By contrast, the GNU General Public License is intended to<br>guarantee your freedom to share and change free software--to make sure the<br>software is free for all its users. This General Public License applies to<br>most of the Free Software Foundation's software and to any other program whose<br>authors commit to using it. (Some other Free Software Foundation software is<br>covered by the GNU Library General Public License instead.) You can apply it to<br>your programs, too.<br>When we speak of free software, we are referring to freedom, not price. Our<br>General Public Licenses are designed to make sure that you have the freedom to<br>distribute copies of free software (and charge for this service if you wish),<br>that you receive source code or can get it if you want it, that you can change<br>the software or use pieces of it in new free programs; and that you know you<br>can do these things.<br>To protect your rights, we need to make restrictions that forbid anyone to deny |

| | | |
|---|---|---|
| | | you these rights or to ask you to surrender the rights. These restrictions<br>translate to certain responsibilities for you if you distribute copies of the<br>software, or if you modify it.<br>For example, if you distribute copies of such a program, whether gratis or for<br>a fee, you must give the recipients all the rights that you have. You must<br>make sure that they, too, receive or can get the source code. And you must<br>show them these terms so they know their rights.<br>We protect your rights with two steps: (1) copyright the software, and (2)<br>offer you this license which gives you legal permission to copy, distribute<br>and/or modify the software.<br>Also, for each author's protection and ours, we want to make certain that<br>everyone understands that there is no warranty for this free software. If the<br>software is modified by someone else and passed on, we want its recipients to<br>know that what they have is not the original, so that any problems introduced<br>by others will not reflect on the original authors' reputations.<br>Finally, any free program is threatened constantly by software patents. We<br>wish to avoid the danger that redistributors of a free program will<br>individually obtain patent licenses, in effect making the program proprietary.<br>To prevent this, we have made it clear that any patent must be licensed for<br>everyone's free use or not licensed at all.<br>The precise terms and conditions for copying, distribution and modification<br>follow.<br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br>0. This License applies to any program or other work which contains a notice<br>placed by the copyright holder saying it may be distributed under the terms of<br>this General Public License. The "Program", below, refers to any such program<br>or work, and a "work based on the Program" means either the Program or any<br>derivative work under copyright law: that is to say, a work containing the<br>Program or a portion of it, either verbatim or with modifications and/or<br>translated into another language. (Hereinafter, translation is included<br>without limitation in the term "modification".) Each |

| | | |
|---|---|---|
| | | licensee is addressed as<br>"you".<br>Activities other than copying, distribution and<br>modification are not covered by<br>this License; they are outside its scope. The act of<br>running the Program is<br>not restricted, and the output from the Program is<br>covered only if its contents<br>constitute a work based on the Program (independent<br>of having been made by<br>running the Program). Whether that is true depends<br>on what the Program does.<br>1. You may copy and distribute verbatim copies of the<br>Program's source code as<br>you receive it, in any medium, provided that you<br>conspicuously and<br>appropriately publish on each copy an appropriate<br>copyright notice and<br>disclaimer of warranty; keep intact all the notices that<br>refer to this License<br>and to the absence of any warranty; and give any other<br>recipients of the<br>Program a copy of this License along with the<br>Program.<br>You may charge a fee for the physical act of<br>transferring a copy, and you may<br>at your option offer warranty protection in exchange for<br>a fee.<br>2. You may modify your copy or copies of the Program<br>or any portion of it, thus<br>forming a work based on the Program, and copy and<br>distribute such modifications<br>or work under the terms of Section 1 above, provided<br>that you also meet all of<br>these conditions:<br>a) You must cause the modified files to carry<br>prominent notices stating<br>that you changed the files and the date of any<br>change.<br>b) You must cause any work that you distribute or<br>publish, that in whole or<br>in part contains or is derived from the Program or<br>any part thereof, to be<br>licensed as a whole at no charge to all third parties<br>under the terms of<br>this License.<br>c) If the modified program normally reads<br>commands interactively when run,<br>you must cause it, when started running for such<br>interactive use in the<br>most ordinary way, to print or display an<br>announcement including an<br>appropriate copyright notice and a notice that there<br>is no warranty (or<br>else, saying that you provide a warranty) and that<br>users may redistribute |

| | | |
|---|---|---|
| | | the program under these conditions, and telling the user how to view a copy<br>of this License. (Exception: if the Program itself is interactive but does<br>not normally print such an announcement, your work based on the Program is<br>not required to print an announcement.)<br>These requirements apply to the modified work as a whole. If identifiable<br>sections of that work are not derived from the Program, and can be reasonably<br>considered independent and separate works in themselves, then this License, and<br>its terms, do not apply to those sections when you distribute them as separate<br>works. But when you distribute the same sections as part of a whole which is a<br>work based on the Program, the distribution of the whole must be on the terms<br>of this License, whose permissions for other licensees extend to the entire<br>whole, and thus to each and every part regardless of who wrote it.<br>Thus, it is not the intent of this section to claim rights or contest your<br>rights to work written entirely by you; rather, the intent is to exercise the<br>right to control the distribution of derivative or collective works based on<br>the Program.<br>In addition, mere aggregation of another work not based on the Program with the<br>Program (or with a work based on the Program) on a volume of a storage or<br>distribution medium does not bring the other work under the scope of this<br>License.<br>3. You may copy and distribute the Program (or a work based on it, under<br>Section 2) in object code or executable form under the terms of Sections 1 and<br>2 above provided that you also do one of the following:<br>a) Accompany it with the complete corresponding machine-readable source<br>code, which must be distributed under the terms of Sections 1 and 2 above<br>on a medium customarily used for software interchange; or,<br>b) Accompany it with a written offer, valid for at least three years, to<br>give any third party, for a charge no more than your cost of physically<br>performing source distribution, a complete machine-readable copy of the<br>corresponding source code, to be distributed under the terms of Sections 1 |

| | | |
|---|---|---|
| | | and 2 above on a medium customarily used for software interchange; or,<br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This alternative is allowed only<br>for noncommercial distribution and only if you received the program in<br>object code or executable form with such an offer, in accord with<br>Subsection b above.)<br>The source code for a work means the preferred form of the work for making<br>modifications to it. For an executable work, complete source code means all<br>the source code for all modules it contains, plus any associated interface<br>definition files, plus the scripts used to control compilation and installation<br>of the executable. However, as a special exception, the source code<br>distributed need not include anything that is normally distributed (in either<br>source or binary form) with the major components (compiler, kernel, and so on)<br>of the operating system on which the executable runs, unless that component<br>itself accompanies the executable.<br>If distribution of executable or object code is made by offering access to copy<br>from a designated place, then offering equivalent access to copy the source<br>code from the same place counts as distribution of the source code, even though<br>third parties are not compelled to copy the source along with the object code.<br>4. You may not copy, modify, sublicense, or distribute the Program except as<br>expressly provided under this License. Any attempt otherwise to copy, modify,<br>sublicense or distribute the Program is void, and will automatically terminate<br>your rights under this License. However, parties who have received copies, or<br>rights, from you under this License will not have their licenses terminated so<br>long as such parties remain in full compliance.<br>5. You are not required to accept this License, since you have not signed it.<br>However, nothing else grants you permission to modify or distribute the Program<br>or its derivative works. These actions are prohibited by law if you do not<br>accept this License. Therefore, by modifying or distributing the Program (or<br>any work based on the Program), you indicate your |

| | | |
|---|---|---|
| | | acceptance of this License to<br>do so, and all its terms and conditions for copying, distributing or modifying<br>the Program or works based on it.<br>6. Each time you redistribute the Program (or any work based on the Program),<br>the recipient automatically receives a license from the original licensor to<br>copy, distribute or modify the Program subject to these terms and conditions.<br>You may not impose any further restrictions on the recipients' exercise of the<br>rights granted herein. You are not responsible for enforcing compliance by<br>third parties to this License.<br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues), conditions<br>are imposed on you (whether by court order, agreement or otherwise) that<br>contradict the conditions of this License, they do not excuse you from the<br>conditions of this License. If you cannot distribute so as to satisfy<br>simultaneously your obligations under this License and any other pertinent<br>obligations, then as a consequence you may not distribute the Program at all.<br>For example, if a patent license would not permit royalty-free redistribution<br>of the Program by all those who receive copies directly or indirectly through<br>you, then the only way you could satisfy both it and this License would be to<br>refrain entirely from distribution of the Program.<br>If any portion of this section is held invalid or unenforceable under any<br>particular circumstance, the balance of the section is intended to apply and<br>the section as a whole is intended to apply in other circumstances.<br>It is not the purpose of this section to induce you to infringe any patents or<br>other property right claims or to contest validity of any such claims; this<br>section has the sole purpose of protecting the integrity of the free software<br>distribution system, which is implemented by public license practices. Many<br>people have made generous contributions to the wide range of software<br>distributed through that system in reliance on consistent application of that<br>system; it is up to the author/donor to decide if he or she is willing to |

| | | |
|---|---|---|
| | | distribute software through any other system and a licensee cannot impose that<br>choice.<br>This section is intended to make thoroughly clear what is believed to be a<br>consequence of the rest of this License.<br>8. If the distribution and/or use of the Program is restricted in certain<br>countries either by patents or by copyrighted interfaces, the original<br>copyright holder who places the Program under this License may add an explicit<br>geographical distribution limitation excluding those countries, so that<br>distribution is permitted only in or among countries not thus excluded. In<br>such case, this License incorporates the limitation as if written in the body<br>of this License.<br>9. The Free Software Foundation may publish revised and/or new versions of the<br>General Public License from time to time. Such new versions will be similar in<br>spirit to the present version, but may differ in detail to address new problems<br>or concerns.<br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any later<br>version", you have the option of following the terms and conditions either of<br>that version or of any later version published by the Free Software Foundation.<br>If the Program does not specify a version number of this License, you may<br>choose any version ever published by the Free Software Foundation.<br>10. If you wish to incorporate parts of the Program into other free programs<br>whose distribution conditions are different, write to the author to ask for<br>permission. For software which is copyrighted by the Free Software Foundation,<br>write to the Free Software Foundation; we sometimes make exceptions for this.<br>Our decision will be guided by the two goals of preserving the free status of<br>all derivatives of our free software and of promoting the sharing and reuse of<br>software generally.<br>NO WARRANTY<br>11. | | | |
|---|---|---|
| | | 1. DEFINITIONS<br>"Contribution" means:<br>a) in the case of the initial Contributor, the initial code and<br>documentation distributed under this Agreement, and<br>b) in the case of each subsequent Contributor:<br>i) changes to the Program, and<br>ii) additions to the Program;<br>where such changes and/or additions to the Program originate from and are<br>distributed by that particular Contributor. A Contribution 'originates'<br>from a Contributor if it was added to the Program by such Contributor<br>itself or anyone acting on such Contributor's behalf. Contributions do not<br>include additions to the Program which: (i) are separate modules of<br>software distributed in conjunction with the Program under their own<br>license agreement, and (ii) are not derivative works of the Program.<br>"Contributor" means any person or entity that distributes the Program.<br>"Licensed Patents " mean patent claims licensable by a Contributor which are<br>necessarily infringed by the use or sale of its Contribution alone or when<br>combined with the Program.<br>"Program" means the Contributions distributed in accordance with this<br>Agreement.<br>"Recipient" means anyone who receives the Program under this Agreement,<br>including all Contributors.<br>2. GRANT OF RIGHTS<br>a) Subject to the terms of this Agreement, each Contributor hereby grants<br>Recipient a non-exclusive, worldwide, royalty-free copyright license to<br>reproduce, prepare derivative works of, publicly display, publicly perform,<br>distribute and sublicense the Contribution of such Contributor, if any, and<br>such derivative works, in source code and object code form.<br>b) Subject to the terms of this Agreement, each Contributor hereby grants<br>Recipient a non-exclusive, worldwide, royalty-free patent license under<br>Licensed Patents to make, use, sell, offer to sell, import and otherwise<br>transfer the Contribution of such Contributor, if any, in source code and<br>object code form. This patent license shall apply to |

| | | |
|---|---|---|
| | | the combination of the<br>Contribution and the Program if, at the time the Contribution is added by<br>the Contributor, such addition of the Contribution causes such combination<br>to be covered by the Licensed Patents. The patent license shall not apply<br>to any other combinations which include the Contribution. No hardware per<br>se is licensed hereunder.<br>c) Recipient understands that although each Contributor grants the licenses<br>to its Contributions set forth herein, no assurances are provided by any<br>Contributor that the Program does not infringe the patent or other<br>intellectual property rights of any other entity. Each Contributor<br>disclaims any liability to Recipient for claims brought by any other entity<br>based on infringement of intellectual property rights or otherwise. As a<br>condition to exercising the rights and licenses granted hereunder, each<br>Recipient hereby assumes sole responsibility to secure any other<br>intellectual property rights needed, if any. For example, if a third party<br>patent license is required to allow Recipient to distribute the Program, it<br>is Recipient's responsibility to acquire that license before distributing<br>the Program.<br>d) Each Contributor represents that to its knowledge it has sufficient<br>copyright rights in its Contribution, if any, to grant the copyright<br>license set forth in this Agreement.<br>3. REQUIREMENTS<br>A Contributor may choose to distribute the Program in object code form under<br>its own license agreement, provided that:<br>a) it complies with the terms and conditions of this Agreement; and<br>b) its license agreement:<br>i) effectively disclaims on behalf of all Contributors all warranties and<br>conditions, express and implied, including warranties or conditions of<br>title and non-infringement, and implied warranties or conditions of<br>merchantability and fitness for a particular purpose;<br>ii) effectively excludes on behalf of all Contributors all liability for<br>damages, including direct, indirect, special, incidental and consequential |

| | | |
|---|---|---|
| | | damages, such as lost profits;<br>iii) states that any provisions which differ from this Agreement are<br>offered by that Contributor alone and not by any other party; and<br>iv) states that source code for the Program is available from such<br>Contributor, and informs licensees how to obtain it in a reasonable manner<br>on or through a medium customarily used for software exchange.<br>When the Program is made available in source code form:<br>a) it must be made available under this Agreement; and<br>b) a copy of this Agreement must be included with each copy of the Program.<br>Contributors may not remove or alter any copyright notices contained<br>within the Program.<br>Each Contributor must identify itself as the originator of its Contribution, if<br>any, in a manner that reasonably allows subsequent Recipients to identify the<br>originator of the Contribution.<br>4. COMMERCIAL DISTRIBUTION<br>Commercial distributors of software may accept certain responsibilities with<br>respect to end users, business partners and the like. While this license is<br>intended to facilitate the commercial use of the Program, the Contributor who<br>includes the Program in a commercial product offering should do so in a manner<br>which does not create potential liability for other Contributors. Therefore, if<br>a Contributor includes the Program in a commercial product offering, such<br>Contributor ("Commercial Contributor") hereby agrees to defend and indemnify<br>every other Contributor ("Indemnified Contributor") against any losses, damages<br>and costs (collectively "Losses") arising from claims, lawsuits and other legal<br>actions brought by a third party against the Indemnified Contributor to the<br>extent caused by the acts or omissions of such Commercial Contributor in<br>connection with its distribution of the Program in a commercial product<br>offering. The obligations in this section do not apply to any claims or Losses<br>relating to any actual or alleged intellectual property infringement. In order<br>to qualify, an Indemnified Contributor must: a) promptly notify the Commercial |

| | | |
|---|---|---|
| | | Contributor in writing of such claim, and b) allow the Commercial Contributor<br>to control, and cooperate with the Commercial Contributor in, the defense and<br>any related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br>For example, a Contributor might include the Program in a commercial product<br>offering, Product X. That Contributor is then a Commercial Contributor. If that<br>Commercial Contributor then makes performance claims, or offers warranties<br>related to Product X, those performance claims and warranties are such<br>Commercial Contributor's responsibility alone. Under this section, the<br>Commercial Contributor would have to defend claims against the other<br>Contributors related to those performance claims and warranties, and if a court<br>requires any other Contributor to pay any damages as a result, the Commercial<br>Contributor must pay those damages.<br>5. NO WARRANTY<br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN<br>"AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using<br>and distributing the Program and assumes all risks associated with its exercise<br>of rights under this Agreement, including but not limited to the risks and<br>costs of program errors, compliance with applicable laws, damage to or loss of<br>data, programs or equipment, and unavailability or interruption of operations.<br>6. DISCLAIMER OF LIABILITY<br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL,<br>SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST<br>PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY |

| | | |
|---|---|---|
| | | WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.<br>7. GENERAL<br>If any provision of this Agreement is invalid or unenforceable under applicable<br>law, it shall not affect the validity or enforceability of the remainder of the<br>terms of this Agreement, and without further action by the parties hereto, such<br>provision shall be reformed to the minimum extent necessary to make such<br>provision valid and enforceable.<br>If Recipient institutes patent litigation against a Contributor with respect to<br>a patent applicable to software (including a cross-claim or counterclaim in a<br>lawsuit), then any patent licenses granted by that Contributor to such<br>Recipient under this Agreement shall terminate as of the date such litigation<br>is filed. In addition, if Recipient institutes patent litigation against any<br>entity (including a cross-claim or counterclaim in a lawsuit) alleging that the<br>Program itself (excluding combinations of the Program with other software or<br>hardware) infringes such Recipient's patent(s), then such Recipient's rights<br>granted under Section 2(b) shall terminate as of the date such litigation is<br>filed.<br>All Recipient's rights under this Agreement shall terminate if it fails to<br>comply with any of the material terms or conditions of this Agreement and does<br>not cure such failure in a reasonable period of time after becoming aware of<br>such noncompliance. If all Recipient's rights under this Agreement terminate,<br>Recipient agrees to cease use and distribution of the Program as soon as<br>reasonably practicable. However, Recipient's obligations under this Agreement<br>and any licenses granted by Recipient relating to the Program shall continue<br>and survive.<br>Everyone is permitted to copy and distribute copies of this Agreement, but in<br>order to avoid inconsistency the Agreement is copyrighted and may only be<br>modified in the following manner. The Agreement Steward reserves the right to<br>publish new versions (including revisions) of this Agreement from time to time. |

| | | |
|---|---|---|
| | | No one other than the Agreement Steward has the right to modify this Agreement.<br>IBM is the initial Agreement Steward. IBM may assign the responsibility to<br>serve as the Agreement Steward to a suitable separate entity. Each new version<br>of the Agreement will be given a distinguishing version number. The Program<br>(including Contributions) may always be distributed subject to the version of<br>the Agreement under which it was received. In addition, after a new version of<br>the Agreement is published, Contributor may elect to distribute the Program<br>(including its Contributions) under the new version.<br>Except as expressly stated<br>in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to<br>the intellectual property of any Contributor under this Agreement, whether<br>expressly, by implication, estoppel or otherwise. All rights in the Program not<br>expressly granted under this Agreement are reserved.<br>This Agreement is governed by the laws of the State of New York and the<br>intellectual property laws of the United States of America. No party to this<br>Agreement will bring a legal action under this Agreement more than one year<br>after the cause of action arose. | | | ---------- Separator ----------<br>./jre_emul/apple_apsl/LICENSE<br>APPLE PUBLIC SOURCE LICENSE<br>Version 2.0 - August 6, 2003<br>Please read this License carefully before downloading this software. By downloading or using this software, you are agreeing to be bound by the terms of this License. If you do not or cannot agree to the terms of this License, please do not download or use the software.<br>Apple Note: In January 2007, Apple changed its corporate name from "Apple Computer, Inc." to "Apple Inc." This change has been reflected below and copyright years updated, but no other changes have been made to the APSL 2.0.<br>1. General; Definitions. This License applies to any program or other work which Apple Inc. ("Apple") makes publicly available and which contains a notice placed by Apple identifying such program or work as "Original Code" and stating that it is subject to the terms of this Apple Public Source License version 2.0 ("License"). As used in this License:<br>1.1 "Applicable Patent Rights" mean: (a) in the case where Apple is the grantor of rights, (i) claims of patents that are now or hereafter acquired, owned by or assigned to Apple and (ii) that cover subject matter contained in the Original Code, but only to the extent necessary to use, reproduce and/or distribute the Original Code without infringement; and (b) in the case where You are the grantor of rights, (i) claims of patents that are now or hereafter acquired, owned by or assigned to You and (ii) that cover subject matter in Your Modifications, taken alone or in combination with Original Code.<br>1.2 "Contributor" means any person or entity that creates or contributes to the creation of Modifications.<br>1.3 "Covered Code" means the Original Code, Modifications, the combination of Original Code and any Modifications, and/or any respective portions thereof.<br>1.4 "Externally Deploy" means: (a) to sublicense, distribute or otherwise make Covered Code available, directly or indirectly, to anyone other than You; and/or (b) to use Covered Code, alone or as part of a Larger Work, in any way to provide a service, including but not limited to delivery of content, through electronic communication with a client other than You.<br>1.5 "Larger Work" means a work which combines Covered Code or portions thereof with code not governed by the terms of this License.<br>1.6 "Modifications" mean any addition to, deletion from, and/or change to, the substance and/or structure of the Original Code, any previous Modifications, the combination of Original Code and any previous Modifications, and/or any respective portions thereof. When code is released as a series of files, a |

| | | |
|---|---|---|
| | | Modification is: (a) any addition to or deletion from the contents of a file containing Covered Code; and/or (b) any new file or other representation of computer program statements that contains any part of Covered Code.<br>1.7 "Original Code" means (a) the Source Code of a program or other work as originally made available by Apple under this License, including the Source Code of any updates or upgrades to such programs or works made available by Apple under this License, and that has been expressly identified by Apple as such in the header file(s) of such work; and (b) the object code compiled from such Source Code and originally made available by Apple under this License<br>1.8 "Source Code" means the human readable form of a program or other work that is suitable for making modifications to it, including all modules it contains, plus any associated interface definition files, scripts used to control compilation and installation of an executable (object code).<br>1.9 "You" or "Your" means an individual or a legal entity exercising rights under this License. For legal entities, "You" or "Your" includes any entity which controls, is controlled by, or is under common control with, You, where "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of fifty percent (50%) or more of the outstanding shares or beneficial ownership of such entity.<br>2. Permitted Uses; Conditions & Restrictions. Subject to the terms and conditions of this License, Apple hereby grants You, effective on the date You accept this License and download the Original Code, a world-wide, royalty-free, non-exclusive license, to the extent of Apple's Applicable Patent Rights and copyrights covering the Original Code, to do the following:<br>2.1 Unmodified Code. You may use, reproduce, display, perform, internally distribute within Your organization, and Externally Deploy verbatim, unmodified copies of the Original Code, for commercial or non-commercial purposes, provided that in each instance:<br>(a) You must retain and reproduce in all copies of Original Code the copyright and other proprietary notices and disclaimers of Apple as they appear in the Original Code, and keep intact all notices in the Original Code that refer to this License; and<br>(b) You must include a copy of this License with every copy of Source Code of Covered Code and documentation You distribute or Externally Deploy, and You may not offer or impose any terms on such Source Code that alter or restrict this License or the recipients' rights hereunder, except as permitted under Section 6.<br>2.2 Modified Code. You may modify Covered Code |

| | | |
|---|---|---|
| | | and use, reproduce, display, perform, internally distribute within Your organization, and Externally Deploy Your Modifications and Covered Code, for commercial or non-commercial purposes, provided that in each instance You also meet all of these conditions:<br>(a) You must satisfy all the conditions of Section 2.1 with respect to the Source Code of the Covered Code;<br>(b) You must duplicate, to the extent it does not already exist, the notice in Exhibit A in each file of the Source Code of all Your Modifications, and cause the modified files to carry prominent notices stating that You changed the files and the date of any change; and<br>(c) If You Externally Deploy Your Modifications, You must make Source Code of all Your Externally Deployed Modifications either available to those to whom You have Externally Deployed Your Modifications, or publicly available. Source Code of Your Externally Deployed Modifications must be released under the terms set forth in this License, including the license grants set forth in Section 3 below, for as long as you Externally Deploy the Covered Code or twelve (12) months from the date of initial External Deployment, whichever is longer. You should preferably distribute the Source Code of Your Externally Deployed Modifications electronically (e.g. download from a web site).<br>2.3 Distribution of Executable Versions. In addition, if You Externally Deploy Covered Code (Original Code and/or Modifications) in object code, executable form only, You must include a prominent notice, in the code itself as well as in related documentation, stating that Source Code of the Covered Code is available under the terms of this License with information on how and where to obtain such Source Code.<br>2.4 Third Party Rights. You expressly acknowledge and agree that although Apple and each Contributor grants the licenses to their respective portions of the Covered Code set forth herein, no assurances are provided by Apple or any Contributor that the Covered Code does not infringe the patent or other intellectual property rights of any other entity. Apple and each Contributor disclaim any liability to You for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, You hereby assume sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow You to distribute the Covered Code, it is Your responsibility to acquire that license before distributing the Covered Code.<br>3. Your Grants. In consideration of, and as a condition to, the licenses granted to You under this License, You hereby grant to any person or entity receiving or distributing Covered Code under this License a non- |

|---|---|---|
| | | exclusive, royalty-free, perpetual, irrevocable license, under Your Applicable Patent Rights and other intellectual property rights (other than patent) owned or controlled by You, to use, reproduce, display, perform, modify, sublicense, distribute and Externally Deploy Your Modifications of the same scope and extent as Apple's licenses under Sections 2.1 and 2.2 above.<br>4. Larger Works. You may create a Larger Work by combining Covered Code with other code not governed by the terms of this License and distribute the Larger Work as a single product. In each such instance, You must make sure the requirements of this License are fulfilled for the Covered Code or any portion thereof.<br>5. Limitations on Patent License. Except as expressly stated in Section 2, no other patent rights, express or implied, are granted by Apple herein. Modifications and/or Larger Works may require additional patent licenses from Apple which Apple may grant in its sole discretion.<br>6. Additional Terms. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations and/or other rights consistent with the scope of the license granted herein ("Additional Terms") to one or more recipients of Covered Code. However, You may do so only on Your own behalf and as Your sole responsibility, and not on behalf of Apple or any Contributor. You must obtain the recipient's agreement that any such Additional Terms are offered by You alone, and You hereby agree to indemnify, defend and hold Apple and every Contributor harmless for any liability incurred by or claims asserted against Apple or such Contributor by reason of any such Additional Terms.<br>7. Versions of the License. Apple may publish revised and/or new versions of this License from time to time. Each version will be given a distinguishing version number. Once Original Code has been published under a particular version of this License, You may continue to use it under the terms of that version. You may also choose to use such Original Code under the terms of any subsequent version of this License published by Apple. No one other than Apple has the right to modify the terms applicable to Covered Code created under this License.<br>8. NO WARRANTY OR SUPPORT. The Covered Code may contain in whole or in part pre-release, untested, or not fully tested works. The Covered Code may contain errors that could cause failures or loss of data, and may be incomplete or contain inaccuracies. You expressly acknowledge and agree that use of the Covered Code, or any portion thereof, is at Your sole and entire risk. THE COVERED CODE IS PROVIDED "AS IS" AND WITHOUT WARRANTY, UPGRADES OR SUPPORT OF ANY KIND AND APPLE AND APPLE'S LICENSOR(S) (COLLECTIVELY |

APPLE AND EACH CONTRIBUTOR DOES NOT WARRANT AGAINST INTERFERENCE WITH YOUR ENJOYMENT OF THE COVERED CODE, THAT THE FUNCTIONS CONTAINED IN THE COVERED CODE WILL MEET YOUR REQUIREMENTS, THAT THE OPERATION OF THE COVERED CODE WILL BE UNINTERRUPTED OR ERROR-FREE, OR THAT DEFECTS IN THE COVERED CODE WILL BE CORRECTED. NO ORAL OR WRITTEN INFORMATION OR ADVICE GIVEN BY APPLE, AN APPLE AUTHORIZED REPRESENTATIVE OR ANY CONTRIBUTOR SHALL CREATE A WARRANTY. You acknowledge that the Covered Code is not intended for use in the operation of nuclear facilities, aircraft navigation, communication systems, or air traffic control machines in which case the failure of the Covered Code could lead to death, personal injury, or severe physical or environmental damage.<br>9. LIMITATION OF LIABILITY. TO THE EXTENT NOT PROHIBITED BY LAW, IN NO EVENT SHALL APPLE OR ANY CONTRIBUTOR BE LIABLE FOR ANY INCIDENTAL, SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES ARISING OUT OF OR RELATING TO THIS LICENSE OR YOUR USE OR INABILITY TO USE THE COVERED CODE, OR ANY PORTION THEREOF, WHETHER UNDER A THEORY OF CONTRACT, WARRANTY, TORT (INCLUDING NEGLIGENCE), PRODUCTS LIABILITY OR OTHERWISE, EVEN IF APPLE OR SUCH CONTRIBUTOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND NOTWITHSTANDING THE FAILURE OF ESSENTIAL PURPOSE OF ANY REMEDY. SOME JURISDICTIONS DO NOT ALLOW THE LIMITATION OF LIABILITY OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS LIMITATION MAY NOT APPLY TO YOU. In no event shall Apple's total liability to You for all damages (other than as may be required by applicable law) under this License exceed the amount of fifty dollars ($50.00).<br>10. Trademarks. This License does not grant any rights to use the trademarks or trade names "Apple", "Mac", "Mac OS", "QuickTime", "QuickTime Streaming Server" or any other trademarks, service marks, logos or trade names belonging to Apple (collectively "Apple Marks") or to any trademark, service mark, logo or |

| | | |
|---|---|---|
| | | trade name belonging to any Contributor. You agree not to use any Apple Marks in or as part of the name of products derived from the Original Code or to endorse or promote products derived from the Original Code other than as expressly permitted by and in strict compliance at all times with Apple's third party trademark usage guidelines which are posted at http://www.apple.com/legal/guidelinesfor3rdparties.html.<br>11. Ownership. Subject to the licenses granted under this License, each Contributor retains all rights, title and interest in and to any Modifications made by such Contributor. Apple retains all rights, title and interest in and to the Original Code and any Modifications made by or on behalf of Apple ("Apple Modifications"), and such Apple Modifications will not be automatically subject to this License. Apple may, at its sole discretion, choose to license such Apple Modifications under this License, or on different terms from those contained in this License or may choose not to license them at all.<br>12. Termination.<br>12.1 Termination. This License and the rights granted hereunder will terminate:<br>(a) automatically without notice from Apple if You fail to comply with any term(s) of this License and fail to cure such breach within 30 days of becoming aware of such breach;<br>(b) immediately in the event of the circumstances described in Section 13.5(b); or<br>(c) automatically without notice from Apple if You, at any time during the term of this License, commence an action for patent infringement against Apple; provided that Apple did not first commence an action for patent infringement against You in that instance.<br>12.2 Effect of Termination. Upon termination, You agree to immediately stop any further use, reproduction, modification, sublicensing and distribution of the Covered Code. All sublicenses to the Covered Code which have been properly granted prior to termination shall survive any termination of this License. Provisions which, by their nature, should remain in effect beyond the termination of this License shall survive, including but not limited to Sections 3, 5, 8, 9, 10, 11, 12.2 and 13. No party will be liable to any other for compensation, indemnity or damages of any sort solely as a result of terminating this License in accordance with its terms, and termination of this License will be without prejudice to any other right or remedy of any party.<br>13. Miscellaneous.<br>13.1 Government End Users. The Covered Code is a "commercial item" as defined in FAR 2.101. Government software and technical data rights in the Covered Code include only those rights customarily |

| | | provided to the public as defined in this License. This customary commercial license in technical data and software is provided in accordance with FAR 12.211 (Technical Data) and 12.212 (Computer Software) and, for Department of Defense purchases, DFAR 252.227-7015 (Technical Data -- Commercial Items) and 227.7202-3 (Rights in Commercial Computer Software or Computer Software Documentation). Accordingly, all U.S. Government End Users acquire Covered Code with only those rights set forth herein.<br>13.2 Relationship of Parties. This License will not be construed as creating an agency, partnership, joint venture or any other form of legal association between or among You, Apple or any Contributor, and You will not represent to the contrary, whether expressly, by implication, appearance or otherwise.<br>13.3 Independent Development. Nothing in this License will impair Apple's right to acquire, license, develop, have others develop for it, market and/or distribute technology or products that perform the same or similar functions as, or otherwise compete with, Modifications, Larger Works, technology or products that You may develop, produce, market or distribute.<br>13.4 Waiver; Construction. Failure by Apple or any Contributor to enforce any provision of this License will not be deemed a waiver of future enforcement of that or any other provision. Any law or regulation which provides that the language of a contract shall be construed against the drafter will not apply to this License.<br>13.5 Severability. (a) If for any reason a court of competent jurisdiction finds any provision of this License, or portion thereof, to be unenforceable, that provision of the License will be enforced to the maximum extent permissible so as to effect the economic benefits and intent of the parties, and the remainder of this License will continue in full force and effect. (b) Notwithstanding the foregoing, if applicable law prohibits or restricts You from fully and/or specifically complying with Sections 2 and/or 3 or prevents the enforceability of either of those Sections, this License will immediately terminate and You must immediately discontinue any use of the Covered Code and destroy all copies of it that are in your possession or control.<br>13.6 Dispute Resolution. Any litigation or other dispute resolution between You and Apple relating to this License shall take place in the Northern District of California, and You and Apple hereby consent to the personal jurisdiction of, and venue in, the state and federal courts within that District with respect to this License. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded.<br>13.7 Entire Agreement; Governing Law. This |

ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM<br>CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.<br>1. DEFINITIONS<br>"Contribution" means:<br>a) in the case of the initial Contributor, the initial code and<br>documentation distributed under this Agreement, and<br>b) in the case of each subsequent Contributor:<br>i) changes to the Program, and<br>ii) additions to the Program;<br>where such changes and/or additions to the Program originate from and are<br>distributed by that particular Contributor. A Contribution 'originates' from a<br>Contributor if it was added to the Program by such Contributor itself or anyone<br>acting on such Contributor's behalf. Contributions do not include additions to<br>the Program which: (i) are separate modules of software distributed in |

| | | |
|---|---|---|
| | | conjunction with the Program under their own license agreement, and (ii) are<br>not derivative works of the Program.<br>"Contributor" means any person or entity that distributes the Program.<br>"Licensed Patents " mean patent claims licensable by a Contributor which are<br>necessarily infringed by the use or sale of its Contribution alone or when<br>combined with the Program.<br>"Program" means the Contributions distributed in accordance with this Agreement.<br>"Recipient" means anyone who receives the Program under this Agreement,<br>including all Contributors.<br>2. GRANT OF RIGHTS<br>a) Subject to the terms of this Agreement, each Contributor hereby grants<br>Recipient a non-exclusive, worldwide, royalty-free copyright license to<br>reproduce, prepare derivative works of, publicly display, publicly perform,<br>distribute and sublicense the Contribution of such Contributor, if any, and<br>such derivative works, in source code and object code form.<br>b) Subject to the terms of this Agreement, each Contributor hereby grants<br>Recipient a non-exclusive, worldwide, royalty-free patent license under<br>Licensed Patents to make, use, sell, offer to sell, import and otherwise<br>transfer the Contribution of such Contributor, if any, in source code and<br>object code form. This patent license shall apply to the combination of the<br>Contribution and the Program if, at the time the Contribution is added by the<br>Contributor, such addition of the Contribution causes such combination to be<br>covered by the Licensed Patents. The patent license shall not apply to any<br>other combinations which include the Contribution. No hardware per se is<br>licensed hereunder.<br>c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are provided by<br>any Contributor that the Program does not infringe the patent or other<br>intellectual property rights of any other entity. Each Contributor disclaims<br>any liability to Recipient for claims brought by any other entity based on<br>infringement of intellectual property rights or otherwise. |

| | | |
|---|---|---|
| | | As a condition to<br>exercising the rights and licenses granted hereunder, each Recipient hereby<br>assumes sole responsibility to secure any other intellectual property rights<br>needed, if any. For example, if a third party patent license is required to<br>allow Recipient to distribute the Program, it is Recipient's responsibility to<br>acquire that license before distributing the Program.<br>d) Each Contributor represents that to its knowledge it has sufficient<br>copyright rights in its Contribution, if any, to grant the copyright license<br>set forth in this Agreement.<br>3. REQUIREMENTS<br>A Contributor may choose to distribute the Program in object code form under<br>its own license agreement, provided that:<br>a) it complies with the terms and conditions of this Agreement; and<br>b) its license agreement:<br>i) effectively disclaims on behalf of all Contributors all warranties and<br>conditions, express and implied, including warranties or conditions of title<br>and non-infringement, and implied warranties or conditions of merchantability<br>and fitness for a particular purpose;<br>ii) effectively excludes on behalf of all Contributors all liability for<br>damages, including direct, indirect, special, incidental and consequential<br>damages, such as lost profits;<br>iii) states that any provisions which differ from this Agreement are<br>offered by that Contributor alone and not by any other party; and<br>iv) states that source code for the Program is available from such<br>Contributor, and informs licensees how to obtain it in a reasonable manner on<br>or through a medium customarily used for software exchange.<br>When the Program is made available in source code form:<br>a) it must be made available under this Agreement; and<br>b) a copy of this Agreement must be included with each copy of the<br>Program.<br>Contributors may not remove or alter any copyright notices contained within the<br>Program.<br>Each Contributor must identify itself as the originator of its Contribution, if |

| | | |
|---|---|---|
| | | any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.<br>4. COMMERCIAL DISTRIBUTION<br>Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.<br>For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as |

| | | |
|---|---|---|
| | | a result, the Commercial<br>Contributor must pay those damages.<br>5. NO WARRANTY<br>EXCEPT AS EXPRESSLY SET FORTH IN THIS<br>AGREEMENT, THE PROGRAM IS PROVIDED ON<br>AN<br>"AS IS" BASIS, WITHOUT WARRANTIES OR<br>CONDITIONS OF ANY KIND, EITHER EXPRESS OR<br>IMPLIED INCLUDING, WITHOUT LIMITATION, ANY<br>WARRANTIES OR CONDITIONS OF TITLE,<br>NON-INFRINGEMENT, MERCHANTABILITY OR<br>FITNESS FOR A PARTICULAR PURPOSE. Each<br>Recipient is solely responsible for determining the<br>appropriateness of using<br>and distributing the Program and assumes all risks<br>associated with its exercise<br>of rights under this Agreement, including but not limited<br>to the risks and<br>costs of program errors, compliance with applicable<br>laws, damage to or loss of<br>data, programs or equipment, and unavailability or<br>interruption of operations.<br>6. DISCLAIMER OF LIABILITY<br>EXCEPT AS EXPRESSLY SET FORTH IN THIS<br>AGREEMENT, NEITHER RECIPIENT NOR ANY<br>CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR<br>ANY DIRECT, INDIRECT, INCIDENTAL,<br>SPECIAL, EXEMPLARY, OR CONSEQUENTIAL<br>DAMAGES (INCLUDING WITHOUT LIMITATION<br>LOST<br>PROFITS), HOWEVER CAUSED AND ON ANY<br>THEORY OF LIABILITY, WHETHER IN CONTRACT,<br>STRICT LIABILITY, OR TORT (INCLUDING<br>NEGLIGENCE OR OTHERWISE) ARISING IN ANY<br>WAY OUT OF THE USE OR DISTRIBUTION OF THE<br>PROGRAM OR THE EXERCISE OF ANY RIGHTS<br>GRANTED HEREUNDER, EVEN IF ADVISED OF<br>THE POSSIBILITY OF SUCH DAMAGES.<br>7. GENERAL<br>If any provision of this Agreement is invalid or<br>unenforceable under applicable<br>law, it shall not affect the validity or enforceability of the<br>remainder of the<br>terms of this Agreement, and without further action by<br>the parties hereto, such<br>provision shall be reformed to the minimum extent<br>necessary to make such<br>provision valid and enforceable.<br>If Recipient institutes patent litigation against a<br>Contributor with respect to<br>a patent applicable to software (including a cross-claim<br>or counterclaim in a<br>lawsuit), then any patent licenses granted by that<br>Contributor to such<br>Recipient under this Agreement shall terminate as of<br>the date such litigation |

| | | |
|---|---|---|
| | | is filed. In addition, if Recipient institutes patent litigation against any<br>entity (including a cross-claim or counterclaim in a lawsuit) alleging that the<br>Program itself (excluding combinations of the Program with other software or<br>hardware) infringes such Recipient's patent(s), then such Recipient's rights<br>granted under Section 2(b) shall terminate as of the date such litigation is<br>filed.<br>All Recipient's rights under this Agreement shall terminate if it fails to<br>comply with any of the material terms or conditions of this Agreement and does<br>not cure such failure in a reasonable period of time after becoming aware of<br>such noncompliance. If all Recipient's rights under this Agreement terminate,<br>Recipient agrees to cease use and distribution of the Program as soon as<br>reasonably practicable. However, Recipient's obligations under this Agreement<br>and any licenses granted by Recipient relating to the Program shall continue<br>and survive.<br>Everyone is permitted to copy and distribute copies of this Agreement, but in<br>order to avoid inconsistency the Agreement is copyrighted and may only be<br>modified in the following manner. The Agreement Steward reserves the right to<br>publish new versions (including revisions) of this Agreement from time to time.<br>No one other than the Agreement Steward has the right to modify this Agreement.<br>IBM is the initial Agreement Steward. IBM may assign the responsibility to<br>serve as the Agreement Steward to a suitable separate entity. Each new version<br>of the Agreement will be given a distinguishing version number. The Program<br>(including Contributions) may always be distributed subject to the version of<br>the Agreement under which it was received. In addition, after a new version of<br>the Agreement is published, Contributor may elect to distribute the Program<br>(including its Contributions) under the new version.<br>Except as expressly stated<br>in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to<br>the intellectual property of any Contributor under this Agreement, whether<br>expressly, by implication, estoppel or otherwise. All rights in the Program not |

| | | expressly granted under this Agreement are reserved.<br>This Agreement is governed by the laws of the State of New York and the<br>intellectual property laws of the United States of America. No party to this<br>Agreement will bring a legal action under this Agreement more than one year<br>after the cause of action arose. All Rights Reserved.<br>*<br>**********<br>**********<br>----------<br>Oracle designates certain files in this repository as subject to the "Classpath" exception.<br>The designated files include the following notices. In the following notices, the<br>LICENSE file referred to is:<br>**********<br>START LICENSE file<br>**********<br>The GNU General Public License (GPL)<br>Version 2, June 1991<br>Copyright (C) 1989, 1991 Free Software Foundation, Inc.<br>59 Temple Place, Suite 330, Boston, MA 02111-1307 USA<br>Everyone is permitted to copy and distribute verbatim copies of this license<br>document, but changing it is not allowed.<br>Preamble<br>The licenses for most software are designed to take away your freedom to share<br>and change it. By contrast, the GNU General Public License is intended to<br>guarantee your freedom to share and change free software--to make sure the<br>software is free for all its users. This General Public License applies to<br>most of the Free Software Foundation's software and to any other program whose<br>authors commit to using it. (Some other Free Software Foundation software is<br>covered by the GNU Library General Public License instead.) You can apply it to<br>your programs, too.<br>When we speak of free software, we are referring to freedom, not price. Our<br>General Public Licenses are designed to make sure that you have the freedom to<br>distribute copies of free software (and charge for this service if you wish),<br>that you receive source code or can get it if you want it, that you can change<br>the software or use pieces of it in new free programs; and that you know you<br>can do these things.<br>To protect your rights, we need to make restrictions that forbid anyone to deny<br>you these rights or to ask you to surrender the rights. These restrictions<br>translate to certain responsibilities for you if you distribute copies of the<br>software, or if you modify it. |

| | | |
|---|---|---|
| | | For example, if you distribute copies of such a program, whether gratis or for<br>a fee, you must give the recipients all the rights that you have. You must<br>make sure that they, too, receive or can get the source code. And you must<br>show them these terms so they know their rights.<br>We protect your rights with two steps: (1) copyright the software, and (2)<br>offer you this license which gives you legal permission to copy, distribute<br>and/or modify the software.<br>Also, for each author's protection and ours, we want to make certain that<br>everyone understands that there is no warranty for this free software. If the<br>software is modified by someone else and passed on, we want its recipients to<br>know that what they have is not the original, so that any problems introduced<br>by others will not reflect on the original authors' reputations.<br>Finally, any free program is threatened constantly by software patents. We<br>wish to avoid the danger that redistributors of a free program will<br>individually obtain patent licenses, in effect making the program proprietary.<br>To prevent this, we have made it clear that any patent must be licensed for<br>everyone's free use or not licensed at all.<br>The precise terms and conditions for copying, distribution and modification<br>follow.<br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br>0. This License applies to any program or other work which contains a notice<br>placed by the copyright holder saying it may be distributed under the terms of<br>this General Public License. The "Program", below, refers to any such program<br>or work, and a "work based on the Program" means either the Program or any<br>derivative work under copyright law: that is to say, a work containing the<br>Program or a portion of it, either verbatim or with modifications and/or<br>translated into another language. (Hereinafter, translation is included<br>without limitation in the term "modification".) Each licensee is addressed as<br>"you".<br>Activities other than copying, distribution and modification are not covered by<br>this License; they are outside its scope. The act of |

| | | |
|---|---|---|
| | | running the Program is<br>not restricted, and the output from the Program is covered only if its contents<br>constitute a work based on the Program (independent of having been made by<br>running the Program). Whether that is true depends on what the Program does.<br>1. You may copy and distribute verbatim copies of the Program's source code as<br>you receive it, in any medium, provided that you conspicuously and<br>appropriately publish on each copy an appropriate copyright notice and<br>disclaimer of warranty; keep intact all the notices that refer to this License<br>and to the absence of any warranty; and give any other recipients of the<br>Program a copy of this License along with the Program.<br>You may charge a fee for the physical act of transferring a copy, and you may<br>at your option offer warranty protection in exchange for a fee.<br>2. You may modify your copy or copies of the Program or any portion of it, thus<br>forming a work based on the Program, and copy and distribute such modifications<br>or work under the terms of Section 1 above, provided that you also meet all of<br>these conditions:<br>a) You must cause the modified files to carry prominent notices stating<br>that you changed the files and the date of any change.<br>b) You must cause any work that you distribute or publish, that in whole or<br>in part contains or is derived from the Program or any part thereof, to be<br>licensed as a whole at no charge to all third parties under the terms of<br>this License.<br>c) If the modified program normally reads commands interactively when run,<br>you must cause it, when started running for such interactive use in the<br>most ordinary way, to print or display an announcement including an<br>appropriate copyright notice and a notice that there is no warranty (or<br>else, saying that you provide a warranty) and that users may redistribute<br>the program under these conditions, and telling the user how to view a copy<br>of this License. (Exception: if the Program itself is interactive but does<br>not normally print such an announcement, your work |

| | | |
|---|---|---|
| | | based on the Program is<br>not required to print an announcement.)<br>These requirements apply to the modified work as a whole. If identifiable<br>sections of that work are not derived from the Program, and can be reasonably<br>considered independent and separate works in themselves, then this License, and<br>its terms, do not apply to those sections when you distribute them as separate<br>works. But when you distribute the same sections as part of a whole which is a<br>work based on the Program, the distribution of the whole must be on the terms<br>of this License, whose permissions for other licensees extend to the entire<br>whole, and thus to each and every part regardless of who wrote it.<br>Thus, it is not the intent of this section to claim rights or contest your<br>rights to work written entirely by you; rather, the intent is to exercise the<br>right to control the distribution of derivative or collective works based on<br>the Program.<br>In addition, mere aggregation of another work not based on the Program with the<br>Program (or with a work based on the Program) on a volume of a storage or<br>distribution medium does not bring the other work under the scope of this<br>License.<br>3. You may copy and distribute the Program (or a work based on it, under<br>Section 2) in object code or executable form under the terms of Sections 1 and<br>2 above provided that you also do one of the following:<br>a) Accompany it with the complete corresponding machine-readable source<br>code, which must be distributed under the terms of Sections 1 and 2 above<br>on a medium customarily used for software interchange; or,<br>b) Accompany it with a written offer, valid for at least three years, to<br>give any third party, for a charge no more than your cost of physically<br>performing source distribution, a complete machine-readable copy of the<br>corresponding source code, to be distributed under the terms of Sections 1<br>and 2 above on a medium customarily used for software interchange; or,<br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This |

| | | |
|---|---|---|
| | | alternative is allowed only<br>for noncommercial distribution and only if you received the program in<br>object code or executable form with such an offer, in accord with<br>Subsection b above.)<br>The source code for a work means the preferred form of the work for making<br>modifications to it. For an executable work, complete source code means all<br>the source code for all modules it contains, plus any associated interface<br>definition files, plus the scripts used to control compilation and installation<br>of the executable. However, as a special exception, the source code<br>distributed need not include anything that is normally distributed (in either<br>source or binary form) with the major components (compiler, kernel, and so on)<br>of the operating system on which the executable runs, unless that component<br>itself accompanies the executable.<br>If distribution of executable or object code is made by offering access to copy<br>from a designated place, then offering equivalent access to copy the source<br>code from the same place counts as distribution of the source code, even though<br>third parties are not compelled to copy the source along with the object code.<br>4. You may not copy, modify, sublicense, or distribute the Program except as<br>expressly provided under this License. Any attempt otherwise to copy, modify,<br>sublicense or distribute the Program is void, and will automatically terminate<br>your rights under this License. However, parties who have received copies, or<br>rights, from you under this License will not have their licenses terminated so<br>long as such parties remain in full compliance.<br>5. You are not required to accept this License, since you have not signed it.<br>However, nothing else grants you permission to modify or distribute the Program<br>or its derivative works. These actions are prohibited by law if you do not<br>accept this License. Therefore, by modifying or distributing the Program (or<br>any work based on the Program), you indicate your acceptance of this License to<br>do so, and all its terms and conditions for copying, distributing or modifying<br>the Program or works based on it.<br>6. Each time you redistribute the Program (or any work |

| | | |
|---|---|---|
| | | based on the Program),<br>the recipient automatically receives a license from the original licensor to<br>copy, distribute or modify the Program subject to these terms and conditions.<br>You may not impose any further restrictions on the recipients' exercise of the<br>rights granted herein. You are not responsible for enforcing compliance by<br>third parties to this License.<br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues), conditions<br>are imposed on you (whether by court order, agreement or otherwise) that<br>contradict the conditions of this License, they do not excuse you from the<br>conditions of this License. If you cannot distribute so as to satisfy<br>simultaneously your obligations under this License and any other pertinent<br>obligations, then as a consequence you may not distribute the Program at all.<br>For example, if a patent license would not permit royalty-free redistribution<br>of the Program by all those who receive copies directly or indirectly through<br>you, then the only way you could satisfy both it and this License would be to<br>refrain entirely from distribution of the Program.<br>If any portion of this section is held invalid or unenforceable under any<br>particular circumstance, the balance of the section is intended to apply and<br>the section as a whole is intended to apply in other circumstances.<br>It is not the purpose of this section to induce you to infringe any patents or<br>other property right claims or to contest validity of any such claims; this<br>section has the sole purpose of protecting the integrity of the free software<br>distribution system, which is implemented by public license practices. Many<br>people have made generous contributions to the wide range of software<br>distributed through that system in reliance on consistent application of that<br>system; it is up to the author/donor to decide if he or she is willing to<br>distribute software through any other system and a licensee cannot impose that<br>choice.<br>This section is intended to make thoroughly clear what is believed to be a |

| | | |
|---|---|---|
| | | consequence of the rest of this License.<br>8. If the distribution and/or use of the Program is restricted in certain<br>countries either by patents or by copyrighted interfaces, the original<br>copyright holder who places the Program under this License may add an explicit<br>geographical distribution limitation excluding those countries, so that<br>distribution is permitted only in or among countries not thus excluded. In<br>such case, this License incorporates the limitation as if written in the body<br>of this License.<br>9. The Free Software Foundation may publish revised and/or new versions of the<br>General Public License from time to time. Such new versions will be similar in<br>spirit to the present version, but may differ in detail to address new problems<br>or concerns.<br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any later<br>version", you have the option of following the terms and conditions either of<br>that version or of any later version published by the Free Software Foundation.<br>If the Program does not specify a version number of this License, you may<br>choose any version ever published by the Free Software Foundation.<br>10. If you wish to incorporate parts of the Program into other free programs<br>whose distribution conditions are different, write to the author to ask for<br>permission. For software which is copyrighted by the Free Software Foundation,<br>write to the Free Software Foundation; we sometimes make exceptions for this.<br>Our decision will be guided by the two goals of preserving the free status of<br>all derivatives of our free software and of promoting the sharing and reuse of<br>software generally.<br>NO WARRANTY<br>11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR<br>THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE<br>STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE<br>PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED,<br>INCLUDING, BUT NOT LIMITED TO, THE IMPLIED |

| | | WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.<br>12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL<br>ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE<br>PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR<br>INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.<br>END OF TERMS AND CONDITIONS<br>How to Apply These Terms to Your New Programs<br>If you develop a new program, and you want it to be of the greatest possible<br>use to the public, the best way to achieve this is to make it free software<br>which everyone can redistribute and change under these terms.<br>To do so, attach the following notices to the program. It is safest to attach<br>them to the start of each source file to most effectively convey the exclusion<br>of warranty; and each file should have at least the "copyright" line and a<br>pointer to where the full notice is found.<br>One line to give the program's name and a brief idea of what it does.<br>Copyright (C) <year> <name of author><br>This program is free software; you can redistribute it and/or modify it<br>under the terms of the GNU General Public License as published by the Free<br>Software Foundation; either version 2 of the License, or (at your option)<br>any later version.<br>This program is distributed in the hope that it will be useful, but WITHOUT<br>ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or<br>FITNESS FOR A PARTICULAR PURPOSE. It is used by APIs that<br>change a piece of text while retaining metadata. |

| | | |
|---|---|---|
| | | Metadata is data<br>other than the Unicode characters returned by<br>char32At(). One<br>example of metadata is style attributes; another is an<br>edit<br>history, marking each character with an author and<br>revision number.<br><p>An implicit aspect of the<br><code>Replaceable</code> API is that<br>during a replace operation, new characters take on the<br>metadata of<br>the old characters. For example, if the string "the<br>bold<br>font" has range (4, 8) replaced with "strong", then it<br>becomes "the<br>strong font".<br><p><code>Replaceable</code> specifies ranges using<br>a start<br>offset and a limit offset. The range of characters thus<br>specified<br>includes the characters at offset start..limit-1. That is,<br>the<br>start offset is inclusive, and the limit offset is exclusive.<br><p><code>Replaceable</code> also includes API to<br>access characters<br>in the string: <code>length()</code>,<br><code>charAt()</code>,<br><code>char32At()</code>, and<br><code>extractBetween()</code>.<br><p>For a subclass to support metadata, typical<br>behavior of<br><code>replace()</code> is the following:<br><ul><br><li>Set the metadata of the new text to the metadata<br>of the first<br>character replaced</li><br><li>If no characters are replaced, use the metadata of<br>the<br>previous character</li><br><li>If there is no previous character (i.e. start == 0),<br>use the<br>following character</li><br><li>If there is no following character (i.e. the<br>replaceable was<br>empty), use default metadata<br><br><li>If the code point U+FFFF is seen, it should be<br>interpreted as<br>a special marker having no metadata<li><br></li><br></ul><br>If this is not the behavior, the subclass should<br>document any differences.<br><p>Copyright © IBM Corporation 1999. Definitions.<br>"License" shall mean the terms and conditions for<br>use, reproduction,<br>and distribution as defined by Sections 1 through 9<br>of this document.<br>"Licensor" shall mean the copyright owner or entity<br>authorized by<br>the copyright owner that is granting the License.<br>"Legal Entity" shall mean the union of the acting<br>entity and all<br>other entities that control, are controlled by, or are<br>under common<br>control with that entity. For the purposes of this<br>definition,<br>"control" means (i) the power, direct or indirect, to<br>cause the<br>direction or management of such entity, whether by<br>contract or<br>otherwise, or (ii) ownership of fifty percent (50%) or<br>more of the<br>outstanding shares, or (iii) beneficial ownership of<br>such entity.<br>"You" (or "Your") shall mean an individual or Legal<br>Entity<br>exercising permissions granted by this License.<br>"Source" form shall mean the preferred form for<br>making modifications,<br>including but not limited to software source code,<br>documentation<br>source, and configuration files.<br>"Object" form shall mean any form resulting from<br>mechanical<br>transformation or translation of a Source form,<br>including but |

| | | not limited to compiled object code, generated documentation,<br>and conversions to other media types.<br>"Work" shall mean the work of authorship, whether in Source or<br>Object form, made available under the License, as indicated by a<br>copyright notice that is included in or attached to the work<br>(an example is provided in the Appendix below).<br>"Derivative Works" shall mean any work, whether in Source or Object<br>form, that is based on (or derived from) the Work and for which the<br>editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of authorship. For the purposes<br>of this License, Derivative Works shall not include works that remain<br>separable from, or merely link (or bind by name) to the interfaces of,<br>the Work and Derivative Works thereof.<br>"Contribution" shall mean any work of authorship, including<br>the original version of the Work and any modifications or additions<br>to that Work or Derivative Works thereof, that is intentionally<br>submitted to Licensor for inclusion in the Work by the copyright owner<br>or by an individual or Legal Entity authorized to submit on behalf of<br>the copyright owner. For the purposes of this definition, "submitted"<br>means any form of electronic, verbal, or written communication sent<br>to the Licensor or its representatives, including but not limited to<br>communication on electronic mailing lists, source code control systems,<br>and issue tracking systems that are managed by, or on behalf of, the<br>Licensor for the purpose of discussing and improving the Work, but<br>excluding communication that is conspicuously marked or otherwise<br>designated in writing by the copyright owner as "Not a Contribution."<br>"Contributor" shall mean Licensor and any individual or Legal Entity<br>on behalf of whom a Contribution has been received by Licensor and<br>subsequently incorporated within the Work.<br>2. Grant of Copyright License. Subject to the terms and conditions of |

| | | |
|---|---|---|
| | | this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>copyright license to reproduce, prepare Derivative Works of,<br>publicly display, publicly perform, sublicense, and distribute the<br>Work and such Derivative Works in Source or Object form.<br>3. Grant of Patent License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>(except as stated in this section) patent license to make, have made,<br>use, offer to sell, sell, import, and otherwise transfer the Work,<br>where such license applies only to those patent claims licensable<br>by such Contributor that are necessarily infringed by their<br>Contribution(s) alone or by combination of their Contribution(s)<br>with the Work to which such Contribution(s) was submitted. If You<br>institute patent litigation against any entity (including a<br>cross-claim or counterclaim in a lawsuit) alleging that the Work<br>or a Contribution incorporated within the Work constitutes direct<br>or contributory patent infringement, then any patent licenses<br>granted to You under this License for that Work shall terminate<br>as of the date such litigation is filed.<br>4. Redistribution. You may reproduce and distribute copies of the<br>Work or Derivative Works thereof in any medium, with or without<br>modifications, and in Source or Object form, provided that You<br>meet the following conditions:<br>(a) You must give any other recipients of the Work or<br>Derivative Works a copy of this License; and<br>(b) You must cause any modified files to carry prominent notices<br>stating that You changed the files; and<br>(c) You must retain, in the Source form of any Derivative Works<br>that You distribute, all copyright, patent, trademark, and |

| | | attribution notices from the Source form of the Work,<br>excluding those notices that do not pertain to any part of<br>the Derivative Works; and<br>(d) If the Work includes a "NOTICE" text file as part of its<br>distribution, then any Derivative Works that You distribute must<br>include a readable copy of the attribution notices contained<br>within such NOTICE file, excluding those notices that do not<br>pertain to any part of the Derivative Works, in at least one<br>of the following places: within a NOTICE text file distributed<br>as part of the Derivative Works; within the Source form or<br>documentation, if provided along with the Derivative Works; or,<br>within a display generated by the Derivative Works, if and<br>wherever such third-party notices normally appear. The contents<br>of the NOTICE file are for informational purposes only and<br>do not modify the License. You may add Your own attribution<br>notices within Derivative Works that You distribute, alongside<br>or as an addendum to the NOTICE text from the Work, provided<br>that such additional attribution notices cannot be construed<br>as modifying the License.<br>You may add Your own copyright statement to Your modifications and<br>may provide additional or different license terms and conditions<br>for use, reproduction, or distribution of Your modifications, or<br>for any such Derivative Works as a whole, provided Your use,<br>reproduction, and distribution of the Work otherwise complies with<br>the conditions stated in this License.<br>5. Submission of Contributions. Unless You explicitly state otherwise,<br>any Contribution intentionally submitted for inclusion in the Work<br>by You to the Licensor shall be under the terms and conditions of<br>this License, without any additional terms or conditions.<br>Notwithstanding the above, nothing herein shall |

| | | |

| | | supersede or modify<br>the terms of any separate license agreement you may have executed<br>with Licensor regarding such Contributions.<br>6. Trademarks. This License does not grant permission to use the trade<br>names, trademarks, service marks, or product names of the Licensor,<br>except as required for reasonable and customary use in describing the<br>origin of the Work and reproducing the content of the NOTICE file.<br>7. Disclaimer of Warranty. Unless required by applicable law or<br>agreed to in writing, Licensor provides the Work (and each<br>Contributor provides its Contributions) on an "AS IS" BASIS,<br>WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or<br>implied, including, without limitation, any warranties or conditions<br>of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A<br>PARTICULAR PURPOSE. You are solely responsible for determining the<br>appropriateness of using or redistributing the Work and assume any<br>risks associated with Your exercise of permissions under this License.<br>8. Limitation of Liability. In no event and under no legal theory,<br>whether in tort (including negligence), contract, or otherwise,<br>unless required by applicable law (such as deliberate and grossly<br>negligent acts) or agreed to in writing, shall any Contributor be<br>liable to You for damages, including any direct, indirect, special,<br>incidental, or consequential damages of any character arising as a<br>result of this License or out of the use or inability to use the<br>Work (including but not limited to damages for loss of goodwill,<br>work stoppage, computer failure or malfunction, or any and all<br>other commercial damages or losses), even if such Contributor<br>has been advised of the possibility of such damages.<br>9. Accepting Warranty or Additional Liability. While redistributing<br>the Work or Derivative Works thereof, You may choose to offer, |

However, in accepting such obligations, You may act only<br>on Your own behalf and on Your sole responsibility, not on behalf<br>of any other Contributor, and only if You agree to indemnify,<br>defend, and hold each Contributor harmless for any liability<br>incurred by, or claims asserted against, such Contributor by reason<br>of your accepting any such warranty or additional liability.<br>END OF TERMS AND CONDITIONS<br>---------- Separator ----------<br>./LGPL2.1<br>GNU LESSER GENERAL PUBLIC LICENSE<br>Version 2.1, February 1999<br>Copyright (C) 1991, 1999 Free Software Foundation, Inc.<br>59 Temple Place, Suite 330, Boston, MA 02111-1307 USA<br>Everyone is permitted to copy and distribute verbatim copies<br>of this license document, but changing it is not allowed.<br>[This is the first released version of the Lesser GPL. It also counts<br>as the successor of the GNU Library Public License, version 2, hence<br>the version number 2.1.]<br>Preamble<br>The licenses for most software are designed to take away your<br>freedom to share and change it. By contrast, the GNU General Public<br>Licenses are intended to guarantee your freedom to share and change<br>free software--to make sure the software is free for all its users.<br>This license, the Lesser General Public License, applies to some<br>specially designated software packages--typically libraries--of the<br>Free Software Foundation and other authors who decide to use it. You<br>can use it too, but we suggest you first think carefully about whether<br>this license or the ordinary General Public License is the better<br>strategy to use in any particular case, based on the explanations below. |

| | | |
|---|---|---|
| | | When we speak of free software, we are referring to freedom of use,<br>not price. Our General Public Licenses are designed to make sure that<br>you have the freedom to distribute copies of free software (and charge<br>for this service if you wish); that you receive source code or can get<br>it if you want it; that you can change the software and use pieces of<br>it in new free programs; and that you are informed that you can do<br>these things.<br>To protect your rights, we need to make restrictions that forbid<br>distributors to deny you these rights or to ask you to surrender these<br>rights. These restrictions translate to certain responsibilities for<br>you if you distribute copies of the library or if you modify it.<br>For example, if you distribute copies of the library, whether gratis<br>or for a fee, you must give the recipients all the rights that we gave<br>you. You must make sure that they, too, receive or can get the source<br>code. If you link other code with the library, you must provide<br>complete object files to the recipients, so that they can relink them<br>with the library after making changes to the library and recompiling<br>it. And you must show them these terms so they know their rights.<br>We protect your rights with a two-step method: (1) we copyright the<br>library, and (2) we offer you this license, which gives you legal<br>permission to copy, distribute and/or modify the library.<br>To protect each distributor, we want to make it very clear that<br>there is no warranty for the free library. Also, if the library is<br>modified by someone else and passed on, the recipients should know<br>that what they have is not the original version, so that the original<br>author's reputation will not be affected by problems that might be<br>introduced by others.<br>Finally, software patents pose a constant threat to the existence of<br>any free program. We wish to make sure that a company cannot<br>effectively restrict the users of a free program by |

| | | |
|---|---|---|
| | | obtaining a<br>restrictive license from a patent holder. Therefore, we insist that<br>any patent license obtained for a version of the library must be<br>consistent with the full freedom of use specified in this license.<br>Most GNU software, including some libraries, is covered by the<br>ordinary GNU General Public License. This license, the GNU Lesser<br>General Public License, applies to certain designated libraries, and<br>is quite different from the ordinary General Public License. We use<br>this license for certain libraries in order to permit linking those<br>libraries into non-free programs.<br>When a program is linked with a library, whether statically or using<br>a shared library, the combination of the two is legally speaking a<br>combined work, a derivative of the original library. The ordinary<br>General Public License therefore permits such linking only if the<br>entire combination fits its criteria of freedom. The Lesser General<br>Public License permits more lax criteria for linking other code with<br>the library.<br>We call this license the "Lesser" General Public License because it<br>does Less to protect the user's freedom than the ordinary General<br>Public License. It also provides other free software developers Less<br>of an advantage over competing non-free programs. These disadvantages<br>are the reason we use the ordinary General Public License for many<br>libraries. However, the Lesser license provides advantages in certain<br>special circumstances.<br>For example, on rare occasions, there may be a special need to<br>encourage the widest possible use of a certain library, so that it becomes<br>a de-facto standard. To achieve this, non-free programs must be<br>allowed to use the library. A more frequent case is that a free<br>library does the same job as widely used non-free libraries. In this<br>case, there is little to gain by limiting the free library to free |

| | | |
|---|---|---|
| | | software only, so we use the Lesser General Public License.<br>  In other cases, permission to use a particular library in non-free<br>programs enables a greater number of people to use a large body of<br>free software.  For example, permission to use the GNU C Library in<br>non-free programs enables many more people to use the whole GNU<br>operating system, as well as its variant, the GNU/Linux operating<br>system.<br>  Although the Lesser General Public License is Less protective of the<br>users' freedom, it does ensure that the user of a program that is<br>linked with the Library has the freedom and the wherewithal to run<br>that program using a modified version of the Library.<br>  The precise terms and conditions for copying, distribution and<br>modification follow.  Pay close attention to the difference between a<br>"work based on the library" and a "work that uses the library".  The<br>former contains code derived from the library, whereas the latter must<br>be combined with the library in order to run.<br>  GNU LESSER GENERAL PUBLIC LICENSE<br>  TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br>  0. This License Agreement applies to any software library or other<br>program which contains a notice placed by the copyright holder or<br>other authorized party saying it may be distributed under the terms of<br>this Lesser General Public License (also called "this License").<br>Each licensee is addressed as "you".<br>  A "library" means a collection of software functions and/or data<br>prepared so as to be conveniently linked with application programs<br>(which use some of those functions and data) to form executables.<br>  The "Library", below, refers to any such software library or work<br>which has been distributed under these terms.  A "work based on the<br>Library" means either the Library or any derivative work under<br>copyright law: that is to say, a work containing the Library or a |

| | | |
|---|---|---|
| | | portion of it, either verbatim or with modifications and/or translated<br>straightforwardly into another language. (Hereinafter, translation is<br>included without limitation in the term "modification".)<br>"Source code" for a work means the preferred form of the work for<br>making modifications to it. For a library, complete source code means<br>all the source code for all modules it contains, plus any associated<br>interface definition files, plus the scripts used to control compilation<br>and installation of the library.<br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of<br>running a program using the Library is not restricted, and output from<br>such a program is covered only if its contents constitute a work based<br>on the Library (independent of the use of the Library in a tool for<br>writing it). Whether that is true depends on what the Library does<br>and what the program that uses the Library does.<br>1. You may copy and distribute verbatim copies of the Library's<br>complete source code as you receive it, in any medium, provided that<br>you conspicuously and appropriately publish on each copy an<br>appropriate copyright notice and disclaimer of warranty; keep intact<br>all the notices that refer to this License and to the absence of any<br>warranty; and distribute a copy of this License along with the<br>Library.<br>You may charge a fee for the physical act of transferring a copy,<br>and you may at your option offer warranty protection in exchange for a<br>fee.<br>2. You may modify your copy or copies of the Library or any portion<br>of it, thus forming a work based on the Library, and copy and<br>distribute such modifications or work under the terms of Section 1<br>above, provided that you also meet all of these conditions:<br>a) The modified work must itself be a software library.<br>b) You must cause the files modified to carry |

| | | |
|---|---|---|
| | | prominent notices<br>stating that you changed the files and the date of any change.<br>c) You must cause the whole of the work to be licensed at no<br>charge to all third parties under the terms of this License.<br>d) If a facility in the modified Library refers to a function or a<br>table of data to be supplied by an application program that uses<br>the facility, other than as an argument passed when the facility<br>is invoked, then you must make a good faith effort to ensure that,<br>in the event an application does not supply such function or<br>table, the facility still operates, and performs whatever part of<br>its purpose remains meaningful.<br>(For example, a function in a library to compute square roots has<br>a purpose that is entirely well-defined independent of the<br>application. Therefore, Subsection 2d requires that any<br>application-supplied function or table used by this function must<br>be optional: if the application does not supply it, the square<br>root function must still compute square roots.)<br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Library,<br>and can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based<br>on the Library, the distribution of the whole must be on the terms of<br>this License, whose permissions for other licensees extend to the<br>entire whole, and thus to each and every part regardless of who wrote<br>it.<br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or |

| | | |
|---|---|---|
| | | collective works based on the Library.<br>In addition, mere aggregation of another work not based on the Library<br>with the Library (or with a work based on the Library) on a volume of<br>a storage or distribution medium does not bring the other work under<br>the scope of this License.<br>3. You may opt to apply the terms of the ordinary GNU General Public<br>License instead of this License to a given copy of the Library. To do<br>this, you must alter all the notices that refer to this License, so<br>that they refer to the ordinary GNU General Public License, version 2,<br>instead of to this License. (If a newer version than version 2 of the<br>ordinary GNU General Public License has appeared, then you can specify<br>that version instead if you wish.) Do not make any other change in<br>these notices.<br>Once this change is made in a given copy, it is irreversible for<br>that copy, so the ordinary GNU General Public License applies to all<br>subsequent copies and derivative works made from that copy.<br>This option is useful when you wish to copy part of the code of<br>the Library into a program that is not a library.<br>4. You may copy and distribute the Library (or a portion or<br>derivative of it, under Section 2) in object code or executable form<br>under the terms of Sections 1 and 2 above provided that you accompany<br>it with the complete corresponding machine-readable source code, which<br>must be distributed under the terms of Sections 1 and 2 above on a<br>medium customarily used for software interchange.<br>If distribution of object code is made by offering access to copy<br>from a designated place, then offering equivalent access to copy the<br>source code from the same place satisfies the requirement to<br>distribute the source code, even though third parties are not<br>compelled to copy the source along with the object code.<br>5. A program that contains no derivative of any portion of the<br>Library, but is designed to work with the Library by |

| | | |
|---|---|---|
| | | being compiled or<br>linked with it, is called a "work that uses the Library". Such a<br>work, in isolation, is not a derivative work of the Library, and<br>therefore falls outside the scope of this License.<br>  However, linking a "work that uses the Library" with the Library<br>creates an executable that is a derivative of the Library (because it<br>contains portions of the Library), rather than a "work that uses the<br>library".  The executable is therefore covered by this License.<br>Section 6 states terms for distribution of such executables.<br>  When a "work that uses the Library" uses material from a header file<br>that is part of the Library, the object code for the work may be a<br>derivative work of the Library even though the source code is not.<br>Whether this is true is especially significant if the work can be<br>linked without the Library, or if the work is itself a library.  The<br>threshold for this to be true is not precisely defined by law.<br>  If such an object file uses only numerical parameters, data<br>structure layouts and accessors, and small macros and small inline<br>functions (ten lines or less in length), then the use of the object<br>file is unrestricted, regardless of whether it is legally a derivative<br>work.  (Executables containing this object code plus portions of the<br>Library will still fall under Section 6.)<br>  Otherwise, if the work is a derivative of the Library, you may<br>distribute the object code for the work under the terms of Section 6.<br>Any executables containing that work also fall under Section 6,<br>whether or not they are linked directly with the Library itself.<br>  6. As an exception to the Sections above, you may also combine or<br>link a "work that uses the Library" with the Library to produce a<br>work containing portions of the Library, and distribute that work<br>under terms of your choice, provided that the terms permit<br>modification of the work for the customer's own use |

| | | |
|---|---|---|
| | | and reverse<br>engineering for debugging such modifications.<br>  You must give prominent notice with each copy of the work that the<br>Library is used in it and that the Library and its use are covered by<br>this License.  You must supply a copy of this License. If the work<br>during execution displays copyright notices, you must include the<br>copyright notice for the Library among them, as well as a reference<br>directing the user to the copy of this License.  Also, you must do one<br>of these things:<br>  a) Accompany the work with the complete corresponding<br>  machine-readable source code for the Library including whatever<br>  changes were used in the work (which must be distributed under<br>  Sections 1 and 2 above); and, if the work is an executable linked<br>  with the Library, with the complete machine-readable "work that<br>  uses the Library", as object code and/or source code, so that the<br>  user can modify the Library and then relink to produce a modified<br>  executable containing the modified Library.  (It is understood<br>  that the user who changes the contents of definitions files in the<br>  Library will not necessarily be able to recompile the application<br>  to use the modified definitions.)<br>  b) Use a suitable shared library mechanism for linking with the<br>  Library.  A suitable mechanism is one that (1) uses at run time a<br>  copy of the library already present on the user's computer system,<br>  rather than copying library functions into the executable, and (2)<br>  will operate properly with a modified version of the library, if<br>  the user installs one, as long as the modified version is<br>  interface-compatible with the version that the work was made with.<br>  c) Accompany the work with a written offer, valid for at<br>  least three years, to give the same user the materials<br>  specified in Subsection 6a, above, for a charge no more |

| | | |
|---|---|---|
| | | than the cost of performing this distribution.<br>d) If distribution of the work is made by offering access to copy<br>from a designated place, offer equivalent access to copy the above<br>specified materials from the same place.<br>e) Verify that the user has already received a copy of these<br>materials or that you have already sent this user a copy.<br>For an executable, the required form of the "work that uses the<br>Library" must include any data and utility programs needed for<br>reproducing the executable from it. However, as a special exception,<br>the materials to be distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major<br>components (compiler, kernel, and so on) of the operating system on<br>which the executable runs, unless that component itself accompanies<br>the executable.<br>It may happen that this requirement contradicts the license<br>restrictions of other proprietary libraries that do not normally<br>accompany the operating system. Such a contradiction means you cannot<br>use both them and the Library together in an executable that you<br>distribute.<br>7. You may place library facilities that are a work based on the<br>Library side-by-side in a single library together with other library<br>facilities not covered by this License, and distribute such a combined<br>library, provided that the separate distribution of the work based on<br>the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:<br>a) Accompany the combined library with a copy of the same work<br>based on the Library, uncombined with any other library<br>facilities. This must be distributed under the terms of the<br>Sections above.<br>b) Give prominent notice with the combined library of the fact<br>that part of it is a work based on the Library, and explaining<br>where to find the accompanying uncombined form of |

| | | |
|---|---|---|
| | | the same work.<br>8. You may not copy, modify, sublicense, link with, or distribute<br>the Library except as expressly provided under this License. Any<br>attempt otherwise to copy, modify, sublicense, link with, or<br>distribute the Library is void, and will automatically terminate your<br>rights under this License. However, parties who have received copies,<br>or rights, from you under this License will not have their licenses<br>terminated so long as such parties remain in full compliance.<br>9. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Library or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Library (or any work based on the<br>Library), you indicate your acceptance of this License to do so, and<br>all its terms and conditions for copying, distributing or modifying<br>the Library or works based on it.<br>10. Each time you redistribute the Library (or any work based on the<br>Library), the recipient automatically receives a license from the<br>original licensor to copy, distribute, link with or modify the Library<br>subject to these terms and conditions. You may not impose any further<br>restrictions on the recipients' exercise of the rights granted herein.<br>You are not responsible for enforcing compliance by third parties with<br>this License.<br>11. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot<br>distribute so as to satisfy simultaneously your obligations under this<br>License and any other pertinent obligations, then as a |

| | | |
|---|---|---|
| | | consequence you<br>may not distribute the Library at all. For example, if a patent<br>license would not permit royalty-free redistribution of the Library by<br>all those who receive copies directly or indirectly through you, then<br>the only way you could satisfy both it and this License would be to<br>refrain entirely from distribution of the Library.<br>If any portion of this section is held invalid or unenforceable under any<br>particular circumstance, the balance of the section is intended to apply,<br>and the section as a whole is intended to apply in other circumstances.<br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system which is<br>implemented by public license practices. Many people have made<br>generous contributions to the wide range of software distributed<br>through that system in reliance on consistent application of that<br>system; it is up to the author/donor to decide if he or she is willing<br>to distribute software through any other system and a licensee cannot<br>impose that choice.<br>This section is intended to make thoroughly clear what is believed to<br>be a consequence of the rest of this License.<br>12. If the distribution and/or use of the Library is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Library under this License may add<br>an explicit geographical distribution limitation excluding those countries,<br>so that distribution is permitted only in or among countries not thus<br>excluded. | | | Apache License<br>Version 2.0, January 2004<br>http://www.apache.org/licenses/<br>TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION<br>1. Definitions.<br>"License" shall mean the terms and conditions for use, reproduction,<br>and distribution as defined by Sections 1 through 9 of this document.<br>"Licensor" shall mean the copyright owner or entity authorized by<br>the copyright owner that is granting the License.<br>"Legal Entity" shall mean the union of the acting entity and all<br>other entities that control, are controlled by, or are under common<br>control with that entity. For the purposes of this definition,<br>"control" means (i) the power, direct or indirect, to cause the<br>direction or management of such entity, whether by contract or<br>otherwise, or (ii) ownership of fifty percent (50%) or more of the<br>outstanding shares, or (iii) beneficial ownership of such entity.<br>"You" (or "Your") shall mean an individual or Legal Entity<br>exercising permissions granted by this License.<br>"Source" form shall mean the preferred form for making modifications,<br>including but not limited to software source code, documentation<br>source, and configuration files.<br>"Object" form shall mean any form resulting from mechanical<br>transformation or translation of a Source form, including but<br>not limited to compiled object code, generated documentation,<br>and conversions to other media types.<br>"Work" shall mean the work of authorship, whether in Source or<br>Object form, made available under the License, as indicated by a<br>copyright notice that is included in or attached to the work<br>(an example is provided in the Appendix below).<br>"Derivative Works" shall mean any work, whether in Source or Object<br>form, that is based on (or derived from) the Work and for which the<br>editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of |

| | | |
|---|---|---|
| | | authorship. For the purposes<br>of this License, Derivative Works shall not include works that remain<br>separable from, or merely link (or bind by name) to the interfaces of,<br>the Work and Derivative Works thereof.<br>"Contribution" shall mean any work of authorship, including<br>the original version of the Work and any modifications or additions<br>to that Work or Derivative Works thereof, that is intentionally<br>submitted to Licensor for inclusion in the Work by the copyright owner<br>or by an individual or Legal Entity authorized to submit on behalf of<br>the copyright owner. For the purposes of this definition, "submitted"<br>means any form of electronic, verbal, or written communication sent<br>to the Licensor or its representatives, including but not limited to<br>communication on electronic mailing lists, source code control systems,<br>and issue tracking systems that are managed by, or on behalf of, the<br>Licensor for the purpose of discussing and improving the Work, but<br>excluding communication that is conspicuously marked or otherwise<br>designated in writing by the copyright owner as "Not a Contribution."<br>"Contributor" shall mean Licensor and any individual or Legal Entity<br>on behalf of whom a Contribution has been received by Licensor and<br>subsequently incorporated within the Work.<br>2. Grant of Copyright License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>copyright license to reproduce, prepare Derivative Works of,<br>publicly display, publicly perform, sublicense, and distribute the<br>Work and such Derivative Works in Source or Object form.<br>3. Grant of Patent License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>(except as stated in this section) patent license to |

| | | |
|---|---|---|
| | | make, have made,<br>use, offer to sell, sell, import, and otherwise transfer the Work,<br>where such license applies only to those patent claims licensable<br>by such Contributor that are necessarily infringed by their<br>Contribution(s) alone or by combination of their Contribution(s)<br>with the Work to which such Contribution(s) was submitted. If You<br>institute patent litigation against any entity (including a<br>cross-claim or counterclaim in a lawsuit) alleging that the Work<br>or a Contribution incorporated within the Work constitutes direct<br>or contributory patent infringement, then any patent licenses<br>granted to You under this License for that Work shall terminate<br>as of the date such litigation is filed.<br>4. Redistribution. You may reproduce and distribute copies of the<br>Work or Derivative Works thereof in any medium, with or without<br>modifications, and in Source or Object form, provided that You<br>meet the following conditions:<br>(a) You must give any other recipients of the Work or<br>Derivative Works a copy of this License; and<br>(b) You must cause any modified files to carry prominent notices<br>stating that You changed the files; and<br>(c) You must retain, in the Source form of any Derivative Works<br>that You distribute, all copyright, patent, trademark, and<br>attribution notices from the Source form of the Work,<br>excluding those notices that do not pertain to any part of<br>the Derivative Works; and<br>(d) If the Work includes a "NOTICE" text file as part of its<br>distribution, then any Derivative Works that You distribute must<br>include a readable copy of the attribution notices contained<br>within such NOTICE file, excluding those notices that do not<br>pertain to any part of the Derivative Works, in at least one<br>of the following places: within a NOTICE text file distributed |

| | | |
|---|---|---|
| | | as part of the Derivative Works; within the Source form or<br>documentation, if provided along with the Derivative Works; or,<br>within a display generated by the Derivative Works, if and<br>wherever such third-party notices normally appear. The contents<br>of the NOTICE file are for informational purposes only and<br>do not modify the License. You may add Your own attribution<br>notices within Derivative Works that You distribute, alongside<br>or as an addendum to the NOTICE text from the Work, provided<br>that such additional attribution notices cannot be construed<br>as modifying the License.<br>You may add Your own copyright statement to Your modifications and<br>may provide additional or different license terms and conditions<br>for use, reproduction, or distribution of Your modifications, or<br>for any such Derivative Works as a whole, provided Your use,<br>reproduction, and distribution of the Work otherwise complies with<br>the conditions stated in this License.<br>5. Submission of Contributions. Unless You explicitly state otherwise,<br>any Contribution intentionally submitted for inclusion in the Work<br>by You to the Licensor shall be under the terms and conditions of<br>this License, without any additional terms or conditions.<br>Notwithstanding the above, nothing herein shall supersede or modify<br>the terms of any separate license agreement you may have executed<br>with Licensor regarding such Contributions.<br>6. Trademarks. This License does not grant permission to use the trade<br>names, trademarks, service marks, or product names of the Licensor,<br>except as required for reasonable and customary use in describing the<br>origin of the Work and reproducing the content of the NOTICE file.<br>7. Disclaimer of Warranty. Unless required by applicable law or<br>agreed to in writing, Licensor provides the Work (and each<br>Contributor provides its Contributions) on an "AS |

Limitation of Liability. In no event and under no legal theory,<br>whether in tort (including negligence), contract, or otherwise,<br>unless required by applicable law (such as deliberate and grossly<br>negligent acts) or agreed to in writing, shall any Contributor be<br>liable to You for damages, including any direct, indirect, special,<br>incidental, or consequential damages of any character arising as a<br>result of this License or out of the use or inability to use the<br>Work (including but not limited to damages for loss of goodwill,<br>work stoppage, computer failure or malfunction, or any and all<br>other commercial damages or losses), even if such Contributor<br>has been advised of the possibility of such damages.<br>9. Accepting Warranty or Additional Liability. While redistributing<br>the Work or Derivative Works thereof, You may choose to offer,<br>and charge a fee for, acceptance of support, warranty, indemnity,<br>or other liability obligations and/or rights consistent with this<br>License. However, in accepting such obligations, You may act only<br>on Your own behalf and on Your sole responsibility, not on behalf<br>of any other Contributor, and only if You agree to indemnify,<br>defend, and hold each Contributor harmless for any liability<br>incurred by, or claims asserted against, such Contributor by reason<br>of your accepting any such warranty or additional liability.<br>END OF TERMS AND CONDITIONS |

"Covered Code" means the Original Code or Modifications or the combination of the Original Code and Modifications, in each case including portions thereof.<br>1.4. "Electronic Distribution Mechanism" means a mechanism generally accepted in the software development community for the electronic transfer of data.<br>1.5. "Initial Developer" means the individual or entity identified as the Initial Developer in the Source Code notice required by Exhibit A.<br>1.7. "Licensable" means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently acquired, any and all of the rights conveyed herein.<br>1.9. "Modifications" means any addition to or deletion from the substance or structure of either the Original Code or any previous Modifications. When Covered Code is released as a series of files, a Modification is:<br>A. Any addition to or deletion from the contents of a file |

| | | |
|---|---|---|
| | | containing Original Code or previous Modifications.<br>B. Any new file that contains any part of the Original Code or previous Modifications.<br>1.10. "Original Code" means Source Code of computer software code which is described in the Source Code notice required by Exhibit A as Original Code, and which, at the time of its release under this License is not already Covered Code governed by this License.<br>1.10.1. "Patent Claims" means any patent claim(s), now owned or hereafter acquired, including without limitation, method, process, and apparatus claims, in any patent Licensable by grantor.<br>1.11. "Source Code" means the preferred form of the Covered Code for making modifications to it, including all modules it contains, plus any associated interface definition files, scripts used to control compilation and installation of an Executable, or source code differential comparisons against either the Original Code or another well known, available Covered Code of the Contributor's choice. The Source Code can be in a compressed or archival form, provided the appropriate decompression or de-archiving software is widely available for no charge.<br>1.12. "You" (or "Your") means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License or a future version of this License issued under Section 6.1. For legal entities, "You" includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.<br>2. Source Code License.<br>2.1. The Initial Developer Grant.<br>The Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license, subject to third party intellectual property claims:<br>(a) under intellectual property rights (other than patent or trademark) Licensable by Initial Developer to use, reproduce, modify, display, perform, sublicense and distribute the Original Code (or portions thereof) with or without Modifications, and/or as part of a Larger Work; and<br>(b) under Patents Claims infringed by the making, using or selling of Original Code, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Code (or portions thereof).<br>(c) the licenses granted in this Section 2.1(a) and (b) are effective on the date Initial Developer first distributes Original Code under the terms of this License.<br>(d) Notwithstanding Section 2.1(b) above, no patent license is granted: 1) for code that You delete from the |

| | | Original Code; 2) separate from the Original Code; or 3) for infringements caused by: i) the modification of the Original Code or ii) the combination of the Original Code with other software or devices.<br>2.2. Contributor Grant.<br>Subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license<br>(a) under intellectual property rights (other than patent or trademark) Licensable by Contributor, to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof) either on an unmodified basis, with other Modifications, as Covered Code and/or as part of a Larger Work; and<br>(b) under Patent Claims infringed by the making, using, or selling of Modifications made by that Contributor either alone and/or in combination with its Contributor Version (or portions of such combination), to make, use, sell, offer for sale, have made, and/or otherwise dispose of: 1) Modifications made by that Contributor (or portions thereof); and 2) the combination of Modifications made by that Contributor with its Contributor Version (or portions of such combination).<br>(c) the licenses granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first makes Commercial Use of the Covered Code.<br>(d) Notwithstanding Section 2.2(b) above, no patent license is granted: 1) for any code that Contributor has deleted from the Contributor Version; 2) separate from the Contributor Version; 3) for infringements caused by: i) third party modifications of Contributor Version or ii) the combination of Modifications made by that Contributor with other software (except as part of the Contributor Version) or other devices; or 4) under Patent Claims infringed by Covered Code in the absence of Modifications made by that Contributor.<br>3. Distribution Obligations.<br>3.1. Application of License.<br>The Modifications which You create or to which You contribute are governed by the terms of this License, including without limitation Section 2.2. The Source Code version of Covered Code may be distributed only under the terms of this License or a future version of this License released under Section 6.1, and You must include a copy of this License with every copy of the Source Code You distribute. You may not offer or impose any terms on any Source Code version that alters or restricts the applicable version of this License or the recipients' rights hereunder. However, You may include an additional document offering the additional rights described in Section 3.5.<br>3.2. Availability of Source Code.<br>Any Modification which You create or to which You contribute must be made available in Source Code form under the terms of this License either on the |

| | | |
|---|---|---|
| | | same media as an Executable version or via an accepted Electronic Distribution Mechanism to anyone to whom you made an Executable version available; and if made available via Electronic Distribution Mechanism, must remain available for at least twelve (12) months after the date it initially became available, or at least six (6) months after a subsequent version of that particular Modification has been made available to such recipients. You are responsible for ensuring that the Source Code version remains available even if the Electronic Distribution Mechanism is maintained by a third party.<br>3.3. Description of Modifications.<br>You must cause all Covered Code to which You contribute to contain a file documenting the changes You made to create that Covered Code and the date of any change. You must include a prominent statement that the Modification is derived, directly or indirectly, from Original Code provided by the Initial Developer and including the name of the Initial Developer in (a) the Source Code, and (b) in any notice in an Executable version or related documentation in which You describe the origin or ownership of the Covered Code.<br>3.4. Intellectual Property Matters<br>(a) Third Party Claims.<br>If Contributor has knowledge that a license under a third party's intellectual property rights is required to exercise the rights granted by such Contributor under Sections 2.1 or 2.2, Contributor must include a text file with the Source Code distribution titled "LEGAL" which describes the claim and the party making the claim in sufficient detail that a recipient will know whom to contact. If Contributor obtains such knowledge after the Modification is made available as described in Section 3.2, Contributor shall promptly modify the LEGAL file in all copies Contributor makes available thereafter and shall take other steps (such as notifying appropriate mailing lists or newsgroups) reasonably calculated to inform those who received the Covered Code that new knowledge has been obtained.<br>(b) Contributor APIs.<br>If Contributor's Modifications include an application programming interface and Contributor has knowledge of patent licenses which are reasonably necessary to implement that API, Contributor must also include this information in the LEGAL file.<br>(c) Representations.<br>Contributor represents that, except as disclosed pursuant to Section 3.4(a) above, Contributor believes that Contributor's Modifications are Contributor's original creation(s) and/or Contributor has sufficient rights to grant the rights conveyed by this License.<br>3.5. Required Notices.<br>You must duplicate the notice in Exhibit A in each file of the Source Code. If it is not possible to put such |

| | | |
|---|---|---|
| | | notice in a particular Source Code file due to its structure, then You must include such notice in a location (such as a relevant directory) where a user would be likely to look for such a notice. If You created one or more Modification(s) You may add your name as a Contributor to the notice described in Exhibit A. You must also duplicate this License in any documentation for the Source Code where You describe recipients' rights or ownership rights relating to Covered Code. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Code. However, You may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear than any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer.<br>3.6. Distribution of Executable Versions.<br>You may distribute Covered Code in Executable form only if the requirements of Section 3.1-3.5 have been met for that Covered Code, and if You include a notice stating that the Source Code version of the Covered Code is available under the terms of this License, including a description of how and where You have fulfilled the obligations of Section 3.2. The notice must be conspicuously included in any notice in an Executable version, related documentation or collateral in which You describe recipients' rights relating to the Covered Code. You may distribute the Executable version of Covered Code or ownership rights under a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable version does not attempt to limit or alter the recipient's rights in the Source Code version from the rights set forth in this License. If You distribute the Executable version under a different license You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or any Contributor. You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer.<br>3.7. Larger Works.<br>You may create a Larger Work by combining Covered Code with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Code.<br>4. Inability to Comply Due to Statute or Regulation. |

| | | |
|---|---|---|
| | | If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Code due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be included in the LEGAL file described in Section 3.4 and must be included with all distributions of the Source Code. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.<br>5. Application of this License.<br>This License applies to code to which the Initial Developer has attached the notice in Exhibit A and to related Covered Code.<br>6. Versions of the License.<br>6.1. New Versions.<br>Netscape Communications Corporation ("Netscape") may publish revised and/or new versions of the License from time to time. Each version will be given a distinguishing version number.<br>6.2. Effect of New Versions.<br>Once Covered Code has been published under a particular version of the License, You may always continue to use it under the terms of that version. You may also choose to use such Covered Code under the terms of any subsequent version of the License published by Netscape. No one other than Netscape has the right to modify the terms applicable to Covered Code created under this License.<br>6.3. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]<br>Preamble<br>The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.<br>This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.<br>When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.<br>To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.<br>For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients |

| | | |
|---|---|---|
| | | all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.<br>We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.<br>To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.<br>Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.<br>Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.<br>When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.<br>We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.<br>For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free |

| | | |
|---|---|---|
| | | libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.<br>In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.<br>Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.<br>The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.<br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br>0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".<br>A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.<br>The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)<br>"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.<br>Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the |

| | | |
|---|---|---|
| | | program that uses the Library does.<br>1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.<br>You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.<br>2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:<br>a) The modified work must itself be a software library.<br>b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.<br>c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.<br>d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.<br>(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)<br>These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.<br>Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library. |

| | | |
|---|---|---|
| | | In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.<br>3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.<br>Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.<br>This option is useful when you wish to copy part of the code of the Library into a program that is not a library.<br>4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.<br>If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.<br>5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.<br>However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License.<br>Section 6 states terms for distribution of such executables.<br>When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by |

| | | |
|---|---|---|
| | | law.<br>If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)<br>Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.<br>6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.<br>You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:<br>a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)<br>b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.<br>c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.<br>d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent |

| | | |
|---|---|---|
| | | access to copy the above specified materials from the same place.<br>e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.<br>For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.<br>It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.<br>7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:<br>a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.<br>b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.<br>8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.<br>9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.<br>10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically |

| | | |
|---|---|---|
| | | receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.<br>11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.<br>If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.<br>It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.<br>This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.<br>12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.<br>13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.<br>Each version is given a distinguishing version number. |

ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.<br>1. DEFINITIONS<br>"Contribution" means:<br>a) in the case of the initial Contributor, the initial code and documentation distributed under this Agreement, and |

| | | |
|---|---|---|
| | | b) in the case of each subsequent Contributor:<br>i) changes to the Program, and<br>ii) additions to the Program;<br>where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution 'originates' from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are not derivative works of the Program.<br>"Contributor" means any person or entity that distributes the Program.<br>"Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.<br>"Program" means the Contributions distributed in accordance with this Agreement.<br>"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.<br>2. GRANT OF RIGHTS<br>a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.<br>b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.<br>c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other |

| | | |
|---|---|---|
| | | intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.<br>d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.<br>3. REQUIREMENTS<br>A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that:<br>a) it complies with the terms and conditions of this Agreement; and<br>b) its license agreement:<br>i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;<br>ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;<br>iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and<br>iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange.<br>When the Program is made available in source code form:<br>a) it must be made available under this Agreement; and<br>b) a copy of this Agreement must be included with each copy of the Program.<br>Contributors may not remove or alter any copyright notices contained within the Program.<br>Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.<br>4. COMMERCIAL DISTRIBUTION<br>Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified |

| | | |
|---|---|---|
| | | Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.<br>For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.<br>5. NO WARRANTY<br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement , including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.<br>6. DISCLAIMER OF LIABILITY<br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING |

| | | |
|---|---|---|
| | | NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.<br>7. GENERAL<br>If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.<br>If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.<br>All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.<br>Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved. |

| | | This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation.<br>---------- Separator ----------<br>Dependency: org.locationtech.spatial4j:spatial4j<br>Copyright: The Apache Software Foundation<br>License: Apache 2.0<br>./notice.md<br># Notices for Spatial4j<br>This content is produced and maintained by the Eclipse Spatial4j project.<br>* Project home: https://projects.eclipse.org/projects/locationtech.spatial4j<br>## Trademarks<br>LocationTech Spatial4j, and Spatial4j are trademarks of the Eclipse Foundation.<br>## Declared Project Licenses<br>This program and the accompanying materials are made available under the terms<br>of the Apache License, Version 2.0 which is available at<br>https://www.apache.org/licenses/LICENSE-2.0.<br>SPDX-License-Identifier: Apache-2.0<br>## Source Code<br>The project maintains the following source code repositories:<br>* https://github.com/locationtech/spatial4j<br>## Third-party Content<br>(none)<br>## Cryptography<br>(none)<br>---------- Separator ----------<br>Dependency: org.opensearch:common-utils<br>Copyright: OpenSearch Contributors<br>License: Apache 2.0<br>./LICENSE.txt<br>Apache 2.0 ( same as org.opensearch.plugin:neural-search)<br>---------- Separator ----------<br>./NOTICE<br>OpenSearch (https://opensearch.org/)<br>Copyright OpenSearch Contributors<br>This product includes software developed by Elasticsearch (http://www.elastic.co).<br>Copyright 2009-2018 Elasticsearch<br>This product includes software developed by The Apache Software<br>Foundation (http://www.apache.org/).<br>This product includes software developed by Joda.org (http://www.joda.org/).<br>---------- Separator ---------- |

| | | REPRODUCTION, AND DISTRIBUTION<br>1. Definitions.<br>"License" shall mean the terms and conditions for use, reproduction,<br>and distribution as defined by Sections 1 through 9 of this document.<br>"Licensor" shall mean the copyright owner or entity authorized by<br>the copyright owner that is granting the License.<br>"Legal Entity" shall mean the union of the acting entity and all<br>other entities that control, are controlled by, or are under common<br>control with that entity. For the purposes of this definition,<br>"control" means (i) the power, direct or indirect, to cause the<br>direction or management of such entity, whether by contract or<br>otherwise, or (ii) ownership of fifty percent (50%) or more of the<br>outstanding shares, or (iii) beneficial ownership of such entity.<br>"You" (or "Your") shall mean an individual or Legal Entity<br>exercising permissions granted by this License.<br>"Source" form shall mean the preferred form for making modifications,<br>including but not limited to software source code, documentation<br>source, and configuration files.<br>"Object" form shall mean any form resulting from mechanical<br>transformation or translation of a Source form, including but<br>not limited to compiled object code, generated documentation,<br>and conversions to other media types.<br>"Work" shall mean the work of authorship, whether in Source or<br>Object form, made available under the License, as indicated by a<br>copyright notice that is included in or attached to the work<br>(an example is provided in the Appendix below).<br>"Derivative Works" shall mean any work, whether in Source or Object<br>form, that is based on (or derived from) the Work and for which the<br>editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of authorship. For the purposes<br>of this License, Derivative Works shall not include works that remain<br>separable from, or merely link (or bind by name) to |

| | | |
|---|---|---|
| | | the interfaces of,<br>the Work and Derivative Works thereof.<br>"Contribution" shall mean any work of authorship, including<br>the original version of the Work and any modifications or additions<br>to that Work or Derivative Works thereof, that is intentionally<br>submitted to Licensor for inclusion in the Work by the copyright owner<br>or by an individual or Legal Entity authorized to submit on behalf of<br>the copyright owner. For the purposes of this definition, "submitted"<br>means any form of electronic, verbal, or written communication sent<br>to the Licensor or its representatives, including but not limited to<br>communication on electronic mailing lists, source code control systems,<br>and issue tracking systems that are managed by, or on behalf of, the<br>Licensor for the purpose of discussing and improving the Work, but<br>excluding communication that is conspicuously marked or otherwise<br>designated in writing by the copyright owner as "Not a Contribution."<br>"Contributor" shall mean Licensor and any individual or Legal Entity<br>on behalf of whom a Contribution has been received by Licensor and<br>subsequently incorporated within the Work.<br>2. Grant of Copyright License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>copyright license to reproduce, prepare Derivative Works of,<br>publicly display, publicly perform, sublicense, and distribute the<br>Work and such Derivative Works in Source or Object form.<br>3. Grant of Patent License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>(except as stated in this section) patent license to make, have made,<br>use, offer to sell, sell, import, and otherwise transfer the Work,<br>where such license applies only to those patent |

| | | |
|---|---|---|
| | | claims licensable<br>by such Contributor that are necessarily infringed by their<br>Contribution(s) alone or by combination of their Contribution(s)<br>with the Work to which such Contribution(s) was submitted. If You<br>institute patent litigation against any entity (including a<br>cross-claim or counterclaim in a lawsuit) alleging that the Work<br>or a Contribution incorporated within the Work constitutes direct<br>or contributory patent infringement, then any patent licenses<br>granted to You under this License for that Work shall terminate<br>as of the date such litigation is filed.<br>4. Redistribution. You may reproduce and distribute copies of the<br>Work or Derivative Works thereof in any medium, with or without<br>modifications, and in Source or Object form, provided that You<br>meet the following conditions:<br>(a) You must give any other recipients of the Work or<br>Derivative Works a copy of this License; and<br>(b) You must cause any modified files to carry prominent notices<br>stating that You changed the files; and<br>(c) You must retain, in the Source form of any Derivative Works<br>that You distribute, all copyright, patent, trademark, and<br>attribution notices from the Source form of the Work,<br>excluding those notices that do not pertain to any part of<br>the Derivative Works; and<br>(d) If the Work includes a "NOTICE" text file as part of its<br>distribution, then any Derivative Works that You distribute must<br>include a readable copy of the attribution notices contained<br>within such NOTICE file, excluding those notices that do not<br>pertain to any part of the Derivative Works, in at least one<br>of the following places: within a NOTICE text file distributed<br>as part of the Derivative Works; within the Source form or<br>documentation, if provided along with the Derivative Works; or, |

| | | |
|---|---|---|
| | | within a display generated by the Derivative Works, if and<br>wherever such third-party notices normally appear. The contents<br>of the NOTICE file are for informational purposes only and<br>do not modify the License. You may add Your own attribution<br>notices within Derivative Works that You distribute, alongside<br>or as an addendum to the NOTICE text from the Work, provided<br>that such additional attribution notices cannot be construed<br>as modifying the License.<br>You may add Your own copyright statement to Your modifications and<br>may provide additional or different license terms and conditions<br>for use, reproduction, or distribution of Your modifications, or<br>for any such Derivative Works as a whole, provided Your use,<br>reproduction, and distribution of the Work otherwise complies with<br>the conditions stated in this License.<br>5. Submission of Contributions. Unless You explicitly state otherwise,<br>any Contribution intentionally submitted for inclusion in the Work<br>by You to the Licensor shall be under the terms and conditions of<br>this License, without any additional terms or conditions.<br>Notwithstanding the above, nothing herein shall supersede or modify<br>the terms of any separate license agreement you may have executed<br>with Licensor regarding such Contributions.<br>6. Trademarks. This License does not grant permission to use the trade<br>names, trademarks, service marks, or product names of the Licensor,<br>except as required for reasonable and customary use in describing the<br>origin of the Work and reproducing the content of the NOTICE file.<br>7. Disclaimer of Warranty. Unless required by applicable law or<br>agreed to in writing, Licensor provides the Work (and each<br>Contributor provides its Contributions) on an "AS IS" BASIS,<br>WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or<br>implied, including, without limitation, any warranties |

You are solely responsible for determining the<br>appropriateness of using or redistributing the Work and assume any<br>risks associated with Your exercise of permissions under this License.<br>8. Limitation of Liability. In no event and under no legal theory,<br>whether in tort (including negligence), contract, or otherwise,<br>unless required by applicable law (such as deliberate and grossly<br>negligent acts) or agreed to in writing, shall any Contributor be<br>liable to You for damages, including any direct, indirect, special,<br>incidental, or consequential damages of any character arising as a<br>result of this License or out of the use or inability to use the<br>Work (including but not limited to damages for loss of goodwill,<br>work stoppage, computer failure or malfunction, or any and all<br>other commercial damages or losses), even if such Contributor<br>has been advised of the possibility of such damages.<br>9. Accepting Warranty or Additional Liability. While redistributing<br>the Work or Derivative Works thereof, You may choose to offer,<br>and charge a fee for, acceptance of support, warranty, indemnity,<br>or other liability obligations and/or rights consistent with this<br>License. However, in accepting such obligations, You may act only<br>on Your own behalf and on Your sole responsibility, not on behalf<br>of any other Contributor, and only if You agree to indemnify,<br>defend, and hold each Contributor harmless for any liability<br>incurred by, or claims asserted against, such Contributor by reason<br>of your accepting any such warranty or additional liability.<br>END OF TERMS AND CONDITIONS<br>APPENDIX: How to apply the Apache License to your work.<br>To apply the Apache License to your work, attach the following |

This capability is provided<br>with the intent of allowing such users to install, extend and update Eclipse-based products. Information about packaging<br>Installable Software is available at http://eclipse.org/equinox/p2/repository_packaging.html ("Specification").<br>You may use Provisioning Technology to allow other parties to install Installable Software. You shall be responsible for<br>enabling the applicable license agreements relating to the Installable Software to be presented to, and accepted by, the<br>users of the Provisioning Technology in accordance with the Specification. By using Provisioning Technology in such a<br>manner and making it available in accordance with the Specification, you further acknowledge your agreement to, and the<br>acquisition of all necessary rights to permit the following:<br>1. A series of actions may occur ("Provisioning Process") in which a user may execute the Provisioning Technology on a<br>machine ("Target Machine") with the intent of installing, extending or updating the functionality of an |

During the Provisioning Process, the Provisioning Technology may cause third party Installable Software or a portion<br>thereof to be accessed and copied to the Target Machine.<br>3. Pursuant to the Specification, you will provide to the user the terms and conditions that govern the use of the<br>Installable Software ("Installable Software Agreement") and such Installable Software Agreement shall be accessed<br>from the Target Machine in accordance with the Specification. Such Installable Software Agreement must inform the<br>user of the terms and conditions that govern the Installable Software and must solicit acceptance by the end user in<br>the manner prescribed in such Installable Software Agreement. Upon such indication of agreement by the user, the<br>provisioning Technology will complete installation of the Installable Software.<br>Cryptography<br>Content may contain encryption software. | | | LIABILITY FOR DAMAGES RESULTING FROM THE USE OF THIS DOCUMENT OR THE INFORMATION OR WORKS PROVIDED HEREUNDER.<br>Statement of Purpose<br>The laws of most jurisdictions throughout the world automatically confer<br>exclusive Copyright and Related Rights (defined below) upon the creator<br>and subsequent owner(s) (each and all, an "owner") of an original work of<br>authorship and/or a database (each, a "Work").<br>Certain owners wish to permanently relinquish those rights to a Work for<br>the purpose of contributing to a commons of creative, cultural and<br>scientific works ("Commons") that the public can reliably and without fear<br>of later claims of infringement build upon, modify, incorporate in other<br>works, reuse and redistribute as freely as possible in any form whatsoever<br>and for any purposes, including without limitation commercial purposes.<br>These owners may contribute to the Commons to promote the ideal of a free<br>culture and the further production of creative, cultural and scientific<br>works, or to gain reputation or greater distribution for their Work in<br>part through the use and efforts of others.<br>For these and/or other purposes and motivations, and without any<br>expectation of additional consideration or compensation, the person<br>associating CC0 with a Work (the "Affirmer"), to the extent that he or she<br>is an owner of Copyright and Related Rights in the Work, voluntarily<br>elects to apply CC0 to the Work and publicly distribute the Work under its<br>terms, with knowledge of his or her Copyright and Related Rights in the<br>Work and the meaning and intended legal effect of CC0 on those rights.<br>1. Copyright and Related Rights. A Work made available under CC0 may be<br>protected by copyright and related or neighboring rights ("Copyright and<br>Related Rights"). Copyright and Related Rights include, but are not<br>limited to, the following:<br>i. the right to reproduce, adapt, distribute, perform, display,<br>communicate, and translate a Work;<br>ii. moral rights retained by the original author(s) and/or |

| | | |

| | | performer(s);<br>iii. publicity and privacy rights pertaining to a person's image or<br>likeness depicted in a Work;<br>iv. rights protecting against unfair competition in regards to a Work,<br>subject to the limitations in paragraph 4(a), below;<br>v. rights protecting the extraction, dissemination, use and reuse of data<br>in a Work;<br>vi. database rights (such as those arising under Directive 96/9/EC of the<br>European Parliament and of the Council of 11 March 1996 on the legal<br>protection of databases, and under any national implementation<br>thereof, including any amended or successor version of such<br>directive); and<br>vii. other similar, equivalent or corresponding rights throughout the<br>world based on applicable law or treaty, and any national<br>implementations thereof.<br>2. Waiver. To the greatest extent permitted by, but not in contravention<br>of, applicable law, Affirmer hereby overtly, fully, permanently,<br>irrevocably and unconditionally waives, abandons, and surrenders all of<br>Affirmer's Copyright and Related Rights and associated claims and causes<br>of action, whether now known or unknown (including existing as well as<br>future claims and causes of action), in the Work (i) in all territories<br>worldwide, (ii) for the maximum duration provided by applicable law or<br>treaty (including future time extensions), (iii) in any current or future<br>medium and for any number of copies, and (iv) for any purpose whatsoever,<br>including without limitation commercial, advertising or promotional<br>purposes (the "Waiver"). Affirmer makes the Waiver for the benefit of each<br>member of the public at large and to the detriment of Affirmer's heirs and<br>successors, fully intending that such Waiver shall not be subject to<br>revocation, rescission, cancellation, termination, or any other legal or<br>equitable action to disrupt the quiet enjoyment of the Work by the public<br>as contemplated by Affirmer's express Statement of Purpose. |

| | | |
|---|---|---|
| | | 3. Public License Fallback. Should any part of the Waiver for any reason<br>be judged legally invalid or ineffective under applicable law, then the<br>Waiver shall be preserved to the maximum extent permitted taking into<br>account Affirmer's express Statement of Purpose. In addition, to the<br>extent the Waiver is so judged Affirmer hereby grants to each affected<br>person a royalty-free, non transferable, non sublicensable, non exclusive,<br>irrevocable and unconditional license to exercise Affirmer's Copyright and<br>Related Rights in the Work (i) in all territories worldwide, (ii) for the<br>maximum duration provided by applicable law or treaty (including future<br>time extensions), (iii) in any current or future medium and for any number<br>of copies, and (iv) for any purpose whatsoever, including without<br>limitation commercial, advertising or promotional purposes (the<br>"License"). The License shall be deemed effective as of the date CC0 was<br>applied by Affirmer to the Work. Should any part of the License for any<br>reason be judged legally invalid or ineffective under applicable law, such<br>partial invalidity or ineffectiveness shall not invalidate the remainder<br>of the License, and in such case Affirmer hereby affirms that he or she<br>will not (i) exercise any of his or her remaining Copyright and Related<br>Rights in the Work or (ii) assert any associated claims and causes of<br>action with respect to the Work, in either case contrary to Affirmer's<br>express Statement of Purpose.<br>4. Limitations and Disclaimers.<br>a. No trademark or patent rights held by Affirmer are waived, abandoned,<br>surrendered, licensed or otherwise affected by this document.<br>b. Affirmer offers the Work as-is and makes no representations or<br>warranties of any kind concerning the Work, express, implied,<br>statutory or otherwise, including without limitation warranties of<br>title, merchantability, fitness for a particular purpose, non<br>infringement, or the absence of latent or other defects, accuracy, or |

GRANT OF RIGHTS<br>a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of such Contributor,<br>if any, in Source Code or other form. This patent license shall<br>apply to the combination of the Contribution and the Program if, at<br>the time the Contribution is added by the Contributor, such addition<br>of the Contribution causes such combination to be covered by the<br>Licensed Patents. The patent license shall not |

| | | apply to any other<br>combinations which include the Contribution. No hardware per se is<br>licensed hereunder.<br>c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity.<br>Each Contributor disclaims any liability to Recipient for claims<br>brought by any other entity based on infringement of intellectual<br>property rights or otherwise. As a condition to exercising the<br>rights and licenses granted hereunder, each Recipient hereby<br>assumes sole responsibility to secure any other intellectual<br>property rights needed, if any. For example, if a third party<br>patent license is required to allow Recipient to Distribute the<br>Program, it is Recipient's responsibility to acquire that license<br>before distributing the Program.<br>d) Each Contributor represents that to its knowledge it has<br>sufficient copyright rights in its Contribution, if any, to grant<br>the copyright license set forth in this Agreement.<br>e) Notwithstanding the terms of any Secondary License, no<br>Contributor makes additional grants to any Recipient (other than<br>those set forth in this Agreement) as a result of such Recipient's<br>receipt of the Program under the terms of a Secondary License<br>(if permitted under the terms of Section 3).<br>3. REQUIREMENTS<br>3.1 If a Contributor Distributes the Program in any form, then:<br>a) the Program must also be made available as Source Code, in<br>accordance with section 3.2, and the Contributor must accompany<br>the Program with a statement that the Source Code for the Program<br>is available under this Agreement, and informs Recipients how to<br>obtain it in a reasonable manner on or through a medium customarily |

| | | used for software exchange; and<br>b) the Contributor may Distribute the Program under a license<br>different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all<br>warranties and conditions, express and implied, including<br>warranties or conditions of title and non-infringement, and<br>implied warranties or conditions of merchantability and fitness<br>for a particular purpose;<br>ii) effectively excludes on behalf of all other Contributors all<br>liability for damages, including direct, indirect, special,<br>incidental and consequential damages, such as lost profits;<br>iii) does not attempt to limit or alter the recipients' rights<br>in the Source Code under section 3.2; and<br>iv) requires any subsequent distribution of the Program by any<br>party to be under a license that satisfies the requirements<br>of this section 3.<br>3.2 When the Program is Distributed as Source Code:<br>a) it must be made available under this Agreement, or if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br>4. COMMERCIAL DISTRIBUTION<br>Commercial distributors of software may accept certain responsibilities |

| | | |
|---|---|---|
| | | with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial |

| | | |
|---|---|---|
| | | Contributor must pay<br>those damages.<br>5. NO WARRANTY<br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS"<br>BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR<br>IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF<br>TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR<br>PURPOSE. Each Recipient is solely responsible for determining the<br>appropriateness of using and distributing the Program and assumes all<br>risks associated with its exercise of rights under this Agreement,<br>including but not limited to the risks and costs of program errors,<br>compliance with applicable laws, damage to or loss of data, programs<br>or equipment, and unavailability or interruption of operations.<br>6. DISCLAIMER OF LIABILITY<br>EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT<br>PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS<br>SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL,<br>EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST<br>PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN<br>CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE)<br>ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE<br>EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE<br>POSSIBILITY OF SUCH DAMAGES.<br>7. GENERAL<br>If any provision of this Agreement is invalid or unenforceable under<br>applicable law, it shall not affect the validity or enforceability of<br>the remainder of the terms of this Agreement, and without further<br>action by the parties hereto, such provision shall be reformed to the<br>minimum extent necessary to make such provision valid and enforceable.<br>If Recipient institutes patent litigation against any |

| | | entity<br>(including a cross-claim or counterclaim in a lawsuit) alleging that the<br>Program itself (excluding combinations of the Program with other software<br>or hardware) infringes such Recipient's patent(s), then such Recipient's<br>rights granted under Section 2(b) shall terminate as of the date such<br>litigation is filed.<br>All Recipient's rights under this Agreement shall terminate if it<br>fails to comply with any of the material terms or conditions of this<br>Agreement and does not cure such failure in a reasonable period of<br>time after becoming aware of such noncompliance. If all Recipient's<br>rights under this Agreement terminate, Recipient agrees to cease use<br>and distribution of the Program as soon as reasonably practicable.<br>However, Recipient's obligations under this Agreement and any licenses<br>granted by Recipient relating to the Program shall continue and survive.<br>Everyone is permitted to copy and distribute copies of this Agreement,<br>but in order to avoid inconsistency the Agreement is copyrighted and<br>may only be modified in the following manner. The Agreement Steward<br>reserves the right to publish new versions (including revisions) of<br>this Agreement from time to time. No one other than the Agreement<br>Steward has the right to modify this Agreement. The Eclipse Foundation<br>is the initial Agreement Steward. The Eclipse Foundation may assign the<br>responsibility to serve as the Agreement Steward to a suitable separate<br>entity. Each new version of the Agreement will be given a distinguishing<br>version number. The Program (including Contributions) may always be<br>Distributed subject to the version of the Agreement under which it was<br>received. In addition, after a new version of the Agreement is published,<br>Contributor may elect to Distribute the Program (including its<br>Contributions) under the new version.<br>Except as expressly stated in Sections 2(a) and 2(b) above, Recipient<br>receives no rights or licenses to the intellectual |

By contrast, the GNU General Public License is<br>intended to guarantee your freedom to share and change free software--to<br>make sure the software is free for all its users. This General Public<br>License applies to most of the Free Software Foundation's software and |

| | | |
|---|---|---|
| | | to any other program whose authors commit to using it. (Some other Free<br>Software Foundation software is covered by the GNU Library General<br>Public License instead.) You can apply it to your programs, too.<br>When we speak of free software, we are referring to freedom, not price.<br>Our General Public Licenses are designed to make sure that you have the<br>freedom to distribute copies of free software (and charge for this<br>service if you wish), that you receive source code or can get it if you<br>want it, that you can change the software or use pieces of it in new<br>free programs; and that you know you can do these things.<br>To protect your rights, we need to make restrictions that forbid anyone<br>to deny you these rights or to ask you to surrender the rights. These<br>restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br>For example, if you distribute copies of such a program, whether gratis<br>or for a fee, you must give the recipients all the rights that you have.<br>You must make sure that they, too, receive or can get the source code.<br>And you must show them these terms so they know their rights.<br>We protect your rights with two steps: (1) copyright the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br>Also, for each author's protection and ours, we want to make certain<br>that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br>Finally, any free program is threatened constantly by software patents.<br>We wish to avoid the danger that redistributors of a free program will<br>individually obtain patent licenses, in effect making the program<br>proprietary. To prevent this, we have made it clear |

| | | |
|---|---|---|
| | | that any patent must<br>be licensed for everyone's free use or not licensed at all.<br>The precise terms and conditions for copying, distribution and<br>modification follow.<br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br>0. This License applies to any program or other work which contains a<br>notice placed by the copyright holder saying it may be distributed under<br>the terms of this General Public License. The "Program", below, refers<br>to any such program or work, and a "work based on the Program" means<br>either the Program or any derivative work under copyright law: that is<br>to say, a work containing the Program or a portion of it, either<br>verbatim or with modifications and/or translated into another language.<br>(Hereinafter, translation is included without limitation in the term<br>"modification".) Each licensee is addressed as "you".<br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of running<br>the Program is not restricted, and the output from the Program is<br>covered only if its contents constitute a work based on the Program<br>(independent of having been made by running the Program). Whether that<br>is true depends on what the Program does.<br>1. You may copy and distribute verbatim copies of the Program's source<br>code as you receive it, in any medium, provided that you conspicuously<br>and appropriately publish on each copy an appropriate copyright notice<br>and disclaimer of warranty; keep intact all the notices that refer to<br>this License and to the absence of any warranty; and give any other<br>recipients of the Program a copy of this License along with the Program.<br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br>2. You may modify your copy or copies of the Program or any portion of<br>it, thus forming a work based on the Program, and copy and distribute |

| | | |
|---|---|---|
| | | such modifications or work under the terms of Section 1 above, provided<br>that you also meet all of these conditions:<br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any part<br>thereof, to be licensed as a whole at no charge to all third parties<br>under the terms of this License.<br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a notice<br>that there is no warranty (or else, saying that you provide a<br>warranty) and that users may redistribute the program under these<br>conditions, and telling the user how to view a copy of this License.<br>(Exception: if the Program itself is interactive but does not<br>normally print such an announcement, your work based on the Program<br>is not required to print an announcement.)<br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program, and<br>can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based on<br>the Program, the distribution of the whole must be on the terms of this<br>License, whose permissions for other licensees extend to the entire<br>whole, and thus to each and every part regardless of who wrote it.<br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of |

| | | |
|---|---|---|
| | | derivative or<br>collective works based on the Program.<br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of a<br>storage or distribution medium does not bring the other work under the<br>scope of this License.<br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections 1<br>and 2 above on a medium customarily used for software interchange; or,<br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your cost<br>of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This alternative is allowed<br>only for noncommercial distribution and only if you received the<br>program in object code or executable form with such an offer, in<br>accord with Subsection b above.)<br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source code<br>means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to control<br>compilation and installation of the executable. However, as a special<br>exception, the source code distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major<br>components (compiler, kernel, and so on) of the |

| | | |
|---|---|---|
| | | operating system on<br>which the executable runs, unless that component itself accompanies the<br>executable.<br>If distribution of executable or object code is made by offering access<br>to copy from a designated place, then offering equivalent access to copy<br>the source code from the same place counts as distribution of the source<br>code, even though third parties are not compelled to copy the source<br>along with the object code.<br>4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt otherwise<br>to copy, modify, sublicense or distribute the Program is void, and will<br>automatically terminate your rights under this License. However, parties<br>who have received copies, or rights, from you under this License will<br>not have their licenses terminated so long as such parties remain in<br>full compliance.<br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and all<br>its terms and conditions for copying, distributing or modifying the<br>Program or works based on it.<br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further restrictions<br>on the recipients' exercise of the rights granted herein. You are not<br>responsible for enforcing compliance by third parties to this License.<br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to |

| | | |
|---|---|---|
| | | patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot distribute<br>so as to satisfy simultaneously your obligations under this License and<br>any other pertinent obligations, then as a consequence you may not<br>distribute the Program at all. For example, if a patent license would<br>not permit royalty-free redistribution of the Program by all those who<br>receive copies directly or indirectly through you, then the only way you<br>could satisfy both it and this License would be to refrain entirely from<br>distribution of the Program.<br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is implemented<br>by public license practices. Many people have made generous<br>contributions to the wide range of software distributed through that<br>system in reliance on consistent application of that system; it is up to<br>the author/donor to decide if he or she is willing to distribute<br>software through any other system and a licensee cannot impose that choice.<br>This section is intended to make thoroughly clear what is believed to be<br>a consequence of the rest of this License.<br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License may<br>add an explicit geographical distribution limitation excluding those |

| | | |
|---|---|---|
| | | countries, so that distribution is permitted only in or among countries<br>not thus excluded. In such case, this License incorporates the<br>limitation as if written in the body of this License.<br>9. The Free Software Foundation may publish revised and/or new<br>versions of the General Public License from time to time. Such new<br>versions will be similar in spirit to the present version, but may<br>differ in detail to address new problems or concerns.<br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and<br>conditions either of that version or of any later version published by<br>the Free Software Foundation. If the Program does not specify a version<br>number of this License, you may choose any version ever published by the<br>Free Software Foundation.<br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the<br>author to ask for permission. For software which is copyrighted by the<br>Free Software Foundation, write to the Free Software Foundation; we<br>sometimes make exceptions for this. Our decision will be guided by the<br>two goals of preserving the free status of all derivatives of our free<br>software and of promoting the sharing and reuse of software generally.<br>NO WARRANTY<br>11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO<br>WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.<br>EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR<br>OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND,<br>EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED<br>WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE<br>ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH<br>YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL |

It is safest to<br>attach them to the start of each source file to most effectively convey<br>the exclusion of warranty; and each file should have at least the<br>"copyright" line and a pointer to where the full notice is found.<br>One line to give the program's name and a brief idea of what it does.<br>Copyright (C) <year> <name of author><br>This program is free software; you can redistribute it and/or modify<br>it under the terms of the GNU General Public License as published by<br>the Free Software Foundation; either version 2 of the License, or<br>(at your option) any later version.<br>This program is distributed in the hope that it will be useful, but<br>WITHOUT ANY WARRANTY; without even the implied warranty of<br>MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. Definitions.<br>"License" shall mean the terms and conditions for use, reproduction,<br>and distribution as defined by Sections 1 through 9 of this document.<br>"Licensor" shall mean the copyright owner or entity authorized by<br>the copyright owner that is granting the License.<br>"Legal Entity" shall mean the union of the acting entity and all |

| | | other entities that control, are controlled by, or are under common<br>control with that entity. For the purposes of this definition,<br>"control" means (i) the power, direct or indirect, to cause the<br>direction or management of such entity, whether by contract or<br>otherwise, or (ii) ownership of fifty percent (50%) or more of the<br>outstanding shares, or (iii) beneficial ownership of such entity.<br>"You" (or "Your") shall mean an individual or Legal Entity<br>exercising permissions granted by this License.<br>"Source" form shall mean the preferred form for making modifications,<br>including but not limited to software source code, documentation<br>source, and configuration files.<br>"Object" form shall mean any form resulting from mechanical<br>transformation or translation of a Source form, including but<br>not limited to compiled object code, generated documentation,<br>and conversions to other media types.<br>"Work" shall mean the work of authorship, whether in Source or<br>Object form, made available under the License, as indicated by a<br>copyright notice that is included in or attached to the work<br>(an example is provided in the Appendix below).<br>"Derivative Works" shall mean any work, whether in Source or Object<br>form, that is based on (or derived from) the Work and for which the<br>editorial revisions, annotations, elaborations, or other modifications<br>represent, as a whole, an original work of authorship. For the purposes<br>of this License, Derivative Works shall not include works that remain<br>separable from, or merely link (or bind by name) to the interfaces of,<br>the Work and Derivative Works thereof.<br>"Contribution" shall mean any work of authorship, including<br>the original version of the Work and any modifications or additions<br>to that Work or Derivative Works thereof, that is intentionally<br>submitted to Licensor for inclusion in the Work by the copyright owner<br>or by an individual or Legal Entity authorized to |

| | | submit on behalf of<br>the copyright owner. For the purposes of this definition, "submitted"<br>means any form of electronic, verbal, or written communication sent<br>to the Licensor or its representatives, including but not limited to<br>communication on electronic mailing lists, source code control systems,<br>and issue tracking systems that are managed by, or on behalf of, the<br>Licensor for the purpose of discussing and improving the Work, but<br>excluding communication that is conspicuously marked or otherwise<br>designated in writing by the copyright owner as "Not a Contribution."<br>"Contributor" shall mean Licensor and any individual or Legal Entity<br>on behalf of whom a Contribution has been received by Licensor and<br>subsequently incorporated within the Work.<br>2. Grant of Copyright License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>copyright license to reproduce, prepare Derivative Works of,<br>publicly display, publicly perform, sublicense, and distribute the<br>Work and such Derivative Works in Source or Object form.<br>3. Grant of Patent License. Subject to the terms and conditions of<br>this License, each Contributor hereby grants to You a perpetual,<br>worldwide, non-exclusive, no-charge, royalty-free, irrevocable<br>(except as stated in this section) patent license to make, have made,<br>use, offer to sell, sell, import, and otherwise transfer the Work,<br>where such license applies only to those patent claims licensable<br>by such Contributor that are necessarily infringed by their<br>Contribution(s) alone or by combination of their Contribution(s)<br>with the Work to which such Contribution(s) was submitted. If You<br>institute patent litigation against any entity (including a<br>cross-claim or counterclaim in a lawsuit) alleging that the Work |

| | | or a Contribution incorporated within the Work constitutes direct<br>or contributory patent infringement, then any patent licenses<br>granted to You under this License for that Work shall terminate<br>as of the date such litigation is filed.<br>4. Redistribution. You may reproduce and distribute copies of the<br>Work or Derivative Works thereof in any medium, with or without<br>modifications, and in Source or Object form, provided that You<br>meet the following conditions:<br>(a) You must give any other recipients of the Work or<br>Derivative Works a copy of this License; and<br>(b) You must cause any modified files to carry prominent notices<br>stating that You changed the files; and<br>(c) You must retain, in the Source form of any Derivative Works<br>that You distribute, all copyright, patent, trademark, and<br>attribution notices from the Source form of the Work,<br>excluding those notices that do not pertain to any part of<br>the Derivative Works; and<br>(d) If the Work includes a "NOTICE" text file as part of its<br>distribution, then any Derivative Works that You distribute must<br>include a readable copy of the attribution notices contained<br>within such NOTICE file, excluding those notices that do not<br>pertain to any part of the Derivative Works, in at least one<br>of the following places: within a NOTICE text file distributed<br>as part of the Derivative Works; within the Source form or<br>documentation, if provided along with the Derivative Works; or,<br>within a display generated by the Derivative Works, if and<br>wherever such third-party notices normally appear. Submission of Contributions. Unless You explicitly state otherwise,<br>any Contribution intentionally submitted for inclusion in the Work<br>by You to the Licensor shall be under the terms and conditions of<br>this License, without any additional terms or conditions.<br>Notwithstanding the above, nothing herein shall supersede or modify<br>the terms of any separate license agreement you may have executed<br>with Licensor regarding such Contributions.<br>6. Trademarks. This License does not grant permission to use the trade<br>names, trademarks, service marks, or product names of the Licensor,<br>except as required for reasonable and customary use in describing the<br>origin of the Work and reproducing the content of the NOTICE file.<br>7. Accepting Warranty or Additional Liability. While redistributing<br>the Work or Derivative Works thereof, You may choose to offer,<br>and charge a fee for, acceptance of support, warranty, indemnity,<br>or other liability obligations and/or rights consistent with this<br>License. However, in accepting such obligations, You may act only<br>on Your own behalf and on Your sole responsibility, not on behalf<br>of any other Contributor, and only if You agree to indemnify,<br>defend, and hold each Contributor harmless for any liability<br>incurred by, or claims asserted against, such Contributor by reason<br>of your accepting any such warranty or additional liability.<br>END OF TERMS AND CONDITIONS<br>APPENDIX: How to apply the Apache License to your work.<br>To apply the Apache License to your work, attach the following<br>boilerplate notice, with the fields enclosed by brackets "[]"<br>replaced with your own identifying information. This licence is intended for use on databases or their contents (“data”), either together or individually.<br>Many databases are covered by copyright. Some jurisdictions, mainly in Europe, have specific special rights that cover databases called the “sui generis” database right. Both of these sets of rights, as well as other legal rights used to protect databases and data, can create uncertainty or practical difficulty for those wishing to share databases and their underlying data but retain a limited amount of rights under a “some rights reserved” approach to licensing as outlined in the Science Commons Protocol for Implementing |

| | | |
|---|---|---|
| | | Open Access Data. As a result, this waiver and licence tries to the fullest extent possible to eliminate or fully license any rights that cover this database and data. Any Community Norms or similar statements of use of the database or data do not form a part of this document, and do not act as a contract for access or other terms of use for the database or data.<br>The position of the recipient of the work<br>Because this document places the database and its contents in or as close as possible within the public domain, there are no restrictions or requirements placed on the recipient by this document. Recipients may use this work commercially, use technical protection measures, combine this data or database with other databases or data, and share their changes and additions or keep them secret. It is not a requirement that recipients provide further users with a copy of this licence or attribute the original creator of the data or database as a source. The goal is to eliminate restrictions held by the original creator of the data and database on the use of it by others.<br>The position of the dedicator of the work<br>Copyright law, as with most other law under the banner of “intellectual property”, is inherently national law. This means that there exists several differences in how copyright and other IP rights can be relinquished, waived or licensed in the many legal jurisdictions of the world. This is despite much harmonisation of minimum levels of protection. The internet and other communication technologies span these many disparate legal jurisdictions and thus pose special difficulties for a document relinquishing and waiving intellectual property rights, including copyright and database rights, for use by the global community. Because of this feature of intellectual property law, this document first relinquishes the rights and waives the relevant rights and claims. It then goes on to license these same rights for jurisdictions or areas of law that may make it difficult to relinquish or waive rights or claims.<br>The purpose of this document is to enable rightsholders to place their work into the public domain. Unlike licences for free and open source software, free cultural works, or open content licences, rightsholders will not be able to “dual license” their work by releasing the same work under different licences. This is because they have allowed anyone to use the work in whatever way they choose. Rightsholders therefore can’t re-license it under copyright or database rights on different terms because they have nothing left to license. Doing so creates truly accessible data to build rich applications and advance the progress of science and the arts.<br>This document can cover either or both of the database and its contents (the data). Because databases can have a wide variety of content – not just |

| | | |
|---|---|---|
| | | factual data – rightsholders should use the Open Data Commons – Public Domain Dedication & Licence for an entire database and its contents only if everything can be placed under the terms of this document.<br>Because even factual data can sometimes have intellectual property rights, rightsholders should use this licence to cover both the database and its factual data when making material available under this document; even if it is likely that the data would not be covered by copyright or database rights.<br>Rightsholders can also use this document to cover any copyright or database rights claims over only a database, and leave the contents to be covered by other licences or documents. They can do this because this document refers to the “Work”, which can be either – or both – the database and its contents. As a result, rightsholders need to clearly state what they are dedicating under this document when they dedicate it.<br>Just like any licence or other document dealing with intellectual property, rightsholders should be aware that one can only license what one owns. Please ensure that the rights have been cleared to make this material available under this document.<br>This document permanently and irrevocably makes the Work available to the public for any use of any kind, and it should not be used unless the rightsholder is prepared for this to happen.<br>Part I: Introduction<br>The Rightsholder (the Person holding rights or claims over the Work) agrees as follows:<br>1.0 Definitions of Capitalised Words<br>“Copyright” – Includes rights under copyright and under neighbouring rights and similarly related sets of rights under the law of the relevant jurisdiction under Section 6.4.<br>“Data” – The contents of the Database, which includes the information, independent works, or other material collected into the Database offered under the terms of this Document.<br>“Database” – A collection of Data arranged in a systematic or methodical way and individually accessible by electronic or other means offered under the terms of this Document.<br>“Database Right” – Means rights over Data resulting from the Chapter III (“sui generis”) rights in the Database Directive (Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases) and any future updates as well as any similar rights available in the relevant jurisdiction under Section 6.4.<br>“Document” – means this relinquishment and waiver of rights and claims and back up licence agreement.<br>“Person” – Means a natural or legal person or a body of persons corporate or incorporate.<br>“Use” – As a verb, means doing any act that is |

This includes the right to sublicense the Work.<br>“Work” – Means either or both of the Database and Data offered under the terms of this Document.<br>“You” – the Person acquiring rights under the licence elements of this Document.<br>Words in the singular include the plural and vice versa.<br>2.0 What this document covers<br>2.1. Legal effect of this Document. This Document is:<br>a. A dedication to the public domain and waiver of Copyright and Database Rights over the Work; and<br>b. A licence of Copyright and Database Rights over the Work in jurisdictions that do not allow for relinquishment or waiver.<br>2.2. Legal rights covered.<br>a. Copyright. Any copyright or neighbouring rights in the Work. Copyright law varies between jurisdictions, but is likely to cover: the Database model or schema, which is the structure, arrangement, and organisation of the Database, and can also include the Database tables and table indexes; the data entry and output sheets; and the Field names of Data stored in the Database. Copyright may also cover the Data depending on the jurisdiction and type of Data; and<br>b. Database Rights. Database Rights only extend to the extraction and re-utilisation of the whole or a substantial part of the Data. Database Rights can apply even when there is no copyright over the Database. Database Rights can also apply when the Data is removed from the Database and is selected and arranged in a way that would not infringe any applicable copyright.<br>2.2 Rights not covered.<br>a. This Document does not apply to computer programs used in the making or operation of the Database;<br>b. This Document does not cover any patents over the Data or the Database. Please see Section 4.2 later in this Document for further details; and<br>c. This Document does not cover any trade marks associated with the Database. Please see Section 4.3 later in this Document for further details.<br>Users of this Database are cautioned that they may have to clear other rights or consult other licences.<br>2.3 Facts are free. The Rightsholder takes the position that factual information is not covered by Copyright. This Document however covers the Work in jurisdictions that may protect the factual information in the Work by Copyright, and to cover any information protected by Copyright that is contained in the Work.<br>Part II: Dedication to the public domain<br>3.0 Dedication, waiver, and licence of Copyright and Database Rights |

| | | |
|---|---|---|
| | | 3.1 Dedication of Copyright and Database Rights to the public domain. The Rightsholder by using this Document, dedicates the Work to the public domain for the benefit of the public and relinquishes all rights in Copyright and Database Rights over the Work.<br>a. The Rightsholder realises that once these rights are relinquished, that the Rightsholder has no further rights in Copyright and Database Rights over the Work, and that the Work is free and open for others to Use.<br>b. The Rightsholder intends for their relinquishment to cover all present and future rights in the Work under Copyright and Database Rights, whether they are vested or contingent rights, and that this relinquishment of rights covers all their heirs and successors.<br>The above relinquishment of rights applies worldwide and includes media and formats now known or created in the future.<br>3.2 Waiver of rights and claims in Copyright and Database Rights when Section 3.1 dedication inapplicable. If the dedication in Section 3.1 does not apply in the relevant jurisdiction under Section 6.4, the Rightsholder waives any rights and claims that the Rightsholder may have or acquire in the future over the Work in:<br>a. Copyright; and<br>b. Database Rights.<br>To the extent possible in the relevant jurisdiction, the above waiver of rights and claims applies worldwide and includes media and formats now known or created in the future. The Rightsholder agrees not to assert the above rights and waives the right to enforce them over the Work.<br>3.3 Licence of Copyright and Database Rights when Sections 3.1 and 3.2 inapplicable. If the dedication and waiver in Sections 3.1 and 3.2 does not apply in the relevant jurisdiction under Section 6.4, the Rightsholder and You agree as follows:<br>a. The Licensor grants to You a worldwide, royalty-free, non-exclusive, licence to Use the Work for the duration of any applicable Copyright and Database Rights. These rights explicitly include commercial use, and do not exclude any field of endeavour. To the extent possible in the relevant jurisdiction, these rights may be exercised in all media and formats whether now known or created in the future.<br>3.4 Moral rights. This section covers moral rights, including the right to be identified as the author of the Work or to object to treatment that would otherwise prejudice the author’s honour and reputation, or any other derogatory treatment:<br>a. For jurisdictions allowing waiver of moral rights, Licensor waives all moral rights that Licensor may have in the Work to the fullest extent possible by the law of the relevant jurisdiction under Section 6.4;<br>b. If waiver of moral rights under Section 3.4 a in the |

| | | |
|---|---|---|
| | | relevant jurisdiction is not possible, Licensor agrees not to assert any moral rights over the Work and waives all claims in moral rights to the fullest extent possible by the law of the relevant jurisdiction under Section 6.4; and<br>c. For jurisdictions not allowing waiver or an agreement not to assert moral rights under Section 3.4 a and b, the author may retain their moral rights over the copyrighted aspects of the Work.<br>Please note that some jurisdictions do not allow for the waiver of moral rights, and so moral rights may still subsist over the work in some jurisdictions.<br>4.0 Relationship to other rights<br>4.1 No other contractual conditions. The Rightsholder makes this Work available to You without any other contractual obligations, either express or implied. Any Community Norms statement associated with the Work is not a contract and does not form part of this Document.<br>4.2 Relationship to patents. This Document does not grant You a licence for any patents that the Rightsholder may own. Users of this Database are cautioned that they may have to clear other rights or consult other licences.<br>4.3 Relationship to trade marks. This Document does not grant You a licence for any trade marks that the Rightsholder may own or that the Rightsholder may use to cover the Work. Users of this Database are cautioned that they may have to clear other rights or consult other licences.<br>Part III: General provisions<br>5.0 Warranties, disclaimer, and limitation of liability<br>5.1 The Work is provided by the Rightsholder “as is” and without any warranty of any kind, either express or implied, whether of title, of accuracy or completeness, of the presence of absence of errors, of fitness for purpose, or otherwise. Some jurisdictions do not allow the exclusion of implied warranties, so this exclusion may not apply to You.<br>5.2 Subject to any liability that may not be excluded or limited by law, the Rightsholder is not liable for, and expressly excludes, all liability for loss or damage however and whenever caused to anyone by any use under this Document, whether by You or by anyone else, and whether caused by any fault on the part of the Rightsholder or not. This exclusion of liability includes, but is not limited to, any special, incidental, consequential, punitive, or exemplary damages. This exclusion applies even if the Rightsholder has been advised of the possibility of such damages.<br>5.3 If liability may not be excluded by law, it is limited to actual and direct financial loss to the extent it is caused by proved negligence on the part of the Rightsholder.<br>6.0 General<br>6.1 If any provision of this Document is held to be |

It replaces any earlier understandings, agreements or representations with respect to the Work not specified here.<br>6.3 This Document does not affect any rights that You or anyone else may independently have under any applicable law to make any use of this Work, including (for jurisdictions where this Document is a licence) fair dealing, fair use, database exceptions, or any other legally recognised limitation or exception to infringement of copyright or other applicable laws.<br>6.4 This Document takes effect in the relevant jurisdiction in which the Document terms are sought to be enforced. | | | copies<br>of this license document, but changing it is not allowed.<br>Preamble<br>The licenses for most software are designed to take away your<br>freedom to share and change it. By contrast, the GNU General Public<br>License is intended to guarantee your freedom to share and change free<br>software--to make sure the software is free for all its users. This<br>General Public License applies to most of the Free Software<br>Foundation's software and to any other program whose authors commit to<br>using it. (Some other Free Software Foundation software is covered by<br>the GNU Lesser General Public License instead.) You can apply it to<br>your programs, too.<br>When we speak of free software, we are referring to freedom, not<br>price. Our General Public Licenses are designed to make sure that you<br>have the freedom to distribute copies of free software (and charge for<br>this service if you wish), that you receive source code or can get it<br>if you want it, that you can change the software or use pieces of it<br>in new free programs; and that you know you can do these things.<br>To protect your rights, we need to make restrictions that forbid<br>anyone to deny you these rights or to ask you to surrender the rights.<br>These restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br>For example, if you distribute copies of such a program, whether<br>gratis or for a fee, you must give the recipients all the rights that<br>you have. You must make sure that they, too, receive or can get the<br>source code. And you must show them these terms so they know their<br>rights.<br>We protect your rights with two steps: (1) copyright the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br>Also, for each author's protection and ours, we want to make certain |

| | | |
|---|---|---|
| | | that everyone understands that there is no warranty for this free<br>software.  If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br>  Finally, any free program is threatened constantly by software<br>patents.  We wish to avoid the danger that redistributors of a free<br>program will individually obtain patent licenses, in effect making the<br>program proprietary.  To prevent this, we have made it clear that any<br>patent must be licensed for everyone's free use or not licensed at all.<br>  The precise terms and conditions for copying, distribution and<br>modification follow.<br>GNU GENERAL PUBLIC LICENSE<br>  TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br>  0. This License applies to any program or other work which contains<br>a notice placed by the copyright holder saying it may be distributed<br>under the terms of this General Public License.  The "Program", below,<br>refers to any such program or work, and a "work based on the Program"<br>means either the Program or any derivative work under copyright law:<br>that is to say, a work containing the Program or a portion of it,<br>either verbatim or with modifications and/or translated into another<br>language.  (Hereinafter, translation is included without limitation in<br>the term "modification".)  Each licensee is addressed as "you".<br>Activities other than copying, distribution and modification are not<br>covered by this License; they are outside its scope. The act of<br>running the Program is not restricted, and the output from the Program<br>is covered only if its contents constitute a work based on the<br>Program (independent of having been made by running the Program).<br>Whether that is true depends on what the Program does.<br>  1. You may copy and distribute verbatim copies of the |

| | | |
|---|---|---|
| | | Program's<br>source code as you receive it, in any medium, provided that you<br>conspicuously and appropriately publish on each copy an appropriate<br>copyright notice and disclaimer of warranty; keep intact all the<br>notices that refer to this License and to the absence of any warranty;<br>and give any other recipients of the Program a copy of this License<br>along with the Program.<br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br>2. You may modify your copy or copies of the Program or any portion<br>of it, thus forming a work based on the Program, and copy and<br>distribute such modifications or work under the terms of Section 1<br>above, provided that you also meet all of these conditions:<br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any<br>part thereof, to be licensed as a whole at no charge to all third<br>parties under the terms of this License.<br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright notice and a<br>notice that there is no warranty (or else, saying that you provide<br>a warranty) and that users may redistribute the program under<br>these conditions, and telling the user how to view a copy of this<br>License. (Exception: if the Program itself is interactive but<br>does not normally print such an announcement, your work based on<br>the Program is not required to print an announcement.)<br>These requirements apply to the modified work as a |

| | | |
|---|---|---|
| | | whole. If<br>identifiable sections of that work are not derived from the Program,<br>and can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based<br>on the Program, the distribution of the whole must be on the terms of<br>this License, whose permissions for other licensees extend to the<br>entire whole, and thus to each and every part regardless of who wrote it.<br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of<br>a storage or distribution medium does not bring the other work under<br>the scope of this License.<br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br>a) Accompany it with the complete corresponding machine-readable<br>source code, which must be distributed under the terms of Sections<br>1 and 2 above on a medium customarily used for software interchange; or,<br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your<br>cost of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br>c) Accompany it with the information you received as to the offer |

| | | |
|---|---|---|
| | | to distribute corresponding source code. (This alternative is<br>allowed only for noncommercial distribution and only if you<br>received the program in object code or executable form with such<br>an offer, in accord with Subsection b above.)<br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source<br>code means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to<br>control compilation and installation of the executable. However, as a<br>special exception, the source code distributed need not include<br>anything that is normally distributed (in either source or binary<br>form) with the major components (compiler, kernel, and so on) of the<br>operating system on which the executable runs, unless that component<br>itself accompanies the executable.<br>If distribution of executable or object code is made by offering<br>access to copy from a designated place, then offering equivalent<br>access to copy the source code from the same place counts as<br>distribution of the source code, even though third parties are not<br>compelled to copy the source along with the object code.<br>4. You may not copy, modify, sublicense, or distribute the Program<br>except as expressly provided under this License. Any attempt<br>otherwise to copy, modify, sublicense or distribute the Program is<br>void, and will automatically terminate your rights under this License.<br>However, parties who have received copies, or rights, from you under<br>this License will not have their licenses terminated so long as such<br>parties remain in full compliance.<br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. |

| | | |
|---|---|---|
| | | Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and<br>all its terms and conditions for copying, distributing or modifying<br>the Program or works based on it.<br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further<br>restrictions on the recipients' exercise of the rights granted herein.<br>You are not responsible for enforcing compliance by third parties to<br>this License.<br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot<br>distribute so as to satisfy simultaneously your obligations under this<br>License and any other pertinent obligations, then as a consequence you<br>may not distribute the Program at all. For example, if a patent<br>license would not permit royalty-free redistribution of the Program by<br>all those who receive copies directly or indirectly through you, then<br>the only way you could satisfy both it and this License would be to<br>refrain entirely from distribution of the Program.<br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of |

| | | |
|---|---|---|
| | | protecting the<br>integrity of the free software distribution system, which is<br>implemented by public license practices. Many people have made<br>generous contributions to the wide range of software distributed<br>through that system in reliance on consistent application of that<br>system; it is up to the author/donor to decide if he or she is willing<br>to distribute software through any other system and a licensee cannot<br>impose that choice.<br>This section is intended to make thoroughly clear what is believed to<br>be a consequence of the rest of this License.<br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License<br>may add an explicit geographical distribution limitation excluding<br>those countries, so that distribution is permitted only in or among<br>countries not thus excluded. In such case, this License incorporates<br>the limitation as if written in the body of this License.<br>9. The Free Software Foundation may publish revised and/or new versions<br>of the General Public License from time to time. Such new versions will<br>be similar in spirit to the present version, but may differ in detail to<br>address new problems or concerns.<br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and conditions<br>either of that version or of any later version published by the Free<br>Software Foundation. If the Program does not specify a version number of<br>this License, you may choose any version ever published by the Free Software<br>Foundation.<br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the author<br>to ask for permission. For software which is copyrighted by the Free |

Our decision will be guided by the two goals<br>of preserving the free status of all derivatives of our free software and<br>of promoting the sharing and reuse of software generally.<br>NO WARRANTY<br>11. Definitions. "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common |

| | | |
|---|---|---|
| | | control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types. "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on |

| | | |
|---|---|---|
| | | behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution." "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. 2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions: (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and (b) You must cause any modified files to carry prominent notices stating that You changed the files; and (c) You |

| | | |
|---|---|---|
| | | must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for |

| | | |
|---|---|---|
| | | reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. | | | |
|---|---|---|
| | | Contributor, and the Modifications made by that particular Contributor. 1.3. "Covered Code" means the Original Code or Modifications or the combination of the Original Code and Modifications, in each case including portions thereof. 1.4. "Electronic Distribution Mechanism" means a mechanism generally accepted in the software development community for the electronic transfer of data. 1.5. "Executable" means Covered Code in any form other than Source Code. 1.6. "Initial Developer" means the individual or entity identified as the Initial Developer in the Source Code notice required by Exhibit A. 1.7. "Larger Work" means a work which combines Covered Code or portions thereof with code not governed by the terms of this License. 1.8. "License" means this document. 1.8.1. "Licensable" means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently acquired, any and all of the rights conveyed herein. 1.9. "Modifications" means any addition to or deletion from the substance or structure of either the Original Code or any previous Modifications. When Covered Code is released as a series of files, a Modification is: A. Any addition to or deletion from the contents of a file containing Original Code or previous Modifications. B. Any new file that contains any part of the Original Code or previous Modifications. 1.10. "Original Code" means Source Code of computer software code which is described in the Source Code notice required by Exhibit A as Original Code, and which, at the time of its release under this License is not already Covered Code governed by this License. 1.10.1. "Patent Claims" means any patent claim(s), now owned or hereafter acquired, including without limitation, method, process, and apparatus claims, in any patent Licensable by grantor. 1.11. "Source Code" means the preferred form of the Covered Code for making modifications to it, including all modules it contains, plus any associated interface definition files, scripts used to control compilation and installation of an Executable, or source code differential comparisons against either the |

| | | |
|---|---|---|
| | | Original Code or another well known, available Covered Code of the Contributor's choice. The Source Code can be in a compressed or archival form, provided the appropriate decompression or de-archiving software is widely available for no charge. 1.12. "You" (or "Your") means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License or a future version of this License issued under Section 6.1. For legal entities, "You" includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity. 2. Source Code License. 2.1. The Initial Developer Grant. The Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license, subject to third party intellectual property claims: (a) under intellectual property rights (other than patent or trademark) Licensable by Initial Developer to use, reproduce, modify, display, perform, sublicense and distribute the Original Code (or portions thereof) with or without Modifications, and/or as part of a Larger Work; and (b) under Patents Claims infringed by the making, using or selling of Original Code, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Code (or portions thereof). (c) the licenses granted in this Section 2.1(a) and (b) are effective on the date Initial Developer first distributes Original Code under the terms of this License. (d) Notwithstanding Section 2.1(b) above, no patent license is granted: 1) for code that You delete from the Original Code; 2) separate from the Original Code; or 3) for infringements caused by: i) the modification of the Original Code or ii) the combination of the Original Code with other software or devices. 2.2. Contributor Grant. Subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license (a) under |

| | | |
|---|---|---|
| | | intellectual property rights (other than patent or trademark) Licensable by Contributor, to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof) either on an unmodified basis, with other Modifications, as Covered Code and/or as part of a Larger Work; and (b) under Patent Claims infringed by the making, using, or selling of Modifications made by that Contributor either alone and/or in combination with its Contributor Version (or portions of such combination), to make, use, sell, offer for sale, have made, and/or otherwise dispose of: 1) Modifications made by that Contributor (or portions thereof); and 2) the combination of Modifications made by that Contributor with its Contributor Version (or portions of such combination). (c) the licenses granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first makes Commercial Use of the Covered Code. (d) Notwithstanding Section 2.2(b) above, no patent license is granted: 1) for any code that Contributor has deleted from the Contributor Version; 2) separate from the Contributor Version; 3) for infringements caused by: i) third party modifications of Contributor Version or ii) the combination of Modifications made by that Contributor with other software (except as part of the Contributor Version) or other devices; or 4) under Patent Claims infringed by Covered Code in the absence of Modifications made by that Contributor. 3. Distribution Obligations. 3.1. Application of License. The Modifications which You create or to which You contribute are governed by the terms of this License, including without limitation Section 2.2. The Source Code version of Covered Code may be distributed only under the terms of this License or a future version of this License released under Section 6.1, and You must include a copy of this License with every copy of the Source Code You distribute. You may not offer or impose any terms on any Source Code version that alters or restricts the applicable version of this License or the recipients' rights hereunder. However, You may include an additional document offering the |

| | | |
|---|---|---|
| | | additional rights described in Section 3.5. 3.2. Availability of Source Code. Any Modification which You create or to which You contribute must be made available in Source Code form under the terms of this License either on the same media as an Executable version or via an accepted Electronic Distribution Mechanism to anyone to whom you made an Executable version available; and if made available via Electronic Distribution Mechanism, must remain available for at least twelve (12) months after the date it initially became available, or at least six (6) months after a subsequent version of that particular Modification has been made available to such recipients. You are responsible for ensuring that the Source Code version remains available even if the Electronic Distribution Mechanism is maintained by a third party. 3.3. Description of Modifications. You must cause all Covered Code to which You contribute to contain a file documenting the changes You made to create that Covered Code and the date of any change. You must include a prominent statement that the Modification is derived, directly or indirectly, from Original Code provided by the Initial Developer and including the name of the Initial Developer in (a) the Source Code, and (b) in any notice in an Executable version or related documentation in which You describe the origin or ownership of the Covered Code. 3.4. Intellectual Property Matters (a) Third Party Claims. If Contributor has knowledge that a license under a third party's intellectual property rights is required to exercise the rights granted by such Contributor under Sections 2.1 or 2.2, Contributor must include a text file with the Source Code distribution titled "LEGAL" which describes the claim and the party making the claim in sufficient detail that a recipient will know whom to contact. If Contributor obtains such knowledge after the Modification is made available as described in Section 3.2, Contributor shall promptly modify the LEGAL file in all copies Contributor makes available thereafter and shall take other steps (such as notifying appropriate mailing lists or newsgroups) reasonably calculated to inform those who |

| | | |
|---|---|---|
| | | received the Covered Code that new knowledge has been obtained. (b) Contributor APIs. If Contributor's Modifications include an application programming interface and Contributor has knowledge of patent licenses which are reasonably necessary to implement that API, Contributor must also include this information in the LEGAL file. (c) Representations. Contributor represents that, except as disclosed pursuant to Section 3.4(a) above, Contributor believes that Contributor's Modifications are Contributor's original creation(s) and/or Contributor has sufficient rights to grant the rights conveyed by this License. 3.5. Required Notices. You must duplicate the notice in Exhibit A in each file of the Source Code. If it is not possible to put such notice in a particular Source Code file due to its structure, then You must include such notice in a location (such as a relevant directory) where a user would be likely to look for such a notice. If You created one or more Modification(s) You may add your name as a Contributor to the notice described in Exhibit A. You must also duplicate this License in any documentation for the Source Code where You describe recipients' rights or ownership rights relating to Covered Code. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Code. However, You may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear than any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer. 3.6. Distribution of Executable Versions. You may distribute Covered Code in Executable form only if the requirements of Section 3.1-3.5 have been met for that Covered Code, and if You include a notice stating that the Source Code version of the Covered Code is available under the terms of this License, including a description of how and where You |

| | | |
|---|---|---|
| | | have fulfilled the obligations of Section 3.2. The notice must be conspicuously included in any notice in an Executable version, related documentation or collateral in which You describe recipients' rights relating to the Covered Code. You may distribute the Executable version of Covered Code or ownership rights under a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable version does not attempt to limit or alter the recipient's rights in the Source Code version from the rights set forth in this License. If You distribute the Executable version under a different license You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or any Contributor. You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer. 3.7. Larger Works. You may create a Larger Work by combining Covered Code with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Code. 4. Inability to Comply Due to Statute or Regulation. If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Code due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be included in the LEGAL file described in Section 3.4 and must be included with all distributions of the Source Code. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it. 5. Application of this License. This License applies to code to which the Initial Developer has attached the notice in Exhibit A and to related Covered Code. 6. Versions of the License. 6.1. New Versions. Netscape Communications |

| | | |
|---|---|---|
| | | Corporation ("Netscape") may publish revised and/or new versions of the License from time to time. Each version will be given a distinguishing version number. 6.2. Effect of New Versions. Once Covered Code has been published under a particular version of the License, You may always continue to use it under the terms of that version. You may also choose to use such Covered Code under the terms of any subsequent version of the License published by Netscape. No one other than Netscape has the right to modify the terms applicable to Covered Code created under this License. 6.3. Derivative Works. If You create or use a modified version of this License (which you may only do in order to apply it to code which is not already Covered Code governed by this License), You must (a) rename Your license so that the phrases "Mozilla", "MOZILLAPL", "MOZPL", "Netscape", "MPL", "NPL" or any confusingly similar phrase do not appear in your license (except to note that your license differs from this License) and (b) otherwise make it clear that Your version of the license contains terms which differ from the Mozilla Public License and Netscape Public License. (Filling in the name of the Initial Developer, Original Code or Contributor in the notice described in Exhibit A shall not of themselves be deemed to be modifications of this License.) 7. DISCLAIMER OF WARRANTY. COVERED CODE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED CODE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED CODE IS WITH YOU. SHOULD ANY COVERED CODE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF |

| | | |
|---|---|---|
| | | WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED CODE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER. 8. TERMINATION. 8.1. This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. All sublicenses to the Covered Code which are properly granted shall survive any termination of this License. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive. 8.2. If You initiate litigation by asserting a patent infringement claim (excluding declatory judgment actions) against Initial Developer or a Contributor (the Initial Developer or Contributor against whom You file such action is referred to as "Participant") alleging that: (a) such Participant's Contributor Version directly or indirectly infringes any patent, then any and all rights granted by such Participant to You under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively, unless if within 60 days after receipt of notice You either: (i) agree in writing to pay Participant a mutually agreeable reasonable royalty for Your past and future use of Modifications made by such Participant, or (ii) withdraw Your litigation claim with respect to the Contributor Version against such Participant. If within 60 days of notice, a reasonable royalty and payment arrangement are not mutually agreed upon in writing by the parties or the litigation claim is not withdrawn, the rights granted by Participant to You under Sections 2.1 and/or 2.2 automatically terminate at the expiration of the 60 day notice period specified above. (b) any software, hardware, or device, other than such Participant's Contributor Version, directly or indirectly infringes any patent, then any rights granted to You by such Participant under Sections 2.1(b) and 2.2(b) are revoked effective as of the date You first made, used, sold, distributed, or had made, Modifications made by that Participant. 8.3. If You assert a patent infringement claim against |

| | | |
|---|---|---|
| | | Participant alleging that such Participant's Contributor Version directly or indirectly infringes any patent where such claim is resolved (such as by license or settlement) prior to the initiation of patent infringement litigation, then the reasonable value of the licenses granted by such Participant under Sections 2.1 or 2.2 shall be taken into account in determining the amount or value of any payment or license. 8.4. In the event of termination under Sections 8.1 or 8.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or any distributor hereunder prior to termination shall survive termination. 9. LIMITATION OF LIABILITY. UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED CODE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU. 10. U.S. GOVERNMENT END USERS. The Covered Code is a "commercial item," as that term is defined in 48 |

| | | |
|---|---|---|
| | | C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer software" and "commercial computer software documentation," as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Code with only those rights set forth herein. 11. MISCELLANEOUS. This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License shall be governed by California law provisions (except to the extent applicable law, if any, provides otherwise), excluding its conflict-of-law provisions. With respect to disputes in which at least one party is a citizen of, or an entity chartered or registered to do business in the United States of America, any litigation relating to this License shall be subject to the jurisdiction of the Federal Courts of the Northern District of California, with venue lying in Santa Clara County, California, with the losing party responsible for costs, including without limitation, court costs and reasonable attorneys' fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License. 12. RESPONSIBILITY FOR CLAIMS. As between Initial Developer and the Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License and You agree to work with Initial Developer and Contributors to distribute such responsibility on an equitable basis. Nothing herein is intended or shall be deemed to constitute any admission of liability. 13. MULTIPLE-LICENSED CODE. Initial Developer may designate portions of the Covered Code as "Multiple-Licensed". "Multiple-Licensed" means that the Initial Developer permits you to utilize portions of the Covered Code under Your choice |

This version of the GNU Lesser General Public License incorporates the terms and conditions of version 3 of the GNU General Public License, supplemented by the additional permissions listed below. 0. Additional Definitions. As used herein, “this License” refers to version 3 of the GNU Lesser General Public License, and the “GNU GPL” refers to version 3 of the GNU General Public License. “The Library” refers to a covered work governed by this License, other than an Application or a Combined Work as defined below. An “Application” is any work that makes use of an interface provided by the Library, but which is not otherwise based on the Library. Defining a subclass of a class defined by the Library is deemed a mode of using an interface provided by the Library. A “Combined Work” is a work produced by combining or linking an Application with the Library. The particular version of the Library with which the Combined Work was made is also called the “Linked Version”. The “Minimal Corresponding Source” for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined Work that, considered in isolation, are based on the Application, and not on the Linked Version. The “Corresponding Application Code” for a Combined Work means the object code and/or source code for the Application, including any data and utility programs needed for reproducing the Combined Work from the Application, but excluding the System Libraries of |

| | | |
|---|---|---|
| | | the Combined Work. 1. Exception to Section 3 of the GNU GPL. You may convey a covered work under sections 3 and 4 of this License without being bound by section 3 of the GNU GPL. 2. Conveying Modified Versions. If you modify a copy of the Library, and, in your modifications, a facility refers to a function or data to be supplied by an Application that uses the facility (other than as an argument passed when the facility is invoked), then you may convey a copy of the modified version: a) under this License, provided that you make a good faith effort to ensure that, in the event an Application does not supply the function or data, the facility still operates, and performs whatever part of its purpose remains meaningful, or b) under the GNU GPL, with none of the additional permissions of this License applicable to that copy. 3. Object Code Incorporating Material from Library Header Files. The object code form of an Application may incorporate material from a header file that is part of the Library. You may convey such object code under terms of your choice, provided that, if the incorporated material is not limited to numerical parameters, data structure layouts and accessors, or small macros, inline functions and templates (ten or fewer lines in length), you do both of the following: a) Give prominent notice with each copy of the object code that the Library is used in it and that the Library and its use are covered by this License. b) Accompany the object code with a copy of the GNU GPL and this license document. 4. Combined Works. You may convey a Combined Work under terms of your choice that, taken together, effectively do not restrict modification of the portions of the Library contained in the Combined Work and reverse engineering for debugging such modifications, if you also do each of the following: a) Give prominent notice with each copy of the Combined Work that the Library is used in it and that the Library and its use are covered by this License. b) Accompany the Combined Work with a copy of the GNU GPL and this license document. c) For a Combined Work that displays copyright notices during execution, include the copyright notice for |

| | | |
|---|---|---|
| | | the Library among these notices, as well as a reference directing the user to the copies of the GNU GPL and this license document. d) Do one of the following: 0) Convey the Minimal Corresponding Source under the terms of this License, and the Corresponding Application Code in a form suitable for, and under terms that permit, the user to recombine or relink the Application with a modified version of the Linked Version to produce a modified Combined Work, in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source. 1) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (a) uses at run time a copy of the Library already present on the user's computer system, and (b) will operate properly with a modified version of the Library that is interface-compatible with the Linked Version. e) Provide Installation Information, but only if you would otherwise be required to provide such information under section 6 of the GNU GPL, and only to the extent that such information is necessary to install and execute a modified version of the Combined Work produced by recombining or relinking the Application with a modified version of the Linked Version. (If you use option 4d0, the Installation Information must accompany the Minimal Corresponding Source and Corresponding Application Code. If you use option 4d1, you must provide the Installation Information in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.) 5. Combined Libraries. You may place library facilities that are a work based on the Library side by side in a single library together with other library facilities that are not Applications and are not covered by this License, and convey such a combined library under terms of your choice, if you do both of the following: a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities, conveyed under the terms of this License. b) Give prominent notice with the combined library that part of it is a work based on the Library, and explaining where to find the |

| | | |
|---|---|---|
| | | accompanying uncombined form of the same work. 6. Revised Versions of the GNU Lesser General Public License. The Free Software Foundation may publish revised and/or new versions of the GNU Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Library as you received it specifies that a certain numbered version of the GNU Lesser General Public License “or any later version” applies to it, you have the option of following the terms and conditions either of that published version or of any later version published by the Free Software Foundation. If the Library as you received it does not specify a version number of the GNU Lesser General Public License, you may choose any version of the GNU Lesser General Public License ever published by the Free Software Foundation. If the Library as you received it specifies that a proxy can decide whether future versions of the GNU Lesser General Public License shall apply, that proxy's public statement of acceptance of any version is permanent authorization for you to choose that version for the Library. ========== ========== ========== ========== ========== ========== Fourth Party dependencies org.slf4j: slf4j-api org.slf4j: slf4j-jdk14 ========== ========== ========== ========== ========== ========== SLF4J source code and binaries are distributed under the MIT license. See the License for the specific language governing permissions and limitations under the License. Apache License Version 2.0, January 2004 http://www.apache.org/licenses/ TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION 1. Definitions. "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and |

| | | |
|---|---|---|
| | | conversions to other media types. "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution." "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. 2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the |

| | | |
|---|---|---|
| | | Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions: You must give any other recipients of the Work or Derivative Works a copy of this License; and You must cause any modified files to carry prominent notices stating that You changed the files; and You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file. 7. Disclaimer of |

| | | |
|---|---|---|
| | | Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. HISTORY OF THE SOFTWARE ========== Python was created in the early 1990s by Guido van Rossum at Stichting Mathematisch Centrum (CWI, see http://www.cwi.nl) in the Netherlands as a successor of a language called ABC. Guido remains Python's principal author, although it includes many contributions from others. In 1995, Guido continued his work on Python at the Corporation for National Research Initiatives (CNRI, see http://www.cnri.reston.va.us) in Reston, Virginia where he released several versions of the software. In May 2000, Guido and the Python core development team moved to BeOpen.com to form the BeOpen PythonLabs team. In October of the same year, the PythonLabs team moved to Digital Creations (now Zope Corporation, see http://www.zope.com). In 2001, the Python Software Foundation (PSF, see http://www.python.org/psf/) was formed, a non-profit organization created specifically to own Python-related Intellectual Property. Zope Corporation is a sponsoring member of the PSF. All Python releases are Open Source (see http://www.opensource.org for the Open Source Definition). Historically, most, but not all, Python releases have also been GPL-compatible; the table below summarizes the various releases. Release |

All Python licenses, unlike the GPL, let you distribute a modified version without making your changes open source. The GPL-compatible licenses make it possible to combine Python with other software that is released under the GPL; the others don't. (2) According to Richard Stallman, 1.6.1 is not GPL-compatible, because its license has a choice of law clause. According to CNRI, however, Stallman's lawyer has told CNRI's lawyer that 1.6.1 is "not incompatible" with the GPL. Thanks to the many outside volunteers who have worked under Guido's direction to make these releases possible. B. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types. "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to |

| | | |
|---|---|---|
| | | submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution." "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. 2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions: (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and (b) You must cause any modified files to carry prominent notices stating that You changed the files; and (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the |

| | | |
|---|---|---|
| | | attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or |

| | | |
|---|---|---|
| | | inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. Definitions ---------- 1.1. "Contributor" means each individual or legal entity that creates, contributes to the creation of, or owns Covered Software. 1.2. "Contributor Version" means the combination of the Contributions of others (if any) used by a Contributor and that particular Contributor's Contribution. 1.3. "Contribution" means Covered Software of a particular Contributor. 1.4. "Covered Software" means Source Code Form to which the initial Contributor has attached the notice in Exhibit A, the Executable Form of such Source Code Form, and Modifications of such Source Code Form, in each case including portions thereof. 1.5. "Incompatible With Secondary Licenses" means (a) that the initial Contributor has attached the notice described in Exhibit B to the Covered Software; or (b) that the Covered Software was made available under the terms of version 1.1 or earlier of the License, but not also under the terms of a Secondary License. 1.6. "Executable Form" means any form of the work other than Source Code Form. 1.7. "Larger Work" means a work that combines Covered Software with other material, in a separate file or files, that is not Covered Software. 1.8. "License" means this document. 1.9. "Licensable" means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently, any and all of the rights conveyed by this License. 1.10. "Modifications" means any of the following: (a) any file in Source Code Form that results from an addition to, deletion from, or modification of the contents of Covered Software; or (b) any new file in Source Code Form that contains any Covered Software. 1.11. "Patent Claims" of a Contributor means any patent claim(s), including without limitation, method, process, and apparatus |

| | | |
|---|---|---|
| | | claims, in any patent Licensable by such Contributor that would be infringed, but for the grant of the License, by the making, using, selling, offering for sale, having made, import, or transfer of either its Contributions or its Contributor Version. 1.12. "Secondary License" means either the GNU General Public License, Version 2.0, the GNU Lesser General Public License, Version 2.1, the GNU Affero General Public License, Version 3.0, or any later versions of those licenses. 1.13. "Source Code Form" means the form of the work preferred for making modifications. 1.14. "You" (or "Your") means an individual or a legal entity exercising rights under this License. For legal entities, "You" includes any entity that controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity. 2. License Grants and Conditions ---------- 2.1. Grants Each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license: (a) under intellectual property rights (other than patent or trademark) Licensable by such Contributor to use, reproduce, make available, modify, display, perform, distribute, and otherwise exploit its Contributions, either on an unmodified basis, with Modifications, or as part of a Larger Work; and (b) under Patent Claims of such Contributor to make, use, sell, offer for sale, have made, import, and otherwise transfer either its Contributions or its Contributor Version. 2.2. Effective Date The licenses granted in Section 2.1 with respect to any Contribution become effective for each Contribution on the date the Contributor first distributes such Contribution. 2.3. Limitations on Grant Scope The licenses granted in this Section 2 are the only rights granted under this License. No additional rights or licenses will be implied from the distribution or licensing of Covered Software under this License. Notwithstanding Section 2.1(b) above, no patent license is granted by a Contributor: (a) for any code that a Contributor has removed from Covered Software; or (b) for infringements caused by: (i) Your and any other third party's modifications of Covered Software, or (ii) the combination of its Contributions with other software (except as part of its Contributor Version); or (c) under Patent Claims infringed by Covered Software in the absence of its Contributions. This License does not grant any rights in the trademarks, service marks, or logos of any Contributor (except as may be necessary to comply with the notice requirements in Section 3.4). 2.4. Subsequent Licenses No Contributor makes additional grants as a result of Your choice to distribute the Covered |

| | | |
|---|---|---|
| | | Software under a subsequent version of this License (see Section 10.2) or under the terms of a Secondary License (if permitted under the terms of Section 3.3). 2.5. Representation Each Contributor represents that the Contributor believes its Contributions are its original creation(s) or it has sufficient rights to grant the rights to its Contributions conveyed by this License. 2.6. Fair Use This License is not intended to limit any rights You have under applicable copyright doctrines of fair use, fair dealing, or other equivalents. 2.7. Conditions Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted in Section 2.1. 3. Responsibilities ---------- 3.1. Distribution of Source Form All distribution of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the terms of this License. You must inform recipients that the Source Code Form of the Covered Software is governed by the terms of this License, and how they can obtain a copy of this License. You may not attempt to alter or restrict the recipients' rights in the Source Code Form. 3.2. Distribution of Executable Form If You distribute Covered Software in Executable Form then: (a) such Covered Software must also be made available in Source Code Form, as described in Section 3.1, and You must inform recipients of the Executable Form how they can obtain a copy of such Source Code Form by reasonable means in a timely manner, at a charge no more than the cost of distribution to the recipient; and (b) You may distribute such Executable Form under the terms of this License, or sublicense it under different terms, provided that the license for the Executable Form does not attempt to limit or alter the recipients' rights in the Source Code Form under this License. 3.3. Distribution of a Larger Work You may create and distribute a Larger Work under terms of Your choice, provided that You also comply with the requirements of this License for the Covered Software. If the Larger Work is a combination of Covered Software with a work governed by one or more Secondary Licenses, and the Covered Software is not Incompatible With Secondary Licenses, this License permits You to additionally distribute such Covered Software under the terms of such Secondary License(s), so that the recipient of the Larger Work may, at their option, further distribute the Covered Software under the terms of either this License or such Secondary License(s). 3.4. Notices You may not remove or alter the substance of any license notices (including copyright notices, patent notices, disclaimers of warranty, or limitations of liability) contained within the Source Code Form of the Covered Software, except that You may alter any license notices to the extent required to remedy known factual inaccuracies. 3.5. Application of Additional Terms You may choose to offer, and to charge a fee for, warranty, support, |

| | | |
|---|---|---|
| | | indemnity or liability obligations to one or more recipients of Covered Software. However, You may do so only on Your own behalf, and not on behalf of any Contributor. You must make it absolutely clear that any such warranty, support, indemnity, or liability obligation is offered by You alone, and You hereby agree to indemnify every Contributor for any liability incurred by such Contributor as a result of warranty, support, indemnity or liability terms You offer. You may include additional disclaimers of warranty and limitations of liability specific to any jurisdiction. 4. Inability to Comply Due to Statute or Regulation ---------- ---------- If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Software due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be placed in a text file included with all distributions of the Covered Software under this License. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it. 5. Termination ---------- 5.1. The rights granted under this License will terminate automatically if You fail to comply with any of its terms. However, if You become compliant, then the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and finally terminates Your grants, and (b) on an ongoing basis, if such Contributor fails to notify You of the non-compliance by some reasonable means prior to 60 days after You have come back into compliance. Moreover, Your grants from a particular Contributor are reinstated on an ongoing basis if such Contributor notifies You of the non-compliance by some reasonable means, this is the first time You have received notice of non-compliance with this License from such Contributor, and You become compliant prior to 30 days after Your receipt of the notice. 5.2. If You initiate litigation against any entity by asserting a patent infringement claim (excluding declaratory judgment actions, counter-claims, and cross-claims) alleging that a Contributor Version directly or indirectly infringes any patent, then the rights granted to You by any and all Contributors for the Covered Software under Section 2.1 of this License shall terminate. 5.3. In the event of termination under Sections 5.1 or 5.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or Your distributors under this License prior to termination shall survive termination. ********** ********** * * * 6. Litigation ---------- Any litigation relating to this License may be brought only in the courts of a jurisdiction where the defendant maintains its principal place of business and such litigation shall be governed by laws of that jurisdiction, without reference to its conflict-of-law provisions. Nothing in this Section shall prevent a party's ability to bring cross-claims or counter-claims. 9. Miscellaneous ---------- This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not be used to construe this License against a Contributor. 10. Each version will be given a distinguishing version number. 10.2. Effect of New Versions You may distribute the Covered Software under the terms of the version of the License under which You originally received the Covered Software, or under the terms of any subsequent version published by the license steward. 10.3. Modified Versions If you create software not governed by this License, and you want to create a new license for such software, you may create and use a modified version of this License if you rename the license and remove any references to the name of the license steward (except to note that such modified license differs from this License). 10.4. Distributing Source Code Form that is Incompatible With Secondary Licenses If You choose to distribute Source Code Form that is Incompatible With Secondary Licenses under the terms of this version of the License, the notice described in Exhibit B of this License must be attached. Definitions. "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the |

| | | union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types. "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution." "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. 2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, |

| | | |
|---|---|---|
| | | prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions: (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and (b) You must cause any modified files to carry prominent notices stating that You changed the files; and (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works |

Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.<br>========== |

Definitions. "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types. "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). "Derivative Works" shall mean any work, |

| | | |
|---|---|---|
| | | whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution." "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. 2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or |

| | | |
|---|---|---|
| | | without modifications, and in Source or Object form, provided that You meet the following conditions: (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and (b) You must cause any modified files to carry prominent notices stating that You changed the files; and (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of |

You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. See the License for the specific language governing permissions and limitations under the License. Apache License Version 2.0, January 2004 http://www.apache.org/licenses/ TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION 1. Definitions. "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types. "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. "Contribution" shall mean any work of authorship, including the original version of the Work and any |

| | | |
|---|---|---|
| | | modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution." "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. 2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions: You must give any other recipients of the Work or Derivative Works a copy of this License; and You must cause any modified files to carry prominent notices stating that You changed the files; and You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part |

| | | |
|---|---|---|
| | | of the Derivative Works; and If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. GRANT OF RIGHTS<br><br>a) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free copyright<br>license to reproduce, prepare Derivative Works of, publicly display,<br>publicly perform, Distribute and sublicense the Contribution of such<br>Contributor, if any, and such Derivative Works.<br><br>b) Subject to the terms of this Agreement, each Contributor hereby<br>grants Recipient a non-exclusive, worldwide, royalty-free patent<br>license under Licensed Patents to make, use, sell, offer to sell,<br>import and otherwise transfer the Contribution of such Contributor,<br>if any, in Source Code or other form. This patent license shall<br>apply to the combination of the Contribution and the Program if, at<br>the time the Contribution is added by the Contributor, such addition<br>of the Contribution causes such combination to be covered by the<br>Licensed Patents. The patent license shall not apply to any other<br>combinations which include the Contribution. No hardware per se is<br>licensed hereunder.<br><br>c) Recipient understands that although each Contributor grants the<br>licenses to its Contributions set forth herein, no assurances are<br>provided by any Contributor that the Program does not infringe the<br>patent or other intellectual property rights of any other entity.<br>Each Contributor disclaims any liability to Recipient for claims<br>brought by any other entity based on infringement of intellectual<br>property rights or otherwise. As a condition to exercising the |

| | | |

| | | rights and licenses granted hereunder, each Recipient hereby<br>assumes sole responsibility to secure any other intellectual<br>property rights needed, if any. For example, if a third party<br>patent license is required to allow Recipient to Distribute the<br>Program, it is Recipient's responsibility to acquire that license<br>before distributing the Program.<br><br>d) Each Contributor represents that to its knowledge it has<br>sufficient copyright rights in its Contribution, if any, to grant<br>the copyright license set forth in this Agreement.<br><br>e) Notwithstanding the terms of any Secondary License, no<br>Contributor makes additional grants to any Recipient (other than<br>those set forth in this Agreement) as a result of such Recipient's<br>receipt of the Program under the terms of a Secondary License<br>(if permitted under the terms of Section 3).<br><br>3. REQUIREMENTS<br><br>3.1 If a Contributor Distributes the Program in any form, then:<br><br>a) the Program must also be made available as Source Code, in<br>accordance with section 3.2, and the Contributor must accompany<br>the Program with a statement that the Source Code for the Program<br>is available under this Agreement, and informs Recipients how to<br>obtain it in a reasonable manner on or through a medium customarily<br>used for software exchange; and<br><br>b) the Contributor may Distribute the Program under a license<br>different than this Agreement, provided that such license:<br>i) effectively disclaims on behalf of all other Contributors all<br>warranties and conditions, express and implied, including<br>warranties or conditions of title and non-infringement, and<br>implied warranties or conditions of |

| | | |
|---|---|---|
| | | merchantability and fitness<br>for a particular purpose;<br><br>ii) effectively excludes on behalf of all other Contributors all<br>liability for damages, including direct, indirect, special,<br>incidental and consequential damages, such as lost profits;<br><br>iii) does not attempt to limit or alter the recipients' rights<br>in the Source Code under section 3.2; and<br><br>iv) requires any subsequent distribution of the Program by any<br>party to be under a license that satisfies the requirements<br>of this section 3.<br><br>3.2 When the Program is Distributed as Source Code:<br><br>a) it must be made available under this Agreement, or if the<br>Program (i) is combined with other material in a separate file or<br>files made available under a Secondary License, and (ii) the initial<br>Contributor attached to the Source Code the notice described in<br>Exhibit A of this Agreement, then the Program may be made available<br>under the terms of such Secondary Licenses, and<br><br>b) a copy of this Agreement must be included with each copy of<br>the Program.<br><br>3.3 Contributors may not remove or alter any copyright, patent,<br>trademark, attribution notices, disclaimers of warranty, or limitations<br>of liability ("notices") contained within the Program from any copy of<br>the Program which they Distribute, provided that Contributors may add<br>their own appropriate notices.<br><br>4. COMMERCIAL DISTRIBUTION<br><br>Commercial distributors of software may accept certain responsibilities<br>with respect to end users, business partners and the like. While this<br>license is intended to facilitate the commercial use |

| | | |
|---|---|---|
| | | of the Program,<br>the Contributor who includes the Program in a commercial product<br>offering should do so in a manner which does not create potential<br>liability for other Contributors. Therefore, if a Contributor includes<br>the Program in a commercial product offering, such Contributor<br>("Commercial Contributor") hereby agrees to defend and indemnify every<br>other Contributor ("Indemnified Contributor") against any losses,<br>damages and costs (collectively "Losses") arising from claims, lawsuits<br>and other legal actions brought by a third party against the Indemnified<br>Contributor to the extent caused by the acts or omissions of such<br>Commercial Contributor in connection with its distribution of the Program<br>in a commercial product offering. The obligations in this section do not<br>apply to any claims or Losses relating to any actual or alleged<br>intellectual property infringement. In order to qualify, an Indemnified<br>Contributor must: a) promptly notify the Commercial Contributor in<br>writing of such claim, and b) allow the Commercial Contributor to control,<br>and cooperate with the Commercial Contributor in, the defense and any<br>related settlement negotiations. The Indemnified Contributor may<br>participate in any such claim at its own expense.<br><br>For example, a Contributor might include the Program in a commercial<br>product offering, Product X. That Contributor is then a Commercial<br>Contributor. If that Commercial Contributor then makes performance<br>claims, or offers warranties related to Product X, those performance<br>claims and warranties are such Commercial Contributor's responsibility<br>alone. Under this section, the Commercial Contributor would have to<br>defend claims against the other Contributors related to those performance<br>claims and warranties, and if a court requires any other Contributor to<br>pay any damages as a result, the Commercial Contributor must pay<br>those damages. |

| | | USA<br><br>Everyone is permitted to copy and distribute verbatim copies<br>of this license document, but changing it is not allowed.<br><br>Preamble<br><br>The licenses for most software are designed to take away your freedom to<br>share and change it. By contrast, the GNU General Public License is<br>intended to guarantee your freedom to share and change free software--to<br>make sure the software is free for all its users. This General Public<br>License applies to most of the Free Software Foundation's software and<br>to any other program whose authors commit to using it. (Some other Free<br>Software Foundation software is covered by the GNU Library General<br>Public License instead.) You can apply it to your programs, too.<br><br>When we speak of free software, we are referring to freedom, not price.<br>Our General Public Licenses are designed to make sure that you have the<br>freedom to distribute copies of free software (and charge for this<br>service if you wish), that you receive source code or can get it if you<br>want it, that you can change the software or use pieces of it in new<br>free programs; and that you know you can do these things.<br><br>To protect your rights, we need to make restrictions that forbid anyone<br>to deny you these rights or to ask you to surrender the rights. These<br>restrictions translate to certain responsibilities for you if you<br>distribute copies of the software, or if you modify it.<br><br>For example, if you distribute copies of such a program, whether gratis<br>or for a fee, you must give the recipients all the rights that you have.<br>You must make sure that they, too, receive or can get the source code.<br>And you must show them these terms so they know their rights. |

| | | |
|---|---|---|
| | | We protect your rights with two steps: (1) copyright the software, and<br>(2) offer you this license which gives you legal permission to copy,<br>distribute and/or modify the software.<br><br>Also, for each author's protection and ours, we want to make certain<br>that everyone understands that there is no warranty for this free<br>software. If the software is modified by someone else and passed on, we<br>want its recipients to know that what they have is not the original, so<br>that any problems introduced by others will not reflect on the original<br>authors' reputations.<br><br>Finally, any free program is threatened constantly by software patents.<br>We wish to avoid the danger that redistributors of a free program will<br>individually obtain patent licenses, in effect making the program<br>proprietary. To prevent this, we have made it clear that any patent must<br>be licensed for everyone's free use or not licensed at all.<br><br>The precise terms and conditions for copying, distribution and<br>modification follow.<br><br>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION<br><br>0. This License applies to any program or other work which contains a<br>notice placed by the copyright holder saying it may be distributed under<br>the terms of this General Public License. The "Program", below, refers<br>to any such program or work, and a "work based on the Program" means<br>either the Program or any derivative work under copyright law: that is<br>to say, a work containing the Program or a portion of it, either<br>verbatim or with modifications and/or translated into another language.<br>(Hereinafter, translation is included without limitation in the term<br>"modification".) Each licensee is addressed as "you".<br><br>Activities other than copying, distribution and modification are not |

| | | |
|---|---|---|
| | | covered by this License; they are outside its scope. The act of running<br>the Program is not restricted, and the output from the Program is<br>covered only if its contents constitute a work based on the Program<br>(independent of having been made by running the Program). Whether that<br>is true depends on what the Program does.<br><br>1. You may copy and distribute verbatim copies of the Program's source<br>code as you receive it, in any medium, provided that you conspicuously<br>and appropriately publish on each copy an appropriate copyright notice<br>and disclaimer of warranty; keep intact all the notices that refer to<br>this License and to the absence of any warranty; and give any other<br>recipients of the Program a copy of this License along with the Program.<br><br>You may charge a fee for the physical act of transferring a copy, and<br>you may at your option offer warranty protection in exchange for a fee.<br><br>2. You may modify your copy or copies of the Program or any portion of<br>it, thus forming a work based on the Program, and copy and distribute<br>such modifications or work under the terms of Section 1 above, provided<br>that you also meet all of these conditions:<br><br>a) You must cause the modified files to carry prominent notices<br>stating that you changed the files and the date of any change.<br><br>b) You must cause any work that you distribute or publish, that in<br>whole or in part contains or is derived from the Program or any part<br>thereof, to be licensed as a whole at no charge to all third parties<br>under the terms of this License.<br><br>c) If the modified program normally reads commands interactively<br>when run, you must cause it, when started running for such<br>interactive use in the most ordinary way, to print or display an<br>announcement including an appropriate copyright |

| | | |
|---|---|---|
| | | notice and a notice<br>that there is no warranty (or else, saying that you provide a<br>warranty) and that users may redistribute the program under these<br>conditions, and telling the user how to view a copy of this License.<br>(Exception: if the Program itself is interactive but does not<br>normally print such an announcement, your work based on the Program<br>is not required to print an announcement.)<br><br>These requirements apply to the modified work as a whole. If<br>identifiable sections of that work are not derived from the Program, and<br>can be reasonably considered independent and separate works in<br>themselves, then this License, and its terms, do not apply to those<br>sections when you distribute them as separate works. But when you<br>distribute the same sections as part of a whole which is a work based on<br>the Program, the distribution of the whole must be on the terms of this<br>License, whose permissions for other licensees extend to the entire<br>whole, and thus to each and every part regardless of who wrote it.<br><br>Thus, it is not the intent of this section to claim rights or contest<br>your rights to work written entirely by you; rather, the intent is to<br>exercise the right to control the distribution of derivative or<br>collective works based on the Program.<br><br>In addition, mere aggregation of another work not based on the Program<br>with the Program (or with a work based on the Program) on a volume of a<br>storage or distribution medium does not bring the other work under the<br>scope of this License.<br><br>3. You may copy and distribute the Program (or a work based on it,<br>under Section 2) in object code or executable form under the terms of<br>Sections 1 and 2 above provided that you also do one of the following:<br><br>a) Accompany it with the complete corresponding |

| | | |
|---|---|---|
| | | machine-readable<br>source code, which must be distributed under the terms of Sections 1<br>and 2 above on a medium customarily used for software interchange; or,<br><br>b) Accompany it with a written offer, valid for at least three<br>years, to give any third party, for a charge no more than your cost<br>of physically performing source distribution, a complete<br>machine-readable copy of the corresponding source code, to be<br>distributed under the terms of Sections 1 and 2 above on a medium<br>customarily used for software interchange; or,<br><br>c) Accompany it with the information you received as to the offer to<br>distribute corresponding source code. (This alternative is allowed<br>only for noncommercial distribution and only if you received the<br>program in object code or executable form with such an offer, in<br>accord with Subsection b above.)<br><br>The source code for a work means the preferred form of the work for<br>making modifications to it. For an executable work, complete source code<br>means all the source code for all modules it contains, plus any<br>associated interface definition files, plus the scripts used to control<br>compilation and installation of the executable. However, as a special<br>exception, the source code distributed need not include anything that is<br>normally distributed (in either source or binary form) with the major<br>components (compiler, kernel, and so on) of the operating system on<br>which the executable runs, unless that component itself accompanies the<br>executable.<br><br>If distribution of executable or object code is made by offering access<br>to copy from a designated place, then offering equivalent access to copy<br>the source code from the same place counts as distribution of the source<br>code, even though third parties are not compelled to copy the source |

Any attempt otherwise<br>to copy, modify, sublicense or distribute the Program is void, and will<br>automatically terminate your rights under this License. However, parties<br>who have received copies, or rights, from you under this License will<br>not have their licenses terminated so long as such parties remain in<br>full compliance.<br><br>5. You are not required to accept this License, since you have not<br>signed it. However, nothing else grants you permission to modify or<br>distribute the Program or its derivative works. These actions are<br>prohibited by law if you do not accept this License. Therefore, by<br>modifying or distributing the Program (or any work based on the<br>Program), you indicate your acceptance of this License to do so, and all<br>its terms and conditions for copying, distributing or modifying the<br>Program or works based on it.<br><br>6. Each time you redistribute the Program (or any work based on the<br>Program), the recipient automatically receives a license from the<br>original licensor to copy, distribute or modify the Program subject to<br>these terms and conditions. You may not impose any further restrictions<br>on the recipients' exercise of the rights granted herein. You are not<br>responsible for enforcing compliance by third parties to this License.<br><br>7. If, as a consequence of a court judgment or allegation of patent<br>infringement or for any other reason (not limited to patent issues),<br>conditions are imposed on you (whether by court order, agreement or<br>otherwise) that contradict the conditions of this License, they do not<br>excuse you from the conditions of this License. If you cannot distribute<br>so as to satisfy simultaneously your obligations |

| | | |
|---|---|---|
| | | under this License and<br>any other pertinent obligations, then as a consequence you may not<br>distribute the Program at all. For example, if a patent license would<br>not permit royalty-free redistribution of the Program by all those who<br>receive copies directly or indirectly through you, then the only way you<br>could satisfy both it and this License would be to refrain entirely from<br>distribution of the Program.<br><br>If any portion of this section is held invalid or unenforceable under<br>any particular circumstance, the balance of the section is intended to<br>apply and the section as a whole is intended to apply in other<br>circumstances.<br><br>It is not the purpose of this section to induce you to infringe any<br>patents or other property right claims or to contest validity of any<br>such claims; this section has the sole purpose of protecting the<br>integrity of the free software distribution system, which is implemented<br>by public license practices. Many people have made generous<br>contributions to the wide range of software distributed through that<br>system in reliance on consistent application of that system; it is up to<br>the author/donor to decide if he or she is willing to distribute<br>software through any other system and a licensee cannot impose that choice.<br><br>This section is intended to make thoroughly clear what is believed to be<br>a consequence of the rest of this License.<br><br>8. If the distribution and/or use of the Program is restricted in<br>certain countries either by patents or by copyrighted interfaces, the<br>original copyright holder who places the Program under this License may<br>add an explicit geographical distribution limitation excluding those<br>countries, so that distribution is permitted only in or among countries<br>not thus excluded. In such case, this License incorporates the |

Such new<br>versions will be similar in spirit to the present version, but may<br>differ in detail to address new problems or concerns.<br><br>Each version is given a distinguishing version number. If the Program<br>specifies a version number of this License which applies to it and "any<br>later version", you have the option of following the terms and<br>conditions either of that version or of any later version published by<br>the Free Software Foundation. If the Program does not specify a version<br>number of this License, you may choose any version ever published by the<br>Free Software Foundation.<br><br>10. If you wish to incorporate parts of the Program into other free<br>programs whose distribution conditions are different, write to the<br>author to ask for permission. For software which is copyrighted by the<br>Free Software Foundation, write to the Free Software Foundation; we<br>sometimes make exceptions for this. Our decision will be guided by the<br>two goals of preserving the free status of all derivatives of our free<br>software and of promoting the sharing and reuse of software generally.<br><br>NO WARRANTY<br><br>11. | The Apache Software Foundation | Tomcat | Licensing Information<br>------- LICENSE ---------- Apache License Version 2.0, January 2004 http://www.apache.org/licenses/ TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION 1. Definitions. "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to |

| | | |
|---|---|---|
| | | software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types. "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution." "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. 2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor |

| | | |
|---|---|---|
| | | hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions: (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and (b) You must cause any modified files to carry prominent notices stating that You changed the files; and (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in |

| | | |
|---|---|---|
| | | at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or |

| | | |
|---|---|---|
| | | FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. END OF TERMS AND CONDITIONS APPENDIX: How to apply the Apache License to your work. To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT. 1. DEFINITIONS "Contribution" means: a) in the case of the initial Contributor, the initial content Distributed under this Agreement, and b) in the case of each subsequent Contributor: i) changes to the Program, and ii) additions to the Program; where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution "originates" from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include changes or additions to the |

| | | |
|---|---|---|
| | | Program that are not Modified Works. "Contributor" means any person or entity that Distributes the Program. "Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program. "Program" means the Contributions Distributed in accordance with this Agreement. "Recipient" means anyone who receives the Program under this Agreement or any Secondary License (as applicable), including Contributors. "Derivative Works" shall mean any work, whether in Source Code or other form, that is based on (or derived from) the Program and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. "Modified Works" shall mean any work in Source Code or other form that results from an addition to, deletion from, or modification of the contents of the Program, including, for purposes of clarity any new file in Source Code form that contains any contents of the Program. Modified Works shall not include works that contain only declarations, interfaces, types, classes, structures, or files of the Program solely in each case in order to link to, bind by name, or subclass the Program or Modified Works thereof. "Distribute" means the acts of a) distributing or b) making available in any manner that enables the transfer of a copy. "Source Code" means the form of a Program preferred for making modifications, including but not limited to software source code, documentation source, and configuration files. "Secondary License" means either the GNU General Public License, Version 2.0, or any later versions of that license, including any exceptions or additional permissions as identified by the initial Contributor. 2. GRANT OF RIGHTS a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, Distribute and sublicense the Contribution of such Contributor, if any, and such Derivative Works. b) Subject to the terms of this |

| | | |
|---|---|---|
| | | Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder. c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program. d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement. e) Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3). 3. REQUIREMENTS 3.1 If a Contributor Distributes the Program in any form, then: a) the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with a |

| | | |
|---|---|---|
| | | statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and b) the Contributor may Distribute the Program under a license different than this Agreement, provided that such license: i) effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose; ii) effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits; iii) does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and iv) requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section 3. 3.2 When the Program is Distributed as Source Code: a) it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and b) a copy of this Agreement must be included with each copy of the Program. 3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations of liability ("notices") contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices. 4. COMMERCIAL DISTRIBUTION Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential |

| | | |
|---|---|---|
| | | liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense. For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages. 5. NO WARRANTY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON- |

| | | |
|---|---|---|
| | | INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations. 6. DISCLAIMER OF LIABILITY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. 7. GENERAL If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable. If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed. All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the |

| | | |
|---|---|---|
| | | material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive. Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be Distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to Distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved. Nothing in this Agreement is intended to be enforceable by any entity that is not a Contributor or Recipient. No third-party beneficiary rights are created under this Agreement. Exhibit A - Form of Secondary Licenses Notice "This Source Code may also be made available under the following Secondary Licenses when the conditions for such availability set forth in the Eclipse Public License, v. 2.0 are satisfied: {name license(s), version(s), and |

If it is not possible or desirable to put the notice in a particular file, then You may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely to look for such a notice. ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT. 1. DEFINITIONS "Contribution" means: a) in the case of the initial Contributor, the initial code and documentation distributed under this Agreement, and b) in the case of each subsequent Contributor: i) changes to the Program, and ii) additions to the Program; where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution |

| | | |
|---|---|---|
| | | 'originates' from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are not derivative works of the Program. "Contributor" means any person or entity that distributes the Program. "Licensed Patents " mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program. "Program" means the Contributions distributed in accordance with this Agreement. "Recipient" means anyone who receives the Program under this Agreement, including all Contributors. 2. GRANT OF RIGHTS a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form. b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder. c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for |

| | | |
|---|---|---|
| | | claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program. d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement. 3. REQUIREMENTS A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that: a) it complies with the terms and conditions of this Agreement; and b) its license agreement: i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose; ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits; iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange. When the Program is made available in source code form: a) it must be made available under this Agreement; and b) a copy of this Agreement must be included with each copy of the Program. Contributors may not remove or alter any copyright notices contained within the Program. Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution. 4. COMMERCIAL DISTRIBUTION Commercial |

| | | |
|---|---|---|
| | | distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense. For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages. 5. NO WARRANTY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE |

| | | |
|---|---|---|
| | | PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations. 6. DISCLAIMER OF LIABILITY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. 7. GENERAL If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable. If Recipient institutes patent litigation against a Contributor with respect to a patent applicable to software (including a cross-claim or counterclaim in a lawsuit), then any patent licenses granted by that Contributor to such |

| | | |
|---|---|---|
| | | Recipient under this Agreement shall terminate as of the date such litigation is filed. In addition, if Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed. All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive. Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. IBM is the initial Agreement Steward. IBM may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted |

| | | |
|---|---|---|
| | | under this Agreement are reserved. This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation. Special exception for LZMA compression module Igor Pavlov and Amir Szekely, the authors of the LZMA compression module for NSIS, expressly permit you to statically or dynamically link your code (or bind by name) to the files from the LZMA compression module for NSIS without subjecting your linked code to the terms of the Common Public license version 1.0. Any modifications or additions to files from the LZMA compression module for NSIS, however, are subject to the terms of the Common Public License version 1.0. Distribution Obligations. 3.1. Availability of Source Code. Any Covered Software that You distribute or otherwise make available in Executable form must also be made available in Source Code form and that Source Code form must be distributed only under the terms of this License. You must include a copy of this License with every copy of the Source Code form of the Covered Software You distribute or otherwise make available. You must inform recipients of any such Covered Software in Executable form as to how they can obtain such Covered Software in Source Code form in a reasonable manner on or through a medium customarily used for software exchange. 3.2. |---|---|---|
| | | the recipients. rights hereunder. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, you may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear that any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer. 3.5. You may distribute the Executable form of the Covered Software under the terms of this License or under the terms of a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable form does not attempt to limit or alter the recipient.s rights in the Source Code form from the rights set forth in this License. If You distribute the Covered Software in Executable form under a different license, You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or Contributor. Larger Works. You may create a Larger Work by combining Covered Software with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Software. 4. Versions of the License. 4.1. New Versions. Sun Microsystems, Inc. is the initial license steward and may publish revised and/or new versions of this License from time to time. Each version will be given a distinguishing version number. Except as provided in Section 4.3, no one other than the license steward has the right to modify this License. 4.2. Effect of New |

|---|---|---|
| | | Versions. You may always continue to use, distribute or otherwise make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. If the Initial Developer includes a notice in the Original Software prohibiting it from being distributed or otherwise made available under any subsequent version of the License, You must distribute and make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. Otherwise, You may also choose to use, distribute or otherwise make the Covered Software available under the terms of any subsequent version of the License published by the license steward. 4.3. Modified Versions. When You are an Initial Developer and You want to create a new license for Your Original Software, You may create and use a modified version of this License if You: (a) rename the license and remove any references to the name of the license steward (except to note that the license differs from this License); and (b) otherwise make it clear that the license contains terms which differ from this License. 5. DISCLAIMER OF WARRANTY. COVERED SOFTWARE IS PROVIDED UNDER THIS LICENSE ON AN .AS IS. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED SOFTWARE IS WITH YOU. SHOULD ANY COVERED SOFTWARE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED SOFTWARE IS AUTHORIZED |

| | | HEREUNDER EXCEPT UNDER THIS DISCLAIMER. 6. TERMINATION. 6.1. This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive. 6.2. If You assert a patent infringement claim (excluding declaratory judgment actions) against Initial Developer or a Contributor (the Initial Developer or Contributor against whom You assert such claim is referred to as .Participant.) alleging that the Participant Software (meaning the Contributor Version where the Participant is a Contributor or the Original Software where the Participant is the Initial Developer) directly or indirectly infringes any patent, then any and all rights granted directly or indirectly to You by such Participant, the Initial Developer (if the Initial Developer is not the Participant) and all Contributors under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively and automatically at the expiration of such 60 day notice period, unless if within such 60 day period You withdraw Your claim with respect to the Participant Software against such Participant either unilaterally or pursuant to a written agreement with Participant. 6.3. In the event of termination under Sections 6.1 or 6.2 above, all end user licenses that have been validly granted by You or any distributor hereunder prior to termination (excluding licenses granted to You by any distributor) shall survive termination. 7. LIMITATION OF LIABILITY. UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED SOFTWARE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL |

| | | DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOST PROFITS, LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTY.S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU. 8. U.S. GOVERNMENT END USERS. The Covered Software is a .commercial item,. as that term is defined in 48 C.F.R. 2.101 (Oct. 1995), consisting of .commercial computer software. (as that term is defined at 48 C.F.R. ? 252.227-7014(a)(1)) and commercial computer software documentation. as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Software with only those rights set forth herein. This U.S. Government Rights clause is in lieu of, and supersedes, any other FAR, DFAR, or other clause or provision that addresses Government rights in computer software under this License. 9. MISCELLANEOUS. This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License shall be governed by the law of the jurisdiction specified in a notice contained within the Original Software (except to the extent applicable law, if any, provides otherwise), excluding such jurisdiction's conflict-of-law provisions. Any litigation relating to this |

| | | |
|---|---|---|
| | | License shall be subject to the jurisdiction of the courts located in the jurisdiction and venue specified in a notice contained within the Original Software, with the losing party responsible for costs, including, without limitation, court costs and reasonable attorneys. fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License. You agree that You alone are responsible for compliance with the United States export administration regulations (and the export control laws and regulation of any other countries) when You use, distribute or otherwise make available any Covered Software. 10. RESPONSIBILITY FOR CLAIMS. As between Initial Developer and the Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License and You agree to work with Initial Developer and Contributors to distribute such responsibility on an equitable basis. Nothing herein is intended or shall be deemed to constitute any admission of liability. NOTICE PURSUANT TO SECTION 9 OF THE COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL) The code released under the CDDL shall be governed by the laws of the State of California (excluding conflict-of-law provisions). However, in accepting such obligations, You may act only<br>on Your own behalf and on Your sole responsibility, not on behalf<br>of any other Contributor, and only if You agree to indemnify,<br>defend, and hold each Contributor harmless for any liability<br>incurred by, or claims asserted against, such Contributor by reason<br>of your accepting any such warranty or additional liability.<br><br>END OF TERMS AND CONDITIONS<br><br>APPENDIX: How to apply the Apache License to your work.<br><br>To apply the Apache License to your work, attach the following<br>boilerplate notice, with the fields enclosed by brackets "[]"<br>replaced with your own identifying information. Definitions.<br><br>"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.<br><br>"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.<br><br>"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.<br><br>"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.<br><br>"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.<br><br>"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.<br><br>"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is |

| | | included in or attached to the work (an example is provided in the Appendix<br>below).<br><br>"Derivative Works" shall mean any work, whether in Source or Object form, that<br>is based on (or derived from) the Work and for which the editorial revisions,<br>annotations, elaborations, or other modifications represent, as a whole, an<br>original work of authorship. For the purposes of this License, Derivative<br>Works shall not include works that remain separable from, or merely link (or<br>bind by name) to the interfaces of, the Work and Derivative Works thereof.<br><br>"Contribution" shall mean any work of authorship, including the original<br>version of the Work and any modifications or additions to that Work or<br>Derivative Works thereof, that is intentionally submitted to Licensor for<br>inclusion in the Work by the copyright owner or by an individual or Legal<br>Entity authorized to submit on behalf of the copyright owner. For the purposes<br>of this definition, "submitted" means any form of electronic, verbal, or<br>written communication sent to the Licensor or its representatives, including<br>but not limited to communication on electronic mailing lists, source code<br>control systems, and issue tracking systems that are managed by, or on behalf<br>of, the Licensor for the purpose of discussing and improving the Work, but<br>excluding communication that is conspicuously marked or otherwise designated<br>in writing by the copyright owner as "Not a Contribution."<br><br>"Contributor" shall mean Licensor and any individual or Legal Entity on behalf<br>of whom a Contribution has been received by Licensor and subsequently<br>incorporated within the Work.<br><br>2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. |

| | | 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.<br><br>4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:<br><br>(a) You must give any other recipients of the Work or Derivative Works a copy<br>of this License; and<br><br>(b) You must cause any modified files to carry prominent notices stating that<br>You changed the files; and<br><br>(c) You must retain, in the Source form of any Derivative Works that You<br>distribute, all copyright, patent, trademark, and attribution notices from the<br>Source form of the Work, excluding those notices that do not pertain to any<br>part of the Derivative Works; and<br><br>(d) If the Work includes a "NOTICE" text file as part of its distribution,<br>then any Derivative Works that You distribute must include a readable copy of<br>the attribution notices contained within such NOTICE file, excluding those<br>notices that do not pertain to any part of the Derivative Works, in at least<br>one of the following places: within a NOTICE text file distributed as part of<br>the Derivative Works; within the Source form or documentation, if provided<br>along with the Derivative Works; or, within a display generated by the |

Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. You must make it absolutely clear that any such warranty, support, indemnity, or liability obligation is offered by You alone, and You hereby agree to indemnify every Contributor for any liability incurred by such Contributor as a result of warranty, support, indemnity or liability terms You offer. You may include additional disclaimers of warranty and limitations of liability specific to any jurisdiction.<br><br>4. Inability to Comply Due to Statute or Regulation<br>If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Software due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be placed in a text file included with all distributions of the Covered Software under this License. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.<br><br>5. Termination<br><br>5.1. The rights granted under this License will terminate automatically if You fail to comply with any of its terms. However, if You become compliant, then the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and finally terminates Your grants, and (b) on an ongoing basis, if such Contributor fails to notify You of the non-compliance by some reasonable means prior to 60 days after You have come back into compliance. Some<br>jurisdictions do not allow the exclusion or limitation of incidental or<br>consequential damages, so this exclusion and limitation may not apply to You.<br><br>8. LICENSE.md # Eclipse Public License - v 2.0 THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT. 1. DEFINITIONS "Contribution" means: a) in the case of the initial Contributor, the initial content Distributed under this Agreement, and b) in the case of each subsequent Contributor: i) changes to the Program, and ii) additions to the Program; where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution "originates" from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include changes or additions to the Program that are not Modified Works. "Contributor" means any person or entity that Distributes the Program. "Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program. "Program" means the Contributions Distributed in accordance with this |

| | | |
|---|---|---|
| | | Agreement. "Recipient" means anyone who receives the Program under this Agreement or any Secondary License (as applicable), including Contributors. "Derivative Works" shall mean any work, whether in Source Code or other form, that is based on (or derived from) the Program and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. "Modified Works" shall mean any work in Source Code or other form that results from an addition to, deletion from, or modification of the contents of the Program, including, for purposes of clarity any new file in Source Code form that contains any contents of the Program. Modified Works shall not include works that contain only declarations, interfaces, types, classes, structures, or files of the Program solely in each case in order to link to, bind by name, or subclass the Program or Modified Works thereof. "Distribute" means the acts of a) distributing or b) making available in any manner that enables the transfer of a copy. "Source Code" means the form of a Program preferred for making modifications, including but not limited to software source code, documentation source, and configuration files. "Secondary License" means either the GNU General Public License, Version 2.0, or any later versions of that license, including any exceptions or additional permissions as identified by the initial Contributor. 2. GRANT OF RIGHTS a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, Distribute and sublicense the Contribution of such Contributor, if any, and such Derivative Works. b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder. c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the |

| | | |
|---|---|---|
| | | rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program. d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement. e) Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3). 3. REQUIREMENTS 3.1 If a Contributor Distributes the Program in any form, then: a) the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with a statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and b) the Contributor may Distribute the Program under a license different than this Agreement, provided that such license: i) effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose; ii) effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits; iii) does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and iv) requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section 3. 3.2 When the Program is Distributed as Source Code: a) it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and b) a copy of this Agreement must be included with each copy of the Program. 3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations of liability ("notices") contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices. 4. COMMERCIAL DISTRIBUTION Commercial distributors of software may accept certain |

| | | |
|---|---|---|
| | | responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense. For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages. 5. NO WARRANTY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations. 6. DISCLAIMER OF LIABILITY EXCEPT |

| | | |
|---|---|---|
| | | AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. 7. GENERAL If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable. If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed. All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive. Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be Distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to Distribute the |

| | | |
|---|---|---|
| | | Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved. Nothing in this Agreement is intended to be enforceable by any entity that is not a Contributor or Recipient. No third-party beneficiary rights are created under this Agreement. Exhibit A - Form of Secondary Licenses Notice "This Source Code may also be made available under the following Secondary Licenses when the conditions for such availability set forth in the Eclipse Public License, v. 2.0 are satisfied: {name license(s), version(s), and exceptions or additional permissions here}." Simply including a copy of this Agreement, including this Exhibit A is not sufficient to license the Source Code under Secondary Licenses. If it is not possible or desirable to put the notice in a particular file, then You may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely to look for such a notice. You may add additional accurate notices of copyright ownership. --- ## The GNU General Public License (GPL) Version 2, June 1991 Copyright (C) 1989, 1991 Free Software Foundation, Inc. 51 Franklin Street, Fifth Floor Boston, MA 02110-1335 USA Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed. Preamble The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too. When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things. To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it. For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the |

| | | |
|---|---|---|
| | | rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights. We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software. Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations. Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all. The precise terms and conditions for copying, distribution and modification follow. TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION 0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you". Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does. 1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 |

| | | |
|---|---|---|
| | | above, provided that you also meet all of these conditions: a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change. b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License. c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.) These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it. Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program. In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License. 3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following: a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, c) Accompany it with the |

| | | |
|---|---|---|
| | | information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.) The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable. If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code. 4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance. 5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it. 6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License. 7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so |

| | | |
|---|---|---|
| | | as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program. If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances. It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice. This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License. 8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License. 9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation. 10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of |

| | | |
|---|---|---|
| | | promoting the sharing and reuse of software generally. NO WARRANTY 11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION. 12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. END OF TERMS AND CONDITIONS How to Apply These Terms to Your New Programs If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms. To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found. One line to give the program's name and a brief idea of what it does. Copyright (C) <year> <name of author> This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version. This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details. You should have |

| | | |
|---|---|---|
| | | received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1335 USA Also add information on how to contact you by electronic and paper mail. If the program is interactive, make it output a short notice like this when it starts in an interactive mode: Gnomovision version 69, Copyright (C) year name of author Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'. This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for details. The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program. You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names: Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision' (which makes passes at compilers) written by James Hacker. signature of Ty Coon, 1 April 1989 Ty Coon, President of Vice This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Library General Public License instead of this License. --- ## CLASSPATH EXCEPTION Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License version 2 cover the whole combination. As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version. ---------- Separator ---------- NOTICE.md # Notices for Jakarta Mail This content is produced and maintained by the Jakarta Mail project. * Project home: https://projects.eclipse.org/projects/ee4j.mail ## Trademarks Jakarta Mail is a trademark of the Eclipse Foundation. ## Copyright All content is the property of |

When we collect, store and use your Personal Information for those purpose(s), it is and will remain in connection with and subject to, either (a) your acceptance, (b) the performance of Our services to you as a member or employee of a member or (c) the pursuance of Our own interests or the service to Our community. In some cases, We may not be able to provide Our services if you fail to provide to us with some Personal Information. How We share your Personal Information and who We share it with We will not sell your Personal Information to any third party. We will not disclose your Personal Information, except as described in this Privacy Policy. Firstly, your Personal Information may be shared among the Eclipse entities within the Eclipse Group. The Processors are permitted to use the Personal Information only for the purposes specified by Us. The Eclipse Group has a joint controllership agreement in place among the four corporate entities to document how the respective tasks and responsibilities in the processing of Personal Information are structured and who fulfills which data protection obligations. For more information about the joint controllership agreement in place, please contact Us at privacy@eclipse.org. Eclipse Foundation AISBL is your contact point. You may contact us either via postal mail to “Eclipse Foundation AISBL, Rond Point Schuman 11, 1040 Brussels, Belgium” or via e-mail to privacy@eclipse.org. International Transfers To enable Us to conform to GDPR, note that your Personal Information may be processed in countries both inside and outside the European Union ("EU") or European Economic Area ("EEA"), including areas which may be regarded as having a lower level of data protection than the EU. In such cases, We ensure that a consistent level of protection for your Personal Information is guaranteed, including, under applicable EU rules, via the existence of an adequacy decision or the use of appropriate data transfer tools, for example, entering into the standard contractual clauses issued by the European Commission with other entities of the Eclipse Group or with Our Processors, all in order to ensure that they provide a sufficient level of protection for your Personal Information. Our Commitment to You We commit to providing you with the following rights in accordance with applicable laws: to provide you with access to Personal Information that We hold about you; to update or correct any out-of-date or incorrect Personal Information that We hold about you; where the processing is based on your consent, the ability to withdraw consent at any given time, without affecting the lawfulness of processing based on consent before its withdrawal; to have your Personal Information erased by Us, unless it cannot be done due to Our requirement to fulfill Our responsibilities, including those as an open source foundation; to restrict processing where the conditions of article 18 of the EU's GDPR have been met; to support your request with respect to data portability; to respond to objections by you with respect to Our processing of your Personal Information; and to opt out of any direct marketing communications that We (with your consent) may send you. You can exercise these rights at any given time. We will respond within 30 days to your requests. Please contact privacy@eclipse.org to make such a request. | Pivotal, Inc. | Spring Security | Licensing Information<br>---------- Top-level license ---------- Apache License Version 2.0, January 2004 https://www.apache.org/licenses/ TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION 1. Definitions. "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types. "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated |

| | | |
|---|---|---|
| | | by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution." "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. 2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of |

| | | |
|---|---|---|
| | | the date such litigation is filed. 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions: (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and (b) You must cause any modified files to carry prominent notices stating that You changed the files; and (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" |

Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. Copyright (c) 2007-2014 IOLA and Ole Laursen. Licensed under the MIT license. Created by Arne de Laat Set axis.mode to "log" and make the axis logarithmic using transform: axis: { mode: 'log', transform: function(v) {v <= 0 ? Math.log(v) / Math.LN10 : null}, inverseTransform: function(v) {Math.pow(10, v)} } The transform filters negative and zero values, because those are invalid on logarithmic scales. This plugin tries to create good looking logarithmic ticks, using unicode superscript characters. If all data to be plotted is between two powers of ten then the default flot tick generator and renderer are used. Logarithmic ticks are places at powers of ten and at half those values if there are not to many ticks already (e.g. [1, 5, 10, 50, 100]). For details, see https://github.com/flot/flot/pull/1328 --- This module was heavily inspired by the externals |

Definitions. "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types. "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or |

| | | |
|---|---|---|
| | | derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution." "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. 2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such |

| | | |
|---|---|---|
| | | license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions: (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and (b) You must cause any modified files to carry prominent notices stating that You changed the files; and (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices |

| | | |
|---|---|---|
| | | cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any |

| | | |
|---|---|---|
| | | character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. END OF TERMS AND CONDITIONS APPENDIX: How to apply the Apache License to your work. To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives. Copyright (c) 2024 Fonticons, Inc. (https://fontawesome.com) with Reserved Font Name: "Font Awesome". This Font Software is licensed under the SIL Open Font License, Version 1.1. This license is copied below, and is also available with a FAQ at: http://scripts.sil.org/OFL SIL OPEN FONT LICENSE Version 1.1 - 26 February 2007 PREAMBLE The goals of the Open Font License (OFL) are to stimulate worldwide development of collaborative font projects, to support the font creation efforts of academic and linguistic communities, and to provide a free and open framework in which fonts may be shared and improved in partnership with others. The OFL allows the licensed fonts to be used, studied, modified and redistributed freely as long as they are not sold by themselves. The fonts, including any derivative works, can be bundled, embedded, redistributed and/or sold with any software provided that any reserved names are not used by |

| | | derivative works. The fonts and derivatives, however, cannot be released under any other type of license. The requirement for fonts to remain under this license does not apply to any document created using the fonts or their derivatives. DEFINITIONS "Font Software" refers to the set of files released by the Copyright Holder(s) under this license and clearly marked as such. This may include source files, build scripts and documentation. "Reserved Font Name" refers to any names specified as such after the copyright statement(s). "Original Version" refers to the collection of Font Software components as distributed by the Copyright Holder(s). "Modified Version" refers to any derivative made by adding to, deleting, or substituting — in part or in whole — any of the components of the Original Version, by changing formats or by porting the Font Software to a new environment. "Author" refers to any designer, engineer, programmer, technical writer or other person who contributed to the Font Software. PERMISSION & CONDITIONS Permission is hereby granted, free of charge, to any person obtaining a copy of the Font Software, to use, study, copy, merge, embed, modify, redistribute, and sell modified and unmodified copies of the Font Software, subject to the following conditions: 1) Neither the Font Software nor any of its individual components, in Original or Modified Versions, may be sold by itself. 2) Original or Modified Versions of the Font Software may be bundled, redistributed and/or sold with any software, provided that each copy contains the above copyright notice and this license. These can be included either as stand-alone text files, human-readable headers or in the appropriate machine-readable metadata fields within text or binary files as long as those fields can be easily viewed by the user. 3) No Modified Version of the Font Software may use the Reserved Font Name(s) unless explicit written permission is granted by the corresponding Copyright Holder. This restriction only applies to the primary font name as presented to the users. 4) The name(s) of the Copyright Holder(s) or the Author(s) of the Font Software shall not be used to |

| | | promote, endorse or advertise any Modified Version, except to acknowledge the contribution(s) of the Copyright Holder(s) and the Author(s) or with their explicit written permission. 5) The Font Software, modified or unmodified, in part or in whole, must be distributed entirely under this license, and must not be distributed under any other license. The requirement for fonts to remain under this license does not apply to any document created using the Font Software. Licensor hereby grants You a world-wide, royalty-free, non-exclusive, perpetual, sublicenseable license to do the following: a) to reproduce the Original Work in copies; b) to prepare derivative works ("Derivative Works") based upon the Original Work; c) to distribute copies of the Original Work and Derivative Works to the public; d) to perform the Original Work publicly; and e) to display the Original Work publicly. 2) Grant of Patent License. Licensor hereby grants You a world-wide, royalty-free, non-exclusive, perpetual, sublicenseable license, under patent claims owned or controlled by the Licensor that are embodied in the Original Work as furnished by the Licensor, to make, use, sell and offer for sale the Original |

|---|---|---|
| | | Work and Derivative Works. 3) Grant of Source Code License. The term "Source Code" means the preferred form of the Original Work for making modifications to it and all available documentation describing how to modify the Original Work. Licensor hereby agrees to provide a machine-readable copy of the Source Code of the Original Work along with each copy of the Original Work that Licensor distributes. Licensor reserves the right to satisfy this obligation by placing a machine-readable copy of the Source Code in an information repository reasonably calculated to permit inexpensive and convenient access by You for as long as Licensor continues to distribute the Original Work, and by publishing the address of that information repository in a notice immediately following the copyright notice that applies to the Original Work. 4) Exclusions From License Grant. Neither the names of Licensor, nor the names of any contributors to the Original Work, nor any of their trademarks or service marks, may be used to endorse or promote products derived from this Original Work without express prior written permission of the Licensor. Nothing in this License shall be deemed to grant any rights to trademarks, copyrights, patents, trade secrets or any other intellectual property of Licensor except as expressly stated herein. No patent license is granted to make, use, sell or offer to sell embodiments of any patent claims other than the licensed claims defined in Section 2. No right is granted to the trademarks of Licensor even if such marks are included in the Original Work. Nothing in this License shall be interpreted to prohibit Licensor from licensing under different terms from this License any Original Work that Licensor otherwise would have a right to license. 5) This section intentionally omitted. 6) Attribution Rights. You must retain, in the Source Code of any Derivative Works that You create, all copyright, patent or trademark notices from the Source Code of the Original Work, as well as any notices of licensing and any descriptive text identified therein as an "Attribution Notice." You must cause the Source Code for any Derivative Works that You create to carry a prominent |

| | | |
|---|---|---|
| | | Attribution Notice reasonably calculated to inform recipients that You have modified the Original Work. 7) Warranty of Provenance and Disclaimer of Warranty. Licensor warrants that the copyright in and to the Original Work and the patent rights granted herein by Licensor are owned by the Licensor or are sublicensed to You under the terms of this License with the permission of the contributor(s) of those copyrights and patent rights. Except as expressly stated in the immediately proceeding sentence, the Original Work is provided under this License on an "AS IS" BASIS and WITHOUT WARRANTY, either express or implied, including, without limitation, the warranties of NON-INFRINGEMENT, MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY OF THE ORIGINAL WORK IS WITH YOU. This DISCLAIMER OF WARRANTY constitutes an essential part of this License. No license to Original Work is granted hereunder except under this disclaimer. 8) Limitation of Liability. Under no circumstances and under no legal theory, whether in tort (including negligence), contract, or otherwise, shall the Licensor be liable to any person for any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or the use of the Original Work including, without limitation, damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses. This limitation of liability shall not apply to liability for death or personal injury resulting from Licensor's negligence to the extent applicable law prohibits such limitation. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion and limitation may not apply to You. 9) Acceptance and Termination. If You distribute copies of the Original Work or a Derivative Work, You must make a reasonable effort under the circumstances to obtain the express assent of recipients to the terms of this License. Nothing else but this License (or another written agreement between Licensor and You) |

| | | |
|---|---|---|
| | | grants You permission to create Derivative Works based upon the Original Work or to exercise any of the rights granted in Section 1 herein, and any attempt to do so except under the terms of this License (or another written agreement between Licensor and You) is expressly prohibited by U.S. copyright law, the equivalent laws of other countries, and by international treaty. Therefore, by exercising any of the rights granted to You in Section 1 herein, You indicate Your acceptance of this License and all of its terms and conditions. 10) Termination for Patent Action. This License shall terminate automatically and You may no longer exercise any of the rights granted to You by this License as of the date You commence an action, including a cross-claim or counterclaim, against Licensor or any licensee alleging that the Original Work infringes a patent. This termination provision shall not apply for an action alleging patent infringement by combinations of the Original Work with other software or hardware. 11) Jurisdiction, Venue and Governing Law. Any action or suit relating to this License may be brought only in the courts of a jurisdiction wherein the Licensor resides or in which Licensor conducts its primary business, and under the laws of that jurisdiction excluding its conflict-of-law provisions. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any use of the Original Work outside the scope of this License or after its termination shall be subject to the requirements and penalties of the U.S. Copyright Act, 17 U.S.C. Â§ 101 et seq., the equivalent laws of other countries, and international treaty. This section shall survive the termination of this License. 12) Attorneys Fees. In any action to enforce the terms of this License or seeking damages relating thereto, the prevailing party shall be entitled to recover its costs and expenses, including, without limitation, reasonable attorneys' fees and costs incurred in connection with such action, including any appeal of such action. This section shall survive the termination of this License. 13) Miscellaneous. This License represents the complete agreement concerning the |

| | | |
|---|---|---|
| | | subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. 14) Definition of "You" in This License. "You" throughout this License, whether in upper or lower case, means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, "You" includes any entity that controls, is controlled by, or is under common control with you. For purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. 15) Right to Use. You may use the Original Work in all ways not otherwise restricted or conditioned by this License or by law, and Licensor promises not to interfere with or be responsible for such uses by You. The BSD License is recommended for most projects. It is simple and easy to understand and it places almost no restrictions on what you can do with the Forge project. If the GPL suits your project better you are also free to use Forge under that license. You don't have to do anything special to choose one license or the other and you don't have to notify anyone which license you are using. You are free to use this project in commercial projects as long as the copyright header is left intact. If you are a commercial entity and use this set of libraries in your commercial software then reasonable payment to Digital Bazaar, if you can afford it, is not required but is expected and would be appreciated. If this library saves you time, then it's saving you money. The cost of developing the Forge software was on the order of several hundred hours and tens of thousands of dollars. We are attempting to strike a balance between helping the development community while not being taken advantage of by lucrative commercial entities for our efforts. ---------- ---------- New BSD License (3-clause) Copyright (c) 2010, Digital Bazaar, Inc. | | | License instead.) You can apply it to your programs, too. When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things. To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it. For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights. We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software. Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations. Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all. The precise terms and conditions for copying, distribution and modification follow. GNU GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION 0. This License applies to any program or other work which contains a notice |

| | | |
|---|---|---|
| | | placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you". Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does. 1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions: a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change. b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License. c) If the modified program normally reads commands interactively when run, you must cause it, when |

| | | |
|---|---|---|
| | | started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.) These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it. Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program. In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License. 3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following: a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of |

| | | |
|---|---|---|
| | | the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.) The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable. If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code. 4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance. 5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you |

| | | |
|---|---|---|
| | | indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it. 6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License. 7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program. If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances. It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice. This section is intended to make |

| | | |
|---|---|---|
| | | thoroughly clear what is believed to be a consequence of the rest of this License. 8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License. 9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation. 10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally. NO WARRANTY 11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR |

| | | |
|---|---|---|
| | | IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION. 12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. == Copyright Copyright (C) 1989, 1991 Free Software Foundation, Inc. Definitions. "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this |

| | | |
|---|---|---|
| | | definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types. "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of |

| | | |
|---|---|---|
| | | discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution." "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work. 2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed. 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions: (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and (b) You must cause any modified files to carry prominent notices stating that You changed the files; and (c) You must retain, in the Source form of any Derivative |

| | | |
|---|---|---|
| | | Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License. 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions. 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the |

| | | origin of the Work and reproducing the content of the NOTICE file. 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages. 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. Creative Commons gives no warranties regarding its licenses, any material licensed under their terms and conditions, or any related information. Using Creative Commons Public Licenses Creative Commons public licenses provide a standard set of terms and conditions that creators and other rights holders may use to share original works of authorship and other material subject to copyright and certain other rights |

| | | |
|---|---|---|
| | | specified in the public license below. The following considerations are for informational purposes only, are not exhaustive, and do not form part of our licenses. Considerations for licensors: Our public licenses are intended for use by those authorized to give the public permission to use material in ways otherwise restricted by copyright and certain other rights. Our licenses are irrevocable. Licensors should read and understand the terms and conditions of the license they choose before applying it. Licensors should also secure all rights necessary before applying our licenses so that the public can reuse the material as expected. Licensors should clearly mark any material not subject to the license. This includes other CC- licensed material, or material used under an exception or limitation to copyright. More considerations for licensors: wiki.creativecommons.org/Considerations_for_licensors Considerations for the public: By using one of our public licenses, a licensor grants the public permission to use the licensed material under specified terms and conditions. If the licensor's permission is not necessary for any reason--for example, because of any applicable exception or limitation to copyright--then that use is not regulated by the license. Our licenses grant only permissions under copyright and certain other rights that a licensor has authority to grant. Use of the licensed material may still be restricted for other reasons, including because others have copyright or other rights in the material. A licensor may make special requests, such as asking that all changes be marked or described. Although not required by our licenses, you are encouraged to respect those requests where reasonable. More considerations for the public: wiki.creativecommons.org/Considerations_for_licensees<br>==========<br>==========<br>Creative Commons Attribution 4.0 International Public License By exercising the Licensed Rights (defined below), You accept and agree to be bound by the terms and conditions of this Creative Commons Attribution 4.0 International Public |

| | | |
|---|---|---|
| | | License ("Public License"). To the extent this Public License may be interpreted as a contract, You are granted the Licensed Rights in consideration of Your acceptance of these terms and conditions, and the Licensor grants You such rights in consideration of benefits the Licensor receives from making the Licensed Material available under these terms and conditions. Section 1 -- Definitions. a. Adapted Material means material subject to Copyright and Similar Rights that is derived from or based upon the Licensed Material and in which the Licensed Material is translated, altered, arranged, transformed, or otherwise modified in a manner requiring permission under the Copyright and Similar Rights held by the Licensor. For purposes of this Public License, where the Licensed Material is a musical work, performance, or sound recording, Adapted Material is always produced where the Licensed Material is synched in timed relation with a moving image. b. Adapter's License means the license You apply to Your Copyright and Similar Rights in Your contributions to Adapted Material in accordance with the terms and conditions of this Public License. c. Copyright and Similar Rights means copyright and/or similar rights closely related to copyright including, without limitation, performance, broadcast, sound recording, and Sui Generis Database Rights, without regard to how the rights are labeled or categorized. For purposes of this Public License, the rights specified in Section 2(b)(1)-(2) are not Copyright and Similar Rights. d. Effective Technological Measures means those measures that, in the absence of proper authority, may not be circumvented under laws fulfilling obligations under Article 11 of the WIPO Copyright Treaty adopted on December 20, 1996, and/or similar international agreements. e. Exceptions and Limitations means fair use, fair dealing, and/or any other exception or limitation to Copyright and Similar Rights that applies to Your use of the Licensed Material. f. Licensed Material means the artistic or literary work, database, or other material to which the Licensor applied this Public License. g. Licensed Rights |

| | | |
|---|---|---|
| | | means the rights granted to You subject to the terms and conditions of this Public License, which are limited to all Copyright and Similar Rights that apply to Your use of the Licensed Material and that the Licensor has authority to license. h. Licensor means the individual(s) or entity(ies) granting rights under this Public License. i. Share means to provide material to the public by any means or process that requires permission under the Licensed Rights, such as reproduction, public display, public performance, distribution, dissemination, communication, or importation, and to make material available to the public including in ways that members of the public may access the material from a place and at a time individually chosen by them. j. Sui Generis Database Rights means rights other than copyright resulting from Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, as amended and/or succeeded, as well as other essentially equivalent rights anywhere in the world. k. You means the individual or entity exercising the Licensed Rights under this Public License. Your has a corresponding meaning. Section 2 -- Scope. a. License grant. 1. Subject to the terms and conditions of this Public License, the Licensor hereby grants You a worldwide, royalty-free, non-sublicensable, non-exclusive, irrevocable license to exercise the Licensed Rights in the Licensed Material to: a. reproduce and Share the Licensed Material, in whole or in part; and b. produce, reproduce, and Share Adapted Material. 2. Exceptions and Limitations. For the avoidance of doubt, where Exceptions and Limitations apply to Your use, this Public License does not apply, and You do not need to comply with its terms and conditions. 3. Term. The term of this Public License is specified in Section 6(a). 4. Media and formats; technical modifications allowed. The Licensor authorizes You to exercise the Licensed Rights in all media and formats whether now known or hereafter created, and to make technical modifications necessary to do so. The Licensor waives and/or agrees not to assert any right or authority to forbid You from making technical |

| | | |
|---|---|---|
| | | modifications necessary to exercise the Licensed Rights, including technical modifications necessary to circumvent Effective Technological Measures. For purposes of this Public License, simply making modifications authorized by this Section 2(a) (4) never produces Adapted Material. 5. Downstream recipients. a. Offer from the Licensor -- Licensed Material. Every recipient of the Licensed Material automatically receives an offer from the Licensor to exercise the Licensed Rights under the terms and conditions of this Public License. b. No downstream restrictions. You may not offer or impose any additional or different terms or conditions on, or apply any Effective Technological Measures to, the Licensed Material if doing so restricts exercise of the Licensed Rights by any recipient of the Licensed Material. 6. No endorsement. Nothing in this Public License constitutes or may be construed as permission to assert or imply that You are, or that Your use of the Licensed Material is, connected with, or sponsored, endorsed, or granted official status by, the Licensor or others designated to receive attribution as provided in Section 3(a)(1)(A)(i). b. Other rights. 1. Moral rights, such as the right of integrity, are not licensed under this Public License, nor are publicity, privacy, and/or other similar personality rights; however, to the extent possible, the Licensor waives and/or agrees not to assert any such rights held by the Licensor to the limited extent necessary to allow You to exercise the Licensed Rights, but not otherwise. 2. Patent and trademark rights are not licensed under this Public License. 3. To the extent possible, the Licensor waives any right to collect royalties from You for the exercise of the Licensed Rights, whether directly or through a collecting society under any voluntary or waivable statutory or compulsory licensing scheme. In all other cases the Licensor expressly reserves any right to collect such royalties. Section 3 -- License Conditions. Your exercise of the Licensed Rights is expressly made subject to the following conditions. a. Attribution. 1. If You Share the Licensed Material (including in modified form), You must: a. retain the following if it is supplied by the Licensor with |

| | | |
|---|---|---|
| | | the Licensed Material: i. identification of the creator(s) of the Licensed Material and any others designated to receive attribution, in any reasonable manner requested by the Licensor (including by pseudonym if designated); ii. a copyright notice; iii. a notice that refers to this Public License; iv. a notice that refers to the disclaimer of warranties; v. a URI or hyperlink to the Licensed Material to the extent reasonably practicable; b. indicate if You modified the Licensed Material and retain an indication of any previous modifications; and c. indicate the Licensed Material is licensed under this Public License, and include the text of, or the URI or hyperlink to, this Public License. 2. You may satisfy the conditions in Section 3(a)(1) in any reasonable manner based on the medium, means, and context in which You Share the Licensed Material. For example, it may be reasonable to satisfy the conditions by providing a URI or hyperlink to a resource that includes the required information. 3. If requested by the Licensor, You must remove any of the information required by Section 3(a)(1)(A) to the extent reasonably practicable. 4. If You Share Adapted Material You produce, the Adapter's License You apply must not prevent recipients of the Adapted Material from complying with this Public License. Section 4 -- Sui Generis Database Rights. Where the Licensed Rights include Sui Generis Database Rights that apply to Your use of the Licensed Material: a. for the avoidance of doubt, Section 2(a)(1) grants You the right to extract, reuse, reproduce, and Share all or a substantial portion of the contents of the database; b. if You include all or a substantial portion of the database contents in a database in which You have Sui Generis Database Rights, then the database in which You have Sui Generis Database Rights (but not its individual contents) is Adapted Material; and c. You must comply with the conditions in Section 3(a) if You Share all or a substantial portion of the contents of the database. For the avoidance of doubt, this Section 4 supplements and does not replace Your obligations under this Public License where the Licensed Rights include other Copyright and Similar Rights. Section 5 -- |

| | | |
|---|---|---|
| | | Disclaimer of Warranties and Limitation of Liability. a. UNLESS OTHERWISE SEPARATELY UNDERTAKEN BY THE LICENSOR, TO THE EXTENT POSSIBLE, THE LICENSOR OFFERS THE LICENSED MATERIAL AS-IS AND AS-AVAILABLE, AND MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND CONCERNING THE LICENSED MATERIAL, WHETHER EXPRESS, IMPLIED, STATUTORY, OR OTHER. THIS INCLUDES, WITHOUT LIMITATION, WARRANTIES OF TITLE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, ABSENCE OF LATENT OR OTHER DEFECTS, ACCURACY, OR THE PRESENCE OR ABSENCE OF ERRORS, WHETHER OR NOT KNOWN OR DISCOVERABLE. WHERE DISCLAIMERS OF WARRANTIES ARE NOT ALLOWED IN FULL OR IN PART, THIS DISCLAIMER MAY NOT APPLY TO YOU. b. TO THE EXTENT POSSIBLE, IN NO EVENT WILL THE LICENSOR BE LIABLE TO YOU ON ANY LEGAL THEORY (INCLUDING, WITHOUT LIMITATION, NEGLIGENCE) OR OTHERWISE FOR ANY DIRECT, SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE, EXEMPLARY, OR OTHER LOSSES, COSTS, EXPENSES, OR DAMAGES ARISING OUT OF THIS PUBLIC LICENSE OR USE OF THE LICENSED MATERIAL, EVEN IF THE LICENSOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH LOSSES, COSTS, EXPENSES, OR DAMAGES. WHERE A LIMITATION OF LIABILITY IS NOT ALLOWED IN FULL OR IN PART, THIS LIMITATION MAY NOT APPLY TO YOU. c. The disclaimer of warranties and limitation of liability provided above shall be interpreted in a manner that, to the extent possible, most closely approximates an absolute disclaimer and waiver of all liability. Section 6 -- Term and Termination. a. This Public License applies for the term of the Copyright and Similar Rights licensed here. However, if You fail to comply with this Public |

| | | |
|---|---|---|
| | | License, then Your rights under this Public License terminate automatically. b. Where Your right to use the Licensed Material has terminated under Section 6(a), it reinstates: 1. automatically as of the date the violation is cured, provided it is cured within 30 days of Your discovery of the violation; or 2. upon express reinstatement by the Licensor. For the avoidance of doubt, this Section 6(b) does not affect any right the Licensor may have to seek remedies for Your violations of this Public License. c. For the avoidance of doubt, the Licensor may also offer the Licensed Material under separate terms or conditions or stop distributing the Licensed Material at any time; however, doing so will not terminate this Public License. d. Sections 1, 5, 6, 7, and 8 survive termination of this Public License. Section 7 -- Other Terms and Conditions. a. The Licensor shall not be bound by any additional or different terms or conditions communicated by You unless expressly agreed. b. Any arrangements, understandings, or agreements regarding the Licensed Material not stated herein are separate from and independent of the terms and conditions of this Public License. Section 8 -- Interpretation. a. For the avoidance of doubt, this Public License does not, and shall not be interpreted to, reduce, limit, restrict, or impose conditions on any use of the Licensed Material that could lawfully be made without permission under this Public License. b. To the extent possible, if any provision of this Public License is deemed unenforceable, it shall be automatically reformed to the minimum extent necessary to make it enforceable. If the provision cannot be reformed, it shall be severed from this Public License without affecting the enforceability of the remaining terms and conditions. c. No term or condition of this Public License will be waived and no failure to comply consented to unless expressly agreed to by the Licensor. d. Nothing in this Public License constitutes or may be interpreted as a limitation upon, or waiver of, any privileges and immunities that apply to the Licensor or You, including from the legal processes of any jurisdiction or authority. ========== |

Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works ("Commons") that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights ("Copyright and Related Rights"). Copyright and Related Rights include, but are not limited to, the following: i. the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work; ii. moral rights retained by the original author(s) and/or performer(s); iii. publicity and privacy rights pertaining to a person's image or likeness depicted in a Work; iv. rights protecting against unfair competition in regards to a Work, subject to the limitations in paragraph 4(a), below; v. rights protecting the extraction, dissemination, use and reuse of data in a Work; vi. database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof, |

| | | |
|---|---|---|
| | | including any amended or successor version of such directive); and vii. other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof. 2. Waiver. To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, abandons, and surrenders all of Affirmer's Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the "Waiver"). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmer's heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmer's express Statement of Purpose. 3. Public License Fallback. Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmer's express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive, irrevocable and unconditional license to exercise Affirmer's Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, |

| | | |
|---|---|---|
| | | including without limitation commercial, advertising or promotional purposes (the "License"). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmer's express Statement of Purpose. 4. Limitations and Disclaimers. a. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document. b. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to the greatest extent permissible under applicable law. c. Affirmer disclaims responsibility for clearing rights of other persons that may apply to the Work or any use thereof, including without limitation any person's Copyright and Related Rights in the Work. Further, Affirmer disclaims responsibility for obtaining any necessary consents, permissions or other rights required for any use of the Work. d. Affirmer understands and acknowledges that Creative Commons is not a party to this document and has no duty or obligation with respect to this CC0 or use of the Work. ---------- (separator) ---------- == SPDX:ISC Permission to use, copy, modify, and/or distribute this software for any purpose with or without fee is hereby granted, provided that the above copyright notice and this permission notice appear in all copies. Apache License
Version 2.0, January 2004

http://www.apache.org/licenses/
TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.
   - "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.
   - "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.
   - "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.
   - "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.
   - "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.
   - "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.
   - "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).
   - "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.
   - "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."
   - "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.
2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims

licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
    a. You must give any other recipients of the Work or Derivative Works a copy of this License; and
    b. You must cause any modified files to carry prominent notices stating that You changed the files; and
    c. You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
    d. If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.
    e. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.
5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works

thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

# Creative Commons Public License

This topic includes the full text of the Creative Commons Public License, which is used by some of the products listed in "Open Source Software Products or Components Distributed in Siebel Business Applications" on page 1-8

THE WORK (AS DEFINED BELOW) IS PROVIDED UNDER THE TERMS OF THIS CREATIVE COMMONS PUBLIC LICENSE ("CCPL" OR "LICENSE"). THE WORK IS PROTECTED BY COPYRIGHT AND/OR OTHER APPLICABLE LAW. ANY USE OF THE WORK OTHER THAN AS AUTHORIZED UNDER THIS LICENSE IS PROHIBITED.
BY EXERCISING ANY RIGHTS TO THE WORK PROVIDED HERE, YOU ACCEPT AND AGREE TO BE BOUND BY THE TERMS OF THIS LICENSE. THE LICENSOR GRANTS YOU THE RIGHTS CONTAINED HERE IN CONSIDERATION OF YOUR ACCEPTANCE OF SUCH TERMS AND CONDITIONS.

1. Definitions
   - "Collective Work" means a work, such as a periodical issue, anthology or encyclopedia, in which the Work in its entirety in unmodified form, along with a number of other contributions, constituting separate and independent works in themselves, are assembled into a collective whole. A work that constitutes a Collective Work will not be considered a Derivative Work (as defined below) for the purposes of this License.
   - "Derivative Work" means a work based upon the Work or upon the Work and other pre-existing works, such as a translation, musical arrangement, dramatization, fictionalization, motion picture version, sound recording, art reproduction, abridgment, condensation, or any other form in which the Work may be recast, transformed, or adapted, except that a work that constitutes a Collective Work will not be considered a Derivative Work for the purpose of this License.
   - "Licensor" means the individual or entity that offers the Work under the terms of this License.
   - "Original Author" means the individual or entity who created the Work.
   - "Work" means the copyrightable work of authorship offered under the terms of this License.
   - "You" means an individual or entity exercising rights under this License who has not previously violated the terms of this License with respect to the Work, or who has received express permission from the Licensor to exercise rights under this License despite a previous violation.
2. Fair Use Rights. Nothing in this license is intended to reduce, limit, or restrict any rights arising from fair use, first sale or other limitations on the exclusive rights of the copyright owner under copyright law or other applicable laws.
3. License Grant. Subject to the terms and conditions of this License, Licensor hereby grants You a worldwide, royalty-free, non-exclusive, perpetual (for the duration of the applicable copyright) license to exercise the rights in the Work as stated below:
   a. to reproduce the Work, to incorporate the Work into one or more Collective Works, and to reproduce the Work as incorporated in the Collective Works;
   b. to create and reproduce Derivative Works;
   c. to distribute copies or phonorecords of, display publicly, perform publicly, and perform publicly by means of a digital audio transmission the Work including as incorporated in Collective Works;
   d. to distribute copies or phonorecords of, display publicly, perform publicly, and perform publicly by means of a digital audio transmission Derivative Works;
   e. The above rights may be exercised in all media and formats whether now known or hereafter devised. The above rights include the right to make such

modifications as are technically necessary to exercise the rights in other media and formats. All rights not expressly granted by Licensor are hereby reserved.

4. Restrictions. The license granted in Section 3 above is expressly made subject to and limited by the following restrictions:
    a. You may distribute, publicly display, publicly perform, or publicly digitally perform the Work only under the terms of this License, and You must include a copy of, or the Uniform Resource Identifier for, this License with every copy or phonorecord of the Work You distribute, publicly display, publicly perform, or publicly digitally perform. You may not offer or impose any terms on the Work that alter or restrict the terms of this License or the recipients' exercise of the rights granted hereunder. You may not sublicense the Work. You must keep intact all notices that refer to this License and to the disclaimer of warranties. You may not distribute, publicly display, publicly perform, or publicly digitally perform the Work with any technological measures that control access or use of the Work in a manner inconsistent with the terms of this License Agreement. The above applies to the Work as incorporated in a Collective Work, but this does not require the Collective Work apart from the Work itself to be made subject to the terms of this License. If You create a Collective Work, upon notice from any Licensor You must, to the extent practicable, remove from the Collective Work any reference to such Licensor or the Original Author, as requested. If You create a Derivative Work, upon notice from any Licensor You must, to the extent practicable, remove from the Derivative Work any reference to such Licensor or the Original Author, as requested.
    b. You may distribute, publicly display, publicly perform, or publicly digitally perform a Derivative Work only under the terms of this License, and You must include a copy of, or the Uniform Resource Identifier for, this License with every copy or phonorecord of each Derivative Work You distribute, publicly display, publicly perform, or publicly digitally perform. You may not offer or impose any terms on the Derivative Works that alter or restrict the terms of this License or the recipients' exercise of the rights granted hereunder, and You must keep intact all notices that refer to this License and to the disclaimer of warranties. You may not distribute, publicly display, publicly perform, or publicly digitally perform the Derivative Work with any technological measures that control access or use of the Work in a manner inconsistent with the terms of this License Agreement. The above applies to the Derivative Work as incorporated in a Collective Work, but this does not require the Collective Work apart from the Derivative Work itself to be made subject to the terms of this License.
    c. If you distribute, publicly display, publicly perform, or publicly digitally perform the Work or any Derivative Works or Collective Works, You must keep intact all copyright notices for the Work and give the Original Author credit reasonable to the medium or means You are utilizing by conveying the name (or pseudonym if applicable) of the Original Author if supplied; the title of the Work if supplied; in the case of a Derivative Work, a credit identifying the use of the Work in the Derivative Work (e.g., “French translation of the Work by Original Author,” or “Screenplay based on original Work by Original Author”). Such credit may be implemented in any reasonable manner; provided, however, that in the case of a Derivative Work or Collective Work, at a minimum such credit will appear where any other comparable authorship credit appears and in a manner at least as prominent as such other comparable authorship credit.
5. Representations, Warranties and Disclaimer

a. By offering the Work for public release under this License, Licensor represents and warrants that, to the best of Licensor's knowledge after reasonable inquiry:
   - Licensor has secured all rights in the Work necessary to grant the license rights hereunder and to permit the lawful exercise of the rights granted hereunder without You having any obligation to pay any royalties, compulsory license fees, residuals or any other payments;
   - The Work does not infringe the copyright, trademark, publicity rights, common law rights or any other right of any third party or constitute defamation, invasion of privacy or other tortious injury to any third party.

b. EXCEPT AS EXPRESSLY STATED IN THIS LICENSE OR OTHERWISE AGREED IN WRITING OR REQUIRED BY APPLICABLE LAW, THE WORK IS LICENSED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES REGARDING THE CONTENTS OR ACCURACY OF THE WORK.

6. Limitation on Liability. EXCEPT TO THE EXTENT REQUIRED BY APPLICABLE LAW, AND EXCEPT FOR DAMAGES ARISING FROM LIABILITY TO A THIRD PARTY RESULTING FROM BREACH OF THE WARRANTIES IN SECTION 5, IN NO EVENT WILL LICENSOR BE LIABLE TO YOU ON ANY LEGAL THEORY FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES ARISING OUT OF THIS LICENSE OR THE USE OF THE WORK, EVEN IF LICENSOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
7. Termination
   a. This License and the rights granted hereunder will terminate automatically upon any breach by You of the terms of this License. Individuals or entities who have received Derivative Works or Collective Works from You under this License, however, will not have their licenses terminated provided such individuals or entities remain in full compliance with those licenses. Sections 1, 2, 5, 6, 7, and 8 will survive any termination of this License.
   b. Subject to the above terms and conditions, the license granted here is perpetual (for the duration of the applicable copyright in the Work). Notwithstanding the above, Licensor reserves the right to release the Work under different license terms or to stop distributing the Work at any time; provided, however that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above.
8. Miscellaneous
   a. Each time You distribute or publicly digitally perform the Work or a Collective Work, the Licensor offers to the recipient a license to the Work on the same terms and conditions as the license granted to You under this License.
   b. Each time You distribute or publicly digitally perform a Derivative Work, Licensor offers to the recipient a license to the original Work on the same terms and conditions as the license granted to You under this License.
   c. If any provision of this License is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this agreement, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.
   d. No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent.
   e. This License constitutes the entire agreement between the parties with respect to the Work licensed here. There are no understandings, agreements

or representations with respect to the Work not specified here. Licensor shall not be bound by any additional provisions that may appear in any communication from You. This License may not be modified without the mutual written agreement of the Licensor and You.

Creative Commons is not a party to this License, and makes no warranty whatsoever in connection with the Work. Creative Commons will not be liable to You or any party on any legal theory for any damages whatsoever, including without limitation any general, special, incidental or consequential damages arising in connection to this license. Notwithstanding the foregoing two (2) sentences, if Creative Commons has expressly identified itself as the Licensor hereunder, it shall have all rights and obligations of Licensor.

Except for the limited purpose of indicating to the public that the Work is licensed under the CCPL, neither party will use the trademark "Creative Commons" or any related trademark or logo of Creative Commons without the prior written consent of Creative Commons. Any permitted use will be in compliance with Creative Commons' then-current trademark usage guidelines, as may be published on its website or otherwise made available upon request from time to time.

## The Artistic License

Preamble

The intent of this document is to state the conditions under which a Package may be copied, such that the Copyright Holder maintains some semblance of artistic control over the development of the package, while giving the users of the package the right to use and distribute the Package in a more-or-less customary fashion, plus the right to make reasonable modifications.

Definitions:

"Package" refers to the collection of files distributed by the Copyright Holder, and derivatives of that collection of files created through textual modification.

"Standard Version" refers to such a Package if it has not been modified, or has been modified in accordance with the wishes of the Copyright Holder.

"Copyright Holder" is whoever is named in the copyright or copyrights for the package.

"You" is you, if you're thinking about copying or distributing this Package.

"Reasonable copying fee" is whatever you can justify on the basis of media cost, duplication charges, time of people involved, and so on. (You will not be required to justify it to the Copyright Holder, but only to the computing community at large as a market that must bear the fee.)

"Freely Available" means that no fee is charged for the item itself, though there may be fees involved in handling the item. It also means that recipients of the item may redistribute it under the same conditions they received it.

1. You may make and give away verbatim copies of the source form of the Standard Version of this Package without restriction, provided that you duplicate all of the original copyright notices and associated disclaimers.
2. You may apply bug fixes, portability fixes and other modifications derived from the Public Domain or from the Copyright Holder. A Package modified in such a way shall still be considered the Standard Version.
3. You may otherwise modify your copy of this Package in any way, provided that you insert a prominent notice in each changed file stating how and when you changed that file, and provided that you do at least ONE of the following:
    a. place your modifications in the Public Domain or otherwise make them Freely Available, such as by posting said modifications to Usenet or an equivalent medium, or placing the modifications on a major archive site such as ftp.uu.net, or by allowing the Copyright Holder to include your modifications in the Standard Version of the Package.

   b. use the modified Package only within your corporation or organization.
   c. rename any non-standard executables so the names do not conflict with standard executables, which must also be provided, and provide a separate manual page for each non-standard executable that clearly documents how it differs from the Standard Version.
   d. make other distribution arrangements with the Copyright Holder.
4. You may distribute the programs of this Package in object code or executable form, provided that you do at least ONE of the following:
   a. distribute a Standard Version of the executables and library files, together with instructions (in the manual page or equivalent) on where to get the Standard Version.
   b. accompany the distribution with the machine-readable source of the Package with your modifications.
   c. accompany any non-standard executables with their corresponding Standard Version executables, giving the non-standard executables non-standard names, and clearly documenting the differences in manual pages (or equivalent), together with instructions on where to get the Standard Version.
   d. make other distribution arrangements with the Copyright Holder.
5. You may charge a reasonable copying fee for any distribution of this Package. You may charge any fee you choose for support of this Package. You may not charge a fee for this Package itself. However, you may distribute this Package in aggregate with other (possibly commercial) programs as part of a larger (possibly commercial) software distribution provided that you do not advertise this Package as a product of your own.
6. The scripts and library files supplied as input to or produced as output from the programs of this Package do not automatically fall under the copyright of this Package, but belong to whomever generated them, and may be sold commercially, and may be aggregated with this Package.
7. C or perl subroutines supplied by you and linked into this Package shall not be considered part of this Package.
8. Aggregation of this Package with a commercial distribution is always permitted provided that the use of this Package is embedded; that is, when no overt attempt is made to make this Package's interfaces visible to the end user of the commercial distribution. Such use shall not be construed as a distribution of this Package.
9. The name of the Copyright Holder may not be used to endorse or promote products derived from this software without specific prior written permission.
10. THIS PACKAGE IS PROVIDED "AS IS" AND WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTIBILITY AND FITNESS FOR A PARTICULAR PURPOSE.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i)

the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of,
the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no- charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in

this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work
constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form
or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your
use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work\ by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[ ]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

1. Definitions

---

1.1. "Contributor" means each individual or legal entity that creates, contributes to the creation of, or owns Covered Software.

1.2. "Contributor Version" means the combination of the Contributions of others (if any) used by a Contributor and that particular Contributor's Contribution.

1.3. "Contribution" means Covered Software of a particular Contributor.

1.4. "Covered Software" means Source Code Form to which the initial Contributor has attached the notice in Exhibit A, the Executable Form of such Source Code Form, and Modifications of such Source Code Form, in each case including portions thereof.

1.5. "Incompatible With Secondary Licenses" means

(a) that the initial Contributor has attached the notice described in Exhibit B to the Covered Software; or

(b) that the Covered Software was made available under the terms of version 1.1 or earlier of the License, but not also under the terms of a Secondary License.

1.6. "Executable Form" means any form of the work other than Source Code Form.

1.7. "Larger Work" means a work that combines Covered Software with other material, in a separate file or files, that is not Covered Software.

1.8. "License" means this document.

1.9. "Licensable" means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently, any and all of the rights conveyed by this License.

1.10. "Modifications" means any of the following:

(a) any file in Source Code Form that results from an addition to, deletion from, or modification of the contents of Covered Software; or

(b) any new file in Source Code Form that contains any Covered Software.

1.11. "Patent Claims" of a Contributor means any patent claim(s), including without limitation, method, process, and apparatus claims, in any patent Licensable by such Contributor that would be infringed, but for the grant of the License, by the making, using, selling, offering for sale, having made, import, or transfer of either its Contributions or its Contributor Version.

1.12. "Secondary License" means either the GNU General Public License, Version 2.0, the GNU Lesser General Public License, Version 3.0, or any later versions of those licenses.

1.13. "Source Code Form" means the form of the work preferred for making modifications.

1.14. "You" (or "Your") means an individual or a legal entity exercising rights under this License. For legal entities, "You" includes any entity that controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means
(a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. License Grants and Conditions

---

2.1. Grants

Each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by such Contributor to use, reproduce, make available, modify, display, perform,

distribute, and otherwise exploit its Contributions, either on an unmodified basis, with Modifications, or as part of a Larger Work; and

(b) under Patent Claims of such Contributor to make, use, sell, offer for sale, have made, import, and otherwise transfer either its Contributions or its Contributor Version.

2.2. Effective Date

The licenses granted in Section 2.1 with respect to any Contribution become effective for each Contribution on the date the Contributor first distributes such Contribution.

2.3. Limitations on Grant Scope

The licenses granted in this Section 2 are the only rights granted under this License. No additional rights or licenses will be implied from the distribution or licensing of Covered Software under this License. Notwithstanding Section 2.1(b) above, no patent license is granted by a Contributor:

(a) for any code that a Contributor has removed from Covered Software; or

(b) for infringements caused by: (i) Your and any other third party's modifications of Covered Software, or (ii) the combination of its Contributions with other software (except as part of its Contributor Version); or

(c) under Patent Claims infringed by Covered Software in the absence of its Contributions.

This License does not grant any rights in the trademarks, service marks, or logos of any Contributor (except as may be necessary to comply with the notice requirements in Section 3.4).

2.4. Subsequent Licenses

No Contributor makes additional grants as a result of Your choice to distribute the Covered Software under a subsequent version of this License (see Section 10.2) or under the terms of a Secondary License (if permitted under the terms of Section 3.3).

2.5. Representation

Each Contributor represents that the Contributor believes its Contributions are its original creation(s) or it has sufficient rights to grant the rights to its Contributions conveyed by this License.

2.6. Fair Use

This License is not intended to limit any rights You have under applicable copyright doctrines of fair use, fair dealing, or other equivalents.

2.7. Conditions

Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted in Section 2.1.

3. Responsibilities

---

3.1. Distribution of Source Form

All distribution of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the terms of this License.
You must inform recipients that the Source Code Form of the Covered Software is

governed by the terms of this License, and how they can obtain a copy of this License. You may not attempt to alter or restrict the recipients' rights in the Source Code Form.

3.2. Distribution of Executable Form

If You distribute Covered Software in Executable Form then:

(a) such Covered Software must also be made available in Source Code Form, as described in Section 3.1, and You must inform recipients of the Executable Form how they can obtain a copy of such Source Code Form by reasonable means in a timely manner, at a charge no more than the cost of distribution to the recipient; and

(b) You may distribute such Executable Form under the terms of this License, or sublicense it under different terms, provided that the license for the Executable Form does not attempt to limit or alter the recipients' rights in the Source Code Form under this License.

3.3. Distribution of a Larger Work

You may create and distribute a Larger Work under terms of Your choice, provided that You also comply with the requirements of this License for the Covered Software. If the Larger Work is a combination of Covered Software with a work governed by one or more Secondary Licenses, and the Covered Software is not Incompatible With Secondary Licenses, this License permits You to additionally distribute such Covered Software under the terms of such Secondary License(s), so that the recipient of the Larger Work may, at their option, further distribute the Covered Software under the terms of either this License or such Secondary License(s).

3.4. Notices

You may not remove or alter the substance of any license notices (including copyright notices, patent notices, disclaimers of warranty, or limitations of liability) contained within the Source Code Form of the Covered Software, except that You may alter any license notices to the extent required to remedy known factual inaccuracies.

3.5. Application of Additional Terms

You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, You may do so only on Your own behalf, and not on behalf of any Contributor. You must make it absolutely clear that any such warranty, support, indemnity, or liability obligation
is offered by You alone, and You hereby agree to indemnify every Contributor for any liability incurred by such Contributor as a result of warranty, support, indemnity or liability terms You offer. You may include additional disclaimers of warranty and limitations of liability specific to any jurisdiction.

4. Inability to Comply Due to Statute or Regulation

---

If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Software due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be placed in a text file included with all distributions of the Covered Software under this License. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.

5. Termination

---

5.1. The rights granted under this License will terminate automatically if You fail to comply with any of its terms. However, if You become compliant, then the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and finally terminates Your grants, and (b) on an ongoing basis, if such Contributor fails to notify You of the non-compliance by some reasonable means prior to 60 days after You have come back into compliance. Moreover, Your grants from a particular Contributor are reinstated on an ongoing basis if such Contributor notifies You of the non-compliance by some reasonable means, this is the first time You have received notice of non-compliance with this License from such Contributor, and You become compliant prior to 30 days after Your receipt of the notice.

5.2. If You initiate litigation against any entity by asserting a patent infringement claim (excluding declaratory judgment actions, counter-claims, and cross-claims) alleging that a Contributor Version directly or indirectly infringes any patent, then the rights granted to You by any and all Contributors for the Covered Software under Section 2.1 of this License shall terminate.

5.3. In the event of termination under Sections 5.1 or 5.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or Your distributors under this License prior to termination shall survive termination.

8. Litigation

---

Any litigation relating to this License may be brought only in the courts of a jurisdiction where the defendant maintains its principal place of business and such litigation
shall be governed by laws of that jurisdiction, without reference to its conflict-of-law provisions. Nothing in this Section shall prevent a party's ability to bring cross-claims or counter-claims.

9. Miscellaneous

---

This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not be used to construe this License against a Contributor.

10. Versions of the License

---

10.1. New Versions

Mozilla Foundation is the license steward. Except as provided in Section 10.3, no one other than the license steward has the right to modify or publish new versions of this License. Each version will be given a distinguishing version number.

10.2. Effect of New Versions

You may distribute the Covered Software under the terms of the version of the License under which You originally received the Covered Software, or under the terms of any subsequent version published by the license steward.

10.3. Modified Versions

If you create software not governed by this License, and you want to create a new license for such software, you may create and use a modified version of this License if you rename the license and remove any references to the name of the license steward (except to note that such modified license differs from this License).

10.4. Distributing Source Code Form that is Incompatible With Secondary

Licenses If You choose to distribute Source Code Form that is

Incompatible With Secondary
Licenses under the terms of this version of the License, the notice described in Exhibit

B of this License must be attached.

==========

1. Definitions

---

1.1. "Contributor" means each individual or legal entity that creates, contributes to the creation of, or owns Covered Software.

1.2. "Contributor Version" means the combination of the Contributions of others (if any) used by a Contributor and that particular Contributor's Contribution.

1.3. "Contribution" means Covered Software of a particular Contributor.

1.4. "Covered Software" means Source Code Form to which the initial

Contributor has attached the notice in Exhibit A, the Executable Form of such Source Code Form, and Modifications of such Source Code Form, in each case including portions thereof.

1.5. "Incompatible With Secondary Licenses" means

(a) that the initial Contributor has attached the notice described in Exhibit B to the Covered Software; or

(b) that the Covered Software was made available under the terms of version 1.1 or earlier of the License, but not also under the terms of a Secondary License.

1.6. "Executable Form" means any form of the work other than Source Code Form.

1.7. "Larger Work" means a work that combines Covered Software with other material, in a separate file or files, that is not Covered Software.

1.8. "License" means this document.

1.9. "Licensable" means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently, any and all of the rights conveyed by this License.

1.10. "Modifications" means any of the following:

(a) any file in Source Code Form that results from an addition to, deletion from, or modification of the contents of Covered Software; or

(b) any new file in Source Code Form that contains any Covered Software.

1.11. "Patent Claims" of a Contributor means any patent claim(s), including without limitation, method, process, and apparatus claims, in any patent Licensable by such Contributor that would be infringed, but for the grant of the License, by the making, using, selling, offering for sale, having made, import, or transfer of either its Contributions or its Contributor Version.

1.12. "Secondary License" means either the GNU General Public License, Version 2.0, the GNU Lesser General Public License, Version 3.0, or any later versions of those licenses.

1.13. "Source Code Form" means the form of the work preferred for making modifications.

1.14. "You" (or "Your") means an individual or a legal entity exercising rights under this License. For legal entities, "You" includes any entity that controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means
(a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. License Grants and Conditions

---

2.1. Grants

Each Contributor hereby grants You a world-wide, royalty-free, non-exclusive

license:

(a) under intellectual property rights (other than patent or trademark) Licensable by such Contributor to use, reproduce, make available, modify, display, perform,
distribute, and otherwise exploit its Contributions, either on an unmodified basis, with Modifications, or as part of a Larger Work; and

(b) under Patent Claims of such Contributor to make, use, sell, offer for sale, have made, import, and otherwise transfer either its Contributions or its Contributor Version.

2.2. Effective Date

The licenses granted in Section 2.1 with respect to any Contribution become effective for each Contribution on the date the Contributor first distributes such Contribution.

2.3. Limitations on Grant Scope

The licenses granted in this Section 2 are the only rights granted under this License. No additional rights or licenses will be implied from the distribution or licensing of Covered Software under this License. Notwithstanding Section 2.1(b) above, no patent license is granted by a Contributor:

(a) for any code that a Contributor has removed from Covered Software; or

(b) for infringements caused by: (i) Your and any other third party's modifications of Covered Software, or (ii) the combination of its Contributions with other software (except as part of its Contributor Version); or

(c) under Patent Claims infringed by Covered Software in the absence of its Contributions.

This License does not grant any rights in the trademarks, service marks, or logos of any Contributor (except as may be necessary to comply with the notice requirements in Section 3.4).

2.4. Subsequent Licenses

No Contributor makes additional grants as a result of Your choice to distribute the Covered Software under a subsequent version of this License (see Section 10.2) or under the terms of a Secondary License (if permitted under the terms of Section 3.3).

2.5. Representation

Each Contributor represents that the Contributor believes its Contributions are its original creation(s) or it has sufficient rights to grant the rights to its Contributions conveyed by this License.

2.6. Fair Use

This License is not intended to limit any rights You have under applicable copyright doctrines of fair use, fair dealing, or other equivalents.

2.7. Conditions

Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted in Section 2.1.

3. Responsibilities

---

3.1. Distribution of Source Form

All distribution of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the terms of this License.
You must inform recipients that the Source Code Form of the Covered Software is governed by the terms of this License, and how they can obtain a copy of this License. You may not attempt to alter or restrict the recipients' rights in the Source Code Form.

3.2. Distribution of Executable Form

If You distribute Covered Software in Executable Form then:

(a) such Covered Software must also be made available in Source Code Form, as described in Section 3.1, and You must inform recipients of the Executable Form how they can obtain a copy of such Source Code Form by reasonable means in a timely manner, at a charge no more than the cost of distribution to the recipient; and

(b) You may distribute such Executable Form under the terms of this License, or sublicense it under different terms, provided that the license for the Executable Form does not attempt to limit or alter the recipients' rights in the Source Code Form under this License.

3.3. Distribution of a Larger Work

You may create and distribute a Larger Work under terms of Your choice, provided that You also comply with the requirements of this License for the Covered Software.

If the Larger Work is a combination of Covered Software with a work governed by one or more Secondary Licenses, and the Covered Software is not Incompatible With Secondary Licenses, this License permits You to additionally distribute such Covered Software under the terms of such Secondary License(s), so that the recipient of the Larger Work may, at their option, further distribute the Covered Software under the terms of either this License or such Secondary License(s).

3.4. Notices

You may not remove or alter the substance of any license notices (including copyright notices, patent notices, disclaimers of warranty, or limitations of liability) contained within the Source Code Form of the Covered Software, except that You may alter any license notices to the extent required to remedy known factual inaccuracies.

3.5. Application of Additional Terms

You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, You may do so only on Your own behalf, and not on behalf of any Contributor. You must make it absolutely clear that any such warranty, support, indemnity, or liability obligation
is offered by You alone, and You hereby agree to indemnify every Contributor for any liability incurred by such Contributor as a result of warranty, support, indemnity or liability terms You offer. You may

include additional disclaimers of warranty and limitations of liability specific to any jurisdiction.

4. Inability to Comply Due to Statute or Regulation

---

If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Software due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be placed in a text file included with all distributions of the Covered Software under this License. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.

5. Termination

---

5.1. The rights granted under this License will terminate automatically if You fail to comply with any of its terms. However, if You become compliant, then the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and finally terminates Your grants, and (b) on an ongoing basis, if such Contributor fails to notify You of the non-compliance by some reasonable means prior to 60 days after You have come back into compliance. Moreover, Your grants from a particular Contributor are reinstated on an ongoing basis if such Contributor notifies You of the non-compliance by some reasonable means, this is the first time You have received notice of non-compliance with this License from such Contributor, and You become compliant prior to 30 days after Your receipt of the notice.

5.2. If You initiate litigation against any entity by asserting a patent infringement claim (excluding declaratory judgment actions, counter-claims, and cross-claims) alleging that a Contributor Version directly or indirectly infringes any patent, then the rights granted to You by any and all Contributors for the Covered Software under Section 2.1 of this License shall terminate.

5.3. In the event of termination under Sections 5.1 or 5.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or Your distributors under this License prior to termination shall survive termination.

8. Litigation

---

Any litigation relating to this License may be brought only in the courts of a jurisdiction where the defendant maintains its principal place of business and such litigation
shall be governed by laws of that jurisdiction, without reference to its conflict-of-law provisions. Nothing in this Section shall prevent a party's ability to bring cross-claims or counter-claims.

9. Miscellaneous

---

This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not be used to construe this License against a Contributor.

10. Versions of the License

---

10.1. New Versions

Mozilla Foundation is the license steward. Except as provided in Section 10.3, no one other than the license steward has the right to modify or publish new versions of this License. Each version will be given a distinguishing version number.

10.2. Effect of New Versions

You may distribute the Covered Software under the terms of the version of the License under which You originally received the Covered Software, or under the terms of any subsequent version published by the license steward.

10.3. Modified Versions

If you create software not governed by this License, and you want to create a new license for such software, you may create and use a modified version of this License if you rename the license and remove any references to the name of the license steward (except to note that such modified license differs from this License).

10.4. Distributing Source Code Form that is Incompatible With Secondary

Licenses If You choose to distribute Source Code Form that is

Incompatible With Secondary
Licenses under the terms of this version of the License, the notice described in Exhibit
B of this License must be attached.

You may add additional accurate notices of copyright

ownership. Exhibit B - "Incompatible With Secondary

Version 1, February 1989

Copyright (C) 1989 Free Software Foundation, Inc.

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The license agreements of most software companies try to keep users at the mercy of those companies. By contrast, our General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free
for all its users. The General Public License applies to the Free Software Foundation's software and to any other program whose authors commit to using it. You can use it for your programs, too.

When we speak of free software, we are referring to freedom, not price. Specifically, the General Public License is designed to make sure that you have the freedom to give away or sell copies of free software, that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of a such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must tell them their rights.

We protect your rights with two steps: (1) copyright the software, and (2)

offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

The precise terms and conditions for copying, distribution and modification follow.

GNU GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms
of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any work containing the Program or a portion of it, either verbatim or with modifications. Each licensee is addressed as "you".

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately
publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this General Public License and to the absence of any warranty; and give any other recipients of the Program a copy of this General Public License along with the Program. You may charge a fee for the physical act of transferring a copy.

2. You may modify your copy or copies of the Program or any portion of it, and copy and distribute such modifications under the terms of Paragraph 1 above, provided that you also do the following:

a) cause the modified files to carry prominent notices stating that you changed the files and the date of any change; and

b) cause the whole of any work that you distribute or publish, that in whole or in part contains the Program or any part thereof, either with or without modifications, to be licensed at no charge to all third parties under the terms of this General Public License (except that you may choose to grant warranty protection to some or all third parties, at your option).

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the simplest and most usual way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this General Public License.

d) You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

Mere aggregation of another independent work with the Program (or its

derivative) on a volume of a storage or distribution medium does not bring the other work under the scope of these terms.

3. You may copy and distribute the Program (or a portion or derivative of it, under Paragraph 2) in object code or executable form under the terms of Paragraphs 1 and 2 above provided that you also do one of the following:

a) accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Paragraphs 1 and 2 above; or,

b) accompany it with a written offer, valid for at least three years, to give any third party free (except for a nominal charge for the cost of distribution) a complete machine- readable copy of the corresponding source code, to be distributed under the terms of Paragraphs 1 and 2 above; or,

c) accompany it with the information you received as to where the corresponding source code may be obtained. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form alone.)

Source code for a work means the preferred form of the work for making modifications to it. For an executable file, complete source code means all the source code for all modules it contains; but, as a special exception, it need not include source code for modules which are standard libraries that accompany the operating system on which the executable file runs, or for standard header files or definitions files that accompany that operating system.

4. You may not copy, modify, sublicense, distribute or transfer the Program except as expressly provided under this General Public License. Any attempt otherwise to copy, modify, sublicense, distribute or transfer the Program is void, and will automatically terminate your rights to use the Program under this License. However, parties who have received copies, or rights to use copies, from you under this General Public License will not have their licenses terminated so long as such parties remain in full compliance.

5. By copying, distributing or modifying the Program (or any work based on the Program) you indicate your acceptance of this license to do so, and all its terms and conditions.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein.

7. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of the license which applies to it and "any later version", you have the option of following the terms and conditions

either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of the license, you may choose any version ever published by the Free Software Foundation.

8. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

9. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING,
BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

10. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

Appendix: How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to humanity, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of

what it does.> Copyright (C) 19yy <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 1, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston MA 02110-1301 USA

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) 19xx name of author Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type 'show w'. This is free software, and you are welcome to redistribute it under certain conditions; type 'show c' for details.

The hypothetical commands 'show w' and 'show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than 'show w' and 'show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program 'Gnomovision' (a program to direct compilers to make passes at assemblers) written by James Hacker.

Eclipse Public License - v 2.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS

   "Contribution"

   means:

   a. in the case of the initial Contributor, the initial code and documentation distributed under this Agreement, and

   b. in the case of each subsequent Contributor:

      i. changes to the Program, and

      ii. additions to the Program;

      where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution "originates" from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include changes or additions to the Program that are not Modified Works.

      "Contributor" means any person or entity that distributes the

      Program. "Licensed Patents" mean patent claims licensable by a

      Contributor which are
      necessarily infringed by the use or sale of its Contribution alone or when combined
      with the Program.

      "Program" means the Contributions distributed in accordance with this Agreement.

      "Recipient" means anyone who receives the Program under this Agreement or any Secondary License (as applicable), including Contributors.

      "Modified Works" shall mean any work in Source Code or other form that results from an addition to, deletion from, or modification of the contents of the Program, including, for purposes of clarity any new file

in Source Code form that contains any contents of the Program. Modified Works shall not include works that contain only declarations, interfaces, types, classes, structures, or files of the Program solely in each case in order to link to, bind by name, or subclass the Program or Modified Works thereof.

"Distribute" means the acts of a) distributing or b) making available in any manner that enables the transfer of a copy.

"Source Code" means the form of a Program preferred for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Secondary License" means either the GNU General Public License, Version 2.0, or any later versions of that license, including any exceptions or additional permissions as identified by the initial Contributor.

2. GRANT OF RIGHTS

   a. Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, Distribute and sublicense the Contribution of such Contributor, if any, and such Derivative Works.

   b. Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form.
   This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

   c. Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any
   Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability
   to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the
   rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d. Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

e. Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's

receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3).

3. REQUIREMENTS

3.1 If a Contributor Distributes the Program in any form, then:

a. the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with
a statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and

b. the Contributor may Distribute the Program under a license different than this Agreement, provided that such license:

i. effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;

ii. effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;

iii. does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and

iv. requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section 3.

3.2 When the Program is Distributed as Source Code:

a. it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and

b. a copy of this Agreement must be included with each copy of the Program.

3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations of liability ('notices') contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified

Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related
to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

   EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each
   Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

   EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

   If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the

remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified

The EclipseLink Project includes ASM for the purpose of byte code weaving. The AMS library is re-packaged within the source of the project (org.persistence.eclipse.internal.libraries.asm.*) to avoid version collisions with other usage of ASM.

The source code is available within the project's git repository and the org.eclipse.persistence.asm.source_*.jar bundle. The binaries are distributed within the eclipselink.jar and in the org.eclipse.persistence.asm_*.jar bundle.

Eclipse Public License - v 2.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITION

   S

   "Contribution

   " means:

   a. in the case of the initial Contributor, the initial content Distributed under this Agreement, and

      b. in the case of each subsequent Contributor:

         i. changes to the Program, and

         ii. additions to the Program;

      where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution "originates" from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include changes or additions to the Program that are not Modified Works.

      "Contributor" means any person or entity that distributes the

      Program. "Licensed Patents" mean patent claims licensable

      by a Contributor which are
      necessarily infringed by the use or sale of its Contribution alone or when combined
      with the Program.

      "Program" means the Contributions distributed in accordance with this Agreement.

      "Recipient" means anyone who receives the Program under this Agreement or any Secondary License (as applicable), including Contributors.

      "Derivative Works" shall mean any work, whether in Source Code or other form, that is based on (or derived from) the Program and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship.

      "Modified Works" shall mean any work in Source Code or other

form that results from an addition to, deletion from, or modification of the contents of the Program, including, for purposes of clarity any new file in Source Code form that contains any contents of the Program. Modified Works shall not include works that contain only declarations, interfaces, types, classes, structures, or files of the Program solely in each case in order to link to, bind by name, or subclass the Program or Modified Works thereof.

"Distribute" means the acts of a) distributing or b) making available in any manner that enables the transfer of a copy.

"Source Code" means the form of a Program preferred for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Secondary License" means either the GNU General Public License, Version 2.0, or any later versions of that license, including any exceptions or additional permissions as identified by the initial Contributor.

2. GRANT OF RIGHTS

   a. Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, Distribute and sublicense the Contribution of such Contributor, if any, and such Derivative Works.

   b. Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c. Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license

before distributing the Program.

d. Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

e. Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3).

3. REQUIREMENTS

3.1 If a Contributor Distributes the Program in any form, then:

a. the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with
a statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and

b. the Contributor may Distribute the Program under a license different than this Agreement, provided that such license:

   i. effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;

   ii. effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;

   iii. does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and

   iv. requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section 3.

3.2 When the Program is Distributed as Source Code:

a. it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and

b. a copy of this Agreement must be included with each copy of the Program.

3.3 Contributors may not remove or alter any copyright, patent,

trademark, attribution notices, disclaimers of warranty, or limitations of liability ("notices") contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a
manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the
extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering.
The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify,
an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related
to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each
Recipient is solely responsible for determining the

appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

   EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

   If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

   If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

   All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

   Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified
   in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may

assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be Distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to Distribute the Program (including its Contributions) under the new version.

Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved. Nothing in
this Agreement is intended to be enforceable by any entity that is not a Contributor or Recipient. No third-party beneficiary rights are created under this Agreement.

Exhibit A - Form of Secondary Licenses Notice

"This Source Code may also be made available under the following Secondary Licenses when the conditions for such availability set forth in the Eclipse Public License, v. 2.0 are satisfied: {name license(s), version(s), and exceptions or additional permissions here}."

Simply including a copy of this Agreement, including this Exhibit A is not sufficient to license the Source Code under Secondary Licenses.

If it is not possible or desirable to put the notice in a particular file, then You may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely to look for such a notice.

You may add additional accurate notices of copyright ownership.
