Preface

Purpose

This guide is designed to help acquaint you with the Oracle Banking application. This guide provides answers to specific features and procedures that the user need to be aware of the module to function successfully.

Audience

This document is intended for the following audience:

- Customers
- Partners

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Resources

For more information on any related features, refer to the following documents:

- Oracle Banking Digital Experience Installation Manuals
- Oracle Banking Digital Experience Licensing Manuals

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

Acronyms and Abbreviations

The list of the acronyms and abbreviations used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description
OBDX	Oracle Banking Digital Experience

Basic Actions

Most of the screens contain icons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

Table 2 Basic Actions and Descriptions

Action	Description
Back	In case you missed to specify or need to modify the details in the previous segment, click Back to navigate to the previous segment.
Cancel	Click Cancel to cancel the operation input midway without saving any data. You will be alerted that the input data would be lost before confirming the cancellation.
Next	On completion of input of all parameters, click Next to navigate to the next segment.
Save	On completion of input of all parameters, click Save to save the details.
Save & Close	Click Save & Close to save the data captured. The saved data will be available in View Business Product with <i>In Progress</i> status. You can work on it later by picking it from the View Business Product .
Submit	On completing the input of all parameters, click Submit to proceed with executing the transaction.
Reset	Click Reset to clear the data entered.
Refresh	Click Refresh to update the transaction with the recently entered data.
Download	Click Download to download the records in PDF or XLS format.

Symbols and Icons

Accounts

This topic describes how this application provides banks a platform to offer customers a rich online banking experience.

Current and savings accounts are the most basic and critical products of retail banking. Most banking customers hold either a current or a savings account with their banks. Banks, in turn, encourage the use of current or savings accounts as it results in a higher profit margin for the bank.

This application provides a platform by which banks are able to offer their customers an enriching online banking experience in performing activities on their accounts.

Through the online banking application, customers can perform various activities on their accounts. Customers can view account balances and statements, initiate service requests and perform other inquiries as well as perform financial transactions on their accounts.

Features Supported In the Application:

The retail accounts module of the application supports the following features:

- Overview Widget
- Current & Savings Accounts Summary
- Current & Savings Account Details
- Debit Card Limits
- Apply for New Debit Card
- Block/ Unblock Debit Card
- Upgrade Debit Card
- Update Debit Card Limits
- Re-issue Debit Card
- Request for new Debit Card PIN
- Reset Debit Cards PIN
- Cheque Book Request
- Cheque Status Inquiry
- Stop/Unblock Cheque
- View Account Statement
- E-Statement Subscription
- Request Statement
- Download Pre-Generated Statements
- Sweep-In

Pre-Requisites

Transaction access is provided to retail users

 CASA (Current and Savings Account) accounts are maintained in the host system under a party ID mapped to the user

Note:

In application

- Account searchable drop-down will allow user to search the account number basis on the Account Number, Account Name, or Account Currency or Branch Code.
- 2. Bank can configure the fields to be shown as additional values in the accounts drop-down.
- 3. International Bank Account Number (IBAN) is now available in account searchable drop-down in place of current and savings account (CASA) number.

1.1 Overview Widget

This topic describes the Overview widget, which displays the customer's holdings across various account types, including Current and Savings Accounts, Term Deposits, Loans, Credit Cards, and Investments.

The Small & Medium Business dashboard page displays an overview of the customer's holdings with the bank as well as links to various transactions offered to the customer. The **Overview** widget displays the customer's holdings in each account type such as Current and Savings Accounts, Term Deposits, Loans, Credit Cards, and Investments. It is a container and user can scroll from left to right, right to left. Each relationship card displays details specific to that account type. One such example is that of Current & Savings accounts.

On clicking on account type **Current & Savings card**, details of the current and savings accounts held with the bank are displayed on next page. The Current & Savings Accounts summary page provides users with a holistic view of all their both Islamic and Conventional accounts along with the basic details of each current & savings account.

General details such as the total count of current & savings accounts and the total current balance, are also displayed.

On Summary page the basic details of individual accounts are displayed as record. Each record displays basic information of the account which comprises of the account number, Available Balance, Current Balance, Product Name, Status and the **More Actions** menu.

Note:

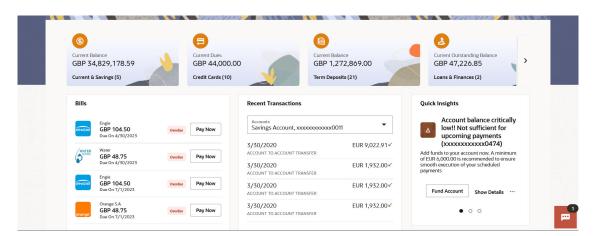

The Overview widget is available on both desktop and mobile (responsive) view.

If the Small & Medium Business user does not have any Current & Savings accounts, system displays the text message and the card which re-directs user to the origination flow to apply for a CASA account.

On the Dashboard, click Overview widget, and then click Current and Savings card.
 The Current & Savings Accounts Overview screen appears.

Figure 1-1 Overview widget

2

Current & Savings Accounts Summary

This topic describes the Current & Savings Accounts summary page, which provides users with a comprehensive overview of all their current and savings accounts held with the bank.

The Current & Savings Accounts summary page provides users with a holistic view of all their current and savings accounts held with the bank.

All the Current & Savings accounts of the user are listed as records. Each record comprises of information such as account number, status (only in case of dormant accounts), account nickname (if assigned), product name, current balance, and available balance. Click on the specific account to view further details of that account or view the summary of transactions undertaken through that account.

Note:

- 1. If the retail user does not have any Current & Savings accounts, system displays the text message and the card which re-directs user to the origination flow to apply for a CASA account. If the user does not have any Current & Savings accounts, system displays the text message and the card which re-directs user to the origination flow to apply for a CASA account.
- 2. The left swipe and Long Press gesture is implemented on mobile and tablets devices.
 - Long press gesture Users can now press and hold down on a screen for an extended duration, which displays additional options or actions. This feature is available on Account Listing, which triggers Cheque Book Request, Request Statement actions.

The **More Actions** menu on the right top corner of the page lists the relevant allowed actions based on the module. The user can also navigate to other Current and Savings account related screens from the **More Actions** menu provided on the screen.

Utilizing the **Manage Columns** feature, users are empowered to tailor their display preferences to suit their individual needs. This includes the ability to handpick the columns they wish to see and rearrange them in the order that best aligns with their personal preferences. These customized preferences will be securely saved and persist for all subsequent logins, ensuring a seamless and personalized experience each time they access the platform.

Note:

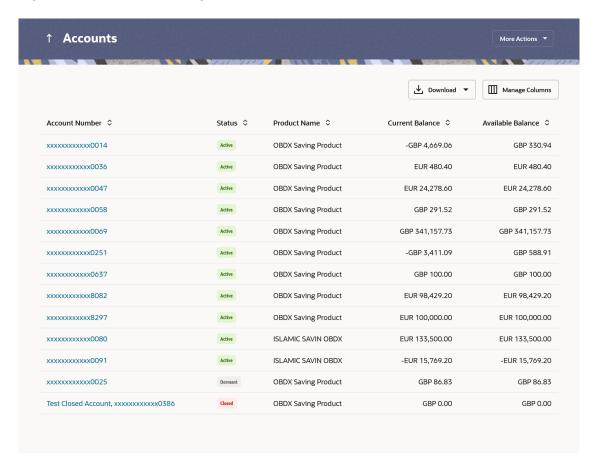

- The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
- 2. The column preferences setup by the user will be saved for future reference i.e. in case the user revisits this screen, the preferred columns will only be displayed in the table.

Perform anyone of the following navigation to access the **Current and Savings Summary** screen.

- From the Dashboard, click Toggle menu, click Menu, then click Accounts, and then click Current and Savings tab.
- From the Dashboard, click Overview widget, click Current and Savings card.
- From the Search bar, type Current & Savings Current & Savings and press Enter.
- Access through the Current and Savings tab available on footer of all pages.

The **Accounts** summary screen appears.

Figure 2-1 Current & Savings Accounts

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 2-1 Current & Savings Accounts - Summary - Field Description

Field Name	Description
Account Number	The account number in masked format.
	Click on the link to view the details or transactions summary of the account.
Nickname	The account nickname will be displayed under the Account Number column if a nickname is assigned to the account.
Status	If the account is in dormant state, the status tag 'Dormant' will be displayed against the account.

The summary page will only list active and dormant Current & Savings accounts.

Product Name	The name of the CASA product.
Current Balance	The current balance in the account.
Available Balance	The available balance in the account.

Perform one of the following actions:

- Click the **More Actions** menu to access other Current and Savings account related transactions.
- Click the Download icon to download the records in CSV & PDF format.
- Click the manage Columns icon to setup a column preference by rearranging or removing columns.

Perform one of the following actions:

- Click Apply to apply the new changes to the table.
- Click Reset to clear the data entered.

Current & Savings Account Details

This topic describes the account details screen and the pertinent information it displays for current and savings accounts.

The account details screen displays important information pertaining to a current or savings account such as the account holding pattern and the names of all the account holders, the current status of the account and the branch in which the account is held along with details on various balances and limits applicable on the account. The details are displayed under four main section **Account Details, Recent Transactions, Debit Cards**, and **Additional Information**. To navigate between the different sections, **Recent Transactions, Debit Cards**, and **Additional Information** the user can use the bookmark options available on top right corner.

The **Account Details** section provide general information about the account such as the current balance, nickname, status of the account and product name, unclear funds, and overdraft limit. The **Recent Transactions** sections displays the debit and credit entries along with each transaction amount and reference details. The **Debit Cards** section lists all the Debit Card/s linked to the account in the card form and also to apply for a new debit card on any of their accounts. The **Additional Information** section displays the account holding pattern and the names of all the account holders, the branch in which the account is held along with details on various balances and limits applicable on the account. It has feature to generate the QR to receive payment. Users can account details via a QR code, so that within-bank account holders can initiate payments using the Scan and Pay QR code functionality.

Note:

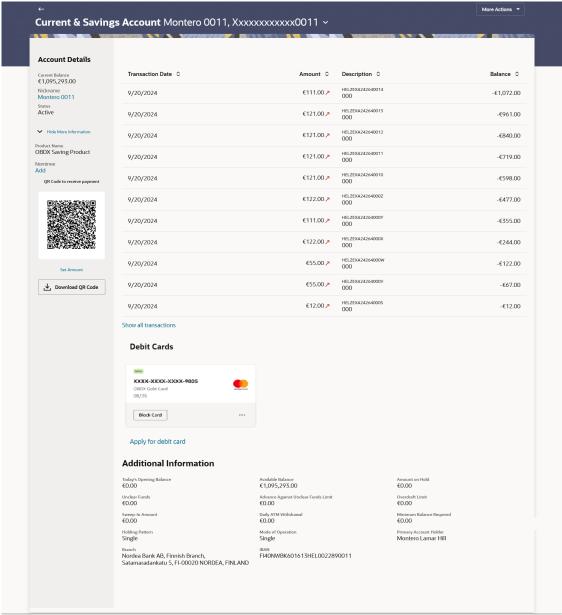

- 1. This feature is available from scan to pay from both pre and post login case.
- Desktop platforms support the **Download** function exclusively, and mobile platforms support both **Download** and **Share** functions.

Perform anyone of the following navigation to access the Current & Savings Details screen.

- On the Dashboard, click Overview widget, click Current and Savings card, then click Current and Savings Account Number.
- From the Search bar, type Current & Savings Current & Savings Details and press Enter.
- From the Dashboard, click Toggle menu, click Menu, then click Accounts, and then click Current and Savings Accounts tab, and then click Current and Savings Account Number.

The **Current and Savings Account Details** screen appears.

Figure 3-1 Current and Savings Account Details

Note:

For mobile, the **Share Account Details** option will be displayed, whereas on the desktop, the **Download QR Code** option will be shown.

- For more information on Nickname (add/ modify/ delete), the option available under Account Details section. Refer Account Nickname section.
- For more information on Nominee, Add Nomineethe option available under Account
 Details section. Refer Nomination section in Oracle Banking Digital Experience Retail
 Customer Services User Manual.

Note:

If a nominee is already defined for the account, then the **Edit Nominee** option is displayed in kebab menu to modify it.

- Click on the kebab menu on the debit card footer section to access additional action related to debit cards.
- Click on the More Actions menu to access account related transactions.

4

Debit Cards

This topic describes the feature that enables user to view the details of debit cards linked to their current or savings accounts and to perform debit card-related transactions through the available kebab menu options.

Debit cards are used for funds withdrawal at ATMs and for making purchase transactions at Point of sale (POS) terminals. Since debit cards are used for most basic banking transactions, it is essential for the bank to provide a means by which customers can view the details of their debit cards as well as apply for new debit cards online.

Note:

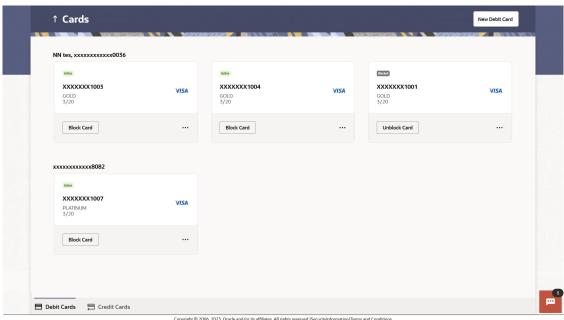

- If the user does not have any debit cards or the empty state screen, then the
 user is redirected to the origination flow, where they can apply for a new debit
 card.
- 2. The Card images vary based on the type of card product and the card network provider.

Perform anyone of the following navigation to access the **Debit Cards** section.

- From the Dashboard, click Toggle menu, click Menu, then click Accounts, and then click Current and Savings Accounts tab, and then click Current and Savings Account Number, and then from Current & Savings Accounts Details, then goto Debit Cardssection.
- On the Dashboard, click Overview widget, click Current and Savings card, then click Current and Savings Account Number, and then from Current & Savings Accounts Details, then goto Debit Cardssection.
- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Cards**.
- From the Search bar, type Debit Cards -Debit Cards and press Enter
- Access through the kebab menu of transactions available under the Current & Savings module.
- From the Dashboard, click Toggle menu, click Menu, then click Accounts, and then click Current and Savings Accounts tab, and then click Current and Savings Account Number, and then click on the Apply for debit card link, then click New Debit Card, and then click on the kebab menu, and select Debit Cards.

The **Debit Cards** screen appears.

- Click on Credit Cards tab available on footer of the Debit Cards listing page to access the credit cards listing page..
- Click on the New Debit Card button to apply for new debit card. The application redirect user to New Debit Card page.

New Debit Card

This topic provides the systematic instructions for user to submit requests for new debit cards to be issued for their operating accounts.

This feature enables customers to submit requests for new debit cards to be issued against their operating accounts. Customers can request for new debit cards to be issued against any of their current or savings accounts. While initiating the request for a new debit card, the customer must specify the reason for which a new card is being requested and also define the name to be embossed on the card. The customer must also specify where the new card has to be delivered.

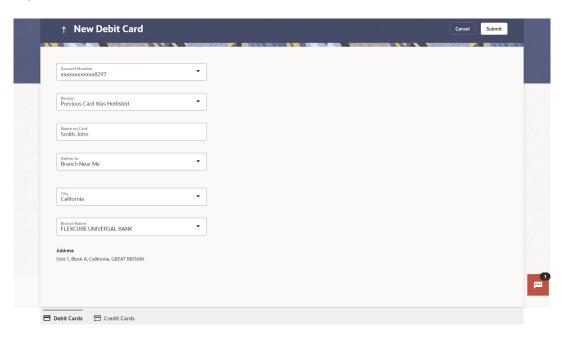

This feature acts as a service request (SR) and an SR number is generated when the customer submits the request. Customers can track the status of their service requests by clicking on the Track Request link provided on the Service Request widget or by directly selecting the Track Request option from the toggle menu.

To apply for a new debit card:

- Perform anyone of the following navigation to access the New Debit Card screen.
 - From the Dashboard, click Toggle menu, click Menu, then click Accounts, and then click Current and Savings Accounts tab, and then click Current and Savings Account Number, and from Current & Savings Accounts Details page, and then click on the New Debit Card.
 - On the Dashboard, click Overview widget, click Current and Savings card, then click Current and Savings Account Number, and then from Current & Savings Accounts Details, click Debit Cards section, then click on the Apply for debit card link.
 - From the Search bar, type Debit Cards -New Debit Card and press Enter
 - Access through the kebab menu of transactions available under the kebab menu of any other Debit Cards screen.

The New Debit Card screen appears.

Figure 5-1 New Debit Card

Note:

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 5-1 New Debit Card - Field Description

Field Name	Description
Account Number	Select an account for which you wish to apply a debit card.
Balance	The net balance of the selected CASA account.
	This amount is displayed once a CASA account is selected in the Account Number field.
Reason	The reason for which a new debit card is being applied.
	The options can be:
	New Card
	Previous card was hotlisted
	Previous card not working
Name on Card	The name to be embossed on the card.
Address Type	The customer is required to specify where the new card is to be delivered. The options are:
	Postal Address
	Residential Address
	Office Address
	Branch Near Me

Table 5-1 (Cont.) New Debit Card - Field Description

Field Name	Description
This section appears if the customer selects Branch Near Me option in the Address Type field.	
City	The customer can filter branches based on city.
Branch Near Me	The customer can select a branch at which the new card is to be delivered. The names of all the branches in the city selected in the previous field will be displayed.
Address	The complete address of the branch selected will be displayed once the customer selects a branch.

- From the Account Number list, select the current or savings account number against which you want to apply for a new debit card.
- 3. From the **Reason** list, select the reason for which you wish to apply for a new debit card.
- 4. In the **Name on Card** field, enter the name to be displayed on the card.
- **5.** In the **Address Type** field, select the desired delivery mode.
 - If you select the **Branch Near Me** option:
 - i. From the **City** list, select the appropriate option.
 - ii. From the **Branch** list, select the appropriate option. The branch address appears.
- 6. Perform one of the following actions:
 - · Click Submit to submit the cheque book request.
 - Click Cancel to cancel the transaction.
- The Confirmation popup appears.

Perform one of the following actions:

Click Yes to proceed.

The success message along with the transaction reference number appears.

- Click No to cancel the transaction.
- 8. Perform one of the following actions:
 - Click Transaction Details to view the details of the transaction.
 - Click Account Details to view the account details.
 - Click on the Current & Savings Accounts Detailslink to view the Current & Savings Accounts details.
 - Click on the Debit Cards link to visit the Debit Cards summary page.
 - Click on the Go To Dashboard link to navigate back to dashboard page.

6

Debit Card Limits

This topic describes the functionality that allows users to view and update the transaction limits associated with an existing active debit card linked to their current or savings account.

A customer can view the limits of an existing debit card linked to his current or savings account. The customer can view the existing limits and has the option to update the limits of active debit cards. In addition to the existing limits, the screen also displays the maximum limit count/ amount that can be set for the card.

The customer can view the various transaction limits associated with the debit card. The system displays limits in terms of count and amount in each category, which are as defined below:

- Own ATM Limits
- Remote ATM Limits
- Own Point of Sale Limits (PoS)
- Remote Point of Sale Limits (PoS)
- E-commerce Limits

The customer also has the provision to configure a combined limit on his debit card. It is the maximum allowed limit across all sections and if this limit is breached, user will not be allowed for any further transaction on the day irrespective of the individual daily limits set under various categories.

Combined Limits will be applicable only for third party host system.

Perform anyone of the following navigation to access the **Debit Cards** section.

Block Card

This topic provides the systematic instructions to users for reporting stolen or lost debit cards to the bank.

Debit card fraud costs individuals and businesses millions of dollars every year globally. The speed at which fraudulent transactions can be performed on a stolen debit card is incredible; hence customers need a means by which to communicate the status of a lost or stolen card to the bank in the fastest possible manner with least amount of friction.

The Block Debit Card feature enables users to report stolen or lost debit cards to the bank, so that the bank can block the processing of any transaction performed on the debit card immediately.

This feature also enables the user to replace damage cards or stolen/lost cards with new card by requesting request for a replacement debit card which will have the same attributes as that of the debit card that is being blocked.

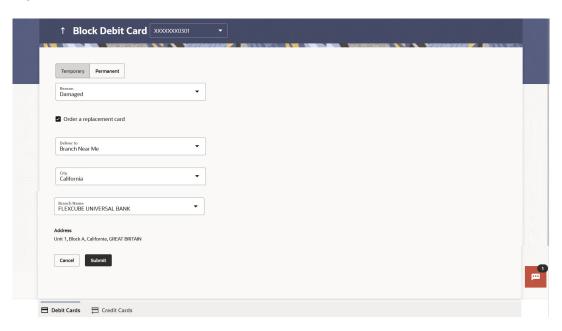

This also allows user to perform debit card-related transactions using the kebab menu options.

To block the debit card and raise a request for a replacement card:

- 1. Perform anyone of the following navigation to access the **Block Card** screen.
 - From the Dashboard, click Toggle menu, click Menu, then click Accounts, and then click Current and Savings Accounts tab, and then click Current and Savings Account Number, and then from Current & Savings Accounts Details section, then from the kebab menu, click on the Block Card.
 - On the Dashboard, click Overview widget, click Current and Savings card, then click Current and Savings Account Number, and then from Current & Savings Accounts Details section, goto Debit Cardssection, then from the kebab menu, click on the Block Card.
 - From the Dashboard, click Toggle menu, click Menu, then click Cards, and then click Block Card.
 - Access through the kebab menu of transactions available under the kebab menu of any other Debit Cards screen

The **Block Card** screen appears.

Figure 7-1 Block Debit Card

Note:

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 7-1 Block Debit Card - Field Description

Field Name	Description

 - Click on the **Go To Dashboard** link to navigate back to dashboard page.

Request PIN

This topic provides the systematic instructions for user to request a new debit card PIN to be delivered to an address of their choosing.

A debit card PIN is required to authenticate any debit card transaction. Without a PIN, the customer will not be able to withdraw funds from his account or make any Point of Sale purchases. This feature enables a customer to request for a new debit card PIN to be delivered at the address of his choice.

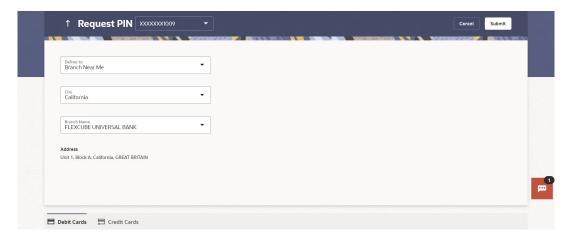

The debit card PIN request is a service request transaction and on initiating the request, an SR number is generated, which can be used by the customer to track the status of the request. Duplicity checks are done by the system to ensure that no duplicate requests are being initiated. This also allows user to perform debit card-related transactions using the kebab menu options.

To request for a debit card PIN:

- 1. Perform anyone of the following navigation to access the **Request PIN** screen.
 - From the Dashboard, click Toggle menu, click Menu, then click Accounts, and then click Current and Savings Accounts tab, and then click Current and Savings Account Number, and then from Current & Savings Accounts Details section, goto Debit Cardssection, then from the kebab menu, click on the Request PIN.
 - On the Dashboard, click Overview widget, click Current and Savings card, then click Current and Savings Account Number, and then from Current & Savings Accounts Details, section, goto seDebit Cardsction, then from the kebab menu, click on the Request PIN.
 - From the Search bar, type Debit Cards -Request PINand press Enter.
 - Access through the kebab menu of transactions available under the kebab menu of any other Debit Cards screen.

The **Request PIN** screen appears.

Figure 11-1 Request PIN

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 11-1 Field Description

Field Name	Description

Cheque Status Inquiry

This topic provides the systematic instructions for user to view the status of cheques they have written at any time.

The **Cheque Status Inquiry** transaction enables customers to view the status of cheques written by them at any point of time. The customer can view the status of either a single cheque by providing a cheque number or that of a cheque series by defining a cheque range.

Customers can also search for cheques based on their status i.e. used, not used, stopped, etc.

Note:

- a. The Cheque Range and Cheque Status fields are displayed if the Oracle Banking Digital Banking Experience application is integrated with Universal Banking Solutions and the region is not India.
- **b.** The left swipe and Long Press gesture is implemented on mobile and tablets devices.

Swipe gesture - This feature is available on the transaction which triggers Block/ Unblock functionalities.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/ download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen.

By clicking on Manage Columns option available on the screen, user can

- Rearrange columns
- Remove specific columns.

Note:

- a. The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
- **b.** The column preferences setup by the user will be saved for future reference i.e. in case the user revisits this screen, the preferred columns will only be displayed in the table.

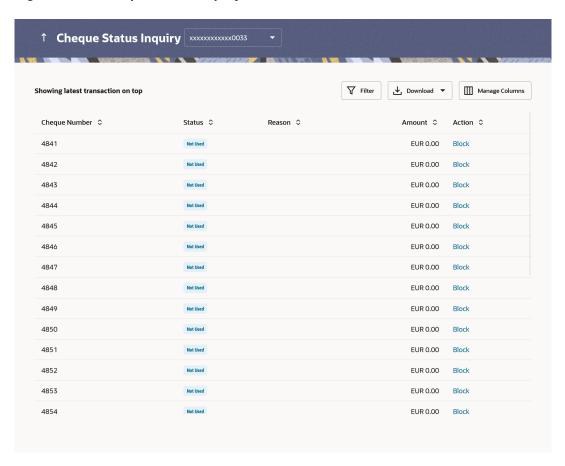

To inquire about the cheque status:

Perform anyone of the following navigation to access the Cheque Status Inquiry screen.

The From Date and To Date fields enabled if the Used or Stopped or Rejected option is selected in the Cheque Type field.

- **b.** Perform one of the following actions:
 - Click Apply to apply the search criteria.

The results of the cheque status inquiry appear.

· Click **Reset** to clear the data entered.

Stop / Unblock Cheque

This topic provides the systematic instructions for user to stop payment on issued cheques.

Cheques are physical instruments used for the purpose of making payments. A customer might require to block a cheque payment in case the cheque has been lost or stolen. Hence it is critical to provide an option to stop such cheques so that they cannot be misused.

In order to request for a cheque to be stopped, the customer will have to specify the account number from which the cheque has been issued as well as the cheque number and the reason for which the request is being raised. In addition to requesting for a stop cheque on a specific cheque, the customer can also request for a stop cheque to be performed on a cheque series by specifying the cheque range.

Additionally customers can also request for a cheque or cheque range that has been stopped or blocked to be unblocked.

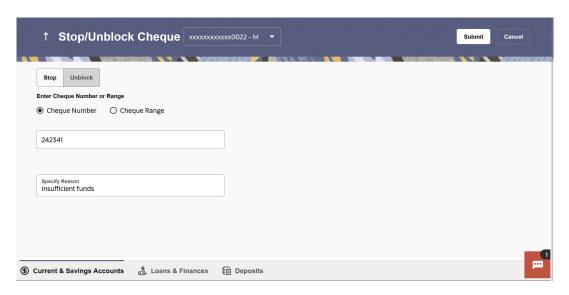

Both stop cheque as well as unblock cheque requests are online i.e. do not require manual intervention by a bank official and the specific cheque or cheque range is immediately stopped or unblocked based on the request raised.

To stop or unblock cheque:

- Perform anyone of the following navigation to access the Stop / Unblock Cheque screen.
 - From the Dashboard, click Toggle menu, click Menu, then click Accounts, and then click Current and Savings Accounts tab, and then click Current and Savings Account Number. From the Current & Savings Details page, click on the More Actions, and then click on the Stop / Unblock Cheque.
 - From the Search bar, type Current & Savings Stop / Unblock Chequeand press Enter.
 - On the Dashboard, click Overview widget, click Current and Savings card, then click Current and Savings Account Number. From the Current & Savings Details page, click on the More Actions, and then click on the Stop / Unblock Cheque.

The Stop / Unblock Cheque screen appears.

Figure 15-1 Stop / Unblock Cheque

The fields which are marked as Required are mandatory.

b. Click **Proceed** to unsubscribe.

The success message of request submission appears.

- 4. Perform one of the following actions:
 - Click Home to go to the Dashboard screen.
 - Click View Account Details to view the deposit details page.

Sweep-In

This topic describes the the Sweep-in feature which allow user to add his Current and Savings / Term Deposit account held with the bank, as a sweep-in account.

A sweep in facility enables customers to link their Current and Savings/Term Deposit account to another Current and Savings account held with the bank. Whenever there is insufficient funds, the shortfall in the account is swept in from the linked Term Deposit/Current and Savings account, thereby providing the customer the convenience of getting payments processed with ease.

The Sweep-in option enables the user to manage all his linked current and savings accounts and term deposit accounts. With this option, the user can add his Current and Savings / Term Deposit account held with the bank, as a sweep-in account. There is also an option to delete or delink sweep-in from an existing Current and Savings account / Term Deposit accounts, which has sweep in facility. After logging in to the application, when the user clicks the Sweep-in option, the user has to select his provider account, which directs him to the Sweep-in summary page. This page has options to add and delete the sweep-in accounts.

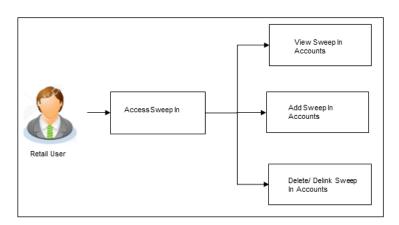

Pre-requisites

Transaction access is provided to the Small & Medium Business user

Features supported in the application

- View Sweep In
- Add Sweep In
- Delete Sweep In

Figure 17-1 Workflow

To manage sweep-in accounts:

- 1. Perform anyone of the following navigation to access the **Sweep-In** screen.
 - From the Dashboard, click **Toggle menu**, click **Menu**, then click **Accounts**, and then click **Current and Savings Accounts** tab, and then click **Current and Savings**

Account Number. From the Current & Savings Details page, click on the More Actions, and then click Sweep-In.

- From the Search bar, type Current & Savings Transactions and press Enter, and then click on the More Actions, and then click Sweep-In
 - From the Search bar, type Current & Savings Sweep-In.

The Sweep-In screen appears.

- Select the beneficiary account number from the Account Number list.
- 3. Select an account type from the **Linked Account Type** option.

All the linked accounts of the account type selected are listed under the **Linked Accounts** table. All the accounts available for linkage of the selected account type are listed under the **Link Accounts** table.

Figure 17-4 Sweep In - Delete

- **2.** Perform one of the following actions:
 - Click **Confirm** to proceed with the deletion request.
 - Click Cancel to the deletion process.
- **3.** Perform one of the following actions:
 - Click **Home** to go to the dashboard.
 - Click **Manage Sweep-In** to navigate to the Sweep-In screen.

Account Nickname

This topic provides the systematic instructions for customer to assign a specific name to their current or savings accounts.

Customer can assign a specific name to a current or savings account. This is useful if customer wishes to remember accounts with a particular name instead of account numbers. Once a nickname is assigned to an account, it is displayed on various transactions instead of the standard account description. The application also allows customer to modify or delete the nickname whenever required.

The customer can access this option by selecting the **Add/Edit Nickname** option from the kebab menu.

Navigation Path:

From the Dashboard, click **Toggle menu**, click **Menu**, then click **Accounts**, and then click **Current and Savings Accounts** tab, and then click **Current and Savings Account Number**. From the **Current & Savings Details** page, goto **Account Details** section

To add/edit nickname against an account:

Navigate to the above path.

The Current & Savings Account Details screen appears.

Click on the Add link if nickname is not assigned to the account.

OR

Click on the nickname if nickname is already been assigned to modify the nickname.

The Add/Edit Nickname popup appears.

Figure 18-1 Add/Edit Nickname

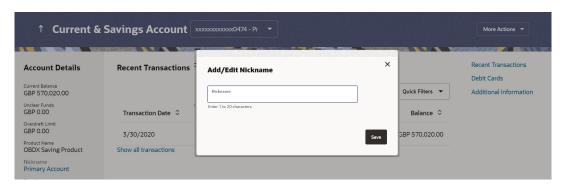

Table 18-1 Field Description

Field Name	Description
Nickname	Specify a nickname to be assigned to the account.
	If a nickname has already been assigned to the account, it will be displayed in editable mode.

- 3. In the **Nickname** field, enter the nickname you want to use.
- 4. Click **Save** to save your changes.

Nicknames will be displayed on various transactions instead of the standard account description.

OR

Click **Delete** to delete the nickname.

FAQ

- 1. What is the advantage of assigning a nickname to an account?

 You can personalize your account by giving it a nickname. This way you will be able to easily identify it when viewing account summary.
- Can I assign a nickname to a joint account?Yes, you can add nickname to any account of which you are the primary holder.
- 3. Can I have multiple debit cards linked to a CASA account?
 This depends on the features of the specific current or savings account. Generally, in joint accounts, both the primary account holder as well as the joint holder are provided a debit card each.
- 4. If a lost debit card is found and restored to the cardholder, can it be reactivated? If the card is hotlisted, it cannot be reactivated, you can make a request for a new debit card. However, if the card was blocked, it can be unblocked and reused.

Glossary

Account Activity

A banking term that refers to any activity that creates a debit or credit in an account. In a bank account, this would include deposits and withdrawals.

Administrator

Administrator can be an individual having the administrative rights of the system. He can be a internal user (Bank Administrator) or a external user with the limited administrative functionality (Corporate Administrator)
