1. Preface

1.1 Purpose

Welcome to the User Guide for Oracle Banking Digital Experience. This guide explains the operations that the user will follow while using the application.

1.2 Audience

This manual is intended for Customers and Partners who setup and use Oracle Banking Digital Experience.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit, <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.5 Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>Italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.6 **Screenshot Disclaimer**

OBDX	Oracle Banking Digital Experience

2. Business Term Loans Application

A term loan is a loan that a business takes from a bank or financial institution to finance long-term investments such as to purchase new machinery or tools or to expand the business. These loans are different from working capital loans, in the sense that they typically involve higher amounts of money that is paid back over a longer period of time. As compared to working capital loans, the interest rates on term loans, increase over time which makes them costlier.

The business term loans application of OBDX has been created to enable customers to apply for term loans easily by providing minimal details including business and stakeholder information and loan requirements including collateral information. Applicants can quickly apply for term loans by simply specifying their business details, stakeholder details, loan requirements and other information.

The application form is OCR (Optical Character Recognition) enabled so as to save the applicant's time and effort in filling out the application form. The various sections of the form get prefilled with information fetched through OCR based on the documents uploaded in the inline Upload Documents feature provided against each section for which OCR is supported.

Businesses that are existing digital banking customers can simply provide their online banking credentials to have the Business Details and Business Finances section of the form prefilled with information as maintained with the bank. The applicant will be able to define stakeholder information as required and can add multiple stakeholders. Additional information related to the loan being applied for (including collateral and disbursement & repayment information) will also have to be furnished.

The application tracker has been built so as to enable tracking of the application once it has been submitted. The application tracker also enables the applicant to retrieve and complete an application that has been saved. Additionally, the applicant can view documents that have been uploaded as part of the application form and can also view details as defined in the application form in PDF format.

Note: In this release, OBDX is integrated solely with Oracle FLEXCUBE Onboarding (OBO), for the submission and processing (including tracking) of SMB application forms. Third party integration is not supported.

Following are the steps involved in the application submission:

- **User Type Selection:** The first step in applying for a product is to select the user type so as to be displayed product categories and subsequently products which are applicable to you. i.e. select tab 'Personal' if you are a retail individual and select tab 'Business' if you are applying on behalf of your small-medium business.
- **Product Category Selection:** Once you have selected a user type, all the product categories that contain products for the specific user type, are displayed. Select any product category of choice.
- **Product Selection:** All the products belonging to the selected product category will be listed here. Each product will be listed as a separate card which will display the name and image of the product along with a short description, features and the options to view further details, or to apply for the product. The additional option to select the product so as to compare it with others within the same category will also be provided on each card. You can select a maximum of three products for comparison.
- **Kick Off:** This page serves as an introduction to the application form. The various steps involved in an application are displayed on this page. You can also view the documents required to be uploaded as part of the application. As a business applicant, you can identify how you are going to proceed with the application. If your business is new to the bank, you can continue as a guest, or if your business has an existing relationship with the bank, you can select the provided option to simply login with your online banking credentials so as to have certain sections such as Business Details and Business Finances pre-populated in the application.
- **Mobile Verification:** This step is applicable if you are filling out the application as a new/unregistered business customer. You will be instructed to enter your registered business mobile number, after which the system will identify whether the mobile number is already registered with the bank or not. You will then be required to enter the OTP sent to this mobile number in order to proceed with the application form.
- **Business Details:** This section captures information related to your business which includes information such as the business legal name, date and country of registration, registered address and other contact details.
- **Business Finances:** In this section, you can enter information pertaining to the finances of the business, which will include income, expenses, assets and liabilities.
- **Stakeholder Information:** In this section, you can specify information pertaining to the stakeholders of the business. This will include basic information such as the relationship of the stakeholder with the business, date of association and ownership percentage, depending on the type of stakeholder (relationship with the business). Depending on whether the stakeholder is an existing customer of the bank or if they are new to the bank, you will either be required to simply capture basic information such as customer ID, name, date of birth or extensive information including address and contact details.
- **Upload Documents:** Upload documents is not available as a separate step in the application form, rather it is provided inline with every step that supports OCR and for which document proof would be required. The steps for which the option to upload documents is provided are – Business Details, Business Financials, Stakeholder Information (only in the case of prospect stakeholders).
- **Loan Requirements:** The loan information section in the SMB Loan application forms will capture information pertaining to the purpose of the loan, the estimated cost, customer contribution, etc.

- **Collateral:** In the section you can specify information related to any collateral of the business that can be mentioned to support the loan application. You can add multiple collateral records as required.
- **Disbursement and Repayment:** In this section, you can specify details of the account in which the sanctioned loan amount is to be disbursed along with details of the account from which the regular loan repayments are to be made. This section will be part of the application form only in case the capture of disbursement and repayment information is mandatory for the product selected.
- **Review and Submit:** Once you have filled out all the information required in the application form, you will be displayed this information on the review page. You can verify the details provided and if required, can edit the information in any sections by selecting the option provided against each section.
- **Terms of Service:** On having reviewed the application, you can then proceed to view the terms and conditions of the term loan that is being applying for. You can also add a digital signature by means of uploading a document containing your (a stakeholder's) signature or by physically signing the provided space if you are filling out the application from a touchscreen device.
- **Confirmation:** Once you have submitted your application after having reviewed it and having accepted the terms and conditions, a confirmation page will be displayed. This page will display a success message along with the application reference number. You can track your application on the basis of this reference number. Additionally, this page will also contain a button, by clicking on which you can navigate to the application tracker.

Apart from the **Review and Submit** and **Confirmation** steps, the sequence of the remaining steps may vary based on the configuration maintained for the product applications, by the bank.

2.4 Kick Off page

This page displays the various steps involved in the Term Loan application and provides the means by which you can proceed with the application. If your business has an existing relationship with the bank, you can select the provided option to Login with the business' login credentials. This will yield an application form that is much shorter than that of the form you would be required to fill, if your business was new to the bank. In this scenario, since the information of your business is already available with the bank, you would not be required to specify Business Details. Additionally, all the existing financial information of your business will be displayed under the Business Finances section and you can update this information as required. If your business is new to the bank, you can select the option as provided, and proceed to provide information related to your business details, business finances, add stakeholders, etc.

Additionally, this page also provides links and information to:

- View the list of supporting documents required to be uploaded as part of a Term Loan application.
- Information pertaining to the application being saved and how you can retrieve it.
- Terms and conditions that need to be met in order to apply for the product.

Kick Off page

The screenshot shows the 'Ready to Apply' page for an SMB Term Loan on the Futura Bank website. The page has a dark blue header with the Futura Bank logo, a search bar, and links for 'ATM & Branch Locator', 'English', and 'RPM 14.4 OBDXBI8'. Below the header, the page title 'SMB Term Loan' is displayed. The main content area is titled 'Ready to Apply?' and includes a prompt: 'Please check the following eligibility criteria before you begin.' A box titled 'Check Your Eligibility' contains two bullet points: 'You (the applicant) and all stakeholders have attained the age of legal majority.' and 'You are the owner or are authorized to apply on behalf of the business.' Below this box is a 'Read more' link. Further down, there is a checkbox labeled 'The business is an Online Banking Customer of Futura Bank' with the text 'Login for a faster application experience' underneath it. An 'Apply Now' button is located at the bottom center of the main content area. A red chat bubble icon is visible in the bottom right corner. At the very bottom, a small copyright notice reads: 'Copyright © 2009, 2023, Oracle and/or its affiliates. All rights reserved. [Security|Information|Terms and Conditions]'.

5. Click on the **View List** link. An overlay window on which the list of documents required to support the application for the selected product, will be listed.
6. Click on the **View Privacy Policy** link to view the privacy policy of the bank on a new tab within the same browser window.
7. Select the **I am a Futura Bank online banking customer** option if the you are an existing online banking customer of the bank. The **Login** page will appear after you click on the **Apply Now** button.
For more information on the application of an existing online banking customer, view the **Existing Online Banking Customer** section.

2.5 Mobile Verification

This step is applicable only for prospect/guest customers. This check is used to register guest customers so that they can track submitted applications and also retrieve applications that were abandoned before submission. This check is also used to identify whether the applicant is truly a new customer or if he/she is already an existing customer of the bank. Additionally, the system is able to identify if there are any existing applications in draft mode for the mobile number defined and can provide applicants with the option to continue with those applications if they wish to do so.

Once the mobile verification process is completed, the auto save capability of the application is enabled. Any entry/changes you make to the application form will get saved automatically.

Mobile Verification - Enter Business Mobile Number

The screenshot shows the Futura Bank mobile verification interface. At the top, there's a navigation bar with 'ATM & Branch Locator', 'English', and 'OBO 14.4'. Below this is a search bar with the placeholder 'What would you like to do today?'. The main heading is 'SMB Term Loan'. The central graphic shows a person standing next to a large smartphone displaying a checkmark and stars. The text 'Verify your business mobile number' is prominently displayed, followed by 'We will send you a one time password (OTP)'. Below this, there's a section for 'Business Mobile Number' with a dropdown for the country code (currently '+1') and a text input field for the number (currently '(212) 111-1111'). At the bottom, there are two buttons: 'Send OTP' and 'Back'. A footer contains copyright information: 'Copyright © 2006, 2023, Oracle and/or its affiliates. 2.7 Stakeholder Information

In this section you can specify information pertaining to the stakeholders of the business. By default, capture of atleast one stakeholder is mandatory. You will be required to first specify information related to the type of stakeholder i.e. whether the stakeholder is an owner or an authorized signatory and specify additional information if the stakeholder is an owner. Additionally, you will also be required to specify whether the stakeholder is new to the bank or has an existing relationship with the bank. Based on this information, you will either be required to specify extensive information including personal, contact and identify, if the stakeholder is new to the bank; or simply specify basic information such as customer ID, name and date of birth, if the stakeholder is an existing customer of the bank.

The following sub sections document the information captured under the stakeholder information section.

Stakeholder Information – Step1 – Stakeholder 1

The screenshot displays the Futura Bank SMB Term Loan application interface. At the top, there is a navigation bar with 'ATM & Branch Locator', 'English', and 'OBO 14.4'. Below this is a search bar with the placeholder text 'What would you like to do today?'. The main header shows 'SMB Term Loan' with an upward arrow. A progress bar indicates the current step is '2 Stakeholder Information', with other steps being '1 Business Details', '3 Business Finances', '4 Loan Requirements Term Loan', '5 Collateral Information', and '6 Disbursement and Repayment Term Loan'. The 'Stakeholder 1' section prompts the user to 'Please add details of the stakeholder'. It includes a dropdown for 'Relationship to the Business' (set to 'Owner'), a date field for 'Associated Since' (set to '3/1/18'), and a text field for 'Ownership Percentage' (set to '100 %'). Below these fields is a question 'Is the stakeholder an existing customer of the bank?' with radio buttons for 'Yes' and 'No' (selected). At the bottom of the form are 'Continue' and 'Back' buttons, and a note 'Scan QR-code anytime to continue on mobile.' The footer contains the copyright notice: 'Copyright © 2006, 2023, Oracle and/or its affiliates. All rights reserved.[Security|Information] Terms and Conditions'.

2.11 Disbursement and Repayment

In this section of the application form, you can specify details of the account in which you would like the loan amount to be disbursed once the bank processes your application form and sanctions the loan amount. You can also specify information pertaining to the account from which you intend on making loan repayments.

In case you are an existing online banking customer, all the checking and savings accounts that your business holds with the bank will be displayed and available for selection. You can alternately, specify information of accounts that you hold with other banks if you want the loan amount disbursed into an external bank account or wish to make repayments from an account held with another bank.

Disbursement

The screenshot shows the 'Disbursement & Repayment' section of the Futura Bank SMB Term Loan application. At the top, a progress bar indicates the current step is 'Disbursement and Repayment Term Loan' (Step 6), with previous steps like 'Business Details', 'Stakeholder Information', 'Business Finances', 'Loan Requirements Term Loan', and 'Collateral Information' marked as complete. The main heading is 'Disbursement & Repayment' with the instruction 'Specify account information.' Below this, there are two tabs: 'Disbursement' (selected) and 'Repayment'. Under the 'Disbursement' tab, there is a 'Capture Later' toggle switch. The form fields include 'Account Name' (Smith John), 'Account Number' (masked with dots), and 'Confirm Account Number' (4455617). Below these is the 'Bank Details' section, showing 'HDFC Bank', 'HDFC0000101', 'Address Line 1', 'Mumbai', and a link to 'Reset BIC Code'. At the bottom, there are 'Continue' and 'Back' buttons, and a note to 'Scan QR-code anytime to continue on mobile.' 2.15 Existing User

An application form being initiated for a business that is an existing online banking customer of the bank (registered user) will differ from that of one being initiated for a business that has no existing relationship with the bank.

You will be able to apply as an existing business customer by selecting the provided option on the kickoff page and proceeding to specify the business' login credentials.

The term loan application form for existing business customers will comprise of the following sections:

1. **Business Details** – This page will display basic information of the business. There will be no option provided to edit this information as part of the application form.
2. **Business Finances** – This page will display financial information of the business that is already maintained with the bank. The applicant will be able to add additional financial information in the Income, Expenses, Assets and Liabilities sub sections and will also be able to modify information already present, as required.
3. **Stakeholder Information** – This section will enable the business applicant to specify information pertaining to the stakeholders of the business. The applicant can opt to add multiple stakeholders, as required. Please refer the Stakeholder Information sections in this user manual for details.
4. **Loan Requirement Term Loan** - This section will be part of the application form and you will be required to specify information related to the loan such as loan amount and tenure of the loan, etc.
5. **Collateral** - In this section you can specify information pertaining to the collateral to be added against the loan. You can add multiple collateral records.
6. **Disbursement & Repayment** –In this section you will be required to specify information pertaining to the account in which you wish to have the loan amount disbursed and also specify information related to the account from which you will be making regular payments to the bank towards repayment of the loan.
7. **Terms of Service** – You will be required to read through and accept the terms and conditions related to the online application of the product you have selected.
8. **Confirm** – Once you have submitted your application, you will be displayed a confirmation page. The application reference number along with the link to access the Application Tracker will be displayed.

FAQ

- 1. Can I proceed with the application if the business is an existing customer of the bank but does not have online banking access?**

No. In order to apply online, your business needs to have online banking access. Please contact the bank for information on how to gain access to online banking services for business customers.

- 2. How many products can I apply for as part of a bundled application?**

Out of the box, you can add a maximum of three products in a bundle. This number is configurable by the Bank and may change.

- 3. In case my application is saved as a draft, can I request a bank executive to complete this application on my behalf?**

Only you can resume and complete a draft application.

- 4. Can I cancel one of the product applications that has been submitted as part of a bundled application?**

No. Currently, it is not possible to cancel a specific product application that is part of a bundled application. You can however, cancel the entire bundled application, if you wish to do so.

- 5. If I am applying for a product for a business that is an existing customer of the bank, can I update the business' information in the Business Details section while initiating an application?**

No, you cannot update any information of the business that is displayed as part of the Business Details section when applying on behalf of a business that is an existing online banking customer. You may contact the bank to update this information before applying for a new product.

- 6. For how long I can access and resume my applications that are saved as drafts?**

This is based on the Bank's purging policy. The draft applications will be available for x days in the application tracker before they are purged by the bank.

- 7. Can I apply for a product that I have already applied for and that the bank is currently processing?**

Yes, you can still submit an application for the same product. The decision to process or reject either of the two (or more) applications will rest on the bank.

- 8. I have started my application on my laptop. However, I have realized that some of the documents that I need to upload are available on my tablet. Do I need to abandon the application that I started on my laptop to restart the entire process on my tablet?**

No, you can scan the QR code available on every step of the application form, post the Mobile Verification step, and resume the application from your tablet or mobile device.

9. Can bank administrators define the sequence in the steps of the application forms?

Yes, bank administrators can configure the sequence of steps in the application forms of all product categories supported for online application, through the Origination Workflow Maintenance feature available on the OBDX platform.

10. How does OCR work?

The bank can integrate with the third party adapters that provide OCR services, through available hook points. The system will be able to prefill certain fields in the Personal Information section from data fetched from the applicant's uploaded documents.

Similarly, an out of box integration is available with the internal 'Document verification framework'.

Extensibility hooks can be used to support OCR for most identity and financial documents.
