

Oracle® Banking Digital Experience

Content Upload Guide

Release 25.1.0.0.0

G38586-01

July 2025

ORACLE®

Copyright © 2015, 2025, Oracle and/or its affiliates.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Preface

- [Purpose](#)
- [Audience](#)
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Conventions](#)
- [Related Resources](#)
- [Screenshot Disclaimer](#)
- [Acronyms and Abbreviations](#)

Purpose

This guide is designed to help acquaint you with the Oracle Banking application. This guide provides answers to specific features and procedures that the user need to be aware of the module to function successfully.

Audience

This document is intended for the following audience:

- Customers
- Partners

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and](#)

Bulletins. All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
<code>monospace</code>	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Resources

For more information on any related features, refer to the following documents:

- [Oracle Banking Digital Experience Installation Manuals](#)
- [Oracle Banking Digital Experience Licensing Manuals](#)

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

Acronyms and Abbreviations

The list of the acronyms and abbreviations used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description
OBDX	Oracle Banking Digital Experience

1

Content Upload Configuration (Day 1)

- [Creating folder for holding files](#)
This topic describes the systematic instruction to **Creating folder for holding files** option.
- [Creating Global Database Variable](#)
This topic describes the systematic instruction to **Creating Global Database Variable** option.
- [Creating Procedure](#)
This topic describes the systematic instruction to **Creating Procedure** option.
- [Verifying DB State Before Procedure Execution](#)
This topic describes the systematic instruction to **Verifying DB State Before Procedure Execution** option.
- [Executing Procedure](#)
This topic describes the systematic instruction to **Executing Procedure** option.
- [Verifying DB State After Procedure Execution](#)
This topic describes the systematic instruction to **Verifying DB State After Procedure Execution** option.
- [Delete Created Directory, Variable And Procedure](#)
This topic describes the systematic instruction to **Delete Created Directory, Variable And Procedure** option.

1.1 Creating folder for holding files

This topic describes the systematic instruction to **Creating folder for holding files** option.

1. Create a directory (Example - '/scratch/contents') on server where db is installed. This directory will hold files which are to be uploaded.
2. Copy files in the directory created in above step.

Note:

We are not providing files out of the box. Please provide files for different documents as per your requirement. Makes sure that proper filenames use during procedure execution (Refer to **Executing Procedure** - step 3 column **Proc Execution Statement** for more detail)

1.2 Creating Global Database Variable

This topic describes the systematic instruction to **Creating Global Database Variable** option.

1. Login into database using sys user.
2. Create db variable (CONTENT_FILES) as mentioned below:
create or replace directory CONTENT_FILES as '/scratch/contents';

3. Granting access to schema (OBDXSCHEMA – Example- OBDX_DBAUTH181IT) for variable created in step 2.
GRANT READ, WRITE ON DIRECTORY CONTENT_FILES TO &&schema_name;

1.3 Creating Procedure

This topic describes the systematic instruction to **Creating Procedure** option.

1. Login into database using schema user (OBDXSCHEMA).
 2. Compile following procedure.
- **For Feedback :**
Pre- requisites before compiling below procedure

Execute below steps to make Scale(Rating) icons available for Feedback Module.

Note:

The images can be found at below location : clip/trunk/core/channel/images/feedback.

```
Insert Query for DIGX_CM_CONTENT
TableInsert into DIGX_CM_CONTENT
(ID,PARTY_ID,DOCUMENT_CHECKLIST_ID,TITLE,MIME_TYPE,CONTENT_CATEGORY,
CONTENT_TYPE,FILE_CONTENT,CONTENT_SIZE,SHARED_FLAG,OBJECT_VERSION_NUMBER,
CREATED_BY,CREATION_DATE,LAST_UPDATED_BY,LAST_UPDATE_DATE,OBJECT_STATUS)
values ('${contentId1}',null,null,'heart-fill.svg','image/svg',null,null,
null,'','Y',1,'superadmin',sysdate,'superadmin',sysdate,null);
```

```
Insert into DIGX_CM_CONTENT
(ID,PARTY_ID,DOCUMENT_CHECKLIST_ID,TITLE,MIME_TYPE,CONTENT_CATEGORY,
CONTENT_TYPE,FILE_CONTENT,CONTENT_SIZE,SHARED_FLAG,OBJECT_VERSION_NUMBER,
CREATED_BY,CREATION_DATE,LAST_UPDATED_BY,LAST_UPDATE_DATE,OBJECT_STATUS)
values ('${contentId2}',null,null,'star.png','image/jpeg',null,null,
null,'','Y',1,'superadmin',sysdate,'superadmin',sysdate,null);
```

```
Insert into DIGX_CM_CONTENT
(ID,PARTY_ID,DOCUMENT_CHECKLIST_ID,TITLE,MIME_TYPE,CONTENT_CATEGORY,
CONTENT_TYPE,FILE_CONTENT,CONTENT_SIZE,SHARED_FLAG,OBJECT_VERSION_NUMBER,
CREATED_BY,CREATION_DATE,LAST_UPDATED_BY,LAST_UPDATE_DATE,OBJECT_STATUS)
values ('${contentId3}',null,null,'thumbs-up.svg','image/jpeg',null,null,
null,'','Y',1,'superadmin',sysdate,'superadmin',sysdate,null);
```

“Kindly Refer this folder location for all the three icons to be used in below steps:

[clip\core\channel\images\feedback]”

Update the content in digx_fd_scale table.

```
update digx_fd_scale set content_id='${contentId1}' where
determinant_value in ('*', 'OBDX_BU') and id='1';
```

```
update digx_fd_scale set content_id='${contentId2}' where
determinant_value in ('*', 'OBDX_BU') and id='2';
update digx_fd_scale set content_id='${contentId3}' where
determinant_value in ('*', 'OBDX_BU') and id='3';
```

- **Procedure:**

create or replace procedure load_file_to_content(p_file_path in varchar2, p_file_name in varchar2, p_content_id in varchar2) as

```
l_blob blob; l_file_content bfile := bfilename(p_file_path,
p_file_name);begin  update DIGX_CM_CONTENT set FILE_CONTENT =
empty_blob() WHERE ID = p_content_id;      SELECT FILE_CONTENT into l_blob FROM
DIGX_CM_CONTENT WHERE ID = p_content_id;      dbms_lob.open(l_file_content,
dbms_lob.lob_readonly); dbms_lob.open(l_blob,
dbms_lob.lob_readwrite); dbms_lob.loadfromfile(dest_lob =>
l_blob,
src_lob => l_file_content, amount => dbms_lob.getlength(l_file_content));
dbms_lob.close(l_file_content); dbms_lob.close(l_blob); commit;end;/
```

1.4 Verifying DB State Before Procedure Execution

This topic describes the systematic instruction to **Verifying DB State Before Procedure Execution** option.

1. Login into database using schema (OBDXSCHEMA) user.
 2. Confirm data by executing below queries; before executing day1 scripts.
- **For Feedback :**

```
select file_content from DIGX_CM_CONTENT where ID IN
(
' '${contentId1} ', ' '${contentId2} ', ' '${contentId3}'
);
```

Note:

All cells should be null or with empty BLOB.

1.5 Executing Procedure

This topic describes the systematic instruction to **Executing Procedure** option.

1. Login into database using schema user (OBDXSCHEMA).
2. Template for procedure call is as given below:
 - **For Feedback:**

```
begin
load_file_to_content(<Variable name for File's registered path>,
```

```
        <Files' Name>,<Content ID>);  
end; /
```

3. Execute commands given under column **Proc Execution Statement**.
 - **For Feedback Proc Execution Statement:**

Table 1-1 Feedback

File Name	Proc Execution Statement
Heart-fill.svg	begin load_file_to_content('CONTENT_FILES','heart-fill.svg', '\${contentId1}');end; /
Star.png	beginload_file_to_content('CONTENT_FILES','star.png', '\${contentId2}');end; /
Thumbs-up.svg	beginload_file_to_content('CONTENT_FILES','thumbs-up.svg ', '\${contentId3}');end; /

1.6 Verifying DB State After Procedure Execution

This topic describes the systematic instruction to **Verifying DB State After Procedure Execution** option.

1. Login into database using schema user (OBDXSCHEMA).
 2. Confirm date if the data is properly inserted into DB by executing below queries.
- **For Feedback**

```
select file_content from DIGX_CM_CONTENT where ID IN (' '${contentId1} ',  
' '${contentId2} ', ' '${contentId3} ');
```

Note:

All cells should contain BLOB.

1.7 Delete Created Directory, Variable And Procedure

This topic describes the systematic instruction to **Delete Created Directory, Variable And Procedure** option.

1. Delete the directory variable, created in topic [Creating Global Database Variable](#) - step 2 (with sys user). drop directory CONTENT_FILES;
 2. Delete the directory, created in topic [Creating folder for holding files](#)- step 1.
 3. Drop the procedure, created in topic [Creating Procedure](#).
- **For Feedback**

```
drop procedure load_file_to_content;
```

2

ATM/Branch Locator

- [Maintaining Default Radius](#)

This topic provides information on **Maintaining Default Radius**.

2.1 Maintaining Default Radius

This topic provides information on **Maintaining Default Radius**.

Default Radius of ATM/Branch Search is 2.5 Kms which can be changed by updating the value of `DEFAULT_SEARCH_RADIUS` in `digx_fw_config_all_b`. The updated value will be in effect post server restart.
