# Purpose

This document includes important, late-breaking information about this release of Oracle Hyperion Financial Close Management. Review this Readme thoroughly before installing Financial Close Management.

## Scope of this Release

Oracle Hyperion Financial Close Management Release 11.2.1.0.000 offers these benefits:

- Delivers updated technology, including Fusion Middleware (FMW) 12g.
- Includes updated platform certifications.

- Streamlines and simplifies the architecture, updating the underlying technology stack without a major upgrade. Future enhancements are delivered through Patch Set Updates (PSUs), so you can easily get new features by simply adding a patch onto your installation rather than reinstalling from scratch. This more nimble delivery mechanism enables smaller releases for easier adoption of new features.
- Provides a simplified repository configuration to streamline infrastructure and architecture for the future.
- Premier Support is provided through at least 2030.

Financial Close Management Release 11.2.1.0.000 doesn't support the following features:

- The ability to configure a content management system.
- Oracle Hyperion Financial Management integrations.
- Event monitoring, automated integrations, and end-user integrations requiring integrated parameters.

### New Features in This Release

About the New Features in this Release

#### About the New Features in this Release

This section includes new features in Release 11.2.x. To review the list of new features from earlier releases, use the Cumulative Feature Overview tool. This tool enables you to identify the products you own and your current implementation release. With a single click, the tool quickly produces a customized report of new feature descriptions. This tool is available here:

https://apexapps.oracle.com/pls/apex/f?p=20620:1:0

#### New Features in Release 11.2.1.0.000

Release 11.2.1.0.000 adds support for Google Chrome web browser, Microsoft Edge web browser, and Windows Server 2016. Check the **Oracle Enterprise Performance Management System Certification Matrix** for all platform requirements.

New Features in Release 11.2.0

There are no new features for Financial Close Management in Release 11.2.0.

# **Upcoming Changes**

Internet Browser Support

For Internet Explorer Browser users, Microsoft recommends using the new Microsoft Edge as your default browser. With this guidance in mind, Oracle Enterprise Performance Management System will no longer support Internet Explorer starting with release 11.2.2.0.000. If you have any questions regarding de-support, please create a Service Request. For additional guidance on Internet Explorer Lifecycle, please reach out to Microsoft..

#### Installation Information

Late-breaking information about the installation of EPM System products is provided in the *Oracle Enterprise Performance Management System Installation and Configuration Readme*. Review this information thoroughly before installing EPM System products.

Complete instructions for installing this release are in the *Oracle Enterprise Performance Management System Installation and Configuration Guide*.

# Supported Platforms

#### **Related Topics**

- About Supported Platforms
- Browser Support

## **About Supported Platforms**

Information about system requirements and supported platforms for Oracle Enterprise Performance Management System products is available in spreadsheet format in the *Oracle Enterprise Performance Management System Certification Matrix*.

This matrix is posted on the Supported System Configurations page on Oracle Technology Network (OTN):https://www.oracle.com/middleware/technologies/bifoundation/hyperion-supported-platforms.html

Financial Close Management 11.2.1.0.000 follows the platform requirements which are stated in the 11.1.2.0 version of the *Oracle Enterprise*Performance Management System Certification Matrix. The topics in this section list platforms supported by Financial Close Management that are in addition to those listed in the matrix, or platform support introduced in this release.

## **Browser Support**

Financial Close Management does not have a browser version dependency; however, it is possible that the products that Financial Close Management works with do have dependencies.

Check the *Oracle Enterprise Performance Management System Certification Matrix* and specific product readmes for any additional browser support requirements.

This matrix is posted on the Supported System Configurations page on Oracle Technology Network (OTN):https://www.oracle.com/middleware/technologies/bi-foundation/hyperion-supported-platforms.html

# Supported Languages

Information about supported languages for Oracle Enterprise Performance Management System products is available in spreadsheet format on the Translation Support tab in the *Oracle Enterprise Performance Management System Certification Matrix*.

This matrix is posted on the Supported System Configurations page on Oracle Technology Network (OTN):https://www.oracle.com/middleware/technologies/bifoundation/hyperion-supported-platforms.html

# Compatibility

Financial Close Management supports the Oracle Enterprise Performance Management System product versions listed in the Release Compatibility tab in the Oracle Enterprise Performance Management System Certification Matrix.

This matrix is posted on the Supported System Configurations page on Oracle Technology Network (OTN):https://www.oracle.com/middleware/technologies/bifoundation/hyperion-supported-platforms.html

## Defects Fixed in This Release

This release includes all defects fixed from any PSE or PSU released after Release 11.1.2.4. See those readmes for the list of defects fixed in each PSE or PSU. The Financial Close Management Release 11.1.2.4.000 readme is inclusive of all defects fixed.

## **Known Issues**

The topics in this section contain the noteworthy known issues of Release 11.2.1.0.000 and 11.2.. To view known issues from Release 11.1.2.4 or later PSE or PSUs, see those Readmes.

## Known Issues in Release 11.2.1.0.000

There are no new known issues in release 11.2.1.0.000.

#### Known Issues in Release 11.2

#### Issue with Deployment of Forms with Large Entity List

When deploying a form that contains a large number of entities to collect data for a big data set with a large number of attributes, the deployment process does not complete in a timely manner.

Accessing EPM System Product Documentation

## Accessing EPM System Product Documentation

Find the latest Oracle Enterprise Performance Management System product guides in the Oracle Help Center (https://docs.oracle.com/en/). To access documents to view or download, click the Applications icon. In the Applications Documentation window, select the Enterprise Performance Management tab, and then look for your release in the Enterprise Performance Management list.

You can also find deployment-related documentation on the Oracle Technology Network (http://www.oracle.com/technetwork/index.html) and on the Oracle Software Delivery Cloud website (http://edelivery.oracle.com/EPD/WelcomePage/get\_form).

If you are also using EPM Cloud, for Cloud documentation and videos, go to the Cloud Documentation, Software as a Service (SaaS) page in the Oracle Help Center (https://docs.oracle.com/en/cloud/saas/index.htm), and then click the link for your service in the Enterprise Performance Management list.
