

# ORACLE Integration

Your enterprise platform for AI agents

## Make your AI vision a reality

Reliable AI solutions enabled by agent access to your enterprise systems

## Connect anything, anywhere

Smarter agents powered by unified apps and consistent data

## Automate effectively

Agents that can take action, guided by built-in guardrails and human oversight

## AI strategies succeed with connected apps, trusted data, and intelligent automation

### Agentic AI

Bring adaptability to automation using integrations as tools

### Integrations

Connect and automate enterprise applications using APIs

### Human in the loop

Engage a person for oversight, approval, or exception handling

### RPA robots

Record steps in the UI to eliminate manual, repetitive tasks

### Your own AI agent tool factory

Consistent connectivity and observability for every agent, everywhere

### Knowledge base

Augment AI with enterprise content for grounded answers

### Decisions

Turn unstructured policy content into rule-based decisions

### Healthcare

Combine clinical, patient, and enterprise data in a FHIR-ready platform

### B2B

Simplify e-commerce and data exchange with trading partners

## Govern enterprise access across all your agent ecosystems

Oracle Fusion Applications • Oracle AI Data Platform • Oracle AI Database 26ai • OCI Generative AI

## Oracle Integration makes your AI agents...

- Smarter with **data**
- More effective with **action**
- More reliable with **predictability**
