Table of Contents

1. Preface

1.1 Purpose

Welcome to the User Guide for Oracle Banking Digital Experience. This guide explains the operations that the user will follow while using the application.

1.2 Audience

This manual is intended for Customers and Partners who setup and use Oracle Banking Digital Experience.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit, http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

1.4 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.5 Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
Italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
`monospace`	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.6 Screenshot Disclaimer

The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

1.7 Acronyms and Abbreviations

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

Abbreviation	Description
OBDX	Oracle Banking Digital Experience

2. Accounts

Current and savings accounts are the most basic and critical products of retail banking. Most banking customers hold either a current or a savings account with their banks. Banks, in turn, encourage the use of current or savings accounts as it results in a higher profit margin for the bank.

This application provides a platform by which banks are able to offer their customers an enriching online banking experience in performing activities on their accounts.

Through the online banking application, customers can perform various activities on their accounts. Customers can view account balances and statements, initiate service requests and perform other inquiries as well as perform financial transactions on their accounts.

Features Supported In the Application:

The retail accounts module of the application supports the following features:

- Overview Widget
- Current & Savings Accounts Summary
- Current & Savings Account Details
- Reset Debit Cards PIN
- Cheque Book Request
- Cheque Status Inquiry
- Stop/Unblock Cheque
- View Account Statement
- Request Statement
- Download Pre-Generated Statements

Pre-Requisites

- Transaction access is provided to retail users
- CASA (Current and Savings Account) accounts are maintained in the host system under a party ID mapped to the user

---

Note: In application
1) Account searchable drop-down will allow user to search the account number basis on the Account Number, Account Name, Account Currency or Branch Code.
2) Bank can configure the fields to be shown as additional values in the accounts drop-down.
3) International Bank Account Number (IBAN) is now available in account searchable drop-down in place of current and savings account (CASA) number.

2.1 Overview Widget

The retail dashboard page displays an overview of the customer's holdings with the bank as well as links to various transactions offered to the customer. The **Overview** widget displays the customer's holdings in each account type such as Current and Savings Accounts, Term Deposits, Loans, Credit Cards, and Investments. It is a container and user can scroll from left to right, right to left. Each relationship card displays details specific to that account type. One such example is that of Current & Savings accounts.

On clicking on account type **Current & Savings card**, details of the current and savings accounts held with the bank are displayed on next page. The Current & Savings Accounts summary page provides users with a holistic view of all their both Islamic and Conventional accounts along with the basic details of each current & savings account.

General details such as the total count of current & savings accounts and the total current balance, are also displayed.

On Summary page the basic details of individual accounts are displayed as record. Each record displays basic information of the account which comprises of the account number, Available Balance, Current Balance, Product Name, Status and the **More Actions** menu.

Note:
The Overview widget is available on both desktop and mobile (responsive) view.
If the retail user does not have any Current & Savings accounts, system displays the text message and the card which re-directs user to the origination flow to apply for a CASA account.

3. Current & Savings Accounts Summary

The Current & Savings Accounts summary page provides users with a holistic view of all their current and savings accounts held with the bank.

All the Current & Savings accounts of the user are listed as records. Each record comprises of information such as account number, status (only in case of dormant accounts), account nickname (if assigned), product name, current balance, and available balance. Click on the specific account to view further details of that account or view the summary of transactions undertaken through that account.

Note: If the retail user does not have any Current & Savings accounts, system displays the text message and the card which re-directs user to the origination flow to apply for a CASA accoun1) If the user does not have any Current & Savings accounts, system displays the text message and the card which re-directs user to the origination flow to apply for a CASA account.
2) The left swipe and Long Press gesture is implemented on mobile and tablets devices.

Long press gesture - Users can now press and hold down on a screen for an extended duration, which displays additional options or actions. This feature is available on Account Listing, which triggers Cheque Book Request, Request Statement actions.

The **More Actions** menu on the right top corner of the page lists the relevant allowed actions based on the module. The user can also navigate to other Current and Savings account related screens from the **More Actions** menu provided on the screen.

Utilizing the **'Manage Columns'** feature, users are empowered to tailor their display preferences to suit their individual needs. This includes the ability to handpick the columns they wish to see and rearrange them in the order that best aligns with their personal preferences. These customized preferences will be securely saved and persist for all subsequent logins, ensuring a seamless and personalized experience each time they access the platform.

Note:
1) The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
2) The column preferences setup by the user will be saved for future reference i.e. in case the user revisits this screen, the preferred columns will only be displayed in the table.

How to reach here:

Dashboard > Toggle Menu > Menu > Accounts > Current & Savings Accounts tab

OR
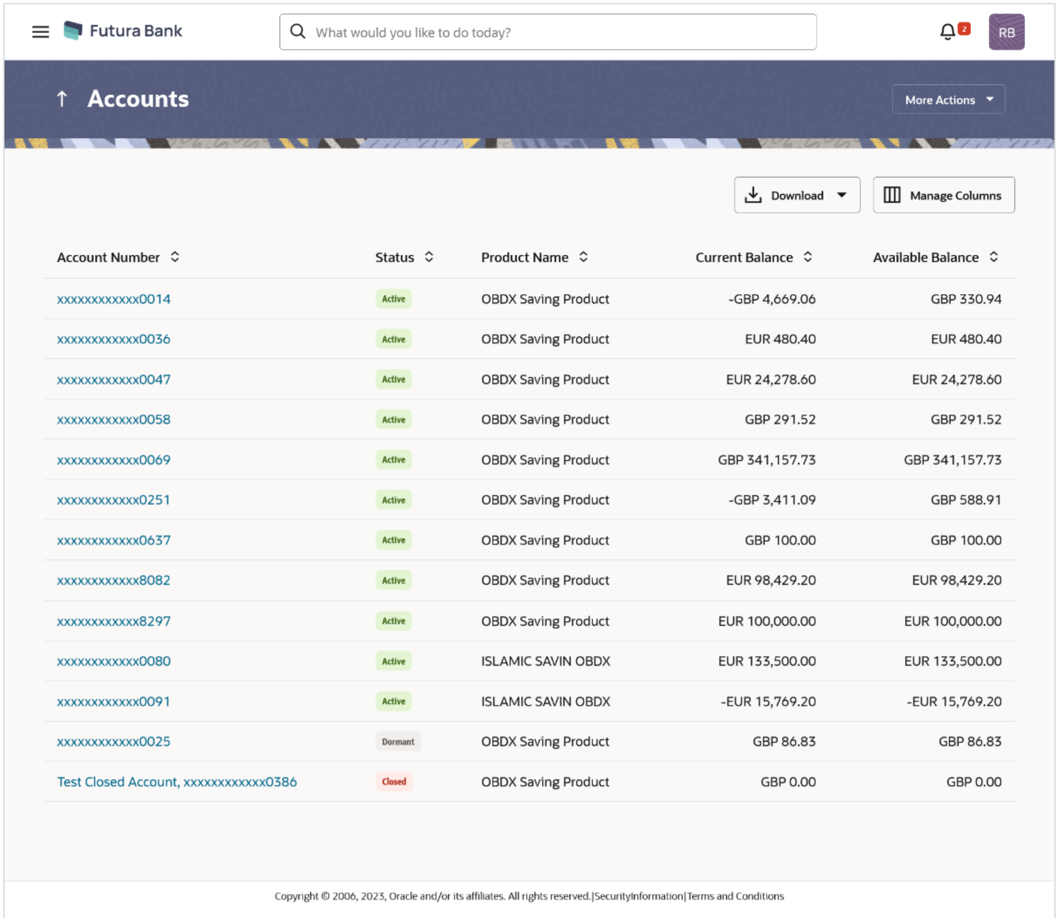
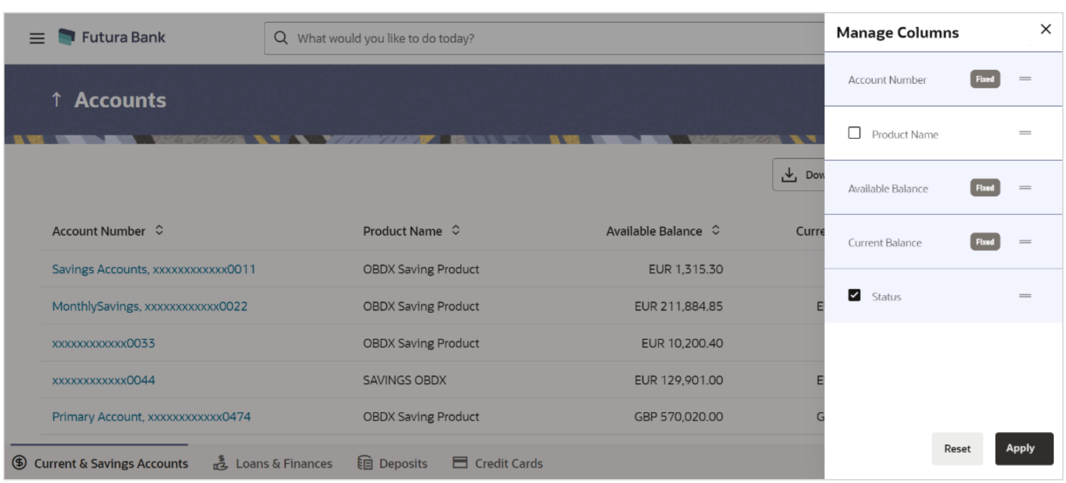
*Access through the **Current & Savings** tab available on footer of all pages*

Current & Savings Accounts



Current & Savings Accounts – Manage Columns setup



Field Description

Field Name	Description
Account Number	The account number in masked format. Click on the link to view the details or transactions summary of the account.
Nickname	The account nickname will be displayed under the Account Number column if a nickname is assigned to the account.
Status	If the account is in dormant state, the status tag 'Dormant' will be displayed against the account. **Note:** The summary page will only list active and dormant Current & Savings accounts.
Product Name	The name of the CASA product.
Current Balance	The current balance in the account.
Available Balance	The available balance in the account.

- Click on the **More Actions** menu to access other Current and Savings account related transactions.
  OR
  Click on the Download to download the records in CSV & PDF format.
  OR
  Click on the Manage Columns to setup a column preference by rearranging or removing columns.

1. Click **Apply** to apply the new changes to the table.
   OR
   Click **Reset** to clear the data entered.

4. Current & Savings Account Details

The account details screen displays important information pertaining to a current or savings account such as the account holding pattern and the names of all the account holders, the current status of the account and the branch in which the account is held along with details on various balances and limits applicable on the account. The details are displayed under four main section **Account Details, Recent Transactions, Debit Cards**, and **Additional Information**. To navigate between the different sections, **Recent Transactions, Debit Cards,** and **Additional Information** the user can use the bookmark options available on top right corner.

The **Account Details** section provide general information about the account such as the current balance, nickname, status of the account and product name, unclear funds, and overdraft limit. The **Recent Transactions** sections displays the debit and credit entries along with each transaction amount and reference details. The **Debit Cards** section lists all the Debit Card/s linked to the account in the card form and also to apply for a new debit card on any of their accounts. The **Additional Information** section displays the account holding pattern and the names of all the account holders, the branch in which the account is held along with details on various balances and limits applicable on the account. It has feature to generate the QR to receive payment. Users can account details via a QR code, so that within-bank account holders can initiate payments using the Scan and Pay QR code functionality.

Note:
1) This feature is available from scan to pay from both pre and post login case.
2) Desktop platforms support the **Download** function exclusively, and mobile platforms support both **Download** and **Share** functions.

City	The customer can filter branches based on city.
Branch Near Me	The customer can select a branch at which the cheque book is to be delivered. The names of all the branches in the city selected in the previous field will be displayed. Note**:** The options in this field depend on the selected option in the **City** field.
Branch Address	The complete address of the branch selected will be displayed once the customer selects a branch. Note: The address displayed here depends on the selected option in the **Branch Near Me** field.

To request a cheque book:

1. From the **Account Number** list, select the current or savings account for which a cheque book is to be requested.
1. From the **Type of Cheque Book** list, select the desired option.
2. From the **Number of Leaves per Book** list, select the number of leaves required in each cheque book.
3. In the **Number of Cheque Book** field, specify the required number of cheque books.
4. In the **Address Type** field, select the delivery location of choice.
   a. If you select the **Branch Near Me** option as delivery location:
      i. From the **City** list, select the desired city.
      ii. From the **Branch Near Me** list, select the desired branch.
      The complete address of the selected branch appears.
5. Click **Submit** to submit the cheque book request.
   OR
   Click **Cancel** to cancel the transaction.
6. The **Confirmation** popup appears.
   Click **Yes** to proceed.
   OR
   Click **No** to cancel the transaction..
7. The success message of cheque book request along with the transaction reference number appears.

   Click **Transaction Details** to view the details of the transaction.
   OR
   Click **Account Details** to view the account details.
   OR
   Click on the **View Accounts** link to visit Current & Savings Accounts Summary page.
   OR
   Click on the **View Transactions** link to view the related transactions.
   OR
   Click on the **Go To Dashboard** link to navigate back to dashboard page.

6. Cheque Status Inquiry

The **Cheque Status Inquiry** transaction enables customers to view the status of cheques written by them at any point of time. The customer can view the status of either a single cheque by providing a cheque number or that of a cheque series by defining a cheque range. Customers can also search for cheques based on their status i.e. used, not used, stopped, etc.

Note:
1) The **Cheque Range** and **Cheque Status** fields are displayed if the Oracle Banking Digital Banking Experience application is integrated with **Universal Banking Solutions** and the region is not **India**.
2) The left swipe and Long Press gesture is implemented on mobile and tablets devices.
Swipe gesture **-** This feature is available on Cheque Status Inquiry.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen.

By clicking on '**Manage Columns** option available on the screen, user can

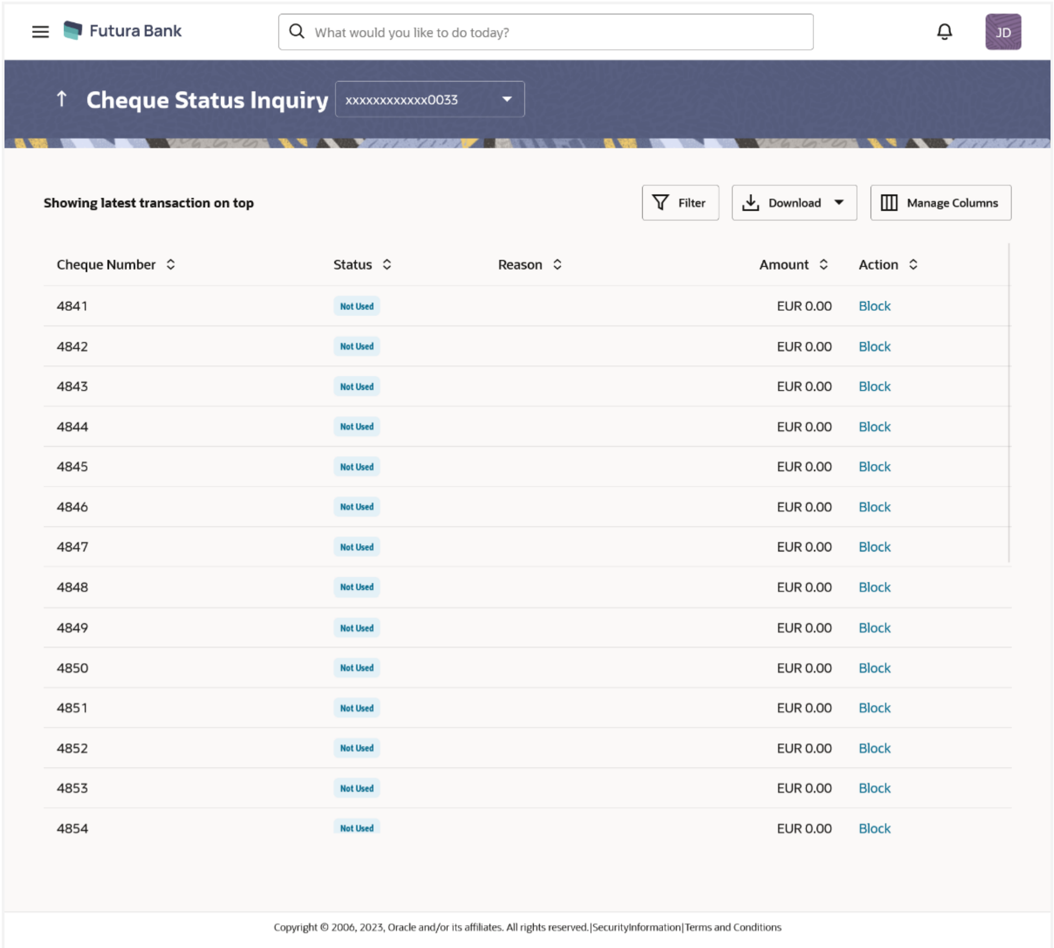
- Rearrange columns
- Remove specific columns.

Note:
1) The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
2) The column preferences setup by the user will be saved for future reference i.e. in case the user revisits this screen, the preferred columns will only be displayed in the table.

How to reach here:

Dashboard > Toggle Menu > Menu > Accounts > Current &Savings Accounts tab > Click on the Current & Savings Account Number > Current & Savings Account Details > More Actions > Cheque Status Inquiry
OR
Dashboard > Overview widget > Current &Savings card > Current &Savings Accounts tab > Click on the Current & Savings Account > Current & Savings Accounts Details > More Actions > Cheque Status Inquiry
OR
Search bar > Current & Savings – Cheque Status Inquiry

Cheque Status Inquiry



Cheque Status Inquiry- Filter

---

b. Click **Apply** to apply the search criteria.
The results of the cheque status inquiry appear.
OR
Click **Reset** to clear the data entered.

7. Stop/ Unblock Cheque

Cheques are physical instruments used for the purpose of making payments. A customer might require to block a cheque payment in case the cheque has been lost or stolen. Hence it is critical to provide an option to stop such cheques so that they cannot be misused.

The Stop/ Unblock cheque feature enables a customer to stop a cheque that has been issued for making payment. In order to request for a cheque to be stopped, the customer will have to specify the account number from which the cheque has been issued as well as the cheque number and the reason for which the request is being raised. In addition to requesting for a stop cheque on a specific cheque, the customer can also request for a stop cheque to be performed on a cheque series by specifying the cheque range.

Additionally customers can also request for a cheque or cheque range that has been stopped or blocked to be unblocked.

Both stop cheque as well as unblock cheque requests are online i.e. do not require manual intervention by a bank official and the specific cheque or cheque range is immediately stopped or unblocked based on the request raised.

How to reach here:

Dashboard > Toggle Menu > Menu > Accounts > Current &Savings Accounts tab > Click on the Current & Savings Account Number > Current & Savings Account Details > More Actions > Stop/Unblock Cheque
OR
Dashboard > Overview widget > Current &Savings card > Current &Savings Accounts tab > Click on the Current & Savings Account > Current &Savings Accounts Details > More Actions > Stop/Unblock Cheque
OR
Search bar > Current & Savings – Stop/Unblock Cheque

9. Account Nickname

Customer can assign a specific name to a current or savings account. This is useful if customer wishes to remember accounts with a particular name instead of account numbers. Once a nickname is assigned to an account, it is displayed on various transactions instead of the standard account description. The application also allows customer to modify or delete the nickname whenever required.

The customer can access this option by selecting the **Add/Edit Nickname** option from the kebab menu.

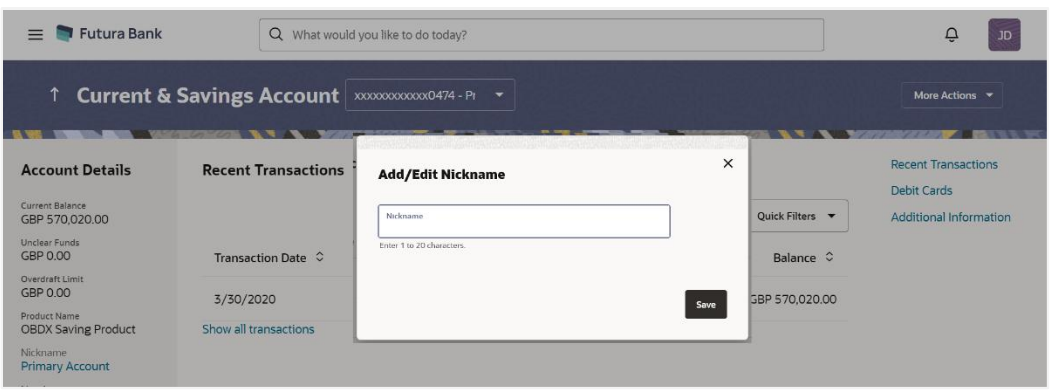
How to reach here:

Dashboard > Toggle Menu > Menu > Accounts > Current & Savings Accounts tab > Click on the Current & Savings Account Number > Current & Savings Account Details > Account Details section

To add/edit nickname against an account:

1. Click on the **Add** link if nickname is not assigned to the account.
   OR
   Click on the nickname if nickname is already been assigned to modify the nickname. The **Add/Edit Nickname** popup appears.

Add/Edit Nickname



Field Description

Field Name	Description
Nickname	Specify a nickname to be assigned to the account. If a nickname has already been assigned to the account, it will be displayed in editable mode.

2. In the **Nickname** field, enter the nickname you want to use.

3. Click **Save** to save your changes.
   Nicknames will be displayed on various transactions instead of the standard account description.
   OR
   Click **Delete** to delete the nickname.

FAQs

1. **What is the advantage of assigning a nickname to an account?**

   You can personalize your account by giving it a nickname. This way you will be able to easily identify it when viewing account summary.

2. **Can I assign a nickname to a joint account?**

   Yes, you can add nickname to any account of which you are the primary holder.

3. **Can I have multiple debit cards linked to a CASA account?**

   This depends on the features of the specific current or savings account. Generally, in joint accounts, both the primary account holder as well as the joint holder are provided a debit card each.

4. **If a lost debit card is found and restored to the cardholder, can it be reactivated?**

   If the card is hotlisted, it cannot be reactivated, you can make a request for a new debit card. However, if the card was blocked, it can be unblocked and reused.
