration partner details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status and the deal is created by an internal user	Role: Access Groups Enablement Privilege: Update Deal Registration Partner Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Sales VP can view deal registration a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration (Data) Resource: Deal Registration Summary
Deal Registration Team	A Sales VP can manage deal registration team a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Team (Data) Resource: Deal Registration Team
Deal Registration Team	A Sales VP can view deal registration team a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Team (Data) Resource: Deal Registration Team
Department	A Sales Vp can choose department for departments in their organization security profile	Role: Sales VP Privilege: Choose Department (Data) Resource: Department
Express Report Definitions	A Sales VP can delete express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with delete access	Role: Access Groups Enablement Privilege: Delete Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Sales VP can update express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with update access	Role: Access Groups Enablement Privilege: Update Express Report (Data) Resource: Express Report Definitions

Business Object	Policy Description	Policy Store Implementation
Express Report Definitions	A Sales VP can view express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting	Role: Access Groups Enablement Privilege: View Express Report (Data) Resource: Express Report Definitions
Field Service Work Order	A Sales VP can delete field service work order a member of an access group associated to the field service work order with delete access	Role: Access Groups Enablement Privilege: Delete Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales VP can manage field service work order where they or their subordinate created the field service work order	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales VP can manage field service work order where they or their subordinate created the service request associated with the field service work order	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales VP can manage field service work order where they or their subordinate is a member of the field service work order account team	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales VP can manage field service work order where they or their subordinate is a member of the field service work order contact team	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales VP can manage field service work order where they or their subordinate is a member of the service request team associated with the field service work order	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales VP can manage field service work order where they or their subordinate is assigned to a field service work order	Role: Service Request Contributor Privilege: Manage Field Service Work Order (Data) Resource: Field Service Work Order

Business Object	Policy Description	Policy Store Implementation
Field Service Work Order	A Sales VP can update field service work order a member of an access group associated to the field service work order with update access	Role: Access Groups Enablement Privilege: Update Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Sales VP can view field service work order a member of an access group associated to the field service work order	Role: Access Groups Enablement Privilege: View Field Service Work Order (Data) Resource: Field Service Work Order
File Export Batch	A Sales VP can view file export batch for all export batches	Role: Sales Party Management Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Batch	A Sales VP can view file export batch for all export batches	Role: Sales Party Review Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Batch	A Sales Vp can view file export batch for all export batches	Role: Sales VP Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Object	A Sales Vp can manage file export object for all export unit test objects	Role: Sales VP Privilege: Manage Export Unit Test (Data) Resource: File Export Object
File Import Activity	A Sales VP can view standard file import activity object type for all standard file import activities that are accessible for trading community batch import management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Activity	A Sales Vp can view file import activity for all standard file import activities that are accessible for sales vp	Role: Sales VP Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Mapping	A Sales VP can view standard file import mapping object type for all standard file import	Role: Trading Community Import Batch Management

Business Object	Policy Description	Policy Store Implementation
	maps that are accessible for trading community batch import management duty	Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
File Import Mapping	A Sales Vp can view file import mapping for all standard file import maps that are accessible for sales vp	Role: Sales VP Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
Group Customer File Import Activity	A Sales VP can view group customer file import activity object type for all group customer file import activities of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Activity Object Type (Data) Resource: Group Customer File Import Activity
Group Customer File Import Mapping	A Sales VP can view group customer file import mapping object type for all group customer file import mappings of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Mapping Object Type (Data) Resource: Group Customer File Import Mapping
Group Customer File Import Object	A Sales VP can view group customer file import object type for all group customer file import objects of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Object Type (Data) Resource: Group Customer File Import Object
HR Job	A Sales Vp can choose hr job for all jobs in the enterprise	Role: Sales VP Privilege: Choose HR Job (Data) Resource: HR Job
Hierarchy File Import Activity	A Sales VP can view hierarchy file import activity object type for all hierarchy file import activities of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Activity Object Type (Data) Resource: Hierarchy File Import Activity
Hierarchy File Import Activity	A Sales VP can view standard file import activity object type for all standard file import activities that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type

Business Object	Policy Description	Policy Store Implementation
		Resource: Hierarchy File Import Activity
Hierarchy File Import Mapping	A Sales VP can view hierarchy file import mapping object type for all hierarchy file import mappings of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Mapping Object Type (Data) Resource: Hierarchy File Import Mapping
Hierarchy File Import Mapping	A Sales VP can view standard file import mapping object type for all standard file import maps that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: Hierarchy File Import Mapping
Hierarchy File Import Object	A Sales VP can view hierarchy file import object type for all hierarchy file import objects of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Object Type (Data) Resource: Hierarchy File Import Object
Hierarchy Node File Import Activity	A Sales VP can view hierarchy node file import activity object type for all hierarchy node file import activities of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Activity Object Type (Data) Resource: Hierarchy Node File Import Activity
Hierarchy Node File Import Activity	A Sales VP can view standard file import activity object type for all standard file import activities that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: Hierarchy Node File Import Activity
Hierarchy Node File Import Mapping	A Sales VP can view hierarchy node file import mapping object type for all hierarchy node file import mappings of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Mapping Object Type (Data) Resource: Hierarchy Node File Import Mapping
Hierarchy Node File Import Mapping	A Sales VP can view standard file import mapping object type for all standard file import maps that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type

Business Object	Policy Description	Policy Store Implementation
		Resource: Hierarchy Node File Import Mapping
Hierarchy Node File Import Object	A Sales VP can view hierarchy node file import object type for all hierarchy node file import objects of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Object Type (Data) Resource: Hierarchy Node File Import Object
Incentive Compensation Goal	A Sales Vp can manage incentive compensation goal for the business units for which they are authorized	Role: Sales VP Privilege: Manage Incentive Compensation Goal (Data) Resource: Business Unit
Incentive Compensation Measure	A Sales Vp can review incentive compensation measure for subordinates in their person and assignment security profile	Role: Sales VP Privilege: Review Incentive Compensation Measure (Data) Resource: Incentive Compensation Measure
Incentive Compensation Measure	A Sales Vp can review incentive compensation measure for themselves	Role: Sales VP Privilege: Review Incentive Compensation Measure (Data) Resource: Incentive Compensation Measure
Incentive Compensation Participant	A Sales Vp can review incentive compensation participant for subordinates in their person and assignment security profile	Role: Sales VP Privilege: Review Incentive Compensation Participant (Data) Resource: Incentive Compensation Participant
Incentive Compensation Participant	A Sales Vp can review incentive compensation participant for themselves	Role: Sales VP Privilege: Review Incentive Compensation Participant (Data) Resource: Incentive Compensation Participant
Incentive Compensation Participant Attainment Balance	A Sales Vp can review incentive compensation participant attainment balance for subordinates in their person and assignment security profile	Role: Sales VP Privilege: Review Incentive Compensation Participant Attainment Balance (Data) Resource: Incentive Compensation Participant Attainment Balance

Business Object	Policy Description	Policy Store Implementation
Incentive Compensation Participant Attainment Balance	A Sales Vp can review incentive compensation participant attainment balance for themselves and the period enabled for reporting	Role: Sales VP Privilege: Review Incentive Compensation Participant Attainment Balance (Data) Resource: Incentive Compensation Participant Attainment Balance
Incentive Compensation Participant Earning Balance	A Sales Vp can review incentive compensation participant earning balance for subordinates in their person and assignment security profile	Role: Sales VP Privilege: Review Incentive Compensation Participant Earning Balance (Data) Resource: Incentive Compensation Participant Earning Balance
Incentive Compensation Participant Earning Balance	A Sales Vp can review incentive compensation participant earning balance for themselves and the period enabled for reporting	Role: Sales VP Privilege: Review Incentive Compensation Participant Earning Balance (Data) Resource: Incentive Compensation Participant Earning Balance
Incentive Compensation Participant Subledger	A Sales Vp can review incentive compensation participant subledger for subordinates in their person and assignment security profile	Role: Sales VP Privilege: Review Incentive Compensation Participant Subledger (Data) Resource: Incentive Compensation Participant Subledger
Incentive Compensation Participant Subledger	A Sales Vp can review incentive compensation participant subledger for themselves and the period enabled for reporting	Role: Sales VP Privilege: Review Incentive Compensation Participant Subledger (Data) Resource: Incentive Compensation Participant Subledger
Incentive Compensation Payment Plan	A Sales Vp can review incentive compensation payment plan for subordinates in their person and assignment security profile	Role: Sales VP Privilege: Review Incentive Compensation Payment Plan (Data) Resource: Incentive Compensation Payment Plan
Incentive Compensation Payment Plan	A Sales Vp can review incentive compensation payment plan for themselves	Role: Sales VP Privilege: Review Incentive Compensation Payment Plan (Data) Resource: Incentive Compensation Payment Plan

Business Object	Policy Description	Policy Store Implementation
Incentive Compensation Payment Transaction	A Sales Vp can review incentive compensation payment transaction for subordinates in their person and assignment security profile	Role: Sales VP Privilege: Review Incentive Compensation Payment Transaction (Data) Resource: Incentive Compensation Payment Transaction
Incentive Compensation Payment Transaction	A Sales Vp can review incentive compensation payment transaction for themselves and the paysheet that is at least submitted	Role: Sales VP Privilege: Review Incentive Compensation Payment Transaction (Data) Resource: Incentive Compensation Payment Transaction
Incentive Compensation Paysheet	A Sales Vp can review incentive compensation paysheet for subordinates in their person and assignment security profile	Role: Sales VP Privilege: Review Incentive Compensation Paysheet (Data) Resource: Incentive Compensation Paysheet
Incentive Compensation Paysheet	A Sales Vp can review incentive compensation paysheet for themselves and the paysheet that is at least submitted	Role: Sales VP Privilege: Review Incentive Compensation Paysheet (Data) Resource: Incentive Compensation Paysheet
Incentive Compensation Plan	A Sales Vp can review incentive compensation plan for subordinates in their person and assignment security profile	Role: Sales VP Privilege: Review Incentive Compensation Plan (Data) Resource: Incentive Compensation Plan
Incentive Compensation Plan	A Sales Vp can review incentive compensation plan for themselves	Role: Sales VP Privilege: Review Incentive Compensation Plan (Data) Resource: Incentive Compensation Plan
Incentive Compensation Plan Component	A Sales Vp can review incentive compensation plan component for subordinates in their person and assignment security profile	Role: Sales VP Privilege: Review Incentive Compensation Plan Component (Data) Resource: Incentive Compensation Plan Component
Incentive Compensation Plan Component	A Sales Vp can review incentive compensation plan component for themselves	Role: Sales VP Privilege: Review Incentive Compensation Plan Component (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Incentive Compensation Plan Component
Incentive Compensation Transaction	A Sales Vp can review incentive compensation transaction for subordinates in their person and assignment security profile	Role: Sales VP Privilege: Review Incentive Compensation Transaction (Data) Resource: Incentive Compensation Transaction
Incentive Compensation Transaction	A Sales Vp can review incentive compensation transaction for themselves and the period enabled for reporting	Role: Sales VP Privilege: Review Incentive Compensation Transaction (Data) Resource: Incentive Compensation Transaction
Inventory Reservation	A Sales VP can manage inventory reservation for the inventory organizations in which they can operate	Role: Service Request Contributor Privilege: Manage Inventory Reservation (Data) Resource: Inventory Organization Parameter
Legal Employer	A Sales Vp can choose legal employer for legal employers in their organization security profile	Role: Sales VP Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Legal Entity File Import Activity	A Sales VP can view legal entity file import activity object type for all legal entity file import activities of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Activity Object Type (Data) Resource: Legal Entity File Import Activity
Legal Entity File Import Mapping	A Sales VP can view legal entity file import mapping object type for all legal entity file import mappings of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Mapping Object Type (Data) Resource: Legal Entity File Import Mapping
Legal Entity File Import Object	A Sales VP can view legal entity file import object type for all legal entity file import objects of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Object Type (Data) Resource: Legal Entity File Import Object

Business Object	Policy Description	Policy Store Implementation
Location	A Sales VP can manage location for all locations in the enterprise	Role: Service Request Contributor Privilege: Manage Location (Data) Resource: Location
Location	A Sales VP can manage location for all reference data sets in the enterprise	Role: Service Request Contributor Privilege: Manage Location (Data) Resource: Location
Location	A Sales Vp can choose location for locations in their location security profile	Role: Sales VP Privilege: Choose Location (Data) Resource: Location
MDF Budget	A Sales VP can delete marketing budget a member of an access group associated to the mdf budget with delete access and budget status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Budget (Data) Resource: MDF Budget
MDF Budget	A Sales VP can update marketing budget a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget (Data) Resource: MDF Budget
MDF Budget	A Sales VP can view marketing budget a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget (Data) Resource: MDF Budget
MDF Budget Team	A Sales VP can delete marketing budget team a member of an access group associated to the mdf budget with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Sales VP can update marketing budget team a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Sales VP can view marketing budget team a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget Team (Data) Resource: MDF Budget Team

Business Object	Policy Description	Policy Store Implementation
MDF Claim	A Sales VP can delete marketing claim a member of an access group associated to the mdf claim with delete or full access and the claim status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Claim (Data) Resource: MDF Claim
MDF Claim	A Sales VP can update marketing claim approval details a member of an access group associated to the mdf claim with update or full access and the claim status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Claim Approval Details (Data) Resource: MDF Claim
MDF Claim	A Sales VP can update marketing claim details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Details (Data) Resource: MDF Claim
MDF Claim	A Sales VP can update marketing claim partner details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Partner Details (Data) Resource: MDF Claim
MDF Claim	A Sales VP can view marketing claim a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim (Data) Resource: MDF Claim
MDF Claim Settlement	A Sales VP can delete marketing claim settlement a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Sales VP can update marketing claim settlement a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Sales VP can update marketing claim settlement details a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement Details (Data) Resource: MDF Claim Settlement

Business Object	Policy Description	Policy Store Implementation

Item Inquiry	Queries and views items in the enterprise.	Manage Trading Partner Item Reference	Allows access to manage trading partner item references for items.
Item Inquiry	Queries and views items in the enterprise.	Manage Unit of Measure	Allows configuration of UOMs, UOM classes, and definition of standard, interclass, and intraclass UOM conversions.
Item Inquiry	Queries and views items in the enterprise.	View Item	Allows access to product dashboard.
Item Inquiry	Queries and views items in the enterprise.	View Item Organization Association	Allows access to view item organization assignments.
Item Inquiry	Queries and views items in the enterprise.	View Item Relationship	Allows access to view item relationships.
Item Inquiry	Queries and views items in the enterprise.	View Product Management Search	Allows access to view Product Management Search.
Manage Customer Assets	Provides access to the Edit and View Customer Assets including the View Pages in the History Tab.	Export Asset Details	Allows exporting of asset details in the excel workbook.
Manage Customer Assets	Provides access to the Edit and View Customer Assets including the View Pages in the History Tab.	Manage Customer Assets	Allows creation and update of customer assets, related configurations and structures.
Manage Customer Assets	Provides access to the Edit and View Customer Assets including the View Pages in the History Tab.	Review Receiving Receipt Summary	Allows review of receipt summary information.
Manage Customer Assets	Provides access to the Edit and View Customer Assets including the View Pages in the History Tab.	View Inventory Transaction	The View Inventory transaction privilege is assigned to the predefined Oracle Manufacturing Cloud job role Production Supervisor. This privilege is used to view inventory transaction details from the Manufacturing work area by using an inventory transaction number. This privilege can't be used as a standalone privilege to view inventory transactions.
Manage Customer Assets	Provides access to the Edit and View Customer Assets including the View Pages in the History Tab.	View Maintenance Quality Inspections	Allows access to query the Maintenance work order related quality inspections.

Granted Role	Granted Role Description	Privilege	Privilege Description
Manage Customer Assets	Provides access to the Edit and View Customer Assets including the View Pages in the History Tab.	View Maintenance Work Orders	Allows query and view of work order details.
Manage Customer Assets	Provides access to the Edit and View Customer Assets including the View Pages in the History Tab.	View Purchase Order	Allows a user to review a purchase order.
Manage Customer Assets	Provides access to the Edit and View Customer Assets including the View Pages in the History Tab.	View Requisition	Allows users to view requisition details.
Manage Customer Assets	Provides access to the Edit and View Customer Assets including the View Pages in the History Tab.	View Sales Order	Allows viewing sales orders.
Manage User Account	Manages user roles.	Copy Personal Data to LDAP	Allows copy of worker personal data to LDAP
Manage User Account	Manages user roles.	Manage User Account	Allows access to Manage User Account.
Manage User Account	Manages user roles.	Manage User Account and My Account	Allows access to the page components that are common to My Account and Manage User Account.
Manage User Account	Manages user roles.	Reset Password	Allows reset password links to be emailed to users.
Manage Users	Creates and updates users and assigns roles to users.	Manage User Details	Allows management of user account information.
Pricing Negotiation Limited	Negotiate limited pricing for a transaction.	Negotiate Pricing Details Limited	Negotiate some of the pricing details for a transaction.
Product Search	Manages product searches.	Access Product Development Configurations Using a REST Service	Permits access to configure data in Product Development using REST services, including master organization setup.
Product Search	Manages product searches.	GET Product Management Index REST	Allows access to view indexed attributes.
Product Search	Manages product searches.	Get Item Index Available Attributes REST	Allows access to view available attributes for item.
Product Search	Manages product searches.	Get Search View REST	Allows query of search views.

Granted Role	Granted Role Description	Privilege	Privilege Description
Product Search	Manages product searches.	Manage Search View REST	Allows access to view and manage search views.
Product Search	Manages product searches.	Manage System Searches	Allows users to manage HCM system searches.
Product Search	Manages product searches.	Use REST Service - Saved Searches	Allows the user to call all methods associated with the Saved Searches REST Service.
Product Search	Manages product searches.	View Product Management Search	Allows access to view Product Management Search.
Resource Administration	Administers resource information.	Add Trading Community Resource to My Social Network	Allows the addition of a resource to their social network.
Resource Administration	Administers resource information.	Administer Sandbox	Allows administration of all sandboxes.
Resource Administration	Administers resource information.	Contact Trading Community Resource	Allows emailing, calling, and instant messenging a resource. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	Edit Trading Community Resource Profile	Allows the update of resource profile information. If assigning, also assign the ability to view the trading community resource profile.
Resource Administration	Administers resource information.	Enter Trading Community Resource Information	Allows the specification of resource information.
Resource Administration	Administers resource information.	Identify Trading Community Person as a Trading Community Resource	Allows the identification of existing people as resources.
Resource Administration	Administers resource information.	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Resource Administration	Administers resource information.	Manage Application Attachment Category	Manage application attachment categories
Resource Administration	Administers resource information.	Manage Application Attachment Entity	Manage application attachment entities

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Application Common Lookup	Not Available
Resource Administration	Administers resource information.	Manage Application Data Security Policy	Allows management of security policies that restrict access to functions and data, such as preventing particular values from being accessed in a chart of account segment.
Resource Administration	Administers resource information.	Manage Application Database Resource	Manage application database resources for data security
Resource Administration	Administers resource information.	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Resource Administration	Administers resource information.	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Resource Administration	Administers resource information.	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Resource Administration	Administers resource information.	Manage Application Message	Manage an end-user message, shown in the User Interface. Messages can have different types, such as Error, Warning, Information. Messages are translated and can be re-used across products. Exampe: "File not found", "Table '&TABLE' does not exist".
Resource Administration	Administers resource information.	Manage Application Profile Category	Manage application profile option categories
Resource Administration	Administers resource information.	Manage Application Profile Option	Manage Application Profile Options: Manage the level the value can be changed
Resource Administration	Administers resource information.	Manage Application Reference Data Set	Manage Application Reference Data set. Maintain reference data set attributes.
Resource Administration	Administers resource information.	Manage Application Reference Data Set Assignment	Manage Application Reference Data Set Assignments. Create and edit reference data set assignments.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Resource Administration	Administers resource information.	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Resource Administration	Administers resource information.	Manage Application Taxonomy	Manage hierarchical classification of Applications Taxonomy tree. A node in the Application Taxonomy Tree can be a Product Line, Product Family, Product or Logical Business Area.
Resource Administration	Administers resource information.	Manage Customer Data Management Foundation Custom Objects	Allows access to custom objects in Customer Data Management Foundation.
Resource Administration	Administers resource information.	Manage Goal Management Notifications	Manage Goal Management Notifications
Resource Administration	Administers resource information.	Manage My Application Profile Values	Manage My Application Profile Values. Access to manage profile values at the user level.
Resource Administration	Administers resource information.	Manage Person Talent Profile	Allows management of talent profile for a person.
Resource Administration	Administers resource information.	Manage Talent Education Establishment	Allows management of talent educational establishments.
Resource Administration	Administers resource information.	Manage Talent Notifications	Allows management of talent management notifications.
Resource Administration	Administers resource information.	Manage Talent Profile Content Item	Allows management of talent profile content items.
Resource Administration	Administers resource information.	Manage Talent Profile Rating Model	Allows management of talent profile rating models.
Resource Administration	Administers resource information.	Manage Talent Profile Sources	Allows management of talent profile subscribers.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Trading Community Resource	Allows the specification of resources for any employees or partner members who are to be associated to leads, opportunities, and territories and given sales credits or compensated for that work.
Resource Administration	Administers resource information.	Manage Trading Community Resource Address	Allows the management of resource addresses. If assigning, also assign the ability to view the trading community resource address.
Resource Administration	Administers resource information.	Manage Trading Community Resource Contact Information	Allows the management of resource contact information. If assigning, also assign the ability to view the trading community resource contact information.
Resource Administration	Administers resource information.	Manage Trading Community Resource History	Allows the management of resource historical information. If assigning, also assign the ability to view the trading community resource history.
Resource Administration	Administers resource information.	Manage Trading Community Resource Lookups	Allows the specification of lookup values that provide choices when defining resources, such as party usages available for resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note	Allows the specification of resource notes. If assigning also assign the ability to view the trading community resource note.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Descriptive Flexfields	Allows the specification of additional fields which enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type	Allows the specification of note types, such as person details, to categorize notes entered for resources. When mapped, note type values are limited to resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type Mapping	Allows the specification of the mapping that provides a tailored list of note type values for resources. When no mapping is

Granted Role	Granted Role Description	Privilege	Privilege Description
			specified, note type values mapped to the object Note are used.
Resource Administration	Administers resource information.	Manage Trading Community Resource Organization Memberships	Allows the specification of resource organization members. If assigning, also assign the ability to view the trading community resource organization memberships.
Resource Administration	Administers resource information.	Manage Trading Community Resource Role Assignments	Allows the management of resource role assignments. If assigning also assign the ability to view the trading community resource role assignments.
Resource Administration	Administers resource information.	Manage Trading Community Resource Sales Representative Information	Allows the management of resource saleperson setup information. If assigning, also assign the ability to view the trading community resource sales representative information.
Resource Administration	Administers resource information.	Manage Trading Community Resource Skills	Allows the management of resource skills information. If assigning, also assign the ability to view the trading community resource skills.
Resource Administration	Administers resource information.	Manage Trading Community Resource Social Network	Allows the management of a resource social network. If assigning, also assign the ability to view the trading community resource social network.
Resource Administration	Administers resource information.	Manage Trading Community Resource Team Memberships	Allows the management of resource team members. If assigning also assign the ability to view the trading community resource team memberships.
Resource Administration	Administers resource information.	Remove Trading Community Resource	Allows the removal of resources.
Resource Administration	Administers resource information.	Reset Password	Allows reset password links to be emailed to users.
Resource Administration	Administers resource information.	Search Trading Community Resource	Allows the search of resources.
Resource Administration	Administers resource information.	Upload Trading Community Resource Picture	Allows the upload of resource pictures. If assigning, also

Granted Role	Granted Role Description	Privilege	Privilege Description
			assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Administration Link	Privilege to view administration link in UI shell
Resource Administration	Administers resource information.	View Trading Community Resource Address	Allows viewing of resource addresses. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Administration Detail Information	Allows viewing of resource administration setup information.
Resource Administration	Administers resource information.	View Trading Community Resource Collaboration Information	Allows viewing of resource social network information.
Resource Administration	Administers resource information.	View Trading Community Resource Contact Information	Allows viewing of resource contact information.
Resource Administration	Administers resource information.	View Trading Community Resource Details	Allows viewing of resource basic information, such as name, primary phone, primary address, and primary e-mail.
Resource Administration	Administers resource information.	View Trading Community Resource History	Allows viewing of archived resource information.
Resource Administration	Administers resource information.	View Trading Community Resource Note	Allows viewing of resource notes. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Organization Memberships	Allows viewing of sales, marketing, and partner organization information.
Resource Administration	Administers resource information.	View Trading Community Resource Overview Information	Allows viewing of an overview for partner, marketing, and sales organization transaction information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Profile	Allows viewing of resource profile information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Role Assignments	Allows viewing of resource role assignments. If assigning, also

Granted Role	Granted Role Description	Privilege	Privilege Description
			assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Sales Representative Information	Allows viewing of salesperson setup information, such as sales credits.
Resource Administration	Administers resource information.	View Trading Community Resource Skills	Allows viewing of resource skills information, such as language, competencies, and product expertise. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Social Network	Allows viewing of a resource's social network.
Resource Administration	Administers resource information.	View Trading Community Resource Team Memberships	Allows viewing of resource team memberships. If assigning, also assign the ability to view trading community resource details.
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Add Adhoc Bill Lines	Allows adding adhoc bill lines
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Adjust Allowances, Estimates, and Commitments	Adjust quantity or amount for an allowance, estimate, or commitment for a period.
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Amend Subscription	Amend a subscription
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Cancel Subscription	Cancel a subscription

Granted Role	Granted Role Description	Privilege	Privilege Description
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Change Subscription User Status	Change the subscription user status
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Close Subscription	Close a subscription
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Create Credit Memo	Allows creation of credit memo from subscription management
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Create Subscription	Create a subscription
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Delete Subscription	Delete a subscription
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Edit Subscription	Edit a subscription
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Hold Subscription	Apply and remove hold on a subscription

Granted Role	Granted Role Description	Privilege	Privilege Description
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Import Maintenance Programs	Allows import of maintenance programs.
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Ad-hoc True-ups	Mange Ad-hoc True-up values for an estimate period
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Balance Register	Manage balance register operations
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Customer Assets	Allows creation and update of customer assets, related configurations and structures.
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Meter Reading History	Allows the management of meter reading history.
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Meters	Allow the creation and update of meters.
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Subscription Processes	Manage subscription scheduled processes

Granted Role	Granted Role Description	Privilege	Privilege Description
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Subscription Usage Event Dashboard	Manages the subscription usage event dashboard.
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Subscription Work Area	Manage subscription work area
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Subscription Workload	Manage subscription workload
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Preview Receivables Invoice	Print Preview a Receivables invoice.
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Preview Subscription	Preview the subscription information
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Process Order Management Updates for Subscriptions	Process order management updates for subscriptions
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Process Subscription Installed Base Updates	Process install base updates of a subscription

Granted Role	Granted Role Description	Privilege	Privilege Description
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Record Meter Readings	Allows the recording of meter readings.
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Renew Subscription	Renew a subscription
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Search Subscriptions	Search subscriptions
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Suspend Subscription	Suspend and resume a subscription
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Update Prices	Updates the subscription product prices by adding charge adjustments
Subscription Amendment	Amends approved subscriptions.
