Preface

1.1 Before You Begin

Kindly refer to our getting started user guide for common elements, including Symbols and Icons, Conventions Definitions, and so forth.

1.2 Pre-requisites

Specify the **User ID** and **Password**, and login to **Home** screen.

1.3 Purpose

This guide is designed to help the user to quickly get acquainted with the Customer Standard Instructions maintenance process.

1.4 Acronyms and Abbreviations

The list of the acronyms and abbreviations used in this guide are as follows:

Table 1-1 Acronyms and Abbreviations

Abbreviation	Description
System	Core Maintenance Module
NLP	Natural Language Processing
REST	Representational State Transfer

1.5 Audience

This guide is intended for the central administrator of the Bank who controls the system and application parameters and ensures smooth functionality and flexibility of the banking application.

1.6 Basic Actions

Table 1-2 Basic Actions

Action	Description
Approve	Used to approve the initiated report. This button is displayed, once the user click Authorize .
Audit	Used to view the maker details, checker details, and report status.

Table 1-2 (Cont.) Basic Actions

Action	Description
Authorize	Used to authorize the report created. A maker of the screen is not allowed to authorize the report. Only a checker can authorize a report, created by a maker.
Close	Used to close a record. This action is available only when a record is created.
Confirm	Used to confirm the performed action.
Cancel	Used to cancel the performed action.
Compare	Used to view the comparison through the field values of old record and the current record. This button is displayed in the widget, once the user click Authorize .
Collapse All	Used to hide the details in the sections. This button is displayed, once the user click Compare .
Expand All	Used to expand and view all the details in the sections. This button is displayed, once the user click Compare .
New	Used to add a new record. When the user click New , the system displays a new record enabling to specify the required data.
OK	Used to confirm the details in the screen.
Save	Used to save the details entered or selected in the screen.
View	Used to view the report details in a particular modification stage. This button is displayed in the widget, once the user click Authorize .
View Difference only	Used to view a comparison through the field element values of old record and the current record, which has undergone changes. This button is displayed, once the user click Compare .
Unlock	Used to update the details of an existing record. System displays an existing record in editable mode.

1.7 Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.8 Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance.

1.9 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.10 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

1.11 Related Resources

For more information on any related features, refer to the following documents

- *Oracle Banking Security Management System User Guide*
- *Routing Hub Configuration User Guide*
- *Oracle Banking Getting Started User Guide*

1.12 Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1.14 Post-requisites

After finishing all the requirements, please log out from the Home screen.

1.15 Terms and Definitions

Table 1-6 Terms and Definitions

Terms	Definitions
Inventory TurnOver ratio	This calculates the frequency of sales and replacements of inventory over time.
Total Debt To Assets	Displays the percentage of assets financed by debt.
Receivables TurnOver days	Represents the average number of days it takes to collect receivables.
Payables Turnover in Days	This represents the average number of days the company takes to pay its suppliers.
Capitalization Ratio	This measures the proportion of total capital raised through long-term debt.
Long Term Debt to Working Capital	This shows the relationship between long-term debt and working capital, indicating how much long-term debt relies on working capital for servicing and repayment.
Return On Assets %	This measures efficiency of the company uses its assets to generate profit. Higher percentages show better asset utilization.
Current Ratio	Assesses ability to pay short-term obligations with current assets.
Debt to Equity Ratio	This shows the balance between debt and equity used to finance the company's assets.
Gross Profit Margin	This ratio measures the proportion of money left over from revenues after accounting for the cost of goods sold (COGS). It indicates the efficiency of production and pricing.
Interest Coverage Ratio	This ratio measures how easily a company can pay interest expenses on outstanding debt, calculated as earnings before interest and taxes.
Return On Sales %	This ratio measures the efficiency of a company in generating profit from its revenue, computed as net income divided by sales.
Working Capital Ratio	This measures the company's ability to meet its short-term obligations, calculated as current assets divided by current liabilities.
Quick Ratio	This measures the ability to cover short-term obligations with the most liquid assets.

2

Overview

- [About Credit Proposal](#)
- [Credit Proposal Stages](#)

2.1 About Credit Proposal

OBCFPM Credit proposal is a process to evaluate the party's on the basis of their financial and non - financial parameters and determine their credit worthiness.

2.2 Credit Proposal Stages

In **OBCFPM**, credit proposal application is passed through different stages from proposal initiation to hand over of liability, facility, collateral and covenants to Back office. Each of these stages can either be performed by the same or a different banking personnel based on the bank's structure.

Note

The Credit Proposal Origination process explained in this user manual is a model flow. Banks can configure the data segments to appear in various stages of the process flow based on their requirement as part of implementation.

3

Proposal Initiation

In this stage, the RM captures basic details about the party and initiates the credit application process after discussing the credit proposal with a new party.

The RM can perform the following activities in this stage.

Activities that can be performed by user
• Capture party's basic information – Basic demographic details – Sector to Sub Industry details – Rating details • Capture other Bank details – Facilities availed • Capture connected party details • Capture write - up about the party • Capture funding sought • Capture collateral offered by the party • Capture comments • Upload party documents

Steps to initiate credit proposal

1. Login to **OBCFPM**. Enter your User Name, Password and click Sign In.

Figure 3-1 Login Screen

2. Navigate to **Credit Facilities > Corporate > CP Initiation > Initiate Credit Proposal**.

Figure 3-2 OBCFPM Menu

3. The **Initiate Credit Proposal** window is displayed.

3. Organization Details

For information on fields in the **Organization Details** screen, refer the below table.

Table 3-1 Organization Details

Fields/ Icons	Description
Organization Name	Enter Organization Name for the party.
Short Name	Enter Short Name for the party.
Organization Type	Select Organization Type from the drop-down list. The options available are: • Conglomerate • Single
Entity Type	Select Entity Type from the drop-down list. The options available are : • Proprietorship • Pvt Ltd • Public Ltd • Govt Owned • Trusts • Clubs • Society • Associations • Limited Liability Partnership • Foreign Bodies • NGO • Others

Table 3-2 Organization Details

Fields/ Icons	Description
Country of Incorporation	Click Search icon and select Country of Incorporation .
Incorporation Date	Click Calendar icon and select Incorporation Date .
Country of Risk	Click Search icon and select Country of Risk , i.e country on whose books the risk exposure will be recorded for the party.

Table 3-2 (Cont.) Organization Details

Fields/ Icons	Description
Customer Category	Click Search icon and select Customer Category , for example Corporate, Labour, Individual, Banks etc.
Demography Type	Select Demography Type from the drop-down list. The options available are : • Domestic • Global Note: If you select Global option, Geographical Spread field appears.
Geographical Spread	Search and select all the countries in which the party is operating Geographical Spread .
Classification Type	Select Classification Type from the drop-down list. The default options available are: • Micro • Small • Medium
Branch Code	Branch Code is displayed by default.
Upload Logo	Click Upload Logo , to upload the company logo file.
Customer Access Group	Click Search icon and select Customer Access Group .
Special Customer	Select Special Customer , if the party is eligible for special customer service.
RM Id	Enter RM Id of the Relationship Manager initiating the Proposal.

Industries

4. To capture the line of business of the party, click +.
- The **Add Industry** window is displayed.

Figure 3-7 Add Industry

The screenshot shows the 'Add Industry' window with a close button (X) in the top right corner. The window contains a table with four columns: Sectors, Industry Group, Industries, and Sub-Industries. The 'Sectors' column lists various business categories. The 'Industry Group' column shows a tree structure where 'Energy' is expanded, revealing 'Energy Equipment' and 'Oil, Gas Fuels'. The 'Industries' and 'Sub-Industries' columns show further details for the selected items. A 'Cancel' button is located at the bottom right.

Sectors	Industry Group	Industries	Sub-Industries
Energy	> Energy	> Energy Equipment	> Oil Drilling
Utilities	>	Oil, Gas Fuels	> Oil Equipment
Real Estate	>		
Materials	>		
Industrials	>		
Consumer Discretionary	>		
Consumer Staples	>		
Health Care	>		
Financials	>		

For information on fields in the **Add Industry** screen, refer the table below.

Table 3-3 Add Industry

Fields/ Icons	Description
Sector	Select Sector of the party.
Industry Group	Available industry group under Sector will appear. Select Industry Group appropriate for the party.
Industry	Available industries under industry group appears. Select Industry appropriate for the party.
Sub Industry	Available sub-industries under industries appears. Select Sub Industry appropriate for the party.
Delete	Click Delete , if you need to delete the industry details. Note: If the party is into different sectors, the user can capture all the sector details while initiating credit proposal. To add another sector information, click +.

Credit Rating

5. To capture rating information of the party, click +.

The **Add Rating** window is displayed.

Figure 3-8 Add Rating

Add Rating

Rating Date: Jul 4, 2018

Outlook: Positive

Year Of Rating: 2018

Rated By	Risk Rating
Moody's	BBB+
Fitch	A-

Moody's	AA-
S and P	AA
Fitch	AA+
	CCC+
	B-
	B

Cancel

6. Select the following details:
- For information on fields in the **Customer Rating** screen, refer the table below.

Table 3-4 Customer Rating

Fields/ Icons	Description
Rating Date	Select Rating Date . The date when the rating was done by the rating agency.
Outlook	Select Outlook . The outlook given by the rating agency.
Risk Ratings	Select Risk Ratings . The risk rating given by the rating agency.

Table 3-4 (Cont.) Customer Rating

Fields/ Icons	Description
Year Of Rating	Year of Rating is automatically populated based on the selected Rating Date .
Rated By	Select Rated By . The rating agency name.
Delete	Click Delete , to delete the added rating. Note: If the party is rated by different rating firms, all the rating information must be captured while initiating credit proposal. To add another rating information, click + Add ratings again.

Social Media Profiles

For information on fields in the **Social Media Profiles** screen, refer the table below.

Table 3-5 Social Media Profiles

Fields/ Icons	Description
Social Media Profiles	Enter the following addresses in respective fields: • Official Website Address • Facebook Address • Twitter Address

Submit, Submit and Enrich, and Cancel

For quick initiation, the RM clicks **Submit** and submits the application. For more information about **Submit**, **Submit and Enrich** and **Cancel** fields refer the table below.

Table 3-6 Submit, Submit and Enrich, and Cancel

Fields/ Icons	Description
Submit	If you click Submit , a task will be created in the next stage and stored in Free Task .
Submit and Enrich	If you click Submit and Enrich , you will be directly taken to the next stage of the application.
Cancel	If you click Cancel , the application will not be initiated and the proposal is cancelled.

Note

During child party creation, **Create** button appears instead of **Submit**, **Submit and Enrich**, and **Cancel** buttons. Click **Create** to add the child party for the existing party.

7. Dedupe Check Screen

If the party is available, then the system stops here and asks for further action.

Figure 3-9 Dedupe Check

5. Enter or select the filter parameters.

For information on fields in the **Filter** screen, refer the table below.

Table 3-9 Filter

Field/Icon	Description
Apply	Click Apply . Other bank facilities that matches the filter parameters are displayed.
Reset	Click Reset , to enter new filter parameters.
Facility Category	Search and select Facility Category . It indicates the category of the facility. E.g. Overdraft, Term Loan, etc. Note: Minimum 3 characters need to be entered in the Type to filter text box to filter the facilities.
From Amount	Enter From Amount for the sanctioned amount.
To Amount	Enter To Amount for the sanctioned amount.

6. Select the required child party. The **Other Bank Facilities** page is displayed.
7. Add the other bank facility information of the child party and click **Next**. The **Write up** page appears.

3.5 Write Up

This data segment allows the user to add writeup for the party and all their child parties in the available writeup categories. The history of writeup for the party will be available to the users throughout the party’s association with the bank. If you click **Next** in the **Other Bank Facilities** screen, the **Write up** screen is displayed.

Note

Write up data segment appears only if that data segment is enabled in the Maintenance module.

Figure 3-20 Write Up

1. Click + icon.
The **Write Up** window is displayed.

Figure 3-21 Write Up

- Click **Search** icon in the **Writeup Category** field. The Fetch **Writeup Category** window with the list of categories maintained in the Maintenance module is displayed.

Figure 3-22 Writeup Category

The screenshot shows a window titled "Writeup category" with a close button (X) in the top right corner. It contains two input fields: "Writeup category code" and "Writeup category description". Below these fields is a "Fetch" button. A table displays the following data:

Writeup category code	Writeup category description
Cone	Facility write-up category
TST5	Test 5
C002	Code for Facility
C003	Capture for facility level.
TEST	TESTING FOR BUG
SP34	description

At the bottom, there is a pagination bar showing "Page 1 of 1 (1 - 7 of 7 items)" and navigation icons.

- Click on the required category code. Selected code is displayed in the **Writeup Category** field.
- Enter Remarks in the text box and click **Create**. The Remarks are added in the **Write Up** page as shown below:

Figure 3-23 Write up

The screenshot shows the "Credit Origination - Proposal Initiation" window. On the left is a sidebar with navigation links: Customer Info, Other Bank Facilities, Write up (selected), Groupwise Exposure, Connected Parties, Funding Requirement, Collaterals, Summary, and Comments. The main area is titled "Write up" and shows a "Filter" button and a "Type to filter" input field. Below this is a "Facility write-up category" section with a "Sample Write up" text area. At the bottom of the window are buttons for "Audit", "Cancel", "Hold", "Back", "Save & Close", and "Next".

- To change the layout of **Write up** data segment to the expanded view, click the **Expanded View** icon at the top right corner.

The **Write up** is expanded as shown below:

3. Add the connected party details of the party and click **Next**. The **Funding Requirement** page is displayed.

3.8 Funding Requirement

You can capture the funding requirement of your party in this data segment by adding liability and facilities for the party.

The facility can be either directly created or created using the Facility Template maintained at the Maintenance module.

Before creating the facility, Liability details must be captured for the party.

Figure 3-34 Funding Requirement

The screenshot displays the 'Funding Requirement' page. At the top, there is a 'Liability details' section with a 'Filter' button and a search input field. Below this, a table lists facility details. The table has one row with the following information:

Facility ID	Facility description	Requested amount	Facility type	Next review date
LN9009	F2372920	\$12,000.00	Funded	

Below the table, it says 'End Of List (showing 1 record(s) out of 1)'. At the bottom of the page, there are buttons for 'Cancel', 'Hold', 'Back', 'Save & Close', and 'Next'.

If **Take Over** check box is selected while adding Other bank facility, the added existing facility is displayed in the Funding Requirement page.

1. To add the liability details, expand and mouse hover on the **Liability details** section. The **Edit** icon is displayed.

Click **Edit** icon, The **Liability Details** window is displayed.

 3. Click **Back** and edit the required information to modify the provided information.
- If you click **Next** in the **Summary** screen, the **Comments** screen is displayed.

3.11 Comments

The **Comments** page allows to capture the remarks for the overall process. Posting comments help the user in next stage to better understand the application. If you click **Next** in the **Summary** screen, the **Comments** screen is displayed.

Figure 3-67 Comments

For information on fields in the **Comments** screen, refer the below table.

Table 3-30 Comments

Fields/ Icons	Description
Post	Enter the necessary comments in the text box and click Post . The comment is posted.
Hold	Click Hold , to hold the credit proposal initiation process.
Back	Click Back , to go back to the previous stage.
Save & Close	Click Save & Close , to save the process for future edit.
Submit	Click Submit , to submit the enriched application for evaluation.
Cancel	Click Cancel , to exit the process without saving the information.

On clicking **Submit**, the Policy Exception window is displayed.

Figure 3-68 Policy Exception

By default, **Policy Exceptions** are displayed for both the party and its child party.

1. To view the policy exception detail specific to party or child party, select the party from the drop-down list at top left corner.
2. The fields which will get validated are:
 - Customer Terms and Conditions
 - Customer Covenants
 - Facility Category

Note

For more information, refer to the **Policy Definition user manual**, Policy Initiation > Policy Definition section.

3. Click **Business** data segment.

Figure 3-69 Business

4. Click **Checklist** data segment.

Note

Using business process definition Checklist can be maintained for specific stages and the same will appear here. Further the checklist item can be classified as mandatory or optional and if it is mandatory then the user will not be able to submit the stage without checking it.

Figure 3-70 Checklist

The screenshot shows a web application window titled "Submit" with a close button (X) in the top right corner. At the top, there is a progress bar with three steps: "Policy exceptions" (marked with a green 1), "Business" (marked with a green 2), and "Checklist" (marked with a black 3). Below the progress bar, there is a "Back" button on the left and a "Next" button on the right. The main content area contains a checklist item with a checkbox, the label "Init", and a "Remarks:" field. Below the checklist item, there is a "Save Checklist" button. At the bottom right, there is a dropdown menu labeled "Outcome" with "Proceed" selected, and a "Submit" button.

5. Select **Outcome** as **Proceed**.
6. Click **Submit**.

On submitting the credit proposal application, the application is moved to **Proposal Enrichment** stage.

4

Proposal Enrichment

In this stage, the member of the operations/credit team enriches the application by capturing detailed information about the party (the party hierarchy, funding requirement, collateral offered and the other business related information) required to evaluate the credit worthiness, risk profiling and legal fitness.

The following table provides high level overview about the **Proposal Enrichment** stage.

Information available for user	Activities that can be performed by user
• View initiation summary • View the group structure • View rating • View GroupWise exposure • View connected party list • View other bank facility details • View liability proposed and expiry dates • View facility proposed and expiry dates • View collateral offered • View write up submitted as part of initiation • View the comments submitted as part of initiation	• Party Information – Modify Group structure – Add new companies – Capture shareholder details – Capture management team details – Capture auditor details – Capture directors details – Capture party and supplier details • Financial details – Upload financial documents, Input key ratios, Capture projections • Capture party level covenants and T&C • Edit the liability or facility details if required • Edit & Enrich the collateral details required • Capture write up • Upload non financial documents of the party • Capture comments about the party with regard to enrichment stage • Send back the application if additional info required • Initiate party onboarding

Steps to enrich credit proposal

1. In **OBCFPM**, navigate to **Tasks > Free Tasks**.

The **Free Tasks** page is displayed.

Ship Dimensions

Figure 4-51 Configure - Ship Dimensions

The screenshot displays the 'Configure' window for 'Ship Dimensions'. On the left, a sidebar lists 'Ship', 'Collateral Insurance', 'Valuation', and 'Collateral Summary', with 'Ship' being the active selection. The main content area is titled 'Ship' and contains two expandable sections: 'Ship Details' and 'Ship Dimensions'. The 'Ship Dimensions' section is expanded, revealing six input fields arranged in two rows. The first row includes 'Dimension Unit' (a dropdown menu set to 'Feet'), 'Water Vessel Length' (a text box with '7'), and 'Water Vessel Beam' (a text box with '6'). The second row includes 'Water Vessel Height' (a text box with '7'), 'Displacement Unit' (a dropdown menu set to 'Tons'), and 'Water Vessel Displacement' (a text box with '7'). Below these fields is a 'Ship Tonnage' section, which is currently collapsed. At the bottom right of the window, there are 'Back' and 'Next' buttons.

For information on fields in the **Configure - Ship Dimensions** screen, refer the below table.

Table 4-26 Configure - Ship Dimensions

Fields/ Icons	Descriptions
Dimension Unit	Select unit for ship dimension from Dimension Unit drop-down list. The options available are: • Feet • Meters
Water Vessel Length	Specify Water Vessel Length of ship in selected unit.
Water Vessel Beam	Specify Water Vessel Beam (width) of ship in selected unit.
Water Vessel Height	Specify Water Vessel Height of ship in selected unit.
Displacement Unit	Select unit for ship weight from Displacement Unit drop-down list. The options available are: • Tons • Metric Tons
Water Vessel Displacement	Specify Water Vessel Displacement in selected unit.

Ship Tonnage

Figure 4-52 Ship Tonnage

The screenshot shows a 'Configure' window with a sidebar on the left containing 'Ship', 'Collateral Insurance', 'Valuation', and 'Collateral Summary'. The 'Ship' section is active. The main content area is titled 'Ship' and contains three expandable sections: 'Ship Details', 'Ship Dimensions', and 'Ship Tonnage'. The 'Ship Tonnage' section is expanded, showing five input fields arranged in two rows. The first row contains 'Water Vessel Size' (a dropdown menu with 'Panamax' selected), 'Deadweight Tonnage' (a text box with '3'), and 'Gross Register Tonnage' (a text box with '2'). The second row contains 'Water Vessel Tonnage' (a text box with '2') and 'Net Registered Tonnage' (a text box with '3'). At the bottom right of the window are 'Back' and 'Next' buttons.

1. Select **Water Vessel Size** of the Ship.

The options available are:

- Aframax
- Capesize
- Chinamax
- Handymax
- Handysize

- Malaccamax
 - Panamax
 - Q-Max
 - Seawaymax
 - Suezmax
2. Specify the following details of the ship.
 - Deadweight Tonnage
 - Gross Registered Tonnage
 - Water Vessel Tonnage
 - Net Registered Tonnage
 3. Click **Next**. The **Collateral Insurance** page is displayed.

Collateral Insurance

In this page, you can capture insurance details of the collateral

Figure 4-53 Collateral Insurance

The screenshot shows a 'Configure' window with a sidebar on the left containing a tree view with the following items: 'Ship', 'Collateral Insurance' (which is selected and highlighted), 'Valuation', and 'Collateral Summary'. The main content area is titled 'Collateral Insurance' and features a large '+' icon in the center, with the text 'No items to display.' below it. At the bottom right of the window, there are two buttons: 'Back' and 'Next'.

4. To add insurance details, click +. The following window is displayed.

Proposal Evaluation

In **OBCFPM**, credit evaluation, legal evaluation and risk evaluation for the proposal can be performed in a parallel manner before sending the proposal to the proposal structuring stage.

In the corresponding evaluation stages, the Risk, the Legal and the Credit team performs Quantitative and Qualitative analysis to evaluate the party.

- [Credit Evaluation](#)
- [Legal Evaluation](#)
- [Risk Evaluation](#)

5.1 Credit Evaluation

The following table provides high level overview about the **Credit Evaluation** stage.

Information available for user	Activities that can be performed by user
• View the party summary – Liabilities requested – Facilities requested – Collateral offered – Covenants stipulated – T&C stipulated – Financials – Rating – Demographic details • View comments added in previous stages	• Perform the Quantitative Analysis – View ratios and the scores generated – View Peer analysis – View trend analysis of the ratios – View scores generated by system • Perform the Qualitative Analysis by answering questions about – Debtor analysis – Creditor analysis – Sector analysis – Global Economic analysis – Domestic analysis • Add write up detailing addition information about the business • Capture comments about the credit evaluation done • Send back the application if additional info required

To perform **Credit Evaluation** for the proposal, perform the following steps:

1. On **Home** screen, select **Tasks**. Under Tasks, select **Free Task**.

The **Free Task** screen is displayed.

Figure 5-51 Checklist

The screenshot shows a web interface for a checklist. At the top, there's a 'Submit' button and a 'Back' button. A progress bar indicates three steps: 'Policy exceptions' (1), 'Business' (2), and 'Checklist' (3). The 'Checklist' step is highlighted. Below the progress bar, it says 'No items to display.' and shows a pagination control for 'Page 1 (0 of 0 items)'. At the bottom right, there is a dropdown menu for 'Outcome' and a 'Submit' button.

Table 5-17 Checklist

Fields/ Icons	Description
Outcome	Select the Outcome as Proceed if additional information is not required. Else, select the Outcome as Additional Info .
Submit	Click Submit .

Note

For information on **Write up** data segment, refer [Write Up](#) section.

5.3 [Risk Evaluation](#)

The following table provides high level overview about the **Risk Evaluation** stage.

Information available for user	Activities that can be performed by user
• View the party summary. – Liabilities requested – Facilities requested – Collateral Offered – Covenants stipulated – T&C stipulated – Financials – Rating – Demographic details • View comments added in previous stages.	• Complete the risk evaluation. – Questionnaire – Generate score • Send back the application if additional info required • Capture comments about the risk evaluation done

Risk evaluation is similar to the legal evaluation. Refer [Legal Evaluation](#) for information on performing risk evaluation.

After completing all the evaluation processes, the proposal is sent to the **Proposal Structuring** stage.

6

KYC Check

This is an optional stage. If the KYC details are available for the party, the banker can add the KYC details to the credit proposal. Adding KYC details helps the Approver to determine the originality of the party.

Steps to add KYC details

To add KYC details, perform the following steps:

1. In **OBCFPM**, navigate to **Tasks > Free Tasks**.

The **Free Tasks** page is displayed.

Figure 6-1 Free Tasks

	Priority	Process Name	Process Reference Number	Application Number	Stage	Application Date	Branch

Submit	Click Submit .

Note

For information on **Write up** data segment, refer [Write Up](#) section.

7

Proposal Structuring

In this stage, the Credit manager structures the proposal in terms of quantum of funding, type of products/funding to be extended, pricing, T&C, covenants, collateral/margin etc. to be applied based on the scoring generated in the risk, legal and credit evaluation stages, collateral value and information captured in the previous stages. In addition, the user can also structure the availability of funds between the parent and the child party's.

The following table provides high level overview about the **Proposal Structuring** stage.

Table 7-1 Proposal Structuring

Information available for user	Activities that can be performed by user
• View party summary – Liabilities requested – Facilities requested – Collateral Offered – Covenants stipulated – Conditions stipulated – Financials – Rating – Demographic details • View the credit evaluation scores and details • View the legal evaluation score and details • View the risk evaluation score and details • View Write up added in previous stages • View comments added in previous stages • View Collateral valuation details	• Edit the liability details if needed • Liability – Capture proposed Liability amount – Capture proposed expiry dates • Facility – Capture proposed facility amount – Capture proposed expiry dates – Add/Modify/Delete facilities – Add details like Schedule, Exposure, Fee, Collateral Pool – Linkage, Pricing, Covenants, Conditions • Collateral – Remove any collateral added in previous stages – Add new collateral • Add write up about the party • Add comments for the stage • Send back the application if additional info required • Submit application for review

Steps to structure credit proposal

To structure the credit proposal, perform the following steps:

1. In **OBCFPM**, navigate to **Tasks > Free Tasks**.

The **Free Tasks** page is displayed.

Figure 7-1 Free Tasks

Acquire and Edit	Priority	Process Name	Process Reference Number	Application Number	Stage	Application Date	Branch

Table 7-8 Tenor Restrictions

Field/ Icons	Description
Tenor	Specify the user defined Tenor ID .
Days	Specify Days till which the Limit has to be available to the party's.
Limit	Specify Limit that has to be made available for the defined period.
Create	Click Create . The details are added and listed in the Tenor Restriction page.
View/Edit/Delete	To View , Edit , or Delete the added tenor details, click the hamburger icon and select the required option.

Adding Exposure Details

3. Click **Exposure** from the left menu, to capture exposure information.

Figure 7-22 Exposure Details

Figure 7-23 Exposure

You can associate any exposure maintained in **OBELCM** to the facility for tracking purpose.

Table 7-9 Exposure Details

Fields/ Icons	Description
+ (add)	Click + icon. A record is created for capturing the exposure details.
Exposure Type	Specify Exposure Type for the facility.
Exposure Code	Specify Exposure Code for the facility.
Exposure Description	Description provided for the selected exposure type gets defaulted here.
Exposure Amount	Specify the exposure limit amount which is to be maintained for each exposure tracking maintenance. A confirmation is sought during utilization when the utilization amount crosses the exposure amount.
Available Amount	This is the limit amount that is considered when processing utilization requests for an exposure. It is the amount available after taking into account previous utilizations and amount block (earmark) in force for an exposure. It is calculated as shown below: Exposure Available Amount = Exposure Limit Amount – Utilization – Exposur block amount.

Table 7-9 (Cont.) Exposure Details

Fields/ Icons	Description
Utilization Amount	The system displays utilization for the exposure in this field. Utilizations affection a particular facility or liability will update the utilization amount of linked exposure as well as the related exposures up the hierarchy.

- Click + icon again, to add another exposure type and code.

Figure 7-24 Exposure Details
Adding Fee Details

- Click **Fee** from the left menu, to add fee preferences.

Figure 7-25 Fee Details

- Click **Populate**. Fee details such as Rule code, Liquidation Preference, Component Type, Fee Start Date, Fee End Date and Waived will be fetched from the target system.

7.3 Linking Facility to the Pool

You can link facility to the collateral pools maintained in the system by selecting the pool code.

1. Click **Pool Linkage** from the left menu.

7. Search and select **Currency** and then specify the **Special Interest Amount**, if **Rate Type** is selected as **Special Amount**.
8. Click **Create**. Interest details are added and listed as shown below:

Figure 7-34 Facility Details

The screenshot shows the 'Facility Details' window with the 'Interest' tab selected. The left sidebar contains a menu with options: Facility basic info, Schedule, Tenor restrictions, Exposure, Fee, Pool linkage, and Pricing. The main content area is divided into 'Interest' and 'Charges' sections. The 'Interest' section displays a table with one row: 'LN9052' (marked as 'NEW') with 'Component name: ABC', 'Component type: Main', and 'Rate type: Special amount'. Below the table, it shows 'Page 1 of 1 (1 of 1 items)' and navigation controls. A 'Cancel' button is located at the bottom right of the window.

9. Click **Charges** tab in **Pricing** section and then click **+**, to add the charge details. The **Charge Details** window is displayed.

Figure 7-35 Charge Details

The screenshot shows the 'Charge details' window. It contains several input fields and a toggle switch. On the left side, there are fields for 'Charge code' (005), 'Charge amount' (USD, 1,000.00), 'Minimum charge amount' (USD, empty), 'Net charge amount' (USD, empty), 'Is charge waived?' (toggle switch is off), and 'Waiver remarks' (empty text area). On the right side, there are fields for 'Charge description' (Processing Fees), 'Maximum charge amount' (USD, empty), 'Charge base amount' (USD, empty), and 'Waived amount' (empty text area). At the bottom right, there are 'Cancel' and 'Create' buttons.

For field level information **Charge Details** screen refer the below table.

Table 7-13 Charge Details

Fields/ Icons	Description
Charge Code	Enter Charge Code to mention the type of charge.
Charge Currency	Select Charge Currency from the left drop-down list given in respective fields.
Charge Amount	Specify Charge Amount for the facility.
Charge Description	Enter Charge Description .
Is Charge Waived	Enable Is Charge Waived option, if waiver can be claimed for this charge.
Fields	Enter the following details in respective fields: • Waived Amount • Minimum Charge Amount • Maximum Charge Amount • Net Charge Amount • Charge Base Amount • Waiver Remarks

10. Click **Create**. Charge details are added and listed as shown below:

Figure 7-36 Pricing

The screenshot displays the 'Pricing' section of the OFS interface. On the left, a sidebar lists various facility details, with 'Pricing' currently selected. The main content area is titled 'Charges' and features a table with one entry. The entry has a charge code 'LN9052' (marked as new), a charge amount of '\$1,000.00', and a description of 'Processing Fees'. Below the table, there is a pagination indicator showing 'Page 1 of 1 (1 of 1 items)' and a '+ ' icon to add new charges. A 'Cancel' button is located at the bottom right of the interface.

Note

To add more charges for the facility, click + icon again and provide the charge details.

For field level information **Pricing** screen refer the below table.

Table 7-14 Pricing

Fields/ Icons	Description
Edit	To edit the charge details, click the added charge and then click Edit icon.
Delete	To delete the charge details, click the added charge and then click Delete icon.
Table Icon	To change the list view to table view, click Table Icon at the right corner.

7.4 Proposal Structuring - Linking Facility with Collateral

In case you want to secure facility with collateral, you can link the facility and the available collateral.

Note

To link facility with the collateral, collateral must be added in the **Collateral** data segment.

Click **Facility Collateral Linkage** from the left menu. The **Facility Details** screen appears as shown below:

Figure 7-37 Facility Details

1. Click **+** icon, to link facility with a collateral. The **Facility-Collateral Linkage** window appears:

Figure 7-38 Facility-Collateral Linkage

Facility-Collateral linkage

Collateral code: COL23970433

Collateral description: GENERAL

Collateral value: 10,000.00

Amount basis: Amount

Linked percentage: 10%

Linked amount: USD 1,000.00

Cancel Save

For field level information in **Facility-Collateral Linkage** screen refer the table below.

Table 7-15 Facility-Collateral Linkage

Fields/ Icons	Description
Collateral Code	Select Collateral Code from the drop-down list. The collateral added in Collateral data segment are displayed in the drop-down list. Select Collateral Code, the following details get populated in the corresponding fields: - Collateral Description - Collateral Currency - Collateral Value You can link a collateral with the facility either by specifying the actual amount to be linked or by specifying the percentage of collateral value.
Amount Basis	Select Amount Basis from the drop-down list. The options available are: - Amount - Percentage If Amount is selected as Amount Basis, specify the Linked Amount. The system calculates and displays the Linked Percentage based on value provided in the Linked Amount field.
Percentage	If Percentage is selected as Amount Basis, specify the Linked Percentage. The system calculates and displays the Linked Amount based on value provided in the Linked Percentage field.
Order number	In the Order number field, specify the collateral utilization order for example 1 or 2. If the collateral is contributing to the line, and the order number is mentioned as 2, collateral utilization will happen only after the other amount (e.g. Line amount) with order number 1 is utilized.

- Click **Save**. **Facility Collateral Linkage** details are added and displayed as shown below:

Figure 7-39 Facility Details

For field level information in **Facility Details** screen refer the table below.

Table 7-16 Facility Details

Fields/ Icons	Description
Filter	To filter a linkage record, click the Filter icon and specify values for the filter parameters or directly enter the first three characters of filter parameter in Type to filter text box.
Edit	To modify the linkage details, select the record from the list and click Edit icon next to add icon.
Delete	To delete the linkage details, select the record from the list and click Delete icon.
Table View	To change the layout of Facility-Collateral Linkage screen to table view, click Table View icon at top right corner.

Adding Credit Rating

If the facility is rated by the rating party's, you can add the ratings of facility under Credit Ratings menu.

Figure 7-40 Credit Rating

Click **+** icon. The **Credit Rating** window is displayed.

Figure 7-41 Credit Rating

For field level information on **Credit Rating** screen refer the table below.

Table 7-17 Credit Rating

Fields/ Icon	Description
Agency Name	Select the name of agency by which the facility is rated from the Agency Name drop-down list.
Outlook	Select Outlook of the rating from the drop-down list.
Grade	Select Grade of the rating from the drop-down list.
Score	Specify Score provided for the facility.
Effective Date	Click Calendar icon in the Effective Date field and select the date on which the rating is provided.
Year Of Rating	The Year Of Rating is automatically populated based on the selected Effective Date.
Recommend	Enable Recommend option, if the facility is recommended by the rating agency.
Create	Click Create . The rating is added and displayed in the Credit Rating page.
History	Click History icon, to view the history of credit ratings added during different processes.
Filter	To filter the credit ratings in the History window, click the Filter icon and select the Agency Name or directly type the agency name in Type to filter text box.

Adding FX Rate Revaluation Details

You can add FX rate and revaluation details for the facility under the **FX Rate Revaluation** menu. The facility will be periodically re-valuated considering the FX rate, based on the configured frequency.

Figure 7-42 FX Rate Revaluation

The screenshot shows a web application window titled "OFS". On the left is a sidebar menu with the following items: Facility basic info, Schedule, Tenor restrictions, Exposure, Fee, Pool linkage, Pricing, Facility collateral linkage, Credit rating, and **FX rate revaluation** (which is highlighted). The main area of the window has a header with a "+" icon, a pencil icon, and a trash icon, followed by the text "No items to display." Below this, it says "(showing 0 record(s) out of 0)". In the bottom right corner, there is a "Cancel" button.

Click + icon. The **FX Rate Revaluation** window is displayed.

Figure 7-43 FX Rate Revaluation

The screenshot shows the "FX rate revaluation details" form. It contains the following fields and controls:

- Module:** A dropdown menu.
- Product:** A dropdown menu.
- Currency:** A text input field with "USD" and a search icon.
- FX rate type:** A dropdown menu with "Mid" selected.
- Rate input method:** A dropdown menu with "Derived" selected.
- Rate fixing days:** A numeric input field with "1" and up/down arrows.
- Revaluation frequency:** A dropdown menu with "Weekly" selected.
- Revaluation effective date:** A dropdown menu with "Value Date" selected.
- Exchange rate code:** A dropdown menu with "Standard" selected.
- Ignore holidays:** A checked checkbox.
- Holiday check:** A dropdown menu with "Currency" selected.
- Holiday currency:** A text input field with "USD" and a search icon.
- Schedule movement:** A dropdown menu with "Move Backward" selected.
- Move across month:** A checked checkbox.
- Cascade scheduled:** A checked checkbox.

At the bottom right, there are "Cancel" and "Create" buttons.

For field level information on **FX Rate Revaluation** screen refer the table below.

Table 7-18 FX Rate Revaluation Details

Fields/ Icons	Description
Module	In the Module field, enter the name of module from which the FX rate detail has to be fetched. For example, LC (Letters of Credit module in FCUBS).
Product	In the Product field, enter the name of product from which the FX rate detail has to be fetched. For example, Import LC Issuance (product under LC module).
Currency	Select Currency for which the FX rate has to be applied.
FX Rate Type	Select FX Rate Type from the drop-down list. The options available are: • Mid • Sell • Buy
Rate Input Method	Select Rate Input Method from the drop-down list. The options available are: • Derived • Fixed
Exchange Rate Code	If Rate Input Method is selected as Derived, the Exchange Rate Code field appears. You must select the required exchange rate code from the list of codes maintained in the mentioned Product.
Fixed Rate	If Rate Input Method is selected as Fixed, the Fixed Rate field appears. You must specify the fixed rate for the revaluation.
Rate Fixing Days	Specify Rate Fixing Days . The value must be between 1 to 5. If the Rate Fixing Days is set as 1, the system will pick up the rate from previous day i.e. current day - 1.
Revaluation Frequency	Select Revaluation Frequency from the drop-down list. The options available are: • Daily • Weekly • Monthly • Quarterly • Half Yearly • Yearly • None
Revaluation Effective Date	Select Revaluation Effective Date from which the revaluation should happen. The options available are: • Value Date • Calendar Date
Ignore Holidays	Enable Ignore Holidays check box, if required. The revaluations that are due on holidays will not be performed on the holiday.
Holiday Check	Select Holiday Check option from the drop-down list. The options available are: • Currency • Both, • Local The system will determine the holidays based on the selected Holiday Check option. For example, if Holiday Check is selected as Currency, then the system will refer the Currency Holiday Maintenance to determine holidays.
Holiday Currency	Select Holiday Currency for which the holiday table must be checked.

Table 7-18 (Cont.) FX Rate Revaluation Details

Fields/ Icons	Description
Schedule Movement	Select Schedule Movement option from the drop-down list. The options available are: - Move Backward - Move Forward
Move Backward	If Move Backward option is selected, the system will schedule the revaluations that are due on holiday before the holiday.
Move Forward	If Move Forward option is selected, the system will schedule the revaluations that are due on holiday after the holiday.
Move Across Month	Enable Move Across Month check box, if required. If you have chosen to move a schedule falling due on a holiday to the next working day, or the previous working day, and it crosses over into another month, the schedule date will be moved only if you indicate so. If not, the schedule date will be kept in the same month.
Cascade Schedule	Enable Cascade Schedule check box, if required. Next schedule will be fixed based on how the schedule date was moved for a holiday. For example, if the Revaluation Frequency is Monthly and the schedule that is due on holiday (1st January) is moved forward to the next day (2nd January) based on selected Schedule Movement option, then from the next month (February), the schedule is shifted to 2nd of every month if the Cascade Schedule check box is enabled.
Create	Click Create . The FX rate revaluation details are saved.
Edit	To modify the added FX rate revaluation details, select the record and click the Edit icon.
Delete	To delete the added FX rate revaluation details, select the record and click the Delete icon.
Close	Click Close , to exit the Facility Details window.

Copying Facility

Once a facility is created, you can copy that facility to create new facility of similar type. The copied facility will have all the facility details by default, you can easily change the limit details and create new facilities.

For field level information on **Copying Facility** screen refer the below table.

Table 7-19 Copying Facility

Fields/ Icons	Description
Copy Facility	Click Hamburger icon in the required facility record and select Copy Facility . The Facility Details window appears.
Save & Configure	Click Save or Save & Configure . Clicking Save & Configure opens the Edit Facility window. Refer Modifying Facility Details for information on configuring facility.

Creating Sub Limit

You can create any number of sub-limits for the facility. The sum of Requested Amount specified in each sub-limit should not exceed the Requested Amount in the parent facility.

While creating sub-limit, the Tenor and Line Expiry Date for the facility cannot be more than that of the parent facility.

- Click **Action** icon at the corresponding facility record and select **Create Sub Limit**.

The **Facility Details** window is displayed.

Figure 7-44 New facility

4. Provide the necessary details to create sub-limit and click **Save**. Sub-limit is created and displayed in the Funding Requirement page.

The **Funding Requirement** page is displayed.

For process Covenant Details, user can set up extra placeholder fields in the Maintenance screen. For more information on managing these placeholders, refer to the Maintenance User Manual.

The system supports configuration of up to 20 fields each for the following data types:

- Text
- Numeric
- Boolean
- Date

Each field type allows a minimum of 0 and a maximum of 20 fields per Covenant details, based on the requirements. These fields displays in the Covenant Details screen only if they are configured. If no additional fields are defined, the screen will display only the standard covenant details fields.

For example, we maintained 20 additional fields each for text, numeric, boolean, and date.

The **Covenant Details** screen displays.

Note

For information about filter, add, edit, delete, and layout options, refer any section in **Proposal Initiation** Chapter.

7.8 Proposal Structuring - Conditions

To go to the **Conditions** page, click the **Conditions** tab in **Proposal Structuring** screen.

Figure 7-66 Proposal Structuring - Conditions

1. To add new Conditions, click + icon.
The **Add Conditions** window is displayed.

Figure 7-67 Add Conditions

For process Conditions Details, user can set up extra placeholder fields in the Maintenance screen. For more information on managing these placeholders, refer to the Maintenance User Manual. The system supports configuration of up to 20 fields each for the following data types:

- Text
- Numeric
- Boolean
- Date

Each field type allows a minimum of 0 and a maximum of 20 fields per Conditions details, based on the requirements. These fields displays in the Conditions Details screen only if they are configured. If no additional fields are defined, the screen will display only the standard Conditions details fields. For example, we maintained 20 additional fields each for text, numeric, boolean, and date.

The **Add Conditions** screen displays.

Figure 7-68 Add Conditions

The screenshot displays the 'Add Conditions' screen with the following fields and sections:

- Condition Code:** A text input field with a search icon and a 'Required' label.
- Condition Description:** A large text area for describing the condition.
- Condition Clause:** A large text area for the condition clause.
- Condition Type:** A dropdown menu.
- Condition Reason:** A dropdown menu with 'Maintenance' selected.
- Compliance Status:** A dropdown menu with 'Compliance Status' selected.
- Due Date:** A date picker showing 'February 7, 2024'.
- Notice Days:** A text input field with a 'Required' label.
- Grace Days:** A text input field.
- Compliance Remarks:** A text input field.
- Additional Text Fields:** A grid of 20 text input fields labeled 'Addition Text 1' through 'Addition Text 20'.
- Additional Number Fields:** A grid of 20 numeric input fields labeled 'Additional Number 1' through 'Additional Number 20'.
- Additional Date Fields:** A grid of 20 date picker fields labeled 'Additional Date 1' through 'Additional Date 20'.
- Additional Flag Fields:** A grid of 20 boolean input fields (checkboxes) labeled 'Additional Flag 1' through 'Additional Flag 20'.
- Buttons:** 'Cancel' and 'Create' buttons at the bottom right.

For information on fields in the **Add Conditions** screen, refer the table below.

Table 7-27 Add Conditions

Fields/ Icons	Description
Conditions Code	Search and Select Conditions Code . Conditions Description and Conditions are defaulted based on the selected Conditions code.
Conditions Description	Display the Conditions description. The Conditions description will be defaulted from Conditions maintenance based on the selected Conditions Code and cannot be modified.
Conditions Clause	Specify the Conditions clause. This field defaulted based on the selected Conditions code. The user can input up to 250 characters.
Notice Days	Specify the number of notice days are the number of days before the Due date of a Conditions for the Conditions tracking.
Grace Days	Specify the grace days. The user must update the compliance status within grace days after the due date. If not complied, the status will be marked as breached and the compliance date will be updated to the current date during the end-of-day process using the batch "tncTrackingOverdueBreachJob".

For field level information on **Checklist** screen refer the table below.

Table 7-28 Checklist

Fields/ Icons	Description
Outcome	Select Outcome as Proceed if additional information is not required. Else, select the Outcome as Additional Info .
Submit	Click Submit . The proposal is sent to the Proposal Review stage.

For information on **Write up** data segment, refer [Write Up](#) section.

8

Proposal Review

This is a **Checker** stage in the work flow. In this stage, the senior member of the credit team reviews the application and verifies if it is as per the banks policies. The user will have the option to send the application back to the previous stages in case any additional information is required or if the proposal needs any modification. If all the conditions are satisfied, the proposal is sent to the approving authority for approval.

The following table provides high level overview about the **Proposal Review** stage.

Table 8-1 Proposal Review Stage

Information available for user	Activities that can be performed by user
• View the party summary – Liabilities requested and proposed – Facilities requested and proposed – Collateral Offered – Covenants stipulated – T&C stipulated – Financials – Rating – Demographic details • View the credit evaluation scores and details • View the legal evaluation score and details • View the risk evaluation score and details • View Write up added in previous stages • View comments added in previous stages	• Review the following – Liability details – Facility details – Covenants proposed – T&C proposed – Collateral Offered • Add write up • Send back the application if additional info required • Submit application for approval

Proposal review process is similar to the proposal structuring process. Refer **Proposal Structuring** chapter for step-by-step instructions on reviewing the proposal.

9

Proposal Approval

In this stage, members of the approving authority team review the application in its entirety, evaluates the recommendations given by the business and credit teams, and then finally makes a judgment on the proposal. The approving authority may refer the proposal back to the previous stages for any modification or reject the proposal. If all the conditions are satisfied, the proposal is approved.

The following table provides high level overview about the **Proposal Approval** stage.

Table 9-1 Proposal Approval stage

Information available for user	Activities that can be performed by user
- View the party summary - Liabilities requested and proposed - Facilities requested and proposed - Collateral Offered - Covenants stipulated - T&C stipulated - Financials - Rating - Demographic details - View the credit evaluation scores and details - View the legal evaluation score and details - View the risk evaluation score and details - View Write up added in previous stages - View comments added in previous stages	- Review the following: - Liability amount and dates requested and proposed - Facility amount and dates requested and proposed - Covenants proposed - T&C proposed - Collateral Offered - Capture the following: - Approved Liability amount and dates - Approved Facility amount and dates - Add/Modify/Delete facility, collateral, covenants or T&C - Add write up - Send back the application if additional info required or proposal revision - Approve the application - Reject the application

Refer **Proposal Structuring** chapter for field level explanation on all the data segments in this stage.

To approve the facility, perform the following steps:

1. In the **Approval** data segment, mouse hover on the **Liability Details** section and click **Edit** icon.

The **Liability Details** window is displayed.

Post	Click Post comments, if required.
Submit	Click Submit . The Policy Exception window appears.
Checklist	Click the Checklist data segment and select the Outcome as Approve .

- Click **Submit**. The proposal is sent to the **Draft Generation** stage.

To reject the facility, perform the above steps by specifying **Approval Liability Amount** and **Approved Amount** as zero and selecting the Outcome as **Reject**.

Draft Generation

In this stage, the bank user can generate a sanction letter and capture the party's communication address to send the sanction letter.
The following table provides high level overview about the **Draft Generation** stage.

Table 10-1 Draft Generation stage

Information available for user	Activities that can be performed by user
- View the party summary - Liabilities requested, proposed, and approved - Facilities requested, proposed, and approved - Collateral Offered - Covenants stipulated - T&C stipulated - Financials - Rating - Demographic details - View the credit evaluation scores and details - View the legal evaluation score and details - View the risk evaluation score and details - View comments added in previous stages	Generate draft proposal document

Prerequisites

Before initiating the credit process, the following actions must be performed:

- Upload report template for draft generation in XSL format by navigating to **Core Maintenance > Report Maintenance > Report Template > Upload Report Template**
- Link the maintained report template as Advices in the **Business Process Maintenance** for the required process

Steps to generate draft

To generate draft for the proposal, perform the following steps:

- In **OBCFPM**, navigate to **Tasks > Free Tasks**.

The **Free Tasks** page is displayed.

Figure 10-1 Free Tasks

Note

For information on **Write up** data segment, refer [Write Up](#) section.

Limit Configuration

In this stage, the bank user further fine tunes the facility by creating a detailed limit structure, setting restrictions in place, etc. and submits the proposal for further action. Post this stage the details of the liability, facility, collateral and covenants gets recorded in the back office system. The following table provides high level overview about the **Limit Configuration** stage.

Table 12-1 Limit Configuration stage

Information available for user	Activities that can be performed by user
- View the party summary - Liabilities requested, proposed, and approved - Facilities requested, proposed, and approved - Collateral Offered - Covenants stipulated - T&C stipulated - Financials - Rating - Demographic details - View the credit evaluation scores and details - View the legal evaluation score and details - View the risk evaluation score and details - View comments added in previous stages	- Configure the facilities approved - Create sublines - Update Collateral details - Capture the restrictions related to - Currency - Party - Branch - Product - Exposure - Add comments - Hand off to ELCM

Steps to configure limit

1. In **OBCFPM**, navigate to **Tasks > Free Tasks**.

The **Free Tasks** page is displayed.

Proposal Handoff

- [Handoff to Back Office System](#)
- [Handoff - Manual Retry](#)

13.1 Handoff to Back Office System

The proposal is automatically handed off to the back office system for creation of party as well as liability, facility, collateral and covenants, if the outcome of the previous stage is Proceed. If the automatic handoff fails, the proposal is sent to the **Handoff - Manual Retry** stage.

Refer [Handoff - Manual Retry](#) section for information on the manual retry stage.

13.2 Handoff - Manual Retry

To manually Handoff the proposal to the Back Office System, perform the following steps:

1. In **OBCFPM**, navigate to **Tasks > Free Tasks**.

The **Free Tasks** page is displayed.

Figure 13-1 Free Tasks

Document Upload and Checklist

This topic provides systematic instructions about the Document Upload and Checklist stage in the Simplified Credit Amendment Process.

In **Oracle Banking Credit Facilities Process Management**, supporting documents such as financial statements and collateral documents can be uploaded in any stage of credit proposal process. Supporting documents help the senior officers in bank to accurately evaluate the credit worthiness of the party and approve the proposal. Documents added for the proposal can be removed whenever the document becomes invalid.

1. Click **Documents** Icon at the top right corner of any page.

Figure 14-1 Documents

The **Documents** window is displayed.

Figure 14-2 Documents

If the document list is configured in **Business Process Maintenance**, the same appears in the above window. You can also click the **Add** icon to upload other documents.

In case the mandatory document is not uploaded, the system prompts an alert. You need to upload the necessary documents and proceed further.

2. To change the table view to the list view, click the list icon at the top right corner. The **Documents** window appears as shown below.

The **Documents** window is displayed.

Figure 14-3 Documents

- 3. Click **Add** icon. The **Document Details** window is displayed.

Figure 14-4 Document Window

A screenshot of a "Document" details form. The form is organized into two columns. The left column contains: "Document Type" (dropdown), "Document Title" (text input, marked "Required"), "Remarks" (text input, marked "Required"), a dashed box for "Drop files here or click to select", and a label "Selected files:". The right column contains: "Document Code" (dropdown), "Document Description" (text input, marked "Required"), "Document Expiry Date" (calendar icon input), and a "Link Document" label. At the bottom right are three buttons: "Upload", "Link", and "Cancel".

For more information on the fields, refer to the fields description table below.

Table 14-1 Document Details

Fields	Description
Document Type	Select the document to be uploaded. The options listed in this field depend on the domain being used. For example, if a finance is being processed, then finance-related options will appear. Similarly, if an application form is being processed, then onboarding-process-related options will appear. Note: This is a mandatory field. The system validates the value selected in this field, against the value selected in Document Type, to ensure that only the permissible value has been sent in the payload. In other words, user will not be allowed to enter their own values in this field. User can only select from the available options.
Document Code	Select the required document-specific code, which identifies the document. The values listed in this field, depend on the value selected in the Document Type field. For example, if shipping-related documents are being uploaded, then the code could be a delivery note, or a warehouse bill. Or, if application/onboarding-related documents are being uploaded, then the code could be identity proof, or the application-form itself. Note: This is a mandatory field. The system validates the value selected in this field, against the value selected in 'Document Type', to ensure that only the permissible value has been sent in the payload. In other words, user will not be allowed to enter their own values in this field. User can only select from the available options.
Document Title	Enter Document Title of the document. Note: A maximum of 22 characters are allowed. Only alpha-numeric characters and spaces are allowed. Special characters are not allowed.
Document Description	Enter a brief description about the document in the Document Description field.
Remarks	Enter Remarks, if any. Note: A maximum of 1000 characters are allowed. Only alpha-numeric characters and spaces are allowed.
Document Expiry Date	Click Calendar icon and select Document Expiry Date. Note: The document expiry date should be greater than current business date.
Drop files here or click to select	Either drag and drop the document being uploaded. Or click, to browse and select the document from the local machine. Once a document is dragged and dropped, or clicked and selected, the name of the document appears beside selected files. Note: To upload multiple supporting documents at the same time, drag and drop or click and select all the documents.
Link Document	Click this link, to view all the documents uploaded for the corporate customer. On clicking the link a Link Document window pops up, where all the uploaded documents can be viewed, and specific documents can also be searched.

4. Click **Link Document** window.

Business Overrides

The system generates overrides to alert the user whenever there is a discrepancy in the requested, proposed and approved amounts based on configuration. The user authorized to approve the override must acquire the task and then view and accept the overrides in order to proceed further with the process.

Business Overrides can be viewed before or during submitting the task.

1. Click **Overrides** at the top right corner to view the business overrides after capturing the limit amounts.

Figure 15-1 Business Overrides

Figure 15-2 Business Overrides

The screenshot shows a dialog box titled "Business overrides" with a close button (X) in the top right corner. Below the title bar, there are three tabs: "All", "Overrides" (selected), and "Errors". To the right of the tabs is a toggle switch labeled "Show Accepted Overrides" which is currently turned off. The main content area has a dropdown arrow (v) and a list of overrides. The first item is "Overrides" with a warning icon (triangle with exclamation mark). Below it is a checkbox labeled "LIPR01 - Proposed Liability Amount Is More Than Requested Liability Amount for Party: 230654170". At the bottom right of the dialog are two buttons: "Cancel" and "Accept overrides".

Figure 15-3 Business Overrides

The screenshot shows the same "Business overrides" dialog box. The "Errors" tab is now selected, and the main content area displays "Errors" with a red circle icon and the text "No Errors Available". The "Overrides" tab is no longer selected. The "Show Accepted Overrides" toggle remains off. The "Cancel" and "Accept overrides" buttons are still present at the bottom right.

2. Click **Submit** and navigate to the **Business** data segment to view the business overrides in the **Submit** window.

Figure 15-4 Submit

After the authorized user accepts the overrides, the override status is changed to **Accepted Overrides** as shown in the above screenshot.

If the business override is generated in the **Approval** stage, the other user authorization is not required. The approver can directly accept the overrides and proceed with the application.
