Purpose

This guide provides the detailed information about the Retail 360 feature.

Before You Begin

Kindly refer to the **Getting Started User Guide** for information on common functionalities like login, navigation, and general settings before proceeding with this guide.

Duplicate - Module Definitions

Table Terms & Definitions

Terms	Definitions
Consumer Application	The product that requires integration with another product for retrieving information or posting transactions does not need to know the following details while coding.
Service Consumer	It is an Oracle banking solution that utilizes the Oracle Banking Routing Hub API for integration purposes. Analyze the Oracle Banking Routing Hub and assess the destination product processor.
Import Service Consumer	The user can create a service consumer by importing the JSON file and manually selecting the service providers or select all providers that needs to be imported.
Environment Variables	A set of variables that will be accessible across the particular configuration of the consumer.

Table	(Cont.)	Terms &	Definitions
-------	---------	---------	--------------------

Terms	Definitions
Service Providers	Service Providers are systems designed to handle requests sent by the Oracle Banking Routing Hub for service consumers. They include information about destination integration.
Parameter Group	Parameter mapping is used to establish the relationship between parameters of 2 different systems i.e., consumer and provider.
Import Implementation	The user can create an implementation by importing the JSON file.
Consumer Services	It specifies the service ID that is transmitted by the service consumer. It also handles transitions and route definitions, including the details for source integration.
Transformation	It involves gathering and changing data from one source to another and back again. This process occurs within consumer services. It changes the data from the service consumer into a format suitable for the service provider.
Routing	It determines which service provider receives the actual request by considering maintenance and assessment factors.
Chaining	The sequence of transformations for each routing in which the request needs to be processed.
Template Extensibility	It is achieved by specifying the extended templates for request and response kernel transformation templates. And as part of extensibility, Routing Hub merges the output of kernel template and custom template in terms of JSON / XML merging.
SPI	It is used to make Routing Hub more extensible. SPI provides an option to extend interfaces without modifying the core application.
Monitoring dashboard	It provides to System integrators and IT administrators to review the health of the integrations. It displays data using different type of widgets to help users to assess the performance of integrations and identify the areas that requires attention.

Module Pre-requisite

Specify User Id and Password, and login to the Home screen.

Audience

This guide is intended for the Relationship Managers (RM) in the retail division of the bank.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at <u>Critical Patches</u>, <u>Security Alerts and Bulletins</u>. All critical patches should be applied in a timely manner to make sure effective security, as strongly recommended by <u>Oracle Software Security Assurance</u>.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which user supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that user enter.

Related Resources

For more information, see these Oracle resources:

- Getting Started User Guide
- Retail Onboarding User Guide

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Basic Actions

Most of the screens contain icons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

Table Common Icons and its Definitions

loon	Description
Icon	Description
Close	Click Close to exit the screen.

Symbols and Icons

The following are the symbols you are likely to find in this guide:

Table Symbols and Icons

Symbol/Icon	Function	
×	Close	
∠ ^N	Expand view	
se PA	Maximize	
P.C.	Minimize	

Module Post-requisite

After finishing all the requirements, log out from the **Home** screen.

Overview of Retail 360

This topic describes the overview of the Retail 360 feature.

Retail 360 is an essential feature that is designed to simplify the work of Relationship Managers (RM) in the bank and save a significant amount of time. The customer-specific information displayed in Retail 360 enables the RM to stay up to date about their customers and perform actions that have strict deadlines on time.

Some of the most required information displayed in Retail 360 are:

Table 1-1 Customer Demographic Sections

Sections	Description
Account Information	This section provides the account information on all the customer accounts.
Standing Instructions	This section provides the standing instructions for automatic debit of loans received by the customer.
Alerts	This section provides the alerts on pending activities.
Pending Activities	This section provides the pending activities of both the bank and the customer.
Pending Requests	This section provides the pending requests from the customer.
Offers and Schemes	This section provides the offers and schemes availed by the customer.
Upcoming Events	This section provides the upcoming events of the customer.

Get Started

This topic describes the detailed information on the various tiles/sections of the Retail 360 page.

Retail 360 enables the user to view all the necessary information about the customer from a single place. The Retail 360 page can be viewed using the *Customer Search* option.

This topic contains the following subtopics:

Retail 360 Page

This topic provides systematic instructions to view the customer details in Retail 360 page.

Personal Information

This topic provides the systematic instruction to view the personal information about the customer in the left pane of the Retail 360 page.

Account Information

This topic provides systematic instruction to view the balance details and outstanding information of all the customer accounts at the top of the Retail 360 page.

Pending Activities

This topic describes the information to view the activities that are pending from the RM and the customer.

Alerts

This topic describes the information on the alerts that require the immediate action, such as payment overdue.

Pending Requests

This topic describes the information to view the requests that are made by the customers and not yet responded by the bank.

Upcoming Events

This topic describes the information to view the schedule of the customer based on their activities.

• <u>Total Relationship Value</u>

This topic provides systematic information to view the total value of the relationship between the customer and the bank in terms of assets and liability.

Last Five Transactions

This topic describes the information to view the last five transactions done by the customers.

Fee Income Products

This topics describes the information to view the groups and lists the products through which the bank gains income from the customer.

Standing Instructions

This topic describes the information to view the standing instruction sets for the customer accounts.

Offers and Schemes

This topic describes the information to view the offers and schemes that are already availed by the customers.

2.1 Retail 360 Page

This topic provides systematic instructions to view the customer details in Retail 360 page.

Log in to the application homepage. For information on how to log in, refer to *Getting Started User Guide*.

(i) Note

- User should have the required Customer Group Access to View 360 of a party within a customer access group. For more details, refer to Oracle Banking Common Core User Guide, Oracle Banking Security Management System User Guide, and Retail Onboarding User Guide.
- User should have the required Personal Identifiable Information (PII) access to view party information, if PII fields are configured. For more details, refer to Oracle Banking Security Management System User Guide, and Retail Onboarding User Guide.

The fields, which are marked with an asterisk, are mandatory.

From Home screen, click Party Services. Under Party Services, click View 360.
 The View 360 screen is displayed.

Figure 2-1 View 360

2. On the **View 360** screen, specify the fields. For more information on fields, refer to the field description table.

Table 2-1 View 360 - Field Description

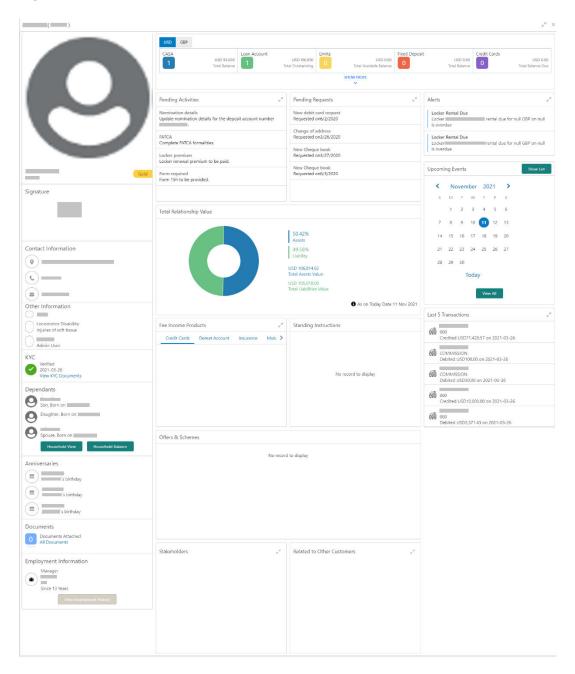

Field	Description
Enter Party ID	Specify the party ID of the desired customer.
Enter CIF	Specify the CIF of the desired customer.

3. Click View 360 Now.

The Retail 360 screen is displayed.

Figure 2-2 Retail 360

2.2 Personal Information

This topic provides the systematic instruction to view the personal information about the customer in the left pane of the Retail 360 page.

Before you begin, open the Retail 360 page. For more information, refer to Retail 360 Page.

The following table describes the different sections in the Personal Information tile:

The fields marked as **Required** are mandatory.

Table 2-2 Personal Information - Section Description

Section	Description
Profile Picture	Displays the picture, name, and unique ID of the customer.
Signature	Displays the signature of the customer in bank records.
Opening Branch Code	Displays the branch code associated with the customer onboarding.
Party Status	Displays the current party status.
Contact Information	Displays the communication address of the customer.
Other Information	Displays the name in local language, details of special needs, and relationship manager details.
KYC	Indicates the KYC compliance status of the customer.
Dependents	Displays the dependent details of the customer.
Anniversaries	Displays the anniversary details of the customer and their dependents.
Documents	Displays the documents submitted by the customer.
Employment Information	Displays the employment details of the customer.

Dependants

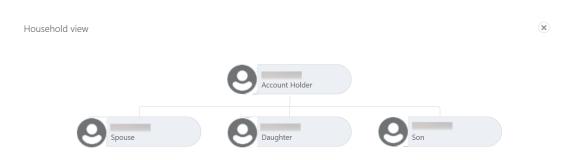

The **Dependants** section displays the dependant information.

Figure 2-3 Dependants

 On the Retail 360 page, in the Dependents section, click Household View to view the dependent information in the tree view.

The Household View window displays.

Figure 2-4 Household View

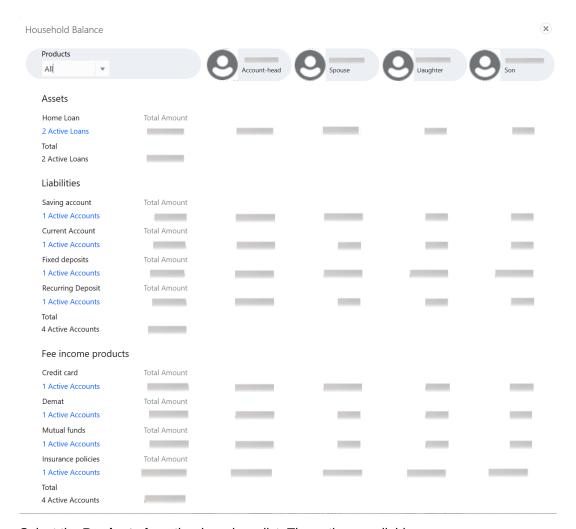

- 2. Click icon to exit the **Household View** window.
- 3. On the Retail 360 page, in the **Dependents** section, click **Household Balance** to view the balance in all the dependent accounts.

The Household Balance window displays.

Figure 2-5 Household Balance

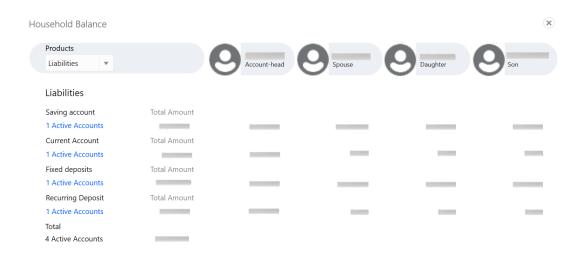

- 4. Select the **Products** from the drop-down list. The options available are:
 - All
 - Assets
 - Liabilities
 - Fee Income Products

The Household Balance for Selected Product displays.

Figure 2-6 Household Balance for Selected Product

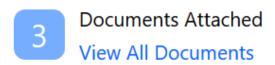

5. Click icon to exit the **Household Balance** window.

Documents

The **Documents** section displays the details of all the documents submitted by the customer.

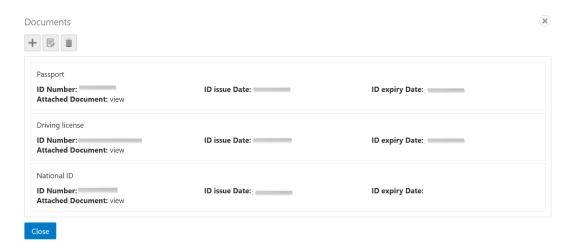

Figure 2-7 Documents

Documents

6. On the Retail 360 page, in the **Documents** section, click **All Documents**.

Figure 2-8 Documents

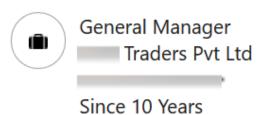

Click icon to exit the **Documents** window.

Employment Information:

The **Employment** window displays the employment history.

Figure 2-9 Employment Information

Employment Information

View Employment History

8. On the Retail 360 page, in the **Employment Information** section, click **View Employment History** to view the employment details.

Figure 2-10 View Employment History

9. Click the icon to exit the **Employment** window.

2.3 Account Information

This topic provides systematic instruction to view the balance details and outstanding information of all the customer accounts at the top of the Retail 360 page.

Before you begin, open the Retail 360 page. For more information, refer to the Retail 360 Page.

The details of the following customer accounts are displayed on the Retail 360 page:

- CASA
- Loan Account

- Limits
- Fixed Deposit
- Credit Cards
- Recurring Deposit
- Demat Account
- Mutual Funds
- Insurance Policies
- Lockers

A basic view of the account information is as follows:

Figure 2-11 Account Information - Basic View

Perform the following steps to view the account information of the customer accounts:

On the Retail 360 page, under the Account Information section, click SHOW MORE.
 The Account Information – Expanded View displays.

Figure 2-12 Account Information – Expanded View

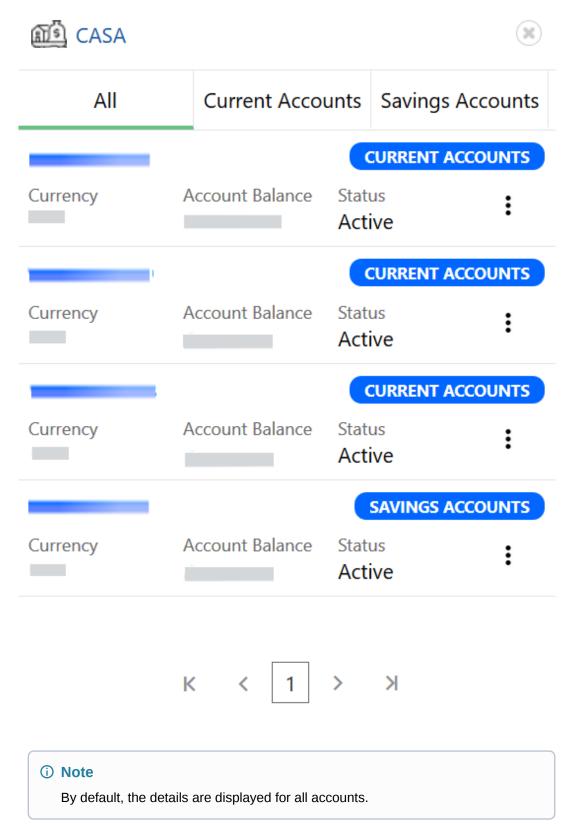

Click on the account count in the CASA section to view the detailed information about CASA.

The **CASA Information** window displays.

Figure 2-13 CASA Information

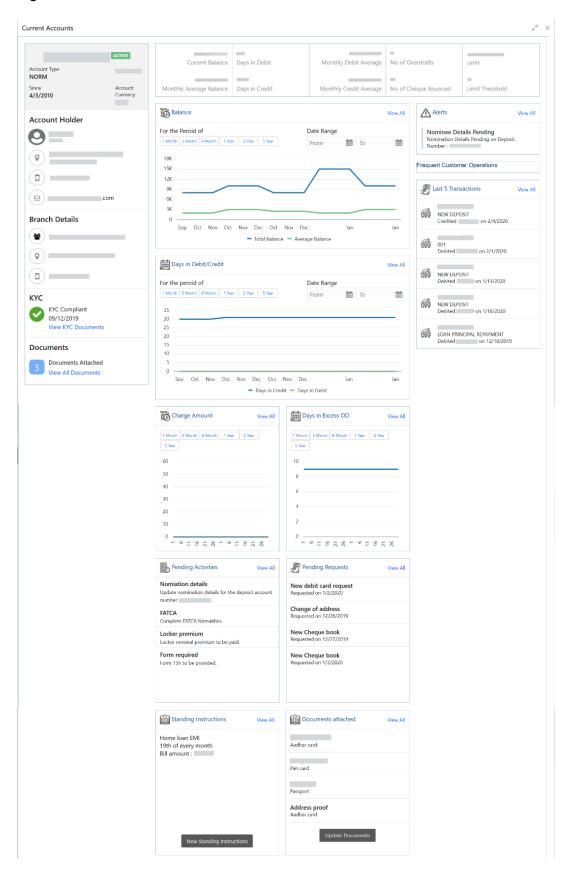

Click the **Current Accounts** tab to view only the current account details.

The **Current Accounts** window displays.

Figure 2-14 Current Accounts

You can also view only savings account details in the Savings Accounts tab.

In case of an unauthorized overdraw, the system displays the notification in the CASA widget to indicate the number of accounts that have an unauthorized overdraft.

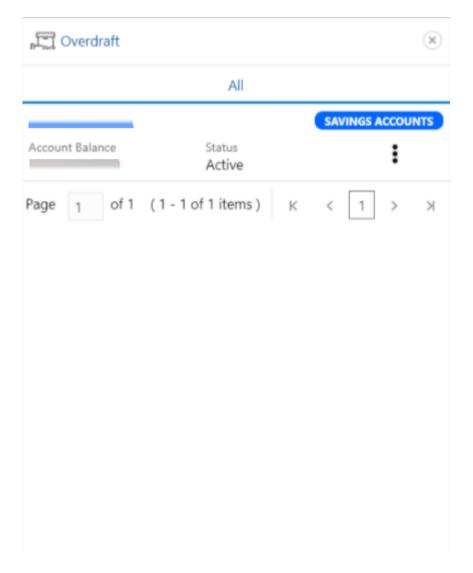

Figure 2-15 CASA Information- Notification

 On the Retail 360 page, under the CASA account information section, click on the notification.

The **Overdraft** window displays the accounts with unauthorized overdraft.

Figure 2-16 CASA Information - Unauthorozed Overdraft

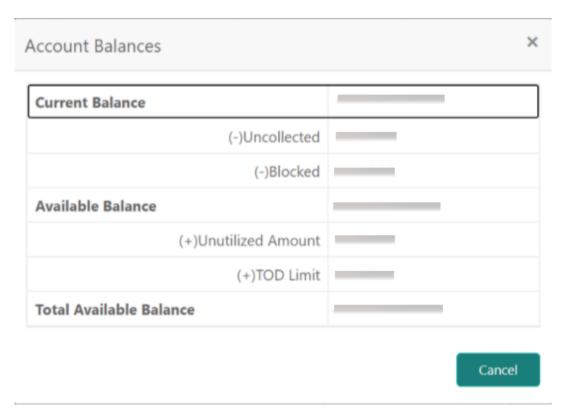

5. On the **Overdraft** window, click on the desired account number.

The **Account Balances** window displays.

Figure 2-17 Account Balances

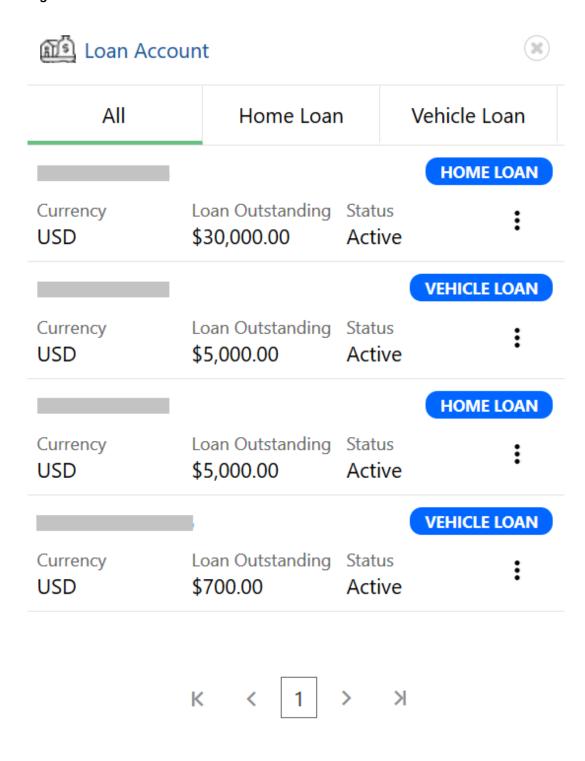

6. On the Retail 360 page, under the **Account Information** section, click **Loan Account** to view the loan account details.

The **Loan Account** window displays.

Figure 2-18 Loan Account

(i) Note

By default, the details are displayed for all the loan accounts. You can also click on the corresponding tab to view details about the specific loan. For example, to view details about the vehicle loan, click the **Vehicle Loan** tab.

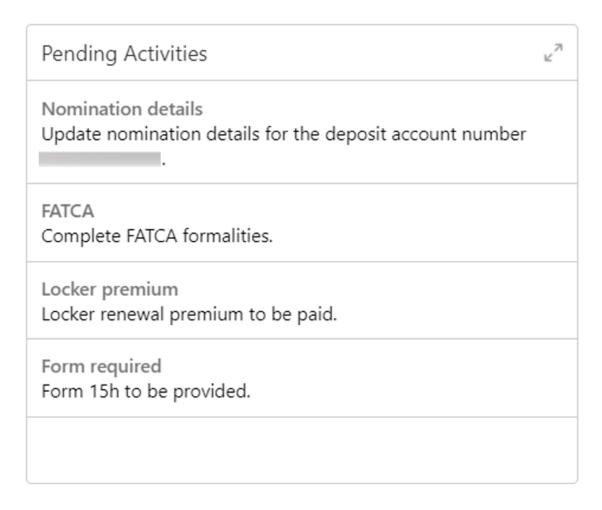

2.4 Pending Activities

This topic describes the information to view the activities that are pending from the RM and the customer.

The RM can view these activities and take necessary actions based on criticality.

The following figure shows a sample of the **Pending Activities** tile:

Figure 2-19 Pending Activities

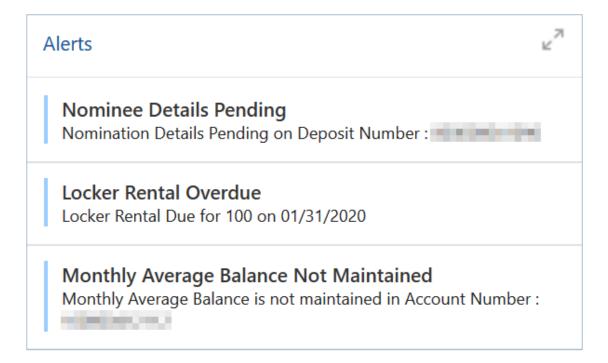

2.5 Alerts

This topic describes the information on the alerts that require the immediate action, such as payment overdue.

By periodically monitoring this section, the RM can well prioritize the actions to be performed. The following figure is a sample of this tile:

Figure 2-20 Alerts

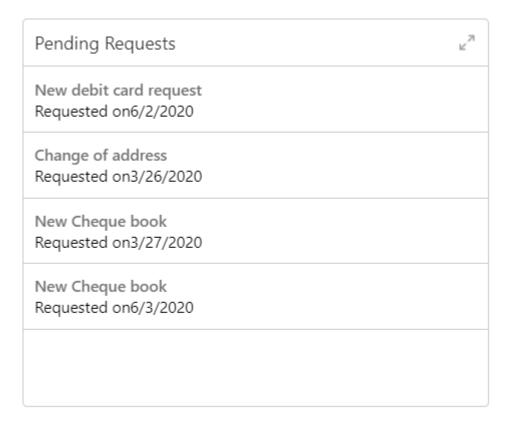

2.6 Pending Requests

This topic describes the information to view the requests that are made by the customers and not yet responded by the bank.

The following figure shows a sample of this tile:

Figure 2-21 Pending Requests

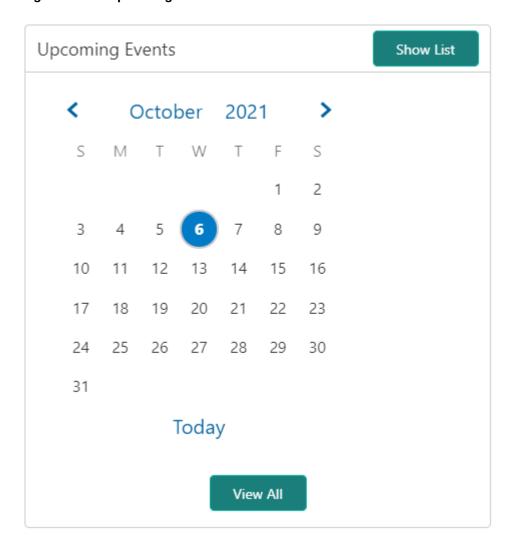

2.7 Upcoming Events

This topic describes the information to view the schedule of the customer based on their activities.

The following figure shows a sample of this tile:

Figure 2-22 Upcoming Events

The following options are available to view the required details:

Table 2-3 Upcoming Events - Options

Action	Description	
Show List	Click Show List to view the upcoming events as a list.	
View All	Click View All to view all the upcoming events.	

2.8 Total Relationship Value

This topic provides systematic information to view the total value of the relationship between the customer and the bank in terms of assets and liability.

Before you begin, open the Retail 360 page. For more information, refer to Retail 360 Page.

The following figure shows a sample of this tile:

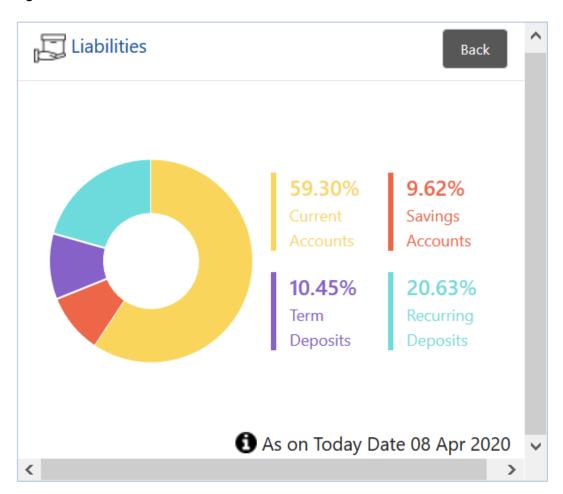

Figure 2-23 Total Relationship Value

View the Liability Chart

On the Relationship chart, click on the liability portion to view only the liability value.
 The Liabilities window displays.

Figure 2-24 Liabilities

2. Click **Back** to view the relationship chart on the Retail 360 page.

View the Assets Chart

On the Relationship chart, click on the assets portion to view only the assets value.The Assets window displays.

Figure 2-25 Assets

4. Click **Back** to view the relationship chart on the Retail 360 page.

2.9 Last Five Transactions

This topic describes the information to view the last five transactions done by the customers.

The following figure shows a sample of the Last Five Transactions tile.

Figure 2-26 Last Five Transactions

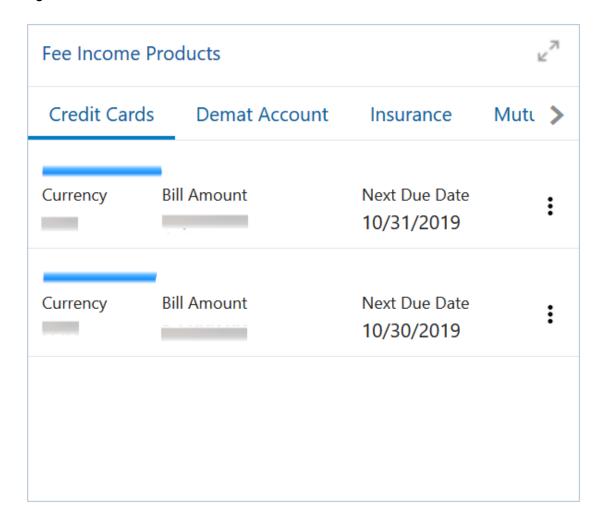

2.10 Fee Income Products

This topics describes the information to view the groups and lists the products through which the bank gains income from the customer.

The following figure shows a sample of this tile.

Figure 2-27 Fee Income Products

Fee income products are further grouped as:

Table 2-4 Fee Income Products

Tab	Description	
Credit Cards	Displays the details of the credit cards.	
Demat Account	Displays the details of the demat account.	
Insurance	Displays the details of the insurance.	
Mutual Funds	Displays the details of the mutual funds.	

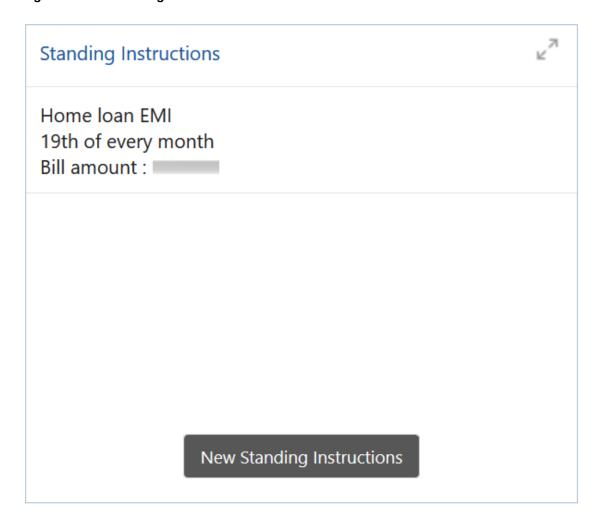

2.11 Standing Instructions

This topic describes the information to view the standing instruction sets for the customer accounts.

In addition to viewing existing instructions, the RMs can easily create new standing instructions from this tile. The following figure shows a sample of this tile. Users can select **New Standing Instructions** to create a new standing instruction.

Figure 2-28 Standing Instructions

2.12 Offers and Schemes

This topic describes the information to view the offers and schemes that are already availed by the customers.

Knowing the existing offers and schemes of the customer helps the RM in promoting different products. The following figures shows a sample of the **Offers and Schemes** tile and its expanded view.

Figure 2-29 Offers and Schemes

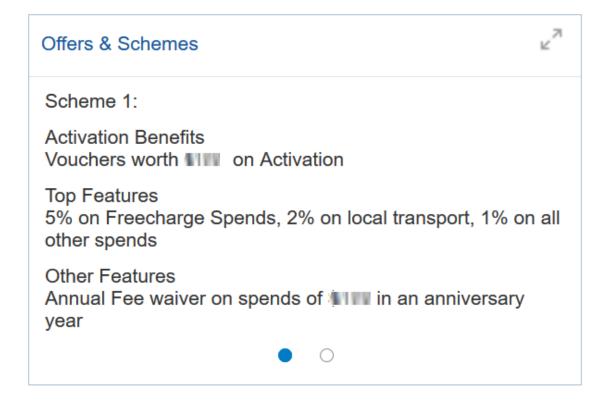

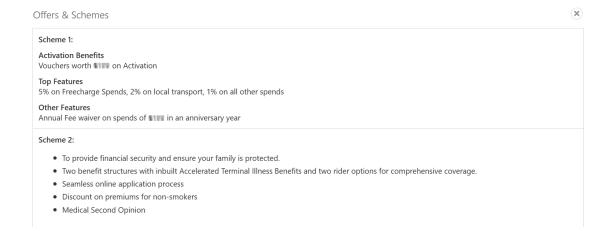

Figure 2-30 Offers and Schemes - Expanded View
