Purpose

This document includes important, late-breaking information about this release of Oracle Hyperion Financial Data Quality Management, Enterprise Edition. Review this Readme thoroughly before installing FDMEE.

Scope of this Release

Oracle Hyperion Financial Data Quality Management, Enterprise Edition 11.2.1.0.000 offers these benefits:

• Delivers updated technology, including Fusion Middleware (FMW) 12g.

- Includes updated platform certifications.
- Streamlines and simplifies the architecture, updating the underlying technology stack without a major upgrade.
- Provides a simplified repository configuration to streamline infrastructure and architecture for the future.
- Premier Support is provided through at least 2030.

For a list of products and features not supported in Release 11.2.1.0.000, see the *Oracle Enterprise Performance Management System Readme*.

About the New Features in this Release

This section includes new features in Release 11.2.1.0.000 and Release 11.2.0. To review the list of new features from earlier releases, use the Cumulative Feature Overview tool. This tool enables you to identify the products you own and your current implementation release. With a single click, the tool quickly produces a customized report of new feature descriptions. This tool is available here:

Cumulative Feature Overview

New Features in Release 11.2.1.0.000

Release 11.2.1.0.000 adds support for Google Chrome web browser, Microsoft Edge web browser, and Windows Server 2016. Check the Oracle Enterprise Performance Management System Certification Matrix for all platform requirements.

New Features in Release 11.2.0

There are no new features for Oracle Hyperion Financial Data Quality Management, Enterprise Edition in Release 11.2.0.

Features Not Supported in Releases 11.2.1.0.000 and 11.2.0

The following Oracle Hyperion Financial Data Quality Management, Enterprise Edition features are not supported in Releases 11.2.1.0.000 and 11.2.0.

- SOAP Web Services
- Integration with on-premise Oracle Fusion Financials

Note:

Integration with the Oracle General Ledger Cloud is still available.

 Direct posting of Budget Revision to Peoplesoft Commitment Control. Revisions are posted to the interface table and you must run the Budget Processor in Peoplesoft to write back to Peoplesoft.

- The following source adapters are not available in the first release of 11.2.0, but will be considered for certification in a future release:
 - SAP ERP Financials
 - SAP BW
 - JD Edwards
 - Peoplesoft HCM

Upcoming Changes

Related Topics

Internet Explorer Browser Support

Internet Explorer Browser Support

Internet Explorer will be dropped with EPM 11.2.2. For Internet Explorer browser users, Microsoft recommends suing the new Microsoft Edge as your default browser. With this guidance in mind, Oracle Enterprise Performance Management System will no longer support Internet Explorer starting with release 11.2.2.0.000. If you have any questions regarding de-support, please create a Service Request. For additional guidance on Internet Explorer Lifecycle, please reach out to Microsoft.

Installation Information

Late-breaking information about the installation of EPM System products is provided in the *Oracle Enterprise Performance Management System Installation and Configuration Readme*. Review this information thoroughly before installing EPM System products.

Complete instructions for installing this release are in the Oracle Enterprise Performance Management System Installation and Configuration Guide.

Supported Platforms

Related Topics

- About Supported Platforms
- Browser Support

About Supported Platforms

Information about system requirements and supported platforms for Oracle Enterprise Performance Management System products is available in spreadsheet format in the *Oracle Enterprise Performance Management System Certification Matrix*. This matrix is posted on the Supported System Configurations page on Oracle Technology Network (OTN):

https://www.oracle.com/middleware/technologies/bi-foundation/hyperion-supported-platforms.html

Note:

FDMEE 11.2.1.0.000 follows the platform requirements which are stated in the 11.1.2.0 version of the *Oracle Enterprise Performance Management System Certification Matrix*. The topics in this section list platforms supported by FDMEE that are in addition to those listed in the matrix, or platform support introduced in this release.

Browser Support

FDMEE does not have a browser version dependency; however, it is possible that the products that FDMEE works with do have dependencies.

Check the Oracle Enterprise Performance Management System Certification Matrix and specific product readmes for any additional browser support requirements.

The matrix is posted on the Supported System Configurations page on OTN:

https://www.oracle.com/middleware/technologies/bi-foundation/hyperion-supported-platforms.html

Supported Languages

Information about supported languages for Oracle Enterprise Performance Management System products is available in spreadsheet format on the Translation Support tab in the Oracle Enterprise Performance Management System Certification Matrix. This is posted on the Supported System Configurations page on OTN:

https://www.oracle.com/middleware/technologies/bi-foundation/hyperion-supported-platforms.html

Defects Fixed

Related Topics

- Defects Fixed in Release 11.2.1.0.000
- Defects Fixed in Release 11.2.0

Defects Fixed in Release 11.2.1.0.000

Release 11.2.1.0.000 contains no new defects fixed.

Defects Fixed in Release 11.2.0
