1. Preface

1.1 Purpose

Welcome to the User Guide for Oracle Banking Digital Experience. This guide explains the operations that the user will follow while using the application.

1.2 Audience

This manual is intended for Customers and Partners who setup and use Oracle Banking Digital Experience.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit, <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

1.5 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.6 Conventions

The following text conventions are used in this document:

Convention	Meaning

boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>Italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.7 Screenshot Disclaimer

The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

1.8 Acronyms and Abbreviations

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

Abbreviation	Description
OBDX	Oracle Banking Digital Experience

2. Introduction

Virtual Accounts Management platform is a solution to reduce the complexity of money management for corporates. Virtual accounts help the large corporates to reduce the number of real accounts needed and its associated costs, provides ease of reconciliation and gives better collection, visibility, and deployment of money.

Using this module, a corporate can create and manage multiple virtual entities, accounts, and structures via self-service channel. User gets the benefit of an exclusive dashboard view of account information and an option to create Virtual Accounts structure to get better visibility of his cash positions.

Following features have been built for the corporate user in Virtual Account Management

- Virtual Entities – Notional entities representing the real entities
- Virtual Accounts – Notional accounts that are either linked to a real account directly or via a Virtual Accounts Structure
- Remittance ID List – Short Identifier/ Corporate Identifier based Virtual Accounts

Pre-Requisites

- User must be having a valid corporate account

Given below are different scenarios / use cases in which Virtual Account management plays a crucial role, minimizing the various overheads.

Note: These are the generic use cases where Virtual Accounts management is applied. Refer the section (Features Supported in Application) to understand OBDX product offerings.

Scenario 1

Receivable and Payable Management

Scenario 2

Third Party Fund Management

Third Party Fund Management

Scenario 2

- “ABC Portfolio Management Service ” has more than 3000 customers who deposits their money on regular basis for investment purpose.
- The customers invests their money in various schemes of ABC are paid dividend as and when declared by the company..
- The customers are also required to Pay their monthly SIP's or investments on regular intervals.
- There is a need for ABC to pay interest/dividend as and when profits are declared.
- Also Keeping track of due amount from investor and calculating interests has become a massive task for ABC.

Proposed Solution

- Creation of multiple virtual accounts and assigning one virtual account for each investor
- A virtual account assigned to an investor is credited when the dividend deposits declared on profits of the corporate.
- A virtual account assigned to a investor is debited for his investments – lump sum or SIP during the month end and due date.

Scenario 3

Virtual Identifiers

VIRTUAL IDENTIFIERS

Scenario 3

- “Ascend International school” has more than 15000 students in 20 school branches across India.
- All the students usually pay to a single current account through multiple modes like check deposits, cash payments, online fund transfers and demand drafts.
- The students have been specifically told to mention the “student enrollment Number” in the remarks while paying to the current account. However, lot of students make mistake in providing the correct enrollment number. Few of the students forget to mention the enrollment number occasionally.
- This leads to lesser automated reconciliation, increase in the fee outstanding and results in a lot of confusion and unnecessary follow-ups.

Proposed Solution

- Assigning one “Virtual Identifier” per each of the 20 school branches.
- Linking the “Virtual Identifiers” to the real current account of the school.
- Setting up the account number validation logic for the school.
- The school can assign dynamic identifier based account numbers to each of it's students which may include the student enrollment number as part of the account number.
- Each student pays to the respective virtual account assigned to him/her.
- Reconciliation of fee receipt can be automated as a different account is assigned to each student. Branch wise fee collections can also be tracked.

Features Supported in Application

- Overview
- Virtual Entity
- Virtual Account
- Virtual Accounts Structure
- Remittance ID
- Virtual Multi-Currency Account
- Payments Using Virtual Accounts
- Move Money
- Internal Credit Line
- Transaction Inquiry
- Pre-Generated Statement
- Ad hoc Statement
- Charges Inquiry
- Special Rate Maintenance
- General Rate Maintenance

3. Virtual Accounts Overview

Virtual account management dashboard provides various information and eases the complex data and provides the user a simplified view of current performance. It provides an overall view of all the corporate's cash positions, balance trends and crucial account information on Real Accounts, Virtual Accounts and Virtual Accounts structures, depending upon the **access and role** provided to the user. Below widgets are available in Virtual Accounts Management Overview:

- Accounts and Balances
- Virtual Entity Summary
- Position By Currency
- Balance Trends of Virtual Accounts
- Top 5 Virtual Account Balances
- Cash Positions - Overall
- Virtual Accounts Structure
- Move Money
- Quick Links

Note: Information displayed in each widget (columns, links, graphs, charts, etc.) depends on the access to Real Accounts and Virtual Accounts for which the user has access.

Below explanation gives an idea how data in all the widgets will be shown when Access Management is applied:

- Real Accounts:
A user will see information & will be able to transact in only those Virtual Accounts Management enabled real accounts that he has appropriate access to
- Virtual Entities:
A user will be able to see all the virtual entities that belong to the party id in context
- Virtual Accounts:
A user will see information & be able to transact in only those Virtual Accounts that he has appropriate access to
- Virtual Accounts Structures:
A user will see the full list & count of the accessible Virtual Accounts structures of the party ID in context. User can further click on the link to view the structure details.

Overview

Overview

Icons

Following icons are present on the dashboard:

-  : Click this icon to go to the dashboard.
-  : Click this icon to go to the Mailbox screen.
-  : Click this icon to search the transactions.
-  : Click this icon to view the welcome note with last login details, change entity, logged in user's profile, or log out from the application.
-  : Click this icon to search and select the Party name and ID from the dropdown list. The widget displays the data for the selected party.

Note:

1. Only accessible parties are displayed to the user.
 2. On page load, the widget displays the data of the mapped primary party to the logged-in user.
 3. All the widgets that are based on Real Account balance, these widgets should be disabled operationally during implementation if the DDA Integration is not available.
 4. All the widgets on the Dashboard that show the count and balances of Virtual Accounts also include data from Expired Virtual Accounts.
-

-  : Click the toggle menu to access the transaction.
-  : Click this icon to close the toggle menu. This icon appears if the toggle menu is open.

Accounts & Balances

This widget gives an overall summary about Virtual Accounts Management enabled accessible Real and Virtual Multi-Currency Accounts and how they are linked to different Virtual Accounts and Virtual Accounts Structures. You can select the type of Account (Real or Virtual Multi-Currency Account) and click the link under Virtual Accounts and Linked Structures column to view more details. Total count includes both the accessible and non-accessible virtual accounts.

Virtual Entity Summary

Displays the Entity wise summary and mapped Virtual Accounts to that particular entity. You can click the Entity to view the details. You can also use the quick links to create entity or accounts.

Position By Currency

Allows you to view the Balances across all Virtual Accounts and its break-up in different currencies. User can view this information by selecting either Virtual Entity ID or Virtual Entity Name under which all linked Virtual Accounts and their currency wise position will be displayed.

Balance Trends of Virtual Accounts

Displays the Balance trends of Virtual accounts in graphical formats. You can select the Virtual Entity ID or Virtual Entity Name, and Currency to view the trend line of Top 5 Virtual Accounts.

Note: The widget displays the default data based on the below logic:

1. Virtual Entity with the most Virtual Accounts is defaulted.
 2. With the defaulted Virtual Entity, the currency with the most Virtual Accounts is defaulted.
 3. Only accessible Virtual Accounts are displayed to the user.
-

Top 5 Virtual Account Balances

Displays the Top five Virtual Account balances in graphical format by selecting Virtual Entity ID or Virtual Entity Name and currency. You can also hover the cursor to view the balance under a particular account.

Note: The widget displays the default data based on the below logic:

1. Virtual Entity with the most Virtual Accounts is defaulted.
 2. With the defaulted Virtual Entity, the currency with the most Virtual Accounts is defaulted.
 3. Only accessible Virtual Accounts are displayed to the user.
-

Cash Positions - Overall

Displays the overall cash position with total number of Virtual Accounts in various balance range and date wise transactions for selected accounts. You can view the Virtual Accounts within a particular balance group range by selecting a Virtual Entity ID or Virtual Entity Name and currency.

Note: The widget displays the default data based on the below logic:

1. Virtual Entity with the most Virtual Accounts is defaulted.
 2. With the defaulted Virtual Entity, the currency with the most Virtual Accounts is defaulted.
-

Virtual Accounts Structure

Displays the contribution between Virtual Accounts and child accounts and overall balances in the form of tree. The tree displays the parent account and its immediate child account, you can view the details by clicking the expand icon.

You can select the structure code from the list to view the balance against it. You can also click  to expand the widget and get a bigger view.

Note: The first structure in the drop down is defaulted in the widget.

Move Money

This widget allows user to transfer money from one Virtual Account to another Virtual Account that are mapped to same real account.

Note: Click **Search** icon and select the Virtual Accounts to transfer money.

Quick Links

This widget provides the quick links to navigate the most frequently used transactions. The following transactions are available in this widget:

- Ad hoc Statement
 - Pre-Generated Statement
 - Transaction Inquiry
 - Add Special Rates
 - Add General Rates
 - File Upload
-

4. Virtual Entity

Virtual Entities are the notional entities representing the real entities. This feature allows a user to conveniently create and manage virtual entities and further create numerous Virtual Accounts under it for other transactions. Below features are supported for managing virtual entities.

- Create Virtual Entity
- View Virtual Entity
- Edit Virtual Entity
- Close Virtual Entity
- Inter-Entity Position

How to reach here:

Toggle Menu > Virtual Account Management > Virtual Entity > Create Entity

OR

Toggle Menu > Virtual Account Management > Overview > Entity Summary > Create Entity

4.1 Create Virtual Entity

To create Virtual Entity:

1. In the **Party Name** field, select the party name and ID from the dropdown list.
2. In the **Virtual Entity Type** field, select the appropriate option.
3. If you select the **Virtual Entity Type** as **Corporate**:
 - a. In the **Virtual Entity ID** field, enter the virtual entity ID.
 - b. In the **Virtual Entity Name** field, enter the name of the virtual entity.
 - c. From the **Corporate Type** list, select the type of corporate entity.
 - d. From the **Date of Incorporation** list, select the incorporation date.
 - e. From the **Country of Incorporation** list, select the country of incorporation.
 - f. In the **Landline** field, enter the landline phone number.

Note:

1. Click  to add alternate landline phone number.

2. Click  to delete the landline phone number.

- g. In the **Mobile Number** field, enter the mobile number.
- h. In the **Email ID** field, enter the email address.
- i. In the **Preferred Mode** field, select an appropriate option.
- j. In the **BIC** field, enter the Bank Identifier Code.
- k. To keep Registered Address same as Real Entity, select the **Copy from Real Entity** check box.
- l. If the **Registered Address** is not same as Real Entity:
 - i. In the **Address Line 1** field, enter the first line of the correspondence address.
 - ii. In the **Address Line 2** field, enter the second line of the correspondence address.

- iii. In the **Address Line 3** field, enter the third line of the correspondence address.
- iv. In the **Address Line 4** field, enter the fourth line of the correspondence address.
- v. From the **Country** list, select the country of residence.
- vi. In the **Post Code** field, enter the postal code.
- m. To keep Correspondence Address same as Registered Address, select the **Copy from Registered Address** check box.
- n. If the **Correspondence Address** is not same as registered address:
 - i. In the **Address Line 1** field, enter the first line of the mailing address.
 - ii. In the **Address Line 2** field, enter the second line of the mailing address.
 - iii. In the **Address Line 3** field, enter the third line of the mailing address.
 - iv. In the **Address Line 4** field, enter the fourth line of the mailing address.
 - v. From the **Country** list, select the country of residence.
 - vi. In the **Post Code** field, enter the postal code.
- o. Enter the required information in **Structured Address** section.
- 4. If you select the **Virtual Entity Type** as **Individual**:
 - a. In the **Virtual Entity ID** field, enter the virtual entity ID.
 - b. In the **Virtual Entity Name** field, enter the name of the virtual entity.
 - c. In the **First Name** field, enter the first name of the individual.
 - d. In the **Last Name** field, enter the last name of the individual.
 - e. From the **Date of Birth** list, select the date of birth of the individual.
 - f. From the **Gender** list, select the gender of the individual.
 - g. From the **Nationality** list, select the nationality of the individual.
 - h. In the **National ID** field, enter the national identification code.
 - i. In the **Home Phone** field, enter the residence phone number.
 - j. In the **Work Phone** field, enter the work phone number.
 - k. In the **Mobile Number** field, enter the mobile number.
 - l. In the **Email ID** field, enter the email address.
 - m. In the **Preferred Mode** field, select an appropriate option.
 - n. To keep Registered Address same as Real Entity, select the **Copy from Real Entity** check box.
 - o. If the **Registered Address** is not same as real entity:
 - i. In the **Address Line 1** field, enter the first line of the correspondence address.
 - ii. In the **Address Line 2** field, enter the second line of the correspondence address.
 - iii. In the **Address Line 3** field, enter the third line of the correspondence address.
 - iv. In the **Address Line 4** field, enter the fourth line of the correspondence address.
 - v. From the **Country** list, select the country of residence.
 - vi. In the **Post Code** field, enter the postal code.
 - p. Enter the required information in **Structured Address** section.

Note: It is configurable and can be set to **Y** or **N** based on system configuration. Out of the 14 fields of structured address, **Post Code**, **Town Name**, **Country** are the mandatory fields if structure address configured to Y as per WTR regulations.

Field Description

Field Name	Description
Party Name	Select the party name and ID from the dropdown list in which the Virtual Entity must be created. By default, the primary party of the logged-in user is selected.
Virtual Entity Details	
Virtual Entity Type	Select the type of the entity, whether the Virtual Entity is Individual or Corporate.
Virtual Entity ID	Specify the unique ID assigned to each virtual entity.
Virtual Entity Name	Specify the name of the virtual entity corresponding to the Virtual Entity.

Field Name	Description
The following fields are displayed if you select the Virtual Entity Type as Corporate	
Corporate Type	Select the corporate type. The options are: • Corporation • Co-operative • Partnership • Sole Proprietorship Note: The dropdown list is now available as part of local enumerations.
Date of Incorporation	Select the date of incorporation of the corporate.
Country of Incorporation	Select the country name of the incorporation.
Landline Code	Specify the landline code of the corporate virtual entity holder.
Landline Number	Specify the landline number of the corporate virtual entity holder.
Alternate Landline Code	Specify the landline code of the corporate virtual entity holder. This field appears only if the user clicks on Add icon to add alternate landline number.
Alternate Landline Number	Specify the landline number of the corporate virtual entity holder. This field appears only if the user clicks on Add icon to add alternate landline number.
Mobile Code	Specify the mobile code of the corporate virtual entity holder.
Mobile Number	Specify the mobile number of the corporate virtual entity holder.
Email ID	Specify the email address of the corporate virtual entity holder.
Preferred Mode	Select the preferred mode of the corporate virtual entity holder. The options are: • Mobile • Email
BIC	Specify the BIC of the Corporate Virtual Entity Holder.

Field Name	Description
Registered Address	
The following fields are blank and by selecting the Copy from Real Entity function the fields get auto populated from real entity in editable format. User can clear the fields by de-selecting the Copy from Real Entity check box.	
Address Line 1	Specify the first line of correspondence address of the corporate virtual entity holder.
Address Line 2	Specify the second line of correspondence address of the corporate virtual entity holder.
Address Line 3	Specify the third line of correspondence address of the corporate virtual entity holder.
Address Line 4	Specify the fourth line of correspondence address of the corporate virtual entity holder.
Country	Select the country name of the corporate virtual entity holder.
Post Code	Specify the post code of the corporate virtual entity holder.
Correspondence Address	
The following fields are blank and by selecting the Copy from Registered Address function the fields of correspondence address get auto populated from registered address in editable format. User can clear the fields by de-selecting the Copy from Registered Address check box.	
Address Line 1	Specify the first line of mailing address of the corporate virtual entity holder.
Address Line 2	Specify the second line of mailing address of the corporate virtual entity holder.
Address Line 3	Specify the third line of mailing address of the corporate virtual entity holder.
Address Line 4	Specify the fourth line of mailing address of the corporate virtual entity holder.
Country	Select the country name of the corporate virtual entity holder.
Post Code	Specify the post code of the corporate virtual entity holder.
Structured Address	
Department	Specify the department of the virtual entity holder.

Field Name	Description
Sub-Department	Specify the sub-department of the virtual entity holder.
Street Name	Specify the street name of the corporate virtual entity holder.
Building Number	Specify the building number of the virtual entity holder.
Building Name	Specify the building name of the virtual entity holder.
Floor	Specify the floor number of the corporate virtual entity holder.
Post Box	Specify the post box number of the virtual entity holder.
Room	Specify the room number of the corporate virtual entity holder.
Post Code	Specify the post code of the virtual entity holder.
Town Name	Specify the town name of the corporate virtual entity holder.
Town Location Name	Specify the town location name of the corporate virtual entity holder.
District Name	Specify the district name of the corporate virtual entity holder.
Country Subdivision	Specify the country subdivision of the corporate virtual entity holder.
Country	Select the country name of the corporate virtual entity holder.
The following fields are displayed if you select the Virtual Entity Type as Individual	
First Name	Specify the first name of the virtual entity holder.
Last Name	Specify the last name of the virtual entity holder.
Date of Birth	Select the date of the birth of the virtual entity holder.
Gender	Select the gender of the virtual entity holder. The options are: • Male • Female • Other • Prefer Not to Disclose
Nationality	Specify the nationality of the virtual entity holder.
National ID	Specify the national ID of the virtual entity holder.

Field Name	Description
Home Phone Code	Specify the home phone code of the virtual entity holder.
Home Phone Number	Specify the home phone number of the virtual entity holder.
Work Phone Code	Specify the work phone code of the virtual entity holder.
Work Phone Number	Specify the work phone number of the virtual entity holder.
Mobile Code	Specify the mobile code of the virtual entity holder.
Mobile Number	Specify the mobile number of the virtual entity holder.
Email ID	Specify the email address of the virtual entity holder.
Preferred Mode	Select the preferred mode of the virtual entity holder. The options are: • Mobile • Email
Registered Address	
The following fields are blank and by selecting the Copy from Real Entity function the fields get auto populated from real entity in editable format. User can clear the fields by de-selecting the Copy from Real Entity check box.	
Address Line 1	Specify the first line of mailing address of the virtual entity holder.
Address Line 2	Specify the second line of mailing address of the virtual entity holder.
Address Line 3	Specify the third line of mailing address of the virtual entity holder.
Address Line 4	Specify the fourth line of mailing address of the virtual entity holder.
Country	Select the country name of the virtual entity holder.
Post Code	Specify the post code of the virtual entity holder.
Structured Address	
Department	Specify the department of the virtual entity holder.
Sub-Department	Specify the sub-department of the virtual entity holder.
Street Name	Specify the street name of the corporate virtual entity holder.

Field Name	Description
Building Number	Specify the building number of the virtual entity holder.
Building Name	Specify the building name of the virtual entity holder.
Floor	Specify the floor number of the corporate virtual entity holder.
Post Box	Specify the post box number of the virtual entity holder.
Room	Specify the room number of the corporate virtual entity holder.
Post Code	Specify the post code of the virtual entity holder.
Town Name	Specify the town name of the corporate virtual entity holder.
Town Location Name	Specify the town location name of the corporate virtual entity holder.
District Name	Specify the district name of the corporate virtual entity holder.
Country Subdivision	Specify the country subdivision of the corporate virtual entity holder.
Country	Select the country name of the corporate virtual entity holder.

5. Click **Next** to navigate to the **Other Details** section.
OR
Click **Cancel** to cancel the transaction.
6. From the **Identification Type** list, select the identification type.

Note: The Dropdown list are now available as part of Local Enumeration.

7. In the **Identification Number** field, enter the identification number corresponding to the identification type.
8. In the **Tax Identification Number** field, enter the tax identification number.
9. Select Statement preferences to get Virtual Accounts statement at consolidated or Account level.

Field Description

Field Name	Description
Other Details	
Identification Type	Select the identification type of the virtual entity holder.
Identification Number	Specify the identification number corresponding to the identification type.
Tax Identification Number	Specify the tax identification number of the virtual entity holder.
PDF Statement Preferences	
Generate PDF	Click the Generate PDF toggle if you want preference for statement download in PDF format. Below section is enabled if you click Generate PDF toggle. Note: If Generate PDF toggle is enabled during Create VE, Statement Type and Frequency values default to Consolidated and Daily respectively
Statement Type	
Consolidated	Select the consolidated statement of all the Virtual Accounts mapped to the Virtual Entity.
Account Level	Select the account level Statement of each Virtual account mapped to the Virtual Entity.
Frequency	Select the frequency of the statement. The available options are: • Daily • Weekly • Monthly • Quarterly • Yearly

Field Name	Description
Due On	Select the Due day/date/month/quarter/year required for the Virtual Account statement. The available options based on the frequency selected are: • Daily - This field is not applicable and will not appear for Daily frequency. • Weekly - Select the day when the account statement needs to be generated for the week. • Monthly - Select the day of the month when the account statement needs to be generated for the month. Example: If Due On is selected as “31” and the current month has only 28 days, this will be considered as the last day of the month and the account statements will be generated on the last day for all the months. • Quarterly - Select the end month of quarter when the account statement needs to be generated. Statement will always be generated on the last day of the month selected. Example: If Due On is selected as “March (3)”, the account statement will be generated on the last day of the month (31st March) for the period of 1st January to 31st March. • Yearly - Select the month when the account statement needs to be generated for the year. Statement will always be generated on the last day of the month selected.
MT Statement Preferences	
Generate MT940	Click the toggle to set up your preference to download the statement in MT940 format.
Generate MT950	Click the toggle to set up your preference to download the statement in MT950 format.
Generate MT942	Click the toggle to set up your preference to download the statement in MT942 format.
Generate Message Only on Movement	Click the toggle to generate message only on movement. This field is enabled if you click the Generate MT942 toggle.
Report Transactions Since	Select since when you want the statement to be generated. This field is enabled if you click the Generate MT942 toggle.
Generation Time	Select the time when the statement is needed. This field is enabled if you click the Generate MT942 toggle.

Field Name	Description
Display IBAN	Click the toggle to set up the preference for IBAN which will be applicable for the all the Virtual Accounts linked under this entity.
ISO Statement Preferences	
Generate CAMT.053	Click the toggle to set up your preference to download the statement in CAMT.053 format.
Generate CAMT.052	Click the toggle to set up your preference to download the statement in CAMT.052 format.
Generate Message Only on Movement	Click the toggle to generate message only if there is any transaction posted. This field is enabled if you click the Generate CAMT.052 toggle.
Report Transactions Since	Select since when you want the statement to be generated. This field is enabled if you click the Generate CAMT.052 toggle.
Generation Time	Select the time when the statement is needed. This field is enabled if you click the Generate CAMT.052 toggle.

10. Click **Submit**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.
11. The **Review** screen appears. Verify the details and click **Confirm**.
OR
Click  against the section that you want to edit. The screen appears in editable form.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.
User is directed to **Entity Information** screen with values in editable form.
12. The success message of Virtual Entity creation appears along with the reference number and status of the transaction.
OR
Click **Home** to navigate to the dashboard.
OR
Click **Go To Overview** to navigate to the Virtual Account management dashboard.
OR
Click **Create Virtual Entities** to create more virtual entities.
OR
Click **Create Virtual Accounts** to create Virtual Accounts.

4.2 View Virtual Entity

User can search and view the virtual entity by entering the search criteria.

To view virtual entity:

1. In the **Party Name** field, select the party name and ID from the dropdown list.
2. In the **Virtual Entity ID** field, enter the virtual entity ID.
3. In the **Virtual Entity Name** field, enter the virtual entity name.

Note: It is mandatory to specify any one of the Virtual Entity ID and Name fields to get the search result.

4. Click **Search** to view virtual entities.
The search result corresponding to the search criteria is displayed.
OR
Click **Clear** to clear the search criteria.
OR
Click **Cancel** to cancel the transaction.

View Virtual Entity

The screenshot displays the 'View Virtual Entity' interface within the Futura Bank application. At the top, there is a search bar with the placeholder text 'What would you like to do today?'. Below this, the 'Virtual Entity' section is visible, showing a dropdown menu for 'Party Name' (selected: 'ABZ Solutions | ****462'), and two text input fields for 'Virtual Entity ID' (containing 'CORP') and 'Virtual Entity Name'. Below the search fields are 'Search' and 'Clear' buttons. A table titled 'Entity List' shows 4 records. The table columns are: Virtual Entity ID & Name, Virtual Entity Type, Creation Date, Mapped Virtual Accounts, and Status. The records are for Corporate entities created on Apr 24, 2018.

Virtual Entity ID & Name	Virtual Entity Type	Creation Date	Mapped Virtual Accounts	Status
CORPE16 Corporate 16	Corporate	Apr 24, 2018	0	Active
CORPA11 Corporate VE	Corporate	Apr 24, 2018	0	Active
CORPO12 CORP VE	Corporate	Apr 24, 2018	1	Active
CORPE12 Corporate 12	Corporate	Apr 24, 2018	0	Active

At the bottom of the table, there is a 'Cancel' button. A 'Manage Columns' button is also present in the top right corner of the table area.

View Virtual Entity - Field Description

Field Name	Description
Party Name	Select the party name and ID from the dropdown list to view the applicable virtual entities. By default, the primary party of the logged-in user is selected. Note: Based on the party name selection, the mapped virtual entities are displayed.
Virtual Entity ID	Specify the unique ID assigned to each virtual entity.
Virtual Entity Name	Specify the name of the virtual entity corresponding to the entity ID. Note: It is mandatory to specify any one of the above parameters to get the search result.
Entity List	
Total Count of Records	Displays the total count of records based on the search criteria.
Virtual Entity ID & Name	Displays the entity ID and name corresponding to the search criteria.
Virtual Entity Type	Displays the type of the entity, whether the entity is Individual or Corporate.
Creation Date	Displays the virtual entity creation date.
Mapped Virtual Accounts	Displays the count of all the child accounts mapped to the virtual entity.
Status	Displays the status of the virtual entity, whether the virtual entity is active or closed.

- Click **Manage Columns** to reorder or modify or save column preferences in virtual entity screen.

View Virtual Entity – Manage Columns overlay screen appears.

- a. Click **Apply** to apply the modified columns preferences.
 - b. Click **Reset** to reset the columns preferences.
6. Click the **Virtual Entity ID & Name** link to view the virtual entity details.
The **Virtual Entity - View** screen appears.

Field Description

Field Name	Description
Party Name	Displays the party name and ID mapped to the selected Virtual Entity.
Virtual Entity Details	
Virtual Entity Name	Displays the name of the virtual entity with the status.
Virtual Entity ID	Displays the unique ID assigned to each virtual entity.
Virtual Entity Type	Displays the type of the entity, whether the entity is Individual or Corporate.
Virtual Entity Name	Displays the name of the virtual entity corresponding to the entity ID.

Field Name	Description
The following fields are displayed if you view the Corporate entity type.	
Corporate Type	The corporate type. The options are: • Corporation • Co-operative • Partnership • Sole Proprietorship
Date of Incorporation	Displays the date of incorporation of the corporate.
Country of Incorporation	Displays the country name of the incorporation.
Landline	Displays the landline number of the corporate virtual entity holder. Note: This field will not appear if landline number is not given while creation.
Alternate Landline	Displays the alternate landline number of the corporate virtual entity holder. Note: This field will not appear if alternate landline number is not given while creation.
Mobile Number	Displays the mobile number of the virtual entity holder. Note: This field will not appear if mobile number is not given while creation.
Email ID	Displays the email address of the virtual entity holder. Note: This field will not appear if email id is not given while creation.
BIC	Displays the BIC of the Corporate Virtual Entity Holder. Note: This field will not appear if BIC is not given while creations.
Preferred Mode	Displays the preferred mode of the virtual entity holder. The preferred mode could be Mobile or Email.
Mapped Virtual Accounts	Displays the count of all the child accounts mapped to the virtual entity.
Registered Address	
Address Line 1	Displays the correspondence address line 1 of the virtual entity holder.
Address Line 2	Displays the correspondence address line 2 of the virtual entity holder.
Address Line 3	Displays the correspondence address line 3 of the virtual entity holder.
Address Line 4	Displays the correspondence address line 4 of the virtual entity holder.
Country	Displays the country name of the virtual entity holder.
Post Code	Displays the post code of the virtual entity holder.

Field Name	Description
Correspondence Address	
Address Line 1	Displays the first line of mailing address of the corporate virtual entity holder.
Address Line 2	Displays the second line of mailing address of the corporate virtual entity holder.
Address Line 3	Displays the third line of mailing address of the corporate virtual entity holder.
Address Line 4	Displays the fourth line of mailing address of the corporate virtual entity holder.
Country	Displays the country name of the corporate virtual entity holder.
Post Code	Displays the post code of the corporate virtual entity holder.
Structured Address	
Department	Displays the department of the virtual entity holder.
Sub-Department	Displays the sub-department of the virtual entity holder.
Street Name	Displays the street name of the corporate virtual entity holder.
Building Number	Displays the building number of the virtual entity holder.
Building Name	Displays the building name of the virtual entity holder.
Floor	Displays the floor number of the corporate virtual entity holder.
Post Box	Displays the post box number of the virtual entity holder.
Room	Displays the room number of the corporate virtual entity holder.
Post Code	Displays the post code of the virtual entity holder.
Town Name	Displays the town name of the corporate virtual entity holder.
Town Location Name	Displays the town location name of the corporate virtual entity holder.
District Name	Displays the district name of the corporate virtual entity holder.
Country Subdivision	Displays the country subdivision of the corporate virtual entity holder.
Country	Displays the country name of the corporate virtual entity holder.
The following fields are displayed if you select the Virtual Entity Type as Individual	
First Name	Displays the first name of the virtual entity holder.
Last Name	Displays the last name of the virtual entity holder.
Date of Birth	Displays the date of the birth of the virtual entity holder.
Gender	Displays the gender of the virtual entity holder.
Nationality	Displays the nationality of the virtual entity holder.

Field Name	Description
National ID	Displays the national ID of the virtual entity holder.
Home Phone	Displays the home phone number of the virtual entity holder.
Work Phone	Displays the work phone number of the virtual entity holder.
Mobile Number	Displays the mobile number of the virtual entity holder.
Email ID	Displays the email address of the virtual entity holder.
Preferred Mode	Displays the preferred mode of the virtual entity holder. The preferred mode could be Mobile or Email.
Mapped Virtual Accounts	Displays the count of all the child accounts mapped to the virtual entity.
Registered Address	
Address Line 1	Displays the correspondence address line 1 of the virtual entity holder.
Address Line 2	Displays the correspondence address line 2 of the virtual entity holder.
Address Line 3	Displays the correspondence address line 3 of the virtual entity holder.
Address Line 4	Displays the correspondence address line 4 of the virtual entity holder.
Country	Displays the country name of the virtual entity holder.
Post Code	Displays the post code of the virtual entity holder.
Structured Address	
Department	Displays the department of the virtual entity holder.
Sub-Department	Displays the sub-department of the virtual entity holder.
Street Name	Displays the street name of the corporate virtual entity holder.
Building Number	Displays the building number of the virtual entity holder.
Building Name	Displays the building name of the virtual entity holder.
Floor	Displays the floor number of the corporate virtual entity holder.
Post Box	Displays the post box number of the virtual entity holder.
Room	Displays the room number of the corporate virtual entity holder.
Post Code	Displays the post code of the virtual entity holder.
Town Name	Displays the town name of the corporate virtual entity holder.
Town Location Name	Displays the town location name of the corporate virtual entity holder.
District Name	Displays the district name of the corporate virtual entity holder.
Country Subdivision	Displays the country subdivision of the corporate virtual entity holder.

Field Name	Description
Country	Displays the country name of the corporate virtual entity holder.
Identification Details	
Identification Type	Displays the identification type of the virtual entity holder.
Identification Number	Displays the identification number corresponding to the identification type.
Tax Identification Number	Displays the tax identification number of the virtual entity holder.
PDF Statement Preferences	
Generate PDF	Displays the generate PDF if enabled.
Statement Type	
Consolidated	Displays the combined statement of all Virtual Accounts linked to the Virtual Entity.
Account Level	Displays the account level Statement of each Virtual account mapped to the Virtual Entity.
Frequency	Displays the frequency of the statement. The available options are: • Daily • Weekly • Monthly • Quarterly • Yearly

Field Name	Description
Due On	Displays the Due day/date/month/quarter/year required for the Virtual Account statement. The available options based on the frequency selected are: • Daily - This field is not applicable and will not appear for Daily frequency. • Weekly - Displays the day when the account statement needs to be generated for the week. • Monthly - Displays the day of the month when the account statement needs to be generated for the month. Example: If Due On is selected as "31" and the current month has only 28 days, this will be considered as the last day of the month and the account statements will be generated on the last day for all the months. • Quarterly - Displays the end month of quarter when the account statement needs to be generated. Statement will always be generated on the last day of the month selected. Example: If Due On is selected as "March (3)", the account statement will be generated on the last day of the month (31st March) for the period of 1st January to 31st March. • Yearly - Displays the month when the account statement needs to be generated for the year. Statement will always be generated on the last day of the month selected.

MT Statement Preferences

Generate MT940	Displays the preference to download the statement in MT940 format.
Generate MT950	Displays the preference to download the statement in MT950 format.
Generate MT942	Displays the preference to download the statement in MT942 format.
Generate Message Only on Movement	Displays the generate message only on movement.
Report Transactions Since	Displays the since when the statement to be generated.
Generation Time	Displays the time when the statement is needed.
Display IBAN	Displays the preference for IBAN which will be applicable for the all the Virtual Accounts linked under this entity.

ISO Statement Preferences

Generate CAMT.053	Displays the preference to download the statement in CAMT.053 format.
Generate CAMT.052	Displays the preference to download the statement in CAMT.052 format.

Field Name	Description
Generate Message Only on Movement	Displays the preference for generating message only on movement
Report Transactions Since	Displays the report transactions
Generation Time	Displays the time when the statement is needed.

7. Click **Edit** to modify and update the virtual entity.
OR
Click **Close** to close the virtual entity.
OR
Click **Back** to navigate back to previous screen.

4.3 Edit Virtual Entity

To edit virtual entity:

1. Navigate to the **View Virtual Entity** screen.
2. In the **Party Name** field, select the party name and ID from the dropdown list.
3. In the **Virtual Entity ID** field, enter the unique id of the virtual entity whose details you want to edit.
OR
In the **Virtual Entity Name** field, enter the name of the virtual entity whose details you want to edit.
OR
Click the desired record under the **Virtual Entity ID & Name** column. The record details are displayed.
4. Click **Search**. The search results appear based on the search parameters defined.
OR
Click **Clear** if you want to reset the search parameters.
OR
Click **Cancel** if you want to cancel the transaction
5. Click the **Virtual Entity ID & Name** link. The **Virtual Entity - View** screen appears.
6. Click **Edit**.
The **Edit Virtual Entity - Virtual Entity Information** screen is displayed.

Field Description

Field Name	Description
Identification Details	
Identification Type	Select the identification type of the virtual entity holder. Note: The dropdown list is now available as part of local enumerations.
Identification Number	Specify the identification number corresponding to the identification type.
Tax Identification Number	Specify the tax identification number of the virtual entity holder.
PDF Statement Preferences	
Generate PDF	Click the Generate PDF toggle if you want preference for statement download in PDF format. Below section is enabled if you click Generate PDF toggle.
Statement Type	
Consolidated	Select the consolidated statement of all the Virtual Accounts mapped to the Virtual Entity.
Account Level	Select the account level Statement of each Virtual account mapped to the Virtual Entity.
Frequency	Select the frequency of the statement. The available options are: • Daily • Weekly • Monthly • Quarterly • Yearly

Field Name	Description
Due On	Select the Due day/date/month/quarter/year required for the Virtual Account statement. The available options based on the frequency selected are: • Daily - This field is not applicable and will not appear for Daily frequency. • Weekly - Select the day when the account statement needs to be generated for the week. • Monthly - Select the day of the month when the account statement needs to be generated for the month. Example: If Due On is selected as "31" and the current month has only 28 days, this will be considered as the last day of the month and the account statements will be generated on the last day for all the months. • Quarterly - Select the end month of quarter when the account statement needs to be generated. Statement will always be generated on the last day of the month selected. Example: If Due On is selected as "March (3)", the account statement will be generated on the last day of the month (31st March) for the period of 1st January to 31st March. • Yearly - Select the month when the account statement needs to be generated for the year. Statement will always be generated on the last day of the month selected.
MT Statement Preferences	
Generate MT940	Click the toggle to set up your preference to download the statement in MT940 format.
Generate MT950	Click the toggle to set up your preference to download the statement in MT950 format.
Generate MT942	Click the toggle to set up your preference to download the statement in MT942 format.
Generate Message Only on Movement	Click the toggle to generate message only on movement. This field is enabled if you click the Generate MT942 toggle.
Report Transactions Since	Select since when you want the statement to be generated. This field is enabled if you click the Generate MT942 toggle.
Generation Time	Specify the time when the statement is needed. This field is enabled if you click the Generate MT942 toggle.
Display IBAN	Click the toggle to set up the preference for IBAN which will be applicable for the all the Virtual Accounts linked under this entity.

Field Name	Description
ISO Statement Preferences	
Generate CAMT.053	Click the toggle to set up your preference to download the statement in CAMT.053 format.
Generate CAMT.052	Click the toggle to set up your preference to download the statement in CAMT.052 format.
Generate Message Only on Movement	Click the toggle to generate message only if there is any transaction posted. This field is enabled if you click the Generate CAMT.052 toggle.
Report Transactions Since	Select since when you want the statement to be generated. This field is enabled if you click the Generate CAMT.052 toggle.
Generation Time	Specify the time when the statement is needed. This field is enabled if you click the Generate CAMT.052 toggle.

8. Click **Submit**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.
9. The **Review** screen appears. Verify the details and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.
User is directed to **Other Details** screen with values in editable form.
10. The success message of **Virtual Entity** update appears along with the reference number.
OR
Click **Home** to navigate to the dashboard.
OR
Click **Go To Overview** to navigate to the Virtual Account management dashboard.
OR
Click **Create Virtual Entities** to create Virtual Entities.
OR
Click **Create Virtual Accounts** to create Virtual Accounts.

4.4 Close Virtual Entity

To close virtual entity:

1. Navigate to the **View Virtual Entity** and in the **Virtual Entity ID** field, enter the unique ID of the virtual entity whose details you want to close.
OR
In the **Virtual Entity Name** field, enter the name of the virtual entity whose details you want to close.
OR
Click the desired record under the **Virtual Entity ID & Name** column. The record details are displayed.
2. Click **Search**. The search results appear based on the search parameters defined.
OR
Click **Clear** if you want to reset the search parameters.
OR
Click **Cancel** if you want to cancel the transaction.
3. Click the **Virtual Entity ID & Name** link. The **Virtual Entity – View** screen appears.
4. Click **Close**. The message is displayed prompting for record closing.

Close Virtual Entity

Note: You can close an entity, only if all the Virtual Accounts are closed.

5. Click **Yes** to close the virtual entity. The success message of Virtual Entity deletion is displayed along with the reference number.
OR
Click **No** if you do not wish to close the Virtual Entity.
6. Click **Home** to navigate to the dashboard screen.

4.5 Inter-Entity Position

User can view the positions between the two entities of the associated parties for a day or for a given period.

How to reach here:

Toggle Menu > Virtual Account Management > Virtual Entity > Inter-Entity Position

To inter-entity position:

1. Navigate to the **View** Inter-Entity Position screen.
2. In the **Party Name** field, select the party name and ID from the dropdown list.
3. In the **From Virtual Entity** field, select the virtual entity from the drop-down list from which the inter-entity position details have to be fetched.
4. In the **To Virtual Entity** field, select the virtual entity from the drop-down list to which the inter-entity position details have to be fetched.
5. From the **Date Range** list, select the **From** and **To** date from the calendar.

Note: This field is enabled only when the user selects the **Select Date Range** checkbox.

6. Click **Search**. The search results appear based on the search parameters defined.
OR
Click **Clear** if you want to reset the search parameters.

Note: By default, the Inter-Entity Position data for today will appear for the different virtual entities.

Inter-Entity Position - Today

The screenshot displays the 'Inter-Entity Position' screen for 'Today'. The search form includes a 'Party Name' dropdown (ABC Solutions | ****462), 'From Virtual Entity' and 'To Virtual Entity' dropdowns, and a 'Select Date Range' checkbox. Below the form, a table titled 'Inter-Entity Position Details' shows transactions for 'Today'. The table has columns for 'Currency' and 'Amount'. The transactions are as follows:

From	To	Currency	Amount
From ABC Stores AUT0R42	To Corp AUTCV04 AUTCV04	GBP	25.00
From ABC Corp Purchases SDCV01	To ABC Stores AUT0R42	GBP	-GBP 742.00
From ABC Corp Purchases SDCV01	To Corp AUTCV04 AUTCV04	GBP	-GBP 119.00
From October Corporate Virtual Entity 01 OCTCED01	To Corp AUTCV04 AUTCV04	GBP	14.00

5. Virtual Account

Virtual accounts are notional accounts, which represents real accounts, and they are linked either to a real account directly or linked via Virtual Accounts structure. These accounts are series of dummy accounts used to make and receive payments on behalf of one physical account. Virtual accounts also offer corporates the ability to reconcile payments in real time.

This feature allows following:

- Create Virtual Account
- View Virtual Account
- Edit Virtual Account
- Close Virtual Account

5.1 Create Virtual Account

How to reach here:

Toggle Menu > Virtual Account Management > Virtual Account > Create Virtual Account
OR

Toggle Menu > Virtual Account Management > Overview > Virtual Entity Summary > Create Virtual Account

Virtual Account Creation

1. Click **Single Virtual Account Creation** to create one Virtual Account.
OR
Click **Bulk File Upload** to create the multiple Virtual Accounts through Bulk File Upload.

To create Virtual Account:

2. In the **Party Name** field, select the party name and ID from the dropdown list.
3. In the **Virtual Entity ID & Name** field, enter the virtual Entity ID or Name and, click .
4. From the **Branch Name** list, select the branch where Virtual Account is to be opened.
5. From the **Product** list, select the Virtual Account product.
6. In the Virtual Account Name field, values will get defaulted as per selected Virtual Entity Name. Defaulted Virtual Account Name is allowed to be updated only if name change is allowed for the selected product
7. In the **Purpose** field, enter the purpose of account opening.
8. In the **Currency** field, select the currency.
9. In the **Linkage** type, select the linkage type as Structure or Real Account.
10. If you select **Structure** option, select the structure name from the respective list.
11. In the **Parent Account** field, click **Search** icon to search the parent account number.
The **Search Parent Account** overlay appears.
12. In the **Search Parent Account** overlay screen, select the required filter criteria in the respective fields.
13. Click **Search** to search the parent account based on search criteria.
OR
Click **Clear** to reset the entered data.
OR
Click **Cancel** to cancel the Parent Account selection.
14. Search and select the parent account number from the list.
15. If you select **Real Account** option, select the real account number and name from the **Real Account Number** list.
16. Move the **Interest Calculation Required** slider to calculate interest on the Virtual Account.
Note: Application displays the **Interest Rates** link for the product where the interest rates are maintained. Click on the link to view the details of interest rates maintained for the selected Virtual Account product.
17. In the **Account Expiry Date** field, Select the future date to set the expiry for Virtual account.
Note: If no date is set, it will indicate that there will be no Expiry date for the Virtual Account in context.
18. To keep Correspondence Address as Virtual Entity address, select the **Copy from Virtual Entity** check box.
19. If the **Correspondence Address** is not same as entity address:
 - a. In the **Address Line 1** field, enter the first line of the correspondence address.
 - b. In the **Address Line 2** field, enter the second line of the correspondence address.
 - c. In the **Address Line 3** field, enter the third line of the correspondence address.
 - d. In the **Address Line 4** field, enter the fourth line of the correspondence address.

- e. From the **Country** list, select the country.
 - f. In the **Post Code** field, enter the postal code.
20. To keep Structured Address same as Virtual Entity address, select the **Copy from Virtual Entity** check box.
OR
Enter the required information in **Structured Address** fields.
21. Move the **IBAN Required** slider to avail the IBAN.
22. Move the **Balance Check for Debits** slider to check the account balance while debiting the account.
23. Select the appropriate option from the **Balance Availability Option** list.
- a. If you select **Fixed Amount** in **Pool** option from the **Balance Availability Option** list, enter the amount in the **Fixed Amount** in **Pool** field.
24. Move the **Debit Transaction Allowed** slider to debit the Virtual Account.
25. Move the **Credit Transaction Allowed** slider to credit the Virtual Account.
26. Move the **Overdraft Allowed** slider to avail the overdraft facility on the Virtual Account.
- a. If you select **Overdraft Allowed** option, enter the fixed overdraft amount in the **Overdraft Amount** field.
27. Move the **Available in Liquidity Management** slider to enable the Virtual Account for creating Liquidity Management structure.

These are the prevailing rates for this Virtual Account and can be changed through Interest Maintenance Transaction.

Field Description

Field Name	Description
Party Name	Select the party name and ID from the dropdown list in which the Virtual Account must be created. By default, the primary party of the logged-in user is selected.
Account Details	
Virtual Entity ID & Name	Select the virtual entity ID and name under which the Virtual Accounts are created.
Branch Name	Select the Branch name of the Virtual Account.
Product	Select the Virtual Account Product
Virtual Account Name	Specify the name of the Virtual Account holder. Note: Based on the product selection, if the Virtual account name change is permitted at product level, then Virtual Account name will be defaulted from Virtual Entity name and the user will be allowed to change the description as per his choice during the flow. If the Virtual account name change is not permitted at product level, then Virtual Account name will be defaulted from Virtual Entity Name (Read Only) and user will not be allowed to change the Virtual Account name and the field will remain non editable.
Purpose	Specify the purpose of the creating a Virtual Account.
Currency	Select the Currency for virtual Account
Linkage	Select the linkage type. The options are • Structure • Real Account
Structure Name	Select the structure name to which the Virtual Account has to be added. This field is displayed if Structure is selected as Linkage preference.

Field Name	Description
Parent Account Number	Select the Parent account number and name to which the Virtual Account has to be linked. This field is displayed if Structure is selected as Linkage preference.
Search Parent Account	
Structure Code	Displays the structure code.
Structure Name	Displays the name of the structure.
Virtual Account Number	Specify the Virtual account number.
Search Result	
Note:	
User can view only the configured number of Virtual Account Number in the search results.	
If the search result count exceeds the configured count, an error message appears to refine the search criteria.	
Virtual Account No. & Name	Displays the Virtual Account number and name.
Branch Name	Displays the branch of the account.
Real Account Number	Select the Real account number and name to which the Virtual Account has to be linked. This field is displayed if Real Account is selected as Linkage preference.
Note: User can search the Real Accounts by Account Name, Account Number, Branch or Currency based on the parameters set in the system configuration and displays these details in the search results and the respective fields once the required account is selected.	
Interest Calculation Required	Move the slider to display the applicable Interest Rates for the selected Virtual Account. Note: Interest Calculation Required gets automatically enabled if it is supported for the selected product. It can be disabled if the user does not require it. If the Interest Calculation is not supported for the selected product and it will be in disabled mode, then the user cannot change it.

Field Name	Description
Interest Rates	Interest rates link is displayed for only those products where the interest calculation required is supported and toggle is enabled. If the user has not selected the Product, Branch & Currency fields, the appropriate error message will appear.

Interest Rates Overlay

On selection of Virtual Account product, application displays the interest rates maintained for the product. Below mentioned field are displayed.

Note: Interest Rates overlay will appear only if the user selects Product, Currency, and Branch Name.

Interest Product	Displays the name of the interest product for which the interest rates are maintained.
Rate Description	Displays the description of the interest rate.
Effective Date	Displays the date from which the interest rate is effective.
Currency	Displays the name of the currency name under which the Virtual Account is to be opened.
Rate	Displays the interest rate maintained for the product.
Rate Code	Displays the rate code maintained for the product.
Account Expiry date	Select the future date to set Expiry date for the virtual account. Note: If no date is set, it will indicate that there will be no Expiry date for the Virtual Account in context.

Correspondence Address

The following fields are blank and by selecting the **Copy from Virtual Entity** function the fields of correspondence address get auto populated from Virtual entity address in editable format. User can clear the fields by de-selecting the **Copy from Virtual Entity** check box.

Address Line 1	Specify the correspondence address line 1 of the Virtual Account holder.
Address Line 2	Specify the correspondence address line 2 of the Virtual Account holder.
Address Line 3	Specify the correspondence address line 3 of the Virtual Account holder.

Field Name	Description
Address Line 4	Specify the correspondence address line 4 of the Virtual Account holder.
Country	Select the country name of the corporate virtual entity holder.
Post Code	Specify the post code of the Virtual Account holder.
Structured Address	
The following fields are blank and by selecting the Copy from Virtual Entity function the fields of structured address get auto populated from Virtual entity address in editable format. User can clear the fields by de-selecting the Copy from Virtual Entity check box.	
Department	Specify the department of the Virtual Account holder.
Sub-Department	Specify the sub-department of the Virtual Account holder.
Street Name	Specify the street name of the corporate Virtual Account holder.
Building Number	Specify the building number of the Virtual Account holder.
Building Name	Specify the building name of the Virtual Account holder.
Floor	Specify the floor number of the corporate Virtual Account holder.
Post Box	Specify the post box number of the Virtual Account holder.
Room	Specify the room number of the corporate Virtual Account holder.
Post Code	Specify the post code of the Virtual Account holder.
Town Name	Specify the town name of the corporate Virtual Account holder.
Town Location Name	Specify the town location name of the corporate Virtual Account holder.
District Name	Specify the district name of the corporate Virtual Account holder.
Country Subdivision	Specify the country subdivision of the corporate Virtual Account holder.
Country	Select the country name of the corporate Virtual Account holder.

Field Name	Description
Preferences	
Note: Preferences will be defaulted as per product selected by the user. If preferences are defaulted as No, same cannot be changed later.	
IBAN Required	Move the slider to avail IBAN. Note: if the IBAN required is selected as No during Virtual Account creation, the same cannot be modified later.
Balance Check For Debits	Move the slider to avail balance check while debiting the account.
Balance Availability Option	Select the balance availability preference in the Virtual Account. The options are: • Own Balance • Pool Balance • Fixed Amount In Pool Balance
Fixed Amount In Pool Currency	Specify the fixed amount to be used from the pool. This field is displayed if you select Fixed Amount In Pool Balance option from the Balance Availability Option list.
Debit Transaction Allowed	Move the slider to avail debit transaction preference on the Virtual Account.

To save Virtual Account Template:

9. Click **Save As Template** on the success message of Virtual Account creation screen.
The **Save Template** popup appears

Save Template

A screenshot of a 'Save Template' popup window. The window has a light gray background and a dark gray border. At the top left, the title 'Save Template' is displayed in bold black text. At the top right, there is a close button represented by a black 'X' icon. Below the title, the label 'Template Name' is positioned above a text input field. The input field is empty and has a thin gray border. Below the input field, a small gray text label reads 'Enter 1 to 40 characters.' At the bottom right of the popup, there are two buttons: a dark gray 'Save' button and a light gray 'Cancel' button.

10. In **Template Name** field, specify the template name.
11. Click **Save** to save the Virtual Account template.
OR
Click **Cancel** to cancel the transaction.

NOTE:

On saving an existing template (with or without modifications), it will always be saved as a new template.

User is not allowed to save a template with an existing name.

5.2 View Virtual Account

User can search and view the virtual accounts by entering the search criteria. Only accessible virtual accounts are displayed for the user.

How to reach here:

Toggle Menu > Virtual Account Management > Virtual Account > View/Edit Virtual Account

To view Virtual Account:

1. In the **Party Name** field, select the party name and ID from the dropdown list.
2. In the **Virtual Account Name** field, enter the Virtual Account name.
OR
From the **Virtual Entity ID & Name** field, select the virtual entity Id or name.
OR
From the **Branch Name** field, select the Branch name of the Virtual Account.
Or
From the **Currency** field, select the currency of the Virtual Account.
Or
From the **Status** field, select the status.

Note: It is mandatory to specify any one of the above parameters to get the search result.

3. Click **Search** to view Virtual Account.
The search result corresponding to the search criteria is displayed.
OR
Click **Clear** to clear the search criteria.
OR
Click **Cancel** to cancel the transaction.

Field Description

Field Name	Description
Party Name	Displays the party name and ID mapped to the selected Virtual Account.
Virtual Account Name	Displays the Virtual Account Name as maintained.
Virtual Account Number	Displays the Virtual Account Number.
Available Balance	Displays the Balance details of Virtual account and related child accounts. Note: On click, the user can view the balance for particular Virtual Account including child contributions. Refer to the 5.2 View Virtual Account section for the detailed explanation.
Account Details	
Virtual Account Name	Specify the name of the Virtual Account Holder. Note : User can modify the Virtual Account name only if the same is permitted at product level.
Virtual Entity ID & Name	Displays the Name & ID of the virtual entity corresponding to the Virtual Accounts.
Branch Name	Displays the Branch Name where Virtual account is to be created.
Product	Displays the product name under which the Virtual Account is opened.
Purpose	Specify the purpose of the Virtual Account.
Currency	Displays the currency under which the Virtual Account is to be opened.
Linkage	Displays the linkage type of the Virtual Account to Structure or Real Account.
Structure Name	Displays the name of the structure to which the Virtual Account is added. This field appears only if the linkage type is selected as Structure.

Field Name	Description
Parent Account	Displays the parent account number and name to which the Virtual Account is linked. This field appears only if the linkage type is selected as Structure.
Real Account Number	Specify the Real account number and name to which the Virtual Account is linked. This field appears only if the linkage type is selected as Real Account and the user has access to the specified Real Account. Note: User can search the Real Accounts by Account Name, Account Number, Branch or Currency based on the parameters set in the system configuration and displays these details in the search results and the respective fields once the required account is selected.
Interest Calculation Required	Move the slider to display the applicable Interest Rates for the selected Virtual Account.
Interest Rates On selection of Virtual Account product, application displays the interest rates maintained for the product. Below mentioned field are displayed. Note: On click, the user can view the Interest Rates for particular Virtual Account. Interest Rates popup will appear only if the user selects Product, Currency and Branch Name.	
Interest Product	Displays the name of the interest product for which the interest rates are maintained.
Rate Description	Displays the description of the interest rate.
Effective Date	Displays the date from which the interest rate is effective.
Currency	Displays the name of the currency name under which the Virtual Account is to be opened.
Rate	Displays the interest rate maintained for the product.
Rate Code	Displays the rate code maintained for the product.

Field Name	Description
Interest Rates	Interest rates link is displayed for only those products where the interest calculation required is supported and toggle is enabled.
Creation Date	Select the Virtual Account creation date.
Account Expiry Date	Displays the expiry date of the virtual account. This field is editable and user can specify the new Expiry date
	Note: If no date is set, it will indicate that there will be no Expiry date for the Virtual Account in context.
Expired	Displays the expiry status of virtual account
	Note: If an account is expired, User will be allowed to - 1. Modify Virtual Account details including expiry date, 2. Generate and view expired Virtual Accounts Statements 3. <u>Modify access rights for an expired Virtual Account."</u>

Field Name	Description
Correspondence Address	
The following fields are editable and by selecting the Copy from Virtual Entity function the fields of correspondence address get auto populated from Virtual entity address in editable format. User can clear the fields by de-selecting the Copy from Virtual Entity check box.	
Address Line 1	Specify the correspondence address line 1 of the Virtual Account holder.
Address Line 2	Specify the correspondence address line 2 of the Virtual Account holder.
Address Line 3	Specify the correspondence address line 3 of the Virtual Account holder.
Address Line 4	Specify the correspondence address line 4 of the Virtual Account holder.
Country	Select the country name of the Virtual Account holder.
Post Code	Specify the post code of the Virtual Account holder.
Structured Address	
The following fields are editable and by selecting the Copy from Virtual Entity function the fields of structured address get auto populated from Virtual entity address in editable format. User can clear the fields by de-selecting the Copy from Virtual Entity check box.	
Department	Specify the department of the Virtual Account holder.
Sub-Department	Specify the sub-department of the Virtual Account holder.
Street Name	Specify the street name of the corporate Virtual Account holder.
Building Number	Specify the building number of the Virtual Account holder.
Building Name	Specify the building name of the Virtual Account holder.
Floor	Specify the floor number of the corporate Virtual Account holder.
Post Box	Specify the post box number of the Virtual Account holder.
Room	Specify the room number of the corporate Virtual Account holder.
Post Code	Specify the post code of the Virtual Account holder.

Field Name	Description
Town Name	Specify the town name of the corporate Virtual Account holder.
Town Location Name	Specify the town location name of the corporate Virtual Account holder.
District Name	Specify the district name of the corporate Virtual Account holder.
Country Subdivision	Specify the country subdivision of the corporate Virtual Account holder.
Country	Select the country name of the corporate Virtual Account holder.
Preferences	
Note: Preferences will be defaulted as per product selected by the user. If preferences are defaulted as No, the same cannot be modified.	
IBAN Required	Displays the IBAN Required preference set on Virtual Account creation.
	Note: This field is non-editable.
Balance Check For Debits	Move the slider to check the balance while debiting the account.
Balance Availability Option	Move the slider to avail balance availability preference in the account. The options are: • Own Balance • Pool Balance • Fixed Amount In Pool Balance
Fixed Amount In Pool	Specify the fixed amount to be used from the pool. This field is displayed if you select Fixed Amount In Pool Balance option from the Balance Availability Option list.
Debit Transaction Allowed	Move the slider to avail debit transaction preference on the Virtual Account.
Credit Transaction Allowed	Move the slider to avail credit transaction preference on the Virtual Account.
Account Frozen	Move the slider to freeze the Virtual Account.

Field Name	Description
Overdraft Allowed	Move the slider to avail overdraft preference on the Virtual Account.
Overdraft Amount	Specify the fixed amount as overdraft on the Virtual Account. This field is displayed if you select Overdraft Allowed preference.
Available in Liquidity Management	Move the slider to avail the Virtual Account to create Liquidity Management structure.

6. Edit the values in the fields, if required.
7. Click **Submit**. The **Review** screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.
8. Verify the details and click **Confirm**.
The success message of **Virtual Account** update appears along with the reference number.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.
9. Click **Home** to navigate to the dashboard screen.
OR
Click **Go To Overview** to navigate to the Virtual Account management dashboard.
OR
Click **Create Structure** to create virtual structure.

5.4 Close Virtual Account

This feature allows the corporate user to close one or more Virtual Accounts and specify designated Virtual Accounts for transfer of proceeds.

Note:

At System configuration,

1. The maximum number of Virtual Accounts selected for closure is configured.
2. The Closure of Virtual Accounts with positive or negative balance or both are configured.

Based on the above configuration, the system allows the selection and closure of Virtual accounts.

How to reach here

Toggle Menu > Virtual Account Management > Virtual Account > Close Virtual Account > Initiate Closure

To close a Virtual Account(s):

1. In the **Party Name** field, select the party name and ID from the dropdown list.
2. In the **Virtual Account Number** field, enter the Virtual Account Number or user can directly click search button to get all eligible accounts.
3. Enter the other search criteria.
4. Click **Search** to view Virtual Account.
The search result corresponding to the search criteria is displayed.
OR
Click **Clear** to clear the search criteria.
OR
Click **Cancel** to cancel the transaction.

Virtual Accounts Selected for Closure

Once user selects the Virtual Account(s) for closure, system will check whether the account has accrued interest that needs to be liquidated & residual balances transferred

- If the Net Balance of an account (sum of current balance and accrued interest) is **Zero**, user can proceed and close the Virtual Account(s).
- If the Net Balance of an account (sum of current balance and accrued interest) is **Positive**, then user will be prompted to choose another Virtual Account where the net balance can be transferred. The transfer Virtual Account must be mapped to the same real account and be of same currency as the Virtual Account being closed.
- If the Net Balance (sum of current balance and accrued interest) is **Negative**, user will be prompted to choose another Virtual Account from where funds can be moved to zeroise the negative balance. The transfer Virtual Account must be mapped to the same real account as the Virtual Account being closed and be of same currency

Note: As product feature, balance transfer at the time of closing an account can happen to another Virtual Account mapped to the same real account as the Virtual Account being closed.

Click **Back** to navigate to the previous screen.
6. The success message of Virtual Accounts closure is displayed along with the reference number.
Click **View Closure details** to view the Virtual Account closure details.
OR
Click **Home** to navigate to the dashboard screen.
OR
Click **Go To Overview** to navigate to the Virtual Account management dashboard.

5.5 Track Virtual Account Closure

This option enables the user to track Virtual Accounts closure request and view the status of closure request at an individual Virtual Account level. User should be able to search a Virtual Account by Virtual Account Number, Virtual Account Name, IBAN, Status, From or To Date.

How to reach here:

Toggle Menu > Virtual Account Management > Virtual Account > Close Virtual Account > Track Closure

To track the account closure status:

1. In the **Party Name** field, select the party name and ID from the dropdown list.
2. In the **Virtual Account Number** field, enter the Virtual Account Number.
3. Enter the appropriate search criteria.
4. Select the status of the Virtual Account from the list.
5. Click **Search** to view Virtual Account.
The search result corresponding to the search criteria is displayed.
OR
Click **Clear** to clear the search criteria.
OR
Click **Cancel** to cancel the transaction.

Track Virtual Account Closure

Field Description

Field Name	Description
Party Name	Select the party name and ID from the dropdown list to view the applicable Virtual Accounts. By default, the primary party of the logged-in user is selected. Note: Based on the party name selection, the mapped Virtual Accounts are displayed.
Virtual Account Number	Specify the Virtual Account Number to track closure.
Virtual Account Name	Specify the name of the Virtual Account to track closure.
IBAN	Specify the IBAN number of the Virtual Account.
From Date – To Date	Select the date range up to which you want to view the search results.
Status	Select the status of the Virtual Account.
Virtual Account Closure Status	
Note: User can view only the configured number of Virtual Account Number in the search results. If the search result count exceeds the configured count, an error message appears to refine the search criteria.	
Virtual Account No. & Name	Displays the account number and name corresponding to the search criteria selected for closure.
IBAN	Displays the IBAN number of the Virtual Account.
Closure Initiated Date	Displays the date on which closure initiation request is initiated.

Field Name	Description
Closure Request Status	Displays the status of the closure request. Following are the possible statuses of a Virtual Account closure request • Closure Initiated – Once user initiates Virtual Account closure, the status of the request would be “Closure Initiated”. • Completed: On successful closure of the Virtual Account, the status will be marked as "Completed" • Terminated: The status of the closure request will be marked as “Terminated”, whenever a user terminates a closure request before the account is closed. User can terminate a closure request by clicking on the “Terminate” Button • Failed: The status of the closure request will be marked as “Failed” if any of the above listed stages fail. User can also retry the closure request by clicking on “Retry” button.

6. Click **Manage Columns** to reorder or modify or save column preferences in virtual account screen.

Track Virtual Account Closure – Manage Columns overlay screen appears.

- a. Click **Apply** to apply the modified columns preferences.
- b. Click **Reset** to reset the columns preferences.

7. Click the **Closure Request Status** link to view the Virtual Account closure status details. The Virtual Account closure status screen appears. Refer below matrix to understand when Terminate /Retry buttons are displayed.

When Virtual Account Closure Request Status is	Terminate Button will be Displayed	Retry Button will be displayed
Closure Initiated	Yes	No
Failed	Yes	Yes
Completed	No	No
Terminated	No	No

Balance Availability Options	Displays whether balance available is in own account.
Debit Transaction Allowed	Displays whether debit transactions are allowed in the account.
Credit Transaction Allowed	Displays whether credit transactions are allowed in the account.
Account Frozen	Displays whether the account is frozen.
Overdraft Allowed	Displays whether overdraft facility is available on the Virtual Account.
Overdraft Amount	Displays the fixed amount as overdraft on the Virtual Account. This field is displayed if you select Overdraft Allowed preference.

1. Click  icon and

- a. Select the **View Transactions** option to view the transaction details.
- b. Select the **View Restrictions** option to view the restriction details.
- c. Select the **Edit Restrictions** option to edit the restriction details.

2. Click **Reopen** to reopen the Virtual Account. The message is displayed prompting for reopening the Virtual Account.
OR
Click **Back** to navigate back to previous screen.

Reopen Virtual Account

3. Click **Yes** to reopen the Virtual Account.
OR
Click **No** if you do not wish to reopen the Virtual Account.
4. The success message of Virtual Account Reopen is displayed along with the reference number.

Click **Home** to navigate to the dashboard screen.
OR
Click **Go To Overview** to navigate to the Virtual Account management dashboard.

6. Virtual Accounts Structure

The implementation of Virtual Accounts structure provides corporates better visibility and greater control over cash. It allows corporate the ability to re-examine funds allocation quickly and look for opportunities to implement a payment or collection.

You can create & view the Virtual Accounts structure in both tabular as well as map view.

This feature allows following:

- Create Virtual Accounts Structure
- View Virtual Accounts Structure
- Edit Virtual Accounts Structure
- Close Virtual Accounts Structure

6.1 Create Virtual Accounts Structure

How to reach here:

Toggle Menu > Virtual Account Management > Virtual Accounts Structure > Create Structure
OR

Toggle Menu > Virtual Account Management > Overview > Virtual Accounts Structure > Create Structure

Virtual Accounts Structure Creation

The screenshot shows the Futura Bank interface for creating a Virtual Accounts Structure. At the top, there is a navigation bar with the Futura Bank logo, a search bar with the placeholder text "What would you like to do today?", and a notification bell icon with a red "099" badge and a "ST" button. Below the navigation bar, the main heading is "Virtual Accounts Structure" with a subtext "ABZ Solutions | ***462". The central part of the interface features an illustration of two people, a man and a woman, standing next to a large screen displaying a bar chart. Below the illustration, the text "Virtual Accounts Structure Creation" is displayed. A message states: "You can create a Virtual Accounts Structure using Tree or Tabular View. Alternatively you can also use the Bulk File Upload option to create a Virtual Accounts Structure." Below this message, there are two options: "Virtual Accounts Structure Creation in Tree/Tabular view" and "Bulk File Upload". The first option includes the text "Create Virtual Accounts Structure using Tree/Tabular view." and a "Create Structure" button. The second option includes the text "Create Virtual Accounts Structure via Bulk File Upload facility." and a "Bulk File Upload" button.

Virtual Accounts Structure Creation

You can create a Virtual Accounts Structure using Tree or Tabular View. Alternatively you can also use the Bulk File Upload option to create a Virtual Accounts Structure.

Virtual Accounts Structure Creation in Tree/Tabular view
Create Virtual Accounts Structure using Tree/Tabular view.
[Create Structure](#)

Bulk File Upload
Create Virtual Accounts Structure via Bulk File Upload facility.
[Bulk File Upload](#)

1. Click **Create Structure** to create the Virtual Accounts Structure in Tree/Tabular view.
OR
Click **Bulk File Upload** to create the Virtual Accounts Structure through Bulk File Upload.

To create Virtual Accounts Structure in Tree/Tabular view:

2. In the **Party Name** field, select the party name and ID from the dropdown list.
3. In the **Structure Code** field, enter the structure code.
4. In the **Structure Name** field, enter the name of the structure.
5. From the **Real/Virtual Multi-Currency Account** list, select the appropriate account number.
6. In the **Header Account** field, click **Search** icon to search the header account number.
The **Header Account** overlay appears.
7. In the **Header Account** overlay screen, select the required filter criteria in the respective fields.
8. Click **Search** to search the header account based on search criteria.
OR
Click **Clear** to reset the entered data.
OR
Click **Cancel** to cancel the Header Account selection.
9. Search and select the header account number from the list.
10. Move the **Interest Calculation Required** slider to avail the interest calculation.
11. From the **Charge Account** list, select the Charge Account Number.

Create Virtual Accounts Structure

The screenshot shows the 'Virtual Accounts Structure' form in the Futura Bank interface. The form is titled 'Virtual Accounts Structure' with a sub-header 'ABZ Solutions | ***462'. It contains several input fields: 'Party Name' (a dropdown menu showing 'ABZ Solutions | ***462'), 'Structure Code' (a text field), 'Structure Name' (a text field), 'Real/Virtual Multi-Currency Account' (a text field with a search icon), 'Header Account' (a text field with a search icon), 'Interest Calculation Required' (a toggle switch), and 'Charge Account' (a dropdown menu). Each text field has a 'Required' label below it. At the bottom, there are two buttons: 'Build Structure' and 'Cancel'.

4. Click **Manage Columns** to reorder or modify or save column preferences in virtual Accounts Structure screen.

View Virtual Accounts Structure – Manage Columns overlay screen appears.

The screenshot shows the Futura Bank interface. The main screen is titled "Virtual Accounts Structure" and displays a search bar, a dropdown for "Party Name" (ABZ Solutions | ***462), and input fields for "Structure Code" (1) and "Structure Name". Below these is a "Search" button and a "Clear" link. The "Structure List" section shows "9 Record(s)" and a table with columns "Structure Code & Name", "Creation Date", and "Child Accounts". An overlay titled "Manage Columns" is open on the right, showing a list of columns with "Fixed" buttons and equals signs. The overlay also has "Reset" and "Apply" buttons at the bottom.

- a. Click **Apply** to apply the modified columns preferences.

- b. Click **Reset** to reset the columns preferences.
5. Click the **Structure Code & Name** link to view the Virtual Accounts Structure details. The **Virtual Accounts Structure - View** screen appears.

View Virtual Accounts Structure - Tree View

The screenshot displays the 'Virtual Accounts Structure' view in the Futura Bank system. The header shows the bank logo, a search bar, and the title 'Virtual Accounts Structure' with a sub-header 'ABZ Solutions | ***462'. Below the header, there is a summary section with the following details:

- Structure Code: TreeStruc14AUTOR39
- Structure Name: Tree Struc14 AUTOR39
- Real/Virtual Multi-Currency Account: xxxxxxxxxxxx0024 | Account 04
- Charge Account: xxxxxxxxxxxx0013 | Account 05

The main area shows a tree structure of virtual accounts. The root node is 'test' with account number 'xxxxxxxxxxxx2151' and balance 'GBP 0.00', with 3 child accounts. The first child is 'test' with account number 'xxxxxxxxxxxx2153' and balance 'GBP 0.00', with 2 child accounts. The second child is 'test' with account number 'xxxxxxxxxxxx2730' and balance 'GBP 0.00', with 2 child accounts. The third child is 'test' with account number 'xxxxxxxxxxxx2152' and balance 'GBP 0.00', with 1 child account. The screen includes a header with 'Futura Bank' logo, a search bar, and a 'Virtual Accounts Structure' title. At the bottom, there are buttons for 'Edit', 'Close Structure', and 'Back'.

Note: Only Header node and its immediate child accounts will appear on the screen initially. To view further nodes, click on the respective nodes to expand and view its child accounts.

View Virtual Accounts Structure - Account Details –

The screenshot displays the 'Virtual Accounts Structure' interface for 'Acme Corp | ****602'. The main area shows a tree structure of accounts. The selected account is 'RTM TEST' with account number 'xxxxxxxxxx8860' and balance '£434.00'. The sidebar on the right provides detailed information for this account.

Field	Value
Virtual Account Number	xxxxxxxxxx8860
Virtual Account Name	RTM TEST
IBAN	-
Virtual Entity Name	Test Entity
Branch Name	HEL FC UNIVERSAL BANK
Expired	No
Account Expiry Date	-
Creation Date	4/24/2018
Status	Active
Available Balance	£434.00
Product	OBOK Product 6
Real Account Linkage	No

Note:

1. Header Node is displayed in different colour and Selected node is highlighted.

2. Click to navigate between pages to view all the linked accounts. Count of nodes to be visible at a single level in a Virtual Accounts Structure will be as maintained in system configuration post which all the nodes appear in horizontal pagination.

Field Description

Field Name	Description
Virtual Accounts Structure	
Real Customer Name & ID	Displays the Real customer name and ID.
Structure Code	Displays the Structure code corresponding to the real account.
Structure Name	Displays the Structure name corresponding to the real account.
Real/ Virtual Multi-Currency Account	Displays the Real/Multi-Currency account number and name under which the structure is to be created. Note: In case of VMCA, Virtual Multi-Currency Account is displayed. This field will not be visible if the user does not have access to Real/Multi-Currency account.
Charge Account	Displays the charge account number and name from which the charges will be collected.

Field Name	Description
------------	-------------

View Structure functionality is available in both **Tree** and **Table** view. Below fields are available / applicable for both the views.

Virtual Account Name	Displays the Virtual Account name corresponding to the Virtual Account Number.
-----------------------------	--

Virtual Account Number	Displays the Virtual Account Numbers.
-------------------------------	---------------------------------------

Note: This field is greyed out for the Virtual Account which the user does not have access.

Balances	Displays the balance available in Virtual Account. Click on the Account Balance hyperlink, Account Balance overlay appears.
-----------------	---

Account Linked	Displays the number of linked accounts to the Virtual Account Number.
-----------------------	---

This field is displayed as column in **Tabular** view.

This field  2 is displayed directly in the Virtual Account node in **Tree** view.

Account Balance Details

Click on the Account Balance of the Virtual Account. The **Account Balance Details** screen appears.

Account Number	Displays the Virtual account number.
-----------------------	--------------------------------------

Account Currency	Displays the Virtual account currency.
-------------------------	--

Account Name	Displays the name of the Virtual account.
---------------------	---

Own Balance	Displays the balance in the Virtual Account.
--------------------	--

Child Contributions	Displays the contributions made by the linked child Virtual Accounts.
----------------------------	---

Currency wise Child Contribution	Displays the currency wise child contribution. Click the Currency wise Child Contribution link to view currency wise contribution from child accounts.
---	--

Blocked Child Contributions	Displays the blocked amount of the linked child Virtual Accounts.
------------------------------------	---

Blocked Amount	Displays the blocked amount, which cannot be utilized.
-----------------------	--

Unauthorized Debit	Displays the unauthorized debit amount.
---------------------------	---

Overdraft Amount	Displays the overdraft amount on the Virtual Account.
-------------------------	---

Deferred Amount	Displays the deferred amount on the Virtual Account.
------------------------	--

Uncollected Amount	Displays the uncollected amount on the Virtual Account.
---------------------------	---

Available Balance	Displays the available balance in the Virtual account.
--------------------------	--

Field Name	Description
Benefit From Pool	Displays the beneficial amount available in the pool contributed by different accounts.
Effective Available Balance	Displays the effective available balance in the Virtual Account.
Unauthorized Credit	Displays the unauthorized credit amount.
Transaction Inquiry	Click on the link to view the transactions of the virtual account for the specified period. For information, refer Transaction Inquiry section.

Account Details

Click on the Account Number of the Virtual Account. The Account Balance Details screen appears.

Virtual Account Number	Displays the Virtual Account Numbers
Virtual Account Name	Displays the name of the Virtual account
IBAN	Displays the IBAN number of the Virtual Account
Virtual Entity Name	Displays the name of the virtual entity corresponding to the Virtual Accounts
Branch Name	Displays the branch name of the account
Expired	Displays the Status of Expiry of Virtual Account.
Account Expiry Date	Displays the Expiry date of the virtual account
Creation Date	Displays the structure creation date.
Status	Displays the status of the structure
Available Balance	Displays the available balance in the Virtual account.
Product	Displays the product name under which the Virtual Account is opened
Real Account Linkage	Displays whether the Virtual Account is linked to the Real Account

6. In **Tree** view, click  icon to view the **Account Details**.

OR

In **Tabular** view, click **Account Details**.

The **Account Details** screen is displayed.

Note: This button appears only for the Virtual Accounts which the user has access.

7. Click on the header node to view the accounts linked under the Virtual Account.

OR

Click  to view the account structure in a tree view. You can click on each account widget to view the account balance details.

OR

Click  to view the account structure in tabular view. You can click **View More** link to view the account balance details.

OR

Click **Download** to download the Virtual Accounts Structure in .csv format.

Note: This option will not appear for the closed Virtual Accounts Structure.

8. Click **Edit** to modify and update the Virtual Accounts structure.

OR

Click **Close Structure** to close the Virtual Accounts structure.

OR

Click **Back** to navigate back to previous screen.

6.3 Edit Virtual Accounts Structure

How to reach here:

Toggle Menu > Virtual Account Management > Virtual Accounts Structure > View/Edit Structure
OR

Toggle Menu > Virtual Account Management > Overview > Virtual Accounts Structure > View All

This option allows the user to edit the Virtual Accounts structure. The user can add a child account as well as remove the child account as required.

Note: Delink option is available only for a node which does not have any child accounts. User can delink the node from the structure only if its own balance is Zero. It will only delink a Virtual Account from the structure and not close the Virtual Account.

To edit Virtual Accounts Structure:

1. Navigate to the **View Virtual Accounts Structure** and in the **Structure Code** field, enter the Virtual Accounts structure code whose details you want to edit.
OR
In the **Structure Name** field, enter the name of the Virtual Accounts Structure whose details you want to edit.
2. Click **Search**. The search results appear based on the search parameters defined.
OR
Click **Clear** if you want to reset the search parameters.
OR
Click **Cancel** if you want to cancel the transaction
3. Click the link under the **Structure Code & Name** column. The structure code details are displayed.
4. Click **Edit**. The **Edit Virtual Accounts Structure** screen is displayed.

Edit Virtual Accounts Structure

The screenshot displays the 'Edit Virtual Accounts Structure' interface within the Futura Bank application. The header includes the Futura Bank logo, a search bar, and a notification icon. The main title is 'Virtual Accounts Structure' with a sub-header 'ABZ Solutions | ***462'. The form contains the following fields:

- Party Name:** ABZ Solutions | ***462
- Structure Code:** TreeStruc14AUTOR39
- Structure Name:** Tree Struc14 AUTOR39
- Real/Virtual Multi-Currency Account:** xxxxxxxxxxxx0024 - Account 04 | GBP | HEL
- Header Account:** xxxxxxxxxxxx2151 - test | GBP | HEL
- Charge Account:** xxxxxxxxxxxx0013 - Account 05 | GBP | HEL
- Interest Calculation Required:** A toggle switch is currently turned off.

At the bottom of the form, there are three buttons: 'Build Structure' (highlighted in dark blue), 'Cancel' (light gray), and 'Back' (light gray). The footer contains a copyright notice: 'Copyright © 2006, 2023, Oracle and/or its affiliates. All rights reserved. [Security Information] [Terms and Conditions]'.

Field Description

Field Name	Description
Party Name	Displays the party name and ID mapped to the selected Virtual Accounts Structure.
Structure Code	Displays the structure code.
Structure Name	Displays the structure name corresponding to the structure code.
Real/Multi-Currency Account	Select the Real/Multi-Currency account number and name under which the structure is to be updated. Note: User cannot change the Real/VMCA account number in a structure until all linked Virtual accounts are zeroed and removed. This field appears only if the user has access to the specified Real/Multi-Currency Account.
Balance	Displays the current balance in the selected Real/Multi-Currency account. Note: This field appears only if the user has access to the specified Real/Multi-Currency Account.
Header Account	Displays the Header account number and name under which the structure is to be updated.
Interest Calculation Required	Indicates whether interest calculation is required ta structure level.
Charge Account	Select the charge account number and name from which the charges can be collected. Note: User can search the Charge Accounts by Account Name, Account Number, Branch or Currency based on the parameters set in the system configuration and displays these details in the search results and the respective fields once the required account is selected.

5. Modify the Structure Name, Interest Calculation Required toggle and Charge Account, if required.
6. Click **Build Structure**. The **Edit Virtual Accounts Structure – Tree View** screen is displayed.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.

Branch Name	Displays the branch name of the account
Status	Displays the status of the structure
Available Balance	Displays the available balance in the Virtual account
Creation Date	Displays the structure creation date.
Product	Displays the product name under which the Virtual Account is opened
Real Account Linkage	Displays whether the Virtual Account is linked to the Real Account

Note:

- Header Node is displayed in different colour and selected node is highlighted.
 - Click  to navigate between pages to view all the linked accounts. Count of nodes to be visible at a single level in a Virtual Accounts Structure will be as maintained in system configuration post which all the nodes appear in horizontal pagination.
 - Existing Virtual Account in a structure can only be removed when its own balance and all the linked child account balances is zero.
-

- Click  to view the account details, or undo link the Virtual Account.
 - Click **Account Details**. The **Account Details** screen is displayed.
 - Click  to link the Virtual Account to the parent Virtual Account. The **Link Accounts** overlay screen is displayed.
 - Click **Search** to search the virtual account based on search criteria.
OR
Click **Clear** to reset the entered data.
OR
Click **Cancel** to cancel the Virtual Account selection.
 - Select the appropriate account number and click **Link**.
The selected Virtual Account Number is linked to the parent Virtual Account.
 - Click **Undo Link**. a message confirming removal of the newly added accounts is displayed.
Click **OK**.
 - Click **Delink**. a message confirming removal of the existing accounts is displayed.
Click **OK**.

- g. Click **Undo Delink** to undo the removed virtual account from the parent account.
- 8. Click **Submit** to update the Virtual Accounts Structure.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen
- 9. The **Review** screen appears only with the updated details. Verify the updated details and click **Review Structure**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.
- 10. Click **Confirm** to update the Virtual Accounts Structure.
The success message of Virtual Accounts Structure update appears along with the reference number.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to create Virtual Accounts Structure.
- 11. Click **Home** to navigate to the application dashboard screen.
OR
Click **Create more Structure** to create virtual structure.

6.4 Close Virtual Accounts Structure

To close Virtual Accounts Structure:

1. Navigate to the View Virtual Accounts Structure and in the **Structure Code** field, enter the Virtual Accounts Structure code whose details you want to close.
OR
In the **Structure Name** field, enter the name of the Virtual Accounts Structure whose details you want to edit.
2. Click **Search**. The search results appear based on the search parameters defined.
OR
Click **Clear** if you want to reset the search parameters.
OR
Click **Cancel** if you want to cancel the transaction.
3. Click the link under the **Structure Code & Name** column. The structure code details are displayed.
4. Click **Close**. A message is displayed prompting for record closure-

Close Virtual Accounts Structure

Note:

Virtual Accounts structure can only be closed if

1. User has the access to the header account of the structure.
 2. All the child account balances are zero.
-
5. Click **Yes** to close the Virtual Accounts Structure. The success message of Virtual Accounts Structure deletion is displayed along with the reference number.
OR
Click **No** if you do not wish to close the Virtual Accounts Structure.

Note: Once the Virtual Accounts Structure is closed, Virtual Accounts are delinked and can be added to another Virtual Accounts Structure.

6. Click **Home** to navigate to the application dashboard screen.

7. Remittance ID

Remittance IDs are the Virtual Accounts that do not have account balances of their own but act like pipelines to the real accounts and help to keep track of Remitters.

This feature allows following:

- Create Remittance ID
- View Remittance ID
- Edit Remittance ID
- Close Remittance ID
- Reopen Remittance ID

7.1 Create Remittance ID

This feature allows the corporate user to create Remittance ID.

How to reach here:

Toggle Menu > Virtual Account Management > Remittance ID > Create Remittance ID

Remittance ID Creation

1. Click **Create Single Remittance ID** to create one Remittance ID at a time.
OR
Click **Bulk File Upload** to create multiple Remittance ID through Bulk File Upload.

To create single Remittance ID:

1. In the **Party Name** field, select the party name and ID from the dropdown list.
2. From the **Virtual Identifier** list, select the Virtual Identifier.
3. In the **Remittance ID** field, enter the Remittance ID.
4. From the **Valid From** list select the validity start date of the Remittance ID.
5. From the **Valid To** list select the validity end date of the Remittance ID.
6. In the **Reconciliation Information** field, enter the reconciliation details.
7. In the **Additional Information** field, enter the additional details.
8. Move the **IBAN Required** toggle to enable the IBAN for the Remittance ID.

3/30/2018	STOREV2AC1	Immediate credit

10. Click **Apply** to apply the modified column preferences.
OR
Click **Reset** to reset to the column preferences.

8. Virtual Multi-Currency Account

Virtual Multi-Currency Account is a group of Virtual Accounts Management enabled real accounts bundled under a Virtual Multi-Currency Account Number. In a situation where bank offers only single currency real accounts, VMCA helps in achieving support for multi-currency transactions in a Virtual Accounts structure

User creates a Virtual Account by grouping Virtual Accounts Management enabled single currency real accounts of which maximum one account of each currency can be selected.

Using below options, you can:

- Create Virtual Multi-Currency Account
- View Virtual Multi-Currency Account
- Edit Virtual Multi-Currency Account
- Close Virtual Multi-Currency Account

How to reach here:

Toggle Menu > Virtual Account Management > Virtual Multi-Currency Account > Create Multi-Currency Account

8.1 Create Virtual Multi-Currency Account

To create virtual multi-currency account:

1. In the **Party Name** field, select the party name and ID from the dropdown list.
2. In the **Virtual Multi-Currency Account Number** field, enter the account number.
3. In the **Virtual Multi-Currency Account Name** field, enter the account name.
4. Click any currency to get all Virtual Accounts Management enabled accessible Real Accounts maintained under that currency.
5. Select any one Real Account from the list.
6. Selected currency(s) and account(s) will appear in **Virtual Multi-currency Group** column.

Note: User can select multiple such accounts (restricted to one real account per currency) and form a group. User can also set one of the Real Account as “Default” to default payments. (This is an optional field).

OR
Click **No** if you do not wish to close the Virtual Multi-Currency Account.
6. Click **Home** to navigate to the dashboard screen.
OR
Click **Go To Overview** to navigate to the new Virtual Account Management Overview screen.

9. Internal Credit Line

Internal Credit Line enables a corporate user to define internal credit limits for its subsidiaries and track usage. Often a corporate with cash surplus creates a credit line internally for one of its group companies to utilize. This is to avoid higher bank lending rates and to better utilize internal funds.

Using this option, corporate user can

- Create Internal Credit Line
- View Internal Credit Line
- Edit Internal Credit Line
- Close Internal Credit Line

9.1 Create Internal Credit Line

Corporate user can initiate request to create internal credit line. On creation of credit line, corporate user can offer this credit facility to its subsidiaries.

How to reach here:

Toggle Menu > Virtual Account Management > Internal Credit Line > Create Internal Credit Line

To create internal credit line:

1. In the **Party Name** field, select the party name and ID from the dropdown list.
2. In the **Line ID** field, enter the unique id for the internal credit line.
3. From the **Line Branch** list, select the branch name, click  to search required branch name.
4. In the **Line Name** field, enter the unique name for the internal credit line.
5. From the **Line Currency** list, select the currency for the internal credit line to be created.
6. In the **Line Amount** field, enter the line amount for the internal credit line.
7. From the **Line Start Date** list, select the start date for the internal credit line.
8. From the **Line End Date** list, select the end date for the internal credit line.
9. From the **Available for Utilization** field, select the appropriate option to decide the whether the credit line is available for utilization or not.

Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.

Delink Virtual Account

5. The confirmation popup appears to delink Virtual Account.
 - a. Click **Yes** to delink Virtual Account.
OR
Click **No** to cancel the deletion.

11. Special Rate Maintenance

There are use cases like Third Party Fund Management or POBO-COBO where Virtual Accounts when used also earn interest income. The rate of interest for these Virtual Accounts is set by the corporate itself. There will be a default or 'General Rate' set up that applies to all the Virtual Accounts that have interest income. However, there could be instances where for a few select Virtual Accounts a different rate is applicable. This rate is called "Special Rate" and corporate user will be able to select Virtual Accounts one at a time and set the special rates.

Pre-requisite

Oracle Banking Virtual Account Management and Oracle Banking Interest and Charges integration is available and the necessary linking of Oracle Banking Virtual Account Management Product to Interest Groups in Oracle Banking Interest and Charges is done

Using this option corporate user can

- View Special Rates
- Edit Special Rates
- Add Special Rates

11.1 View Special Rates

How to reach here:

Toggle Menu > Virtual Account Management > Interest Rate > View/Edit Special Rates

To view special rates for Virtual Account:

1. Navigate to the **Special Rate Maintenance** screen.
2. In the **Party Name** field, select the party name and ID from the dropdown list.
Click the **Search** icon to select a Virtual Account. **Virtual Account Lookup** overlay appears.
In the **Virtual Account Lookup** overlay screen, user select the required filter criteria in the respective fields.
3. Search and Select the Virtual Account from the list.
4. Using the calendar, choose the To and From dates from the Effective Date list.
5. Using the calendar, choose the To and From dates from the Effective Date list.
6. The IBAN, Virtual Account Branch and Currency for the selected Virtual Account Number appears.
7. Click **Add** to navigate to the **Add Special Rates** screen.
OR
Click **Search**. Based on search criteria the list of special rates maintained appears.
OR
Click **Clear** to clear the search criteria.
OR
Click **Cancel** to cancel the transaction.

14. Statements

14.1 Transaction Inquiry

Through this option, the user can search and view the transactions of a Virtual Account which they have access to. The user can also download the search results as a statement in a password protected pdf or csv format.

How to reach here:

Toggle Menu > Virtual Account Management > Statements > Transaction Inquiry

OR

Toggle Menu > Virtual Account Management > Overview > Quick Links > Transaction Inquiry

To view and download the Virtual Account management Transaction Inquiry:

1. In the **Party Name** field, select the party name and ID from the dropdown list.
2. In the **Virtual Account** field, click **Search** icon to search the Virtual Account.
The **Transaction Inquiry – Virtual Account Lookup** overlay appears.
3. In the **Virtual Account Lookup** overlay screen, select the required filter criteria in the respective fields.
4. Click **Search** to search the virtual account based on search criteria.
OR
Click **Clear** to reset the entered data.
OR
Click **Cancel** to cancel the Virtual Account selection.
5. Search and select the Virtual Account Number or name from the list.
6. In **Reference Number** field, enter the reference number.
7. In **Transaction Type** field, select the transaction type.
8. In the **From Date** field, select the date from which statement is needed from the calendar.
9. In the **To Date** field, select the date to which statement is needed from the calendar.
10. Click **Search**. Based on search criteria, the search result appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Clear** to clear the entered details.

Transaction Inquiry

The screenshot shows the Futura Bank Transaction Inquiry interface. At the top, there's a search bar with the placeholder text "What would you like to do today?". Below this, the title "Transaction Inquiry" is displayed, followed by the text "ABZ Solutions | ***462". The main form area contains several input fields: a "Party Name" dropdown menu currently showing "ABZ Solutions | ***462", a "Virtual Account" input field with a magnifying glass icon and a "Required" label below it, a "Reference Number" input field, a "Transaction Type" dropdown menu currently showing "All", a "From Date" input field with a calendar icon and a "Required" label below it, and a "To Date" input field with a calendar icon and a "Required" label below it. At the bottom of the form, there are three buttons: "Search", "Cancel", and "Clear". On the right side of the interface, there's a notification bell icon and a "VM" button. A red chat bubble icon with a "1" is also visible in the bottom right corner.

Field Description

Field Name	Description
Party Name	Select the party name and ID from the dropdown list to view the applicable Virtual Accounts for transaction inquiry. By default, the primary party of the logged-in user is selected. Note: Based on the party name selection, the mapped Virtual Accounts are displayed.

Transaction Date	Value Date	Description	Reference Number	Amount
4/24/2018	11/7/2022		PCOA26	GBP 15
4/24/2018	11/7/2022		PCOA27	GBP 15

13. Click **Download** to download the transaction summary in PDF or CSV format with selected columns.

14.2 Pre-Generated Statement

Pre-Generated statement provides the details of the transactions of the Virtual Accounts for a given period. The user selects the Virtual Account Number or Name for which the available statements are fetched. The business user can choose the statement format as MT940, MT942, MT950, CAMT.052, CAMT.053, and PDF.

Note: At System configuration, the maximum date range to request the statements are configured.

How to reach here:

Toggle Menu > Virtual Account Management > Statement > Pre-Generated Statement

OR

Toggle Menu > Virtual Account Management > Overview > Quick Links > Pre-Generated Statement

To generate the Pre-Generated statement:

1. In the **Party Name** field, select the party name and ID from the dropdown list.
2. From the **Statement Type** list, select the appropriate type in which format you wish to search the statement.

Note:

If the **Statement Type** is selected as **PDF**, system validates the **Statement Type** selected under **PDF Statement Preferences** for the selected Virtual Entity. If preference is Account Level, Virtual Account will be available.- If preference is Consolidated, Virtual Account field will not be available.

-
3. In the **Virtual Entity** field, select the Virtual Entity ID or name from the dropdown list.
 4. In the **Virtual Account** field, click **Search** icon to search the Virtual account number.
The **Virtual Account Lookup** overlay appears.

Note:

This field displays only if the **Virtual Entity** ID is selected from the list.

5. In the **Virtual Account Lookup** overlay screen, select the required filter criteria in the respective fields.
6. Click **Search** to search the virtual account based on search criteria.
OR
Click **Clear** to reset the entered data.
OR
Click **Cancel** to cancel the Virtual Account selection.
7. Search and select the Virtual Account Number or name from the list.
8. In the **From Date** field, select the date from which statement is needed from the calendar.
9. In the **To Date** field, select the date to which statement is needed from the calendar.

10. Click **Search** to search the statements based on search criteria. Statement Type, Virtual Entity, Virtual Account, From Date, and To Date are mandatory to get search results.
OR
Click **Reset** to reset the entered data.
OR
Click **Cancel** to cancel the transaction.

Note:

PDF Statements:

- In the scenario, when the statement preference is set to the **Virtual Entity** Level (consolidated), Users can generate a PDF statement for a Virtual Entity only if they have been granted appropriate access to all the Virtual accounts linked to that Entity.
- Users can download the PDF statement only if they have maintained appropriate access to the Virtual Account, given that the preference level for statements is set at the Account Level.

MT/CAMT Statements:

- The Virtual Account in context must be granted appropriate access for users to download MT/CAMT statements.

Pre-Generated Statement

The screenshot shows the 'Pre-Generated Statement' interface of Futura Bank. At the top, there's a search bar with the placeholder 'What would you like to do today?' and a user profile icon labeled 'VV'. Below the header, the title 'Pre-Generated Statement' is displayed with a sub-header 'ABZ Solutions | ***462'. The form contains several fields: 'Party Name' (a dropdown menu showing 'ABZ Solutions | ***462'), 'Statement Type' (a dropdown menu with a 'Required' label below it), 'Virtual Entity' (a dropdown menu showing 'MAINT16 - Corp MAINT16'), 'Virtual Account' (a text input with a search icon and a 'Required' label below it), 'From Date' (a date picker with a 'Required' label below it), and 'To Date' (a date picker with a 'Required' label below it). At the bottom of the form, there are three buttons: 'Search', 'Reset', and 'Cancel'. Below the buttons, a message states: 'Difference between From Date and To Date should not be greater than 30 days.' The footer of the page contains the copyright notice: 'Copyright © 2006, 2023, Oracle and/or its affiliates. All rights reserved. [SecurityInformation] Terms and Conditions'.

Field Description

Field Name	Description
Party Name	Select the party name and ID from the dropdown list to view the applicable Virtual Accounts for generating the statement. By default, the primary party of the logged-in user is selected.

Field Name	Description
Statement Type	Select the statement type format you wish to search the statement generated.
Virtual Entity	Select the Virtual Entity for which the statements are to be searched.
Virtual Account	Click Search icon and select the Virtual Account Number or name for which the statements are to be searched.
From Date	Select the date from which statement is required.
To Date	Select the date to which statement is required.

Virtual Account Lookup

The screenshot shows the Futura Bank 'Pre-Generated Statement' interface. The background form includes fields for Party Name (ABZ Solutions | ***462), Statement Type, Virtual Entity (SDCVE01 - Corp SDCVE), Virtual Account, From Date, and To Date. A modal titled 'Virtual Account Lookup' is open on the right. It contains input fields for Virtual Account Number, Virtual Account Name (SDCVE), IBAN, Branch Name, and Currency. Below these fields are 'Search' and 'Clear' buttons. A table displays search results with columns for Virtual Account No. & Name, Branch Name, and Currency. The table lists three entries for HEL FC UNIVERSAL BANK with different IBANs. A 'Cancel' button is at the bottom of the modal.

Virtual Account No. & Name	Branch Name	Currency
xxxxxxxxxxxx9724 Corp SDCVE01	HEL FC UNIVERSAL BANK	GBP
xxxxxxxxxxxx5428 Corp SDCVE01	HEL FC UNIVERSAL BANK	GBP
xxxxxxxxxxxx5594 Corp SDCVE01	HEL FC UNIVERSAL BANK	GBP

Field Description

Field Name	Description
Virtual Entity	Displays the selected Virtual Entity.
Virtual Account Number	Specify the Virtual Account Number to filter the Virtual Accounts.
Virtual Account Name	Specify the Virtual Account Name to filter the Virtual Accounts.

Field Name	Description
IBAN	Specify the IBAN for which the statements are to be searched.
Branch Name	Select the Branch Name to filter the Virtual Accounts. Note: User can view the branch names for which he has access to.
Currency	Select the currency for which the statements are to be searched.
Search Results	
Note:	
Only accessible Virtual accounts gets listed.	
User can view only the configured number of Virtual Account Number in the search results.	
If the search result count exceeds the configured count, an error message appears to refine the search criteria.	
Virtual Account No. & Name	Displays the virtual account number and name.
Branch Name	Displays the branch of the virtual account.
Currency	Displays the currency of the virtual account.

Available Statements

Displays the list of statements based on search criteria along with the date and time generated.

Available Statements

The screenshot shows a web interface titled "Pre-Generated Statement" for "Acme Corp | ***462". It contains several input fields: "Party Name" (Acme Corp | ***462), "Statement Type" (MT940), "Virtual Entity" (AUTOR42 - ABZ Stores), and "Virtual Account" (xxxxxxxxxxxx7299 | Corp AUTOR42 | GBP | HEL). There are also "From Date" (4/23/2018) and "To Date" (4/23/2018) fields with calendar icons. A message states: "Difference between From Date and To Date should not be greater than 30 days." Below this are "Search" and "Reset" buttons. The "Available Statements" section displays a table with two rows, each showing the date and time "4/23/2018, 12:00 AM" and a download icon. A "Cancel" button is at the bottom left, and a red chat icon is on the right.

Available Statements	
4/23/2018, 12:00 AM	
4/23/2018, 12:00 AM	

1. Click on  icon to download the respective statement.

Note: User cannot customize the list of transactions in the generated statements as it comes directly from Oracle Banking Virtual Account Management.

14.3 Ad hoc Statement

An ad hoc statement offers information about Virtual Account transactions for a specific time frame as needed. The user must select the Virtual Account Number or Name for which they want the statement. The business user can pick the statement format from MT942, CAMT.052, or PDF.

Note: At System configuration, the maximum date range to request the statements is configured.

How to reach here:

Toggle Menu > Virtual Account Management > Statement > Ad hoc Statement

OR

Toggle Menu > Virtual Account Management > Overview > Quick Links > Ad hoc Statement

To generate the Ad hoc statement:

1. In the **Party Name** field, select the party name and ID from the dropdown list.
2. From the **Statement Type** list, select the appropriate type in which the statement has to be generated.
3. In the **Virtual Entity** field, select the Virtual Entity ID or name from the list.
4. In the **Virtual Account** field, click **Search** icon to search the Virtual account number.

The **Virtual Account Lookup** overlay appears.

Note:

This field displays only if the **Virtual Entity** field is selected from the list.

5. In the **Virtual Account Lookup** overlay screen, select the required filter criteria in the respective fields.
6. Click **Search** to search the virtual account based on search criteria.
OR
Click **Clear** to reset the entered data.
OR
Click **Cancel** to cancel the Virtual Account selection.
7. Search and select the Virtual Account Number or name from the list.

Note: Users must maintain appropriate access to the Virtual Account in order to download all statement types (PDF & MT/CAMT) provided.

8. In the **From Date** field, select the date from which statement is needed from the calendar.
9. In the **To Date** field, select the date to which statement is needed from the calendar.

Note: **From Date** and **To Date** fields are displayed only if the **Statement Type** is selected as **PDF**.

10. Click **Generate** to download the respective statement based on the selection. Statement Type, Virtual Entity, Virtual Account, From Date, and To Date are mandatory to generate the statement.
OR
Click **Reset** to reset the entered data.
OR
Click **Cancel** to cancel the transaction.

Note: Also, User cannot customize the list of transactions in the generated statement as it comes directly from Oracle Banking Virtual Account Management.

Ad hoc Statement

The screenshot shows the 'Adhoc Statement' page in the Futura Bank interface. At the top, there's a search bar with the placeholder 'What would you like to do today?'. Below this, the page title 'Adhoc Statement' is displayed with the user's name 'ABZ Solutions | ***462'. The main form contains several fields: 'Party Name' (a dropdown menu showing 'ABZ Solutions | ***462'), 'Statement Type' (a dropdown menu showing 'PDF'), and 'Virtual Entity' (a dropdown menu showing 'MAINT16 - Corp MAINT16'). Below these, there's a 'Virtual Account' search field with a magnifying glass icon and a 'Required' label. To the right of this are 'From Date' and 'To Date' fields, each with a calendar icon and a 'Required' label. A note below these fields states: 'Difference between From Date and To Date should not be greater than 30 days.' At the bottom of the form are three buttons: 'Generate', 'Reset', and 'Cancel'. The footer of the page contains the copyright notice: 'Copyright © 2006, 2023, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Field Description

Field Name	Description
Party Name	Select the party name and ID from the dropdown list to view the applicable Virtual Accounts for generating the ad hoc statement. By default, the primary party of the logged-in user is selected.
Statement Type	Select the statement type format you wish to search the statement generated.
Virtual Entity	Select the Virtual Entity for which the statements are to be searched.
Virtual Account	Click Search icon and select the Virtual Account Number or name for which the statements are to be searched.
From Date	Select the date from which statement is required. This field is displayed only if the Statement Type is selected as PDF .
To Date	Select the date to which statement is required. This field is displayed only if the Statement Type is selected as PDF .

Ad hoc Statement – Virtual Account Lookup

The screenshot shows the Futura Bank interface. On the left, the 'Adhoc Statement' section is visible, showing a search for 'ABZ Solutions | ***462' with a 'Statement Type' of 'PDF'. On the right, the 'Virtual Account Lookup' modal is open. It contains search filters: 'Virtual Entity' (MAINT16), 'Virtual Account Number', 'Virtual Account Name', 'IBAN', 'Branch Name', and 'Currency' (RUB). A 'Search' button is present. Below the filters, a table displays search results with columns 'Virtual Account No. & Name', 'Branch Name', and 'Currency'. Two results are shown, both from 'HEL FC UNIVERSAL BANK' with currency 'RUB'. A 'Cancel' button is at the bottom of the modal.

Virtual Account No. & Name	Branch Name	Currency
xxxxxxxxxxxx9868 Corp MAINT16	HEL FC UNIVERSAL BANK	RUB
xxxxxxxxxxxx9995 Corp MAINT16 test	HEL FC UNIVERSAL BANK	RUB

Field Description

Field Name	Description
Virtual Entity	Displays the selected Virtual Entity.
Virtual Account Number	Specify the Virtual Account Number to filter the Virtual Accounts.
Virtual Account Name	Specify the Virtual Account Name to filter the Virtual Accounts.
IBAN	Specify the IBAN for which the statements are to be searched.
Branch Name	Select the Branch Name to filter the Virtual Accounts.
Currency	Select the currency for which the statements are to be searched.

Note: User can view the branch names for which he has access.

Search Results

Note:

User can view only the configured number of Virtual Account Number in the search results.
If the search result count exceeds the configured count, an error message appears to refine the search criteria.

Virtual Account No. & Name	Displays the virtual account number and name.
Branch Name	Displays the branch of the virtual account.
Currency	Displays the currency of the virtual account.

14.4 Charges Inquiry

Through this option, the user can search and view the charges collected for Virtual Account activity to be informed of the costs associated with its use. The user can also download the charges list as a statement in csv format.

How to reach here:

Toggle Menu > Virtual Account Management > Statements > Charges Inquiry

Charges Inquiry

The screenshot shows the 'Charges Inquiry' form within the Futura Bank interface. The form is titled 'Charges Inquiry' with a subtitle 'ABZ Solutions | ***462'. It contains several input fields: a 'Party Name' dropdown menu showing 'ABZ Solutions | ***462', a 'Charge Description' dropdown menu, a 'Collection Status' dropdown menu, and two date pickers for 'From Date' and 'To Date', both marked as 'Required'. Below these fields is a note: 'Difference between From Date and To Date should not be greater than 30 days.' At the bottom of the form are three buttons: 'Search', 'Cancel', and 'Clear'. The interface also shows a search bar at the top with the text 'What would you like to do today?' and a 'VM' button in the top right corner.

Field Description

Field Name	Description
Party Name	Select the party name and ID from the dropdown list to inquire the charges for the applicable Virtual Accounts. By default, the primary party of the logged-in user is selected. Note: Based on the party name selection, the mapped Virtual Accounts are displayed.
Charge Description	Select the Charge Description.
Collection Status	Select the collection status. The available options are • Success • Failed • Pending
From Date	Select the date from when the statement is needed from the calendar.

Field Name**Description****To Date**

Select the date till when the statement is needed from the calendar.

To view and download the Charges Inquiry:

1. In the **Party Name** field, select the party name and ID from the dropdown list.
2. Select the **Charge Description** to select the charge type.
3. In **Collection Status** field, select the collection status.
4. In the **From Date** field, select the date from when the statement is needed from the calendar.
5. In the **To Date** field, select the date to when the statement is needed from the calendar.
6. Click **Search**.

Based on search criteria, the **Charges Inquiry – Charges List** screen appears.

OR

Click **Reset** to clear the entered details.

OR

Click **Cancel** to cancel the transaction.**Charges Inquiry – Charges List**

The screenshot shows the 'Charges Inquiry' interface in the Futura Bank system. The top navigation bar includes the Futura Bank logo and a search bar. The main header area displays 'Charges Inquiry' and the user's name 'ABZ Solutions | ***462'. Below the header, there are search filters: 'Party Name' (set to 'ABZ Solutions | ***462'), 'Charge Description' (a dropdown menu), 'From Date' (set to '2/1/2024'), 'To Date' (set to '2/15/2024'), and 'Collection Status' (a dropdown menu). A note states: 'Difference between From Date and To Date should not be greater than 30 days.' Below the filters are 'Search' and 'Clear' buttons. The main section is titled 'Charges List' and shows '12 Record(s)'. It includes a 'Download' button and a 'Manage Columns' button. The table below lists the charges with columns for From Date, Error, Description, To Date, Description, Account No. & Name, Amount, Collection Amount, Collection Date, and Collection Status.

From Date	Error	Description	To Date	Description	Account No. & Name	Amount	Collection Amount	Collection Date	Collection Status

15. Access Management

Access to Virtual Account functionalities and information displayed on screen is dependent on how the management has been set up. At present a user's access to Virtual Accounts Management functionalities can be determined by

- Access to Real Accounts that participate in Virtual Accounts Management
- Access to Virtual Accounts and
- Access to Virtual Identifier

For more details on how to set up access management for Virtual Accounts Management please refer 'Access Management' section in *User Manual Oracle Banking Digital Experience Core*.

Access management & Virtual Accounts Management widgets

Following is a broad guideline as to how access management rights of a user impacts the Virtual Account widgets and other Virtual Accounts Management screens

Dashboard Widgets

- Real Accounts: A user will see information and be able to transact in only those Virtual Accounts Management enabled real accounts that he has appropriate access to
- Virtual Entities: A user will be able to see all the virtual entities that belong to the party id in context
- Virtual Accounts: A user will see information & be able to transact in only those Virtual Accounts that he has appropriate access to
- Virtual Accounts Structure: A user will see the full list & count of the Virtual Accounts structure of the party ID in context. User can further click on the link to view the structure details.

Other Virtual Accounts Management screens

The same principle explained above applies to the Virtual Accounts Management screens. Information displayed in various search screens, lists and details screens function depends on the access to real & Virtual Accounts user has access to. For example, Virtual Entity may have 500 Virtual Accounts mapped, but what a user will see is only those accounts that he has access to – could be all 500 or less.

Note: If the user does not have access to underlying Real Account, the user will still be able to view and transact on virtual account structure.

16. Send-to-Modify

Send-to-Modify functionality enables the approver to send the application back to the maker for the further modification.

The below transactions are eligible for Send-to-Modify functionality

- Virtual Account - Close
- General Rate - Create
- General Rate - Edit
- Special Rate - Create
- Special Rate – Edit

17. Mobile Touch Point

This functionality allows a corporate user to perform and view Oracle Banking Digital Experience - Virtual Account Management transactions on the mobile screen.

Note: Functionality and Information displayed in each widget (columns, links, Graphs, charts etc) depends on the access to Real Accounts and Virtual Accounts user has and is consistent with what is available on Desktop

The below screen gives an idea how the data in widget will be shown on mobile screen:

Dashboard – Accounts & Balances Widget

Error Message – Non-Supported Transactions

FAQs

1. Can I create multiple Virtual Entities?

Yes, you can create numerous Virtual Entities under a Real Entity. There is no upper limit to it.

2. Is it necessary to create a Virtual entity in order to create a Virtual Account?

Yes, for creating a Virtual Account, it is mandatory to first create a Virtual Entity & then create Virtual Accounts under it. You may choose to open a single or multiple Virtual Accounts under a single Virtual entity.

3. Can I create multiple Virtual Accounts in a single request?

Yes, you can create numerous Virtual accounts using Bulk file upload option. There is no upper limit to it. You may also create multiple Virtual Accounts via menu option; however, this is limited to one Virtual Account at a time.

4. Can I close a Virtual Entity or a Virtual Account even if there is any balance in it?

No, you cannot close a virtual Account if there is any balance in it. Similarly, you cannot close a Virtual Entity until all the linked Virtual accounts under it are zeroed and closed.

5. How do I create a Virtual Accounts Structure?

You need to first select a real account under which you want to create a structure. In the structure there will be a Virtual Account, which sits on the top as a Header Account under which you can start linking child accounts. You can create one structure at a time however there is no upper limit of adding child accounts to a parent account.

6. Can I create a Virtual Accounts Structure in different views?

Yes, you can create a Virtual Accounts Structure in tree view or in tabular view. You can also switch the view anytime during the creation to one way or the other.

7. Can I edit a Virtual Accounts Structure in different views?

No, you can only create, view & close a Virtual Accounts Structure in both table & tree format. Edit Structure in Tree view is currently not supported and can only be performed in Table view.

8. Will I be able to access Virtual Accounts structure on all the browsers?

No, virtual Accounts structure is not supported on any version of Internet Explorer.

9. How do I make Payments and Transfers?

You can make payments & funds transfers using Move Money option placed on Dashboard or via Menu option however, transfers can only be initiated from one Virtual Account to another Virtual Account belonging to a single real account.

10. Can I create multiple Remittance ID list in a single request?

Yes, you can create multiple Remittance ID's in a single request by using Bulk file upload.

11. Can I use Virtual Account Management application from mobile?

Yes, it is supported on following devices -

- Tablet - Landscape view (All VAM transactions)
- Tablet - Portrait view (Refer section [17 Mobile Touch Point](#) for list of enabled transactions)
- On Mobile view - (Refer section [17 Mobile Touch Point](#) for list of enabled transactions)

12. Can I get an updated overview of my Top Virtual Account Balances & cash positions any time?

Yes, you can get the complete information and overall Virtual Accounts performances real time on Virtual Account Management Dashboard.

13. Can I customize my Dashboard and select the widgets I want?

Yes, you can pick the widgets for your Dashboard preferred as per your usage and create your own Dashboard.

14. Will I see the data of all the Virtual Accounts on Dashboard even If I have limited access to only few Accounts?

No, data, balances, Graphs, charts etc. of only those Virtual Accounts will be shown in the entire application for which you have access to. Access is provided basis Real Accounts and Virtual Accounts.

15. Is it mandatory to select Virtual Entity & Currency to view details in Balance Trends, Top 5 Virtual Accounts & Cash Positions widget?

Yes, data will be published based on your selection of Entity and currency. In case if no accounts are maintained in selected combination, then error message will be shown to you.

16. Can I create Virtual Multi-Currency Account using Real accounts I do not have access to?

No, you can create virtual multi-currency account by using only those single currency real accounts, which you have access to. Further, only those real accounts that have been identified for participating in Virtual Accounts Management can be used to create a Virtual multi-currency account.

17. Can I view the Balances of all the linked Real Accounts in a VMCA?

Yes. After Selecting a Virtual Multi-currency account from the drop down, “View Balance” link will appear. On click of it, a pop up is shown which will display the balance of each real account.

18. Is it mandatory to default a currency while creating Virtual Multi-Currency Account?

No, it is an optional field. You may choose to create a virtual multi-currency account without defaulting a currency.

19. Can I create multiple Virtual Multi-currency accounts using the same real accounts?

Yes, you can create Virtual Multi-currency accounts in such combination.

20. Are all the parties displayed in the party selection dropdown?

No, you can view and select only those parties where appropriate access has been provided.

21. Will I be able to view all the Virtual Accounts for the selected Virtual Entity on Statement screens?

No, the list of Virtual Accounts will be displayed based on the configured limit. If we select the Virtual Entity which contains more than the configured limit of Virtual Accounts, the error message will be displayed.

22. Can I customize PDF file downloads?

No, there cannot be any customization as the list of transactions comes directly from Oracle Banking Virtual Account Management for download.

23. Is there be any impact on (OBDX VAM/RTM screens) due to role transaction mapping clean up ?

Yes, due to clean up, existing functionality has been improved to simplify the categorization of role transaction mapping for all the transactions related to Virtual Accounts Management, effectively grouping them under the relevant transaction menu categories.

Following changes have been done –

1. Grouping of transactions from individual transactions (Create, Edit, View, Download, etc.) into broader categories (Maintain, Inquire, Delete, etc.) in Role transaction mapping screens.

2. Additionally, the dependencies between cross transactions have been updated to ensure that all functional transactions in the Hamburger Menu on OBDX VAM UI works in line with the corresponding line items listed under RTM transactions.

24. What happens when DDA integration is not available?

Virtual Account module will work seamlessly even when integration to the bank's DDA is not available. In such a scenario, when the parameter "DDA availability for Virtual Accounts Management (Y/N)" is set to No, field containing the Real account balance as well as the real account balances will not be displayed on the UI but the virtual account functionalities will continue to work.

25. What actions are allowed at the Virtual Account level if it expires?

When a Virtual Account expires, users are permitted to: 1. Update the details and expiry date of the Virtual Account, 2. Generate and view statements for expired Virtual Accounts, 3. Adjust access rights associated with the expired Virtual Account.

26. If Virtual Entity Name changes, will this change be reflected in the Virtual Account Name for already available virtual accounts where Name got defaulted from Virtual Entity due to Name Change Restriction at Product level?

No, any updates to the Virtual Entity Name will not affect the name of the existing Virtual Account.
