

## Getting Started with Oracle Service Monitoring for Connected Assets

Monitor your connected assets, and integrate with Oracle B2C Service and Oracle B2B Service (Oracle Engagement Cloud). Manage your assets effectively and reduce overall maintenance costs. Track the real-time location, health, and utilization of your assets. View your assets and analytics on the dashboard, and automate actions based on predictive insights from your business applications.

Oracle Service Monitoring for Connected Assets is a version of Oracle IoT Asset Monitoring Cloud Service that includes integrations with Oracle B2C Service and Oracle B2B Service.

You can access Oracle Service Monitoring for Connected Assets from the following URL:

```
https://hostname/smca
```

Here, *hostname* is the host name of your Oracle IoT Cloud Service instance.

After logging in, you are placed in the Operations Center for your organization.
