INTRODUCTION

This section discusses:

- Purpose of this document.
- Related resources.

Purpose of This Document

This document provides a list of document updates since the generally available release of PeopleTools 8.62.

Related Resources

This section discusses resources that provide in-depth technical and functional information for new and enhanced functionality in the PeopleSoft PeopleTools 8.60 release. In many cases, the content in this document may have originated in the referenced documents.

PeopleSoft Planned Features and Enhancements

The PeopleSoft Planned Features and Enhancements document provides more functional details than the statement of direction, identifies major enhancements, and articulates the expected business benefit. This document is designed to help you determine whether new product features might warrant upgrading from an old release or embarking on a new implementation. With this information, managers will be able to initiate preliminary budget planning and begin putting together a project team to further evaluate specific products.

Cumulative Feature Overview Tool

The Cumulative Feature Overview Tool helps you plan your upgrades by providing concise descriptions of new and enhanced solutions and functionality that have become available between your starting and target releases. You simply identify the products that you own, your existing release, and your target implementation release. With a single click, the tool quickly produces a customized set of high-level, concise descriptions of features that have been developed between your starting and target releases. In an easy-to-use, web-based format, you can easily manipulate and sort the results any way you wish, download the results to Microsoft Excel, or copy the content into other implementation planning documents.

Video Feature Overviews

PeopleSoft creates Video Feature Overview webcasts developed by PeopleSoft Information Development with input from the PeopleSoft Development and Strategy organizations. These videos provide overviews of PeopleSoft features and functionality. This document also contains direct links to specific Video Feature Overviews in those sections where the features are being discussed.

You can view all of the Video Feature Overviews on our [YouTube Channel](#).

PeopleSoft Information Portal

The [PeopleSoft Information Portal](#) provides you with a single entry point to locate the documentation, training, and other useful information you need to help with your implementation process and improve your daily experience with our products. The portal includes release content, product data sheets, and links to online help and support.

PEOPLETOOLS DOCUMENTATION UPDATES

This section provides a table listing the documentation updates since the generally available release of PeopleTools 8.62.

PEOPLEBOOK	PATH	DESCRIPTION OF CHANGE
General Information		
Applications User's Guide	Working with Grids and Scroll Areas, Navigating Through Data, Adding Rows	In grids and scroll areas, the user-selected values displayed in the Most Relevant section are not specific to a row. When a user selects a value in any of the rows, this value is displayed in the Most Relevant section for the other rows.
Administrative Tools		
System and Server Administration	Using the PSADMIN Utility, Using the PSADMIN Command-Line Interface, Using the Miscellaneous Commands	Added a note stating that the psadmin -refresh command does not update the integration.properties file on the web server.
Development Tools		
Application Designer Developer's Guide	Creating Page Definitions, Modifying the Rich Text Editor Interface, Creating Custom Configurations	Added the following note: You may need to comment, remove, or replace the hard-coded configuration ID in PeopleCode to use the correct configuration file. The configuration settings file selected in the Options tab in Application Designer can be overridden by the value set in PeopleCode using the RTEConfFileNameForV5 function call.
Fluid User Interface Developer's Guide	Working with the Push Notifications Framework, Administering Notifications, Managing Notification Configurations	When you specify a notification as mandatory, set at least one notification type as enabled by default (preferably In-App) to ensure that a user receives notifications.
PeopleCode API Reference	Crypt Class, Crypt Class Methods, Open	The Open method of the Crypt Class has a second parameter where you can specify whether the encryption profile is run in test mode or non-test mode.
PeopleCode Developer's Guide	PeopleCode and PeopleSoft Pure Internet Architecture, Calling DLL Functions on the Application Server	Removed references to HP-UX and z/linux because these are not supported in PeopleTools 8.62.
PeopleCode Language Reference	PeopleCode Built-in Functions and Language Constructs, SetSearchDialogBehavior	In the fluid implementation of configurable search, the SetSearchDialogBehavior function cannot be used to bypass or skip the search page.
Portal Technology	Developing Advanced Sectionalized Homepages and	If the user has access to only a single landing page, the homepage selector, which was displayed as a menu even for a single homepage in PeopleTools 8.62.01 and previous versions, is converted to the simple text form of the landing

PEOPLEBOOK	PATH	DESCRIPTION OF CHANGE
	Dashboards, Designing PeopleSoft Landing Page	page title. The homepage selector behavior when multiple homepages are involved does not change.
	Developing Advanced Sectionalized Homepages and Dashboards, Designing Sections and Tiles, Automatic Section Adjustments on Small Form Factor Devices	From PeopleTools 8.62.02, a section automatically adjusts to narrow browser windows to handle small form factor sizes without having to adapt based on being identified as a small form factor at login. The breakpoint for section adjustment is set to occur below 453 pixels.
	Developing Advanced Sectionalized Homepages and Dashboards, Applying Styles from Delivered Style Sheets	Added styles introduced in PeopleTools 8.62.02 patch.
	Developing Advanced Sectionalized Homepages and Dashboards, Styling Homepages and Dashboards Using CSS Variables	Added CSS variables introduced in PeopleTools 8.62.02 patch.
Search Technology	Administering PeopleSoft Search Framework, Working with Search Indexes, Scheduling Automatic Incremental Indexing	<p>The topic "Automating Incremental Indexing" has been updated to reflect the new CREF and page name.</p> <p>Additionally, a new section, "Scheduling Automatic Incremental Indexing," is introduced that describes the steps that need to be followed to automate incremental indexing.</p>
