1. Preface

1.1 Purpose

Welcome to the User Guide for Oracle Banking Digital Experience. This guide explains the operations that the user will follow while using the application.

1.2 Audience

This manual is intended for Customers and Partners who setup and use Oracle Banking Digital Experience.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit, <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.5 Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>Italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.6 **Screenshot Disclaimer**

The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

1.7 **Acronyms and Abbreviations**

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

Abbreviation	Description
OBDX	Oracle Banking Digital Experience

2. Corporate Administrator

In large corporate organizations, there is a need to have user(s) with an admin role to carry out certain administrative functionalities for the corporate party.

Such delegated user with an administrator role will have restricted scope over these administration functionalities and scope will be restricted to manage the corporate to which they belong. Following administrative functions are extended for Corporate Administrator.

- Group Corporate Maintenance (Wizard)
 - Group Corporate Profiling (View)
 - Party Account Access
 - User Onboarding
 - User Group
 - User Account Access
 - Report Mapping
 - Workflow Management
 - Rules Management
- User Management
- File Upload Maintenance
 - File Identifier Maintenance
 - User File Identifier Mapping
- Transaction Limit Maintenance
- Reports Generation
 - Adhoc Report Generation
 - Schedule Report Generation
- Dashboard
 - Transactions
 - Pending for Approval
 - My Initiated List
 - My Approved List
 - Quick Links
- Mailbox
 - Alerts
 - Notification
- Account Settings
 - Profile
 - Session Summary
 - Manage DND Alerts
- Security & Login
 - Set Security Questions

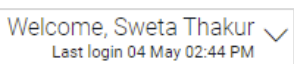

3. Corporate Administrator Dashboard

Corporate Administrator Maker's role involves the maintenances which are mainly required for day to day maintenances like onboarding the users on Digital Platform and providing them the account and transactions access, approval related maintenances etc.

Dashboard Overview

Icons

Following icons are present on the corporate administrator dashboard:

-  : Clicking this icon takes you to the dashboard.
-  : Clicking this icon takes you to the Mailbox screen.
-  : Click this icon to search the transactions.
-  : Click this icon to get option to log out from the application. Displays the welcome note with last login details. Click this icon to view the logged in user's profile or log out from the application.
-  : Click the toggle menu to access the transaction.

Menus

Following menus are present on the dashboard:

-  **Onboarding** : Click this menu to manage users.
-  **Limits** : Click this menu to manage limits.
-  **Access Management** : Click this menu to set up account access rules on the transactions.
-  **File Upload** : Click this menu to create a file identifier and map it to the user.
-  **Reports** : Click this menu to generate reports and view the generated reports.
-  **Others** : (User Group Management, Alert Subscription)
-  **Mail Box** : Click this menu to view the Mails, Alerts and Notifications.
-  **My Profile** : Click this icon to view the profile of the logged in user.

-  **Session Summary** : Click to view the login details like start date and time, end date and time, Channel and IP address of the last sessions of the logged in user.
-  **ATM/Branch Locator** : Click to view the address and location of the ATMs and the branches of the Bank.
-  **Security Settings** : Click here for security settings.
-  **Help** : Click this to launch the online help.
-  **About** : Click this to view the information about the application like version number, copyright etc.

Onboarding

(a) User Management

The Corporate Administrator can search and view users,. Administrator can reset passwords of the users. Administrator can lock / unlock a user, through this option and grant access to various channels.

File Upload

(a) File Identifier Maintenance

The Corporate Administrator – Maker, can create file identifiers (FI) for a corporate entity. A File Identifier is always mapped to a specific single file template. Maintenance permits configuration of corporate preferences like approval type (file level/ record level) for a particular type of file. This is a pre-requisite for the File Uploads functionality, for a corporate.

(b) User File Identifier Mapping

Through this option the Corporate Administrator – Maker, can map a file identifier to a user to grant access rights to the user, for this specific file type. This maintenance enables a user to upload a specific file, approve the uploaded file and view its status. The Corporate Administrator maker can map / un-map an FI to a User. Further, an administrator can enable or disable the sensitive data check. This is a pre-requisite maintenance, for the File Uploads functionality, for a corporate.

Options accessible only via Toggle Menu

Limits

(a) Limit Definition

Limits are defined by the bank to set up amount and duration based restrictions on the transactions that can be carried out by the user.

As part of Limits Definition maintenance, the Corporate Administrator can define:

- **Transaction Limits:** It is the transaction initiation limit with minimum and maximum amount, defined typically for a user with role 'Maker'.

- **Cumulative Limits:** It is the collective transaction amount limit for all the transactions that can be performed during a day and the maximum number of transactions permitted in a day.

This Option allows the Corporate Administrator to search and view limits, create limits and edit / delete existing limits.

(b) Limits Package

As part of the Limits Package definition, the created limits can be mapped to relevant transactions and/or roles.

The Limits Packages once created can be associated at User Level.

This Option allows the Corporate Administrator to search and view Limit Package, create a new Limit Package, and edit / delete existing Limit Package.

Reports

(a) Report Generation

Using this option, the Corporate Administrator, can generate various adhoc and scheduled banking reports. Application provides an option to generate and schedule reports using an internal application.

(b) My Reports

On accessing 'My Reports' menu, the Corporate Administrator, can view the last 10 reports generated with the respective report status. He can choose to search a specific report using the search criteria or can opt to view/ download detailed report.

Transactions: This section has the following tabs

- Pending for Approval
- My Initiated List
- Transaction Log
- My Approved List

1) Pending for Approval

This section displays the details of transactions that are initiated by the maker and are pending for approval. It is briefly classified into two broad categories a) Financial and b) Non-Financial c) Administration. User can click each tab to view the details of transactions that are pending for approval. Transaction will appear under Financial and Non-Financial sections, if the user has also the access of initiating and approving corporate transactions (Non-administrative transactions)

The transactions pending approval within a period can be searched across modules by providing a date range. The financial and non-financial sections display module wise count of transactions which are pending approval. The details can be viewed either in a graphical format or in a list format using a switch option.

Click on  icon to search the transactions based on Date range.

Note:

- If for any module, the pending approval count is '0', then it will not be shown in the list.
-

- In the  graph view, on clicking the bars in the graph, the user will be navigated to the transaction listing page.
 - In the  list view, on clicking the module name link, the list of transactions pending approval within the module can be viewed.
-

This displays the financial transactions - further categorized into following modules:

Transaction will appear under Financial section, if the user has also the access of initiating and approving corporate transactions apart from the administrative maintenances.

- Accounts - The details of activity log are:
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Account Number: Account number of the transaction
 - Amount: Amount of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
 - Non Accounts - The details of the activity log are:
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Amount : Amount of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
 - Payments
 - Date: Date of the transaction
 - Description: Description of the transaction
 - From Account: Source Account number of the transaction
 - Amount : Amount of the transaction
 - Payee Account Details: Payee's account number of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
 -
 - Bulk File
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Transaction Type: Transaction types of the file upload
-

- File Name: Name of the file uploaded.
- File Amount: Amount to be debited from debit account.
- Reference Number: Reference Number of the transaction.
- Status: Status of the transaction
- Bulk Record
 - Date: Date of the transaction
 - Transaction Type: Transaction type of the bulk record
 - Debit Account: Account number of the account to be debited.
 - Amount: Amount to be debited from debit account
 - Payee Account Details: Payee's account number
 - .
 - Reference Number No: Reference Number of the transaction.
 - Status: Status of the transaction
- Non Account Bulk Record
 - Date: Date of the transaction
 - Transaction Type: Transaction type of the bulk record
 - Amount: Amount of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
- Host to Host Bulk Files
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Transaction Type: Transaction type of the bulk record
 - File Name: name of the file uploaded
 - File Amount : Amount of the transaction
 - File Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
- Host to Host Bulk Records
 - Date: Date of the transaction
 - Transaction Type: Transaction type of the bulk record
 - Debit Account: Account number of the account to be debited.
 - Amount: Amount to be debited from debit account
 - Payee Account Details: Payee's account number
 - Reference No: Reference Number of the transaction.
 - Status: Status of the transaction

- Supply Chain Finance
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Amount : Transaction amount.
 - Transaction Type: Transaction type of the bulk record
 - Debit Account: Account number of the account to be debited.
 - Reference No: Reference Number of the transaction.
 - Status: Status of the transaction

Non- Financial: This displays the non- financial transactions initiated by the maker and further categorized as below:

Transaction will appear under Non-Financial section, if the user has also the access of initiating and approving corporate transactions apart from the administrative maintenances.

- Accounts
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Account Details: Account number of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference No: Reference Number of the transaction.
 - Status: Status of the transaction
 -
- Bulk File
 - Date: Date of the transaction
 - File Identifier: Unique code assigned to the uploaded file.
 - Transaction Type: Transaction type of the file upload
 - File Name: Name of the file uploaded.
 - File Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
- Bulk Record
 - Date: Date of the transaction
 - File Identifier: Unique code assigned to the record.
 - Transaction Type: Transaction type of the bulk record
 - File Name : Name of the file uploaded
 - Record Reference No: Reference Number of the record.
 - Status: Status of the record
- Trade Finance
 - Date: Date of the transaction

- Description: Description of the transaction
- Beneficiary Name: Name of the Beneficiary against whom LC is to be created
- Amount: Amount for the Letter of Credit / Bill
- Reference No: Reference Number of the transaction.
- Status: Status of the transaction
- Trade Finance Maintenance
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Reference No: Reference Number of the transaction.
 - Status: Status of the transaction
- Others
 - Date: Date of the transaction
 - Initiated By: User who has initiated the transaction
 - Transaction Type: Type of the transaction initiated
 - Description: Description of the transaction
 - Reference No: Reference Number of the transaction
 - Status: Status of the transaction
- Virtual Account Management
 - Date: Date of the transaction
 - Description: Description of the transaction initiated
 - Initiated By: User who has initiated the transaction
 - Reference Number: Reference Number of the transaction
 - Status: Status of the transaction
- Liquidity Management
 - Date: Date of the transaction
 - Transaction Type: Type of the transaction initiated
 - Structure Code & Name: Structure ID and description of the transaction
 - Initiated By: The user who has initiated the transaction
 - Reference Number: Reference Number of the transaction
 - Status: Status of the transaction
- Host to Host Bulk Files
 - Date: Date of the transaction
 - Transaction Type: Transaction type of the bulk record
 - File Name: Name of the file uploaded
 - File Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction

- Host to Host Bulk Records
 - Date: Date of the transaction
 - Transaction Type: Transaction type of the bulk record
 - File Name: Name of the file uploaded

Transactions - Pending for Approval (Graph View)

For more information, refer section Pending for Approval under Approval chapter.

2) My Initiated List

Displays the list of all the transactions initiated by the logged in for different type of transactions like account financial, account non-financial, bulk file, bulk record, payee, biller and payments transactions.

It is divided into two sections broadly; Financial and Non-Financial. The logged in user can view the transaction list with respective statuses and details.

The details can be viewed either in a graphical format or in a list format using a switch option.

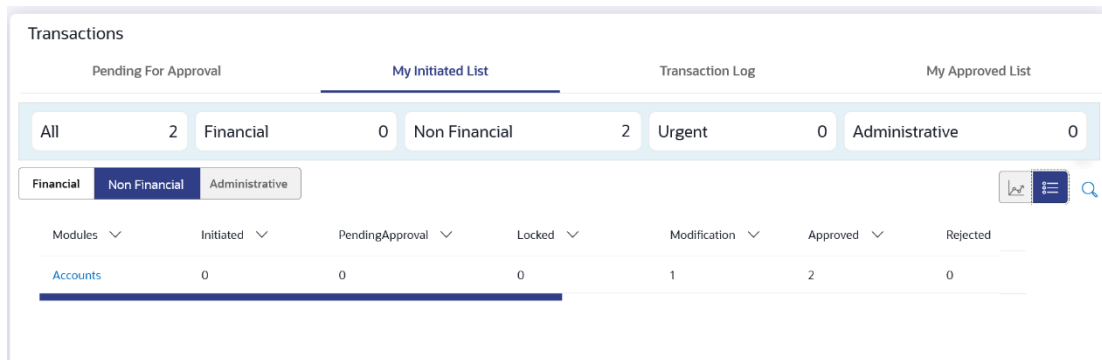

: Click this icon to search the transactions that are performed on a particular date. A date range (**From Date** and **To Date**) can be provided to search the transaction.

Each module showcases the number of transactions belonging in each of the following statuses:

- **Initiated:** The number of transactions that have been initiated but approval workflow is not assigned.
- **Pending Approval:** The number of transactions that have been initiated, but are pending for approval.
- **Locked :** The number of transactions that have been locked by the approver
- **Pending Modification:** The number of transactions that have been sent for modification by the approver to the initiator.
- **Approved:** The number of transactions that have been approved.
- **Rejected:** The number of transactions that have been rejected by the approver.
- **Expired:** The number of transactions that have been that have been initiated but expired.
- **Released:** The number of transactions that have been released by the releaser.
- **Pending Release:** The number of transactions that are pending for release by the releaser.
- **Release Rejected:** The number of transactions that have been rejected by the releaser.

Transactions - My Initiated List

For more information, refer section **My Initiated List** under **Approval** chapter.

3) Transaction Log

Displays the list of all the different type of transactions like account financial, account non-financial, bulk file, bulk record, payee, biller and payments transactions.

It is divided into two categories broadly; Financial and Non-Financial. The logged in user can view the transaction summary with respective statuses and details.

The details can be viewed either in a graphical format or in a list format using a switch option.

On selecting either the Financial or the Non-Financial option, the modules under the particular option are displayed. Click the **Module** link to view the list of transactions in it.

Each module showcases the number of transactions present in each of the following statuses:

- **Initiated:** The number of transactions that have been initiated but approval workflow is not assigned.
- **Pending Approval:** The number of transactions that have been initiated, but are pending for approval.
- **Locked :** The number of transactions that have been locked by the approver
- **Pending Modification:** The number of transactions that have been sent for modification by the approver to the initiator.
- **Approved:** The number of transactions that have been approved.
- **Rejected:** The number of transactions that have been rejected by the approver.
- **Expired:** The number of transactions that have been that have been initiated but expired.
- **Released:** The number of transactions that have been released by the releaser.
- **Pending Release:** The number of transactions that are pending for release by the releaser.
- **Release Rejected:** The number of transactions that have been rejected by the releaser.

: Click this icon to search the transactions that are performed on a particular date. A date range (**From Date** and **To Date**) can be provided to search the transaction.

Financial : On clicking the module name link, the following details are displayed for each category:

- Accounts - The details of transaction log are:
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Account Number: Account number of the transaction

- Amount: Amount of the transaction
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
 - Non Accounts - The details of the activity log are:

4. Group Corporate Onboarding

Corporate onboarding is the process that bank undertakes when bringing a new business customer onboard. OBDX furnishes integrating the onboarding workflow to a business rules engine that facilitates uninterrupted corporate onboarding processing. Generally, the customer onboarding process constitutes of multiple activities.

In large corporate organizations, there is a need to have users with an administration role to carry out certain administrative functionalities for the corporate group. Such delegated users with an administrator role will have restricted scope over these administration functionalities and scope will be restricted to manage the Group Corporate (GCIF) to which they belong. Corporate administrator can be provided with a Dashboard to initiate and track the status of various administrative maintenances initiated or approved by the corporate admin user.

By default, access to all the parties available under the group corporate will be provided to the corporate administrator users with one the party as primary party at entity level. No option to select specific parties will be provided on the screen apart from the primary party.

Corporate administrator will be able to create the corporate users with any party ID as user's primary party ID from all Parties available under the Group Corporate.

Using this maintenance, the corporate administrator will also be able to perform and view various maintenances available under the wizard post the bank administrator creates the Group Corporate and maintains the group profiling section.

Group corporate onboarding allows the administrator allow to maintain Party and User Account Access, User Onboarding, User Group Maintenance, User Reports Mapping, Approvals Workflow and Rules Maintenance etc. in a single flow. After performing these onboarding steps in a single flow, the applications send the same as a single approval. Group corporate onboarding allows corporate parties belonging to different entities to map under a Group Corporate ID. The new flag 'Group Corporate' is introduced in System Rules screen for banks to decide the mode of corporate onboarding.

Parameter values maintained against a Group Corporate defines the system behavior for the following:

- Accessible Roles for Group Corporate
- Workflow and Approval Flow preference
- Party and User level account access
- User onboarding with multi-entity setup and accessible Party Maintenance
- User Group Maintenance for Group Corporate users
- Corporate user report mapping maintenance to generate user reports
- Approval workflow and Rules setup for banking transaction

Workflow

Features supported in the Application

- Setup Group Corporate Onboarding
 - Group Corporate Profiling
 - Party Account Access
 - User Onboarding
 - User Group Maintenance
 - User Account Access
 - User Reports Mapping
 - Approval –Workflow Management
 - Approval – Rules Management
- View Group Corporate Onboarding Details
- Edit Group Corporate Onboarding Details

How to reach here:

Corporate Administrator Dashboard > Toggle Menu > Menu > Corporate Onboarding > Group Corporate Onboarding

4.1.1 View Linked Parties under Group Corporate

The Corporate Administrator can view the linked parties under the selected Group Corporate on the Group Corporate Onboarding screen on expanding the Group Corporate details on right top corner. **To search linked parties under Group Corporate:**

1. Click on  icon adjacent to the Group Corporate ID. An expansion is visible on the Group Corporate ID from where the user can view the list of parties mapped to the Group Corporate along with the ID, name and entity details of each mapped party.

Note: A specific party can be searched by providing the Party ID, Name or Entity in the search field.

The screenshot shows the 'Group Corporate Onboarding' page. The main content area has a 'Group Corporate Profiling' section with a 'Group Corporate Name' field containing 'ACME Group'. Below this is a 'Global Roles' section with a 'Bank Roles' list. A search modal is open, showing a table of linked parties. The table has columns for 'Party ID', 'Name', and 'Entity'. The first row is '000295 Darren Bulk Flet' with entity 'UBS OBPM 14.4 HEL Branch'. The second row is '003008 CUSTOSDC01' with the same entity. The modal also shows a search bar and pagination 'Page 1 of 1 (1-2 of 2 items)'.

Field Description

Field Name	Description
Search	Allows user to search for the specific Party by giving the ID, Name or Entity
Party ID	Displays Party ID of the existing linked party for respective group corporate ID/ Name
Name	Displays Party Name of the existing linked party for respective group corporate ID/ Name
Entity	Displays Entity of the existing linked party for respective group corporate ID/ Name

4.1.2 Comments

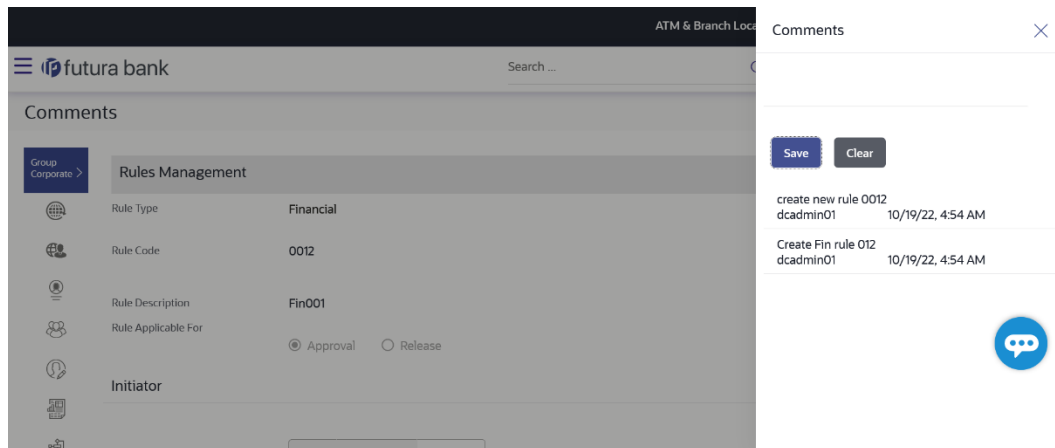

Click on  Comments icon to view / add stage wise comments by any user involved in the maintenance journey e.g., maker, checker etc.

Approver can capture stage wise comments by any user involved in the maintenance journey e.g., maker, checker etc.

Note:

- The comments will be captured at each resource level.
- The comments can be captured by any user who is working on the maintenance. Multiple comments can be captured for one resource.
- The user ID and date timestamp will be available for each comment.
- The user can add comments however the added comments cannot be modified or deleted.
- The comments will be available in the activity log for the Group Corporate against the transaction reference number as long as the GCIF data is not purged.
- A history of comments will be available in case the maintenance is picked up by another approver of same user group for action. The reference number of the transaction continues to be the same and hence the comments trail can be viewed.

Comments Captured

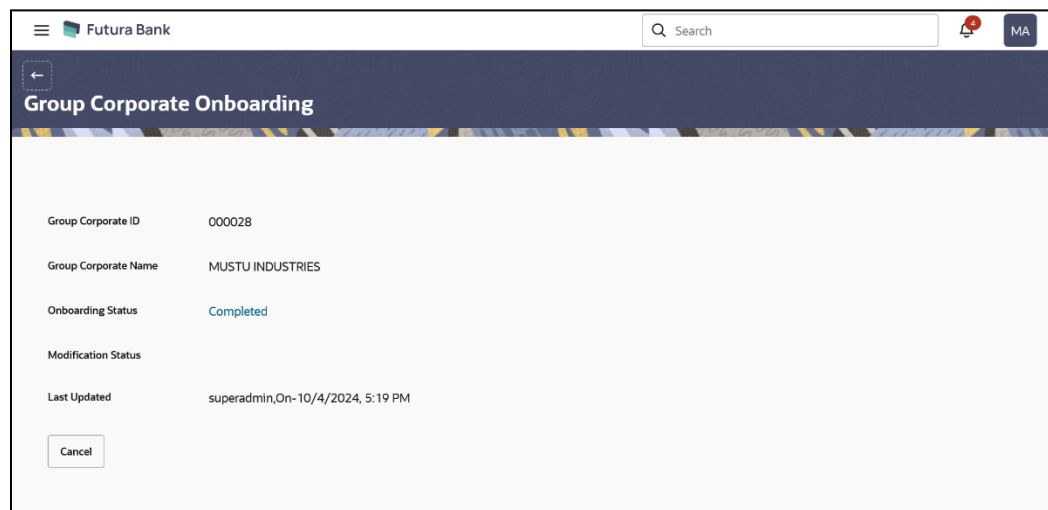

1. Enter the comments.
2. Click **Save** to save the comments.
OR
Click **Clear** to reset the data entered.

Group Corporate Onboarding

1. On navigating system displays the Group Corporate Onboarding screen along with the corporate administrator details.

Group Corporate Onboarding

Format Description

Field Name	Description
Group Corporate ID	Group Corporate ID for which Group Corporate onboarding is to be maintained/ viewed.

Field Name	Description
Group Corporate Name	Group Corporate Name for which Group Corporate onboarding is to be maintained/ viewed.
Onboarding Status	Onboarding status of Group Corporate in Application
Modification Status	Modification status of Group Corporate in Application
Last Updated	Last updated details for the Group Corporate.

4.1.3 Ready to Submit

Any user who modifies any resource in the whole Group Corporate should be registered in the system as a contributor. When any user submits a transaction, a check should be performed if all the contributors have given readiness for submission or not.

When any user submits a transaction, a check is performed and if all contributors have given readiness, then transaction should get submitted successfully.

Note: Any user who has not performed any data modification on any step in the GCIF onboarding wizard but has only entered comments for a resource should not be considered a contributor.

1. Update the transaction details and click **Save**.
2. On the **Group Corporate Onboarding** screen on top right corner, click on  icon adjacent to **Submission Status**. Displays the status of the transaction readiness.

Note: The status of the transaction is **In-progress** until the user submit it.

Modified Transaction with status

The screenshot shows the 'Group Corporate Onboarding' interface. The 'User Onboarding' section is active, displaying a table of users. The table has columns for Username, Full Name, and Status. The first row shows 'nehgcif300' for 'nehal d joshi' with a status of 'Modified'. The second row shows 'nehgcif30' for 'Nehal D Joshi'. The third row shows 'psAugAuth' for 'Mason G Greenwood'. The fourth row shows 'psChecker' for 'Michael C Carrick'. The fifth row shows 'AugSuppgcif' for 'nehal d joshi'. The table is paginated, showing 'Page 1 of 16 (1-5 of 79 items)'. A 'Create' button is visible below the table. At the bottom, there are buttons for 'Next', 'Ready to Submit', 'Retain Draft', and 'Cancel'. A 'Logged in Users Details' modal is open, showing a table with columns for User, Last Updated On, and Status. The first row shows 'dcadmin01' for '11/15/22, 10:13 PM' with a status of 'In Progress'. A note explains that this function enables users to onboard and manage users, their personal information, and their login credentials for channel banking access. It also mentions that users can define various Touch Points from which the user can access the application and limit package applicable for the same. User Status change (lock/unlock) and whether the channel access has to be given to the user can be simply be managed and updated from the search results.

3. Click **Ready to Submit**. The **Ready to Submit Status** modal window appears.

Note: The status of the transaction changes to **Ready to Submit**.

Ready to Submit Status modal window

The screenshot shows the 'Ready to Submit Status' modal window. The modal has a green checkmark icon and the text 'Group Corporate Transaction is Ready To Submit'. Below this, there is a section titled 'Logged in Users Details' with a table. The table has columns for User, Last Updated On, and Status. The first row shows 'dcadmin01' for '11/15/22, 4:42 PM' with a status of 'Ready To Submit'. A note at the bottom of the modal states: 'Once all users have given their readiness for submission, the maintenance can be submitted'. The background interface is dimmed, showing the 'Group Corporate Onboarding' section with a sidebar menu and a 'Ready to Submit' button.

4. On successful performing check, and after all contributors have given readiness, then transaction is submitted successfully.

4.2 Step 1: Group Corporate Profiling

The corporate administrator will be able to view the profile details maintained by the Bank administrator for the Group Corporate. However, the administrator will not have the right to maintain or edit the profile information.

Pre-Requisites

- Transaction access is provided to Bank Administrator.
- Approval rule set up for Bank Administrator to perform the actions.
- Party for which Group corporate needs to be set up is created in core banking application

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Corporate Onboarding > Group Corporate Onboarding > Group Corporate Profiling

4.2.1 Group Corporate Profiling - View

Using this option, Corporate administrators can view profiling details of the existing Group Corporate.

To view Profiling details of the Group Corporate:

1. Click on **Onboarding Status** link to view/update the corporate admin facilities maintained for corporate administrator. The **Group Corporate Onboarding – Group Corporate Profiling** screen appears.
OR
Click **Cancel** to cancel the transaction.

Group Corporate Profiling – View

The screenshot displays the 'Group Corporate Onboarding' interface for 'MUSTU INDUSTRIES' (ID: 000028). The 'Group Corporate Profiling' section is active, showing a list of configuration items and their current values:

Configuration Item	Value
Global Roles	
Bank Roles	Releaser, Checker, CorporateAdminChecker, Viewer, CorporateAdminMaker, Maker, and Verifier
Workflow Preferences	Corporate Level
Approval Flow	Parallel
Approval Routing Type	Auto
Release Facility	Enable
Corporate Administrator Facility	Enable
Accessible Roles for Corporate Administration	Releaser, Checker, CorporateAdminChecker, Viewer, CorporateAdminMaker, Maker, and Verifier

At the bottom of the screen, there are four buttons: **Next**, **Submit**, **Retain Draft**, and **Cancel**.

Field Description:

Field Name	Description
Group Corporate Name	Name of the group corporate.
Global Role	
Bank Roles	Display all the roles mapped at Group Corporate level.
Workflow Preferences	Display the workflow preference set up to implement the workflow. Possible values will be <ul style="list-style-type: none">• Corporate Level• Rule Level
Approval Flow	Display the Approval workflow type, Possible values will be <ul style="list-style-type: none">• Sequential• Parallel• No Approval <p>This field is enabled if Corporate Level option is selected in Workflow Preferences field.</p>
Approval Routing Type	Displays the approval routing type. Possible value will be <ul style="list-style-type: none">• Auto• Manual <hr/> <p>Note: In case system resolves multiple rules with different min-max slabs, then as per rule resolution logic, it will resolve the rule which has the nearest 'max' value in the defined slab.</p> <hr/>
Release Facility	Displays the whether the release functionality is enabled or disabled at Group Corporate level.
Corporate Administrator Facility	Display the flag if Corporate Admin facility is maintained for the Group Corporate.
Accessible Roles for Corporate Administrator	Display the Roles that made available to Corporate admin for onboarding new users

2. Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.

OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.

4.3 **Step 2: Party Account Access**

The corporate administrator will be able to view the Party Account Access maintenance created by the bank administrator or by another corporate administrator. Users will also be able to maintain (Add/Modify) Party Account access for all the parties available under a group corporate.

Pre-Requisites

- Party preferences should be created for the party for which access is to be maintained
- Channel Access should be enabled for party for which account access is to be maintained
- Transaction access is provided to Bank Administrator.
- Approval rule set up for Bank Administrator to perform the actions.

Features Supported In Application

The following options are available as part of this maintenance:

- Party Account Access - Mapping
- Party Account Access – View
- Party Account Access - Edit
- Party Account Access - Delete

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Corporate Onboarding > Group Corporate Onboarding > Party Account Access

4.3.1 **Party Account Access – Create**

Using this option, Corporate Administrator can maintain Accounts and Transaction access for the corporate parties associated with a specific Group Corporate ID.

To provide the corporate party (Associated to Group Corporate) with account and transaction access:

1. From the **Mapping Summary of Party** dropdown list, select the corporate party id.
2. For a searched party, summary screen will be displayed with total accounts associated with corporate party, status of the accounts mapped for the internet banking, modified accounts if any and Auto account mapping status .

Delete Party Mapping	<p>Click on Delete Party Mapping to delete all the Transaction and party account access maintenance done for corporate party all at once</p>

6. The Party Account Access screen has two tabs. Header of the screen shows the Group Corporate Name and Group ID. The manage Transaction Group tab lists down all the **modules, transaction groups** created.

7. Navigate and select specific **module** tab (Including viz. Current and Savings Accounts for both Conventional and Islamic, Credit Card, Term Deposit, Loan accounts along with Liquidity Management enabled Real Accounts (including External Accounts if any) and VAM enabled Real and virtual accounts for a Corporate.) in the first column for which account and transaction access mapping maintenance need to be setup.
8. The user can create a new **transaction group** by clicking the '**ADD**' button. On clicking **Add**, a new overlay will open where all the transactions and inquiries will be listed. User can provide a name the group and select the required transactions and inquiries and click the **save** button.
OR
Click **Reset** to clear added details in overlay screen.
9. A new group can also be created by **cloning/copying an existing transaction group**. Once the user selects an existing **transaction group**, system will populate the screen with the transactions selected in the copied group in editable mode. User can select or deselect some of the transactions as per his requirements and create a new group by providing a different transaction group name
10. There will be one factory shipped **Transaction group** for each module, which will have all transactions and inquiries grouped together.

Note: Factory shipped user group cannot be deleted or modified.

11. Once the transaction group/s are created, user can map these transaction groups to one or multiple accounts. Click on **Map Accounts** tab and select Party, then select Transaction Groups, select the account numbers and then click on **Save** to map the transaction groups to the selected accounts.
12. Click on the **Transaction Group link**, to view the list of transactions within the mapped transaction group in an overlay.
13. Select 'All Accounts' option to map/ unmap transaction groups from all accounts.
OR
If specific accounts are required to be mapped, then select the respective check boxes preceding the account number.
14. Once the user maps the accounts, system will show a tag as '**Modified**' followed by the transaction group name after the account number.
15. To map the new accounts, select appropriate option from **Auto Map toggle button**;
Select **Auto** if you wish to allow access to all future Accounts across banking module.
OR
Select **Manual** if you wish to explicitly map new accounts and transactions.
16. User can **unmap** the transaction groups by selecting accounts and then clicking on **Save** button to reset their mapping.
17. User can click on **Delete Party Mapping** to delete all the Transaction and account access maintenance done for corporate party in one step.
18. User can drill down his search by applying Filter to search an account basis on the account number, transaction group, account access status, account status and currency
19. **Click Save** to save the maintenance, and redirect to the review page.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.

OR
Click **Cancel** to cancel the transaction.

Note: Admin can submit the maintenance after any step. Maintenances saved so far will be sent for approval in one flow. Admin would not be able to make any changes or maintain another step for the same Group Corporate till the time the approval of the wizard is not done.

20. The **Review** screen appears. Verify the details, and click **Submit**.
OR
Click **Edit** to modify the details entered.
OR
Click **Next** to proceed to next step.
OR
Click **Retain Draft** to save all the steps completed so far, and allow Admin resume the same application.
OR
Click **Cancel** to cancel the transaction.
21. The success message of user creation appears along with the transaction reference number

4.3.2 Party Account Access- View

The Corporate Administrator can view the list of account(s) and transactions for which access has been provided to the party.

To Search and view the party account and transaction access:

1. From the **Mapping Summary of Party** dropdown list, select the corporate party id.
2. For a searched party, summary screen will be displayed with total accounts associated with corporate party, status of the accounts mapped for the internet banking, modified accounts if any and Auto account mapping status .
3. Click the link under the total **Mapped accounts** or **Modified accounts**, The **Party Account Access – View** (Transaction Mapping) screen appears. The search result according to the search criteria appears
OR
Click **Cancel** to cancel the transaction.

Party Account Access – Edit Details

7. The Party Account Access screen has two tabs. Header of the screen shows the Group Corporate Name and Group ID. The manage Transaction Group tab lists down all the **modules, transaction groups** created.
8. Navigate and select specific **module** tab (Including viz. Current and Savings Accounts for both Conventional and Islamic, Credit Card, Term Deposit, Loan accounts along with Liquidity Management enabled Real Accounts (including External Accounts if any) and VAM enabled Real and virtual accounts for a Corporate.) in the first column for which account and transaction access mapping maintenance need to be setup.
9. The user can create a new **transaction group** by clicking the '**ADD**' button. On clicking **Add**, a new overlay will open where all the transactions and inquiries will be listed. User can provide a name the group and select the required transactions and inquiries and click the **save** button.
OR
Click **Reset** to clear added details in overlay screen.
10. A new group can also be created by **cloning/copying an existing transaction group**. Once the user selects an existing **transaction group**, system will populate the screen with the transactions selected in the copied group in editable mode. User can select or deselect some of the transactions as per requirements and create a new group by providing a different transaction group name
11. There will be one factory shipped **Transaction group** for each module, which will have all transactions and inquiries grouped together.

Note: Factory shipped user groups cannot be deleted or modified.

12. Once the transaction groups are created, user can select specific module, along with the transaction groups and can select 'All Accounts' to map the selected transaction group/s to all the existing accounts under the selected party
OR
If transaction groups need to be mapped to specific accounts, then the user needs to select the respective check boxes preceding the account number.
13. Once the user maps the accounts, system will show a tag as '**Modified**' followed by the transaction group name after the account number.
14. To map the new accounts, select appropriate option from **Auto Map** toggle button;
Select **Auto** if you wish to allow access to all future Accounts across banking module.
OR
Select **Manual** if you wish to explicitly map new accounts and transactions.
15. User can **unmap** the transaction groups by selecting accounts and then clicking on Save button to reset their mapping with Group Corporate
16. User can click on **Delete Party Mapping** to delete all the transaction and party account access maintenance done for corporate party in one step.
17. User can drill down his search by applying Filter to search an account basis on Transaction Group, currency, mapping status
18. **Click Save** to save the maintenance, and redirect to the review page.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.

Note: Admin can submit the maintenance after any step. Maintenances saved so far will be sent for approval in one flow. Admin would not be able to make any changes or maintain another step for the same Group Corporate till the time the approval of the wizard is not done.

19. The **Review** screen appears. Verify the details, and click **Submit**.
OR
Click **Edit** to modify the details entered.
OR
Click **Next** to proceed to next step.
OR
Click **Retain Draft** to save all the steps completed so far, and allow Admin resume the same application.
OR
Click **Cancel** to cancel the transaction.
20. The success message of user creation appears along with the transaction reference number

Note: Following flow explains the drill down options to search by applying Filter to search an account for Virtual Accounts Management & Liquidity Management module –

OR
 2. A combination of branch name, currency filters and other parameters. After the OR division, the user can use these search parameters alone or in a combination to filter search results.

Virtual Accounts Tab -

The screenshot displays the 'Virtual Accounts Tab' in the Futura Bank system. The main interface is titled 'Group Corporate Onboarding' and includes a sidebar with navigation options like 'Group Corporate', 'Party Account Access', 'Manage Transaction Group', and 'Map Accounts'. The 'Map Accounts' tab is selected, showing a list of accounts with checkboxes and 'Mapped' status. A 'Filter' sidebar on the right allows filtering by Virtual Account Number, Name, Entity, Branch Name, Transaction Groups, Account Access Status, Account Status, and Account Currency. The sidebar has an 'or' button and 'Apply' and 'Reset' buttons at the bottom.

To view Virtual Accounts:

1. In the **Virtual Account Number** field, enter the exact Virtual Account number.
OR
In the **Virtual Account Name** field, enter the Virtual Account Name.
OR
From the **Virtual Entity** search, select the Virtual Entity name.
OR
From the **Branch name** drop down, select the Branch name.
OR
From the **Transaction groups**, select the transaction group.
OR
From the **Account Access Status** field, select an appropriate status.
OR
From the **Status** drop down, select the status.
OR
From the **Currency** field, select the required currency
2. Click **Apply** to Apply the filter.
OR
Click **Reset** to reset the entered data.
3. The user can filter through two sections :
 1. On the basis of the Account Number
OR
 2. A combination of branch name, currency filters and other parameters . After the OR division, the user can use these search parameters alone or in a combination to filter search results .

4.3.4 Party Account Access- Delete

As part of this option, party account mapping can be deleted.

To delete account and transaction access for the party:

1. From the **Mapping Summary of Party** dropdown list, select the corporate party id.
2. For a searched party, summary screen will be displayed with total accounts associated with corporate party, status of the accounts mapped for the internet banking, modified accounts if any and Auto account mapping status .
3. Click the link under the total **Mapped accounts** or **Modified accounts**, The **Party Account Access – View** (Transaction Mapping) screen appears. . The search result according to the search criteria appears
OR
All the accounts held by the selected party as a relationship with the bank as available in the core banking system or the respective mid-office system will be fetched and displayed in the respective categories
4. Click **Map** or **Edit** (available across each banking module). The **Party Account Access - Edit** screen appears.
OR
Click **Cancel** to cancel the transaction.
5. Click on **Delete Party Mapping** to delete all the Transaction and account access maintenance done for corporate party in one-step.

The application prompts the administrator with a message: Are you sure you want to delete Party Account Access setup for linked Party ID – Party name with an option of Yes / No.

6. Click **Yes** to proceed with the deletion request.
It will navigate to confirmation page with a success message and the status.
OR
Click **No** if you do not wish to proceed with deletion.
7. Click **OK** to complete the transaction.
8. Click **Save** to save the maintenance, and redirect to the review page.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.
9. The **Review** screen appears. Verify the details, and click **Submit**.
OR
Click **Edit** to modify the details entered.
OR
Click **Next** to proceed to next step.
OR
Click **Retain Draft** to save all the steps completed so far, and allow Admin resume the same application.
OR
Click **Cancel** to cancel the transaction.
10. The success message of user creation appears along with the transaction reference number

4.4 Step 3: User Onboarding

This function will allow the corporate administrator to create a new user by entering all the data manually or by copying an existing user. User Management function enables system/bank/corporate administrator to onboard and manage users and their login credentials for channel banking access. The corporate administrators can define various touch points from which the user can access the channel banking and limit package applicable for the same. In a multi entity scenario, this function will enable corporate administrator to provide access to multiple entities to users.

You can view/modify only those users who have subset of accesses of corporate administrator. Extending access of any newly added parties under the Group Corporate to the corporate administrators needs to be handled operationally.

Corporate administrators will also be able to access the corporate users onboarded by the bank administrators or by another corporate administrator under the Group Corporate mapped. Corporate administrators will be able to create a new user and even modify existing users.

Note:

- User is created first in IDCS and then onboard in OBDX.
 - When an administrator creates/modifies a user through User Management either via Group Corporate onboarding (for corporate user) or via standalone screens (for administrator and retail user), the global roles would be available for assignment to the user in the same manner as is available in the current system, however, the entity specific roles would be listed in Entity-specific sections for each user. Administrator will be able to map multiple roles to the user under each entity
-

Internal Users

- Corporate Administrator

External Users

- Corporate User
- Non Customer- Corporate users
- Corporate Administrator

Pre-Requisites

- User Segment and Application roles are maintained
- Transactions are associated with each Application role
- Transaction (User Management) access is provided to System/Bank Administrator.
- Approval rule set up for Bank administrator to perform the actions.
- Party Preference is maintained for corporate user

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Corporate Onboarding > Group Corporate Onboarding > User Onboarding tab

4.4.1 User Management - Search and View

Using this option, System/ bank administrators can search and view details of the existing users. Administrator selects the user type of the user to be searched.

Default search is available with User Name, but the user can also be searched by providing other details like First Name, Last Name, Party ID. Email ID and Mobile Number.

To search for a user:

1. Enter the search criteria, click **Search**.
The search results appear on the **User Management** screen based on the search parameters.
OR
Click **Cancel** if you want to cancel the transaction.
OR
Click **Clear** if you want to reset the search parameters.
OR
Click **Create** to create internal and external users.

User Management - Search

The screenshot shows the 'User Onboarding' search interface in the Futura Bank system. The top navigation bar includes the Futura Bank logo, a search bar, and a user profile icon labeled 'MA'. The main header area displays 'Group Corporate Onboarding' with a back arrow on the left and 'Submission Status' and 'Group Corporate ID : 000028 Name : MUSTU INDUSTRIES' on the right. The left sidebar shows a list of search criteria: Username, First Name, Last Name, Email, Mobile Number, and Party ID. The 'Username' criterion is currently selected. The main content area features a single text input field for the Username search. Below the input field are 'Search' and 'Clear' buttons. At the bottom right, there are four buttons: 'Next', 'Submit', 'Retain Draft', and 'Cancel'.

User Management - More Search Options

This screenshot shows the same 'User Onboarding' search interface, but with the 'More Search Options' expanded. The left sidebar now highlights the 'More Search Options' section. The main content area displays multiple search criteria: Username, First Name, Last Name, Email, Mobile Number, and Party ID. Each criterion has a corresponding text input field. The 'Mobile Number' field is split into a 'Code' dropdown and a 'Mobile Number' text input. The 'Party ID' field is a dropdown menu with the placeholder text 'Please select the Party ID'. Below the input fields are 'Search' and 'Clear' buttons. The 'Next', 'Submit', 'Retain Draft', and 'Cancel' buttons remain at the bottom right.

Field Description

Field Name	Description
User Name	To search the user with the user name. Partial search is allowed.
More Search Options	
Below fields appears if you click the More Search Options link.	
First Name	Allows to search based on first name or given name of the user.
Last Name	Allows to search based on last name/ surname of the user.
Email	Allows to search based on email id of the user.
Mobile Number	Allows to search based on mobile number of the user. <div>Note: User can select international subscriber dialing (ISD) code (country code) while selecting mobile number.</div>
Party ID	Allows to search based on Party id.

To view the user details:

1. Enter the search criteria and click **Search** in the **User Management** screen.
The search results appear based on the search parameters.

To edit or update a user details:

1. Enter the search criteria, click **Search**.
The **search** results appear on the **User Management** screen based on the search parameters.
OR
Click **Clear** if you want to reset the search parameters.
OR
Click **Cancel** if you want to cancel the transaction.
2. In the **User Management - Search Results** section, click the **User Name** link of the record for which you want to edit the user details.
The **User Management - View** screen appears.
3. Click **Edit** to update the user information.
4. In the **User Name** field, enter the required details. Click **Check Availability** to check the uniqueness of the user ID. If the user ID is already used.
5. In the **Personal Information** section, enter the required details.
6. In the **Contact Details** section, enter the required details.
7. In the **Roles** section, select the checkbox (s) against the **Roles**, to map to the user.
8. In the **Touch Points** section, select the touch points to be mapped to user.
9. In the **Accessible Entity Details** section, add the accessible entities for the user and select the party and limits for that entity (applicable only if Bank has Multi Entity setup).
 - a. Click **Add Entity** button, to add accessible entity to a user.
 - b. In the **Limits** section, select the appropriate limit package under the Package for each touch point column.
 - c. In the **Primary Party ID** field, Select the Primary Party ID details of the user is associated with the New Entity
 - d. From the **Accessible Party Details**, select the parties to map with user.

Touch Points Group - View Details

The screenshot shows a web application interface for 'futura bank'. A modal window titled 'View Details' is open, displaying information for a touch point group. The modal fields are: Group Code (001), Group (Internal Access Point Group for All), Description (Internal), Touch Point (Internal), Group Type (Internal), and a list of Touch Points (Mobile Application, Mobile (Responsive), Internet, Siri/Chatbot, API Access). The background shows the 'Touch Point Group Maintenance' screen with fields for User Type, Party ID, Party Name, Personal Information, and Contact Details.

Field Description

Field Name	Description
Group Code	Group code defined for touch point group.
Group Description	Group description defined for touch point groups.
Group Type	Type of touch point i.e. whether touch point is of type internal or external.
Touch Points	List of the internal or external touch points.

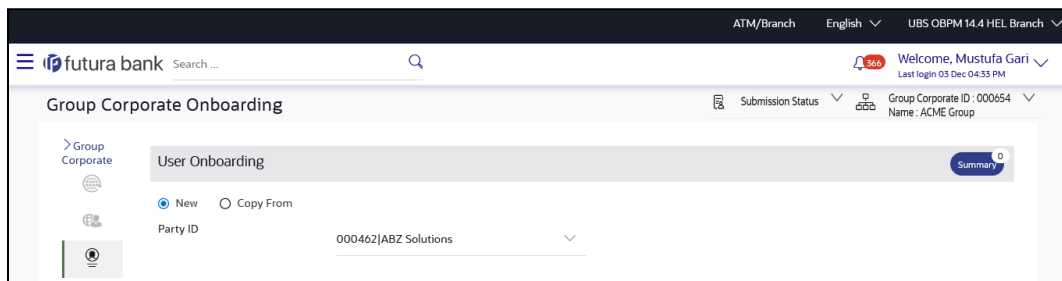

10. Click **Save** to save the maintenance, and redirect to the review page.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.
11. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
12. The success message of updates appears.

4.4.3 User Management - Create

Corporate Administrator logs into the system and navigates to the User Management screen. This function allows the administrator to create internal and external users.

Note: In case of multi entity implementation, if the Corporate administrator has access to multiple entities, then the administrator can select the entity from the entity switcher on which the user needs to be onboarded. The selected entity of the user as part of onboarding will be the default/home entity of the user being created.

Group corporate Onboarding - User Onboarding

Field Description

Field Name	Description
New	Allows selecting a Parent Party ID of the user.
Copy From	Allows to select an already created user (user created under the same Group Corporate) and screen will display the copied data for all the sections except Personal and Contact information. System/ Bank Administrator would require to fill Personal and Contact information and he can make the changes in the copied data as well.
Party ID	Parent Party ID of the user for mapping it to the user.

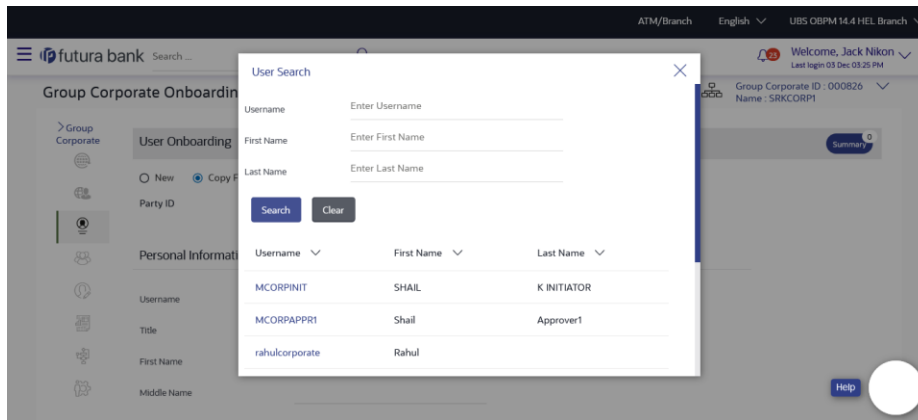

To onboard a user:

1. In the **User Management** screen, Click **Create**.
2. Select the option to create a new or by copying an existing user.
3. If you select **New** option;
 - a. From the **Party ID** list, select a Parent Party ID of the user.
The **Personal Information, Contact Details, Touch Points, Roles, Limits** and **Accessible Entity** sections appear.
4. If you select the **Copy From** option;
 - a. The **User Search** popup window appears.

- b. Enter the search criteria and click **Search**.
The search results appear on the **Search User** screen based on the search parameters.
OR
Click **Clear** if you want to reset the search parameters.

Note: Click  icon to refresh the detail entered in select user field.

User Management – User Search

The screenshot displays the 'User Search' modal in the Futura Bank system. The modal contains three input fields: 'Enter Username', 'Enter First Name', and 'Enter Last Name'. Below these fields are 'Search' and 'Clear' buttons. The search results are shown in a table with the following data:

Username	First Name	Last Name
MCORPINIT	SHAIL	K INITIATOR
MCORPAPPRI	Shail	Approver1
rahulcorporate	Rahul	

Field Description

Field Name	Description
Search	
User Name	To search the user with the user name. Partial search is allowed.

Entity Name	Accessible Entity name associated to the user.
Map Parties	
Primary Party	Primary Party ID details of the user is associated with the New Entity
Accessible Parties Name	Accessible Party Details that user has access.
Limits - Touch Point/Groups	
	Limits package associated to the user for the accessible entity.
Touch Points/ Group	Name of touch points/ groups maintained under a specific entity for which the limit packages are mapped.
Map Roles	The roles to which the entities are mapped.

5. In the **User Name** field, enter the required details. Click **Check Availability** to check the uniqueness of the user ID. If the user ID is already used, then enter a unique valid username.
6. In the rest of the **Personal Information** section, enter the required details.
7. In the **Contact Details** section, enter the required details.
8. In the **Roles** section, select the checkbox (s) against the **Roles**, to map to the user.
9. In the **Touch Points** section, select the touch points to be mapped to user.

10. In **Select Category** field under **DND Alerts** section, select the desired categories for which DND needs to be enabled.
11. In the **Accessible Entity Details** section, add the accessible entities for the user and select the party and limits for that entity (applicable only if Bank has Multi Entity setup).
 - a. Click **Add Entity** button, to add accessible entity to a user.
 - b. In the **Limits** section, select the appropriate limit package under the Package for each touch point column.
 - c. In the **Primary Party ID** field, Select the Primary Party ID details of the user is associated with the New Entity
 - d. From the **Accessible Party Details**, select the parties to map with user.

Touch Points Group - View Details

This pop-up screen appears on clicking  beside a touch point group in the **Limits** section, which appears when onboarding corporate user types.

Field Description

Field Name	Description
Group Code	Group code defined for touch point group.
Group Description	Group description defined for touch point groups.
Group Type	Type of touch point i.e. whether touch point is of type internal or external.
Touch Points	List of the internal or external touch points.

12. Click **Save** to save the maintenance, and redirect to the review page.
OR

Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.

Note: Admin can submit the maintenance after any step. Maintenances saved so far will be sent for approval in one flow. Admin would not be able to make any changes or maintain another step for the same Group Corporate till the time the approval of the wizard is not done.

13. The **Review** screen appears. Verify the details, and click **Submit**.
OR
Click **Add Another** to add another maintenance of the same step.
OR
Click **Edit** to modify the details entered.
OR
Click **Next** to proceed to next step.
OR
Click **Retain Draft** to save all the steps completed so far, and allow Admin resume the same application.
OR
Click **Cancel** to cancel the transaction.
14. The success message of user creation appears along with the transaction reference number.

4.5 **Step 4: User Group Maintenance**

Using the User Group maintenance option, the corporate administrator can maintain the user groups of corporate users of Group Corporate.

As user groups are maintained at the Group Corporate level, the corporate administrator can view all user groups but only add/delete the users belonging to his accessible parties available under the Group Corporate. Also, administrator can view summary of all users available in the group, however complete details of the user can be viewed only if user has access to all the party IDs mapped to the corporate user.

Prerequisites:

- Transaction access is provided to Bank Administrator.
- Multiple corporate users are maintained.
- Approval rule set up for Bank administrator to perform the actions.
- Party preference for which the groups are to be created is maintained and is active.

Features Supported In Application

User Group Management allows Bank Administrator to:

- Create User Groups
- View User Groups
- Modify User Groups

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Corporate Onboarding > Group Corporate Onboarding > User Group

4.5.1 **User Groups – Create**

Bank Administrator can create a new User Group for the Group Corporate ID by using this option. Only the users of single Group Corporate ID can be clubbed together in a User Group.

Administrator can create multiple user groups and one user can be part of multiple user groups. Bank Administrator will be allowed to create user group even without adding a single user.

To create a user group:

1. The **User selection** screen appears. Select the appropriate option.

4.5.2 User Groups – Summary & View

Once the logged in Bank Administrator navigates to User Group Management screen, and searches User Group Code. User groups maintained if any under the Group Corporate would be displayed on the screen. User can opt to view the details of existing user groups.

The summarized view of all the user groups created (if any) for the Group corporate is displayed on the screen. Further drill down is given on each user group to view the details of the users who are part of the user group.

To search and view User Group details of the Group Corporate:

1. In **User Group Management** screen, in the **Group Code** or in **Group Description** enter the Respective details.
2. Click Search. User groups maintained if any under the Group Code or Group Description are displayed on the screen.

The screenshot displays the 'User Groups' management interface within the Futura Bank system. The top navigation bar includes the bank logo, a search bar, and user information (Welcome, Jack Nikon, Last login 03 Dec 04:24 PM). The main content area is titled 'Group Corporate Onboarding' and features a 'User Groups' section. This section contains a table with columns for 'Group Code', 'Group Description', and 'Users'. Two user groups are listed: 'nehgcf2' with 2 users and 'nehgcf' with 1 user. A sidebar on the left provides navigation options for various system components. At the bottom, there are buttons for 'Next', 'Submit', 'Retain Draft', and 'Cancel'.

4. Click **Back** to navigate back to previous screen.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.

4.5.3 User Groups – Edit

This function enables the Bank Administrator to edit the description of existing user groups mapped under Group Corporate. Bank Administrator can also add new users and remove existing users of the user group as part of this function.

A check is performed on minimum and maximum number of users allowed as a part of user group while adding or removing the users from the user group.

To edit or update a user group:

1. In **User Group Management** screen, in the **Group Code** or in **Group Description** enter the Respective details.
2. Click Search. User groups maintained if any under the Group Code or Group Description are displayed on the screen.

The screenshot displays the 'Group Corporate Onboarding' interface for Futura Bank. The main section is titled 'User Groups' and contains a table with the following data:

Group Code	Group Description	Users
nehgcif2	nehgcif2	2
nehgcif	nehgcif	1

Below the table, there is a pagination control showing 'Page 1 of 1 (1-2 of 2 items)' and a list of navigation buttons: 'Next', 'Submit', 'Retain Draft', and 'Cancel'. A sidebar on the left contains various icons for navigation. The top header includes the bank logo, a search bar, and user information: 'Welcome, Jack Nikon' and 'Last login 03 Dec 04:24 PM'.

Field Name	Description

- Click **Edit** to edit the user group.
The **User Groups - Edit** screen displays the mapping of the user group.
OR
Click **Cancel** to cancel the transaction.

User Group – Edit

Field Description

Field Name	Description
Edit	
Group Code	Display user group code
Group Description	Enter Description provided to the user group.
User Information	
User ID	User ID of the user who is part of the user group is displayed.

- In the User Group section, Click **Add** to add the selected user in the User Group. Once added, the user name will be removed from the user drop-down to avoid duplication of users. Click  to remove a user from the User Group.
- Click **Save** to save the maintenance, and redirect to the review page.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.

The **User Group - Review** screen appears. Verify the details, and click **Confirm**.

OR

Click on **Add Another** to add new User Group.

OR

Click **Cancel** to cancel the transaction.

OR

Click **Back** to navigate back to previous screen.

15. The success message of user group creation appears along with the transaction reference number.

4.6 **Step 5: User Account Access**

Using this option the corporate administrator will be able to set up account and transaction access for user(s) of the Group Corporate. This maintenance can be done only after the Party Account Access is setup for the parent party of the user(s). The user level mapping of accounts and transactions must be done to provide access to the accounts for performing transactions to the specific user.

Corporate administrator can copy mapping from another user. The mapping of only those party's accounts will be copied to which the user has access. The corporate administrator will be able to maintain the account access of users who have subset of accesses of corporate administrator.

Note: The corporate administrator will be able to maintain the account access of all the users available under the Group Corporate.

Pre-Requisites

- Account Access should be maintained for the corporate party of the user for which access is to be maintained
- Account Access for the party should be maintained for associated party accounts if the user needs access to associated party accounts.
- Party preferences should be created for the party of the user for which access is to be maintained
- Channel Access should be enabled for party of the user for which account access is to be maintained
- Transaction access is provided to Bank Administrator.
- Approval rule set up for Bank Administrator to perform the actions.

Features Supported In Application

The following options are available as part of this maintenance:

- User Account Access - Mapping
- User Account Access – View
- User Account Access - Edit
- User Account Access - Delete

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Corporate Onboarding > Group Corporate Onboarding > User Account Access

4.6.1 User Account Access – Create

Using this option, Bank Administrator can maintain Accounts and Transaction access for the corporate users associated with a specific Group Corporate ID.

This option lets the administrator to provide account access to specific users of a party.

To provide the user with account and transaction access:

1. In the **User Search** field search users for whom Transaction Account access need to be maintained.
OR
Select the user from list displayed below.
2. Select the user ID and click on “**Map**” to navigate to **Account Access summary**

User Account Access – Search and Search Result

The screenshot displays the 'User Account Access' page in the Futura Bank system. The page header includes the bank logo, a search bar, and user information: 'Welcome, Administrator User' with a last login time of 8/4/22, 2:51 PM. The main section is titled 'Group Corporate Onboarding' and shows a 'User List' table. The table has columns for User ID, User Name, Copy Mapping from User, and Status. The first row is selected, showing 'ajcorpadminchecker' as the User ID and 'AjCorp AdminMaker' as the User Name, with a status of 'Created'. Other rows show various user IDs and names, some with 'Please Select' for the mapping and 'Mapped' for the status. A 'Map' button is visible at the bottom left of the table area. The page footer contains copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [Security Information] [Terms and Conditions]'.

9. In the **Manage Transaction Group** Tab;

- Select specific **module** tab (Including viz. Current and Savings Accounts for both Conventional and Islamic, Credit Card, Term Deposit, Loan accounts along with Liquidity Management enabled Real Accounts (including External Accounts if any) and VAM enabled Real and virtual accounts for a Corporate.) for which account and transaction access mapping maintenance need to be setup.
- Click on the  icon to search & select the **Transaction group/s** under selected module.

User can modify the transaction group other than the factory shipped to select or deselect the transaction access.
- Click on the **Transaction Group** link the **Transaction Group Details** overlay screen appears.
Click **Edit** to modify the transaction/ inquires.
Click **Save** to save the changes.

10. In the **Map Accounts** Tab;

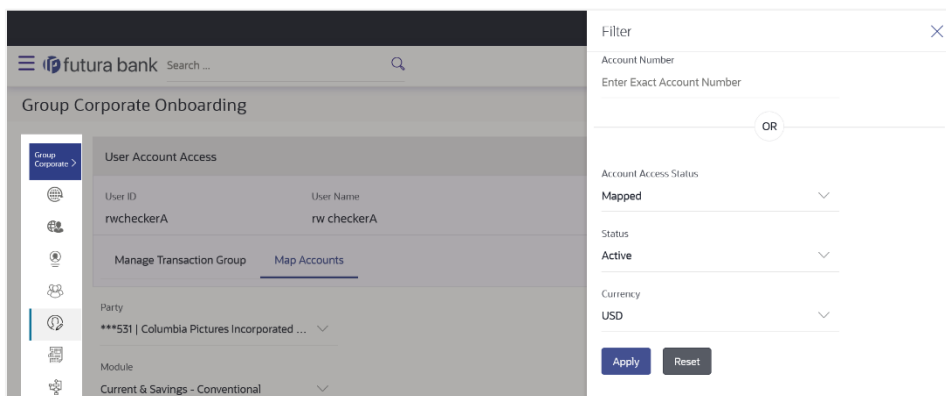

- From the **Module** list, select the factory shipped **Transaction group** under selected module which will have all transactions and inquiries grouped together.

Note: Factory shipped user group cannot be deleted or modified.

- In the **Apply Party Level Changes** field, toggle to enable to apply party level changes automatically.
- In **Action** field, select the desired option to map/ unmap the Transaction Group.

- iv. If the **Map Transaction Group** option is selected;
 - v. In the **Transaction Groups** list, select the transaction Group/s to map / unmap from the drop-down list.
 - vi. In **Account Selection** field, select the option to map the transaction groups to all the accounts or specific accounts.
 - vii. Once the transaction group/s are created, user can map these transaction groups to one or multiple accounts . Click on **Map Accounts** tab and select Party, then select Transaction Groups, select the account numbers and then click on **Save** to map the transaction groups to the selected accounts.
 - viii. Click on the **Transaction Group link**, to view the list of transactions within the mapped transaction group in an overlay.
 - ix. Select **'All Accounts'** option to map/ unmap transaction groups from all accounts.
OR
If specific accounts are required to be mapped, then select the respective check boxes preceding the account number.
 - x. Once the user maps the accounts, system will show a tag as **'Modified'** followed by the transaction group name after the account number.
 - xi. To map the new accounts, select appropriate option from **Auto Map** toggle button; Select **Auto** if you wish to allow access to all future Accounts across banking module.
OR
Select **Manual** if you wish to explicitly map new accounts and transactions.
11. Once the user maps the accounts, system will show a tag as **'Modified'** followed by the transaction group name after the account number.
 12. If the **Unmap** option is selected;
 - i. User can **unmap** the accounts by selecting accounts and then clicking on Unmap button to reset their mapping with Group Corporate.
 13. User can click on **Delete Party Mapping** to delete all the Transaction and account access maintenance done for corporate user in one step.
 14. Click on the  icon to further drill down by applying new sear criteria in **Filter** overlay screen on basis of Account Number, Transaction Group, Currency, Mapping Status.

User Account Access - Filter Criteria

The screenshot displays the 'Group Corporate Onboarding' interface. On the left, a sidebar shows navigation options: 'Group Corporate', 'User Account Access', 'Manage Transaction Group', and 'Map Accounts'. The 'User Account Access' section is active, showing a table with columns 'User ID' and 'User Name', containing the entry 'rwcheckerA' and 'rw checkerA'. Below this, there are fields for 'Party' (***531 | Columbia Pictures Incorporated ...) and 'Module' (Current & Savings - Conventional). On the right, a 'Filter' overlay is open, allowing users to refine search criteria. The filter includes sections for 'Account Number' (with a search bar for 'Enter Exact Account Number'), 'Account Access Status' (with a dropdown set to 'Mapped'), 'Status' (with a dropdown set to 'Active'), and 'Currency' (with a dropdown set to 'USD'). 'Apply' and 'Reset' buttons are at the bottom of the filter overlay.

- a. Click **Apply** to Apply the filter.
OR
Click **Reset** to reset the entered data.
15. Click **Save** to save the maintenance.
OR
Click **Review** screen appears. Verify the details, and click **Submit**.
OR
Click **Back** to navigate back to previous scree.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.

Note: Admin can submit the maintenance after any step. Maintenances saved so far will be sent for approval in one flow. Admin would not be able to make any changes or maintain another step for the same Group Corporate till the time the approval of the wizard is not done.

16. The **Review** screen appears. Verify the details, and click **Submit**.
OR
Click **Edit** to modify the details entered.
OR
Click **Next** to proceed to next step.
OR
Click **Retain Draft** to save all the steps completed so far, and allow Admin resume the same application.
OR
Click **Cancel** to cancel the transaction.
17. The success message of user creation appears along with the transaction reference number.

4.6.2 User Account Access – View

The Bank Administrator can view the list of account(s) and transactions for which access has been provided to the user.

To view the account and transaction access:

1. In the **User Search** field search users for whom Transaction Account access is being viewed.
OR
Select the user from list displayed below.
2. Select the user ID and click on “Map” to navigate to **Account Access summary**.

User Account Access – Search and Search Result

The screenshot shows the 'User Account Access' section of the Futura Bank system. It includes a search bar, a 'User List' table, and a 'Summary' button. The table lists users with their IDs, names, copy mapping status, and account status.

Status	Displays the account mapping status for the corporate user. <ul style="list-style-type: none"> Mapped: Corporate user for which accounts mapping is being done and authorized.

Field Name	Description
------------	-------------

- **Modified:** Corporate user for which accounts mapping is being done but pending approval by authorizer.
- **Deleted:** Corporate user for which accounts mapping is deleted.

- From the **Mapping Summary of Party** dropdown list, select the corporate party id associated with Corporate User.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.
- For a searched user, summary screen will be displayed with total accounts associated with corporate party of that user, status of the accounts mapped for the internet banking for user, modified accounts if any and Auto account mapping status .

User Account Access - Summary Results

The screenshot displays the 'Group Corporate Onboarding' interface for 'futura bank'. The top navigation bar includes 'ATM & Branch Locator', 'English', and 'UBS OBPM 14.4 IEL Branch'. The user is logged in as 'Administrator User' with the group corporate ID '000842' and name 'nehgcf'.

The main section is titled 'User Account Access' and shows the user ID 'ajcorpadminchecker' and user name 'AJCorp AdminMaker'. Below this is the 'Mapping Summary of Party' dropdown, currently set to '002531 | Columbia Pictures Incorpor...'. The table below lists various modules with their total accounts, mapped accounts, modified accounts, and auto-mapped status.

Modules	Total Accounts	Mapped Accounts	Modified Accounts	Auto Mapped Accounts	Edit
Current & Savings - Conventional	5	0	0	On	
Current & Savings - Islamic	2	0	0	Off	
Virtual Account Management - Real Accounts	3	0	0	Off	
Liquidity Management	0	0	0	Off	
External Accounts	0	0	0	Off	
Loans - Conventional	0	0	0	Off	
Loans - Islamic	0	0	0	Off	
Credit Cards	0	0	0	Off	
Virtual Accounts	6	0	0	Off	
Term Deposits - Conventional	0	0	0	Off	
Term Deposits - Islamic	0	0	0	Off	

Below the table is the 'Mapping Summary of Modified Transaction Groups' section, which shows the following data:

Modules	Modified Groups
Current & Savings - Conventional	1
Virtual Accounts	1

At the bottom of the interface, there are buttons for 'Map', 'Back', 'Next', 'Submit', 'Retain Draft', and 'Cancel'. The footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [Security Information] Terms and Conditions'.

Field Description

Field Name	Description
User ID	User ID the corporate user
User Name	User name of the corporate user
Mapping Summary of Party	The corporate party for which Party accounts access is being viewed
Modules	Banking Module names
Total Accounts	Total number of accounts available under the party that can be map with corporate user.
Mapped Accounts	Number of accounts mapped to the particular account type of corporate user.
Modified Accounts	Number of accounts modified for the particular account type of corporate user.
Auto Mapped Accounts	Mapping status of the accounts. The options can be: <ul style="list-style-type: none">• Auto: gives default access to all newly added accounts and transactions of the party as soon as the account is opened in future.• Manual: gives specific access to future accounts. The new accounts and transactions need to be mapped explicitly if access needs to be provided
Edit or Map	Click on the icon next to every module or click on Map button to edit User account access

5. If there is no mapping done for a party, the count for the **Mapped Accounts** will be '0'
6. All the accounts held by the selected party as a relationship with the bank as available in the core banking system or the respective mid-office system will be fetched and displayed in the respective categories

User Account Access – View

The screenshot displays the 'User Account Access – View' interface. On the left, a sidebar lists transaction groups: 'CASA_All Transactions' and 'CASA_NEW'. The top navigation bar includes 'Manage Transaction Group' and 'Map Accounts' tabs, a dropdown for 'Current & Savings - Conventional', and a search field. The main panel, 'Transaction Group Details', shows a list of transaction types with checkboxes for 'Perform', 'View', 'Check', 'Approve', and 'Release'. The list includes categories like 'All Transactions', 'Domestic Payouts', 'Outward Bank Guarantee', 'Domestic Draft', 'EDX File Upload', 'Electronic Bill Payment', and 'International Draft'. At the bottom of the main area are 'Save' and 'Reset' buttons.

Field Description:

Field Name	Description
Modules	Display name of the product for which account access is being viewed.
Mapped Transaction Group	Display the transaction groups selected to setup the user account access.

Field Name	Description
Transaction Groups Details	Display the Transaction group details with which user account access is maintained along with transaction and inquiries mapped to it.

7. The User Account Access details screen has two sections. First section displays the lists down all the transaction groups mapped.
8. In the second column, user can view the **transaction group** details with all the transactions and inquiries access.
9. Click **Edit / Map** to update the **User Account Access** account mapping for new accounts and existing accounts.
OR
Click **Back** to navigate to the previous screen.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.

4.6.3 User Account Access – Edit

The Bank Administrator gets a request with the list of account(s) and transactions for which access details needs to be edited for a selected user of the party.

To Search and Edit the User account and transaction access:

1. In the **User Search** field search users for whom Transaction Account access is to modify.
OR
Select the user from list displayed below.
2. Select the user ID and click on "Map" to navigate to **Account Access summary**
3. From the **Mapping Summary of Party** dropdown list, select the corporate party id.
4. For a searched user, summary screen will be displayed with total accounts associated with corporate party of that user, status of the accounts mapped for the internet banking for user, modified accounts if any and Auto account mapping status.
5. Click the link under the total **Mapped accounts** or **Modified accounts**, The **User Account Access – View** (Transaction Mapping) screen appears. The search result according to the search criteria appears
OR
Click **Cancel** to cancel the transaction.
6. If there is no mapping done for a user, the count for the **Mapped Accounts** will be '0'.
7. All the accounts held by the selected user as a relationship with the bank as available in the core banking system or the respective mid-office system will be fetched and displayed in the respective categories
8. Click **Map** or **Edit** (available across each banking module). The **User Account Access - Edit** screen appears.

OR
Click **Cancel** to cancel the transaction.

User Account Access – Search and Search Result

The screenshot displays the 'User Account Access' section of the Futura Bank Group Corporate Onboarding interface. The page includes a search bar, a 'User List' table, and navigation controls.

9. The User Account Access screen has four section. Header of the screen shows the User ID and User Name. First column lists down all the **modules** in tabular form, second column list down the **transaction groups** and third column list down banking module wise **account number**
10. Navigate and select specific **module** tab (Including viz. Current and Savings Accounts for both Conventional and Islamic, Credit Card, Term Deposit, Loan accounts along with Liquidity Management enabled Real Accounts (including External Accounts if any) and VAM enabled Real and virtual accounts for a Corporate.) in the first column for which account and transaction access mapping maintenance need to be setup.
11. In the second column, There will be one factory shipped **Transaction group** for each module, which will have all transactions and inquiries grouped together.

Note: Factory shipped user group cannot be deleted or modified.

12. Once the transaction groups are created, user can select specific module , along with the transaction groups and can select 'All Accounts' to map the selected transaction group/s to all the existing accounts under the selected party
OR
If transaction groups need to be mapped to specific accounts, then the user needs to select the respective check boxes preceding the account number.
13. Once the user maps the accounts, system will show a tag as '**Modified**' followed by the transaction group name after the account number.
14. To map the new accounts, select appropriate option from **Auto Map** toggle button;
Select **Auto** if you wish to allow access to all future Accounts across banking module.
OR
Select **Manual** if you wish to explicitly map new accounts and transactions.
15. User can **unmap** the transaction groups by selecting accounts and then clicking on Save button to reset their mapping with Group Corporate
16. User can click on **Delete Party Mapping** to delete all the Transaction and account access maintenance done for corporate user in one step.
17. User can drill down his search by applying Filter to search an account basis on Transaction Group, currency, mapping status
18. Click **Save** to save the maintenance, and redirect to the review page.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.

Note: Admin can submit the maintenance after any step. Maintenances saved so far will be sent for approval in one flow. Admin would not be able to make any changes or maintain another step for the same Group Corporate till the time the approval of the wizard is not done.

19. The **Review** screen appears. Verify the details, and click **Submit**.
OR
Click **Edit** to modify the details entered.
OR
Click **Next** to proceed to next step.
OR

Click **Retain Draft** to save all the steps completed so far, and allow Admin resume the same application.

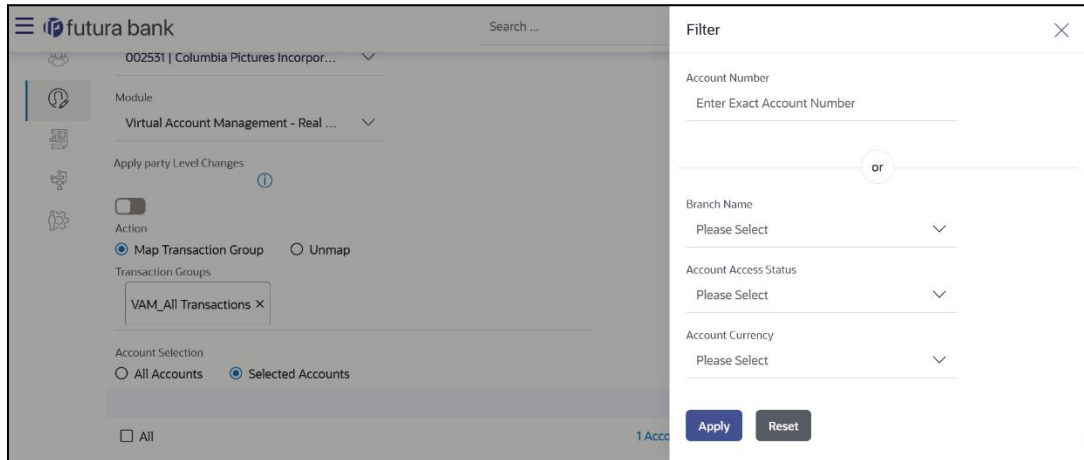

OR

Click **Cancel** to cancel the transaction.

20. The success message of user creation appears along with the transaction reference number

Note: Following flow explains the Drill down options to search by applying Filter to search an account for Virtual Accounts Management & Liquidity Management module.

Virtual Account Management (Real Account) Tab-

To view Virtual Account Management - Real Accounts:

1. In the **Account Number** field, enter the exact Real Account number.
OR
From the **Branch name** drop down, select the Branch name.
OR
From the **Account Access Status** field, select an appropriate status.
OR
From the **Currency** field, select the required currency.
2. Click **Apply** to Apply the filter.
OR
Click **Reset** to reset the entered data.
3. The user can filter through two sections :
 1. On the basis of the Account Number
OR
 2. A combination of branch name, currency filters and other parameters. The user can use these search parameters alone or in a combination to filter search results.

Liquidity Management Tab -

The screenshot displays the 'Group Corporate Onboarding' interface for 'futura bank'. The main content area is titled 'User Account Access' and shows user details: User ID 'LMIN01' and User Name 'Michael Lamb'. Below this is a 'Mapping Summary of Party' section with a dropdown menu showing '***857 | Linked Cust | UBS OBPM 14.4 H...'. The interface is divided into three columns: 'Select Module', 'Select Transaction Groups', and 'Map Account'. The 'Select Module' column lists various account types, with 'Liquidity Management' highlighted. The 'Select Transaction Groups' column has a search bar and shows 'LM_All Transactions' selected. The 'Map Account' column has checkboxes for 'All', '0. A', 'HELO28', and 'HELO28'. A 'Filter' overlay is open on the right, showing fields for 'Account Number', 'Branch Name', 'Account Access Status', and 'Currency', each with a 'Please Select' dropdown. The overlay also includes 'Apply' and 'Reset' buttons. At the bottom of the interface are 'Save', 'Back', 'Next', 'Submit', 'Retain Draft', and 'Cancel' buttons. A copyright notice is visible at the very bottom: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [Security|Information] Terms and Conditions'.

To view Liquidity Management Accounts:

1. In the **Account Number** field, enter the exact Real Account number.
OR
From the **Branch name** drop down, select the Branch name.
OR
From the **Account Access Status** field, select an appropriate status.
OR
From the **Currency** field, select the required currency.
2. Click **Apply** to Apply the filter.
OR
Click **Reset** to reset the entered data.
3. The user can filter through two sections :
 1. On the basis of the Account Number
OR

2. A combination of branch name, currency filters and other parameters. The user can use these search parameters alone or in a combination to filter search results.

Virtual Accounts Tab: -

The screenshot displays the Futura Bank Group Corporate Onboarding interface. The main content area is titled 'Group Corporate Onboarding' and features a sidebar with navigation icons. The 'Virtual Accounts' tab is selected. The main content area is divided into several sections: 'User Account Access' (showing User ID: nehvam30 and User Name: nehal joshi), 'Mapping Summary of Party' (showing ***023 | Rudolf Creations | UBS OBPM 1...), 'Select Module' (showing Modules (10) with a list of account types), 'Select Transaction Groups' (showing VRA_All Transactions), and 'Map Account' (showing a list of accounts with checkboxes). A 'Filter' modal window is open on the right, allowing users to filter search results by Virtual Account Number, Virtual Account Name, Virtual Entity, Branch Name, Account Access Status, Status, and Currency. The modal includes an 'OR' button and 'Apply' and 'Reset' buttons. At the bottom of the interface, there are 'Save' and 'Back' buttons, and a footer with copyright information.

To view Virtual Accounts:

1. In the **Virtual Account Number** field, enter the exact Virtual Account number.
OR
In the **Virtual Account Name** field, enter the Virtual account name.
OR
From the **Virtual Entity** search, select the Virtual Entity name.
OR
From the **Branch name** drop down, select the Branch name.
OR
From the **Account Access Status** field, select an appropriate status.
OR
From the **Status** drop down, select the status.

- OR
From the **Currency** field, select the required currency.
2. Click **Apply** to apply the filter.
OR
Click **Reset** to reset the entered data.
 3. The user can filter through two sections :
 1. On the basis of the Account Number
OR
 2. A combination of branch name, currency filters and other parameters. The user can use these search parameters alone or in a combination to filter search results.

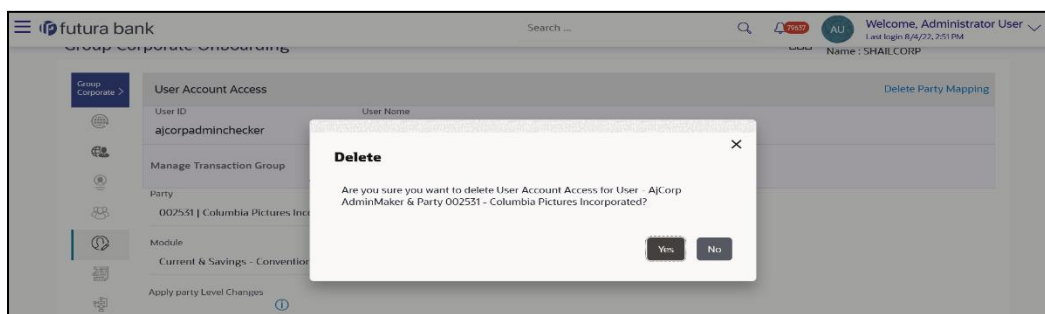

4.6.4 User Account Access – Delete

The Bank Administrator gets a request with the user information of a party for which access details needs to be deleted. As part of this option, account mapping can be deleted for a user.

To delete account and transaction access for the User:

1. In the **User Search** field search users for whom Transaction Account access is to modify.
OR
Select the user from list displayed below.
2. Select the user ID and click on “Map” to navigate to **Account Access summary**.
3. From the **Mapping Summary of Party** dropdown list, select the corporate party id.
4. For a searched user, summary screen will be displayed with total accounts associated with corporate party of that user, status of the accounts mapped for the internet banking for user, modified accounts if any and Auto account mapping status .
5. Click the link under the total **Mapped accounts** or **Modified accounts**, The **User Account Access – View** (Transaction Mapping) screen appears. . The search result according to the search criteria appears.
OR
Click **Cancel** to cancel the transaction.
6. User can click on **Delete Party Mapping** to delete all the Transaction and account access maintenance done for corporate user in one step.

User Account Access – Delete party Mapping

- a. Click **Yes** to delete the party mapping.
OR
Click **No** to cancel the process.
7. Click **Save** to save the maintenance, and redirect to the review page.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.

Note: Admin can submit the maintenance after any step. Maintenances saved so far will be sent for approval in one flow. Admin would not be able to make any changes or maintain another step for the same Group Corporate till the time the approval of the wizard is not done.

8. **The Review** screen appears. Verify the details, and click **Submit**.
OR
Click **Edit** to modify the details entered.
OR
Click **Next** to proceed to next step.
OR
Click **Retain Draft** to save all the steps completed so far, and allow Admin resume the same application.
OR
Click **Cancel** to cancel the transaction.
9. The success message of user creation appears along with the transaction reference number

4.7 **Step 6: User Report Mapping**

The user report mapping maintenance will allow the corporate administrators to map/un-map the report or set of reports to a specific corporate user or at the Group Corporate level. The corporate users can generate and view the reports to which they have an access.

Corporate administrator will be permitted to create, edit or view the report mapping maintenance at Group Corporate Level (Enabling/Disabling reports at GCIF level and updation of auto-mapping flag) only if he has access to all the Party IDs. The corporate administrator will not be permitted to map/un-map the reports to self or to another corporate administrator. However, bank administrator will be able to map the administrative reports to the corporate administrator.

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Corporate Onboarding > Group Corporate Onboarding > Report Mapping tab

4.7.1 **User Report Mapping – Search & View**

Using this option Corporate Administrator can search and view the reports mapped to the user.

To search and view the reports mapping:

1. In the **Map Report to** field, select the appropriate option whose mapped reports to be viewed.

- a. If you select **Group Corporate** option;
 - i. System displays the report mapping summary at group corporate level.
- b. If you select **User** option;
 - i. Enter the search criteria, click **Search**. The **User Report Mapping** screen with search results appears.
OR
Click **Clear** to clear the search parameters.
OR
Click **Cancel** to cancel the transaction.

User Report Mapping – Mapping Summary (User Level)

The screenshot shows the 'User Report Mapping' screen in the 'futura bank' system. The top navigation bar includes 'ATM & Branch Locator', 'English', and 'UBS OBPM 14.4 HEL Branch'. The user is logged in as 'Administrator User' with the last login on 9/2/22 at 12:59 PM. The screen title is 'User Report Mapping'. Below the title, there are tabs for 'Group Corporate' and 'User'. The 'User' tab is selected. The search criteria section includes fields for 'User ID', 'First Name', 'Last Name', 'Email', 'Mobile Number', and 'Party ID'. A 'Search Party Name' field is also present. Below the search criteria, there are buttons for 'Search', 'Cancel', and 'Clear'. A 'Note' box on the right explains the report mapping feature. The search results table shows the following data:

Report ID	Report Name	User Name	Status
SA	sunauto	sunny augusty	✓
SA	Sunchecker	Sun Approver	⚙️
KP	SunCheckerUser	Khushbu Patidar	✓
SM	Sunmaker	Sun maker	✓
KP	SunMakerUser	khushbu Patidar	⚙️

The table has a pagination bar at the bottom showing 'Page 1 of 1 (1-5 of 5 items)' and navigation buttons. At the bottom right, there are buttons for 'Next', 'Submit', 'Retain Draft', and 'Cancel'. The footer contains the copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation]Terms and Conditions'.

Note

The report mapping feature enables you to map reports first at the Group Corporate level and then at the User level. You can map one or all the available reports at Group Corporate level. If 'map to all users' option is enabled, then the reports mapped at Group Corporate level will be automatically mapped to all the users in the Group Corporate. If disabled, you can select the users and map the reports manually.

If there is an exclusive mapping available at User level, then it will continue to hold good provided all the reports mapped to the user are enabled at the Group Corporate level.

OR
Click **Cancel** to cancel the transaction.

4.7.2 User Report Mapping - Create

Using this option Bank Administrator can map the reports to a specific corporate user.

To map the reports to a user:

1. Enter the search criteria, click **Search**. The **User Report Mapping** screen with search results appears.
OR
Click **Clear** to clear the search parameters.
OR
Click **Cancel** to cancel the transaction.
2. Click  of user record, for which you want to map the report/ s. The **User Report Mapping** screen to create the report mapping appears.

User Report Mapping - Create

The screenshot displays the 'User Report Mapping - Create' interface. At the top, there's a navigation bar with 'futura bank' logo, search bar, and user information. Below this, the 'Group Corporate Onboarding' section is active. The 'Report Mapping' tab is selected, showing a table of reports to be mapped. The table has columns for 'Report Id', 'Description', and 'Formats'. The 'Mapping Summary' section on the left shows a list of reports with checkboxes for selection. A 'Note' box on the right provides instructions on how to map reports. At the bottom, there's a toggle switch for 'Do you wish to map Group Corporate Reports with all users?' and buttons for 'Save', 'Next', 'Submit', 'Retain Draft', and 'Cancel'.

OR
Click **Back** to navigate back to previous screen.
7. The success message appears along with the transaction reference number and status of the transaction.

4.8 **Step 7: Workflow Management**

Approval and release workflows are created to support requirements where multiple levels of approval are required in a specific sequence for a transaction/maintenance or release needs to be configured for specific transactions. Each workflow can be configured to have up to N number levels of approval with a specific user or a user group configured at each level. The number of levels can be configured.

Workflows can be created independently and can be attached to a specific transaction/maintenance as part of the Rule configuration. The corporate administrator will be able to create the approval and release workflows.

Since Workflows are maintained at the Group Corporate level, the corporate administrator will be able to add the users/user groups belonging to all parties available under the Group Corporate.

The approver is responsible for giving formal authorization to proceed with a transaction. The approver decides to approve or reject the transaction based on its validity and compliance with regulations.

The checker is responsible for verifying the accuracy and completeness of the transaction details before they are approved or released. The checker reviews supporting documents and ensures all information is correct and complete.

The releaser is responsible for the final step of authorizing and executing the transaction, often after it has been checked and approved. The releaser initiates the actual release of funds or completion of the transaction.

Workflow Type: The workflow can be created for Approval or Release types of flows. Within the '**Approval**' workflow type, user can configure either an approver or checker at each level. The Approval workflow can be setup with a specific user or a user group configured at each level. The number of levels is configurable for 'Approval' workflow type. There is no restriction on the count of checkers/approvers within an 'Approval' workflow type. Within the '**Release**' workflow type, user can configure a releaser workflow. The Release workflow can be setup with a specific user or a user group configured at a single level. Only 1 level can be configured for 'Release' workflow type.

Prerequisites

- Transaction access is provided to Bank Administrator.
- Party preference is maintained.
- Multiple users are maintained under a party or as Bank Administrators
- Approval rule set up for Bank Administrator to perform the actions.
- Necessary user groups are maintained using User Group Management.

How to reach here:

OR
Click **Cancel** to cancel the transaction.

4.8.3 Workflow Management – Create

Corporate Administrator can create approval workflows for corporate users. By default, user can specify minimum one and maximum five levels of approvals as a part of workflow.

Corporate admin can also create workflow for release if the Release Facility is enabled at Group Corporate Level. Admin can specify user or user group who will release the transaction. All the users and user groups created under the Corporate Group will be made available for mapping.

If level type is Approver, the user can provide multiple levels within the workflow. Each level can be specified as an Approver or Checker and for each level (approver or checker), the type can be selected as User or User Group.

Note:

- 1) Release functionality can be configured only for corporate user's transactions.
- 2) Only one level of releaser can be configured in the workflow.
- 3) The same user can act on the same transaction only once in a particular role (checker or approver). For example, the same user can check the same transaction only once as a checker.
- 4) The bank needs to operationally ensure that approver levels are also added. If only checkers are added and no approver is added, then the transaction will be processed without an approver.

Administrator can set either an individual user or user group of a corporate as part of each approval level. Approval type (sequential/non-sequential/no authorization) is defined at the party preference.

Workflow Management – Create

The screenshot shows the 'Group Corporate Onboarding' section of the Futura Bank system. The 'Workflow Management' tab is active, displaying the configuration for a new workflow with code 'DEEAUTHWF1'. The workflow description is also 'DEEAUTHWF1'. The 'Workflow Type' is set to 'Approval'. Under 'Approval Details', there are three levels defined:

- Level 1:** Level Type is 'Checker'. The user group is 'UserGroupRUnit4218'.
- Level 2:** Level Type is 'Approver'. The user group is 'psAugAuth'.
- Level 3:** Level Type is 'Approver'. The user group is 'AugSuppgit'.

Each level has a 'Select User' button and a 'Select User Group' button. At the bottom, there are 'Add' and 'Save' buttons. A 'Workflow Management' sidebar on the right provides instructions on creating workflows with multiple levels of approvals. At the bottom right, there are 'Next', 'Submit', 'Retain Draft', and 'Cancel' buttons.

Last Name	Last Name of the user

- d. From the **User Name / User Groups** list, click & select the approver user name at specific level of approval.
OR
Click  icon to remove user/ user group.

Note: Click  icon to refresh the detail entered.

- e. Click **Add** to add the selected user/ user group at specific level of approval.
OR
Click  icon to remove specific approval level.
4. If you have selected **Release** option in the **Workflow Type** field;
 - a. In the **Level 1** field, select the appropriate user / user group in the **Approval Details** section.
 - b. Click  icon to add appropriate user / user group.
The **User Search** popup appears. All the users and User groups created under the Group Corporate will be available for assigning at various approval levels.
5. Click **Save** to save Approval Workflow.
OR
Click **Back** to navigate back to previous screen.
OR
Click **Next** to proceed to the next logical step.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.
6. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
7. Click on **Add Another** to new Workflow.
OR
Click **Edit** to modify the details entered.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
8. The success message of saving the created approval workflow appears along with the transaction reference number and status.

4.8.4 Workflow Management - Edit

This function enables the Corporate Administrator to update the description of the workflow and also to remove existing and add new approval levels. Edited workflows are applicable for new transactions initiated post workflow update, whereas the previously initiated and pending approval transactions pending will follow the old workflow.

To edit an approval workflow:

1. In the **Workflow Management** screen, enter the search parameters and click **Search**. The **Workflow Management** screen with search results appears based on the searched criteria.
2. Click the **Workflow Code** link to view details of the selected Approval Workflow. The **Workflow Management - View** screen appears.

3. Click **Edit** to edit the workflow. The **Workflow Management - Edit** screen with values in editable form appears.
OR
Click **Cancel** to cancel the operation and navigate back to 'Dashboard'.
OR
Click **Back** to go back to the previous screen.

7. The success message of saving the approval workflow modification appears along with the transaction reference number and status.

Click **OK** to complete the transaction and navigate back to 'Dashboard'.

4.9 **Step 8: Approval Rules**

This function will enable the corporate administrator to set up conditions for approval as well as for Releaser as per the corporate requirements. A rule can be set up for financial, non-financial, non-account financial transactions and for maintenance.

Corporate administrators will not be permitted to maintain administrative approval rules for the same group corporate.

Prerequisites:

- Transaction access is provided to Bank Administrator
- Party preference is maintained for setting up rules for corporates
- Corporate and Administrator users are maintained
- Workflow configuration is maintained if approval required is to be set as 'Yes'
- Approval rule set up for Bank Administrator to perform the actions
- Necessary user groups and approval workflows are maintained

Features supported in application

The Approval Rule maintenances allow the bank administrator to:

- Create Approval Rules
- View Approval Rules
- Edit Approval Rules
- Delete Approval Rules

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Corporate Onboarding > Group Corporate Onboarding > Approval Rules tab

4.9.1 Approval Rules – Summary

Corporate Administrator logs into the system and navigates to the Rules Management screen. User can opt to view the details of existing Approval Rules or can create new approval rule using this screen.

Rules Management – Summary

The screenshot displays the 'Rules Management' screen in the Oracle Futura Bank system. The top header shows the user is logged in as 'Administrator User' with the last login on 11 Feb 09:37 AM. The main content area is titled 'Group Corporate Onboarding' and includes a 'Rules Management' section. This section has search filters for 'Rule Code', 'Rule Description', and 'Rule Applicable for' (with radio buttons for 'Approval' and 'Release'). Below the filters is a table listing rules:

Rule Code	Rule Description	Maker	Approval Required	Change Type	Rule Applicable for
new_rule_3	new_rule_3	test_vamsi_1	No		APPROVAL
new_vam 2	new_vam 2	test_vamsi 1	No		APPROVAL
testrule123	testrule123	All Users	No		APPROVAL
testrule1233	testrule1233	All Users	No		APPROVAL
199501	199501	All Users	No		APPROVAL
new_rule_1	new_rule_1	test_vamsi_1	No		APPROVAL

At the bottom of the table, there is a pagination bar showing 'Page 1 of 1 (1-6 of 6 items)' and navigation controls. An 'Add Another' button is located below the table. On the right side of the screen, there is a 'Rules Management' sidebar with a description: 'Rules Management refers to parameters that drive the enterprise approvals for financial, non-financial, maintenance and administrative transactions. You can search and view all the approval rules maintained for a party. You can edit the rules and update them.' At the bottom right, there are buttons for 'Submit', 'Retain Draft', and 'Cancel'. The footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation] Terms and Conditions'.

Click on **Add Another** to add new Rule.
OR
Click **Cancel** to cancel the transaction.

OR

Click **Back** to navigate back to previous screen.

3. The success message of saving the approval rule modification appears along with the transaction reference number and status.

Click **OK** to complete the transaction and navigate back to 'Dashboard'.

4.9.4 **Approval Rule – Create**

Corporate Administrator can create approval rules for the corporate users. In Approval Rules, Bank Administrator can define the rule conditions for various type of transactions.

Approval rules can be setup based on the following parameters.

- Type of Transaction
 - Financial Transactions
 - This option is used to setup approval rules for the transactions, this involves exchange of money.
 - E.g. Money Transfer, Draft Issuance, Redeem Term Deposit etc.
 - Non Financial Transactions
 - This option is used to setup approval rules for the transaction which are for an account but does not involve exchange of money.
 - E.g. Cheque Book Request, Statement Request, Stop Cheque etc.
 - Maintenance
 - This option is used to setup approval rules for the transaction which are at the party level and not for a specific account
 - E.g. Payee Maintenance
 - Non Account Financial Transactions:
 - This option is used to setup approval rules for the transaction with amount range and no debit account
 - E.g. Initiate LC, Supply Chain Finance related transactions like create Invoice.
 - Initiator
 - Specific User
 - User Group
 - All Users
 - Party ID
 - This option allows to select one or multiple Party IDs
 - Accounts
 - All Accounts based on party selection
 - Select Specific Accounts based on party selection
 - Transactions
 - All Transactions
 - Select Specific Transactions
 - Currency

- Amount Range
- Service Requests
 - All Service Requests
 - Specific Service Request

Specific Category Administrator can create multiple approval rules for corporate users. In a scenario when a transaction is initiated and multiple rules are applicable as per set conditions, then the most applicable rule amongst all the resolved rules is applied for approval.

User can further define if for a condition, the transactions should be auto approved (which means there is no approval workflow and the transactions gets approved as soon as initiator submits the transactions) or should follow a set approval workflow and should get approved by the defined set of approvers. The same is achieved by attaching a workflow maintained for the corporate party.

To create an approval rule for corporate user:

1. In the **Rule Type** field, select the appropriate transaction rule type.
2. In the **Rule Code** field, enter the code.

3. In the **Rule Description** field, enter the rule name.
4. In the **Rule Applicable For** field, specify the rule applicable for Release or Approval.
5. From the **Initiator Type** field, click appropriate user / user group and select the user/ user group or Select 'All Users'.
6. Click  icon to add appropriate user / user group. The **Search User to Copy Mapping** popup appears.

Approval Rules – Search User

Field Description

Field Name	Description
Search	
User ID	To search the user with the user ID. Partial search is allowed.
First Name	Allows to search based on first name or given name of the user.
Last Name	Allows to search based on last name/ surname of the user.
Search Results	
User ID	User ID of the user.
Full Name	Full Name of the user.

- a. From the **User Name / User Groups** list, click & select the user ID.
OR
Click  icon to remove user/ user group.

Note: Click  icon to refresh the detail entered.

7. Click **Add** to add the selected user/ user group as a initiator.
OR
Click  icon to remove specific initiator.
8. From the **Party ID** list, click and select one or multiple Party IDs to be mapped to the selected Group Corporate ID.
9. From the **Transaction** list, select the transactions to be mapped to the rule.
 - a. If you have selected **Select Specific Transactions** option, select one or multiple transactions within modules to mapped to the selected Group Corporate ID.

Note: Click  icon to search and add specific transaction from the search lookup.

10. If you have selected **Financial** option in the **Rule Type** field;
 - a. From the **Accounts** list, select the appropriate accounts.
 - i. If you have selected **Select Specific Accounts** option;
 1. Click the Party ID whose accounts needs to be mapped, and then select one or multiple accounts to mapped to the selected Group Corporate. System displays the count of accounts selected.

Note: Click  icon to search and add specific account from the search lookup.

- b. From the **Currency** list, select the appropriate account currency.
11. If you have selected **Financial** and **Non Account Financial** option in the **Rule Type** field;
 - a. In the **Amount Range** section, enter the appropriate amount.
12. In the **Workflow Details** section, select whether approval is required for the mapped transactions.
 - a. If you select **Yes** option,
 - i. In the **Approval Type** field, select approval workflow type.
 - ii. From the **Workflow** list, select the appropriate Workflow.
13. Click **Save** to save approval rule.
OR
Click **Back** to navigate back to previous screen.
OR
Click **Submit** to submit the steps performed so far for approval.
OR
Click **Retain Draft** to save the details entered as draft.
OR
Click **Cancel** to cancel the transaction.
14. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click on **Add Another** to Add The **Approval Rule**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.

15. The success message of saving the created approval rule appears along with the transaction reference number and status.

Send to Modify

When the maker sends the Group Corporate Onboarding maintenance for approval, the approver will have an option to send the maintenance back for modification.

Approver dashboard is available for Bank administrator users whose main responsibility is of approving the transactions initiated by Bank administrator in maker role. Approver has the responsibility to ensure correctness of the maintenances as per the bank and corporate mandate, to ensure speedy and accurate processing.

When the transaction is sent back for modification, then all the users who have access to perform modifications on GCIF onboarding will be able to view the maintenance in their activity log. Any of the users can pick up the transaction and make the necessary modification.

Note: During **Send to Modify**, the comments capture by approver are optional. the bank needs to handle operationally to ensure that specific comments are captured during send for modification.

1. Login to OBDX internet banking application as an approver.
2. Navigate **Group Corporate Onboarding** screen.

Send to Modify

The screenshot shows the 'Review Group Corporate Profiling' interface. At the top, there's a header with 'Submission Status' and 'Group Corporate ID: 000654 Name: ACME Group'. Below the header are four buttons: 'Approve', 'Reject', 'Send to Modify', and 'Lock'. The main content area is titled 'Group Corporate Name: newGclftestYY'. It features a table of 'Bank Roles' with checkboxes for various roles. The roles listed are: checkerReliance1, Viewer (checked), NonCustomerChecker, Tst123, dcglobalCASA, AllCorpRolesExceptPayments, CorporateGlobalRoleTest, COXXC, ISCHECKER, CorporateAdminChecker, CorporateAdminMaker, NonCustomerViewer, tabissue, TestTestRTM, COXXCggg, corpGlobalTest, testAbilMakerRoleNew, ISVIEWER, Checker (checked), Maker, NonCustomerMaker, corpAccessibleRoleMaker, ddfdf, rolechecktabs, dcltetsingcorp, Islamic_Maker, and GLOBALHEADCEO.

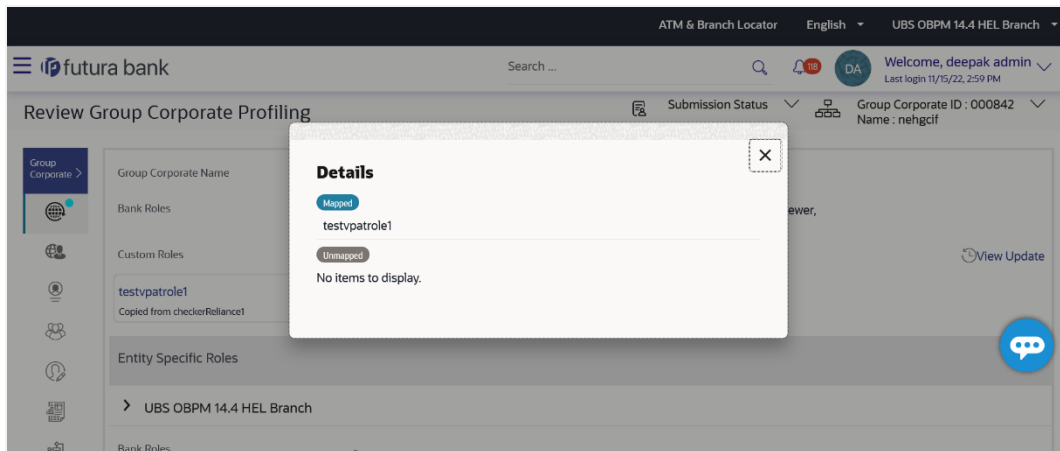

3. Click **Send to Modify** to send the Group Corporate Onboarding maintenance back to maker for modification. A popup appears.
4. Click **Send to Modify** option.
5. Enter the comments while sending for modification to specify the reason for sending the maintenance for modification.
6. Click **Save** to save the comments and send the maintenance to maker for modification.
OR
Click **Clear** to reset the data entered.
7. Click **Send and Back** to send back to maker.
8. Now login to OBDX internet banking application as a maker.

9. View the Group Corporate Onboarding maintenance in Activity Log, and make the necessary modifications and send back to approver.
10. On re-login as approver, then the modified data will be highlighted for the approver to understand the changes.

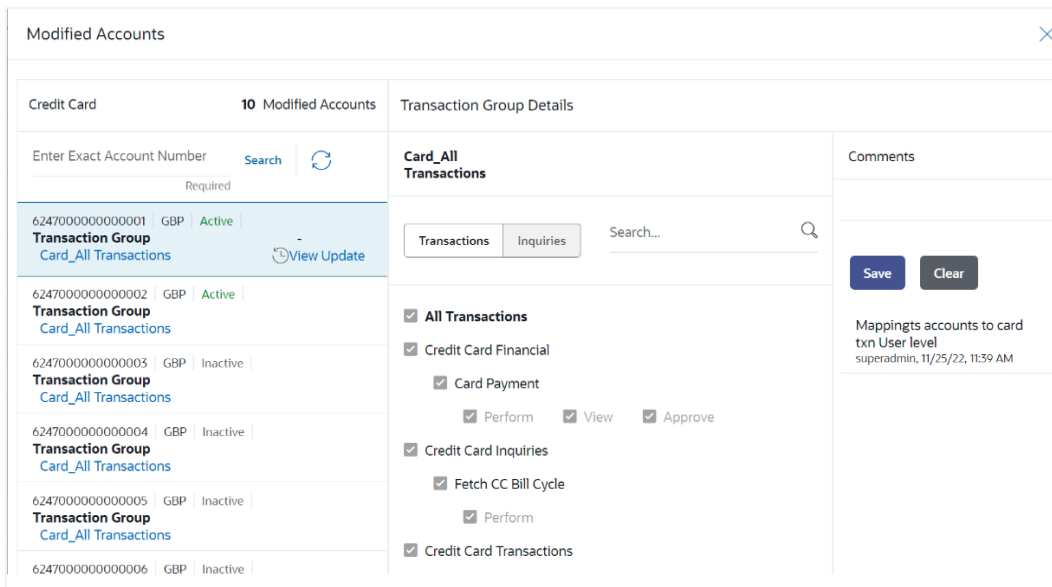

Note:

- 1) The modification will be shown post comparison with the last “approved” value only.
- 2) Click on the **View Updates** to view the new changes in case the field has multiple values.

View Updates

Modified data with highlight

11. Click on highlighted data to view the modifications.
12. Verify the changes and approve the transaction.

FAQ

Step 1: Group Corporate Profiling

1. Can administrator modify Bank role before assigning to Group Corporate?

No, if the Administrator assigns a Bank role to Group Corporate, all the entitlements available in the selected roles will be assigned at Group Corporate level. Any modification required in the bank roles can be done using Role transaction mapping screen. If in future bank assigns a new transaction access in the bank role (from Role transaction mapping screen), it will automatically be given to the all the Group Corporates having that roles mapped

2. Is mapping of custom role is mandatory?

No. Administrator can select and assign the roles available at enterprise level as is, or he can create a custom role as per his requirement for the Group corporate by cloning a role available at Group Corporate level.

Admin will be able to assign a mix of bank roles and custom roles to a Group Corporate.

3. Are the Customize bank roles will be applicable across the application?

No, The Customize bank role will be available only for the Group Corporate for which it was created. Any changes done in the bank roles, from which this custom role has been created, will not have any impact on the custom created roles

4. What is sequential and parallel type of approval flow?

Under Sequential approval flow, the approval can be done only in the sequence as mentioned in approval workflow. It is "Non-Sequential" type of approval flow, which does not follow any specific sequence. Any user (who is part of the approval flow) from any approval level can pick up the transaction/maintenance and approve it. This will be applicable across Group Corporate

5. What is the approval currency?

Approval Currency is the preferred currency for setting up the approval rules.

6. How can the user define Sequential or Parallel approval flow at the Corporate Level and Rule Level?

During Group Corporate Profiling setup, the user has an option to select the workflow preference at Corporate Level or Rule Level. If Corporate Level is specified, then the approval flow (Sequential/Parallel/No Approval) can be captured on the same screen. If Rule Level is selected, then the approval flow (Sequential/Parallel) must be specified during rule creation.

Step 2: Party Account Access

1. Is it necessary to setup Party Account Access Management before setting up User Account Access for Group Corporate?

Yes. For the Group Corporate, the party account access setup must be done before the user level mapping of accounts and transactions

2. What is the significance of Transactions or Inquiry Group?

Transaction groups are for the purpose of grouping transactions and maintaining access in Account Access screens.

There will be one factory shipped Transaction group for each module, which will have all transactions and inquiries grouped together. Factory shipped user group cannot be deleted or modified.

A new group can also be created by cloning/copying an existing transaction group. Deletion of custom transaction group will be allowed.

Transaction groups of one Group Corporate will be available for selection only for that Group Corporate

3. Can we setup Party Account Access for multiple corporate parties associated with Group Corporate in single flow?

Yes, All the party ID mapped under Group Corporate will be listed in the dropdown. Admin can select one party at a time and setup the party account access for the same. Once he is done he can follow the same flow by selecting another party for Account maintenance before final submission.

OR

He can save the application in draft for further modification.

4. What is the significance of Auto and Manual option in 'Map Accounts'?

This feature allows the administrator to configure access policies for accounts and associated transactions, which may get added subsequently in the future.

Auto: Gives access to the newly added accounts and transactions of the party as soon as the account is opened. This option can be selected whenever bank administrator wishes to provide access by default

Manual: Denies the newly added accounts and transactions by default. This is to ensure that access to accounts and transactions is provided only upon receiving specific instructions from corporates

5. Will Party Account Access – Deletion for a party (Own/Linked) lead to automatic deletion of User Account Access?

Yes. Deletion of account access for a party will lead to automatic deletion of access for the users of that party.

Step 3: User Onboarding

1. Who can create / update the user at Group Corporate level?

System administrator and bank administrator can create or edit the users.

2. Does the application allows admin to create new user by cloning the exiting one?

Yes. An option to create a new user from by copying an existing user is provided.

If 'Copy' is selected, admin will be able to select an already created user (user created under the same Group Corporate) and screen will be displayed the copied data for all the sections except Personal and Contact information. Admin will be require to fill Personal and Contact information and he can make the changes in the copied data as well.

3. Can one assign multiple Application roles to a user?

Yes, multiple Application roles can be assigned to the user. All the Roles (both Enterprise and Customer) mapped at the Group Corporate level will be available for selection while setting up the user management.

4. What is the significance of primary and Accessible parties?

Corporate users at Group Corporate level will have one primary party and multiple assessable parties for each entity. Show primary party selected on the top will by default as selected under Primary Party for that Entity.

6. Can I update the limit package associated with a user, If Yes, what will happen to the in-flight transactions?

Yes, new limit package can be mapped to a user. Limits get applied from an immediate effect if the effective date is less than or equal to current date. And if the effective date is future date, the limit package will be applied from the date available in the package.

7. If I update the child role associated to a user, what will happen to the in-flight transactions?

In case of any update of child roles mapped to the user as edit user functionality, the privileges associated with new child roles get applied to the user with an immediate effect. So if any transaction is pending with approver for approval, user can view and approve those transactions only if checker role is mapped to him. As soon as checker role is unmapped, then user will not be able to view and approve the transactions which were pending for his approval.

Step 4: User Group Maintenance

1. Is the user selection for user group maintenance is depends on the parent party?

No, user selection is not depend upon the parent corporate party. Application will list down the entire user associated with group corporate for user group creation irrespective of parent party.

2. Can a user be the part of multiple user groups created under a Group Corporate?

Yes, same user can be part of multiple user groups under group corporate. Whereas, User Group would be allowed to create even without adding a single user

3. Can I delete an existing user group?

No, user groups cannot be deleted but can be edited. Administrator can add new users and remove existing users of the user group.

Step 5: User Account Access

1. If user is associated with one parent corporate party and multiple accessible parties, then will he be allowed to setup account access for the corporate parties in single flow?

Yes, All the party ID mapped under Group Corporate and associated with corporate user will be listed in the dropdown. Admin can select one party at a time and setup the user account access for the same .Once he is done he can follow the same flow by selecting another party for user Account maintenance before final submission.

OR

He can save the application in draft for further modification.

2. Will Party Account Access – Deletion for a party lead to automatic deletion of User Account Access?

Yes, deletion of account access for a party will lead to automatic deletion of access for the users of that party.

3. If I remove access of account(s) and transaction(s) for a party, will it lead to automatic access removal for the users of that party?

Yes, access removal at party level for an account and/or transaction will automatically remove access at user level of the selected party.

4. Have mapped/edited/deleted user account access for a party but it is not reflecting in the system even after a successful maintenance save message?

There is a possibility that the maintenance is saved but the status is 'Pending Approval'. For the maintenance, if there is an approval required then the changes will reflect only once the approver(s) approve the submitted request. If the setup does not require an approval workflow or is self / auto approved, then the same will reflect immediately.

Step 6: User Report Mapping

1. What is the significance of user report mapping?

The user report mapping maintenance allows the Bank Administrators to map the report or set of reports to a specific corporate user. The corporate users can generate and view the reports to which they have an access.

2. Is the user selection for user report mapping maintenance is depends on the parent party?

No, user selection is not depend upon the parent corporate party. Application will list down the entire user associated with group corporate for user report mapping irrespective of parent party.

Step 7: Workflow Management

1. Is the user selection for workflow maintenance is depends on the parent party?

No, user selection is not depend upon the parent corporate party. Application will list down the entire user associated with group corporate for workflow maintenance irrespective of parent party.

2. What is approval workflow maintenance?

Approval workflows are created to support requirements where multiple levels of approval are required in a specific sequence for a transaction/maintenance. Each workflow can be configured to have up to five levels of approval with a specific user or a user group configured at each level.

3. How many approval levels can I set up in the system?

Administrator can set up minimum one and maximum five levels of approvals as a part of approval workflow.

4. Can I get the list of users associated with a group from workflow management screen?

Yes, list of the users associated with a group can be viewed using workflow management screen.

Step 8: Approval Rules

1. Is the user selection for workflow maintenance is depends on the parent party?

No, user selection is not depend upon the parent corporate party. Application will list down the entire user associated with group corporate for approval -rules maintenance irrespective of parent party.

2. How many approval levels can I set up in the system?

Administrator can set up minimum one and maximum five levels of approvals as a part of approval workflow. Whereas, maximum levels of approvals that the user can set is configurable as Day0.

3. What happens if the transaction is initiated in the currency in which approval rule is not maintained?

If the rule is not maintained in specific currency, then the application will check the preferred currency selected while setting up the group corporate.

5. User Management

User Management function enables Corporate Administrator to view user details along with their login credentials for channel banking access. This module facilitates channel banking access to corporate users of group corporate that the Corporate Administrator belongs to.

Note: User is created first in IDCS and then onboard in OBDX.

Prerequisites:

- Application roles and child roles are maintained
- Transactions are associated with each Application role
- Corporate Administrator is maintained for a GCIF.
- Transaction (User Management) access is provided to Corporate Administrator.
- Approval rule set up for Corporate Administrator to perform the actions.
- Party Preference is maintained and GCIF onboarding is complete for a GCIF

Features supported in application

The User Management module allows the Corporate Administrator to:

- Search User

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu> User Management

5.1 User Management – Search/ View User

Using this option, Corporate Administrators can search and view details of the existing users. Administrator can search only those users who are associated with the same GCIF mapped to him.

Corporate administrators can also change the user status or the channel access permission for a user using this screen.

Default search is available with User Name, whereas user can be searched by providing other details also.

User Management - Search User

The screenshot shows the 'User Management' page in the Futura Bank system. At the top, there is a navigation bar with the Futura Bank logo, a search bar, and a user profile icon labeled 'MA'. Below the navigation bar, the page title 'User Management' is displayed. The main content area contains a search form with the following fields: 'User Type' (a dropdown menu currently showing 'Corporate User'), 'Username' (a text input field), and a link 'More Search Options' with a downward arrow. Below these fields are three buttons: 'Search', 'Cancel', and 'Clear'. On the right side of the page, there is a red notification icon with a '1' next to it.

Field Description

Field Name	Description
User Type	User type is always defaulted to 'Corporate User'.
User Name	Enter the user ID /User name. Partial search is allowed. The User ID is case insensitive.

To search and view details of the existing users

1. Click the **More Search Options** link; screen will be displayed with additional user search criteria.

User Management – Search User - More Search Options

The screenshot shows the 'User Management' page in the Futura Bank system, displaying the 'More Search Options' form. The form includes the following fields: 'User Type' (a dropdown menu currently showing 'Corporate User'), 'Username' (a text input field), 'First Name' (a text input field), 'Last Name' (a text input field), 'Email' (a text input field), 'Mobile Number' (a section with a 'Code' dropdown and a 'Mobile Number' text input field), and 'Channel Access' (a dropdown menu currently showing 'Please Select'). Below these fields are three buttons: 'Search', 'Cancel', and 'Clear'. At the bottom of the form, there is a link 'Less Search Options' with an upward arrow.

Field Description

Field Name	Description
User Type	User type is always defaulted to 'Corporate User'.
User Name	To search the user with the user name/user ID. Partial search is allowed. The User ID is case insensitive.
First Name	Allows to search based on first name of the user.
Last Name	Allows to search based on last name of the user.
Email	Allows to search based on email id of the user.
Mobile Number	Allows to search based on mobile number of the user. <div><u>Note: User can select international subscriber dialing (ISD) code (country code) while selecting mobile number.</u></div>

2. **Enter** the search criteria, click **Search**.
The search results appear on the **User Management** screen based on the search parameters.
OR
Click **Cancel** to cancel the operation and navigate back to 'Dashboard'.
OR
Click **Clear** to clear the input search parameters.

User Management - Search Results

The screenshot shows the 'User Management' interface in the Futura Bank system. It features a search bar at the top right and a 'User Management' header. Below the header, there's a search filter section with 'User Type' set to 'Corporate User' and a 'Username' field containing 'a'. A 'More Search Options' dropdown is also present. Below the search filters, there's a 'Search Results' section displaying a table of users. The table has four columns: Full Name, User Name, Status, and Access. The first user is Poonam Singhania with username nrcorpadmaker, status Unlocked, and access Granted. The second user is Mustu Auto with username MustuCorpAdmAuto, status Unlocked, and access Granted. The third user is Amit Jadhav with username rejectmaker, status Unlocked, and access Granted. The fourth user is Praveen T with username praveent, status Unlocked, and access Granted. The fifth user is Rahul Kandula with username rahulreddykandulacorpuser1, status Unlocked, and access Granted. The sixth user is Rahul Kandula with username rahulreddyresworkcorpuser6, status Unlocked, and access Granted. The seventh user is Rahul Kandula with username rahulreddyresworkcorpuser1, status Unlocked, and access Granted. The eighth user is Rishad K with username rishadk2, status Unlocked, and access Granted. The ninth user is Rahul Kandula with username newcomponentfinaltesting5, status Unlocked, and access Granted. The tenth user is Pratibha with username Pratibha_321, status Unlocked, and access Granted. At the bottom of the table, there's a pagination control showing 'Page 1 of 2' and a 'Cancel' button.

Full Name	User Name	Status	Access
Poonam Singhania	nrcorpadmaker	Unlocked	Granted
Mustu Auto	MustuCorpAdmAuto	Unlocked	Granted
Amit Jadhav	rejectmaker	Unlocked	Granted
Praveen T	praveent	Unlocked	Granted
Rahul Kandula	rahulreddykandulacorpuser1	Unlocked	Granted
Rahul Kandula	rahulreddyresworkcorpuser6	Unlocked	Granted
Rahul Kandula	rahulreddyresworkcorpuser1	Unlocked	Granted
Rishad K	rishadk2	Unlocked	Granted
Rahul Kandula	newcomponentfinaltesting5	Unlocked	Granted
Pratibha	Pratibha_321	Unlocked	Granted

Field Description

Field Name	Description
Search Results	
Full Name	First name and last name of the user.
User Name	User Name of the user.
Status	Status of the user, Locked or Unlocked.
User Access	Indicates whether channel access is granted. Click  to grant / revoke access rights.
Note: Channel access feature will only be available with DB authenticator as Identity Management System.	

If the search results are more than five, pagination will be enabled.

3. Click the **User Name** link to view the user details.

To view the user details:

4. In the **User Management - Search Results** section, click the **User Name** link of the record for which you want to view the details. The **User Management - View** screen appears.

User Management - Change user status

This section allows you to lock and unlock a user.

To lock or unlock a user:

1. Enter the search criteria, click **Search**.
The search results appear on the **User Management** screen based on the search parameters.

Lock / Unlock User

The screenshot shows the 'User Management' page in the Futura Bank system. At the top, there's a search bar with 'a' entered. Below it, the 'Search Results' section displays a table of users. The table has columns for Full Name, Username, Status, and Channel Access. The 'Status' column shows 'Unlocked' for all users, with a lock icon next to each entry. The 'Channel Access' column shows 'Granted' for all users.

Full Name	Username	Status	Channel Access
Poonam Singhania	nzcorpadminmaker	Unlocked	Granted
Mustu Auto	MustuCorpAdminAuto	Unlocked	Granted
Amit Jadhav	rejectmaker	Unlocked	Granted
Praveen T	praveent	Unlocked	Granted
Rahul Kandula	rahulreddykandulacorpuser1	Unlocked	Granted
Rahul Kandula	rahulreddyresworkcorpuser6	Unlocked	Granted
Rahul Kandula	rahulreddyresworkcorpuser1	Unlocked	Granted
Rishad K	rishadk2	Unlocked	Granted
Rahul Kandula	newcomponentfinaltesting5	Unlocked	Granted
Pratibha	Pratibha_321	Unlocked	Granted

- Click  in the **Status** column to lock / unlock a user. The **User Status Maintenance** window appears.

User Status Maintenance

The screenshot shows the 'User Status Maintenance' dialog box. It has a 'Lock Status' field with a slider control. The slider is currently set to 'Unlocked'. There are 'Submit' and 'Cancel' buttons at the bottom right of the dialog box.

- In the **Lock Status** field move the slider to lock / unlock a user.
- In the **Reason** field enter the appropriate description.
- Click **Submit** to save.
OR
Click **Cancel** to close.

User Management - Channel Access Permission

This section allows the administrator to grant / revoke channel access for a user. In case administrator changes the channel access from grant to revoke; user will not be able to access his channel banking.

Note: Channel Access feature is only available and displayed if the Application is configured on DB Authenticator as Identity Management system.

To grant or revoke channel access:

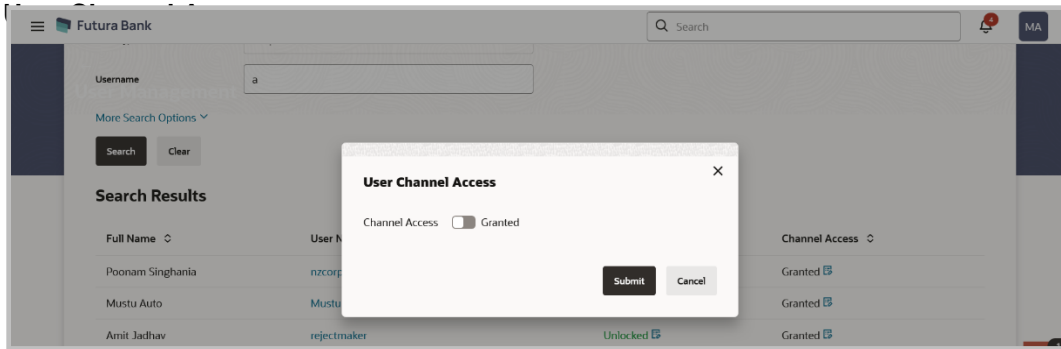

1. Enter the search criteria, click **Search**.
The search **results** appear on the **User Management** screen based on the search parameters.

Channel Access

The screenshot shows the 'User Management' interface of Futura Bank. At the top, there is a search bar with the text 'Search'. Below it, the 'User Management' title is displayed. The main area contains a search form with 'User Type' set to 'Corporate User' and 'Username' set to 'a'. There are 'Search' and 'Clear' buttons. Below the search form, the 'Search Results' section displays a table of users. The table has four columns: Name, Username, Status, and Channel Access. The 'Status' column shows 'Unlocked' with a lock icon, and the 'Channel Access' column shows 'Granted' with a lock icon. The table lists 10 users. At the bottom, there is a pagination bar showing 'Page 1 of 2 (1-10 of 20 Items)' and a 'Cancel' button.

Name	Username	Status	Channel Access
Poonam Singhania	nucorpadmaker	Unlocked	Granted
Mustu Auto	MustuCorpAdmAuto	Unlocked	Granted
Amit Jadhav	rejectmaker	Unlocked	Granted
Praveen T	praveent	Unlocked	Granted
Rahul Kandula	rahulreddykandulacorpuser1	Unlocked	Granted
Rahul Kandula	rahulreddyreworkcorpuser6	Unlocked	Granted
Rahul Kandula	rahulreddyreworkcorpuser1	Unlocked	Granted
Rishad K	rishadk2	Unlocked	Granted
Rahul Kandula	newcomponentfinaltesting5	Unlocked	Granted
Pratibha	Pratibha_321	Unlocked	Granted

2. Click  in the **Channel Access** column to grant / revoke channel access to a user. The **User Channel Access** screen appears.

3. In the **Channel Access** field move the slider to grant / revoke channel access rights for a user.
4. In the **Reason** field enter the appropriate description.
5. Click **Submit** to save.
OR
Click **Cancel** to close.

FAQ

1. Can I edit the party id mapped to the user?

No, party ID mapped to the user cannot be edited by the Corporate Administrator.

2. When does the system update a user status as 'locked'?

When administrator needs to temporarily block access for any user, 'Lock user' functionality can be used. Also if there are multiple unsuccessful login attempts, the user's status will get updated as 'Locked'.

3. Can one assign multiple Application roles to a user?

Yes, multiple Application roles can be assigned to the user. e.g. Corporate user is acting as maker of few transactions and approver of few other transactions. This can be done using Group Corporate Onboarding Menu

4. What are the different child roles available out of box?

Following are the child role associated with corporate user role out of box.

User Type	Application Roles
Corporate User	Maker
	Checker
	Viewer

User Type	Application Roles
	Corporate Admin Maker
	Corporate Admin Checker

5. **If a user's User ID is locked and he/she has requested for a reset password, does the admin needs to unlock it separately ?**

No, the user ID will automatically get unlocked at the time of resetting the password by Admin.

6. Limits Definition

Limits are defined by the bank to set up amount and duration based restrictions on the transactions that can be carried out by the user.

As part of limits definition maintenance, following limits can be defined:

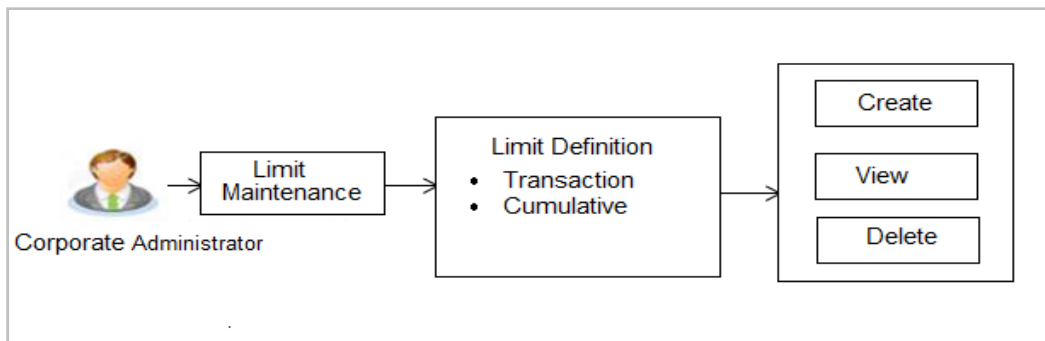

- Transaction: It is the initiation limit with minimum and maximum amount defined
- Cumulative: It is the collective transaction amount limit for all the transactions that can be performed during a day and maximum number of transaction in a day

Limit package maintenance allows the administrator to map these definitions to every transaction.

Pre-Requisites

- Transaction access is provided to Corporate Administrator.
- Approval rule set up for Corporate Administrator to perform the actions.

Workflow

Features supported in application

Using this option Corporate Administrator can perform the following actions:

- Search/ View Limits
- Create Limit
- Delete Limits

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Limits > Limits Definition

6.1 Limits Definition - View

Using this option, Administrator can search for particular limit based on different search parameters. The search results displays a limit list based on different search filters selected.

To search and view limits:

1. In the **Limits Definition** screen, enter the search parameters and click **Search**. The **Limits Definition** screen with search results appears based on the searched criteria.
OR
Click **Cancel** to cancel the search process.
OR
Click **Clear** to reset the search parameters.

Limits Definition - Search

The screenshot shows the 'Limit Definition' search interface in the Futura Bank system. The interface includes search filters for Limit Code, Limit Description, Limit Type (Transaction, Cumulative, Cooling Period), and Updated On (From Date, To Date). A table displays search results with columns: Limit Code, Limit Description, Limit Type, and Updated On. The table lists various limits like SGAJTL3, TLAJEURSz, TransactionLimit2, etc. A 'Create' button is visible on the right side of the interface.

Limit Code	Limit Description	Limit Type	Updated On
SGAJTL3	SGAJTL3	Transaction	08 Apr 2020
TLAJEURSz	TLAJEURSz	Transaction	08 Apr 2020
TransactionLimit2	Transaction Limit 2	Transaction	08 Apr 2020
TransactionLimit4	Transaction Limit 4	Transaction	08 Apr 2020
TLAJINRSz	TLAJINRSz	Transaction	08 Apr 2020
TransactionLimit1	Transaction Limit 1	Transaction	08 Apr 2020
TransactionLimit3	Transaction Limit 3	Transaction	08 Apr 2020
AJTLz	AJTLz	Transaction	08 Apr 2020
SGAJTL	SGAJTL	Transaction	08 Apr 2020
AJSGSRTL	AJSGSRTL	Transaction	08 Apr 2020

Field Description

Field Name	Description
Limit Code	Name/unique identifier of the limit.
Limit Description	Description of the limit.

Field Name	Description
Limit Type	Types of limits are: <ul style="list-style-type: none"> Transaction – It is the initiation limit with minimum and maximum amount Cumulative – It is a duration based limit with maximum amount and number of transactions for a day / month
Search Results	
Limit Code	Name/unique identifier of the limit.
Limit Description	Description of the limit.
Limit Type	The limit type are: <ul style="list-style-type: none"> Transaction – It is the initiation limit with minimum and maximum amount Cumulative – It is a duration based limit with max amount

- Click the **Limit Code** of the record for which you want to view the details. The **Limits Definition -View** screen appears.

Limits Definition - View

The screenshot displays the 'Limits Definition - View' interface for Futura Bank. The main content area features a table with the following details:

Limit Code	SGAJTL3
Limit Type	Transaction
Limit Description	SGAJTL3
Currency	EUR
Minimum Amount	€0.01
Maximum Amount	€110,000.00

At the bottom left of the table, there are two buttons: 'Cancel' and 'Back'. To the right of the table, a 'Limit Details' box contains a warning message: 'You may delete the definitions, by clicking on Delete button. Ensure this definition is not in user before you proceed. You can choose to go back to the previous screen or cancel the operations.'

The top navigation bar includes 'Administrator Maker', 'ATM/Branch', and 'English' dropdown menus. A user greeting 'Welcome, Sweta Corpadmin' and 'Last login 11 May 09:32 AM' is displayed on the right.

- Click **Delete** to delete the limit.
OR
Click **Cancel** to cancel the transaction and navigate back to dashboard.
OR
Click **Back** to navigate to the previous screen.

6.2 Limits Definition - Create

Using this option, Corporate Administrator can create a limit as required.

To create a transaction limit:

1. In the **Limits Definition** screen, click **Create**. The **Limits Definition - Create** screen with **Transaction** tab appears.

Limits Definition - Transaction - Create

The screenshot displays the 'Limits Definition - Transaction - Create' interface. The form includes fields for Limit Type (Transaction), Limit Code (Limit 001), Limit Description (Corporate Limit 10), Currency (GBP), Minimum Amount (£1.00), and Maximum Amount (£10,000,000.00). Navigation buttons (Save, Cancel, Back) are at the bottom left. A right-hand panel titled 'Create Limit Definition' provides instructions and lists three types of limits: Transaction (initiation limit), Cumulative (collective amount and transaction count), and Cooling Period (for new payees). The top navigation bar shows the user 'Administrator Maker' and the bottom footer contains the Oracle copyright notice.

Field Description

Field Name	Description
Limit Type	The limit type for selection are: <ul style="list-style-type: none">• Transaction – It is the initiation limit with minimum and maximum amount• Cumulative – It is a duration based limit with maximum amount and number of transactions for a day / month
Limit Code	Name/unique identifier of the limit.
Limit Description	Description of the limit.
Currency	The currency to be set for the limit.
Minimum Amount	The minimum amount for a transaction in local currency.
Maximum Amount	The maximum amount for a transaction in local currency.

2. In the **Transaction** tab screen, enter the code in the **Limit Code** field.

3. In the **Limit Description** field, enter the description of the limit.
4. From the **Currency** field, select the appropriate currency for the limits.
5. In the **Minimum Amount** and **Maximum Amount** field, enter the minimum and maximum amount for a transaction in local currency.
6. Click **Save** to save the created limit.
OR
Click **Cancel** to cancel the transaction and navigate back to dashboard.
OR
Click **Back** to navigate to previous screen.
7. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to previous screen.
8. The success message of transaction submission appears.
Click **OK** to complete the transaction.

Limits Definition - Cumulative - Create

The screenshot shows the 'Limit Definition' form in the Futura Bank system. The 'Cumulative' tab is selected under 'Limit Type'. The form fields are as follows:

- Limit Type:** Transaction, **Cumulative**, Cooling Period
- Limit Code:** Limit 002
- Limit Description:** Limit 02
- Frequency:** ☐ Daily, ☒ Monthly
- Currency:** GBP
- Cumulative Transaction Amount:** £100,000,000.00
- Maximum Transactions:** Per Month, 100

On the right, the 'Create Limit Definition' sidebar provides instructions: 'You can define following types of limits on the transactions' - Transaction (Minimum and maximum transaction initiation limit), Cumulative (Collective amount of a transaction and total number of transaction limit), and Cooling Period (Limits for newly added payees). It also states: 'Map these limit definitions to a transaction as a part of limit package.'

At the bottom of the form are buttons for 'Save', 'Cancel', and 'Back'.

Field Description

Field Name	Description
Limit Type	Limit type for selection are: <ul style="list-style-type: none"> Transaction – It is the initiation limit with minimum and maximum amount Cumulative – It is a duration based limit with maximum amount and number of transactions for a day / month
Limit Code	Name/unique identifier of the limit.

Field Name	Description
Limit Description	Description of the limit.
Frequency	<p>The specific duration for which the limits can be utilized and available.</p> <p>The options are:</p> <ul style="list-style-type: none"> • Daily • Monthly
Currency	The currency to be set for the limit.
Cumulative Transaction Amount	The collective amount in local currency for transactions that can be performed in a day.
Maximum Transactions	The maximum number of transactions that can be performed per day.

To create a cumulative limit:

1. Click the **Cumulative** tab. The **Limits Definition - Create** screen with **Cumulative** tab appears.
2. Enter the relevant information in **Limit Code** and **Limit Description** field.
3. From the **Frequency** field, select the appropriate duration for the limits.
4. From the **Currency** field, select the appropriate currency for the limits.
5. In the **Cumulative Transaction Amount** field, enter the collective amount of transaction in local currency.
6. In the **Maximum Transactions** field, enter the value for maximum number of transactions.
7. Click **Save** to save the created limit.
OR
Click **Cancel** to cancel the transaction and navigate back to dashboard.
OR
Click **Back** to navigate to previous screen.
8. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to previous screen.
9. The success message of transaction submission appears.
Click **OK** to complete the transaction.

6.3 Limits Definition - Delete Limit

Using this option, Corporate Administrator can delete a created limit. Limit definition can be deleted only if it is not in use (available as a part of any limit package).

To delete a limit:

1. In the **Limits Definition** screen, enter the search parameters and click **Search**. The **Limits Definition** screen with search results appears based on the searched criteria.
OR
Click **Cancel** to cancel the search process.
OR
Click **Clear** to reset the search parameters.

Limit Definition

Transaction limits can be defined to set up amount and duration based restrictions on transactions that can be carried out by the customers. This maintenance allows you to search and view limit definitions. Also you can create new and delete existing limit definitions. Search limit definitions based on different search parameters and the matching result will be listed.

Click **OK** to complete the transaction.

7. Limits Package Management

Limit package is a group of transaction limits. As part of the limit package management, defined limits (created through 'Limit Definition') can be mapped to each transaction or to a transaction group (Created using Transaction Group Maintenance). Each package is associated with a specific channel/touch point or with a group of touch points.

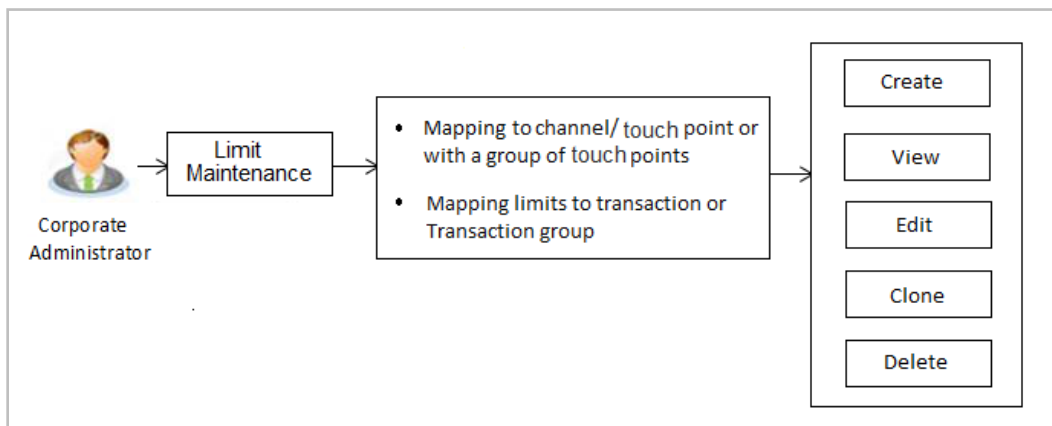

The limits packages once created can be mapped to

- User Type – using System Rules maintenance
- Party – using Party Preferences (Cumulative User Limits and Cumulative Customer limits)
- User – using User Management

Prerequisites:

Required Limits (i.e. Transaction/ Cumulative) should be defined for association to transactions in limits package

Workflow

Features supported in application

The administrator can perform the following actions:

- Search/ View Limit Package
- Create Limit Package
- Edit Limit Package
- Clone Limit Package
- Delete Limit Package

How to reach here:

Corporate Administrator Dashboard > Toggle Menu > Menu > Limit > Limit Package Management

7.1 Limit Package Management - View

Using this option, Corporate Administrator can search for particular limit package created for a specific channel/ touch point based on different search parameters. The search results displays a list or particular limit package based on different search filters selected.

If the search parameters are not specified, records of all the packages maintained in the application are displayed.

To search and view limit package:

1. In the **Limit Package Management** screen, click **Search**. The **Limit Package Management** screen with search results appears based on the searched criteria.
OR
Click **Clear** to reset the search parameters.
OR
Click **Cancel** to cancel the search process.

Limit Package Management - Search

The screenshot shows the 'Limit Package Management' search interface. At the top, there's a navigation bar with 'Administrator Approver', 'ATM/Branch', and 'English'. Below this, the 'futura bank' logo is on the left, and a user welcome message 'Welcome, Sweta Corpadmin' with a last login time is on the right. The main section has search filters for 'Package Code', 'Package Description', and 'More Search Options'. There are 'Search' and 'Clear' buttons. Below the filters is a table with columns: Package Code, Package Description, Touch Point, Currency, and Updated On. The table contains one row: 'Limit Pkg 01', 'Limit Packages 001', 'APINTERNET', 'GBP', and '11 May 2020'. Below the table is a pagination bar showing 'Page 1 of 1 (1 of 1 items)' and navigation arrows. A 'Cancel' button is at the bottom left. On the right side, there's a 'Limit Package' section with a brief description and a 'Create' button. The footer contains copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Field Description

Field Name	Description
Package Code	The unique code /name of the limit package.
Package Description	Description of the limit package.
Role	The limit is applicable to specific party or role (s).

Field Name	Description
Touch Point / Touch Point Group	Touch Point and the group of Touch Points mapped with the limit package. The options are: <ul style="list-style-type: none"> • Touch Point • Touch Point Group
Currency	Currency in which the limit package is created.
Updated On	Date range in which limit package were updated.
Search Results	
Package Code	The unique code of the limit package.
Package Description	Description of the limit package.
Touch Point	Name of the touch point mapped to the limit package.
Currency	Currency in which the limit package is created.
Updated On	Date on which limit package was updated.
Roles	The limit is applicable to specific party or role (s).

2. Click the **Limit Package Code** of the record for which you want to view the details. The **Limits Package Management - View** screen appears.

Limit Package Management - View

The screenshot shows the 'Limit Package Management - View' interface for Futura Bank. The top navigation bar includes 'Administrator Approver', 'ATM/Branch', and 'English'. The user is logged in as 'Welcome, Sweta Corpadmin' with a last login time of '11 May 09:32 AM'. The main content area displays the following details for 'Limit Pkg 01':

- Limit Package Code:** Limit Pkg 01
- Limit Package Description:** Limit Packages 001
- Touch Point:** Internet
- Currency:** GBP
- Transaction Name:** Create Forex Deal
- Cumulative Limit Daily:** CLDAJzGBP - CLDAJzGBP
- Cumulative Limit Monthly:** CLMAJzGBP - CLMAJzGBP
- Transaction Limit:** TLAJzGBP - TLAJzGBP
- Cooling Limit:** coolLimit - coolLimit

Below the details is a 'Clone' button. At the bottom of the screen are buttons for 'Edit', 'Delete', 'Cancel', and 'Back'. On the right side, there is a 'Limit Package Details' section with a document icon and the following text:

You can edit the parameters set for each transaction available in a package or can delete the package by clicking on Delete button. Ensure this package is not in use before you proceed to delete. To speed up the process you can clone an existing limit package. You may also choose to go back to the previous screen or cancel the operation.

Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions

Field Description

Field Name	Description
Limit Package Code	The unique code /name of the limit package.
Limit Package Description	Description of the limit package.
Touch Point Group	Name of the Touch Point or Touch Point group mapped to the limit package.
Currency	The currency to be set for the limit package.
Transaction Name / Transaction Group Name	Name of the transaction/transaction group that is mapped to the limit package.
Effective Date	The date from which the limit package is effective for the transaction.
Cumulative Limit Daily	Daily Cumulative Limit Definition set for the specific transaction. It displays the limit name and description.
Cumulative Limit Monthly	Monthly Cumulative Limit Definition set for the specific transaction. It displays the limit name and description.
Transaction Limit	Transaction Limit Definition set for the specific transaction. It displays the limit name and description.
Cooling Limit	The cooling limit set for the specific transaction.

3. Click **Clone** to make another copy of details.
OR
Click **Edit** to edit the limit package.
OR
Click **Delete** to delete the limit package.
OR
Click **Cancel** to cancel the transaction and go back to Dashboard.
OR
Click **Back** to navigate to the previous screen.

7.2 Limit Package Management - Create

Using this option, Corporate Administrator can create a limit package for a specific channel/ touch point based on the details given as per the fields.

To create a limit package:

1. In the **Limit Package Management** screen, click **Create**. The **Limit Package Management - Create** screen appears.

Limit Package Management - Create

The screenshot displays the 'Limit Package Management - Create' interface. At the top, there's a header with 'futura bank' logo and user information: 'Administrator Maker', 'ATM/Branch', 'English', and a welcome message 'Welcome, Sweta Corpadmin' with the last login time '11 May 09:32 AM'. The main form is titled 'Limit Package Management' and contains the following fields:

- Limit Package Code:** Limit Pkg 02
- Limit Package Description:** Limit Package 002
- Touch Point:** Radio buttons for 'Touch Point' (selected), 'Touch Point Group', and 'Global'.
- Touch Point:** Mobile Applica... (dropdown)
- Currency:** GBP (dropdown)

Below these are two transaction entries, each with a 'Delete Transaction' icon:

- Transaction 1:**
 - Transaction Name:** V2 Fund Transfer (dropdown)
 - Effective Date:** 11 May 2020 (calendar icon)
 - Cumulative Limit Daily:** CLDAJzGBP - CLDAJzGBP (dropdown)
 - Cumulative Limit Monthly:** bulkcumumonth - bulkcumumonth (dropdown)
 - Transaction Limit:** InvoiceTransaction - Invoice Transa... (dropdown)
 - Cooling Limit:** coolLimit - coolLimit (dropdown)
- Transaction 2:**
 - Transaction Name:** Create Bill Payment (dropdown)
 - Effective Date:** 11 May 2020 (calendar icon)
 - Cumulative Limit Daily:** cumDlimit - cumulative daily limit (dropdown)
 - Cumulative Limit Monthly:** InvoiceMonthlyCum - Invoice Transa... (dropdown)
 - Transaction Limit:** TLAJzGBP - TLAJzGBP (dropdown)
 - Cooling Limit:** CPLAJzGBP - CPLAJzGBP (dropdown)

At the bottom, there are links for 'Add Transaction' and 'Add Transaction Group', and buttons for 'Save', 'Cancel', and 'Back'. A footer contains copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

4. Click **Confirm** to confirm the deletion.
OR
Click **Cancel** to cancel the deletion process.
5. The success message of transaction submission appears.
Click **OK** to complete the transaction.

FAQ

1. **Can I delete transaction and/ or cumulative limits against a transaction in limit package?**

No, existing limits against a transaction cannot be deleted; it can only be edited if effective date is starting from a future date.

2. **Why am I unable to delete a limit through limit definition screen?**

There is a possibility that the limit that you are trying to delete is associated in the limit package against a transaction(s) and therefore the system is not allowing you to delete the same.

3. **Why am I unable to delete limits package through limit Package?**

There is a possibility that the limit package that you are trying to delete is associated with a user.

4. **As part of edit, what can I update in the limits package maintenance?**

You can edit the transaction and/ or cumulative limits against the transaction. You can delete the transaction(s) from the limits package and/or you can also add new transaction(s) as part of the limits package?

5. Have created/ edited/ deleted Limits and/ or Limits package but it is not reflecting in the system even after a successful maintenance save message?

There is a possibility that the maintenance is saved but the status is 'Pending Approval'. For the maintenance, if there is an approval required then the changes will reflect only once the approver(s) approve the submitted request. If the setup does not require an approval workflow or is self / auto approved, then the same will reflect immediately.

8. File Upload Maintenance

File Uploads facilitates processing of multiple transactions through a single file. This is a faster way of processing transactions than entering transactions one after another. Salary payments, fund transfers, vendor payments are few examples of financial transactions that can be supported through file upload. A non-financial transaction to facilitate upload of multiple payee details, at a single instance, is also possible through file upload.

The File Upload functionality enables users to process:

- Internal payments (within the bank)
- Domestic payments (within the country)
- International payments (cross border)
- Mixed payments
- Create Payees / Beneficiaries
- Create Virtual Accounts, Structure & Identifiers

Oracle Banking Digital Experience File Upload module enables Corporates to process files of payments according to agreed operational and business rules and save time. File Uploads facility is simple to use, has daily transaction limits and comes with the security of dual / multi signatory approvals.

File Upload set up enables the corporate administrator to create file identifiers for its party, and map users to file identifiers.

9. File Identifier Maintenance

Corporate Administrator can create file identifiers (FI) for his/her party. This enables the corporate to process file uploads. A File Identifier is always mapped to a specific single file template. It permits configuration of corporate preferences like approval type (file level/ record level) for a particular type of file.

Prerequisites

- Party Preferences is maintained for Corporate
- Party and Account access has been set for corporate and its users
- Approval Rules are setup for the corporate

Workflow

Features Supported In Application

- View File Identifier
- Create File Identifier
- Edit File Identifier

How to reach here:

Corporate Administrator Dashboard > Quick Links > File Upload > File Identifier Maintenance
OR

Corporate Administrator Dashboard > Toggle Menu > Menu > File Upload > File Identifier Maintenance

9.1 File Identifier Maintenance - Summary

Once the logged in user navigates to File Identifier Maintenance screen, user will be able to view the File Identifiers already created for his party.

To view the file identifiers:

1. View **File Identifier Maintenance** screen with FI's mapped to the users.
OR
Click **Cancel** to cancel the transaction.

File Identifier Maintenance - Summary

Description	File name / code description corresponding to the file upload code.

Field Name	Description
Transaction Type	<p>Type of transaction:</p> <p>The Transaction type can be:</p> <ul style="list-style-type: none"> • Internal funds Transfer • Domestic Funds Transfer • International Funds Transfer • Mixed Transfer • Internal Payee • Domestic Payee • International Payee • Mixed Payee • Demand Draft Payee • Create Virtual Accounts • Create Virtual Account Structure • Create Virtual Identifiers • Delete Virtual Accounts • Mixed Payments • Create Invoices
Approval Type	The approval type is at file level or record level.
<p>2. Click the file identifier record, for which you want to view the details. The File Identifier Maintenance - View screen appears.</p>	

File Identifier Maintenance - View

The screenshot shows the 'File Identifier Maintenance - View' page in the Futura Bank system. The page header includes the Futura Bank logo, a search icon, and user information: 'Welcome, Macs Admin' and 'Last login 12 May 06:38 PM'. The page title is 'File Identifier Maintenance'. The main content area is titled 'Details' and contains the following fields:

Party Id	***308
Party Name	Sunrise Coffee
File Identifier	InternalFTDeISDMC
Description	InternalFTDeISDMC
File Template	Internal Funds Transfer Delimited SDMC
Maximum No Of Records	100
Transaction Type	Internal Funds Transfer
Accounting Type	Single Debit Multiple Credit
File Type	DELIMITED
Format Type	CSV/XML,XLS,XLSX
Approval Type	<input type="radio"/> Record Level <input checked="" type="radio"/> File Level

At the bottom of the form, there are three buttons: 'Edit', 'Cancel', and 'Back'.

Field Description

Field Name	Description
Party ID	Party ID of the corporate.
Party Name	Party name corresponding to the party ID.
Details	
File Identifier	Unique code assigned to the uploaded file.
Description	Descriptions corresponding to the file upload code.

Field Name	Description
File Template	<p>Predefined file templates.</p> <p>Few examples of file templates are:</p> <ul style="list-style-type: none"> • Internal funds Transfer • Domestic Funds Transfer • International Funds Transfer • Mixed Transfer • Internal Payee • Domestic Payee • International Payee • Mixed Payee • Demand Draft Payee • Create Virtual Accounts • Create Virtual Accounts Structure • Create Virtual Identifier • Create Invoices
Maximum No of Records	Maximum number of records in the uploaded file.
Partial Processing Tolerance (%)	<p>The partial processing tolerance for a file (in percentage terms). Suppose, the user sets this value at 60% - this implies that if 60% or more, of the records in a file clear the validation stage, then the file can go for further processing. If less than 60% of the records in a file clear the validation stage, then the file is rejected.</p> <p>This field is applicable only when approval is Record Type and for certain file formats – namely when accounting type is a) Single Debit Single Credit or b) Multi Debit Multi Credit.</p>
Debit Account Number	<p>Debit account number.</p> <p>This field appears only for file templates having Account ID defined at FI level.</p>
Transaction Type	Type of transaction.
File Type	The file type - delimited or fixed length.
Format Type	<p>The format in which file is uploaded.</p> <p>The format could be CSV, XML, XLS, XLSX.</p>

Field Name	Description
Approval Type	<p>The approval type is at file level or record level.</p> <ul style="list-style-type: none"> File Level - The approver accepts or rejects the entire file, and all records are either processed or rejected en-masse. Record Level - The approver could approve some records, and rejects others. Payments are processed only for approved records.

- Click **Edit** to modify the file identifier.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.

9.2 File Identifier Maintenance - Create

Using this option corporate administrator can create a file identifier.

To create a file identifier:

- In the File Identifier Maintenance screen, click **Create**. The **File Identifier Maintenance - Create** screen appears.

File Identifier Maintenance - Create

The screenshot displays the 'File Identifier Maintenance - Create' interface. At the top, there's a header with 'futura bank' logo and user information: 'Administrator Approver', 'ATM/Branch', and 'English'. Below the header, the main content area is titled 'File Identifier Maintenance'. It contains a form with the following fields and values:

- Party Id: ***308
- Party Name: Sunrise Coffee
- Details section:
 - File Identifier: Account
 - Description: Account Details
 - File Template: Create Virtual Accounts (dropdown)
 - Maximum No Of Records: 10000
 - Partial Pre-processing Tolerance(%): 1
 - Transaction Type: Virtual Account
 - File Type: DELIMITED
 - Format Type: CSVXML,XLS,XLSX
 - Approval Type: Record Level (selected), File Level (available)

At the bottom left of the form are buttons for 'Save', 'Cancel', and 'Back'. On the right side, there is a 'Note' box with the following text: 'Assignment of file identifiers to different parties can be done. Approval type needs to be set as whether it would be record level or file level. File template can be selected for the maintenance. Once this is created for a party, account level changes can be done from User File Identifier mapping screen.'

The footer of the page contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Field Description

Field Name	Description
Party ID	Party ID of the corporate.
Party Name	Party name corresponding to the party ID.
Details	
File Identifier	Unique code assign to the uploaded file.
Description	Descriptions corresponding to the file upload code.
File Template	<p>Predefined file templates.</p> <p>Few examples of file templates are:</p> <ul style="list-style-type: none">• Internal funds Transfer• Domestic Funds Transfer• International Funds Transfer• Mixed Transfer• Internal Payee• Domestic Payee• International Payee• Mixed Payee• Demand Draft Payee• Create Virtual Accounts• Create Virtual Accounts Structure• Create Virtual Identifier• Create Invoices
Maximum No of Records	Maximum number of records in the uploaded file.
Partial Processing Tolerance (%)	<p>The partial processing tolerance for a file (in percentage terms).</p> <p>Suppose, the user sets this value at 60% - this implies that if 60% or more, of the records in a file clear the Validation stage, then the file can go for further processing. If less than 60% of the records in a file clear the validation stage, then the file is rejected.</p> <p>This field will be displayed only when approval is Record Type and for certain file formats – namely when accounting type is a) Single Debit Single Credit or b) Multi Debit Multi Credit.</p>

Field Name	Description
Debit Account Number	Account number of the account to be debited. This field appears only for file templates having Account ID defined at FI level .
Transaction Type	Type of transaction: The transaction type can be: <ul style="list-style-type: none"> • Internal funds Transfer • Domestic Funds Transfer • International Funds Transfer • Mixed Transfer • Internal Payee • Domestic Payee • International Payee • Mixed Payee • Demand Draft Payee • Create Virtual Accounts • Create Virtual Account Structure • Create Virtual Identifiers • Delete Virtual Accounts • Mixed Payments • Create Invoices
File Type	The file type - delimited or fixed length.
Format Type	The format in which file is uploaded. The format could be CSV, XML, XLS, XLSX.
Approval Type	The approval type is at file level or record level. <ul style="list-style-type: none"> • File Level - The approver accepts or rejects the entire file, and all records are either processed or rejected en-masse • Record Level - The approver could approve some records, and rejects others. Payments are processed only for approved records

2. In the **File Identifier** field, enter the code of the file to be uploaded.
3. In the **Description** field, enter the file description corresponding to the file code.
4. From the **File Template** list, select the file template.
 - a. If you select a file templates having Account ID defined at FI level, enter the Debit Account Number.

5. Select the appropriate **Approval Type**.
6. Click **Save**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.
7. The **Review** screen appears. Verify the details and click **Confirm**.
OR
Click **Cancel** to cancel the operation and navigate back to 'Dashboard'.
OR
Click **Back** to navigate to the previous screen.
8. The success message appears along with the transaction reference number and status.
Click **OK** to complete the transaction and navigate back to 'Dashboard'.

9.3 File Identifier Maintenance - Edit

Using this option corporate administrator can edit and update a file identifier.

To edit file identifier:

1. In the **File Identifier Maintenance** screen, click the file identifier record, for which you want to view the details.
The **File Identifier Maintenance - View** screen appears.
2. Click **Edit** to edit the file identifier mapping.
The **File Identifier Maintenance - Edit** screen appears.

File Identifier Maintenance - Edit

The screenshot displays the 'File Identifier Maintenance - Edit' interface within the Futura Bank application. The top navigation bar includes 'Administrator Approver', 'ATM/Branch', and 'English'. The user is logged in as 'Welcome, Macs Admin' with a last login time of '12 May 06:38 PM'. The main content area is titled 'File Identifier Maintenance' and contains a 'Details' section with the following information:

Party Id	***308
Party Name	Sunrise Coffee
File Identifier	InternalFTDelSDMC
Description	InternalFTDelSDMC
File Template	Internal Funds Transfer Delimited SDMC
Maximum No Of Records	1000
Transaction Type	Internal Funds Transfer
Accounting Type	Single Debit Multiple Credit
File Type	DELIMITED
Format Type	CSV/XML/XLS/XLSX
Approval Type	Record Level (selected) File Level (button)

At the bottom of the form, there are three buttons: 'Save', 'Cancel', and 'Back'. The footer of the page contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Field Description

Field Name	Description

Payments are processed only for approved records.
<ol style="list-style-type: none"> Edit the required file identifiers. e.g. Description, Maximum Number of Records, and Partial Processing Tolerance – if required. Click Save to save the modified details. OR Click Cancel to cancel the transaction. OR Click Back to navigate to previous screen The File Identifier Maintenance – Edit - Review screen appears. Verify the details, and click Confirm. OR Click Cancel to cancel the operation and navigate back to 'Dashboard'. 	

OR

Click **Back** to navigate to previous screen

6. The success message of saving the file identifier modification appears along with the transaction reference number and status.
Click **OK** to complete the transaction and navigate back to 'Dashboard'.

FAQ

1. What are the different types of transaction types, accounting types, and file formats supported?

The following table details the different transaction types, accounting types, and file formats supported. A file template supports each of the combination.

Sr No.	Parameter	Types
1	Transaction Type	Internal funds Transfer Domestic Funds Transfer International Funds Transfer Mixed Transfer Payee Files Create Virtual Accounts, Structure, Identifier Create Invoices
2	Accounting Type	Single Debit, Single Credit (SDSC) Single Debit, Multi Credit (SDMC) Multi Debit, Multi Credit (MDMC)
3	Approval Type	File Level Record Level
4	Format Type	CSV, XML, XLS, XLSX

2. What is the business rationale of having different accounting types?

Find below the accounting types catered through file templates, and business examples:

Sr No.	Accounting Type	Business Example	Approval Type
1	Single Debit, Single Credit (SDSC)	A corporate may want to make monthly payments to its various vendors from one central account. So though the debit account is the same across all records, the credit accounts are different and the debit accounting entry is not consolidated.	Record Type or File Type
2	Single Debit, Multi Credit (SDMC)	A corporate may want to make monthly salary payments to all its employees. A single consolidated debit entry is passed, against multiple credits to different accounts.	File Type
3	Multi Debit, Multi Credit (MDMC)	This file format caters to a lot of one to one transfers between two parties for various payments. Organizations that are brokers or intermediaries in trade contracts, may find this format more suitable for their business needs.	Record Type

3. What is the business rationale of having different approval types?

A record type approval, gives more flexibility to the corporate user – in the sense, that even if some records are not validated, the file could still be processed (only those records that have passed validations) and file type approval, gives more control to the corporate user. Since all records in the file have to pass validations, before a file is processed.

4. What is the role of an administrator in file upload?

The administrator is from the corporate side, who creates file identifiers, for his party.

5. What is a 'File Upload Template'?

A template that is used to upload a file, distinguishes one file from another, depending on the transaction type of the payment, format of the file to be uploaded, approval type set-up for the file, and accounting type of a payment file is known as 'File Upload Template'.

10. User File Identifier Mapping

This option enables the corporate administrator to map the desired file identifiers to the corporate users. This mapping enables corporate users to upload and view specific bulk files.

Prerequisites

- Party Preferences is maintained for Corporate
- Party and Account access has been set for corporate and its users
- Set-up Transaction and account access
- Approval Rules are setup for the corporate File Identifier Maintenance is done

Workflow

Features Supported In Application

This option allows the corporate administrator to:

- View User File Identifier Mapping
- Create User File Identifier Mapping
- Edit User File Identifier Mapping

How to reach here:

Corporate Administrator Dashboard > Quick Links > File Upload > User File Identifier Mapping
OR

Corporate Administrator Dashboard > Toggle Menu > Menu > File Upload > User File Identifier Mapping

10.1 User File Identifier Mapping - Details

Using this option the corporate administrator can view the file identifiers mapped to its users.

Click **OK** to complete the transaction and navigate back to 'Dashboard'.

FAQ

1. **Can all users of a particular corporate access all file types, mapped to the corporate?**

No, only users who are mapped to particular File Identifier's can access those files. For example, only the Human Resource Department of a corporate may have access to upload / view and enquire status of salary files.
Mapping File Identifier's to users thus enables access of certain types of file, to certain users.

2. **If a user is mapped to a File Identifier, and he has uploaded a file – but post this, he is no longer mapped to the File Identifier – can he view the status of the file?**

No the user will not be able to view the status of the file, if he is not mapped to it, at the point in time when he is checking for the status.

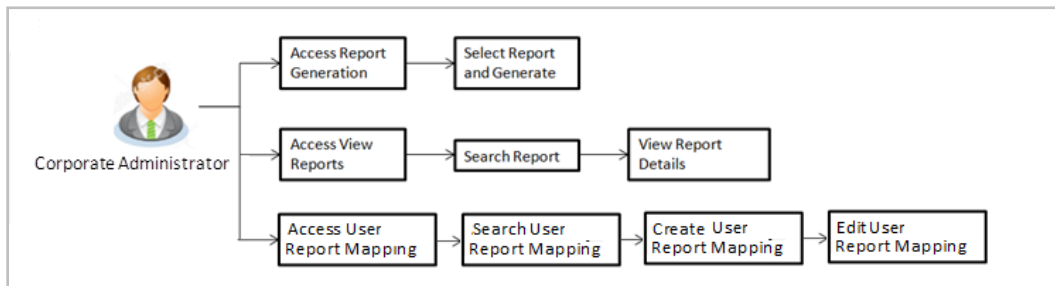

11. Reports

Using this option, Corporate Administrators can generate various adhoc and schedule banking reports. Application provides an option to generate and schedule reports using an internal application.

Prerequisites:

- Transaction access is provided to Corporate Administrator.
- Approval rule set up for Corporate Administrator to perform the actions.

Workflow

Features supported in application

Report module allows Corporate Administrator to:

- Generate and schedule Customer and Administrative Reports
- View/ Download generated Reports
- View User Report Mapping
- Create User Report Mapping
- Edit User Report Mapping
- View Scheduled Report

12. Report Generation

Corporate Administrator logs into the system and navigates to Report Generation screen. On accessing 'Report Generation' menu, Corporate Administrator has to select an option if an adhoc report is to be generated or report needs to be scheduled.

Reports generation is categorized as:

- Adhoc Reports: When a report needs to be generated immediately on a need basis.
- Schedule Reports: When report generation needs to be scheduled at fixed intervals e.g. daily, weekly, monthly etc.

After selecting the report generation category, user has to select a type of a report which needs to be generated. Other reports parameters with respect to each report are displayed on the screen as input fields so that report can be requested with specific data.

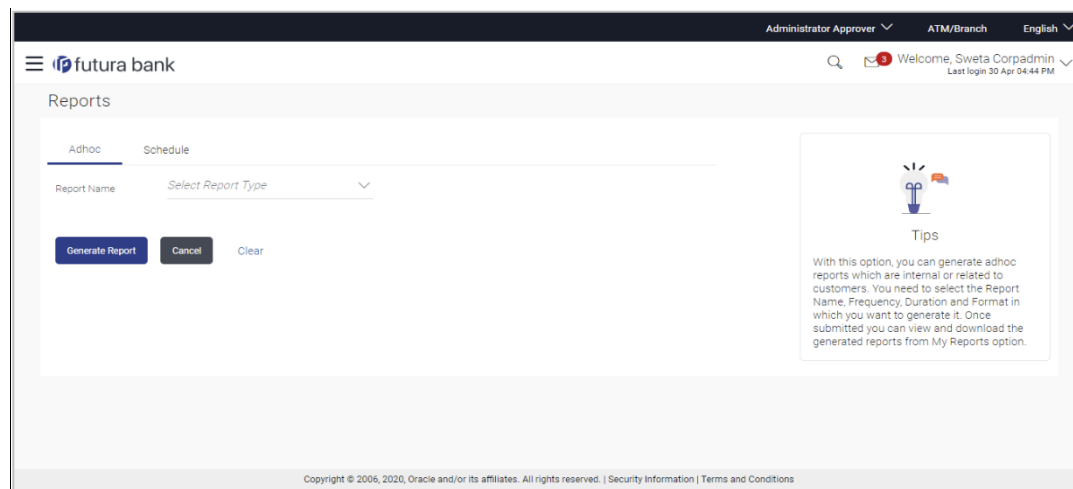

Note: If 2 factor authentication is enabled, the reports get generated only after successful authentication.

Corporate Administrator can also view all the reports that are scheduled and can view and edit the parameters of the scheduled reports, as per requirement. The changes made will be effective from next report generation cycle. Corporate Administrator approver can approve or reject the maintenance initiated for updating existing report schedule.

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Reports > Report Generation

Report Generation

Field Description

Field Name	Description
Report Name	Select the type of report to be generated.

12.1 Adhoc Reports

Adhoc reports are generated on demand or on request. Reports can be requested from the 'Reports' screen. Generated adhoc reports can be viewed using 'My Reports' screen.

Adhoc Reports

The screenshot displays the 'Reports' section of the Futura Bank interface. The 'Adhoc' tab is selected, showing a form to generate a report. The 'Report Name' field is set to 'File Identifier wise Party User Ma...', 'Report Format' is 'PDF', and 'Party ID' is '***308'. The 'Party Name' is 'Sunrise Coffee'. There are buttons for 'Generate Report', 'Cancel', and 'Clear'. A 'Tips' box on the right states: 'With this option, you can generate adhoc reports which are internal or related to customers. You need to select the Report Name, Frequency, Duration and Format in which you want to generate it. Once submitted you can view and download the generated reports from My Reports option.' The footer contains copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Field Description

Field Name	Description
Report Name	Select the type of report to be generated.
Report Format	Select the format in which the report is to be generated. The options with Internal Reporting Application are: <ul style="list-style-type: none">• PDF• CSV

Note: Other reports parameters with respect to each report are displayed on the screen as input fields except party ID and party name (party ID and party name gets defaulted for the corporate) so that report can be requested with specific data. The input fields for each reports are mentioned under specific reports section.

12.2 Schedule Reports

The reports that are generated in specific time frame such as daily, weekly, monthly, quarterly, and annually are categorized under scheduled reports.

Field Description

Field Name	Description
Report Name	Select the type of report to be generated.
Report Format	Select the format in which the report is to be generated. The options with Internal Reporting Application are: <ul style="list-style-type: none">• PDF• CSV
Select Frequency	Select the frequency at which the report is to be generated. The options are: <ul style="list-style-type: none">• Once• Daily• Weekly• Monthly
Start Generating	Start date of the date range from which you want to generate the report.
Stop Generating	End date of the date range up-to which you want to generate the report.

Field Name	Description
View Scheduled Report	Link to view all the reports that are scheduled under a party mapped to the logged in user.

12.2.1 View Scheduled Reports

Using this option, Corporate Administrator can view all the reports and its details that are scheduled under a party mapped to the user.

To view the scheduled reports:

1. Click the **Scheduled** tab. The scheduled report generation screen appears.
2. Click the **View Scheduled Reports** link.
The **Scheduled Reports** screen appears.

Scheduled Reports

The screenshot displays the 'Scheduled Reports' interface. At the top, there's a navigation bar with 'System Administrator', 'ATM/Branch', 'English', and 'UBS 14.3 AT3 Branch'. Below this is a header for 'futura bank' with a search icon and a welcome message for 'Sweta Thakur'. The main section is titled 'Scheduled Reports' and contains a search bar with a dropdown for 'Report Name'. Below the search bar are 'Search', 'Cancel', and 'Clear' buttons. A table lists the scheduled reports with columns: Report Name, Report Id, Schedule Frequency, Start Date, and End Date. The table shows one report: 'Billar Registration Report' with Report Id '300424390012', Schedule Frequency 'DAILY', Start Date '2020-04-30T19:25:00', and End Date '2020-05-31T19:25:00'. At the bottom, there's a pagination bar indicating 'Page 1 of 1 (1 of 1 items)' and navigation buttons. The footer contains copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Field Description

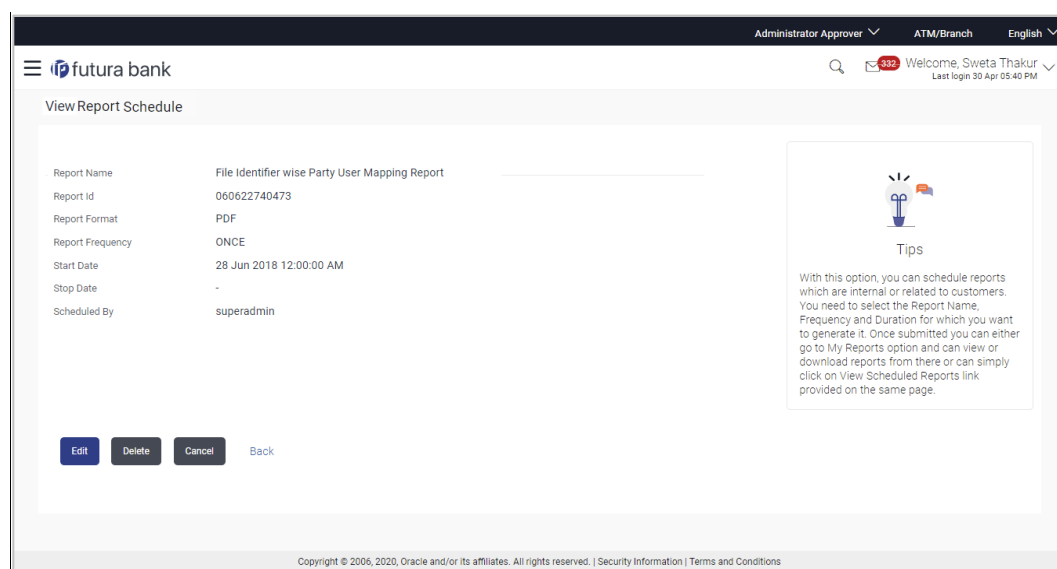

Field Name	Description
Search	
Report Name	Name of the scheduled reports.
Search Results	
Report Name	Name of the scheduled reports.

Field Name	Description
Report ID	IDs of the reports that are scheduled.
Schedule Frequency	The frequency at which the report is scheduled.
Start Date	Date from which the report will be generated as per the frequency defined.
End Date	Date till which the report will be generated as per the frequency defined.

- Click on desired **Report ID** to view the details of the scheduled report. The **View Reports Schedule** screen appears.
OR

Click on the  icon against the Report ID, to select the **Report from the** list, which you want to view. The searched report appears in the search result section.
Click the **Report ID** to view the details of the scheduled report.

View Reports Schedule

The screenshot displays the 'View Report Schedule' interface. At the top, the Futura Bank logo and navigation links are visible. The main content area shows the following details:

- Report Name:** File Identifier wise Party User Mapping Report
- Report Id:** 060622740473
- Report Format:** PDF
- Report Frequency:** ONCE
- Start Date:** 28 Jun 2018 12:00:00 AM
- Stop Date:** -
- Scheduled By:** superadmin

Below the details, there are four buttons: **Edit**, **Delete**, **Cancel**, and **Back**. To the right, a 'Tips' box provides guidance on scheduling reports. The footer contains copyright information for Oracle.

Field Description

Field Name	Description
Report Name	Name of the scheduled report.
Report ID	ID of the scheduled report.
Report Format	The report format of the scheduled report.
Report Frequency	The frequency at which the reports are scheduled to run.
Start Date	Date from which the report will be generated as per the frequency defined.
Stop Date	Date till which the report will be generated as per the frequency defined.
Scheduled By	User ID of the user who scheduled the report generation.

12.2.2 Edit Scheduled Reports

Using this option, Corporate Administrator can edit the parameters defined for scheduled reports. These changes are applied to generate the reports of next scheduled cycle.

To edit the scheduled reports:

1. Click the **Schedule** tab. The scheduled report generation screen appears.
2. Click the **View Scheduled Reports** link.
The **Scheduled Reports** screen appears.
3. Click on desired **Report ID** to edit the details of the scheduled report. The **View Report Schedule** screen appears.
4. Click **Edit** to modify the report schedule. The **Edit Report Schedule** screen appears.
OR
Click **Delete** to delete the report schedule.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate to the previous screen.

Edit Reports Schedule

The screenshot shows the 'Edit Report Schedule' interface. The header includes the Futura Bank logo and user information: Administrator Approver, ATM/Branch, English, and a welcome message for Sweta Thakur. The form fields are as follows:

Field	Value
Report Name	File Identifier wise Party User Mapping Report
Report Id	060622740473
Report Format	PDF
Report Frequency	ONCE
Start Generating	06/28/18
Scheduled By	superadmin

Buttons: Save, Cancel, Back

Tips
With this option, you can schedule reports which are internal or related to customers. You need to select the Report Name, Frequency and Duration for which you want to generate it. Once submitted you can either go to My Reports option and can view or download reports from there or can simply click on View Scheduled Reports link provided on the same page.

12.10 User List Report

User List Report enables the *Corporate* Administrator user to view the list of users belonging to a specific party/group corporate ID.

Corporate Administrator has to select a format in which the report needs to be generated. The User List Report supports only Adhoc report generation. This report will not be available under 'Schedule' option.

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Reports > Report Generation

12.10.1 User List Report- Adhoc Report

User Adhoc reports are generated on demand or on request. Reports can be requested from the 'Reports' screen. Adhoc reports can be viewed using 'My Reports' screen.

To generate the User List adhoc Report:

1. Click the **Adhoc** tab.
2. From the **Report Name** list, select the appropriate report to be generated.
The respective report generation screen appears.

User List Report - Adhoc Report

The screenshot displays the 'Generate Report' interface for 'futura bank'. The top navigation bar includes 'ATM & Branch Locator', 'English', and 'UBS OBPM 14.4 HEL Branch'. The user is logged in as 'deep corpuser' with a last login of '10/20/22, 4:56 PM'. The 'Generate Report' section has two tabs: 'Adhoc' (selected) and 'Schedule'. Under the 'Adhoc' tab, the following fields are visible:

- Report Name: User List Report
- Report Format: CSV
- User Type: Corporate User
- Party ID: 000439
- Start Date: 10/5/22
- End Date: 11/2/22

At the bottom, there are three buttons: 'Generate Report' (in blue), 'Cancel', and 'Clear'. A 'Tips' box on the right side provides guidance: 'With this option, you can generate adhoc reports which are internal or related to customers. You need to select the Report Name, Frequency, Duration and Format in which you want to generate it. Once submitted you can view and download the generated reports from My Reports option.'

13. My Reports

This option enables the Corporate Administrator to download the generated reports.

Corporate Administrator logs into the system and navigates to My Reports screen. On accessing 'My Reports' menu, last 10 reports which generated for a party are listed with the respective report status. User can choose to search the specific report using the search criteria or can opt to view/download detailed report.

Reports are categorized as:

- Adhoc Reports
- Scheduled Reports

How to reach here:

Corporate Administrator Dashboard > Toggle menu > Menu > Reports > My Reports

13.1 My Reports - Adhoc

Adhoc reports are generated on demand or on request. Reports can be requested from the 'Reports' screen. Adhoc reports can be viewed using 'My Reports' screen.

To view and download the generated adhoc reports:

My Reports - Adhoc

The screenshot displays the 'My Reports' interface for Futura Bank. The top navigation bar includes 'System Administrator', 'ATM/Branch', 'English', and 'UBS 14.3 AT3 Branch'. The user is logged in as 'Welcome, Sweta Thakur' with a last login time of '30 Apr 05:40 PM'. The 'My Reports' section has tabs for 'Adhoc' and 'Scheduled'. Below the tabs, there are search filters for 'Report Id', 'Report Name', and 'Generation Date' (From Date and To Date). A table lists the following reports:

Report Name	Report Sub Id	Generation Date and Time	Status
File Identifier wise Party User Mapping Report	300468758042-001	2020-04-30T14:11:33	PROCESSED
Bill Payment Pay Later Report	300436553909-001	2020-04-30T13:54:10	PROCESSED
Date wise User creation Report	290447536562-001	2020-04-29T11:43:04	PROCESSED
API Consumption Report	290458144664-001	2020-04-29T11:36:53	PROCESSED
Date wise User creation Report	290499418217-001	2020-04-29T09:51:32	PROCESSED
Date wise User creation Report	290401411813-001	2020-04-29T09:28:33	PROCESSED
API Consumption Report	290448805028-001	2020-04-29T06:49:04	PROCESSED
API Consumption Report	290411792479-001	2020-04-29T06:49:04	PROCESSED
Date wise User creation Report	280451105013-001	2020-04-28T09:54:37	PROCESSED
API Consumption Report	280418710919-001	2020-04-28T09:53:09	PROCESSED

At the bottom, there is a pagination bar showing 'Page 1 of 5 (1-10 of 46 items)' and a 'Cancel' button. A note on the right states: 'You can view the list of all adhoc and scheduled reports from here which are already generated, failed or still under processing.'

FAQ

1. Can I choose a format in which a report is to be downloaded from My Reports screen?

A report can be downloaded in a format selected while generating a report.

2. I can view and download a report which is generated by other administrator users?

Yes, you can view and download the reports which are generated by other administrator users of the same party using **My Reports** screen.

14. Mailbox

Corporate administrator can view all the alerts which are auto generated by the Bank on various events/transactions performed by logged in user. User can view the alert details but is not allowed reply to the alerts received in his mailbox –Alerts section. Count of unread alerts if any is displayed on the screen.

Pre-Requisites

- Alerts, notifications and the mails to be sent are configured by the bank on various events.

Features supported in Application:

- View summary of Alerts, Mails, Notifications triggered
- View specific Alerts, mails, notification details
- Delete Alerts, mails, notifications

How to reach here:

Corporate Administrator Dashboard > Toggle Menu > Menu > Mailbox > Mails
OR

Corporate Administrator Dashboard > Click 

14.1 Mails

The following features are available under Mails:

- Inbox: This folder displays all the mail messages received by the user.
- Sent Mails: This folder displays the list of mail messages sent by the user to the bank.
- Deleted Mails: This folder contains the list of mail messages deleted by the user from the inbox and the sent mail folders.

How to reach here:

Corporate Administrator Dashboard > Toggle Menu > Menu > Mailbox > Mails
OR

Corporate Administrator Dashboard > > Click  > Mails > View All

14.1.1 Inbox

Using this feature, the user can view the messages received in his Inbox. The user can view an individual message by clicking on the subject of the specific mail.

How to reach here:

Corporate Administrator Dashboard > Toggle Menu > Menu > Mailbox > Mails > Inbox
OR

Access through the kebab menu of any other screens available under Mailbox

To view received mails:

9. The list of received messages appears on the **Inbox** screen. Click on the subject link of an individual message to view the details of that message.

19. Security Settings

Security settings includes changing of password and setting of security questions for the user.

Pre-requisites

- User must have a valid Login credentials
- Transaction access is provided to Corporate Administrator
- Approval rule set up for Corporate Administrator to perform the actions

Workflow

Features supported in application

The Security Settings maintenance allow the Corporate Administrator to:

- Changing of old password to new Password
- Set Security Questions
- View Security Questions
- Edit Security Questions

How to reach here:

Corporate Administrator Dashboard > Toggle Menu > Menu > Security & Login

19.1 Set Security Questions

Security Questions are the second layer of authentication mode set by the Bank to complete various transactions.

This feature allows the administrator user to set up the answers of the security questions, which will then be used as another layer of security (Over and above the Login credentials).

User will be asked to answer these security questions to complete the transactions for which bank would have set Security Question as the second factor authentication.

How to reach here:

Corporate Administrator Dashboard > Toggle Menu > Menu > Security & Login > Set Security Question
