| | | royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of such Contributor,<br>if any, in Source Code or other form. This patent license shall<br>apply to the combination of the Contribution and the Program if, at<br>the time the Contribution is added by the Contributor, such addition<br>of the Contribution causes such combination to be covered by the<br>Licensed Patents. The patent license shall not apply to any other<br>combinations which include the Contribution. No hardware per se is<br>licensed hereunder.<br>c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity.<br>Each Contributor disclaims any liability to Recipient for claims<br>brought by any other entity based on infringement of intellectual<br>property rights or otherwise. As a condition to exercising the<br>rights and licenses granted hereunder, each Recipient hereby<br>assumes sole responsibility to secure any other intellectual<br>property rights needed, if any. For example, if a third party<br>patent license is required to allow Recipient to Distribute the<br>Program, it is Recipient's responsibility to acquire that license<br>before distributing the Program.<br>d) Each Contributor represents that to its knowledge it has<br>sufficient copyright rights in its Contribution, if any, to grant |

| | | |
|---|---|---|
| | | the copyright license set forth in this Agreement.<br>e) Notwithstanding the terms of any Secondary License, no<br>Contributor makes additional grants to any Recipient (other than<br>those set forth in this Agreement) as a result of such Recipient's<br>receipt of the Program under the terms of a Secondary License<br>(if permitted under the terms of Section 3).<br>3. REQUIREMENTS<br>3.1 If a Contributor Distributes the Program in any form, then:<br>a) the Program must also be made available as Source Code, in<br>accordance with section 3.2, and the Contributor must accompany<br>the Program with a statement that the Source Code for the Program<br>is available under this Agreement, and informs Recipients how to<br>obtain it in a reasonable manner on or through a medium customarily<br>used for software exchange; and<br>b) the Contributor may Distribute the Program under a license<br>different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all<br>warranties and conditions, express and implied, including<br>warranties or conditions of title and non-infringement, and<br>implied warranties or conditions of merchantability and fitness<br>for a particular purpose;<br>ii) effectively excludes on behalf of all other Contributors all<br>liability for damages, including direct, indirect, special,<br>incidental and consequential damages, such as lost profits;<br>iii) does not attempt to limit or alter the recipients' rights<br>in the Source Code under section 3.2; and<br>iv) requires any subsequent distribution of the Program by any<br>party to be under a license that satisfies the requirements<br>of this section 3.<br>3.2 When the Program is Distributed as Source Code:<br>a) it must be made available under this Agreement, or if the<br>Program (i) is combined with other material in a |

| | | |
|---|---|---|
| | | separate file or<br>files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br>4. COMMERCIAL DISTRIBUTION<br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial |

| | | |
|---|---|---|
| | | Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages.<br>5. NO WARRANTY<br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS"<br>BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR<br>IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF<br>TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR<br>PURPOSE. Each Recipient is solely responsible for determining the<br>appropriateness of using and distributing the Program and assumes all<br>risks associated with its exercise of rights under this Agreement,<br>including but not limited to the risks and costs of program errors,<br>compliance with applicable laws, damage to or loss of data, programs<br>or equipment, and unavailability or interruption of operations.<br>6. DISCLAIMER OF LIABILITY<br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS<br>SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, |

| | | |
|---|---|---|
| | | EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.<br>7. GENERAL<br>If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.<br>If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.<br>All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable.<br>However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.<br>Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including |

| | | |
|---|---|---|
| | | revisions) of<br>this Agreement from time to time. No one other than the Agreement<br>Steward has the right to modify this Agreement. The Eclipse Foundation<br>is the initial Agreement Steward. The Eclipse Foundation may assign the<br>responsibility to serve as the Agreement Steward to a suitable separate<br>entity. Each new version of the Agreement will be given a distinguishing<br>version number. The Program (including Contributions) may always be<br>Distributed subject to the version of the Agreement under which it was<br>received. In addition, after a new version of the Agreement is published,<br>Contributor may elect to Distribute the Program (including its<br>Contributions) under the new version.<br>Except as expressly stated in Sections 2(a) and 2(b) above, Recipient<br>receives no rights or licenses to the intellectual property of any<br>Contributor under this Agreement, whether expressly, by implication,<br>estoppel or otherwise. All rights in the Program not expressly granted<br>under this Agreement are reserved. Nothing in this Agreement is intended<br>to be enforceable by any entity that is not a Contributor or Recipient.<br>No third-party beneficiary rights are created under this Agreement.<br>Exhibit A - Form of Secondary Licenses Notice<br>"This Source Code may also be made available under the following<br>Secondary Licenses when the conditions for such availability set forth<br>in the Eclipse Public License, v. 2.0 are satisfied: {name license(s),<br>version(s), and exceptions or additional permissions here}."<br>Simply including a copy of this Agreement, including this Exhibit A<br>is not sufficient to license the Source Code under Secondary Licenses.<br>If it is not possible or desirable to put the notice in a particular<br>file, then You may include the notice in a location (such as a LICENSE<br>file in a relevant directory) where a recipient would be likely to<br>look for such a notice.<br>You may add additional accurate notices of copyright ownership. |

Definitions.<br>"License" shall mean the terms and conditions for use, reproduction,<br>and distribution as defined by Sections 1 through 9 of this document.<br>"Licensor" shall mean the copyright owner or entity authorized by<br>the copyright owner that is granting the License.<br>"Legal Entity" shall mean the union of the acting entity and all<br>other entities that control, are controlled by, or are under common<br>control with that entity. For the purposes of this definition, |

| | | |
|---|---|---|
| | | "control" means (i) the power, direct or indirect, to cause the<br>direction or management of such entity, whether by contract or<br>otherwise, or (ii) ownership of fifty percent (50%) or more of the<br>outstanding shares, or (iii) beneficial ownership of such entity.<br>"You" (or "Your") shall mean an individual or Legal Entity<br>exercising permissions granted by this License.<br>"Source" form shall mean the preferred form for making modifications,<br>including but not limited to software source code, documentation<br>source, and configuration files.<br>"Object" form shall mean any form resulting from mechanical<br>transformation or translation of a Source form, including but<br>not limited to compiled object code, generated documentation,<br>and conversions to other media types.<br>"Work" shall mean the work of authorship, whether in Source or<br>Object form, made available under the License, as indicated by a<br>copyright notice that is included in or attached to the work<br>(an example is provided in the Appendix below).<br>"Derivative Works" shall mean any work, whether in Source or Object<br>form, that is based on (or derived from) the Work and for which the<br>editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of authorship. For the purposes<br>of this License, Derivative Works shall not include works that remain<br>separable from, or merely link (or bind by name) to the interfaces of,<br>the Work and Derivative Works thereof.<br>"Contribution" shall mean any work of authorship, including<br>the original version of the Work and any modifications or additions<br>to that Work or Derivative Works thereof, that is intentionally<br>submitted to Licensor for inclusion in the Work by the copyright owner<br>or by an individual or Legal Entity authorized to submit on behalf of<br>the copyright owner. |---|---|---|
| | | use, reproduction,<br>and distribution as defined by Sections 1 through 9 of this document.<br>"Licensor" shall mean the copyright owner or entity authorized by<br>the copyright owner that is granting the License.<br>"Legal Entity" shall mean the union of the acting entity and all<br>other entities that control, are controlled by, or are under common<br>control with that entity. For the purposes of this definition,<br>"control" means (i) the power, direct or indirect, to cause the<br>direction or management of such entity, whether by contract or<br>otherwise, or (ii) ownership of fifty percent (50%) or more of the<br>outstanding shares, or (iii) beneficial ownership of such entity.<br>"You" (or "Your") shall mean an individual or Legal Entity<br>exercising permissions granted by this License.<br>"Source" form shall mean the preferred form for making modifications,<br>including but not limited to software source code, documentation<br>source, and configuration files.<br>"Object" form shall mean any form resulting from mechanical<br>transformation or translation of a Source form, including but<br>not limited to compiled object code, generated documentation,<br>and conversions to other media types.<br>"Work" shall mean the work of authorship, whether in Source or<br>Object form, made available under the License, as indicated by a<br>copyright notice that is included in or attached to the work<br>(an example is provided in the Appendix below).<br>"Derivative Works" shall mean any work, whether in Source or Object<br>form, that is based on (or derived from) the Work and for which the<br>editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of authorship. For the purposes<br>of this License, Derivative Works shall not include works that remain<br>separable from, or merely link (or bind by name) to the interfaces of,<br>the Work and Derivative Works thereof.<br>"Contribution" shall mean any work of authorship, |

| | | on infringement of<br>intellectual property rights or otherwise. As a condition to exercising the<br>rights and licenses granted hereunder, each Recipient hereby assumes sole<br>responsibility to secure any other intellectual property rights needed, if any.<br>For example, if a third party patent license is required to allow Recipient to<br>distribute the Program, it is Recipient's responsibility to acquire that license<br>before distributing the Program.<br>d) Each Contributor represents that to its knowledge it has sufficient copyright<br>rights in its Contribution, if any, to grant the copyright license set forth in<br>this Agreement.<br>3. REQUIREMENTS<br>A Contributor may choose to distribute the Program in object code form under its<br>own license agreement, provided that:<br>a) it complies with the terms and conditions of this Agreement; and<br>b) its license agreement:<br>i) effectively disclaims on behalf of all Contributors all warranties and<br>conditions, express and implied, including warranties or conditions of title and<br>non-infringement, and implied warranties or conditions of merchantability and<br>fitness for a particular purpose;<br>ii) effectively excludes on behalf of all Contributors all liability for<br>damages, including direct, indirect, special, incidental and consequential<br>damages, such as lost profits;<br>iii) states that any provisions which differ from this Agreement are offered by<br>that Contributor alone and not by any other party; and<br>iv) states that source code for the Program is available from such Contributor,<br>and informs licensees how to obtain it in a reasonable manner on or through a<br>medium customarily used for software exchange.<br>When the Program is made available in source code form:<br>a) it must be made available under this Agreement; and<br>b) a copy of this Agreement must be included with each copy of the Program.<br>Contributors may not remove or alter any copyright notices contained within the<br>Program.<br>Each Contributor must identify itself as the originator of its Contribution, if<br>any, in a manner that reasonably allows subsequent |

|---|---|---|
| | | Recipients to identify the originator of the Contribution. 4. COMMERCIAL DISTRIBUTION Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense. For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial |

| | | Contributor must pay those damages.<br>5. NO WARRANTY<br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN<br>"AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and<br>distributing the Program and assumes all risks associated with its exercise of<br>rights under this Agreement , including but not limited to the risks and costs<br>of program errors, compliance with applicable laws, damage to or loss of data,<br>programs or equipment, and unavailability or interruption of operations.<br>6. DISCLAIMER OF LIABILITY<br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL,<br>SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST<br>PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY<br>OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.<br>7. GENERAL<br>If any provision of this Agreement is invalid or unenforceable under applicable<br>law, it shall not affect the validity or enforceability of the remainder of the<br>terms of this Agreement, and without further action by the parties hereto, such<br>provision shall be reformed to the minimum extent necessary to make such<br>provision valid and enforceable.<br>If Recipient institutes patent litigation against any entity (including a<br>cross-claim or counterclaim in a lawsuit) alleging that the Program itself<br>(excluding combinations of the Program with other software or hardware)<br>infringes such Recipient's patent(s), then such Recipient's rights granted under |

| | | |
|---|---|---|
| | | Section 2(b) shall terminate as of the date such litigation is filed.<br>All Recipient's rights under this Agreement shall terminate if it fails to<br>comply with any of the material terms or conditions of this Agreement and does<br>not cure such failure in a reasonable period of time after becoming aware of<br>such noncompliance. If all Recipient's rights under this Agreement terminate,<br>Recipient agrees to cease use and distribution of the Program as soon as<br>reasonably practicable. However, Recipient's obligations under this Agreement<br>and any licenses granted by Recipient relating to the Program shall continue and<br>survive.<br>Everyone is permitted to copy and distribute copies of this Agreement, but in<br>order to avoid inconsistency the Agreement is copyrighted and may only be<br>modified in the following manner. The Agreement Steward reserves the right to<br>publish new versions (including revisions) of this Agreement from time to time.<br>No one other than the Agreement Steward has the right to modify this Agreement.<br>The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation<br>may assign the responsibility to serve as the Agreement Steward to a suitable<br>separate entity. Each new version of the Agreement will be given a<br>distinguishing version number. The Program (including Contributions) may always<br>be distributed subject to the version of the Agreement under which it was<br>received. In addition, after a new version of the Agreement is published,<br>Contributor may elect to distribute the Program (including its Contributions)<br>under the new version. Except as expressly stated in Sections 2(a) and 2(b)<br>above, Recipient receives no rights or licenses to the intellectual property of<br>any Contributor under this Agreement, whether expressly, by implication,<br>estoppel or otherwise. All rights in the Program not expressly granted under<br>this Agreement are reserved.<br>This Agreement is governed by the laws of the State of New York and the<br>intellectual property laws of the United States of America. ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.<br><br>1. DEFINITIONS<br><br>"Contribution" means:<br><br>a) in the case of the initial Contributor, the initial content |

| | | |
|---|---|---|
| | | Distributed under this Agreement, and<br><br>b) in the case of each subsequent Contributor:<br>i) changes to the Program, and<br>ii) additions to the Program;<br>where such changes and/or additions to the Program originate from<br>and are Distributed by that particular Contributor. A Contribution<br>"originates" from a Contributor if it was added to the Program by<br>such Contributor itself or anyone acting on such Contributor's behalf.<br>Contributions do not include changes or additions to the Program that<br>are not Modified Works.<br><br>"Contributor" means any person or entity that Distributes the Program.<br><br>"Licensed Patents" mean patent claims licensable by a Contributor which<br>are necessarily infringed by the use or sale of its Contribution alone<br>or when combined with the Program.<br><br>"Program" means the Contributions Distributed in accordance with this<br>Agreement.<br><br>"Recipient" means anyone who receives the Program under this Agreement<br>or any Secondary License (as applicable), including Contributors.<br><br>"Derivative Works" shall mean any work, whether in Source Code or other<br>form, that is based on (or derived from) the Program and for which the<br>editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of authorship.<br><br>"Modified Works" shall mean any work in Source Code or other form that<br>results from an addition to, deletion from, or modification of the<br>contents of the Program, including, for purposes of clarity any new file<br>in Source Code form that contains any contents of the Program. Modified<br>Works shall not include works that contain only declarations,<br>interfaces, types, classes, structures, or files of the Program solely |

| | | |
|---|---|---|
| | | in each case in order to link to, bind by name, or subclass the Program<br>or Modified Works thereof.<br><br>"Distribute" means the acts of a) distributing or b) making available<br>in any manner that enables the transfer of a copy.<br><br>"Source Code" means the form of a Program preferred for making<br>modifications, including but not limited to software source code,<br>documentation source, and configuration files.<br><br>"Secondary License" means either the GNU General Public License,<br>Version 2.0, or any later versions of that license, including any<br>exceptions or additional permissions as identified by the initial<br>Contributor.<br><br>2. GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of such Contributor,<br>if any, in Source Code or other form. This patent license shall<br>apply to the combination of the Contribution and the Program if, at<br>the time the Contribution is added by the Contributor, such addition<br>of the Contribution causes such combination to be covered by the<br>Licensed Patents. The patent license shall not apply to any other<br>combinations which include the Contribution. No hardware per se is<br>licensed hereunder. |

| | | |
|---|---|---|
| | | c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity.<br>Each Contributor disclaims any liability to Recipient for claims<br>brought by any other entity based on infringement of intellectual<br>property rights or otherwise. As a condition to exercising the<br>rights and licenses granted hereunder, each Recipient hereby<br>assumes sole responsibility to secure any other intellectual<br>property rights needed, if any. For example, if a third party<br>patent license is required to allow Recipient to Distribute the<br>Program, it is Recipient's responsibility to acquire that license<br>before distributing the Program.<br><br>d) Each Contributor represents that to its knowledge it has<br>sufficient copyright rights in its Contribution, if any, to grant<br>the copyright license set forth in this Agreement.<br><br>e) Notwithstanding the terms of any Secondary License, no<br>Contributor makes additional grants to any Recipient (other than<br>those set forth in this Agreement) as a result of such Recipient's<br>receipt of the Program under the terms of a Secondary License<br>(if permitted under the terms of Section 3).<br><br>3. REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in<br>accordance with section 3.2, and the Contributor must accompany<br>the Program with a statement that the Source Code for the Program<br>is available under this Agreement, and informs Recipients how to<br>obtain it in a reasonable manner on or through a |

| | | |
|---|---|---|
| | | medium customarily<br>used for software exchange; and<br><br>b) the Contributor may Distribute the Program under a license<br>different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all<br>warranties and conditions, express and implied, including<br>warranties or conditions of title and non-infringement, and<br>implied warranties or conditions of merchantability and fitness<br>for a particular purpose;<br><br>ii) effectively excludes on behalf of all other Contributors all<br>liability for damages, including direct, indirect, special,<br>incidental and consequential damages, such as lost profits;<br><br>iii) does not attempt to limit or alter the recipients' rights<br>in the Source Code under section 3.2; and<br><br>iv) requires any subsequent distribution of the Program by any<br>party to be under a license that satisfies the requirements<br>of this section 3.<br><br>3.2 When the Program is Distributed as Source Code:<br><br>a) it must be made available under this Agreement, or if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br><br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of |

| | | |
|---|---|---|
| | | warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then |

| | | |
|---|---|---|
| | | makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages.<br><br>5. NO WARRANTY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS"<br>BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR<br>IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF<br>TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR<br>PURPOSE. Each Recipient is solely responsible for determining the<br>appropriateness of using and distributing the Program and assumes all<br>risks associated with its exercise of rights under this Agreement,<br>including but not limited to the risks and costs of program errors,<br>compliance with applicable laws, damage to or loss of data, programs<br>or equipment, and unavailability or interruption of operations.<br><br>6. DISCLAIMER OF LIABILITY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS<br>SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL,<br>EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST<br>PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN<br>CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE)<br>ARISING IN ANY WAY OUT OF THE USE OR |

| | | |
|---|---|---|
| | | DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.<br><br>7. GENERAL<br><br>If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.<br><br>If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.<br><br>All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.<br><br>Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than |

| | | the Agreement<br>Steward has the right to modify this Agreement. The Eclipse Foundation<br>is the initial Agreement Steward. The Eclipse Foundation may assign the<br>responsibility to serve as the Agreement Steward to a suitable separate<br>entity. Each new version of the Agreement will be given a distinguishing<br>version number. The Program (including Contributions) may always be<br>Distributed subject to the version of the Agreement under which it was<br>received. In addition, after a new version of the Agreement is published,<br>Contributor may elect to Distribute the Program (including its<br>Contributions) under the new version.<br><br>Except as expressly stated in Sections 2(a) and 2(b) above, Recipient<br>receives no rights or licenses to the intellectual property of any<br>Contributor under this Agreement, whether expressly, by implication,<br>estoppel or otherwise. All rights in the Program not expressly granted<br>under this Agreement are reserved. Nothing in this Agreement is intended<br>to be enforceable by any entity that is not a Contributor or Recipient.<br>No third-party beneficiary rights are created under this Agreement.<br><br>Exhibit A - Form of Secondary Licenses Notice<br><br>"This Source Code may also be made available under the following<br>Secondary Licenses when the conditions for such availability set forth<br>in the Eclipse Public License, v. 2.0 are satisfied: {name license(s),<br>version(s), and exceptions or additional permissions here}."<br><br>Simply including a copy of this Agreement, including this Exhibit A<br>is not sufficient to license the Source Code under Secondary Licenses.<br><br>If it is not possible or desirable to put the notice in a particular<br>file, then You may include the notice in a location (such as a LICENSE<br>file in a relevant directory) where a recipient would be likely to |

By contrast, the GNU General Public License is<br>intended to guarantee your freedom to share and change free software--to<br>make sure the software is free for all its users. This General Public<br>License applies to most of the Free Software Foundation's software and<br>to any other program whose authors commit to using it. (Some other Free<br>Software Foundation software is covered by the GNU Library General<br>Public License instead.) You can apply it to your programs, too.<br><br>When we speak of free software, we are referring to freedom, not price.<br>Our General Public Licenses are designed to make sure that you have the<br>freedom to distribute copies of free software (and charge for this<br>service if you wish), that you receive source code or can get it if you<br>want it, that you can change the software or use pieces of it in new<br>free programs; and that you know you can do these things.<br><br>To protect your rights, we need to make restrictions that forbid anyone<br>to deny you these rights or to ask you to surrender |

| | | |
|---|---|---|
| | | the rights. These<br>restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br><br>For example, if you distribute copies of such a program, whether gratis<br>or for a fee, you must give the recipients all the rights that you have.<br>You must make sure that they, too, receive or can get the source code.<br>And you must show them these terms so they know their rights.<br><br>We protect your rights with two steps: (1) copyright the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to make certain<br>that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software patents.<br>We wish to avoid the danger that redistributors of a free program will<br>individually obtain patent licenses, in effect making the program<br>proprietary. To prevent this, we have made it clear that any patent must<br>be licensed for everyone's free use or not licensed at all.<br><br>The precise terms and conditions for copying, distribution and<br>modification follow.<br><br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains a<br>notice placed by the copyright holder saying it may be distributed under<br>the terms of this General Public License. The "Program", below, refers |

| | | |
|---|---|---|
| | | to any such program or work, and a "work based on the Program" means<br>either the Program or any derivative work under copyright law: that is<br>to say, a work containing the Program or a portion of it, either<br>verbatim or with modifications and/or translated into another language.<br>(Hereinafter, translation is included without limitation in the term<br>"modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of running<br>the Program is not restricted, and the output from the Program is<br>covered only if its contents constitute a work based on the Program<br>(independent of having been made by running the Program). Whether that<br>is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's source<br>code as you receive it, in any medium, provided that you conspicuously<br>and appropriately publish on each copy an appropriate copyright notice<br>and disclaimer of warranty; keep intact all the notices that refer to<br>this License and to the absence of any warranty; and give any other<br>recipients of the Program a copy of this License along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Program or any portion of<br>it, thus forming a work based on the Program, and copy and distribute<br>such modifications or work under the terms of Section 1 above, provided<br>that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or |

| | | |
|---|---|---|
| | | publish, that in<br>whole or in part contains or is derived from the Program or any part<br>thereof, to be licensed as a whole at no charge to all third parties<br>under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a notice<br>that there is no warranty (or else, saying that you provide a<br>warranty) and that users may redistribute the program under these<br>conditions, and telling the user how to view a copy of this License.<br>(Exception: if the Program itself is interactive but does not<br>normally print such an announcement, your work based on the Program<br>is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program, and<br>can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based on<br>the Program, the distribution of the whole must be on the terms of this<br>License, whose permissions for other licensees extend to the entire<br>whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program |

| | | |
|---|---|---|
| | | with the Program (or with a work based on the Program) on a volume of a<br>storage or distribution medium does not bring the other work under the<br>scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections 1<br>and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your cost<br>of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This alternative is allowed<br>only for noncommercial distribution and only if you received the<br>program in object code or executable form with such an offer, in<br>accord with Subsection b above.)<br><br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source code<br>means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to control<br>compilation and installation of the executable. However, as a special<br>exception, the source code distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major |

| | | |
|---|---|---|
| | | components (compiler, kernel, and so on) of the operating system on<br>which the executable runs, unless that component itself accompanies the<br>executable.<br><br>If distribution of executable or object code is made by offering access<br>to copy from a designated place, then offering equivalent access to copy<br>the source code from the same place counts as distribution of the source<br>code, even though third parties are not compelled to copy the source<br>along with the object code.<br><br>4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt otherwise<br>to copy, modify, sublicense or distribute the Program is void, and will<br>automatically terminate your rights under this License. However, parties<br>who have received copies, or rights, from you under this License will<br>not have their licenses terminated so long as such parties remain in<br>full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and all<br>its terms and conditions for copying, distributing or modifying the<br>Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further restrictions<br>on the recipients' exercise of the rights granted herein. You are not |

| | | |
|---|---|---|
| | | responsible for enforcing compliance by third parties to this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot distribute<br>so as to satisfy simultaneously your obligations under this License and<br>any other pertinent obligations, then as a consequence you may not<br>distribute the Program at all. For example, if a patent license would<br>not permit royalty-free redistribution of the Program by all those who<br>receive copies directly or indirectly through you, then the only way you<br>could satisfy both it and this License would be to refrain entirely from<br>distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is implemented<br>by public license practices. Many people have made generous<br>contributions to the wide range of software distributed through that<br>system in reliance on consistent application of that system; it is up to<br>the author/donor to decide if he or she is willing to distribute<br>software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be |

| | | |
|---|---|---|
| | | a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License may<br>add an explicit geographical distribution limitation excluding those<br>countries, so that distribution is permitted only in or among countries<br>not thus excluded. In such case, this License incorporates the<br>limitation as if written in the body of this License.<br><br>9. The Free Software Foundation may publish revised and/or new<br>versions of the General Public License from time to time. Such new<br>versions will be similar in spirit to the present version, but may<br>differ in detail to address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and<br>conditions either of that version or of any later version published by<br>the Free Software Foundation. If the Program does not specify a version<br>number of this License, you may choose any version ever published by the<br>Free Software Foundation.<br><br>10. For software which is copyrighted by the<br>Free Software Foundation, write to the Free Software Foundation; we<br>sometimes make exceptions for this. Our decision will be guided by the<br>two goals of preserving the free status of all derivatives of our free<br>software and of promoting the sharing and reuse of software generally.<br><br>NO WARRANTY<br><br>11. Definitions.<br><br>"License" shall mean the terms and conditions for use, reproduction,<br>and distribution as defined by Sections 1 through 9 of this document.<br><br>"Licensor" shall mean the copyright owner or entity authorized by<br>the copyright owner that is granting the License.<br><br>"Legal Entity" shall mean the union of the acting entity and all<br>other entities that control, are controlled by, or are under common<br>control with that entity. For the purposes of this definition,<br>"control" means (i) the power, direct or indirect, to cause the<br>direction or management of such entity, whether by contract or<br>otherwise, or (ii) ownership of fifty percent (50%) or more of the<br>outstanding shares, or (iii) beneficial ownership of such entity.<br><br>"You" (or "Your") shall mean an individual or Legal Entity<br>exercising permissions granted by this License.<br><br>"Source" form shall mean the preferred form for making modifications,<br>including but not limited to software source code, documentation<br>source, and configuration files.<br><br>"Object" form shall mean any form resulting from mechanical<br>transformation or translation of a Source form, including but<br>not limited to compiled object code, generated documentation,<br>and conversions to other media types.<br><br>"Work" shall mean the work of authorship, whether in Source or<br>Object form, made available under the License, as indicated by a<br>copyright notice that is included in or attached to the work<br>(an example is provided in the Appendix below).<br><br>"Derivative Works" shall mean any work, whether in Source or Object |

For the purposes<br>of this License, Derivative Works shall not include works that remain<br>separable from, or merely link (or bind by name) to the interfaces of,<br>the Work and Derivative Works thereof.<br><br>"Contribution" shall mean any work of authorship, including<br>the original version of the Work and any modifications or additions<br>to that Work or Derivative Works thereof, that is intentionally<br>submitted to Licensor for inclusion in the Work by the copyright owner<br>or by an individual or Legal Entity authorized to submit on behalf of<br>the copyright owner. For the purposes of this definition, "submitted"<br>means any form of electronic, verbal, or written communication sent<br>to the Licensor or its representatives, including but not limited to<br>communication on electronic mailing lists, source code control systems,<br>and issue tracking systems that are managed by, or on behalf of, the<br>Licensor for the purpose of discussing and improving the Work, but<br>excluding communication that is conspicuously marked or otherwise<br>designated in writing by the copyright owner as "Not a Contribution."<br><br>"Contributor" shall mean Licensor and any individual or Legal Entity<br>on behalf of whom a Contribution has been received by Licensor and<br>subsequently incorporated within the Work.<br><br>2. Grant of Copyright License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>copyright license to reproduce, prepare Derivative Works of,<br>publicly display, publicly perform, sublicense, and distribute the<br>Work and such Derivative Works in Source or |

Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>(except as stated in this section) patent license to make, have made,<br>use, offer to sell, sell, import, and otherwise transfer the Work,<br>where such license applies only to those patent claims licensable<br>by such Contributor that are necessarily infringed by their<br>Contribution(s) alone or by combination of their Contribution(s)<br>with the Work to which such Contribution(s) was submitted. If You<br>institute patent litigation against any entity (including a<br>cross-claim or counterclaim in a lawsuit) alleging that the Work<br>or a Contribution incorporated within the Work constitutes direct<br>or contributory patent infringement, then any patent licenses<br>granted to You under this License for that Work shall terminate<br>as of the date such litigation is filed.<br><br>4. The contents<br>of the NOTICE file are for informational purposes only and<br>do not modify the License. You may add Your own attribution<br>notices within Derivative Works that You distribute, alongside<br>or as an addendum to the NOTICE text from the Work, provided<br>that such additional attribution notices cannot be construed<br>as modifying the License.<br><br>You may add Your own copyright statement to Your modifications and<br>may provide additional or different license terms and conditions<br>for use, reproduction, or distribution of Your modifications, or<br>for any such Derivative Works as a whole, provided Your use,<br>reproduction, and distribution of the Work otherwise complies with<br>the conditions stated in this License.<br><br>5. Submission of Contributions. Unless You explicitly state otherwise,<br>any Contribution intentionally submitted for inclusion in the Work<br>by You to the Licensor shall be under the terms and conditions of<br>this License, without any additional terms or conditions.<br>Notwithstanding the above, nothing herein shall supersede or modify |

| | | if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br><br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or |

| | | |

| | | alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages.<br><br>5. NO WARRANTY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS"<br>BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR<br>IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF<br>TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR<br>PURPOSE. Each Recipient is solely responsible for determining the<br>appropriateness of using and distributing the Program and assumes all<br>risks associated with its exercise of rights under this Agreement,<br>including but not limited to the risks and costs of program errors,<br>compliance with applicable laws, damage to or loss of data, programs<br>or equipment, and unavailability or interruption of |

The Agreement Steward<br>reserves the right to publish new versions (including revisions) of<br>this Agreement from time to time. No one other than the Agreement<br>Steward has the right to modify this Agreement. The Eclipse Foundation<br>is the initial Agreement Steward. The Eclipse Foundation may assign the<br>responsibility to serve as the Agreement Steward to a suitable separate<br>entity. Each new version of the Agreement will be given a distinguishing<br>version number. The Program (including Contributions) may always be<br>Distributed subject to the version of the Agreement under which it was<br>received. In addition, after a new version of the Agreement is published,<br>Contributor may elect to Distribute the Program (including its<br>Contributions) under the new version.<br><br>Except as expressly stated in Sections 2(a) and 2(b) above, Recipient<br>receives no rights or licenses to the intellectual property of any<br>Contributor under this Agreement, whether expressly, by implication,<br>estoppel or otherwise. By contrast, the GNU General Public License is<br>intended to guarantee your freedom to share and change free software--to<br>make sure the software is free for all its users. This General Public<br>License applies to most of the Free Software Foundation's software and<br>to any other program whose authors commit to using it. (Some other Free<br>Software Foundation software is covered by the GNU Library General<br>Public License instead.) You can apply it to your programs, too.<br><br>When we speak of free software, we are referring to freedom, not price.<br>Our General Public Licenses are designed to make |

| | | |
|---|---|---|
| | | sure that you have the<br>freedom to distribute copies of free software (and charge for this<br>service if you wish), that you receive source code or can get it if you<br>want it, that you can change the software or use pieces of it in new<br>free programs; and that you know you can do these things.<br><br>To protect your rights, we need to make restrictions that forbid anyone<br>to deny you these rights or to ask you to surrender the rights. These<br>restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br><br>For example, if you distribute copies of such a program, whether gratis<br>or for a fee, you must give the recipients all the rights that you have.<br>You must make sure that they, too, receive or can get the source code.<br>And you must show them these terms so they know their rights.<br><br>We protect your rights with two steps: (1) copyright the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to make certain<br>that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software patents.<br>We wish to avoid the danger that redistributors of a free program will<br>individually obtain patent licenses, in effect making the program<br>proprietary. To prevent this, we have made it clear that any patent must<br>be licensed for everyone's free use or not licensed at all. |

| | | |
|---|---|---|
| | | The precise terms and conditions for copying, distribution and<br>modification follow.<br><br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains a<br>notice placed by the copyright holder saying it may be distributed under<br>the terms of this General Public License. The "Program", below, refers<br>to any such program or work, and a "work based on the Program" means<br>either the Program or any derivative work under copyright law: that is<br>to say, a work containing the Program or a portion of it, either<br>verbatim or with modifications and/or translated into another language.<br>(Hereinafter, translation is included without limitation in the term<br>"modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of running<br>the Program is not restricted, and the output from the Program is<br>covered only if its contents constitute a work based on the Program<br>(independent of having been made by running the Program). Whether that<br>is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's source<br>code as you receive it, in any medium, provided that you conspicuously<br>and appropriately publish on each copy an appropriate copyright notice<br>and disclaimer of warranty; keep intact all the notices that refer to<br>this License and to the absence of any warranty; and give any other<br>recipients of the Program a copy of this License along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Program |

| | | |
|---|---|---|
| | | or any portion of<br>it, thus forming a work based on the Program, and<br>copy and distribute<br>such modifications or work under the terms of Section 1 above, provided<br>that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any part<br>thereof, to be licensed as a whole at no charge to all third parties<br>under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a notice<br>that there is no warranty (or else, saying that you provide a<br>warranty) and that users may redistribute the program under these<br>conditions, and telling the user how to view a copy of this License.<br>(Exception: if the Program itself is interactive but does not<br>normally print such an announcement, your work based on the Program<br>is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program, and<br>can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based on<br>the Program, the distribution of the whole must be on the terms of this<br>License, whose permissions for other licensees extend to the entire |

| | | |
|---|---|---|
| | | whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of a<br>storage or distribution medium does not bring the other work under the<br>scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections 1<br>and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your cost<br>of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This alternative is allowed<br>only for noncommercial distribution and only if you received the<br>program in object code or executable form with such an offer, in<br>accord with Subsection b above.)<br><br>The source code for a work means the preferred form |

| | | |
|---|---|---|
| | | of the work for<br>making modifications to it. For an executable work, complete source code<br>means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to control<br>compilation and installation of the executable. However, as a special<br>exception, the source code distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major<br>components (compiler, kernel, and so on) of the operating system on<br>which the executable runs, unless that component itself accompanies the<br>executable.<br><br>If distribution of executable or object code is made by offering access<br>to copy from a designated place, then offering equivalent access to copy<br>the source code from the same place counts as distribution of the source<br>code, even though third parties are not compelled to copy the source<br>along with the object code.<br><br>4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt otherwise<br>to copy, modify, sublicense or distribute the Program is void, and will<br>automatically terminate your rights under this License. However, parties<br>who have received copies, or rights, from you under this License will<br>not have their licenses terminated so long as such parties remain in<br>full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and all<br>its terms and conditions for copying, distributing or |

| | | |
|---|---|---|
| | | modifying the<br>Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further restrictions<br>on the recipients' exercise of the rights granted herein. You are not<br>responsible for enforcing compliance by third parties to this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot distribute<br>so as to satisfy simultaneously your obligations under this License and<br>any other pertinent obligations, then as a consequence you may not<br>distribute the Program at all. For example, if a patent license would<br>not permit royalty-free redistribution of the Program by all those who<br>receive copies directly or indirectly through you, then the only way you<br>could satisfy both it and this License would be to refrain entirely from<br>distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is implemented |

| | | |
|---|---|---|
| | | by public license practices. Many people have made generous<br>contributions to the wide range of software distributed through that<br>system in reliance on consistent application of that system; it is up to<br>the author/donor to decide if he or she is willing to distribute<br>software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be<br>a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License may<br>add an explicit geographical distribution limitation excluding those<br>countries, so that distribution is permitted only in or among countries<br>not thus excluded. In such case, this License incorporates the<br>limitation as if written in the body of this License.<br><br>9. The Free Software Foundation may publish revised and/or new<br>versions of the General Public License from time to time. Such new<br>versions will be similar in spirit to the present version, but may<br>differ in detail to address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and<br>conditions either of that version or of any later version published by<br>the Free Software Foundation. If the Program does not specify a version<br>number of this License, you may choose any version ever published by the<br>Free Software Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the<br>author to ask for permission. For software which is |

| Eclipse Foundation | jakarta.servlet.jsp-api | Licensing Information<br>Jakarta Server Pages API » 4.0.0 LICENSE: # Eclipse Public License - v 2.0 THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT. 1. DEFINITIONS "Contribution" means: a) in the case of the initial Contributor, the initial content Distributed under this Agreement, and b) in the case of each subsequent Contributor: i) changes to the Program, and ii) additions to the Program; where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution "originates" from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include changes or additions to the Program that are not Modified Works. "Contributor" means any person or entity that Distributes the Program. "Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program. "Program" means the Contributions Distributed in accordance with this Agreement. "Recipient" means anyone who receives the Program under this Agreement or any Secondary |

| | | |
|---|---|---|
| | | License (as applicable), including Contributors. "Derivative Works" shall mean any work, whether in Source Code or other form, that is based on (or derived from) the Program and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. "Modified Works" shall mean any work in Source Code or other form that results from an addition to, deletion from, or modification of the contents of the Program, including, for purposes of clarity any new file in Source Code form that contains any contents of the Program. Modified Works shall not include works that contain only declarations, interfaces, types, classes, structures, or files of the Program solely in each case in order to link to, bind by name, or subclass the Program or Modified Works thereof. "Distribute" means the acts of a) distributing or b) making available in any manner that enables the transfer of a copy. "Source Code" means the form of a Program preferred for making modifications, including but not limited to software source code, documentation source, and configuration files. "Secondary License" means either the GNU General Public License, Version 2.0, or any later versions of that license, including any exceptions or additional permissions as identified by the initial Contributor. 2. GRANT OF RIGHTS a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, Distribute and sublicense the Contribution of such Contributor, if any, and such Derivative Works. b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder. c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other |

| | | |
|---|---|---|
| | | intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program. d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement. e) Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3). 3. REQUIREMENTS 3.1 If a Contributor Distributes the Program in any form, then: a) the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with a statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and b) the Contributor may Distribute the Program under a license different than this Agreement, provided that such license: i) effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose; ii) effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits; iii) does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and iv) requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section 3. 3.2 When the Program is Distributed as Source Code: a) it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and b) a copy of this Agreement must be included with each copy of the Program. 3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations of liability ("notices") contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices. 4. COMMERCIAL DISTRIBUTION Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to |

| | | |
|---|---|---|
| | | facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense. For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages. 5. NO WARRANTY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations. 6. DISCLAIMER OF LIABILITY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE |

| | | |
|---|---|---|
| | | LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. 7. GENERAL If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable. If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed. All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive. Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be Distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to Distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) |

| | | |
|---|---|---|
| | | and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved. Nothing in this Agreement is intended to be enforceable by any entity that is not a Contributor or Recipient. No third-party beneficiary rights are created under this Agreement. Exhibit A - Form of Secondary Licenses Notice "This Source Code may also be made available under the following Secondary Licenses when the conditions for such availability set forth in the Eclipse Public License, v. 2.0 are satisfied: {name license(s), version(s), and exceptions or additional permissions here}." Simply including a copy of this Agreement, including this Exhibit A is not sufficient to license the Source Code under Secondary Licenses. If it is not possible or desirable to put the notice in a particular file, then You may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely to look for such a notice. You may add additional accurate notices of copyright ownership. --- ## The GNU General Public License (GPL) Version 2, June 1991 Copyright (C) 1989, 1991 Free Software Foundation, Inc. 51 Franklin Street, Fifth Floor Boston, MA 02110-1335 USA Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed. Preamble The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too. When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things. To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it. For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must |

| | | |
|---|---|---|
| | | show them these terms so they know their rights. We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software. Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations. Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all. The precise terms and conditions for copying, distribution and modification follow. TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION 0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you". Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does. 1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions: a) You must cause the modified files to |

| | | |
|---|---|---|
| | | carry prominent notices stating that you changed the files and the date of any change. b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License. c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.) These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it. Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program. In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License. 3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following: a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed |

| | | |
|---|---|---|
| | | only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.) The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable. If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code. 4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance. 5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it. 6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License. 7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a |

| | | |
|---|---|---|
| | | consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program. If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances. It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice. This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License. 8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License. 9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation. 10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally. NO WARRANTY 11. BECAUSE THE PROGRAM IS |

| | | |
|---|---|---|
| | | LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION. 12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. END OF TERMS AND CONDITIONS How to Apply These Terms to Your New Programs If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms. To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found. One line to give the program's name and a brief idea of what it does. Copyright (C) <year> <name of author> This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version. This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. If the program is interactive, make it output a short notice like this when it starts in an interactive mode: Gnomovision version 69, Copyright (C) year name of author Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'. This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for details. The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program. You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names: Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision' (which makes passes at compilers) written by James Hacker. signature of Ty Coon, 1 April 1989 Ty Coon, President of Vice This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Library General Public License instead of this License. --- ## CLASSPATH EXCEPTION Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License version 2 cover the whole combination. As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version. ========== ========== ========== ===== Copyright # Notices for Eclipse Project for Jakarta Server Pages This content is produced and maintained by the Eclipse Project for JSP project. * Project home: https://projects.eclipse.org/projects/ee4j.jsp ## |

REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in<br>accordance with section 3.2, and the Contributor must accompany<br>the Program with a statement that the Source Code for the Program<br>is available under this Agreement, and informs Recipients how to<br>obtain it in a reasonable manner on or through a medium customarily<br>used for software exchange; and<br><br>b) the Contributor may Distribute the Program under a license<br>different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all<br>warranties and conditions, express and implied, including<br>warranties or conditions of title and non-infringement, and<br>implied warranties or conditions of merchantability and fitness<br>for a particular purpose;<br><br>ii) effectively excludes on behalf of all other Contributors all<br>liability for damages, including direct, indirect, special,<br>incidental and consequential damages, such as lost profits;<br><br>iii) does not attempt to limit or alter the recipients' rights<br>in the Source Code under section 3.2; and<br><br>iv) requires any subsequent distribution of the Program by any<br>party to be under a license that satisfies the requirements<br>of this section 3.<br><br>3.2 When the Program is Distributed as Source Code:<br><br>a) it must be made available under this Agreement, or if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and |

| | | |
|---|---|---|
| | | (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br><br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial |

| | | |
|---|---|---|
| | | Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages.<br><br>5. NO WARRANTY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS"<br>BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR<br>IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF<br>TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR<br>PURPOSE. Each Recipient is solely responsible for determining the<br>appropriateness of using and distributing the Program and assumes all<br>risks associated with its exercise of rights under this Agreement,<br>including but not limited to the risks and costs of program errors,<br>compliance with applicable laws, damage to or loss of data, programs<br>or equipment, and unavailability or interruption of operations.<br><br>6. DISCLAIMER OF LIABILITY |

GENERAL<br><br>If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.<br><br>If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.<br><br>All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. This General Public<br>License applies to most of the Free Software Foundation's software and<br>to any other program whose authors commit to using it. (Some other Free<br>Software Foundation software is covered by the GNU Library General<br>Public License instead.) You can apply it to your programs, too.<br><br>When we speak of free software, we are referring to freedom, not price.<br>Our General Public Licenses are designed to make sure that you have the<br>freedom to distribute copies of free software (and charge for this<br>service if you wish), that you receive source code or can get it if you<br>want it, that you can change the software or use pieces |

| | | |
|---|---|---|
| | | 0. This License applies to any program or other work which contains a<br>notice placed by the copyright holder saying it may be distributed under<br>the terms of this General Public License. The "Program", below, refers<br>to any such program or work, and a "work based on the Program" means<br>either the Program or any derivative work under copyright law: that is<br>to say, a work containing the Program or a portion of it, either<br>verbatim or with modifications and/or translated into another language.<br>(Hereinafter, translation is included without limitation in the term<br>"modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of running<br>the Program is not restricted, and the output from the Program is<br>covered only if its contents constitute a work based on the Program<br>(independent of having been made by running the Program). Whether that<br>is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's source<br>code as you receive it, in any medium, provided that you conspicuously<br>and appropriately publish on each copy an appropriate copyright notice<br>and disclaimer of warranty; keep intact all the notices that refer to<br>this License and to the absence of any warranty; and give any other<br>recipients of the Program a copy of this License along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Program or any portion of<br>it, thus forming a work based on the Program, and copy and distribute<br>such modifications or work under the terms of Section 1 above, provided<br>that you also meet all of these conditions: |

| | | |
|---|---|---|
| | | a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any part<br>thereof, to be licensed as a whole at no charge to all third parties<br>under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a notice<br>that there is no warranty (or else, saying that you provide a<br>warranty) and that users may redistribute the program under these<br>conditions, and telling the user how to view a copy of this License.<br>(Exception: if the Program itself is interactive but does not<br>normally print such an announcement, your work based on the Program<br>is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program, and<br>can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based on<br>the Program, the distribution of the whole must be on the terms of this<br>License, whose permissions for other licensees extend to the entire<br>whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the |

| | | |
|---|---|---|
| | | intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of a<br>storage or distribution medium does not bring the other work under the<br>scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections 1<br>and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your cost<br>of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This alternative is allowed<br>only for noncommercial distribution and only if you received the<br>program in object code or executable form with such an offer, in<br>accord with Subsection b above.)<br><br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source code<br>means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts |

| | | |
|---|---|---|
| | | used to control<br>compilation and installation of the executable. However, as a special<br>exception, the source code distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major<br>components (compiler, kernel, and so on) of the operating system on<br>which the executable runs, unless that component itself accompanies the<br>executable.<br><br>If distribution of executable or object code is made by offering access<br>to copy from a designated place, then offering equivalent access to copy<br>the source code from the same place counts as distribution of the source<br>code, even though third parties are not compelled to copy the source<br>along with the object code.<br><br>4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt otherwise<br>to copy, modify, sublicense or distribute the Program is void, and will<br>automatically terminate your rights under this License. However, parties<br>who have received copies, or rights, from you under this License will<br>not have their licenses terminated so long as such parties remain in<br>full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and all<br>its terms and conditions for copying, distributing or modifying the<br>Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a |

| | | |
|---|---|---|
| | | license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further restrictions<br>on the recipients' exercise of the rights granted herein. You are not<br>responsible for enforcing compliance by third parties to this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot distribute<br>so as to satisfy simultaneously your obligations under this License and<br>any other pertinent obligations, then as a consequence you may not<br>distribute the Program at all. For example, if a patent license would<br>not permit royalty-free redistribution of the Program by all those who<br>receive copies directly or indirectly through you, then the only way you<br>could satisfy both it and this License would be to refrain entirely from<br>distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is implemented<br>by public license practices. Many people have made generous<br>contributions to the wide range of software distributed through that<br>system in reliance on consistent application of that system; it is up to |

| | | |
|---|---|---|
| | | the author/donor to decide if he or she is willing to distribute<br>software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be<br>a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License may<br>add an explicit geographical distribution limitation excluding those<br>countries, so that distribution is permitted only in or among countries<br>not thus excluded. In such case, this License incorporates the<br>limitation as if written in the body of this License.<br><br>9. The Free Software Foundation may publish revised and/or new<br>versions of the General Public License from time to time. Such new<br>versions will be similar in spirit to the present version, but may<br>differ in detail to address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and<br>conditions either of that version or of any later version published by<br>the Free Software Foundation. If the Program does not specify a version<br>number of this License, you may choose any version ever published by the<br>Free Software Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the<br>author to ask for permission. For software which is copyrighted by the<br>Free Software Foundation, write to the Free Software Foundation; we<br>sometimes make exceptions for this. Our decision will be guided by the<br>two goals of preserving the free status of all derivatives |

If your program is a subroutine library, you<br>may consider it more useful to permit linking proprietary applications<br>with the library. If this is what you want to do, use the GNU Library<br>General Public License instead of this License.<br>CLASSPATH EXCEPTION<br>Linking this library statically or dynamically with other modules is<br>making a combined work based on this library.  Thus, the terms and<br>conditions of the GNU General Public License version 2 cover the whole<br>combination.<br><br>As a special exception, the copyright holders of this library give you<br>permission to link this library with independent modules to produce an<br>executable, regardless of the license terms of these independent<br>modules, and to copy and distribute the resulting executable under<br>terms of your choice, provided that you also meet, for each linked<br>independent module, the terms and conditions of the license of that<br>module.  An independent module is a module which is not derived from or<br>based on this library. This patent license shall<br>  apply to the combination of the Contribution and the Program if, at<br>  the time the Contribution is added by the Contributor, such addition<br>  of the Contribution causes such combination to be covered by the<br>  Licensed Patents. The patent license shall not apply to any other<br>  combinations which include the Contribution. REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>  a) the Program must also be made available as Source Code, in<br>  accordance with section 3.2, and the Contributor must accompany<br>  the Program with a statement that the Source Code for the Program<br>  is available under this Agreement, and informs Recipients how to<br>  obtain it in a reasonable manner on or through a medium customarily<br>  used for software exchange; and<br><br>  b) the Contributor may Distribute the Program under a license<br>  different than this Agreement, provided that such license:<br>  i) effectively disclaims on behalf of all other Contributors all<br>  warranties and conditions, express and implied, including<br>  warranties or conditions of title and non-infringement, and<br>  implied warranties or conditions of merchantability and fitness<br>  for a particular purpose;<br><br>  ii) effectively excludes on behalf of all other Contributors all<br>  liability for damages, including direct, indirect, special,<br>  incidental and consequential damages, such as lost profits;<br><br>  iii) does not attempt to limit or alter the recipients' rights<br>  in the Source Code under section 3.2; and<br><br>  iv) requires any subsequent distribution of the Program by any<br>  party to be under a license that satisfies the requirements<br>  of this section 3.<br><br>3.2 When the Program is Distributed as Source Code:<br><br>  a) it must be made available under this Agreement, or |

| | | |

| | | if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br><br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or |

| | | |
|---|---|---|
| | | alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages.<br><br>5. These<br>restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br><br>For example, if you distribute copies of such a program, whether gratis<br>or for a fee, you must give the recipients all the rights that you have.<br>You must make sure that they, too, receive or can get the source code.<br>And you must show them these terms so they know their rights.<br><br>We protect your rights with two steps: (1) copyright the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to make certain<br>that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software patents.<br>We wish to avoid the danger that redistributors of a free program will<br>individually obtain patent licenses, in effect making the program<br>proprietary. To prevent this, we have made it clear that any patent must<br>be licensed for everyone's free use or not licensed at all. |

|---|---|---|
| | | The precise terms and conditions for copying, distribution and<br>modification follow.<br><br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains a<br>notice placed by the copyright holder saying it may be distributed under<br>the terms of this General Public License. The "Program", below, refers<br>to any such program or work, and a "work based on the Program" means<br>either the Program or any derivative work under copyright law: that is<br>to say, a work containing the Program or a portion of it, either<br>verbatim or with modifications and/or translated into another language.<br>(Hereinafter, translation is included without limitation in the term<br>"modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of running<br>the Program is not restricted, and the output from the Program is<br>covered only if its contents constitute a work based on the Program<br>(independent of having been made by running the Program). Whether that<br>is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's source<br>code as you receive it, in any medium, provided that you conspicuously<br>and appropriately publish on each copy an appropriate copyright notice<br>and disclaimer of warranty; keep intact all the notices that refer to<br>this License and to the absence of any warranty; and give any other<br>recipients of the Program a copy of this License along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Program |

| | | |
|---|---|---|
| | | or any portion of<br>it, thus forming a work based on the Program, and<br>copy and distribute<br>such modifications or work under the terms of Section 1 above, provided<br>that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any part<br>thereof, to be licensed as a whole at no charge to all third parties<br>under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a notice<br>that there is no warranty (or else, saying that you provide a<br>warranty) and that users may redistribute the program under these<br>conditions, and telling the user how to view a copy of this License.<br>(Exception: if the Program itself is interactive but does not<br>normally print such an announcement, your work based on the Program<br>is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program, and<br>can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based on<br>the Program, the distribution of the whole must be on the terms of this<br>License, whose permissions for other licensees extend to the entire |

| | | |
|---|---|---|
| | | whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of a<br>storage or distribution medium does not bring the other work under the<br>scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections 1<br>and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your cost<br>of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This alternative is allowed<br>only for noncommercial distribution and only if you received the<br>program in object code or executable form with such an offer, in<br>accord with Subsection b above.)<br><br>The source code for a work means the preferred form |

| | | |
|---|---|---|
| | | of the work for<br>making modifications to it. For an executable work, complete source code<br>means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to control<br>compilation and installation of the executable. However, as a special<br>exception, the source code distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major<br>components (compiler, kernel, and so on) of the operating system on<br>which the executable runs, unless that component itself accompanies the<br>executable.<br><br>If distribution of executable or object code is made by offering access<br>to copy from a designated place, then offering equivalent access to copy<br>the source code from the same place counts as distribution of the source<br>code, even though third parties are not compelled to copy the source<br>along with the object code.<br><br>4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt otherwise<br>to copy, modify, sublicense or distribute the Program is void, and will<br>automatically terminate your rights under this License. However, parties<br>who have received copies, or rights, from you under this License will<br>not have their licenses terminated so long as such parties remain in<br>full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and all<br>its terms and conditions for copying, distributing or |

| | | |
|---|---|---|
| | | modifying the<br>Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further restrictions<br>on the recipients' exercise of the rights granted herein. You are not<br>responsible for enforcing compliance by third parties to this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot distribute<br>so as to satisfy simultaneously your obligations under this License and<br>any other pertinent obligations, then as a consequence you may not<br>distribute the Program at all. For example, if a patent license would<br>not permit royalty-free redistribution of the Program by all those who<br>receive copies directly or indirectly through you, then the only way you<br>could satisfy both it and this License would be to refrain entirely from<br>distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is implemented |

| | | |
|---|---|---|
| | | by public license practices. Many people have made generous<br>contributions to the wide range of software distributed through that<br>system in reliance on consistent application of that system; it is up to<br>the author/donor to decide if he or she is willing to distribute<br>software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be<br>a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License may<br>add an explicit geographical distribution limitation excluding those<br>countries, so that distribution is permitted only in or among countries<br>not thus excluded. In such case, this License incorporates the<br>limitation as if written in the body of this License.<br><br>9. The Free Software Foundation may publish revised and/or new<br>versions of the General Public License from time to time. Such new<br>versions will be similar in spirit to the present version, but may<br>differ in detail to address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and<br>conditions either of that version or of any later version published by<br>the Free Software Foundation. If the Program does not specify a version<br>number of this License, you may choose any version ever published by the<br>Free Software Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the<br>author to ask for permission. For software which is |

| | | copyrighted by the<br>Free Software Foundation, write to the Free Software Foundation; we<br>sometimes make exceptions for this. Our decision will be guided by the<br>two goals of preserving the free status of all derivatives of our free<br>software and of promoting the sharing and reuse of software generally.<br><br>NO WARRANTY<br><br>11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO<br>WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.<br>EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR<br>OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND,<br>EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED<br>WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE<br>ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH<br>YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL<br>NECESSARY SERVICING, REPAIR OR CORRECTION.<br><br>12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN<br>WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY<br>AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR<br>DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL<br>DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM<br>(INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED<br>INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF<br>THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR<br>OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.<br><br>END OF TERMS AND CONDITIONS<br><br>How to Apply These Terms to Your New Programs<br><br>If you develop a new program, and you want it to be of the greatest |

| | | |
|---|---|---|
| | | 1. Definitions.<br><br>"License" shall mean the terms and conditions for use, reproduction,<br>and distribution as defined by Sections 1 through 9 of this document.<br><br>"Licensor" shall mean the copyright owner or entity authorized by<br>the copyright owner that is granting the License.<br><br>"Legal Entity" shall mean the union of the acting entity and all<br>other entities that control, are controlled by, or are under common<br>control with that entity. For the purposes of this definition,<br>"control" means (i) the power, direct or indirect, to cause the<br>direction or management of such entity, whether by contract or<br>otherwise, or (ii) ownership of fifty percent (50%) or more of the<br>outstanding shares, or (iii) beneficial ownership of such entity.<br><br>"You" (or "Your") shall mean an individual or Legal Entity<br>exercising permissions granted by this License.<br><br>"Source" form shall mean the preferred form for making modifications,<br>including but not limited to software source code, documentation<br>source, and configuration files.<br><br>"Object" form shall mean any form resulting from mechanical<br>transformation or translation of a Source form, including but<br>not limited to compiled object code, generated documentation,<br>and conversions to other media types.<br><br>"Work" shall mean the work of authorship, whether in Source or<br>Object form, made available under the License, as indicated by a<br>copyright notice that is included in or attached to the work<br>(an example is provided in the Appendix below).<br><br>"Derivative Works" shall mean any work, whether in Source or Object<br>form, that is based on (or derived from) the Work |

| | | |
|---|---|---|
| | | and for which the<br>editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of authorship. For the purposes<br>of this License, Derivative Works shall not include works that remain<br>separable from, or merely link (or bind by name) to the interfaces of,<br>the Work and Derivative Works thereof.<br><br>"Contribution" shall mean any work of authorship, including<br>the original version of the Work and any modifications or additions<br>to that Work or Derivative Works thereof, that is intentionally<br>submitted to Licensor for inclusion in the Work by the copyright owner<br>or by an individual or Legal Entity authorized to submit on behalf of<br>the copyright owner. For the purposes of this definition, "submitted"<br>means any form of electronic, verbal, or written communication sent<br>to the Licensor or its representatives, including but not limited to<br>communication on electronic mailing lists, source code control systems,<br>and issue tracking systems that are managed by, or on behalf of, the<br>Licensor for the purpose of discussing and improving the Work, but<br>excluding communication that is conspicuously marked or otherwise<br>designated in writing by the copyright owner as "Not a Contribution."<br><br>"Contributor" shall mean Licensor and any individual or Legal Entity<br>on behalf of whom a Contribution has been received by Licensor and<br>subsequently incorporated within the Work.<br><br>2. Grant of Copyright License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>copyright license to reproduce, prepare Derivative Works of,<br>publicly display, publicly perform, sublicense, and distribute the<br>Work and such Derivative Works in Source or Object form. |

| | | |
|---|---|---|
| | | 3. Grant of Patent License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>(except as stated in this section) patent license to make, have made,<br>use, offer to sell, sell, import, and otherwise transfer the Work,<br>where such license applies only to those patent claims licensable<br>by such Contributor that are necessarily infringed by their<br>Contribution(s) alone or by combination of their Contribution(s)<br>with the Work to which such Contribution(s) was submitted. If You<br>institute patent litigation against any entity (including a<br>cross-claim or counterclaim in a lawsuit) alleging that the Work<br>or a Contribution incorporated within the Work constitutes direct<br>or contributory patent infringement, then any patent licenses<br>granted to You under this License for that Work shall terminate<br>as of the date such litigation is filed.<br><br>4. Redistribution. You may reproduce and distribute copies of the<br>Work or Derivative Works thereof in any medium, with or without<br>modifications, and in Source or Object form, provided that You<br>meet the following conditions:<br><br>(a) You must give any other recipients of the Work or<br>Derivative Works a copy of this License; and<br><br>(b) You must cause any modified files to carry prominent notices<br>stating that You changed the files; and<br><br>(c) You must retain, in the Source form of any Derivative Works<br>that You distribute, all copyright, patent, trademark, and<br>attribution notices from the Source form of the Work,<br>excluding those notices that do not pertain to any part of<br>the Derivative Works; and |

| | | |
|---|---|---|
| | | (d) If the Work includes a "NOTICE" text file as part of its<br>distribution, then any Derivative Works that You distribute must<br>include a readable copy of the attribution notices contained<br>within such NOTICE file, excluding those notices that do not<br>pertain to any part of the Derivative Works, in at least one<br>of the following places: within a NOTICE text file distributed<br>as part of the Derivative Works; within the Source form or<br>documentation, if provided along with the Derivative Works; or,<br>within a display generated by the Derivative Works, if and<br>wherever such third-party notices normally appear. The contents<br>of the NOTICE file are for informational purposes only and<br>do not modify the License. You may add Your own attribution<br>notices within Derivative Works that You distribute, alongside<br>or as an addendum to the NOTICE text from the Work, provided<br>that such additional attribution notices cannot be construed<br>as modifying the License.<br><br>You may add Your own copyright statement to Your modifications and<br>may provide additional or different license terms and conditions<br>for use, reproduction, or distribution of Your modifications, or<br>for any such Derivative Works as a whole, provided Your use,<br>reproduction, and distribution of the Work otherwise complies with<br>the conditions stated in this License.<br><br>5. Submission of Contributions. Unless You explicitly state otherwise,<br>any Contribution intentionally submitted for inclusion in the Work<br>by You to the Licensor shall be under the terms and conditions of<br>this License, without any additional terms or conditions.<br>Notwithstanding the above, nothing herein shall supersede or modify<br>the terms of any separate license agreement you |

This License does not grant permission to use the trade<br>names, trademarks, service marks, or product names of the Licensor,<br>except as required for reasonable and customary use in describing the<br>origin of the Work and reproducing the content of the NOTICE file.<br><br>7. Unless required by applicable law or<br>agreed to in writing, Licensor provides the Work (and each<br>Contributor provides its Contributions) on an "AS IS" BASIS,<br>WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or<br>implied, including, without limitation, any warranties or conditions<br>of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A<br>PARTICULAR PURPOSE. You are solely responsible for determining the<br>appropriateness of using or redistributing the Work and assume any<br>risks associated with Your exercise of permissions under this License.<br><br>8. Limitation of Liability. Definitions.<br><br>1.0.1. "Commercial Use" means distribution or otherwise making the<br>Covered Code available to a third party.<br><br>1.1. "Contributor" means each entity that creates or contributes to<br>the creation of Modifications.<br><br>1.2. "Contributor Version" means the combination of the Original<br>Code, prior Modifications used by a Contributor, and the Modifications<br>made by that particular Contributor.<br><br>1.3. "Covered Code" means the Original Code or Modifications or the<br>combination of the Original Code and Modifications, in each case<br>including portions thereof.<br><br>1.4. "Electronic Distribution Mechanism" means a mechanism generally<br>accepted in the software development community for the electronic<br>transfer of data.<br><br>1.5. "Executable" means Covered Code in any form other than Source<br>Code.<br><br>1.6. "Initial Developer" means the individual or entity identified<br>as the Initial Developer in the Source Code notice required by Exhibit<br>A.<br><br>1.7. "Larger Work" means a work which combines Covered Code or<br>portions thereof with code not governed by the terms of this License.<br><br>1.8. "License" means this document.<br><br>1.8.1. "Licensable" means having the right to grant, to the maximum |

| | | extent possible, whether at the time of the initial grant or<br>subsequently acquired, any and all of the rights conveyed herein.<br><br>1.9. "Modifications" means any addition to or deletion from the<br>substance or structure of either the Original Code or any previous<br>Modifications. When Covered Code is released as a series of files, a<br>Modification is:<br>A. Any addition to or deletion from the contents of a file<br>containing Original Code or previous Modifications.<br><br>B. Any new file that contains any part of the Original Code or<br>previous Modifications.<br><br>1.10. "Original Code" means Source Code of computer software code<br>which is described in the Source Code notice required by Exhibit A as<br>Original Code, and which, at the time of its release under this<br>License is not already Covered Code governed by this License.<br><br>1.10.1. "Patent Claims" means any patent claim(s), now owned or<br>hereafter acquired, including without limitation, method, process,<br>and apparatus claims, in any patent Licensable by grantor.<br><br>1.11. "Source Code" means the preferred form of the Covered Code for<br>making modifications to it, including all modules it contains, plus<br>any associated interface definition files, scripts used to control<br>compilation and installation of an Executable, or source code<br>differential comparisons against either the Original Code or another<br>well known, available Covered Code of the Contributor's choice. The<br>Source Code can be in a compressed or archival form, provided the<br>appropriate decompression or de-archiving software is widely available<br>for no charge.<br><br>1.12. "You" (or "Your") means an individual or a |

Distribution Obligations.<br><br>3.1. Application of License.<br>The Modifications which You create or to which You contribute are<br>governed by the terms of this License, including without limitation<br>Section 2.2. The Source Code version of Covered Code may be<br>distributed only under the terms of this License or a future version<br>of this License released under Section 6.1, and You must include a<br>copy of this License with every copy of the Source Code You<br>distribute. You may not offer or impose any terms on any Source Code<br>version that alters or restricts the applicable version of this<br>License or the recipients' rights hereunder. However, You may include<br>an additional document offering the additional rights described in<br>Section 3.5.<br><br>3.2. Availability of Source Code.<br>Any Modification which You create or to which You contribute must be<br>made available in Source Code form under the terms of this License<br>either on the same media as an Executable version or via an accepted<br>Electronic Distribution Mechanism to anyone to whom you made an<br>Executable version available; and if made available via Electronic<br>Distribution Mechanism, must remain available for at least twelve (12)<br>months after the date it initially became available, or at least six<br>(6) months after a subsequent version of that particular Modification<br>has been made available to such recipients. You are responsible for<br>ensuring that the Source Code version remains available even if the<br>Electronic Distribution Mechanism is maintained by a third party. |

| | | |
|---|---|---|
| | | 3.3. Description of Modifications.<br>You must cause all Covered Code to which You contribute to contain a<br>file documenting the changes You made to create that Covered Code and<br>the date of any change. You must include a prominent statement that<br>the Modification is derived, directly or indirectly, from Original<br>Code provided by the Initial Developer and including the name of the<br>Initial Developer in (a) the Source Code, and (b) in any notice in an<br>Executable version or related documentation in which You describe the<br>origin or ownership of the Covered Code.<br><br>3.4. Intellectual Property Matters<br>(a) Third Party Claims.<br>If Contributor has knowledge that a license under a third party's<br>intellectual property rights is required to exercise the rights<br>granted by such Contributor under Sections 2.1 or 2.2,<br>Contributor must include a text file with the Source Code<br>distribution titled "LEGAL" which describes the claim and the<br>party making the claim in sufficient detail that a recipient will<br>know whom to contact. If Contributor obtains such knowledge after<br>the Modification is made available as described in Section 3.2,<br>Contributor shall promptly modify the LEGAL file in all copies<br>Contributor makes available thereafter and shall take other steps<br>(such as notifying appropriate mailing lists or newsgroups)<br>reasonably calculated to inform those who received the Covered<br>Code that new knowledge has been obtained.<br><br>(b) Contributor APIs.<br>If Contributor's Modifications include an application programming<br>interface and Contributor has knowledge of patent licenses which<br>are reasonably necessary to implement that API, Contributor must<br>also include this information in the LEGAL file.<br><br>(c) Representations. |

| | | |
|---|---|---|
| | | Contributor represents that, except as disclosed pursuant to<br>Section 3.4(a) above, Contributor believes that Contributor's<br>Modifications are Contributor's original creation(s) and/or<br>Contributor has sufficient rights to grant the rights conveyed by<br>this License.<br><br>3.5. Required Notices.<br>You must duplicate the notice in Exhibit A in each file of the Source<br>Code. If it is not possible to put such notice in a particular Source<br>Code file due to its structure, then You must include such notice in a<br>location (such as a relevant directory) where a user would be likely<br>to look for such a notice. If You created one or more Modification(s)<br>You may add your name as a Contributor to the notice described in<br>Exhibit A. You must also duplicate this License in any documentation<br>for the Source Code where You describe recipients' rights or ownership<br>rights relating to Covered Code. You may choose to offer, and to<br>charge a fee for, warranty, support, indemnity or liability<br>obligations to one or more recipients of Covered Code. However, You<br>may do so only on Your own behalf, and not on behalf of the Initial<br>Developer or any Contributor. You must make it absolutely clear than<br>any such warranty, support, indemnity or liability obligation is<br>offered by You alone, and You hereby agree to indemnify the Initial<br>Developer and every Contributor for any liability incurred by the<br>Initial Developer or such Contributor as a result of warranty,<br>support, indemnity or liability terms You offer.<br><br>3.6. Distribution of Executable Versions.<br>You may distribute Covered Code in Executable form only if the<br>requirements of Section 3.1-3.5 have been met for that Covered Code,<br>and if You include a notice stating that the Source Code version of<br>the Covered Code is available under the terms of this License, |

| | | |
|---|---|---|
| | | including a description of how and where You have fulfilled the<br>obligations of Section 3.2. The notice must be conspicuously included<br>in any notice in an Executable version, related documentation or<br>collateral in which You describe recipients' rights relating to the<br>Covered Code. You may distribute the Executable version of Covered<br>Code or ownership rights under a license of Your choice, which may<br>contain terms different from this License, provided that You are in<br>compliance with the terms of this License and that the license for the<br>Executable version does not attempt to limit or alter the recipient's<br>rights in the Source Code version from the rights set forth in this<br>License. If You distribute the Executable version under a different<br>license You must make it absolutely clear that any terms which differ<br>from this License are offered by You alone, not by the Initial<br>Developer or any Contributor. You hereby agree to indemnify the<br>Initial Developer and every Contributor for any liability incurred by<br>the Initial Developer or such Contributor as a result of any such<br>terms You offer.<br><br>3.7. Larger Works.<br>You may create a Larger Work by combining Covered Code with other code<br>not governed by the terms of this License and distribute the Larger<br>Work as a single product. In such a case, You must make sure the<br>requirements of this License are fulfilled for the Covered Code.<br><br>4. Inability to Comply Due to Statute or Regulation.<br><br>If it is impossible for You to comply with any of the terms of this<br>License with respect to some or all of the Covered Code due to<br>statute, judicial order, or regulation then You must: (a) comply with<br>the terms of this License to the maximum extent possible; and (b)<br>describe the limitations and the code they affect. Such description |

| | | |
|---|---|---|
| | | must be included in the LEGAL file described in Section 3.4 and must<br>be included with all distributions of the Source Code. Except to the<br>extent prohibited by statute or regulation, such description must be<br>sufficiently detailed for a recipient of ordinary skill to be able to<br>understand it.<br><br>5. Application of this License.<br><br>This License applies to code to which the Initial Developer has<br>attached the notice in Exhibit A and to related Covered Code.<br><br>6. Versions of the License.<br><br>6.1. New Versions.<br>Netscape Communications Corporation ("Netscape") may publish revised<br>and/or new versions of the License from time to time. Each version<br>will be given a distinguishing version number.<br><br>6.2. Effect of New Versions.<br>Once Covered Code has been published under a particular version of the<br>License, You may always continue to use it under the terms of that<br>version. You may also choose to use such Covered Code under the terms<br>of any subsequent version of the License published by Netscape. No one<br>other than Netscape has the right to modify the terms applicable to<br>Covered Code created under this License.<br><br>6.3. Derivative Works.<br>If You create or use a modified version of this License (which you may<br>only do in order to apply it to code which is not already Covered Code<br>governed by this License), You must (a) rename Your license so that<br>the phrases "Mozilla", "MOZILLAPL", "MOZPL", "Netscape",<br>"MPL", "NPL" or any confusingly similar phrase do not appear in your<br>license (except to note that your license differs from this License)<br>and (b) otherwise make it clear that Your version of the license<br>contains terms which differ from the Mozilla Public License and |

It also counts<br>as the successor of the GNU Library Public License, version 2, hence<br>the version number 2.1.]<br>Preamble<br>The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.<br><br>This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.<br><br>When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things. |

| | | |
|---|---|---|
| | | To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.<br><br>For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.<br><br>We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.<br><br>To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.<br><br>Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.<br><br>Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.<br><br>When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library. |

| | | |
|---|---|---|
| | | We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.<br><br>For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.<br><br>In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.<br><br>Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.<br><br>The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.<br><br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br>0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".<br><br>A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.<br><br>The "Library", below, refers to any such software |

| | | |
|---|---|---|
| | | library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)<br><br>"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.<br><br>Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.<br><br>1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.<br><br>You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:<br><br>a) The modified work must itself be a software library.<br>b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.<br>c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.<br>d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you |

| | | |
|---|---|---|
| | | must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.<br>(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)<br><br>These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.<br><br>In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.<br><br>3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.<br><br>Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.<br><br>This option is useful when you wish to copy part of the code of the Library into a program that is not a library. |

| | | |
|---|---|---|
| | | 4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.<br><br>If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.<br><br>5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.<br><br>However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.<br><br>When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.<br><br>If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)<br><br>Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.<br><br>6. As an exception to the Sections above, you may |

| | | |
|---|---|---|
| | | also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.<br><br>You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:<br><br>a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)<br>b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.<br>c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.<br>d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.<br>e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.<br>For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the |

| | | |
|---|---|---|
| | | operating system on which the executable runs, unless that component itself accompanies the executable.<br><br>It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.<br><br>7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:<br><br>a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.<br>b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.<br>8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.<br><br>9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.<br><br>10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License. |

| | | |
|---|---|---|
| | | 11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.<br><br>If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.<br><br>It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.<br><br>12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.<br><br>13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.<br><br>Each version is given a distinguishing version number. |

| | | |

GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of such Contributor,<br>if any, in Source Code or other form. This patent license shall<br>apply to the combination of the Contribution and the Program if, at<br>the time the Contribution is added by the Contributor, such addition<br>of the Contribution causes such combination to be covered by the<br>Licensed Patents. The patent license shall not apply to any other<br>combinations which include the Contribution. No hardware per se is<br>licensed hereunder.<br><br>c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity.<br>Each Contributor disclaims any liability to Recipient for claims<br>brought by any other entity based on infringement of intellectual<br>property rights or otherwise. As a condition to exercising the<br>rights and licenses granted hereunder, each |

| | | |
|---|---|---|
| | | Recipient hereby<br>assumes sole responsibility to secure any other intellectual<br>property rights needed, if any. For example, if a third party<br>patent license is required to allow Recipient to Distribute the<br>Program, it is Recipient's responsibility to acquire that license<br>before distributing the Program.<br><br>d) Each Contributor represents that to its knowledge it has<br>sufficient copyright rights in its Contribution, if any, to grant<br>the copyright license set forth in this Agreement.<br><br>e) Notwithstanding the terms of any Secondary License, no<br>Contributor makes additional grants to any Recipient (other than<br>those set forth in this Agreement) as a result of such Recipient's<br>receipt of the Program under the terms of a Secondary License<br>(if permitted under the terms of Section 3).<br><br>3. REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in<br>accordance with section 3.2, and the Contributor must accompany<br>the Program with a statement that the Source Code for the Program<br>is available under this Agreement, and informs Recipients how to<br>obtain it in a reasonable manner on or through a medium customarily<br>used for software exchange; and<br><br>b) the Contributor may Distribute the Program under a license<br>different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all<br>warranties and conditions, express and implied, including<br>warranties or conditions of title and non-infringement, and<br>implied warranties or conditions of merchantability and fitness |

|---|---|---|
| | | for a particular purpose;<br><br>ii) effectively excludes on behalf of all other Contributors all<br>liability for damages, including direct, indirect, special,<br>incidental and consequential damages, such as lost profits;<br><br>iii) does not attempt to limit or alter the recipients' rights<br>in the Source Code under section 3.2; and<br><br>iv) requires any subsequent distribution of the Program by any<br>party to be under a license that satisfies the requirements<br>of this section 3.<br><br>3.2 When the Program is Distributed as Source Code:<br><br>a) it must be made available under this Agreement, or if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br><br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a |

| | | |
|---|---|---|
| | | commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages.<br><br>5. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.<br><br>6. DISCLAIMER OF LIABILITY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.<br><br>7. | | | If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the<br>Program itself (excluding combinations of the Program with other software<br>or hardware) infringes such Recipient's patent(s), then such Recipient's<br>rights granted under Section 2(b) shall terminate as of the date such<br>litigation is filed.<br><br>All Recipient's rights under this Agreement shall terminate if it<br>fails to comply with any of the material terms or conditions of this<br>Agreement and does not cure such failure in a reasonable period of<br>time after becoming aware of such noncompliance. If all Recipient's<br>rights under this Agreement terminate, Recipient agrees to cease use<br>and distribution of the Program as soon as reasonably practicable.<br>However, Recipient's obligations under this Agreement and any licenses<br>granted by Recipient relating to the Program shall continue and survive.<br><br>Everyone is permitted to copy and distribute copies of this Agreement,<br>but in order to avoid inconsistency the Agreement is copyrighted and<br>may only be modified in the following manner. No one other than the Agreement<br>Steward has the right to modify this Agreement. The Eclipse Foundation<br>is the initial Agreement Steward. The Eclipse Foundation may assign the<br>responsibility to serve as the Agreement Steward to a suitable separate<br>entity. Each new version of the Agreement will be given a distinguishing<br>version number. The Program (including Contributions) may always be<br>Distributed subject to the version of the Agreement under which it was<br>received. |---|---|---|
| | | Preamble<br><br>The licenses for most software are designed to take away your freedom to<br>share and change it. By contrast, the GNU General Public License is<br>intended to guarantee your freedom to share and change free software--to<br>make sure the software is free for all its users. This General Public<br>License applies to most of the Free Software Foundation's software and<br>to any other program whose authors commit to using it. (Some other Free<br>Software Foundation software is covered by the GNU Library General<br>Public License instead.) You can apply it to your programs, too.<br><br>When we speak of free software, we are referring to freedom, not price.<br>Our General Public Licenses are designed to make sure that you have the<br>freedom to distribute copies of free software (and charge for this<br>service if you wish), that you receive source code or can get it if you<br>want it, that you can change the software or use pieces of it in new<br>free programs; and that you know you can do these things.<br><br>To protect your rights, we need to make restrictions that forbid anyone<br>to deny you these rights or to ask you to surrender the rights. These<br>restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br><br>For example, if you distribute copies of such a program, whether gratis<br>or for a fee, you must give the recipients all the rights that you have.<br>You must make sure that they, too, receive or can get the source code.<br>And you must show them these terms so they know their rights.<br><br>We protect your rights with two steps: (1) copyright the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to |

| | | |
|---|---|---|
| | | make certain<br>that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software patents.<br>We wish to avoid the danger that redistributors of a free program will<br>individually obtain patent licenses, in effect making the program<br>proprietary. To prevent this, we have made it clear that any patent must<br>be licensed for everyone's free use or not licensed at all.<br><br>The precise terms and conditions for copying, distribution and<br>modification follow.<br><br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains a<br>notice placed by the copyright holder saying it may be distributed under<br>the terms of this General Public License. The "Program", below, refers<br>to any such program or work, and a "work based on the Program" means<br>either the Program or any derivative work under copyright law: that is<br>to say, a work containing the Program or a portion of it, either<br>verbatim or with modifications and/or translated into another language.<br>(Hereinafter, translation is included without limitation in the term<br>"modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of running<br>the Program is not restricted, and the output from the Program is<br>covered only if its contents constitute a work based on the Program<br>(independent of having been made by running the |

| | | |
|---|---|---|
| | | Program). Whether that<br>is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's source<br>code as you receive it, in any medium, provided that you conspicuously<br>and appropriately publish on each copy an appropriate copyright notice<br>and disclaimer of warranty; keep intact all the notices that refer to<br>this License and to the absence of any warranty; and give any other<br>recipients of the Program a copy of this License along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Program or any portion of<br>it, thus forming a work based on the Program, and copy and distribute<br>such modifications or work under the terms of Section 1 above, provided<br>that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any part<br>thereof, to be licensed as a whole at no charge to all third parties<br>under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a notice<br>that there is no warranty (or else, saying that you provide a<br>warranty) and that users may redistribute the program under these<br>conditions, and telling the user how to view a copy of this License. |

| | | |
|---|---|---|
| | | (Exception: if the Program itself is interactive but does not<br>normally print such an announcement, your work based on the Program<br>is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program, and<br>can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based on<br>the Program, the distribution of the whole must be on the terms of this<br>License, whose permissions for other licensees extend to the entire<br>whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of a<br>storage or distribution medium does not bring the other work under the<br>scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections 1<br>and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least |

| | | |
|---|---|---|
| | | three<br>years, to give any third party, for a charge no more than your cost<br>of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This alternative is allowed<br>only for noncommercial distribution and only if you received the<br>program in object code or executable form with such an offer, in<br>accord with Subsection b above.)<br><br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source code<br>means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to control<br>compilation and installation of the executable. However, as a special<br>exception, the source code distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major<br>components (compiler, kernel, and so on) of the operating system on<br>which the executable runs, unless that component itself accompanies the<br>executable.<br><br>If distribution of executable or object code is made by offering access<br>to copy from a designated place, then offering equivalent access to copy<br>the source code from the same place counts as distribution of the source<br>code, even though third parties are not compelled to copy the source<br>along with the object code.<br><br>4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt otherwise<br>to copy, modify, sublicense or distribute the Program is |

| | | |
|---|---|---|
| | | void, and will<br>automatically terminate your rights under this License. However, parties<br>who have received copies, or rights, from you under this License will<br>not have their licenses terminated so long as such parties remain in<br>full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and all<br>its terms and conditions for copying, distributing or modifying the<br>Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further restrictions<br>on the recipients' exercise of the rights granted herein. You are not<br>responsible for enforcing compliance by third parties to this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot distribute<br>so as to satisfy simultaneously your obligations under this License and<br>any other pertinent obligations, then as a consequence you may not<br>distribute the Program at all. For example, if a patent license would<br>not permit royalty-free redistribution of the Program by all those who |

| | | |
|---|---|---|
| | | receive copies directly or indirectly through you, then the only way you<br>could satisfy both it and this License would be to refrain entirely from<br>distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is implemented<br>by public license practices. Many people have made generous<br>contributions to the wide range of software distributed through that<br>system in reliance on consistent application of that system; it is up to<br>the author/donor to decide if he or she is willing to distribute<br>software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be<br>a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License may<br>add an explicit geographical distribution limitation excluding those<br>countries, so that distribution is permitted only in or among countries<br>not thus excluded. In such case, this License incorporates the<br>limitation as if written in the body of this License.<br><br>9. The Free Software Foundation may publish revised and/or new<br>versions of the General Public License from time to time. Such new<br>versions will be similar in spirit to the present version, |

| | | |
|---|---|---|
| | | but may<br>differ in detail to address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and<br>conditions either of that version or of any later version published by<br>the Free Software Foundation. If the Program does not specify a version<br>number of this License, you may choose any version ever published by the<br>Free Software Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the<br>author to ask for permission. For software which is copyrighted by the<br>Free Software Foundation, write to the Free Software Foundation; we<br>sometimes make exceptions for this. Our decision will be guided by the<br>two goals of preserving the free status of all derivatives of our free<br>software and of promoting the sharing and reuse of software generally.<br><br>NO WARRANTY<br><br>11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO<br>WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.<br>EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR<br>OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND,<br>EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED<br>WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of such Contributor,<br>if any, in Source Code or other form. This patent license shall<br>apply to the combination of the Contribution and the Program if, at<br>the time the Contribution is added by the Contributor, such addition<br>of the Contribution causes such combination to be covered by the<br>Licensed Patents. The patent license shall not apply to any other<br>combinations which include the Contribution. No hardware per se is<br>licensed hereunder.<br><br>c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity.<br>Each Contributor disclaims any liability to Recipient for claims<br>brought by any other entity based on infringement of |

|---|---|---|
| | | intellectual<br>property rights or otherwise. As a condition to exercising the<br>rights and licenses granted hereunder, each Recipient hereby<br>assumes sole responsibility to secure any other intellectual<br>property rights needed, if any. For example, if a third party<br>patent license is required to allow Recipient to Distribute the<br>Program, it is Recipient's responsibility to acquire that license<br>before distributing the Program.<br><br>d) Each Contributor represents that to its knowledge it has<br>sufficient copyright rights in its Contribution, if any, to grant<br>the copyright license set forth in this Agreement.<br><br>e) Notwithstanding the terms of any Secondary License, no<br>Contributor makes additional grants to any Recipient (other than<br>those set forth in this Agreement) as a result of such Recipient's<br>receipt of the Program under the terms of a Secondary License<br>(if permitted under the terms of Section 3).<br><br>3. REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in<br>accordance with section 3.2, and the Contributor must accompany<br>the Program with a statement that the Source Code for the Program<br>is available under this Agreement, and informs Recipients how to<br>obtain it in a reasonable manner on or through a medium customarily<br>used for software exchange; and<br><br>b) the Contributor may Distribute the Program under a license<br>different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all<br>warranties and conditions, express and implied, including |

| | | |
|---|---|---|
| | | warranties or conditions of title and non-infringement, and<br>implied warranties or conditions of merchantability and fitness<br>for a particular purpose;<br><br>ii) effectively excludes on behalf of all other Contributors all<br>liability for damages, including direct, indirect, special,<br>incidental and consequential damages, such as lost profits;<br><br>iii) does not attempt to limit or alter the recipients' rights<br>in the Source Code under section 3.2; and<br><br>iv) requires any subsequent distribution of the Program by any<br>party to be under a license that satisfies the requirements<br>of this section 3.<br><br>3.2 When the Program is Distributed as Source Code:<br><br>a) it must be made available under this Agreement, or if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br><br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the |

| | | like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial |

| | | Everyone is permitted to copy and distribute verbatim copies<br>of this license document, but changing it is not allowed.<br><br>Preamble<br><br>The licenses for most software are designed to take away your freedom to<br>share and change it. By contrast, the GNU General Public License is<br>intended to guarantee your freedom to share and change free software--to<br>make sure the software is free for all its users. This General Public<br>License applies to most of the Free Software Foundation's software and<br>to any other program whose authors commit to using it. (Some other Free<br>Software Foundation software is covered by the GNU Library General<br>Public License instead.) You can apply it to your programs, too.<br><br>When we speak of free software, we are referring to freedom, not price.<br>Our General Public Licenses are designed to make sure that you have the<br>freedom to distribute copies of free software (and charge for this<br>service if you wish), that you receive source code or can get it if you<br>want it, that you can change the software or use pieces of it in new<br>free programs; and that you know you can do these things.<br><br>To protect your rights, we need to make restrictions that forbid anyone<br>to deny you these rights or to ask you to surrender the rights. These<br>restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br><br>For example, if you distribute copies of such a program, whether gratis<br>or for a fee, you must give the recipients all the rights that you have.<br>You must make sure that they, too, receive or can get the source code.<br>And you must show them these terms so they know their rights.<br><br>We protect your rights with two steps: (1) copyright the software, and<br>(2) offer you this license which gives you legal |

| | | |
|---|---|---|
| | | permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to make certain<br>that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software patents.<br>We wish to avoid the danger that redistributors of a free program will<br>individually obtain patent licenses, in effect making the program<br>proprietary. To prevent this, we have made it clear that any patent must<br>be licensed for everyone's free use or not licensed at all.<br><br>The precise terms and conditions for copying, distribution and<br>modification follow.<br><br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains a<br>notice placed by the copyright holder saying it may be distributed under<br>the terms of this General Public License. The "Program", below, refers<br>to any such program or work, and a "work based on the Program" means<br>either the Program or any derivative work under copyright law: that is<br>to say, a work containing the Program or a portion of it, either<br>verbatim or with modifications and/or translated into another language.<br>(Hereinafter, translation is included without limitation in the term<br>"modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of running<br>the Program is not restricted, and the output from the |

| | | |
|---|---|---|
| | | Program is<br>covered only if its contents constitute a work based on the Program<br>(independent of having been made by running the Program). Whether that<br>is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's source<br>code as you receive it, in any medium, provided that you conspicuously<br>and appropriately publish on each copy an appropriate copyright notice<br>and disclaimer of warranty; keep intact all the notices that refer to<br>this License and to the absence of any warranty; and give any other<br>recipients of the Program a copy of this License along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Program or any portion of<br>it, thus forming a work based on the Program, and copy and distribute<br>such modifications or work under the terms of Section 1 above, provided<br>that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any part<br>thereof, to be licensed as a whole at no charge to all third parties<br>under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a notice<br>that there is no warranty (or else, saying that you provide a |

| | | |
|---|---|---|
| | | warranty) and that users may redistribute the program under these<br>conditions, and telling the user how to view a copy of this License.<br>(Exception: if the Program itself is interactive but does not<br>normally print such an announcement, your work based on the Program<br>is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program, and<br>can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based on<br>the Program, the distribution of the whole must be on the terms of this<br>License, whose permissions for other licensees extend to the entire<br>whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of a<br>storage or distribution medium does not bring the other work under the<br>scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections 1 |

| | | |
|---|---|---|
| | | and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your cost<br>of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This alternative is allowed<br>only for noncommercial distribution and only if you received the<br>program in object code or executable form with such an offer, in<br>accord with Subsection b above.)<br><br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source code<br>means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to control<br>compilation and installation of the executable. However, as a special<br>exception, the source code distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major<br>components (compiler, kernel, and so on) of the operating system on<br>which the executable runs, unless that component itself accompanies the<br>executable.<br><br>If distribution of executable or object code is made by offering access<br>to copy from a designated place, then offering equivalent access to copy<br>the source code from the same place counts as distribution of the source<br>code, even though third parties are not compelled to copy the source<br>along with the object code.<br><br>4. You may not copy, modify, sublicense, or distribute |

| | | |
|---|---|---|
| | | the Program<br>except as expressly provided under this License. Any attempt otherwise<br>to copy, modify, sublicense or distribute the Program is void, and will<br>automatically terminate your rights under this License. However, parties<br>who have received copies, or rights, from you under this License will<br>not have their licenses terminated so long as such parties remain in<br>full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and all<br>its terms and conditions for copying, distributing or modifying the<br>Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further restrictions<br>on the recipients' exercise of the rights granted herein. You are not<br>responsible for enforcing compliance by third parties to this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot distribute<br>so as to satisfy simultaneously your obligations under this License and<br>any other pertinent obligations, then as a consequence you may not |

| | | |
|---|---|---|
| | | distribute the Program at all. For example, if a patent license would<br>not permit royalty-free redistribution of the Program by all those who<br>receive copies directly or indirectly through you, then the only way you<br>could satisfy both it and this License would be to refrain entirely from<br>distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is implemented<br>by public license practices. Many people have made generous<br>contributions to the wide range of software distributed through that<br>system in reliance on consistent application of that system; it is up to<br>the author/donor to decide if he or she is willing to distribute<br>software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be<br>a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License may<br>add an explicit geographical distribution limitation excluding those<br>countries, so that distribution is permitted only in or among countries<br>not thus excluded. In such case, this License incorporates the<br>limitation as if written in the body of this License.<br><br>9. The Free Software Foundation may publish revised |

| | | |
|---|---|---|
| | | and/or new<br>versions of the General Public License from time to time. Such new<br>versions will be similar in spirit to the present version, but may<br>differ in detail to address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and<br>conditions either of that version or of any later version published by<br>the Free Software Foundation. If the Program does not specify a version<br>number of this License, you may choose any version ever published by the<br>Free Software Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the<br>author to ask for permission. For software which is copyrighted by the<br>Free Software Foundation, write to the Free Software Foundation; we<br>sometimes make exceptions for this. Our decision will be guided by the<br>two goals of preserving the free status of all derivatives of our free<br>software and of promoting the sharing and reuse of software generally.<br><br>NO WARRANTY<br><br>11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO<br>WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.<br>EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR<br>OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND,<br>EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED<br>WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE<br>ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH<br>YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL<br>NECESSARY SERVICING, REPAIR OR CORRECTION. |

It<br>is safest to<br>attach them to the start of each source file to most<br>effectively convey<br>the exclusion of warranty; and each file should have at<br>least the<br>"copyright" line and a pointer to where the full notice is<br>found.<br><br>One line to give the program's name and a brief idea<br>of what it does.<br>Copyright (C) <year> <name of author><br><br>This program is free software; you can redistribute it<br>and/or modify<br>it under the terms of the GNU General Public<br>License as published by<br>the Free Software Foundation; either version 2 of<br>the License, or<br>(at your option) any later version.<br><br>This program is distributed in the hope that it will be<br>useful, but<br>WITHOUT ANY WARRANTY; without even the<br>implied warranty of |

ANY USE, REPRODUCTION OR DISTRIBUTION<br>OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.<br><br>1. DEFINITIONS<br><br>"Contribution" means:<br><br>a) in the case of the initial Contributor, the initial content<br>Distributed under this Agreement, and<br><br>b) in the case of each subsequent Contributor:<br>i) changes to the Program, and<br>ii) additions to the Program;<br>where such changes and/or additions to the Program originate from<br>and are Distributed by that particular Contributor. A Contribution<br>"originates" from a Contributor if it was added to the Program by<br>such Contributor itself or anyone acting on such Contributor's behalf.<br>Contributions do not include changes or additions to the Program that<br>are not Modified Works.<br><br>"Contributor" means any person or entity that Distributes the Program.<br><br>"Licensed Patents" mean patent claims licensable by a Contributor which<br>are necessarily infringed by the use or sale of its Contribution alone<br>or when combined with the Program.<br><br>"Program" means the Contributions Distributed in accordance with this<br>Agreement.<br><br>"Recipient" means anyone who receives the Program under this Agreement<br>or any Secondary License (as applicable), including Contributors.<br><br>"Derivative Works" shall mean any work, whether in |

Modified<br>Works shall not include works that contain only declarations,<br>interfaces, types, classes, structures, or files of the Program solely<br>in each case in order to link to, bind by name, or subclass the Program<br>or Modified Works thereof.<br><br>"Distribute" means the acts of a) distributing or b) making available<br>in any manner that enables the transfer of a copy.<br><br>"Source Code" means the form of a Program preferred for making<br>modifications, including but not limited to software source code,<br>documentation source, and configuration files.<br><br>"Secondary License" means either the GNU General Public License,<br>Version 2.0, or any later versions of that license, including any<br>exceptions or additional permissions as identified by the initial<br>Contributor.<br><br>2. GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty- |

This patent license shall<br>  apply to the combination of the Contribution and the Program if, at<br>  the time the Contribution is added by the Contributor, such addition<br>  of the Contribution causes such combination to be covered by the<br>  Licensed Patents. The patent license shall not apply to any other<br>  combinations which include the Contribution. No hardware per se is<br>  licensed hereunder.<br><br>  c) Recipient understands that although each Contributor grants the<br>  licenses to its Contributions set forth herein, no assurances are<br>  provided by any Contributor that the Program does not infringe the<br>  patent or other intellectual property rights of any other entity.<br>  Each Contributor disclaims any liability to Recipient for claims<br>  brought by any other entity based on infringement of intellectual<br>  property rights or otherwise. As a condition to exercising the<br>  rights and licenses granted hereunder, each Recipient hereby<br>  assumes sole responsibility to secure any other intellectual<br>  property rights needed, if any. For example, if a third party<br>  patent license is required to allow Recipient to Distribute the<br>  Program, it is Recipient's responsibility to acquire that license<br>  before distributing the Program.<br><br>  d) Each Contributor represents that to its knowledge it has<br>  sufficient copyright rights in its Contribution, if any, to grant<br>  the copyright license set forth in this Agreement.<br><br>  e) Notwithstanding the terms of any Secondary License, no<br>  Contributor makes additional grants to any Recipient (other than<br>  those set forth in this Agreement) as a result of such |

REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>  a) the Program must also be made available as Source Code, in<br>  accordance with section 3.2, and the Contributor must accompany<br>  the Program with a statement that the Source Code for the Program<br>  is available under this Agreement, and informs Recipients how to<br>  obtain it in a reasonable manner on or through a medium customarily<br>  used for software exchange; and<br><br>  b) the Contributor may Distribute the Program under a license<br>  different than this Agreement, provided that such license:<br>  i) effectively disclaims on behalf of all other Contributors all<br>  warranties and conditions, express and implied, including<br>  warranties or conditions of title and non-infringement, and<br>  implied warranties or conditions of merchantability and fitness<br>  for a particular purpose;<br><br>  ii) effectively excludes on behalf of all other Contributors all<br>  liability for damages, including direct, indirect, special,<br>  incidental and consequential damages, such as lost profits;<br><br>  iii) does not attempt to limit or alter the recipients' rights<br>  in the Source Code under section 3.2; and<br><br>  iv) requires any subsequent distribution of the Program by any<br>  party to be under a license that satisfies the requirements<br>  of this section 3.<br><br>3.2 When the Program is Distributed as Source Code:<br><br>  a) it must be made available under this Agreement, or |

| | | |
|---|---|---|
| | | if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br><br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or |

| | | |
|---|---|---|
| | | alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages.<br><br>5. NO WARRANTY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS"<br>BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR<br>IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF<br>TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR<br>PURPOSE. Each Recipient is solely responsible for determining the<br>appropriateness of using and distributing the Program and assumes all<br>risks associated with its exercise of rights under this Agreement,<br>including but not limited to the risks and costs of program errors,<br>compliance with applicable laws, damage to or loss of data, programs<br>or equipment, and unavailability or interruption of |

DISCLAIMER OF LIABILITY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.<br><br>7. GENERAL<br><br>If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.<br><br>If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.<br><br>All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use |

The Agreement Steward<br>reserves the right to publish new versions (including revisions) of<br>this Agreement from time to time. No one other than the Agreement<br>Steward has the right to modify this Agreement. The Eclipse Foundation<br>is the initial Agreement Steward. The Eclipse Foundation may assign the<br>responsibility to serve as the Agreement Steward to a suitable separate<br>entity. Each new version of the Agreement will be given a distinguishing<br>version number. The Program (including Contributions) may always be<br>Distributed subject to the version of the Agreement under which it was<br>received. In addition, after a new version of the Agreement is published,<br>Contributor may elect to Distribute the Program (including its<br>Contributions) under the new version.<br><br>Except as expressly stated in Sections 2(a) and 2(b) above, Recipient<br>receives no rights or licenses to the intellectual property of any<br>Contributor under this Agreement, whether expressly, by implication,<br>estoppel or otherwise. By contrast, the GNU General Public License is<br>intended to guarantee your freedom to share and change free software--to<br>make sure the software is free for all its users. This General Public<br>License applies to most of the Free Software Foundation's software and<br>to any other program whose authors commit to using it. (Some other Free<br>Software Foundation software is covered by the GNU Library General<br>Public License instead.) You can apply it to your programs, too.<br><br>When we speak of free software, we are referring to freedom, not price.<br>Our General Public Licenses are designed to make |

| | | |
|---|---|---|
| | | sure that you have the<br>freedom to distribute copies of free software (and charge for this<br>service if you wish), that you receive source code or can get it if you<br>want it, that you can change the software or use pieces of it in new<br>free programs; and that you know you can do these things.<br><br>To protect your rights, we need to make restrictions that forbid anyone<br>to deny you these rights or to ask you to surrender the rights. These<br>restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br><br>For example, if you distribute copies of such a program, whether gratis<br>or for a fee, you must give the recipients all the rights that you have.<br>You must make sure that they, too, receive or can get the source code.<br>And you must show them these terms so they know their rights.<br><br>We protect your rights with two steps: (1) copyright the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to make certain<br>that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software patents.<br>We wish to avoid the danger that redistributors of a free program will<br>individually obtain patent licenses, in effect making the program<br>proprietary. To prevent this, we have made it clear that any patent must<br>be licensed for everyone's free use or not licensed at all. |

| | | |
|---|---|---|
| | | The precise terms and conditions for copying, distribution and<br>modification follow.<br><br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains a<br>notice placed by the copyright holder saying it may be distributed under<br>the terms of this General Public License. The "Program", below, refers<br>to any such program or work, and a "work based on the Program" means<br>either the Program or any derivative work under copyright law: that is<br>to say, a work containing the Program or a portion of it, either<br>verbatim or with modifications and/or translated into another language.<br>(Hereinafter, translation is included without limitation in the term<br>"modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of running<br>the Program is not restricted, and the output from the Program is<br>covered only if its contents constitute a work based on the Program<br>(independent of having been made by running the Program). Whether that<br>is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's source<br>code as you receive it, in any medium, provided that you conspicuously<br>and appropriately publish on each copy an appropriate copyright notice<br>and disclaimer of warranty; keep intact all the notices that refer to<br>this License and to the absence of any warranty; and give any other<br>recipients of the Program a copy of this License along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Program |

| | | |
|---|---|---|
| | | or any portion of<br>it, thus forming a work based on the Program, and copy and distribute<br>such modifications or work under the terms of Section 1 above, provided<br>that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any part<br>thereof, to be licensed as a whole at no charge to all third parties<br>under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a notice<br>that there is no warranty (or else, saying that you provide a<br>warranty) and that users may redistribute the program under these<br>conditions, and telling the user how to view a copy of this License.<br>(Exception: if the Program itself is interactive but does not<br>normally print such an announcement, your work based on the Program<br>is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program, and<br>can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based on<br>the Program, the distribution of the whole must be on the terms of this<br>License, whose permissions for other licensees extend to the entire |

| | | |
|---|---|---|
| | | whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of a<br>storage or distribution medium does not bring the other work under the<br>scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections 1<br>and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your cost<br>of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This alternative is allowed<br>only for noncommercial distribution and only if you received the<br>program in object code or executable form with such an offer, in<br>accord with Subsection b above.)<br><br>The source code for a work means the preferred form |

| | | |
|---|---|---|
| | | of the work for<br>making modifications to it. For an executable work, complete source code<br>means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to control<br>compilation and installation of the executable. However, as a special<br>exception, the source code distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major<br>components (compiler, kernel, and so on) of the operating system on<br>which the executable runs, unless that component itself accompanies the<br>executable.<br><br>If distribution of executable or object code is made by offering access<br>to copy from a designated place, then offering equivalent access to copy<br>the source code from the same place counts as distribution of the source<br>code, even though third parties are not compelled to copy the source<br>along with the object code.<br><br>4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt otherwise<br>to copy, modify, sublicense or distribute the Program is void, and will<br>automatically terminate your rights under this License. However, parties<br>who have received copies, or rights, from you under this License will<br>not have their licenses terminated so long as such parties remain in<br>full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and all<br>its terms and conditions for copying, distributing or |

| | | |
|---|---|---|
| | | modifying the<br>Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further restrictions<br>on the recipients' exercise of the rights granted herein. You are not<br>responsible for enforcing compliance by third parties to this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot distribute<br>so as to satisfy simultaneously your obligations under this License and<br>any other pertinent obligations, then as a consequence you may not<br>distribute the Program at all. For example, if a patent license would<br>not permit royalty-free redistribution of the Program by all those who<br>receive copies directly or indirectly through you, then the only way you<br>could satisfy both it and this License would be to refrain entirely from<br>distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is implemented |

| | | |
|---|---|---|
| | | by public license practices. Many people have made generous<br>contributions to the wide range of software distributed through that<br>system in reliance on consistent application of that system; it is up to<br>the author/donor to decide if he or she is willing to distribute<br>software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be<br>a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License may<br>add an explicit geographical distribution limitation excluding those<br>countries, so that distribution is permitted only in or among countries<br>not thus excluded. In such case, this License incorporates the<br>limitation as if written in the body of this License.<br><br>9. The Free Software Foundation may publish revised and/or new<br>versions of the General Public License from time to time. Such new<br>versions will be similar in spirit to the present version, but may<br>differ in detail to address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and<br>conditions either of that version or of any later version published by<br>the Free Software Foundation. If the Program does not specify a version<br>number of this License, you may choose any version ever published by the<br>Free Software Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the<br>author to ask for permission. For software which is |

| | | copyrighted by the<br>Free Software Foundation, write to the Free Software Foundation; we<br>sometimes make exceptions for this. Our decision will be guided by the<br>two goals of preserving the free status of all derivatives of our free<br>software and of promoting the sharing and reuse of software generally.<br><br>NO WARRANTY<br><br>11. THE<br>ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH<br>YOU. Definitions.<br><br>"License" shall mean the terms and conditions for use, reproduction,<br>and distribution as defined by Sections 1 through 9 of this document.<br><br>"Licensor" shall mean the copyright owner or entity authorized by<br>the copyright owner that is granting the License.<br><br>"Legal Entity" shall mean the union of the acting entity and all<br>other entities that control, are controlled by, or are under common<br>control with that entity. For the purposes of this definition,<br>"control" means (i) the power, direct or indirect, to cause the<br>direction or management of such entity, whether by contract or<br>otherwise, or (ii) ownership of fifty percent (50%) or more of the<br>outstanding shares, or (iii) beneficial ownership of such entity.<br><br>"You" (or "Your") shall mean an individual or Legal Entity<br>exercising permissions granted by this License.<br><br>"Source" form shall mean the preferred form for making modifications,<br>including but not limited to software source code, documentation<br>source, and configuration files.<br><br>"Object" form shall mean any form resulting from mechanical<br>transformation or translation of a Source form, including but<br>not limited to compiled object code, generated documentation,<br>and conversions to other media types.<br><br>"Work" shall mean the work of authorship, whether in Source or<br>Object form, made available under the License, as indicated by a |

For the purposes<br>of this License, Derivative Works shall not include works that remain<br>separable from, or merely link (or bind by name) to the interfaces of,<br>the Work and Derivative Works thereof.<br><br>"Contribution" shall mean any work of authorship, including<br>the original version of the Work and any modifications or additions<br>to that Work or Derivative Works thereof, that is intentionally<br>submitted to Licensor for inclusion in the Work by the copyright owner<br>or by an individual or Legal Entity authorized to submit on behalf of<br>the copyright owner. For the purposes of this definition, "submitted"<br>means any form of electronic, verbal, or written communication sent<br>to the Licensor or its representatives, including but not limited to<br>communication on electronic mailing lists, source code control systems,<br>and issue tracking systems that are managed by, or on behalf of, the<br>Licensor for the purpose of discussing and improving the Work, but<br>excluding communication that is conspicuously marked or otherwise<br>designated in writing by the copyright owner as "Not a Contribution."<br><br>"Contributor" shall mean Licensor and any individual or Legal Entity<br>on behalf of whom a Contribution has been received by Licensor and<br>subsequently incorporated within the Work.<br><br>2. Grant of Copyright License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, |

GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of such Contributor,<br>if any, in Source Code or other form. This patent license shall<br>apply to the combination of the Contribution and the Program if, at<br>the time the Contribution is added by the Contributor, such addition<br>of the Contribution causes such combination to be covered by the<br>Licensed Patents. The patent license shall not apply to any other<br>combinations which include the Contribution. No hardware per se is<br>licensed hereunder.<br><br>c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity.<br>Each Contributor disclaims any liability to Recipient for claims<br>brought by any other entity based on infringement of intellectual<br>property rights or otherwise. As a condition to exercising the<br>rights and licenses granted hereunder, each Recipient hereby<br>assumes sole responsibility to secure any other |

|---|---|---|
| | | intellectual<br>property rights needed, if any. For example, if a third party<br>patent license is required to allow Recipient to Distribute the<br>Program, it is Recipient's responsibility to acquire that license<br>before distributing the Program.<br><br>d) Each Contributor represents that to its knowledge it has<br>sufficient copyright rights in its Contribution, if any, to grant<br>the copyright license set forth in this Agreement.<br><br>e) Notwithstanding the terms of any Secondary License, no<br>Contributor makes additional grants to any Recipient (other than<br>those set forth in this Agreement) as a result of such Recipient's<br>receipt of the Program under the terms of a Secondary License<br>(if permitted under the terms of Section 3).<br><br>3. REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in<br>accordance with section 3.2, and the Contributor must accompany<br>the Program with a statement that the Source Code for the Program<br>is available under this Agreement, and informs Recipients how to<br>obtain it in a reasonable manner on or through a medium customarily<br>used for software exchange; and<br><br>b) the Contributor may Distribute the Program under a license<br>different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all<br>warranties and conditions, express and implied, including<br>warranties or conditions of title and non-infringement, and<br>implied warranties or conditions of merchantability and fitness<br>for a particular purpose; |

| | | |
|---|---|---|
| | | ii) effectively excludes on behalf of all other Contributors all<br>liability for damages, including direct, indirect, special,<br>incidental and consequential damages, such as lost profits;<br><br>iii) does not attempt to limit or alter the recipients' rights<br>in the Source Code under section 3.2; and<br><br>iv) requires any subsequent distribution of the Program by any<br>party to be under a license that satisfies the requirements<br>of this section 3.<br><br>3.2 When the Program is Distributed as Source Code:<br><br>a) it must be made available under this Agreement, or if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br><br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product |

| | | |
|---|---|---|
| | | offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages.<br><br>5. Each Recipient is solely responsible for determining the<br>appropriateness of using and distributing the Program and assumes all<br>risks associated with its exercise of rights under this Agreement,<br>including but not limited to the risks and costs of program errors,<br>compliance with applicable laws, damage to or loss of data, programs<br>or equipment, and unavailability or interruption of operations.<br><br>6. GENERAL<br><br>If any provision of this Agreement is invalid or unenforceable under<br>applicable law, it shall not affect the validity or enforceability of<br>the remainder of the terms of this Agreement, and without further<br>action by the parties hereto, such provision shall be reformed to the<br>minimum extent necessary to make such provision valid and enforceable. |

| | | |
|---|---|---|
| | | If Recipient institutes patent litigation against any entity<br>(including a cross-claim or counterclaim in a lawsuit) alleging that the<br>Program itself (excluding combinations of the Program with other software<br>or hardware) infringes such Recipient's patent(s), then such Recipient's<br>rights granted under Section 2(b) shall terminate as of the date such<br>litigation is filed.<br><br>All Recipient's rights under this Agreement shall terminate if it<br>fails to comply with any of the material terms or conditions of this<br>Agreement and does not cure such failure in a reasonable period of<br>time after becoming aware of such noncompliance. If all Recipient's<br>rights under this Agreement terminate, Recipient agrees to cease use<br>and distribution of the Program as soon as reasonably practicable.<br>However, Recipient's obligations under this Agreement and any licenses<br>granted by Recipient relating to the Program shall continue and survive.<br><br>Everyone is permitted to copy and distribute copies of this Agreement,<br>but in order to avoid inconsistency the Agreement is copyrighted and<br>may only be modified in the following manner. | | | Everyone is permitted to copy and distribute verbatim copies<br>of this license document, but changing it is not allowed.<br><br>Preamble<br><br>The licenses for most software are designed to take away your freedom to<br>share and change it. By contrast, the GNU General Public License is<br>intended to guarantee your freedom to share and change free software--to<br>make sure the software is free for all its users. This General Public<br>License applies to most of the Free Software Foundation's software and<br>to any other program whose authors commit to using it. (Some other Free<br>Software Foundation software is covered by the GNU Library General<br>Public License instead.) You can apply it to your programs, too.<br><br>When we speak of free software, we are referring to freedom, not price.<br>Our General Public Licenses are designed to make sure that you have the<br>freedom to distribute copies of free software (and charge for this<br>service if you wish), that you receive source code or can get it if you<br>want it, that you can change the software or use pieces of it in new<br>free programs; and that you know you can do these things.<br><br>To protect your rights, we need to make restrictions that forbid anyone<br>to deny you these rights or to ask you to surrender the rights. These<br>restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br><br>For example, if you distribute copies of such a program, whether gratis<br>or for a fee, you must give the recipients all the rights that you have.<br>You must make sure that they, too, receive or can get the source code.<br>And you must show them these terms so they know their rights.<br><br>We protect your rights with two steps: (1) copyright the software, and |

| | | |
|---|---|---|
| | | (2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to make certain<br>that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software patents.<br>We wish to avoid the danger that redistributors of a free program will<br>individually obtain patent licenses, in effect making the program<br>proprietary. To prevent this, we have made it clear that any patent must<br>be licensed for everyone's free use or not licensed at all.<br><br>The precise terms and conditions for copying, distribution and<br>modification follow.<br><br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains a<br>notice placed by the copyright holder saying it may be distributed under<br>the terms of this General Public License. The "Program", below, refers<br>to any such program or work, and a "work based on the Program" means<br>either the Program or any derivative work under copyright law: that is<br>to say, a work containing the Program or a portion of it, either<br>verbatim or with modifications and/or translated into another language.<br>(Hereinafter, translation is included without limitation in the term<br>"modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of running |

| | | |
|---|---|---|
| | | the Program is not restricted, and the output from the Program is<br>covered only if its contents constitute a work based on the Program<br>(independent of having been made by running the Program). Whether that<br>is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's source<br>code as you receive it, in any medium, provided that you conspicuously<br>and appropriately publish on each copy an appropriate copyright notice<br>and disclaimer of warranty; keep intact all the notices that refer to<br>this License and to the absence of any warranty; and give any other<br>recipients of the Program a copy of this License along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Program or any portion of<br>it, thus forming a work based on the Program, and copy and distribute<br>such modifications or work under the terms of Section 1 above, provided<br>that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any part<br>thereof, to be licensed as a whole at no charge to all third parties<br>under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a notice<br>that there is no warranty (or else, saying that you |

| | | |
|---|---|---|
| | | provide a<br>warranty) and that users may redistribute the program under these<br>conditions, and telling the user how to view a copy of this License.<br>(Exception: if the Program itself is interactive but does not<br>normally print such an announcement, your work based on the Program<br>is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program, and<br>can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based on<br>the Program, the distribution of the whole must be on the terms of this<br>License, whose permissions for other licensees extend to the entire<br>whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of a<br>storage or distribution medium does not bring the other work under the<br>scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the |

| | | |
|---|---|---|
| | | terms of Sections 1<br>and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your cost<br>of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This alternative is allowed<br>only for noncommercial distribution and only if you received the<br>program in object code or executable form with such an offer, in<br>accord with Subsection b above.)<br><br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source code<br>means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to control<br>compilation and installation of the executable. However, as a special<br>exception, the source code distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major<br>components (compiler, kernel, and so on) of the operating system on<br>which the executable runs, unless that component itself accompanies the<br>executable.<br><br>If distribution of executable or object code is made by offering access<br>to copy from a designated place, then offering equivalent access to copy<br>the source code from the same place counts as distribution of the source<br>code, even though third parties are not compelled to copy the source<br>along with the object code. |

| | | 4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt otherwise<br>to copy, modify, sublicense or distribute the Program is void, and will<br>automatically terminate your rights under this License. However, parties<br>who have received copies, or rights, from you under this License will<br>not have their licenses terminated so long as such parties remain in<br>full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and all<br>its terms and conditions for copying, distributing or modifying the<br>Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further restrictions<br>on the recipients' exercise of the rights granted herein. You are not<br>responsible for enforcing compliance by third parties to this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot distribute<br>so as to satisfy simultaneously your obligations under this License and<br>any other pertinent obligations, then as a |

| | | |
|---|---|---|
| | | consequence you may not<br>distribute the Program at all. For example, if a patent license would<br>not permit royalty-free redistribution of the Program by all those who<br>receive copies directly or indirectly through you, then the only way you<br>could satisfy both it and this License would be to refrain entirely from<br>distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is implemented<br>by public license practices. Many people have made generous<br>contributions to the wide range of software distributed through that<br>system in reliance on consistent application of that system; it is up to<br>the author/donor to decide if he or she is willing to distribute<br>software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be<br>a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License may<br>add an explicit geographical distribution limitation excluding those<br>countries, so that distribution is permitted only in or among countries<br>not thus excluded. In such case, this License incorporates the<br>limitation as if written in the body of this License. |

Such new<br>versions will be similar in spirit to the present version, but may<br>differ in detail to address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and<br>conditions either of that version or of any later version published by<br>the Free Software Foundation. If the Program does not specify a version<br>number of this License, you may choose any version ever published by the<br>Free Software Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the<br>author to ask for permission. For software which is copyrighted by the<br>Free Software Foundation, write to the Free Software Foundation; we<br>sometimes make exceptions for this. Our decision will be guided by the<br>two goals of preserving the free status of all derivatives of our free<br>software and of promoting the sharing and reuse of software generally.<br><br>NO WARRANTY<br><br>11. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.<br><br>For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the "Affirmer"), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights.<br><br>1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright |

Copyright and Related Rights include, but are not limited to, the following:<br><br>the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work;<br>moral rights retained by the original author(s) and/or performer(s);<br>publicity and privacy rights pertaining to a person's image or likeness depicted in a Work;<br>rights protecting against unfair competition in regards to a Work, subject to the limitations in paragraph 4(a), below;<br>rights protecting the extraction, dissemination, use and reuse of data in a Work;<br>database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof, including any amended or successor version of such directive); and<br>other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof.<br>2. Waiver. To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, abandons, and surrenders all of Affirmer's Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the "Waiver"). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmer's heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmer's express Statement of Purpose.<br><br>3. Public License Fallback. Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmer's express Statement of Purpose. The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmer's express Statement of Purpose.<br><br>4. | | | THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE<br>PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION<br>OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.<br><br>1. DEFINITIONS<br><br>"Contribution" means:<br><br>a) in the case of the initial Contributor, the initial content<br>Distributed under this Agreement, and<br><br>b) in the case of each subsequent Contributor:<br>i) changes to the Program, and<br>ii) additions to the Program;<br>where such changes and/or additions to the Program originate from<br>and are Distributed by that particular Contributor. A Contribution<br>"originates" from a Contributor if it was added to the Program by<br>such Contributor itself or anyone acting on such Contributor's behalf.<br>Contributions do not include changes or additions to the Program that<br>are not Modified Works.<br><br>"Contributor" means any person or entity that Distributes the Program.<br><br>"Licensed Patents" mean patent claims licensable by a Contributor which<br>are necessarily infringed by the use or sale of its Contribution alone<br>or when combined with the Program.<br><br>"Program" means the Contributions Distributed in accordance with this<br>Agreement.<br><br>"Recipient" means anyone who receives the Program under this Agreement<br>or any Secondary License (as applicable), including Contributors.<br><br>"Derivative Works" shall mean any work, whether in Source Code or other<br>form, that is based on (or derived from) the Program and for which the<br>editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of authorship. |

| | | |
|---|---|---|
| | | "Modified Works" shall mean any work in Source Code or other form that<br>results from an addition to, deletion from, or modification of the<br>contents of the Program, including, for purposes of clarity any new file<br>in Source Code form that contains any contents of the Program. Modified<br>Works shall not include works that contain only declarations,<br>interfaces, types, classes, structures, or files of the Program solely<br>in each case in order to link to, bind by name, or subclass the Program<br>or Modified Works thereof.<br><br>"Distribute" means the acts of a) distributing or b) making available<br>in any manner that enables the transfer of a copy.<br><br>"Source Code" means the form of a Program preferred for making<br>modifications, including but not limited to software source code,<br>documentation source, and configuration files.<br><br>"Secondary License" means either the GNU General Public License,<br>Version 2.0, or any later versions of that license, including any<br>exceptions or additional permissions as identified by the initial<br>Contributor.<br><br>2. GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of such Contributor,<br>if any, in Source Code or other form. This patent |

| | | |
|---|---|---|
| | | license shall<br>apply to the combination of the Contribution and the Program if, at<br>the time the Contribution is added by the Contributor, such addition<br>of the Contribution causes such combination to be covered by the<br>Licensed Patents. The patent license shall not apply to any other<br>combinations which include the Contribution. No hardware per se is<br>licensed hereunder.<br><br>c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity.<br>Each Contributor disclaims any liability to Recipient for claims<br>brought by any other entity based on infringement of intellectual<br>property rights or otherwise. As a condition to exercising the<br>rights and licenses granted hereunder, each Recipient hereby<br>assumes sole responsibility to secure any other intellectual<br>property rights needed, if any. For example, if a third party<br>patent license is required to allow Recipient to Distribute the<br>Program, it is Recipient's responsibility to acquire that license<br>before distributing the Program.<br><br>d) Each Contributor represents that to its knowledge it has<br>sufficient copyright rights in its Contribution, if any, to grant<br>the copyright license set forth in this Agreement.<br><br>e) Notwithstanding the terms of any Secondary License, no<br>Contributor makes additional grants to any Recipient (other than<br>those set forth in this Agreement) as a result of such Recipient's<br>receipt of the Program under the terms of a Secondary License<br>(if permitted under the terms of Section 3).<br><br>3. REQUIREMENTS |

| | | |
|---|---|---|
| | | 3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in<br>accordance with section 3.2, and the Contributor must accompany<br>the Program with a statement that the Source Code for the Program<br>is available under this Agreement, and informs Recipients how to<br>obtain it in a reasonable manner on or through a medium customarily<br>used for software exchange; and<br><br>b) the Contributor may Distribute the Program under a license<br>different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all<br>warranties and conditions, express and implied, including<br>warranties or conditions of title and non-infringement, and<br>implied warranties or conditions of merchantability and fitness<br>for a particular purpose;<br><br>ii) effectively excludes on behalf of all other Contributors all<br>liability for damages, including direct, indirect, special,<br>incidental and consequential damages, such as lost profits;<br><br>iii) does not attempt to limit or alter the recipients' rights<br>in the Source Code under section 3.2; and<br><br>iv) requires any subsequent distribution of the Program by any<br>party to be under a license that satisfies the requirements<br>of this section 3.<br><br>3.2 When the Program is Distributed as Source Code:<br><br>a) it must be made available under this Agreement, or if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice |

| | | |
|---|---|---|
| | | described in<br>  Exhibit A of this Agreement, then the Program may be made available<br>  under the terms of such Secondary Licenses, and<br><br>  b) a copy of this Agreement must be included with each copy of<br>  the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial |

| | | |
|---|---|---|
| | | Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages.<br><br>5. NO WARRANTY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS"<br>BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR<br>IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF<br>TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR<br>PURPOSE. Each Recipient is solely responsible for determining the<br>appropriateness of using and distributing the Program and assumes all<br>risks associated with its exercise of rights under this Agreement,<br>including but not limited to the risks and costs of program errors,<br>compliance with applicable laws, damage to or loss of data, programs<br>or equipment, and unavailability or interruption of operations.<br><br>6. DISCLAIMER OF LIABILITY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT |

By contrast, the GNU General Public<br>License is intended to guarantee your freedom to share and change free<br>software--to make sure the software is free for all its users.  This<br>General Public License applies to most of the Free Software<br>Foundation's software and to any other program whose authors commit to<br>using it.  (Some other Free Software Foundation software is covered by<br>the GNU Lesser General Public License instead.)  You can apply it to<br>your programs, too.<br><br>  When we speak of free software, we are referring to freedom, not<br>price.  Our General Public Licenses are designed to make sure that you<br>have the freedom to distribute copies of free software (and charge for |

| | | |
|---|---|---|
| | | this service if you wish), that you receive source code or can get it<br>if you want it, that you can change the software or use pieces of it<br>in new free programs; and that you know you can do these things.<br><br>To protect your rights, we need to make restrictions that forbid<br>anyone to deny you these rights or to ask you to surrender the rights.<br>These restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br><br>For example, if you distribute copies of such a program, whether<br>gratis or for a fee, you must give the recipients all the rights that<br>you have. You must make sure that they, too, receive or can get the<br>source code. And you must show them these terms so they know their<br>rights.<br><br>We protect your rights with two steps: (1) copyright the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to make certain<br>that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software<br>patents. We wish to avoid the danger that redistributors of a free<br>program will individually obtain patent licenses, in effect making the<br>program proprietary. To prevent this, we have made it clear that any<br>patent must be licensed for everyone's free use or not licensed at all.<br><br>The precise terms and conditions for copying, distribution and |

| | | |
|---|---|---|
| | | modification follow.<br><br>GNU GENERAL PUBLIC LICENSE<br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains<br>a notice placed by the copyright holder saying it may be distributed<br>under the terms of this General Public License. The "Program", below,<br>refers to any such program or work, and a "work based on the Program"<br>means either the Program or any derivative work under copyright law:<br>that is to say, a work containing the Program or a portion of it,<br>either verbatim or with modifications and/or translated into another<br>language. (Hereinafter, translation is included without limitation in<br>the term "modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of<br>running the Program is not restricted, and the output from the Program<br>is covered only if its contents constitute a work based on the<br>Program (independent of having been made by running the Program).<br>Whether that is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's<br>source code as you receive it, in any medium, provided that you<br>conspicuously and appropriately publish on each copy an appropriate<br>copyright notice and disclaimer of warranty; keep intact all the<br>notices that refer to this License and to the absence of any warranty;<br>and give any other recipients of the Program a copy of this License<br>along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee. |

| | | |
|---|---|---|
| | | 2. You may modify your copy or copies of the Program or any portion<br>of it, thus forming a work based on the Program, and copy and<br>distribute such modifications or work under the terms of Section 1<br>above, provided that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any<br>part thereof, to be licensed as a whole at no charge to all third<br>parties under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a<br>notice that there is no warranty (or else, saying that you provide<br>a warranty) and that users may redistribute the program under<br>these conditions, and telling the user how to view a copy of this<br>License. (Exception: if the Program itself is interactive but<br>does not normally print such an announcement, your work based on<br>the Program is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program,<br>and can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based |

| | | |
|---|---|---|
| | | on the Program, the distribution of the whole must be on the terms of<br>this License, whose permissions for other licensees extend to the<br>entire whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of<br>a storage or distribution medium does not bring the other work under<br>the scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections<br>1 and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your<br>cost of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer<br>to distribute corresponding source code. (This alternative is<br>allowed only for noncommercial distribution and only if you<br>received the program in object code or executable |

| | | |
|---|---|---|
| | | form with such<br>an offer, in accord with Subsection b above.)<br><br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source<br>code means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to<br>control compilation and installation of the executable. However, as a<br>special exception, the source code distributed need not include<br>anything that is normally distributed (in either source or binary<br>form) with the major components (compiler, kernel, and so on) of the<br>operating system on which the executable runs, unless that component<br>itself accompanies the executable.<br><br>If distribution of executable or object code is made by offering<br>access to copy from a designated place, then offering equivalent<br>access to copy the source code from the same place counts as<br>distribution of the source code, even though third parties are not<br>compelled to copy the source along with the object code.<br><br>4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt<br>otherwise to copy, modify, sublicense or distribute the Program is<br>void, and will automatically terminate your rights under this License.<br>However, parties who have received copies, or rights, from you under<br>this License will not have their licenses terminated so long as such<br>parties remain in full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by |

| | | |
|---|---|---|
| | | modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and<br>all its terms and conditions for copying, distributing or modifying<br>the Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further<br>restrictions on the recipients' exercise of the rights granted herein.<br>You are not responsible for enforcing compliance by third parties to<br>this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot<br>distribute so as to satisfy simultaneously your obligations under this<br>License and any other pertinent obligations, then as a consequence you<br>may not distribute the Program at all. For example, if a patent<br>license would not permit royalty-free redistribution of the Program by<br>all those who receive copies directly or indirectly through you, then<br>the only way you could satisfy both it and this License would be to<br>refrain entirely from distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any |

| | | |
|---|---|---|
| | | patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is<br>implemented by public license practices. Many people have made<br>generous contributions to the wide range of software distributed<br>through that system in reliance on consistent application of that<br>system; it is up to the author/donor to decide if he or she is willing<br>to distribute software through any other system and a licensee cannot<br>impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to<br>be a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License<br>may add an explicit geographical distribution limitation excluding<br>those countries, so that distribution is permitted only in or among<br>countries not thus excluded. In such case, this License incorporates<br>the limitation as if written in the body of this License.<br><br>9. The Free Software Foundation may publish revised and/or new versions<br>of the General Public License from time to time. Such new versions will<br>be similar in spirit to the present version, but may differ in detail to<br>address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and conditions<br>either of that version or of any later version published by the Free<br>Software Foundation. If the Program does not specify a version number of<br>this License, you may choose any version ever published by the Free Software |

| | | |
|---|---|---|
| | | Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the author<br>to ask for permission. For software which is copyrighted by the Free<br>Software Foundation, write to the Free Software Foundation; we sometimes<br>make exceptions for this. Our decision will be guided by the two goals<br>of preserving the free status of all derivatives of our free software and<br>of promoting the sharing and reuse of software generally.<br><br>NO WARRANTY<br><br>11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY<br>FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN<br>OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES<br>PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED<br>OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF<br>MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS<br>TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE<br>PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING,<br>REPAIR OR CORRECTION.<br><br>12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING<br>WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR<br>REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES,<br>INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING<br>OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED<br>TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY<br>YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER<br>PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE<br>POSSIBILITY OF SUCH DAMAGES.<br><br>END OF TERMS AND CONDITIONS |

| | | |
|---|---|---|
| | | How to Apply These Terms to Your New Programs<br><br>If you develop a new program, and you want it to be of the greatest<br>possible use to the public, the best way to achieve this is to make it<br>free software which everyone can redistribute and change under these terms.<br><br>To do so, attach the following notices to the program. It is safest<br>to attach them to the start of each source file to most effectively<br>convey the exclusion of warranty; and each file should have at least<br>the "copyright" line and a pointer to where the full notice is found.<br><br><one line to give the program's name and a brief idea of what it does.><br><year> <name of author><br><br>This program is free software; you can redistribute it and/or modify<br>it under the terms of the GNU General Public License as published by<br>the Free Software Foundation; either version 2 of the License, or<br>(at your option) any later version.<br><br>This program is distributed in the hope that it will be useful,<br>but WITHOUT ANY WARRANTY; without even the implied warranty of<br>MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. Of course, the commands you use may<br>be called something other than `show w' and `show c'; they could even be<br>mouse-clicks or menu items--whatever suits your program.<br><br>You should also get your employer (if you work as a programmer) or your<br>school, if any, to sign a "copyright disclaimer" for the program, if<br>necessary. Here is a sample; alter the names:<br><br>Yoyodyne, Inc., hereby disclaims all copyright interest in the program<br>`Gnomovision' (which makes passes at compilers) written by James Hacker.<br><br><signature of Ty Coon>, 1 April 1989<br>Ty Coon, President of Vice<br><br>This General Public License does not permit incorporating your program into<br>proprietary programs. If your program is a subroutine library, you may<br>consider it more useful to permit linking proprietary applications with the<br>library. If this is what you want to do, use the GNU Lesser General<br>Public License instead of this License.<br><br>CLASSPATH EXCEPTION<br>Linking this library statically or dynamically with other modules is<br>making a combined work based on this library. Thus, the terms and<br>conditions of the GNU General Public License version 2 cover the whole<br>combination.<br><br>As a special exception, the copyright holders of this library give you<br>permission to link this library with independent modules to produce an<br>executable, regardless of the license terms of these independent<br>modules, and to copy and distribute the resulting executable under |

| | | terms of your choice, provided that you also meet, for each linked<br>independent module, the terms and conditions of the license of that<br>module. An independent module is a module which is not derived from or<br>based on this library. If you modify this library, you may extend this<br>exception to your version of the library, but you are not obligated to<br>do so. If You<br>institute patent litigation against any entity (including a<br>cross-claim or counterclaim in a lawsuit) alleging that the Work<br>or a Contribution incorporated within the Work constitutes direct<br>or contributory patent infringement, then any patent licenses<br>granted to You under this License for that Work shall terminate<br>as of the date such litigation is filed. |

The contents<br>of the NOTICE file are for informational purposes only and<br>do not modify the License. You may add Your own attribution<br>notices within Derivative Works that You distribute, alongside<br>or as an addendum to the NOTICE text from the Work, provided<br>that such additional attribution notices cannot be construed |

Submission of Contributions. Unless You explicitly state otherwise,<br>any Contribution intentionally submitted for inclusion in the Work<br>by You to the Licensor shall be under the terms and conditions of<br>this License, without any additional terms or conditions.<br>Notwithstanding the above, nothing herein shall supersede or modify<br>the terms of any separate license agreement you may have executed<br>with Licensor regarding such Contributions.<br><br>6. In no event and under no legal theory,<br>whether in tort (including negligence), contract, or otherwise,<br>unless required by applicable law (such as deliberate and grossly<br>negligent acts) or agreed to in writing, shall any Contributor be<br>liable to You for damages, including any direct, indirect, special,<br>incidental, or consequential damages of any character arising as a<br>result of this License or out of the use or inability to use the<br>Work (including but not limited to damages for loss of goodwill,<br>work stoppage, computer failure or malfunction, or any and all<br>other commercial damages or losses), even if such Contributor<br>has been advised of the possibility of such damages.<br><br>9. Accepting Warranty or Additional Liability. While redistributing<br>the Work or Derivative Works thereof, You may choose to offer,<br>and charge a fee for, acceptance of support, warranty, indemnity,<br>or other liability obligations and/or rights consistent with this<br>License. However, in accepting such obligations, You may act only<br>on Your own behalf and on Your sole responsibility, not on behalf<br>of any other Contributor, and only if You agree to indemnify,<br>defend, and hold each Contributor harmless for any liability<br>incurred by, or claims asserted against, such Contributor by reason<br>of your accepting any such warranty or additional liability.<br><br>END OF TERMS AND CONDITIONS<br><br>APPENDIX: How to apply the Apache License to your work.<br><br>To apply the Apache License to your work, attach the following<br>boilerplate notice, with the fields enclosed by brackets "[]"<br>replaced with your own identifying information. ANY USE, REPRODUCTION OR DISTRIBUTION<br>OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.<br><br>1. Modified<br>Works shall not include works that contain only declarations,<br>interfaces, types, classes, structures, or files of the Program solely<br>in each case in order to link to, bind by name, or subclass the Program<br>or Modified Works thereof.<br><br>"Distribute" means the acts of a) distributing or b) making available<br>in any manner that enables the transfer of a copy.<br><br>"Source Code" means the form of a Program preferred for making<br>modifications, including but not limited to software source code,<br>documentation source, and configuration files.<br><br>"Secondary License" means either the GNU General Public License,<br>Version 2.0, or any later versions of that license, including any<br>exceptions or additional permissions as identified by the initial<br>Contributor.<br><br>2. GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of such |

| | | Contributor,<br>if any, in Source Code or other form. This patent license shall<br>apply to the combination of the Contribution and the Program if, at<br>the time the Contribution is added by the Contributor, such addition<br>of the Contribution causes such combination to be covered by the<br>Licensed Patents. The patent license shall not apply to any other<br>combinations which include the Contribution. No hardware per se is<br>licensed hereunder.<br><br>c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity.<br>Each Contributor disclaims any liability to Recipient for claims<br>brought by any other entity based on infringement of intellectual<br>property rights or otherwise. As a condition to exercising the<br>rights and licenses granted hereunder, each Recipient hereby<br>assumes sole responsibility to secure any other intellectual<br>property rights needed, if any. For example, if a third party<br>patent license is required to allow Recipient to Distribute the<br>Program, it is Recipient's responsibility to acquire that license<br>before distributing the Program.<br><br>d) Each Contributor represents that to its knowledge it has<br>sufficient copyright rights in its Contribution, if any, to grant<br>the copyright license set forth in this Agreement.<br><br>e) Notwithstanding the terms of any Secondary License, no<br>Contributor makes additional grants to any Recipient (other than<br>those set forth in this Agreement) as a result of such Recipient's<br>receipt of the Program under the terms of a Secondary License<br>(if permitted under the terms of Section 3). |

| | | |
|---|---|---|
| | | 3. REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in<br>accordance with section 3.2, and the Contributor must accompany<br>the Program with a statement that the Source Code for the Program<br>is available under this Agreement, and informs Recipients how to<br>obtain it in a reasonable manner on or through a medium customarily<br>used for software exchange; and<br><br>b) the Contributor may Distribute the Program under a license<br>different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all<br>warranties and conditions, express and implied, including<br>warranties or conditions of title and non-infringement, and<br>implied warranties or conditions of merchantability and fitness<br>for a particular purpose;<br><br>ii) effectively excludes on behalf of all other Contributors all<br>liability for damages, including direct, indirect, special,<br>incidental and consequential damages, such as lost profits;<br><br>iii) does not attempt to limit or alter the recipients' rights<br>in the Source Code under section 3.2; and<br><br>iv) requires any subsequent distribution of the Program by any<br>party to be under a license that satisfies the requirements<br>of this section 3.<br><br>3.2 When the Program is Distributed as Source Code:<br><br>a) it must be made available under this Agreement, or if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and |

| | | |
|---|---|---|
| | | (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br><br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial |

| | | |
|---|---|---|
| | | Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages.<br><br>5. NO WARRANTY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS"<br>BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR<br>IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF<br>TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR<br>PURPOSE. Each Recipient is solely responsible for determining the<br>appropriateness of using and distributing the Program and assumes all<br>risks associated with its exercise of rights under this Agreement,<br>including but not limited to the risks and costs of program errors,<br>compliance with applicable laws, damage to or loss of data, programs<br>or equipment, and unavailability or interruption of operations.<br><br>6. DISCLAIMER OF LIABILITY |

| | | |

| | | EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.<br><br>7. GENERAL<br><br>If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.<br><br>If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.<br><br>All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses |

By contrast, the GNU General Public<br>License is intended to guarantee your freedom to share and change free<br>software--to make sure the software is free for all its users. This<br>General Public License applies to most of the Free Software<br>Foundation's software and to any other program whose authors commit to<br>using it. (Some other Free Software Foundation software is covered by<br>the GNU Lesser General Public License instead.) You can apply it to<br>your programs, too.<br><br>When we speak of free software, we are referring to freedom, not<br>price. Our General Public Licenses are designed to make sure that you<br>have the freedom to distribute copies of free software |

| | | |
|---|---|---|
| | | (and charge for<br>this service if you wish), that you receive source code or can get it<br>if you want it, that you can change the software or use pieces of it<br>in new free programs; and that you know you can do these things.<br><br>To protect your rights, we need to make restrictions that forbid<br>anyone to deny you these rights or to ask you to surrender the rights.<br>These restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br><br>For example, if you distribute copies of such a program, whether<br>gratis or for a fee, you must give the recipients all the rights that<br>you have. You must make sure that they, too, receive or can get the<br>source code. And you must show them these terms so they know their<br>rights.<br><br>We protect your rights with two steps: (1) copyright the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to make certain<br>that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software<br>patents. We wish to avoid the danger that redistributors of a free<br>program will individually obtain patent licenses, in effect making the<br>program proprietary. To prevent this, we have made it clear that any<br>patent must be licensed for everyone's free use or not licensed at all.<br><br>The precise terms and conditions for copying, |

This License applies to any program or other work<br>which contains<br>a notice placed by the copyright holder saying it may<br>be distributed<br>under the terms of this General Public License. The<br>"Program", below,<br>refers to any such program or work, and a "work based<br>on the Program"<br>means either the Program or any derivative work under<br>copyright law:<br>that is to say, a work containing the Program or a<br>portion of it,<br>either verbatim or with modifications and/or translated<br>into another<br>language. (Hereinafter, translation is included without<br>limitation in<br>the term "modification".) Each licensee is addressed<br>as "you".<br><br>Activities other than copying, distribution and<br>modification are not<br>covered by this License; they are outside its scope.<br>The act of<br>running the Program is not restricted, and the output<br>from the Program<br>is covered only if its contents constitute a work based<br>on the<br>Program (independent of having been made by<br>running the Program).<br>Whether that is true depends on what the Program<br>does.<br><br>1. You may copy and distribute verbatim copies of the<br>Program's<br>source code as you receive it, in any medium, provided<br>that you<br>conspicuously and appropriately publish on each copy<br>an appropriate<br>copyright notice and disclaimer of warranty; keep intact<br>all the<br>notices that refer to this License and to the absence of<br>any warranty;<br>and give any other recipients of the Program a copy of<br>this License<br>along with the Program.<br><br>You may charge a fee for the physical act of<br>transferring a copy, and<br>you may at your option offer warranty protection in |

You may modify your copy or copies of the Program or any portion<br>of it, thus forming a work based on the Program, and copy and<br>distribute such modifications or work under the terms of Section 1<br>above, provided that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any<br>part thereof, to be licensed as a whole at no charge to all third<br>parties under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a<br>notice that there is no warranty (or else, saying that you provide<br>a warranty) and that users may redistribute the program under<br>these conditions, and telling the user how to view a copy of this<br>License. (Exception: if the Program itself is interactive but<br>does not normally print such an announcement, your work based on<br>the Program is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program,<br>and can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections<br>1 and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your<br>cost of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer<br>to distribute corresponding source code. (This alternative is<br>allowed only for noncommercial distribution and only if you |

| | | received the program in object code or executable form with such<br>an offer, in accord with Subsection b above.)<br><br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source<br>code means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to<br>control compilation and installation of the executable. However, as a<br>special exception, the source code distributed need not include<br>anything that is normally distributed (in either source or binary<br>form) with the major components (compiler, kernel, and so on) of the<br>operating system on which the executable runs, unless that component<br>itself accompanies the executable.<br><br>If distribution of executable or object code is made by offering<br>access to copy from a designated place, then offering equivalent<br>access to copy the source code from the same place counts as<br>distribution of the source code, even though third parties are not<br>compelled to copy the source along with the object code.<br><br>4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt<br>otherwise to copy, modify, sublicense or distribute the Program is<br>void, and will automatically terminate your rights under this License.<br>However, parties who have received copies, or rights, from you under<br>this License will not have their licenses terminated so long as such<br>parties remain in full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. |

| | | |
|---|---|---|
| | | Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and<br>all its terms and conditions for copying, distributing or modifying<br>the Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further<br>restrictions on the recipients' exercise of the rights granted herein.<br>You are not responsible for enforcing compliance by third parties to<br>this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot<br>distribute so as to satisfy simultaneously your obligations under this<br>License and any other pertinent obligations, then as a consequence you<br>may not distribute the Program at all. For example, if a patent<br>license would not permit royalty-free redistribution of the Program by<br>all those who receive copies directly or indirectly through you, then<br>the only way you could satisfy both it and this License would be to<br>refrain entirely from distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to |

| | | |
|---|---|---|
| | | infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is<br>implemented by public license practices. Many people have made<br>generous contributions to the wide range of software distributed<br>through that system in reliance on consistent application of that<br>system; it is up to the author/donor to decide if he or she is willing<br>to distribute software through any other system and a licensee cannot<br>impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to<br>be a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License<br>may add an explicit geographical distribution limitation excluding<br>those countries, so that distribution is permitted only in or among<br>countries not thus excluded. In such case, this License incorporates<br>the limitation as if written in the body of this License.<br><br>9. The Free Software Foundation may publish revised and/or new versions<br>of the General Public License from time to time. Such new versions will<br>be similar in spirit to the present version, but may differ in detail to<br>address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and conditions<br>either of that version or of any later version published by the Free<br>Software Foundation. If the Program does not specify a version number of<br>this License, you may choose any version ever |

| | | published by the Free Software<br>Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the author<br>to ask for permission. For software which is copyrighted by the Free<br>Software Foundation, write to the Free Software Foundation; we sometimes<br>make exceptions for this. Our decision will be guided by the two goals<br>of preserving the free status of all derivatives of our free software and<br>of promoting the sharing and reuse of software generally.<br><br>NO WARRANTY<br><br>11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY<br>FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. THE ENTIRE RISK AS<br>TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE<br>PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING,<br>REPAIR OR CORRECTION.<br><br>12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING<br>WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR<br>REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES,<br>INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING<br>OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED<br>TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY<br>YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER<br>PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE<br>POSSIBILITY OF SUCH DAMAGES. |

GRANT OF RIGHTS |

| | | |
|---|---|---|
| | | a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of such Contributor,<br>if any, in Source Code or other form. This patent license shall<br>apply to the combination of the Contribution and the Program if, at<br>the time the Contribution is added by the Contributor, such addition<br>of the Contribution causes such combination to be covered by the<br>Licensed Patents. The patent license shall not apply to any other<br>combinations which include the Contribution. No hardware per se is<br>licensed hereunder.<br><br>c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity.<br>Each Contributor disclaims any liability to Recipient for claims<br>brought by any other entity based on infringement of intellectual<br>property rights or otherwise. As a condition to exercising the<br>rights and licenses granted hereunder, each Recipient hereby<br>assumes sole responsibility to secure any other intellectual<br>property rights needed, if any. For example, if a third party<br>patent license is required to allow Recipient to Distribute the<br>Program, it is Recipient's responsibility to acquire |

| | | |
|---|---|---|
| | | that license<br>before distributing the Program.<br><br>d) Each Contributor represents that to its knowledge it has<br>sufficient copyright rights in its Contribution, if any, to grant<br>the copyright license set forth in this Agreement.<br><br>e) Notwithstanding the terms of any Secondary License, no<br>Contributor makes additional grants to any Recipient (other than<br>those set forth in this Agreement) as a result of such Recipient's<br>receipt of the Program under the terms of a Secondary License<br>(if permitted under the terms of Section 3).<br><br>3. REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in<br>accordance with section 3.2, and the Contributor must accompany<br>the Program with a statement that the Source Code for the Program<br>is available under this Agreement, and informs Recipients how to<br>obtain it in a reasonable manner on or through a medium customarily<br>used for software exchange; and<br><br>b) the Contributor may Distribute the Program under a license<br>different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all<br>warranties and conditions, express and implied, including<br>warranties or conditions of title and non-infringement, and<br>implied warranties or conditions of merchantability and fitness<br>for a particular purpose;<br><br>ii) effectively excludes on behalf of all other Contributors all<br>liability for damages, including direct, indirect, special,<br>incidental and consequential damages, such as lost profits; |

| | | |
|---|---|---|
| | | iii) does not attempt to limit or alter the recipients' rights<br>in the Source Code under section 3.2; and<br><br>iv) requires any subsequent distribution of the Program by any<br>party to be under a license that satisfies the requirements<br>of this section 3.<br><br>3.2 When the Program is Distributed as Source Code:<br><br>a) it must be made available under this Agreement, or if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br><br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor |

| | | |
|---|---|---|
| | | ("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages.<br><br>5. NO WARRANTY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS"<br>BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR |

Each Recipient is solely responsible for determining the<br>appropriateness of using and distributing the Program and assumes all<br>risks associated with its exercise of rights under this Agreement,<br>including but not limited to the risks and costs of program errors,<br>compliance with applicable laws, damage to or loss of data, programs<br>or equipment, and unavailability or interruption of operations.<br><br>6. GENERAL<br><br>If any provision of this Agreement is invalid or unenforceable under<br>applicable law, it shall not affect the validity or enforceability of<br>the remainder of the terms of this Agreement, and without further<br>action by the parties hereto, such provision shall be reformed to the<br>minimum extent necessary to make such provision valid and enforceable.<br><br>If Recipient institutes patent litigation against any entity<br>(including a cross-claim or counterclaim in a lawsuit) alleging that the<br>Program itself (excluding combinations of the |

| | | |
|---|---|---|
| | | The licenses for most software are designed to take away your freedom to<br>share and change it. By contrast, the GNU General Public License is<br>intended to guarantee your freedom to share and change free software--to<br>make sure the software is free for all its users. This General Public<br>License applies to most of the Free Software Foundation's software and<br>to any other program whose authors commit to using it. (Some other Free<br>Software Foundation software is covered by the GNU Library General<br>Public License instead.) You can apply it to your programs, too.<br><br>When we speak of free software, we are referring to freedom, not price.<br>Our General Public Licenses are designed to make sure that you have the<br>freedom to distribute copies of free software (and charge for this<br>service if you wish), that you receive source code or can get it if you<br>want it, that you can change the software or use pieces of it in new<br>free programs; and that you know you can do these things.<br><br>To protect your rights, we need to make restrictions that forbid anyone<br>to deny you these rights or to ask you to surrender the rights. These<br>restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br><br>For example, if you distribute copies of such a program, whether gratis<br>or for a fee, you must give the recipients all the rights that you have.<br>You must make sure that they, too, receive or can get the source code.<br>And you must show them these terms so they know their rights.<br><br>We protect your rights with two steps: (1) copyright the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to make certain<br>that everyone understands that there is no warranty |

| | | |
|---|---|---|
| | | for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software patents.<br>We wish to avoid the danger that redistributors of a free program will<br>individually obtain patent licenses, in effect making the program<br>proprietary. To prevent this, we have made it clear that any patent must<br>be licensed for everyone's free use or not licensed at all.<br><br>The precise terms and conditions for copying, distribution and<br>modification follow.<br><br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains a<br>notice placed by the copyright holder saying it may be distributed under<br>the terms of this General Public License. The "Program", below, refers<br>to any such program or work, and a "work based on the Program" means<br>either the Program or any derivative work under copyright law: that is<br>to say, a work containing the Program or a portion of it, either<br>verbatim or with modifications and/or translated into another language.<br>(Hereinafter, translation is included without limitation in the term<br>"modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of running<br>the Program is not restricted, and the output from the Program is<br>covered only if its contents constitute a work based on the Program<br>(independent of having been made by running the Program). Whether that<br>is true depends on what the Program does. |

| | | |
|---|---|---|
| | | 1. You may copy and distribute verbatim copies of the Program's source<br>code as you receive it, in any medium, provided that you conspicuously<br>and appropriately publish on each copy an appropriate copyright notice<br>and disclaimer of warranty; keep intact all the notices that refer to<br>this License and to the absence of any warranty; and give any other<br>recipients of the Program a copy of this License along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Program or any portion of<br>it, thus forming a work based on the Program, and copy and distribute<br>such modifications or work under the terms of Section 1 above, provided<br>that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any part<br>thereof, to be licensed as a whole at no charge to all third parties<br>under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a notice<br>that there is no warranty (or else, saying that you provide a<br>warranty) and that users may redistribute the program under these<br>conditions, and telling the user how to view a copy of this License.<br>(Exception: if the Program itself is interactive but does not |

| | | |
|---|---|---|
| | | normally print such an announcement, your work based on the Program<br>is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program, and<br>can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based on<br>the Program, the distribution of the whole must be on the terms of this<br>License, whose permissions for other licensees extend to the entire<br>whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of a<br>storage or distribution medium does not bring the other work under the<br>scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections 1<br>and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no |

| | | |
|---|---|---|
| | | more than your cost<br>of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This alternative is allowed<br>only for noncommercial distribution and only if you received the<br>program in object code or executable form with such an offer, in<br>accord with Subsection b above.)<br><br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source code<br>means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to control<br>compilation and installation of the executable. However, as a special<br>exception, the source code distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major<br>components (compiler, kernel, and so on) of the operating system on<br>which the executable runs, unless that component itself accompanies the<br>executable.<br><br>If distribution of executable or object code is made by offering access<br>to copy from a designated place, then offering equivalent access to copy<br>the source code from the same place counts as distribution of the source<br>code, even though third parties are not compelled to copy the source<br>along with the object code.<br><br>4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt otherwise<br>to copy, modify, sublicense or distribute the Program is void, and will<br>automatically terminate your rights under this |

| | | |
|---|---|---|
| | | License. However, parties<br>who have received copies, or rights, from you under this License will<br>not have their licenses terminated so long as such parties remain in<br>full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and all<br>its terms and conditions for copying, distributing or modifying the<br>Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further restrictions<br>on the recipients' exercise of the rights granted herein. You are not<br>responsible for enforcing compliance by third parties to this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot distribute<br>so as to satisfy simultaneously your obligations under this License and<br>any other pertinent obligations, then as a consequence you may not<br>distribute the Program at all. For example, if a patent license would<br>not permit royalty-free redistribution of the Program by all those who<br>receive copies directly or indirectly through you, then the only way you |

| | | |
|---|---|---|
| | | could satisfy both it and this License would be to refrain entirely from<br>distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is implemented<br>by public license practices. Many people have made generous<br>contributions to the wide range of software distributed through that<br>system in reliance on consistent application of that system; it is up to<br>the author/donor to decide if he or she is willing to distribute<br>software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be<br>a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License may<br>add an explicit geographical distribution limitation excluding those<br>countries, so that distribution is permitted only in or among countries<br>not thus excluded. In such case, this License incorporates the<br>limitation as if written in the body of this License.<br><br>9. The Free Software Foundation may publish revised and/or new<br>versions of the General Public License from time to time. Such new<br>versions will be similar in spirit to the present version, but may<br>differ in detail to address new problems or concerns. |

| | | |
|---|---|---|
| | | Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and<br>conditions either of that version or of any later version published by<br>the Free Software Foundation. If the Program does not specify a version<br>number of this License, you may choose any version ever published by the<br>Free Software Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the<br>author to ask for permission. For software which is copyrighted by the<br>Free Software Foundation, write to the Free Software Foundation; we<br>sometimes make exceptions for this. Our decision will be guided by the<br>two goals of preserving the free status of all derivatives of our free<br>software and of promoting the sharing and reuse of software generally.<br><br>NO WARRANTY<br><br>11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO<br>WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.<br>EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR<br>OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND,<br>EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED<br>WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE<br>ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH<br>YOU. It is safest to<br>attach them to the start of each source file to most effectively convey<br>the exclusion of warranty; and each file should have at least the<br>"copyright" line and a pointer to where the full notice is found.<br><br>One line to give the program's name and a brief idea of what it does.<br>Copyright (C) <year> <name of author><br><br>This program is free software; you can redistribute it and/or modify<br>it under the terms of the GNU General Public License as published by<br>the Free Software Foundation; either version 2 of the License, or<br>(at your option) any later version.<br><br>This program is distributed in the hope that it will be useful, but<br>WITHOUT ANY WARRANTY; without even the implied warranty of<br>MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. | | | |
|---|---|---|
| | | 1. Definitions.<br><br>"License" shall mean the terms and conditions for use, reproduction,<br>and distribution as defined by Sections 1 through 9 of this document.<br><br>"Licensor" shall mean the copyright owner or entity authorized by<br>the copyright owner that is granting the License.<br><br>"Legal Entity" shall mean the union of the acting entity and all<br>other entities that control, are controlled by, or are under common<br>control with that entity. For the purposes of this definition,<br>"control" means (i) the power, direct or indirect, to cause the<br>direction or management of such entity, whether by contract or<br>otherwise, or (ii) ownership of fifty percent (50%) or more of the<br>outstanding shares, or (iii) beneficial ownership of such entity.<br><br>"You" (or "Your") shall mean an individual or Legal Entity<br>exercising permissions granted by this License.<br><br>"Source" form shall mean the preferred form for making modifications,<br>including but not limited to software source code, documentation<br>source, and configuration files.<br><br>"Object" form shall mean any form resulting from mechanical<br>transformation or translation of a Source form, including but<br>not limited to compiled object code, generated documentation,<br>and conversions to other media types.<br><br>"Work" shall mean the work of authorship, whether in Source or<br>Object form, made available under the License, as indicated by a<br>copyright notice that is included in or attached to the work<br>(an example is provided in the Appendix below).<br><br>"Derivative Works" shall mean any work, whether in Source or Object<br>form, that is based on (or derived from) the Work and for which the |

| | | |
|---|---|---|
| | | editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of authorship. For the purposes<br>of this License, Derivative Works shall not include works that remain<br>separable from, or merely link (or bind by name) to the interfaces of,<br>the Work and Derivative Works thereof.<br><br>"Contribution" shall mean any work of authorship, including<br>the original version of the Work and any modifications or additions<br>to that Work or Derivative Works thereof, that is intentionally<br>submitted to Licensor for inclusion in the Work by the copyright owner<br>or by an individual or Legal Entity authorized to submit on behalf of<br>the copyright owner. For the purposes of this definition, "submitted"<br>means any form of electronic, verbal, or written communication sent<br>to the Licensor or its representatives, including but not limited to<br>communication on electronic mailing lists, source code control systems,<br>and issue tracking systems that are managed by, or on behalf of, the<br>Licensor for the purpose of discussing and improving the Work, but<br>excluding communication that is conspicuously marked or otherwise<br>designated in writing by the copyright owner as "Not a Contribution."<br><br>"Contributor" shall mean Licensor and any individual or Legal Entity<br>on behalf of whom a Contribution has been received by Licensor and<br>subsequently incorporated within the Work.<br><br>2. Grant of Copyright License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>copyright license to reproduce, prepare Derivative Works of,<br>publicly display, publicly perform, sublicense, and distribute the<br>Work and such Derivative Works in Source or Object form. |

| | | |
|---|---|---|
| | | 3. Grant of Patent License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>(except as stated in this section) patent license to make, have made,<br>use, offer to sell, sell, import, and otherwise transfer the Work,<br>where such license applies only to those patent claims licensable<br>by such Contributor that are necessarily infringed by their<br>Contribution(s) alone or by combination of their Contribution(s)<br>with the Work to which such Contribution(s) was submitted. If You<br>institute patent litigation against any entity (including a<br>cross-claim or counterclaim in a lawsuit) alleging that the Work<br>or a Contribution incorporated within the Work constitutes direct<br>or contributory patent infringement, then any patent licenses<br>granted to You under this License for that Work shall terminate<br>as of the date such litigation is filed.<br><br>4. Redistribution. You may reproduce and distribute copies of the<br>Work or Derivative Works thereof in any medium, with or without<br>modifications, and in Source or Object form, provided that You<br>meet the following conditions:<br><br>(a) You must give any other recipients of the Work or<br>Derivative Works a copy of this License; and<br><br>(b) You must cause any modified files to carry prominent notices<br>stating that You changed the files; and<br><br>(c) You must retain, in the Source form of any Derivative Works<br>that You distribute, all copyright, patent, trademark, and<br>attribution notices from the Source form of the Work,<br>excluding those notices that do not pertain to any part of<br>the Derivative Works; and |

| | | |
|---|---|---|
| | | (d) If the Work includes a "NOTICE" text file as part of its<br>distribution, then any Derivative Works that You distribute must<br>include a readable copy of the attribution notices contained<br>within such NOTICE file, excluding those notices that do not<br>pertain to any part of the Derivative Works, in at least one<br>of the following places: within a NOTICE text file distributed<br>as part of the Derivative Works; within the Source form or<br>documentation, if provided along with the Derivative Works; or,<br>within a display generated by the Derivative Works, if and<br>wherever such third-party notices normally appear. The contents<br>of the NOTICE file are for informational purposes only and<br>do not modify the License. You may add Your own attribution<br>notices within Derivative Works that You distribute, alongside<br>or as an addendum to the NOTICE text from the Work, provided<br>that such additional attribution notices cannot be construed<br>as modifying the License.<br><br>You may add Your own copyright statement to Your modifications and<br>may provide additional or different license terms and conditions<br>for use, reproduction, or distribution of Your modifications, or<br>for any such Derivative Works as a whole, provided Your use,<br>reproduction, and distribution of the Work otherwise complies with<br>the conditions stated in this License.<br><br>5. Submission of Contributions. Unless You explicitly state otherwise,<br>any Contribution intentionally submitted for inclusion in the Work<br>by You to the Licensor shall be under the terms and conditions of<br>this License, without any additional terms or conditions.<br>Notwithstanding the above, nothing herein shall supersede or modify<br>the terms of any separate license agreement you may have executed |

|---|---|---|
| | | "Program" means the Contributions distributed in accordance with this<br>Agreement.<br><br>"Recipient" means anyone who receives the Program under this Agreement,<br>including all Contributors.<br><br>2. GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare derivative works of, publicly display,<br>publicly perform, distribute and sublicense the Contribution of such<br>Contributor, if any, and such derivative works, in source code and<br>object code form.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of such Contributor, if<br>any, in source code and object code form. This patent license shall<br>apply to the combination of the Contribution and the Program if, at the<br>time the Contribution is added by the Contributor, such addition of the<br>Contribution causes such combination to be covered by the Licensed<br>Patents. The patent license shall not apply to any other combinations<br>which include the Contribution. No hardware per se is licensed<br>hereunder.<br><br>c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity. Each<br>Contributor disclaims any liability to Recipient for claims brought by<br>any other entity based on infringement of intellectual property rights |

| | | or otherwise. As a condition to exercising the rights and licenses<br>granted hereunder, each Recipient hereby assumes sole responsibility to<br>secure any other intellectual property rights needed, if any. For<br>example, if a third party patent license is required to allow Recipient<br>to distribute the Program, it is Recipient's responsibility to acquire<br>that license before distributing the Program.<br><br>d) Each Contributor represents that to its knowledge it has sufficient<br>copyright rights in its Contribution, if any, to grant the copyright<br>license set forth in this Agreement.<br><br>3. REQUIREMENTS<br><br>A Contributor may choose to distribute the Program in object code form<br>under its own license agreement, provided that:<br><br>a) it complies with the terms and conditions of this Agreement; and<br><br>b) its license agreement:<br><br>i) effectively disclaims on behalf of all Contributors all warranties<br>and conditions, express and implied, including warranties or conditions<br>of title and non-infringement, and implied warranties or conditions of<br>merchantability and fitness for a particular purpose;<br><br>ii) effectively excludes on behalf of all Contributors all liability<br>for damages, including direct, indirect, special, incidental and<br>consequential damages, such as lost profits;<br><br>iii) states that any provisions which differ from this Agreement are<br>offered by that Contributor alone and not by any other party; and<br><br>iv) states that source code for the Program is available from such<br>Contributor, and informs licensees how to obtain it in a reasonable<br>manner on or through a medium customarily used for software exchange.<br><br>When the Program is made available in source code |

COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program, the<br>Contributor who includes the Program in a commercial product offering<br>should do so in a manner which does not create potential liability for<br>other Contributors. Therefore, if a Contributor includes the Program in a<br>commercial product offering, such Contributor ("Commercial Contributor")<br>hereby agrees to defend and indemnify every other Contributor ("Indemnified<br>Contributor") against any losses, damages and costs (collectively "Losses")<br>arising from claims, lawsuits and other legal actions brought by a third<br>party against the Indemnified Contributor to the extent caused by the acts<br>or omissions of such Commercial Contributor in connection with its<br>distribution of the Program in a commercial product offering. The<br>obligations in this section do not apply to any claims or Losses relating<br>to any actual or alleged intellectual property infringement. In order to<br>qualify, an Indemnified Contributor must: a) promptly notify the Commercial<br>Contributor in writing of such claim, and b) allow the Commercial<br>Contributor to control, and cooperate with the |

The Indemnified<br>Contributor may participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance claims,<br>or offers warranties related to Product X, those performance claims and<br>warranties are such Commercial Contributor's responsibility alone. Under<br>this section, the Commercial Contributor would have to defend claims<br>against the other Contributors related to those performance claims and<br>warranties, and if a court requires any other Contributor to pay any<br>damages as a result, the Commercial Contributor must pay those damages.<br><br>5. By contrast, the GNU General Public<br>License is intended to guarantee your freedom to share and change free<br>software--to make sure the software is free for all its users. This<br>General Public License applies to most of the Free Software<br>Foundation's software and to any other program whose authors commit to<br>using it. (Some other Free Software Foundation software is covered by<br>the GNU Lesser General Public License instead.) You can apply it to<br>your programs, too.<br><br>When we speak of free software, we are referring to freedom, not<br>price. Our General Public Licenses are designed to make sure that you<br>have the freedom to distribute copies of free software (and charge for<br>this service if you wish), that you receive source code or can get it<br>if you want it, that you can change the software or use pieces of it<br>in new free programs; and that you know you can do these things.<br><br>To protect your rights, we need to make restrictions that forbid<br>anyone to deny you these rights or to ask you to surrender the rights.<br>These restrictions translate to certain responsibilities for you if you |

| | | |
|---|---|---|
| | | distribute copies of the software, or if you modify it.<br><br>For example, if you distribute copies of such a program, whether<br>gratis or for a fee, you must give the recipients all the rights that<br>you have. You must make sure that they, too, receive or can get the<br>source code. And you must show them these terms so they know their<br>rights.<br><br>We protect your rights with two steps: (1) copyright the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to make certain<br>that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software<br>patents. We wish to avoid the danger that redistributors of a free<br>program will individually obtain patent licenses, in effect making the<br>program proprietary. To prevent this, we have made it clear that any<br>patent must be licensed for everyone's free use or not licensed at all.<br><br>The precise terms and conditions for copying, distribution and<br>modification follow.<br><br>GNU GENERAL PUBLIC LICENSE<br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains<br>a notice placed by the copyright holder saying it may be distributed<br>under the terms of this General Public License. The "Program", below,<br>refers to any such program or work, and a "work based |

| | | |
|---|---|---|
| | | on the Program"<br>means either the Program or any derivative work under copyright law:<br>that is to say, a work containing the Program or a portion of it,<br>either verbatim or with modifications and/or translated into another<br>language. (Hereinafter, translation is included without limitation in<br>the term "modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of<br>running the Program is not restricted, and the output from the Program<br>is covered only if its contents constitute a work based on the<br>Program (independent of having been made by running the Program).<br>Whether that is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's<br>source code as you receive it, in any medium, provided that you<br>conspicuously and appropriately publish on each copy an appropriate<br>copyright notice and disclaimer of warranty; keep intact all the<br>notices that refer to this License and to the absence of any warranty;<br>and give any other recipients of the Program a copy of this License<br>along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Program or any portion<br>of it, thus forming a work based on the Program, and copy and<br>distribute such modifications or work under the terms of Section 1<br>above, provided that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of |

| | | |
|---|---|---|
| | | any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any<br>part thereof, to be licensed as a whole at no charge to all third<br>parties under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a<br>notice that there is no warranty (or else, saying that you provide<br>a warranty) and that users may redistribute the program under<br>these conditions, and telling the user how to view a copy of this<br>License. (Exception: if the Program itself is interactive but<br>does not normally print such an announcement, your work based on<br>the Program is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program,<br>and can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based<br>on the Program, the distribution of the whole must be on the terms of<br>this License, whose permissions for other licensees extend to the<br>entire whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or |

| | | |
|---|---|---|
| | | collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of<br>a storage or distribution medium does not bring the other work under<br>the scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections<br>1 and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your<br>cost of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer<br>to distribute corresponding source code. (This alternative is<br>allowed only for noncommercial distribution and only if you<br>received the program in object code or executable form with such<br>an offer, in accord with Subsection b above.)<br><br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source<br>code means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to<br>control compilation and installation of the executable. However, as a |

| | | |
|---|---|---|
| | | special exception, the source code distributed need not include<br>anything that is normally distributed (in either source or binary<br>form) with the major components (compiler, kernel, and so on) of the<br>operating system on which the executable runs, unless that component<br>itself accompanies the executable.<br><br>If distribution of executable or object code is made by offering<br>access to copy from a designated place, then offering equivalent<br>access to copy the source code from the same place counts as<br>distribution of the source code, even though third parties are not<br>compelled to copy the source along with the object code.<br><br>4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt<br>otherwise to copy, modify, sublicense or distribute the Program is<br>void, and will automatically terminate your rights under this License.<br>However, parties who have received copies, or rights, from you under<br>this License will not have their licenses terminated so long as such<br>parties remain in full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and<br>all its terms and conditions for copying, distributing or modifying<br>the Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the |

| | | Program subject to<br>these terms and conditions. You may not impose any further<br>restrictions on the recipients' exercise of the rights granted herein.<br>You are not responsible for enforcing compliance by third parties to<br>this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot<br>distribute so as to satisfy simultaneously your obligations under this<br>License and any other pertinent obligations, then as a consequence you<br>may not distribute the Program at all. For example, if a patent<br>license would not permit royalty-free redistribution of the Program by<br>all those who receive copies directly or indirectly through you, then<br>the only way you could satisfy both it and this License would be to<br>refrain entirely from distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is<br>implemented by public license practices. Many people have made<br>generous contributions to the wide range of software distributed<br>through that system in reliance on consistent application of that<br>system; it is up to the author/donor to decide if he or |

| | | |
|---|---|---|
| | | she is willing<br>to distribute software through any other system and a licensee cannot<br>impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to<br>be a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License<br>may add an explicit geographical distribution limitation excluding<br>those countries, so that distribution is permitted only in or among<br>countries not thus excluded. In such case, this License incorporates<br>the limitation as if written in the body of this License.<br><br>9. The Free Software Foundation may publish revised and/or new versions<br>of the General Public License from time to time. Such new versions will<br>be similar in spirit to the present version, but may differ in detail to<br>address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and conditions<br>either of that version or of any later version published by the Free<br>Software Foundation. If the Program does not specify a version number of<br>this License, you may choose any version ever published by the Free Software<br>Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the author<br>to ask for permission. For software which is copyrighted by the Free<br>Software Foundation, write to the Free Software Foundation; we sometimes<br>make exceptions for this. Availability of Source Code.<br>Any Modification which You create or to which You contribute must be<br>made available in Source Code form under the terms of this License<br>either on the same media as an Executable version or via an accepted<br>Electronic Distribution Mechanism to anyone to whom you made an<br>Executable version available; and if made available via Electronic<br>Distribution Mechanism, must remain available for at least twelve<br>(12) months after the date it initially became available, or at least<br>six (6) months after a subsequent version of that particular<br>Modification has been made available to such recipients. You are<br>responsible for ensuring that the Source Code version remains<br>available even if the Electronic Distribution Mechanism is maintained<br>by a third party.<br><br>3.3. Description of Modifications.<br>You must cause all Covered Code to which you contribute to contain a<br>file documenting the changes You made to create that Covered Code and<br>the date of any change. You must include a prominent statement that<br>the Modification is derived, directly or indirectly, from Original<br>Code provided by the Initial Developer and including the name of the<br>Initial Developer in (a) the Source Code, and (b) in any notice in an<br>Executable version or related documentation in which You describe the<br>origin or ownership of the Covered Code.<br><br>3.4. Intellectual Property Matters<br><br>(a) Third Party Claims.<br>If You have knowledge that a party claims an intellectual<br>property right in particular functionality or code (or its<br>utilization under this License), you must include a text file<br>with the source code distribution titled ``LEGAL'' which<br>describes the claim and the party making the claim in |

Required Notices.<br>You must duplicate the notice in Exhibit A in each file of the Source<br>Code, and this License in any documentation for the Source Code,<br>where You describe recipients' rights relating to Covered Code. If<br>You created one or more Modification(s), You may add your name as a<br>Contributor to the notice described in Exhibit A. If it is not<br>possible to put such notice in a particular Source Code file due to<br>its structure, then you must include such notice in a location (such<br>as a relevant directory file) where a user would be likely to look<br>for such a notice. You may choose to offer, and to charge a fee for,<br>warranty, support, indemnity or liability obligations to one or more<br>recipients of Covered Code. However, You may do so only on Your own<br>behalf, and not on behalf of the Initial Developer or any<br>Contributor. Distribution of Executable Versions.<br>You may distribute Covered Code in Executable form only if the<br>requirements of Section 3.1-3.5 have been met for that Covered Code,<br>and if You include a notice stating that the Source Code version of<br>the Covered Code is available under the terms of this License,<br>including a description of how and where You have fulfilled the<br>obligations of Section 3.2. The notice must be conspicuously included<br>in any notice in an Executable version, related documentation or<br>collateral in which You describe recipients' rights relating to the<br>Covered Code. You may distribute the Executable version of Covered<br>Code under a license of Your choice, which may contain terms<br>different from this License, provided that You are in compliance with<br>the terms of this License and that the license for the Executable<br>version does not attempt to limit or alter the recipient's rights in<br>the Source Code version from the rights set forth in this License. If<br>You distribute the Executable version under a different license You<br>must make it absolutely clear that any terms which differ from this<br>License are offered by You alone, not by the Initial Developer or any<br>Contributor. You hereby agree to indemnify the Initial Developer and<br>every Contributor for any liability incurred by the Initial Developer<br>or such Contributor as a result of any such terms You offer.<br><br>3.7. Larger Works.<br>You may create a Larger Work by combining Covered Code with other<br>code not governed by the terms of this License and distribute the<br>Larger Work as a single product. In such a case, You must make sure<br>the requirements of this License are fulfilled for the |

Inability to Comply Due to Statute or Regulation.<br><br>If it is impossible for You to comply with any of the terms of this<br>License with respect to some or all of the Covered Code due to<br>statute or regulation then You must: (a) comply with the terms of<br>this License to the maximum extent possible; and (b) describe the<br>limitations and the code they affect. Such description must be<br>included in the LEGAL file described in Section 3.4 and must be<br>included with all distributions of the Source Code. When Covered Code is released as a series of files, a Modification is:<br>A. Any addition to or deletion from the contents of a file containing Original Code or previous Modifications. B. Any new file that contains any part of the Original Code or previous Modifications.<br><br>1.10. ``Original Code'' means Source Code of computer software code which is described in the Source Code notice required byExhibit A as Original |

| | | Code, and which, at the time of its release under this License is not already Covered Code governed by this License.<br>1.11. ``Source Code'' means the preferred form of the Covered Code for making modifications to it, including all modules it contains, plus any associated interface definition files, scripts used to control compilation and installation of an Executable, or a list of source code differential comparisons against either the Original Code or another well known, available Covered Code of the Contributor's choice. The Source Code can be in a compressed or archival form, provided the appropriate decompression or de-archiving software is widely available for no charge.<br>1.12. ``You'' means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License or a future version of this License issued under Section 6.1. For legal entities, ``You'' includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, ``control'' means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of fifty percent (50%) or more of the outstanding shares or beneficial ownership of such entity.<br><br>2. Source Code License.<br><br>2.1. The Initial Developer Grant. The Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license, subject to third party intellectual property claims:<br>a) to use, reproduce, modify, display, perform, sublicense and distribute the Original Code (or portions thereof) with or without Modifications, or as part of a Larger Work; and<br>(b) under patents now or hereafter owned or controlled by Initial Developer, to make, have made, use and sell (``Utilize'') the Original Code (or portions thereof), but solely to the extent that any such patent is reasonably necessary to enable You to Utilize the Original Code (or portions thereof) and not to any greater extent that may be necessary to Utilize further Modifications or combinations.<br><br>2.2. Distribution Obligations.<br><br>3.1. Application of License. The Modifications which You create or to which You contribute are governed by the terms of this License, including without limitation Section 2.2. The Source Code version of Covered Code may be distributed only under the terms of this License or a future version of this License released under Section 6.1, and You must include a copy of this License with every copy of the Source Code You distribute. You may not offer or impose any terms on any Source Code version that alters or restricts the applicable version of this License or the recipients' rights hereunder. However, You may include an additional document offering the additional rights described in Section 3.5.<br><br>3.2. Availability of Source Code. Any Modification which You create or to which You contribute must be made available in Source Code form under the terms of this License either on the same media as an Executable version or via an accepted Electronic Distribution Mechanism to anyone to whom you made an Executable version available; and if made available via Electronic Distribution Mechanism, must remain available for at least twelve (12) months after the date it initially became available, or at least six (6) months after a subsequent version of that particular Modification has been made available to such recipients. You are responsible for ensuring that the Source Code version remains available even if the Electronic Distribution Mechanism is maintained by a third party.<br>3.3. Description of Modifications. You must cause all Covered Code to which you contribute to contain a file documenting the changes You made to create that Covered Code and the date of any change. You must include a prominent statement that the Modification is derived, directly or indirectly, from Original Code provided by the Initial Developer and including the name of the Initial Developer in (a) the Source Code, and (b) in any notice in an Executable version or related documentation in which You describe the origin or ownership of the Covered Code.<br>3.4. Intellectual Property Matters<br>(a) Third Party Claims. If You have knowledge that a party claims an intellectual property right in particular functionality or code (or its utilization under |

| | | |
|---|---|---|
| | | this License), you must include a text file with the source code distribution titled ``LEGAL'' which describes the claim and the party making the claim in sufficient detail that a recipient will know whom to contact. If you obtain such knowledge after You make Your Modification available as described in Section 3.2, You shall promptly modify the LEGAL file in all copies You make available thereafter and shall take other steps (such as notifying appropriate mailing lists or newsgroups) reasonably calculated to inform those who received the Covered Code that new knowledge has been obtained.<br>(b) Contributor APIs. If Your Modification is an application programming interface and You own or control patents which are reasonably necessary to implement that API, you must also include this information in the LEGAL file.<br><br>3.5. Required Notices. You must duplicate the notice in Exhibit A in each file of the Source Code, and this License in any documentation for the Source Code, where You describe recipients' rights relating to Covered Code. If You created one or more Modification(s), You may add your name as a Contributor to the notice described in Exhibit A. If it is not possible to put such notice in a particular Source Code file due to its structure, then you must include such notice in a location (such as a relevant directory file) where a user would be likely to look for such a notice. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Code. However, You may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear than any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer.<br>3.6. Distribution of Executable Versions. You may distribute Covered Code in Executable form only if the requirements of Section 3.1-3.5 have been met for that Covered Code, and if You include a notice stating that the Source Code version of the Covered Code is available under the terms of this License, including a description of how and where You have fulfilled the obligations of Section 3.2. The notice must be conspicuously included in any notice in an Executable version, related documentation or collateral in which You describe recipients' rights relating to the Covered Code. You may distribute the Executable version of Covered Code under a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this |

| | | |
|---|---|---|
| | | License and that the license for the Executable version does not attempt to limit or alter the recipient's rights in the Source Code version from the rights set forth in this License. If You distribute the Executable version under a different license You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or any Contributor. You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer.<br>3.7. Larger Works. You may create a Larger Work by combining Covered Code with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Code.<br><br>4. Inability to Comply Due to Statute or Regulation.<br>If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Code due to statute or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be included in the LEGAL file described in Section 3.4 and must be included with all distributions of the Source Code. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.<br><br>5. Application of this License.<br>This License applies to code to which the Initial Developer has attached the notice in Exhibit A, and to related Covered Code.<br><br>6. Versions of the License.<br>6.1. New Versions. Netscape Communications Corporation (``Netscape'') may publish revised and/or new versions of the License from time to time. Each version will be given a distinguishing version number.<br><br>6.2. Effect of New Versions. Once Covered Code has been published under a particular version of the License, You may always continue to use it under the terms of that version. You may also choose to use such Covered Code under the terms of any subsequent version of the License published by Netscape. No one other than Netscape has the right to modify the terms applicable to Covered Code created under this License.<br>6.3. Derivative Works. If you create or use a modified version of this License (which you may only do in order to apply it to code which is not already Covered Code governed by this License), you must (a) |

THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED CODE IS WITH YOU. SHOULD ANY COVERED CODE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED CODE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER.<br><br>8. TERMINATION.<br><br>This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Code with only those rights set forth herein.<br><br>11. MISCELLANEOUS.<br><br>This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License shall be governed by California law provisions (except to the extent applicable law, if any, provides otherwise), excluding its conflict-of-law provisions. With respect to disputes in which at least one party is a citizen of, or an entity chartered or registered to do business in, the United States of America: (a) unless otherwise agreed in writing, all disputes relating to this License (excepting any dispute relating to intellectual property rights) shall be subject to final and binding arbitration, with the losing party paying all costs of arbitration; (b) any arbitration relating to this Agreement shall be held in Santa Clara County, California, under the auspices of JAMS/EndDispute; and (c) any litigation relating to this Agreement shall be subject to the jurisdiction of the Federal Courts of the Northern District of California, with venue lying in Santa Clara County, California, with the losing party responsible for costs, including without limitation, court costs and reasonable attorneys fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any |

RESPONSIBILITY FOR CLAIMS.<br><br>Except in cases where another Contributor has failed to comply with Section 3.4, You are responsible for damages arising, directly or indirectly, out of Your utilization of rights under this License, based on the number of copies of Covered Code you made available, the revenues you received from utilizing such rights, and other relevant factors. Inability to Comply Due to Contractual Obligation. Prior to licensing the Original Code under this License, Netscape has licensed third party code for use in Netscape's Branded Code. To the extent that Netscape is limited contractually from making such third party code available under this License, Netscape may choose to reintegrate such code into Covered Code without being required to distribute such code in<br>Source Code form, even if such code would otherwise be considered ``Modifications'' under this License.<br>V. Use of Modifications and Covered Code by Initial Developer.<br>V.1. In General. The obligations of Section 3 apply to Netscape, except to the extent specified in this Amendment, Section V.2 and V.3. If You<br>institute patent litigation against any entity (including a<br>cross-claim or counterclaim in a lawsuit) alleging that the Work<br>or a Contribution incorporated within the Work constitutes direct<br>or contributory patent infringement, then any patent licenses<br>granted to You under this License for that Work shall terminate<br>as of the date such litigation is filed.<br><br>4. Redistribution. You may reproduce and distribute copies of the<br>Work or Derivative Works thereof in any medium, with or without<br>modifications, and in Source or Object form, provided that You<br>meet the following conditions:<br><br>(a) You must give any other recipients of the Work or<br>Derivative Works a copy of this License; and<br><br>(b) You must cause any modified files to carry prominent notices<br>stating that You changed the files; and<br><br>(c) You must retain, in the Source form of any Derivative Works<br>that You distribute, all copyright, patent, trademark, and<br>attribution notices from the Source form of the Work,<br>excluding those notices that do not pertain to any part of<br>the Derivative Works; and<br><br>(d) If the Work includes a "NOTICE" text file as part of its<br>distribution, then any Derivative Works that You distribute must<br>include a readable copy of the attribution notices contained<br>within such NOTICE file, excluding those notices that do not<br>pertain to any part of the Derivative Works, in at least one<br>of the following places: within a NOTICE text file distributed<br>as part of the Derivative Works; within the |

You may add Your own attribution<br>notices within Derivative Works that You distribute, alongside<br>or as an addendum to the NOTICE text from the Work, provided<br>that such additional attribution notices cannot be construed<br>as modifying the License.<br><br>You may add Your own copyright statement to Your modifications and<br>may provide additional or different license terms and conditions<br>for use, reproduction, or distribution of Your modifications, or<br>for any such Derivative Works as a whole, provided Your use,<br>reproduction, and distribution of the Work otherwise complies with<br>the conditions stated in this License.<br><br>5. Submission of Contributions. Unless You explicitly state otherwise,<br>any Contribution intentionally submitted for inclusion in the Work<br>by You to the Licensor shall be under the terms and conditions of<br>this License, without any additional terms or conditions.<br>Notwithstanding the above, nothing herein shall supersede or modify<br>the terms of any separate license agreement you may have executed<br>with Licensor regarding such Contributions.<br><br>6. | Eclipse Foundation | Jakarta Servlet | # Eclipse Public License - v 2.0<br><br>THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.<br><br>1. DEFINITIONS<br><br>"Contribution" means:<br><br>a) in the case of the initial Contributor, the initial content Distributed under this Agreement, and<br><br>b) in the case of each subsequent Contributor:<br>i) changes to the Program, and<br>ii) additions to the Program;<br>where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution "originates" from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include changes or additions to the Program that are not Modified Works.<br><br>"Contributor" means any person or entity that Distributes the Program.<br><br>"Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.<br><br>"Program" means the Contributions Distributed in accordance with this Agreement.<br><br>"Recipient" means anyone who receives the Program under this Agreement or any Secondary License (as applicable), including Contributors.<br><br>"Derivative Works" shall mean any work, whether in Source Code or other form, that is based on (or derived from) the Program and for which the editorial revisions, annotations, elaborations, or other modifications |

| | | |
|---|---|---|
| | | represent, as a whole, an original work of authorship.<br><br>"Modified Works" shall mean any work in Source Code or other form that<br>results from an addition to, deletion from, or modification of the<br>contents of the Program, including, for purposes of clarity any new file<br>in Source Code form that contains any contents of the Program. Modified<br>Works shall not include works that contain only declarations,<br>interfaces, types, classes, structures, or files of the Program solely<br>in each case in order to link to, bind by name, or subclass the Program<br>or Modified Works thereof.<br><br>"Distribute" means the acts of a) distributing or b) making available<br>in any manner that enables the transfer of a copy.<br><br>"Source Code" means the form of a Program preferred for making<br>modifications, including but not limited to software source code,<br>documentation source, and configuration files.<br><br>"Secondary License" means either the GNU General Public License,<br>Version 2.0, or any later versions of that license, including any<br>exceptions or additional permissions as identified by the initial<br>Contributor.<br><br>2. GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of |

| | | |
|---|---|---|
| | | such Contributor,<br>if any, in Source Code or other form. This patent license shall<br>apply to the combination of the Contribution and the Program if, at<br>the time the Contribution is added by the Contributor, such addition<br>of the Contribution causes such combination to be covered by the<br>Licensed Patents. The patent license shall not apply to any other<br>combinations which include the Contribution. No hardware per se is<br>licensed hereunder.<br><br>c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity.<br>Each Contributor disclaims any liability to Recipient for claims<br>brought by any other entity based on infringement of intellectual<br>property rights or otherwise. As a condition to exercising the<br>rights and licenses granted hereunder, each Recipient hereby<br>assumes sole responsibility to secure any other intellectual<br>property rights needed, if any. For example, if a third party<br>patent license is required to allow Recipient to Distribute the<br>Program, it is Recipient's responsibility to acquire that license<br>before distributing the Program.<br><br>d) Each Contributor represents that to its knowledge it has<br>sufficient copyright rights in its Contribution, if any, to grant<br>the copyright license set forth in this Agreement.<br><br>e) Notwithstanding the terms of any Secondary License, no<br>Contributor makes additional grants to any Recipient (other than<br>those set forth in this Agreement) as a result of such Recipient's<br>receipt of the Program under the terms of a Secondary License<br>(if permitted under the terms of Section 3). |

| | | |
|---|---|---|
| | | 3. REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in<br>accordance with section 3.2, and the Contributor must accompany<br>the Program with a statement that the Source Code for the Program<br>is available under this Agreement, and informs Recipients how to<br>obtain it in a reasonable manner on or through a medium customarily<br>used for software exchange; and<br><br>b) the Contributor may Distribute the Program under a license<br>different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all<br>warranties and conditions, express and implied, including<br>warranties or conditions of title and non-infringement, and<br>implied warranties or conditions of merchantability and fitness<br>for a particular purpose;<br><br>ii) effectively excludes on behalf of all other Contributors all<br>liability for damages, including direct, indirect, special,<br>incidental and consequential damages, such as lost profits;<br><br>iii) does not attempt to limit or alter the recipients' rights<br>in the Source Code under section 3.2; and<br><br>iv) requires any subsequent distribution of the Program by any<br>party to be under a license that satisfies the requirements<br>of this section 3.<br><br>3.2 When the Program is Distributed as Source Code:<br><br>a) it must be made available under this Agreement, or if the<br>Program (i) is combined with other material in a separate file or |

| | | |
|---|---|---|
| | | files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br><br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified |

| | | |
|---|---|---|
| | | Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages.<br><br>5. NO WARRANTY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS"<br>BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR<br>IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF<br>TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR<br>PURPOSE. Each Recipient is solely responsible for determining the<br>appropriateness of using and distributing the Program and assumes all<br>risks associated with its exercise of rights under this Agreement,<br>including but not limited to the risks and costs of program errors,<br>compliance with applicable laws, damage to or loss of data, programs<br>or equipment, and unavailability or interruption of operations. |

| | | |
|---|---|---|
| | | 6. DISCLAIMER OF LIABILITY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS<br>SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL,<br>EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST<br>PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN<br>CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE)<br>ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE<br>EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE<br>POSSIBILITY OF SUCH DAMAGES.<br><br>7. GENERAL<br><br>If any provision of this Agreement is invalid or unenforceable under<br>applicable law, it shall not affect the validity or enforceability of<br>the remainder of the terms of this Agreement, and without further<br>action by the parties hereto, such provision shall be reformed to the<br>minimum extent necessary to make such provision valid and enforceable.<br><br>If Recipient institutes patent litigation against any entity<br>(including a cross-claim or counterclaim in a lawsuit) alleging that the<br>Program itself (excluding combinations of the Program with other software<br>or hardware) infringes such Recipient's patent(s), then such Recipient's<br>rights granted under Section 2(b) shall terminate as of the date such<br>litigation is filed.<br><br>All Recipient's rights under this Agreement shall terminate if it<br>fails to comply with any of the material terms or conditions of this<br>Agreement and does not cure such failure in a reasonable period of<br>time after becoming aware of such noncompliance. If all Recipient's<br>rights under this Agreement terminate, Recipient agrees to cease use<br>and distribution of the Program as soon as |

The Agreement Steward<br>reserves the right to publish new versions (including revisions) of<br>this Agreement from time to time. No one other than the Agreement<br>Steward has the right to modify this Agreement. The Eclipse Foundation<br>is the initial Agreement Steward. The Eclipse Foundation may assign the<br>responsibility to serve as the Agreement Steward to a suitable separate<br>entity. Each new version of the Agreement will be given a distinguishing<br>version number. The Program (including Contributions) may always be<br>Distributed subject to the version of the Agreement under which it was<br>received. In addition, after a new version of the Agreement is published,<br>Contributor may elect to Distribute the Program (including its<br>Contributions) under the new version.<br><br>Except as expressly stated in Sections 2(a) and 2(b) above, Recipient<br>receives no rights or licenses to the intellectual property of any<br>Contributor under this Agreement, whether expressly, by implication,<br>estoppel or otherwise. By contrast, the GNU General Public License is<br>intended to guarantee your freedom to share and change free software--to<br>make sure the software is free for all its users. This General Public<br>License applies to most of the Free Software Foundation's software and<br>to any other program whose authors commit to using it. (Some other Free<br>Software Foundation software is covered by the GNU Library General<br>Public License instead.) You can apply it to your programs, too.<br><br>When we speak of free software, we are referring to |

| | | |
|---|---|---|
| | | freedom, not price.<br>  Our General Public Licenses are designed to make sure that you have the<br>  freedom to distribute copies of free software (and charge for this<br>  service if you wish), that you receive source code or can get it if you<br>  want it, that you can change the software or use pieces of it in new<br>  free programs; and that you know you can do these things.<br><br>  To protect your rights, we need to make restrictions that forbid anyone<br>  to deny you these rights or to ask you to surrender the rights. These<br>  restrictions translate to certain responsibilities for you if you<br>  distribute copies of the software, or if you modify it.<br><br>  For example, if you distribute copies of such a program, whether gratis<br>  or for a fee, you must give the recipients all the rights that you have.<br>  You must make sure that they, too, receive or can get the source code.<br>  And you must show them these terms so they know their rights.<br><br>  We protect your rights with two steps: (1) copyright the software, and<br>  (2) offer you this license which gives you legal permission to copy,<br>  distribute and/or modify the software.<br><br>  Also, for each author's protection and ours, we want to make certain<br>  that everyone understands that there is no warranty for this free<br>  software. If the software is modified by someone else and passed on, we<br>  want its recipients to know that what they have is not the original, so<br>  that any problems introduced by others will not reflect on the original<br>  authors' reputations.<br><br>  Finally, any free program is threatened constantly by software patents.<br>  We wish to avoid the danger that redistributors of a free program will<br>  individually obtain patent licenses, in effect making the program<br>  proprietary. To prevent this, we have made it clear that any patent must<br>  be licensed for everyone's free use or not licensed |

| | | |
|---|---|---|
| | | at all.<br><br>The precise terms and conditions for copying, distribution and<br>modification follow.<br><br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains a<br>notice placed by the copyright holder saying it may be distributed under<br>the terms of this General Public License. The "Program", below, refers<br>to any such program or work, and a "work based on the Program" means<br>either the Program or any derivative work under copyright law: that is<br>to say, a work containing the Program or a portion of it, either<br>verbatim or with modifications and/or translated into another language.<br>(Hereinafter, translation is included without limitation in the term<br>"modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of running<br>the Program is not restricted, and the output from the Program is<br>covered only if its contents constitute a work based on the Program<br>(independent of having been made by running the Program). Whether that<br>is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's source<br>code as you receive it, in any medium, provided that you conspicuously<br>and appropriately publish on each copy an appropriate copyright notice<br>and disclaimer of warranty; keep intact all the notices that refer to<br>this License and to the absence of any warranty; and give any other<br>recipients of the Program a copy of this License along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee. |

| | | |
|---|---|---|
| | | 2. You may modify your copy or copies of the Program or any portion of<br>it, thus forming a work based on the Program, and copy and distribute<br>such modifications or work under the terms of Section 1 above, provided<br>that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any part<br>thereof, to be licensed as a whole at no charge to all third parties<br>under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a notice<br>that there is no warranty (or else, saying that you provide a<br>warranty) and that users may redistribute the program under these<br>conditions, and telling the user how to view a copy of this License.<br>(Exception: if the Program itself is interactive but does not<br>normally print such an announcement, your work based on the Program<br>is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program, and<br>can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based on<br>the Program, the distribution of the whole must be on the terms of this |

| | | |
|---|---|---|
| | | License, whose permissions for other licensees extend to the entire<br>whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of a<br>storage or distribution medium does not bring the other work under the<br>scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections 1<br>and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your cost<br>of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This alternative is allowed<br>only for noncommercial distribution and only if you received the<br>program in object code or executable form with such an offer, in<br>accord with Subsection b above.) |

| | | |
|---|---|---|
| | | The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.<br><br>If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.<br><br>4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.<br><br>5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this |

| | | |
|---|---|---|
| | | License to do so, and all<br>its terms and conditions for copying, distributing or modifying the<br>Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further restrictions<br>on the recipients' exercise of the rights granted herein. You are not<br>responsible for enforcing compliance by third parties to this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot distribute<br>so as to satisfy simultaneously your obligations under this License and<br>any other pertinent obligations, then as a consequence you may not<br>distribute the Program at all. For example, if a patent license would<br>not permit royalty-free redistribution of the Program by all those who<br>receive copies directly or indirectly through you, then the only way you<br>could satisfy both it and this License would be to refrain entirely from<br>distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the |

| | | |
|---|---|---|
| | | integrity of the free software distribution system, which is implemented<br>by public license practices. Many people have made generous<br>contributions to the wide range of software distributed through that<br>system in reliance on consistent application of that system; it is up to<br>the author/donor to decide if he or she is willing to distribute<br>software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be<br>a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License may<br>add an explicit geographical distribution limitation excluding those<br>countries, so that distribution is permitted only in or among countries<br>not thus excluded. In such case, this License incorporates the<br>limitation as if written in the body of this License.<br><br>9. The Free Software Foundation may publish revised and/or new<br>versions of the General Public License from time to time. Such new<br>versions will be similar in spirit to the present version, but may<br>differ in detail to address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and<br>conditions either of that version or of any later version published by<br>the Free Software Foundation. If the Program does not specify a version<br>number of this License, you may choose any version ever published by the<br>Free Software Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, |

It is safest to<br>attach them to the start of each source file to most effectively convey<br>the exclusion of warranty; and each file should have at least the<br>"copyright" line and a pointer to where the full notice is found.<br><br>One line to give the program's name and a brief idea of what it does.<br>Copyright (C) <year> <name of author><br><br>This program is free software; you can redistribute it and/or modify<br>it under the terms of the GNU General Public License as published by<br>the Free Software Foundation; either version 2 of the License, or<br>(at your option) any later version.<br><br>This program is distributed in the hope that it will be useful, but<br>WITHOUT ANY WARRANTY; without even the implied warranty of<br>MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. Of course, the commands<br>you use may be called something other than `show w' and `show c'; they<br>could even be mouse-clicks or menu items--whatever suits your program.<br><br>You should also get your employer (if you work as a programmer) or your<br>school, if any, to sign a "copyright disclaimer" for the program, if<br>necessary. Here is a sample; alter the names:<br><br>Yoyodyne, Inc., hereby disclaims all copyright interest in the<br>program `Gnomovision' (which makes passes at compilers) written by<br>James Hacker.<br><br>signature of Ty Coon, 1 April 1989<br>Ty Coon, President of Vice<br><br>This General Public License does not permit incorporating your program<br>into proprietary programs. GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of such Contributor,<br>if any, in Source Code or other form. This patent license shall<br>apply to the combination of the Contribution and the Program if, at<br>the time the Contribution is added by the Contributor, such addition<br>of the Contribution causes such combination to be covered by the<br>Licensed Patents. The patent license shall not apply to any other<br>combinations which include the Contribution. No hardware per se is<br>licensed hereunder.<br><br>c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity.<br>Each Contributor disclaims any liability to Recipient for claims<br>brought by any other entity based on infringement of intellectual<br>property rights or otherwise. As a condition to exercising the<br>rights and licenses granted hereunder, each Recipient hereby<br>assumes sole responsibility to secure any other intellectual<br>property rights needed, if any. For example, if a third |

| | | |
|---|---|---|
| | | party<br>  patent license is required to allow Recipient to Distribute the<br>  Program, it is Recipient's responsibility to acquire that license<br>  before distributing the Program.<br><br>  d) Each Contributor represents that to its knowledge it has<br>  sufficient copyright rights in its Contribution, if any, to grant<br>  the copyright license set forth in this Agreement.<br><br>  e) Notwithstanding the terms of any Secondary License, no<br>  Contributor makes additional grants to any Recipient (other than<br>  those set forth in this Agreement) as a result of such Recipient's<br>  receipt of the Program under the terms of a Secondary License<br>  (if permitted under the terms of Section 3).<br><br>3. REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>  a) the Program must also be made available as Source Code, in<br>  accordance with section 3.2, and the Contributor must accompany<br>  the Program with a statement that the Source Code for the Program<br>  is available under this Agreement, and informs Recipients how to<br>  obtain it in a reasonable manner on or through a medium customarily<br>  used for software exchange; and<br><br>  b) the Contributor may Distribute the Program under a license<br>  different than this Agreement, provided that such license:<br>  i) effectively disclaims on behalf of all other Contributors all<br>  warranties and conditions, express and implied, including<br>  warranties or conditions of title and non-infringement, and<br>  implied warranties or conditions of merchantability and fitness<br>  for a particular purpose;<br><br>  ii) effectively excludes on behalf of all other Contributors all |

| | | |
|---|---|---|
| | | liability for damages, including direct, indirect, special,<br>incidental and consequential damages, such as lost profits;<br><br>iii) does not attempt to limit or alter the recipients' rights<br>in the Source Code under section 3.2; and<br><br>iv) requires any subsequent distribution of the Program by any<br>party to be under a license that satisfies the requirements<br>of this section 3.<br><br>3.2 When the Program is Distributed as Source Code:<br><br>a) it must be made available under this Agreement, or if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br><br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a |

| | | |
|---|---|---|
| | | Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages.<br><br>5. NO WARRANTY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, THE PROGRAM |

Each Recipient is solely responsible for<br>determining the<br>appropriateness of using and distributing the Program<br>and assumes all<br>risks associated with its exercise of rights under this<br>Agreement,<br>including but not limited to the risks and costs of<br>program errors,<br>compliance with applicable laws, damage to or loss of<br>data, programs<br>or equipment, and unavailability or interruption of<br>operations.<br><br>6. DISCLAIMER OF LIABILITY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS<br>AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, NEITHER<br>RECIPIENT NOR ANY CONTRIBUTORS<br>SHALL HAVE ANY LIABILITY FOR ANY DIRECT,<br>INDIRECT, INCIDENTAL, SPECIAL,<br>EXEMPLARY, OR CONSEQUENTIAL DAMAGES<br>(INCLUDING WITHOUT LIMITATION LOST<br>PROFITS), HOWEVER CAUSED AND ON ANY<br>THEORY OF LIABILITY, WHETHER IN<br>CONTRACT, STRICT LIABILITY, OR TORT<br>(INCLUDING NEGLIGENCE OR OTHERWISE)<br>ARISING IN ANY WAY OUT OF THE USE OR<br>DISTRIBUTION OF THE PROGRAM OR THE<br>EXERCISE OF ANY RIGHTS GRANTED<br>HEREUNDER, EVEN IF ADVISED OF THE<br>POSSIBILITY OF SUCH DAMAGES.<br><br>7. GENERAL<br><br>If any provision of this Agreement is invalid or<br>unenforceable under<br>applicable law, it shall not affect the validity or<br>enforceability of<br>the remainder of the terms of this Agreement, and<br>without further<br>action by the parties hereto, such provision shall be<br>reformed to the<br>minimum extent necessary to make such provision<br>valid and enforceable.<br><br>If Recipient institutes patent litigation against any entity<br>(including a cross-claim or counterclaim in a lawsuit)<br>alleging that the |

| | | |
|---|---|---|
| | | The licenses for most software are designed to take away your freedom to<br>share and change it. By contrast, the GNU General Public License is<br>intended to guarantee your freedom to share and change free software--to<br>make sure the software is free for all its users. This General Public<br>License applies to most of the Free Software Foundation's software and<br>to any other program whose authors commit to using it. (Some other Free<br>Software Foundation software is covered by the GNU Library General<br>Public License instead.) You can apply it to your programs, too.<br><br>When we speak of free software, we are referring to freedom, not price.<br>Our General Public Licenses are designed to make sure that you have the<br>freedom to distribute copies of free software (and charge for this<br>service if you wish), that you receive source code or can get it if you<br>want it, that you can change the software or use pieces of it in new<br>free programs; and that you know you can do these things.<br><br>To protect your rights, we need to make restrictions that forbid anyone<br>to deny you these rights or to ask you to surrender the rights. These<br>restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br><br>For example, if you distribute copies of such a program, whether gratis<br>or for a fee, you must give the recipients all the rights that you have.<br>You must make sure that they, too, receive or can get the source code.<br>And you must show them these terms so they know their rights.<br><br>We protect your rights with two steps: (1) copyright the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to make certain |

| | | |
|---|---|---|
| | | that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software patents.<br>We wish to avoid the danger that redistributors of a free program will<br>individually obtain patent licenses, in effect making the program<br>proprietary. To prevent this, we have made it clear that any patent must<br>be licensed for everyone's free use or not licensed at all.<br><br>The precise terms and conditions for copying, distribution and<br>modification follow.<br><br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains a<br>notice placed by the copyright holder saying it may be distributed under<br>the terms of this General Public License. The "Program", below, refers<br>to any such program or work, and a "work based on the Program" means<br>either the Program or any derivative work under copyright law: that is<br>to say, a work containing the Program or a portion of it, either<br>verbatim or with modifications and/or translated into another language.<br>(Hereinafter, translation is included without limitation in the term<br>"modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of running<br>the Program is not restricted, and the output from the Program is<br>covered only if its contents constitute a work based on the Program<br>(independent of having been made by running the Program). Whether that |

| | | |
|---|---|---|
| | | is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's source<br>code as you receive it, in any medium, provided that you conspicuously<br>and appropriately publish on each copy an appropriate copyright notice<br>and disclaimer of warranty; keep intact all the notices that refer to<br>this License and to the absence of any warranty; and give any other<br>recipients of the Program a copy of this License along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Program or any portion of<br>it, thus forming a work based on the Program, and copy and distribute<br>such modifications or work under the terms of Section 1 above, provided<br>that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any part<br>thereof, to be licensed as a whole at no charge to all third parties<br>under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a notice<br>that there is no warranty (or else, saying that you provide a<br>warranty) and that users may redistribute the program under these<br>conditions, and telling the user how to view a copy of this License.<br>(Exception: if the Program itself is interactive but |

| | | |
|---|---|---|
| | | does not<br>normally print such an announcement, your work based on the Program<br>is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program, and<br>can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based on<br>the Program, the distribution of the whole must be on the terms of this<br>License, whose permissions for other licensees extend to the entire<br>whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of a<br>storage or distribution medium does not bring the other work under the<br>scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections 1<br>and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three |

(This alternative is allowed<br>only for noncommercial distribution and only if you received the<br>program in object code or executable form with such an offer, in<br>accord with Subsection b above.)<br><br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source code<br>means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to control<br>compilation and installation of the executable. However, as a special<br>exception, the source code distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major<br>components (compiler, kernel, and so on) of the operating system on<br>which the executable runs, unless that component itself accompanies the<br>executable.<br><br>If distribution of executable or object code is made by offering access<br>to copy from a designated place, then offering equivalent access to copy<br>the source code from the same place counts as distribution of the source<br>code, even though third parties are not compelled to copy the source<br>along with the object code.<br><br>4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt otherwise<br>to copy, modify, sublicense or distribute the Program is void, and will |

| | | |

| | | automatically terminate your rights under this License. However, parties<br>who have received copies, or rights, from you under this License will<br>not have their licenses terminated so long as such parties remain in<br>full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and all<br>its terms and conditions for copying, distributing or modifying the<br>Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further restrictions<br>on the recipients' exercise of the rights granted herein. You are not<br>responsible for enforcing compliance by third parties to this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot distribute<br>so as to satisfy simultaneously your obligations under this License and<br>any other pertinent obligations, then as a consequence you may not<br>distribute the Program at all. For example, if a patent license would<br>not permit royalty-free redistribution of the Program by all those who<br>receive copies directly or indirectly through you, then |

| | | |
|---|---|---|
| | | the only way you<br>could satisfy both it and this License would be to refrain entirely from<br>distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is implemented<br>by public license practices. Many people have made generous<br>contributions to the wide range of software distributed through that<br>system in reliance on consistent application of that system; it is up to<br>the author/donor to decide if he or she is willing to distribute<br>software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be<br>a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License may<br>add an explicit geographical distribution limitation excluding those<br>countries, so that distribution is permitted only in or among countries<br>not thus excluded. In such case, this License incorporates the<br>limitation as if written in the body of this License.<br><br>9. The Free Software Foundation may publish revised and/or new<br>versions of the General Public License from time to time. Such new<br>versions will be similar in spirit to the present version, but may |

ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.<br><br>1. DEFINITIONS<br>“Contribution” means:<br><br>a) in the case of the initial Contributor, the initial content Distributed under this Agreement, and<br>b) in the case of each subsequent Contributor:<br>i) changes to the Program, and<br>ii) additions to the Program;<br>where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution “originates” from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include changes or additions to the Program that are not Modified Works.<br>“Contributor” means any person or entity that Distributes the Program.<br><br>“Licensed Patents” mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.<br><br>“Program” means the Contributions Distributed in accordance with this Agreement.<br><br>“Recipient” means anyone who receives the Program under this Agreement or any Secondary License (as applicable), including Contributors.<br><br>“Derivative Works” shall mean any work, whether in Source Code or other form, that is based on (or derived from) the Program and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship.<br><br>“Modified Works” shall mean any work in Source Code or other form that results from an addition to, deletion from, or modification of the contents of the Program, including, for purposes of clarity any new file in Source Code form that contains any contents of the Program. Modified Works shall not include works that contain only declarations, interfaces, types, classes, structures, or files of the Program solely in each case in order to link to, bind by name, or subclass the Program or Modified Works thereof. |

| | | |
|---|---|---|
| | | “Distribute” means the acts of a) distributing or b) making available in any manner that enables the transfer of a copy.<br><br>“Source Code” means the form of a Program preferred for making modifications, including but not limited to software source code, documentation source, and configuration files.<br><br>“Secondary License” means either the GNU General Public License, Version 2.0, or any later versions of that license, including any exceptions or additional permissions as identified by the initial Contributor.<br><br>2. GRANT OF RIGHTS<br>a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, Distribute and sublicense the Contribution of such Contributor, if any, and such Derivative Works.<br>b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.<br>c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.<br>d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement. |

| | | |
|---|---|---|
| | | e) Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3).<br>3. REQUIREMENTS<br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with a statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and<br>b) the Contributor may Distribute the Program under a license different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;<br>ii) effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;<br>iii) does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and<br>iv) requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section 3.<br>3.2 When the Program is Distributed as Source Code:<br><br>a) it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and<br>b) a copy of this Agreement must be included with each copy of the Program.<br>3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations of liability ('notices') contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br>Commercial distributors of software may accept certain responsibilities with respect to end users, business |

While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor (“Commercial Contributor”) hereby agrees to defend and indemnify every other Contributor (“Indemnified Contributor”) against any losses, damages and costs (collectively “Losses”) arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.<br><br>5. Definitions.<br><br>"License" shall mean the terms and conditions for use, reproduction,<br>and distribution as defined by Sections 1 through 9 of this document.<br><br>"Licensor" shall mean the copyright owner or entity authorized by<br>the copyright owner that is granting the License.<br><br>"Legal Entity" shall mean the union of the acting entity and all<br>other entities that control, are controlled by, or are under common<br>control with that entity. For the purposes of this definition,<br>"control" means (i) the power, direct or indirect, to cause the<br>direction or management of such entity, whether by contract or<br>otherwise, or (ii) ownership of fifty percent (50%) or more of the<br>outstanding shares, or (iii) beneficial ownership of such entity.<br><br>"You" (or "Your") shall mean an individual or Legal Entity<br>exercising permissions granted by this License.<br><br>"Source" form shall mean the preferred form for making modifications,<br>including but not limited to software source code, documentation<br>source, and configuration files.<br><br>"Object" form shall mean any form resulting from mechanical<br>transformation or translation of a Source form, including but |

| | | |
|---|---|---|
| | | not limited to compiled object code, generated documentation,<br>and conversions to other media types.<br><br>"Work" shall mean the work of authorship, whether in Source or<br>Object form, made available under the License, as indicated by a<br>copyright notice that is included in or attached to the work<br>(an example is provided in the Appendix below).<br><br>"Derivative Works" shall mean any work, whether in Source or Object<br>form, that is based on (or derived from) the Work and for which the<br>editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of authorship. For the purposes<br>of this License, Derivative Works shall not include works that remain<br>separable from, or merely link (or bind by name) to the interfaces of,<br>the Work and Derivative Works thereof.<br><br>"Contribution" shall mean any work of authorship, including<br>the original version of the Work and any modifications or additions<br>to that Work or Derivative Works thereof, that is intentionally<br>submitted to Licensor for inclusion in the Work by the copyright owner<br>or by an individual or Legal Entity authorized to submit on behalf of<br>the copyright owner. For the purposes of this definition, "submitted"<br>means any form of electronic, verbal, or written communication sent<br>to the Licensor or its representatives, including but not limited to<br>communication on electronic mailing lists, source code control systems,<br>and issue tracking systems that are managed by, or on behalf of, the<br>Licensor for the purpose of discussing and improving the Work, but<br>excluding communication that is conspicuously marked or otherwise<br>designated in writing by the copyright owner as "Not a Contribution."<br><br>"Contributor" shall mean Licensor and any individual or Legal Entity<br>on behalf of whom a Contribution has been |

| | | |
|---|---|---|
| | | received by Licensor and<br>subsequently incorporated within the Work.<br><br>2. Grant of Copyright License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>copyright license to reproduce, prepare Derivative Works of,<br>publicly display, publicly perform, sublicense, and distribute the<br>Work and such Derivative Works in Source or Object form.<br><br>3. Grant of Patent License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>(except as stated in this section) patent license to make, have made,<br>use, offer to sell, sell, import, and otherwise transfer the Work,<br>where such license applies only to those patent claims licensable<br>by such Contributor that are necessarily infringed by their<br>Contribution(s) alone or by combination of their Contribution(s)<br>with the Work to which such Contribution(s) was submitted. If You<br>institute patent litigation against any entity (including a<br>cross-claim or counterclaim in a lawsuit) alleging that the Work<br>or a Contribution incorporated within the Work constitutes direct<br>or contributory patent infringement, then any patent licenses<br>granted to You under this License for that Work shall terminate<br>as of the date such litigation is filed.<br><br>4. Redistribution. You may reproduce and distribute copies of the<br>Work or Derivative Works thereof in any medium, with or without<br>modifications, and in Source or Object form, provided that You<br>meet the following conditions:<br><br>(a) You must give any other recipients of the Work or |

| | | |
|---|---|---|
| | | Derivative Works a copy of this License; and<br><br>(b) You must cause any modified files to carry prominent notices<br>stating that You changed the files; and<br><br>(c) You must retain, in the Source form of any Derivative Works<br>that You distribute, all copyright, patent, trademark, and<br>attribution notices from the Source form of the Work,<br>excluding those notices that do not pertain to any part of<br>the Derivative Works; and<br><br>(d) If the Work includes a "NOTICE" text file as part of its<br>distribution, then any Derivative Works that You distribute must<br>include a readable copy of the attribution notices contained<br>within such NOTICE file, excluding those notices that do not<br>pertain to any part of the Derivative Works, in at least one<br>of the following places: within a NOTICE text file distributed<br>as part of the Derivative Works; within the Source form or<br>documentation, if provided along with the Derivative Works; or,<br>within a display generated by the Derivative Works, if and<br>wherever such third-party notices normally appear. The contents<br>of the NOTICE file are for informational purposes only and<br>do not modify the License. You may add Your own attribution<br>notices within Derivative Works that You distribute, alongside<br>or as an addendum to the NOTICE text from the Work, provided<br>that such additional attribution notices cannot be construed<br>as modifying the License.<br><br>You may add Your own copyright statement to Your modifications and<br>may provide additional or different license terms and conditions<br>for use, reproduction, or distribution of Your modifications, or<br>for any such Derivative Works as a whole, provided Your use, |

| | | |
|---|---|---|
| | | reproduction, and distribution of the Work otherwise complies with<br>the conditions stated in this License.<br><br>5. Submission of Contributions. Unless You explicitly state otherwise,<br>any Contribution intentionally submitted for inclusion in the Work<br>by You to the Licensor shall be under the terms and conditions of<br>this License, without any additional terms or conditions.<br>Notwithstanding the above, nothing herein shall supersede or modify<br>the terms of any separate license agreement you may have executed<br>with Licensor regarding such Contributions.<br><br>6. Trademarks. This License does not grant permission to use the trade<br>names, trademarks, service marks, or product names of the Licensor,<br>except as required for reasonable and customary use in describing the<br>origin of the Work and reproducing the content of the NOTICE file.<br><br>7. Disclaimer of Warranty. Unless required by applicable law or<br>agreed to in writing, Licensor provides the Work (and each<br>Contributor provides its Contributions) on an "AS IS" BASIS,<br>WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or<br>implied, including, without limitation, any warranties or conditions<br>of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A<br>PARTICULAR PURPOSE. You are solely responsible for determining the<br>appropriateness of using or redistributing the Work and assume any<br>risks associated with Your exercise of permissions under this License.<br><br>8. Limitation of Liability. In no event and under no legal theory,<br>whether in tort (including negligence), contract, or otherwise,<br>unless required by applicable law (such as deliberate and grossly<br>negligent acts) or agreed to in writing, shall any Contributor be<br>liable to You for damages, including any direct, indirect, special, |

| | | |
|---|---|---|
| | | incidental, or consequential damages of any character arising as a<br>result of this License or out of the use or inability to use the<br>Work (including but not limited to damages for loss of goodwill,<br>work stoppage, computer failure or malfunction, or any and all<br>other commercial damages or losses), even if such Contributor<br>has been advised of the possibility of such damages.<br><br>9. Accepting Warranty or Additional Liability. While redistributing<br>the Work or Derivative Works thereof, You may choose to offer,<br>and charge a fee for, acceptance of support, warranty, indemnity,<br>or other liability obligations and/or rights consistent with this<br>License. However, in accepting such obligations, You may act only<br>on Your own behalf and on Your sole responsibility, not on behalf<br>of any other Contributor, and only if You agree to indemnify,<br>defend, and hold each Contributor harmless for any liability<br>incurred by, or claims asserted against, such Contributor by reason<br>of your accepting any such warranty or additional liability.<br><br>END OF TERMS AND CONDITIONS<br><br>APPENDIX: How to apply the Apache License to your work.<br><br>To apply the Apache License to your work, attach the following<br>boilerplate notice, with the fields enclosed by brackets "[]"<br>replaced with your own identifying information. GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of such Contributor,<br>if any, in Source Code or other form. This patent license shall<br>apply to the combination of the Contribution and the Program if, at<br>the time the Contribution is added by the Contributor, such addition<br>of the Contribution causes such combination to be covered by the<br>Licensed Patents. The patent license shall not apply to any other<br>combinations which include the Contribution. No hardware per se is<br>licensed hereunder.<br><br>c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity.<br>Each Contributor disclaims any liability to Recipient for claims<br>brought by any other entity based on infringement of intellectual |

As a condition to exercising the<br>rights and licenses granted hereunder, each Recipient hereby<br>assumes sole responsibility to secure any other intellectual<br>property rights needed, if any. For example, if a third party<br>patent license is required to allow Recipient to Distribute the<br>Program, it is Recipient's responsibility to acquire that license<br>before distributing the Program.<br><br>d) Each Contributor represents that to its knowledge it has<br>sufficient copyright rights in its Contribution, if any, to grant<br>the copyright license set forth in this Agreement.<br><br>e) Notwithstanding the terms of any Secondary License, no<br>Contributor makes additional grants to any Recipient (other than<br>those set forth in this Agreement) as a result of such Recipient's<br>receipt of the Program under the terms of a Secondary License<br>(if permitted under the terms of Section 3).<br><br>3. REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in<br>accordance with section 3.2, and the Contributor must accompany<br>the Program with a statement that the Source Code for the Program<br>is available under this Agreement, and informs Recipients how to<br>obtain it in a reasonable manner on or through a medium customarily<br>used for software exchange; and<br><br>b) the Contributor may Distribute the Program under a license<br>different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all<br>warranties and conditions, express and implied, including<br>warranties or conditions of title and non- |

COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this |

| | | |
|---|---|---|
| | | license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay |

|---|---|---|
| | | copies<br> of this license document, but changing it is not allowed.<br><br>Preamble<br><br> The licenses for most software are designed to take away your<br>freedom to share and change it. By contrast, the GNU General Public<br>License is intended to guarantee your freedom to share and change free<br>software--to make sure the software is free for all its users. This<br>General Public License applies to most of the Free Software<br>Foundation's software and to any other program whose authors commit to<br>using it. (Some other Free Software Foundation software is covered by<br>the GNU Lesser General Public License instead.) You can apply it to<br>your programs, too.<br><br> When we speak of free software, we are referring to freedom, not<br>price. Our General Public Licenses are designed to make sure that you<br>have the freedom to distribute copies of free software (and charge for<br>this service if you wish), that you receive source code or can get it<br>if you want it, that you can change the software or use pieces of it<br>in new free programs; and that you know you can do these things.<br><br> To protect your rights, we need to make restrictions that forbid<br>anyone to deny you these rights or to ask you to surrender the rights.<br>These restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br><br> For example, if you distribute copies of such a program, whether<br>gratis or for a fee, you must give the recipients all the rights that<br>you have. You must make sure that they, too, receive or can get the<br>source code. And you must show them these terms so they know their<br>rights.<br><br> We protect your rights with two steps: (1) copyright |

| | | |
|---|---|---|
| | | the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to make certain<br>that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software<br>patents. We wish to avoid the danger that redistributors of a free<br>program will individually obtain patent licenses, in effect making the<br>program proprietary. To prevent this, we have made it clear that any<br>patent must be licensed for everyone's free use or not licensed at all.<br><br>The precise terms and conditions for copying, distribution and<br>modification follow.<br><br>GNU GENERAL PUBLIC LICENSE<br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains<br>a notice placed by the copyright holder saying it may be distributed<br>under the terms of this General Public License. The "Program", below,<br>refers to any such program or work, and a "work based on the Program"<br>means either the Program or any derivative work under copyright law:<br>that is to say, a work containing the Program or a portion of it,<br>either verbatim or with modifications and/or translated into another<br>language. (Hereinafter, translation is included without limitation in<br>the term "modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and |

| | | |
|---|---|---|
| | | modification are not<br>covered by this License; they are outside its scope. The act of<br>running the Program is not restricted, and the output from the Program<br>is covered only if its contents constitute a work based on the<br>Program (independent of having been made by running the Program).<br>Whether that is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's<br>source code as you receive it, in any medium, provided that you<br>conspicuously and appropriately publish on each copy an appropriate<br>copyright notice and disclaimer of warranty; keep intact all the<br>notices that refer to this License and to the absence of any warranty;<br>and give any other recipients of the Program a copy of this License<br>along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Program or any portion<br>of it, thus forming a work based on the Program, and copy and<br>distribute such modifications or work under the terms of Section 1<br>above, provided that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any<br>part thereof, to be licensed as a whole at no charge to all third<br>parties under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running |

| | | |
|---|---|---|
| | | for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a<br>notice that there is no warranty (or else, saying that you provide<br>a warranty) and that users may redistribute the program under<br>these conditions, and telling the user how to view a copy of this<br>License. (Exception: if the Program itself is interactive but<br>does not normally print such an announcement, your work based on<br>the Program is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program,<br>and can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based<br>on the Program, the distribution of the whole must be on the terms of<br>this License, whose permissions for other licensees extend to the<br>entire whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of<br>a storage or distribution medium does not bring the other work under<br>the scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form |

| | | |
|---|---|---|
| | | under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections<br>1 and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your<br>cost of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer<br>to distribute corresponding source code. (This alternative is<br>allowed only for noncommercial distribution and only if you<br>received the program in object code or executable form with such<br>an offer, in accord with Subsection b above.)<br><br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source<br>code means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to<br>control compilation and installation of the executable. However, as a<br>special exception, the source code distributed need not include<br>anything that is normally distributed (in either source or binary<br>form) with the major components (compiler, kernel, and so on) of the<br>operating system on which the executable runs, unless that component<br>itself accompanies the executable.<br><br>If distribution of executable or object code is made by offering<br>access to copy from a designated place, then offering |

| | | |
|---|---|---|
| | | equivalent<br>access to copy the source code from the same place counts as<br>distribution of the source code, even though third parties are not<br>compelled to copy the source along with the object code.<br><br>4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt<br>otherwise to copy, modify, sublicense or distribute the Program is<br>void, and will automatically terminate your rights under this License.<br>However, parties who have received copies, or rights, from you under<br>this License will not have their licenses terminated so long as such<br>parties remain in full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and<br>all its terms and conditions for copying, distributing or modifying<br>the Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further<br>restrictions on the recipients' exercise of the rights granted herein.<br>You are not responsible for enforcing compliance by third parties to<br>this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues), |

| | | |
|---|---|---|
| | | conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot<br>distribute so as to satisfy simultaneously your obligations under this<br>License and any other pertinent obligations, then as a consequence you<br>may not distribute the Program at all. For example, if a patent<br>license would not permit royalty-free redistribution of the Program by<br>all those who receive copies directly or indirectly through you, then<br>the only way you could satisfy both it and this License would be to<br>refrain entirely from distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is<br>implemented by public license practices. Many people have made<br>generous contributions to the wide range of software distributed<br>through that system in reliance on consistent application of that<br>system; it is up to the author/donor to decide if he or she is willing<br>to distribute software through any other system and a licensee cannot<br>impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to<br>be a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the |

| | | |
|---|---|---|
| | | original copyright holder who places the Program under this License<br>may add an explicit geographical distribution limitation excluding<br>those countries, so that distribution is permitted only in or among<br>countries not thus excluded. In such case, this License incorporates<br>the limitation as if written in the body of this License.<br><br>9. The Free Software Foundation may publish revised and/or new versions<br>of the General Public License from time to time. Such new versions will<br>be similar in spirit to the present version, but may differ in detail to<br>address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and conditions<br>either of that version or of any later version published by the Free<br>Software Foundation. If the Program does not specify a version number of<br>this License, you may choose any version ever published by the Free Software<br>Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the author<br>to ask for permission. For software which is copyrighted by the Free<br>Software Foundation, write to the Free Software Foundation; we sometimes<br>make exceptions for this. Our decision will be guided by the two goals<br>of preserving the free status of all derivatives of our free software and<br>of promoting the sharing and reuse of software generally.<br><br>NO WARRANTY<br><br>11. If this is what you want to do, use the GNU Lesser General<br>Public License instead of this License.<br><br>CLASSPATH EXCEPTION<br>Linking this library statically or dynamically with other modules is<br>making a combined work based on this library. Thus, the terms and<br>conditions of the GNU General Public License version 2 cover the whole<br>combination.<br><br>As a special exception, the copyright holders of this library give you<br>permission to link this library with independent modules to produce an<br>executable, regardless of the license terms of these independent<br>modules, and to copy and distribute the resulting executable under<br>terms of your choice, provided that you also meet, for each linked<br>independent module, the terms and conditions of the license of that<br>module. An independent module is a module which is not derived from or<br>based on this library. Modified Works shall not include works that contain only declarations, interfaces, types, classes, structures, or files of the Program solely in each case in order to link to, bind by name, or subclass the Program or Modified Works thereof.<br><br>“Distribute” means the acts of a) distributing or b) making available in any manner that enables the transfer of a copy.<br><br>“Source Code” means the form of a Program preferred for making modifications, including but not limited to software source code, documentation source, and configuration files.<br><br>“Secondary License” means either the GNU General Public License, Version 2.0, or any later versions of that license, including any exceptions or additional permissions as identified by the initial Contributor.<br><br>2. GRANT OF RIGHTS<br>a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, Distribute and sublicense the Contribution of such Contributor, if any, and such Derivative Works.<br>b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder. |

| | | |
|---|---|---|
| | | c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.<br>d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.<br>e) Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3).<br>3. REQUIREMENTS<br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with a statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and<br>b) the Contributor may Distribute the Program under a license different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;<br>ii) effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;<br>iii) does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and<br>iv) requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section 3.<br>3.2 When the Program is Distributed as Source Code: |

| | | |
|---|---|---|
| | | a) it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and<br>b) a copy of this Agreement must be included with each copy of the Program.<br>3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations of liability ('notices') contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br>Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a |

GENERAL<br>If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.<br><br>If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) |

If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.<br><br>Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be Distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to Distribute the Program (including its Contributions) under the new version.<br><br>Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved. Nothing in this Agreement is intended to be enforceable by any entity that is not a Contributor or Recipient. No third-party beneficiary rights are created under this Agreement.<br><br>Exhibit A – Form of Secondary Licenses Notice<br>“This Source Code may also be made available under the following Secondary Licenses when the conditions for such availability set forth in the Eclipse Public License, v. 2.0 are satisfied: {name license(s), version(s), and exceptions or additional permissions here}.”<br><br>Simply including a copy of this Agreement, including this Exhibit A is not sufficient to license the Source Code under Secondary Licenses. |

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. 2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor |

| | | |
|---|---|---|
| | | hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions: (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and (b) You must cause any modified files to carry prominent notices stating that You changed the files; and (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in |

| | | |
|---|---|---|
| | | at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or |

| | | |
|---|---|---|
| | | FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. END OF TERMS AND CONDITIONS APPENDIX: How to apply the Apache License to your work. To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives. ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT. 1. DEFINITIONS "Contribution" means: a) in the case of the initial Contributor, the initial content Distributed under this Agreement, and b) in the case of each subsequent Contributor: i) changes to the Program, and ii) additions to the Program; where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution "originates" from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include changes or additions to the |

| | | |
|---|---|---|
| | | Program that are not Modified Works. "Contributor" means any person or entity that Distributes the Program. "Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program. "Program" means the Contributions Distributed in accordance with this Agreement. "Recipient" means anyone who receives the Program under this Agreement or any Secondary License (as applicable), including Contributors. "Derivative Works" shall mean any work, whether in Source Code or other form, that is based on (or derived from) the Program and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. "Modified Works" shall mean any work in Source Code or other form that results from an addition to, deletion from, or modification of the contents of the Program, including, for purposes of clarity any new file in Source Code form that contains any contents of the Program. Modified Works shall not include works that contain only declarations, interfaces, types, classes, structures, or files of the Program solely in each case in order to link to, bind by name, or subclass the Program or Modified Works thereof. "Distribute" means the acts of a) distributing or b) making available in any manner that enables the transfer of a copy. "Source Code" means the form of a Program preferred for making modifications, including but not limited to software source code, documentation source, and configuration files. "Secondary License" means either the GNU General Public License, Version 2.0, or any later versions of that license, including any exceptions or additional permissions as identified by the initial Contributor. 2. GRANT OF RIGHTS a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, Distribute and sublicense the Contribution of such Contributor, if any, and such Derivative Works. b) Subject to the terms of this |

| | | |
|---|---|---|
| | | Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder. c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program. d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement. e) Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3). 3. REQUIREMENTS 3.1 If a Contributor Distributes the Program in any form, then: a) the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with a |

| | | |
|---|---|---|
| | | statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and b) the Contributor may Distribute the Program under a license different than this Agreement, provided that such license: i) effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose; ii) effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits; iii) does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and iv) requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section 3. 3.2 When the Program is Distributed as Source Code: a) it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and b) a copy of this Agreement must be included with each copy of the Program. 3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations of liability ("notices") contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices. 4. COMMERCIAL DISTRIBUTION Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential |

| | | |
|---|---|---|
| | | liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense. For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages. 5. NO WARRANTY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON- |

| | | |
|---|---|---|
| | | INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations. 6. DISCLAIMER OF LIABILITY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. 7. GENERAL If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable. If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed. All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the |

| | | |
|---|---|---|
| | | material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive. Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be Distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to Distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved. Nothing in this Agreement is intended to be enforceable by any entity that is not a Contributor or Recipient. No third-party beneficiary rights are created under this Agreement. Exhibit A - Form of Secondary Licenses Notice "This Source Code may also be made available under the following Secondary Licenses when the conditions for such availability set forth in the Eclipse Public License, v. 2.0 are satisfied: {name license(s), version(s), and |

If it is not possible or desirable to put the notice in a particular file, then You may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely to look for such a notice. You may add additional accurate notices of copyright ownership. DEFINITIONS "Contribution" means: a) in the case of the initial Contributor, the initial code and documentation distributed under this Agreement, and b) in the case of each subsequent Contributor: i) changes to the Program, and ii) additions to the Program; where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution |

| | | |

| | | 'originates' from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are not derivative works of the Program. "Contributor" means any person or entity that distributes the Program. "Licensed Patents " mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program. "Program" means the Contributions distributed in accordance with this Agreement. "Recipient" means anyone who receives the Program under this Agreement, including all Contributors. 2. GRANT OF RIGHTS a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form. b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder. c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for |

REQUIREMENTS A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that: a) it complies with the terms and conditions of this Agreement; and b) its license agreement: i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose; ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits; iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange. When the Program is made available in source code form: a) it must be made available under this Agreement; and b) a copy of this Agreement must be included with each copy of the Program. Contributors may not remove or alter any copyright notices contained within the Program. Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution. 4. Modifications. means the Source Code and Executable form of any of the following: A. Any file that results from an addition to, deletion from or modification of the contents of a file containing Original Software or previous Modifications; B. Any new file that contains any part of the Original Software or previous Modification; or C. Any new file that is contributed or otherwise made available under the terms of this License. 1.10. Original Software. means the Source Code and Executable form of computer software code that is originally released under this License. 1.11. Patent Claims. means any patent claim(s), now owned or hereafter acquired, including without limitation, method, process, and apparatus claims, in any patent Licensable by grantor. 1.12. Source Code. means (a) the common form of computer software code in which modifications are made and (b) associated documentation included in or with such code. 1.13. You. (or .Your.) means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, .You. includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, .control. means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity. 2. License Grants. 2.1. The Initial Developer Grant. Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, the Initial |

| | | |
|---|---|---|
| | | Developer hereby grants You a world-wide, royalty-free, non-exclusive license: (a) under intellectual property rights (other than patent or trademark) Licensable by Initial Developer, to use, reproduce, modify, display, perform, sublicense and distribute the Original Software (or portions thereof), with or without Modifications, and/or as part of a Larger Work; and (b) under Patent Claims infringed by the making, using or selling of Original Software, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Software (or portions thereof). (c) The licenses granted in Sections 2.1(a) and (b) are effective on the date Initial Developer first distributes or otherwise makes the Original Software available to a third party under the terms of this License. (d) Notwithstanding Section 2.1(b) above, no patent license is granted: (1) for code that You delete from the Original Software, or (2) for infringements caused by: (i) the modification of the Original Software, or (ii) the combination of the Original Software with other software or devices. 2.2. Contributor Grant. Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license: (a) under intellectual property rights (other than patent or trademark) Licensable by Contributor to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof), either on an unmodified basis, with other Modifications, as Covered Software and/or as part of a Larger Work; and (b) under Patent Claims infringed by the making, using, or selling of Modifications made by that Contributor either alone and/or in combination with its Contributor Version (or portions of such combination), to make, use, sell, offer for sale, have made, and/or otherwise dispose of: (1) Modifications made by that Contributor (or portions thereof); and (2) the combination of Modifications made by that Contributor with its Contributor Version (or portions of such combination). (c) The licenses |

| | | |
|---|---|---|
| | | granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first distributes or otherwise makes the Modifications available to a third party. (d) Notwithstanding Section 2.2(b) above, no patent license is granted: (1) for any code that Contributor has deleted from the Contributor Version; (2) for infringements caused by: (i) third party modifications of Contributor Version, or (ii) the combination of Modifications made by that Contributor with other software (except as part of the Contributor Version) or other devices; or (3) under Patent Claims infringed by Covered Software in the absence of Modifications made by that Contributor. 3. Distribution Obligations. 3.1. Availability of Source Code. Any Covered Software that You distribute or otherwise make available in Executable form must also be made available in Source Code form and that Source Code form must be distributed only under the terms of this License. You must include a copy of this License with every copy of the Source Code form of the Covered Software You distribute or otherwise make available. You must inform recipients of any such Covered Software in Executable form as to how they can obtain such Covered Software in Source Code form in a reasonable manner on or through a medium customarily used for software exchange. 3.2. Modifications. The Modifications that You create or to which You contribute are governed by the terms of this License. You represent that You believe Your Modifications are Your original creation(s) and/or You have sufficient rights to grant the rights conveyed by this License. 3.3. Required Notices. You must include a notice in each of Your Modifications that identifies You as the Contributor of the Modification. You may not remove or alter any copyright, patent or trademark notices contained within the Covered Software, or any notices of licensing or any descriptive text giving attribution to any Contributor or the Initial Developer. 3.4. Application of Additional Terms. You may not offer or impose any terms on any Covered Software in Source Code form that alters or restricts the applicable version of this License or |

| | | |
|---|---|---|
| | | the recipients. rights hereunder. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, you may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear that any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer. 3.5. Distribution of Executable Versions. You may distribute the Executable form of the Covered Software under the terms of this License or under the terms of a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable form does not attempt to limit or alter the recipient.s rights in the Source Code form from the rights set forth in this License. If You distribute the Covered Software in Executable form under a different license, You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or Contributor. You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer. 3.6. Larger Works. You may create a Larger Work by combining Covered Software with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Software. 4. Versions of the License. 4.1. New Versions. Sun Microsystems, Inc. is the initial license steward and may publish revised and/or new versions of this License from time to time. Each version will be given a distinguishing version number. Except as provided in Section 4.3, no one other than the license steward has the right to modify this License. 4.2. Effect of New |

| | | |
|---|---|---|
| | | Versions. You may always continue to use, distribute or otherwise make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. If the Initial Developer includes a notice in the Original Software prohibiting it from being distributed or otherwise made available under any subsequent version of the License, You must distribute and make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. Otherwise, You may also choose to use, distribute or otherwise make the Covered Software available under the terms of any subsequent version of the License published by the license steward. 4.3. Modified Versions. When You are an Initial Developer and You want to create a new license for Your Original Software, You may create and use a modified version of this License if You: (a) rename the license and remove any references to the name of the license steward (except to note that the license differs from this License); and (b) otherwise make it clear that the license contains terms which differ from this License. 5. DISCLAIMER OF WARRANTY. COVERED SOFTWARE IS PROVIDED UNDER THIS LICENSE ON AN .AS IS. BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED SOFTWARE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED SOFTWARE IS WITH YOU. SHOULD ANY COVERED SOFTWARE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED SOFTWARE IS AUTHORIZED |

| | | |

| | | HEREUNDER EXCEPT UNDER THIS DISCLAIMER. 6. TERMINATION. 6.1. This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive. 6.2. If You assert a patent infringement claim (excluding declaratory judgment actions) against Initial Developer or a Contributor (the Initial Developer or Contributor against whom You assert such claim is referred to as .Participant.) alleging that the Participant Software (meaning the Contributor Version where the Participant is a Contributor or the Original Software where the Participant is the Initial Developer) directly or indirectly infringes any patent, then any and all rights granted directly or indirectly to You by such Participant, the Initial Developer (if the Initial Developer is not the Participant) and all Contributors under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively and automatically at the expiration of such 60 day notice period, unless if within such 60 day period You withdraw Your claim with respect to the Participant Software against such Participant either unilaterally or pursuant to a written agreement with Participant. 6.3. In the event of termination under Sections 6.1 or 6.2 above, all end user licenses that have been validly granted by You or any distributor hereunder prior to termination (excluding licenses granted to You by any distributor) shall survive termination. 7. LIMITATION OF LIABILITY. UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED SOFTWARE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL |

| | | |
|---|---|---|
| | | DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOST PROFITS, LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTY.S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU. 8. U.S. GOVERNMENT END USERS. The Covered Software is a .commercial item,. as that term is defined in 48 C.F.R. 2.101 (Oct. 1995), consisting of .commercial computer software. (as that term is defined at 48 C.F.R. ? 252.227-7014(a)(1)) and commercial computer software documentation. as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Software with only those rights set forth herein. This U.S. Government Rights clause is in lieu of, and supersedes, any other FAR, DFAR, or other clause or provision that addresses Government rights in computer software under this License. 9. MISCELLANEOUS. This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License shall be governed by the law of the jurisdiction specified in a notice contained within the Original Software (except to the extent applicable law, if any, provides otherwise), excluding such jurisdiction's conflict-of-law provisions. Any litigation relating to this |

| | | |
|---|---|---|
| | | License shall be subject to the jurisdiction of the courts located in the jurisdiction and venue specified in a notice contained within the Original Software, with the losing party responsible for costs, including, without limitation, court costs and reasonable attorneys. fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License. You agree that You alone are responsible for compliance with the United States export administration regulations (and the export control laws and regulation of any other countries) when You use, distribute or otherwise make available any Covered Software. 10. RESPONSIBILITY FOR CLAIMS. As between Initial Developer and the Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License and You agree to work with Initial Developer and Contributors to distribute such responsibility on an equitable basis. Nothing herein is intended or shall be deemed to constitute any admission of liability. NOTICE PURSUANT TO SECTION 9 OF THE COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL) The code released under the CDDL shall be governed by the laws of the State of California (excluding conflict-of-law provisions). Any litigation relating to this License shall be subject to the jurisdiction of the Federal Courts of the Northern District of California and the state courts of the State of California, with venue lying in Santa Clara County, California. ------- NOTICE -------- Apache Tomcat Copyright 1999-2025 The Apache Software Foundation This product includes software developed at The Apache Software Foundation (https://www.apache.org/). Grant of Patent License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>(except as stated in this section) patent license to make, have made,<br>use, offer to sell, sell, import, and otherwise transfer the Work,<br>where such license applies only to those patent claims licensable<br>by such Contributor that are necessarily infringed by their<br>Contribution(s) alone or by combination of their Contribution(s)<br>with the Work to which such Contribution(s) was submitted. If You<br>institute patent litigation against any entity (including a<br>cross-claim or counterclaim in a lawsuit) alleging |

| | | |
|---|---|---|
| | | that the Work<br>or a Contribution incorporated within the Work constitutes direct<br>or contributory patent infringement, then any patent licenses<br>granted to You under this License for that Work shall terminate<br>as of the date such litigation is filed.<br><br>4. Redistribution. You may reproduce and distribute copies of the<br>Work or Derivative Works thereof in any medium, with or without<br>modifications, and in Source or Object form, provided that You<br>meet the following conditions:<br><br>(a) You must give any other recipients of the Work or<br>Derivative Works a copy of this License; and<br><br>(b) You must cause any modified files to carry prominent notices<br>stating that You changed the files; and<br><br>(c) You must retain, in the Source form of any Derivative Works<br>that You distribute, all copyright, patent, trademark, and<br>attribution notices from the Source form of the Work,<br>excluding those notices that do not pertain to any part of<br>the Derivative Works; and<br><br>(d) If the Work includes a "NOTICE" text file as part of its<br>distribution, then any Derivative Works that You distribute must<br>include a readable copy of the attribution notices contained<br>within such NOTICE file, excluding those notices that do not<br>pertain to any part of the Derivative Works, in at least one<br>of the following places: within a NOTICE text file distributed<br>as part of the Derivative Works; within the Source form or<br>documentation, if provided along with the Derivative Works; or,<br>within a display generated by the Derivative Works, if and<br>wherever such third-party notices normally appear. You may add Your own attribution<br>notices within Derivative Works that You distribute, alongside<br>or as an addendum to the NOTICE text from the Work, provided<br>that such additional attribution notices cannot be construed<br>as modifying the License.<br><br>You may add Your own copyright statement to Your modifications and<br>may provide additional or different license terms and conditions<br>for use, reproduction, or distribution of Your modifications, or<br>for any such Derivative Works as a whole, provided Your use,<br>reproduction, and distribution of the Work otherwise complies with<br>the conditions stated in this License.<br><br>5. Submission of Contributions. Unless You explicitly state otherwise,<br>any Contribution intentionally submitted for inclusion in the Work<br>by You to the Licensor shall be under the terms and conditions of<br>this License, without any additional terms or conditions.<br>Notwithstanding the above, nothing herein shall supersede or modify<br>the terms of any separate license agreement you may have executed<br>with Licensor regarding such Contributions.<br><br>6. Trademarks. This License does not grant permission to use the trade<br>names, trademarks, service marks, or product names of the Licensor,<br>except as required for reasonable and customary use in describing the<br>origin of the Work and reproducing the content of the NOTICE file.<br><br>7. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.<br><br>8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.<br><br>9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.<br><br>END OF TERMS AND CONDITIONS<br><br>APPENDIX: How to apply the Apache License to |

GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare Derivative Works of, publicly display, publicly |

| | | perform, Distribute and sublicense the Contribution of such Contributor, if any, and such Derivative Works.<br>b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.<br>c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.<br>d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.<br>e) Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3).<br><br>3. REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with a statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and |

| | | |
|---|---|---|
| | | b) the Contributor may Distribute the Program under a license different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;<br>ii) effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;<br>iii) does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and<br>iv) requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section 3.<br><br>3.2 When the Program is Distributed as Source Code:<br><br>a) it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and<br>b) a copy of this Agreement must be included with each copy of the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations of liability ('notices') contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices.<br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the |

| | | extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial product offering, Product X. GENERAL<br><br>If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.<br><br>If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.<br><br>All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. | | | Everyone is permitted to copy and distribute verbatim copies<br>of this license document, but changing it is not allowed.<br><br>Preamble<br><br>The licenses for most software are designed to take away your freedom to<br>share and change it. By contrast, the GNU General Public License is<br>intended to guarantee your freedom to share and change free software--to<br>make sure the software is free for all its users. This General Public<br>License applies to most of the Free Software Foundation's software and<br>to any other program whose authors commit to using it. (Some other Free<br>Software Foundation software is covered by the GNU Library General<br>Public License instead.) You can apply it to your programs, too.<br><br>When we speak of free software, we are referring to freedom, not price.<br>Our General Public Licenses are designed to make sure that you have the<br>freedom to distribute copies of free software (and charge for this<br>service if you wish), that you receive source code or can get it if you<br>want it, that you can change the software or use pieces of it in new<br>free programs; and that you know you can do these things.<br><br>To protect your rights, we need to make restrictions that forbid anyone<br>to deny you these rights or to ask you to surrender the rights. These<br>restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br><br>For example, if you distribute copies of such a program, whether gratis<br>or for a fee, you must give the recipients all the rights that you have.<br>You must make sure that they, too, receive or can get the source code.<br>And you must show them these terms so they know their rights.<br><br>We protect your rights with two steps: (1) copyright |

| | | |
|---|---|---|
| | | the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to make certain<br>that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software patents.<br>We wish to avoid the danger that redistributors of a free program will<br>individually obtain patent licenses, in effect making the program<br>proprietary. To prevent this, we have made it clear that any patent must<br>be licensed for everyone's free use or not licensed at all.<br><br>The precise terms and conditions for copying, distribution and<br>modification follow.<br><br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains a<br>notice placed by the copyright holder saying it may be distributed under<br>the terms of this General Public License. The "Program", below, refers<br>to any such program or work, and a "work based on the Program" means<br>either the Program or any derivative work under copyright law: that is<br>to say, a work containing the Program or a portion of it, either<br>verbatim or with modifications and/or translated into another language.<br>(Hereinafter, translation is included without limitation in the term<br>"modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. |

| | | |
|---|---|---|
| | | The act of running<br>the Program is not restricted, and the output from the Program is<br>covered only if its contents constitute a work based on the Program<br>(independent of having been made by running the Program). Whether that<br>is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's source<br>code as you receive it, in any medium, provided that you conspicuously<br>and appropriately publish on each copy an appropriate copyright notice<br>and disclaimer of warranty; keep intact all the notices that refer to<br>this License and to the absence of any warranty; and give any other<br>recipients of the Program a copy of this License along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Program or any portion of<br>it, thus forming a work based on the Program, and copy and distribute<br>such modifications or work under the terms of Section 1 above, provided<br>that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any part<br>thereof, to be licensed as a whole at no charge to all third parties<br>under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a notice |

| | | |
|---|---|---|
| | | that there is no warranty (or else, saying that you provide a<br>warranty) and that users may redistribute the program under these<br>conditions, and telling the user how to view a copy of this License.<br>(Exception: if the Program itself is interactive but does not<br>normally print such an announcement, your work based on the Program<br>is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program, and<br>can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based on<br>the Program, the distribution of the whole must be on the terms of this<br>License, whose permissions for other licensees extend to the entire<br>whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of a<br>storage or distribution medium does not bring the other work under the<br>scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable |

| | | |
|---|---|---|
| | | source code, which must be distributed under the terms of Sections 1<br>and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your cost<br>of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This alternative is allowed<br>only for noncommercial distribution and only if you received the<br>program in object code or executable form with such an offer, in<br>accord with Subsection b above.)<br><br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source code<br>means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to control<br>compilation and installation of the executable. However, as a special<br>exception, the source code distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major<br>components (compiler, kernel, and so on) of the operating system on<br>which the executable runs, unless that component itself accompanies the<br>executable.<br><br>If distribution of executable or object code is made by offering access<br>to copy from a designated place, then offering equivalent access to copy<br>the source code from the same place counts as distribution of the source<br>code, even though third parties are not compelled to copy the source<br>along with the object code. |

| | | |
|---|---|---|
| | | 4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt otherwise<br>to copy, modify, sublicense or distribute the Program is void, and will<br>automatically terminate your rights under this License. However, parties<br>who have received copies, or rights, from you under this License will<br>not have their licenses terminated so long as such parties remain in<br>full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and all<br>its terms and conditions for copying, distributing or modifying the<br>Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further restrictions<br>on the recipients' exercise of the rights granted herein. You are not<br>responsible for enforcing compliance by third parties to this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot distribute<br>so as to satisfy simultaneously your obligations under this License and |

| | | |
|---|---|---|
| | | any other pertinent obligations, then as a consequence you may not<br>distribute the Program at all. For example, if a patent license would<br>not permit royalty-free redistribution of the Program by all those who<br>receive copies directly or indirectly through you, then the only way you<br>could satisfy both it and this License would be to refrain entirely from<br>distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is implemented<br>by public license practices. Many people have made generous<br>contributions to the wide range of software distributed through that<br>system in reliance on consistent application of that system; it is up to<br>the author/donor to decide if he or she is willing to distribute<br>software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be<br>a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License may<br>add an explicit geographical distribution limitation excluding those<br>countries, so that distribution is permitted only in or among countries<br>not thus excluded. In such case, this License incorporates the<br>limitation as if written in the body of this License. |

| | | |
|---|---|---|
| | | 9. The Free Software Foundation may publish revised and/or new<br>versions of the General Public License from time to time. Such new<br>versions will be similar in spirit to the present version, but may<br>differ in detail to address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and<br>conditions either of that version or of any later version published by<br>the Free Software Foundation. If the Program does not specify a version<br>number of this License, you may choose any version ever published by the<br>Free Software Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the<br>author to ask for permission. For software which is copyrighted by the<br>Free Software Foundation, write to the Free Software Foundation; we<br>sometimes make exceptions for this. Our decision will be guided by the<br>two goals of preserving the free status of all derivatives of our free<br>software and of promoting the sharing and reuse of software generally.<br><br>NO WARRANTY<br><br>11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO<br>WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.<br>EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR<br>OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND,<br>EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED<br>WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. "Larger Work"<br>means a work that combines Covered Software with other material, in<br>a separate file or files, that is not Covered Software.<br><br>1.8. "License"<br>means this document.<br><br>1.9. "Licensable"<br>means having the right to grant, to the maximum extent possible,<br>whether at the time of the initial grant or subsequently, any and<br>all of the rights conveyed by this License.<br><br>1.10. "Modifications"<br>means any of the following:<br><br>(a) any file in Source Code Form that results from an addition to,<br>deletion from, or modification of the contents of Covered<br>Software; or<br><br>(b) any new file in Source Code Form that contains any Covered<br>Software.<br><br>1.11. "Patent Claims" of a Contributor<br>means any patent claim(s), including without limitation, method,<br>process, and apparatus claims, in any patent Licensable by such<br>Contributor that would be infringed, but for the grant of the<br>License, by the making, using, selling, offering for sale, having<br>made, import, or transfer of either its Contributions or its<br>Contributor Version. |

"Source Code Form"<br>means the form of the work preferred for making modifications.<br><br>1.14. "You" (or "Your")<br>means an individual or a legal entity exercising rights under this<br>License. For legal entities, "You" includes any entity that<br>controls, is controlled by, or is under common control with You. For<br>purposes of this definition, "control" means (a) the power, direct<br>or indirect, to cause the direction or management of such entity,<br>whether by contract or otherwise, or (b) ownership of more than<br>fifty percent (50%) of the outstanding shares or beneficial<br>ownership of such entity.<br><br>2. Distribution of Source Form<br><br>All distribution of Covered Software in Source Code Form, including any<br>Modifications that You create or to which You contribute, must be under<br>the terms of this License. You must inform recipients that the Source<br>Code Form of the Covered Software is governed by the terms of this<br>License, and how they can obtain a copy of this License. You may not<br>attempt to alter or restrict the recipients' rights in the Source Code<br>Form.<br><br>3.2. Distribution of Executable Form<br><br>If You distribute Covered Software in Executable Form then:<br><br>(a) such Covered Software must also be made available in Source Code<br>Form, as described in Section 3.1, and You must inform recipients of<br>the Executable Form how they can obtain a copy of such Source Code<br>Form by reasonable means in a timely manner, at a charge no more<br>than the cost of distribution to the recipient; and<br><br>(b) You may distribute such Executable Form under the terms of this<br>License, or sublicense it under different terms, |

Distribution of a Larger Work<br><br>You may create and distribute a Larger Work under terms of Your choice,<br>provided that You also comply with the requirements of this License for<br>the Covered Software. If the Larger Work is a combination of Covered<br>Software with a work governed by one or more Secondary Licenses, and the<br>Covered Software is not Incompatible With Secondary Licenses, this<br>License permits You to additionally distribute such Covered Software<br>under the terms of such Secondary License(s), so that the recipient of<br>the Larger Work may, at their option, further distribute the Covered<br>Software under the terms of either this License or such Secondary<br>License(s).<br><br>3.4. Notices<br><br>You may not remove or alter the substance of any license notices<br>(including copyright notices, patent notices, disclaimers of warranty,<br>or limitations of liability) contained within the Source Code Form of<br>the Covered Software, except that You may alter any license notices to<br>the extent required to remedy known factual inaccuracies.<br><br>3.5. Application of Additional Terms<br><br>You may choose to offer, and to charge a fee for, warranty, support,<br>indemnity or liability obligations to one or more recipients of Covered<br>Software. However, You may do so only on Your own behalf, and not on<br>behalf of any Contributor. You must make it absolutely clear that any<br>such warranty, support, indemnity, or liability obligation is offered by<br>You alone, and You hereby agree to indemnify every Contributor for any<br>liability incurred by such Contributor as a result of |

Inability to Comply Due to Statute or Regulation<br>---<br><br>If it is impossible for You to comply with any of the terms of this<br>License with respect to some or all of the Covered Software due to<br>statute, judicial order, or regulation then You must: (a) comply with<br>the terms of this License to the maximum extent possible; and (b)<br>describe the limitations and the code they affect. Such description must<br>be placed in a text file included with all distributions of the Covered<br>Software under this License. Except to the extent prohibited by statute<br>or regulation, such description must be sufficiently detailed for a<br>recipient of ordinary skill to be able to understand it.<br><br>5. Termination<br>---<br><br>5.1. The rights granted under this License will terminate automatically<br>if You fail to comply with any of its terms. However, if You become<br>compliant, then the rights granted under this License from a particular<br>Contributor are reinstated (a) provisionally, unless and until such<br>Contributor explicitly and finally terminates Your grants, and (b) on an<br>ongoing basis, if such Contributor fails to notify You of the<br>non-compliance by some reasonable means prior to 60 days after You have<br>come back into compliance. Moreover, Your grants from a particular<br>Contributor are reinstated on an ongoing basis if such Contributor<br>notifies You of the non-compliance by some reasonable means, this is the<br>first time You have received notice of non-compliance with this License<br>from such Contributor, and You become compliant prior to 30 days after<br>Your receipt of the notice. |

The patent license<br>shall not apply to any<br>other combinations which include the Contribution. No<br>hardware per se is<br>licensed hereunder.<br><br>c) Recipient understands that although each<br>Contributor grants the<br>licenses to its Contributions set forth herein, no<br>assurances are provided by<br>any Contributor that the Program does not infringe the<br>patent or other<br>intellectual property rights of any other entity. Each<br>Contributor disclaims<br>any liability to Recipient for claims brought by any<br>other entity based on<br>infringement of intellectual property rights or otherwise.<br>As a condition to<br>exercising the rights and licenses granted hereunder,<br>each Recipient hereby<br>assumes sole responsibility to secure any other<br>intellectual property rights<br>needed, if any. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities with<br>respect to end users, business partners and the like. While this license is<br>intended to facilitate the commercial use of the Program, the Contributor who<br>includes the Program in a commercial product offering should do so in a manner<br>which does not create potential liability for other Contributors. Therefore, if<br>a Contributor includes the Program in a commercial product offering, such<br>Contributor ("Commercial Contributor") hereby agrees to defend and indemnify |

|---|---|---|
| | | every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.<br><br>5. By contrast, the GNU General Public<br>Licenses are intended to guarantee your freedom to share and change<br>free software--to make sure the software is free for all its users.<br><br>This license, the Lesser General Public License, applies to some<br>specially designated software packages--typically libraries--of the<br>Free Software Foundation and other authors who decide to use it. You<br>can use it too, but we suggest you first think carefully about whether<br>this license or the ordinary General Public License is the better<br>strategy to use in any particular case, based on the explanations below.<br><br>When we speak of free software, we are referring to freedom of use,<br>not price. Our General Public Licenses are designed to make sure that<br>you have the freedom to distribute copies of free software (and charge<br>for this service if you wish); that you receive source code or can get<br>it if you want it; that you can change the software and use pieces of<br>it in new free programs; and that you are informed that you can do<br>these things. |

| | | |
|---|---|---|
| | | To protect your rights, we need to make restrictions that forbid<br>distributors to deny you these rights or to ask you to surrender these<br>rights. These restrictions translate to certain responsibilities for<br>you if you distribute copies of the library or if you modify it.<br><br>For example, if you distribute copies of the library, whether gratis<br>or for a fee, you must give the recipients all the rights that we gave<br>you. You must make sure that they, too, receive or can get the source<br>code. If you link other code with the library, you must provide<br>complete object files to the recipients, so that they can relink them<br>with the library after making changes to the library and recompiling<br>it. And you must show them these terms so they know their rights.<br><br>We protect your rights with a two-step method: (1) we copyright the<br>library, and (2) we offer you this license, which gives you legal<br>permission to copy, distribute and/or modify the library.<br><br>To protect each distributor, we want to make it very clear that<br>there is no warranty for the free library. Also, if the library is<br>modified by someone else and passed on, the recipients should know<br>that what they have is not the original version, so that the original<br>author's reputation will not be affected by problems that might be<br>introduced by others.<br><br>Finally, software patents pose a constant threat to the existence of<br>any free program. We wish to make sure that a company cannot<br>effectively restrict the users of a free program by obtaining a<br>restrictive license from a patent holder. Therefore, we insist that<br>any patent license obtained for a version of the library must be<br>consistent with the full freedom of use specified in this license.<br><br>Most GNU software, including some libraries, is |

| | | |
|---|---|---|
| | | covered by the<br>ordinary GNU General Public License. This license, the GNU Lesser<br>General Public License, applies to certain designated libraries, and<br>is quite different from the ordinary General Public License. We use<br>this license for certain libraries in order to permit linking those<br>libraries into non-free programs.<br><br>When a program is linked with a library, whether statically or using<br>a shared library, the combination of the two is legally speaking a<br>combined work, a derivative of the original library. The ordinary<br>General Public License therefore permits such linking only if the<br>entire combination fits its criteria of freedom. The Lesser General<br>Public License permits more lax criteria for linking other code with<br>the library.<br><br>We call this license the "Lesser" General Public License because it<br>does Less to protect the user's freedom than the ordinary General<br>Public License. It also provides other free software developers Less<br>of an advantage over competing non-free programs. These disadvantages<br>are the reason we use the ordinary General Public License for many<br>libraries. However, the Lesser license provides advantages in certain<br>special circumstances.<br><br>For example, on rare occasions, there may be a special need to<br>encourage the widest possible use of a certain library, so that it becomes<br>a de-facto standard. To achieve this, non-free programs must be<br>allowed to use the library. A more frequent case is that a free<br>library does the same job as widely used non-free libraries. In this<br>case, there is little to gain by limiting the free library to free<br>software only, so we use the Lesser General Public License.<br><br>In other cases, permission to use a particular library in non-free |

| | | |
|---|---|---|
| | | programs enables a greater number of people to use a large body of<br>free software. For example, permission to use the GNU C Library in<br>non-free programs enables many more people to use the whole GNU<br>operating system, as well as its variant, the GNU/Linux operating<br>system.<br><br>Although the Lesser General Public License is Less protective of the<br>users' freedom, it does ensure that the user of a program that is<br>linked with the Library has the freedom and the wherewithal to run<br>that program using a modified version of the Library.<br><br>The precise terms and conditions for copying, distribution and<br>modification follow. Pay close attention to the difference between a<br>"work based on the library" and a "work that uses the library". The<br>former contains code derived from the library, whereas the latter must<br>be combined with the library in order to run.<br><br>GNU LESSER GENERAL PUBLIC LICENSE<br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License Agreement applies to any software library or other<br>program which contains a notice placed by the copyright holder or<br>other authorized party saying it may be distributed under the terms of<br>this Lesser General Public License (also called "this License").<br>Each licensee is addressed as "you".<br><br>A "library" means a collection of software functions and/or data<br>prepared so as to be conveniently linked with application programs<br>(which use some of those functions and data) to form executables.<br><br>The "Library", below, refers to any such software library or work<br>which has been distributed under these terms. A "work based on the<br>Library" means either the Library or any derivative work under |

| | | |
|---|---|---|
| | | copyright law: that is to say, a work containing the Library or a<br>portion of it, either verbatim or with modifications and/or translated<br>straightforwardly into another language. (Hereinafter, translation is<br>included without limitation in the term "modification".)<br><br>"Source code" for a work means the preferred form of the work for<br>making modifications to it. For a library, complete source code means<br>all the source code for all modules it contains, plus any associated<br>interface definition files, plus the scripts used to control compilation<br>and installation of the library.<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of<br>running a program using the Library is not restricted, and output from<br>such a program is covered only if its contents constitute a work based<br>on the Library (independent of the use of the Library in a tool for<br>writing it). Whether that is true depends on what the Library does<br>and what the program that uses the Library does.<br><br>1. You may copy and distribute verbatim copies of the Library's<br>complete source code as you receive it, in any medium, provided that<br>you conspicuously and appropriately publish on each copy an<br>appropriate copyright notice and disclaimer of warranty; keep intact<br>all the notices that refer to this License and to the absence of any<br>warranty; and distribute a copy of this License along with the<br>Library.<br><br>You may charge a fee for the physical act of transferring a copy,<br>and you may at your option offer warranty protection in exchange for a<br>fee.<br><br>2. You may modify your copy or copies of the Library or any portion<br>of it, thus forming a work based on the Library, and copy and |

| | | |
|---|---|---|
| | | distribute such modifications or work under the terms of Section 1<br>above, provided that you also meet all of these conditions:<br><br>a) The modified work must itself be a software library.<br><br>b) You must cause the files modified to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>c) You must cause the whole of the work to be licensed at no<br>charge to all third parties under the terms of this License.<br><br>d) If a facility in the modified Library refers to a function or a<br>table of data to be supplied by an application program that uses<br>the facility, other than as an argument passed when the facility<br>is invoked, then you must make a good faith effort to ensure that,<br>in the event an application does not supply such function or<br>table, the facility still operates, and performs whatever part of<br>its purpose remains meaningful.<br><br>(For example, a function in a library to compute square roots has<br>a purpose that is entirely well-defined independent of the<br>application. Therefore, Subsection 2d requires that any<br>application-supplied function or table used by this function must<br>be optional: if the application does not supply it, the square<br>root function must still compute square roots.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Library,<br>and can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based |

| | | |
|---|---|---|
| | | on the Library, the distribution of the whole must be on the terms of<br>this License, whose permissions for other licensees extend to the<br>entire whole, and thus to each and every part regardless of who wrote<br>it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Library.<br><br>In addition, mere aggregation of another work not based on the Library<br>with the Library (or with a work based on the Library) on a volume of<br>a storage or distribution medium does not bring the other work under<br>the scope of this License.<br><br>3. You may opt to apply the terms of the ordinary GNU General Public<br>License instead of this License to a given copy of the Library. To do<br>this, you must alter all the notices that refer to this License, so<br>that they refer to the ordinary GNU General Public License, version 2,<br>instead of to this License. (If a newer version than version 2 of the<br>ordinary GNU General Public License has appeared, then you can specify<br>that version instead if you wish.) Do not make any other change in<br>these notices.<br><br>Once this change is made in a given copy, it is irreversible for<br>that copy, so the ordinary GNU General Public License applies to all<br>subsequent copies and derivative works made from that copy.<br><br>This option is useful when you wish to copy part of the code of<br>the Library into a program that is not a library.<br><br>4. You may copy and distribute the Library (or a portion or<br>derivative of it, under Section 2) in object code or executable form<br>under the terms of Sections 1 and 2 above provided |

| | | |
|---|---|---|
| | | that you accompany<br>it with the complete corresponding machine-readable source code, which<br>must be distributed under the terms of Sections 1 and 2 above on a<br>medium customarily used for software interchange.<br><br>If distribution of object code is made by offering access to copy<br>from a designated place, then offering equivalent access to copy the<br>source code from the same place satisfies the requirement to<br>distribute the source code, even though third parties are not<br>compelled to copy the source along with the object code.<br><br>5. A program that contains no derivative of any portion of the<br>Library, but is designed to work with the Library by being compiled or<br>linked with it, is called a "work that uses the Library". Such a<br>work, in isolation, is not a derivative work of the Library, and<br>therefore falls outside the scope of this License.<br><br>However, linking a "work that uses the Library" with the Library<br>creates an executable that is a derivative of the Library (because it<br>contains portions of the Library), rather than a "work that uses the<br>library". The executable is therefore covered by this License.<br>Section 6 states terms for distribution of such executables.<br><br>When a "work that uses the Library" uses material from a header file<br>that is part of the Library, the object code for the work may be a<br>derivative work of the Library even though the source code is not.<br>Whether this is true is especially significant if the work can be<br>linked without the Library, or if the work is itself a library. The<br>threshold for this to be true is not precisely defined by law.<br><br>If such an object file uses only numerical parameters, data<br>structure layouts and accessors, and small macros and small inline |

| | | |
|---|---|---|
| | | functions (ten lines or less in length), then the use of the object<br>file is unrestricted, regardless of whether it is legally a derivative<br>work. (Executables containing this object code plus portions of the<br>Library will still fall under Section 6.)<br><br>Otherwise, if the work is a derivative of the Library, you may<br>distribute the object code for the work under the terms of Section 6.<br>Any executables containing that work also fall under Section 6,<br>whether or not they are linked directly with the Library itself.<br><br>6. As an exception to the Sections above, you may also combine or<br>link a "work that uses the Library" with the Library to produce a<br>work containing portions of the Library, and distribute that work<br>under terms of your choice, provided that the terms permit<br>modification of the work for the customer's own use and reverse<br>engineering for debugging such modifications.<br><br>You must give prominent notice with each copy of the work that the<br>Library is used in it and that the Library and its use are covered by<br>this License. You must supply a copy of this License. If the work<br>during execution displays copyright notices, you must include the<br>copyright notice for the Library among them, as well as a reference<br>directing the user to the copy of this License. Also, you must do one<br>of these things:<br><br>a) Accompany the work with the complete corresponding<br>machine-readable source code for the Library including whatever<br>changes were used in the work (which must be distributed under<br>Sections 1 and 2 above); and, if the work is an executable linked<br>with the Library, with the complete machine-readable "work that<br>uses the Library", as object code and/or source code, so that the<br>user can modify the Library and then relink to |

| | | |
|---|---|---|
| | | produce a modified<br>executable containing the modified Library. (It is understood<br>that the user who changes the contents of definitions files in the<br>Library will not necessarily be able to recompile the application<br>to use the modified definitions.)<br><br>b) Use a suitable shared library mechanism for linking with the<br>Library. A suitable mechanism is one that (1) uses at run time a<br>copy of the library already present on the user's computer system,<br>rather than copying library functions into the executable, and (2)<br>will operate properly with a modified version of the library, if<br>the user installs one, as long as the modified version is<br>interface-compatible with the version that the work was made with.<br><br>c) Accompany the work with a written offer, valid for at<br>least three years, to give the same user the materials<br>specified in Subsection 6a, above, for a charge no more<br>than the cost of performing this distribution.<br><br>d) If distribution of the work is made by offering access to copy<br>from a designated place, offer equivalent access to copy the above<br>specified materials from the same place.<br><br>e) Verify that the user has already received a copy of these<br>materials or that you have already sent this user a copy.<br><br>For an executable, the required form of the "work that uses the<br>Library" must include any data and utility programs needed for<br>reproducing the executable from it. However, as a special exception,<br>the materials to be distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major<br>components (compiler, kernel, and so on) of the operating system on<br>which the executable runs, unless that component |

| | | |
|---|---|---|
| | | itself accompanies<br>the executable.<br><br>It may happen that this requirement contradicts the license<br>restrictions of other proprietary libraries that do not normally<br>accompany the operating system. Such a contradiction means you cannot<br>use both them and the Library together in an executable that you<br>distribute.<br><br>7. You may place library facilities that are a work based on the<br>Library side-by-side in a single library together with other library<br>facilities not covered by this License, and distribute such a combined<br>library, provided that the separate distribution of the work based on<br>the Library and of the other library facilities is otherwise<br>permitted, and provided that you do these two things:<br><br>a) Accompany the combined library with a copy of the same work<br>based on the Library, uncombined with any other library<br>facilities. This must be distributed under the terms of the<br>Sections above.<br><br>b) Give prominent notice with the combined library of the fact<br>that part of it is a work based on the Library, and explaining<br>where to find the accompanying uncombined form of the same work.<br><br>8. You may not copy, modify, sublicense, link with, or distribute<br>the Library except as expressly provided under this License. Any<br>attempt otherwise to copy, modify, sublicense, link with, or<br>distribute the Library is void, and will automatically terminate your<br>rights under this License. However, parties who have received copies,<br>or rights, from you under this License will not have their licenses<br>terminated so long as such parties remain in full compliance.<br><br>9. You are not required to accept this License, since you have not |

| | | |
|---|---|---|
| | | signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.<br><br>10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.<br><br>11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.<br><br>If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, |

| | | and the section as a whole is intended to apply in other circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system which is<br>implemented by public license practices. Many people have made<br>generous contributions to the wide range of software distributed<br>through that system in reliance on consistent application of that<br>system; it is up to the author/donor to decide if he or she is willing<br>to distribute software through any other system and a licensee cannot<br>impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to<br>be a consequence of the rest of this License.<br><br>12. If the distribution and/or use of the Library is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Library under this License may add<br>an explicit geographical distribution limitation excluding those countries,<br>so that distribution is permitted only in or among countries not thus<br>excluded. In such case, this License incorporates the limitation as if<br>written in the body of this License.<br><br>13. ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.<br><br>1. DEFINITIONS<br><br>"Contribution" means:<br><br>a) in the case of the initial Contributor, the initial code and documentation distributed under this Agreement, and<br><br>b) in the case of each subsequent Contributor:<br><br>i) changes to the Program, and<br><br>ii) additions to the Program;<br><br>where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution 'originates' from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are not derivative works of the Program.<br><br>"Contributor" means any person or entity that distributes the Program. |

| | | |
|---|---|---|
| | | "Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.<br><br>"Program" means the Contributions distributed in accordance with this Agreement.<br><br>"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.<br><br>2. GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.<br><br>c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.<br><br>d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this |

| | | |
|---|---|---|
| | | Agreement.<br><br>3. REQUIREMENTS<br><br>A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that:<br><br>a) it complies with the terms and conditions of this Agreement; and<br><br>b) its license agreement:<br><br>i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;<br><br>ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;<br><br>iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and<br><br>iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange.<br><br>When the Program is made available in source code form:<br><br>a) it must be made available under this Agreement; and<br><br>b) a copy of this Agreement must be included with each copy of the Program.<br><br>Contributors may not remove or alter any copyright notices contained within the Program.<br><br>Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the |

| | | |
|---|---|---|
| | | Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.<br><br>5. NO WARRANTY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement , including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations. |

GENERAL<br><br>If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.<br><br>If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.<br><br>All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.<br><br>Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved.<br><br>This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation. |

Definitions.<br><br>"License" shall mean the terms and conditions for use, reproduction,<br>and distribution as defined by Sections 1 through 9 of this document.<br><br>"Licensor" shall mean the copyright owner or entity authorized by<br>the copyright owner that is granting the License.<br><br>"Legal Entity" shall mean the union of the acting entity and all<br>other entities that control, are controlled by, or are under common<br>control with that entity. For the purposes of this definition,<br>"control" means (i) the power, direct or indirect, to cause the<br>direction or management of such entity, whether by contract or<br>otherwise, or (ii) ownership of fifty percent (50%) or more of the<br>outstanding shares, or (iii) beneficial ownership of such entity.<br><br>"You" (or "Your") shall mean an individual or Legal Entity<br>exercising permissions granted by this License.<br><br>"Source" form shall mean the preferred form for making modifications,<br>including but not limited to software source code, documentation<br>source, and configuration files.<br><br>"Object" form shall mean any form resulting from mechanical<br>transformation or translation of a Source form, including but<br>not limited to compiled object code, generated documentation,<br>and conversions to other media types. |

| | | |
|---|---|---|
| | | "Work" shall mean the work of authorship, whether in Source or<br>Object form, made available under the License, as indicated by a<br>copyright notice that is included in or attached to the work<br>(an example is provided in the Appendix below).<br><br>"Derivative Works" shall mean any work, whether in Source or Object<br>form, that is based on (or derived from) the Work and for which the<br>editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of authorship. For the purposes<br>of this License, Derivative Works shall not include works that remain<br>separable from, or merely link (or bind by name) to the interfaces of,<br>the Work and Derivative Works thereof.<br><br>"Contribution" shall mean any work of authorship, including<br>the original version of the Work and any modifications or additions<br>to that Work or Derivative Works thereof, that is intentionally<br>submitted to Licensor for inclusion in the Work by the copyright owner<br>or by an individual or Legal Entity authorized to submit on behalf of<br>the copyright owner. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.<br>"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."<br>"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.<br>2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.<br>3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or |

| | | by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.<br>4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:<br>You must give any other recipients of the Work or Derivative Works a copy of this License; and<br>You must cause any modified files to carry prominent notices stating that You changed the files; and<br>You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and<br>If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.<br><br>You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.<br>5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate |

This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.<br>7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.<br>9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.<br>END OF TERMS AND CONDITIONS<br><br>APPENDIX: How to apply the Apache License to your work.<br><br>To apply the Apache License to your work, attach the following<br>boilerplate notice, with the fields enclosed by brackets "[]" |

Definitions.<br><br>"License" shall mean the terms and conditions for use, reproduction,<br>and distribution as defined by Sections 1 through 9 of this document.<br><br>"Licensor" shall mean the copyright owner or entity authorized by<br>the copyright owner that is granting the License.<br><br>"Legal Entity" shall mean the union of the acting entity and all<br>other entities that control, are controlled by, or are under common<br>control with that entity. For the purposes of this definition,<br>"control" means (i) the power, direct or indirect, to cause the<br>direction or management of such entity, whether by contract or<br>otherwise, or (ii) ownership of fifty percent (50%) or more of the<br>outstanding shares, or (iii) beneficial ownership of such entity.<br><br>"You" (or "Your") shall mean an individual or Legal Entity<br>exercising permissions granted by this License.<br><br>"Source" form shall mean the preferred form for making modifications,<br>including but not limited to software source code, documentation<br>source, and configuration files.<br><br>"Object" form shall mean any form resulting from mechanical<br>transformation or translation of a Source form, including but<br>not limited to compiled object code, generated documentation,<br>and conversions to other media types.<br><br>"Work" shall mean the work of authorship, whether in Source or<br>Object form, made available under the License, as indicated by a<br>copyright notice that is included in or attached to the work |

| | | |
|---|---|---|
| | | (an example is provided in the Appendix below).<br><br>"Derivative Works" shall mean any work, whether in Source or Object<br>form, that is based on (or derived from) the Work and for which the<br>editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of authorship. For the purposes<br>of this License, Derivative Works shall not include works that remain<br>separable from, or merely link (or bind by name) to the interfaces of,<br>the Work and Derivative Works thereof.<br><br>"Contribution" shall mean any work of authorship, including<br>the original version of the Work and any modifications or additions<br>to that Work or Derivative Works thereof, that is intentionally<br>submitted to Licensor for inclusion in the Work by the copyright owner<br>or by an individual or Legal Entity authorized to submit on behalf of<br>the copyright owner. For the purposes of this definition, "submitted"<br>means any form of electronic, verbal, or written communication sent<br>to the Licensor or its representatives, including but not limited to<br>communication on electronic mailing lists, source code control systems,<br>and issue tracking systems that are managed by, or on behalf of, the<br>Licensor for the purpose of discussing and improving the Work, but<br>excluding communication that is conspicuously marked or otherwise<br>designated in writing by the copyright owner as "Not a Contribution."<br><br>"Contributor" shall mean Licensor and any individual or Legal Entity<br>on behalf of whom a Contribution has been received by Licensor and<br>subsequently incorporated within the Work.<br><br>2. Grant of Copyright License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>copyright license to reproduce, prepare Derivative |

If You<br>institute patent litigation against any entity (including a<br>cross-claim or counterclaim in a lawsuit) alleging that the Work<br>or a Contribution incorporated within the Work constitutes direct<br>or contributory patent infringement, then any patent licenses<br>granted to You under this License for that Work shall terminate<br>as of the date such litigation is filed.<br><br>4. | | | owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."<br>"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.<br>2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.<br>3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.<br>4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:<br>You must give any other recipients of the Work or Derivative Works a copy of this License; and<br>You must cause any modified files to carry prominent notices stating that You changed the files; and<br>You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and |

| | | |
|---|---|---|
| | | If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.<br><br>You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.<br>5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.<br>6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.<br>7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.<br>8. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.<br>END OF TERMS AND CONDITIONS<br><br>APPENDIX: How to apply the Apache License to your work.<br><br>To apply the Apache License to your work, attach the following<br>boilerplate notice, with the fields enclosed by brackets "[]"<br>replaced with your own identifying information. | | | |
|---|---|---|
| | | These license terms are an agreement between you and Microsoft Corporation (or one of its affiliates). They apply to the software named above and any Microsoft services or software updates (except to the extent such services or updates are accompanied by new or additional terms, in which case those different terms apply prospectively and do not alter your or Microsoft's rights relating to pre-updated software or services). IF YOU COMPLY WITH THESE LICENSE TERMS, YOU HAVE THE RIGHTS BELOW. BY USING THE SOFTWARE, YOU ACCEPT THESE TERMS.<br>1. INSTALLATION AND USE RIGHTS.<br>a) General. You may install and use any number of copies of the software to develop and test your applications.<br>b) Third Party Software. The software may include third party applications that Microsoft, not the third party, licenses to you under this agreement. Any included notices for third party applications are for your information only.<br>2. DISTRIBUTABLE CODE. The software may contain code you are permitted to distribute (i.e. make available for third parties) in applications you develop, as described in this Section.<br>a) Distribution Rights. The code and test files described below are distributable if included with the software.<br>i. REDIST.TXT Files. You may copy and distribute the object code form of code listed on the REDIST list in the software, if any, or listed at REDIST (https://aka.ms/jdbceularedist);<br>ii. Image Library. You may copy and distribute images, graphics, and animations in the Image Library as described in the software documentation;<br>iii. Sample Code, Templates, and Styles. You may copy, modify, and distribute the source and object code form of code marked as "sample", "template", "simple styles", and "sketch styles"; and<br>iv. Third Party Distribution. You may permit distributors of your applications to copy and distribute any of this distributable code you elect to distribute with your applications.<br>b) Distribution Requirements. For any code you distribute, you must:<br>i. add significant primary functionality to it in your applications;<br>ii. require distributors and external end users to agree to terms that protect it and Microsoft at least as much as this agreement; and<br>iii. indemnify, defend, and hold harmless Microsoft from any claims, including attorneys' fees, related to the distribution or use of your applications, except to the extent that any claim is based solely on the unmodified distributable code. |

| | | |
|---|---|---|
| | | c) Distribution Restrictions. You may not:<br>i. use Microsoft's trademarks or trade dress in your application in any way that suggests your application comes from or is endorsed by Microsoft; or<br>ii. modify or distribute the source code of any distributable code so that any part of it becomes subject to any license that requires that the distributable code, any other part of the software, or any of Microsoft's other intellectual property be disclosed or distributed in source code form, or that others have the right to modify it.<br>3. DATA COLLECTION. Some features in the software may enable collection of data from users of your applications that access or use the software. If you use these features to enable data collection in your applications, you must comply with applicable law, including getting any required user consent, and maintain a prominent privacy policy that accurately informs users about how you use, collect, and share their data. You agree to comply with all applicable provisions of the Microsoft Privacy Statement at [https://go.microsoft.com/fwlink/?LinkId=521839].<br>4. SCOPE OF LICENSE. The software is licensed, not sold. Microsoft reserves all other rights. Unless applicable law gives you more rights despite this limitation, you will not (and have no right to):<br>a) work around any technical limitations in the software that only allow you to use it in certain ways;<br>b) reverse engineer, decompile or disassemble the software;<br>c) remove, minimize, block, or modify any notices of Microsoft or its suppliers in the software;<br>d) use the software in any way that is against the law or to create or propagate malware; or<br>e) share, publish, distribute, or lend the software (except for any distributable code, subject to the terms above), provide the software as a stand-alone hosted solution for others to use, or transfer the software or this agreement to any third party.<br>5. EXPORT RESTRICTIONS. You must comply with all domestic and international export laws and regulations that apply to the software, which include restrictions on destinations, end users, and end use. For further information on export restrictions, visit http://aka.ms/exporting.<br>6. SUPPORT SERVICES. Microsoft is not obligated under this agreement to provide any support services for the software. Any support provided is "as is", "with all faults", and without warranty of any kind.<br>7. UPDATES. The software may periodically check for updates, and download and install them for you. You may obtain updates only from Microsoft or authorized sources. Microsoft may need to update your system to provide you with updates. You agree to receive these automatic updates without any additional notice. Updates may not include or support all existing |

This agreement, and any other terms Microsoft may provide for supplements, updates, or third-party applications, is the entire agreement for the software.<br>9. APPLICABLE LAW AND PLACE TO RESOLVE DISPUTES. If you acquired the software in the United States or Canada, the laws of the state or province where you live (or, if a business, where your principal place of business is located) govern the interpretation of this agreement, claims for its breach, and all other claims (including consumer protection, unfair competition, and tort claims), regardless of conflict of laws principles. If you acquired the software in any other country, its laws apply. If U.S. federal jurisdiction exists, you and Microsoft consent to exclusive jurisdiction and venue in the federal court in King County, Washington for all disputes heard in court. If not, you and Microsoft consent to exclusive jurisdiction and venue in the Superior Court of King County, Washington for all disputes heard in court.<br>10. CONSUMER RIGHTS; REGIONAL VARIATIONS. This agreement describes certain legal rights. You may have other rights, including consumer rights, under the laws of your state or country. Separate and apart from your relationship with Microsoft, you may also have rights with respect to the party from which you acquired the software. This agreement does not change those other rights if the laws of your state or country do not permit it to do so. For example, if you acquired the software in one of the below regions, or mandatory country law applies, then the following provisions apply to you:<br>a) Australia. You have statutory guarantees under the Australian Consumer Law and nothing in this agreement is intended to affect those rights.<br>b) Canada. If you acquired this software in Canada, you may stop receiving updates by turning off the automatic update feature, disconnecting your device from the Internet (if and when you re-connect to the Internet, however, the software will resume checking for and installing updates), or uninstalling the software. The product documentation, if any, may also specify how to turn off updates for your specific device or software.<br>c) Germany and Austria.<br>i. Warranty. The properly licensed software will perform substantially as described in any Microsoft materials that accompany the software. However, Microsoft gives no contractual guarantee in relation to the licensed software.<br>ii. Limitation of Liability. In case of intentional conduct, gross negligence, claims based on the Product Liability Act, as well as, in case of death or personal or physical injury, Microsoft is liable according to the statutory law. |

| | | |
|---|---|---|
| | | Subject to the foregoing clause ii., Microsoft will only be liable for slight negligence if Microsoft is in breach of such material contractual obligations, the fulfillment of which facilitate the due performance of this agreement, the breach of which would endanger the purpose of this agreement and the compliance with which a party may constantly trust in (so-called "cardinal obligations"). In other cases of slight negligence, Microsoft will not be liable for slight negligence.<br>11. DISCLAIMER OF WARRANTY. THE SOFTWARE IS LICENSED “AS IS.” YOU BEAR THE RISK OF USING IT. MICROSOFT GIVES NO EXPRESS WARRANTIES, GUARANTEES, OR CONDITIONS. | | | REPRODUCTION, AND DISTRIBUTION<br>1. Definitions.<br>"License" shall mean the terms and conditions for use, reproduction,<br>and distribution as defined by Sections 1 through 9 of this document.<br>"Licensor" shall mean the copyright owner or entity authorized by<br>the copyright owner that is granting the License.<br>"Legal Entity" shall mean the union of the acting entity and all<br>other entities that control, are controlled by, or are under common<br>control with that entity. For the purposes of this definition,<br>"control" means (i) the power, direct or indirect, to cause the<br>direction or management of such entity, whether by contract or<br>otherwise, or (ii) ownership of fifty percent (50%) or more of the<br>outstanding shares, or (iii) beneficial ownership of such entity.<br>"You" (or "Your") shall mean an individual or Legal Entity<br>exercising permissions granted by this License.<br>"Source" form shall mean the preferred form for making modifications,<br>including but not limited to software source code, documentation<br>source, and configuration files.<br>"Object" form shall mean any form resulting from mechanical<br>transformation or translation of a Source form, including but<br>not limited to compiled object code, generated documentation,<br>and conversions to other media types.<br>"Work" shall mean the work of authorship, whether in Source or<br>Object form, made available under the License, as indicated by a<br>copyright notice that is included in or attached to the work<br>(an example is provided in the Appendix below).<br>"Derivative Works" shall mean any work, whether in Source or Object<br>form, that is based on (or derived from) the Work and for which the<br>editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of authorship. For the purposes<br>of this License, Derivative Works shall not include works that remain<br>separable from, or merely link (or bind by name) to |

Submission of Contributions. Unless You explicitly state otherwise,<br>any Contribution intentionally submitted for inclusion in the Work<br>by You to the Licensor shall be under the terms and conditions of<br>this License, without any additional terms or conditions.<br>Notwithstanding the above, nothing herein shall supersede or modify<br>the terms of any separate license agreement you may have executed<br>with Licensor regarding such Contributions.<br>6. Trademarks. This License does not grant permission to use the trade<br>names, trademarks, service marks, or product names of the Licensor,<br>except as required for reasonable and customary use in describing the<br>origin of the Work and reproducing the content of the NOTICE file.<br>7. It is a class library for editing bytecodes in Java; it enables Java programs to define a new class at runtime and to modify a class file when the JVM loads it. Unlike other similar bytecode editors, Javassist provides two levels of API: source level and bytecode level. If the users use the source- level API, they can edit a class file without knowledge of the specifications of the Java bytecode. The whole API is designed with only the vocabulary of the Java language. You can even specify inserted bytecode in the form of source text; Javassist compiles it on the fly. On the other hand, the bytecode-level API allows the users to directly edit a class file as other editors.<br><br>This software is distributed under the Mozilla Public License Version 1.1, the GNU Lesser General Public License Version 2.1 or later, or the Apache License Version 2.0.<br>---<br>Apache 2.0:<br>Apache License<br><br>Version 2.0, January 2004<br><br>http://www.apache.org/licenses/<br><br>TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION<br><br>1. Distribution Obligations.<br><br>3.1. Application of License.<br>The Modifications which You create or to which You contribute are governed by the terms of this License, including without limitation Section 2.2. The Source Code version of Covered Code may be distributed only under the terms of this License or a future version of this License released under Section 6.1, and You must include a copy of this License with every copy of the Source Code You distribute. You may not offer or impose any terms on any Source Code version that alters or restricts the applicable version of this License or the recipients' rights hereunder. However, You may include an additional document offering the additional rights described in Section 3.5.<br>3.2. Availability of Source Code.<br>Any Modification which You create or to which You contribute must be made available in Source Code form under the terms of this License either on the same media as an Executable version or via an accepted Electronic Distribution Mechanism to anyone to whom you made an Executable version available; and if made available via Electronic Distribution Mechanism, must remain available for at least twelve (12) months after the date it initially became available, or at least six (6) months after a subsequent version of that particular Modification has been made available to such recipients. You are responsible for ensuring that the Source Code version remains available even if the Electronic Distribution Mechanism is maintained by a third party.<br><br>3.3. Description of Modifications.<br>You must cause all Covered Code to which You contribute to contain a file documenting the changes You made to create that Covered Code and the date of any change. You must include a prominent statement that the Modification is derived, directly or indirectly, from Original Code provided by the Initial Developer and including the name of the Initial Developer in (a) the Source Code, and (b) in any notice in an Executable version or related documentation in which You describe the origin or ownership of the Covered Code.<br><br>3.4. | | | (a) Third Party Claims.<br>If Contributor has knowledge that a license under a third party's intellectual property rights is required to exercise the rights granted by such Contributor under Sections 2.1 or 2.2, Contributor must include a text file with the Source Code distribution titled "LEGAL" which describes the claim and the party making the claim in sufficient detail that a recipient will know whom to contact. If Contributor obtains such knowledge after the Modification is made available as described in Section 3.2, Contributor shall promptly modify the LEGAL file in all copies Contributor makes available thereafter and shall take other steps (such as notifying appropriate mailing lists or newsgroups) reasonably calculated to inform those who received the Covered Code that new knowledge has been obtained.<br>(b) Contributor APIs.<br>If Contributor's Modifications include an application programming interface and Contributor has knowledge of patent licenses which are reasonably necessary to implement that API, Contributor must also include this information in the LEGAL file.<br><br>(c) Representations.<br>Contributor represents that, except as disclosed pursuant to Section 3.4(a) above, Contributor believes that Contributor's Modifications are Contributor's original creation(s) and/or Contributor has sufficient rights to grant the rights conveyed by this License.<br><br>3.5. Required Notices.<br>You must duplicate the notice in Exhibit A in each file of the Source Code. If it is not possible to put such notice in a particular Source Code file due to its structure, then You must include such notice in a location (such as a relevant directory) where a user would be likely to look for such a notice. If You created one or more Modification(s) You may add your name as a Contributor to the notice described in Exhibit A. You must also duplicate this License in any documentation for the Source Code where You describe recipients' rights or ownership rights relating to Covered Code. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Code. However, You may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear than any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer. |

| | | |
|---|---|---|
| | | 3.6. Distribution of Executable Versions.<br>You may distribute Covered Code in Executable form only if the requirements of Section 3.1-3.5 have been met for that Covered Code, and if You include a notice stating that the Source Code version of the Covered Code is available under the terms of this License, including a description of how and where You have fulfilled the obligations of Section 3.2. The notice must be conspicuously included in any notice in an Executable version, related documentation or collateral in which You describe recipients' rights relating to the Covered Code. You may distribute the Executable version of Covered Code or ownership rights under a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable version does not attempt to limit or alter the recipient's rights in the Source Code version from the rights set forth in this License. If You distribute the Executable version under a different license You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or any Contributor. You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer.<br><br>3.7. Larger Works.<br>You may create a Larger Work by combining Covered Code with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Code.<br><br>4. Inability to Comply Due to Statute or Regulation.<br>If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Code due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be included in the LEGAL file described in Section 3.4 and must be included with all distributions of the Source Code. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.<br>5. You may also choose to use such Covered Code under the terms of any subsequent version of the License published by Netscape. If within 60 days of notice, a reasonable royalty and payment arrangement are not mutually agreed upon in writing by the parties or the litigation claim is not withdrawn, the rights granted by Participant to You under Sections 2.1 and/or 2.2 automatically terminate at the expiration of the 60 day notice period specified above.<br><br>(b) any software, hardware, or device, other than such Participant's Contributor Version, directly or indirectly infringes any patent, then any rights granted to You by such Participant under Sections 2.1(b) and 2.2(b) are revoked effective as of the date You first made, used, sold, distributed, or had made, Modifications made by that Participant.<br><br>8.3. Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Code with only those rights set forth herein.<br>11. MISCELLANEOUS.<br>This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License shall be governed by California law provisions (except to the extent applicable law, if any, provides otherwise), excluding its conflict-of-law provisions. With respect to disputes in which at least one party is a citizen of, or an entity chartered or registered to do business in the United States of America, any litigation relating to this License shall be subject to the jurisdiction of the Federal Courts of the Northern District of California, with venue lying in Santa Clara County, California, with the losing party responsible for costs, including without limitation, court costs and reasonable attorneys' fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License. |

By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.<br><br>This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.<br><br>When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these |

| | | |
|---|---|---|
| | | things.<br><br>To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.<br><br>For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.<br><br>We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.<br><br>To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.<br><br>Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.<br><br>Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.<br><br>When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library. |

| | | |
|---|---|---|
| | | We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.<br><br>For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.<br><br>In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.<br><br>Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.<br><br>The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.<br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".<br><br>A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables. |

| | | |
|---|---|---|
| | | The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)<br><br>"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.<br><br>Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.<br><br>1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.<br><br>You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:<br><br>a) The modified work must itself be a software library.<br>b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.<br>c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.<br>d) If a facility in the modified Library refers to a function or a table of data to be supplied by an |

| | | |
|---|---|---|
| | | application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.<br><br>(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)<br><br>These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.<br><br>In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.<br><br>3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.<br><br>Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy. |

| | | |
|---|---|---|
| | | This option is useful when you wish to copy part of the code of the Library into a program that is not a library.<br><br>4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.<br><br>If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.<br><br>5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.<br><br>However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.<br><br>When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.<br><br>If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)<br><br>Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are |

| | | |
|---|---|---|
| | | linked directly with the Library itself.<br><br>6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.<br><br>You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:<br><br>a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)<br>b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.<br>c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.<br>d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.<br>e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.<br><br>For an executable, the required form of the "work that uses the Library" must include any data and utility |

| | | |
|---|---|---|
| | | programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.<br><br>It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.<br><br>7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:<br><br>a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.<br>b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.<br><br>8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.<br><br>9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.<br><br>10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, |

| | | |

| | | distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.<br><br>11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.<br><br>If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.<br><br>It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.<br><br>12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.<br><br>13. The Free Software Foundation may publish revised |

| | | and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.<br><br>14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.<br><br>NO WARRANTY<br><br>15. ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.<br><br>1. DEFINITIONS<br><br>"Contribution" means:<br><br>a) in the case of the initial Contributor, the initial content Distributed under this Agreement, and<br><br>b) in the case of each subsequent Contributor:<br>i) changes to the Program, and<br>ii) additions to the Program;<br>where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution "originates" from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include changes or additions to the Program that are not Modified Works.<br><br>"Contributor" means any person or entity that Distributes the Program.<br><br>"Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.<br><br>"Program" means the Contributions Distributed in accordance with this Agreement.<br><br>"Recipient" means anyone who receives the Program under this Agreement or any Secondary License (as applicable), including Contributors.<br><br>"Derivative Works" shall mean any work, whether in |

| | | |
|---|---|---|
| | | Source Code or other<br>form, that is based on (or derived from) the Program and for which the<br>editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of authorship.<br><br>"Modified Works" shall mean any work in Source Code or other form that<br>results from an addition to, deletion from, or modification of the<br>contents of the Program, including, for purposes of clarity any new file<br>in Source Code form that contains any contents of the Program. Modified<br>Works shall not include works that contain only declarations,<br>interfaces, types, classes, structures, or files of the Program solely<br>in each case in order to link to, bind by name, or subclass the Program<br>or Modified Works thereof.<br><br>"Distribute" means the acts of a) distributing or b) making available<br>in any manner that enables the transfer of a copy.<br><br>"Source Code" means the form of a Program preferred for making<br>modifications, including but not limited to software source code,<br>documentation source, and configuration files.<br><br>"Secondary License" means either the GNU General Public License,<br>Version 2.0, or any later versions of that license, including any<br>exceptions or additional permissions as identified by the initial<br>Contributor.<br><br>2. GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby |

| | | |
|---|---|---|
| | | grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of such Contributor,<br>if any, in Source Code or other form. This patent license shall<br>apply to the combination of the Contribution and the Program if, at<br>the time the Contribution is added by the Contributor, such addition<br>of the Contribution causes such combination to be covered by the<br>Licensed Patents. The patent license shall not apply to any other<br>combinations which include the Contribution. No hardware per se is<br>licensed hereunder.<br><br>c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity.<br>Each Contributor disclaims any liability to Recipient for claims<br>brought by any other entity based on infringement of intellectual<br>property rights or otherwise. As a condition to exercising the<br>rights and licenses granted hereunder, each Recipient hereby<br>assumes sole responsibility to secure any other intellectual<br>property rights needed, if any. For example, if a third party<br>patent license is required to allow Recipient to Distribute the<br>Program, it is Recipient's responsibility to acquire that license<br>before distributing the Program.<br><br>d) Each Contributor represents that to its knowledge it has<br>sufficient copyright rights in its Contribution, if any, to grant<br>the copyright license set forth in this Agreement.<br><br>e) Notwithstanding the terms of any Secondary License, no<br>Contributor makes additional grants to any Recipient (other than |

| | | |
|---|---|---|
| | | those set forth in this Agreement) as a result of such Recipient's<br>receipt of the Program under the terms of a Secondary License<br>(if permitted under the terms of Section 3).<br><br>3. REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in<br>accordance with section 3.2, and the Contributor must accompany<br>the Program with a statement that the Source Code for the Program<br>is available under this Agreement, and informs Recipients how to<br>obtain it in a reasonable manner on or through a medium customarily<br>used for software exchange; and<br><br>b) the Contributor may Distribute the Program under a license<br>different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all<br>warranties and conditions, express and implied, including<br>warranties or conditions of title and non-infringement, and<br>implied warranties or conditions of merchantability and fitness<br>for a particular purpose;<br><br>ii) effectively excludes on behalf of all other Contributors all<br>liability for damages, including direct, indirect, special,<br>incidental and consequential damages, such as lost profits;<br><br>iii) does not attempt to limit or alter the recipients' rights<br>in the Source Code under section 3.2; and<br><br>iv) requires any subsequent distribution of the Program by any<br>party to be under a license that satisfies the requirements<br>of this section 3.<br><br>3.2 When the Program is Distributed as Source Code: |

| | | |
|---|---|---|
| | | a) it must be made available under this Agreement, or if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br><br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in |

| | | |
|---|---|---|
| | | this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages.<br><br>5. NO WARRANTY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS"<br>BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR<br>IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF<br>TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR<br>PURPOSE. Each Recipient is solely responsible for determining the<br>appropriateness of using and distributing the Program and assumes all<br>risks associated with its exercise of rights under this Agreement,<br>including but not limited to the risks and costs of program errors, |

| | | |
|---|---|---|
| | | compliance with applicable laws, damage to or loss of data, programs<br>or equipment, and unavailability or interruption of operations.<br><br>6. DISCLAIMER OF LIABILITY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS<br>SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL,<br>EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST<br>PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN<br>CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE)<br>ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE<br>EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE<br>POSSIBILITY OF SUCH DAMAGES.<br><br>7. GENERAL<br><br>If any provision of this Agreement is invalid or unenforceable under<br>applicable law, it shall not affect the validity or enforceability of<br>the remainder of the terms of this Agreement, and without further<br>action by the parties hereto, such provision shall be reformed to the<br>minimum extent necessary to make such provision valid and enforceable.<br><br>If Recipient institutes patent litigation against any entity<br>(including a cross-claim or counterclaim in a lawsuit) alleging that the<br>Program itself (excluding combinations of the Program with other software<br>or hardware) infringes such Recipient's patent(s), then such Recipient's<br>rights granted under Section 2(b) shall terminate as of the date such<br>litigation is filed.<br><br>All Recipient's rights under this Agreement shall terminate if it<br>fails to comply with any of the material terms or conditions of this<br>Agreement and does not cure such failure in a reasonable period of |

| | | |
|---|---|---|
| | | time after becoming aware of such noncompliance. If all Recipient's<br>rights under this Agreement terminate, Recipient agrees to cease use<br>and distribution of the Program as soon as reasonably practicable.<br>However, Recipient's obligations under this Agreement and any licenses<br>granted by Recipient relating to the Program shall continue and survive.<br><br>Everyone is permitted to copy and distribute copies of this Agreement,<br>but in order to avoid inconsistency the Agreement is copyrighted and<br>may only be modified in the following manner. The Agreement Steward<br>reserves the right to publish new versions (including revisions) of<br>this Agreement from time to time. No one other than the Agreement<br>Steward has the right to modify this Agreement. The Eclipse Foundation<br>is the initial Agreement Steward. The Eclipse Foundation may assign the<br>responsibility to serve as the Agreement Steward to a suitable separate<br>entity. Each new version of the Agreement will be given a distinguishing<br>version number. The Program (including Contributions) may always be<br>Distributed subject to the version of the Agreement under which it was<br>received. In addition, after a new version of the Agreement is published,<br>Contributor may elect to Distribute the Program (including its<br>Contributions) under the new version.<br><br>Except as expressly stated in Sections 2(a) and 2(b) above, Recipient<br>receives no rights or licenses to the intellectual property of any<br>Contributor under this Agreement, whether expressly, by implication,<br>estoppel or otherwise. By contrast, the GNU General Public License is<br>intended to guarantee your freedom to share and change free software--to<br>make sure the software is free for all its users. This General Public<br>License applies to most of the Free Software Foundation's software and<br>to any other program whose authors commit to using it. (Some other Free<br>Software Foundation software is covered by the |

| | | |
|---|---|---|
| | | GNU Library General<br>Public License instead.) You can apply it to your programs, too.<br><br>When we speak of free software, we are referring to freedom, not price.<br>Our General Public Licenses are designed to make sure that you have the<br>freedom to distribute copies of free software (and charge for this<br>service if you wish), that you receive source code or can get it if you<br>want it, that you can change the software or use pieces of it in new<br>free programs; and that you know you can do these things.<br><br>To protect your rights, we need to make restrictions that forbid anyone<br>to deny you these rights or to ask you to surrender the rights. These<br>restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br><br>For example, if you distribute copies of such a program, whether gratis<br>or for a fee, you must give the recipients all the rights that you have.<br>You must make sure that they, too, receive or can get the source code.<br>And you must show them these terms so they know their rights.<br><br>We protect your rights with two steps: (1) copyright the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to make certain<br>that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software patents.<br>We wish to avoid the danger that redistributors of a free program will |

| | | |
|---|---|---|
| | | individually obtain patent licenses, in effect making the program<br>proprietary. To prevent this, we have made it clear that any patent must<br>be licensed for everyone's free use or not licensed at all.<br><br>The precise terms and conditions for copying, distribution and<br>modification follow.<br><br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains a<br>notice placed by the copyright holder saying it may be distributed under<br>the terms of this General Public License. The "Program", below, refers<br>to any such program or work, and a "work based on the Program" means<br>either the Program or any derivative work under copyright law: that is<br>to say, a work containing the Program or a portion of it, either<br>verbatim or with modifications and/or translated into another language.<br>(Hereinafter, translation is included without limitation in the term<br>"modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of running<br>the Program is not restricted, and the output from the Program is<br>covered only if its contents constitute a work based on the Program<br>(independent of having been made by running the Program). Whether that<br>is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's source<br>code as you receive it, in any medium, provided that you conspicuously<br>and appropriately publish on each copy an appropriate copyright notice<br>and disclaimer of warranty; keep intact all the notices that refer to<br>this License and to the absence of any warranty; and give any other<br>recipients of the Program a copy of this License along with the Program. |

| | | |
|---|---|---|
| | | You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Program or any portion of<br>it, thus forming a work based on the Program, and copy and distribute<br>such modifications or work under the terms of Section 1 above, provided<br>that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any part<br>thereof, to be licensed as a whole at no charge to all third parties<br>under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a notice<br>that there is no warranty (or else, saying that you provide a<br>warranty) and that users may redistribute the program under these<br>conditions, and telling the user how to view a copy of this License.<br>(Exception: if the Program itself is interactive but does not<br>normally print such an announcement, your work based on the Program<br>is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program, and<br>can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate |

| | | |
|---|---|---|
| | | works. But when you<br>distribute the same sections as part of a whole which is a work based on<br>the Program, the distribution of the whole must be on the terms of this<br>License, whose permissions for other licensees extend to the entire<br>whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of a<br>storage or distribution medium does not bring the other work under the<br>scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections 1<br>and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your cost<br>of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This alternative is allowed |

| | | |
|---|---|---|
| | | only for noncommercial distribution and only if you received the<br>program in object code or executable form with such an offer, in<br>accord with Subsection b above.)<br><br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source code<br>means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to control<br>compilation and installation of the executable. However, as a special<br>exception, the source code distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major<br>components (compiler, kernel, and so on) of the operating system on<br>which the executable runs, unless that component itself accompanies the<br>executable.<br><br>If distribution of executable or object code is made by offering access<br>to copy from a designated place, then offering equivalent access to copy<br>the source code from the same place counts as distribution of the source<br>code, even though third parties are not compelled to copy the source<br>along with the object code.<br><br>4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt otherwise<br>to copy, modify, sublicense or distribute the Program is void, and will<br>automatically terminate your rights under this License. However, parties<br>who have received copies, or rights, from you under this License will<br>not have their licenses terminated so long as such parties remain in<br>full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are |

| | | |
|---|---|---|
| | | prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and all<br>its terms and conditions for copying, distributing or modifying the<br>Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further restrictions<br>on the recipients' exercise of the rights granted herein. You are not<br>responsible for enforcing compliance by third parties to this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot distribute<br>so as to satisfy simultaneously your obligations under this License and<br>any other pertinent obligations, then as a consequence you may not<br>distribute the Program at all. For example, if a patent license would<br>not permit royalty-free redistribution of the Program by all those who<br>receive copies directly or indirectly through you, then the only way you<br>could satisfy both it and this License would be to refrain entirely from<br>distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to |

| | | |
|---|---|---|
| | | infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is implemented<br>by public license practices. Many people have made generous<br>contributions to the wide range of software distributed through that<br>system in reliance on consistent application of that system; it is up to<br>the author/donor to decide if he or she is willing to distribute<br>software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be<br>a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License may<br>add an explicit geographical distribution limitation excluding those<br>countries, so that distribution is permitted only in or among countries<br>not thus excluded. In such case, this License incorporates the<br>limitation as if written in the body of this License.<br><br>9. The Free Software Foundation may publish revised and/or new<br>versions of the General Public License from time to time. Such new<br>versions will be similar in spirit to the present version, but may<br>differ in detail to address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and<br>conditions either of that version or of any later version published by<br>the Free Software Foundation. If the Program does not specify a version<br>number of this License, you may choose any version ever published by the |

| | | |
|---|---|---|
| | | Free Software Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the<br>author to ask for permission. For software which is copyrighted by the<br>Free Software Foundation, write to the Free Software Foundation; we<br>sometimes make exceptions for this. Our decision will be guided by the<br>two goals of preserving the free status of all derivatives of our free<br>software and of promoting the sharing and reuse of software generally.<br><br>NO WARRANTY<br><br>11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO<br>WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.<br>EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR<br>OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND,<br>EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED<br>WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE<br>ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH<br>YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL<br>NECESSARY SERVICING, REPAIR OR CORRECTION.<br><br>12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN<br>WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY<br>AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR<br>DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL<br>DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM<br>(INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED<br>INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF<br>THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR<br>OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. |

| | | |
|---|---|---|
| | | END OF TERMS AND CONDITIONS<br><br>How to Apply These Terms to Your New Programs<br><br>If you develop a new program, and you want it to be of the greatest<br>possible use to the public, the best way to achieve this is to make it<br>free software which everyone can redistribute and change under these terms.<br><br>To do so, attach the following notices to the program. It is safest to<br>attach them to the start of each source file to most effectively convey<br>the exclusion of warranty; and each file should have at least the<br>"copyright" line and a pointer to where the full notice is found.<br><br>One line to give the program's name and a brief idea of what it does.<br>Copyright (C) <year> <name of author><br><br>This program is free software; you can redistribute it and/or modify<br>it under the terms of the GNU General Public License as published by<br>the Free Software Foundation; either version 2 of the License, or<br>(at your option) any later version.<br><br>This program is distributed in the hope that it will be useful, but<br>WITHOUT ANY WARRANTY; without even the implied warranty of<br>MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. Of course, the commands<br>you use may be called something other than `show w' and `show c'; they<br>could even be mouse-clicks or menu items--whatever suits your program.<br><br>You should also get your employer (if you work as a programmer) or your<br>school, if any, to sign a "copyright disclaimer" for the program, if<br>necessary. Here is a sample; alter the names:<br><br>Yoyodyne, Inc., hereby disclaims all copyright interest in the<br>program `Gnomovision' (which makes passes at compilers) written by<br>James Hacker.<br><br>signature of Ty Coon, 1 April 1989<br>Ty Coon, President of Vice<br><br>This General Public License does not permit incorporating your program<br>into proprietary programs. If your program is a subroutine library, you<br>may consider it more useful to permit linking proprietary applications<br>with the library. If this is what you want to do, use the GNU Library<br>General Public License instead of this License.<br><br>---<br><br>## CLASSPATH EXCEPTION<br><br>Linking this library statically or dynamically with other modules is<br>making a combined work based on this library. Thus, the terms and<br>conditions of the GNU General Public License version 2 cover the whole<br>combination.<br><br>As a special exception, the copyright holders of this library give you |

| | | |
|---|---|---|
| | | permission to link this library with independent modules to produce an<br>executable, regardless of the license terms of these independent<br>modules, and to copy and distribute the resulting executable under<br>terms of your choice, provided that you also meet, for each linked<br>independent module, the terms and conditions of the license of that<br>module. An independent module is a module which is not derived from or<br>based on this library. If you modify this library, you may extend this<br>exception to your version of the library, but you are not obligated to<br>do so. If you do not wish to do so, delete this exception statement<br>from your version.<br><br>---------- Separator ----------<br><br>./NOTICE.md<br><br># Notices for Jakarta Annotations<br><br>This content is produced and maintained by the Jakarta Annotations project.<br><br>* Project home: https://projects.eclipse.org/projects/ee4j.ca<br><br>## Trademarks<br><br>Jakarta Annotations is a trademark of the Eclipse Foundation.<br><br>## Declared Project Licenses<br><br>This program and the accompanying materials are made available under the terms<br>of the Eclipse Public License v. 2.0 which is available at<br>http://www.eclipse.org/legal/epl-2.0. Definitions<br>---<br><br>1.1. "Contributor"<br>means each individual or legal entity that creates, contributes to<br>the creation of, or owns Covered Software.<br><br>1.2. "Contributor Version"<br>means the combination of the Contributions of others (if any) used<br>by a Contributor and that particular Contributor's Contribution.<br><br>1.3. "Contribution"<br>means Covered Software of a particular Contributor.<br><br>1.4. "Covered Software"<br>means Source Code Form to which the initial Contributor has attached<br>the notice in Exhibit A, the Executable Form of such Source Code<br>Form, and Modifications of such Source Code Form, in each case<br>including portions thereof.<br><br>1.5. "Incompatible With Secondary Licenses"<br>means<br><br>(a) that the initial Contributor has attached the notice described<br>in Exhibit B to the Covered Software; or<br><br>(b) that the Covered Software was made available under the terms of<br>version 1.1 or earlier of the License, but not also under the<br>terms of a Secondary License.<br><br>1.6. "Executable Form" |

| | | |
|---|---|---|
| | | means any form of the work other than Source Code Form.<br><br>1.7. "Larger Work"<br>means a work that combines Covered Software with other material, in<br>a separate file or files, that is not Covered Software.<br><br>1.8. "License"<br>means this document.<br><br>1.9. "Licensable"<br>means having the right to grant, to the maximum extent possible,<br>whether at the time of the initial grant or subsequently, any and<br>all of the rights conveyed by this License.<br><br>1.10. "Modifications"<br>means any of the following:<br><br>(a) any file in Source Code Form that results from an addition to,<br>deletion from, or modification of the contents of Covered<br>Software; or<br><br>(b) any new file in Source Code Form that contains any Covered<br>Software.<br><br>1.11. "Patent Claims" of a Contributor<br>means any patent claim(s), including without limitation, method,<br>process, and apparatus claims, in any patent Licensable by such<br>Contributor that would be infringed, but for the grant of the<br>License, by the making, using, selling, offering for sale, having<br>made, import, or transfer of either its Contributions or its<br>Contributor Version.<br><br>1.12. "Secondary License"<br>means either the GNU General Public License, Version 2.0, the GNU<br>Lesser General Public License, Version 2.1, the GNU Affero General<br>Public License, Version 3.0, or any later versions of those<br>licenses.<br><br>1.13. "Source Code Form"<br>means the form of the work preferred for making modifications. |

| | | |
|---|---|---|
| | | 1.14. "You" (or "Your")<br>means an individual or a legal entity exercising rights under this<br>License. For legal entities, "You" includes any entity that<br>controls, is controlled by, or is under common control with You. For<br>purposes of this definition, "control" means (a) the power, direct<br>or indirect, to cause the direction or management of such entity,<br>whether by contract or otherwise, or (b) ownership of more than<br>fifty percent (50%) of the outstanding shares or beneficial<br>ownership of such entity.<br><br>2. | | | 2.7. Conditions<br><br>Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted<br>in Section 2.1.<br><br>3. Responsibilities<br>----------<br><br>3.1. Distribution of Source Form<br><br>All distribution of Covered Software in Source Code Form, including any<br>Modifications that You create or to which You contribute, must be under<br>the terms of this License. You must inform recipients that the Source<br>Code Form of the Covered Software is governed by the terms of this<br>License, and how they can obtain a copy of this License. You may not<br>attempt to alter or restrict the recipients' rights in the Source Code<br>Form.<br><br>3.2. Distribution of Executable Form<br><br>If You distribute Covered Software in Executable Form then:<br><br>(a) such Covered Software must also be made available in Source Code<br>Form, as described in Section 3.1, and You must inform recipients of<br>the Executable Form how they can obtain a copy of such Source Code<br>Form by reasonable means in a timely manner, at a charge no more<br>than the cost of distribution to the recipient; and<br><br>(b) You may distribute such Executable Form under the terms of this<br>License, or sublicense it under different terms, provided that the<br>license for the Executable Form does not attempt to limit or alter<br>the recipients' rights in the Source Code Form under this License.<br><br>3.3. Distribution of a Larger Work<br><br>You may create and distribute a Larger Work under terms of Your choice,<br>provided that You also comply with the requirements of this License for<br>the Covered Software. If the Larger Work is a |

Notices<br><br>You may not remove or alter the substance of any<br>license notices<br>(including copyright notices, patent notices, disclaimers<br>of warranty,<br>or limitations of liability) contained within the Source<br>Code Form of<br>the Covered Software, except that You may alter any<br>license notices to<br>the extent required to remedy known factual<br>inaccuracies.<br><br>3.5. Application of Additional Terms<br><br>You may choose to offer, and to charge a fee for,<br>warranty, support,<br>indemnity or liability obligations to one or more<br>recipients of Covered<br>Software. However, You may do so only on Your own<br>behalf, and not on<br>behalf of any Contributor. You must make it absolutely<br>clear that any<br>such warranty, support, indemnity, or liability obligation<br>is offered by<br>You alone, and You hereby agree to indemnify every<br>Contributor for any<br>liability incurred by such Contributor as a result of<br>warranty, support,<br>indemnity or liability terms You offer. You may include<br>additional<br>disclaimers of warranty and limitations of liability<br>specific to any<br>jurisdiction.<br><br>4. Inability to Comply Due to Statute or Regulation<br>---<br><br>If it is impossible for You to comply with any of the<br>terms of this<br>License with respect to some or all of the Covered |

|---|---|---|
| | | Software due to<br>statute, judicial order, or regulation then You must: (a) comply with<br>the terms of this License to the maximum extent possible; and (b)<br>describe the limitations and the code they affect. Such description must<br>be placed in a text file included with all distributions of the Covered<br>Software under this License. Except to the extent prohibited by statute<br>or regulation, such description must be sufficiently detailed for a<br>recipient of ordinary skill to be able to understand it.<br><br>5. Termination<br>---<br><br>5.1. The rights granted under this License will terminate automatically<br>if You fail to comply with any of its terms. However, if You become<br>compliant, then the rights granted under this License from a particular<br>Contributor are reinstated (a) provisionally, unless and until such<br>Contributor explicitly and finally terminates Your grants, and (b) on an<br>ongoing basis, if such Contributor fails to notify You of the<br>non-compliance by some reasonable means prior to 60 days after You have<br>come back into compliance. Moreover, Your grants from a particular<br>Contributor are reinstated on an ongoing basis if such Contributor<br>notifies You of the non-compliance by some reasonable means, this is the<br>first time You have received notice of non-compliance with this License<br>from such Contributor, and You become compliant prior to 30 days after<br>Your receipt of the notice.<br><br>5.2. If You initiate litigation against any entity by asserting a patent<br>infringement claim (excluding declaratory judgment actions,<br>counter-claims, and cross-claims) alleging that a Contributor Version<br>directly or indirectly infringes any patent, then the rights granted to<br>You by any and all Contributors for the Covered Software under Section<br>2.1 of this License shall terminate. |

| | | |

| | | 5.3. In the event of termination under Sections 5.1 or 5.2 above, all<br>end user license agreements (excluding distributors and resellers) which<br>have been validly granted by You or Your distributors under this License<br>prior to termination shall survive termination.<br><br>**********<br>* *<br>* 6. A Contribution<br>"originates" from a Contributor if it was added to the Program by<br>such Contributor itself or anyone acting on such Contributor's behalf.<br>Contributions do not include changes or additions to the Program that<br>are not Modified Works.<br><br>"Contributor" means any person or entity that Distributes the Program.<br><br>"Licensed Patents" mean patent claims licensable by a Contributor which<br>are necessarily infringed by the use or sale of its Contribution alone<br>or when combined with the Program.<br><br>"Program" means the Contributions Distributed in accordance with this<br>Agreement.<br><br>"Recipient" means anyone who receives the Program under this Agreement<br>or any Secondary License (as applicable), including Contributors.<br><br>"Derivative Works" shall mean any work, whether in Source Code or other<br>form, that is based on (or derived from) the Program and for which the<br>editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of authorship.<br><br>"Modified Works" shall mean any work in Source Code or other form that<br>results from an addition to, deletion from, or modification of the<br>contents of the Program, including, for purposes of clarity any new file<br>in Source Code form that contains any contents of the Program. Modified<br>Works shall not include works that contain only declarations,<br>interfaces, types, classes, structures, or files of the |

| | | |
|---|---|---|
| | | Program solely<br>in each case in order to link to, bind by name, or subclass the Program<br>or Modified Works thereof.<br><br>"Distribute" means the acts of a) distributing or b) making available<br>in any manner that enables the transfer of a copy.<br><br>"Source Code" means the form of a Program preferred for making<br>modifications, including but not limited to software source code,<br>documentation source, and configuration files.<br><br>"Secondary License" means either the GNU General Public License,<br>Version 2.0, or any later versions of that license, including any<br>exceptions or additional permissions as identified by the initial<br>Contributor.<br><br>2. GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of such Contributor,<br>if any, in Source Code or other form. This patent license shall<br>apply to the combination of the Contribution and the Program if, at<br>the time the Contribution is added by the Contributor, such addition<br>of the Contribution causes such combination to be covered by the<br>Licensed Patents. The patent license shall not apply to any other<br>combinations which include the Contribution. No hardware per se is<br>licensed hereunder. |

| | | |
|---|---|---|
| | | c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity.<br>Each Contributor disclaims any liability to Recipient for claims<br>brought by any other entity based on infringement of intellectual<br>property rights or otherwise. As a condition to exercising the<br>rights and licenses granted hereunder, each Recipient hereby<br>assumes sole responsibility to secure any other intellectual<br>property rights needed, if any. For example, if a third party<br>patent license is required to allow Recipient to Distribute the<br>Program, it is Recipient's responsibility to acquire that license<br>before distributing the Program.<br><br>d) Each Contributor represents that to its knowledge it has<br>sufficient copyright rights in its Contribution, if any, to grant<br>the copyright license set forth in this Agreement.<br><br>e) Notwithstanding the terms of any Secondary License, no<br>Contributor makes additional grants to any Recipient (other than<br>those set forth in this Agreement) as a result of such Recipient's<br>receipt of the Program under the terms of a Secondary License<br>(if permitted under the terms of Section 3).<br><br>3. REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in<br>accordance with section 3.2, and the Contributor must accompany<br>the Program with a statement that the Source Code for the Program<br>is available under this Agreement, and informs Recipients how to |

| | | |
|---|---|---|
| | | obtain it in a reasonable manner on or through a medium customarily<br>used for software exchange; and<br><br>b) the Contributor may Distribute the Program under a license<br>different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all<br>warranties and conditions, express and implied, including<br>warranties or conditions of title and non-infringement, and<br>implied warranties or conditions of merchantability and fitness<br>for a particular purpose;<br><br>ii) effectively excludes on behalf of all other Contributors all<br>liability for damages, including direct, indirect, special,<br>incidental and consequential damages, such as lost profits;<br><br>iii) does not attempt to limit or alter the recipients' rights<br>in the Source Code under section 3.2; and<br><br>iv) requires any subsequent distribution of the Program by any<br>party to be under a license that satisfies the requirements<br>of this section 3.<br><br>3.2 When the Program is Distributed as Source Code:<br><br>a) it must be made available under this Agreement, or if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br><br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, |

| | | |
|---|---|---|
| | | or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes |

| | | |
|---|---|---|
| | | performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages.<br><br>5. NO WARRANTY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS"<br>BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR<br>IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF<br>TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR<br>PURPOSE. Each Recipient is solely responsible for determining the<br>appropriateness of using and distributing the Program and assumes all<br>risks associated with its exercise of rights under this Agreement,<br>including but not limited to the risks and costs of program errors,<br>compliance with applicable laws, damage to or loss of data, programs<br>or equipment, and unavailability or interruption of operations.<br><br>6. DISCLAIMER OF LIABILITY<br><br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS<br>SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL,<br>EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST<br>PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN<br>CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE)<br>ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE |

| | | |
|---|---|---|
| | | EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.<br><br>7. GENERAL<br><br>If any provision of this Agreement is invalid or unenforceable under<br>applicable law, it shall not affect the validity or enforceability of<br>the remainder of the terms of this Agreement, and without further<br>action by the parties hereto, such provision shall be reformed to the<br>minimum extent necessary to make such provision valid and enforceable.<br><br>If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the<br>Program itself (excluding combinations of the Program with other software<br>or hardware) infringes such Recipient's patent(s), then such Recipient's<br>rights granted under Section 2(b) shall terminate as of the date such<br>litigation is filed.<br><br>All Recipient's rights under this Agreement shall terminate if it<br>fails to comply with any of the material terms or conditions of this<br>Agreement and does not cure such failure in a reasonable period of<br>time after becoming aware of such noncompliance. If all Recipient's<br>rights under this Agreement terminate, Recipient agrees to cease use<br>and distribution of the Program as soon as reasonably practicable.<br>However, Recipient's obligations under this Agreement and any licenses<br>granted by Recipient relating to the Program shall continue and survive.<br><br>Everyone is permitted to copy and distribute copies of this Agreement,<br>but in order to avoid inconsistency the Agreement is copyrighted and<br>may only be modified in the following manner. The Agreement Steward<br>reserves the right to publish new versions (including revisions) of<br>this Agreement from time to time. No one other than the Agreement<br>Steward has the right to modify this Agreement. The |

In addition, after a new version of the Agreement is published,<br>Contributor may elect to Distribute the Program (including its<br>Contributions) under the new version.<br><br>Except as expressly stated in Sections 2(a) and 2(b) above, Recipient<br>receives no rights or licenses to the intellectual property of any<br>Contributor under this Agreement, whether expressly, by implication,<br>estoppel or otherwise. | OpenSearch Contributors | Oracle OpenSearch | Licensing Information<br>Copyright: OpenSearch Contributors === Source URL: https://github.com/opensearch-project/OpenSearch/tree/2.15.0/server License: Apache 2.0 ./LICENSE.txt Apache License Version 2.0, January 2004 https://www.apache.org/licenses/ TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION 1. Definitions. "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types. "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code |

| | | |
|---|---|---|
| | | control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution." "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. 2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions: (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and (b) You must cause any modified files to carry prominent notices stating that You changed the files; and (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative |

| | | |
|---|---|---|
| | | Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages. 9. Accepting Warranty or Additional Liability. While |

| | | |
|---|---|---|
| | | redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. END OF TERMS AND CONDITIONS APPENDIX: How to apply the Apache License to your work. To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. Copyright (C) 1999-2015, QOS.ch. All rights reserved. This program and the accompanying materials are dual-licensed under either the terms of the Eclipse Public License v1.0 as published by the Eclipse Foundation or (per the licensee's choosing) under the terms of the GNU Lesser General Public License version 2.1 as published by the Free Software Foundation. ---------- Separator ---------- https://opensource.org/licenses/EPL-1.0 Eclipse Public License, Version 1.0 (EPL-1.0) THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT. 1. DEFINITIONS "Contribution" means: a) in the case of the initial Contributor, the initial code and documentation distributed under this Agreement, and b) in the case of each subsequent Contributor: i) changes to the Program, and ii) additions to the Program; where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution 'originates' from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are not derivative works of the Program. "Contributor" means any person or entity that distributes the Program. "Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program. "Program" means the Contributions distributed in accordance with this Agreement. "Recipient" means anyone who receives the Program under this Agreement, including all Contributors. 2. GRANT OF RIGHTS a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative |

| | | |
|---|---|---|
| | | works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form. b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder. c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program. d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement. 3. REQUIREMENTS A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that: a) it complies with the terms and conditions of this Agreement; and b) its license agreement: i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose; ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits; iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange. When the Program is made available in source code form: a) it must be made available under this Agreement; and b) |

| | | |
|---|---|---|
| | | a copy of this Agreement must be included with each copy of the Program. Contributors may not remove or alter any copyright notices contained within the Program. Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution. 4. COMMERCIAL DISTRIBUTION Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense. For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages. 5. NO WARRANTY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is |

| | | |
|---|---|---|
| | | solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement , including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations. 6. DISCLAIMER OF LIABILITY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. 7. GENERAL If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable. If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed. All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive. Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement |

| | | |
|---|---|---|
| | | Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved. This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation. ---------- Separator ---------- https://opensource.org/licenses/LGPL-2.1 GNU Lesser General Public License Version 2.1, February 1999 Copyright (C) 1991, 1999 Free Software Foundation, Inc. 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed. [This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.] Preamble The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below. When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things. To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the |

| | | |
|---|---|---|
| | | library or if you modify it. For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights. We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library. To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others. Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license. Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs. When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library. We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances. For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely |

| | | |
|---|---|---|
| | | used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License. In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system. Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library. The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run. TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION 0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you". A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables. The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".) "Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library. Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does. 1. You may copy and distribute verbatim copies of the Library's complete source code as you |

| | | |
|---|---|---|
| | | receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions: a) The modified work must itself be a software library. b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change. c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License. d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful. (For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.) These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it. Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library. In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License. 3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the |

| | | |
|---|---|---|
| | | Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices. Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy. This option is useful when you wish to copy part of the code of the Library into a program that is not a library. 4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange. If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code. 5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License. However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables. When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law. If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.) Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether |

| | | |
|---|---|---|
| | | or not they are linked directly with the Library itself. 6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications. You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things: a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.) b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with. c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution. d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place. e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy. For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable. It may happen that this |

| | | |
|---|---|---|
| | | requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute. 7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things: a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above. b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work. 8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance. 9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it. 10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License. 11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free |

| | | |
|---|---|---|
| | | redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library. If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances. It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice. This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License. 12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License. 13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation. 14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally. NO WARRANTY 15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY |

| | | |
|---|---|---|
| | | APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION. 16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. END OF TERMS AND CONDITIONS How to Apply These Terms to Your New Libraries If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License). To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found. <one line to give the library's name and an idea of what it does.> Copyright (C) <year> <name of author> This library is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version 2.1 of the License, or (at your option) any later version. ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT. 1. DEFINITIONS “Contribution” means: a) in the case of the initial Contributor, the initial content Distributed under this Agreement, and b) in the case of each subsequent Contributor: i) changes to the Program, and ii) additions to the Program; where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution “originates” from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include changes or additions to the Program that are not Modified Works. “Contributor” means any person or entity that Distributes the Program. “Licensed Patents” mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program. “Program” means the Contributions Distributed in accordance with this Agreement. “Recipient” means anyone who receives the Program under this Agreement or any Secondary License (as applicable), including Contributors. “Derivative Works” shall mean any work, whether in Source Code or other form, that is based on (or derived from) the Program and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. “Modified Works” shall mean any work in Source Code or other form that results from an addition to, deletion from, or modification of the contents of the Program, including, for purposes of clarity any new file in Source Code form that contains any contents of the Program. Modified Works shall not include works that contain only declarations, interfaces, types, classes, structures, or files of the Program solely in each case in order to link to, bind by name, or subclass the Program or Modified Works thereof. “Distribute” means the acts of a) distributing or |

| | | |
|---|---|---|
| | | b) making available in any manner that enables the transfer of a copy. “Source Code” means the form of a Program preferred for making modifications, including but not limited to software source code, documentation source, and configuration files. “Secondary License” means either the GNU General Public License, Version 2.0, or any later versions of that license, including any exceptions or additional permissions as identified by the initial Contributor. 2. GRANT OF RIGHTS a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, Distribute and sublicense the Contribution of such Contributor, if any, and such Derivative Works. b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder. c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program. d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement. e) Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3). 3. REQUIREMENTS 3.1 If a Contributor Distributes the Program in any form, then: a) the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the |

| | | |
|---|---|---|
| | | Program with a statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and b) the Contributor may Distribute the Program under a license different than this Agreement, provided that such license: i) effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose; ii) effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits; iii) does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and iv) requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section 3. 3.2 When the Program is Distributed as Source Code: a) it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and b) a copy of this Agreement must be included with each copy of the Program. 3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations of liability ('notices') contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices. 4. COMMERCIAL DISTRIBUTION Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. |

| | | |
|---|---|---|
| | | In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense. For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages. 5. NO WARRANTY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN “AS IS” BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations. 6. DISCLAIMER OF LIABILITY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. 7. GENERAL If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action |

| | | |
|---|---|---|
| | | by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable. If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed. All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive. Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be Distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to Distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved. Nothing in this Agreement is intended to be enforceable by any entity that is not a Contributor or Recipient. No third-party beneficiary rights are created under this Agreement. Exhibit A – Form of Secondary Licenses Notice “This Source Code may also be made available under the following Secondary Licenses when the conditions for such availability set forth in the Eclipse Public License, v. 2.0 are satisfied: {name license(s), version(s), and exceptions or additional permissions here}.” Simply including a copy of this Agreement, including this Exhibit A is not sufficient to license the Source Code under Secondary Licenses. | | | |
|---|---|---|
| | | LIABILITY FOR DAMAGES RESULTING FROM THE USE OF THIS DOCUMENT OR THE INFORMATION OR WORKS PROVIDED HEREUNDER. Statement of Purpose The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and subsequent owner(s) (each and all, an "owner") of an original work of authorship and/or a database (each, a "Work"). Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works ("Commons") that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others. For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the "Affirmer"), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights. 1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights ("Copyright and Related Rights"). Copyright and Related Rights include, but are not limited to, the following: i. the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work; ii. moral rights retained by the original author(s) and/or performer(s); iii. publicity and privacy rights pertaining to a person's image or likeness depicted in a Work; iv. rights protecting against unfair competition in regards to a Work, subject to the limitations in paragraph 4(a), below; v. rights protecting the extraction, dissemination, use and reuse of data in a Work; vi. database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof, including any amended or successor version of such directive); and vii. other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof. 2. Waiver. To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, |

| | | |
|---|---|---|
| | | abandons, and surrenders all of Affirmer's Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the "Waiver"). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmer's heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmer's express Statement of Purpose. 3. Public License Fallback. Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmer's express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive, irrevocable and unconditional license to exercise Affirmer's Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the "License"). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmer's express Statement of Purpose. 4. Limitations and Disclaimers. a. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document. b. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to |

| | | |

| | | the greatest extent permissible under applicable law. c. Affirmer disclaims responsibility for clearing rights of other persons that may apply to the Work or any use thereof, including without limitation any person's Copyright and Related Rights in the Work. Further, Affirmer disclaims responsibility for obtaining any necessary consents, permissions or other rights required for any use of the Work. d. Affirmer understands and acknowledges that Creative Commons is not a party to this document and has no duty or obligation with respect to this CC0 or use of the Work. ---------- Separator ---------- Dependency: org.latencyutils:LatencyUtils Copyright: Gil Tene === Source URL: https://github.com/LatencyUtils/LatencyUtils/tree/LatencyUtils-2.0.3 License: BSD 2-Clause; Public Domain ./LICENSE * This code was Written by Gil Tene of Azul Systems, and released to the * public domain, as explained at http://creativecommons.org/publicdomain/zero/1.0/ For users of this code who wish to consume it under the "BSD" license rather than under the public domain or CC0 contribution text mentioned above, the code found under this directory is *also* provided under the following license (commonly referred to as the BSD 2-Clause License). Definitions. "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types. "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to |

| | | |
|---|---|---|
| | | the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution." "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. 2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions: (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and (b) You must cause any modified files to carry prominent notices stating that You changed the files; and (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following |

| | | |
|---|---|---|
| | | places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial |

| | | |
|---|---|---|
| | | damages or losses), even if such Contributor has been advised of the possibility of such damages. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. Preamble The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too. When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things. To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it. For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights. We protect your rights with two steps: (1) copyright the |

| | | |
|---|---|---|
| | | software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software. Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations. Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all. The precise terms and conditions for copying, distribution and modification follow. GNU GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION 0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you". Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does. 1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions: a) You must cause the modified files to carry prominent notices stating that you changed the |

| | | |
|---|---|---|
| | | files and the date of any change. b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License. c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.) These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it. Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program. In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License. 3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following: a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you |

| | | |
|---|---|---|
| | | received the program in object code or executable form with such an offer, in accord with Subsection b above.) The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable. If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code. 4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance. 5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it. 6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License. 7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at |

| | | |
|---|---|---|
| | | all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program. If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances. It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice. This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License. 8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License. 9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation. 10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally. NO WARRANTY 11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO |

| | | |
|---|---|---|
| | | WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION. 12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. END OF TERMS AND CONDITIONS How to Apply These Terms to Your New Programs If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms. To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found. <one line to give the program's name and a brief idea of what it does.> Copyright (C) <year> <name of author> This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version. This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details. You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth |

| | | Floor, Boston, MA 02110-1301 USA. Also add information on how to contact you by electronic and paper mail. If the program is interactive, make it output a short notice like this when it starts in an interactive mode: Gnomovision version 69, Copyright (C) year name of author Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'. This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for details. The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program. You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names: Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision' (which makes passes at compilers) written by James Hacker. <signature of Ty Coon>, 1 April 1989 Ty Coon, President of Vice This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License. ---------- Separator ---------- Dependency: org.opensearch:opensearch-core Copyright: OpenSearch Contributors === Source URL: https://github.com/opensearch-project/OpenSearch/tree/2.15.0/libs/core License: Apache 2.0 APACHE 2.0 ( same as org.opensearch:opensearch) ---------- Separator ---------- Dependency: com.fasterxml.jackson.core:jackson-core Copyright: FasterXML,LLC === Source URL: https://github.com/FasterXML/jackson-core/tree/jackson-core-2.17.1 License: Apache 2.0 ./LICENSE Apache 2.0 ( same as org.opensearch:opensearch) ---------- Separator ---------- ./src/main/resources/META-INF/jackson-core-NOTICE # Jackson JSON processor Jackson is a high-performance, Free/Open Source JSON processing library. For the purposes<br>of this License, Derivative Works shall not include works that remain<br>separable from, or merely link (or bind by name) to the interfaces of,<br>the Work and Derivative Works thereof.<br>"Contribution" shall mean any work of authorship, including<br>the original version of the Work and any modifications or additions<br>to that Work or Derivative Works thereof, that is intentionally<br>submitted to Licensor for inclusion in the Work by the copyright owner<br>or by an individual or Legal Entity authorized to submit on behalf of<br>the copyright owner. For the purposes of this definition, "submitted"<br>means any form of electronic, verbal, or written communication sent<br>to the Licensor or its representatives, including but not limited to<br>communication on electronic mailing lists, source code control systems,<br>and issue tracking systems that are managed by, or on behalf of, the<br>Licensor for the purpose of discussing and improving the Work, but<br>excluding communication that is conspicuously marked or otherwise<br>designated in writing by the copyright owner as "Not a Contribution."<br>"Contributor" shall mean Licensor and any individual or Legal Entity<br>on behalf of whom a Contribution has been received by Licensor and<br>subsequently incorporated within the Work.<br>2. Grant of Copyright License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>copyright license to reproduce, prepare Derivative Works of,<br>publicly display, publicly perform, sublicense, and distribute the<br>Work and such Derivative Works in Source or Object form.<br>3. Grant of Patent License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual, |

|---|---|---|
| | | worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>(except as stated in this section) patent license to make, have made,<br>use, offer to sell, sell, import, and otherwise transfer the Work,<br>where such license applies only to those patent claims licensable<br>by such Contributor that are necessarily infringed by their<br>Contribution(s) alone or by combination of their Contribution(s)<br>with the Work to which such Contribution(s) was submitted. If You<br>institute patent litigation against any entity (including a<br>cross-claim or counterclaim in a lawsuit) alleging that the Work<br>or a Contribution incorporated within the Work constitutes direct<br>or contributory patent infringement, then any patent licenses<br>granted to You under this License for that Work shall terminate<br>as of the date such litigation is filed.<br>4. Redistribution. You may reproduce and distribute copies of the<br>Work or Derivative Works thereof in any medium, with or without<br>modifications, and in Source or Object form, provided that You<br>meet the following conditions:<br>(a) You must give any other recipients of the Work or<br>Derivative Works a copy of this License; and<br>(b) You must cause any modified files to carry prominent notices<br>stating that You changed the files; and<br>(c) You must retain, in the Source form of any Derivative Works<br>that You distribute, all copyright, patent, trademark, and<br>attribution notices from the Source form of the Work,<br>excluding those notices that do not pertain to any part of<br>the Derivative Works; and<br>(d) If the Work includes a "NOTICE" text file as part of its<br>distribution, then any Derivative Works that You distribute must<br>include a readable copy of the attribution notices contained<br>within such NOTICE file, excluding those notices that do not<br>pertain to any part of the Derivative Works, in at |

| | | least one<br>of the following places: within a NOTICE text file distributed<br>as part of the Derivative Works; within the Source form or<br>documentation, if provided along with the Derivative Works; or,<br>within a display generated by the Derivative Works, if and<br>wherever such third-party notices normally appear. The contents<br>of the NOTICE file are for informational purposes only and<br>do not modify the License. You may add Your own attribution<br>notices within Derivative Works that You distribute, alongside<br>or as an addendum to the NOTICE text from the Work, provided<br>that such additional attribution notices cannot be construed<br>as modifying the License.<br>You may add Your own copyright statement to Your modifications and<br>may provide additional or different license terms and conditions<br>for use, reproduction, or distribution of Your modifications, or<br>for any such Derivative Works as a whole, provided Your use,<br>reproduction, and distribution of the Work otherwise complies with<br>the conditions stated in this License.<br>5. Submission of Contributions. Unless You explicitly state otherwise,<br>any Contribution intentionally submitted for inclusion in the Work<br>by You to the Licensor shall be under the terms and conditions of<br>this License, without any additional terms or conditions.<br>Notwithstanding the above, nothing herein shall supersede or modify<br>the terms of any separate license agreement you may have executed<br>with Licensor regarding such Contributions.<br>6. Trademarks. This License does not grant permission to use the trade<br>names, trademarks, service marks, or product names of the Licensor,<br>except as required for reasonable and customary use in describing the<br>origin of the Work and reproducing the content of the NOTICE file.<br>7. Disclaimer of Warranty. Unless required by applicable law or |

| | | agreed to in writing, Licensor provides the Work (and each<br>Contributor provides its Contributions) on an "AS IS" BASIS,<br>WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or<br>implied, including, without limitation, any warranties or conditions<br>of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A<br>PARTICULAR PURPOSE. You are solely responsible for determining the<br>appropriateness of using or redistributing the Work and assume any<br>risks associated with Your exercise of permissions under this License.<br>8. Limitation of Liability. In no event and under no legal theory,<br>whether in tort (including negligence), contract, or otherwise,<br>unless required by applicable law (such as deliberate and grossly<br>negligent acts) or agreed to in writing, shall any Contributor be<br>liable to You for damages, including any direct, indirect, special,<br>incidental, or consequential damages of any character arising as a<br>result of this License or out of the use or inability to use the<br>Work (including but not limited to damages for loss of goodwill,<br>work stoppage, computer failure or malfunction, or any and all<br>other commercial damages or losses), even if such Contributor<br>has been advised of the possibility of such damages.<br>9. Accepting Warranty or Additional Liability. While redistributing<br>the Work or Derivative Works thereof, You may choose to offer,<br>and charge a fee for, acceptance of support, warranty, indemnity,<br>or other liability obligations and/or rights consistent with this<br>License. However, in accepting such obligations, You may act only<br>on Your own behalf and on Your sole responsibility, not on behalf<br>of any other Contributor, and only if You agree to indemnify,<br>defend, and hold each Contributor harmless for any liability<br>incurred by, or claims asserted against, such Contributor by reason |
