View Units Of Measure List of Values by Web Service	Allow viewing units of measure list of values by web service.
Trading Community Import Batch Management	Manages trading community data import batches.	Enter Trading Community Import Batch Information	Allows the creation of a trading community data import batch by entering batch definition parameters through user interface. If assigning, also assign the ability to view the trading community import batch information.
Trading Community Import Batch Management	Manages trading community data import batches.	Enter Trading Community Import Batch Process Information	Allows the specification of trading community import batch process information, such as the import process mode, the batch and registry deduplication parameters, address cleansing parameters, and acceptable error limit.
Trading Community Import Batch Management	Manages trading community data import batches.	Purge Trading Community Import Batch	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	Run Trading Community Import Batch Error Report	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	Run Trading Community Import Batch Process	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	View Trading Community Import Batch Details and Statistics	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	View Trading Community Import Batch Errors and Details	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	View Trading Community Import Batch Information	Not Available

Granted Role	Granted Role Description	Privilege	Privilege Description
Trading Community Import Process Management	Manages trading community data import batch processes.	Enter Trading Community Import Batch Information	Allows the creation of a trading community data import batch by entering batch definition parameters through user interface. If assigning, also assign the ability to view the trading community import batch information.
Trading Community Import Process Management	Manages trading community data import batch processes.	Enter Trading Community Import Batch Process Information	Allows the specification of trading community import batch process information, such as the import process mode, the batch and registry deduplication parameters, address cleansing parameters, and acceptable error limit.
Trading Community Import Process Management	Manages trading community data import batch processes.	Modify Trading Community Import Batch Process Information	Allows editing of trading community import batch process information, such as the import process mode, the batch deduplication and registry deduplication parameters, and the address cleansing error limit, especially to perform the What-if Analysis to get the most acceptable import results.
Trading Community Import Process Management	Manages trading community data import batch processes.	Purge Trading Community Import Batch	Not Available
Trading Community Import Process Management	Manages trading community data import batch processes.	Run Trading Community Import Batch Error Report	Not Available
Trading Community Import Process Management	Manages trading community data import batch processes.	Run Trading Community Import Batch Process	Not Available
Trading Community Import Process Management	Manages trading community data import batch processes.	View Trading Community Import Batch Details and Statistics	Not Available
Trading Community Import Process Management	Manages trading community data import batch processes.	View Trading Community Import Batch Errors and Details	Not Available
Trading Community Import Process Management	Manages trading community data import batch processes.	View Trading Community Import Batch Information	Not Available
View Item Redwood	Allows users to view item details.	Get Redwood Settings REST	Allows query access to settings through the REST API.
View Item Redwood	Allows users to view item details.	Manage Subscription Setup	Manage subscription setup

Granted Role	Granted Role Description	Privilege	Privilege Description
View Item Redwood	Allows users to view item details.	View Item Context History Report	Allows access to view the item history in the item detail page.
View Item Redwood	Allows users to view item details.	View Item Redwood Associations	Allow access to view the item associations tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Attachments	Allow access to view the attachment tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Changes	Allow access to view the item changes tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Item Categories	Allow access to view the item category tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Items	Allow access to view the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Quality	Allow access to view the quality tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Relationships	Allow access to view the relationships tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Structures	Allow access to view the item structures tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Redwood Item Supplier Associations	Allows access to view Redwood item supplier associations for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	View Redwood Item Supplier Assoiciation Rest	Allows Redwood Rest services response to get requests for supplier associations for items.
View Item Redwood	Allows users to view item details.	View Redwood Revision Rest	Allows access to item revisions.
View Item Redwood	Allows users to view item details.	View Trading Community Organization	Allows exporting, searching, and viewing of organization details such as addresses, classifications, identifiers, and names.

Granted Role	Granted Role Description	Privilege	Privilege Description
View Item Redwood	Allows users to view item details.	View Trading Community Person	Allows exporting, searching, and viewing of person details such as addresses, classifications, identifiers, and names.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Corporate Marketing Manager job role.

Business Object	Policy Description	Policy Store Implementation
Activity	A Corporate Marketing Manager can delete activity a member of an access group associated to the activity with delete access	Role: Access Groups Enablement Privilege: Delete Activity (Data) Resource: Activity
Activity	A Corporate Marketing Manager can update activity a member of an access group associated to the activity with update access	Role: Access Groups Enablement Privilege: Update Activity (Data) Resource: Activity
Activity	A Corporate Marketing Manager can view activity a member of an access group associated to the activity	Role: Access Groups Enablement Privilege: View Activity (Data) Resource: Activity
Application Attachment	A Corporate Marketing Manager can delete application attachment for all application attachments of categories including campaign brief, internal document, sales collateral, and miscellaneous	Role: Corporate Marketing Manager Privilege: Delete Application Attachment Resource: Application Attachment
Application Attachment	A Corporate Marketing Manager can delete application attachment for all application attachments of categories including internal document, sales collateral, and miscellaneous	Role: Corporate Marketing Manager Privilege: Delete Application Attachment Resource: Application Attachment
Application Attachment	A Corporate Marketing Manager can read application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Contract View Access Across All Contracts Privilege: Read Application Attachment Resource: Application Attachment

Business Object	Policy Description	Policy Store Implementation
Application Attachment	A Corporate Marketing Manager can update application attachment for all application attachments of categories including campaign brief, internal document, sales collateral, and miscellaneous	Role: Corporate Marketing Manager Privilege: Update Application Attachment Resource: Application Attachment
Application Attachment	A Corporate Marketing Manager can update application attachment for all application attachments of categories including internal document, sales collateral, and miscellaneous	Role: Corporate Marketing Manager Privilege: Update Application Attachment Resource: Application Attachment
Application Attachment	A Corporate Marketing Manager can view application attachment for all application attachments of categories including campaign brief, internal document, sales collateral, and miscellaneous	Role: Corporate Marketing Manager Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment	A Corporate Marketing Manager can view application attachment for all application attachments of categories including internal document, sales collateral, and miscellaneous	Role: Corporate Marketing Manager Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment	A Corporate Marketing Manager can view application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Corporate Marketing Manager Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment Category	A Corporate Marketing Manager can delete application attachment category for all miscelleneous category attachments data	Role: Corporate Marketing Manager Privilege: Delete Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Corporate Marketing Manager can delete application attachment for all miscelleneous category attachments data	Role: Sales Lead Processing Privilege: Delete Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Corporate Marketing Manager can read application attachment for all miscelleneous category attachments data	Role: Sales Lead Processing Privilege: Read Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Corporate Marketing Manager can update application attachment category for all miscelleneous category attachments data	Role: Corporate Marketing Manager Privilege: Update Application Attachment Resource: Application Attachment Category

Business Object	Policy Description	Policy Store Implementation
Application Attachment Category	A Corporate Marketing Manager can update application attachment for all miscelleneous category attachments data	Role: Sales Lead Processing Privilege: Update Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Corporate Marketing Manager can view application attachment category for all miscelleneous category attachments data	Role: Corporate Marketing Manager Privilege: Read Application Attachment Resource: Application Attachment Category
Asset Export Object	A Corporate Marketing Manager can view asset export object for all asset export objects in the enterprise	Role: Marketing Sales Party Management Privilege: View Asset Export Object (Data) Resource: Asset Export Object
Asset Export Object	A Corporate Marketing Manager can view asset export object for all asset export objects in the enterprise	Role: Sales Party Management Privilege: View Asset Export Object (Data) Resource: Asset Export Object
Asset Export Object	A Corporate Marketing Manager can view asset export object for all asset export objects in the enterprise	Role: Sales Party Review Privilege: View Asset Export Object (Data) Resource: Asset Export Object
CRM Asset	A Corporate Marketing Manager can delete asset a member of an access group associated to the asset with delete access	Role: Access Groups Enablement Privilege: Delete Asset (Data) Resource: CRM Asset
CRM Asset	A Corporate Marketing Manager can update asset a member of an access group associated to the asset with update access	Role: Access Groups Enablement Privilege: Update Asset (Data) Resource: CRM Asset
CRM Asset	A Corporate Marketing Manager can view asset a member of an access group associated to the asset	Role: Access Groups Enablement Privilege: View Asset (Data) Resource: CRM Asset
Cases	A Corporate Marketing Manager can delete case header a member of an access group associated to the case with delete access	Role: Access Groups Enablement Privilege: Delete Case Header (Data) Resource: Cases

Business Object	Policy Description	Policy Store Implementation
Cases	A Corporate Marketing Manager can update case header a member of an access group associated to the case with update access	Role: Access Groups Enablement Privilege: Update Case Header (Data) Resource: Cases
Cases	A Corporate Marketing Manager can view case header a member of an access group associated to the case	Role: Access Groups Enablement Privilege: View Case Header (Data) Resource: Cases
Classification Code File Import Activity	A Corporate Marketing Manager can view classification code file import activity object type for all classification code file import activities of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Activity Object Type (Data) Resource: Classification Code File Import Activity
Classification Code File Import Mapping	A Corporate Marketing Manager can view classification code file import mapping object type for all classification code file import mappings of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Mapping Object Type (Data) Resource: Classification Code File Import Mapping
Classification Code File Import Object	A Corporate Marketing Manager can view classification code file import object type for all classification code file import objects of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Object Type (Data) Resource: Classification Code File Import Object
Consumer File Import Activity	A Corporate Marketing Manager can view consumer file import activity object type for all consumer file import activities of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Activity Object Type (Data) Resource: Consumer File Import Activity
Consumer File Import Mapping	A Corporate Marketing Manager can view consumer file import mapping object type for all consumer file import mappings of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Mapping Object Type (Data) Resource: Consumer File Import Mapping

Business Object	Policy Description	Policy Store Implementation
Consumer File Import Object	A Corporate Marketing Manager can view consumer file import object type for all consumer file import objects of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Object Type (Data) Resource: Consumer File Import Object
Contact File Import Activity	A Corporate Marketing Manager can view contact file import activity object type for all contact file import activities of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Activity Object Type (Data) Resource: Contact File Import Activity
Contact File Import Mapping	A Corporate Marketing Manager can view contact file import mapping object type for all contact file import mappings of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Mapping Object Type (Data) Resource: Contact File Import Mapping
Contact File Import Object	A Corporate Marketing Manager can view contact file import object type for all contact file import objects of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Object Type (Data) Resource: Contact File Import Object
Contract	A Corporate Marketing Manager can manage contract a member of an access group associated to the contract with full access	Role: Access Groups Enablement Privilege: Manage Contract (Data) Resource: Contract
Contract	A Corporate Marketing Manager can view contract a member of an access group associated to the contract	Role: Access Groups Enablement Privilege: View Contract (Data) Resource: Contract
Contract	A Corporate Marketing Manager can view contract for all business units	Role: Contract View Access Across All Contracts Privilege: View Contract (Data) Resource: Contract
Contract	A Corporate Marketing Manager can view contract for all business units	Role: Corporate Marketing Manager Privilege: View Contract (Data) Resource: Contract

Business Object	Policy Description	Policy Store Implementation
Contract Note	A Corporate Marketing Manager can view contract note for notes that are not private or private notes where they are the author.	Role: Contract View Access Across All Contracts Privilege: View Contract Note (Data) Resource: Contract Note
Contract Note	A Corporate Marketing Manager can view contract note for notes that are not private or private notes where they are the author.	Role: Corporate Marketing Manager Privilege: View Contract Note (Data) Resource: Contract Note
Conversation	A Corporate Marketing Manager can delete conversation a member of an access group associated to the conversation with delete access	Role: Access Groups Enablement Privilege: Delete Conversation (Data) Resource: Conversation
Conversation	A Corporate Marketing Manager can update conversation a member of an access group associated to the conversation with update access	Role: Access Groups Enablement Privilege: Update Conversation (Data) Resource: Conversation
Conversation	A Corporate Marketing Manager can view conversation a member of an access group associated to the conversation	Role: Access Groups Enablement Privilege: View Conversation (Data) Resource: Conversation
Conversation Message	A Corporate Marketing Manager can delete conversation message a member of an access group associated to the conversation message with delete access	Role: Access Groups Enablement Privilege: Delete Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Corporate Marketing Manager can update conversation message a member of an access group associated to the conversation message with update access	Role: Access Groups Enablement Privilege: Update Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Corporate Marketing Manager can view conversation message a member of an access group associated to the conversation message	Role: Access Groups Enablement Privilege: View Conversation Message (Data) Resource: Conversation Message
Customer File Import Activity	A Corporate Marketing Manager can view customer file import activity object type for all customer file import activities of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Activity Object Type (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Customer File Import Activity
Customer File Import Mapping	A Corporate Marketing Manager can view customer file import mapping object type for all customer file import mappings of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Mapping Object Type (Data) Resource: Customer File Import Mapping
Customer File Import Object	A Corporate Marketing Manager can view customer file import object type for all customer file import objects of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Object Type (Data) Resource: Customer File Import Object
Deal Registration Product	A Corporate Marketing Manager can manage deal registration product a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Product	A Corporate Marketing Manager can view deal registration product a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Summary	A Corporate Marketing Manager can update deal registration approval details a member of an access group associated to the deal registration with update or full access and deal is in pending approval status	Role: Access Groups Enablement Privilege: Update Deal Registration Approval Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Corporate Marketing Manager can update deal registration deal details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Corporate Marketing Manager can update deal registration deal details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Corporate Marketing Manager can update deal registration opportunity details a member	Role: Access Groups Enablement

Business Object	Policy Description	Policy Store Implementation
	of an access group associated to the deal registration with full access	Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Corporate Marketing Manager can update deal registration opportunity details a member of an access group associated to the deal registration with update access and deal is in pending approval or approved status	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Corporate Marketing Manager can update deal registration partner details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status and the deal is created by an internal user	Role: Access Groups Enablement Privilege: Update Deal Registration Partner Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Corporate Marketing Manager can view deal registration a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration (Data) Resource: Deal Registration Summary
Deal Registration Team	A Corporate Marketing Manager can manage deal registration team a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Team (Data) Resource: Deal Registration Team
Deal Registration Team	A Corporate Marketing Manager can view deal registration team a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Team (Data) Resource: Deal Registration Team
Express Report Definitions	A Corporate Marketing Manager can delete express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with delete access	Role: Access Groups Enablement Privilege: Delete Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Corporate Marketing Manager can update express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with update access	Role: Access Groups Enablement Privilege: Update Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Corporate Marketing Manager can view express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting	Role: Access Groups Enablement Privilege: View Express Report (Data) Resource: Express Report Definitions

Business Object	Policy Description	Policy Store Implementation
Field Service Work Order	A Corporate Marketing Manager can delete field service work order a member of an access group associated to the field service work order with delete access	Role: Access Groups Enablement Privilege: Delete Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Corporate Marketing Manager can update field service work order a member of an access group associated to the field service work order with update access	Role: Access Groups Enablement Privilege: Update Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Corporate Marketing Manager can view field service work order a member of an access group associated to the field service work order	Role: Access Groups Enablement Privilege: View Field Service Work Order (Data) Resource: Field Service Work Order
File Export Batch	A Corporate Marketing Manager can view file export batch for all export batches	Role: Marketing Sales Party Management Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Batch	A Corporate Marketing Manager can view file export batch for all export batches	Role: Sales Party Management Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Batch	A Corporate Marketing Manager can view file export batch for all export batches	Role: Sales Party Review Privilege: View File Export Batch (Data) Resource: File Export Batch
File Import Activity	A Corporate Marketing Manager can view file import activity for all standard file import activities that are accessible for corporate marketing manager	Role: Corporate Marketing Manager Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Activity	A Corporate Marketing Manager can view standard file import activity object type for all standard file import activities that are accessible for sales lead processing duty	Role: Sales Lead Processing Privilege: View Standard File Import Activity Object Type Resource: File Import Activity

Business Object	Policy Description	Policy Store Implementation
File Import Activity	A Corporate Marketing Manager can view standard file import activity object type for all standard file import activities that are accessible for trading community batch import management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Mapping	A Corporate Marketing Manager can view file import mapping for all standard file import maps that are accessible for corporate marketing manager	Role: Corporate Marketing Manager Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
File Import Mapping	A Corporate Marketing Manager can view standard file import mapping object type for all standard file import maps that are accessible for sales lead processing duty	Role: Sales Lead Processing Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
File Import Mapping	A Corporate Marketing Manager can view standard file import mapping object type for all standard file import maps that are accessible for trading community batch import management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
Group Customer File Import Activity	A Corporate Marketing Manager can view group customer file import activity object type for all group customer file import activities of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Activity Object Type (Data) Resource: Group Customer File Import Activity
Group Customer File Import Mapping	A Corporate Marketing Manager can view group customer file import mapping object type for all group customer file import mappings of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Mapping Object Type (Data) Resource: Group Customer File Import Mapping
Group Customer File Import Object	A Corporate Marketing Manager can view group customer file import object type for all group customer file import objects of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Object Type (Data) Resource: Group Customer File Import Object
Hierarchy File Import Activity	A Corporate Marketing Manager can view hierarchy file import activity object type for all	Role: Trading Community Import Batch Management

Business Object	Policy Description	Policy Store Implementation
	hierarchy file import activities of object type 'hierarchy'	Privilege: View Hierarchy File Import Activity Object Type (Data) Resource: Hierarchy File Import Activity
Hierarchy File Import Activity	A Corporate Marketing Manager can view standard file import activity object type for all standard file import activities that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: Hierarchy File Import Activity
Hierarchy File Import Mapping	A Corporate Marketing Manager can view hierarchy file import mapping object type for all hierarchy file import mappings of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Mapping Object Type (Data) Resource: Hierarchy File Import Mapping
Hierarchy File Import Mapping	A Corporate Marketing Manager can view standard file import mapping object type for all standard file import maps that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: Hierarchy File Import Mapping
Hierarchy File Import Object	A Corporate Marketing Manager can view hierarchy file import object type for all hierarchy file import objects of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Object Type (Data) Resource: Hierarchy File Import Object
Hierarchy Node File Import Activity	A Corporate Marketing Manager can view hierarchy node file import activity object type for all hierarchy node file import activities of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Activity Object Type (Data) Resource: Hierarchy Node File Import Activity
Hierarchy Node File Import Activity	A Corporate Marketing Manager can view standard file import activity object type for all standard file import activities that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: Hierarchy Node File Import Activity
Hierarchy Node File Import Mapping	A Corporate Marketing Manager can view hierarchy node file import mapping object type	Role: Trading Community Import Batch Management

Business Object	Policy Description	Policy Store Implementation
	for all hierarchy node file import mappings of object type 'hierarchy node'	Privilege: View Hierarchy Node File Import Mapping Object Type (Data) Resource: Hierarchy Node File Import Mapping
Hierarchy Node File Import Mapping	A Corporate Marketing Manager can view standard file import mapping object type for all standard file import maps that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: Hierarchy Node File Import Mapping
Hierarchy Node File Import Object	A Corporate Marketing Manager can view hierarchy node file import object type for all hierarchy node file import objects of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Object Type (Data) Resource: Hierarchy Node File Import Object
Legal Entity File Import Activity	A Corporate Marketing Manager can view legal entity file import activity object type for all legal entity file import activities of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Activity Object Type (Data) Resource: Legal Entity File Import Activity
Legal Entity File Import Mapping	A Corporate Marketing Manager can view legal entity file import mapping object type for all legal entity file import mappings of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Mapping Object Type (Data) Resource: Legal Entity File Import Mapping
Legal Entity File Import Object	A Corporate Marketing Manager can view legal entity file import object type for all legal entity file import objects of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Object Type (Data) Resource: Legal Entity File Import Object
MDF Budget	A Corporate Marketing Manager can delete marketing budget a member of an access group associated to the mdf budget with delete access and budget status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Budget (Data) Resource: MDF Budget
MDF Budget	A Corporate Marketing Manager can update marketing budget a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: MDF Budget
MDF Budget	A Corporate Marketing Manager can view marketing budget a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget (Data) Resource: MDF Budget
MDF Budget Team	A Corporate Marketing Manager can delete marketing budget team a member of an access group associated to the mdf budget with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Corporate Marketing Manager can update marketing budget team a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Corporate Marketing Manager can view marketing budget team a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Claim	A Corporate Marketing Manager can delete marketing claim a member of an access group associated to the mdf claim with delete or full access and the claim status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Claim (Data) Resource: MDF Claim
MDF Claim	A Corporate Marketing Manager can update marketing claim approval details a member of an access group associated to the mdf claim with update or full access and the claim status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Claim Approval Details (Data) Resource: MDF Claim
MDF Claim	A Corporate Marketing Manager can update marketing claim details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Details (Data) Resource: MDF Claim
MDF Claim	A Corporate Marketing Manager can update marketing claim partner details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Partner Details (Data) Resource: MDF Claim

Business Object	Policy Description	Policy Store Implementation
MDF Claim	A Corporate Marketing Manager can view marketing claim a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim (Data) Resource: MDF Claim
MDF Claim Settlement	A Corporate Marketing Manager can delete marketing claim settlement a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Corporate Marketing Manager can update marketing claim settlement a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Corporate Marketing Manager can update marketing claim settlement details a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement Details (Data) Resource: MDF Claim Settlement

Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Delete Contract	Allows the deletion of draft or canceled contracts.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Delete Contract Documents	Not Available

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Delete Supporting Documents	Not Available
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Edit Contract	Allows the editing of contracts, as well as other contract management tasks.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Edit Contract in Wizard	Provides the ability to edit a contract using a wizard.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Generate Contract Summary	Allows generating contract summary using AI
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Generate PDF Contract for Text Search	Allows the running of the process to generate PDFs of draft contracts, or contracts under amendment, so they are available during text searches.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Contract Deliverable	Allows the management of contract terms deliverables after contract approval. This includes setting the status, adding comments, and uploading attachments for contractual deliverables such as proof of insurance and inspections.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Contract Documents	Not Available
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Contract Template	Allows management of a contract templates.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Contract Work Area	Allows the navigation to the contracts work area. This work area provides quick access to relevant tasks and contracts.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Customer Assets	Allows creation and update of customer assets, related configurations and structures.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Electronic Signature	Allows management of electronic signature on a contract.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Meter Reading History	Allows the management of meter reading history.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Meters	Allow the creation and update of meters.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Sales Credits	Not Available
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Supporting Documents	Not Available
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Merge Contract	Allows merging contracts
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Purge Contract Temporary Tables	Purges all contract temporary tables.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Record Meter Readings	Allows the recording of meter readings.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Renew Contract	Allows renewal of a contract
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Search Contract Template	Allows search of a contract template.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Search Contracts	Allows searches in contracts.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Send Contract Expiration Notification	Allows the running of the process for sending automatic notifications about contracts with impending expiration dates.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	View Contract	Allows viewing and printing of a contract and its history, including the contract's financial summary.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Search and View Access	Searches and views contracts for the assigned business units.	Export Customer Account	Not Available
Contract Search and View Access	Searches and views contracts for the assigned business units.	Export Customer Account Contact	Allows the export of customer account contact information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Export Customer Account Relationship	Allows the export of customer account contact relationship information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Manage Contract Work Area	Allows the navigation to the contracts work area. This work area provides quick access to relevant tasks and contracts.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Contract Template	Allows search of a contract template.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Contract Text	This privilege is used to search contracts by text
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Contract by Text	Allows searches in contracts by text.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Contracts	Allows searches in contracts.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Customer Account Relationships	Allows the search of customer account relationships. If assigning, also assign the ability to view the customer account relationship.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Customer Account Site	Allows the search of customer account sites. If assigning, also assign the ability to view the customer account site.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Purchase Agreement	Allows a procurement agent to search for purchase agreements including blankets and contracts.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Trading Community Organization	Allows the search of organizations. If assigning, also assign the ability to view the trading community organization.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Contract	Allows viewing and printing of a contract and its history, including the contract's financial summary.

Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Information	Not Available
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Relationship	Allows the viewing of customer account relationship information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Relationships	Allows the viewing of customer account relationship information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Site	Allows the viewing of the customer account site information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Site Use	Allows the viewing of the customer account site use information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Assets	Allows query and view of customer assets, related configurations and structures.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Meter Reading History	Allow the query and view of meter reading history.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Meters	Allow the query and view of meters.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Purchase Agreement	Allows a user to review a blanket or contract purchase agreement.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Purchase Order	Allows a user to review a purchase order.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	(OBSOLETE) Define Contract Collaboration Configuration	Allows the configuration of contract collaboration.
Contract Setup	Contract Setup	Administer Sandbox	Allows administration of all sandboxes.
Contract Setup	Contract Setup	Build Keyword Search Index for the Contract Terms Library	Allows the running of processes to synchronize and optimize the keyword index for clause and terms template searches in the Contract Terms Library.
Contract Setup	Contract Setup	Configure Contract UI	Allows the configuration of contract UI
Contract Setup	Contract Setup	Define Endpoint and Security Policy Information	Allows definition of endpoint and security policy information for an enterprise application.
Contract Setup	Contract Setup	Define Project Contract Billing Configuration	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Generate PDF Contract for Text Search	Allows the running of the process to generate PDFs of draft contracts, or contracts under amendment, so they are available during text searches.
Contract Setup	Contract Setup	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Contract Setup	Contract Setup	Manage Application Common Lookup	Not Available
Contract Setup	Contract Setup	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Contract Setup	Contract Setup	Manage Application Document Sequence	Manage implementation of Application Document Sequences. Document Sequences are identifiers guarenteed to be unique, time-ordered, and gapless. This is in contrast to a database sequence which (for performance purposes) may contain gaps and which might not be ordered by time of document creation. Examples would include ID numbers for traffic tickets or other legal documents where

Granted Role	Granted Role Description	Privilege	Privilege Description
			gaps in the record may trigger an investigation.
Contract Setup	Contract Setup	Manage Application Document Sequence Category	Manage document sequence categories
Contract Setup	Contract Setup	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Contract Setup	Contract Setup	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Contract Setup	Contract Setup	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Contract Setup	Contract Setup	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Contract Setup	Contract Setup	Manage Contract Currency Conversion Rate Types	Allows the definition of user-defined currency conversion rate types.
Contract Setup	Contract Setup	Manage Contract Customer Account	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Customer Account Site Usages	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Defaults	Allows management of contract defaults
Contract Setup	Contract Setup	Manage Contract Global Employee	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Interaction Reference Mapping	Allows the mapping of interaction types to applications where the interaction types can be used.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Contract Layout Templates	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Item	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Type	Allows creating and managing of contract line types such as product and service.
Contract Setup	Contract Setup	Manage Contract Note Type Mapping	Allows creating and managing of the mapping that provides a tailored list of note type values for contracts. When no mapping is specified, note type values mapped to the object Note are used.
Contract Setup	Contract Setup	Manage Contract Organization Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Contact	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Location	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Role and Contact Sources	Allows the specification of the data sources for parties and contacts. A data source specifies the available list of values for parties or contacts of a given role.
Contract Setup	Contract Setup	Manage Contract Payment Terms	Allows creating and managing of payables payment terms for use in supplier contracts.
Contract Setup	Contract Setup	Manage Contract Person Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Request Type	Manage contract request types.
Contract Setup	Contract Setup	Manage Contract Risk Event	Allows creating and managing of contract risk events that can be associated to a contract.
Contract Setup	Contract Setup	Manage Contract Standard Clauses, Templates, and Contract Expert Rules	Allows the viewing of this task in the Functional Setup Manager.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Contract Type	Allows the management of contract types to specify properties of different contracts such as the type of permitted contract lines, party roles, contract validation checks, and the contract acceptance and signature requirements.
Contract Setup	Contract Setup	Manage Contract and Pricing Integration	Not Available
Contract Setup	Contract Setup	Manage Coverage Times	Allows management of coverage times
Contract Setup	Contract Setup	Manage Default Coverage	Allows management of default coverage
Contract Setup	Contract Setup	Manage Electronic Signature Setup	Allows setting up electronic signature
Contract Setup	Contract Setup	Manage Key Terms and Prompts	Allows the definition of contract key terms and prompts. This also includes adding key terms to contract types.
Contract Setup	Contract Setup	Manage Matrix Classes	Allows creation, update, deletion, copy, and viewing of all matrix classes and child entities.
Contract Setup	Contract Setup	Manage Pricing Algorithms	Allows creation, update, deletion, copy, and viewing of all algorithms and child entities.
Contract Setup	Contract Setup	Manage Service Mappings	Allows creation, update, deletion, copy, and viewing of all service mappings and child entities.
Contract Setup	Contract Setup	Manage Standard Coverage	Allows management of standard coverage
Contract Setup	Contract Setup	Manage Time Unit Mappings	Allows management of time unit mappings
Contract Setup	Contract Setup	Manage User Statuses and Transitions	Manage user statuses and transitions
Contract Setup	Contract Setup	Process Installed Base updates	Processes installed base updates.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Specify Customer Contract Management Business Function Properties	Allows specifying and managing of currency conversion rules, project billing rules and default values, adoption rules for contract standards and policies, and other contract management functions during business unit setup.
Contract Setup	Contract Setup	Specify Procurement Contract Management Business Function Properties	Allows specification of supplier contract management properties during business unit setup. This includes the specification of contract standards, policies, and adoption rules.
Contract Setup	Contract Setup	Track Purchasing Activity for Contract Fulfillment Line	Allows the running of the process that retrieves the number and the status of the purchasing document created by the integrated procurement application from the contract fulfillment line.
Contract Setup	Contract Setup	Update Contract Status	Updates the status of contracts that are dependent on time. For example, updates the status to expired when the end date is reached.
Contract Setup	Contract Setup	Update Enterprise Application Deployment Information	Allows updating deployment information of an enterprise application.
Contract Setup	Contract Setup	Use Generative AI Features in Sales	Allows users to use generative ai features
Contract Setup	Contract Setup	View Administration Link	Privilege to view administration link in UI shell
Contract Setup	Contract Setup	View Contract Type	Allows viewing of the contract type and its attributes.
Customer Contract Administrator	Works with sales account teams and legal to negotiate and author customer contracts. Tracks critical contract milestones, service level agreements, and assists account teams during contract renewals and amendments.	Close Contract	Allows the closing of contracts and contract lines.

Granted Role	Granted Role Description	Privilege	Privilege Description
	agreements, and assists account teams during contract renewals and amendments.		
Customer Contract Administrator	Works with sales account teams and legal to negotiate and author customer contracts. Tracks critical contract milestones, service level agreements, and assists account teams during contract renewals and amendments.	Enable Sell Intent	Allows all actions permitted by other privileges for contracts with a sell intent. For example, granting this privilege to an individual with a view privilege permits the viewing of customer contracts. Granting this privilege to an individual with the delete contracts privilege permits the deletion of customer contracts.
Customer Contract Administrator	Works with sales account teams and legal to negotiate and author customer contracts. Tracks critical contract milestones, service level agreements, and assists account teams during contract renewals and amendments.	Include Project Attributes in Contract Search Pages	Allows the inclusion of project attributes in contract search criteria. Without this privilege, no project attributes are enabled as search criteria.
Customer Contract Administrator	Works with sales account teams and legal to negotiate and author customer contracts. Tracks critical contract milestones, service level agreements, and assists account teams during contract renewals and amendments.	Run CRM Export Process	This privilege would grant a user the ability to schedule CRM object to export to a file
Customer Contract Administrator	Works with sales account teams and legal to negotiate and author customer contracts. Tracks critical contract milestones, service level agreements, and assists account teams during contract renewals and amendments.	Run File Import Scheduler	Allows scheduling and monitoring the process that schedules file import activities.
Customer Contract Administrator	Works with sales account teams and legal to negotiate and author customer contracts. Tracks critical contract milestones, service level agreements, and assists account teams during contract renewals and amendments.	Set Up CRM Objects for Export	This privilege would grant a user the ability to register CRM objects for Export
Customer Contract Administrator	Works with sales account teams and legal to negotiate and author customer contracts. Tracks critical contract milestones, service level agreements, and assists account teams during contract renewals and amendments.	Set Up File Import Activity	Allows creating and maintaining import activities that contain process criteria, file mapping, and schedule to import external files containing business objects, such as customers and contacts, into staging tables.

Product Search	Manages product searches.	Access HCM Common Components	Allows access to HCM common components.
Product Search	Manages product searches.	Access Product Development Configurations Using a REST Service	Permits access to configure data in Product Development using REST services, including master organization setup.
Product Search	Manages product searches.	GET Product Management Index REST	Allows access to view indexed attributes.
Product Search	Manages product searches.	Get Item Index Available Attributes REST	Allows access to view available attributes for item.
Product Search	Manages product searches.	Get Redwood Settings REST	Allows query access to settings through the REST API.
Product Search	Manages product searches.	Get Search View REST	Allows query of search views.
Product Search	Manages product searches.	Manage Search Consumer Applications Rest	Allows access to view and manage Search Consumer Applications for application sets that required for picker applications.
Product Search	Manages product searches.	Manage Search View REST	Allows access to view and manage search views.
Product Search	Manages product searches.	Manage System Searches	Allows users to manage HCM system searches.

Granted Role	Granted Role Description	Privilege	Privilege Description
Product Search	Manages product searches.	Use REST Service - Saved Searches	Allows the user to call all methods associated with the Saved Searches REST Service.
Product Search	Manages product searches.	View Advanced Trading Partner Item Search	Allow access to search Trading Partner Items.
Product Search	Manages product searches.	View Product Management Search	Allows access to view Product Management Search.
Resource Administration	Administers resource information.	Add Trading Community Resource to My Social Network	Allows the addition of a resource to their social network.
Resource Administration	Administers resource information.	Administer Sandbox	Allows administration of all sandboxes.
Resource Administration	Administers resource information.	Contact Trading Community Resource	Allows emailing, calling, and instant messenging a resource. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	Edit Trading Community Resource Profile	Allows the update of resource profile information. If assigning, also assign the ability to view the trading community resource profile.
Resource Administration	Administers resource information.	Enter Trading Community Resource Information	Allows the specification of resource information.
Resource Administration	Administers resource information.	Identify Trading Community Person as a Trading Community Resource	Allows the identification of existing people as resources.
Resource Administration	Administers resource information.	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Resource Administration	Administers resource information.	Manage Application Attachment Category	Manage application attachment categories
Resource Administration	Administers resource information.	Manage Application Attachment Entity	Manage application attachment entities
Resource Administration	Administers resource information.	Manage Application Common Lookup	Not Available

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Application Data Security Policy	Allows management of security policies that restrict access to functions and data, such as preventing particular values from being accessed in a chart of account segment.
Resource Administration	Administers resource information.	Manage Application Database Resource	Manage application database resources for data security
Resource Administration	Administers resource information.	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Resource Administration	Administers resource information.	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Resource Administration	Administers resource information.	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Resource Administration	Administers resource information.	Manage Application Message	Manage an end-user message, shown in the User Interface. Messages can have different types, such as Error, Warning, Information. Messages are translated and can be re-used across products. Exampe: "File not found", "Table '&TABLE' does not exist".
Resource Administration	Administers resource information.	Manage Application Profile Category	Manage application profile option categories
Resource Administration	Administers resource information.	Manage Application Profile Option	Manage Application Profile Options: Manage the level the value can be changed
Resource Administration	Administers resource information.	Manage Application Reference Data Set	Manage Application Reference Data set. Maintain reference data set attributes.
Resource Administration	Administers resource information.	Manage Application Reference Data Set Assignment	Manage Application Reference Data Set Assignments. Create and edit reference data set assignments.
Resource Administration	Administers resource information.	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled

Granted Role	Granted Role Description	Privilege	Privilege Description
			Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Resource Administration	Administers resource information.	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Resource Administration	Administers resource information.	Manage Application Taxonomy	Manage hierarchical classification of Applications Taxonomy tree. A node in the Application Taxonomy Tree can be a Product Line, Product Family, Product or Logical Business Area.
Resource Administration	Administers resource information.	Manage Customer Data Management Foundation Custom Objects	Allows access to custom objects in Customer Data Management Foundation.
Resource Administration	Administers resource information.	Manage Goal Management Notifications	Manage Goal Management Notifications
Resource Administration	Administers resource information.	Manage My Application Profile Values	Manage My Application Profile Values. Access to manage profile values at the user level.
Resource Administration	Administers resource information.	Manage Person Talent Profile	Allows management of talent profile for a person.
Resource Administration	Administers resource information.	Manage Talent Education Establishment	Allows management of talent educational establishments.
Resource Administration	Administers resource information.	Manage Talent Notifications	Allows management of talent management notifications.
Resource Administration	Administers resource information.	Manage Talent Profile Content Item	Allows management of talent profile content items.
Resource Administration	Administers resource information.	Manage Talent Profile Rating Model	Allows management of talent profile rating models.
Resource Administration	Administers resource information.	Manage Talent Profile Sources	Allows management of talent profile subscribers.
Resource Administration	Administers resource information.	Manage Trading Community Resource	Allows the specification of resources for any employees or partner members who are to be

Granted Role	Granted Role Description	Privilege	Privilege Description
			associated to leads, opportunities, and territories and given sales credits or compensated for that work.
Resource Administration	Administers resource information.	Manage Trading Community Resource Address	Allows the management of resource addresses. If assigning, also assign the ability to view the trading community resource address.
Resource Administration	Administers resource information.	Manage Trading Community Resource Contact Information	Allows the management of resource contact information. If assigning, also assign the ability to view the trading community resource contact information.
Resource Administration	Administers resource information.	Manage Trading Community Resource History	Allows the management of resource historical information. If assigning, also assign the ability to view the trading community resource history.
Resource Administration	Administers resource information.	Manage Trading Community Resource Lookups	Allows the specification of lookup values that provide choices when defining resources, such as party usages available for resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note	Allows the specification of resource notes. If assigning also assign the ability to view the trading community resource note.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Descriptive Flexfields	Allows the specification of additional fields which enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type	Allows the specification of note types, such as person details, to categorize notes entered for resources. When mapped, note type values are limited to resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type Mapping	Allows the specification of the mapping that provides a tailored list of note type values for resources. When no mapping is specified, note type values mapped to the object Note are used.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Trading Community Resource Organization Memberships	Allows the specification of resource organization members. If assigning, also assign the ability to view the trading community resource organization memberships.
Resource Administration	Administers resource information.	Manage Trading Community Resource Role Assignments	Allows the management of resource role assignments. If assigning also assign the ability to view the trading community resource role assignments.
Resource Administration	Administers resource information.	Manage Trading Community Resource Sales Representative Information	Allows the management of resource saleperson setup information. If assigning, also assign the ability to view the trading community resource sales representative information.
Resource Administration	Administers resource information.	Manage Trading Community Resource Skills	Allows the management of resource skills information. If assigning, also assign the ability to view the trading community resource skills.
Resource Administration	Administers resource information.	Manage Trading Community Resource Social Network	Allows the management of a resource social network. If assigning, also assign the ability to view the trading community resource social network.
Resource Administration	Administers resource information.	Manage Trading Community Resource Team Memberships	Allows the management of resource team members. If assigning also assign the ability to view the trading community resource team memberships.
Resource Administration	Administers resource information.	Remove Trading Community Resource	Allows the removal of resources.
Resource Administration	Administers resource information.	Reset Password	Allows reset password links to be emailed to users.
Resource Administration	Administers resource information.	Search Trading Community Resource	Allows the search of resources.
Resource Administration	Administers resource information.	Upload Trading Community Resource Picture	Allows the upload of resource pictures. If assigning, also assign the ability to view trading community resource details.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	View Administration Link	Privilege to view administration link in UI shell
Resource Administration	Administers resource information.	View Trading Community Resource Address	Allows viewing of resource addresses. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Administration Detail Information	Allows viewing of resource administration setup information.
Resource Administration	Administers resource information.	View Trading Community Resource Collaboration Information	Allows viewing of resource social network information.
Resource Administration	Administers resource information.	View Trading Community Resource Contact Information	Allows viewing of resource contact information.
Resource Administration	Administers resource information.	View Trading Community Resource Details	Allows viewing of resource basic information, such as name, primary phone, primary address, and primary e-mail.
Resource Administration	Administers resource information.	View Trading Community Resource History	Allows viewing of archived resource information.
Resource Administration	Administers resource information.	View Trading Community Resource Note	Allows viewing of resource notes. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Organization Memberships	Allows viewing of sales, marketing, and partner organization information.
Resource Administration	Administers resource information.	View Trading Community Resource Overview Information	Allows viewing of an overview for partner, marketing, and sales organization transaction information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Profile	Allows viewing of resource profile information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Role Assignments	Allows viewing of resource role assignments. If assigning, also assign the ability to view trading community resource details.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	View Trading Community Resource Sales Representative Information	Allows viewing of salesperson setup information, such as sales credits.
Resource Administration	Administers resource information.	View Trading Community Resource Skills	Allows viewing of resource skills information, such as language, competencies, and product expertise. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Social Network	Allows viewing of a resource's social network.
Resource Administration	Administers resource information.	View Trading Community Resource Team Memberships	Allows viewing of resource team memberships. If assigning, also assign the ability to view trading community resource details.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Carriers List of Values by Web Service	Allow viewing carriers list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Default Expenditure Types by Web Service	Allow viewing Default Expenditure Types by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Inventory Organization Parameters List of Values by Web Service	Allow viewing inventory organization parameters list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Inventory Organizations List of Values by Web Service	Allow viewing inventory organizations list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Plant Organizations List of Values by Web Service	Allow viewing plant organizations list of values by web service.

Granted Role	Granted Role Description	Privilege	Privilege Description
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Plant Parameters List of Values by Web Service	Allow viewing plant parameters list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Project Attribute Defaults by Web Service	Allow viewing Project Attribute Defaults by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Project Type Cost Exclusions by Web Service	Allow viewing Project Type Cost Exclusions by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Schedules by Web Service	Allow viewing schedules by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Transit Times by Web Service	Allow viewing Transit Times by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Unit Of Measure Conversion List of Values by Web Service	Allow viewing unit of measure conversion list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Units Of Measure List of Values by Web Service	Allow viewing units of measure list of values by web service.
View Item Redwood	Allows users to view item details.	Get Redwood Settings REST	Allows query access to settings through the REST API.
View Item Redwood	Allows users to view item details.	Manage Subscription Setup	Manage subscription setup

Granted Role	Granted Role Description	Privilege	Privilege Description
View Item Redwood	Allows users to view item details.	View Item Context History Report	Allows access to view the item history in the item detail page.
View Item Redwood	Allows users to view item details.	View Item Redwood Associations	Allow access to view the item associations tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Attachments	Allow access to view the attachment tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Changes	Allow access to view the item changes tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Item Categories	Allow access to view the item category tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Items	Allow access to view the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Quality	Allow access to view the quality tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Relationships	Allow access to view the relationships tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Structures	Allow access to view the item structures tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Redwood Item Supplier Associations	Allows access to view Redwood item supplier associations for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	View Redwood Item Supplier Assoiciation Rest	Allows Redwood Rest services response to get requests for supplier associations for items.
View Item Redwood	Allows users to view item details.	View Redwood Revision Rest	Allows access to item revisions.
View Item Redwood	Allows users to view item details.	View Trading Community Organization	Allows exporting, searching, and viewing of organization details such as addresses, classifications, identifiers, and names.

Granted Role	Granted Role Description	Privilege	Privilege Description
View Item Redwood	Allows users to view item details.	View Trading Community Person	Allows exporting, searching, and viewing of person details such as addresses, classifications, identifiers, and names.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Customer Contract Administrator job role.

Business Object	Policy Description	Policy Store Implementation
Activity	A Customer Contract Administrator can delete activity a member of an access group associated to the activity with delete access	Role: Access Groups Enablement Privilege: Delete Activity (Data) Resource: Activity
Activity	A Customer Contract Administrator can update activity a member of an access group associated to the activity with update access	Role: Access Groups Enablement Privilege: Update Activity (Data) Resource: Activity
Activity	A Customer Contract Administrator can view activity a member of an access group associated to the activity	Role: Access Groups Enablement Privilege: View Activity (Data) Resource: Activity
Activity	A Customer Contract Administrator can view activity for all activities in the enterprise	Role: Contract Search and View Access Privilege: View Activity (Data) Resource: Activity
Activity	A Customer Contract Administrator can view activity for all activities in the enterprise	Role: Customer Contract Administrator Privilege: View Activity (Data) Resource: Activity
Application Attachment	A Customer Contract Administrator can read application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Contract Search and View Access Privilege: Read Application Attachment Resource: Application Attachment

Business Object	Policy Description	Policy Store Implementation
Application Attachment	A Customer Contract Administrator can view application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Customer Contract Administrator Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment Category	A Customer Contract Administrator can delete application attachment category for all miscelleneous category attachments data	Role: Customer Contract Administrator Privilege: Delete Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Customer Contract Administrator can update application attachment category for all miscelleneous category attachments data	Role: Customer Contract Administrator Privilege: Update Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Customer Contract Administrator can view application attachment category for all miscelleneous category attachments data	Role: Customer Contract Administrator Privilege: Read Application Attachment Resource: Application Attachment Category
Application Document Sequence Category	A Customer Contract Administrator can manage application document sequence category for all applications common applications data	Role: Contract Setup Privilege: Manage Application Document Sequence Category (Data) Resource: Application Document Sequence Category
Application Document Sequence Category	A Customer Contract Administrator can manage application document sequence category for all applications common applications data	Role: Customer Contract Administrator Privilege: Manage Application Document Sequence Category (Data) Resource: Application Document Sequence Category
Application Flexfield Value Set	A Customer Contract Administrator can manage application flexfield value set for all applications common applications data	Role: Customer Contract Administrator Privilege: Manage Application Flexfield Value Set (Data) Resource: Application Flexfield Value Set
Application Profile Value	A Customer Contract Administrator can delete application profile value for all applications common applications data	Role: Customer Contract Administrator Privilege: Delete Application Profile Value (Data) Resource: Application Profile Value

Business Object	Policy Description	Policy Store Implementation
Application Profile Value	A Customer Contract Administrator can update application profile value for all applications common applications data	Role: Customer Contract Administrator Privilege: Update Application Profile Value (Data) Resource: Application Profile Value
Assignment Grade	A Customer Contract Administrator can choose assignment grade for grades in their grade security profile	Role: Customer Contract Administrator Privilege: Choose Assignment Grade (Data) Resource: Assignment Grade
Business Unit	A Customer Contract Administrator can choose business unit for business units in their organization security profile	Role: Customer Contract Administrator Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
Business Unit	A Customer Contract Administrator can choose business unit organization for business units in their organization security profile	Role: Resource Administration Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
CRM Asset	A Customer Contract Administrator can delete asset a member of an access group associated to the asset with delete access	Role: Access Groups Enablement Privilege: Delete Asset (Data) Resource: CRM Asset
CRM Asset	A Customer Contract Administrator can update asset a member of an access group associated to the asset with update access	Role: Access Groups Enablement Privilege: Update Asset (Data) Resource: CRM Asset
CRM Asset	A Customer Contract Administrator can view asset a member of an access group associated to the asset	Role: Access Groups Enablement Privilege: View Asset (Data) Resource: CRM Asset
Cases	A Customer Contract Administrator can delete case header a member of an access group associated to the case with delete access	Role: Access Groups Enablement Privilege: Delete Case Header (Data) Resource: Cases
Cases	A Customer Contract Administrator can update case header a member of an access group associated to the case with update access	Role: Access Groups Enablement Privilege: Update Case Header (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Cases
Cases	A Customer Contract Administrator can view case header a member of an access group associated to the case	Role: Access Groups Enablement Privilege: View Case Header (Data) Resource: Cases
Contract	A Customer Contract Administrator can manage contract a member of an access group associated to the contract with full access	Role: Access Groups Enablement Privilege: Manage Contract (Data) Resource: Contract
Contract	A Customer Contract Administrator can manage contract for the business units for which they are authorized	Role: Contract Amendment Privilege: Manage Contract (Data) Resource: Contract
Contract	A Customer Contract Administrator can manage contract for the business units for which they are authorized	Role: Contract Authoring Privilege: Manage Contract (Data) Resource: Contract
Contract	A Customer Contract Administrator can manage contract for the business units for which they are authorized	Role: Customer Contract Administrator Privilege: Manage Contract (Data) Resource: Contract
Contract	A Customer Contract Administrator can view contract a member of an access group associated to the contract	Role: Access Groups Enablement Privilege: View Contract (Data) Resource: Contract
Contract	A Customer Contract Administrator can view contract for the business units for which they are authorized	Role: Contract Search and View Access Privilege: View Contract (Data) Resource: Contract
Contract	A Customer Contract Administrator can view contract for the business units for which they are authorized	Role: Customer Contract Administrator Privilege: View Contract (Data) Resource: Contract
Contract Expert Rule	A Customer Contract Administrator can view contract expert rule for all the business units	Role: Customer Contract Administrator Privilege: View Contract Terms Library (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Contract Expert Rule
Contract Expert Rule	A Customer Contract Administrator can view contract terms library for all the business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data) Resource: Contract Expert Rule
Contract Export Object	A Customer Contract Administrator can manage contract export object for all the contract export objects	Role: Customer Contract Administrator Privilege: View Contract Export Object (Data) Resource: Contract Export Object
Contract File Import Object	A Customer Contract Administrator can view contract file import object for all contract file import objects	Role: Customer Contract Administrator Privilege: View Contract Import (Data) Resource: Contract File Import Object
Contract Library Clause	A Customer Contract Administrator can manage contract library clause for all non standard clauses irrespective of business unit	Role: Customer Contract Administrator Privilege: Manage Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Customer Contract Administrator can manage contract terms library for all non standard clauses irrespective of business unit	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: Manage Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Customer Contract Administrator can view contract library clause for all business units	Role: Customer Contract Administrator Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Customer Contract Administrator can view contract terms library for all business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause Folder	A Customer Contract Administrator can view contract library clause folder for all the business units	Role: Customer Contract Administrator Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause Folder

Business Object	Policy Description	Policy Store Implementation
Contract Library Clause Folder	A Customer Contract Administrator can view contract terms library for all the business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause Folder
Contract Note	A Customer Contract Administrator can manage contract note for notes that are not private or private notes where they are the author.	Role: Contract Amendment Privilege: Manage Contract Note (Data) Resource: Contract Note
Contract Note	A Customer Contract Administrator can manage contract note for notes that are not private or private notes where they are the author.	Role: Contract Authoring Privilege: Manage Contract Note (Data) Resource: Contract Note
Contract Note	A Customer Contract Administrator can manage contract note for notes that are not private or private notes where they are the author.	Role: Customer Contract Administrator Privilege: Manage Contract Note (Data) Resource: Contract Note
Conversation	A Customer Contract Administrator can delete conversation a member of an access group associated to the conversation with delete access	Role: Access Groups Enablement Privilege: Delete Conversation (Data) Resource: Conversation
Conversation	A Customer Contract Administrator can update conversation a member of an access group associated to the conversation with update access	Role: Access Groups Enablement Privilege: Update Conversation (Data) Resource: Conversation
Conversation	A Customer Contract Administrator can view conversation a member of an access group associated to the conversation	Role: Access Groups Enablement Privilege: View Conversation (Data) Resource: Conversation
Conversation Message	A Customer Contract Administrator can delete conversation message a member of an access group associated to the conversation message with delete access	Role: Access Groups Enablement Privilege: Delete Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Customer Contract Administrator can update conversation message a member of an access group associated to the conversation message with update access	Role: Access Groups Enablement Privilege: Update Conversation Message (Data) Resource: Conversation Message

Business Object	Policy Description	Policy Store Implementation
Conversation Message	A Customer Contract Administrator can view conversation message a member of an access group associated to the conversation message	Role: Access Groups Enablement Privilege: View Conversation Message (Data) Resource: Conversation Message
Deal Registration Product	A Customer Contract Administrator can manage deal registration product a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Product	A Customer Contract Administrator can view deal registration product a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Summary	A Customer Contract Administrator can update deal registration approval details a member of an access group associated to the deal registration with update or full access and deal is in pending approval status	Role: Access Groups Enablement Privilege: Update Deal Registration Approval Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Contract Administrator can update deal registration deal details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Contract Administrator can update deal registration deal details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Contract Administrator can update deal registration opportunity details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Contract Administrator can update deal registration opportunity details a member of an access group associated to the deal registration with update access and deal is in pending approval or approved status	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary

Business Object	Policy Description	Policy Store Implementation
Deal Registration Summary	A Customer Contract Administrator can update deal registration partner details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status and the deal is created by an internal user	Role: Access Groups Enablement Privilege: Update Deal Registration Partner Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Contract Administrator can view deal registration a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration (Data) Resource: Deal Registration Summary
Deal Registration Team	A Customer Contract Administrator can manage deal registration team a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Team (Data) Resource: Deal Registration Team
Deal Registration Team	A Customer Contract Administrator can view deal registration team a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Team (Data) Resource: Deal Registration Team
Default Coverage File Export Object	A Customer Contract Administrator can manage default coverage export for all the default coverage objects	Role: Contract Setup Privilege: Manage Default Coverage Export (Data) Resource: Default Coverage File Export Object
Default Coverage File Import Object	A Customer Contract Administrator can manage default coverage import for all the default coverage objects	Role: Contract Setup Privilege: Manage Default Coverage Import (Data) Resource: Default Coverage File Import Object
Department	A Customer Contract Administrator can choose department for departments in their organization security profile	Role: Customer Contract Administrator Privilege: Choose Department (Data) Resource: Department
Employee Resource File Import Activity	A Customer Contract Administrator can view employee resource file import activity for all employee resource file import activities of object type 'employee resource'	Role: Customer Contract Administrator Privilege: View Employee Resource File Import Activity Object Type (Data) Resource: Employee Resource File Import Activity

Business Object	Policy Description	Policy Store Implementation
Employee Resource File Import Activity	A Customer Contract Administrator can view employee resource file import activity object type for all employee resource file import activities of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Activity Object Type (Data) Resource: Employee Resource File Import Activity
Employee Resource File Import Mapping	A Customer Contract Administrator can view employee resource file import mapping for all employee resource file import mappings of object type 'employee resource'	Role: Customer Contract Administrator Privilege: View Employee Resource File Import Mapping Object Type (Data) Resource: Employee Resource File Import Mapping
Employee Resource File Import Mapping	A Customer Contract Administrator can view employee resource file import mapping object type for all employee resource file import mappings of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Mapping Object Type (Data) Resource: Employee Resource File Import Mapping
Employee Resource File Import Object	A Customer Contract Administrator can view employee resource file import object for all employee resource file import objects of object type 'employee resource'	Role: Customer Contract Administrator Privilege: View Employee Resource File Import Object Type (Data) Resource: Employee Resource File Import Object
Employee Resource File Import Object	A Customer Contract Administrator can view employee resource file import object type for all employee resource file import objects of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Object Type (Data) Resource: Employee Resource File Import Object
Express Report Definitions	A Customer Contract Administrator can delete express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with delete access	Role: Access Groups Enablement Privilege: Delete Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Customer Contract Administrator can update express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with update access	Role: Access Groups Enablement Privilege: Update Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Customer Contract Administrator can view express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting	Role: Access Groups Enablement Privilege: View Express Report (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Express Report Definitions
Field Service Work Order	A Customer Contract Administrator can delete field service work order a member of an access group associated to the field service work order with delete access	Role: Access Groups Enablement Privilege: Delete Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Customer Contract Administrator can update field service work order a member of an access group associated to the field service work order with update access	Role: Access Groups Enablement Privilege: Update Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Customer Contract Administrator can view field service work order a member of an access group associated to the field service work order	Role: Access Groups Enablement Privilege: View Field Service Work Order (Data) Resource: Field Service Work Order
File Export Batch	A Customer Contract Administrator can view file export batch for all export batches	Role: Customer Contract Administrator Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Object	A Customer Contract Administrator can manage file export object for all export unit test objects	Role: Customer Contract Administrator Privilege: Manage Export Unit Test (Data) Resource: File Export Object
File Import Activity	A Customer Contract Administrator can manage default coverage import activity object for all the default coverage import activity objects	Role: Contract Setup Privilege: Manage Default Coverage Import Activity Object (Data) Resource: File Import Activity
File Import Activity	A Customer Contract Administrator can view file import activity for all contract file import activity objects	Role: Customer Contract Administrator Privilege: View Contract File Import Activity Object (Data) Resource: File Import Activity
File Import Activity	A Customer Contract Administrator can view file import activity for all standard file import activities that are accessible for customer contract administrator	Role: Customer Contract Administrator Privilege: View Standard File Import Activity Object Type Resource: File Import Activity

Business Object	Policy Description	Policy Store Implementation
File Import Mapping	A Customer Contract Administrator can manage default coverage import mapping object for all the default coverage import mapping objects	Role: Contract Setup Privilege: Manage Default Coverage Import Mapping Object (Data) Resource: File Import Mapping
File Import Mapping	A Customer Contract Administrator can view file import mapping for all contract file import mapping objects	Role: Customer Contract Administrator Privilege: View Contract File Import Mapping Object (Data) Resource: File Import Mapping
File Import Mapping	A Customer Contract Administrator can view file import mapping for all standard file import maps that are accessible for customer contract administrator	Role: Customer Contract Administrator Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
HR Job	A Customer Contract Administrator can choose hr job for all jobs in the enterprise	Role: Customer Contract Administrator Privilege: Choose HR Job (Data) Resource: HR Job
HR Job	A Customer Contract Administrator can choose hr job for all jobs in the enterprise	Role: Resource Administration Privilege: Choose HR Job (Data) Resource: HR Job
Installed Base Asset	A Customer Contract Administrator can manage installed base asset for all installed base assets	Role: Customer Contract Administrator Privilege: Manage Installed Base Asset (Data) Resource: Installed Base Asset
Legal Employer	A Customer Contract Administrator can choose legal employer for legal employers in their organization security profile	Role: Customer Contract Administrator Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Legal Employer	A Customer Contract Administrator can choose legal employer for legal employers in their organization security profile	Role: Resource Administration Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Location	A Customer Contract Administrator can choose location for locations in their location security profile	Role: Customer Contract Administrator Privilege: Choose Location (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Location
MDF Budget	A Customer Contract Administrator can delete marketing budget a member of an access group associated to the mdf budget with delete access and budget status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Budget (Data) Resource: MDF Budget
MDF Budget	A Customer Contract Administrator can update marketing budget a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget (Data) Resource: MDF Budget
MDF Budget	A Customer Contract Administrator can view marketing budget a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget (Data) Resource: MDF Budget
MDF Budget Team	A Customer Contract Administrator can delete marketing budget team a member of an access group associated to the mdf budget with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Customer Contract Administrator can update marketing budget team a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Customer Contract Administrator can view marketing budget team a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Claim	A Customer Contract Administrator can delete marketing claim a member of an access group associated to the mdf claim with delete or full access and the claim status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Claim (Data) Resource: MDF Claim
MDF Claim	A Customer Contract Administrator can update marketing claim approval details a member of an access group associated to the mdf claim with update or full access and the claim status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Claim Approval Details (Data) Resource: MDF Claim
MDF Claim	A Customer Contract Administrator can update marketing claim details a member of an access	Role: Access Groups Enablement

Business Object	Policy Description	Policy Store Implementation
	group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Privilege: Update Marketing Claim Details (Data) Resource: MDF Claim
MDF Claim	A Customer Contract Administrator can update marketing claim partner details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Partner Details (Data) Resource: MDF Claim
MDF Claim	A Customer Contract Administrator can view marketing claim a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim (Data) Resource: MDF Claim
MDF Claim Settlement	A Customer Contract Administrator can delete marketing claim settlement a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Customer Contract Administrator can update marketing claim settlement a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Customer Contract Administrator can update marketing claim settlement details a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement Details (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Customer Contract Administrator can view marketing claim settlement a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Team	A Customer Contract Administrator can delete marketing claim team a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Claim Team	A Customer Contract Administrator can update marketing claim team a member of an access	Role: Access Groups Enablement Privilege: Update Marketing Claim Team (Data)

Business Object	Policy Description	Policy Store Implementation
	group associated to the mdf claim with update access	Resource: MDF Claim Team
MDF Claim Team	A Customer Contract Administrator can view marketing claim team a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Request	A Customer Contract Administrator can delete marketing fund request a member of an access group associated to the mdf request with delete access and the request status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request (Data) Resource: MDF Request
MDF Request	A Customer Contract Administrator can update marketing fund request approval details a member of an access group associated to the mdf request with update or full access and the request status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Approval Details (Data) Resource: MDF Request
MDF Request	A Customer Contract Administrator can update marketing fund request details a member of an access group associated to the mdf request with update or full access and the request status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Details (Data) Resource: MDF Request
MDF Request	A Customer Contract Administrator can update marketing fund request partner details a member of an access group associated to the mdf request with update or full access and request is in draft, returned, failed or withdrawn status and the request is created by an internal user	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Partner Details (Data) Resource: MDF Request
MDF Request	A Customer Contract Administrator can view marketing fund request a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request (Data) Resource: MDF Request
MDF Request Team	A Customer Contract Administrator can delete marketing fund request team a member of an access group associated to the mdf request with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request Team (Data) Resource: MDF Request Team
MDF Request Team	A Customer Contract Administrator can update marketing fund request team a member of an access group associated to the mdf request with update access	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Team (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: MDF Request Team
MDF Request Team	A Customer Contract Administrator can view marketing fund request team a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request Team (Data) Resource: MDF Request Team
Marketing Integration Campaign	A Customer Contract Administrator can delete marketing integration campaign a member of an access group associated to the marketing integration campaign with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Marketing Integration Campaign	A Customer Contract Administrator can update marketing integration campaign a member of an access group associated to the marketing integration campaign with update access	Role: Access Groups Enablement Privilege: Update Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Marketing Integration Campaign	A Customer Contract Administrator can view marketing integration campaign a member of an access group associated to the marketing integration campaign	Role: Access Groups Enablement Privilege: View Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Note	A Customer Contract Administrator can delete note a member of an access group associated to the note with delete access	Role: Access Groups Enablement Privilege: Delete Note (Data) Resource: Note
Note	A Customer Contract Administrator can update note a member of an access group associated to the note with update access	Role: Access Groups Enablement Privilege: Update Note (Data) Resource: Note
Note	A Customer Contract Administrator can view note a member of an access group associated to the note	Role: Access Groups Enablement Privilege: View Note (Data) Resource: Note
Opportunity	A Customer Contract Administrator can manage opportunity general profile a member of an access group associated to the opportunity with update access	Role: Access Groups Enablement Privilege: Manage Opportunity General Profile (Data) Resource: Opportunity

Business Object	Policy Description	Policy Store Implementation
Opportunity	A Customer Contract Administrator can manage opportunity restricted profile a member of an access group associated to the opportunity with delete access	Role: Access Groups Enablement Privilege: Manage Opportunity Restricted Profile (Data) Resource: Opportunity
Opportunity	A Customer Contract Administrator can manage opportunity revenue a member of an access group associated to the opportunity with full access	Role: Access Groups Enablement Privilege: Manage Opportunity Revenue (Data) Resource: Opportunity
Opportunity	A Customer Contract Administrator can manage opportunity team a member of an access group associated to the opportunity with full access	Role: Access Groups Enablement Privilege: Manage Opportunity Team (Data) Resource: Opportunity
Opportunity	A Customer Contract Administrator can view opportunity a member of an access group associated to the opportunity	Role: Access Groups Enablement Privilege: View Opportunity (Data) Resource: Opportunity
Partner File Import Activity	A Customer Contract Administrator can view partner file import activity for all partner file import activities of object type 'partner company'	Role: Customer Contract Administrator Privilege: View Partner File Import Activity Object Type (Data) Resource: Partner File Import Activity
Partner File Import Activity	A Customer Contract Administrator can view partner file import activity object type for all partner file import activities of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Activity Object Type (Data) Resource: Partner File Import Activity
Partner File Import Mapping	A Customer Contract Administrator can view partner file import mapping for all partner file import mappings of object type 'partner company'	Role: Customer Contract Administrator Privilege: View Partner File Import Mapping Object Type (Data) Resource: Partner File Import Mapping
Partner File Import Mapping	A Customer Contract Administrator can view partner file import mapping object type for all partner file import mappings of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Mapping Object Type (Data) Resource: Partner File Import Mapping

Business Object	Policy Description	Policy Store Implementation
Partner File Import Object	A Customer Contract Administrator can view partner file import object for all partner file import objects of object type 'partner company'	Role: Customer Contract Administrator Privilege: View Partner File Import Object Type (Data) Resource: Partner File Import Object

Contract Setup	Contract Setup	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Contract Setup	Contract Setup	Manage Application Document Sequence	Manage implementation of Application Document Sequences. Document Sequences are identifiers guarenteed to be unique, time-ordered, and gapless. This is in contrast to a database sequence which (for performance purposes) may contain gaps and which might not be ordered by time of document creation. Examples would include ID numbers for traffic tickets or other legal documents where gaps in the record may trigger an investigation.
Contract Setup	Contract Setup	Manage Application Document Sequence Category	Manage document sequence categories
Contract Setup	Contract Setup	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Contract Setup	Contract Setup	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in

Granted Role	Granted Role Description	Privilege	Privilege Description
			applications flexfield attributes and key segments.
Contract Setup	Contract Setup	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Contract Setup	Contract Setup	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Contract Setup	Contract Setup	Manage Contract Currency Conversion Rate Types	Allows the definition of user-defined currency conversion rate types.
Contract Setup	Contract Setup	Manage Contract Customer Account	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Customer Account Site Usages	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Defaults	Allows management of contract defaults
Contract Setup	Contract Setup	Manage Contract Global Employee	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Interaction Reference Mapping	Allows the mapping of interaction types to applications where the interaction types can be used.
Contract Setup	Contract Setup	Manage Contract Layout Templates	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Item	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Type	Allows creating and managing of contract line types such as product and service.
Contract Setup	Contract Setup	Manage Contract Note Type Mapping	Allows creating and managing of the mapping that provides a tailored list of note type values for contracts. When no mapping is

Granted Role	Granted Role Description	Privilege	Privilege Description
			specified, note type values mapped to the object Note are used.
Contract Setup	Contract Setup	Manage Contract Organization Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Contact	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Location	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Role and Contact Sources	Allows the specification of the data sources for parties and contacts. A data source specifies the available list of values for parties or contacts of a given role.
Contract Setup	Contract Setup	Manage Contract Payment Terms	Allows creating and managing of payables payment terms for use in supplier contracts.
Contract Setup	Contract Setup	Manage Contract Person Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Request Type	Manage contract request types.
Contract Setup	Contract Setup	Manage Contract Risk Event	Allows creating and managing of contract risk events that can be associated to a contract.
Contract Setup	Contract Setup	Manage Contract Standard Clauses, Templates, and Contract Expert Rules	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Type	Allows the management of contract types to specify properties of different contracts such as the type of permitted contract lines, party roles, contract validation checks, and the contract acceptance and signature requirements.
Contract Setup	Contract Setup	Manage Contract and Pricing Integration	Not Available
Contract Setup	Contract Setup	Manage Coverage Times	Allows management of coverage times

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Default Coverage	Allows management of default coverage
Contract Setup	Contract Setup	Manage Electronic Signature Setup	Allows setting up electronic signature
Contract Setup	Contract Setup	Manage Key Terms and Prompts	Allows the definition of contract key terms and prompts. This also includes adding key terms to contract types.
Contract Setup	Contract Setup	Manage Matrix Classes	Allows creation, update, deletion, copy, and viewing of all matrix classes and child entities.
Contract Setup	Contract Setup	Manage Pricing Algorithms	Allows creation, update, deletion, copy, and viewing of all algorithms and child entities.
Contract Setup	Contract Setup	Manage Service Mappings	Allows creation, update, deletion, copy, and viewing of all service mappings and child entities.
Contract Setup	Contract Setup	Manage Standard Coverage	Allows management of standard coverage
Contract Setup	Contract Setup	Manage Time Unit Mappings	Allows management of time unit mappings
Contract Setup	Contract Setup	Manage User Statuses and Transitions	Manage user statuses and transitions
Contract Setup	Contract Setup	Process Installed Base updates	Processes installed base updates.
Contract Setup	Contract Setup	Specify Customer Contract Management Business Function Properties	Allows specifying and managing of currency conversion rules, project billing rules and default values, adoption rules for contract standards and policies, and other contract management functions during business unit setup.
Contract Setup	Contract Setup	Specify Procurement Contract Management Business Function Properties	Allows specification of supplier contract management properties during business unit setup. This includes the specification of contract standards, policies, and adoption rules.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Track Purchasing Activity for Contract Fulfillment Line	Allows the running of the process that retrieves the number and the status of the purchasing document created by the integrated procurement application from the contract fulfillment line.
Contract Setup	Contract Setup	Update Contract Status	Updates the status of contracts that are dependent on time. For example, updates the status to expired when the end date is reached.
Contract Setup	Contract Setup	Update Enterprise Application Deployment Information	Allows updating deployment information of an enterprise application.
Contract Setup	Contract Setup	Use Generative AI Features in Sales	Allows users to use generative ai features
Contract Setup	Contract Setup	View Administration Link	Privilege to view administration link in UI shell
Contract Setup	Contract Setup	View Contract Type	Allows viewing of the contract type and its attributes.
Contract Terms and Conditions Override Controls	Edits protected clauses, and deletes mandatory clauses and sections in addition to authoring nonstandard terms and conditions.	Author Additional Standard Contract Terms and Conditions	Allows authoring using standard terms and conditions in the contract. This includes adding and deleting standard clauses, selecting alternate clauses, managing sections that contain standard clauses, and moving contract terms.
Contract Terms and Conditions Override Controls	Edits protected clauses, and deletes mandatory clauses and sections in addition to authoring nonstandard terms and conditions.	Author Nonstandard Contract Terms and Conditions	Allows authoring of nonstandard terms and conditions in the contract. This includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.
Contract Terms and Conditions Override Controls	Edits protected clauses, and deletes mandatory clauses and sections in addition to authoring nonstandard terms and conditions.	Author Standard Contract Terms and Conditions	Allows authoring of contract terms and conditions using contract terms templates defined in the Contract Terms Library. Also includes using the Contract Expert and validating the contract terms.

Contract Terms and Conditions Override Controls	Edits protected clauses, and deletes mandatory clauses and sections in addition to authoring nonstandard terms and conditions.	Manage Terms and Conditions using Attached Documents	Manages terms and conditions using attached documents flow
Contract Terms and Conditions Override Controls	Edits protected clauses, and deletes mandatory clauses and sections in addition to authoring nonstandard terms and conditions.	Override Contract Terms and Conditions Controls	Allows editing of protected clauses and deleting of mandatory clauses and sections in contract terms.
Contract Terms and Conditions Override Controls	Edits protected clauses, and deletes mandatory clauses and sections in addition to authoring nonstandard terms and conditions.	View Contract Terms	Not Available
Conversation Message Management	Has basic conversation message management capabilities such as create messages and reply to messages. Would not be able to change a reply to ready to send status or delete a message.	Manage Outbound Message	Allows a user to create, update, delete and view outbound messages.
Conversation Message Management	Has basic conversation message management capabilities such as create messages and reply to messages. Would not be able to change a reply to ready to send status or delete a message.	Participate in Collaboration Conversation	Allows a user to participate in a collaboration conversation.
Conversation Message Management	Has basic conversation message management capabilities such as create messages and reply to messages. Would not be able to change a reply to ready to send status or delete a message.	Participate in Customer Conversation	Allows a user to participate in a customer conversation.

Granted Role	Granted Role Description	Privilege	Privilege Description
Conversation Message Management	Has basic conversation message management capabilities such as create messages and reply to messages. Would not be able to change a reply to ready to send status or delete a message.	Use REST Service to View All Workers	Allows the user to view all workers using REST API.
Conversation Message Management	Has basic conversation message management capabilities such as create messages and reply to messages. Would not be able to change a reply to ready to send status or delete a message.	View Conversation Message	Allows a user to view a conversation message.
Customer Contract Manager	Manages a team of customer contract administrators.	Close Contract	Allows the closing of contracts and contract lines.
Customer Contract Manager	Manages a team of customer contract administrators.	Enable Administrator Access	Not Available
Customer Contract Manager	Manages a team of customer contract administrators.	Enable Sell Intent	Allows all actions permitted by other privileges for contracts with a sell intent. For example, granting this privilege to an individual with a view privilege permits the viewing of customer contracts. Granting this privilege to an individual with the delete contracts privilege permits the deletion of customer contracts.
Customer Contract Manager	Manages a team of customer contract administrators.	Include Project Attributes in Contract Search Pages	Allows the inclusion of project attributes in contract search criteria. Without this privilege, no project attributes are enabled as search criteria.
Customer Contract Manager	Manages a team of customer contract administrators.	Manage Workload	Not Available
Customer Contract Manager	Manages a team of customer contract administrators.	Run CRM Export Process	This privilege would grant a user the ability to schedule CRM object to export to a file
Customer Contract Manager	Manages a team of customer contract administrators.	Run File Import Scheduler	Allows scheduling and monitoring the process that schedules file import activities.
Customer Contract Manager	Manages a team of customer contract administrators.	Set Up CRM Objects for Export	This privilege would grant a user the ability to register CRM objects for Export

Granted Role	Granted Role Description	Privilege	Privilege Description
Customer Contract Manager	Manages a team of customer contract administrators.	Set Up File Import Activity	Allows creating and maintaining import activities that contain process criteria, file mapping, and schedule to import external files containing business objects, such as customers and contacts, into staging tables.
Customer Contract Manager	Manages a team of customer contract administrators.	Set Up File Import Object and Mapping	Allows reviewing and registering business objects, such as sales leads and opportunities, intended for import from external files. Also allows creating and maintaining maps of external source file columns to target staging table columns for use in importing those business objects, such as sales leads, customers, contacts, and sales catalogs.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Execute Setup Tasks	Allows setup task execution and searching of tasks and tasks lists.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Review Applications Offering	Provides access to the Getting Started page.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Review Setups Functional User Overview	Allows access to the Assigned Implementation Tasks page.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Setup and Maintain Applications	Allows access to the Setup and Maintenance work area.
Item Inquiry	Queries and views items in the enterprise.	Access Product Development Configurations Using a REST Service	Permits access to configure data in Product Development using REST services, including master organization setup.
Item Inquiry	Queries and views items in the enterprise.	GET Product Management Index REST	Allows access to view indexed attributes.
Item Inquiry	Queries and views items in the enterprise.	Get Item Index Available Attributes REST	Allows access to view available attributes for item.
Item Inquiry	Queries and views items in the enterprise.	Get Search View REST	Allows query of search views.
Item Inquiry	Queries and views items in the enterprise.	Manage Item Attachment	Allows access to view and manage item attachments.

Granted Role	Granted Role Description	Privilege	Privilege Description
Item Inquiry	Queries and views items in the enterprise.	Manage Item Catalog	Allows access to view and manage item catalogs including categories and category hierarchies.
Item Inquiry	Queries and views items in the enterprise.	Manage Item Global Search	Allows access to search for items using secure enterprise search.
Item Inquiry	Queries and views items in the enterprise.	Manage Product Management Search	Allows access to view and edit Product Management Search.
Item Inquiry	Queries and views items in the enterprise.	Manage Search View REST	Allows access to view and manage search views.
Item Inquiry	Queries and views items in the enterprise.	Manage Trading Partner Item Reference	Allows access to manage trading partner item references for items.
Item Inquiry	Queries and views items in the enterprise.	Manage Unit of Measure	Allows configuration of UOMs, UOM classes, and definition of standard, interclass, and intraclass UOM conversions.
Item Inquiry	Queries and views items in the enterprise.	View Item	Allows access to product dashboard.
Item Inquiry	Queries and views items in the enterprise.	View Item Organization Association	Allows access to view item organization assignments.
Item Inquiry	Queries and views items in the enterprise.	View Item Relationship	Allows access to view item relationships.
Item Inquiry	Queries and views items in the enterprise.	View Product Management Search	Allows access to view Product Management Search.
Manage User Account	Manages user roles.	Copy Personal Data to LDAP	Allows copy of worker personal data to LDAP
Manage User Account	Manages user roles.	Manage User Account	Allows access to Manage User Account.
Manage User Account	Manages user roles.	Manage User Account and My Account	Allows access to the page components that are common to My Account and Manage User Account.
Manage User Account	Manages user roles.	Reset Password	Allows reset password links to be emailed to users.

Granted Role	Granted Role Description	Privilege	Privilege Description
Manage Users	Creates and updates users and assigns roles to users.	Manage User Details	Allows management of user account information.
Negotiation Viewing	View the negotiation summary and details pages.	Create Supplier Negotiation Online Message	Allows users to create an online message.
Negotiation Viewing	View the negotiation summary and details pages.	Reply Supplier Negotiation Online Message	Allows users to reply to an online message received.
Negotiation Viewing	View the negotiation summary and details pages.	Search Supplier Negotiation	Allows users to search supplier negotiations.
Negotiation Viewing	View the negotiation summary and details pages.	View Contract Terms	Not Available
Negotiation Viewing	View the negotiation summary and details pages.	View Supplier Negotiation	Allows users to review a supplier negotiation.
Negotiation Viewing	View the negotiation summary and details pages.	View Supplier Negotiation Online Message	Allows users to view and print online messages.
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Author Additional Standard Contract Terms and Conditions	Allows authoring using standard terms and conditions in the contract. This includes adding and deleting standard clauses, selecting alternate clauses, managing sections that contain standard clauses, and moving contract terms.
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Author Nonstandard Contract Terms and Conditions	Allows authoring of nonstandard terms and conditions in the contract. This includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Author Standard Contract Terms and Conditions	Allows authoring of contract terms and conditions using contract terms templates defined in the Contract Terms Library. Also includes using the Contract Expert and validating the contract terms.

Granted Role	Granted Role Description	Privilege	Privilege Description
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Delete Contract Documents	Not Available

Product Search	Manages product searches.	Access HCM Common Components	Allows access to HCM common components.
Product Search	Manages product searches.	Access Product Development Configurations Using a REST Service	Permits access to configure data in Product Development using REST services, including master organization setup.
Product Search	Manages product searches.	GET Product Management Index REST	Allows access to view indexed attributes.
Product Search	Manages product searches.	Get Item Index Available Attributes REST	Allows access to view available attributes for item.
Product Search	Manages product searches.	Get Redwood Settings REST	Allows query access to settings through the REST API.
Product Search	Manages product searches.	Get Search View REST	Allows query of search views.
Product Search	Manages product searches.	Manage Search Consumer Applications Rest	Allows access to view and manage Search Consumer Applications for application sets that required for picker applications.
Product Search	Manages product searches.	Manage Search View REST	Allows access to view and manage search views.
Product Search	Manages product searches.	Manage System Searches	Allows users to manage HCM system searches.
Product Search	Manages product searches.	Use REST Service - Saved Searches	Allows the user to call all methods associated with the Saved Searches REST Service.
Product Search	Manages product searches.	View Advanced Trading Partner Item Search	Allow access to search Trading Partner Items.
Product Search	Manages product searches.	View Product Management Search	Allows access to view Product Management Search.
Resource Administration	Administers resource information.	Add Trading Community Resource to My Social Network	Allows the addition of a resource to their social network.
Resource Administration	Administers resource information.	Administer Sandbox	Allows administration of all sandboxes.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Contact Trading Community Resource	Allows emailing, calling, and instant messenging a resource. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	Edit Trading Community Resource Profile	Allows the update of resource profile information. If assigning, also assign the ability to view the trading community resource profile.
Resource Administration	Administers resource information.	Enter Trading Community Resource Information	Allows the specification of resource information.
Resource Administration	Administers resource information.	Identify Trading Community Person as a Trading Community Resource	Allows the identification of existing people as resources.
Resource Administration	Administers resource information.	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Resource Administration	Administers resource information.	Manage Application Attachment Category	Manage application attachment categories
Resource Administration	Administers resource information.	Manage Application Attachment Entity	Manage application attachment entities
Resource Administration	Administers resource information.	Manage Application Common Lookup	Not Available
Resource Administration	Administers resource information.	Manage Application Data Security Policy	Allows management of security policies that restrict access to functions and data, such as preventing particular values from being accessed in a chart of account segment.
Resource Administration	Administers resource information.	Manage Application Database Resource	Manage application database resources for data security
Resource Administration	Administers resource information.	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Resource Administration	Administers resource information.	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Resource Administration	Administers resource information.	Manage Application Message	Manage an end-user message, shown in the User Interface. Messages can have different types, such as Error, Warning, Information. Messages are translated and can be re-used across products. Exampe: "File not found", "Table '&TABLE' does not exist".
Resource Administration	Administers resource information.	Manage Application Profile Category	Manage application profile option categories
Resource Administration	Administers resource information.	Manage Application Profile Option	Manage Application Profile Options: Manage the level the value can be changed
Resource Administration	Administers resource information.	Manage Application Reference Data Set	Manage Application Reference Data set. Maintain reference data set attributes.
Resource Administration	Administers resource information.	Manage Application Reference Data Set Assignment	Manage Application Reference Data Set Assignments. Create and edit reference data set assignments.
Resource Administration	Administers resource information.	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Resource Administration	Administers resource information.	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Resource Administration	Administers resource information.	Manage Application Taxonomy	Manage hierarchical classification of Applications Taxonomy tree. A node in the Application Taxonomy Tree can be a Product Line, Product Family, Product or Logical Business Area.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Customer Data Management Foundation Custom Objects	Allows access to custom objects in Customer Data Management Foundation.
Resource Administration	Administers resource information.	Manage Goal Management Notifications	Manage Goal Management Notifications
Resource Administration	Administers resource information.	Manage My Application Profile Values	Manage My Application Profile Values. Access to manage profile values at the user level.
Resource Administration	Administers resource information.	Manage Person Talent Profile	Allows management of talent profile for a person.
Resource Administration	Administers resource information.	Manage Talent Education Establishment	Allows management of talent educational establishments.
Resource Administration	Administers resource information.	Manage Talent Notifications	Allows management of talent management notifications.
Resource Administration	Administers resource information.	Manage Talent Profile Content Item	Allows management of talent profile content items.
Resource Administration	Administers resource information.	Manage Talent Profile Rating Model	Allows management of talent profile rating models.
Resource Administration	Administers resource information.	Manage Talent Profile Sources	Allows management of talent profile subscribers.
Resource Administration	Administers resource information.	Manage Trading Community Resource	Allows the specification of resources for any employees or partner members who are to be associated to leads, opportunities, and territories and given sales credits or compensated for that work.
Resource Administration	Administers resource information.	Manage Trading Community Resource Address	Allows the management of resource addresses. If assigning, also assign the ability to view the trading community resource address.
Resource Administration	Administers resource information.	Manage Trading Community Resource Contact Information	Allows the management of resource contact information. If assigning, also assign the ability to view the trading community resource contact information.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Trading Community Resource History	Allows the management of resource historical information. If assigning, also assign the ability to view the trading community resource history.
Resource Administration	Administers resource information.	Manage Trading Community Resource Lookups	Allows the specification of lookup values that provide choices when defining resources, such as party usages available for resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note	Allows the specification of resource notes. If assigning also assign the ability to view the trading community resource note.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Descriptive Flexfields	Allows the specification of additional fields which enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type	Allows the specification of note types, such as person details, to categorize notes entered for resources. When mapped, note type values are limited to resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type Mapping	Allows the specification of the mapping that provides a tailored list of note type values for resources. When no mapping is specified, note type values mapped to the object Note are used.
Resource Administration	Administers resource information.	Manage Trading Community Resource Organization Memberships	Allows the specification of resource organization members. If assigning, also assign the ability to view the trading community resource organization memberships.
Resource Administration	Administers resource information.	Manage Trading Community Resource Role Assignments	Allows the management of resource role assignments. If assigning also assign the ability to view the trading community resource role assignments.
Resource Administration	Administers resource information.	Manage Trading Community Resource Sales Representative Information	Allows the management of resource saleperson setup information. If assigning, also assign the ability to view the

Granted Role	Granted Role Description	Privilege	Privilege Description
			trading community resource sales representative information.
Resource Administration	Administers resource information.	Manage Trading Community Resource Skills	Allows the management of resource skills information. If assigning, also assign the ability to view the trading community resource skills.
Resource Administration	Administers resource information.	Manage Trading Community Resource Social Network	Allows the management of a resource social network. If assigning, also assign the ability to view the trading community resource social network.
Resource Administration	Administers resource information.	Manage Trading Community Resource Team Memberships	Allows the management of resource team members. If assigning also assign the ability to view the trading community resource team memberships.
Resource Administration	Administers resource information.	Remove Trading Community Resource	Allows the removal of resources.
Resource Administration	Administers resource information.	Reset Password	Allows reset password links to be emailed to users.
Resource Administration	Administers resource information.	Search Trading Community Resource	Allows the search of resources.
Resource Administration	Administers resource information.	Upload Trading Community Resource Picture	Allows the upload of resource pictures. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Administration Link	Privilege to view administration link in UI shell
Resource Administration	Administers resource information.	View Trading Community Resource Address	Allows viewing of resource addresses. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Administration Detail Information	Allows viewing of resource administration setup information.
Resource Administration	Administers resource information.	View Trading Community Resource Collaboration Information	Allows viewing of resource social network information.
Resource Administration	Administers resource information.	View Trading Community Resource Contact Information	Allows viewing of resource contact information.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	View Trading Community Resource Details	Allows viewing of resource basic information, such as name, primary phone, primary address, and primary e-mail.
Resource Administration	Administers resource information.	View Trading Community Resource History	Allows viewing of archived resource information.
Resource Administration	Administers resource information.	View Trading Community Resource Note	Allows viewing of resource notes. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Organization Memberships	Allows viewing of sales, marketing, and partner organization information.
Resource Administration	Administers resource information.	View Trading Community Resource Overview Information	Allows viewing of an overview for partner, marketing, and sales organization transaction information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Profile	Allows viewing of resource profile information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Role Assignments	Allows viewing of resource role assignments. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Sales Representative Information	Allows viewing of salesperson setup information, such as sales credits.
Resource Administration	Administers resource information.	View Trading Community Resource Skills	Allows viewing of resource skills information, such as language, competencies, and product expertise. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Social Network	Allows viewing of a resource's social network.
Resource Administration	Administers resource information.	View Trading Community Resource Team Memberships	Allows viewing of resource team memberships. If assigning, also

View Item Redwood	Allows users to view item details.	View Item Redwood Relationships	Allow access to view the relationships tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Structures	Allow access to view the item structures tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Redwood Item Supplier Associations	Allows access to view Redwood item supplier associations for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	View Redwood Item Supplier Assoiciation Rest	Allows Redwood Rest services response to get requests for supplier associations for items.
View Item Redwood	Allows users to view item details.	View Redwood Revision Rest	Allows access to item revisions.
View Item Redwood	Allows users to view item details.	View Trading Community Organization	Allows exporting, searching, and viewing of organization details such as addresses, classifications, identifiers, and names.
View Item Redwood	Allows users to view item details.	View Trading Community Person	Allows exporting, searching, and viewing of person details such as addresses, classifications, identifiers, and names.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Customer Contract Manager job role.

Business Object	Policy Description	Policy Store Implementation
Activity	A Customer Contract Manager can delete activity a member of an access group associated to the activity with delete access	Role: Access Groups Enablement Privilege: Delete Activity (Data) Resource: Activity
Activity	A Customer Contract Manager can update activity a member of an access group associated to the activity with update access	Role: Access Groups Enablement Privilege: Update Activity (Data) Resource: Activity
Activity	A Customer Contract Manager can view activity a member of an access group associated to the activity	Role: Access Groups Enablement Privilege: View Activity (Data) Resource: Activity
Activity	A Customer Contract Manager can view activity for all activities in the enterprise	Role: Contract Search and View Access Privilege: View Activity (Data) Resource: Activity
Activity	A Customer Contract Manager can view activity for all activities in the enterprise	Role: Customer Contract Manager Privilege: View Activity (Data) Resource: Activity
Application Attachment	A Customer Contract Manager can read application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Contract Search and View Access Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment	A Customer Contract Manager can view application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Customer Contract Manager Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment Category	A Customer Contract Manager can delete application attachment category for all miscelleneous category attachments data	Role: Customer Contract Manager Privilege: Delete Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Customer Contract Manager can update application attachment category for all miscelleneous category attachments data	Role: Customer Contract Manager Privilege: Update Application Attachment Resource: Application Attachment Category

Business Object	Policy Description	Policy Store Implementation
Application Attachment Category	A Customer Contract Manager can view application attachment category for all miscelleneous category attachments data	Role: Customer Contract Manager Privilege: Read Application Attachment Resource: Application Attachment Category
Application Document Sequence Category	A Customer Contract Manager can manage application document sequence category for all applications common applications data	Role: Contract Setup Privilege: Manage Application Document Sequence Category (Data) Resource: Application Document Sequence Category
Application Document Sequence Category	A Customer Contract Manager can manage application document sequence category for all applications common applications data	Role: Customer Contract Manager Privilege: Manage Application Document Sequence Category (Data) Resource: Application Document Sequence Category
Application Flexfield Value Set	A Customer Contract Manager can manage application flexfield value set for all applications common applications data	Role: Customer Contract Manager Privilege: Manage Application Flexfield Value Set (Data) Resource: Application Flexfield Value Set
Application Profile Value	A Customer Contract Manager can delete application profile value for all applications common applications data	Role: Customer Contract Manager Privilege: Delete Application Profile Value (Data) Resource: Application Profile Value
Application Profile Value	A Customer Contract Manager can update application profile value for all applications common applications data	Role: Customer Contract Manager Privilege: Update Application Profile Value (Data) Resource: Application Profile Value
Assignment Grade	A Customer Contract Manager can choose assignment grade for grades in their grade security profile	Role: Customer Contract Manager Privilege: Choose Assignment Grade (Data) Resource: Assignment Grade
Business Unit	A Customer Contract Manager can choose business unit for business units in their organization security profile	Role: Customer Contract Manager Privilege: Choose Business Unit Organization (Data) Resource: Business Unit

Business Object	Policy Description	Policy Store Implementation
Business Unit	A Customer Contract Manager can choose business unit organization for business units in their organization security profile	Role: Resource Administration Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
CRM Asset	A Customer Contract Manager can delete asset a member of an access group associated to the asset with delete access	Role: Access Groups Enablement Privilege: Delete Asset (Data) Resource: CRM Asset
CRM Asset	A Customer Contract Manager can update asset a member of an access group associated to the asset with update access	Role: Access Groups Enablement Privilege: Update Asset (Data) Resource: CRM Asset
CRM Asset	A Customer Contract Manager can view asset a member of an access group associated to the asset	Role: Access Groups Enablement Privilege: View Asset (Data) Resource: CRM Asset
Cases	A Customer Contract Manager can delete case header a member of an access group associated to the case with delete access	Role: Access Groups Enablement Privilege: Delete Case Header (Data) Resource: Cases
Cases	A Customer Contract Manager can update case header a member of an access group associated to the case with update access	Role: Access Groups Enablement Privilege: Update Case Header (Data) Resource: Cases
Cases	A Customer Contract Manager can view case header a member of an access group associated to the case	Role: Access Groups Enablement Privilege: View Case Header (Data) Resource: Cases
Contract	A Customer Contract Manager can manage contract a member of an access group associated to the contract with full access	Role: Access Groups Enablement Privilege: Manage Contract (Data) Resource: Contract
Contract	A Customer Contract Manager can manage contract for the business units for which they are authorized	Role: Contract Amendment Privilege: Manage Contract (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Contract
Contract	A Customer Contract Manager can manage contract for the business units for which they are authorized	Role: Contract Authoring Privilege: Manage Contract (Data) Resource: Contract
Contract	A Customer Contract Manager can manage contract for the business units for which they are authorized	Role: Customer Contract Manager Privilege: Manage Contract (Data) Resource: Contract
Contract	A Customer Contract Manager can view contract a member of an access group associated to the contract	Role: Access Groups Enablement Privilege: View Contract (Data) Resource: Contract
Contract	A Customer Contract Manager can view contract for the business units for which they are authorized	Role: Contract Search and View Access Privilege: View Contract (Data) Resource: Contract
Contract	A Customer Contract Manager can view contract for the business units for which they are authorized	Role: Customer Contract Manager Privilege: View Contract (Data) Resource: Contract
Contract Expert Rule	A Customer Contract Manager can view contract expert rule for all the business units	Role: Customer Contract Manager Privilege: View Contract Terms Library (Data) Resource: Contract Expert Rule
Contract Expert Rule	A Customer Contract Manager can view contract terms library for all the business units	Role: Contract Terms and Conditions Override Controls Privilege: View Contract Terms Library (Data) Resource: Contract Expert Rule
Contract Expert Rule	A Customer Contract Manager can view contract terms library for all the business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data) Resource: Contract Expert Rule

Business Object	Policy Description	Policy Store Implementation
Contract Export Object	A Customer Contract Manager can manage contract export object for all the contract export objects	Role: Customer Contract Manager Privilege: View Contract Export Object (Data) Resource: Contract Export Object
Contract File Import Object	A Customer Contract Manager can view contract file import object for all contract file import objects	Role: Customer Contract Manager Privilege: View Contract Import (Data) Resource: Contract File Import Object
Contract Library Clause	A Customer Contract Manager can manage contract library clause for all non standard clauses irrespective of business unit	Role: Customer Contract Manager Privilege: Manage Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Customer Contract Manager can manage contract terms library for all non standard clauses irrespective of business unit	Role: Contract Terms and Conditions Override Controls Privilege: Manage Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Customer Contract Manager can manage contract terms library for all non standard clauses irrespective of business unit	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: Manage Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Customer Contract Manager can view contract library clause for all business units	Role: Customer Contract Manager Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Customer Contract Manager can view contract terms library for all business units	Role: Contract Terms and Conditions Override Controls Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Customer Contract Manager can view contract terms library for all business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause Folder	A Customer Contract Manager can view contract library clause folder for all the business units	Role: Customer Contract Manager Privilege: View Contract Terms Library (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Contract Library Clause Folder
Contract Library Clause Folder	A Customer Contract Manager can view contract terms library for all the business units	Role: Contract Terms and Conditions Override Controls Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause Folder
Contract Library Clause Folder	A Customer Contract Manager can view contract terms library for all the business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause Folder
Contract Note	A Customer Contract Manager can manage contract note for notes that are not private or private notes where they are the author.	Role: Contract Amendment Privilege: Manage Contract Note (Data) Resource: Contract Note
Contract Note	A Customer Contract Manager can manage contract note for notes that are not private or private notes where they are the author.	Role: Contract Authoring Privilege: Manage Contract Note (Data) Resource: Contract Note
Contract Note	A Customer Contract Manager can manage contract note for notes that are not private or private notes where they are the author.	Role: Customer Contract Manager Privilege: Manage Contract Note (Data) Resource: Contract Note
Contract Request	A Customer Contract Manager can manage contract request for which they are an assignee or managers of such an assignee.	Role: Contract Request Review Privilege: Manage Contract Request (Data) Resource: Contract Request
Contract Request	A Customer Contract Manager can manage contract request for which they are part of the resource organization of such an assignee.	Role: Contract Request Review Privilege: Manage Contract Request (Data) Resource: Contract Request
Conversation	A Customer Contract Manager can delete conversation a member of an access group associated to the conversation with delete access	Role: Access Groups Enablement Privilege: Delete Conversation (Data) Resource: Conversation

Business Object	Policy Description	Policy Store Implementation
Conversation	A Customer Contract Manager can manage conversation for all crm conversations	Role: Contract Request Review Privilege: Manage Conversation (Data) Resource: Conversation
Conversation	A Customer Contract Manager can update conversation a member of an access group associated to the conversation with update access	Role: Access Groups Enablement Privilege: Update Conversation (Data) Resource: Conversation
Conversation	A Customer Contract Manager can view conversation a member of an access group associated to the conversation	Role: Access Groups Enablement Privilege: View Conversation (Data) Resource: Conversation
Conversation Message	A Customer Contract Manager can delete conversation message a member of an access group associated to the conversation message with delete access	Role: Access Groups Enablement Privilege: Delete Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Customer Contract Manager can manage conversation message for all crm collaboration messages	Role: Contract Request Review Privilege: Manage Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Customer Contract Manager can update conversation message a member of an access group associated to the conversation message with update access	Role: Access Groups Enablement Privilege: Update Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Customer Contract Manager can view conversation message a member of an access group associated to the conversation message	Role: Access Groups Enablement Privilege: View Conversation Message (Data) Resource: Conversation Message
Deal Registration Product	A Customer Contract Manager can manage deal registration product a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Product	A Customer Contract Manager can view deal registration product a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Product (Data) Resource: Deal Registration Product

Business Object	Policy Description	Policy Store Implementation
Deal Registration Summary	A Customer Contract Manager can update deal registration approval details a member of an access group associated to the deal registration with update or full access and deal is in pending approval status	Role: Access Groups Enablement Privilege: Update Deal Registration Approval Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Contract Manager can update deal registration deal details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Contract Manager can update deal registration deal details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Contract Manager can update deal registration opportunity details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Contract Manager can update deal registration opportunity details a member of an access group associated to the deal registration with update access and deal is in pending approval or approved status	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Contract Manager can update deal registration partner details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status and the deal is created by an internal user	Role: Access Groups Enablement Privilege: Update Deal Registration Partner Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Contract Manager can view deal registration a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration (Data) Resource: Deal Registration Summary
Deal Registration Team	A Customer Contract Manager can manage deal registration team a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Team (Data) Resource: Deal Registration Team

Business Object	Policy Description	Policy Store Implementation
Deal Registration Team	A Customer Contract Manager can view deal registration team a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Team (Data) Resource: Deal Registration Team
Default Coverage File Export Object	A Customer Contract Manager can manage default coverage export for all the default coverage objects	Role: Contract Setup Privilege: Manage Default Coverage Export (Data) Resource: Default Coverage File Export Object
Default Coverage File Import Object	A Customer Contract Manager can manage default coverage import for all the default coverage objects	Role: Contract Setup Privilege: Manage Default Coverage Import (Data) Resource: Default Coverage File Import Object
Department	A Customer Contract Manager can choose department for departments in their organization security profile	Role: Customer Contract Manager Privilege: Choose Department (Data) Resource: Department
Employee Resource File Import Activity	A Customer Contract Manager can view employee resource file import activity for all employee resource file import activities of object type 'employee resource'	Role: Customer Contract Manager Privilege: View Employee Resource File Import Activity Object Type (Data) Resource: Employee Resource File Import Activity
Employee Resource File Import Activity	A Customer Contract Manager can view employee resource file import activity object type for all employee resource file import activities of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Activity Object Type (Data) Resource: Employee Resource File Import Activity
Employee Resource File Import Mapping	A Customer Contract Manager can view employee resource file import mapping for all employee resource file import mappings of object type 'employee resource'	Role: Customer Contract Manager Privilege: View Employee Resource File Import Mapping Object Type (Data) Resource: Employee Resource File Import Mapping
Employee Resource File Import Mapping	A Customer Contract Manager can view employee resource file import mapping object type for all employee resource file import mappings of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Mapping Object Type (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Employee Resource File Import Mapping
Employee Resource File Import Object	A Customer Contract Manager can view employee resource file import object for all employee resource file import objects of object type 'employee resource'	Role: Customer Contract Manager Privilege: View Employee Resource File Import Object Type (Data) Resource: Employee Resource File Import Object
Employee Resource File Import Object	A Customer Contract Manager can view employee resource file import object type for all employee resource file import objects of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Object Type (Data) Resource: Employee Resource File Import Object
Express Report Definitions	A Customer Contract Manager can delete express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with delete access	Role: Access Groups Enablement Privilege: Delete Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Customer Contract Manager can update express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with update access	Role: Access Groups Enablement Privilege: Update Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Customer Contract Manager can view express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting	Role: Access Groups Enablement Privilege: View Express Report (Data) Resource: Express Report Definitions
Field Service Work Order	A Customer Contract Manager can delete field service work order a member of an access group associated to the field service work order with delete access	Role: Access Groups Enablement Privilege: Delete Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Customer Contract Manager can update field service work order a member of an access group associated to the field service work order with update access	Role: Access Groups Enablement Privilege: Update Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Customer Contract Manager can view field service work order a member of an access group associated to the field service work order	Role: Access Groups Enablement Privilege: View Field Service Work Order (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Field Service Work Order
File Export Batch	A Customer Contract Manager can view file export batch for all export batches	Role: Customer Contract Manager Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Object	A Customer Contract Manager can manage file export object for all export unit test objects	Role: Customer Contract Manager Privilege: Manage Export Unit Test (Data) Resource: File Export Object
File Import Activity	A Customer Contract Manager can manage default coverage import activity object for all the default coverage import activity objects	Role: Contract Setup Privilege: Manage Default Coverage Import Activity Object (Data) Resource: File Import Activity
File Import Activity	A Customer Contract Manager can view file import activity for all contract file import activity objects	Role: Customer Contract Manager Privilege: View Contract File Import Activity Object (Data) Resource: File Import Activity
File Import Activity	A Customer Contract Manager can view file import activity for all standard file import activities that are accessible for customer contract manager	Role: Customer Contract Manager Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Mapping	A Customer Contract Manager can manage default coverage import mapping object for all the default coverage import mapping objects	Role: Contract Setup Privilege: Manage Default Coverage Import Mapping Object (Data) Resource: File Import Mapping
File Import Mapping	A Customer Contract Manager can view file import mapping for all contract file import mapping objects	Role: Customer Contract Manager Privilege: View Contract File Import Mapping Object (Data) Resource: File Import Mapping
File Import Mapping	A Customer Contract Manager can view file import mapping for all standard file import maps that are accessible for customer contract manager	Role: Customer Contract Manager Privilege: View Standard File Import Mapping Object Type

Business Object	Policy Description	Policy Store Implementation
		Resource: File Import Mapping
HR Job	A Customer Contract Manager can choose hr job for all jobs in the enterprise	Role: Customer Contract Manager Privilege: Choose HR Job (Data) Resource: HR Job
HR Job	A Customer Contract Manager can choose hr job for all jobs in the enterprise	Role: Resource Administration Privilege: Choose HR Job (Data) Resource: HR Job
Installed Base Asset	A Customer Contract Manager can manage installed base asset for all installed base assets	Role: Customer Contract Manager Privilege: Manage Installed Base Asset (Data) Resource: Installed Base Asset
Legal Employer	A Customer Contract Manager can choose legal employer for legal employers in their organization security profile	Role: Customer Contract Manager Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Legal Employer	A Customer Contract Manager can choose legal employer for legal employers in their organization security profile	Role: Resource Administration Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Location	A Customer Contract Manager can choose location for locations in their location security profile	Role: Customer Contract Manager Privilege: Choose Location (Data) Resource: Location
MDF Budget	A Customer Contract Manager can delete marketing budget a member of an access group associated to the mdf budget with delete access and budget status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Budget (Data) Resource: MDF Budget
MDF Budget	A Customer Contract Manager can update marketing budget a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget (Data) Resource: MDF Budget
MDF Budget	A Customer Contract Manager can view marketing budget a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: MDF Budget
MDF Budget Team	A Customer Contract Manager can delete marketing budget team a member of an access group associated to the mdf budget with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Customer Contract Manager can update marketing budget team a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Customer Contract Manager can view marketing budget team a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Claim	A Customer Contract Manager can delete marketing claim a member of an access group associated to the mdf claim with delete or full access and the claim status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Claim (Data) Resource: MDF Claim
MDF Claim	A Customer Contract Manager can update marketing claim approval details a member of an access group associated to the mdf claim with update or full access and the claim status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Claim Approval Details (Data) Resource: MDF Claim
MDF Claim	A Customer Contract Manager can update marketing claim details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Details (Data) Resource: MDF Claim
MDF Claim	A Customer Contract Manager can update marketing claim partner details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Partner Details (Data) Resource: MDF Claim
MDF Claim	A Customer Contract Manager can view marketing claim a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim (Data) Resource: MDF Claim

Business Object	Policy Description	Policy Store Implementation
MDF Claim Settlement	A Customer Contract Manager can delete marketing claim settlement a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Customer Contract Manager can update marketing claim settlement a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Customer Contract Manager can update marketing claim settlement details a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement Details (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Customer Contract Manager can view marketing claim settlement a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Team	A Customer Contract Manager can delete marketing claim team a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Claim Team	A Customer Contract Manager can update marketing claim team a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Claim Team	A Customer Contract Manager can view marketing claim team a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Request	A Customer Contract Manager can delete marketing fund request a member of an access group associated to the mdf request with delete access and the request status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request (Data) Resource: MDF Request
MDF Request	A Customer Contract Manager can update marketing fund request approval details a	Role: Access Groups Enablement

Business Object	Policy Description	Policy Store Implementation
	member of an access group associated to the mdf request with update or full access and the request status is pending approval	Privilege: Update Marketing Fund Request Approval Details (Data) Resource: MDF Request
MDF Request	A Customer Contract Manager can update marketing fund request details a member of an access group associated to the mdf request with update or full access and the request status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Details (Data) Resource: MDF Request
MDF Request	A Customer Contract Manager can update marketing fund request partner details a member of an access group associated to the mdf request with update or full access and request is in draft, returned, failed or withdrawn status and the request is created by an internal user	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Partner Details (Data) Resource: MDF Request
MDF Request	A Customer Contract Manager can view marketing fund request a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request (Data) Resource: MDF Request
MDF Request Team	A Customer Contract Manager can delete marketing fund request team a member of an access group associated to the mdf request with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request Team (Data) Resource: MDF Request Team
MDF Request Team	A Customer Contract Manager can update marketing fund request team a member of an access group associated to the mdf request with update access	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Team (Data) Resource: MDF Request Team
MDF Request Team	A Customer Contract Manager can view marketing fund request team a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request Team (Data) Resource: MDF Request Team
Marketing Integration Campaign	A Customer Contract Manager can delete marketing integration campaign a member of an access group associated to the marketing integration campaign with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign

Business Object	Policy Description	Policy Store Implementation
Marketing Integration Campaign	A Customer Contract Manager can update marketing integration campaign a member of an access group associated to the marketing integration campaign with update access	Role: Access Groups Enablement Privilege: Update Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Marketing Integration Campaign	A Customer Contract Manager can view marketing integration campaign a member of an access group associated to the marketing integration campaign	Role: Access Groups Enablement Privilege: View Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Note	A Customer Contract Manager can delete note a member of an access group associated to the note with delete access	Role: Access Groups Enablement Privilege: Delete Note (Data) Resource: Note
Note	A Customer Contract Manager can update note a member of an access group associated to the note with update access	Role: Access Groups Enablement Privilege: Update Note (Data) Resource: Note
Note	A Customer Contract Manager can view note a member of an access group associated to the note	Role: Access Groups Enablement Privilege: View Note (Data) Resource: Note
Opportunity	A Customer Contract Manager can manage opportunity general profile a member of an access group associated to the opportunity with update access	Role: Access Groups Enablement Privilege: Manage Opportunity General Profile (Data) Resource: Opportunity
Opportunity	A Customer Contract Manager can manage opportunity restricted profile a member of an access group associated to the opportunity with delete access	Role: Access Groups Enablement Privilege: Manage Opportunity Restricted Profile (Data) Resource: Opportunity
Opportunity	A Customer Contract Manager can manage opportunity revenue a member of an access group associated to the opportunity with full access	Role: Access Groups Enablement Privilege: Manage Opportunity Revenue (Data) Resource: Opportunity
Opportunity	A Customer Contract Manager can manage opportunity team a member of an access group associated to the opportunity with full access	Role: Access Groups Enablement Privilege: Manage Opportunity Team (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Opportunity
Opportunity	A Customer Contract Manager can view opportunity a member of an access group associated to the opportunity	Role: Access Groups Enablement Privilege: View Opportunity (Data) Resource: Opportunity
Partner File Import Activity	A Customer Contract Manager can view partner file import activity for all partner file import activities of object type 'partner company'	Role: Customer Contract Manager Privilege: View Partner File Import Activity Object Type (Data) Resource: Partner File Import Activity
Partner File Import Activity	A Customer Contract Manager can view partner file import activity object type for all partner file import activities of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Activity Object Type (Data) Resource: Partner File Import Activity
Partner File Import Mapping	A Customer Contract Manager can view partner file import mapping for all partner file import mappings of object type 'partner company'	Role: Customer Contract Manager Privilege: View Partner File Import Mapping Object Type (Data) Resource: Partner File Import Mapping
Partner File Import Mapping	A Customer Contract Manager can view partner file import mapping object type for all partner file import mappings of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Mapping Object Type (Data) Resource: Partner File Import Mapping
Partner File Import Object	A Customer Contract Manager can view partner file import object for all partner file import objects of object type 'partner company'	Role: Customer Contract Manager Privilege: View Partner File Import Object Type (Data) Resource: Partner File Import Object
Partner File Import Object	A Customer Contract Manager can view partner file import object type for all partner file import objects of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Object Type (Data) Resource: Partner File Import Object
Partner Member File Import Activity	A Customer Contract Manager can view partner member file import activity for all partner member file import activities of object type 'partner member'	Role: Customer Contract Manager Privilege: View Partner Member File Import Activity Object Type (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Partner Member File Import Activity
Partner Member File Import Activity	A Customer Contract Manager can view partner member file import activity object type for all partner member file import activities of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Activity Object Type (Data) Resource: Partner Member File Import Activity
Partner Member File Import Mapping	A Customer Contract Manager can view partner member file import mapping for all partner member file import mappings of object type 'partner member'	Role: Customer Contract Manager Privilege: View Partner Member File Import Mapping Object Type (Data) Resource: Partner Member File Import Mapping
Partner Member File Import Mapping	A Customer Contract Manager can view partner member file import mapping object type for all partner member file import mappings of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Mapping Object Type (Data) Resource: Partner Member File Import Mapping
Partner Member File Import Object	A Customer Contract Manager can view partner member file import object for all partner member file import objects of object type 'partner member'	Role: Customer Contract Manager Privilege: View Partner Member File Import Object Type (Data) Resource: Partner Member File Import Object
Partner Member File Import Object	A Customer Contract Manager can view partner member file import object type for all partner member file import objects of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Object Type (Data) Resource: Partner Member File Import Object
Partner Profile	A Customer Contract Manager can manage partner account a member of an access group associated to the partner with update access	Role: Access Groups Enablement Privilege: Manage Partner Account (Data) Resource: Partner Profile
Partner Profile	A Customer Contract Manager can update partner account a member of an access group associated to the partner with update access	Role: Access Groups Enablement Privilege: Update Partner Account (Data) Resource: Partner Profile
Partner Program Enrollment	A Customer Contract Manager can manage partner program enrollment a member of an access group associated to the partner program enrollment with delete access	Role: Access Groups Enablement Privilege: Manage Partner Program Enrollment (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Partner Program Enrollment
Partner Program Enrollment	A Customer Contract Manager can manage partner program enrollment a member of an access group associated to the partner program enrollment with update access	Role: Access Groups Enablement Privilege: Manage Partner Program Enrollment (Data) Resource: Partner Program Enrollment
Partner Program Enrollment	A Customer Contract Manager can view partner program enrollment a member of an access group associated to the partner program enrollment	Role: Access Groups Enablement Privilege: View Partner Program Enrollment (Data) Resource: Partner Program Enrollment
Person	A Customer Contract Manager can manage person for persons and assignments in their person and assignment security profile	Role: Customer Contract Manager Privilege: Manage Users (Data) Resource: Person
Person Assignment	A Customer Contract Manager can search person assignment for persons and assignments in their person and assignment security profile	Role: Customer Contract Manager Privilege: Search Worker (Data) Resource: Person Assignment
Person Assignment	A Customer Contract Manager can search worker for persons and assignments in their person and assignment security profile	Role: Manage Users Privilege: Search Worker (Data) Resource: Person Assignment
Person Assignment	A Customer Contract Manager can view person assignment for persons and assignments in their person and assignment security profile	Role: Customer Contract Manager Privilege: View Person Assignment (Data) Resource: Person Assignment
Person Assignment	A Customer Contract Manager can view person assignment for persons and assignments in their person and assignment security profile	Role: Manage Users Privilege: View Person Assignment (Data) Resource: Person Assignment
Person Type	A Customer Contract Manager can choose person type for person types in their person type security profile	Role: Customer Contract Manager Privilege: Choose Person Type (Data) Resource: Person Type

Business Object	Policy Description	Policy Store Implementation
Person Type	A Customer Contract Manager can choose person type for person types in their person type security profile	Role: Manage Users Privilege: Choose Person Type (Data) Resource: Person Type
Position	A Customer Contract Manager can choose position for positions in their position security profile	Role: Customer Contract Manager Privilege: Choose Position (Data) Resource: Position
Price Book	A Customer Contract Manager can delete price book a member of an access group associated to the price book with delete access	Role: Access Groups Enablement Privilege: Delete Price Book (Data) Resource: Price Book
Price Book	A Customer Contract Manager can update price book a member of an access group associated to the price book with update access	Role: Access Groups Enablement Privilege: Update Price Book (Data) Resource: Price Book

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Customer Data Steward job role.

Business Object	Policy Description	Policy Store Implementation
Activity	A Customer Data Steward can delete activity a member of an access group associated to the activity with delete access	Role: Access Groups Enablement Privilege: Delete Activity (Data) Resource: Activity
Activity	A Customer Data Steward can delete activity where they are either the owner or a delegator of an activity.	Role: Customer Data Steward Privilege: Delete Activity (Data) Resource: Activity
Activity	A Customer Data Steward can delete activity where they are in the management chain of the activity owner	Role: Customer Data Steward Privilege: Delete Activity (Data) Resource: Activity
Activity	A Customer Data Steward can update activity a member of an access group associated to the activity with update access	Role: Access Groups Enablement Privilege: Update Activity (Data) Resource: Activity
Activity	A Customer Data Steward can update activity where they are either a resource or a delegator of a task or an owner or a delegator of an appointment or an owner or a delegator of a call report activity.	Role: Customer Data Steward Privilege: Update Activity (Data) Resource: Activity
Activity	A Customer Data Steward can update activity where they are in the management chain for a task activity or they are an owner for an appointment activity.	Role: Customer Data Steward Privilege: Update Activity (Data) Resource: Activity
Activity	A Customer Data Steward can view activity a member of an access group associated to the activity	Role: Access Groups Enablement Privilege: View Activity (Data) Resource: Activity
Activity	A Customer Data Steward can view activity for all activities in the enterprise	Role: Customer Data Steward Privilege: View Activity (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Activity
Activity	A Customer Data Steward can view activity where they are either a resource or a delegator of an activity.	Role: Customer Data Steward Privilege: View Activity (Data) Resource: Activity
Activity	A Customer Data Steward can view activity where they are in the management chain of an activity resource.	Role: Customer Data Steward Privilege: View Activity (Data) Resource: Activity
Activity Resource	A Customer Data Steward can update activity resource where they are a resource for an activity.	Role: Customer Data Steward Privilege: Update Activity (Data) Resource: Activity Resource
Application Attachment Category	A Customer Data Steward can delete application attachment category for all miscelleneous category attachments data	Role: Customer Data Steward Privilege: Delete Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Customer Data Steward can update application attachment category for all miscelleneous category attachments data	Role: Customer Data Steward Privilege: Update Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Customer Data Steward can view application attachment category for all miscelleneous category attachments data	Role: Customer Data Steward Privilege: Read Application Attachment Resource: Application Attachment Category
CRM Asset	A Customer Data Steward can delete asset a member of an access group associated to the asset with delete access	Role: Access Groups Enablement Privilege: Delete Asset (Data) Resource: CRM Asset
CRM Asset	A Customer Data Steward can update asset a member of an access group associated to the asset with update access	Role: Access Groups Enablement Privilege: Update Asset (Data) Resource: CRM Asset
CRM Asset	A Customer Data Steward can view asset a member of an access group associated to the asset	Role: Access Groups Enablement Privilege: View Asset (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: CRM Asset
Cases	A Customer Data Steward can delete case header a member of an access group associated to the case with delete access	Role: Access Groups Enablement Privilege: Delete Case Header (Data) Resource: Cases
Cases	A Customer Data Steward can update case header a member of an access group associated to the case with update access	Role: Access Groups Enablement Privilege: Update Case Header (Data) Resource: Cases
Cases	A Customer Data Steward can view case header a member of an access group associated to the case	Role: Access Groups Enablement Privilege: View Case Header (Data) Resource: Cases
Classification Code File Import Activity	A Customer Data Steward can view classification code file import activity object type for all classification code file import activities of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Activity Object Type (Data) Resource: Classification Code File Import Activity
Classification Code File Import Mapping	A Customer Data Steward can view classification code file import mapping object type for all classification code file import mappings of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Mapping Object Type (Data) Resource: Classification Code File Import Mapping
Classification Code File Import Object	A Customer Data Steward can view classification code file import object type for all classification code file import objects of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Object Type (Data) Resource: Classification Code File Import Object
Consumer File Import Activity	A Customer Data Steward can view consumer file import activity object type for all consumer file import activities of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Activity Object Type (Data) Resource: Consumer File Import Activity

Business Object	Policy Description	Policy Store Implementation
Consumer File Import Mapping	A Customer Data Steward can view consumer file import mapping object type for all consumer file import mappings of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Mapping Object Type (Data) Resource: Consumer File Import Mapping
Consumer File Import Object	A Customer Data Steward can view consumer file import object type for all consumer file import objects of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Object Type (Data) Resource: Consumer File Import Object
Contact File Import Activity	A Customer Data Steward can view contact file import activity object type for all contact file import activities of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Activity Object Type (Data) Resource: Contact File Import Activity
Contact File Import Mapping	A Customer Data Steward can view contact file import mapping object type for all contact file import mappings of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Mapping Object Type (Data) Resource: Contact File Import Mapping
Contact File Import Object	A Customer Data Steward can view contact file import object type for all contact file import objects of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Object Type (Data) Resource: Contact File Import Object
Contract	A Customer Data Steward can manage contract a member of an access group associated to the contract with full access	Role: Access Groups Enablement Privilege: Manage Contract (Data) Resource: Contract
Contract	A Customer Data Steward can view contract a member of an access group associated to the contract	Role: Access Groups Enablement Privilege: View Contract (Data) Resource: Contract
Conversation	A Customer Data Steward can delete conversation a member of an access group associated to the conversation with delete access	Role: Access Groups Enablement Privilege: Delete Conversation (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Conversation
Conversation	A Customer Data Steward can update conversation a member of an access group associated to the conversation with update access	Role: Access Groups Enablement Privilege: Update Conversation (Data) Resource: Conversation
Conversation	A Customer Data Steward can view conversation a member of an access group associated to the conversation	Role: Access Groups Enablement Privilege: View Conversation (Data) Resource: Conversation
Conversation Message	A Customer Data Steward can delete conversation message a member of an access group associated to the conversation message with delete access	Role: Access Groups Enablement Privilege: Delete Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Customer Data Steward can update conversation message a member of an access group associated to the conversation message with update access	Role: Access Groups Enablement Privilege: Update Conversation Message (Data) Resource: Conversation Message
Conversation Message	A Customer Data Steward can view conversation message a member of an access group associated to the conversation message	Role: Access Groups Enablement Privilege: View Conversation Message (Data) Resource: Conversation Message
Customer File Import Activity	A Customer Data Steward can view customer file import activity object type for all customer file import activities of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Activity Object Type (Data) Resource: Customer File Import Activity
Customer File Import Mapping	A Customer Data Steward can view customer file import mapping object type for all customer file import mappings of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Mapping Object Type (Data) Resource: Customer File Import Mapping
Customer File Import Object	A Customer Data Steward can view customer file import object type for all customer file import objects of object type 'customer'	Role: Trading Community Import Batch Management Privilege: View Customer File Import Object Type (Data) Resource: Customer File Import Object

Business Object	Policy Description	Policy Store Implementation
Deal Registration Product	A Customer Data Steward can manage deal registration product a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Product	A Customer Data Steward can view deal registration product a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Summary	A Customer Data Steward can update deal registration approval details a member of an access group associated to the deal registration with update or full access and deal is in pending approval status	Role: Access Groups Enablement Privilege: Update Deal Registration Approval Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Data Steward can update deal registration deal details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Data Steward can update deal registration deal details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Data Steward can update deal registration opportunity details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Data Steward can update deal registration opportunity details a member of an access group associated to the deal registration with update access and deal is in pending approval or approved status	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	A Customer Data Steward can update deal registration partner details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status and the deal is created by an internal user	Role: Access Groups Enablement Privilege: Update Deal Registration Partner Details (Data) Resource: Deal Registration Summary

Business Object	Policy Description	Policy Store Implementation
Deal Registration Summary	A Customer Data Steward can view deal registration a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration (Data) Resource: Deal Registration Summary
Deal Registration Team	A Customer Data Steward can manage deal registration team a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Team (Data) Resource: Deal Registration Team
Deal Registration Team	A Customer Data Steward can view deal registration team a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Team (Data) Resource: Deal Registration Team
Express Report Definitions	A Customer Data Steward can delete express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with delete access	Role: Access Groups Enablement Privilege: Delete Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Customer Data Steward can update express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with update access	Role: Access Groups Enablement Privilege: Update Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	A Customer Data Steward can view express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting	Role: Access Groups Enablement Privilege: View Express Report (Data) Resource: Express Report Definitions
Field Service Work Order	A Customer Data Steward can delete field service work order a member of an access group associated to the field service work order with delete access	Role: Access Groups Enablement Privilege: Delete Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	A Customer Data Steward can update field service work order a member of an access group associated to the field service work order with update access	Role: Access Groups Enablement Privilege: Update Field Service Work Order (Data) Resource: Field Service Work Order

Business Object	Policy Description	Policy Store Implementation
Field Service Work Order	A Customer Data Steward can view field service work order a member of an access group associated to the field service work order	Role: Access Groups Enablement Privilege: View Field Service Work Order (Data) Resource: Field Service Work Order
File Export Batch	A Customer Data Steward can view file export batch for all export batches	Role: Customer Data Steward Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Object	A Customer Data Steward can manage file export object for all export unit test objects	Role: Customer Data Steward Privilege: Manage Export Unit Test (Data) Resource: File Export Object
File Import Activity	A Customer Data Steward can view file import activity for all standard file import activities that are accessible for customer data steward	Role: Customer Data Steward Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Activity	A Customer Data Steward can view standard file import activity object type for all standard file import activities that are accessible for trading community batch import management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Mapping	A Customer Data Steward can view file import mapping for all standard file import maps that are accessible for customer data steward	Role: Customer Data Steward Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
File Import Mapping	A Customer Data Steward can view standard file import mapping object type for all standard file import maps that are accessible for trading community batch import management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
File Import Object	A Customer Data Steward can view file import object for all standard file import export objects that are accessible for customer data steward	Role: Customer Data Steward Privilege: View Standard File Import Export Object Type Resource: File Import Object

Business Object	Policy Description	Policy Store Implementation
Group Customer File Import Activity	A Customer Data Steward can view group customer file import activity object type for all group customer file import activities of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Activity Object Type (Data) Resource: Group Customer File Import Activity
Group Customer File Import Mapping	A Customer Data Steward can view group customer file import mapping object type for all group customer file import mappings of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Mapping Object Type (Data) Resource: Group Customer File Import Mapping
Group Customer File Import Object	A Customer Data Steward can view group customer file import object type for all group customer file import objects of object type 'group customer'	Role: Trading Community Import Batch Management Privilege: View Group Customer File Import Object Type (Data) Resource: Group Customer File Import Object
Hierarchy File Import Activity	A Customer Data Steward can view hierarchy file import activity object type for all hierarchy file import activities of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Activity Object Type (Data) Resource: Hierarchy File Import Activity
Hierarchy File Import Activity	A Customer Data Steward can view standard file import activity object type for all standard file import activities that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: Hierarchy File Import Activity
Hierarchy File Import Mapping	A Customer Data Steward can view hierarchy file import mapping object type for all hierarchy file import mappings of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Mapping Object Type (Data) Resource: Hierarchy File Import Mapping
Hierarchy File Import Mapping	A Customer Data Steward can view standard file import mapping object type for all standard file import maps that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: Hierarchy File Import Mapping

Business Object	Policy Description	Policy Store Implementation
Hierarchy File Import Object	A Customer Data Steward can view hierarchy file import object type for all hierarchy file import objects of object type 'hierarchy'	Role: Trading Community Import Batch Management Privilege: View Hierarchy File Import Object Type (Data) Resource: Hierarchy File Import Object
Hierarchy Node File Import Activity	A Customer Data Steward can view hierarchy node file import activity object type for all hierarchy node file import activities of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Activity Object Type (Data) Resource: Hierarchy Node File Import Activity
Hierarchy Node File Import Activity	A Customer Data Steward can view standard file import activity object type for all standard file import activities that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Activity Object Type Resource: Hierarchy Node File Import Activity
Hierarchy Node File Import Mapping	A Customer Data Steward can view hierarchy node file import mapping object type for all hierarchy node file import mappings of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Mapping Object Type (Data) Resource: Hierarchy Node File Import Mapping
Hierarchy Node File Import Mapping	A Customer Data Steward can view standard file import mapping object type for all standard file import maps that are accessible for trading community import batch management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Mapping Object Type Resource: Hierarchy Node File Import Mapping
Hierarchy Node File Import Object	A Customer Data Steward can view hierarchy node file import object type for all hierarchy node file import objects of object type 'hierarchy node'	Role: Trading Community Import Batch Management Privilege: View Hierarchy Node File Import Object Type (Data) Resource: Hierarchy Node File Import Object
Legal Entity File Import Activity	A Customer Data Steward can view legal entity file import activity object type for all legal entity file import activities of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Activity Object Type (Data) Resource: Legal Entity File Import Activity

Business Object	Policy Description	Policy Store Implementation
Legal Entity File Import Mapping	A Customer Data Steward can view legal entity file import mapping object type for all legal entity file import mappings of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Mapping Object Type (Data) Resource: Legal Entity File Import Mapping
Legal Entity File Import Object	A Customer Data Steward can view legal entity file import object type for all legal entity file import objects of object type 'legal entity'	Role: Trading Community Import Batch Management Privilege: View Legal Entity File Import Object Type (Data) Resource: Legal Entity File Import Object
MDF Budget	A Customer Data Steward can delete marketing budget a member of an access group associated to the mdf budget with delete access and budget status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Budget (Data) Resource: MDF Budget
MDF Budget	A Customer Data Steward can update marketing budget a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget (Data) Resource: MDF Budget
MDF Budget	A Customer Data Steward can view marketing budget a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget (Data) Resource: MDF Budget
MDF Budget Team	A Customer Data Steward can delete marketing budget team a member of an access group associated to the mdf budget with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Customer Data Steward can update marketing budget team a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	A Customer Data Steward can view marketing budget team a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Claim	A Customer Data Steward can delete marketing claim a member of an access group associated	Role: Access Groups Enablement

Business Object	Policy Description	Policy Store Implementation
	to the mdf claim with delete or full access and the claim status is draft	Privilege: Delete Marketing Claim (Data) Resource: MDF Claim
MDF Claim	A Customer Data Steward can update marketing claim approval details a member of an access group associated to the mdf claim with update or full access and the claim status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Claim Approval Details (Data) Resource: MDF Claim
MDF Claim	A Customer Data Steward can update marketing claim details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Details (Data) Resource: MDF Claim
MDF Claim	A Customer Data Steward can update marketing claim partner details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Partner Details (Data) Resource: MDF Claim
MDF Claim	A Customer Data Steward can view marketing claim a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim (Data) Resource: MDF Claim
MDF Claim Settlement	A Customer Data Steward can delete marketing claim settlement a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Customer Data Steward can update marketing claim settlement a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Customer Data Steward can update marketing claim settlement details a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement Details (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	A Customer Data Steward can view marketing claim settlement a member of an access group associated to the mdf claim	Role: Access Groups Enablement

Business Object	Policy Description	Policy Store Implementation
		Privilege: View Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Team	A Customer Data Steward can delete marketing claim team a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Claim Team	A Customer Data Steward can update marketing claim team a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Claim Team	A Customer Data Steward can view marketing claim team a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Request	A Customer Data Steward can delete marketing fund request a member of an access group associated to the mdf request with delete access and the request status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request (Data) Resource: MDF Request
MDF Request	A Customer Data Steward can update marketing fund request approval details a member of an access group associated to the mdf request with update or full access and the request status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Approval Details (Data) Resource: MDF Request
MDF Request	A Customer Data Steward can update marketing fund request details a member of an access group associated to the mdf request with update or full access and the request status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Details (Data) Resource: MDF Request
MDF Request	A Customer Data Steward can update marketing fund request partner details a member of an access group associated to the mdf request with update or full access and request is in draft, returned, failed or withdrawn status and the request is created by an internal user	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Partner Details (Data) Resource: MDF Request
MDF Request	A Customer Data Steward can view marketing fund request a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: MDF Request
MDF Request Team	A Customer Data Steward can delete marketing fund request team a member of an access group associated to the mdf request with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request Team (Data) Resource: MDF Request Team
MDF Request Team	A Customer Data Steward can update marketing fund request team a member of an access group associated to the mdf request with update access	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Team (Data) Resource: MDF Request Team
MDF Request Team	A Customer Data Steward can view marketing fund request team a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request Team (Data) Resource: MDF Request Team
Marketing Integration Campaign	A Customer Data Steward can delete marketing integration campaign a member of an access group associated to the marketing integration campaign with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Marketing Integration Campaign	A Customer Data Steward can update marketing integration campaign a member of an access group associated to the marketing integration campaign with update access	Role: Access Groups Enablement Privilege: Update Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Marketing Integration Campaign	A Customer Data Steward can view marketing integration campaign a member of an access group associated to the marketing integration campaign	Role: Access Groups Enablement Privilege: View Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Note	A Customer Data Steward can delete note a member of an access group associated to the note with delete access	Role: Access Groups Enablement Privilege: Delete Note (Data) Resource: Note
Note	A Customer Data Steward can update note a member of an access group associated to the note with update access	Role: Access Groups Enablement Privilege: Update Note (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Note
Note	A Customer Data Steward can view note a member of an access group associated to the note	Role: Access Groups Enablement Privilege: View Note (Data) Resource: Note
Note File Import Activity	A Customer Data Steward can view note file import activity for all note file import activities in all resource organizations for which they are authorized	Role: Customer Data Steward Privilege: View Note File Import Activity Object Type (Data) Resource: Note File Import Activity
Note File Import Object	A Customer Data Steward can view note file import object for all note file import objects in all resource organizations for which they are authorized	Role: Customer Data Steward Privilege: View Note File Import Object Type (Data) Resource: Note File Import Object
Opportunity	A Customer Data Steward can manage opportunity general profile a member of an access group associated to the opportunity with update access	Role: Access Groups Enablement Privilege: Manage Opportunity General Profile (Data) Resource: Opportunity
Opportunity	A Customer Data Steward can manage opportunity restricted profile a member of an access group associated to the opportunity with delete access	Role: Access Groups Enablement Privilege: Manage Opportunity Restricted Profile (Data) Resource: Opportunity
Opportunity	A Customer Data Steward can manage opportunity revenue a member of an access group associated to the opportunity with full access	Role: Access Groups Enablement Privilege: Manage Opportunity Revenue (Data) Resource: Opportunity
Opportunity	A Customer Data Steward can manage opportunity team a member of an access group associated to the opportunity with full access	Role: Access Groups Enablement Privilege: Manage Opportunity Team (Data) Resource: Opportunity
Opportunity	A Customer Data Steward can view opportunity a member of an access group associated to the opportunity	Role: Access Groups Enablement Privilege: View Opportunity (Data) Resource: Opportunity

Business Object	Policy Description	Policy Store Implementation
Partner Profile	A Customer Data Steward can manage partner account a member of an access group associated to the partner with update access	Role: Access Groups Enablement Privilege: Manage Partner Account (Data) Resource: Partner Profile
Partner Profile	A Customer Data Steward can update partner account a member of an access group associated to the partner with update access	Role: Access Groups Enablement Privilege: Update Partner Account (Data) Resource: Partner Profile
Partner Program Enrollment	A Customer Data Steward can manage partner program enrollment a member of an access group associated to the partner program enrollment with delete access	Role: Access Groups Enablement Privilege: Manage Partner Program Enrollment (Data) Resource: Partner Program Enrollment
Partner Program Enrollment	A Customer Data Steward can manage partner program enrollment a member of an access group associated to the partner program enrollment with update access	Role: Access Groups Enablement Privilege: Manage Partner Program Enrollment (Data) Resource: Partner Program Enrollment
Partner Program Enrollment	A Customer Data Steward can view partner program enrollment a member of an access group associated to the partner program enrollment	Role: Access Groups Enablement Privilege: View Partner Program Enrollment (Data) Resource: Partner Program Enrollment
Price Book	A Customer Data Steward can delete price book a member of an access group associated to the price book with delete access	Role: Access Groups Enablement Privilege: Delete Price Book (Data) Resource: Price Book
Price Book	A Customer Data Steward can update price book a member of an access group associated to the price book with update access	Role: Access Groups Enablement Privilege: Update Price Book (Data) Resource: Price Book
Price Book	A Customer Data Steward can view price book a member of an access group associated to the price book	Role: Access Groups Enablement Privilege: View Price Book (Data) Resource: Price Book
Product Group	A Customer Data Steward can delete product group a member of an access group associated to the product group with delete access	Role: Access Groups Enablement Privilege: Delete Product Group (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Product Group
Product Group	A Customer Data Steward can update product group a member of an access group associated to the product group with update access	Role: Access Groups Enablement Privilege: Update Product Group (Data) Resource: Product Group
Product Group	A Customer Data Steward can view product group a member of an access group associated to the product group	Role: Access Groups Enablement Privilege: View Product Group (Data) Resource: Product Group
Products	A Customer Data Steward can delete product a member of an access group associated to the product with delete access	Role: Access Groups Enablement Privilege: Delete Product (Data) Resource: Products
Products	A Customer Data Steward can update product a member of an access group associated to the product with update access	Role: Access Groups Enablement Privilege: Update Product (Data) Resource: Products
Products	A Customer Data Steward can view product a member of an access group associated to the product	Role: Access Groups Enablement Privilege: View Product (Data) Resource: Products
Sales Business Plan	A Customer Data Steward can delete sales business plan a member of an access group associated to the business plan with delete access	Role: Access Groups Enablement Privilege: Delete Sales Business Plan (Data) Resource: Sales Business Plan
Sales Business Plan	A Customer Data Steward can update sales business plan general a member of an access group associated to the business plan with update access	Role: Access Groups Enablement Privilege: Update Sales Business Plan General (Data) Resource: Sales Business Plan
Sales Business Plan	A Customer Data Steward can update sales business plan status a member of an access group associated to the business plan with full access	Role: Access Groups Enablement Privilege: Update Sales Business Plan Status (Data) Resource: Sales Business Plan

Business Object	Policy Description	Policy Store Implementation
Sales Business Plan	A Customer Data Steward can view sales business plan a member of an access group associated to the business plan	Role: Access Groups Enablement Privilege: View Sales Business Plan (Data) Resource: Sales Business Plan
Sales Business Plan Team	A Customer Data Steward can manage sales business plan team a member of an access group associated to the business plan with full access	Role: Access Groups Enablement Privilege: Manage Sales Business Plan Team (Data) Resource: Sales Business Plan Team
Sales Competitor	A Customer Data Steward can manage sales competitor a member of an access group associated to the sales competitor with update access	Role: Access Groups Enablement Privilege: Manage Sales Competitor (Data) Resource: Sales Competitor
Sales Competitor	A Customer Data Steward can view sales competitor a member of an access group associated to the sales competitor	Role: Access Groups Enablement Privilege: View Sales Competitor (Data) Resource: Sales Competitor
Sales Contests	A Customer Data Steward can delete sales contest a member of an access group associated to the contest with delete access	Role: Access Groups Enablement Privilege: Delete Sales Contest (Data) Resource: Sales Contests
Sales Contests	A Customer Data Steward can update sales contest a member of an access group associated to the contest with update access	Role: Access Groups Enablement Privilege: Update Sales Contest (Data) Resource: Sales Contests
Sales Contests	A Customer Data Steward can view sales contest a member of an access group associated to the contest	Role: Access Groups Enablement Privilege: View Sales Contest (Data) Resource: Sales Contests
Sales Forecast	A Customer Data Steward can delete sales forecast participants a member of an access group associated to the sales forecast with delete access	Role: Access Groups Enablement Privilege: Delete Sales Forecast Participants (Data) Resource: Sales Forecast
Sales Forecast	A Customer Data Steward can update sales forecast participants a member of an access group associated to the sales forecast with update access	Role: Access Groups Enablement Privilege: Update Sales Forecast Participants (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Sales Forecast
Sales Forecast	A Customer Data Steward can view sales forecast participants a member of an access group associated to the sales forecast with read access	Role: Access Groups Enablement Privilege: View Sales Forecast Participants (Data) Resource: Sales Forecast
Sales Forecast Item	A Customer Data Steward can manage sales forecast item a member of an access group associated to the territory forecast with full access	Role: Access Groups Enablement Privilege: Manage Sales Forecast Item (Data) Resource: Sales Forecast Item
Sales Forecast Participant	A Customer Data Steward can manage sales forecast participant a member of an access group associated to the territory forecast with full access	Role: Access Groups Enablement Privilege: Manage Sales Forecast Participant (Data) Resource: Sales Forecast Participant
Sales Goal Participants	A Customer Data Steward can delete sales goal participants a member of an access group associated to the goal participant with delete access	Role: Access Groups Enablement Privilege: Delete Sales Goal Participants (Data) Resource: Sales Goal Participants
Sales Goal Participants	A Customer Data Steward can update sales goal participants a member of an access group associated to the goal participant with update access	Role: Access Groups Enablement Privilege: Update Sales Goal Participants (Data) Resource: Sales Goal Participants
Sales Goal Participants	A Customer Data Steward can view sales goal participants a member of an access group associated to the goal participant	Role: Access Groups Enablement Privilege: View Sales Goal Participants (Data) Resource: Sales Goal Participants
Sales Goals	A Customer Data Steward can delete sales goal a member of an access group associated to the goal with delete access	Role: Access Groups Enablement Privilege: Delete Sales Goal (Data) Resource: Sales Goals
Sales Goals	A Customer Data Steward can update sales goal a member of an access group associated to the goal with update access	Role: Access Groups Enablement Privilege: Update Sales Goal (Data) Resource: Sales Goals

Business Object	Policy Description	Policy Store Implementation
Sales Goals	A Customer Data Steward can view sales goal a member of an access group associated to the goal	Role: Access Groups Enablement Privilege: View Sales Goal (Data) Resource: Sales Goals
Sales KPI	A Customer Data Steward can delete sales kpi a member of an access group associated to the kpi with delete access	Role: Access Groups Enablement Privilege: Delete Sales KPI (Data) Resource: Sales KPI
Sales KPI	A Customer Data Steward can update sales kpi a member of an access group associated to the kpi with update access	Role: Access Groups Enablement Privilege: Update Sales KPI (Data) Resource: Sales KPI
Sales KPI	A Customer Data Steward can view sales kpi a member of an access group associated to the kpi	Role: Access Groups Enablement Privilege: View Sales KPI (Data) Resource: Sales KPI
Sales Lead	A Customer Data Steward can convert sales lead a member of an access group associated to the sales lead with full access	Role: Access Groups Enablement Privilege: Convert Sales Lead (Data) Resource: Sales Lead
Sales Lead	A Customer Data Steward can delete sales lead a member of an access group associated to the sales lead with delete access	Role: Access Groups Enablement Privilege: Delete Sales Lead (Data) Resource: Sales Lead
Sales Lead	A Customer Data Steward can update sales lead a member of an access group associated to the sales lead with update access	Role: Access Groups Enablement Privilege: Update Sales Lead (Data) Resource: Sales Lead
Sales Lead	A Customer Data Steward can view sales lead a member of an access group associated to the sales lead	Role: Access Groups Enablement Privilege: View Sales Lead (Data) Resource: Sales Lead
Sales Objective	A Customer Data Steward can delete sales objective a member of an access group associated to the sales business plan with delete access	Role: Access Groups Enablement Privilege: Delete Sales Objective (Data) Resource: Sales Objective

Business Object	Policy Description	Policy Store Implementation
Sales Objective	A Customer Data Steward can update sales objective attainment a member of an access group associated to the sales business plan with full access	Role: Access Groups Enablement Privilege: Update Sales Objective Attainment (Data) Resource: Sales Objective
Sales Objective	A Customer Data Steward can update sales objective general a member of an access group associated to the sales business plan with update access	Role: Access Groups Enablement Privilege: Update Sales Objective General (Data) Resource: Sales Objective
Sales Objective	A Customer Data Steward can view sales objective a member of an access group associated to the sales business plan	Role: Access Groups Enablement Privilege: View Sales Objective (Data) Resource: Sales Objective
Sales Objects	A Customer Data Steward can view sales objects for all standard file import export objects that are accessible for customer data steward	Role: Customer Data Steward Privilege: View Standard File Import Export Object Type Resource: Sales Objects
Sales Objects	A Customer Data Steward can view standard file import export object type for all standard file import export objects that are accessible for trading community batch import management duty	Role: Trading Community Import Batch Management Privilege: View Standard File Import Export Object Type Resource: Sales Objects
Sales Order	A Customer Data Steward can view sales order a member of an access group associated to the sales order	Role: Access Groups Enablement Privilege: View Sales Order (Data) Resource: Sales Order
Sales Quota Plan	A Customer Data Steward can view sales quota plan a member of an access group associated to the sales quota plan with read access	Role: Access Groups Enablement Privilege: View Sales Quota Plan (Data) Resource: Sales Quota Plan
Sales Resource Quota	A Customer Data Steward can manage sales resource quota a member of an access group associated to the sales resource quota with delete access	Role: Access Groups Enablement Privilege: Manage Sales Resource Quota (Data) Resource: Sales Resource Quota
Sales Resource Quota	A Customer Data Steward can manage sales resource quota a member of an access group	Role: Access Groups Enablement Privilege: Manage Sales Resource Quota (Data)

Business Object	Policy Description	Policy Store Implementation
	associated to the sales resource quota with update access	Resource: Sales Resource Quota
Sales Resource Quota	A Customer Data Steward can view sales resource quota a member of an access group associated to the sales resource quota with read access	Role: Access Groups Enablement Privilege: View Sales Resource Quota (Data) Resource: Sales Resource Quota
Sales Territory	A Customer Data Steward can manage sales territory a member of an access group associated to the sales territory with delete access	Role: Access Groups Enablement Privilege: Manage Sales Territory (Data) Resource: Sales Territory
Sales Territory	A Customer Data Steward can manage sales territory a member of an access group associated to the sales territory with update access	Role: Access Groups Enablement Privilege: Manage Sales Territory (Data) Resource: Sales Territory
Sales Territory	A Customer Data Steward can view sales territory a member of an access group associated to the sales territory with read access	Role: Access Groups Enablement Privilege: View Sales Territory (Data) Resource: Sales Territory
Sales Territory Proposal	A Customer Data Steward can manage sales territory proposal a member of an access group associated to the sales territory proposal with delete access	Role: Access Groups Enablement Privilege: Manage Sales Territory Proposal (Data) Resource: Sales Territory Proposal
Sales Territory Proposal	A Customer Data Steward can manage sales territory proposal a member of an access group associated to the sales territory proposal with update access	Role: Access Groups Enablement Privilege: Manage Sales Territory Proposal (Data) Resource: Sales Territory Proposal
Sales Territory Proposal	A Customer Data Steward can view sales territory proposal a member of an access group associated to the sales territory proposal with read access	Role: Access Groups Enablement Privilege: View Sales Territory Proposal (Data) Resource: Sales Territory Proposal
Service Category	A Customer Data Steward can delete service category a member of an access group associated to the service category with delete access	Role: Access Groups Enablement Privilege: Delete Service Category (Data) Resource: Service Category

Business Object	Policy Description	Policy Store Implementation
Service Category	A Customer Data Steward can update service category a member of an access group associated to the service category with update access	Role: Access Groups Enablement Privilege: Update Service Category (Data) Resource: Service Category
Service Category	A Customer Data Steward can view service category a member of an access group associated to the service category	Role: Access Groups Enablement Privilege: View Service Category (Data) Resource: Service Category
Service Profile	A Customer Data Steward can delete service profile a member of an access group associated to the service profile with delete access	Role: Access Groups Enablement Privilege: Delete Service Profile (Data) Resource: Service Profile
Service Profile	A Customer Data Steward can update service profile a member of an access group associated to the service profile with update access	Role: Access Groups Enablement Privilege: Update Service Profile (Data) Resource: Service Profile
Service Profile	A Customer Data Steward can view service profile a member of an access group associated to the service profile	Role: Access Groups Enablement Privilege: View Service Profile (Data) Resource: Service Profile
Service Request Header	A Customer Data Steward can delete service request header a member of an access group associated to the service request with delete access	Role: Access Groups Enablement Privilege: Delete Service Request Header (Data) Resource: Service Request Header
Service Request Header	A Customer Data Steward can update service request header a member of an access group associated to the service request with update access	Role: Access Groups Enablement Privilege: Update Service Request Header (Data) Resource: Service Request Header
Service Request Header	A Customer Data Steward can view service request header a member of an access group associated to the service request	Role: Access Groups Enablement Privilege: View Service Request Header (Data) Resource: Service Request Header
Service Request Message	A Customer Data Steward can delete service request message a member of an access group associated to the sr message with delete access	Role: Access Groups Enablement Privilege: Delete Service Request Message (Data) Resource: Service Request Message

Business Object	Policy Description	Policy Store Implementation
Service Request Message	A Customer Data Steward can update service request message a member of an access group associated to the sr message with update access	Role: Access Groups Enablement Privilege: Update Service Request Message (Data) Resource: Service Request Message
Service Request Message	A Customer Data Steward can view service request message a member of an access group associated to the sr message	Role: Access Groups Enablement Privilege: View Service Request Message (Data) Resource: Service Request Message
Simplified Account File Import Activity	A Customer Data Steward can view simplified account file import activity object type for all simplified account file import activities of object type 'ora_import_account'	Role: Trading Community Import Batch Management Privilege: View Simplified Account File Import Activity Object Type (Data) Resource: Simplified Account File Import Activity
Simplified Account File Import Mapping	A Customer Data Steward can view simplified account file import mapping object type for all simplified account file import mappings of object type 'ora_import_account'	Role: Trading Community Import Batch Management Privilege: View Simplified Account File Import Mapping Object Type (Data) Resource: Simplified Account File Import Mapping
Simplified Account File Import Object	A Customer Data Steward can view simplified account file import object type for all simplified account file import objects of object type 'ora_import_account'	Role: Trading Community Import Batch Management Privilege: View Simplified Account File Import Object Type (Data) Resource: Simplified Account File Import Object
Simplified Contact File Import Activity	A Customer Data Steward can view simplified contact file import activity object type for all simplified contact file import activities of object type 'ora_import_contact'	Role: Trading Community Import Batch Management Privilege: View Simplified Contact File Import Activity Object Type (Data) Resource: Simplified Contact File Import Activity
Simplified Contact File Import Mapping	A Customer Data Steward can view simplified contact file import mapping object type for all simplified contact file import mappings of object type 'ora_import_contact'	Role: Trading Community Import Batch Management Privilege: View Simplified Contact File Import Mapping Object Type (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Simplified Contact File Import Mapping
Simplified Contact File Import Object	A Customer Data Steward can view simplified contact file import object type for all simplified contact file import objects of object type 'ora_import_contact'	Role: Trading Community Import Batch Management Privilege: View Simplified Contact File Import Object Type (Data) Resource: Simplified Contact File Import Object
Simplified Household File Import Activity	A Customer Data Steward can view simplified household file import activity object type for all simplified household file import activities of object type 'ora_import_household'	Role: Trading Community Import Batch Management Privilege: View Simplified Household File Import Activity Object Type (Data) Resource: Simplified Household File Import Activity
Simplified Household File Import Mapping	A Customer Data Steward can view simplified household file import mapping object type for all simplified household file import mappings of object type 'ora_import_household'	Role: Trading Community Import Batch Management Privilege: View Simplified Household File Import Mapping Object Type (Data) Resource: Simplified Household File Import Mapping

Partner Account Administration	Maintains a partner account, including managing members and partner profile information.
Partner Account Review	Views a partner account, including viewing a partner's members, profile, and account team.
Partner Import Administration	Partner Import Administration Duty role. This duty will allow for administration activities of Partner Import
Partner Sales Party Management	Manages creation and maintenance of sales organizations and consumers for partners. Additional duties include viewing of opportunities and opportunity revenue, reviewing sales leads as well as appointments, interactions, and customer contacts. This role has limited access to customers and contacts.
Pricing Negotiation Limited	Negotiate limited pricing for a transaction.

Duty Role	Description
Product Search	Manages product searches.
Quota Export Management	Manages bulk export of all sales territory quota related objects.
Quota Management	Manages sales territory quotas and territory quota formulas. Additional duties include incentive compensation goal management, user and roles management, and party information inquiry.
Quota Management Export Import	Manages sales quota export and import. Provides users with the ability to export sales quota data, modify it offline and import.
Quota Management Setup	Manages sales territory quota setup, quota plans, prediction and spread formula parameters, and seasonality groups. Runs sales territory quota synchronization and sales quota plan activation and completion processes. Additional duties include party information inquiry.
Resource Administration	Administers resource information.
Resource Organization Administration	Administers resource organizations.
Resource Team Administration	Defines resource teams.
Review CRM Approval Transactions Administrator	Allows viewing of information for CRM approval transactions by an administrator.
Sales Change History Inquiry	Views change history of sales business objects for members within the sales organization.
Sales Lead Follow Up	Processes sales lead for follow up actions including the qualification and conversion of sales lead to revenue opportunities.
Sales Party Management	Manages creation and maintenance of the sales organizations and consumers for internal sales users. Additional duties include viewing of opportunities and opportunity revenue, reviewing sales leads as well as appointments, interactions, and customer contacts.
Sales Party Review	Allows resources read-only access to sales parties information such as manage customer work area and all sales party duties. Additional duties include view access to other customer and sales lead features.
Service Availability Management	Manage the service availability data including reading and writing the availability of a service.
Service Generative AI Administrator	Administer activities related to Service Gen AI APIs such as configuration of prompts across all areas of Oracle Fusion Service, such as Service Center, Knowledge, and Chat.
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.

Duty Role	Description
Service Profile Administration	Manages all aspects of the Service Profile object, including deleting a service profile.
Service Request Administrator	Administers all aspects of the Service application, including Setup.
Service Status Computation	Perform actions required to determine the availability of a service.
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.
Social Connection Partner	Performs all Oracle Fusion Social Connection partner duties.
Subscription Amendment	Amends approved subscriptions. This includes initiating an amendment, reverting the subscription to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.
Subscription Authoring	Authors subscriptions
Subscription Management Folder Reporting	Grants access to the Subscription Management web catalog folder.
Subscription Search and View Access	Searches and views subscriptions for the assigned business units.
Subscription Setup	Handles the setup required for subscriptions.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.
Territory Management	Manages sales territories, territory proposals, and quotas.
Territory Management Export Import	Manages sales territory export and import. Provides users with the ability to export territory data, modify it offline and import.
Territory Management Setup	Manages sales territory setup, including lookups, profile options, flexfields, and dimension data. Runs dimension synchronization, and visibility jobs. Additional duties include quota management setup.
Territory Management T2P Migration	Manages sales territory export and import. Provides users with the ability to export territory data from a test environment and import into production.
Trading Community Customer Account Administration	Grants privileges to setup customer account information.
Trading Community Data Quality Administration	Configures, reviews, and edits predefined data quality server configurations and the predefined matching, synchronization, and cleansing configurations.

Duty Role	Description
Trading Community Import Batch Management	Manages trading community data import batches.
Trading Community Import Process Management	Manages trading community data import batch processes.
Trading Community Person Administration	Grants privileges to setup person information.
Upload data for Agreement Import	Allows to upload data file to import Agreement related data.
Upload data for Appointment Import	Allows to upload data file to import Appointment related data.
Upload data for Asset Import	Allows to upload data file to import Asset related data.
Upload data for Assignment Rule Import	Allows to upload data file to import Assignment Rule related data.
Upload data for CSS Roles Import	Allows to upload data file to import CSS Roles related data.
Upload data for Classification Code Import	Allows to upload data file to import classification code related data.
Upload data for Common Custom Object Import	Allows to upload data file to import Common Custom Object related data.
Upload data for Consumer Import	Allows to upload data file to import Consumer related data.
Upload data for Contact Import	Allows to upload data file to import Contact related data.
Upload data for Contract Import	Allows to upload data file to import Contract related data.
Upload data for Country Structure Import	Allows to upload data file to import Country Structure related data.
Upload data for Customer Hierarchy Import	Allows to upload data file to import Customer Hierarchy related data.
Upload data for Customer Hierarchy Member Import	Allows to upload data file to import Customer Hierarchy Member related data.
Upload data for Customer Import	Allows to upload data file to import Customer related data.
Upload data for Data Visualization Configuration Import	Allows to upload data file to import Data Visualization Configuration related data.
Upload data for Deal Registration	Allows to upload data file to import deal registration related data.

Duty Role	Description
Upload data for Employee Resource Import	Allows to upload data file to import Employee Resource related data.
Upload data for Geography Import	Allows to upload data file to import Geography related data.
Upload data for Group Customer Import	Allows to upload data file to import group customer related data.
Upload data for Incentive Compensation Transaction Import	Allows to upload data file to import incentive compensation transactions.
Upload data for Interaction Import	Allows to upload data file to import Interaction related data.
Upload data for IoT Asset Relation Import	Allows to upload data file to import IoT Asset Relation related data.
Upload data for IoT Registration Request Import	Allows to upload data file to import IoT Registration Request related data.
Upload data for Lead Import	Allows to upload data file to import Lead related data.
Upload data for Legal Entity Import	Allows to upload data file to import Legal Entity related data.
Upload data for MCT Agent Connection Parameters Import	Allows to upload data file to import MCT Agent Connection Parameters related data.
Upload data for MCT CTD Agent Import	Allows to upload data file to import MCT CTD Agent related data.
Upload data for Marketing Activity Advertising Import	Allows to upload data file to import Marketing Activity Advertising related data.
Upload data for Marketing Activity Event Import	Allows to upload data file to import Marketing Activity Event related data.
Upload data for Marketing Activity Interaction Import	Allows to upload data file to import Marketing Activity Interaction related data.
Upload data for Marketing Budget Import	Allows to upload data file to import Marketing Budget related data.
Upload data for Marketing Campaign Import	Allows to upload data file to import Marketing Campaign related data.
Upload data for Marketing Campaign Members Import	Allows to upload data file to import Marketing Campaign Members related data.
Upload data for Marketing Custom Object Import	Allows to upload data file to import Marketing Custom Object related data.

Duty Role	Description
Upload data for Marketing List Import	Allows to upload data file to import Marketing List related data.
Upload data for Message Import	Allows to upload data file to import message related data.
Upload data for Note Import	Allows to upload data file to import Note related data.
Upload data for Opportunity Custom Object Import	Allows to upload data file to import Opportunity Custom Object related data.
Upload data for Opportunity Import	Allows to upload data file to import Opportunity related data.
Upload data for Partner Contact Import	Allows to upload data file to import Partner Contact related data.
Upload data for Partner Import	Allows to upload data file to import Partner related data.
Upload data for Product Group Import	Allows to upload data file to import Product Group related data.
Upload data for Program Enrollments Import	Allows to upload data file to import Program Enrollments related data.
Upload data for Promotion Import	Allows to upload data file to import Promotion related data.
Upload data for Quota Import	Allows to upload data file to import quota related data.
Upload data for Resource Team Import	Allows to upload data file to import Resource Team related data.
Upload data for Response Import	Allows to upload data file to import Response related data.
Upload data for Sales Account Resource Team Import	Allows to upload data file to import Sales Account Resource Team related data.
Upload data for Sales Business Plan Import	Allows to upload data file to import sales business plan related data.
Upload data for Sales Objectives Import	Allows to upload data file to import sales objectives related data.
Upload data for Simplified Account	Allows to upload data file to import simplified account related data.
Upload data for Simplified Contact	Allows to upload data file to import simplified contact related data.
Upload data for Simplified Household	Allows to upload data file to import simplified household related data.

Duty Role	Description
Upload data for Source System Reference Import	Allows to upload data file to import Source System Reference related data.
Upload data for Subscription Import	Allows to upload data file to import subscription related data.
Upload data for Task Import	Allows to upload data file to import Task related data.
Upload data for Territory Import	Allows to upload data file to import territory related data.
View Item Redwood	Allows users to view item details.
Workforce Profile Administration	Performs administrative duties for workforce talent profiles.

Aggregate Privileges

This table lists aggregate privileges assigned directly and indirectly to the Customer Relationship Management Application Administrator job role.

Aggregate Privilege	Description
Edit User Name	Updates the user name associated with a person.
Manage CX AI Agents	This role allows administrators to manage CX AI Agents in Agent Studio
Manage User Roles	Allows management of user roles assignments.
Use REST Service - Public Workers Read Only	Allows the user to call the GET method associated with the Public Workers REST Service.
Use User Details Service	Creates or updates users during person synchronizations.

Privileges

This table lists privileges granted to duties of the Customer Relationship Management Application Administrator job role.

Granted Role	Granted Role Description	Privilege	Privilege Description
AI Agent Connector Management	Provides ability to administer connectors used in AI Agents.	Use AI Agent Connectors	Access and work with connectors in agent studio
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Currency	Manage currencies used by applications.
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference ISO Language	Manage ISO Languages used by applications.
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Industry	Manage Industries used by applications
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Language	Manage Languages used by applications
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Natural Language	Manage Natural Languages used by applications
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Territory	Manage Territories used by applications
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Timezone	Manage Timezones used by applications
AttachmentsWCCintegrato	DUTYroleforAttachmentsWCCintegr	Access Attachments Certificate Manager REST resource	Allows accessing the attachments Certificate Manager REST resource.
Channel Manager Dashboard	Provides channel roles a dashboard to manage their daily transactions.	Manage Partner User Profile	Allows management of the partner user profile.
Channel Manager Dashboard	Provides channel roles a dashboard to manage their daily transactions.	View Channel Manager Dashboard	Allows viewing of the Channel Manager dashboard.
Channel Manager Dashboard	Provides channel roles a dashboard to manage their daily transactions.	View Channel Manager Dashboard as Administrator	Allows viewing of Channel Manager Dashboards regions and task flows for Administrators.

Granted Role	Granted Role Description	Privilege	Privilege Description
Channel Manager Dashboard	Provides channel roles a dashboard to manage their daily transactions.	View Customer Analytics	Allows viewing of customer analytics.
Channel Manager Dashboard	Provides channel roles a dashboard to manage their daily transactions.	View Partner Content	Allows viewing of partner content.
Channel Manager Dashboard	Provides channel roles a dashboard to manage their daily transactions.	View Partner Profile	Allows viewing the partner profile.
Channel Manager Dashboard	Provides channel roles a dashboard to manage their daily transactions.	View Partner Program Enrollment	Allows viewing of partner program enrollment.
Channel Manager Dashboard	Provides channel roles a dashboard to manage their daily transactions.	View Partner Programs Summary	Allows viewing a summary of partner programs.
Channel Manager Dashboard	Provides channel roles a dashboard to manage their daily transactions.	View Territories and Forecasts	Allows viewing of territory and forecast data.
Channel Manager Dashboard	Provides channel roles a dashboard to manage their daily transactions.	View Web Activity	Allows viewing web activities synchronized from B2B Marketing.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Amend Contract	Provides access to the amend and revert actions.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Cancel Contract	Allows the cancellation of contracts and contract lines.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Close Contract	Allows the closing of contracts and contract lines.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Create Contract	Provides ability to initiate contract creation.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Create Contract Deliverable	Allows creation of a contract deliverable.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Delete Contract	Allows the deletion of draft or canceled contracts.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Delete Contract Documents	Not Available
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Delete Supporting Documents	Not Available
Contract Amendment	Amends approved contracts. Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Site	Allows the viewing of the customer account site information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Site Use	Allows the viewing of the customer account site use information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Assets	Allows query and view of customer assets, related configurations and structures.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Meter Reading History	Allow the query and view of meter reading history.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Meters	Allow the query and view of meters.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Purchase Agreement	Allows a user to review a blanket or contract purchase agreement.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Purchase Order	Allows a user to review a purchase order.
Contract Setup	Contract Setup	(OBSOLETE) Define Contract Collaboration Configuration	Allows the configuration of contract collaboration.
Contract Setup	Contract Setup	Administer Sandbox	Allows administration of all sandboxes.
Contract Setup	Contract Setup	Build Keyword Search Index for the Contract Terms Library	Allows the running of processes to synchronize and optimize the keyword index for clause and terms template searches in the Contract Terms Library.
Contract Setup	Contract Setup	Configure Contract UI	Allows the configuration of contract UI
Contract Setup	Contract Setup	Define Endpoint and Security Policy Information	Allows definition of endpoint and security policy information for an enterprise application.
Contract Setup	Contract Setup	Define Project Contract Billing Configuration	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Generate PDF Contract for Text Search	Allows the running of the process to generate PDFs of draft contracts, or contracts under amendment, so they are available during text searches.
Contract Setup	Contract Setup	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Contract Setup	Contract Setup	Manage Application Common Lookup	Not Available
Contract Setup	Contract Setup	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Contract Setup	Contract Setup	Manage Application Document Sequence	Manage implementation of Application Document Sequences. Document Sequences are identifiers guarenteed to be

Granted Role	Granted Role Description	Privilege	Privilege Description
			unique, time-ordered, and gapless. This is in contrast to a database sequence which (for performance purposes) may contain gaps and which might not be ordered by time of document creation. Examples would include ID numbers for traffic tickets or other legal documents where gaps in the record may trigger an investigation.
Contract Setup	Contract Setup	Manage Application Document Sequence Category	Manage document sequence categories
Contract Setup	Contract Setup	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Contract Setup	Contract Setup	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Contract Setup	Contract Setup	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Contract Setup	Contract Setup	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Contract Setup	Contract Setup	Manage Contract Currency Conversion Rate Types	Allows the definition of user-defined currency conversion rate types.
Contract Setup	Contract Setup	Manage Contract Customer Account	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Customer Account Site Usages	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Defaults	Allows management of contract defaults

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Contract Global Employee	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Interaction Reference Mapping	Allows the mapping of interaction types to applications where the interaction types can be used.
Contract Setup	Contract Setup	Manage Contract Layout Templates	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Item	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Type	Allows creating and managing of contract line types such as product and service.
Contract Setup	Contract Setup	Manage Contract Note Type Mapping	Allows creating and managing of the mapping that provides a tailored list of note type values for contracts. When no mapping is specified, note type values mapped to the object Note are used.
Contract Setup	Contract Setup	Manage Contract Organization Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Contact	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Location	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Role and Contact Sources	Allows the specification of the data sources for parties and contacts. A data source specifies the available list of values for parties or contacts of a given role.
Contract Setup	Contract Setup	Manage Contract Payment Terms	Allows creating and managing of payables payment terms for use in supplier contracts.
Contract Setup	Contract Setup	Manage Contract Person Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Request Type	Manage contract request types.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Contract Risk Event	Allows creating and managing of contract risk events that can be associated to a contract.
Contract Setup	Contract Setup	Manage Contract Standard Clauses, Templates, and Contract Expert Rules	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Type	Allows the management of contract types to specify properties of different contracts such as the type of permitted contract lines, party roles, contract validation checks, and the contract acceptance and signature requirements.
Contract Setup	Contract Setup	Manage Contract and Pricing Integration	Not Available
Contract Setup	Contract Setup	Manage Coverage Times	Allows management of coverage times
Contract Setup	Contract Setup	Manage Default Coverage	Allows management of default coverage
Contract Setup	Contract Setup	Manage Electronic Signature Setup	Allows setting up electronic signature
Contract Setup	Contract Setup	Manage Key Terms and Prompts	Allows the definition of contract key terms and prompts. This also includes adding key terms to contract types.
Contract Setup	Contract Setup	Manage Matrix Classes	Allows creation, update, deletion, copy, and viewing of all matrix classes and child entities.
Contract Setup	Contract Setup	Manage Pricing Algorithms	Allows creation, update, deletion, copy, and viewing of all algorithms and child entities.
Contract Setup	Contract Setup	Manage Service Mappings	Allows creation, update, deletion, copy, and viewing of all service mappings and child entities.
Contract Setup	Contract Setup	Manage Standard Coverage	Allows management of standard coverage

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Time Unit Mappings	Allows management of time unit mappings
Contract Setup	Contract Setup	Manage User Statuses and Transitions	Manage user statuses and transitions
Contract Setup	Contract Setup	Process Installed Base updates	Processes installed base updates.
Contract Setup	Contract Setup	Specify Customer Contract Management Business Function Properties	Allows specifying and managing of currency conversion rules, project billing rules and default values, adoption rules for contract standards and policies, and other contract management functions during business unit setup.
Contract Setup	Contract Setup	Specify Procurement Contract Management Business Function Properties	Allows specification of supplier contract management properties during business unit setup. This includes the specification of contract standards, policies, and adoption rules.
Contract Setup	Contract Setup	Track Purchasing Activity for Contract Fulfillment Line	Allows the running of the process that retrieves the number and the status of the purchasing document created by the integrated procurement application from the contract fulfillment line.
Contract Setup	Contract Setup	Update Contract Status	Updates the status of contracts that are dependent on time. For example, updates the status to expired when the end date is reached.
Contract Setup	Contract Setup	Update Enterprise Application Deployment Information	Allows updating deployment information of an enterprise application.
Contract Setup	Contract Setup	Use Generative AI Features in Sales	Allows users to use generative ai features
Contract Setup	Contract Setup	View Administration Link	Privilege to view administration link in UI shell
Contract Setup	Contract Setup	View Contract Type	Allows viewing of the contract type and its attributes.
Contract Terms Library Administration	Manages the Contract Terms Library, including defining and	Adopt Global Clauses for a New Business Unit	Allows the running of the process to automatically adopt global

Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Application Metrics	Allow read, create and update of recent items information
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Application Profile Category	Manage application profile option categories
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Application Profile Option	Manage Application Profile Options: Manage the level the value can be changed

Granted Role	Granted Role Description	Privilege	Privilege Description
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Application Tree	Manage application trees and tree versions
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Application Tree Label	Manage application tree labels
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Application Tree Structure	Manage application tree structures
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Contact Point Descriptive Flexfields	Allows the specification of additional fields to enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration.	Manage Customer Center Custom Objects	Allows access to custom objects in Oracle Fusion Customer Center.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.		
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Customer Data Management Foundation Custom Objects	Allows access to custom objects in Customer Data Management Foundation.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Data Cloud Mappings and Preferences	Allows management of attribute mappings and preferences for social data cloud service integration.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Data Format Profile Options	Allows the specification of options for name and address formats, such as the default address style.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Data Visualization Configuration	Allows creation, modification and deletion of data visualization configurations either through UI pages or through REST service calls. For example, a data visualization could be configured to be displayed as a Bar chart.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Data Visualization Preference	Allows creation, modification and deletion of the user preferences for the data visualization configuration. For example, a user might prefer to view a data visualization configured initially as a horizontal Bar chart, to be displayed as a vertical Bar chart instead.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management	Manage Dispatcher Rules	View, create and edit navigation dispatcher rules.

Granted Role	Granted Role Description	Privilege	Privilege Description
	application users to maintain consistent financial application setup, rules, and access.		
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Enrollment Notes	Allows managing partner program enrollment notes
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Express Report Definitions	Allows creation, modification and deletion of Express Report Definitions
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Express Report Types	Allows creation, modification and deletion of Express Report Types
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Extensible Object	Allows the extension of the base application using the CRM Application Composer. Includes the ability to manage custom objects, as well as the ability to manage business events and e-mail templates, and custom subject areas for reporting.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage File Import and Export	Privilege to manage import and export of files.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Generative AI Features in Sales	Allows administrators to manage generative ai features in sales

Granted Role	Granted Role Description	Privilege	Privilege Description
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Global Search Auto Suggest	Allows managing auto suggest component in global search
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Global Search User Interface	Allows managing global search user interface
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Global Search View Objects	Allows managing and indexing of global search view objects
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Group Access	Allows configuring Access Groups.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Help Content	Allows addition, modification, and maintenance of help content.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Interactive List Saved Search	Allows configuring interactive lists saved search

Granted Role	Granted Role Description	Privilege	Privilege Description
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Marketing Bounce Handling Daemon	For information purposes only. The e-mail server configuration tasks are not secured by this entitlement. The tasks include installing and configuring the bounce handling daemon and modifying the properties file, for example updating the web services URL to be called when a bounced e-mail message is detected. The bounce handling daemon provides the inbound mechanism to track e-mails that cannot be delivered.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Marketing Click-Through Daemon	For information purposes only. The e-mail server configuration tasks are not secured by this entitlement. The tasks include modifying the click-through daemon properties file if changes are required after installation. Properties include profile management and marketing web services URLs. The click-through daemon provides the inbound mechanism to track e-mail responses.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Marketing Custom Objects	Allows access to custom objects in Oracle Fusion Marketing.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Marketing E-Mail Sending Daemon	For information purposes only. The e-mail server configuration tasks are not secured by this entitlement. The tasks include modifying the e-mail sending daemon properties file if changes are required after installation. Properties include log file location and spam server settings. The e-mail sending daemon is the outbound mechanism to generate personalized e-mail messages for marketing campaigns.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Marketing Outbound MTA Network Connections	For information purposes only. The e-mail server configuration tasks are not secured by this entitlement. The tasks include modifying the e-mail sending daemon properties file to replace an existing mail-transfer agent host and port with new connection information as needed.

Granted Role	Granted Role Description	Privilege	Privilege Description
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage My Application Profile Values	Manage My Application Profile Values. Access to manage profile values at the user level.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage OCI Function User Principal	Allows administrators to store OCI function user principal
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Page Personalization Layouts	Allows creation, modification, and deletion of Page Personalization Layouts through UI pages or REST service calls
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Partner Content	Allows management of the partner content.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Partner Program Enrollment	Allows management of partner program enrollment in the partner work area.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Partner Relationship	Allows managing partner relationships from partner center.

Granted Role	Granted Role Description	Privilege	Privilege Description
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Product Eligibility Rules	Allows management of eligibility rules for products.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Product Groups	Allows management of product groups and their attributes, lookups, mapping, profile options, templates and usages.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Promotions	Allows management of promotions for use in marketing campaigns.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Real Time Communication	This allows the user to manage voice communication.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Recommendation Configuration Parameter	Edit application setup and configuration parameters.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Relationship Descriptive Flexfields	Allows the specification of additional fields to enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration.	Manage Resource Role Assignment Flexfields	Not Available

Granted Role	Granted Role Description	Privilege	Privilege Description
	Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.		
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Resource Role Descriptive Flexfields	Allows the specification of additional fields to enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Routines	View, create and edit routines.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Sales Administration	Allows to access Sales Administration
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Sales Audit Policies	Allows administrators to manage audit policies for Sales related objects.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Sales Business Plan Setup	Allows viewing and making select updates of business plan non-extensible lookup values.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain	Manage Sales Custom Objects	Allows access to custom objects in Oracle Fusion Sales.

Granted Role	Granted Role Description	Privilege	Privilege Description
	consistent financial application setup, rules, and access.		
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Sales Notifications	Manage Sales Notifications
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Sales Objective Setup	Allows managing the set of objective types.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Sales and Service Access	Allows configuring access for Sales and Service objects.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Saved Searches	Allows configuring saved searches
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Sensing Agent	Allows administrator access to configure the sensingAgent REST service for the Oracle Assistant component embedded in Oracle Inside Sales application.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Smart Actions	Allows access to Smart Actions Framework REST operations.

Granted Role	Granted Role Description	Privilege	Privilege Description
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Source System Descriptive Flexfields	Allows the specification of additional fields to enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Text Analysis Intelligence	Allows administrators to schedule ESS job that purges expired suggestions from text analysis
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Address Format	Allows the specification of how addresses appear in the application, such as the sequence of address elements in a postal address.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Classification Category	Allows the specification of classification categories used to classify or group organizations and persons in your business community. The classification model lets you record complex, real-life categories in which entities can be grouped, such as industry classification.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Classification Category Group	Allows the specification of groups of classification categories, such as industry groups. Use classification groups to categorize similar classification categories.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Classification Lookups	Not Available

Granted Role	Granted Role Description	Privilege	Privilege Description
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Common Lookups	Allows the specification of lookup values that provide choices related to defining and managing trading community members.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Common Profile Options	Allows the specification of options for managing trading community members, such as manual or automatic identifier entry.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Contact Point Lookups	Allows the specification of lookup values that provide choices related to contact types, such as home phone numbers, business e-mail addresses, and web addresses.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Data Style	Allows the specification of styles for data layout in specific situations, such as printing an address on an envelope, or the order of the individual components that make up the name of a person in a list of values.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Group Lookups	Not Available
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Group Profile Options	Not Available
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration.	Manage Trading Community Hierarchy	Allows the specification of organization and person hierarchies used in transactional

Granted Role	Granted Role Description	Privilege	Privilege Description
	Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.		and analytical processes. If assigning, also assign the ability to view the trading community hierarchy.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Hierarchy Lookups	Allows the specification of lookup values that provide choices when defining your hierarchy types, such as customer and party.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Hierarchy Type	Allows the specification of hierarchy labels, such as global and subsidiary, used for hierarchy tree display.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Import Lookups	Allows reviewing and defining of lookup values that provide choices related to data import batch processing, such as batch status, batch identifier, batch configuration, and process status.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Location Descriptive Flexfields	Allows the specification of additional fields to enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Location Lookups	Allows the specification of lookup values that provide choices related to locations, such as site usage and address validation levels.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain	Manage Trading Community Location Profile Options	Allows the specification of options for managing locations, such as automatic or manual site number entry.

Granted Role	Granted Role Description	Privilege	Privilege Description
	consistent financial application setup, rules, and access.		
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Member Name and Identifier Setup for Identifier	Allows the specification of additional identifier types for organizations and persons in your business community, such as passport number and social security number.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Member Name and Identifier Setup for Name	Allows the specification of additional name types for organizations and persons in your business community, such as Doing Business As Name and Legal Name.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Name Format	Allows the specification of how customer names appear in the application, such as the sequence of first name and last name.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Organization Descriptive Flexfields	Allows the specification of additional fields to enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Organization Lookups	Allows the specification of lookup values that provide choices related to organizations, such as organization size, and types.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Organization Site Descriptive Flexfields	Allows the specification of additional fields to enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.

Granted Role	Granted Role Description	Privilege	Privilege Description
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Original System	Allows the update of original system information.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Original System Mapping	Allows the specification of entity associations for various source systems. For example, some source systems are configured to import customer data, whereas others are configured to import customers and contacts.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Party Usage	Allows the specification of party usages for persons or organizations. Define rules for usage availability when defining parties, and as the party transitions through a lifecycle.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Party Usage Filter Rule Information	Allows the specification of filter rules to include or exclude usages for searching parties.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Party Usage Lookups	Allows the specification of lookup values that provide choices when defining your party usage model, such as party usage rules and types.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Relationship Lookups	Allows the specification of lookup values that provide choices when defining your relationship model, such as relationship types, or roles.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration.	Manage Trading Community Relationship Type	Allows the specification of relationship types that can be created between organizations

Granted Role	Granted Role Description	Privilege	Privilege Description
	Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.		and persons in the business community, such as contact of and competitor of.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Relationship Type Group	Allows the specification of relationship groups, which are a categorization of similar relationship types, used, for example, to search for persons to associate to an organization.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Resource Role	Allows the specification of resource roles which indicate the resource function and which usually correspond to a set of jobs. Roles are used to facilitate assignment of appropriate resources, and to derive reporting relationship within an organization.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Resource Role Lookups	Allows the specification of lookup values that provide choices when defining resource role types, such as marketing and sales.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Source System Lookups	Allows the specification of lookup values that provide choices related to the source system model, such as original system types.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Trading Community Telephone Numbering Plan	Allows the specification of country specific phone numbering plans, which define parameters such as the country codes, the area codes and the length of phone numbers.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain	Manage Trading Community Zones	Allows managing of geographical boundaries for a specific zone use such as Tax or Shipping based on master reference geography hierarchy data.

Granted Role	Granted Role Description	Privilege	Privilege Description
	consistent financial application setup, rules, and access.		
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage User Context	Allows the user to update user context metadata,to run bots,and to create and schedule ESS jobs.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Users Page Personalization	Allows creation, modification, and deletion of the User Pages through UI pages or REST service calls
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Manage Web Service Information	Allows extraction, loading, and discovery of application Web service information on an Oracle Sales Cloud instance.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Match Accounts and Contacts	Allowing finding duplicate accounts and contacts.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Omnichannel Engage Service	Allows use of Omnichannel and Engage REST service operations
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Publish Adaptive Search and Workspace Configuration	Allows publishing configuration for Adaptive Search and Workspace

Granted Role	Granted Role Description	Privilege	Privilege Description
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Register Partner Deal	Allows submitting the deal registration for approval.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Review Deal Registration Extension Details	Allows reviewing extension details on a deal registration.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Review Partner Deal	Allows view of all tabs in the deal registration UI with the exception of the social tab.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Review Partner Program	Allows viewing of the program by a partner.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Run Appointment Reminder	Allows scheduling and monitoring the process that calculates appointment reminders and sends out reminder notifications.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Run CRM Analytics Audit Table Refresh Job	Allows scheduling and monitoring of CRM Analytics Audit Table Refresh Job
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration.	Run CRM Analytics Product Catalog Denormalization Job	Allows scheduling and monitoring of CRM Analytics Product Catalog Denormalization Job

Granted Role	Granted Role Description	Privilege	Privilege Description
	Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.		
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Run CRM Analytics Time Denormalization Job	Allows scheduling and monitoring of CRM Analytics Time Denormalization Job
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Run CRM Export Process	This privilege would grant a user the ability to schedule CRM object to export to a file
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Run File Import Scheduler	Allows scheduling and monitoring the process that schedules file import activities.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Run Lead Processing Scheduler	Allows submitting sales lead assignment processing activities.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Run Purge Batch Assignment Information Process	Allows scheduling and monitoring of the process to purge the batch assignment data.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain	Run Purge Recent Items	Allows scheduling and monitoring of the process to purge the recent items information for business objects.

Granted Role	Granted Role Description	Privilege	Privilege Description
	consistent financial application setup, rules, and access.		
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Run Sales Forecast Jobs	Allows running of the various background jobs including Forecast Generation, Participant Forecast Generator, Periodic Refresh, and Due Date Check.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Run Search Index Scheduler	Allows to run the search index scheduler.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Run Trading Community Account Hierarchy Change Identification	Allows the running of the process that identifies the account hierarchy changes.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Run Trading Community Classification Hierarchy Generation	Allows the running of the process that generates the classification hierarchy.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Run Trading Community Hierarchy Audit Job	Allows the running of the audit process which validates trading community hierarchies against a set of validation rules. If a hierarchy does not pass a validation rule, the hierarchy is updated to an inactive status.
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Run Trading Community Party Hierarchy Generation	Allows the running of the process that generates the party hierarchy.

Granted Role	Granted Role Description	Privilege	Privilege Description
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Search Contract Expert Question for Programs	Not Available
Customer Relationship Management Application Administrator	Individual responsible for customer relationship management application administration. Collaborates with customer relationship management application users to maintain consistent financial application setup, rules, and access.	Select Metadata Entities and Attributes	Manage input data entities used in predictive models and business rules.

Purge Incentive Compensation Data	Allows submission of a process to purge transactional data created while testing implementations in a preproduction state. Purged data includes all transactions, credits, earnings, payment batches, and paysheets. Once purged, the data is no longer retrievable.
Incentive Compensation Administration	Configure and maintain incentive compensation enterprise and business unit setup.	Set Up Incentive Compensation Parameters	Allows set up of incentive compensation parameters.
Incentive Compensation Administration	Configure and maintain incentive compensation enterprise and business unit setup.	Submit Incentive Compensation Table Statistics Process	Allows submission of the incentive compensation gather table statistics process.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Check-in Interview Definitions	Allow access to check-in Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Check-out Interview Definitions	Allow access to check-out Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Copy Interview Definitions	Allow access to copy Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Create Interview Definitions	Allow access to create Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Update Interview Definitions	Allow access to update Interview definitions.
Interview Definition Managing	Manage access for deleting and forcing checkout of Interview definitions.	Change Interview Definition Owner	Allow access to change the owner of Interview definitions.
Interview Definition Managing	Manage access for deleting and forcing checkout of Interview definitions.	Delete Interview Definitions	Allow access to delete Interview definitions.

Granted Role	Granted Role Description	Privilege	Privilege Description
Interview Definition Managing	Manage access for deleting and forcing checkout of Interview definitions.	Force Checkout Interview Definitions	Allow access to force checkout Interview definitions.
Interview Definition Managing	Manage access for deleting and forcing checkout of Interview definitions.	Update Interview responses to Survey	Allow access for the ESS Job to update Interview responses to Survey framework for analytics.
Interview Definition Publishing	Manage access for publishing and unpublishing Interview definitions.	Publish Interview Definitions	Allow access to publish Interview definitions.
Interview Definition Publishing	Manage access for publishing and unpublishing Interview definitions.	Unpublish Interview Definitions	Allow access to unpublish Interview definitions.
Interview Definition Viewing	Manage access for viewing Interview definitions.	View Interview Definitions	Allow access to view the Interviews menu item and Interviews page.
Item Inquiry	Queries and views items in the enterprise.	Access Product Development Configurations Using a REST Service	Permits access to configure data in Product Development using REST services, including master organization setup.
Item Inquiry	Queries and views items in the enterprise.	GET Product Management Index REST	Allows access to view indexed attributes.
Item Inquiry	Queries and views items in the enterprise.	Get Item Index Available Attributes REST	Allows access to view available attributes for item.
Item Inquiry	Queries and views items in the enterprise.	Get Search View REST	Allows query of search views.
Item Inquiry	Queries and views items in the enterprise.	Manage Item Attachment	Allows access to view and manage item attachments.
Item Inquiry	Queries and views items in the enterprise.	Manage Item Catalog	Allows access to view and manage item catalogs including categories and category hierarchies.
Item Inquiry	Queries and views items in the enterprise.	Manage Item Global Search	Allows access to search for items using secure enterprise search.
Item Inquiry	Queries and views items in the enterprise.	Manage Product Management Search	Allows access to view and edit Product Management Search.
Item Inquiry	Queries and views items in the enterprise.	Manage Search View REST	Allows access to view and manage search views.

Granted Role	Granted Role Description	Privilege	Privilege Description
Item Inquiry	Queries and views items in the enterprise.	Manage Trading Partner Item Reference	Allows access to manage trading partner item references for items.
Item Inquiry	Queries and views items in the enterprise.	Manage Unit of Measure	Allows configuration of UOMs, UOM classes, and definition of standard, interclass, and intraclass UOM conversions.
Item Inquiry	Queries and views items in the enterprise.	View Item	Allows access to product dashboard.
Item Inquiry	Queries and views items in the enterprise.	View Item Organization Association	Allows access to view item organization assignments.
Item Inquiry	Queries and views items in the enterprise.	View Item Relationship	Allows access to view item relationships.
Item Inquiry	Queries and views items in the enterprise.	View Product Management Search	Allows access to view Product Management Search.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Browse Item	Allows access to browse for items using item class and catalog hierarchies.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Configure Item Extended Attributes	Allows configuration of item extended attributes.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Create Item Structure	Allows access to create item structure action from regional task pane.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Create Trading Partner	Allows access to creation of trading partners.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Delete Trading Partners	Allows access to deletion of trading partners.

Granted Role	Granted Role Description	Privilege	Privilege Description
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Manage Item	Allows access to browse items.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Manage Item Attachment	Allows access to view and manage item attachments.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Manage Item Catalog	Allows access to view and manage item catalogs including categories and category hierarchies.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Manage Item Lifecycle Phase Change	Allows access to change lifecycle phase of items in the enterprise.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Manage Item Manufacturer	Allows access to view and manage item manufacturers.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Manage Item Organization Association	Allows access to manage item organization assignments.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Manage Item Relationship	Allows access to manage item relationships.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Manage Item Status Change	Allows access to change status of items in the enterprise.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Manage Item Work List	Allows access to manage item work list entries.

Granted Role	Granted Role Description	Privilege	Privilege Description
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Manage Product Audit Trail Reports	Allows management of audit data for products.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Manage Trading Partner Item Reference	Allows access to manage trading partner item references for items.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Modify Trading Partners	Allows access to modify of trading partners.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Monitor Item Summary	Allows access to items overview page.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	Monitor Item Work Area	Allows access to items and notifications page.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	View Development Structures	Allows access to development structures.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	View Feature States Value by Web Service	Allow viewing feature states value by web service
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	View Item	Allows access to product dashboard.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	View Item History	Allows viewing of audit data for an item.

Granted Role	Granted Role Description	Privilege	Privilege Description
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	View Item Organization Association	Allows access to view item organization assignments.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	View Item Relationship	Allows access to view item relationships.
Item Management	Creates and manages items including item attributes, item structures, packs, associations, relationships, and catalog assignments.	View Trading Partner Item	Allows access to view trading partner items.
Knowledge Setup and Maintenance	Provides the users with the ability to setup and manage knowledge base	Access Knowledge as an Internal User	Search for and view knowledge as an internal user
Knowledge Setup and Maintenance	Provides the users with the ability to setup and manage knowledge base	Knowledge Setup and Maintenance	Knowledge Set up and maintenance - FSM
Knowledge Setup and Maintenance	Provides the users with the ability to setup and manage knowledge base	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Knowledge Setup and Maintenance	Provides the users with the ability to setup and manage knowledge base	Schedule Service Jobs	Allows scheduling of service related jobs, such as, closing of old service requests
Knowledge Setup and Maintenance	Provides the users with the ability to setup and manage knowledge base	Use REST Service to View Products	Allows viewing product data using REST API
Lead Registration Management	Manages and analyzes sales lead registrations. Includes the ability to create sales lead registrations, edit both internal and partner lead attributes as needed, and view lead age and status.	Create Sales Lead	Allows creating sales leads. A sales lead is a prospect or existing customer who has interest or the potential for interest in a product or service being sold.
Lead Registration Management	Manages and analyzes sales lead registrations. Includes the ability to create sales lead registrations, edit both internal and partner lead attributes as needed, and view lead age and status.	Delete Sales Lead External Attributes	Allows deleting partner related attributes for sales leads.

Granted Role	Granted Role Description	Privilege	Privilege Description
Lead Registration Management	Manages and analyzes sales lead registrations. Includes the ability to create sales lead registrations, edit both internal and partner lead attributes as needed, and view lead age and status.	Delete Sales Lead Internal Attributes	Allows deleting sales lead attributes with the exception of partner related information.
Lead Registration Management	Manages and analyzes sales lead registrations. Includes the ability to create sales lead registrations, edit both internal and partner lead attributes as needed, and view lead age and status.	Delete Sales Lead Primary Partner	Allows deleting the primary partner contact for partner sales leads.
Lead Registration Management	Manages and analyzes sales lead registrations. Includes the ability to create sales lead registrations, edit both internal and partner lead attributes as needed, and view lead age and status.	Manage Lead Qualification Work Area	Allows managing sales lead qualification information to determine the sales readiness of a lead from the work area. A work area is the landing page for frequent tasks and reports useful for qualifying relevant sales leads.
Lead Registration Management	Manages and analyzes sales lead registrations. Includes the ability to create sales lead registrations, edit both internal and partner lead attributes as needed, and view lead age and status.	Select Sales Lead External Attributes	Allows entering partner related attributes for sales leads.
Lead Registration Management	Manages and analyzes sales lead registrations. Includes the ability to create sales lead registrations, edit both internal and partner lead attributes as needed, and view lead age and status.	Select Sales Lead Internal Attributes	Allows entering sales lead attributes with the exception of partner related information.
Lead Registration Management	Manages and analyzes sales lead registrations. Includes the ability to create sales lead registrations, edit both internal and partner lead attributes as needed, and view lead age and status.	Select Sales Lead Primary Partner	Allows selecting a primary partner contact for the sales lead registration.
Lead Registration Management	Manages and analyzes sales lead registrations. Includes the ability to create sales lead registrations, edit both internal and partner lead attributes as needed, and view lead age and status.	Update Sales Lead Expiration Date	Allows updating the partner sales lead expiration date attribute.
Lead Registration Management	Manages and analyzes sales lead registrations. Includes the ability to create sales lead registrations, edit both internal and partner lead attributes as needed, and view lead age and status.	Update Sales Lead External Attributes	Allows updating partner related attributes for sales leads.

Granted Role	Granted Role Description	Privilege	Privilege Description
Lead Registration Management	Manages and analyzes sales lead registrations. Includes the ability to create sales lead registrations, edit both internal and partner lead attributes as needed, and view lead age and status.	Update Sales Lead Internal Attributes	Allows updating sales lead attributes with the exception of partner related information.
Lead Registration Management	Manages and analyzes sales lead registrations. Includes the ability to create sales lead registrations, edit both internal and partner lead attributes as needed, and view lead age and status.	Update Sales Lead Primary Partner	Allows updating the primary partner field for sales lead registrations.
Lead Registration Management	Manages and analyzes sales lead registrations. Includes the ability to create sales lead registrations, edit both internal and partner lead attributes as needed, and view lead age and status. Service Request Administrator	Administers all aspects of the Service application, including Setup.	Create Case	Allows user to create case records
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Create Case Conversation	Allows the user to create a converation on the case object.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Create Customer Assets by Service	Allows creation of customer assets, related configurations and structures.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Create DLM Policies	Allows creation of DLM policies.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Create IoT Registration Request	Allows submitting a request to register a device or asset with the IoT cloud
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Create Knowledge Tasks	Allows users to suggest improvements to knowledge articles.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Create Object Link	Allows the user to create an object link.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Create Service Request	Allows creation of a service request
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Create Service Work Order	Allows creation of a service work order.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Create Tag	Allows the user to create tags.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Create or Update Service Link	Allows the user to create and update a service link.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Delete Activity	Allows deleting activities.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Delete Case	Allows user to delete a case record
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Delete Chat Transcript	Allows user to delete a chat transcript.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Delete DLM Policies	Allows deletion of DLM policies.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Delete Object Link	Allows the user to delete an object link.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Delete Service Link	Allows the user to delete a service link.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Delete Service Request	Allows deleting of service request
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Delete Service Request Attachment	Allows deleting an attachment from an SR or SR message.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Delete Service Work Order	Allows the user to delete a work order.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Download Attachment of an SR or SR Message	Allows downloading an attachment of an SR or SR Message.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Edit Action Plan	Allows edit of an Action Plan.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Edit Case	Allows user to edit case attributes
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Edit DLM Policies	Allows editing of DLM policies.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Edit Service Profile Technician Access Schedule	Allows editing of a technician access schedule on the service profile.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Edit Service Profile Technician Preferences	Allows editing of a technician preference.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Edit Service Request	Allows editing of a service request
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Edit Service Work Order	Allows editing of a service work order.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Edit Work Order Technician Access Schedule	Allows editing of a technician access schedule on the work order.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Edit Workflows	Allows creating, editing and reading of workflow automations.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Forward Service Request	Allows forwarding a SR
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Get Customer Assets by Service	Allows query of customer assets using a service.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Get Service Request Follow Notifications	Allows the user to get notifications when they follow a service request.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Case Activities	Allows user to manage activities for a case such as edit or delete
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Case Attachments	Allows the user to manage attachments for a case such as add or delete.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Case Contacts	Allows user to manage contacts for a case such as add or delete

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Case Conversations	Allows the user to manage conversations for a case such as add or delete.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Case Household	Allows user to manage household for a case such as add or delete
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Case Messages	Allows user to manage messages for a case such as edit or delete
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Case Service Requests	Allows user to manage service requests for a case such as update
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Case Team Members	Allows user to manage team members for a case such as add or delete resources
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Co-browse Access	Enables Availability setting for new Co-browse work.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Content for Sales Cloud Virtual Assistant	Allows the user to create, update and delete content within their Oracle Virtual Assistant instance.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Content for Virtual Assistant	Allows the user to create, update and delete content within their Oracle Virtual Assistant instance.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Content for Virtual Assistant for HCM	Allows the user to create, update and delete content within their Oracle Virtual Assistant instance. Applicable only to CRM.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage DLM Policies	Allows create, edit, delete and execution of DLM policies.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Data Visualization Configuration	Allows creation, modification and deletion of data visualization configurations either through UI pages or through REST service calls. For example, a data visualization could be configured to be displayed as a Bar chart.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Depot Repair Order Details	Allows the user to manage depot repair order details.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Express Report Definitions	Allows creation, modification and deletion of Express Report Definitions
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Express Report Types	Allows creation, modification and deletion of Express Report Types
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Feed Configurations	Allows create, delete and update of feed configurations.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Field Security	Allows the user to administer field security for functional objects.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Inbound Message	Allows create, update, delete and view of inbound messages
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Installed Base Assets	Allows creation and editing of installed Base assets.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Inventory Reservation and Picks	Allows management of inventory reservations and picks.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Notification Preferences	Allows management of notification preferences.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Omnichannel Capacities	Allows defining the maximum number of active objects or interactions assigned to a user.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Omnichannel Presence and Availability	Allows management of the omnichannel availability for new work, presence menu and indicator.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Outbound Message	Allows a user to create, update, delete and view outbound messages.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Page Personalization Layouts	Allows creation, modification, and deletion of Page Personalization Layouts through UI pages or REST service calls
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Part Orders	Allows creating and managing part orders for a work order and service request.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage SR Contacts	Allows adding/removing a contact from a service request.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage SR Team Member	Allows adding/removing a team member to a SR
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Service Queues	Allows management of service queues and queue memberships.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Smart Actions	Allows access to Smart Actions Framework REST operations.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage SmartText	Allows creation, update and delete of a SmartText.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Social Post	Allows create, update, delete and view of social posts
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Survey Requests	Allows the user to create, update, view, and delete survey requests.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Tags	Allows the administrator to manage tags.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Technician Access Schedules	Allows the user to manage technician access schedules.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Technician Preferences	Allows the user to manage technician preferences.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Users Page Personalization	Allows creation, modification, and deletion of the User Pages through UI pages or REST service calls
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Video Access	Enables availability setting for new video work.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Manage Work Order Debrief and Estimates	Allows the user to manage work order debrief and estimates.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Modify Service UI	Allows modifying service UI.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Override Part Order Pricing	Allows the user to manually override the part order price.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Personalize Analytics Dashboard Display	Allows create, update and delete of custom CX service infolets. Also, allows show/hide and rearrange the display order of the infolets.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Personalize CX Service Dashboard	Allows the user to show/hide and rearrange the display order of the CX service infolets.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Publish SmartText	Allows scope of SmartText to be set to GLOBAL so that all users can view/use it.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Receive Browser Notifications	Allows users to receive browser notifications from the notification framework. If notifications have links to objects, you will need appropriate privilege to view the object.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Reschedule Service Work Order	Allows rescheduling of a service work order.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Run CRM Export Process	This privilege would grant a user the ability to schedule CRM object to export to a file
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Run File Import Scheduler	Allows scheduling and monitoring the process that schedules file import activities.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Run Purge Batch Assignment Information Process	Allows scheduling and monitoring of the process to purge the batch assignment data.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Schedule Service Jobs	Allows scheduling of service related jobs, such as, closing of old service requests
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Set Up CRM Objects for Export	This privilege would grant a user the ability to register CRM objects for Export
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Set Up File Import Activity	Allows creating and maintaining import activities that contain process criteria, file mapping, and schedule to import external files containing business objects, such as customers and contacts, into staging tables.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Set Up File Import Object and Mapping	Allows reviewing and registering business objects, such as sales leads and opportunities, intended for import from external files. Also allows creating and maintaining maps of external source file columns to target staging table columns for use in importing those business objects, such as sales leads, customers, contacts, and sales catalogs.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Setup Action Plan	Allows action plan setup.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Setup Engagement Engine	Allows the user setup and configure engagement engine.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Setup External Collaboration Network Integration	Allows the user to setup external collaboration network integration.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Setup Object Links	Allows the user to setup object links.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Setup Omnichannel	Allows the administration of channel instances and defining presentation and labeling for Availability Groups.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Setup Proxy User Authentication Service	Allows the setup and configuration of the proxy user authentication service.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Setup Self Service Role Mapping	Allows the user to setup the mapping between the self service and the identiy provider roles.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Setup Service	Allows Service application setup
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Setup Service Assignment	Allows Service application assignment setup
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Setup Service Link Type	Allows admin user to create, update, view, and delete service link types.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Setup Service Work Order	Allows service work order setup.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Setup Survey Integration Framework Template	Allows the user to setup survey integration framework.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Update Activity	Allows editing activities.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Update Customer Assets by Service	Allows update of customer assets, related configurations and structures.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Update Primary Contact	Allows manual update of Primary Contact field.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Update Service Request Business Unit	Allows updating the business unit on the service request.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Use Live Experience Agent Recording and Playback Features	Allows the use of live experience recording download and playback features.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Use Location Service	Allows use of the location service
Service Request Administrator	Administers all aspects of the Service application, including Setup.	Use SmartText	Allows using SmartText.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Action Plan	Allows viewing of an Action Plan.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Action Plan Process	Allows a user to view the process details in an action plan.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Activity	Allows viewing activities.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Attachment	Allows viewing attachments on a SR or SR Message
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Audit History	Allows to view the audit history of all the business object attributes enabled for auditing.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Case	Allows user to view case records
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Case Attachments	Allows the user to view the attachments for a case.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Case Audit History	Allows the user to view the audit history for a case.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Case Conversations	Allows the user to view the conversations for a case.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Case Team Members	Allows user to view team members for a case

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Chat Transcript	Allows the user to view chat transcripts.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Conversation Message	Allows a user to view a conversation message.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View DLM Policies	Allows viewing of DLM policies.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Express Report Definitions	Allows viewing of Express Report Definitions
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Express Report Types	Allows viewing of Express Report Types
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Installed Base Assets	Allows viewing the installed Base assets.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Installed Base Assets Landing Page	Allows viewing the installed base assets landing page.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Interactions	Allows viewing of interactions history.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Knowledge within Service Request	Allows viewing of knowledge base components within the service request UI.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Named Routes	Allows viewing and grouping all functional navigation flows across channels into a single name
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Navigator Menu	Allows viewing navigator metadata information
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Object Link	Allows the user to view an object link.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Page Peek	Allows the user to view page peek data.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Page Personalization Layouts	Allows the view of Page Personalization Layouts through UI pages or REST service calls
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Partner	Allows viewing a list of partners from the partner work area.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Partner Profile	Allows viewing the partner profile.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Resource Capacities	Allows the user to view a resource's capacities.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Self Service Registrations	Allows viewing of self service registration requests.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Self Service Roles	Allows viewing self service roles.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Service Center	Allows viewing of Service Center.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Service Link	Allows the user to view a service link.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Service Manager Dashboard	Allows viewing of the service manager dashboard. The dashboard contains analytical reports on service objects.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Service Manager Dashboard for FSCM	Allows viewing of the service manager dashboard. The dashboard contains analytical reports on service objects. Applicable only to CRM.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Service Manager Dashboard for HCM	Allows viewing of the service manager dashboard. The dashboard contains analytical

Granted Role	Granted Role Description	Privilege	Privilege Description
			reports on service objects. Applicable only to CRM.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Service Profile	Allows viewing of service profiles.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Service Representative Dashboard	Allows viewing of the service representative dashboard. The dashboard contains analytical reports on service objects.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Service Request	Allows viewing of service request(s).
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Service Request Activities	Allows viewing of service request activities tab and its contents.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Service Request Audit History	Allows viewing of service request audit history.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Service Request Team	Allows viewing of service request team tab and its contents.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Service Work Order	Allows viewing of service work order(s).
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Service Work Order Audit History	Allows viewing of service work order audit history.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Smart Actions	Allows read and view access to Smart Actions Framework data.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Subscription Entitlements	Change the subscription user status
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Survey Integration Framework Template	Allows the user to view the survey integration framework template and its details.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Survey Requests	Allows the user to view survey requests.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Technician Access Schedules	Allows viewing of a technician access schedules.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Technician Preferences	Allows viewing of a technician preference.
Service Request Administrator	Administers all aspects of the Service application, including Setup.	View Visitor History	Allows the user to view visitor browser history data.
Service Status Computation	Perform actions required to determine the availability of a service.	Determine Service Status	Allows determining the availability of a service.
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Manage Application Common Lookup	Not Available
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Manage Application Profile Category	Manage application profile option categories

Granted Role	Granted Role Description	Privilege	Privilege Description
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Manage Application Profile Option	Manage Application Profile Options: Manage the level the value can be changed
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Manage Sales Party Appointments	Allows reviewing and defining profile options for appointments. Additionally allows reviewing and defining lookup values that provide appointment choices, such as appointment category. Appointments can be created and separated into customer center specific categories.
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Manage Sales Party Assessments	Allows creation and maintenance of assessment templates. Assessment templates are collections of questions and answers that can be weighted and scored to evaluate the sales account.
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Manage Sales Party Interactions	Allows defining additional fields, descriptive flexfields, to enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page. Additionally allows reviewing and defining of lookup values for interaction channel types, such as e-mail and phone call, and interaction outcomes. Interactions record inbound and outbound communications with customers.
Setup Customer Center	Manages customer center set up, sales party creation and	Manage Sales Party Notes	Allows defining additional fields to enter and track information

Granted Role	Granted Role Description	Privilege	Privilege Description
	their related objects, such as appointments, assessments, interactions, notes and tasks.		that is not otherwise captured. These descriptive flexfields can be validated and dependent on other values entered in other areas of the page. Allows reviewing and defining note types, such as address change. Additionally allows creating and maintaining mapping of note type values for customer center. When mapped, note type values are limited to Customer Center. When none is specified, note type values mapped to the object Note are used.
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Manage Sales Party Tasks	Allows reviewing and defining the task template duty role required to create and manage customer center templates. Specify the owner or assignee if not provided by the application. Also allows reviewing and defining lookup values for task categories such as, needed, or, to do.
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Run CRM Export Process	This privilege would grant a user the ability to schedule CRM object to export to a file
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Run Sales Party Batch Assignment	Allows scheduling and monitoring of the process to automatically evaluate and assign the territory candidate objects to the eligible sales accounts.
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Set Up CRM Objects for Export	This privilege would grant a user the ability to register CRM objects for Export
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Set Up Customer Center	Allows reviewing and configuring account, contact and household settings, including lookup values and profile options.
Setup Customer Center	Manages customer center set up, sales party creation and their related objects, such as appointments, assessments, interactions, notes and tasks.	Set Up Sales Party Assignment	Allows set up of sales party attributes that can be used for its assignment.

Granted Role	Granted Role Description	Privilege	Privilege Description
Social Connection Partner	Performs all Oracle Fusion Social Connection partner duties.	Invite Social Connection	Allows sending of an invitation to connect.
Social Connection Partner	Performs all Oracle Fusion Social Connection partner duties.	Manage Kudos	Allows sending of kudos to someone.
Social Connection Partner	Performs all Oracle Fusion Social Connection partner duties.	Manage Message Board	Allows management of postings on the message board.
Social Connection Partner	Performs all Oracle Fusion Social Connection partner duties.	Manage Social Bookmarks	Allows creation of social bookmarks and sharing them with connections.

Trading Community Data Quality Administration	Configures, reviews, and edits predefined data quality server configurations and the predefined matching, synchronization, and cleansing configurations.	Manage Trading Community Data Quality Server Setup	Allows configuration of the data quality server to be used for both matching and cleansing data quality functions.
Trading Community Data Quality Administration	Configures, reviews, and edits predefined data quality server configurations and the predefined matching, synchronization, and cleansing configurations.	Manage Trading Community Data Quality Synchronization	Allows the review and update of data synchronization configuration, to synchronize trading community registry data with the data quality engine repository. Allows to view the latest synchronization results, evaluate errors, and reset for continued processing after resolving error conditions.
Trading Community Data Quality Administration	Configures, reviews, and edits predefined data quality server configurations and the predefined matching, synchronization, and cleansing configurations.	Run Trading Community Data Quality Data Synchronization Process	Allows scheduling and monitoring of the process to synchronize trading community registry data with the data quality engine repository.
Trading Community Data Quality Administration	Configures, reviews, and edits predefined data quality server configurations and the predefined matching, synchronization, and cleansing configurations.	Run Trading Community Data Quality Data Synchronization Sub-Process	Allows monitoring of the data quality synchronization sub-process that synchronizes trading community registry data with the data quality engine repository for a specific identity table. If assigning, also assign the ability to

Granted Role	Granted Role Description	Privilege	Privilege Description
			schedule and monitor the trading community data quality data synchronization process.
Trading Community Import Batch Management	Manages trading community data import batches.	Enter Trading Community Import Batch Information	Allows the creation of a trading community data import batch by entering batch definition parameters through user interface. If assigning, also assign the ability to view the trading community import batch information.
Trading Community Import Batch Management	Manages trading community data import batches.	Enter Trading Community Import Batch Process Information	Allows the specification of trading community import batch process information, such as the import process mode, the batch and registry deduplication parameters, address cleansing parameters, and acceptable error limit.
Trading Community Import Batch Management	Manages trading community data import batches.	Purge Trading Community Import Batch	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	Run Trading Community Import Batch Error Report	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	Run Trading Community Import Batch Process	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	View Trading Community Import Batch Details and Statistics	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	View Trading Community Import Batch Errors and Details	Not Available
Trading Community Import Batch Management	Manages trading community data import batches.	View Trading Community Import Batch Information	Not Available
Trading Community Import Process Management	Manages trading community data import batch processes.	Enter Trading Community Import Batch Information	Allows the creation of a trading community data import batch by entering batch definition parameters through user interface. If assigning, also assign the ability to view the trading community import batch information.
Trading Community Import Process Management	Manages trading community data import batch processes.	Enter Trading Community Import Batch Process Information	Allows the specification of trading community import batch process information, such as the import process mode, the batch and registry deduplication parameters, address cleansing parameters, and acceptable error limit.

Granted Role	Granted Role Description	Privilege	Privilege Description
Trading Community Import Process Management	Manages trading community data import batch processes.	Modify Trading Community Import Batch Process Information	Allows editing of trading community import batch process information, such as the import process mode, the batch deduplication and registry deduplication parameters, and the address cleansing error limit, especially to perform the What-if Analysis to get the most acceptable import results.
Trading Community Import Process Management	Manages trading community data import batch processes.	Purge Trading Community Import Batch	Not Available
Trading Community Import Process Management	Manages trading community data import batch processes.	Run Trading Community Import Batch Error Report	Not Available
Trading Community Import Process Management	Manages trading community data import batch processes.	Run Trading Community Import Batch Process	Not Available
Trading Community Import Process Management	Manages trading community data import batch processes.	View Trading Community Import Batch Details and Statistics	Not Available
Trading Community Import Process Management	Manages trading community data import batch processes.	View Trading Community Import Batch Errors and Details	Not Available
Trading Community Import Process Management	Manages trading community data import batch processes.	View Trading Community Import Batch Information	Not Available
Trading Community Person Administration	Grants privileges to setup person information.	Manage Trading Community Contact Descriptive Flexfields	Allows the specification of additional fields to enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Trading Community Person Administration	Grants privileges to setup person information.	Manage Trading Community Contact Lookups	Allows the specification of lookup values that provide choices related to contacts, such as roles and departments.
Trading Community Person Administration	Grants privileges to setup person information.	Manage Trading Community Person Descriptive Flexfields	Allows the specification of additional fields to enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.

Granted Role	Granted Role Description	Privilege	Privilege Description
Trading Community Person Administration	Grants privileges to setup person information.	Manage Trading Community Person Lookups	Allows the specification of lookup values that provide choices related to persons, such as employment and marital status.
Trading Community Person Administration	Grants privileges to setup person information.	Manage Trading Community Person Profile Options	Allows the specification of options for person parties.
Trading Community Person Administration	Grants privileges to setup person information.	Manage Trading Community Person Site Descriptive Flexfields	Allows the specification of additional fields to enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
View Item Redwood	Allows users to view item details.	Get Redwood Settings REST	Allows query access to settings through the REST API.
View Item Redwood	Allows users to view item details.	Manage Subscription Setup	Manage subscription setup
View Item Redwood	Allows users to view item details.	View Item Context History Report	Allows access to view the item history in the item detail page.
View Item Redwood	Allows users to view item details.	View Item Redwood Associations	Allow access to view the item associations tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Attachments	Allow access to view the attachment tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Changes	Allow access to view the item changes tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Item Categories	Allow access to view the item category tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Items	Allow access to view the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Quality	Allow access to view the quality tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Relationships	Allow access to view the relationships tab in the View Item Redwood page.

Granted Role	Granted Role Description	Privilege	Privilege Description
View Item Redwood	Allows users to view item details.	View Item Redwood Structures	Allow access to view the item structures tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Redwood Item Supplier Associations	Allows access to view Redwood item supplier associations for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	View Redwood Item Supplier Assoiciation Rest	Allows Redwood Rest services response to get requests for supplier associations for items.
View Item Redwood	Allows users to view item details.	View Redwood Revision Rest	Allows access to item revisions.
View Item Redwood	Allows users to view item details.	View Trading Community Organization	Allows exporting, searching, and viewing of organization details such as addresses, classifications, identifiers, and names.
View Item Redwood	Allows users to view item details.	View Trading Community Person	Allows exporting, searching, and viewing of person details such as addresses, classifications, identifiers, and names.
Workforce Profile Administration	Performs administrative duties for workforce talent profiles.	Manage Talent Education Establishment	Allows management of talent educational establishments.
Workforce Profile Administration	Performs administrative duties for workforce talent profiles.	Manage Talent Profile Content Item	Allows management of talent profile content items.
Workforce Profile Administration	Performs administrative duties for workforce talent profiles.	Manage Talent Profile Content Type	Allows management of talent profile content types.
Workforce Profile Administration	Performs administrative duties for workforce talent profiles.	Manage Talent Profile Instance Qualifier	Allows management of talent profile instance qualifiers.
Workforce Profile Administration	Performs administrative duties for workforce talent profiles.	Manage Talent Profile Rating Model	Allows management of talent profile rating models.
Workforce Profile Administration	Performs administrative duties for workforce talent profiles.	Manage Talent Profile Sources	Allows management of talent profile subscribers.
Workforce Profile Administration	Performs administrative duties for workforce talent profiles.	Manage Talent Profile Type	Allows management of talent profile types.
Workforce Profile Administration	Performs administrative duties for workforce talent profiles.	Manage Talent Profile Upgrade Mapping	Allows a user to map section attributes to upgrade to the template architecture.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Customer Relationship Management Application Administrator job role.

Business Object	Policy Description	Policy Store Implementation
AI Agent	A Customer Relationship Management Application Administrator can manage ai agent for cx ai agents	Role: Manage CX AI Agents Privilege: Manage AI Agent (Data) Resource: AI Agent
AI Agent	A Customer Relationship Management Application Administrator can view ai agent for cx ai agents	Role: Manage CX AI Agents Privilege: View AI Agent (Data) Resource: AI Agent
AI Agent Business Object	A Customer Relationship Management Application Administrator can view ai agent business object for cx ai agent business objects	Role: Manage CX AI Agents Privilege: View AI Agent Business Object (Data) Resource: AI Agent Business Object
AI Agent Deep Link	A Customer Relationship Management Application Administrator can view ai agent deep link for cx ai agent deep links	Role: Manage CX AI Agents Privilege: View AI Agent Deep Link (Data) Resource: AI Agent Deep Link
AI Agent Tool	A Customer Relationship Management Application Administrator can manage ai agent tool for cx ai agent tools	Role: Manage CX AI Agents Privilege: Manage AI Agent Tool (Data) Resource: AI Agent Tool
AI Agent Tool	A Customer Relationship Management Application Administrator can view ai agent tool for cx ai agent tools	Role: Manage CX AI Agents Privilege: View AI Agent Tool (Data) Resource: AI Agent Tool
AI Agent Topic	A Customer Relationship Management Application Administrator can manage ai agent topic for cx ai agent topics	Role: Manage CX AI Agents Privilege: Manage AI Agent Topic (Data) Resource: AI Agent Topic

Business Object	Policy Description	Policy Store Implementation
AI Agent Topic	A Customer Relationship Management Application Administrator can view ai agent topic for cx ai agent topics	Role: Manage CX AI Agents Privilege: View AI Agent Topic (Data) Resource: AI Agent Topic
AI Agent Workflow	A Customer Relationship Management Application Administrator can manage ai agent workflow for cx ai agent workflows	Role: Manage CX AI Agents Privilege: Manage AI Agent Workflow (Data) Resource: AI Agent Workflow
AI Agent Workflow	A Customer Relationship Management Application Administrator can view ai agent workflow for cx ai agent workflows	Role: Manage CX AI Agents Privilege: View AI Agent Workflow (Data) Resource: AI Agent Workflow
Activity	A Customer Relationship Management Application Administrator can delete activity a member of an access group associated to the activity with delete access	Role: Access Groups Enablement Privilege: Delete Activity (Data) Resource: Activity
Activity	A Customer Relationship Management Application Administrator can update activity a member of an access group associated to the activity with update access	Role: Access Groups Enablement Privilege: Update Activity (Data) Resource: Activity
Activity	A Customer Relationship Management Application Administrator can view activity a member of an access group associated to the activity	Role: Access Groups Enablement Privilege: View Activity (Data) Resource: Activity
Activity	A Customer Relationship Management Application Administrator can view activity for all activities in the enterprise	Role: Contract Search and View Access Privilege: View Activity (Data) Resource: Activity
Activity Contact Export Object	A Customer Relationship Management Application Administrator can view activity contact export object for all activity export objects in the enterprise	Role: Customer Relationship Management Application Administrator Privilege: View Activity Contact Export Object (Data) Resource: Activity Contact Export Object
Activity Export Object	A Customer Relationship Management Application Administrator can view activity	Role: Customer Relationship Management Application Administrator

Business Object	Policy Description	Policy Store Implementation
	export object for all activity export objects in the enterprise	Privilege: View Activity Export Object (Data) Resource: Activity Export Object
Activity File Import Activity	A Customer Relationship Management Application Administrator can view activity file import activity for all activity file import activities in all resource organizations for which they are authorized	Role: Customer Relationship Management Application Administrator Privilege: View Activity File Import Activity Object (Data) Resource: Activity File Import Activity
Activity File Import Mapping	A Customer Relationship Management Application Administrator can view activity file import mapping for all activity file import mappings in all resource organizations for which they are authorized	Role: Customer Relationship Management Application Administrator Privilege: View Activity File Import Mapping Object (Data) Resource: Activity File Import Mapping
Activity File Import Object	A Customer Relationship Management Application Administrator can view activity file import object for all activity file import objects in all resource organizations for which they are authorized	Role: Customer Relationship Management Application Administrator Privilege: View Activity File Import Object (Data) Resource: Activity File Import Object
Activity Resource Export Object	A Customer Relationship Management Application Administrator can view activity resource export object for all activity export objects in the enterprise	Role: Customer Relationship Management Application Administrator Privilege: View Activity Resource Export Object (Data) Resource: Activity Resource Export Object
Application Attachment	A Customer Relationship Management Application Administrator can read application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Contract Search and View Access Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment	A Customer Relationship Management Application Administrator can read application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Contract View Access Across All Contracts Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment Category	A Customer Relationship Management Application Administrator can delete application attachment for all miscelleneous category attachments data	Role: Geography Administration Privilege: Delete Application Attachment Resource: Application Attachment Category

Business Object	Policy Description	Policy Store Implementation
Application Attachment Category	A Customer Relationship Management Application Administrator can delete application attachment for all service categories that are visible to internal users	Role: Service Request Administrator Privilege: Delete Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Customer Relationship Management Application Administrator can read application attachment for all miscelleneous category attachments data	Role: Geography Administration Privilege: Read Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Customer Relationship Management Application Administrator can read application attachment for all service categories that are visible to internal users	Role: Service Request Administrator Privilege: Read Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Customer Relationship Management Application Administrator can update application attachment for all miscelleneous category attachments data	Role: Geography Administration Privilege: Update Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Customer Relationship Management Application Administrator can update application attachment for all service categories that are visible to internal users	Role: Service Request Administrator Privilege: Update Application Attachment Resource: Application Attachment Category
Application Document Sequence Category	A Customer Relationship Management Application Administrator can manage application document sequence category for all applications common applications data	Role: Contract Setup Privilege: Manage Application Document Sequence Category (Data) Resource: Application Document Sequence Category
Application Document Sequence Category	A Customer Relationship Management Application Administrator can manage application document sequence category for all applications common applications data	Role: Subscription Specialist Privilege: Manage Application Document Sequence Category (Data) Resource: Application Document Sequence Category
Application Flexfield Value Set	A Customer Relationship Management Application Administrator can manage application flexfield value set for all applications common applications data	Role: Subscription Specialist Privilege: Manage Application Flexfield Value Set (Data) Resource: Application Flexfield Value Set

Business Object	Policy Description	Policy Store Implementation
Application Objects	A Customer Relationship Management Application Administrator can manage application objects for all applications common objects	Role: Customer Relationship Management Application Administrator Privilege: Manage Application Objects (Data) Resource: Application Objects
Application Objects	A Customer Relationship Management Application Administrator can manage application objects for all customer relationship management application objects	Role: Customer Relationship Management Application Administrator Privilege: Manage Application Objects (Data) Resource: Application Objects
Application Objects	A Customer Relationship Management Application Administrator can manage application objects for all customer relationship management application objects	Role: Item Management Privilege: Manage Application Objects (Data) Resource: Application Objects
Application Profile Value	A Customer Relationship Management Application Administrator can delete application profile value for all applications common applications data	Role: Subscription Specialist Privilege: Delete Application Profile Value (Data) Resource: Application Profile Value
Application Profile Value	A Customer Relationship Management Application Administrator can update application profile value for all applications common applications data	Role: Subscription Specialist Privilege: Update Application Profile Value (Data) Resource: Application Profile Value
Asset Export Object	A Customer Relationship Management Application Administrator can manage asset export object for all asset export objects in the enterprise	Role: Customer Relationship Management Application Administrator Privilege: Manage Export Unit Test (Data) Resource: Asset Export Object
Asset Export Object	A Customer Relationship Management Application Administrator can view asset export object for all asset export objects in the enterprise	Role: Customer Relationship Management Application Administrator Privilege: View Asset Export Object (Data) Resource: Asset Export Object
Asset Export Object	A Customer Relationship Management Application Administrator can view asset export object for all asset export objects in the enterprise	Role: Sales Party Management Privilege: View Asset Export Object (Data) Resource: Asset Export Object
Asset Export Object	A Customer Relationship Management Application Administrator can view asset	Role: Sales Party Review

Business Object	Policy Description	Policy Store Implementation
	export object for all asset export objects in the enterprise	Privilege: View Asset Export Object (Data) Resource: Asset Export Object
Assignment Grade	A Customer Relationship Management Application Administrator can choose assignment grade for grades in their grade security profile	Role: Customer Relationship Management Application Administrator Privilege: Choose Assignment Grade (Data) Resource: Assignment Grade
Assignment Grade	A Customer Relationship Management Application Administrator can choose assignment grade for grades in their grade security profile	Role: Subscription Specialist Privilege: Choose Assignment Grade (Data) Resource: Assignment Grade
Business Unit	A Customer Relationship Management Application Administrator can choose business unit organization for business units in their organization security profile	Role: Resource Administration Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
Business Unit	A Customer Relationship Management Application Administrator can choose business unit organization for business units in their organization security profile	Role: Subscription Specialist Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
CRM Asset	A Customer Relationship Management Application Administrator can delete asset a member of an access group associated to the asset with delete access	Role: Access Groups Enablement Privilege: Delete Asset (Data) Resource: CRM Asset
CRM Asset	A Customer Relationship Management Application Administrator can update asset a member of an access group associated to the asset with update access	Role: Access Groups Enablement Privilege: Update Asset (Data) Resource: CRM Asset
CRM Asset	A Customer Relationship Management Application Administrator can view asset a member of an access group associated to the asset	Role: Access Groups Enablement Privilege: View Asset (Data) Resource: CRM Asset
Case Messages	A Customer Relationship Management Application Administrator can manage case message for all case messages.	Role: Service Request Administrator Privilege: Manage Case Message (Data) Resource: Case Messages

Business Object	Policy Description	Policy Store Implementation
Case Resources	A Customer Relationship Management Application Administrator can manage case resource for all case resources.	Role: Service Request Administrator Privilege: Manage Case Resource (Data) Resource: Case Resources
Cases	A Customer Relationship Management Application Administrator can delete case header a member of an access group associated to the case with delete access	Role: Access Groups Enablement Privilege: Delete Case Header (Data) Resource: Cases
Cases	A Customer Relationship Management Application Administrator can manage case header for all cases	Role: Service Request Administrator Privilege: Manage Case Header (Data) Resource: Cases
Cases	A Customer Relationship Management Application Administrator can update case header a member of an access group associated to the case with update access	Role: Access Groups Enablement Privilege: Update Case Header (Data) Resource: Cases
Cases	A Customer Relationship Management Application Administrator can view case header a member of an access group associated to the case	Role: Access Groups Enablement Privilege: View Case Header (Data) Resource: Cases
Classification Code File Import Activity	A Customer Relationship Management Application Administrator can view classification code file import activity object type for all classification code file import activities of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Activity Object Type (Data) Resource: Classification Code File Import Activity
Classification Code File Import Mapping	A Customer Relationship Management Application Administrator can view classification code file import mapping object type for all classification code file import mappings of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Mapping Object Type (Data) Resource: Classification Code File Import Mapping
Classification Code File Import Object	A Customer Relationship Management Application Administrator can view classification code file import object type for all classification code file import objects of object type 'classification code'	Role: Trading Community Import Batch Management Privilege: View Classification Code File Import Object Type (Data) Resource: Classification Code File Import Object

Business Object	Policy Description	Policy Store Implementation
Consumer File Import Activity	A Customer Relationship Management Application Administrator can view consumer file import activity object type for all consumer file import activities of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Activity Object Type (Data) Resource: Consumer File Import Activity
Consumer File Import Mapping	A Customer Relationship Management Application Administrator can view consumer file import mapping object type for all consumer file import mappings of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Mapping Object Type (Data) Resource: Consumer File Import Mapping
Consumer File Import Object	A Customer Relationship Management Application Administrator can view consumer file import object type for all consumer file import objects of object type 'consumer'	Role: Trading Community Import Batch Management Privilege: View Consumer File Import Object Type (Data) Resource: Consumer File Import Object
Contact Center Agent Connector Parameters File Import Activity	A Customer Relationship Management Application Administrator can view contact center agent connector parameters file import activity for all file import activities of type contact center agent connector parameters in the enterprise	Role: Customer Relationship Management Application Administrator Privilege: View Contact Center Agent Connector Parameters File Import Activity Object Type (Data) Resource: Contact Center Agent Connector Parameters File Import Activity
Contact Center Agent Connector Parameters File Import Mapping	A Customer Relationship Management Application Administrator can view contact center agent connector parameters file import mapping for all file import mappings of type contact center agent connector parameters in the enterprise	Role: Customer Relationship Management Application Administrator Privilege: View Contact Center Agent Connector Parameters File Import Mapping Object Type (Data) Resource: Contact Center Agent Connector Parameters File Import Mapping
Contact Center Agent Connector Parameters File Import Object	A Customer Relationship Management Application Administrator can view contact center agent connector parameters file import object for all file import objects of type contact center agent connector parameters in the enterprise	Role: Customer Relationship Management Application Administrator Privilege: View Contact Center Agent Connector Parameters File Import Object Type (Data) Resource: Contact Center Agent Connector Parameters File Import Object
Contact Center Agent File Import Activity	A Customer Relationship Management Application Administrator can view contact	Role: Customer Relationship Management Application Administrator

Business Object	Policy Description	Policy Store Implementation
	center agent file import activity for all file import activities of type contact center agent in the enterprise	Privilege: View Contact Center Agent File Import Activity Object Type (Data) Resource: Contact Center Agent File Import Activity
Contact Center Agent File Import Mapping	A Customer Relationship Management Application Administrator can view contact center agent file import mapping for all file import mappings of type contact center agent in the enterprise	Role: Customer Relationship Management Application Administrator Privilege: View Contact Center Agent File Import Mapping Object Type (Data) Resource: Contact Center Agent File Import Mapping
Contact Center Agent File Import Object	A Customer Relationship Management Application Administrator can view contact center agent file import object for all file import objects of type contact center agent in the enterprise	Role: Customer Relationship Management Application Administrator Privilege: View Contact Center Agent File Import Object Type (Data) Resource: Contact Center Agent File Import Object
Contact File Import Activity	A Customer Relationship Management Application Administrator can view contact file import activity object type for all contact file import activities of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Activity Object Type (Data) Resource: Contact File Import Activity
Contact File Import Mapping	A Customer Relationship Management Application Administrator can view contact file import mapping object type for all contact file import mappings of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Mapping Object Type (Data) Resource: Contact File Import Mapping
Contact File Import Object	A Customer Relationship Management Application Administrator can view contact file import object type for all contact file import objects of object type 'contact'	Role: Trading Community Import Batch Management Privilege: View Contact File Import Object Type (Data) Resource: Contact File Import Object
Contract	A Customer Relationship Management Application Administrator can manage contract a member of an access group associated to the contract with full access	Role: Access Groups Enablement Privilege: Manage Contract (Data) Resource: Contract

Business Object	Policy Description	Policy Store Implementation
Contract	A Customer Relationship Management Application Administrator can manage contract for the business units for which they are authorized	Role: Contract Amendment Privilege: Manage Contract (Data) Resource: Contract
Contract	A Customer Relationship Management Application Administrator can manage contract for the business units for which they are authorized	Role: Contract Authoring Privilege: Manage Contract (Data) Resource: Contract
Contract	A Customer Relationship Management Application Administrator can view contract a member of an access group associated to the contract	Role: Access Groups Enablement Privilege: View Contract (Data) Resource: Contract
Contract	A Customer Relationship Management Application Administrator can view contract for all business units	Role: Contract View Access Across All Contracts Privilege: View Contract (Data) Resource: Contract
Contract	A Customer Relationship Management Application Administrator can view contract for the business units for which they are authorized	Role: Contract Search and View Access Privilege: View Contract (Data) Resource: Contract
Contract Expert Rule	A Customer Relationship Management Application Administrator can manage contract terms library for the business units for which they are authorized	Role: Contract Terms Library Administration Privilege: Manage Contract Terms Library (Data) Resource: Contract Expert Rule
Contract Expert Rule	A Customer Relationship Management Application Administrator can view contract expert rule for all the business units	Role: Customer Relationship Management Application Administrator Privilege: View Contract Terms Library (Data) Resource: Contract Expert Rule
Contract Expert Rule	A Customer Relationship Management Application Administrator can view contract terms library for all the business units	Role: Contract Terms and Conditions Override Controls Privilege: View Contract Terms Library (Data) Resource: Contract Expert Rule
Contract Expert Rule	A Customer Relationship Management Application Administrator can view contract terms library for all the business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Contract Expert Rule
Contract Expert Rule	A Customer Relationship Management Application Administrator can view contract terms library for the business units for which they are authorized	Role: Contract Terms Library Administration Privilege: View Contract Terms Library (Data) Resource: Contract Expert Rule
Contract Export Object	A Customer Relationship Management Application Administrator can manage contract export object for all the contract export objects	Role: Customer Relationship Management Application Administrator Privilege: View Contract Export Object (Data) Resource: Contract Export Object
Contract File Import Object	A Customer Relationship Management Application Administrator can view contract file import object for all contract file import objects	Role: Customer Relationship Management Application Administrator Privilege: View Contract Import (Data) Resource: Contract File Import Object
Contract Library Clause	A Customer Relationship Management Application Administrator can manage contract terms library for all non standard clauses irrespective of business unit	Role: Contract Terms and Conditions Override Controls Privilege: Manage Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Customer Relationship Management Application Administrator can manage contract terms library for all non standard clauses irrespective of business unit	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: Manage Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Customer Relationship Management Application Administrator can manage contract terms library for the business units for which they are authorized	Role: Contract Terms Library Administration Privilege: Manage Contract Terms Library (Data) Resource: Contract Library Clause

Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Access API for generating HRHD email response	Allows access to email response generation API and the required UI artifacts
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Access API for generating ISR email response	Allows access to email response generation API and the required UI artifacts
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires	Access API for generating SR email response	Allows access to email response generation API and the required UI artifacts

Granted Role	Granted Role Description	Privilege	Privilege Description
	access to all generative AI API's essential to input data and fetch results from the LLM model.		
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Access Case Summarization APIs	Allows access to the APIs to use Case summarization feature
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Access HR Help Desk Request Summarization APIs	Allows access to the APIs to use HR Help Desk Request summarization feature
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Access HRHD Automation Agent APIs	Allows access to APIs related to HRHD automation agent
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Access ISR Automation Agent APIs	Allows access to APIs related to ISR automation agent
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Access Internal Help Desk Request Summarization APIs	Allows access to the APIs to use Internal Help Desk Request summarization feature
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Access SR Automation Agent APIs	Allows access to APIs related to SR automation agent

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Access SR Summarization APIs	Allows access to the APIs to fetch SR summarizations
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Chat Knowledge Article Summary Extraction Service	Allows for a generative AI-created answer extraction of Knowledge Management articles that can be included in chat messages along with a link to the source document.
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Chat Transcript Summary Service for Transfers and Conferences	Allows for the creation of a generative AI chat transcript summary that will be passed to agents when receiving chat transfer or conference offers.
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Generative AI Wrap Up Summary Service	Allows for the creation of a generative AI summary that will be inserted into wrap up notes at the end of an interaction.
Service Profile Management	Manages all aspects of a service profile. Cannot delete service profiles.	Create Service Profile	Allows the user to create a new service profile.
Service Profile Management	Manages all aspects of a service profile. Cannot delete service profiles.	Edit Service Profile Technician Access Schedule	Allows editing of a technician access schedule on the service profile.
Service Profile Management	Manages all aspects of a service profile. Cannot delete service profiles.	Edit Service Profile Technician Preferences	Allows editing of a technician preference.
Service Profile Management	Manages all aspects of a service profile. Cannot delete service profiles.	Edit Work Order Technician Access Schedule	Allows editing of a technician access schedule on the work order.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Profile Management	Manages all aspects of a service profile. Cannot delete service profiles.	Update Service Profile	Allows the user to update an existing service profile.
Service Profile Management	Manages all aspects of a service profile. Cannot delete service profiles.	View Service Profile	Allows viewing of service profiles.
Service Profile Management	Manages all aspects of a service profile. Cannot delete service profiles.	View Technician Access Schedules	Allows viewing of a technician access schedules.
Service Profile Management	Manages all aspects of a service profile. Cannot delete service profiles.	View Technician Preferences	Allows viewing of a technician preference.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Access Co-browse Feature	Allows launching and usage of Co-browse functionality.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Access Feed View	Allows access to view feeds.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Access Mobile CRM	Functional privilege providing access to CRM data using mobile applications
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Access Partner Media Toolbar	Allows access to the partner media toolbar
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Add Attachment	Allows adding an attachment to a SR or SR Message. This privilege will also allow the user to delete an attachment from the SR.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Assign Service Request	Allows manual assigning of service request to a resource
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Assign Service Request to Queue	Allows manual assigning of service request to a service queue.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Cancel Service Work Order	Allows canceling of a service work order.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Compose Customer Message	Allows composing a customer message for a SR
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Compose Internal Note	Allows composing an internal note for a SR
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Compose Response	Allows composing a Response for a SR
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Configure CX Service Dashboard	Allows the user to create, update and delete custom CX service infolets. The out of the box application defined infolets cannot be edited or deleted.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Create Action Plan	Allows creation of an Action Plan.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Create Activity	Allows creating activities.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Create Article	Not Available
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Create Customer Assets by Service	Allows creation of customer assets, related configurations and structures.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Create IoT Registration Request	Allows submitting a request to register a device or asset with the IoT cloud

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Create Knowledge Tasks	Allows users to suggest improvements to knowledge articles.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Create Object Link	Allows the user to create an object link.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Create Service Request	Allows creation of a service request
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Create Service Work Order	Allows creation of a service work order.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Create Tag	Allows the user to create tags.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Create or Update Service Link	Allows the user to create and update a service link.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Delete Activity	Allows deleting activities.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Delete Object Link	Allows the user to delete an object link.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Delete Service Link	Allows the user to delete a service link.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Delete Service Request Attachment	Allows deleting an attachment from an SR or SR message.
Service Request Power User	Advanced Service Request management capabilities	Download Attachment of an SR or SR Message	Allows downloading an attachment of an SR or SR Message.

Granted Role	Granted Role Description	Privilege	Privilege Description
	not available to Service Representatives		
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Edit Action Plan	Allows edit of an Action Plan.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Edit Service Request	Allows editing of a service request
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Edit Service Work Order	Allows editing of a service work order.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Edit Work Order Technician Access Schedule	Allows editing of a technician access schedule on the work order.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Forward Service Request	Allows forwarding a SR
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Get Customer Assets by Service	Allows query of customer assets using a service.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Get Service Request Follow Notifications	Allows the user to get notifications when they follow a service request.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage Depot Repair Order Details	Allows the user to manage depot repair order details.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage Express Report Definitions	Allows creation, modification and deletion of Express Report Definitions
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage Inbound Message	Allows create, update, delete and view of inbound messages

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage Installed Base Assets	Allows creation and editing of installed Base assets.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage Inventory Reservation and Picks	Allows management of inventory reservations and picks.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage Notification Preferences	Allows management of notification preferences.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage Omnichannel Presence and Availability	Allows management of the omnichannel availability for new work, presence menu and indicator.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage Outbound Message	Allows a user to create, update, delete and view outbound messages.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage Page Personalization Layouts	Allows creation, modification, and deletion of Page Personalization Layouts through UI pages or REST service calls
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage Part Orders	Allows creating and managing part orders for a work order and service request.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage SR Contacts	Allows adding/removing a contact from a service request.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage SR Team Member	Allows adding/removing a team member to a SR
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage Service Queues	Allows management of service queues and queue memberships.
Service Request Power User	Advanced Service Request management capabilities	Manage Signature	Allows the user to create or update a personal signature.

Granted Role	Granted Role Description	Privilege	Privilege Description
	not available to Service Representatives		
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage SmartText	Allows creation, update and delete of a SmartText.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage Social Post	Allows create, update, delete and view of social posts
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage Users Page Personalization	Allows creation, modification, and deletion of the User Pages through UI pages or REST service calls
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Manage Work Order Debrief and Estimates	Allows the user to manage work order debrief and estimates.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Open Objects in Dynamic Tabs	Allows user to open objects in a dynamic/nested tab of the interactive workspace.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Open Objects in Dynamic Tabs for FSCM	Allows user to open objects in a dynamic or nested tab of the interactive workspace. Applicable only to CRM.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Open Objects in Dynamic Tabs for HCM	Allows user to open objects in a dynamic or nested tab of the interactive workspace. Applicable only to CRM.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Override Part Order Pricing	Allows the user to manually override the part order price.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Personalize Analytics Dashboard Display	Allows create, update and delete of custom CX service infolets. Also, allows show/hide and rearrange the display order of the infolets.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Personalize CX Service Dashboard	Allows the user to show/hide and rearrange the display order of the CX service infolets.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Publish SmartText	Allows scope of SmartText to be set to GLOBAL so that all users can view/use it.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Receive Browser Notifications	Allows users to receive browser notifications from the notification framework. If notifications have links to objects, you will need appropriate privilege to view the object.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Reschedule Service Work Order	Allows rescheduling of a service work order.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Update Activity	Allows editing activities.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Update Customer Assets by Service	Allows update of customer assets, related configurations and structures.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Update Primary Contact	Allows manual update of Primary Contact field.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Update Service Request Business Unit	Allows updating the business unit on the service request.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Use Live Experience Agent Recording and Playback Features	Allows the use of live experience recording download and playback features.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Use Location Service	Allows use of the location service
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	Use SmartText	Allows using SmartText.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Action Plan	Allows viewing of an Action Plan.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Action Plan Process	Allows a user to view the process details in an action plan.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Activity	Allows viewing activities.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Attachment	Allows viewing attachments on a SR or SR Message
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Chat Transcript	Allows the user to view chat transcripts.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View DLM Policies	Allows viewing of DLM policies.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Express Report Definitions	Allows viewing of Express Report Definitions
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Express Report Types	Allows viewing of Express Report Types
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Installed Base Assets	Allows viewing the installed Base assets.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Installed Base Assets Landing Page	Allows viewing the installed base assets landing page.
Service Request Power User	Advanced Service Request management capabilities	View Interactions	Allows viewing of interactions history.

Granted Role	Granted Role Description	Privilege	Privilege Description
	not available to Service Representatives		
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Knowledge within Service Request	Allows viewing of knowledge base components within the service request UI.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Named Routes	Allows viewing and grouping all functional navigation flows across channels into a single name
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Navigator Menu	Allows viewing navigator metadata information
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Object Link	Allows the user to view an object link.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Page Personalization Layouts	Allows the view of Page Personalization Layouts through UI pages or REST service calls
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Partner	Allows viewing a list of partners from the partner work area.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Partner Profile	Allows viewing the partner profile.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Resource Capacities	Allows the user to view a resource's capacities.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Self Service Registrations	Allows viewing of self service registration requests.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Self Service Roles	Allows viewing self service roles.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Sensing Agent	Allows access to the sensingAgent REST service for the Oracle Assistant component embedded in Oracle Inside Sales application
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Service Center	Allows viewing of Service Center.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Service Link	Allows the user to view a service link.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Service Manager Dashboard	Allows viewing of the service manager dashboard. The dashboard contains analytical reports on service objects.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Service Manager Dashboard for FSCM	Allows viewing of the service manager dashboard. The dashboard contains analytical reports on service objects. Applicable only to CRM.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Service Manager Dashboard for HCM	Allows viewing of the service manager dashboard. The dashboard contains analytical reports on service objects. Applicable only to CRM.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Service Profile	Allows viewing of service profiles.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Service Request	Allows viewing of service request(s).
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Service Request Activities	Allows viewing of service request activities tab and its contents.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Service Request Audit History	Allows viewing of service request audit history.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Service Request Team	Allows viewing of service request team tab and its contents.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Service Work Order	Allows viewing of service work order(s).
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Service Work Order Audit History	Allows viewing of service work order audit history.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Smart Actions	Allows read and view access to Smart Actions Framework data.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Subscription Entitlements	Change the subscription user status
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Survey Integration Framework Template	Allows the user to view the survey integration framework template and its details.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Survey Requests	Allows the user to view survey requests.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Technician Access Schedules	Allows viewing of a technician access schedules.
Service Request Power User	Advanced Service Request management capabilities not available to Service Representatives	View Technician Preferences	Allows viewing of a technician preference.
Service Sales Party Management	Can create Service Requests and help with resolution of the Service Request. Has basic Service Request management capabilities.	Create Asset	Allows create new assets
Service Sales Party Management	Can create Service Requests and help with resolution of the Service	Create Sales Group	Allows creating a sales group

Granted Role	Granted Role Description	Privilege	Privilege Description
	Request. Has basic Service Request management capabilities.		
Service Sales Party Management	Can create Service Requests and help with resolution of the Service Request. Has basic Service Request management capabilities.	Create Sales Group Members	Allows creating a sales group members

Service Request Troubleshooter	Manages all aspects of the Service Request object	Create Service Work Order	Allows creation of a service work order.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Create Tag	Allows the user to create tags.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Create or Update Service Link	Allows the user to create and update a service link.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Delete Activity	Allows deleting activities.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Delete Service Request Attachment	Allows deleting an attachment from an SR or SR message.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Download Attachment of an SR or SR Message	Allows downloading an attachment of an SR or SR Message.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Edit Action Plan	Allows edit of an Action Plan.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Troubleshooter	Manages all aspects of the Service Request object	Edit DLM Policies	Allows editing of DLM policies.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Edit Service Request	Allows editing of a service request
Service Request Troubleshooter	Manages all aspects of the Service Request object	Edit Service Work Order	Allows editing of a service work order.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Edit Work Order Technician Access Schedule	Allows editing of a technician access schedule on the work order.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Forward Service Request	Allows forwarding a SR
Service Request Troubleshooter	Manages all aspects of the Service Request object	Get Customer Assets by Service	Allows query of customer assets using a service.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Get Service Request Follow Notifications	Allows the user to get notifications when they follow a service request.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage Depot Repair Order Details	Allows the user to manage depot repair order details.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage Express Report Definitions	Allows creation, modification and deletion of Express Report Definitions
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage Inbound Message	Allows create, update, delete and view of inbound messages
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage Installed Base Assets	Allows creation and editing of installed Base assets.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage Inventory Reservation and Picks	Allows management of inventory reservations and picks.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage Omnichannel Presence and Availability	Allows management of the omnichannel availability for new work, presence menu and indicator.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage Outbound Message	Allows a user to create, update, delete and view outbound messages.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage Page Personalization Layouts	Allows creation, modification, and deletion of Page Personalization Layouts through UI pages or REST service calls
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage Part Orders	Allows creating and managing part orders for a work order and service request.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage SR Contacts	Allows adding/removing a contact from a service request.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage SR Team Member	Allows adding/removing a team member to a SR
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage Signature	Allows the user to create or update a personal signature.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage SmartText	Allows creation, update and delete of a SmartText.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage Social Post	Allows create, update, delete and view of social posts
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage Users Page Personalization	Allows creation, modification, and deletion of the User Pages through UI pages or REST service calls
Service Request Troubleshooter	Manages all aspects of the Service Request object	Manage Work Order Debrief and Estimates	Allows the user to manage work order debrief and estimates.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Open Objects in Dynamic Tabs	Allows user to open objects in a dynamic/nested tab of the interactive workspace.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Open Objects in Dynamic Tabs for FSCM	Allows user to open objects in a dynamic or nested tab of the interactive workspace. Applicable only to CRM.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Open Objects in Dynamic Tabs for HCM	Allows user to open objects in a dynamic or nested tab of the interactive workspace. Applicable only to CRM.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Override Part Order Pricing	Allows the user to manually override the part order price.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Troubleshooter	Manages all aspects of the Service Request object	Personalize Analytics Dashboard Display	Allows create, update and delete of custom CX service infolets. Also, allows show/hide and rearrange the display order of the infolets.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Personalize CX Service Dashboard	Allows the user to show/hide and rearrange the display order of the CX service infolets.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Receive Browser Notifications	Allows users to receive browser notifications from the notification framework. If notifications have links to objects, you will need appropriate privilege to view the object.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Reschedule Service Work Order	Allows rescheduling of a service work order.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Update Activity	Allows editing activities.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Update Customer Assets by Service	Allows update of customer assets, related configurations and structures.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Update Primary Contact	Allows manual update of Primary Contact field.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Update Service Request Business Unit	Allows updating the business unit on the service request.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Use Live Experience Agent Recording and Playback Features	Allows the use of live experience recording download and playback features.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Use Location Service	Allows use of the location service
Service Request Troubleshooter	Manages all aspects of the Service Request object	Use SmartText	Allows using SmartText.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Action Plan	Allows viewing of an Action Plan.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Action Plan Process	Allows a user to view the process details in an action plan.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Activity	Allows viewing activities.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Attachment	Allows viewing attachments on a SR or SR Message
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Audit History	Allows to view the audit history of all the business object attributes enabled for auditing.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Chat Transcript	Allows the user to view chat transcripts.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View DLM Policies	Allows viewing of DLM policies.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Engagement Channel Enrichment	Provides view access to sales and service application data.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Express Report Definitions	Allows viewing of Express Report Definitions
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Express Report Types	Allows viewing of Express Report Types
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Installed Base Assets	Allows viewing the installed Base assets.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Installed Base Assets Landing Page	Allows viewing the installed base assets landing page.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Interactions	Allows viewing of interactions history.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Knowledge within Service Request	Allows viewing of knowledge base components within the service request UI.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Named Routes	Allows viewing and grouping all functional navigation flows across channels into a single name
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Navigator Menu	Allows viewing navigator metadata information
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Object Link	Allows the user to view an object link.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Page Personalization Layouts	Allows the view of Page Personalization Layouts through UI pages or REST service calls
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Partner	Allows viewing a list of partners from the partner work area.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Partner Profile	Allows viewing the partner profile.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Resource Capacities	Allows the user to view a resource's capacities.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Self Service Registrations	Allows viewing of self service registration requests.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Self Service Roles	Allows viewing self service roles.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Sensing Agent	Allows access to the sensingAgent REST service for the Oracle Assistant component embedded in Oracle Inside Sales application
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Service Center	Allows viewing of Service Center.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Service Link	Allows the user to view a service link.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Service Profile	Allows viewing of service profiles.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Service Representative Dashboard	Allows viewing of the service representative dashboard. The dashboard contains analytical reports on service objects.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Service Request	Allows viewing of service request(s).
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Service Request Activities	Allows viewing of service request activities tab and its contents.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Service Request Audit History	Allows viewing of service request audit history.

Granted Role	Granted Role Description	Privilege	Privilege Description
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Service Request Team	Allows viewing of service request team tab and its contents.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Service Work Order	Allows viewing of service work order(s).
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Service Work Order Audit History	Allows viewing of service work order audit history.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Smart Actions	Allows read and view access to Smart Actions Framework data.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Subscription Entitlements	Change the subscription user status
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Survey Integration Framework Template	Allows the user to view the survey integration framework template and its details.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Survey Requests	Allows the user to view survey requests.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Technician Access Schedules	Allows viewing of a technician access schedules.
Service Request Troubleshooter	Manages all aspects of the Service Request object	View Technician Preferences	Allows viewing of a technician preference.
Service Request Troubleshooter	Manages all aspects of the Service Request object	Write Engagement Channel Event Data	Allows user to write event data generated in the engagement channel application to the sales and service application.
Service Sales Party Management	Can create Service Requests and help with resolution of the Service Request. Has basic Service Request management capabilities.	Create Asset	Allows create new assets
