Preface

1.1 Purpose

This guide is designed to help the user to quickly get acquainted with the Customer Standard Instructions maintenance process.

1.2 Audience

This guide is intended for the central administrator of the Bank who controls the system and application parameters and ensures smooth functionality and flexibility of the banking application.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <https://www.oracle.com/corporate/accessibility/>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

1.4 Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

1.5 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Introduction

2.1 About Collateral Liquidation

A brief introduction to the Collateral Liquidation process in OBCFPM.

As part of Credit Portfolio management, whenever the customer's liability account/contract is not performing well or overdue, the underlying collateral linked to the transaction accounts must be liquidated and the accounts must be settled. The various activities performed in the Collateral Liquidation process are:

- Capturing liquidation details
- Sending liquidation notice to the customer
- Valuating collateral
- Fixing collateral base price
- Bid publication and identifying buyer
- Settlement of non-performing account based on proceeds from buyer
- Field investigation
- Transfer of asset to the Buyer

The Collateral Liquidation process has the following stages handled by users authorized to perform the task under those stages.

1. Collateral Liquidation Initiation
2. Notice to Customer And RM
3. External Valuation
4. Base Price Fixation
5. Base Price Review
6. Base Price Approval
7. Bid Publication
8. Bid Capture
9. Buyer Recommendation
10. Buyer Approval
11. Buyer Confirmation
12. Document Retrieval
13. Asset Transfer to Buyer
14. Assignment of Settlement Account
15. Fund Allocation and Liquidation
16. Await for Collateral Release

The flowchart illustrating the stages in Collateral Liquidation process is provided below for reference.
