Preface

1.1 Purpose

This guide is designed to help the user to quickly get acquainted with the Customer Standard Instructions maintenance process.

1.2 Audience

This guide is intended for the central administrator of the Bank who controls the system and application parameters and ensures smooth functionality and flexibility of the banking application.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

1.4 Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance.

1.5 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.6 Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.7 Related Resources

For more information on any related features, refer to the following documents

- *Oracle Banking Security Management System User Guide*
- *Routing Hub Configuration User Guide*
- *Oracle Banking Getting Started User Guide*

1.8 Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1.9 Acronyms and Abbreviations

The list of the acronyms and abbreviations used in this guide are as follows:

Table 1-1 Acronyms and Abbreviations

Abbreviation	Description
System	Core Maintenance Module
NLP	Natural Language Processing
REST	Representational State Transfer

1.10 Basic Actions

Table 1-2 Basic Actions

Action	Description
Approve	Used to approve the initiated report. This button is displayed, once the user click Authorize .
Audit	Used to view the maker details, checker details, and report status.
Authorize	Used to authorize the report created. A maker of the screen is not allowed to authorize the report. Only a checker can authorize a report, created by a maker.
Close	Used to close a record. This action is available only when a record is created.
Confirm	Used to confirm the performed action.

Table 1-2 (Cont.) Basic Actions

Action	Description
Cancel	Used to cancel the performed action.
Compare	Used to view the comparison through the field values of old record and the current record. This button is displayed in the widget, once the user click Authorize .
Collapse All	Used to hide the details in the sections. This button is displayed, once the user click Compare .
Expand All	Used to expand and view all the details in the sections. This button is displayed, once the user click Compare .
New	Used to add a new record. When the user click New , the system displays a new record enabling to specify the required data.
OK	Used to confirm the details in the screen.
Save	Used to save the details entered or selected in the screen.
View	Used to view the report details in a particular modification stage. This button is displayed in the widget, once the user click Authorize .
View Difference only	Used to view a comparison through the field element values of old record and the current record, which has undergone changes. This button is displayed, once the user click Compare .
Unlock	Used to update the details of an existing record. System displays an existing record in editable mode.

1.11 Symbols and Icons

Introduction

2.1 About Collateral Evaluation

A brief introduction to the Collateral Evaluation process in OBCFPM.

Collateral Evaluation is a process in which the customer approaches the bank and requests the bank to evaluate the collateral. The bank performs an in-principle collateral evaluation and informs the customer about the collateral value. The various activities performed for Collateral Evaluation are:

- Input Application Details
- Upload related Mandatory and Non Mandatory documents
- Verify Documents and Capture Details
- Perform Internal Legal Evaluation
- Perform Risk Evaluation
- Perform Internal Valuation of Collateral
- Generate In-principal Collateral Agreement
- Receive the customer acceptance of Collateral Agreement
- On customer acceptance, initiate a detailed Collateral Perfection

The flow chart illustrating various stages in the Collateral Evaluation process is shown below for reference.

Figure 2-1 Process Flow Diagram

The Collateral Evaluation process has the following stages handled by users authorized to perform the task under those stages.

- Evaluation Enrichment
- Legal Opinion
- Risk Evaluation
- Valuation
- Review and Recommendation
- Approval
- Customer Notification
- Customer Agreement

3

Enrichment

3.1 Collateral Initiation

Detailed information about the Collateral Initiation data segment in the Evaluation Enrichment stage.

In this data segment, the Collateral and Application details captured as part of Quick Initiation are defaulted. You can modify these details as well as add additional collateral details.

Figure 3-1 Enrichment - Collateral initiation

1. For information on fields in the **Enrichment - Collateral Initiation** screen, refer the below table.

Table 3-1 Enrichment - Collateral Initiation - Field Description

Field	Description
Application Branch	The system defaults the current branch detail in this field. You can modify the Application Branch , if required.
Collateral Type	Collateral Type selected in the Quick Initiation screen is defaulted here. You cannot modify this.
Collateral Category	Collateral Category selected in the Quick Initiation screen is defaulted. You cannot modify the same.
Available From Date	Specify the date from which the collateral is available.

Table 3-1 (Cont.) Enrichment - Collateral Initiation - Field Description

Field	Description
Collateral Description	Specify a brief description about the Collateral.
Owner Estimated Value	Specify the Owner Estimated Value of the collateral.
Purpose of Collateral	Purpose of collateral selected in the Quick Initiation screen is defaulted. You can modify this, if required.
Exposure Type	Click and select the Exposure Type for tracking purpose.
Seniority of Charge	Specify the bank's Seniority of Charge on the collateral. The options available in the drop down list are: • First • Second • Third
Ownership Type	Specify the customer's collateral Ownership Type . The options available in the drop down list are: Single and Joint .
Revaluation Type	Select the Collateral Revaluation Type from the drop down list. The options available are: Automatic and Manual .

2. After capturing and/or modifying the collateral details, click **Next**.

The **Enrichment - Collateral Ownership** screen is displayed.

3.2 Collateral Ownership

Detailed information about the Collateral Ownership data segment in the Evaluation Enrichment stage.

By default, the system defaults the customer details captured as part of application creation as primary customer with ownership percentage as zero. You have to modify the ownership percentage of primary customer. In case the **Ownership Type** is selected as **Joint**, you have to add all the collateral owners detail and ownership percentage by clicking the add icon.

1. Specify all the details in the **Enrichment - Ownership Details** window.
For field level information, refer the below table.

Table 3-2 Enrichment - Ownership Details - Field Description

Field	Description
Customer Id	Select the Customer id from the list of values.
Customer Name	The Customer Name of the selected customer is displayed.
Primary Customer	Enable this flag, if the selected customer is the Primary Customer .
 Note: There can be only one Primary owner for the collateral.	
Ownership Percentage	Specify the customer's Ownership Percentage .
 Note: Percentage should not be greater than 100 and less than or equal to zero. If Ownership Type is joint, then the total ownership percentage should be less than 100.	
Remarks	Capture the Remarks for the owner.

- Click **Save**.
Ownership details are added and displayed in the **Enrichment - Collateral Ownership** screen.
- To **View**, **Edit**, or **Delete** the added ownership details, click the action icon in the corresponding record and select the required option.
- After capturing the ownership details, click **Next**.
The **Enrichment - Seniority of Charge** screen is displayed.

3.3 Seniority of Charge

Information about the Seniority of Charge data segment in Evaluation Enrichment stage.

This data segment allows you to add details about the bank's seniority of charge on the collateral. If your bank's Seniority of Charge is Second or Third, then the existing Charge details of the collateral must be captured.

3.4 Collateral Types

3.4.1 Property

Information about the Property data segment in Evaluation Enrichment stage.

The Property data segment appears in case **Property** is selected as the **Collateral Type** in **Quick Initiation** screen.

Figure 3-7 Enrichment - Property

The screenshot shows the 'Collateral Evaluation - Evaluation Enrichment' interface. On the left, a sidebar lists navigation options: Collateral Initiation, Collateral Ownership, Seniority Of Charge, **Property** (selected), and Comments. The main area is titled 'Property' and shows 'Screen (4 / 5)'. Below the title, there's a 'Collateral Details' section with a table:

213010047431 Collateral ID	Property Collateral Type	INR Collateral Currency	₹0.00 Total Value
-------------------------------	-----------------------------	----------------------------	----------------------

Below the table, there's a green '+' icon and the text 'No items to display.' followed by a pagination control showing 'Page 1 (0 of 0 items)' with navigation arrows. At the bottom, there are buttons: 'Audit', 'Hold', 'Back', 'Next', 'Save & Close', and 'Cancel'.

To add the property details:

1. Click the add icon.

The **Configure - Property** screen is displayed.

Figure 3-8 Configure - Property

The screenshot shows the 'Configure - Property' screen. The sidebar on the left has 'Property' selected. The main content area is titled 'Property' and contains various input fields and sections. The 'Property' section includes fields for Property ID (5667), Description, Land registry, Flood Zone (with a toggle), Seismic Zone Type (Low Damage Risk), Restricted Property (with a toggle), Property Status (Self Owned), Registration Date (Feb 1, 2018), Property Type (RESIDENTIAL BUILDING), Property Purpose (Personal), Purchase Date (Feb 4, 2018), Flood Zone Type (Zone3b), Income Producing (with a toggle), Under Construction (with a toggle), Wall Material (Concrete), Property Value (\$5,000,000.00), Property Category (Individual), Registered Owner (John), Zone Classification (NORMAL), Seismic Zone (with a toggle), Environment Assessment Required (with a toggle), Nature Of Property (Fee Simple), Roof Type (Built-up Roof), and Adverse Comments. Below this are sections for Property Location, Currency Details, Property Dimension, Property Valuation Details, Property Contact Details, Residential Status, and External Pricing Details. At the bottom right are 'Back' and 'Next' buttons.

2. Provide all the details about the vehicle in the **Configure - Vehicle** screen.
For field level information, refer the following tables.

Table 3-5 Configure - Property - Field Description

Field	Description
Property ID	Specify the Property ID .
Property Type	Select the Property Type from the drop down list. The options available include but are not limited to: - Residential Building - Residential Plot
Property Category	Select the Property Category from the drop down list. The options available include but are not limited to: - Individual - Corporate
Description	Provide a brief description about the property.

To add the vehicle details:

1. Click the add icon.

The **Configure - Vehicle** screen is displayed.

Figure 3-17 Configure - Vehicle

The screenshot shows the 'Configure - Vehicle' interface. On the left is a sidebar with 'Vehicle' selected. The main panel is titled 'Vehicle' and contains several sections. The 'Basic Details' section is expanded, showing fields for Vehicle Type (Four Wheeler), Year of Manufacture (2020), Vehicle Condition (Used), Chassis Number, Owner (John), Distance Travelled, Registration Number (5678899), Registration Date (Feb 1, 2020), Engine Type (Petrol), Leased (No), Registration Authority (RA), Trim, Model (Intra), Make (Tata), Engine Number (788), Vehicle Identification Number (234675UDE67), Kilometer/Miles (Kms), and Accidental History (toggle). Below this are sections for 'Commercial Vehicle Details', 'Invoice Details', and a 'Remarks' text area. At the bottom right are 'Back' and 'Next' buttons.

2. Provide all the details about the vehicle in the **Configure - Vehicle** screen.
For field level information, refer the following tables.

Table 3-12 Configure - Vehicle - Basic Details - Field Description

Field	Description
Vehicle Type	Select the Vehicle Type from the drop down list. The options available are: • Four Wheeler • Heavy Commercial Vehicles • Light Commercial Vehicles • Three Wheeler • Two Wheeler
Registration Number	Specify the vehicle Registration Number .
Model	Specify the Model of the vehicle
Year of Manufacture	Specify the year in which the vehicle is manufactured.
Registration Date	Specify the date on which the vehicle registration is done.
Make	Specify the vehicle maker details.
Vehicle Condition	select the Vehicle Condition from the drop down list. The options available are: • New • Used

Table 3-12 (Cont.) Configure - Vehicle - Basic Details - Field Description

Field	Description
Engine Type	Select the Engine Type from the drop down list. The options available are: • Petrol • Diesel • Electric
Engine Number	Specify the vehicle Engine Number .
Chassis Number	Specify the vehicle Chassis Number .
Leased	Specify if the Vehicle is leased by selecting Yes or No from the drop down list.
Vehicle Identification Number	Specify the Vehicle Identification Number .
Owner	Specify vehicle owner name.
Registration Authority	Specify details of the Registration Authority which registered the vehicle.
Kilometer/Miles	Select the unit for capturing Distance Travelled by the vehicle.
Distance Travelled	Specify the Distance Travelled by the vehicle in selected unit.
Trim	Specify the vehicle Trim details.
Accidental History	Enable this flag, if the vehicle has Accidental History .

Figure 3-18 Configure - Vehicle - Commercial Vehicle Details

Table 3-13 Configure - Vehicle - Commercial Vehicle Details - Field Description

Field	Description
Sub-Type	Specify the Vehicle Sub-Type from the drop down list. The options available are: • Four Wheeler • Heavy Commercial Vehicles • Light Commercial Vehicles • Three Wheeler • Two Wheeler
Purpose of Vehicle	Specify for what purpose the vehicle is used.

Table 3-13 (Cont.) Configure - Vehicle - Commercial Vehicle Details - Field Description

Field	Description
Unit of Capacity	Specify the Unit in which vehicle capacity is measured.
Vehicle Classification	Provide detailed information about the Vehicle Classification .
Body Type	Select the vehicle Body Type from the drop down list. The options available include but not limited to • Box Truck • Semi Trailer Truck • Van • Trailers • Heavy Equipment • Travel Trailer • MiniVan • Pickup Truck/Van • Flatbed Truck • Platform Truck • Crane • Garbage Truck • Refrigerator Truck • Others
Vehicle Capacity	Specify the capacity of vehicle in selected unit.
Number of Wheels	Specify how many wheels are available in the vehicle.

2. Provide all the ship details in the **Configure - Ship** screen.
For field level information, refer the following tables.

Table 3-15 Configure - Ship Details - Field Description

Field	Description
Water Vessel Name	Specify the name of the water vessel.

Table 3-15 (Cont.) Configure - Ship Details - Field Description

Field	Description
Type	Select the Type of water vessel from the drop down list. The options available include but are not limited to: • General Cargo Vessels • Container Ships • Dry Bulk Carriers • Multi Purpose Vessels • Reefer Ships • Ferries • Freight • Ro-Pax • Pure Car Carriers • Combined Carriers • Ocean Liners • Cruise Ships • Fishing Vessel • High Speed Craft • Tankers • Passenger • Roll On Roll Off
Navigational Limits	Select the water vessel's Navigational Limits .
Powered By	Specify the power source of the water vessel by selecting an option from the Powered By drop down list.
Fuel Type	If Fuel is selected as power source, select the Fuel Type from the drop down list.
Water Vessel Intended Use	Select the Water Vessel Intended Use from the drop down list.
Water Vessel Condition	Select the Water Vessel Condition from the drop down list.
Water Vessel Location	Search and select the Water Vessel Location .
Currency	Specify the Currency in which the water vessel is valued.
Basis Vessel Value	Select the Basis Vessel Value as Invoice or Market Value.
Invoice Value	Specify the Invoice Value if Invoice Value is selected as Basis Vessel Value . Otherwise, specify the Market Value .
Amount in Collateral Currency	Water vessel value is converted to collateral currency and displayed in this field, if the vessel value currency is different from the collateral currency.
Revaluation Base Value	Invoice or market value is displayed as the base value for revaluation.
Port of Registry	Specify the Port of Registry of the water vessel.
Registration Number	Specify the water vessel Registration Number .
Number of Hull Units	Specify the Number of Hull Units available in the water vessel.
Number of Vessel Decks	Specify the number of decks available in the water vessel.

Table 3-15 (Cont.) Configure - Ship Details - Field Description

Field	Description
Manufactured Date	Specify the date on which the water vessel is manufactured.
Manufacturer Name	Specify the water vessel Manufacturer Name .
State or Territory Vessel Operates In	Specify the state or territory in which the water vessel is operating.
Motor Number	Specify the Motor Number of the water vessel.
TEU	Specify the twenty-foot equivalent unit (TEU) of the water vessel capacity.
Water Vessel License Number	Specify the Water Vessel License Number .
License Details	Capture all the license details in this field.
Water Vessel Description	Provide a brief description about the water vessel.

Figure 3-24 Configure - Ship Dimensions

Table 3-16 Configure - Ship Dimensions - Field Description

Field	Description
Dimension Unit	Select the unit for capturing water vessel dimension from Dimension Unit drop down list. The options available are: • Feet • Meters
Water Vessel Length	Specify the Water Vessel Length in selected unit.
Water Vessel Beam	Specify the Water Vessel Beam (width) in selected unit.
Water Vessel Height	Specify the Water Vessel Height in selected unit.
Displacement Unit	Select the unit for water vessel weight from Displacement Unit drop down list. The options available are: • Tons • Metric Tons
Water Vessel Displacement	Specify the displacement of water vessel in selected unit.

Figure 3-25 Configure - Ship Tonnage**Table 3-17 Configure - Ship Tonnage - Field Description**

Field	Description
Water Vessel Size	Select the Water Vessel Size from the drop down list. The options available are: • Aframax • Capesize • Chinamax • Handymax • Handysize • Malaccamax • Panamax • Q-Max • Seawaymax • Suezmax
Deadweight Tonnage	Specify the Deadweight Tonnage of the water vessel.
Gross Register Tonnage	Specify the Gross Register Tonnage of the water vessel.
Water Vessel Tonnage	Specify the Water Vessel Tonnage .
Net Registered Tonnage	Specify the Net Registered Tonnage of the water vessel.

Valuation

4.1 Valuation

Detailed information about the Valuation stage in Collateral Evaluation process.

In general, banks review the following details to value the collateral and determine the final valuation amount.

- Collateral and its documents
- Market value of the collateral
- Trends of margin for similar collateral
- Trends of the valuation of similar collateral

In this stage, the Credit Officer or the user authorized to edit the Valuation task must capture the internal valuation details collected as part of internal valuation.

The following data segments are available in the Valuation stage:

- Collateral Summary
- Internal Valuation
- Comments
- [Collateral Summary](#)
Information about the Collateral Summary data segment in the Valuation stage.
- [Internal Valuation](#)
Procedure to add internal valuation details.
- [Comments](#)
Information about the Comments data segment in the Valuation stage.

4.1.1 Collateral Summary

Information about the Collateral Summary data segment in the Valuation stage.

In the Summary data segment, the following collateral details captured in the previous stages are displayed.

- Basic Information
- Collateral Type (Property) Details
- Linked Facilities Details
- Ownership
- Seniority of Details
- Covenants
- Insurance
- Configured Stage Status

**Note:**

The Configured Stage Status is updated based on the status of parallel tasks generated in the system.

1. To launch the **Valuation - Collateral Summary** screen, navigate to Tasks > Free Tasks from the left menu.

The **Free Tasks** screen is displayed.

- Valuer Remarks**: A text area with the placeholder 'Enter Valuer Remarks'

At the bottom right of the window are two buttons: 'Back' and 'Next'.

3. Specify the internal valuation details.

For field level information, refer the below table.

Table 4-1 Valuation - Configure - Internal Valuation - Field Description

Field	Description
Valuation Date	Specify the date on which internal valuation is performed.
Valuation Team	Specify the name of team which performed internal valuation for the collateral.
Valuation Amount	Specify the collateral Valuation Amount .
Category Haircut	Specify the market haircut for the selected collateral category.
Bank Haircut	Specify the Bank Haircut for the selected collateral category.
Market Value	The collateral Valuation Amount is reduced to the extent of mentioned Category Haircut and displayed.
Bank Value	The collateral Valuation Amount is reduced to the extent of mentioned Bank Haircut and displayed.
Valuation Expiry Date	Specify the date till which the internal valuation is valid.
Valuer Remarks	Specify the Valuer Remarks for the collateral.

4. Click **Next**.

The **Valuation - Configure - Questionnaire Evaluation** screen is displayed.

Figure 4-6 Valuation - Configure - Questionnaire Evaluation **Note:**

In the above screen, the questionnaire linked to the Valuation stage in Business Process configuration are displayed. You can manage the questionnaire process linkage in Maintenance module.

For information on Questionnaire Evaluation, refer **Legal Opinion** chapter.

5. After performing all the evaluation, click **Submit**.

4.1.3 Comments

Information about the Comments data segment in the Valuation stage.

The Comments data segment allows you to post overall comments for the Valuation stage. Posting comments helps the user of next stage to better understand the application.

Upon clicking **Next** in the **Valuation - Internal Valuation** screen, the Comments data segment is displayed.

Figure 4-7 Valuation - Comments

The screenshot shows a web application titled "Collateral Evaluation - Valuation". On the left is a sidebar with a tree view containing "Collateral Summary", "Internal Valuation", and "Comments" (which is selected and highlighted in blue). The main area is titled "Comments" and includes a rich text editor with a toolbar (containing icons for undo, redo, bold, italic, underline, text color, font size, bulleted list, numbered list, link, unlink, and H1/H2 headers) and a text input area with the placeholder "Enter text here...". Below the editor is a "Post" button. Underneath the post area is a grey box stating "No items to display." At the bottom of the interface is a row of buttons: "Audit", "Hold", "Back", "Next", "Save & Close", "Submit", and "Cancel".

1. Type your comments for the Valuation stage in the **Comments** text box.
2. Click **Post**.
Comments are posted and displayed below the **Comments** text box.
3. Click **Submit**.
The Checklist window is displayed.

Figure 4-8 Checklist

The screenshot shows a "Checklist" window with a close button (X) in the top right corner. Inside the window, there is a light blue bar containing a checked checkbox, the text "Doc Upload", the label "Remarks:", and a speech bubble icon. Below this bar is a pagination control showing "Page 1 of 1 (1 of 1 items)" with navigation arrows and a box containing the number "1". At the bottom of the window is a green button labeled "Save Checklist".

* Outcome PROCEED ▼

Submit

4. Manually verify all the checklist and enable the corresponding check box.
5. Select the required **Outcome** and click **Submit**.

The options available in the drop down list are:

- PROCEED
- ADDITIONAL INFO

If **PROCEED** is selected as the **Outcome**, the application is moved to the next stage on clicking **Submit**.

If **ADDITIONAL INFO** is selected as the **Outcome**, the application is moved to the previous stage after completion of all the parallel stages.

5

Risk Evaluation

5.1 Risk Evaluation

Detailed information about the Risk Evaluation stage in the Collateral Evaluation process.

Risk Evaluation is performed by the bank for certain collateral types to check if the collateral can secure bank's exposure and identify the risk level. In this stage, the Risk Officer or the user authorized to edit the Risk Evaluation task must review the collateral and its documents, and capture the risk evaluation details.

The following data segments are available in the Risk Evaluation stage.

- Collateral Summary
- Risk Evaluation
- Comments
- [Summary](#)
Information about the Summary data segment in the Risk Evaluation stage.
- [Risk Evaluation](#)
Procedure to add risk evaluation details for the collateral.
- [Comments](#)
Information about the Comments data segment in the Risk Evaluation stage.

5.1.1 Summary

Information about the Summary data segment in the Risk Evaluation stage.

In the Summary data segment, the following collateral details captured in the previous stages are displayed.

- Basic Information
- Collateral Type (Property) Details
- Linked Facilities Details
- Ownership
- Seniority of Details
- Covenants
- Insurance
- Configured Stage Status

**Note:**

The Configured Stage Status is updated based on the status of parallel tasks generated in the system.

1. To launch the **Risk Evaluation - Summary** screen, navigate to Tasks > Free Tasks from the left menu.

The **Free Tasks** screen is displayed.

Legal Opinion

6.1 Legal Opinion

Detailed information about the Legal Opinion stage in the Collateral Evaluation Process.

In this stage, the Legal Officer in bank must review the collateral and its documents to check if the collateral can secure bank's exposure. In general, legal department in the bank considers the following possible aspects

- How helpful the local jurisdiction is in facilitating quick disposal and recovery of money (legal processes related to collateral sale)
- Whether the collateral submission has been duly authorized by customer's board (board resolution to authorize company management to provide collateral)
- In case of existing first charge, will there be any issue in claiming

The following data segments are available for the legal user in this stage to review the collateral and provide Legal Opinion.

- Collateral Summary
- Legal Opinion
- Comments
- [Collateral Summary](#)
Information about the Collateral Summary data segment in the Legal Opinion stage.
- [Legal Opinion](#)
