Project Billing Specialist (Job Role) 574
Project Execution (Abstract Role) 593
Project Executive (Job Role) 600
Project Integration Specialist (Job Role) 605
Project Management Duty (Abstract Role) 613
Project Manager (Job Role) 652
Project Team Member (Abstract Role) 708
Resource Manager (Job Role) 714

Team Collaborator (Abstract Role) 717

Get Help

In addition to the resources available in Oracle Help Center, you can explore training, connect with the Oracle community, and share your feedback.

Get Training

Increase your knowledge of Oracle Cloud by taking courses at *Oracle University*.

Join Our Community

Use *Cloud Customer Connect* to get information from industry experts at Oracle and in the partner community. You can join forums to connect with other customers, post questions, suggest *ideas* for product enhancements, and watch events.

Share Your Feedback

We welcome your feedback about Oracle Applications user assistance. If you need clarification, find an error, or just want to tell us what you found helpful, we'd like to hear from you.

You can email your feedback to *oracle_fusion_applications_help_ww_grp@oracle.com*.

Thanks for helping us improve our user assistance!

3 Introduction

Overview of Security Reference

If you are an IT Security Manager, this guide is for you. Use the reference information for implementing security for an offering in Oracle Applications Cloud. Depending on the needs of your enterprise, determine what works best for your offering, and make the required configuration changes.

Broadly, the reference information includes these details:

- Abstract and job roles for an offering
- Duty roles and the role hierarchy for each job role and abstract role
- Privileges that are required to perform duties defined by a duty role
- Data security policies for each job role or abstract role
- Policies that protect personally identifiable information

To know more about the roles, privileges, and polices and to learn how to implement and administer security for your offering, refer to your product security guide.

How to Use This Guide

You can review the information in this guide to decide how to assign roles and privileges to specific users. For each role, you will find these details:

- The role hierarchy that lists the other inherited roles
- A list of duties assigned to that role
- Privileges granted to that role
- Data security policies and their implementation scope

> **Note:** The changes you make to the security reference implementation are preserved during upgrades or maintenance patches.

Project Management Offering

This guide describes the security reference implementation for the Project Management offering.

There is a set of common roles that are required to set up and administer an offering. For information about these roles, see the *Oracle Applications Cloud Security Reference for Common Features* guide.

Advisory Note on Subscription Impact

Assigning predefined roles and privileges as is to users may impact subscription usage, even if you haven't purchased the subscription. Privileges that are assigned but remain unused can still account for subscription consumption.

Before you assign predefined roles with privileges, evaluate the business needs of your users. Do your users need the entire role and all its privileges in full scope? Or, do they need the role but only a few of its privileges? Evaluating what your users need will help you avoid potential security risks and also keep a check on the subscription consumption.

If you want users to have the predefined role in full scope and have purchased all the impacted cloud services, you can assign the role with privileges as is. For example, only while setting up an application, you may need to assign the predefined Application Implementation Consultant role as is. Once the setup is complete, you can unassign it. Otherwise, Oracle recommends that you make a copy of that predefined role, remove the privileges you don't need, and assign only the required privileges. For a list of all predefined roles with privileges that impact subscription usage, see the spreadsheet *Predefined Roles with Subscription Impact*. To give you an example, here's an indicative list of the top three roles that impact subscription usage:

- Employee (ORA_PER_EMPLOYEE_ABSTRACT)
- Application Implementation Consultant (ORA_ASM_APPLICATION_IMPLEMENTATION_CONSULTANT_JOB)
- Contingent Worker (ORA_PER_CONTINGENT_WORKER_ABSTRACT)

For insights into how Oracle measures and counts Oracle Fusion licenses, see *Metrics Description for Fusion Offerings*

4 What's New

Overview

This release of the offering includes new job roles, abstract roles, duties, aggregate privileges, or privileges.

New Duties

This table lists the new duties for the Project Financial Management offering.

Duty Role	Description
Financial Project Plan Inquiry	Grants access to Financial Project Plan Inquiry, which lets users inquire into financial project plans, including plan versions, planning amounts, resource assignments, forecasts, and related financial planning information.
Product Lifecycle Management Folder Access	Allows users access to view and manage content uploaded to the content folder.
Project Budget Inquiry	Grants access to Project Budget Inquiry, which lets users inquire into project budget information, including approved budgets, budget versions, budget allocations, and related financial details.
Project Change Order Inquiry	Grants access to Project Change Order Inquiry, which lets users inquire into project change orders, including proposed changes, approval status, financial impact, and related project information.
Project Change Requests Inquiry	Grants access to Project Change Requests Inquiry, which lets users inquire into project change requests, including their status, approval progress, affected project information, and related details.

New Privileges

This table lists the new privileges for the Project Financial Management offering.

Granted Role	Privilege	Description
Labor Distribution Accountant	View Project Labor Schedules	Allows users to view project and nonproject labor schedules.
Project Administrator	Activate Project Schedule of Values	Enables the user to activate a project schedule of values

Granted Role	Privilege	Description
Project Administrator	Activate Project Schedule of Values Without Approval	Enables the user to bypass approval while activating a project schedule of values.
Project Administrator	Close Project Schedule of Values	Enables the user to close Project Schedule of Values.
Project Administrator	Close Project Schedule of Values Lines	Enables the user to close Project Schedule of Values Lines.
Project Administrator	Close Project Schedule of Values Without Approval	Enables the user to bypass approval while closing a project schedule of values.
Project Administrator	Delete Project Schedule of Values Without Approval	Enables the user to bypass approval while deleting a project schedule of values.
Project Administrator	Manage Project Schedule of Values	Enables the user to manage Project Schedule of Values.
Project Administrator	Manage Project Schedule of Values Associations	Enables the user to manage Project Schedule of Values of Associations
Project Administrator	Reactivate Project Schedule of Values	Enables the user to reactivate Project Schedule of Values.
Project Administrator	Reactivate Project Schedule of Values Without Approval	Enables the user to bypass approval while reactivating a revised project schedule of values.
Project Administrator	Reopen Project Schedule of Values	Enables the user to reopen Project Schedule of Values Lines.
Project Administrator	Reopen Project Schedule of Values Lines	Enables the Project Administrator user to Reopen Project Schedule of Values Lines.
Project Administrator	Reopen Project Schedule of Values Without Approval	Enables the user to bypass approval while reopening a project schedule of values.
Project Administrator	Revise Project Schedule of Values	Enables the user to revise Project Schedule of Values.
Project Administrator	Revise Project Schedule of Values Without Approval	Enables the user to bypass approval while revising an active project schedule of values.
Project Administrator	View Project Schedule of Values	Enables the user to view Project Schedule of Values.

Granted Role	Privilege	Description
Project Administrator	View Project Schedule of Values Associations	Enables the user to view Project Schedule of Values Associations
Project Administrator	Withdraw Project Schedule of Values Approval	Enables the user to withdraw the requested approval for project schedule of values.
Project Manager	Activate Project Schedule of Values	Enables the user to activate a project schedule of values
Project Manager	Activate Project Schedule of Values Without Approval	Enables the user to bypass approval while activating a project schedule of values.
Project Manager	Close Project Schedule of Values	Enables the user to close Project Schedule of Values.
Project Manager	Close Project Schedule of Values Lines	Enables the user to close Project Schedule of Values Lines.
Project Manager	Close Project Schedule of Values Without Approval	Enables the user to bypass approval while closing a project schedule of values.
Project Manager	Delete Project Schedule of Values Without Approval	Enables the user to bypass approval while deleting a project schedule of values.
Project Manager	Manage Project Schedule of Values	Enables the user to manage Project Schedule of Values.
Project Manager	Manage Project Schedule of Values Associations	Enables the user to manage Project Schedule of Values of Associations
Project Manager	Reactivate Project Schedule of Values	Enables the user to reactivate Project Schedule of Values.
Project Manager	Reactivate Project Schedule of Values Without Approval	Enables the user to bypass approval while reactivating a revised project schedule of values.
Project Manager	Reopen Project Schedule of Values	Enables the user to reopen Project Schedule of Values Lines.
Project Manager	Reopen Project Schedule of Values Lines	Enables the Project Administrator user to Reopen Project Schedule of Values Lines.
Project Manager	Reopen Project Schedule of Values Without Approval	Enables the user to bypass approval while reopening a project schedule of values.

Granted Role	Privilege	Description
Project Manager	Revise Project Schedule of Values	Enables the user to revise Project Schedule of Values.
Project Manager	Revise Project Schedule of Values Without Approval	Enables the user to bypass approval while revising an active project schedule of values.
Project Manager	View Project Schedule of Values	Enables the user to view Project Schedule of Values.
Project Manager	View Project Schedule of Values Associations	Enables the user to view Project Schedule of Values Associations
Project Manager	Withdraw Project Schedule of Values Approval	Enables the user to withdraw the requested approval for project schedule of values.

5 Roles

Grants Accountant (Job Role)

Oversees the collection, recording, allocation, and analysis of award and project costs and revenue. Analyses budget and actual costs and prepares project profit and loss statements. Reports financial performance to project managers and executives. Prepares draft invoices, obtains approval from project managers, and transfers invoices to the Receivables application. Compiles billing support and backup documentation. Manages period or year-end closing procedures.

Role Hierarchy

The Grants Accountant job role directly and indirectly inherits these roles.

- Grants Accountant
  - Contract Setup
    - AttachmentsWCCintegrato
    - Resource Administration
      - Application World Reference Administration
      - Manage Users
        - Manage User Account
          - Edit User Name
          - Manage User Roles
          - Use REST Service - Public Workers Read Only
      - Use User Details Service
  - FSCM Load Interface Administration
  - Manage Projects Accounting Period Status
  - Manage Users
    - Manage User Account
      - Edit User Name
      - Manage User Roles
      - Use REST Service - Public Workers Read Only
  - Project Accountant
    - Accounted Project Cost Distribution Inquiry
    - FSCM Load Interface Administration
    - Functional Setups
    - Import Project Unprocessed Expenditure Item
    - Manage Projects Accounting Period Status

- Project Asset Maintenance
- Project Budget Transaction Analysis
  - Business Intelligence Authoring
  - Project Transactional Analysis Currency Preference
- Project Contract Invoice Transaction Analysis
  - Business Intelligence Authoring
  - Project Transactional Analysis Currency Preference
- Project Contract Revenue Management
  - Manage Projects Accounting Period Status
- Project Contract Revenue Transaction Analysis
  - Business Intelligence Authoring
  - Project Transactional Analysis Currency Preference
- Project Cost Adjustments Approval
- Project Cost Transaction Processing
  - FSCM Load Interface Administration
- Project Costing Transaction Analysis
  - Business Intelligence Authoring
  - Project Transactional Analysis Currency Preference
- Project Foundation Transaction Analysis
  - Business Intelligence Authoring
  - Project Transactional Analysis Currency Preference
- Project Journals Transaction Analysis
  - Business Intelligence Authoring
  - Project Transactional Analysis Currency Preference
- Project cost setup inquiry
- Project foundation setup inquiry
- Projects Folder Reporting
- Projects Reporting Analysis
- Review Projects Accounting Period Status
- Subledger Accounting Manager
  - Business Intelligence Consumer
  - Customer Account Inquiry
- Subledger Accounting Reporting
  - Business Intelligence Consumer
  - Customer Account Inquiry
- Transaction Entry with Budgetary Control
  - Business Intelligence Consumer
- Upload data for Project Costing Import

- Project Billing Specialist
  - FSCM Load Interface Administration
  - Project Contract Invoice Management

        - Subledger Accounting Specialist
            - Business Intelligence Consumer
            - Customer Account Inquiry
    - Project Contract Invoice Transaction Analysis
        - Business Intelligence Authoring
        - Project Transactional Analysis Currency Preference
    - Project Contract Invoice Transaction Analysis
        - Business Intelligence Authoring
        - Project Transactional Analysis Currency Preference
    - Project Inquiry
    - Project foundation setup inquiry
    - Projects Folder Reporting
    - Projects Reporting Analysis
- Project Cost Transaction Processing
    - FSCM Load Interface Administration
- Project cost setup inquiry
- Projects Folder Reporting
- Review Projects Accounting Period Status
- Transaction Entry with Budgetary Control
    - Business Intelligence Consumer

Duties

This table lists the duties assigned directly and indirectly to the Grants Accountant job role.

Duty Role	Description
Accounted Project Cost Distribution Inquiry	Allows inquiry into accounted project cost distributions from multiple sources.
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.
AttachmentsWCCintegrato	DUTYroleforAttachmentsWCCintegrator.
Business Intelligence Authoring	An author of Business Intelligence reports as presented in the web catalog. The role allows authoring within Business Intelligence Applications, Business Intelligence Publisher, Real Time Decisions, Enterprise Performance Management and Business Intelligence Office.
Business Intelligence Consumer	A role required to allow reporting from Business Intelligence Applications, Business Intelligence Publisher, Real Time Decisions, Enterprise Performance Management and Business Intelligence Office. This role allow you to run reports from the web catalog but it will not allow a report to be authored from a subject area.

Duty Role	Description
Contract Setup	Contract Setup
Customer Account Inquiry	View customer account details.
FSCM Load Interface Administration	Manages load interface file for import
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.
Import Project Unprocessed Expenditure Item	Allows import of project unprocessed expenditure item.
Manage User Account	Manages user roles.
Manage Users	Creates and updates users and assigns roles to users.
Project Asset Maintenance	Manages capital project tasks, project asset lines tasks, capital event tasks, and capital asset create task.
Project Budget Transaction Analysis	Analyzes Project Budget transactional information
Project Contract Invoice Management	Perform tasks related to managing project contract invoices, billing events and billing transaction exceptions.
Project Contract Invoice Transaction Analysis	Analyzes Project Contract Invoice transactional information
Project Contract Revenue Management	Perform tasks related to managing project contract revenue, billing events and billing transaction exceptions.
Project Contract Revenue Transaction Analysis	Analyzes Project Contract Revenue transactional information
Project Cost Adjustments Approval	Authorizes cost adjustments such as expenditure item splits, transfers, split and transfers. Approves expenditure item status changes such as revenue holds, invoice holds, capitalizable and work type.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.
Project Costing Transaction Analysis	Analyzes Project Costing transactional information
Project Foundation Transaction Analysis	Analyzes Project Foundation transactional information

Duty Role	Description
Project Inquiry	Allows inquiry into project definitions.
Project Journals Transaction Analysis	Analyzes Project Journals transactional information
Project Transactional Analysis Currency Preference	This role is used to get the supported currencies in Project Transactional Analysis module.
Project cost setup inquiry	Allows inquiry into setup configurations related to project cost.
Project foundation setup inquiry	Allows inquiry into project-related setup configurations.
Projects Folder Reporting	Grants access to the Projects web catalog folder.
Projects Reporting Analysis	Access project Business Intelligence Applications data.
Resource Administration	Administers resource information.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.
Subledger Accounting Reporting	Runs all subledger accounting reports, and reviews journal entries.
Subledger Accounting Specialist	Creates accounting for a given transaction and reviews journal entries.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.
Transactional Analysis	This duty is used for various generic OTBI security and filtering purposes and is therefore required for all OTBI users.
Upload data for Project Costing Import	Allows to upload data file to import project costing data.

Aggregate Privileges

This table lists aggregate privileges assigned directly and indirectly to the Grants Accountant job role.

Aggregate Privilege	Description
Edit User Name	Updates the user name associated with a person.
Manage Projects Accounting Period Status	Manages Oracle Fusion Projects period status.

Aggregate Privilege	Description
Manage User Roles	Allows management of user roles assignments.
Review Projects Accounting Period Status	Reviews Oracle Fusion Projects period status.
Use REST Service - Public Workers Read Only	Allows the user to call the GET method associated with the Public Workers REST Service.
Use User Details Service	Creates or updates users during person synchronizations.

Privileges

This table lists privileges granted to duties of the Grants Accountant job role.

Granted Role	Granted Role Description	Privilege	Privilege Description
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Currency	Manage currencies used by applications.
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference ISO Language	Manage ISO Languages used by applications.
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Industry	Manage Industries used by applications
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Language	Manage Languages used by applications
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Natural Language	Manage Natural Languages used by applications
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Territory	Manage Territories used by applications

Granted Role	Granted Role Description	Privilege	Privilege Description
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Timezone	Manage Timezones used by applications
AttachmentsWCCintegrato	DUTYroleforAttachmentsWCCintegr	Access Attachments Certificate Manager REST resource	Allows accessing the attachments Certificate Manager REST resource.
Contract Setup	Contract Setup	(OBSOLETE) Define Contract Collaboration Configuration	Allows the configuration of contract collaboration.
Contract Setup	Contract Setup	Administer Sandbox	Allows administration of all sandboxes.
Contract Setup	Contract Setup	Build Keyword Search Index for the Contract Terms Library	Allows the running of processes to synchronize and optimize the keyword index for clause and terms template searches in the Contract Terms Library.
Contract Setup	Contract Setup	Configure Contract UI	Allows the configuration of contract UI
Contract Setup	Contract Setup	Define Endpoint and Security Policy Information	Allows definition of endpoint and security policy information for an enterprise application.
Contract Setup	Contract Setup	Define Project Contract Billing Configuration	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Generate PDF Contract for Text Search	Allows the running of the process to generate PDFs of draft contracts, or contracts under amendment, so they are available during text searches.
Contract Setup	Contract Setup	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Contract Setup	Contract Setup	Manage Application Common Lookup	Not Available
Contract Setup	Contract Setup	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Contract Setup	Contract Setup	Manage Application Document Sequence	Manage implementation of Application Document Sequences. Document Sequences are

Granted Role	Granted Role Description	Privilege	Privilege Description
			identifiers guarenteed to be unique, time-ordered, and gapless. This is in contrast to a database sequence which (for performance purposes) may contain gaps and which might not be ordered by time of document creation. Examples would include ID numbers for traffic tickets or other legal documents where gaps in the record may trigger an investigation.
Contract Setup	Contract Setup	Manage Application Document Sequence Category	Manage document sequence categories
Contract Setup	Contract Setup	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Contract Setup	Contract Setup	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Contract Setup	Contract Setup	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Contract Setup	Contract Setup	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Contract Setup	Contract Setup	Manage Contract Currency Conversion Rate Types	Allows the definition of user-defined currency conversion rate types.
Contract Setup	Contract Setup	Manage Contract Customer Account	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Customer Account Site Usages	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Defaults	Allows management of contract defaults

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Contract Global Employee	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Interaction Reference Mapping	Allows the mapping of interaction types to applications where the interaction types can be used.
Contract Setup	Contract Setup	Manage Contract Layout Templates	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Item	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Type	Allows creating and managing of contract line types such as product and service.
Contract Setup	Contract Setup	Manage Contract Note Type Mapping	Allows creating and managing of the mapping that provides a tailored list of note type values for contracts. When no mapping is specified, note type values mapped to the object Note are used.
Contract Setup	Contract Setup	Manage Contract Organization Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Contact	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Location	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Role and Contact Sources	Allows the specification of the data sources for parties and contacts. A data source specifies the available list of values for parties or contacts of a given role.
Contract Setup	Contract Setup	Manage Contract Payment Terms	Allows creating and managing of payables payment terms for use in supplier contracts.
Contract Setup	Contract Setup	Manage Contract Person Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Request Type	Manage contract request types.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Contract Risk Event	Allows creating and managing of contract risk events that can be associated to a contract.
Contract Setup	Contract Setup	Manage Contract Standard Clauses, Templates, and Contract Expert Rules	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Type	Allows the management of contract types to specify properties of different contracts such as the type of permitted contract lines, party roles, contract validation checks, and the contract acceptance and signature requirements.
Contract Setup	Contract Setup	Manage Contract and Pricing Integration	Not Available
Contract Setup	Contract Setup	Manage Coverage Times	Allows management of coverage times
Contract Setup	Contract Setup	Manage Default Coverage	Allows management of default coverage
Contract Setup	Contract Setup	Manage Electronic Signature Setup	Allows setting up electronic signature
Contract Setup	Contract Setup	Manage Key Terms and Prompts	Allows the definition of contract key terms and prompts. This also includes adding key terms to contract types.
Contract Setup	Contract Setup	Manage Matrix Classes	Allows creation, update, deletion, copy, and viewing of all matrix classes and child entities.
Contract Setup	Contract Setup	Manage Pricing Algorithms	Allows creation, update, deletion, copy, and viewing of all algorithms and child entities.
Contract Setup	Contract Setup	Manage Service Mappings	Allows creation, update, deletion, copy, and viewing of all service mappings and child entities.
Contract Setup	Contract Setup	Manage Standard Coverage	Allows management of standard coverage

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Time Unit Mappings	Allows management of time unit mappings
Contract Setup	Contract Setup	Manage User Statuses and Transitions	Manage user statuses and transitions
Contract Setup	Contract Setup	Process Installed Base updates	Processes installed base updates.
Contract Setup	Contract Setup	Specify Customer Contract Management Business Function Properties	Allows specifying and managing of currency conversion rules, project billing rules and default values, adoption rules for contract standards and policies, and other contract management functions during business unit setup.
Contract Setup	Contract Setup	Specify Procurement Contract Management Business Function Properties	Allows specification of supplier contract management properties during business unit setup. This includes the specification of contract standards, policies, and adoption rules.
Contract Setup	Contract Setup	Track Purchasing Activity for Contract Fulfillment Line	Allows the running of the process that retrieves the number and the status of the purchasing document created by the integrated procurement application from the contract fulfillment line.
Contract Setup	Contract Setup	Update Contract Status	Updates the status of contracts that are dependent on time. For example, updates the status to expired when the end date is reached.
Contract Setup	Contract Setup	Update Enterprise Application Deployment Information	Allows updating deployment information of an enterprise application.
Contract Setup	Contract Setup	Use Generative AI Features in Sales	Allows users to use generative ai features
Contract Setup	Contract Setup	View Administration Link	Privilege to view administration link in UI shell
Contract Setup	Contract Setup	View Contract Type	Allows viewing of the contract type and its attributes.
Customer Account Inquiry	View customer account details.	Export Customer Account	Not Available

Granted Role	Granted Role Description	Privilege	Privilege Description
Customer Account Inquiry	View customer account details.	Export Customer Account Relationship	Allows the export of customer account contact relationship information.
Customer Account Inquiry	View customer account details.	Search Customer Account Relationships	Allows the search of customer account relationships. If assigning, also assign the ability to view the customer account relationship.
Customer Account Inquiry	View customer account details.	Search Customer Account Site	Allows the search of customer account sites. If assigning, also assign the ability to view the customer account site.
Customer Account Inquiry	View customer account details.	Search Trading Community Organization	Allows the search of organizations. If assigning, also assign the ability to view the trading community organization.
Customer Account Inquiry	View customer account details.	Search Trading Community Organization Additional Identifier	Not Available
Customer Account Inquiry	View customer account details.	Search Trading Community Organization Additional Name	Not Available
Customer Account Inquiry	View customer account details.	Search Trading Community Organization Address	Not Available
Customer Account Inquiry	View customer account details.	Search Trading Community Organization Classification Code Assignment	Not Available
Customer Account Inquiry	View customer account details.	Search Trading Community Organization Contact Point	Not Available
Customer Account Inquiry	View customer account details.	View Customer Account	Allows the viewing of customer account information.
Customer Account Inquiry	View customer account details.	View Customer Account Information	Not Available
Customer Account Inquiry	View customer account details.	View Customer Account Relationship	Allows the viewing of customer account relationship information.
Customer Account Inquiry	View customer account details.	View Customer Account Relationships	Allows the viewing of customer account relationship information.
Customer Account Inquiry	View customer account details.	View Customer Account Site	Allows the viewing of the customer account site information.

Granted Role	Granted Role Description	Privilege	Privilege Description
Customer Account Inquiry	View customer account details.	View Customer Account Site Use	Allows the viewing of the customer account site use information.
Customer Account Inquiry	View customer account details.	View Location of Final Discharge	Allows view of location of final discharge.
Customer Account Inquiry	View customer account details.	View Party Fiscal Classification	Allows viewing of tax classifications used by a tax authority to categorize a party and is applicable in the tax determination process.
Customer Account Inquiry	View customer account details.	View Third-Party Site Tax Profile	Allows viewing of tax profiles that contain tax information that relate to a third-party site's transaction tax activities.
Customer Account Inquiry	View customer account details.	View Third-Party Tax Profile	Allows viewing of tax profiles that contain tax information that relate to a third party's transaction tax activities.
Customer Account Inquiry	View customer account details.	View Trading Community Organization	Allows exporting, searching, and viewing of organization details such as addresses, classifications, identifiers, and names.
Customer Account Inquiry	View customer account details.	View Trading Community Organization Additional Identifier	Not Available
Customer Account Inquiry	View customer account details.	View Trading Community Organization Additional Name	Not Available
Customer Account Inquiry	View customer account details.	View Trading Community Organization Address	Not Available
Customer Account Inquiry	View customer account details.	View Trading Community Organization Address Use	Not Available
Customer Account Inquiry	View customer account details.	View Trading Community Organization Classification Code Assignment	Not Available
Customer Account Inquiry	View customer account details.	View Trading Community Organization Contact Point	Not Available
Customer Account Inquiry	View customer account details.	View Trading Community Organization Contact Preference	Not Available

Granted Role	Granted Role Description	Privilege	Privilege Description
Customer Account Inquiry	View customer account details.	View Trading Community Organization Source System Mapping	Not Available
Customer Account Inquiry	View customer account details.	View Trading Community Organization Usage Assignment	Not Available
FSCM Load Interface Administration	Manages load interface file for import	Access FSCM Integration Rest Service	Allow financials and supply chain users to access the methods associated with the Integration Rest Service.
FSCM Load Interface Administration	Manages load interface file for import	Load File to Interface	Allows file data load to interface tables
FSCM Load Interface Administration	Manages load interface file for import	Load Interface File for Import	Allows a user to load interface file for import
FSCM Load Interface Administration	Manages load interface file for import	Manage File Import and Export	Privilege to manage import and export of files.
FSCM Load Interface Administration	Manages load interface file for import	Transfer File	Allows management of file transfer from server
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Execute Setup Tasks	Allows setup task execution and searching of tasks and tasks lists.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Review Applications Offering	Provides access to the Getting Started page.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Review Setups Functional User Overview	Allows access to the Assigned Implementation Tasks page.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Setup and Maintain Applications	Allows access to the Setup and Maintenance work area.
Grants Accountant	Oversees the collection, recording, allocation, and analysis of award and project costs and revenue. Analyses budget and actual costs and prepares project profit and loss statements. Reports financial performance to project managers and executives. Prepares draft invoices, obtains approval from project managers, and transfers invoices to the Receivables application. Compiles billing support and backup documentation. Manages period or year-end closing procedures.	Assign Roles to User	Allows assignment of roles to users.

Granted Role	Granted Role Description	Privilege	Privilege Description
Grants Accountant	Oversees the collection, recording, allocation, and analysis of award and project costs and revenue. Analyses budget and actual costs and prepares project profit and loss statements. Reports financial performance to project managers and executives. Prepares draft invoices, obtains approval from project managers, and transfers invoices to the Receivables application. Compiles billing support and backup documentation. Manages period or year-end closing procedures.	Distribute Award Project Costs and Quantities	Allows user to initiate the award distribution process that will match the costs and quantities provided to available award funding patterns to distribute.
Grants Accountant	Oversees the collection, recording, allocation, and analysis of award and project costs and revenue. Analyses budget and actual costs and prepares project profit and loss statements. Reports financial performance to project managers and executives. Prepares draft invoices, obtains approval from project managers, and transfers invoices to the Receivables application. Compiles billing support and backup documentation. Manages period or year-end closing procedures.	Manage Project Capital Assets Service	Allows access to the project assets service to view, create, update, and delete assets and asset assignments in Project Financial
Grants Accountant	Oversees the collection, recording, allocation, and analysis of award and project costs and revenue. Analyses budget and actual costs and prepares project profit and loss statements. Reports financial performance to project managers and executives. Prepares draft invoices, obtains approval from project managers, and transfers invoices to the Receivables application. Compiles billing support and backup documentation. Manages period or year-end closing procedures.	Manage Project Commitments Service	Allows access to the project commitments service to view, create, update, and delete external commitments in Project Financial Management applications using the service.
Grants Accountant	Oversees the collection, recording, allocation, and analysis of award and project costs and revenue. Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Billing Hold	Allows placing or removing the billing hold on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Billing Status	Allows updating of billing status of a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Capitalizable Status	Allows updating of capitalizable status of a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks.	Edit Project Expenditure Item Costing	Allows updating of project expenditure item costing.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Cross-Charge Attributes	Allows updating of cross-charge information on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Cross-Charge Status	Allows updating of cross-charge status on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Intercompany Billing Hold	Allows placing or removing the intercompany billing hold on a project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Intercompany Billing Status	Allows updating of intercompany billing status of a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Intercompany Transaction	Allows updating of intercompany project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Work Type	Allows updating of work type information on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks.	Enter Project Unprocessed Expenditure Batch	Allows creation of project cost transactions for third-party applications in Excel or in Project Costing.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Enter Project Unprocessed Expenditure Item	Allows creation of project cost transactions for third-party applications in Excel or in Project Costing.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Inventory Transaction Sources and Types	Allows configuration of inventory transaction sources and types. Transaction sources are used while performing transactions to classify transactions according to their origin, such as purchase order, sales order, account number, or physical inventory. Transaction types are user-defined and used to identify the various inventory transactions.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Accounting Period Status	Allows opening and closing of project accounting periods.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Allocation Rule	Allows managing of allocation rules to distribute overhead costs to projects and tasks that are benefited from those costs.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Allocation Transaction	Allows managing of project allocation transactions including creating, updating, and deleting allocations. Also allows releasing and reversing of released allocations.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Burden Cost Bases	Allows creation of the raw cost bases used to apply and group burden costs.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks.	Manage Project Burden Cost Code	Allows creation of codes to represent the types of costs to be applied to raw costs.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Burden Schedule	Allows updating of multipliers used to calculate the burdened cost, revenue, and bill amount of each expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Burden Structure	Allows creation of structures to determine which burden costs are applied to each raw cost base.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Capital Interest Rates	Allows managing of project capital interest rates.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Capitalized Interest Rate Schedule	Allows defining of capitalized interest rate and capitalized interest rate schedules to calculate capitalized interest.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Cost Activities	Privilege to access Project Costs WA from Main Menu
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Costing Extension	Allows implementation of extensions in Project Costing.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks.	Manage Project Event Type	Allows creation and update of event types for revenue or billing activities that are not directly related to expenditure items.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Expenditure Item	Allows searching and managing of project expenditure items.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Expenditure Type	Allows management of expenditure types to classify costs and to plan, budget, and forecast projects.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Job Mapping	Allows mapping of jobs defined in Global Human Resources to different job titles used in Projects.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Labor Cost Multiplier	Allows update of values by which labor cost rates are multiplied to calculate overtime premiums.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Labor Costing Overrides	Allows addition of overrides to the assigned costing rule and cost schedule for an individual labor resource.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Labor Costing Rules	Allows assigning of rules and rate schedules used to calculate labor and nonlabor costs for an organization.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks.	Manage Project Organization Costing Rules	Privilege to grant access to manage Organization Costing Rules

Granted Role	Granted Role Description	Privilege	Privilege Description
	Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Rate Schedule	Allows defining of project rates and schedules to calculate cost, invoice, revenue, budget and planning amounts.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Revenue Category	Allows management of categories to describe and group the source of an organization's revenue for budgeting and reporting purposes.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Standard Asset Unit Cost	Allows defining of standard unit costs for asset book and asset category combinations. This is used as the proration basis for allocating indirect and common costs.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Transfer Price Rule	Allows management of rules to determine how transfer prices are calculated for cross-charge transactions and intercompany billing transactions.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Transfer Price Schedule	Allows creation of schedules that contain rules for revenue sharing and cost reimbursement agreements.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Unprocessed Expenditure Batch	Allows managing of unreleased expenditure batches.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks.	Manage Project Unprocessed Expenditure Item	Allows creation or updating of project cost transactions in Oracle Projects or in Oracle 3rd party application.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Provide Item Cost	Allows retrieval of item costs.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Provide Projects Cost Collection Service	Allows subscription to a service to retrieve project cost collection information.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Recalculate Project Expenditure Item Burden Cost Amount	Allows recalculation of burden cost amount on a project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Recalculate Project Expenditure Item Cost Amount	Allows recalculation of cost amount on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Recalculate Project Expenditure Item Currency Conversion	Allows recalculation of currency conversion on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Recalculate Project Expenditure Item Intercompany Invoice Amount	Allows recalculation of intercompany invoice amount on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks.	Recalculate Project Expenditure Item Intercompany Revenue Amount	Allows recalculation of intercompany revenue amount on a project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Recalculate Project Expenditure Item Invoice Amount	Allows recalculating of project expenditure item invoice amount.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Recalculate Project Expenditure Item Revenue Amount	Allows recalculating of project expenditure item revenue amount.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Recalculate Project Expenditure Item Transfer Price Currency Conversion	Allows recalculation of transfer price currency conversion on a project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Refresh Project Expenditure Item Billing Resource	Allows refreshing of billing resource on project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Refresh Project Expenditure Item Intercompany Billing Resource Attribute	Allows update of the Intercompany Billing Resource attribute on the project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Release Project Unprocessed Expenditure Batch	Allows releasing of project unprocessed expenditure batch.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks.	Reprocess Project Expenditure Item Borrowed and Lent attributes	Allows reprocessing of borrowed and lent project expenditure items.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Reprocess Project Expenditure Item Cross-Charge Attributes	Allows reprocessing of cross-charge distribution for a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Resubmit Project Expenditure Item Adjustment	Allows resubmission of project expenditure item adjustment.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Reverse Project Expenditure Item	Allows reversing of project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Review Project Allocation Transaction	Allows reviewing of project allocation transactions including basic details and source details. Also allows reviewing of released allocations
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Review Project Performance	Allows viewing of project performance by task structure, resource structure, and time interval. Allows viewing of project financial performance and comparison of performance across projects.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Run Accounting Period Close Exceptions report	Allows submission of the process to create report for accounting period close exceptions.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks.	Run Build New Organization Burden Rates	Allows submission of the program to build new organization burden rates.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Run Create Accounting Process	Allows submission of the create accounting process.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Run Create Draft Allocations Process	Allows submission of the process to create draft allocations.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Run Distribute Borrowed and Lent Amount Process	Allows submission of the process to distribute borrowed and lent amounts.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Run Generate Burden Transactions	Allows submission of the program to generate burden transactions.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Run Import and Process Project Cost Transactions Process	Allows submission of the process to import and process project cost transactions.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Run Open and Close Project Accounting Period Process	Allows submission of the programs to open and close project accounting periods.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks.	Run Process Project Commitment Transactions Process	Allows submission of the process project commitment transactions process.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Run Project Accounting Period Close Exceptions Report	Allows submission of the process to create report for project accounting period close exceptions.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Run Sweep Transaction Accounting Events	Allows submission of the process to sweep transaction accounting events.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Run Update Project Contract Performance	Allows submission of the program to update project performance data for contract business units.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Run Update Project Performance	Allows submission of the program to update project performance data.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Split Project Expenditure Item	Privilege to grant the user the ability to split the project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Split and Transfer Project Expenditure Item	Allows user the ability to split and transfer the project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks.	Transfer Project Expenditure Item	Allows transfer of project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Transfer Time Information	Allows the administrator to transfer time entries to integrating time consumers.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Update Project Accounting Period Status	Allows update of the project accounting periods status.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Update Project Expenditure Item Comment	Allows updating of project expenditure item comment.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Allocation Rule	Allows viewing of rules used to distribute overhead costs to projects and tasks that benefited from those costs.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Billing Exception	Allows viewing of project billing exceptions for invoices and revenue. Allows viewing billing exception causes and solutions.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Capitalized Interest Rate Schedule	Allows viewing of capitalized interest rate schedules used to calculate capitalized interest for organization and interest rate combinations.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks.	View Project Contract Invoice Distribution Lines	Allows viewing of distribution lines for project contract invoices.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Expenditure Item Borrowed and Lent Distribution Lines	Allows viewing of borrowed and lent distribution lines for a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Expenditure Item Cost Distribution Lines	Allows viewing of cost distribution lines for a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Expenditure Item Intercompany Billing Distribution Lines	Allows viewing of intercompany billing distribution lines for a project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Expenditure Item Revenue and Billing Distribution Lines	Allows viewing of cost distribution lines for a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Home	Allows viewing of the project home page.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Labor Cost	Allows viewing of project labor cost on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks.	View Project Notes	Allows viewing of notes region in project home page.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Standard Asset Unit Cost	Allows viewing of standard unit cost for each asset book and asset category combination that is used as the proration basis for allocating indirect and common costs.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Unprocessed Expenditure Batch	Allows viewing of project unprocessed expenditure batch.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Unprocessed Expenditure Item	Allows viewing of project unprocessed expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
Projects Reporting Analysis	Access project Business Intelligence Applications data.	View Project Home	Allows viewing of the project home page.
Resource Administration	Administers resource information.	Add Trading Community Resource to My Social Network	Allows the addition of a resource to their social network.
Resource Administration	Administers resource information.	Administer Sandbox	Allows administration of all sandboxes.
Resource Administration	Administers resource information.	Contact Trading Community Resource	Allows emailing, calling, and instant messenging a resource. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	Edit Trading Community Resource Profile	Allows the update of resource profile information. If assigning, also assign the ability to view the trading community resource profile.
Resource Administration	Administers resource information.	Enter Trading Community Resource Information	Allows the specification of resource information.
Resource Administration	Administers resource information.	Identify Trading Community Person as a Trading Community Resource	Allows the identification of existing people as resources.
Resource Administration	Administers resource information.	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Resource Administration	Administers resource information.	Manage Application Attachment Category	Manage application attachment categories
Resource Administration	Administers resource information.	Manage Application Attachment Entity	Manage application attachment entities
Resource Administration	Administers resource information.	Manage Application Common Lookup	Not Available
Resource Administration	Administers resource information.	Manage Application Data Security Policy	Allows management of security policies that restrict access to functions and data, such as preventing particular values from being accessed in a chart of account segment.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Application Database Resource	Manage application database resources for data security
Resource Administration	Administers resource information.	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Resource Administration	Administers resource information.	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Resource Administration	Administers resource information.	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Resource Administration	Administers resource information.	Manage Application Message	Manage an end-user message, shown in the User Interface. Messages can have different types, such as Error, Warning, Information. Messages are translated and can be re-used across products. Exampe: "File not found", "Table '&TABLE' does not exist".
Resource Administration	Administers resource information.	Manage Application Profile Category	Manage application profile option categories
Resource Administration	Administers resource information.	Manage Application Profile Option	Manage Application Profile Options: Manage the level the value can be changed
Resource Administration	Administers resource information.	Manage Application Reference Data Set	Manage Application Reference Data set. Maintain reference data set attributes.
Resource Administration	Administers resource information.	Manage Application Reference Data Set Assignment	Manage Application Reference Data Set Assignments. Create and edit reference data set assignments.
Resource Administration	Administers resource information.	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Resource Administration	Administers resource information.	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup

Granted Role	Granted Role Description	Privilege	Privilege Description
			Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Resource Administration	Administers resource information.	Manage Application Taxonomy	Manage hierarchical classification of Applications Taxonomy tree. A node in the Application Taxonomy Tree can be a Product Line, Product Family, Product or Logical Business Area.
Resource Administration	Administers resource information.	Manage Customer Data Management Foundation Custom Objects	Allows access to custom objects in Customer Data Management Foundation.
Resource Administration	Administers resource information.	Manage Goal Management Notifications	Manage Goal Management Notifications
Resource Administration	Administers resource information.	Manage My Application Profile Values	Manage My Application Profile Values. Access to manage profile values at the user level.
Resource Administration	Administers resource information.	Manage Person Talent Profile	Allows management of talent profile for a person.
Resource Administration	Administers resource information.	Manage Talent Education Establishment	Allows management of talent educational establishments.
Resource Administration	Administers resource information.	Manage Talent Notifications	Allows management of talent management notifications.
Resource Administration	Administers resource information.	Manage Talent Profile Content Item	Allows management of talent profile content items.
Resource Administration	Administers resource information.	Manage Talent Profile Rating Model	Allows management of talent profile rating models.
Resource Administration	Administers resource information.	Manage Talent Profile Sources	Allows management of talent profile subscribers.
Resource Administration	Administers resource information.	Manage Trading Community Resource	Allows the specification of resources for any employees or partner members who are to be associated to leads, opportunities, and territories and given sales credits or compensated for that work.
Resource Administration	Administers resource information.	Manage Trading Community Resource Address	Allows the management of resource addresses. If assigning,

Granted Role	Granted Role Description	Privilege	Privilege Description
			also assign the ability to view the trading community resource address.
Resource Administration	Administers resource information.	Manage Trading Community Resource Contact Information	Allows the management of resource contact information. If assigning, also assign the ability to view the trading community resource contact information.
Resource Administration	Administers resource information.	Manage Trading Community Resource History	Allows the management of resource historical information. If assigning, also assign the ability to view the trading community resource history.
Resource Administration	Administers resource information.	Manage Trading Community Resource Lookups	Allows the specification of lookup values that provide choices when defining resources, such as party usages available for resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note	Allows the specification of resource notes. If assigning also assign the ability to view the trading community resource note.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Descriptive Flexfields	Allows the specification of additional fields which enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type	Allows the specification of note types, such as person details, to categorize notes entered for resources. When mapped, note type values are limited to resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type Mapping	Allows the specification of the mapping that provides a tailored list of note type values for resources. When no mapping is specified, note type values mapped to the object Note are used.
Resource Administration	Administers resource information.	Manage Trading Community Resource Organization Memberships	Allows the specification of resource organization members. If assigning, also assign the ability to view the trading community resource organization memberships.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Trading Community Resource Role Assignments	Allows the management of resource role assignments. If assigning also assign the ability to view the trading community resource role assignments.
Resource Administration	Administers resource information.	Manage Trading Community Resource Sales Representative Information	Allows the management of resource saleperson setup information. If assigning, also assign the ability to view the trading community resource sales representative information.
Resource Administration	Administers resource information.	Manage Trading Community Resource Skills	Allows the management of resource skills information. If assigning, also assign the ability to view the trading community resource skills.
Resource Administration	Administers resource information.	Manage Trading Community Resource Social Network	Allows the management of a resource social network. If assigning, also assign the ability to view the trading community resource social network.
Resource Administration	Administers resource information.	Manage Trading Community Resource Team Memberships	Allows the management of resource team members. If assigning also assign the ability to view the trading community resource team memberships.
Resource Administration	Administers resource information.	Remove Trading Community Resource	Allows the removal of resources.
Resource Administration	Administers resource information.	Reset Password	Allows reset password links to be emailed to users.
Resource Administration	Administers resource information.	Search Trading Community Resource	Allows the search of resources.
Resource Administration	Administers resource information.	Upload Trading Community Resource Picture	Allows the upload of resource pictures. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Administration Link	Privilege to view administration link in UI shell
Resource Administration	Administers resource information.	View Trading Community Resource Address	Allows viewing of resource addresses. If assigning, also assign the ability to view trading community resource details.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	View Trading Community Resource Administration Detail Information	Allows viewing of resource administration setup information.
Resource Administration	Administers resource information.	View Trading Community Resource Collaboration Information	Allows viewing of resource social network information.
Resource Administration	Administers resource information.	View Trading Community Resource Contact Information	Allows viewing of resource contact information.
Resource Administration	Administers resource information.	View Trading Community Resource Details	Allows viewing of resource basic information, such as name, primary phone, primary address, and primary e-mail.
Resource Administration	Administers resource information.	View Trading Community Resource History	Allows viewing of archived resource information.
Resource Administration	Administers resource information.	View Trading Community Resource Note	Allows viewing of resource notes. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Organization Memberships	Allows viewing of sales, marketing, and partner organization information.
Resource Administration	Administers resource information.	View Trading Community Resource Overview Information	Allows viewing of an overview for partner, marketing, and sales organization transaction information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Profile	Allows viewing of resource profile information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Role Assignments	Allows viewing of resource role assignments. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Sales Representative Information	Allows viewing of salesperson setup information, such as sales credits.
Resource Administration	Administers resource information.	View Trading Community Resource Skills	Allows viewing of resource skills information, such as language, competencies, and product

Granted Role	Granted Role Description	Privilege	Privilege Description
			expertise. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Social Network	Allows viewing of a resource's social network.
Resource Administration	Administers resource information.	View Trading Community Resource Team Memberships	Allows viewing of resource team memberships. If assigning, also assign the ability to view trading community resource details.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Create Subledger Journal Entry Batch	Allows creation of journal entries for a batch of transactions.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Create Subledger Journal Entry Online	Allows creation of journal entries online for a transaction.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Create Subledger Journal Entry for Third Party Merge	Allows submission of the Create Accounting for Third Party Merge program to process third party merge events.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Create Subledger Multiperiod and Accrual Reversal Entry	Allows submission of the Create Subledger Accrual Reversal Entry program.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Manage Subledger Journal Entry Manually	Allows recording of manual journal entries.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Override Subledger Journal Entry	Allows override of subledger journal entries.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Post Journal	Allows journals to be posted.

Granted Role	Granted Role Description	Privilege	Privilege Description
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Post Subledger Journal Entry to General Ledger	Allows submission of the program to transfer to and post journal entries in General Ledger.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Purge Accounting Event Diagnostic Data	Allows submission of programs to generate and purge transaction objects diagnostics data.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Review Subledger Journal Entry	Allows inquiries on subledger journal entries and entry lines.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Run Global Journals and Third Party Report	Allows review of the journals and related third party information.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Run Global Subledger Detail Journal Report	Allows review of the journals and related subledger details.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Run Global Third Party Account Balance Report	Allows review of the third party account balances.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Run Global Third Party Balances Summary Report	Allows review of the third party account balances summary.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Run Global Third Party Detail and Balances Report	Allows review of the third party details and account balances summary.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Run Import Journals By Program Call	Allows submission of the journal import program by a program call.

Granted Role	Granted Role Description	Privilege	Privilege Description
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Submit Account Analysis Report	Allows submission of the Account Analysis report.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Submit Accounting Event Diagnostic Report	Allows submission of programs to generate and purge transaction objects diagnostics data.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Submit Journal Entries Report	Allows submission of the Journal Entries report.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Submit Subledger Period Close Exceptions Report	Allows submission of the Period Close Exceptions report.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Submit Third Party Balances Report	Allows submission of the Third Party Balances report.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Submit Trading Partner Summary Report	Run Trading Partner Summary Report
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Transfer Online Journal Entry to General Ledger	Allows submission of the program to transfer journal entries to General Ledger for online accounting.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Update Subledger Accounting Balance	Allows submission of the program to update subledger third party account and supporting reference balances.
Subledger Accounting Reporting	Runs all subledger accounting reports, and reviews journal entries.	Create Journal Entries Reporting Sequence Number	Allows generation of the General Ledger journal entries reporting sequence number at period close.

Granted Role	Granted Role Description	Privilege	Privilege Description
Subledger Accounting Reporting	Runs all subledger accounting reports, and reviews journal entries.	Review Subledger Journal Entry	Allows inquiries on subledger journal entries and entry lines.
Subledger Accounting Reporting	Runs all subledger accounting reports, and reviews journal entries.	Submit Account Analysis Report	Allows submission of the Account Analysis report.
Subledger Accounting Reporting	Runs all subledger accounting reports, and reviews journal entries.	Submit Journal Entries Report	Allows submission of the Journal Entries report.
Subledger Accounting Reporting	Runs all subledger accounting reports, and reviews journal entries.	Submit Subledger Period Close Exceptions Report	Allows submission of the Period Close Exceptions report.
Subledger Accounting Reporting	Runs all subledger accounting reports, and reviews journal entries.	Submit Third Party Balances Report	Allows submission of the Third Party Balances report.
Subledger Accounting Reporting	Runs all subledger accounting reports, and reviews journal entries.	Submit Trading Partner Summary Report	Run Trading Partner Summary Report
Subledger Accounting Specialist	Creates accounting for a given transaction and reviews journal entries.	Create Subledger Journal Entry Online	Allows creation of journal entries online for a transaction.
Subledger Accounting Specialist	Creates accounting for a given transaction and reviews journal entries.	Post Journal	Allows journals to be posted.
Subledger Accounting Specialist	Creates accounting for a given transaction and reviews journal entries.	Review Subledger Journal Entry	Allows inquiries on subledger journal entries and entry lines.
Subledger Accounting Specialist	Creates accounting for a given transaction and reviews journal entries.	Run Import Journals By Program Call	Allows submission of the journal import program by a program call.
Subledger Accounting Specialist	Creates accounting for a given transaction and reviews journal entries.	Transfer Online Journal Entry to General Ledger	Allows submission of the program to transfer journal entries to General Ledger for online accounting.
Subledger Accounting Specialist	Creates accounting for a given transaction and reviews journal entries.	Update Subledger Accounting Balance	Allows submission of the program to update subledger third party account and supporting reference balances.

Granted Role	Granted Role Description	Privilege	Privilege Description
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Check Funds	Check whether sufficient funds are available for a transactions
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Reserve Funds	Check whether sufficient funds are available for a transactions, and if so, reserve the funds
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budget Impact	Review the budgetary control results of a transaction and its budget impact
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budget Period Statuses	Allows inquiry on the budget period status.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budgetary Control Balances	Review budget consumption balances
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budgetary Control Transactions	Review budget consumption balances by transaction
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Transfer Budget Balances to Budget Cubes Continuously	Allows the submission of a process to continuously transfer budget balances to the budgetary control balances reporting multidimensional database.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	View Funds Available Balances	Allows access to view the budgetary control validation results.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Grants Accountant job role.

Business Object	Policy Description	Policy Store Implementation
Accounting Period Status	A Grants Accountant can manage accounting period status for the business units for which they are authorized	Role: Grants Accountant Privilege: Manage Accounting Period Status Resource: Business Unit
Accounting Period Status	A Grants Accountant can manage accounting period status for the business units for which they are authorized	Role: Project Accountant Privilege: Manage Accounting Period Status Resource: Business Unit
Application Attachment	A Grants Accountant can read application attachment for the categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Project Accountant Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment	A Grants Accountant can read application attachment for the categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Project Billing Specialist Privilege: Read Application Attachment Resource: Application Attachment
Application Document Sequence Category	A Grants Accountant can manage application document sequence category for all applications common applications data	Role: Contract Setup Privilege: Manage Application Document Sequence Category (Data) Resource: Application Document Sequence Category
Business Unit	A Grants Accountant can choose business unit for business units in their organization security profile	Role: Grants Accountant Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
Business Unit	A Grants Accountant can choose business unit organization for business units in their organization security profile	Role: Resource Administration Privilege: Choose Business Unit Organization (Data) Resource: Business Unit

Business Object	Policy Description	Policy Store Implementation
Default Coverage File Export Object	A Grants Accountant can manage default coverage export for all the default coverage objects	Role: Contract Setup Privilege: Manage Default Coverage Export (Data) Resource: Default Coverage File Export Object
Default Coverage File Import Object	A Grants Accountant can manage default coverage import for all the default coverage objects	Role: Contract Setup Privilege: Manage Default Coverage Import (Data) Resource: Default Coverage File Import Object
Employee Resource File Import Activity	A Grants Accountant can view employee resource file import activity object type for all employee resource file import activities of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Activity Object Type (Data) Resource: Employee Resource File Import Activity
Employee Resource File Import Mapping	A Grants Accountant can view employee resource file import mapping object type for all employee resource file import mappings of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Mapping Object Type (Data) Resource: Employee Resource File Import Mapping
Employee Resource File Import Object	A Grants Accountant can view employee resource file import object type for all employee resource file import objects of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Object Type (Data) Resource: Employee Resource File Import Object
File Import Activity	A Grants Accountant can manage default coverage import activity object for all the default coverage import activity objects	Role: Contract Setup Privilege: Manage Default Coverage Import Activity Object (Data) Resource: File Import Activity
File Import Mapping	A Grants Accountant can manage default coverage import mapping object for all the default coverage import mapping objects	Role: Contract Setup Privilege: Manage Default Coverage Import Mapping Object (Data) Resource: File Import Mapping
HR Job	A Grants Accountant can choose hr job for all jobs in the enterprise	Role: Resource Administration Privilege: Choose HR Job (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: HR Job
HR Job	A Grants Accountant can choose hr job for jobs in their job security profile	Role: Grants Accountant Privilege: Choose HR Job (Data) Resource: HR Job
Ledger	A Grants Accountant can manage ledger for subledger for the posting ledgers for transactions that they are authorized.	Role: Subledger Accounting Manager Privilege: Manage Ledger for Subledger (Data) Resource: Ledger
Ledger	A Grants Accountant can manage ledger for subledger for the posting ledgers for transactions that they are authorized.	Role: Subledger Accounting Reporting Privilege: Manage Ledger for Subledger (Data) Resource: Ledger
Ledger	A Grants Accountant can manage ledger for subledger for the posting ledgers for transactions that they are authorized.	Role: Subledger Accounting Specialist Privilege: Manage Ledger for Subledger (Data) Resource: Ledger
Legal Employer	A Grants Accountant can choose legal employer for legal employers in their organization security profile	Role: Grants Accountant Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Legal Employer	A Grants Accountant can choose legal employer for legal employers in their organization security profile	Role: Resource Administration Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Partner File Import Activity	A Grants Accountant can view partner file import activity object type for all partner file import activities of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Activity Object Type (Data) Resource: Partner File Import Activity
Partner File Import Mapping	A Grants Accountant can view partner file import mapping object type for all partner file import mappings of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Mapping Object Type (Data) Resource: Partner File Import Mapping

Business Object	Policy Description	Policy Store Implementation
Partner File Import Object	A Grants Accountant can view partner file import object type for all partner file import objects of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Object Type (Data) Resource: Partner File Import Object
Partner Member File Import Activity	A Grants Accountant can view partner member file import activity object type for all partner member file import activities of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Activity Object Type (Data) Resource: Partner Member File Import Activity
Partner Member File Import Mapping	A Grants Accountant can view partner member file import mapping object type for all partner member file import mappings of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Mapping Object Type (Data) Resource: Partner Member File Import Mapping
Partner Member File Import Object	A Grants Accountant can view partner member file import object type for all partner member file import objects of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Object Type (Data) Resource: Partner Member File Import Object
Party Tax Profile	A Grants Accountant can manage business unit party tax profile for the business units for which they are authorized	Role: Customer Account Inquiry Privilege: Manage Business Unit Party Tax Profile (Data) Resource: Business Unit
Person Assignment	A Grants Accountant can search worker for persons and assignments in their person and assignment security profile	Role: Manage Users Privilege: Search Worker (Data) Resource: Person Assignment
Person Assignment	A Grants Accountant can view person assignment for persons and assignments in their person and assignment security profile	Role: Manage Users Privilege: View Person Assignment (Data) Resource: Person Assignment

Grants Administrator (Job Role)

Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.

Role Hierarchy

The Grants Administrator job role directly and indirectly inherits these roles.

- Grants Administrator
  - Award Management
  - Contract Amendment
  - Contract Authoring
  - Contract Search and View Access
    - Item Inquiry
      - Product Lifecycle Management Folder Access
      - Product Search
        - Supply Chain Common View Web Service
      - View Item Redwood
        - Product Lifecycle Management Folder Access
        - Supply Chain Common View Web Service
    - Negotiation Viewing
  - Contract Setup
    - AttachmentsWCCintegrato
    - Resource Administration
      - Application World Reference Administration
      - Manage Users
        - Manage User Account
          - Edit User Name
          - Manage User Roles
          - Use REST Service - Public Workers Read Only
      - Use User Details Service
  - Contract Terms and Conditions Override Controls
  - FSCM Load Interface Administration
  - Manage Users
    - Manage User Account
      - Edit User Name
      - Manage User Roles
      - Use REST Service - Public Workers Read Only
  - Nonstandard Contract Terms and Conditions Authoring
  - Project Administrator
    - FSCM Load Interface Administration
    - Project Budget Management
    - Project Budget Transaction Analysis
      - Business Intelligence Authoring
      - Project Transactional Analysis Currency Preference

- Project Change Summary Generation Assistant
- Project Contract Invoice Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
- Project Contract Revenue Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
- Project Costing Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
- Project Definition
- Project Foundation Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
- Project Inquiry
- Project Plan Management
- Project foundation setup inquiry
- Projects Folder Reporting
- Projects Reporting Analysis
- Transaction Entry with Budgetary Control
    - Business Intelligence Consumer

- Project Budget Baseline Creation
- Projects Folder Reporting
- Transaction Entry with Budgetary Control
    - Business Intelligence Consumer
- Upload data for Grants Management Import

Duties

This table lists the duties assigned directly and indirectly to the Grants Administrator job role.

Duty Role	Description
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.
AttachmentsWCCintegrato	DUTYroleforAttachmentsWCCintegrator.
Award Management	Creates awards and related contract information. Manages award information such as keywords, funding sources, and budget periods. Manages projects associated with awards. Manages funding assigned to the award and allocated to projects and tasks. Submits process to update financial

Duty Role	Description
	performance data for awards and award projects and views the financial data. Generates reports for submission to federal agencies.
Business Intelligence Authoring	An author of Business Intelligence reports as presented in the web catalog. The role allows authoring within Business Intelligence Applications, Business Intelligence Publisher, Real Time Decisions, Enterprise Performance Management and Business Intelligence Office.
Business Intelligence Consumer	A role required to allow reporting from Business Intelligence Applications, Business Intelligence Publisher, Real Time Decisions, Enterprise Performance Management and Business Intelligence Office. This role allow you to run reports from the web catalog but it will not allow a report to be authored from a subject area.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.

Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.
Product Lifecycle Management Folder Access	Allows users access to view and manage content uploaded to the content folder.
Product Search	Manages product searches.
Project Budget Baseline Creation	Allows creation of baseline version of project budget.

Duty Role	Description
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.
Project Budget Transaction Analysis	Analyzes Project Budget transactional information
Project Change Summary Generation Assistant	Analyzes project change order details to generate summaries highlighting scope, financial, and schedule impacts.
Project Contract Invoice Transaction Analysis	Analyzes Project Contract Invoice transactional information
Project Contract Revenue Transaction Analysis	Analyzes Project Contract Revenue transactional information
Project Costing Transaction Analysis	Analyzes Project Costing transactional information
Project Definition	Edits project and task attributes.
Project Foundation Transaction Analysis	Analyzes Project Foundation transactional information
Project Inquiry	Allows inquiry into project definitions.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.
Project Transactional Analysis Currency Preference	This role is used to get the supported currencies in Project Transactional Analysis module.
Project foundation setup inquiry	Allows inquiry into project-related setup configurations.
Projects Folder Reporting	Grants access to the Projects web catalog folder.
Projects Reporting Analysis	Access project Business Intelligence Applications data.
Resource Administration	Administers resource information.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.
Transactional Analysis	This duty is used for various generic OTBI security and filtering purposes and is therefore required for all OTBI users.

Duty Role	Description
Upload data for Grants Management Import	Allows to upload data file to import Grants Management related data.
View Item Redwood	Allows users to view item details.

Aggregate Privileges

This table lists aggregate privileges assigned directly and indirectly to the Grants Administrator job role.

Aggregate Privilege	Description
Edit User Name	Updates the user name associated with a person.
Manage User Roles	Allows management of user roles assignments.
Use REST Service - Public Workers Read Only	Allows the user to call the GET method associated with the Public Workers REST Service.
Use User Details Service	Creates or updates users during person synchronizations.

Privileges

This table lists privileges granted to duties of the Grants Administrator job role.

Granted Role	Granted Role Description	Privilege	Privilege Description
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Currency	Manage currencies used by applications.
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference ISO Language	Manage ISO Languages used by applications.
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Industry	Manage Industries used by applications

Award Management	Creates awards and related contract information. Manages award information such as keywords, funding sources, and budget periods. Manages projects associated with awards. Manages funding assigned to the award and allocated to projects and tasks. Submits process to update financial performance data for awards and award projects and views the financial data. Generates reports for submission to federal agencies.	View Award Funds Available Balances	Allows viewing of key financial data such as budget, actual, commitment, and funds available amounts for awards and award projects.
Award Management	Creates awards and related contract information. Manages award information such as keywords, funding sources, and budget periods. Manages projects associated with awards. Manages funding assigned to the award and allocated to projects and tasks. Submits process to update financial performance data for awards and award projects and views the financial data. Generates reports for submission to federal agencies.	View Award Revenue and Invoice Amounts	Allows viewing of key financial data such as revenue and invoice amounts for awards and award projects.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Amend Contract	Provides access to the amend and revert actions.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Cancel Contract	Allows the cancellation of contracts and contract lines.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Close Contract	Allows the closing of contracts and contract lines.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Create Contract	Provides ability to initiate contract creation.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Create Contract Deliverable	Allows creation of a contract deliverable.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Delete Contract	Allows the deletion of draft or canceled contracts.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Delete Contract Documents	Not Available
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Delete Supporting Documents	Not Available
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Edit Contract	Allows the editing of contracts, as well as other contract management tasks.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Hold Contract	Allows the application of a hold on a contract or contract line.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Contract Deliverable	Allows the management of contract terms deliverables after contract approval. This includes setting the status, adding comments, and uploading attachments for contractual deliverables such as proof of insurance and inspections.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Contract Documents	Not Available
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Contract Template	Allows management of a contract templates.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Customer Assets	Allows creation and update of customer assets, related configurations and structures.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Electronic Signature	Allows management of electronic signature on a contract.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Meter Reading History	Allows the management of meter reading history.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Meters	Allow the creation and update of meters.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Sales Credits	Not Available
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Manage Supporting Documents	Not Available
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Record Meter Readings	Allows the recording of meter readings.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	Search Contract Template	Allows search of a contract template.
Contract Amendment	Amends approved contracts. This includes initiating an amendment, reverting the contract to the previous signed version, updating all allowable attributes, and submitting the amendment for approval.	View Contract	Allows viewing and printing of a contract and its history, including the contract's financial summary.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	(OBSOLETE) Manage Contract Collaborations	Allows contract collaboration.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Assign Contract Owner	Allows the running of the process that assigns and reassigns the contract owner.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Create Contract	Provides ability to initiate contract creation.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Create Contract Deliverable	Allows creation of a contract deliverable.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Create Contract in Wizard	Provides the ability to initiate contract creation using a wizard.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Delete Contract	Allows the deletion of draft or canceled contracts.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Delete Contract Documents	Not Available
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Delete Supporting Documents	Not Available
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Edit Contract	Allows the editing of contracts, as well as other contract management tasks.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Edit Contract in Wizard	Provides the ability to edit a contract using a wizard.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Generate Contract Summary	Allows generating contract summary using AI
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Generate PDF Contract for Text Search	Allows the running of the process to generate PDFs of draft contracts, or contracts under amendment, so they are available during text searches.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Contract Deliverable	Allows the management of contract terms deliverables after contract approval. This includes setting the status, adding comments, and uploading

			attachments for contractual deliverables such as proof of insurance and inspections.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Contract Documents	Not Available
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Contract Template	Allows management of a contract templates.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Contract Work Area	Allows the navigation to the contracts work area. This work area provides quick access to relevant tasks and contracts.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Customer Assets	Allows creation and update of customer assets, related configurations and structures.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Electronic Signature	Allows management of electronic signature on a contract.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Meter Reading History	Allows the management of meter reading history.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Meters	Allow the creation and update of meters.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Sales Credits	Not Available
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Supporting Documents	Not Available
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Merge Contract	Allows merging contracts
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Purge Contract Temporary Tables	Purges all contract temporary tables.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Record Meter Readings	Allows the recording of meter readings.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Renew Contract	Allows renewal of a contract
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Search Contract Template	Allows search of a contract template.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Search Contracts	Allows searches in contracts.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Send Contract Expiration Notification	Allows the running of the process for sending automatic notifications about contracts with impending expiration dates.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	View Contract	Allows viewing and printing of a contract and its history, including the contract's financial summary.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Export Customer Account	Not Available
Contract Search and View Access	Searches and views contracts for the assigned business units.	Export Customer Account Contact	Allows the export of customer account contact information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Export Customer Account Relationship	Allows the export of customer account contact relationship information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Export Workspace Data	Allows users to export data in Workspace
Contract Search and View Access	Searches and views contracts for the assigned business units.	Manage Contract Work Area	Allows the navigation to the contracts work area. This work area provides quick access to relevant tasks and contracts.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Contract Template	Allows search of a contract template.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Contract Text	This privilege is used to search contracts by text

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Contract by Text	Allows searches in contracts by text.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Contracts	Allows searches in contracts.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Customer Account Relationships	Allows the search of customer account relationships. If assigning, also assign the ability to view the customer account relationship.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Customer Account Site	Allows the search of customer account sites. If assigning, also assign the ability to view the customer account site.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Purchase Agreement	Allows a procurement agent to search for purchase agreements including blankets and contracts.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Trading Community Organization	Allows the search of organizations. If assigning, also assign the ability to view the trading community organization.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Contract	Allows viewing and printing of a contract and its history, including the contract's financial summary.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Contract Template	Not Available
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Contract Terms	Not Available
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account	Allows the viewing of customer account information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Contact	Allows the viewing of customer account contact information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Contact Responsibility	Allows the viewing of customer account contact information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Information	Not Available
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Relationship	Allows the viewing of customer account relationship information.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Relationships	Allows the viewing of customer account relationship information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Site	Allows the viewing of the customer account site information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Site Use	Allows the viewing of the customer account site use information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Assets	Allows query and view of customer assets, related configurations and structures.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Meter Reading History	Allow the query and view of meter reading history.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Meters	Allow the query and view of meters.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Purchase Agreement	Allows a user to review a blanket or contract purchase agreement.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Purchase Order	Allows a user to review a purchase order.
Contract Setup	Contract Setup	(OBSOLETE) Define Contract Collaboration Configuration	Allows the configuration of contract collaboration.
Contract Setup	Contract Setup	Administer Sandbox	Allows administration of all sandboxes.
Contract Setup	Contract Setup	Build Keyword Search Index for the Contract Terms Library	Allows the running of processes to synchronize and optimize the keyword index for clause and terms template searches in the Contract Terms Library.
Contract Setup	Contract Setup	Configure Contract UI	Allows the configuration of contract UI
Contract Setup	Contract Setup	Define Endpoint and Security Policy Information	Allows definition of endpoint and security policy information for an enterprise application.
Contract Setup	Contract Setup	Define Project Contract Billing Configuration	Allows the viewing of this task in the Functional Setup Manager.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Generate PDF Contract for Text Search	Allows the running of the process to generate PDFs of draft contracts, or contracts under amendment, so they are available during text searches.
Contract Setup	Contract Setup	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Contract Setup	Contract Setup	Manage Application Common Lookup	Not Available
Contract Setup	Contract Setup	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Contract Setup	Contract Setup	Manage Application Document Sequence	Manage implementation of Application Document Sequences. Document Sequences are identifiers guarenteed to be unique, time-ordered, and gapless. This is in contrast to a database sequence which (for performance purposes) may contain gaps and which might not be ordered by time of document creation. Examples would include ID numbers for traffic tickets or other legal documents where gaps in the record may trigger an investigation.
Contract Setup	Contract Setup	Manage Application Document Sequence Category	Manage document sequence categories
Contract Setup	Contract Setup	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Contract Setup	Contract Setup	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Contract Setup	Contract Setup	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Contract Setup	Contract Setup	Manage Contract Currency Conversion Rate Types	Allows the definition of user-defined currency conversion rate types.
Contract Setup	Contract Setup	Manage Contract Customer Account	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Customer Account Site Usages	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Defaults	Allows management of contract defaults
Contract Setup	Contract Setup	Manage Contract Global Employee	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Interaction Reference Mapping	Allows the mapping of interaction types to applications where the interaction types can be used.
Contract Setup	Contract Setup	Manage Contract Layout Templates	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Item	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Type	Allows creating and managing of contract line types such as product and service.
Contract Setup	Contract Setup	Manage Contract Note Type Mapping	Allows creating and managing of the mapping that provides a tailored list of note type values for contracts. When no mapping is specified, note type values mapped to the object Note are used.
Contract Setup	Contract Setup	Manage Contract Organization Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Contact	Allows the viewing of this task in the Functional Setup Manager.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Contract Party Location	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Role and Contact Sources	Allows the specification of the data sources for parties and contacts. A data source specifies the available list of values for parties or contacts of a given role.
Contract Setup	Contract Setup	Manage Contract Payment Terms	Allows creating and managing of payables payment terms for use in supplier contracts.
Contract Setup	Contract Setup	Manage Contract Person Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Request Type	Manage contract request types.
Contract Setup	Contract Setup	Manage Contract Risk Event	Allows creating and managing of contract risk events that can be associated to a contract.
Contract Setup	Contract Setup	Manage Contract Standard Clauses, Templates, and Contract Expert Rules	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Type	Allows the management of contract types to specify properties of different contracts such as the type of permitted contract lines, party roles, contract validation checks, and the contract acceptance and signature requirements.
Contract Setup	Contract Setup	Manage Contract and Pricing Integration	Not Available
Contract Setup	Contract Setup	Manage Coverage Times	Allows management of coverage times
Contract Setup	Contract Setup	Manage Default Coverage	Allows management of default coverage
Contract Setup	Contract Setup	Manage Electronic Signature Setup	Allows setting up electronic signature
Contract Setup	Contract Setup	Manage Key Terms and Prompts	Allows the definition of contract key terms and prompts. This also

Granted Role	Granted Role Description	Privilege	Privilege Description
			includes adding key terms to contract types.
Contract Setup	Contract Setup	Manage Matrix Classes	Allows creation, update, deletion, copy, and viewing of all matrix classes and child entities.
Contract Setup	Contract Setup	Manage Pricing Algorithms	Allows creation, update, deletion, copy, and viewing of all algorithms and child entities.
Contract Setup	Contract Setup	Manage Service Mappings	Allows creation, update, deletion, copy, and viewing of all service mappings and child entities.
Contract Setup	Contract Setup	Manage Standard Coverage	Allows management of standard coverage
Contract Setup	Contract Setup	Manage Time Unit Mappings	Allows management of time unit mappings
Contract Setup	Contract Setup	Manage User Statuses and Transitions	Manage user statuses and transitions
Contract Setup	Contract Setup	Process Installed Base updates	Processes installed base updates.
Contract Setup	Contract Setup	Specify Customer Contract Management Business Function Properties	Allows specifying and managing of currency conversion rules, project billing rules and default values, adoption rules for contract standards and policies, and other contract management functions during business unit setup.
Contract Setup	Contract Setup	Specify Procurement Contract Management Business Function Properties	Allows specification of supplier contract management properties during business unit setup. This includes the specification of contract standards, policies, and adoption rules.
Contract Setup	Contract Setup	Track Purchasing Activity for Contract Fulfillment Line	Allows the running of the process that retrieves the number and the status of the purchasing document created by the integrated procurement application from the contract fulfillment line.
Contract Setup	Contract Setup	Update Contract Status	Updates the status of contracts that are dependent on time. For example, updates the status to

Granted Role	Granted Role Description	Privilege	Privilege Description
			expired when the end date is reached.
Contract Setup	Contract Setup	Update Enterprise Application Deployment Information	Allows updating deployment information of an enterprise application.
Contract Setup	Contract Setup	Use Generative AI Features in Sales	Allows users to use generative ai features
Contract Setup	Contract Setup	View Administration Link	Privilege to view administration link in UI shell
Contract Setup	Contract Setup	View Contract Type	Allows viewing of the contract type and its attributes.
Contract Terms and Conditions Override Controls	Edits protected clauses, and deletes mandatory clauses and sections in addition to authoring nonstandard terms and conditions.	Access Mobile CRM	Functional privilege providing access to CRM data using mobile applications
Contract Terms and Conditions Override Controls	Edits protected clauses, and deletes mandatory clauses and sections in addition to authoring nonstandard terms and conditions.	Author Additional Standard Contract Terms and Conditions	Allows authoring using standard terms and conditions in the contract. This includes adding and deleting standard clauses, selecting alternate clauses, managing sections that contain standard clauses, and moving contract terms.
Contract Terms and Conditions Override Controls	Edits protected clauses, and deletes mandatory clauses and sections in addition to authoring nonstandard terms and conditions.	Author Nonstandard Contract Terms and Conditions	Allows authoring of nonstandard terms and conditions in the contract. This includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.
Contract Terms and Conditions Override Controls	Edits protected clauses, and deletes mandatory clauses and sections in addition to authoring nonstandard terms and conditions.	Author Standard Contract Terms and Conditions	Allows authoring of contract terms and conditions using contract terms templates defined in the Contract Terms Library. Also includes using the Contract Expert and validating the contract terms.

FSCM Load Interface Administration	Manages load interface file for import	Load Interface File for Import	Allows a user to load interface file for import
FSCM Load Interface Administration	Manages load interface file for import	Manage File Import and Export	Privilege to manage import and export of files.
FSCM Load Interface Administration	Manages load interface file for import	Transfer File	Allows management of file transfer from server
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Approve Project Expenditure Item Billing Hold Change	Allows approval of billing hold on project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Approve Project Expenditure Item Billing Status Change	Allows approval of project expenditure item billing status change.
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Approve Project Expenditure Item Capitalizable Status Change	Allows approval of project expenditure item capitalizable status change.
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Assign Roles to User	Allows assignment of roles to users.
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Create Project Burden Schedule Overrides for Award Projects	Allows users to create override burden schedules for award projects.
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Edit Project Expenditure Item Billing Hold	Allows placing or removing the billing hold on a project expenditure item.
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Edit Project Expenditure Item Billing Status	Allows updating of billing status of a project expenditure item.
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Edit Project Expenditure Item Capitalizable Status	Allows updating of capitalizable status of a project expenditure item.
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Edit Project Expenditure Item Intercompany Billing Status	Allows updating of intercompany billing status of a project expenditure item.
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Enable Administrator Access	Not Available

Granted Role	Granted Role Description	Privilege	Privilege Description
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Enable Budgetary Control	Allows the configuration to enable budgetary control for ledgers, business units and business functions.
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Enable Sell Intent	Allows all actions permitted by other privileges for contracts with a sell intent. For example, granting this privilege to an individual with a view privilege permits the viewing of customer contracts. Granting this privilege to an individual with the delete contracts privilege permits the deletion of customer contracts.
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Import Budget Amounts	Allows the submission of a process to import budget from the open budget interface tables.
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Include Project Attributes in Contract Search Pages	Allows the inclusion of project attributes in contract search criteria. Without this privilege, no project attributes are enabled as search criteria.
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Manage Award Service	Allows access to award service for management of award information such as keywords, funding sources, and budget periods.
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Manage Budget Period Statuses	Allows update of the budget period status.
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Manage Budgetary Control Activities	Allows access to a budgetary control work area to manage budgetary control activities.
Grants Administrator	Assists the principal investigator with the administrative functions of an award and its related projects, particularly with data collection and data entry tasks.	Manage Control Budgets	Allows the management of control budgets set up for budgetary control.
Grants Administrator	Assists the principal investigator with the administrative functions	Manage Project Contract Bill Transaction	Allows management of project contract bill transactions.

	project, particularly the functions related to collecting and entering information into the project application.		
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	View Project Schedule of Values	Enables the user to view Project Schedule of Values.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	View Project Schedule of Values Associations	Enables the user to view Project Schedule of Values Associations
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	View Purchase Order as Procurement Requester	Allows a procurement requester to review a purchase order.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	View Units Of Measure List of Values by Web Service	Allow viewing units of measure list of values by web service.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Withdraw Project Schedule of Values Approval	Enables the user to withdraw the requested approval for project schedule of values.
Project Budget Baseline Creation	Allows creation of baseline version of project budget.	Manage Project Budget	Allows access to budget versions created for a project.
Project Budget Baseline Creation	Allows creation of baseline version of project budget.	Manage Project Budget Working Version	Allows access to manage working versions of project budgets. Allows export of working budget version from Excel to Projects. Also, allows submission of working versions for baseline creation and rework of rejected versions.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Lock Project Budget Working Version	Allows locking and unlocking of working budget versions for projects for which the user is authorized.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Budget	Allows access to budget versions created for a project.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Budget Excel Integration	Allows information exchange with a scheduling application, using the integration gateway, for projects for which the user is authorized.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Budget Working Version	Allows access to manage working versions of project budgets. Allows export of working budget version from Excel to Projects. Also, allows submission of working versions for baseline creation and rework of rejected versions.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Burden Schedule	Allows updating of multipliers used to calculate the burdened cost, revenue, and bill amount of each expenditure item.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Planning Resource Breakdown Structure Version	Allows updating of project resource breakdown structures for the projects for which the user is authorized.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Run Generate Financial Plan	Allows submission of process to generate budget or forecast versions for projects for which the user is authorized.
Project Definition	Edits project and task attributes.	Manage Project Task Structure for Billable Tasks	Allows creation, update, and deletion of billable project tasks and task attributes.
Project Definition	Edits project and task attributes.	Manage Project Task Structure for Nonbillable Tasks	Allows creation, update, and deletion of project tasks and task attributes that are not billable to a customer.
Project Definition	Edits project and task attributes.	Review Project Definition	Allows viewing of the project definition.
Project Definition	Edits project and task attributes.	Run Change Project and Task Organizations	Allows submission of the program to update organizations for projects and tasks.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Definition	Edits project and task attributes.	Update Project Definition	Allows the project definition web service to update the attributes on a project.
Project Definition	Edits project and task attributes.	View Project Definition Basic Information	Allows viewing of project-level basic information.
Project Definition	Edits project and task attributes.	View Project Financial Definition Information	Allows viewing of project-level financial information.
Project Definition	Edits project and task attributes.	View Project Reporting Definition Information	Allows viewing of project-level reporting information.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Burden Schedule	Allows updating of multipliers used to calculate the burdened cost, revenue, and bill amount of each expenditure item.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Forecast	Allows access to forecast versions created for a project.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Forecast Excel Integration	Allows access to export working forecast versions to Microsoft Excel.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Forecast Working Version	Allows creation, update, and deletion of working versions of project forecasts. Allows export of working forecast versions from Excel to Projects. Also, allows submission of working versions for approval and rework of rejected versions.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Plan Resource Assignment	Allows access to manage task assignments for projects.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Planning Resource Breakdown Structure Version	Allows updating of project resource breakdown structures for the projects for which the user is authorized.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Progress	Allows access to project progress.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Task Structure for Billable Tasks	Allows creation, update, and deletion of billable project tasks and task attributes.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Task E-Mail Notification Service	Allows project users to send notifications while managing project tasks and to-do tasks using a service.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Run Generate Financial Plan	Allows submission of process to generate budget or forecast versions for projects for which the user is authorized.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	View Project Plan Resource Assignment	Allows access to view task assignments for projects.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	View Project Progress	Allows access to view project progress.
Projects Reporting Analysis	Access project Business Intelligence Applications data.	View Project Home	Allows viewing of the project home page.
Resource Administration	Administers resource information.	Add Trading Community Resource to My Social Network	Allows the addition of a resource to their social network.
Resource Administration	Administers resource information.	Administer Sandbox	Allows administration of all sandboxes.
Resource Administration	Administers resource information.	Contact Trading Community Resource	Allows emailing, calling, and instant messenging a resource. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	Edit Trading Community Resource Profile	Allows the update of resource profile information. If assigning, also assign the ability to view the trading community resource profile.
Resource Administration	Administers resource information.	Enter Trading Community Resource Information	Allows the specification of resource information.
Resource Administration	Administers resource information.	Identify Trading Community Person as a Trading Community Resource	Allows the identification of existing people as resources.
Resource Administration	Administers resource information.	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Application Attachment Category	Manage application attachment categories
Resource Administration	Administers resource information.	Manage Application Attachment Entity	Manage application attachment entities
Resource Administration	Administers resource information.	Manage Application Common Lookup	Not Available
Resource Administration	Administers resource information.	Manage Application Data Security Policy	Allows management of security policies that restrict access to functions and data, such as preventing particular values from being accessed in a chart of account segment.
Resource Administration	Administers resource information.	Manage Application Database Resource	Manage application database resources for data security
Resource Administration	Administers resource information.	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Resource Administration	Administers resource information.	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Resource Administration	Administers resource information.	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Resource Administration	Administers resource information.	Manage Application Message	Manage an end-user message, shown in the User Interface. Messages can have different types, such as Error, Warning, Information. Messages are translated and can be re-used across products. Exampe: "File not found", "Table '&TABLE' does not exist".
Resource Administration	Administers resource information.	Manage Application Profile Category	Manage application profile option categories
Resource Administration	Administers resource information.	Manage Application Profile Option	Manage Application Profile Options: Manage the level the value can be changed

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Application Reference Data Set	Manage Application Reference Data set. Maintain reference data set attributes.
Resource Administration	Administers resource information.	Manage Application Reference Data Set Assignment	Manage Application Reference Data Set Assignments. Create and edit reference data set assignments.
Resource Administration	Administers resource information.	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Resource Administration	Administers resource information.	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Resource Administration	Administers resource information.	Manage Application Taxonomy	Manage hierarchical classification of Applications Taxonomy tree. A node in the Application Taxonomy Tree can be a Product Line, Product Family, Product or Logical Business Area.
Resource Administration	Administers resource information.	Manage Customer Data Management Foundation Custom Objects	Allows access to custom objects in Customer Data Management Foundation.
Resource Administration	Administers resource information.	Manage Goal Management Notifications	Manage Goal Management Notifications
Resource Administration	Administers resource information.	Manage My Application Profile Values	Manage My Application Profile Values. Access to manage profile values at the user level.
Resource Administration	Administers resource information.	Manage Person Talent Profile	Allows management of talent profile for a person.
Resource Administration	Administers resource information.	Manage Talent Education Establishment	Allows management of talent educational establishments.
Resource Administration	Administers resource information.	Manage Talent Notifications	Allows management of talent management notifications.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Talent Profile Content Item	Allows management of talent profile content items.
Resource Administration	Administers resource information.	Manage Talent Profile Rating Model	Allows management of talent profile rating models.
Resource Administration	Administers resource information.	Manage Talent Profile Sources	Allows management of talent profile subscribers.
Resource Administration	Administers resource information.	Manage Trading Community Resource	Allows the specification of resources for any employees or partner members who are to be associated to leads, opportunities, and territories and given sales credits or compensated for that work.
Resource Administration	Administers resource information.	Manage Trading Community Resource Address	Allows the management of resource addresses. If assigning, also assign the ability to view the trading community resource address.
Resource Administration	Administers resource information.	Manage Trading Community Resource Contact Information	Allows the management of resource contact information. If assigning, also assign the ability to view the trading community resource contact information.
Resource Administration	Administers resource information.	Manage Trading Community Resource History	Allows the management of resource historical information. If assigning, also assign the ability to view the trading community resource history.
Resource Administration	Administers resource information.	Manage Trading Community Resource Lookups	Allows the specification of lookup values that provide choices when defining resources, such as party usages available for resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note	Allows the specification of resource notes. If assigning also assign the ability to view the trading community resource note.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Descriptive Flexfields	Allows the specification of additional fields which enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type	Allows the specification of note types, such as person details, to categorize notes entered for resources. When mapped, note type values are limited to resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type Mapping	Allows the specification of the mapping that provides a tailored list of note type values for resources. When no mapping is specified, note type values mapped to the object Note are used.
Resource Administration	Administers resource information.	Manage Trading Community Resource Organization Memberships	Allows the specification of resource organization members. If assigning, also assign the ability to view the trading community resource organization memberships.
Resource Administration	Administers resource information.	Manage Trading Community Resource Role Assignments	Allows the management of resource role assignments. If assigning also assign the ability to view the trading community resource role assignments.
Resource Administration	Administers resource information.	Manage Trading Community Resource Sales Representative Information	Allows the management of resource saleperson setup information. If assigning, also assign the ability to view the trading community resource sales representative information.
Resource Administration	Administers resource information.	Manage Trading Community Resource Skills	Allows the management of resource skills information. If assigning, also assign the ability to view the trading community resource skills.
Resource Administration	Administers resource information.	Manage Trading Community Resource Social Network	Allows the management of a resource social network. If assigning, also assign the ability to view the trading community resource social network.
Resource Administration	Administers resource information.	Manage Trading Community Resource Team Memberships	Allows the management of resource team members. If assigning also assign the ability to view the trading community resource team memberships.
Resource Administration	Administers resource information.	Remove Trading Community Resource	Allows the removal of resources.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Reset Password	Allows reset password links to be emailed to users.
Resource Administration	Administers resource information.	Search Trading Community Resource	Allows the search of resources.
Resource Administration	Administers resource information.	Upload Trading Community Resource Picture	Allows the upload of resource pictures. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Administration Link	Privilege to view administration link in UI shell
Resource Administration	Administers resource information.	View Trading Community Resource Address	Allows viewing of resource addresses. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Administration Detail Information	Allows viewing of resource administration setup information.
Resource Administration	Administers resource information.	View Trading Community Resource Collaboration Information	Allows viewing of resource social network information.
Resource Administration	Administers resource information.	View Trading Community Resource Contact Information	Allows viewing of resource contact information.
Resource Administration	Administers resource information.	View Trading Community Resource Details	Allows viewing of resource basic information, such as name, primary phone, primary address, and primary e-mail.
Resource Administration	Administers resource information.	View Trading Community Resource History	Allows viewing of archived resource information.
Resource Administration	Administers resource information.	View Trading Community Resource Note	Allows viewing of resource notes. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Organization Memberships	Allows viewing of sales, marketing, and partner organization information.
Resource Administration	Administers resource information.	View Trading Community Resource Overview Information	Allows viewing of an overview for partner, marketing, and sales organization transaction information. If assigning, also

Granted Role	Granted Role Description	Privilege	Privilege Description
			assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Profile	Allows viewing of resource profile information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Role Assignments	Allows viewing of resource role assignments. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Sales Representative Information	Allows viewing of salesperson setup information, such as sales credits.
Resource Administration	Administers resource information.	View Trading Community Resource Skills	Allows viewing of resource skills information, such as language, competencies, and product expertise. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Social Network	Allows viewing of a resource's social network.
Resource Administration	Administers resource information.	View Trading Community Resource Team Memberships	Allows viewing of resource team memberships. If assigning, also assign the ability to view trading community resource details.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Carriers List of Values by Web Service	Allow viewing carriers list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Default Expenditure Types by Web Service	Allow viewing Default Expenditure Types by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Inventory Organization Parameters List of Values by Web Service	Allow viewing inventory organization parameters list of values by web service.

Granted Role	Granted Role Description	Privilege	Privilege Description
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Inventory Organizations List of Values by Web Service	Allow viewing inventory organizations list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Plant Organizations List of Values by Web Service	Allow viewing plant organizations list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Plant Parameters List of Values by Web Service	Allow viewing plant parameters list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Project Attribute Defaults by Web Service	Allow viewing Project Attribute Defaults by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Project Type Cost Exclusions by Web Service	Allow viewing Project Type Cost Exclusions by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Schedules by Web Service	Allow viewing schedules by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Transit Times by Web Service	Allow viewing Transit Times by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Unit Of Measure Conversion List of Values by Web Service	Allow viewing unit of measure conversion list of values by web service.

Granted Role	Granted Role Description	Privilege	Privilege Description
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Units Of Measure List of Values by Web Service	Allow viewing units of measure list of values by web service.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Check Funds	Check whether sufficient funds are available for a transactions
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Reserve Funds	Check whether sufficient funds are available for a transactions, and if so, reserve the funds
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budget Impact	Review the budgetary control results of a transaction and its budget impact
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budget Period Statuses	Allows inquiry on the budget period status.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budgetary Control Balances	Review budget consumption balances
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budgetary Control Transactions	Review budget consumption balances by transaction
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Transfer Budget Balances to Budget Cubes Continuously	Allows the submission of a process to continuously transfer budget balances to the budgetary control balances reporting multidimensional database.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject	View Funds Available Balances	Allows access to view the budgetary control validation results.

Granted Role	Granted Role Description	Privilege	Privilege Description
	to budgetary control, such as accounts payable manager.		
View Item Redwood	Allows users to view item details.	Get Redwood Settings REST	Allows query access to settings through the REST API.
View Item Redwood	Allows users to view item details.	View Item Context History Report	Allows access to view the item history in the item detail page.
View Item Redwood	Allows users to view item details.	View Item Redwood Associations	Allow access to view the item associations tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Attachments	Allow access to view the attachment tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Changes	Allow access to view the item changes tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Item Categories	Allow access to view the item category tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Items	Allow access to view the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Quality	Allow access to view the quality tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Relationships	Allow access to view the relationships tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Item Redwood Structures	Allow access to view the item structures tab in the View Item Redwood page.
View Item Redwood	Allows users to view item details.	View Redwood Item Supplier Associations	Allows access to view Redwood item supplier associations for which the user has at the minimum view privilege.
View Item Redwood	Allows users to view item details.	View Redwood Item Supplier Assoiciation Rest	Allows Redwood Rest services response to get requests for supplier associations for items.
View Item Redwood	Allows users to view item details.	View Redwood Revision Rest	Allows access to item revisions.

Granted Role	Granted Role Description	Privilege	Privilege Description
View Item Redwood	Allows users to view item details.	View Subscription Coverage Templates	Allows users to retrieve subscription coverage templates for association purposes
View Item Redwood	Allows users to view item details.	View Trading Community Organization	Allows exporting, searching, and viewing of organization details such as addresses, classifications, identifiers, and names.
View Item Redwood	Allows users to view item details.	View Trading Community Person	Allows exporting, searching, and viewing of person details such as addresses, classifications, identifiers, and names.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Grants Administrator job role.

Business Object	Policy Description	Policy Store Implementation
Activity	A Grants Administrator can view activity for all activities in the enterprise	Role: Contract Search and View Access Privilege: View Activity (Data) Resource: Activity
Application Attachment	A Grants Administrator can read application attachment for the categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Project Administrator Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment	A Grants Administrator can read application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Contract Search and View Access Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment	A Grants Administrator can view application attachment for the categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Grants Administrator Privilege: Read Application Attachment Resource: Application Attachment
Application Document Sequence Category	A Grants Administrator can manage application document sequence category for all applications common applications data	Role: Contract Setup

Business Object	Policy Description	Policy Store Implementation
		Privilege: Manage Application Document Sequence Category (Data) Resource: Application Document Sequence Category
Business Unit	A Grants Administrator can choose business unit for business units in their organization security profile	Role: Grants Administrator Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
Business Unit	A Grants Administrator can choose business unit organization for business units in their organization security profile	Role: Resource Administration Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
Contract	A Grants Administrator can manage contract for the business units for which they are authorized	Role: Contract Amendment Privilege: Manage Contract (Data) Resource: Contract
Contract	A Grants Administrator can manage contract for the business units for which they are authorized	Role: Contract Authoring Privilege: Manage Contract (Data) Resource: Contract
Contract	A Grants Administrator can view contract for the business units for which they are authorized	Role: Contract Search and View Access Privilege: View Contract (Data) Resource: Contract
Contract Expert Rule	A Grants Administrator can view contract terms library for all the business units	Role: Contract Terms and Conditions Override Controls Privilege: View Contract Terms Library (Data) Resource: Contract Expert Rule
Contract Expert Rule	A Grants Administrator can view contract terms library for all the business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data) Resource: Contract Expert Rule
Contract Export Object	A Grants Administrator can manage contract export object for all the contract export objects	Role: Grants Administrator Privilege: View Contract Export Object (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Contract Export Object
Contract Library Clause	A Grants Administrator can manage contract terms library for all non standard clauses irrespective of business unit	Role: Contract Terms and Conditions Override Controls Privilege: Manage Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Grants Administrator can manage contract terms library for all non standard clauses irrespective of business unit	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: Manage Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Grants Administrator can view contract terms library for all business units	Role: Contract Terms and Conditions Override Controls Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Grants Administrator can view contract terms library for all business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause Folder	A Grants Administrator can view contract terms library for all the business units	Role: Contract Terms and Conditions Override Controls Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause Folder
Contract Library Clause Folder	A Grants Administrator can view contract terms library for all the business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause Folder
Contract Note	A Grants Administrator can manage contract note for notes that are not private or private notes where they are the author.	Role: Contract Amendment Privilege: Manage Contract Note (Data) Resource: Contract Note
Contract Note	A Grants Administrator can manage contract note for notes that are not private or private notes where they are the author.	Role: Contract Authoring Privilege: Manage Contract Note (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Contract Note
Default Coverage File Export Object	A Grants Administrator can manage default coverage export for all the default coverage objects	Role: Contract Setup Privilege: Manage Default Coverage Export (Data) Resource: Default Coverage File Export Object
Default Coverage File Import Object	A Grants Administrator can manage default coverage import for all the default coverage objects	Role: Contract Setup Privilege: Manage Default Coverage Import (Data) Resource: Default Coverage File Import Object
Employee Resource File Import Activity	A Grants Administrator can view employee resource file import activity object type for all employee resource file import activities of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Activity Object Type (Data) Resource: Employee Resource File Import Activity
Employee Resource File Import Mapping	A Grants Administrator can view employee resource file import mapping object type for all employee resource file import mappings of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Mapping Object Type (Data) Resource: Employee Resource File Import Mapping
Employee Resource File Import Object	A Grants Administrator can view employee resource file import object type for all employee resource file import objects of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Object Type (Data) Resource: Employee Resource File Import Object
File Export Batch	A Grants Administrator can view file export batch for all export batches	Role: Grants Administrator Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Object	A Grants Administrator can manage file export object for all export unit test objects	Role: Grants Administrator Privilege: Manage Export Unit Test (Data) Resource: File Export Object
File Import Activity	A Grants Administrator can manage default coverage import activity object for all the default coverage import activity objects	Role: Contract Setup

Business Object	Policy Description	Policy Store Implementation
		Privilege: Manage Default Coverage Import Activity Object (Data) Resource: File Import Activity
File Import Mapping	A Grants Administrator can manage default coverage import mapping object for all the default coverage import mapping objects	Role: Contract Setup Privilege: Manage Default Coverage Import Mapping Object (Data) Resource: File Import Mapping
HR Job	A Grants Administrator can choose hr job for all jobs in the enterprise	Role: Resource Administration Privilege: Choose HR Job (Data) Resource: HR Job
HR Job	A Grants Administrator can choose hr job for jobs in their job security profile	Role: Grants Administrator Privilege: Choose HR Job (Data) Resource: HR Job
Legal Employer	A Grants Administrator can choose legal employer for legal employers in their organization security profile	Role: Grants Administrator Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Legal Employer	A Grants Administrator can choose legal employer for legal employers in their organization security profile	Role: Resource Administration Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Partner File Import Activity	A Grants Administrator can view partner file import activity object type for all partner file import activities of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Activity Object Type (Data) Resource: Partner File Import Activity
Partner File Import Mapping	A Grants Administrator can view partner file import mapping object type for all partner file import mappings of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Mapping Object Type (Data) Resource: Partner File Import Mapping
Partner File Import Object	A Grants Administrator can view partner file import object type for all partner file import objects of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Object Type (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Partner File Import Object
Partner Member File Import Activity	A Grants Administrator can view partner member file import activity object type for all partner member file import activities of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Activity Object Type (Data) Resource: Partner Member File Import Activity
Partner Member File Import Mapping	A Grants Administrator can view partner member file import mapping object type for all partner member file import mappings of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Mapping Object Type (Data) Resource: Partner Member File Import Mapping
Partner Member File Import Object	A Grants Administrator can view partner member file import object type for all partner member file import objects of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Object Type (Data) Resource: Partner Member File Import Object
Person Assignment	A Grants Administrator can search worker for persons and assignments in their person and assignment security profile	Role: Manage Users Privilege: Search Worker (Data) Resource: Person Assignment
Person Assignment	A Grants Administrator can view person assignment for persons and assignments in their person and assignment security profile	Role: Manage Users Privilege: View Person Assignment (Data) Resource: Person Assignment
Person Type	A Grants Administrator can choose person type for person types in their person type security profile	Role: Manage Users Privilege: Choose Person Type (Data) Resource: Person Type
Project	A Grants Administrator can analyze project notes in project home for the projects belonging to the bu with project accounting business function that they are authorized to.	Role: Project Administrator Privilege: Analyze Project Notes in Project Home (Data) Resource: Project
Project	A Grants Administrator can analyze project notes in project home for the projects belonging to the project organization and it's children in a project organization hierarchy they are authorized to.	Role: Project Administrator Privilege: Analyze Project Notes in Project Home (Data) Resource: Project

Business Object	Policy Description	Policy Store Implementation
Project	A Grants Administrator can analyze project notes in project home for the projects belonging to the project organization they are authorized to.	Role: Project Administrator Privilege: Analyze Project Notes in Project Home (Data) Resource: Project
Project	A Grants Administrator can analyze project notes in project home for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Analyze Project Notes in Project Home (Data) Resource: Project
Project	A Grants Administrator can analyze project notes in project home for the projects they are granted the project administrator role on.	Role: Project Administrator Privilege: Analyze Project Notes in Project Home (Data) Resource: Project
Project	A Grants Administrator can edit organization overrides for project for the projects belonging to the bu with project accounting business function that they are authorized to.	Role: Project Administrator Privilege: Edit Organization Overrides for Project (Data) Resource: Project
Project	A Grants Administrator can edit organization overrides for project for the projects belonging to the project organization and it's children in a project organization hierarchy they are authorized to. Granted Role	Granted Role Description	Privilege	Privilege Description
	associated with awards. Manages funding assigned to the award and allocated to projects and tasks. Submits process to update financial performance data for awards and award projects and views the financial data. Generates reports for submission to federal agencies.		
Contract Setup	Contract Setup	(OBSOLETE) Define Contract Collaboration Configuration	Allows the configuration of contract collaboration.
Contract Setup	Contract Setup	Administer Sandbox	Allows administration of all sandboxes.
Contract Setup	Contract Setup	Build Keyword Search Index for the Contract Terms Library	Allows the running of processes to synchronize and optimize the keyword index for clause and terms template searches in the Contract Terms Library.
Contract Setup	Contract Setup	Configure Contract UI	Allows the configuration of contract UI
Contract Setup	Contract Setup	Define Endpoint and Security Policy Information	Allows definition of endpoint and security policy information for an enterprise application.
Contract Setup	Contract Setup	Define Project Contract Billing Configuration	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Generate PDF Contract for Text Search	Allows the running of the process to generate PDFs of draft contracts, or contracts under amendment, so they are available during text searches.
Contract Setup	Contract Setup	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Contract Setup	Contract Setup	Manage Application Common Lookup	Not Available
Contract Setup	Contract Setup	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Contract Setup	Contract Setup	Manage Application Document Sequence	Manage implementation of Application Document Sequences. Document Sequences are

Granted Role	Granted Role Description	Privilege	Privilege Description
			identifiers guarenteed to be unique, time-ordered, and gapless. This is in contrast to a database sequence which (for performance purposes) may contain gaps and which might not be ordered by time of document creation. Examples would include ID numbers for traffic tickets or other legal documents where gaps in the record may trigger an investigation.
Contract Setup	Contract Setup	Manage Application Document Sequence Category	Manage document sequence categories
Contract Setup	Contract Setup	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Contract Setup	Contract Setup	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Contract Setup	Contract Setup	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Contract Setup	Contract Setup	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Contract Setup	Contract Setup	Manage Contract Currency Conversion Rate Types	Allows the definition of user-defined currency conversion rate types.
Contract Setup	Contract Setup	Manage Contract Customer Account	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Customer Account Site Usages	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Defaults	Allows management of contract defaults

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Contract Global Employee	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Interaction Reference Mapping	Allows the mapping of interaction types to applications where the interaction types can be used.
Contract Setup	Contract Setup	Manage Contract Layout Templates	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Item	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Type	Allows creating and managing of contract line types such as product and service.
Contract Setup	Contract Setup	Manage Contract Note Type Mapping	Allows creating and managing of the mapping that provides a tailored list of note type values for contracts. When no mapping is specified, note type values mapped to the object Note are used.
Contract Setup	Contract Setup	Manage Contract Organization Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Contact	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Location	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Role and Contact Sources	Allows the specification of the data sources for parties and contacts. A data source specifies the available list of values for parties or contacts of a given role.
Contract Setup	Contract Setup	Manage Contract Payment Terms	Allows creating and managing of payables payment terms for use in supplier contracts.
Contract Setup	Contract Setup	Manage Contract Person Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Request Type	Manage contract request types.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Contract Risk Event	Allows creating and managing of contract risk events that can be associated to a contract.
Contract Setup	Contract Setup	Manage Contract Standard Clauses, Templates, and Contract Expert Rules	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Type	Allows the management of contract types to specify properties of different contracts such as the type of permitted contract lines, party roles, contract validation checks, and the contract acceptance and signature requirements.
Contract Setup	Contract Setup	Manage Contract and Pricing Integration	Not Available
Contract Setup	Contract Setup	Manage Coverage Times	Allows management of coverage times
Contract Setup	Contract Setup	Manage Default Coverage	Allows management of default coverage
Contract Setup	Contract Setup	Manage Electronic Signature Setup	Allows setting up electronic signature
Contract Setup	Contract Setup	Manage Key Terms and Prompts	Allows the definition of contract key terms and prompts. This also includes adding key terms to contract types.
Contract Setup	Contract Setup	Manage Matrix Classes	Allows creation, update, deletion, copy, and viewing of all matrix classes and child entities.
Contract Setup	Contract Setup	Manage Pricing Algorithms	Allows creation, update, deletion, copy, and viewing of all algorithms and child entities.
Contract Setup	Contract Setup	Manage Service Mappings	Allows creation, update, deletion, copy, and viewing of all service mappings and child entities.
Contract Setup	Contract Setup	Manage Standard Coverage	Allows management of standard coverage

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Time Unit Mappings	Allows management of time unit mappings
Contract Setup	Contract Setup	Manage User Statuses and Transitions	Manage user statuses and transitions
Contract Setup	Contract Setup	Process Installed Base updates	Processes installed base updates.
Contract Setup	Contract Setup	Specify Customer Contract Management Business Function Properties	Allows specifying and managing of currency conversion rules, project billing rules and default values, adoption rules for contract standards and policies, and other contract management functions during business unit setup.
Contract Setup	Contract Setup	Specify Procurement Contract Management Business Function Properties	Allows specification of supplier contract management properties during business unit setup. This includes the specification of contract standards, policies, and adoption rules.
Contract Setup	Contract Setup	Track Purchasing Activity for Contract Fulfillment Line	Allows the running of the process that retrieves the number and the status of the purchasing document created by the integrated procurement application from the contract fulfillment line.
Contract Setup	Contract Setup	Update Contract Status	Updates the status of contracts that are dependent on time. For example, updates the status to expired when the end date is reached.
Contract Setup	Contract Setup	Update Enterprise Application Deployment Information	Allows updating deployment information of an enterprise application.
Contract Setup	Contract Setup	Use Generative AI Features in Sales	Allows users to use generative ai features
Contract Setup	Contract Setup	View Administration Link	Privilege to view administration link in UI shell
Contract Setup	Contract Setup	View Contract Type	Allows viewing of the contract type and its attributes.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Terms and Conditions Override Controls	Edits protected clauses, and deletes mandatory clauses and sections in addition to authoring nonstandard terms and conditions.	Access Mobile CRM	Functional privilege providing access to CRM data using mobile applications
Contract Terms and Conditions Override Controls	Edits protected clauses, and deletes mandatory clauses and sections in addition to authoring nonstandard terms and conditions.	Author Additional Standard Contract Terms and Conditions	Allows authoring using standard terms and conditions in the contract. This includes adding and deleting standard clauses, selecting alternate clauses, managing sections that contain standard clauses, and moving contract terms.
Contract Terms and Conditions Override Controls	Edits protected clauses, and deletes mandatory clauses and sections in addition to authoring nonstandard terms and conditions. Item Inquiry	Queries and views items in the enterprise.	GET Product Management Index REST	Allows access to view indexed attributes.
Item Inquiry	Queries and views items in the enterprise.	Get Item Index Available Attributes REST	Allows access to view available attributes for item.
Item Inquiry	Queries and views items in the enterprise.	Get Search View REST	Allows query of search views.
Item Inquiry	Queries and views items in the enterprise.	Manage Item Attachment	Allows access to view and manage item attachments.
Item Inquiry	Queries and views items in the enterprise.	Manage Item Catalog	Allows access to view and manage item catalogs including categories and category hierarchies.

Granted Role	Granted Role Description	Privilege	Privilege Description
Item Inquiry	Queries and views items in the enterprise.	Manage Item Global Search	Allows access to search for items using secure enterprise search.
Item Inquiry	Queries and views items in the enterprise.	Manage Product Management Search	Allows access to view and edit Product Management Search.
Item Inquiry	Queries and views items in the enterprise.	Manage Search View REST	Allows access to view and manage search views.
Item Inquiry	Queries and views items in the enterprise.	Manage Trading Partner Item Reference	Allows access to manage trading partner item references for items.
Item Inquiry	Queries and views items in the enterprise.	Manage Unit of Measure	Allows configuration of UOMs, UOM classes, and definition of standard, interclass, and intraclass UOM conversions.
Item Inquiry	Queries and views items in the enterprise.	View Item	Allows access to product dashboard.
Item Inquiry	Queries and views items in the enterprise.	View Item Organization Association	Allows access to view item organization assignments.
Item Inquiry	Queries and views items in the enterprise.	View Item Relationship	Allows access to view item relationships.
Item Inquiry	Queries and views items in the enterprise.	View Product Management Search	Allows access to view Product Management Search.
Manage User Account	Manages user roles.	Copy Personal Data to LDAP	Allows copy of worker personal data to LDAP
Manage User Account	Manages user roles.	Manage User Account	Allows access to Manage User Account.
Manage User Account	Manages user roles.	Manage User Account and My Account	Allows access to the page components that are common to My Account and Manage User Account.
Manage User Account	Manages user roles.	Reset Password	Allows reset password links to be emailed to users.
Manage Users	Creates and updates users and assigns roles to users.	Manage User Details	Allows management of user account information.

Granted Role	Granted Role Description	Privilege	Privilege Description
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Access Mobile CRM	Functional privilege providing access to CRM data using mobile applications
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Author Additional Standard Contract Terms and Conditions	Allows authoring using standard terms and conditions in the contract. This includes adding and deleting standard clauses, selecting alternate clauses, managing sections that contain standard clauses, and moving contract terms.
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Author Nonstandard Contract Terms and Conditions	Allows authoring of nonstandard terms and conditions in the contract. This includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Author Standard Contract Terms and Conditions	Allows authoring of contract terms and conditions using contract terms templates defined in the Contract Terms Library. Also includes using the Contract Expert and validating the contract terms.
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Delete Contract Documents	Not Available
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Manage Terms and Conditions using Attached Documents	Manages terms and conditions using attached documents flow
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	View Contract Terms	Not Available
Product Search	Manages product searches.	Access HCM Common Components	Allows access to HCM common components.
Product Search	Manages product searches.	Access Product Development Configurations Using a REST Service	Permits access to configure data in Product Development using REST services, including master organization setup.
Product Search	Manages product searches.	GET Product Management Index REST	Allows access to view indexed attributes.

Granted Role	Granted Role Description	Privilege	Privilege Description
Product Search	Manages product searches.	Get Item Index Available Attributes REST	Allows access to view available attributes for item.
Product Search	Manages product searches.	Get Redwood Settings REST	Allows query access to settings through the REST API.
Product Search	Manages product searches.	Get Search View REST	Allows query of search views.
Product Search	Manages product searches.	Manage Search Consumer Applications Rest	Allows access to view and manage Search Consumer Applications for application sets that required for picker applications.
Product Search	Manages product searches.	Manage Search View REST	Allows access to view and manage search views.
Product Search	Manages product searches.	Manage System Searches	Allows users to manage HCM system searches.
Product Search	Manages product searches.	Use REST Service - Saved Searches	Allows the user to call all methods associated with the Saved Searches REST Service.
Product Search	Manages product searches.	View Advanced Trading Partner Item Search	Allow access to search Trading Partner Items.
Product Search	Manages product searches.	View Product Management Search	Allows access to view Product Management Search.
Project Budget Baseline Creation	Allows creation of baseline version of project budget.	Manage Project Budget	Allows access to budget versions created for a project.
Project Budget Baseline Creation	Allows creation of baseline version of project budget.	Manage Project Budget Working Version	Allows access to manage working versions of project budgets. Allows export of working budget version from Excel to Projects. Also, allows submission of working versions for baseline creation and rework of rejected versions.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Lock Project Budget Working Version	Allows locking and unlocking of working budget versions for projects for which the user is authorized.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Budget	Allows access to budget versions created for a project.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Budget Excel Integration	Allows information exchange with a scheduling application, using the integration gateway, for projects for which the user is authorized.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Budget Working Version	Allows access to manage working versions of project budgets. Allows export of working budget version from Excel to Projects. Also, allows submission of working versions for baseline creation and rework of rejected versions.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Burden Schedule	Allows updating of multipliers used to calculate the burdened cost, revenue, and bill amount of each expenditure item.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Planning Resource Breakdown Structure Version	Allows updating of project resource breakdown structures for the projects for which the user is authorized.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Run Generate Financial Plan	Allows submission of process to generate budget or forecast versions for projects for which the user is authorized.
Project Definition	Edits project and task attributes.	Manage Project Task Structure for Billable Tasks	Allows creation, update, and deletion of billable project tasks and task attributes.
Project Definition	Edits project and task attributes.	Manage Project Task Structure for Nonbillable Tasks	Allows creation, update, and deletion of project tasks and task attributes that are not billable to a customer.
Project Definition	Edits project and task attributes.	Review Project Definition	Allows viewing of the project definition.
Project Definition	Edits project and task attributes.	Run Change Project and Task Organizations	Allows submission of the program to update organizations for projects and tasks.
Project Definition	Edits project and task attributes.	Update Project Definition	Allows the project definition web service to update the attributes on a project.
Project Definition	Edits project and task attributes.	View Project Definition Basic Information	Allows viewing of project-level basic information.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Definition	Edits project and task attributes.	View Project Financial Definition Information	Allows viewing of project-level financial information.
Project Definition	Edits project and task attributes.	View Project Reporting Definition Information	Allows viewing of project-level reporting information.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Burden Schedule	Allows updating of multipliers used to calculate the burdened cost, revenue, and bill amount of each expenditure item.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Forecast	Allows access to forecast versions created for a project.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Forecast Excel Integration	Allows access to export working forecast versions to Microsoft Excel.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Forecast Working Version	Allows creation, update, and deletion of working versions of project forecasts. Allows export of working forecast versions from Excel to Projects. Also, allows submission of working versions for approval and rework of rejected versions.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Plan Resource Assignment	Allows access to manage task assignments for projects.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Planning Resource Breakdown Structure Version	Allows updating of project resource breakdown structures for the projects for which the user is authorized.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Progress	Allows access to project progress.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Task Structure for Billable Tasks	Allows creation, update, and deletion of billable project tasks and task attributes.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Task E-Mail Notification Service	Allows project users to send notifications while managing project tasks and to-do tasks using a service.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Run Generate Financial Plan	Allows submission of process to generate budget or forecast versions for projects for which the user is authorized.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	View Project Plan Resource Assignment	Allows access to view task assignments for projects.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	View Project Progress	Allows access to view project progress.
Projects Reporting Analysis	Access project Business Intelligence Applications data.	View Project Home	Allows viewing of the project home page.
Resource Administration	Administers resource information.	Add Trading Community Resource to My Social Network	Allows the addition of a resource to their social network.
Resource Administration	Administers resource information.	Administer Sandbox	Allows administration of all sandboxes.
Resource Administration	Administers resource information.	Contact Trading Community Resource	Allows emailing, calling, and instant messenging a resource. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	Edit Trading Community Resource Profile	Allows the update of resource profile information. If assigning, also assign the ability to view the trading community resource profile.
Resource Administration	Administers resource information.	Enter Trading Community Resource Information	Allows the specification of resource information.
Resource Administration	Administers resource information.	Identify Trading Community Person as a Trading Community Resource	Allows the identification of existing people as resources.
Resource Administration	Administers resource information.	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Resource Administration	Administers resource information.	Manage Application Attachment Category	Manage application attachment categories

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Application Attachment Entity	Manage application attachment entities
Resource Administration	Administers resource information.	Manage Application Common Lookup	Not Available
Resource Administration	Administers resource information.	Manage Application Data Security Policy	Allows management of security policies that restrict access to functions and data, such as preventing particular values from being accessed in a chart of account segment.
Resource Administration	Administers resource information.	Manage Application Database Resource	Manage application database resources for data security
Resource Administration	Administers resource information.	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Resource Administration	Administers resource information.	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Resource Administration	Administers resource information.	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Resource Administration	Administers resource information.	Manage Application Message	Manage an end-user message, shown in the User Interface. Messages can have different types, such as Error, Warning, Information. Messages are translated and can be re-used across products. Exampe: "File not found", "Table '&TABLE' does not exist".
Resource Administration	Administers resource information.	Manage Application Profile Category	Manage application profile option categories
Resource Administration	Administers resource information.	Manage Application Profile Option	Manage Application Profile Options: Manage the level the value can be changed
Resource Administration	Administers resource information.	Manage Application Reference Data Set	Manage Application Reference Data set. Maintain reference data set attributes.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Application Reference Data Set Assignment	Manage Application Reference Data Set Assignments. Create and edit reference data set assignments.
Resource Administration	Administers resource information.	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Resource Administration	Administers resource information.	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Resource Administration	Administers resource information.	Manage Application Taxonomy	Manage hierarchical classification of Applications Taxonomy tree. A node in the Application Taxonomy Tree can be a Product Line, Product Family, Product or Logical Business Area.
Resource Administration	Administers resource information.	Manage Customer Data Management Foundation Custom Objects	Allows access to custom objects in Customer Data Management Foundation.
Resource Administration	Administers resource information.	Manage Goal Management Notifications	Manage Goal Management Notifications
Resource Administration	Administers resource information.	Manage My Application Profile Values	Manage My Application Profile Values. Access to manage profile values at the user level.
Resource Administration	Administers resource information.	Manage Person Talent Profile	Allows management of talent profile for a person.
Resource Administration	Administers resource information.	Manage Talent Education Establishment	Allows management of talent educational establishments.
Resource Administration	Administers resource information.	Manage Talent Notifications	Allows management of talent management notifications.
Resource Administration	Administers resource information.	Manage Talent Profile Content Item	Allows management of talent profile content items.
Resource Administration	Administers resource information.	Manage Talent Profile Rating Model	Allows management of talent profile rating models.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Talent Profile Sources	Allows management of talent profile subscribers.
Resource Administration	Administers resource information.	Manage Trading Community Resource	Allows the specification of resources for any employees or partner members who are to be associated to leads, opportunities, and territories and given sales credits or compensated for that work.
Resource Administration	Administers resource information.	Manage Trading Community Resource Address	Allows the management of resource addresses. If assigning, also assign the ability to view the trading community resource address.
Resource Administration	Administers resource information.	Manage Trading Community Resource Contact Information	Allows the management of resource contact information. If assigning, also assign the ability to view the trading community resource contact information.
Resource Administration	Administers resource information.	Manage Trading Community Resource History	Allows the management of resource historical information. If assigning, also assign the ability to view the trading community resource history.
Resource Administration	Administers resource information.	Manage Trading Community Resource Lookups	Allows the specification of lookup values that provide choices when defining resources, such as party usages available for resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note	Allows the specification of resource notes. If assigning also assign the ability to view the trading community resource note.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Descriptive Flexfields	Allows the specification of additional fields which enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type	Allows the specification of note types, such as person details, to categorize notes entered for resources. When mapped, note type values are limited to resources.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type Mapping	Allows the specification of the mapping that provides a tailored list of note type values for resources. When no mapping is specified, note type values mapped to the object Note are used.
Resource Administration	Administers resource information.	Manage Trading Community Resource Organization Memberships	Allows the specification of resource organization members. If assigning, also assign the ability to view the trading community resource organization memberships.
Resource Administration	Administers resource information.	Manage Trading Community Resource Role Assignments	Allows the management of resource role assignments. If assigning also assign the ability to view the trading community resource role assignments.
Resource Administration	Administers resource information.	Manage Trading Community Resource Sales Representative Information	Allows the management of resource saleperson setup information. If assigning, also assign the ability to view the trading community resource sales representative information.
Resource Administration	Administers resource information.	Manage Trading Community Resource Skills	Allows the management of resource skills information. If assigning, also assign the ability to view the trading community resource skills.
Resource Administration	Administers resource information.	Manage Trading Community Resource Social Network	Allows the management of a resource social network. If assigning, also assign the ability to view the trading community resource social network.
Resource Administration	Administers resource information.	Manage Trading Community Resource Team Memberships	Allows the management of resource team members. If assigning also assign the ability to view the trading community resource team memberships.
Resource Administration	Administers resource information.	Remove Trading Community Resource	Allows the removal of resources.
Resource Administration	Administers resource information.	Reset Password	Allows reset password links to be emailed to users.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Search Trading Community Resource	Allows the search of resources.
Resource Administration	Administers resource information.	Upload Trading Community Resource Picture	Allows the upload of resource pictures. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Administration Link	Privilege to view administration link in UI shell
Resource Administration	Administers resource information.	View Trading Community Resource Address	Allows viewing of resource addresses. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Administration Detail Information	Allows viewing of resource administration setup information.
Resource Administration	Administers resource information.	View Trading Community Resource Collaboration Information	Allows viewing of resource social network information.
Resource Administration	Administers resource information.	View Trading Community Resource Contact Information	Allows viewing of resource contact information.
Resource Administration	Administers resource information.	View Trading Community Resource Details	Allows viewing of resource basic information, such as name, primary phone, primary address, and primary e-mail.
Resource Administration	Administers resource information.	View Trading Community Resource History	Allows viewing of archived resource information.
Resource Administration	Administers resource information.	View Trading Community Resource Note	Allows viewing of resource notes. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Organization Memberships	Allows viewing of sales, marketing, and partner organization information.
Resource Administration	Administers resource information.	View Trading Community Resource Overview Information	Allows viewing of an overview for partner, marketing, and sales organization transaction information. If assigning, also assign the ability to view trading community resource details.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	View Trading Community Resource Profile	Allows viewing of resource profile information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Role Assignments	Allows viewing of resource role assignments. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Sales Representative Information	Allows viewing of salesperson setup information, such as sales credits.
Resource Administration	Administers resource information.	View Trading Community Resource Skills	Allows viewing of resource skills information, such as language, competencies, and product expertise. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Social Network	Allows viewing of a resource's social network.
Resource Administration	Administers resource information.	View Trading Community Resource Team Memberships	Allows viewing of resource team memberships. If assigning, also assign the ability to view trading community resource details.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Carriers List of Values by Web Service	Allow viewing carriers list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Default Expenditure Types by Web Service	Allow viewing Default Expenditure Types by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Inventory Organization Parameters List of Values by Web Service	Allow viewing inventory organization parameters list of values by web service.

View Item Redwood	Allows users to view item details.	View Trading Community Person	Allows exporting, searching, and viewing of person details such as addresses, classifications, identifiers, and names.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Grants Department Administrator job role.

Business Object	Policy Description	Policy Store Implementation
Application Attachment	A Grants Department Administrator can view application attachment for the categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Grants Department Administrator Privilege: Read Application Attachment Resource: Application Attachment
Application Document Sequence Category	A Grants Department Administrator can manage application document sequence category for all applications common applications data	Role: Contract Setup Privilege: Manage Application Document Sequence Category (Data) Resource: Application Document Sequence Category
Business Unit	A Grants Department Administrator can choose business unit for business units in their organization security profile	Role: Grants Department Administrator Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
Business Unit	A Grants Department Administrator can choose business unit organization for business units in their organization security profile	Role: Resource Administration Privilege: Choose Business Unit Organization (Data) Resource: Business Unit

Business Object	Policy Description	Policy Store Implementation
Contract Expert Rule	A Grants Department Administrator can view contract terms library for all the business units	Role: Contract Terms and Conditions Override Controls Privilege: View Contract Terms Library (Data) Resource: Contract Expert Rule
Contract Expert Rule	A Grants Department Administrator can view contract terms library for all the business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data) Resource: Contract Expert Rule
Contract Export Object	A Grants Department Administrator can manage contract export object for all the contract export objects	Role: Grants Department Administrator Privilege: View Contract Export Object (Data) Resource: Contract Export Object
Contract Library Clause	A Grants Department Administrator can manage contract terms library for all non standard clauses irrespective of business unit	Role: Contract Terms and Conditions Override Controls Privilege: Manage Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Grants Department Administrator can manage contract terms library for all non standard clauses irrespective of business unit	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: Manage Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Grants Department Administrator can view contract terms library for all business units	Role: Contract Terms and Conditions Override Controls Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Grants Department Administrator can view contract terms library for all business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause Folder	A Grants Department Administrator can view contract terms library for all the business units	Role: Contract Terms and Conditions Override Controls Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause Folder

Business Object	Policy Description	Policy Store Implementation
Contract Library Clause Folder	A Grants Department Administrator can view contract terms library for all the business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause Folder
Default Coverage File Export Object	A Grants Department Administrator can manage default coverage export for all the default coverage objects	Role: Contract Setup Privilege: Manage Default Coverage Export (Data) Resource: Default Coverage File Export Object
Default Coverage File Import Object	A Grants Department Administrator can manage default coverage import for all the default coverage objects	Role: Contract Setup Privilege: Manage Default Coverage Import (Data) Resource: Default Coverage File Import Object
Employee Resource File Import Activity	A Grants Department Administrator can view employee resource file import activity object type for all employee resource file import activities of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Activity Object Type (Data) Resource: Employee Resource File Import Activity
Employee Resource File Import Mapping	A Grants Department Administrator can view employee resource file import mapping object type for all employee resource file import mappings of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Mapping Object Type (Data) Resource: Employee Resource File Import Mapping
Employee Resource File Import Object	A Grants Department Administrator can view employee resource file import object type for all employee resource file import objects of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Object Type (Data) Resource: Employee Resource File Import Object
File Export Batch	A Grants Department Administrator can view file export batch for all export batches	Role: Grants Department Administrator Privilege: View File Export Batch (Data) Resource: File Export Batch
File Export Object	A Grants Department Administrator can manage file export object for all export unit test objects	Role: Grants Department Administrator Privilege: Manage Export Unit Test (Data) Resource: File Export Object

Business Object	Policy Description	Policy Store Implementation
File Import Activity	A Grants Department Administrator can manage default coverage import activity object for all the default coverage import activity objects	Role: Contract Setup Privilege: Manage Default Coverage Import Activity Object (Data) Resource: File Import Activity
File Import Mapping	A Grants Department Administrator can manage default coverage import mapping object for all the default coverage import mapping objects	Role: Contract Setup Privilege: Manage Default Coverage Import Mapping Object (Data) Resource: File Import Mapping
HR Job	A Grants Department Administrator can choose hr job for all jobs in the enterprise	Role: Resource Administration Privilege: Choose HR Job (Data) Resource: HR Job
Legal Employer	A Grants Department Administrator can choose legal employer for legal employers in their organization security profile	Role: Grants Department Administrator Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Legal Employer	A Grants Department Administrator can choose legal employer for legal employers in their organization security profile	Role: Resource Administration Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Partner File Import Activity	A Grants Department Administrator can view partner file import activity object type for all partner file import activities of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Activity Object Type (Data) Resource: Partner File Import Activity
Partner File Import Mapping	A Grants Department Administrator can view partner file import mapping object type for all partner file import mappings of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Mapping Object Type (Data) Resource: Partner File Import Mapping
Partner File Import Object	A Grants Department Administrator can view partner file import object type for all partner file import objects of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Object Type (Data) Resource: Partner File Import Object

Business Object	Policy Description	Policy Store Implementation
Partner Member File Import Activity	A Grants Department Administrator can view partner member file import activity object type for all partner member file import activities of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Activity Object Type (Data) Resource: Partner Member File Import Activity
Partner Member File Import Mapping	A Grants Department Administrator can view partner member file import mapping object type for all partner member file import mappings of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Mapping Object Type (Data) Resource: Partner Member File Import Mapping
Partner Member File Import Object	A Grants Department Administrator can view partner member file import object type for all partner member file import objects of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Object Type (Data) Resource: Partner Member File Import Object
Person Assignment	A Grants Department Administrator can search worker for persons and assignments in their person and assignment security profile	Role: Manage Users Privilege: Search Worker (Data) Resource: Person Assignment
Person Assignment	A Grants Department Administrator can view person assignment for persons and assignments in their person and assignment security profile	Role: Manage Users Privilege: View Person Assignment (Data) Resource: Person Assignment
Person Type	A Grants Department Administrator can choose person type for person types in their person type security profile	Role: Manage Users Privilege: Choose Person Type (Data) Resource: Person Type
Project	A Grants Department Administrator can analyze project for the projects they are granted the grants department administrator role on.	Role: Grants Department Administrator Privilege: Analyze Project Notes in Project Home (Data) Resource: Project
Project	A Grants Department Administrator can analyze project notes in project home for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Analyze Project Notes in Project Home (Data) Resource: Project
Project	A Grants Department Administrator can edit organization overrides for project for	Role: Award Management

Business Object	Policy Description	Policy Store Implementation
	the projects they are granted the grants administrator role on.	Privilege: Edit Organization Overrides for Project (Data) Resource: Project
Project	A Grants Department Administrator can edit project additional information for project for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Edit Project Additional Information for Project (Data) Resource: Project
Project	A Grants Department Administrator can edit project asset assignment for project for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Edit Project Asset Assignment for Project (Data) Resource: Project
Project	A Grants Department Administrator can edit project asset information for project for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Edit Project Asset Information for Project (Data) Resource: Project
Project	A Grants Department Administrator can edit project attachments for project for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Edit Project Attachments for Project (Data) Resource: Project
Project	A Grants Department Administrator can edit project attachments in project home for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Edit Project Attachments in Project Home (Data) Resource: Project
Project	A Grants Department Administrator can edit project attributes for project for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Edit Project Attributes for Project (Data) Resource: Project
Project	A Grants Department Administrator can edit project basic information for project for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Edit Project Basic Information for Project (Data) Resource: Project

Business Object	Policy Description	Policy Store Implementation
Project	A Grants Department Administrator can edit project burden schedule assignment for project for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Edit Project Burden Schedule Assignment for project (Data) Resource: Project
Project	A Grants Department Administrator can edit project capitalization options for project for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Edit Project Capitalization Options for Project (Data) Resource: Project
Project	A Grants Department Administrator can edit project classifications for project for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Edit Project Classifications for Project (Data) Resource: Project
Project	A Grants Department Administrator can edit project costing currency for project for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Edit Project Costing Currency for Project (Data) Resource: Project
Project	A Grants Department Administrator can edit project cross-charge for project for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Edit Project Cross-Charge for Project (Data) Resource: Project
Project	A Grants Department Administrator can edit project customer for project for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Edit Project Customer for Project (Data) Resource: Project
Project	A Grants Department Administrator can edit project for the projects they are granted the grants department administrator role on.	Role: Grants Department Administrator Privilege: Edit Organization Overrides for Project (Data) Resource: Project

Labor Distribution Accountant (Discretionary Role)

This is a discretionary role provisioned to end-users on an as required basis for the purpose of importing payroll amounts for different pay elements for all people under a higher level organization, and executing the process to distribute the payroll amount to project and nonproject transactions based on the labor schedule defined for the person. The role also performs the task to review any errors generated from distributing and processing the payroll costs, correcting the errors, and re-executing the process. The resulting distributions can be viewed and marked for re-processing if further adjustments need to happen.

Role Hierarchy

The Labor Distribution Accountant discretionary role directly and indirectly inherits these roles.

- Labor Distribution Accountant
  - Report Public Person
  - Upload data for Project Costing Import

Duties

This table lists the duties assigned directly and indirectly to the Labor Distribution Accountant discretionary role.

Duty Role	Description
Report Public Person	Contains a data security policy that allows people in the public person security profile to be included in reports.
Upload data for Project Costing Import	Allows to upload data file to import project costing data.

Privileges

This table lists privileges granted to duties of the Labor Distribution Accountant discretionary role.

Granted Role	Granted Role Description	Privilege	Privilege Description
Labor Distribution Accountant	This is a discretionary role provisioned to end-users on an as required basis for the purpose of importing payroll amounts for different pay elements for all people under a higher level organization, and executing the process to distribute the payroll amount to project and nonproject transactions based on the labor schedule defined for the person. The role also performs the task to review any errors generated from distributing and processing the payroll costs, correcting the errors, and re-executing the process. The resulting distributions can be viewed and marked for re-processing if further adjustments need to happen.	Delete Project Labor Distributions in Error	Allows user to delete imported and distributed project or non-project labor costs that are in a status of error.
Labor Distribution Accountant	This is a discretionary role provisioned to end-users on an as required basis for the purpose of importing payroll amounts for different pay elements for all people under a higher level organization, and executing the process to distribute the payroll amount to project and nonproject transactions based on the labor schedule defined for the person. The role also performs the task to review any errors generated from distributing and processing the payroll costs, correcting the errors, and re-executing the process. The resulting distributions can be viewed and marked for re-processing if further adjustments need to happen.	Manage Project Labor Distributions	Allows user to import and distribute labor costs on project or nonproject based labor schedules and reprocess errors or adjustments.
Labor Distribution Accountant	This is a discretionary role provisioned to end-users on an as required basis for the purpose of importing payroll amounts for different pay elements for all people under a higher level organization, and executing the process to distribute the payroll amount to project and nonproject transactions based on the labor schedule defined for the person. The role also performs the task to review any errors generated from distributing and processing the payroll costs, correcting the errors, and re-executing the process. The resulting distributions can be viewed and marked for re-	Process Costs with Unchanged Project Labor Distributions	Allows a user to reprocess imported and distributed project or non-project labor costs even when the distribution rules haven't changed since the original distribution was completed. The default functionality is to reprocess the cost only if the distribution rules have changed.

Owns ultimate responsibility for the management of the sponsored research award, especially in cases where funding is obtained from federal agencies such as the NIH or NSF.	View Project Commitment Transactions	Allows viewing of project commitment transactions.
Principal Investigator	Controls and monitors the technical direction and academic quality of research projects such as laboratory studies or clinical trials. Ensures that projects comply with the terms, conditions, and policies defined by the sponsor and the institution. Owns ultimate responsibility for the management of the sponsored research award, especially in cases where funding is obtained from federal agencies such as the NIH or NSF.	View Project Expenditure Item Cost Distribution Lines	Allows viewing of cost distribution lines for a project expenditure item.
Principal Investigator	Controls and monitors the technical direction and academic quality of research projects such as laboratory studies or clinical trials. Ensures that projects comply with the terms, conditions, and policies defined by the sponsor and the institution. Owns ultimate responsibility for the management of the sponsored research award, especially in cases where funding is obtained from federal agencies such as the NIH or NSF.	View Purchase Order as Procurement Requester	Allows a procurement requester to review a purchase order.
Product Search	Manages product searches.	Access HCM Common Components	Allows access to HCM common components.
Product Search	Manages product searches.	Access Product Development Configurations Using a REST Service	Permits access to configure data in Product Development using REST services, including master organization setup.
Product Search	Manages product searches.	GET Product Management Index REST	Allows access to view indexed attributes.

Granted Role	Granted Role Description	Privilege	Privilege Description
Product Search	Manages product searches.	Get Item Index Available Attributes REST	Allows access to view available attributes for item.
Product Search	Manages product searches.	Get Redwood Settings REST	Allows query access to settings through the REST API.
Product Search	Manages product searches.	Get Search View REST	Allows query of search views.
Product Search	Manages product searches.	Manage Search Consumer Applications Rest	Allows access to view and manage Search Consumer Applications for application sets that required for picker applications.
Product Search	Manages product searches.	Manage Search View REST	Allows access to view and manage search views.
Product Search	Manages product searches.	Manage System Searches	Allows users to manage HCM system searches.
Product Search	Manages product searches.	Use REST Service - Saved Searches	Allows the user to call all methods associated with the Saved Searches REST Service.
Product Search	Manages product searches.	View Advanced Trading Partner Item Search	Allow access to search Trading Partner Items.
Product Search	Manages product searches.	View Product Management Search	Allows access to view Product Management Search.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Carriers List of Values by Web Service	Allow viewing carriers list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Default Expenditure Types by Web Service	Allow viewing Default Expenditure Types by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Inventory Organization Parameters List of Values by Web Service	Allow viewing inventory organization parameters list of values by web service.

Granted Role	Granted Role Description	Privilege	Privilege Description
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Inventory Organizations List of Values by Web Service	Allow viewing inventory organizations list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Plant Organizations List of Values by Web Service	Allow viewing plant organizations list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Plant Parameters List of Values by Web Service	Allow viewing plant parameters list of values by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Project Attribute Defaults by Web Service	Allow viewing Project Attribute Defaults by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Project Type Cost Exclusions by Web Service	Allow viewing Project Type Cost Exclusions by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Schedules by Web Service	Allow viewing schedules by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Transit Times by Web Service	Allow viewing Transit Times by web service.
Supply Chain Common View Web Service	Provides view only web service access to supply chain common to perform activities such as viewing inventory organizations, plant parameters, carriers and units of measure list of values.	View Unit Of Measure Conversion List of Values by Web Service	Allow viewing unit of measure conversion list of values by web service.

Role: Award Management Privilege: Manage Project Forecast Excel Integration (Data) Resource: Project Forecast Excel Integration
Project Forecast Excel Integration	A Principal Investigator can manage project forecast excel integration for the projects they are granted the project manager role on.	Role: Principal Investigator Privilege: Manage Project Forecast Excel Integration (Data) Resource: Project Forecast Excel Integration
Project Forecast Working Version	A Principal Investigator can approve project forecast working version for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Approve Project Forecast Working Version (Data) Resource: Project Forecast Working Version
Project Forecast Working Version	A Principal Investigator can approve project forecast working version for the projects they are granted the project manager role on.	Role: Principal Investigator Privilege: Approve Project Forecast Working Version (Data) Resource: Project Forecast Working Version
Project Forecast Working Version	A Principal Investigator can manage project forecast working version for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Manage Project Forecast Working Version (Data) Resource: Project Forecast Working Version
Project Forecast Working Version	A Principal Investigator can manage project forecast working version for the projects they are granted the project manager role on.	Role: Principal Investigator Privilege: Manage Project Forecast Working Version (Data) Resource: Project Forecast Working Version
Project Key Performance Area	A Principal Investigator can analyze project key performance area for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Analyze Project Key Performance Area (Data) Resource: Project Key Performance Area
Project Key Performance Area	A Principal Investigator can analyze project key performance area for the projects they are granted the project manager role on.	Role: Principal Investigator Privilege: Analyze Project Key Performance Area (Data) Resource: Project Key Performance Area

Business Object	Policy Description	Policy Store Implementation
Project Organization	A Principal Investigator can edit project organization for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Edit Project Organization (Data) Resource: Project Organization
Project Organization	A Principal Investigator can edit project organization for the projects they are granted the project manager role on.	Role: Principal Investigator Privilege: Edit Project Organization (Data) Resource: Project Organization
Project Performance	A Principal Investigator can analyze project performance for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Analyze Project Performance (Data) Resource: Project Performance
Project Performance	A Principal Investigator can analyze project performance for the projects they are granted the project manager role on.	Role: Principal Investigator Privilege: Analyze Project Performance (Data) Resource: Project Performance
Project Performance	A Principal Investigator can manage project performance for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Manage Project Performance (Data) Resource: Project Performance
Project Performance	A Principal Investigator can manage project performance for the projects they are granted the project manager role on.	Role: Principal Investigator Privilege: Manage Project Performance (Data) Resource: Project Performance
Project Performance	A Principal Investigator can review project performance for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Review Project Performance (Data) Resource: Project Performance
Project Performance	A Principal Investigator can review project performance for the projects they are granted the project manager role on.	Role: Principal Investigator Privilege: Review Project Performance (Data) Resource: Project Performance
Project Performance	A Principal Investigator can update project performance for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Update Project Performance (Data) Resource: Project Performance

Business Object	Policy Description	Policy Store Implementation
Project Performance	A Principal Investigator can update project performance for the projects they are granted the project manager role on.	Role: Principal Investigator Privilege: Update Project Performance (Data) Resource: Project Performance
Project Performance Health	A Principal Investigator can review project performance health for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Review Project Performance Health (Data) Resource: Project Performance Health
Project Performance Health	A Principal Investigator can review project performance health for the projects they are granted the project manager role on.	Role: Principal Investigator Privilege: Review Project Performance Health (Data) Resource: Project Performance Health
Project Plan Resource Assignment	A Principal Investigator can manage project plan resource assignment for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Manage Project Plan Resource Assignment (Data) Resource: Project Plan Resource Assignment
Project Plan Resource Assignment	A Principal Investigator can manage project plan resource assignment for the projects they are granted the project manager role on.	Role: Principal Investigator Privilege: Manage Project Plan Resource Assignment (Data) Resource: Project Plan Resource Assignment
Project Progress	A Principal Investigator can manage project progress for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Manage Project Progress (Data) Resource: Project Progress
Project Progress	A Principal Investigator can manage project progress for the projects they are granted the project manager role on.	Role: Principal Investigator Privilege: Manage Project Progress (Data) Resource: Project Progress
Project Progress	A Principal Investigator can publish project progress for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Publish Project Progress (Data) Resource: Project Progress

Business Object	Policy Description	Policy Store Implementation
Project Progress	A Principal Investigator can publish project progress for the projects they are granted the project manager role on.	Role: Principal Investigator Privilege: Publish Project Progress (Data) Resource: Project Progress
Project Task Structure	A Principal Investigator can manage project task structure for the projects they are granted the grants administrator role on.	Role: Award Management Privilege: Manage Project Task Structure (Data) Resource: Project Task Structure
Project Task Structure	A Principal Investigator can manage project task structure for the projects they are granted the project manager role on.	Role: Principal Investigator Privilege: Manage Project Task Structure (Data) Resource: Project Task Structure
Project Unprocessed Expenditure Item	A Principal Investigator can view project unprocessed expenditure item for the business units, or the projects, on which the user is authorized to manage unprocessed expenditure items	Role: Principal Investigator Privilege: Manage Project Unprocessed Expenditure Item (Data) Resource: Project Unprocessed Expenditure Item
Public Person	A Principal Investigator can choose public person for persons and assignments in their person and assignment security profile	Role: Principal Investigator Privilege: Choose Public Person (Data) Resource: Public Person
Public Person	A Principal Investigator can view public person for persons and assignments in their person and assignment security profile	Role: Principal Investigator Privilege: Report Public Person (Data) Resource: Public Person
Trading Community Customer Account	A Principal Investigator can view customer account for all customer accounts in the enterprise	Role: Contract Search and View Access Team Privilege: View Customer Account (Data) Resource: Trading Community Customer Account
Trading Community Customer Account Relationship	A Principal Investigator can view customer account relationship for the reference data sets for which they are authorized	Role: Contract Search and View Access Team Privilege: View Customer Account Relationship (Data) Resource: Trading Community Customer Account Relationship

Business Object	Policy Description	Policy Store Implementation
Trading Community Customer Account Site	A Principal Investigator can view customer account site for the reference data sets for which they are authorized	Role: Contract Search and View Access Team Privilege: View Customer Account Site (Data) Resource: Trading Community Customer Account Site
Trading Community Customer Account Site Use	A Principal Investigator can view customer account site use for the reference data sets for which they are authorized	Role: Contract Search and View Access Team Privilege: View Customer Account Site Use (Data) Resource: Trading Community Customer Account Site Use
Trading Community Org Address Email Contact Preference	A Principal Investigator can manage trading community legal contact preference for all trading community contact preferences not of type legal.	Role: Contract Search and View Access Team Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Org Address Email Contact Preference
Trading Community Org Address Phone Contact Preference	A Principal Investigator can manage trading community legal contact preference for all trading community contact preferences not of type legal.	Role: Contract Search and View Access Team Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Org Address Phone Contact Preference
Trading Community Organization Address Contact Preference	A Principal Investigator can manage trading community legal contact preference for all trading community contact preferences not of type legal.	Role: Contract Search and View Access Team Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Organization Address Contact Preference
Trading Community Organization Email Contact Preference	A Principal Investigator can manage trading community legal contact preference for all trading community contact preferences not of type legal.	Role: Contract Search and View Access Team Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Organization Email Contact Preference
Trading Community Organization Party	A Principal Investigator can view trading community organization for all organizations in the enterprise	Role: Contract Search and View Access Team Privilege: View Trading Community Organization (Data) Resource: Trading Community Organization Party

Business Object	Policy Description	Policy Store Implementation
Trading Community Organization Phone Contact Preference	A Principal Investigator can manage trading community legal contact preference for all trading community contact preferences not of type legal.	Role: Contract Search and View Access Team Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Organization Phone Contact Preference
Trading Community Party	A Principal Investigator can view trading community contact for all trading community persons in the enterprise except contacts created by partners.	Role: Contract Search and View Access Team Privilege: View Trading Community Contact (Data) Resource: Trading Community Party
Trading Community Party	A Principal Investigator can view trading community person for all people in the enterprise	Role: Contract Search and View Access Team Privilege: View Trading Community Person (Data) Resource: Trading Community Party
Trading Community Party	A Principal Investigator can view trading community person for all people in the enterprise other than sales accounts and sales prospects.	Role: Contract Search and View Access Team Privilege: View Trading Community Person (Data) Resource: Trading Community Party
Trading Community Party	A Principal Investigator can view trading community person for all resources in the enterprise	Role: Contract Search and View Access Team Privilege: View Trading Community Person (Data) Resource: Trading Community Party
Trading Community Person Address Contact Preference	A Principal Investigator can manage trading community legal contact preference for all trading community contact preferences not of type legal.	Role: Contract Search and View Access Team Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Person Address Contact Preference
Trading Community Person Address Phone Contact Preference	A Principal Investigator can manage trading community legal contact preference for all trading community contact preferences not of type legal.	Role: Contract Search and View Access Team Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Person Address Phone Contact Preference
Trading Community Person Email Contact Preference	A Principal Investigator can manage trading community legal contact preference for all trading community contact preferences not of type legal.	Role: Contract Search and View Access Team Privilege: Manage Trading Community Legal Contact Preference (Data)

Business Object	Policy Description	Policy Store Implementation

Trading Community Relationship	A Principal Investigator can view trading community relationship for all trading community relationships in the enterprise except partner contact relationships, or relationships created by partners	Role: Principal Investigator Privilege: View Trading Community Relationship (Data) Resource: Trading Community Relationship

Program Manager (Job Role)

Manages the selection and execution of a set of projects that share common attributes such as funding source, schedule, release, corporate goals, and regional applicability. Monitors individual projects and follows up accordingly. Summarizes and communicates high-level performance to project executives.

Role Hierarchy

The Program Manager job role directly and indirectly inherits these roles.

- Program Manager
  - FSCM Load Interface Administration
  - Program Performance Advisor
  - Program Progress Summary Generator
  - Project Performance Inquiry
  - Project Program Transaction Analysis

- Projects Folder Reporting
- Use REST Service - Public Workers Read Only

Duties

This table lists the duties assigned directly and indirectly to the Program Manager job role.

Duty Role	Description
FSCM Load Interface Administration	Manages load interface file for import
Program Performance Advisor	Analyzes program performance metrics to identify trends, highlight critical projects, and provide actionable recommendations.
Program Progress Summary Generator	Generates program progress summaries highlighting achievements, insights, and recommendations.
Project Performance Inquiry	Allows inquiry into project performance summaries, including cost, revenue, billing, and planned versus actual results for analysis and reporting.
Project Program Transaction Analysis	Analyzes Project Program transactional information.
Projects Folder Reporting	Grants access to the Projects web catalog folder.
Transactional Analysis	This duty is used for various generic OTBI security and filtering purposes and is therefore required for all OTBI users.

Aggregate Privileges

This table lists aggregate privileges assigned directly and indirectly to the Program Manager job role.

Aggregate Privilege	Description
Use REST Service - Public Workers Read Only	Allows the user to call the GET method associated with the Public Workers REST Service.

Privileges

This table lists privileges granted to duties of the Program Manager job role.

Granted Role	Granted Role Description	Privilege	Privilege Description
FSCM Load Interface Administration	Manages load interface file for import	Access FSCM Integration Rest Service	Allow financials and supply chain users to access the methods associated with the Integration Rest Service.
FSCM Load Interface Administration	Manages load interface file for import	Load File to Interface	Allows file data load to interface tables
FSCM Load Interface Administration	Manages load interface file for import	Load Interface File for Import	Allows a user to load interface file for import
FSCM Load Interface Administration	Manages load interface file for import	Manage File Import and Export	Privilege to manage import and export of files.
FSCM Load Interface Administration	Manages load interface file for import	Transfer File	Allows management of file transfer from server
Program Manager	Manages the selection and execution of a set of projects that share common attributes such as funding source, schedule, release, corporate goals, and regional applicability. Monitors individual projects and follows up accordingly. Summarizes and communicates high-level performance to project executives. Project Accountant (Job Role)

Manages and analyzes the collection, recording, and allocation of project costs and revenue. Ensures accurate project profit and loss calculations. Analyzes budgets and actual costs. Communicates financial performance to program managers and project executives.

Role Hierarchy

The Project Accountant job role directly and indirectly inherits these roles.

- Project Accountant
  - Accounted Project Cost Distribution Inquiry
  - FSCM Load Interface Administration
  - Functional Setups
  - Import Project Unprocessed Expenditure Item
  - Manage Projects Accounting Period Status
  - Project Asset Maintenance
  - Project Budget Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Contract Invoice Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Contract Revenue Management
    - Manage Projects Accounting Period Status
  - Project Contract Revenue Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Cost Adjustments Approval
  - Project Cost Transaction Processing
    - FSCM Load Interface Administration
  - Project Costing Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Foundation Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Journals Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project cost setup inquiry
  - Project foundation setup inquiry
  - Projects Folder Reporting
  - Projects Reporting Analysis
  - Review Projects Accounting Period Status
  - Subledger Accounting Manager
    - Business Intelligence Consumer

        - Customer Account Inquiry
    - Subledger Accounting Reporting
        - Business Intelligence Consumer
        - Customer Account Inquiry
    - Transaction Entry with Budgetary Control
        - Business Intelligence Consumer
    - Upload data for Project Costing Import

Duties

This table lists the duties assigned directly and indirectly to the Project Accountant job role.

Duty Role	Description
Accounted Project Cost Distribution Inquiry	Allows inquiry into accounted project cost distributions from multiple sources.
Business Intelligence Authoring	An author of Business Intelligence reports as presented in the web catalog. The role allows authoring within Business Intelligence Applications, Business Intelligence Publisher, Real Time Decisions, Enterprise Performance Management and Business Intelligence Office.

Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status.	Edit Project Expenditure Item Billing Hold	Allows placing or removing the billing hold on a project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Billing Status	Allows updating of billing status of a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Capitalizable Status	Allows updating of capitalizable status of a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Costing	Allows updating of project expenditure item costing.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages	Edit Project Expenditure Item Cross-Charge Attributes	Allows updating of cross-charge information on a project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
	project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Cross-Charge Status	Allows updating of cross-charge status on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Intercompany Billing Hold	Allows placing or removing the intercompany billing hold on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status.	Edit Project Expenditure Item Intercompany Billing Status	Allows updating of intercompany billing status of a project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Intercompany Transaction	Allows updating of intercompany project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Edit Project Expenditure Item Work Type	Allows updating of work type information on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Enter Project Unprocessed Expenditure Batch	Allows creation of project cost transactions for third-party applications in Excel or in Project Costing.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages	Enter Project Unprocessed Expenditure Item	Allows creation of project cost transactions for third-party applications in Excel or in Project Costing.

Granted Role	Granted Role Description	Privilege	Privilege Description
	project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Inventory Transaction Sources and Types	Allows configuration of inventory transaction sources and types. Transaction sources are used while performing transactions to classify transactions according to their origin, such as purchase order, sales order, account number, or physical inventory. Transaction types are user-defined and used to identify the various inventory transactions.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Accounting Period Status	Allows opening and closing of project accounting periods.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status.	Manage Project Allocation Rule	Allows managing of allocation rules to distribute overhead costs to projects and tasks that are benefited from those costs.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Allocation Transaction	Allows managing of project allocation transactions including creating, updating, and deleting allocations. Also allows releasing and reversing of released allocations.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Burden Cost Bases	Allows creation of the raw cost bases used to apply and group burden costs.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Burden Cost Code	Allows creation of codes to represent the types of costs to be applied to raw costs.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages	Manage Project Burden Schedule	Allows updating of multipliers used to calculate the burdened cost, revenue, and bill amount of each expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
	project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Burden Structure	Allows creation of structures to determine which burden costs are applied to each raw cost base.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Capital Interest Rates	Allows managing of project capital interest rates.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status.	Manage Project Capitalized Interest Rate Schedule	Allows defining of capitalized interest rate and capitalized interest rate schedules to calculate capitalized interest.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Cost Activities	Privilege to access Project Costs WA from Main Menu
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Costing Extension	Allows implementation of extensions in Project Costing.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Event Type	Allows creation and update of event types for revenue or billing activities that are not directly related to expenditure items.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages	Manage Project Expenditure Item	Allows searching and managing of project expenditure items.

Granted Role	Granted Role Description	Privilege	Privilege Description
	project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Expenditure Type	Allows management of expenditure types to classify costs and to plan, budget, and forecast projects.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Job Mapping	Allows mapping of jobs defined in Global Human Resources to different job titles used in Projects.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status.	Manage Project Labor Cost Multiplier	Allows update of values by which labor cost rates are multiplied to calculate overtime premiums.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Labor Costing Overrides	Allows addition of overrides to the assigned costing rule and cost schedule for an individual labor resource.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Labor Costing Rules	Allows assigning of rules and rate schedules used to calculate labor and nonlabor costs for an organization.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Organization Costing Rules	Privilege to grant access to manage Organization Costing Rules
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages	Manage Project Rate Schedule	Allows defining of project rates and schedules to calculate cost, invoice, revenue, budget and planning amounts.

Granted Role	Granted Role Description	Privilege	Privilege Description
	project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Revenue Category	Allows management of categories to describe and group the source of an organization's revenue for budgeting and reporting purposes.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Standard Asset Unit Cost	Allows defining of standard unit costs for asset book and asset category combinations. This is used as the proration basis for allocating indirect and common costs.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status.	Manage Project Transfer Price Rule	Allows management of rules to determine how transfer prices are calculated for cross-charge transactions and intercompany billing transactions.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Transfer Price Schedule	Allows creation of schedules that contain rules for revenue sharing and cost reimbursement agreements.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Unprocessed Expenditure Batch	Allows managing of unreleased expenditure batches.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Manage Project Unprocessed Expenditure Item	Allows creation or updating of project cost transactions in Oracle Projects or in Oracle 3rd party application.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages	Provide Item Cost	Allows retrieval of item costs.

Granted Role	Granted Role Description	Privilege	Privilege Description
	project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Provide Projects Cost Collection Service	Allows subscription to a service to retrieve project cost collection information.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Recalculate Project Expenditure Item Burden Cost Amount	Allows recalculation of burden cost amount on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status.	Recalculate Project Expenditure Item Cost Amount	Allows recalculation of cost amount on a project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Recalculate Project Expenditure Item Currency Conversion	Allows recalculation of currency conversion on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Recalculate Project Expenditure Item Intercompany Invoice Amount	Allows recalculation of intercompany invoice amount on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Recalculate Project Expenditure Item Intercompany Revenue Amount	Allows recalculation of intercompany revenue amount on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages	Recalculate Project Expenditure Item Invoice Amount	Allows recalculating of project expenditure item invoice amount.

Granted Role	Granted Role Description	Privilege	Privilege Description
	project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Recalculate Project Expenditure Item Revenue Amount	Allows recalculating of project expenditure item revenue amount.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Recalculate Project Expenditure Item Transfer Price Currency Conversion	Allows recalculation of transfer price currency conversion on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status.	Refresh Project Expenditure Item Billing Resource	Allows refreshing of billing resource on project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Refresh Project Expenditure Item Intercompany Billing Resource Attribute	Allows update of the Intercompany Billing Resource attribute on the project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Release Project Unprocessed Expenditure Batch	Allows releasing of project unprocessed expenditure batch.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Reprocess Project Expenditure Item Borrowed and Lent attributes	Allows reprocessing of borrowed and lent project expenditure items.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages	Reprocess Project Expenditure Item Cross-Charge Attributes	Allows reprocessing of cross-charge distribution for a project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
	project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Run Sweep Transaction Accounting Events	Allows submission of the process to sweep transaction accounting events.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Run Update Project Contract Performance	Allows submission of the program to update project performance data for contract business units.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status.	Run Update Project Performance	Allows submission of the program to update project performance data.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Split Project Expenditure Item	Privilege to grant the user the ability to split the project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Split and Transfer Project Expenditure Item	Allows user the ability to split and transfer the project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Transfer Project Expenditure Item	Allows transfer of project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages	Transfer Time Information	Allows the administrator to transfer time entries to integrating time consumers.

Granted Role	Granted Role Description	Privilege	Privilege Description
	project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Update Project Accounting Period Status	Allows update of the project accounting periods status.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	Update Project Expenditure Item Comment	Allows updating of project expenditure item comment.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status.	View Project Allocation Rule	Allows viewing of rules used to distribute overhead costs to projects and tasks that benefited from those costs.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Billing Exception	Allows viewing of project billing exceptions for invoices and revenue. Allows viewing billing exception causes and solutions.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Capitalized Interest Rate Schedule	Allows viewing of capitalized interest rate schedules used to calculate capitalized interest for organization and interest rate combinations.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Contract Invoice Distribution Lines	Allows viewing of distribution lines for project contract invoices.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages	View Project Expenditure Item Borrowed and Lent Distribution Lines	Allows viewing of borrowed and lent distribution lines for a project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
	project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Expenditure Item Cost Distribution Lines	Allows viewing of cost distribution lines for a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Expenditure Item Intercompany Billing Distribution Lines	Allows viewing of intercompany billing distribution lines for a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status.	View Project Expenditure Item Revenue and Billing Distribution Lines	Allows viewing of cost distribution lines for a project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Home	Allows viewing of the project home page.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Labor Cost	Allows viewing of project labor cost on a project expenditure item.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Notes	Allows viewing of notes region in project home page.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages	View Project Standard Asset Unit Cost	Allows viewing of standard unit cost for each asset book and asset category combination that is used as the proration basis for allocating indirect and common costs.

Granted Role	Granted Role Description	Privilege	Privilege Description
	project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.		
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Unprocessed Expenditure Batch	Allows viewing of project unprocessed expenditure batch.
Project Cost Transaction Processing	Collects, imports, and processes project cost transactions. Authorizes project cost adjustments and expenditure item status changes. Manages project allocations. Views project billing exceptions and project contract invoices. Views financial summaries for projects and tasks. Updates project performance reporting data for contract business units and projects. Maintains project periods and manages project period status. Manages notes for project business objects.	View Project Unprocessed Expenditure Item	Allows viewing of project unprocessed expenditure item.
Projects Reporting Analysis	Access project Business Intelligence Applications data.	View Project Home	Allows viewing of the project home page.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Create Subledger Journal Entry Batch	Allows creation of journal entries for a batch of transactions.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis,	Create Subledger Journal Entry Online	Allows creation of journal entries online for a transaction.

Granted Role	Granted Role Description	Privilege	Privilege Description
	journal entries, and period close exceptions reports.		
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Create Subledger Journal Entry for Third Party Merge	Allows submission of the Create Accounting for Third Party Merge program to process third party merge events.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Create Subledger Multiperiod and Accrual Reversal Entry	Allows submission of the Create Subledger Accrual Reversal Entry program.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Manage Subledger Journal Entry Manually	Allows recording of manual journal entries.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Override Subledger Journal Entry	Allows override of subledger journal entries.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Post Journal	Allows journals to be posted.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Post Subledger Journal Entry to General Ledger	Allows submission of the program to transfer to and post journal entries in General Ledger.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Purge Accounting Event Diagnostic Data	Allows submission of programs to generate and purge transaction objects diagnostics data.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Review Subledger Journal Entry	Allows inquiries on subledger journal entries and entry lines.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis,	Run Global Journals and Third Party Report	Allows review of the journals and related third party information.

Granted Role	Granted Role Description	Privilege	Privilege Description
	journal entries, and period close exceptions reports.		
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Run Global Subledger Detail Journal Report	Allows review of the journals and related subledger details.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Run Global Third Party Account Balance Report	Allows review of the third party account balances.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Run Global Third Party Balances Summary Report	Allows review of the third party account balances summary.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Run Global Third Party Detail and Balances Report	Allows review of the third party details and account balances summary.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Run Import Journals By Program Call	Allows submission of the journal import program by a program call.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Submit Account Analysis Report	Allows submission of the Account Analysis report.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Submit Accounting Event Diagnostic Report	Allows submission of programs to generate and purge transaction objects diagnostics data.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Submit Journal Entries Report	Allows submission of the Journal Entries report.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis,	Submit Subledger Period Close Exceptions Report	Allows submission of the Period Close Exceptions report.

Granted Role	Granted Role Description	Privilege	Privilege Description
	journal entries, and period close exceptions reports.		
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Submit Third Party Balances Report	Allows submission of the Third Party Balances report.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Submit Trading Partner Summary Report	Run Trading Partner Summary Report
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Transfer Online Journal Entry to General Ledger	Allows submission of the program to transfer journal entries to General Ledger for online accounting.
Subledger Accounting Manager	Creates accounting for transactions, reviews journal entries, and runs account analysis, journal entries, and period close exceptions reports.	Update Subledger Accounting Balance	Allows submission of the program to update subledger third party account and supporting reference balances.
Subledger Accounting Reporting	Runs all subledger accounting reports, and reviews journal entries.	Create Journal Entries Reporting Sequence Number	Allows generation of the General Ledger journal entries reporting sequence number at period close.
Subledger Accounting Reporting	Runs all subledger accounting reports, and reviews journal entries.	Review Subledger Journal Entry	Allows inquiries on subledger journal entries and entry lines.
Subledger Accounting Reporting	Runs all subledger accounting reports, and reviews journal entries.	Submit Account Analysis Report	Allows submission of the Account Analysis report.
Subledger Accounting Reporting	Runs all subledger accounting reports, and reviews journal entries.	Submit Journal Entries Report	Allows submission of the Journal Entries report.
Subledger Accounting Reporting	Runs all subledger accounting reports, and reviews journal entries.	Submit Subledger Period Close Exceptions Report	Allows submission of the Period Close Exceptions report.
Subledger Accounting Reporting	Runs all subledger accounting reports, and reviews journal entries.	Submit Third Party Balances Report	Allows submission of the Third Party Balances report.

Granted Role	Granted Role Description	Privilege	Privilege Description
Subledger Accounting Reporting	Runs all subledger accounting reports, and reviews journal entries.	Submit Trading Partner Summary Report	Run Trading Partner Summary Report
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Check Funds	Check whether sufficient funds are available for a transactions
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Reserve Funds	Check whether sufficient funds are available for a transactions, and if so, reserve the funds
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budget Impact	Review the budgetary control results of a transaction and its budget impact
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budget Period Statuses	Allows inquiry on the budget period status.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budgetary Control Balances	Review budget consumption balances
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budgetary Control Transactions	Review budget consumption balances by transaction
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Transfer Budget Balances to Budget Cubes Continuously	Allows the submission of a process to continuously transfer budget balances to the budgetary control balances reporting multidimensional database.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	View Funds Available Balances	Allows access to view the budgetary control validation results.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Project Accountant job role.

Business Object	Policy Description	Policy Store Implementation
Accounting Period Status	A Project Accountant can manage accounting period status for the business units for which they are authorized	Role: Project Accountant Privilege: Manage Accounting Period Status Resource: Business Unit
Application Attachment	A Project Accountant can view application attachment for the categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Project Accountant Privilege: Read Application Attachment Resource: Application Attachment
Ledger	A Project Accountant can manage ledger for subledger for the posting ledgers for transactions that they are authorized.	Role: Subledger Accounting Manager Privilege: Manage Ledger for Subledger (Data) Resource: Ledger
Ledger	A Project Accountant can manage ledger for subledger for the posting ledgers for transactions that they are authorized.	Role: Subledger Accounting Reporting Privilege: Manage Ledger for Subledger (Data) Resource: Ledger
Party Tax Profile	A Project Accountant can manage business unit party tax profile for the business units for which they are authorized	Role: Customer Account Inquiry Privilege: Manage Business Unit Party Tax Profile (Data) Resource: Business Unit
Project Allocation Transaction	A Project Accountant can manage project allocation transaction for the business units for which they are authorized	Role: Project Accountant Privilege: Manage Project Allocation Transaction (Data) Resource: Business Unit
Project Billing Accounting Event	A Project Accountant can manage project billing accounting event for the business units for which they are authorized	Role: Project Accountant Privilege: Manage Project Billing Accounting Event (Data) Resource: Business Unit

Business Object	Policy Description	Policy Store Implementation
Project Billing Event	A Project Accountant can manage project billing event for the business units for which they are authorized	Role: Project Accountant Privilege: Manage Project Billing Event (Data) Resource: Business Unit
Project Billing Event	A Project Accountant can manage project billing event for the business units, or the projects, on which the user is authorized to manage project billing events	Role: Projects Reporting Analysis Privilege: Manage Project Billing Event (Data) Resource: Project Billing Event
Project Billing Event	A Project Accountant can view project billing event for the business units, or the projects, on which the user is authorized to manage project billing events	Role: Project Accountant Privilege: Manage Project Billing Event (Data) Resource: Project Billing Event
Project Billing Exception	A Project Accountant can manage project billing exception for the business units for which they are authorized	Role: Project Accountant Privilege: Manage Project Billing Exception (Data) Resource: Business Unit
Project Capital Asset	A Project Accountant can manage project capital asset for the business units for which they are authorized	Role: Project Accountant Privilege: Manage Project Capital Asset (Data) Resource: Business Unit
Project Capital Asset	A Project Accountant can view project capital asset for the business units for which they are authorized	Role: Project Accountant Privilege: View Project Capital Asset (Data) Resource: Business Unit
Project Capital Interest Transaction	A Project Accountant can review project capital interest transaction for the business units for which they are authorized	Role: Project Accountant Privilege: Review Project Capitalized Interest Transaction (Data) Resource: Business Unit
Project Contract Revenue	A Project Accountant can maintain project contract revenue for the business units for which they are authorized	Role: Project Accountant Privilege: Maintain Project Contract Revenue (Data) Resource: Business Unit
Project Expenditure Item	A Project Accountant can manage project expenditure item for the business units for which they are authorized	Role: Project Accountant Privilege: Manage Project Expenditure Item (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Business Unit
Project Expenditure Item	A Project Accountant can manage project expenditure item for the business units, or the projects, on which the user is authorized to manage expenditure items	Role: Projects Reporting Analysis Privilege: Manage Project Expenditure Item (Data) Resource: Project Expenditure Item
Project Expenditure Item	A Project Accountant can view project expenditure item for the business units for which they are authorized	Role: Project Accountant Privilege: View Project Expenditure Item (Data) Resource: Business Unit
Project Expenditure Item	A Project Accountant can view project expenditure item for the business units, or the projects, on which the user is authorized to manage expenditure items	Role: Project Accountant Privilege: Manage Project Expenditure Item (Data) Resource: Project Expenditure Item
Project Performance	A Project Accountant can review project performance for the business units for which they are authorized	Role: Project Accountant Privilege: Review Project Performance (Data) Resource: Business Unit
Project Unprocessed Expenditure Batch	A Project Accountant can manage project unprocessed expenditure batch for the business units for which they are authorized	Role: Project Accountant Privilege: Manage Project Unprocessed Expenditure Batch (Data) Resource: Business Unit
Project Unprocessed Expenditure Item	A Project Accountant can manage project unprocessed expenditure item for the business units for which they are authorized	Role: Project Accountant Privilege: Manage Project Unprocessed Expenditure Item (Data) Resource: Business Unit
Project Unprocessed Expenditure Item	A Project Accountant can manage project unprocessed expenditure item for the business units, or the projects, on which the user is authorized to manage unprocessed expenditure items	Role: Projects Reporting Analysis Privilege: Manage Project Unprocessed Expenditure Item (Data) Resource: Project Unprocessed Expenditure Item
Project Unprocessed Expenditure Item	A Project Accountant can view project unprocessed expenditure item for the business units, or the projects, on which the	Role: Project Accountant Privilege: Manage Project Unprocessed Expenditure Item (Data)

Business Object	Policy Description	Policy Store Implementation
	user is authorized to manage unprocessed expenditure items	Resource: Project Unprocessed Expenditure Item
Projects Period Status	A Project Accountant can manage accounting period status for the corresponding oracle fusion accounting subledger application	Role: Manage Projects Accounting Period Status Privilege: Manage Accounting Period Status (Data) Resource: Projects Period Status
Projects Period Status	A Project Accountant can view accounting period status for the corresponding oracle fusion accounting subledger application	Role: Review Projects Accounting Period Status Privilege: View Accounting Period Status (Data) Resource: Projects Period Status
Public Person	A Project Accountant can choose public person for persons and assignments in their person and assignment security profile	Role: Project Accountant Privilege: Choose Public Person (Data) Resource: Public Person
Public Person	A Project Accountant can report public person for persons and assignments in their person and assignment security profile	Role: Projects Reporting Analysis Privilege: Report Public Person (Data) Resource: Public Person
Public Person	A Project Accountant can view public person for persons and assignments in their person and assignment security profile	Role: Project Accountant Privilege: Report Public Person (Data) Resource: Public Person
Subledger Accounting Balance	A Project Accountant can manage subledger accounting balance for the subsidiaries or management segment values whose account balance they manage	Role: Subledger Accounting Manager Privilege: Manage Subledger Accounting Balance (Data) Resource: Subledger Accounting Balance
Subledger Accounting Balance	A Project Accountant can manage subledger accounting balance for the subsidiaries or management segment values whose account balance they manage	Role: Subledger Accounting Reporting Privilege: Manage Subledger Accounting Balance (Data) Resource: Subledger Accounting Balance
Subledger Application	A Project Accountant can manage subledger application for the owning oracle fusion accounting generating subledger application.	Role: Subledger Accounting Manager Privilege: Manage Subledger Application (Data) Resource: Subledger Application

Business Object	Policy Description	Policy Store Implementation
Subledger Application	A Project Accountant can manage subledger application for the owning oracle fusion accounting generating subledger application.	Role: Subledger Accounting Reporting Privilege: Manage Subledger Application (Data) Resource: Subledger Application
Subledger Journal Entry	A Project Accountant can manage subledger source transaction for the business units, cost organizations, asset books or legislative data groups, and the subledger applications for which they are authorized	Role: Subledger Accounting Manager Privilege: Manage Subledger Source Transaction (Data) Resource: Subledger Journal Entry
Subledger Journal Entry	A Project Accountant can manage subledger source transaction for the business units, cost organizations, asset books or legislative data groups, and the subledger applications for which they are authorized	Role: Subledger Accounting Reporting Privilege: Manage Subledger Source Transaction (Data) Resource: Subledger Journal Entry
Subledger Source Transaction	A Project Accountant can manage subledger source transaction for the business units, cost organizations, asset books or legislative data groups, and the subledger applications for which they are authorized	Role: Subledger Accounting Manager Privilege: Manage Subledger Source Transaction (Data) Resource: Subledger Source Transaction
Subledger Source Transaction	A Project Accountant can manage subledger source transaction for the business units, cost organizations, asset books or legislative data groups, and the subledger applications for which they are authorized	Role: Subledger Accounting Reporting Privilege: Manage Subledger Source Transaction (Data) Resource: Subledger Source Transaction
Tax Exemption	A Project Accountant can manage tax exemption for the tax setup applicable to the business units for which they are responsible	Role: Customer Account Inquiry Privilege: Manage Tax Exemption (Data) Resource: Business Unit
Trading Community Customer Account	A Project Accountant can view customer account for all customer accounts in the enterprise	Role: Customer Account Inquiry Privilege: View Customer Account (Data) Resource: Trading Community Customer Account
Trading Community Customer Account Relationship	A Project Accountant can view customer account relationship for all customer account relationships in the enterprise	Role: Customer Account Inquiry Privilege: View Customer Account Relationship (Data) Resource: Trading Community Customer Account Relationship

Business Object	Policy Description	Policy Store Implementation
Trading Community Customer Account Relationship	A Project Accountant can view trading community customer account relationship for the reference data sets for which they are authorized	Role: Project Accountant Privilege: View Customer Account Relationship (Data) Resource: Reference Data Set
Trading Community Customer Account Site	A Project Accountant can view customer account site for all customer account sites in the enterprise	Role: Customer Account Inquiry Privilege: View Customer Account Site (Data) Resource: Trading Community Customer Account Site
Trading Community Customer Account Site Use	A Project Accountant can view customer account site use for all customer account site uses in the enterprise	Role: Customer Account Inquiry Privilege: View Customer Account Site Use (Data) Resource: Trading Community Customer Account Site Use
Trading Community Organization Party	A Project Accountant can view trading community organization for all organizations in the enterprise	Role: Customer Account Inquiry Privilege: View Trading Community Organization (Data) Resource: Trading Community Organization Party
Trading Community Party	A Project Accountant can view trading community person for all people in the enterprise	Role: Customer Account Inquiry Privilege: View Trading Community Person (Data) Resource: Trading Community Party
Trading Community Relationship	A Project Accountant can view trading community relationship for all trading community relationships in the enterprise	Role: Customer Account Inquiry Privilege: View Trading Community Relationship (Data) Resource: Trading Community Relationship
Trading Community Relationship	A Project Accountant can view trading community relationship for all trading community relationships in the enterprise	Role: Project Accountant Privilege: View Trading Community Relationship (Data) Resource: Trading Community Relationship
Trading Community Relationship	A Project Accountant can view trading community relationship for all trading community relationships in the enterprise	Role: Project Accountant

Business Object	Policy Description	Policy Store Implementation
	except partner contact relationships, or relationships created by partners	Privilege: View Trading Community Relationship (Data) Resource: Trading Community Relationship

Privacy

This table lists data security policies for privacy for the Project Accountant job role.

Business Object	Policy Description	Policy Store Implementation
Party Tax Profile	A Project Accountant can manage party tax profile for any party tax profile defined in the enterprise	Role: Customer Account Inquiry Privilege: Manage Party Tax Profile (Data) Resource: Party Tax Profile
Party Tax Profile	A Project Accountant can manage party tax profile taxpayer identifier for organizations of type individual party tax profile taxpayer identifier defined in the enterprise.	Role: Customer Account Inquiry Privilege: Manage Party Tax Profile Taxpayer Identifier (Data) Resource: Party Tax Profile
Tax Registration	A Project Accountant can manage tax registration for any tax registration defined in the enterprise	Role: Customer Account Inquiry Privilege: Manage Tax Registration (Data) Resource: Tax Registration
Withholding Party Tax Profile	A Project Accountant can manage party tax profile taxpayer identifier for organizations of type individual party tax profile taxpayer identifier defined in the enterprise.	Role: Customer Account Inquiry Privilege: Manage Party Tax Profile Taxpayer Identifier (Data) Resource: Withholding Party Tax Profile

Project Administrator (Job Role)

Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.

Role Hierarchy

The Project Administrator job role directly and indirectly inherits these roles.

- Project Administrator
  - FSCM Load Interface Administration
  - Project Budget Management
  - Project Budget Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Change Summary Generation Assistant
  - Project Contract Invoice Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Contract Revenue Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Costing Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Definition
  - Project Foundation Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Inquiry
  - Project Plan Management
  - Project foundation setup inquiry
  - Projects Folder Reporting
  - Projects Reporting Analysis
  - Transaction Entry with Budgetary Control
    - Business Intelligence Consumer

Duties

This table lists the duties assigned directly and indirectly to the Project Administrator job role.

Duty Role	Description
Business Intelligence Authoring	An author of Business Intelligence reports as presented in the web catalog. The role allows authoring within Business Intelligence Applications, Business Intelligence Publisher, Real Time Decisions, Enterprise Performance Management and Business Intelligence Office.

Duty Role	Description
Business Intelligence Consumer	A role required to allow reporting from Business Intelligence Applications, Business Intelligence Publisher, Real Time Decisions, Enterprise Performance Management and Business Intelligence Office. This role allow you to run reports from the web catalog but it will not allow a report to be authored from a subject area.
FSCM Load Interface Administration	Manages load interface file for import
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.
Project Budget Transaction Analysis	Analyzes Project Budget transactional information
Project Change Summary Generation Assistant	Analyzes project change order details to generate summaries highlighting scope, financial, and schedule impacts.
Project Contract Invoice Transaction Analysis	Analyzes Project Contract Invoice transactional information
Project Contract Revenue Transaction Analysis	Analyzes Project Contract Revenue transactional information
Project Costing Transaction Analysis	Analyzes Project Costing transactional information
Project Definition	Edits project and task attributes.
Project Foundation Transaction Analysis	Analyzes Project Foundation transactional information
Project Inquiry	Allows inquiry into project definitions.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.
Project Transactional Analysis Currency Preference	This role is used to get the supported currencies in Project Transactional Analysis module.
Project foundation setup inquiry	Allows inquiry into project-related setup configurations.
Projects Folder Reporting	Grants access to the Projects web catalog folder.
Projects Reporting Analysis	Access project Business Intelligence Applications data.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.

Duty Role	Description
Transactional Analysis	This duty is used for various generic OTBI security and filtering purposes and is therefore required for all OTBI users.

Privileges

This table lists privileges granted to duties of the Project Administrator job role.

Granted Role	Granted Role Description	Privilege	Privilege Description
FSCM Load Interface Administration	Manages load interface file for import	Access FSCM Integration Rest Service	Allow financials and supply chain users to access the methods associated with the Integration Rest Service.
FSCM Load Interface Administration	Manages load interface file for import	Load File to Interface	Allows file data load to interface tables
FSCM Load Interface Administration	Manages load interface file for import	Load Interface File for Import	Allows a user to load interface file for import
FSCM Load Interface Administration	Manages load interface file for import	Manage File Import and Export	Privilege to manage import and export of files.
FSCM Load Interface Administration	Manages load interface file for import	Transfer File	Allows management of file transfer from server
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Activate Project Schedule of Values	Enables the user to activate a project schedule of values
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Activate Project Schedule of Values Without Approval	Enables the user to bypass approval while activating a project schedule of values.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Close Project Schedule of Values	Enables the user to close Project Schedule of Values.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Close Project Schedule of Values Lines	Enables the user to close Project Schedule of Values Lines.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Close Project Schedule of Values Without Approval	Enables the user to bypass approval while closing a project schedule of values.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Create Project	Allows creation of project from another existing project or a project template.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Delete Project Schedule of Values Without Approval	Enables the user to bypass approval while deleting a project schedule of values.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Enable Budgetary Control	Allows the configuration to enable budgetary control for ledgers, business units and business functions.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Export Customer Account	Not Available
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Export Customer Account Contact	Allows the export of customer account contact information.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Export Customer Account Relationship	Allows the export of customer account contact relationship information.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Export Project from Third-Party Scheduling Software	Allows sending project from third-party scheduling software to Projects.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Get Item Class Rest	Allows query access to item Classes through the REST API.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Import Budget Amounts	Allows the submission of a process to import budget from the open budget interface tables.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Import Project into Third-Party Scheduling Software	Allows receiving of project from Projects into third-party scheduling software.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Lock Project Forecast Working Version	Allows locking and unlocking of working forecast versions for projects for which the user is authorized.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Maintain Project Set	Maintain Project Sets
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Manage Budget Period Statuses	Allows update of the budget period status.

Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	View Project Forecast Approved Version	Allows access to view approved versions of project forecasts.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	View Project Forecast Working Version	Allows access to view working versions of project forecasts.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	View Project Home	Allows viewing of the project home page.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	View Project Labor Cost	Allows viewing of project labor cost on a project expenditure item.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	View Project List	Allows viewing of the project list.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions	View Project Notes	Allows viewing of notes region in project home page.

Granted Role	Granted Role Description	Privilege	Privilege Description
	related to collecting and entering information into the project application.		
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	View Project Schedule	Allows viewing of project schedule information in project home.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	View Project Schedule of Values	Enables the user to view Project Schedule of Values.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	View Project Schedule of Values Associations	Enables the user to view Project Schedule of Values Associations
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	View Purchase Order as Procurement Requester	Allows a procurement requester to review a purchase order.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	View Units Of Measure List of Values by Web Service	Allow viewing units of measure list of values by web service.
Project Administrator	Assists the project manager with the administrative functions of a project, particularly the functions related to collecting and entering information into the project application.	Withdraw Project Schedule of Values Approval	Enables the user to withdraw the requested approval for project schedule of values.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Lock Project Budget Working Version	Allows locking and unlocking of working budget versions for projects for which the user is authorized.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Budget	Allows access to budget versions created for a project.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Budget Excel Integration	Allows information exchange with a scheduling application, using the integration gateway, for projects for which the user is authorized.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Budget Working Version	Allows access to manage working versions of project budgets. Allows export of working budget version from Excel to Projects. Also, allows submission of working versions for baseline creation and rework of rejected versions.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Burden Schedule	Allows updating of multipliers used to calculate the burdened cost, revenue, and bill amount of each expenditure item.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Planning Resource Breakdown Structure Version	Allows updating of project resource breakdown structures for the projects for which the user is authorized.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Run Generate Financial Plan	Allows submission of process to generate budget or forecast versions for projects for which the user is authorized.
Project Definition	Edits project and task attributes.	Manage Project Task Structure for Billable Tasks	Allows creation, update, and deletion of billable project tasks and task attributes.
Project Definition	Edits project and task attributes.	Manage Project Task Structure for Nonbillable Tasks	Allows creation, update, and deletion of project tasks and task attributes that are not billable to a customer.
Project Definition	Edits project and task attributes.	Review Project Definition	Allows viewing of the project definition.
Project Definition	Edits project and task attributes.	Run Change Project and Task Organizations	Allows submission of the program to update organizations for projects and tasks.
Project Definition	Edits project and task attributes.	Update Project Definition	Allows the project definition web service to update the attributes on a project.
Project Definition	Edits project and task attributes.	View Project Definition Basic Information	Allows viewing of project-level basic information.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Definition	Edits project and task attributes.	View Project Financial Definition Information	Allows viewing of project-level financial information.
Project Definition	Edits project and task attributes.	View Project Reporting Definition Information	Allows viewing of project-level reporting information.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Burden Schedule	Allows updating of multipliers used to calculate the burdened cost, revenue, and bill amount of each expenditure item.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Forecast	Allows access to forecast versions created for a project.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Forecast Excel Integration	Allows access to export working forecast versions to Microsoft Excel.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Forecast Working Version	Allows creation, update, and deletion of working versions of project forecasts. Allows export of working forecast versions from Excel to Projects. Also, allows submission of working versions for approval and rework of rejected versions.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Plan Resource Assignment	Allows access to manage task assignments for projects.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Planning Resource Breakdown Structure Version	Allows updating of project resource breakdown structures for the projects for which the user is authorized.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Progress	Allows access to project progress.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Task Structure for Billable Tasks	Allows creation, update, and deletion of billable project tasks and task attributes.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Task E-Mail Notification Service	Allows project users to send notifications while managing project tasks and to-do tasks using a service.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Run Generate Financial Plan	Allows submission of process to generate budget or forecast versions for projects for which the user is authorized.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	View Project Plan Resource Assignment	Allows access to view task assignments for projects.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	View Project Progress	Allows access to view project progress.
Projects Reporting Analysis	Access project Business Intelligence Applications data.	View Project Home	Allows viewing of the project home page.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Check Funds	Check whether sufficient funds are available for a transactions
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Reserve Funds	Check whether sufficient funds are available for a transactions, and if so, reserve the funds
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budget Impact	Review the budgetary control results of a transaction and its budget impact
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budget Period Statuses	Allows inquiry on the budget period status.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budgetary Control Balances	Review budget consumption balances
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budgetary Control Transactions	Review budget consumption balances by transaction

Granted Role	Granted Role Description	Privilege	Privilege Description
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Transfer Budget Balances to Budget Cubes Continuously	Allows the submission of a process to continuously transfer budget balances to the budgetary control balances reporting multidimensional database.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	View Funds Available Balances	Allows access to view the budgetary control validation results.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Project Administrator job role.

Manage User Account	Manages user roles.
Manage Users	Creates and updates users and assigns roles to users.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.
Project Resource Assignment	Directly assigns a resource to a project without approval from the resource manager. Edits project resource assignment attributes such as from and to dates, effort, allocation percentage, and cost and bill rates.

Duty Role	Description
Project Transaction Approval Reviewing	Allows viewing the status of project transactions due for approval and taking appropriate action to expedite the approval process.
Projects Folder Reporting	Grants access to the Projects web catalog folder.
Resource Administration	Administers resource information.
Upload data for Grants Management Import	Allows to upload data file to import Grants Management related data.
Upload data for Project Billing Import	Allows to upload data file to import project billing related data.
Upload data for Project Control Import	Allows to upload data file to import Project Control related data.
Upload data for Project Costing Import	Allows to upload data file to import project costing data.
Upload data for Project Enterprise Resource Import	Allows to upload data file to import projects enterprise resources.
Upload data for Project Foundation Import	Allows to upload data file to import Project Foundation related data.
Upload data for Project Management Import	Allows to upload data file to import project management data.
Upload data for Project Resource Management Import	Allows to upload data file to import Project Resource Management related data.
Upload data for Project Setup Import	Allows to upload data file to import project setup related data.

Aggregate Privileges

This table lists aggregate privileges assigned directly and indirectly to the Project Application Administrator job role.

Aggregate Privilege	Description
Edit User Name	Updates the user name associated with a person.
Manage Projects Accounting Period Status	Manages Oracle Fusion Projects period status.
Manage User Roles	Allows management of user roles assignments.

Aggregate Privilege	Description
Use REST Service - Public Workers Read Only	Allows the user to call the GET method associated with the Public Workers REST Service.
Use User Details Service	Creates or updates users during person synchronizations.

Privileges

This table lists privileges granted to duties of the Project Application Administrator job role.

Granted Role	Granted Role Description	Privilege	Privilege Description
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Currency	Manage currencies used by applications.
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference ISO Language	Manage ISO Languages used by applications.
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Industry	Manage Industries used by applications
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Language	Manage Languages used by applications
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Natural Language	Manage Natural Languages used by applications
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Territory	Manage Territories used by applications
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Timezone	Manage Timezones used by applications

Granted Role	Granted Role Description	Privilege	Privilege Description
AttachmentsWCCintegrato	DUTYroleforAttachmentsWCCintegr	Access Attachments Certificate Manager REST resource	Allows accessing the attachments Certificate Manager REST resource.
Contract Setup	Contract Setup	(OBSOLETE) Define Contract Collaboration Configuration	Allows the configuration of contract collaboration.
Contract Setup	Contract Setup	Administer Sandbox	Allows administration of all sandboxes.
Contract Setup	Contract Setup	Build Keyword Search Index for the Contract Terms Library	Allows the running of processes to synchronize and optimize the keyword index for clause and terms template searches in the Contract Terms Library.
Contract Setup	Contract Setup	Configure Contract UI	Allows the configuration of contract UI
Contract Setup	Contract Setup	Define Endpoint and Security Policy Information	Allows definition of endpoint and security policy information for an enterprise application.
Contract Setup	Contract Setup	Define Project Contract Billing Configuration	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Generate PDF Contract for Text Search	Allows the running of the process to generate PDFs of draft contracts, or contracts under amendment, so they are available during text searches.
Contract Setup	Contract Setup	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Contract Setup	Contract Setup	Manage Application Common Lookup	Not Available
Contract Setup	Contract Setup	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Contract Setup	Contract Setup	Manage Application Document Sequence	Manage implementation of Application Document Sequences. Document Sequences are identifiers guarenteed to be unique, time-ordered, and gapless. This is in contrast to a database sequence which (for performance purposes) may contain gaps and which might not be ordered

Granted Role	Granted Role Description	Privilege	Privilege Description
			by time of document creation. Examples would include ID numbers for traffic tickets or other legal documents where gaps in the record may trigger an investigation.
Contract Setup	Contract Setup	Manage Application Document Sequence Category	Manage document sequence categories
Contract Setup	Contract Setup	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Contract Setup	Contract Setup	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Contract Setup	Contract Setup	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Contract Setup	Contract Setup	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Contract Setup	Contract Setup	Manage Contract Currency Conversion Rate Types	Allows the definition of user-defined currency conversion rate types.
Contract Setup	Contract Setup	Manage Contract Customer Account	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Customer Account Site Usages	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Defaults	Allows management of contract defaults
Contract Setup	Contract Setup	Manage Contract Global Employee	Allows the viewing of this task in the Functional Setup Manager.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Contract Interaction Reference Mapping	Allows the mapping of interaction types to applications where the interaction types can be used.
Contract Setup	Contract Setup	Manage Contract Layout Templates	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Item	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Type	Allows creating and managing of contract line types such as product and service.
Contract Setup	Contract Setup	Manage Contract Note Type Mapping	Allows creating and managing of the mapping that provides a tailored list of note type values for contracts. When no mapping is specified, note type values mapped to the object Note are used.
Contract Setup	Contract Setup	Manage Contract Organization Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Contact	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Location	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Role and Contact Sources	Allows the specification of the data sources for parties and contacts. A data source specifies the available list of values for parties or contacts of a given role.
Contract Setup	Contract Setup	Manage Contract Payment Terms	Allows creating and managing of payables payment terms for use in supplier contracts.
Contract Setup	Contract Setup	Manage Contract Person Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Request Type	Manage contract request types.
Contract Setup	Contract Setup	Manage Contract Risk Event	Allows creating and managing of contract risk events that can be associated to a contract.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Contract Standard Clauses, Templates, and Contract Expert Rules	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Type	Allows the management of contract types to specify properties of different contracts such as the type of permitted contract lines, party roles, contract validation checks, and the contract acceptance and signature requirements.
Contract Setup	Contract Setup	Manage Contract and Pricing Integration	Not Available
Contract Setup	Contract Setup	Manage Coverage Times	Allows management of coverage times
Contract Setup	Contract Setup	Manage Default Coverage	Allows management of default coverage
Contract Setup	Contract Setup	Manage Electronic Signature Setup	Allows setting up electronic signature
Contract Setup	Contract Setup	Manage Key Terms and Prompts	Allows the definition of contract key terms and prompts. This also includes adding key terms to contract types.
Contract Setup	Contract Setup	Manage Matrix Classes	Allows creation, update, deletion, copy, and viewing of all matrix classes and child entities.
Contract Setup	Contract Setup	Manage Pricing Algorithms	Allows creation, update, deletion, copy, and viewing of all algorithms and child entities.
Contract Setup	Contract Setup	Manage Service Mappings	Allows creation, update, deletion, copy, and viewing of all service mappings and child entities.
Contract Setup	Contract Setup	Manage Standard Coverage	Allows management of standard coverage
Contract Setup	Contract Setup	Manage Time Unit Mappings	Allows management of time unit mappings
Contract Setup	Contract Setup	Manage User Statuses and Transitions	Manage user statuses and transitions

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Process Installed Base updates	Processes installed base updates.
Contract Setup	Contract Setup	Specify Customer Contract Management Business Function Properties	Allows specifying and managing of currency conversion rules, project billing rules and default values, adoption rules for contract standards and policies, and other contract management functions during business unit setup.
Contract Setup	Contract Setup	Specify Procurement Contract Management Business Function Properties	Allows specification of supplier contract management properties during business unit setup. This includes the specification of contract standards, policies, and adoption rules.
Contract Setup	Contract Setup	Track Purchasing Activity for Contract Fulfillment Line	Allows the running of the process that retrieves the number and the status of the purchasing document created by the integrated procurement application from the contract fulfillment line.
Contract Setup	Contract Setup	Update Contract Status	Updates the status of contracts that are dependent on time. For example, updates the status to expired when the end date is reached.
Contract Setup	Contract Setup	Update Enterprise Application Deployment Information	Allows updating deployment information of an enterprise application.
Contract Setup	Contract Setup	Use Generative AI Features in Sales	Allows users to use generative ai features
Contract Setup	Contract Setup	View Administration Link	Privilege to view administration link in UI shell
Contract Setup	Contract Setup	View Contract Type	Allows viewing of the contract type and its attributes.
FSCM Load Interface Administration	Manages load interface file for import	Access FSCM Integration Rest Service	Allow financials and supply chain users to access the methods associated with the Integration Rest Service.
FSCM Load Interface Administration	Manages load interface file for import	Load File to Interface	Allows file data load to interface tables

Granted Role	Granted Role Description	Privilege	Privilege Description
FSCM Load Interface Administration	Manages load interface file for import	Load Interface File for Import	Allows a user to load interface file for import
FSCM Load Interface Administration	Manages load interface file for import	Manage File Import and Export	Privilege to manage import and export of files.
FSCM Load Interface Administration	Manages load interface file for import	Transfer File	Allows management of file transfer from server
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Execute Setup Tasks	Allows setup task execution and searching of tasks and tasks lists.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Review Applications Offering	Provides access to the Getting Started page.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Review Setups Functional User Overview	Allows access to the Assigned Implementation Tasks page.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Setup and Maintain Applications	Allows access to the Setup and Maintenance work area.
Grants Management Administration	Configures business unit implementation options, reference types, grants personnel, keywords, institutions, and other setup objects.	Manage Award Service	Allows access to award service for management of award information such as keywords, funding sources, and budget periods.
Grants Management Administration	Configures business unit implementation options, reference types, grants personnel, keywords, institutions, and other setup objects.	Manage Award Template	Allows management of standard awards used for creating other awards.
Grants Management Administration	Configures business unit implementation options, reference types, grants personnel, keywords, institutions, and other setup objects.	Manage Grants Certification	Allows management of regulatory requirements, such as use of nonhazardous equipment or provision of a smoke-free environment, that institutions, awards, or award projects must comply with to receive federal funding.
Grants Management Administration	Configures business unit implementation options, reference types, grants personnel, keywords, institutions, and other setup objects.	Manage Grants Federal Domestic Assistance Program	Allows management of programs, projects, services, and activities administered by US federal departments and establishments.
Grants Management Administration	Configures business unit implementation options, reference types, grants personnel, keywords,	Manage Grants Institution	Allows management of the high-level entity that receives grants

Granted Role	Granted Role Description	Privilege	Privilege Description
	institutions, and other setup objects.		or awards to conduct research or studies.
Grants Management Administration	Configures business unit implementation options, reference types, grants personnel, keywords, institutions, and other setup objects.	Manage Grants Keyword	Allows management of keywords that are used to track awards by subject category, for example, cell biology, electrical engineering, or history.
Grants Management Administration	Configures business unit implementation options, reference types, grants personnel, keywords, institutions, and other setup objects.	Manage Grants Management Business Unit Configuration	Allows configuration of the business unit level options, such as legal entity, burden schedule, and currency, that determine processing of award and award project transactions.
Grants Management Administration	Configures business unit implementation options, reference types, grants personnel, keywords, institutions, and other setup objects.	Manage Grants Personnel	Allows management of the subset of personnel data defined in HCM that is used to maintain grants-specific information, such as persons who can be principal investigators or keywords associated with principal investigators.
Grants Management Administration	Configures business unit implementation options, reference types, grants personnel, keywords, institutions, and other setup objects.	Manage Grants Reference	Allows management of user-defined values, for example proposal number, that identify awards.
Grants Management Administration	Configures business unit implementation options, reference types, grants personnel, keywords, institutions, and other setup objects.	Manage Grants Sponsor	Allows management of the subset of customers who funds research projects.
Grants Management Administration	Configures business unit implementation options, reference types, grants personnel, keywords, institutions, and other setup objects.	Manage Grants Terms and Conditions	Allows management of obligatory stipulations that sponsors specify on an agreement or contract for monitoring activates associated with an award.
Manage User Account	Manages user roles.	Copy Personal Data to LDAP	Allows copy of worker personal data to LDAP
Manage User Account	Manages user roles.	Manage User Account	Allows access to Manage User Account.
Manage User Account	Manages user roles.	Manage User Account and My Account	Allows access to the page components that are common to My Account and Manage User Account.

Granted Role	Granted Role Description	Privilege	Privilege Description
Manage User Account	Manages user roles.	Reset Password	Allows reset password links to be emailed to users.
Manage Users	Creates and updates users and assigns roles to users.	Manage User Details	Allows management of user account information.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Assign Roles to User	Allows assignment of roles to users.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Customize Projects UI	Allows configuration of Projects pages
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Enable Sell Intent	Allows all actions permitted by other privileges for contracts with a sell intent. For example, granting this privilege to an individual with a view privilege permits the viewing of customer contracts. Granting this privilege to an individual with the delete contracts privilege permits the deletion of customer contracts.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Maintain Reports and Analytics Region	Allows selection of reports to appear in the Reports and Analytics region of Oracle Fusion Applications work areas.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Application Key Flexfield	Allows management of application key flexfields.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Application Menu Customization	Manage application menu customizations
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Application Tree	Manage application trees and tree versions
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Application Tree Label	Manage application tree labels

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Application Tree Structure	Manage application tree structures
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Contract Bill Rate Overrides Service	Allows access to the Contract Project and Task Bill Rate Overrides REST service for viewing and creating bill rate overrides for a contract bill plan or revenue plan.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Data Access for Users	Manage data access for user provisioned roles.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Extensible Object	Allows the extension of the base application using the CRM Application Composer. Includes the ability to manage custom objects, as well as the ability to manage business events and e-mail templates, and custom subject areas for reporting.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Help Content	Allows addition, modification, and maintenance of help content.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Inventory Transaction Sources and Types	Allows configuration of inventory transaction sources and types. Transaction sources are used while performing transactions to classify transactions according to their origin, such as purchase order, sales order, account number, or physical inventory. Transaction types are user-defined and used to identify the various inventory transactions.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Person	Allows management of person information such as name, addresses, and biographical information.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Project Capital Assets Service	Allows access to the project assets service to view, create, update, and delete assets and asset assignments in Project Financial
Project Application Administrator	Collaborates with project application users to maintain	Manage Project Change Orders Integration Service	Allows access to the project change orders service for creating, updating, or deleting

Granted Role	Granted Role Description	Privilege	Privilege Description
	consistent project application configuration, rules, and access.		change orders across the site for integration users.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Project Change Requests Service	Grants access to the project change requests management REST API.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Project Commitments Service	Allows access to the project commitments service to view, create, update, and delete external commitments in Project Financial Management applications using the service.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Project Data Migration	Allows sending project setup data from one instance to another instance.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Project Expenditure Items Service	Allows access to the project expenditure items service to view and update expenditure items in Project Financial Management applications using a service.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Project Financial Plans Service	Allows access to the project financial plans service for the creation, update, and maintenance of project plans, budgets, and forecasts using a service.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Project Organization	Allows classification of existing organizations to allow them to own projects and tasks or to incur expenditures on projects within the enterprise.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Project Program Service	Allows access to services to manage project programs, communication catalog objects, communication association properties, and user preference resets.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Project Progress	Allows access to project progress.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Project Service	Allows access to create and maintain projects and tasks in Project Portfolio Management from external applications using

Granted Role	Granted Role Description	Privilege	Privilege Description
			a service. The projects created using this service can be used for project work scheduling and project financial tracking.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Project Task Cost Rate Overrides Service	Allows access to the Project and Task Cost Rate Overrides REST service for viewing and creating cost rate overrides for a project.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Project Unit Organization	Allows creation of organizations to be used as project units in Projects.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Scheduled Processes	Allows management of Scheduled Processes
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage Task E-Mail Notification Service	Allows project users to send notifications while managing project tasks and to-do tasks using a service.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Manage User Details	Allows management of user account information.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Reset Password	Allows reset password links to be emailed to users.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Build New Organization Burden Rates	Allows submission of the program to build new organization burden rates.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Import Asset and Assignments Process	Allows submission of the process to import asset and asset assignments and allows the update of an asset to unassigned asset lines.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Import Award Process	Allows the import of awards, award projects, and award funding from external application using the Awards open interface.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Import Project Billing Events Process	Allows submission of the process to import project billing events from interface tables.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Import Project Budgets Process	Allows submission of process to import and maintain project budgets and budget attributes.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Import Project Contract Bill Transactions Process	Allows submission of process to import project contract bill transactions.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Import Project Enterprise Resources Process	Allows submission of program to import and maintain project enterprise resources.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Import Project Forecasts Process	Allows submission of the process to create forecast versions in Project Control based on data loaded into the Project Forecasts open interface table.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Import Project Key Performance Indicators Process	Allows submission of the process to import key performance indicators for projects and allows updating KPI assignments to projects.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Import Project Plan Process	Allows submission of the process to create projects and tasks in Project Control based on data loaded into the project plan open interface table.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Import Project Progress Process	Allows submission of the process to import project progress.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Import Project Resource Requests Process	Allows submission of the program that imports project resource request data from interface tables and creates project resource requests.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Import Project Work Plan Process	Allows submission of program to import and maintain project work plan and its attributes

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Import Projects Process	Allows submission of program to import and maintain project and its attributes.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Import Resource Actual Hours Process	Allows submission of the program that loads resource actual hours worked data from interface tables.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Import Resource Breakdown Structures Process	Allows submission of the process that imports planning and billing resource breakdown structures data from the open interface and creates planning and billing resource breakdown structures.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Transfer Absence Records to Oracle Fusion Project Execution Process	Allows submission of the process that transfers new, updated, or withdrawn absence records to Project Execution Management applications, and updates Absence Management with the transfer status.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Update Program Performance	Allows submission of the process to summarize key performance indicators for programs.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Run Update Project Management Skills Process	Allows submission of the process to update digital assistant skills for project management.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	Set Watchlist Options	Allows specification of the Watchlist categories and items available at the site.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	View Project Expenditure Types Service	Allows access to the service to get the list of expenditure types.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	View Project Financial Tasks Service	Allows access to the service to view financial tasks.
Project Application Administrator	Collaborates with project application users to maintain	View Project Service	Allows access to the service to view project and task details in

Granted Role	Granted Role Description	Privilege	Privilege Description
	consistent project application configuration, rules, and access.		Project Portfolio Management from external applications. The service supports project information such as project name, project dates, customers, opportunities, and team members.
Project Application Administrator	Collaborates with project application users to maintain consistent project application configuration, rules, and access.	View Project Transaction Analysis Report	View project transaction analysis report for error details in rate calculations in costing, billing, work planning, and financial planning purposes.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Customize Project Execution UI	Allows configuration of Project Execution pages
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Maintain Project Resource Search Index	Allows submission of the programs to maintain search indexes for project enterprise resources.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Calendar Settings	Allows management of various settings such as shifts, workday patterns, schedules, and exceptions to schedules to maintain the calendars to assign to projects or project resources."

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Deliverable Types	Allows configuration of settings to control the deliverable types that can be used in classifying deliverables.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project EPS	Allows creation, update, and deletion of enterprise project structure nodes and association of projects to the nodes.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Enterprise Codes	Allows configuration of project enterprise settings to support attributes for projects and project tasks.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Enterprise Resource Maintenance Conditions	Allows management of conditions that identify the HCM person selection criteria used to create and maintain project enterprise labor resources, and the attribute values to assign to each resource.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Enterprise Resource Registration	Allows project tasks to be added, maintained, and assigned roles for accessing the project enterprise.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Enterprise Resources	Allows management of project enterprise resources, such as resource assignment to projects and tasks, and as owners of issues, deliverables and resource pools.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Enterprise Resources Service	Allows access to project enterprise resources interface service for management of project enterprise resources, such as resource assignment to projects and tasks, and as owners of issues, deliverables and resource pools.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions.	Manage Project Issue Types	Allows configuration of settings to control the issue types that can be used in reporting of issues.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Initiates processes to maintain the project resource search index.		
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Issues Service	Allows management of issues including issue creation and tracking, status update, and assignment of owners to resolve problems or questions that are encountered in the execution of a project using a service.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Management Customer-defined Objects	Allows access to customer-defined objects in Project Management.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Management Implementation Options	Allows configuration of fundamental enterprise operating settings to control options such as progress exception thresholds and the default calendar for projects and resources."
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise	Manage Project Management Roles	Allows management of roles that are used to control access to project-level information and for defining project resource requests.

Granted Role	Granted Role Description	Privilege	Privilege Description
	resource maintenance conditions. Initiates processes to maintain the project resource search index.		
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Management User Maintenance Service	Allows management of project users and assignment of roles, such as Project Manager, Project Team Member, and Resource Manager, to provide access to Projects applications using a service.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Plan Adapter Service	Allows access to the project plan adapter service for exchange of information with the project management applications.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Requirement Implementation Options	Allows configuration of settings to control the number of requirement levels, requirement level names, product family names, product names, and release names for the project enterprise."
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization	Manage Project Resource Calendar Events Service	Allows access to the project calendar service for creation and maintenance of project calendar and team member events from external applications to Project Management.

Granted Role	Granted Role Description	Privilege	Privilege Description
	percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.		
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Resource Management Implementation Options	Allows configuration of fundamental operating settings at the enterprise level to control options such as workflow notifications.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Resource Pools	Allows management of resource pools and the hierarchical relationships among the pools.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Resource Request Service	Allows access to the project resource request service for creation and maintenance of project resource requests from external applications to Project Resource Management.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles,	Manage Project Resource Staffing Statuses	Allows creation of additional resource staffing statuses.

Granted Role	Granted Role Description	Privilege	Privilege Description
	resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.		
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Service	Allows access to create and maintain projects and tasks in Project Portfolio Management from external applications using a service. The projects created using this service can be used for project work scheduling and project financial tracking.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Target Utilization Percentages	Allows management of the target utilization percentage for the enterprise and overrides to the enterprise-level percentage.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project enterprise resources, project roles, resource pools, target utilization percentages, and project enterprise resource maintenance conditions. Initiates processes to maintain the project resource search index.	Manage Project Task Service	Allows access to the project task service for the creation and maintenance of project tasks from external applications to Project Management.
Project Execution Application Administration	Performs setup tasks such as defining progress thresholds, default calendar options for projects and resources, enterprise codes for projects and tasks, and calendars to establish work schedules for projects and resources. Manages project	Manage Project Work Plan Service	Allows access to the project work plan service for creation of project, addition and organization of tasks, and maintenance of project and task details.

Configures setup options for integrating with external scheduling applications.	Manage Project Labor Costing Rules	Allows assigning of rules and rate schedules used to calculate labor and nonlabor costs for an organization.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Nonlabor Resource	Allows updating of the name and description of an asset or pool of assets to which usage items are charged.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Note Type	Allows creation of note types used to enter notes in Projects.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup	Manage Project Note Type Mapping	Allows mapping of note types to reference objects in Projects.

Granted Role	Granted Role Description	Privilege	Privilege Description
	tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.		
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Organization	Allows classification of existing organizations to allow them to own projects and tasks or to incur expenditures on projects within the enterprise.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Organization Costing Rules	Privilege to grant access to manage Organization Costing Rules
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Page Layouts	Allows implementation of project page layouts.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types,	Manage Project Performance Reporting Extension	Allows implementation and management of the extensions used to manage project performance status and project performance summarization.

Granted Role	Granted Role Description	Privilege	Privilege Description
	financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.		
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Period Profile	Allows creation, update, and deletion of period profiles that determine how periods are grouped and displayed when editing budgets, forecasts, and project plans.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Plan Type	Allows creation, update, and deletion of project plan types that contain default setup information and planning options used for creating project plans.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Planning Resource Breakdown Structure Version	Allows updating of project resource breakdown structures for the projects for which the user is authorized.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures	Manage Project Process Configurator	Allows creation and management of project process configurator used to define formulas and configurations for use in processes.

Granted Role	Granted Role Description	Privilege	Privilege Description
	setup options for integrating with external scheduling applications.		
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Program Options	Allows management of enterprise options for program management and analysis.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Rate Schedule	Allows defining of project rates and schedules to calculate cost, invoice, revenue, budget and planning amounts.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Region Layout	Allows configuration of rows and measures in the project performance reporting region layouts.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Reporting Resource Breakdown Structure Version	Allows management of resource breakdown structures for reporting purposes based on existing resources and resource types.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Resource Class	Allows management of attributes that determine the default behavior of resource classes.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Revenue Category	Allows management of categories to describe and group the source of an organization's revenue for budgeting and reporting purposes.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Revenue Method	Allows creation and management of revenue methods used to calculate revenue amounts. Allows designation of revenue methods to use for intercompany and interproject billing.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Role	Allows creation and update of roles that are used to control access to project-level information.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as	Manage Project Source Product	Allows updating of third-party applications from which project information is imported.

Granted Role	Granted Role Description	Privilege	Privilege Description
	expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.		
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Space Templates OBSOLETE	The ability to create project spaces as a document library for projects will no longer be available in future versions of Oracle Project Portfolio Management Cloud. This removal of functionality includes the ability to create and access project spaces from both the Project Financial Management and Project Management work areas. You need to move your existing documents out of project spaces so that you can continue to access them.This removal is effective as of Release 13, Update 20A and reflects a change across all of Oracle Cloud Applications using Oracle WebCenter.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Spread Curve	Allows creation, update, and deletion of spread curves that determine how quantity, cost, and revenue are distributed across a range of accounting or project accounting periods in budgets, forecasts, or project plans.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Standard Asset Unit Cost	Allows defining of standard unit costs for asset book and asset category combinations. This is used as the proration basis for allocating indirect and common costs.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Status Control	Allows defining of project status control.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Status Indicator	Allows creation of indicators to convey the status and severity of performance for a measure and a performance category.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Statuses	Allows creation of additional statuses such as statuses for projects and progress
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Template	Allows creation and update of project templates.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as	Manage Project Transaction Source	Allows review and update of settings on the source documents and document entries.

Granted Role	Granted Role Description	Privilege	Privilege Description
	expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Transfer Price Rule	Allows management of rules to determine how transfer prices are calculated for cross-charge transactions and intercompany billing transactions.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Transfer Price Schedule	Allows creation of schedules that contain rules for revenue sharing and cost reimbursement agreements.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Trend Indicator	Allows updates to the description and sort order of project performance status trend indicators.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup	Manage Project Type	Allows creation and update of classifications for projects and configuration of basic options that are inherited by each project associated with a project type.

Granted Role	Granted Role Description	Privilege	Privilege Description
	tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.		
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Unit Implementation	Allows configuration of settings to enforce consistent project planning, management, analysis, and reporting within an organization.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Unit Organization	Allows creation of organizations to be used as project units in Projects.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage Project Work Type	Allows creation of work types to classify actual and scheduled work.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types,	Manage Trading Community Parties	Allows update of customer, supplier, and partner organizations and contacts that will be associated with projects.

Granted Role	Granted Role Description	Privilege	Privilege Description
	financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.		
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Manage User-Defined Rules for Project Management	Grants access to the Manage User-Defined Rules for Project Management setup task. Configure business rules related to various Project Management business objects and processes using Excel templates.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Provide Project Accounting Periods	Allows the project accounting period web service to provide a list of periods used for project planning, costing, budgeting, forecasting, billing, and performance reporting.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Provide Project Resources	Allows the resource breakdown structure web service to provide resources list used for task assignments, project planning, and financial planning.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures	Run Denormalize Organization Hierarchies	Allows submission of program to convert all hierarchical lists of organizations specified in the business unit implement options into flat lists to enhance performance throughout Projects.

Granted Role	Granted Role Description	Privilege	Privilege Description
	setup options for integrating with external scheduling applications.		
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Run Generate Burden Transactions	Allows submission of the program to generate burden transactions.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Run Import Assignment Labor Schedules	Allows submission of the process to import assignment labor schedules.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Run Import Project Rate Schedules Process	Allows submission of the process to import rate schedules from interface tables.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Run Maintain Project Performance	Allows submission of the program to maintain project performance data.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Run Open and Close Project Accounting Period Process	Allows submission of the programs to open and close project accounting periods.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Run Update EPS Data Process To Be Deprecated	Allows submission of the process to aggregate and roll up project data in the enterprise project structure.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	Run Update Work Type	Allows submission of the program to update work type attribute.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	View Accounting Calendar	Allows view access to existing groupings of accounting periods.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as	View Project Allocation Rule	Allows viewing of rules used to distribute overhead costs to

Granted Role	Granted Role Description	Privilege	Privilege Description
	expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.		projects and tasks that benefited from those costs.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	View Project Capitalized Interest Rate Schedule	Allows viewing of capitalized interest rate schedules used to calculate capitalized interest for organization and interest rate combinations.
Project Financial Application Administration	Performs setup tasks for project costing and manages project costing business objects such as expenditure type, expenditure categories, rate schedules, and burden schedules. Performs setup tasks for contract billing and project performance reporting. Configures project plan types, financial plan types, spread curves, and period profiles. Configures setup options for integrating with external scheduling applications.	View Project Standard Asset Unit Cost	Allows viewing of standard unit cost for each asset book and asset category combination that is used as the proration basis for allocating indirect and common costs.
Project Resource Assignment	Directly assigns a resource to a project without approval from the resource manager. Edits project resource assignment attributes such as from and to dates, effort, allocation percentage, and cost and bill rates.	Assign Project Resource to Project	Allows the project manager to directly assign a resource to a project without approval from the resource manager. Allows the project manager to edit project resource assignment attributes such as from and to dates, effort, allocation percentage, and cost and bill rates.
Project Transaction Approval Reviewing	Allows viewing the status of project transactions due for approval and taking appropriate action to expedite the approval process.	Review Approval Transactions	Allows viewing of basic information for approval transactions.
Resource Administration	Administers resource information.	Add Trading Community Resource to My Social Network	Allows the addition of a resource to their social network.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Administer Sandbox	Allows administration of all sandboxes.
Resource Administration	Administers resource information.	Contact Trading Community Resource	Allows emailing, calling, and instant messenging a resource. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	Edit Trading Community Resource Profile	Allows the update of resource profile information. If assigning, also assign the ability to view the trading community resource profile.
Resource Administration	Administers resource information.	Enter Trading Community Resource Information	Allows the specification of resource information.
Resource Administration	Administers resource information.	Identify Trading Community Person as a Trading Community Resource	Allows the identification of existing people as resources.
Resource Administration	Administers resource information.	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Resource Administration	Administers resource information.	Manage Application Attachment Category	Manage application attachment categories
Resource Administration	Administers resource information.	Manage Application Attachment Entity	Manage application attachment entities
Resource Administration	Administers resource information.	Manage Application Common Lookup	Not Available
Resource Administration	Administers resource information.	Manage Application Data Security Policy	Allows management of security policies that restrict access to functions and data, such as preventing particular values from being accessed in a chart of account segment.
Resource Administration	Administers resource information.	Manage Application Database Resource	Manage application database resources for data security
Resource Administration	Administers resource information.	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Resource Administration	Administers resource information.	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Resource Administration	Administers resource information.	Manage Application Message	Manage an end-user message, shown in the User Interface. Messages can have different types, such as Error, Warning, Information. Messages are translated and can be re-used across products. Exampe: "File not found", "Table '&TABLE' does not exist".
Resource Administration	Administers resource information.	Manage Application Profile Category	Manage application profile option categories
Resource Administration	Administers resource information.	Manage Application Profile Option	Manage Application Profile Options: Manage the level the value can be changed
Resource Administration	Administers resource information.	Manage Application Reference Data Set	Manage Application Reference Data set. Maintain reference data set attributes.
Resource Administration	Administers resource information.	Manage Application Reference Data Set Assignment	Manage Application Reference Data Set Assignments. Create and edit reference data set assignments.
Resource Administration	Administers resource information.	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Resource Administration	Administers resource information.	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Resource Administration	Administers resource information.	Manage Application Taxonomy	Manage hierarchical classification of Applications Taxonomy tree. A

Granted Role	Granted Role Description	Privilege	Privilege Description
			node in the Application Taxonomy Tree can be a Product Line, Product Family, Product or Logical Business Area.
Resource Administration	Administers resource information.	Manage Customer Data Management Foundation Custom Objects	Allows access to custom objects in Customer Data Management Foundation.
Resource Administration	Administers resource information.	Manage Goal Management Notifications	Manage Goal Management Notifications
Resource Administration	Administers resource information.	Manage My Application Profile Values	Manage My Application Profile Values. Access to manage profile values at the user level.
Resource Administration	Administers resource information.	Manage Person Talent Profile	Allows management of talent profile for a person.
Resource Administration	Administers resource information.	Manage Talent Education Establishment	Allows management of talent educational establishments.
Resource Administration	Administers resource information.	Manage Talent Notifications	Allows management of talent management notifications.
Resource Administration	Administers resource information.	Manage Talent Profile Content Item	Allows management of talent profile content items.
Resource Administration	Administers resource information.	Manage Talent Profile Rating Model	Allows management of talent profile rating models.
Resource Administration	Administers resource information.	Manage Talent Profile Sources	Allows management of talent profile subscribers.
Resource Administration	Administers resource information.	Manage Trading Community Resource	Allows the specification of resources for any employees or partner members who are to be associated to leads, opportunities, and territories and given sales credits or compensated for that work.
Resource Administration	Administers resource information.	Manage Trading Community Resource Address	Allows the management of resource addresses. If assigning, also assign the ability to view the trading community resource address.
Resource Administration	Administers resource information.	Manage Trading Community Resource Contact Information	Allows the management of resource contact information. If assigning, also assign the ability

Granted Role	Granted Role Description	Privilege	Privilege Description
			to view the trading community resource contact information.
Resource Administration	Administers resource information.	Manage Trading Community Resource History	Allows the management of resource historical information. If assigning, also assign the ability to view the trading community resource history.
Resource Administration	Administers resource information.	Manage Trading Community Resource Lookups	Allows the specification of lookup values that provide choices when defining resources, such as party usages available for resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note	Allows the specification of resource notes. If assigning also assign the ability to view the trading community resource note.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Descriptive Flexfields	Allows the specification of additional fields which enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type	Allows the specification of note types, such as person details, to categorize notes entered for resources. When mapped, note type values are limited to resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type Mapping	Allows the specification of the mapping that provides a tailored list of note type values for resources. When no mapping is specified, note type values mapped to the object Note are used.
Resource Administration	Administers resource information.	Manage Trading Community Resource Organization Memberships	Allows the specification of resource organization members. If assigning, also assign the ability to view the trading community resource organization memberships.
Resource Administration	Administers resource information.	Manage Trading Community Resource Role Assignments	Allows the management of resource role assignments. If assigning also assign the ability to view the trading community resource role assignments.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Trading Community Resource Sales Representative Information	Allows the management of resource saleperson setup information. If assigning, also assign the ability to view the trading community resource sales representative information.
Resource Administration	Administers resource information.	Manage Trading Community Resource Skills	Allows the management of resource skills information. If assigning, also assign the ability to view the trading community resource skills.
Resource Administration	Administers resource information.	Manage Trading Community Resource Social Network	Allows the management of a resource social network. If assigning, also assign the ability to view the trading community resource social network.
Resource Administration	Administers resource information.	Manage Trading Community Resource Team Memberships	Allows the management of resource team members. If assigning also assign the ability to view the trading community resource team memberships.
Resource Administration	Administers resource information.	Remove Trading Community Resource	Allows the removal of resources.
Resource Administration	Administers resource information.	Reset Password	Allows reset password links to be emailed to users.
Resource Administration	Administers resource information.	Search Trading Community Resource	Allows the search of resources.
Resource Administration	Administers resource information.	Upload Trading Community Resource Picture	Allows the upload of resource pictures. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Administration Link	Privilege to view administration link in UI shell
Resource Administration	Administers resource information.	View Trading Community Resource Address	Allows viewing of resource addresses. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Administration Detail Information	Allows viewing of resource administration setup information.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	View Trading Community Resource Collaboration Information	Allows viewing of resource social network information.
Resource Administration	Administers resource information.	View Trading Community Resource Contact Information	Allows viewing of resource contact information.
Resource Administration	Administers resource information.	View Trading Community Resource Details	Allows viewing of resource basic information, such as name, primary phone, primary address, and primary e-mail.
Resource Administration	Administers resource information.	View Trading Community Resource History	Allows viewing of archived resource information.
Resource Administration	Administers resource information.	View Trading Community Resource Note	Allows viewing of resource notes. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Organization Memberships	Allows viewing of sales, marketing, and partner organization information.
Resource Administration	Administers resource information.	View Trading Community Resource Overview Information	Allows viewing of an overview for partner, marketing, and sales organization transaction information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Profile	Allows viewing of resource profile information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Role Assignments	Allows viewing of resource role assignments. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Sales Representative Information	Allows viewing of salesperson setup information, such as sales credits.
Resource Administration	Administers resource information.	View Trading Community Resource Skills	Allows viewing of resource skills information, such as language, competencies, and product expertise. If assigning, also assign the ability to view trading community resource details.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	View Trading Community Resource Social Network	Allows viewing of a resource's social network.
Resource Administration	Administers resource information.	View Trading Community Resource Team Memberships	Allows viewing of resource team memberships. If assigning, also assign the ability to view trading community resource details.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Project Application Administrator job role.

Business Object	Policy Description	Policy Store Implementation
Application Attachment Category	A Project Application Administrator can manage application attachment category for all projects applications data	Role: Project Application Administrator Privilege: Manage Application Attachment Category (Data) Resource: Application Attachment Category
Application Attachment Entity	A Project Application Administrator can manage application attachment entity for all projects applications data	Role: Project Application Administrator Privilege: Manage Application Attachment Entity (Data) Resource: Application Attachment Entity
Application Document Sequence Category	A Project Application Administrator can manage application document sequence category for all applications common applications data	Role: Contract Setup Privilege: Manage Application Document Sequence Category (Data) Resource: Application Document Sequence Category
Application Document Sequence Category	A Project Application Administrator can manage application document sequence category for all projects applications data	Role: Project Application Administrator Privilege: Manage Application Document Sequence Category (Data) Resource: Application Document Sequence Category
Application Objects	A Project Application Administrator can manage application objects for all financial supply chain manufacturing application objects	Role: Project Application Administrator Privilege: Manage Application Objects (Data) Resource: Application Objects

Business Object	Policy Description	Policy Store Implementation
Business Unit	A Project Application Administrator can choose business unit for business units in their organization security profile	Role: Project Application Administrator Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
Business Unit	A Project Application Administrator can choose business unit organization for business units in their organization security profile	Role: Resource Administration Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
Default Coverage File Export Object	A Project Application Administrator can manage default coverage export for all the default coverage objects	Role: Contract Setup Privilege: Manage Default Coverage Export (Data) Resource: Default Coverage File Export Object
Default Coverage File Import Object	A Project Application Administrator can manage default coverage import for all the default coverage objects	Role: Contract Setup Privilege: Manage Default Coverage Import (Data) Resource: Default Coverage File Import Object
Employee Resource File Import Activity	A Project Application Administrator can view employee resource file import activity object type for all employee resource file import activities of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Activity Object Type (Data) Resource: Employee Resource File Import Activity
Employee Resource File Import Mapping	A Project Application Administrator can view employee resource file import mapping object type for all employee resource file import mappings of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Mapping Object Type (Data) Resource: Employee Resource File Import Mapping
Employee Resource File Import Object	A Project Application Administrator can view employee resource file import object type for all employee resource file import objects of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Object Type (Data) Resource: Employee Resource File Import Object
File Import Activity	A Project Application Administrator can manage default coverage import activity object	Role: Contract Setup

Business Object	Policy Description	Policy Store Implementation
	for all the default coverage import activity objects	Privilege: Manage Default Coverage Import Activity Object (Data) Resource: File Import Activity
File Import Mapping	A Project Application Administrator can manage default coverage import mapping object for all the default coverage import mapping objects	Role: Contract Setup Privilege: Manage Default Coverage Import Mapping Object (Data) Resource: File Import Mapping
HR Job	A Project Application Administrator can choose hr job for all jobs in the enterprise	Role: Resource Administration Privilege: Choose HR Job (Data) Resource: HR Job
HR Job	A Project Application Administrator can choose hr job for jobs in their job security profile	Role: Project Application Administrator Privilege: Choose HR Job (Data) Resource: HR Job
Help Topic	A Project Application Administrator can view help topic for all secured help content they are authorized	Role: Project Application Administrator Privilege: View Secured Help Content Resource: Help Topic
Legal Employer	A Project Application Administrator can choose legal employer for legal employers in their organization security profile	Role: Project Application Administrator Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Legal Employer	A Project Application Administrator can choose legal employer for legal employers in their organization security profile	Role: Resource Administration Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Partner File Import Activity	A Project Application Administrator can view partner file import activity object type for all partner file import activities of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Activity Object Type (Data) Resource: Partner File Import Activity
Partner File Import Mapping	A Project Application Administrator can view partner file import mapping object type for all partner file import mappings of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Mapping Object Type (Data) Resource: Partner File Import Mapping

Business Object	Policy Description	Policy Store Implementation
Partner File Import Object	A Project Application Administrator can view partner file import object type for all partner file import objects of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Object Type (Data) Resource: Partner File Import Object
Partner Member File Import Activity	A Project Application Administrator can view partner member file import activity object type for all partner member file import activities of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Activity Object Type (Data) Resource: Partner Member File Import Activity
Partner Member File Import Mapping	A Project Application Administrator can view partner member file import mapping object type for all partner member file import mappings of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Mapping Object Type (Data) Resource: Partner Member File Import Mapping
Partner Member File Import Object	A Project Application Administrator can view partner member file import object type for all partner member file import objects of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Object Type (Data) Resource: Partner Member File Import Object
Person Assignment	A Project Application Administrator can search worker for persons and assignments in their person and assignment security profile	Role: Manage Users Privilege: Search Worker (Data) Resource: Person Assignment
Person Assignment	A Project Application Administrator can view person assignment for persons and assignments in their person and assignment security profile	Role: Manage Users Privilege: View Person Assignment (Data) Resource: Person Assignment
Person Type	A Project Application Administrator can choose person type for person types in their person type security profile	Role: Manage Users Privilege: Choose Person Type (Data) Resource: Person Type
Projects Period Status	A Project Application Administrator can manage accounting period status for the corresponding oracle fusion accounting subledger application	Role: Manage Projects Accounting Period Status Privilege: Manage Accounting Period Status (Data) Resource: Projects Period Status

Business Object	Policy Description	Policy Store Implementation
Public Assignment	A Project Application Administrator can search person deferred for persons and assignments in their public person security profile	Role: Use REST Service - Public Workers Read Only Privilege: Search Person Deferred (Data) Resource: Public Assignment
Public Assignment	A Project Application Administrator can view person deferred for persons and assignments in their public person security profile	Role: Use REST Service - Public Workers Read Only Privilege: View Person Deferred (Data) Resource: Public Assignment
Public Person	A Project Application Administrator can search person deferred for persons and assignments in their public person security profile	Role: Use REST Service - Public Workers Read Only Privilege: Search Person Deferred (Data) Resource: Public Person
Public Person	A Project Application Administrator can view person deferred for persons and assignments in their person and assignment security profile	Role: Use User Details Service Privilege: View Person Deferred (Data) Resource: Public Person
Public Person	A Project Application Administrator can view person deferred for persons and assignments in their public person security profile	Role: Use REST Service - Public Workers Read Only Privilege: View Person Deferred (Data) Resource: Public Person
Trading Community Org Address Email Contact Preference	A Project Application Administrator can manage trading community legal contact preference for all trading community contact preferences not of type legal.	Role: Resource Administration Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Org Address Email Contact Preference

Project Integration Specialist (Job Role)

Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.

Role Hierarchy

The Project Integration Specialist job role directly and indirectly inherits these roles.

- Project Integration Specialist
  - FSCM Load Interface Administration
  - Projects Folder Reporting
  - Upload data for Grants Management Import
  - Upload data for Project Billing Import

- Upload data for Project Control Import
- Upload data for Project Costing Import
- Upload data for Project Enterprise Resource Import
- Upload data for Project Foundation Import
- Upload data for Project Management Import
- Upload data for Project Resource Management Import
- Upload data for Project Setup Import

Duties

This table lists the duties assigned directly and indirectly to the Project Integration Specialist job role.

Duty Role	Description
FSCM Load Interface Administration	Manages load interface file for import
Projects Folder Reporting	Grants access to the Projects web catalog folder.
Upload data for Grants Management Import	Allows to upload data file to import Grants Management related data.
Upload data for Project Billing Import	Allows to upload data file to import project billing related data.
Upload data for Project Control Import	Allows to upload data file to import Project Control related data.
Upload data for Project Costing Import	Allows to upload data file to import project costing data.
Upload data for Project Enterprise Resource Import	Allows to upload data file to import projects enterprise resources.
Upload data for Project Foundation Import	Allows to upload data file to import Project Foundation related data.
Upload data for Project Management Import	Allows to upload data file to import project management data.
Upload data for Project Resource Management Import	Allows to upload data file to import Project Resource Management related data.
Upload data for Project Setup Import	Allows to upload data file to import project setup related data.

Privileges

This table lists privileges granted to duties of the Project Integration Specialist job role.

Granted Role	Granted Role Description	Privilege	Privilege Description
FSCM Load Interface Administration	Manages load interface file for import	Access FSCM Integration Rest Service	Allow financials and supply chain users to access the methods associated with the Integration Rest Service.
FSCM Load Interface Administration	Manages load interface file for import	Load File to Interface	Allows file data load to interface tables
FSCM Load Interface Administration	Manages load interface file for import	Load Interface File for Import	Allows a user to load interface file for import
FSCM Load Interface Administration	Manages load interface file for import	Manage File Import and Export	Privilege to manage import and export of files.
FSCM Load Interface Administration	Manages load interface file for import	Transfer File	Allows management of file transfer from server
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Contract Bill Rate Overrides Service	Allows access to the Contract Project and Task Bill Rate Overrides REST service for viewing and creating bill rate overrides for a contract bill plan or revenue plan.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Grants Keyword	Allows management of keywords that are used to track awards by subject category, for example, cell biology, electrical engineering, or history.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Grants Personnel	Allows management of the subset of personnel data defined in HCM that is used to maintain grants-specific information, such as persons who can be principal investigators or keywords associated with principal investigators.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Grants Sponsor	Allows management of the subset of customers who funds research projects.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Billing Event	Allows creation and management of project billing events for invoice and revenue amounts.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Capital Assets Service	Allows access to the project assets service to view, create, update, and delete assets and asset assignments in Project Financial
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Change Orders Integration Service	Allows access to the project change orders service for creating, updating, or deleting change orders across the site for integration users.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Change Requests Service	Grants access to the project change requests management REST API.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Commitments Service	Allows access to the project commitments service to view, create, update, and delete external commitments in Project Financial Management applications using the service.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Contract Invoice Service	Allows access to the project contract invoices service to view project contract invoices using a service.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Contract Revenue Service	Allows access to the project contract revenue service to view project contract revenue using a service.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Deliverables	Allows management of deliverables and the association to project tasks and requirements to track tangible or intangible objects delivered as part of the project to an internal or external customer.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Expenditure Items Service	Allows access to the project expenditure items service to view and update expenditure items in Project Financial Management applications using a service.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Financial Plans Service	Allows access to the project financial plans service for the creation, update, and maintenance of project plans, budgets, and forecasts using a service.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Issues Service	Allows management of issues including issue creation and tracking, status update, and assignment of owners to resolve problems or questions that are encountered in the execution of a project using a service.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Performance Service	Allows access to the project performance service to view summarized project data using the service.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Planning Resource Breakdown Structure Version	Allows updating of project resource breakdown structures for the projects for which the user is authorized.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Program Service	Allows access to services to manage project programs, communication catalog objects, communication association properties, and user preference resets.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Progress	Allows access to project progress.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Resource Pools	Allows management of resource pools and the hierarchical relationships among the pools.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Resource Request Service	Allows access to the project resource request service for creation and maintenance of project resource requests from external applications to Project Resource Management.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Service	Allows access to create and maintain projects and tasks in Project Portfolio Management from external applications using a service. The projects created using this service can be used for project work scheduling and project financial tracking.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Task Cost Rate Overrides Service	Allows access to the Project and Task Cost Rate Overrides REST service for viewing and creating cost rate overrides for a project.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Template	Allows creation and update of project templates.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Project Unprocessed Expenditure Item	Allows creation or updating of project cost transactions in Oracle Projects or in Oracle 3rd party application.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Task E-Mail Notification Service	Allows project users to send notifications while managing project tasks and to-do tasks using a service.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Manage Work Plan Templates Service	Allows access to the work plan templates service to view, create, update, and delete work plan templates using a service.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Run Import Asset and Assignments Process	Allows submission of the process to import asset and asset assignments and allows the update of an asset to unassigned asset lines.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Run Import Award Process	Allows the import of awards, award projects, and award funding from external application using the Awards open interface.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the	Run Import Project Billing Events Process	Allows submission of the process to import project billing events from interface tables.

Granted Role	Granted Role Description	Privilege	Privilege Description
	integration of project management information systems.		
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Run Import Project Budgets Process	Allows submission of process to import and maintain project budgets and budget attributes.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Run Import Project Contract Bill Transactions Process	Allows submission of process to import project contract bill transactions.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Run Import Project Enterprise Resources Process	Allows submission of program to import and maintain project enterprise resources.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Run Import Project Forecasts Process	Allows submission of the process to create forecast versions in Project Control based on data loaded into the Project Forecasts open interface table.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Run Import Project Key Performance Indicators Process	Allows submission of the process to import key performance indicators for projects and allows updating KPI assignments to projects.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Run Import Project Plan Process	Allows submission of the process to create projects and tasks in Project Control based on data loaded into the project plan open interface table.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Run Import Project Progress Process	Allows submission of the process to import project progress.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Run Import Project Rate Schedules Process	Allows submission of the process to import rate schedules from interface tables.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the	Run Import Project Resource Assignments Process	Allows submission of the program that imports project resource assignment data to the Oracle

Granted Role	Granted Role Description	Privilege	Privilege Description
	integration of project management information systems.		Fusion database from interface tables and creates project resource assignments.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Run Import Project Resource Requests Process	Allows submission of the program that imports project resource request data from interface tables and creates project resource requests.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Run Import Project Work Plan Process	Allows submission of program to import and maintain project work plan and its attributes
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Run Import Projects Process	Allows submission of program to import and maintain project and its attributes.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Run Import Resource Actual Hours Process	Allows submission of the program that loads resource actual hours worked data from interface tables.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Run Import Resource Breakdown Structures Process	Allows submission of the process that imports planning and billing resource breakdown structures data from the open interface and creates planning and billing resource breakdown structures.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	Validate Project Costs	Allows access to the service that validates project attributes in a project cost transaction.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	View Project Expenditure Types Service	Allows access to the service to get the list of expenditure types.
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	View Project Financial Tasks Service	Allows access to the service to view financial tasks.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Integration Specialist	Individual responsible for planning, coordinating, and supervising all activities related to the integration of project management information systems.	View Project Service	Allows access to the service to view project and task details in Project Portfolio Management from external applications. The service supports project information such as project name, project dates, customers, opportunities, and team members.

Project Management Duty (Abstract Role)

Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.

Role Hierarchy

The Project Management Duty abstract role directly and indirectly inherits these roles.

- Project Management Duty
  - FSCM Load Interface Administration
  - Project Budget Baseline Creation
  - Project Budget Management
  - Project Budget Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Change Order Initiation Assistant
  - Project Change Summary Generation Assistant
  - Project Contract Invoice Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Contract Revenue Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Costing Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Definition

- Project Foundation Transaction Analysis
  - Business Intelligence Authoring
  - Project Transactional Analysis Currency Preference
- Project Inquiry
- Project Plan Management
- Project Proposal Generation Assistant
- Projects Folder Reporting
- Projects Reporting Analysis
- Transaction Entry with Budgetary Control
  - Business Intelligence Consumer

Duties

This table lists the duties assigned directly and indirectly to the Project Management Duty abstract role.

Duty Role	Description
Business Intelligence Authoring	An author of Business Intelligence reports as presented in the web catalog. The role allows authoring within Business Intelligence Applications, Business Intelligence Publisher, Real Time Decisions, Enterprise Performance Management and Business Intelligence Office.
Business Intelligence Consumer	A role required to allow reporting from Business Intelligence Applications, Business Intelligence Publisher, Real Time Decisions, Enterprise Performance Management and Business Intelligence Office. This role allow you to run reports from the web catalog but it will not allow a report to be authored from a subject area.
FSCM Load Interface Administration	Manages load interface file for import
Project Budget Baseline Creation	Allows creation of baseline version of project budget.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.
Project Budget Transaction Analysis	Analyzes Project Budget transactional information
Project Change Order Initiation Assistant	Automates creation of project change orders from issues by extracting relevant details and budget impacts.
Project Change Summary Generation Assistant	Analyzes project change order details to generate summaries highlighting scope, financial, and schedule impacts.
Project Contract Invoice Transaction Analysis	Analyzes Project Contract Invoice transactional information

Duty Role	Description
Project Contract Revenue Transaction Analysis	Analyzes Project Contract Revenue transactional information
Project Costing Transaction Analysis	Analyzes Project Costing transactional information
Project Definition	Edits project and task attributes.
Project Foundation Transaction Analysis	Analyzes Project Foundation transactional information
Project Inquiry	Allows inquiry into project definitions.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.
Project Proposal Generation Assistant	Generates structured project proposals by compiling objectives, scope, timelines, budgets, and staffing plans.
Project Transactional Analysis Currency Preference	This role is used to get the supported currencies in Project Transactional Analysis module.
Projects Folder Reporting	Grants access to the Projects web catalog folder.
Projects Reporting Analysis	Access project Business Intelligence Applications data.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.
Transactional Analysis	This duty is used for various generic OTBI security and filtering purposes and is therefore required for all OTBI users.

Privileges

This table lists privileges granted to duties of the Project Management Duty abstract role.

Granted Role	Granted Role Description	Privilege	Privilege Description
FSCM Load Interface Administration	Manages load interface file for import	Access FSCM Integration Rest Service	Allow financials and supply chain users to access the methods associated with the Integration Rest Service.
FSCM Load Interface Administration	Manages load interface file for import	Load File to Interface	Allows file data load to interface tables

Granted Role	Granted Role Description	Privilege	Privilege Description
FSCM Load Interface Administration	Manages load interface file for import	Load Interface File for Import	Allows a user to load interface file for import
FSCM Load Interface Administration	Manages load interface file for import	Manage File Import and Export	Privilege to manage import and export of files.
FSCM Load Interface Administration	Manages load interface file for import	Transfer File	Allows management of file transfer from server
Project Budget Baseline Creation	Allows creation of baseline version of project budget.	Manage Project Budget	Allows access to budget versions created for a project.
Project Budget Baseline Creation	Allows creation of baseline version of project budget.	Manage Project Budget Working Version	Allows access to manage working versions of project budgets. Allows export of working budget version from Excel to Projects. Also, allows submission of working versions for baseline creation and rework of rejected versions.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Lock Project Budget Working Version	Allows locking and unlocking of working budget versions for projects for which the user is authorized.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Budget	Allows access to budget versions created for a project.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Budget Excel Integration	Allows information exchange with a scheduling application, using the integration gateway, for projects for which the user is authorized.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Budget Working Version	Allows access to manage working versions of project budgets. Allows export of working budget version from Excel to Projects. Also, allows submission of working versions for baseline creation and rework of rejected versions.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Burden Schedule	Allows updating of multipliers used to calculate the burdened cost, revenue, and bill amount of each expenditure item.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in	Manage Project Planning Resource Breakdown Structure Version	Allows updating of project resource breakdown structures for the

Granted Role	Granted Role Description	Privilege	Privilege Description
	Excel. Submits versions for baseline creation.		projects for which the user is authorized.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Run Generate Financial Plan	Allows submission of process to generate budget or forecast versions for projects for which the user is authorized.
Project Definition	Edits project and task attributes.	Manage Project Task Structure for Billable Tasks	Allows creation, update, and deletion of billable project tasks and task attributes.
Project Definition	Edits project and task attributes.	Manage Project Task Structure for Nonbillable Tasks	Allows creation, update, and deletion of project tasks and task attributes that are not billable to a customer.
Project Definition	Edits project and task attributes.	Review Project Definition	Allows viewing of the project definition.
Project Definition	Edits project and task attributes.	Run Change Project and Task Organizations	Allows submission of the program to update organizations for projects and tasks.
Project Definition	Edits project and task attributes.	Update Project Definition	Allows the project definition web service to update the attributes on a project.
Project Definition	Edits project and task attributes.	View Project Definition Basic Information	Allows viewing of project-level basic information.
Project Definition	Edits project and task attributes.	View Project Financial Definition Information	Allows viewing of project-level financial information.
Project Definition	Edits project and task attributes.	View Project Reporting Definition Information	Allows viewing of project-level reporting information.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Allocate Project Expense	Allows expenses to be charged to one or more projects and tasks.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and	Approve Project Expenditure Item Billing Hold Change	Allows approval of billing hold on project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
	associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.		
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Approve Project Expenditure Item Billing Status Change	Allows approval of project expenditure item billing status change.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Approve Project Expenditure Item Capitalizable Status Change	Allows approval of project expenditure item capitalizable status change.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Create Reporting Cube	Allows the creation of a multidimensional database to report budgetary control balances.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Edit Project Expenditure Item Billing Hold	Allows placing or removing the billing hold on a project expenditure item.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Edit Project Expenditure Item Billing Status	Allows updating of billing status of a project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Edit Project Expenditure Item Capitalizable Status	Allows updating of capitalizable status of a project expenditure item.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Edit Project Expenditure Item Intercompany Billing Status	Allows updating of intercompany billing status of a project expenditure item.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Enable Budgetary Control	Allows the configuration to enable budgetary control for ledgers, business units and business functions.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Export Customer Account	Not Available
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Export Customer Account Contact	Allows the export of customer account contact information.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion	Export Customer Account Relationship	Allows the export of customer account contact relationship information.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Project Foundation and Oracle Fusion Project Management.		
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Export Project from Third-Party Scheduling Software	Allows sending project from third-party scheduling software to Projects.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Import Budget Amounts	Allows the submission of a process to import budget from the open budget interface tables.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Import Budgets from Spreadsheet	Allows budget entry and import from a budget spreadsheet.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Import Project into Third-Party Scheduling Software	Allows receiving of project from Projects into third-party scheduling software.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Lock Project Forecast Working Version	Allows locking and unlocking of working forecast versions for projects for which the user is authorized.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update	Maintain Project Set	Maintain Project Sets

Granted Role	Granted Role Description	Privilege	Privilege Description
	projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.		
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Budget Period Statuses	Allows update of the budget period status.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Budgetary Control Activities	Allows access to a budgetary control work area to manage budgetary control activities.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Control Budgets	Allows the management of control budgets set up for budgetary control.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Burden Schedule	Allows updating of multipliers used to calculate the burdened cost, revenue, and bill amount of each expenditure item.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Capital Assets Service	Allows access to the project assets service to view, create, update, and delete assets and asset assignments in Project Financial

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Contract Bill Transaction	Allows management of project contract bill transactions.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Enterprise Resources Service	Allows access to project enterprise resources interface service for management of project enterprise resources, such as resource assignment to projects and tasks, and as owners of issues, deliverables and resource pools.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Expenditure Item	Allows searching and managing of project expenditure items.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Forecast	Allows access to forecast versions created for a project.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Forecast Working Version	Allows creation, update, and deletion of working versions of project forecasts. Allows export of working forecast versions from Excel to Projects. Also, allows submission of working versions for approval and rework of rejected versions.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion	Manage Project Invoices	Allows the user to review invoice details for the project.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Project Foundation and Oracle Fusion Project Management.		
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Key Performance Indicators Notes	Allows creation, update, and deletion of notes for key performance indicators and key performance indicator categories.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Performance	Allows viewing of the project manager's dashboard.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Performance Service	Allows access to the project performance service to view summarized project data using the service.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Plan Adapter Service	Allows access to the project plan adapter service for exchange of information with the project management applications.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Proposal	Allows the generation of a project proposal.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update	Manage Project Work Plan Service	Allows access to the project work plan service for creation of project, addition and organization of tasks,

Granted Role	Granted Role Description	Privilege	Privilege Description
	projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.		and maintenance of project and task details.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Monitor Budgetary Control Balances	Allows access to a budget dashboard to view and take action on budget spending.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Preview Receivables Invoice	Print Preview a Receivables invoice.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Print Bills	Print Bills
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Provide Item Cost	Allows retrieval of item costs.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Rebuild Budget Calendar Dimension	Creates or rebuilds the budget calendar dimension members and hierarchies for budgetary control balances cubes.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Rebuild Budget Chart of Accounts Dimension	Creates or rebuilds the budget chart of accounts dimension members and hierarchies for a particular budget dimension in the budgetary control balances cubes.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Rebuild Control Budget Dimension	Creates or rebuilds the control budget dimension members and hierarchies for budgetary control balances cubes.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Review Budgetary Control Transactions	Review budget consumption balances by transaction
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Review Journal	Allows review of the journals.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Review Project Performance	Allows viewing of project performance by task structure, resource structure, and time interval. Allows viewing of project financial performance and comparison of performance across projects.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion	Review Project Performance Health	Allows access to review project performance health details. Health details include the KPI watchlist and historical trends by KPI and KPI category.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Project Foundation and Oracle Fusion Project Management.		
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Review Subledger Journal Entry	Allows inquiries on subledger journal entries and entry lines.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Run Budgetary Control Reports	Run budgetary control reports, including reports in Oracle Transactional Business. Intelligence and Oracle Business Intelligence Publisher.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Run Generate Key Performance Indicators	Allows submission of the program to generate project key performance indicator values and overall health status.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Run Maintain Project Performance	Allows submission of the program to maintain project performance data.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Run Update Project Performance	Allows submission of the program to update project performance data.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update	Search Customer Account Relationships	Allows the search of customer account relationships. If assigning, also assign the ability to view the customer account relationship.

	projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.		
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Search Customer Account Site	Allows the search of customer account sites. If assigning, also assign the ability to view the customer account site.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Search Trading Community Organization	Allows the search of organizations. If assigning, also assign the ability to view the trading community organization.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Split and Transfer Project Expenditure Item	Allows user the ability to split and transfer the project expenditure item.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Transfer Budget Balances to Budget Cubes Continuously	Allows the submission of a process to continuously transfer budget balances to the budgetary control balances reporting multidimensional database.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Transfer Control Budget Balances to Essbase	Transfer changes in control budget balances to the budget balances cubes in Essbase.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Transfer Project Expenditure Item	Allows transfer of project expenditure item.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Update Project Expenditure Item Comment	Allows updating of project expenditure item comment.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Update Project Set	Allows updating of the project set including adding new projects to a project set.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	View Customer Account	Allows the viewing of customer account information.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	View Customer Account Contact	Allows the viewing of customer account contact information.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion	View Customer Account Contact Responsibility	Allows the viewing of customer account contact information.

Project Budget	A Project Management Duty can edit project budget for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Edit Project Budget Rate Settings (Data) Resource: Project Budget
Project Budget	A Project Management Duty can edit project budget for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Edit Project Budget Reporting Options (Data) Resource: Project Budget
Project Budget	A Project Management Duty can edit project budget for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Edit Project Budgetary Control Settings (Data) Resource: Project Budget
Project Budget	A Project Management Duty can generate project budget for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Run Generate Financial Plan (Data) Resource: Project Budget
Project Budget	A Project Management Duty can manage project budget for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Budget (Data) Resource: Project Budget
Project Budget Baseline Version	A Project Management Duty can create project budget baseline version for the projects they are granted the project manager role on.	Role: Project Management Duty

Business Object	Policy Description	Policy Store Implementation
		Privilege: Create Project Budget Baseline Version (Data) Resource: Project Budget Baseline Version
Project Budget Baseline Version	A Project Management Duty can delete project budget baseline version for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Delete Project Budget Baseline Version (Data) Resource: Project Budget Baseline Version
Project Budget Baseline Version	A Project Management Duty can view project budget baseline version for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: View Project Budget Baseline Version (Data) Resource: Project Budget Baseline Version
Project Budget Excel Integration	A Project Management Duty can manage project budget excel integration for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Budget Excel Integration (Data) Resource: Project Budget Excel Integration
Project Budget Working Version	A Project Management Duty can approve project budget working version for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Approve Project Budget Working Version (Data) Resource: Project Budget Working Version
Project Budget Working Version	A Project Management Duty can manage project budget working version for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Budget Working Version (Data) Resource: Project Budget Working Version
Project Contract Invoice	A Project Management Duty can view project contract invoice for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: View Project Contract Invoice (Data) Resource: Project Contract Invoice
Project Contract Revenue	A Project Management Duty can view project contract revenue for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: View Project Contract Revenue (Data) Resource: Project Contract Revenue
Project Expenditure Item	A Project Management Duty can manage project expenditure item for the business units,	Role: Projects Reporting Analysis

Business Object	Policy Description	Policy Store Implementation
	or the projects, on which the user is authorized to manage expenditure items	Privilege: Manage Project Expenditure Item (Data) Resource: Project Expenditure Item
Project Expenditure Item	A Project Management Duty can view project expenditure item for the business units, or the projects, on which the user is authorized to manage expenditure items	Role: Project Management Duty Privilege: Manage Project Expenditure Item (Data) Resource: Project Expenditure Item
Project Forecast	A Project Management Duty can edit project forecast for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Edit Project Forecast Currency Settings (Data) Resource: Project Forecast
Project Forecast	A Project Management Duty can edit project forecast for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Edit Project Forecast Export Options (Data) Resource: Project Forecast
Project Forecast	A Project Management Duty can edit project forecast for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Edit Project Forecast Generation Options (Data) Resource: Project Forecast
Project Forecast	A Project Management Duty can edit project forecast for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Edit Project Forecast Rate Settings (Data) Resource: Project Forecast
Project Forecast	A Project Management Duty can edit project forecast for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Edit Project Forecast Reporting Options (Data) Resource: Project Forecast
Project Forecast	A Project Management Duty can manage project forecast for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Forecast (Data) Resource: Project Forecast

Business Object	Policy Description	Policy Store Implementation
Project Forecast Approved Version	A Project Management Duty can delete project forecast approved version for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Delete Project Forecast Approved Version (Data) Resource: Project Forecast Approved Version
Project Forecast Approved Version	A Project Management Duty can view project forecast approved version for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: View Project Forecast Approved Version (Data) Resource: Project Forecast Approved Version
Project Forecast Excel Integration	A Project Management Duty can manage project forecast excel integration for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Forecast Excel Integration (Data) Resource: Project Forecast Excel Integration
Project Forecast Working Version	A Project Management Duty can approve project forecast working version for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Approve Project Forecast Working Version (Data) Resource: Project Forecast Working Version
Project Forecast Working Version	A Project Management Duty can manage project forecast working version for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Forecast Working Version (Data) Resource: Project Forecast Working Version
Project Key Performance Area	A Project Management Duty can analyze project key performance area for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Analyze Project Key Performance Area (Data) Resource: Project Key Performance Area
Project Organization	A Project Management Duty can edit project organization for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Edit Project Organization (Data) Resource: Project Organization
Project Performance	A Project Management Duty can analyze project performance for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Analyze Project Performance (Data) Resource: Project Performance

Business Object	Policy Description	Policy Store Implementation
Project Performance	A Project Management Duty can manage project performance for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Performance (Data) Resource: Project Performance
Project Performance	A Project Management Duty can review project performance for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Review Project Performance (Data) Resource: Project Performance
Project Performance	A Project Management Duty can update project performance for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Update Project Performance (Data) Resource: Project Performance
Project Performance Health	A Project Management Duty can review project performance health for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Review Project Performance Health (Data) Resource: Project Performance Health
Project Plan Resource Assignment	A Project Management Duty can manage project plan resource assignment for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Plan Resource Assignment (Data) Resource: Project Plan Resource Assignment
Project Progress	A Project Management Duty can manage project progress for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Progress (Data) Resource: Project Progress
Project Progress	A Project Management Duty can publish project progress for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Publish Project Progress (Data) Resource: Project Progress
Project Task Structure	A Project Management Duty can manage project task structure for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Task Structure (Data) Resource: Project Task Structure
Project Unprocessed Expenditure Item	A Project Management Duty can manage project unprocessed expenditure item for the business units, or the projects, on which the user is authorized to manage unprocessed expenditure items	Role: Projects Reporting Analysis Privilege: Manage Project Unprocessed Expenditure Item (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Project Unprocessed Expenditure Item
Project Unprocessed Expenditure Item	A Project Management Duty can view project unprocessed expenditure item for the business units, or the projects, on which the user is authorized to manage unprocessed expenditure items	Role: Project Management Duty Privilege: Manage Project Unprocessed Expenditure Item (Data) Resource: Project Unprocessed Expenditure Item
Public Person	A Project Management Duty can choose public person for persons and assignments in their person and assignment security profile	Role: Project Management Duty Privilege: Choose Public Person (Data) Resource: Public Person
Public Person	A Project Management Duty can report public person for persons and assignments in their person and assignment security profile	Role: Projects Reporting Analysis Privilege: Report Public Person (Data) Resource: Public Person
Public Person	A Project Management Duty can view public person for persons and assignments in their person and assignment security profile	Role: Project Management Duty Privilege: Report Public Person (Data) Resource: Public Person
Trading Community Customer Account	A Project Management Duty can view trading community customer account for all customer accounts in the enterprise	Role: Project Management Duty Privilege: View Customer Account (Data) Resource: Trading Community Customer Account
Trading Community Customer Account Relationship	A Project Management Duty can view trading community customer account relationship for the reference data sets for which they are authorized	Role: Project Management Duty Privilege: View Customer Account Relationship (Data) Resource: Trading Community Customer Account Relationship
Trading Community Customer Account Site	A Project Management Duty can view trading community customer account site for the reference data sets for which they are authorized	Role: Project Management Duty Privilege: View Customer Account Site (Data) Resource: Trading Community Customer Account Site
Trading Community Customer Account Site Use	A Project Management Duty can view trading community customer account site use for the reference data sets for which they are authorized	Role: Project Management Duty Privilege: View Customer Account Site Use (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Trading Community Customer Account Site Use
Trading Community Org Address Email Contact Preference	A Project Management Duty can manage trading community org address email contact preference for all trading community contact preferences not of type legal.	Role: Project Management Duty Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Org Address Email Contact Preference
Trading Community Org Address Phone Contact Preference	A Project Management Duty can manage trading community org address phone contact preference for all trading community contact preferences not of type legal.	Role: Project Management Duty Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Org Address Phone Contact Preference
Trading Community Organization Address Contact Preference	A Project Management Duty can manage trading community organization address contact preference for all trading community contact preferences not of type legal.	Role: Project Management Duty Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Organization Address Contact Preference
Trading Community Organization Email Contact Preference	A Project Management Duty can manage trading community organization email contact preference for all trading community contact preferences not of type legal.	Role: Project Management Duty Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Organization Email Contact Preference
Trading Community Organization Party	A Project Management Duty can view trading community organization party for all organizations in the enterprise	Role: Project Management Duty Privilege: View Trading Community Organization (Data) Resource: Trading Community Organization Party
Trading Community Organization Phone Contact Preference	A Project Management Duty can manage trading community organization phone contact preference for all trading community contact preferences not of type legal.	Role: Project Management Duty Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Organization Phone Contact Preference
Trading Community Party	A Project Management Duty can view trading community party for all people in the enterprise	Role: Project Management Duty Privilege: View Trading Community Person (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Trading Community Party
Trading Community Party	A Project Management Duty can view trading community party for all people in the enterprise other than sales accounts and sales prospects.	Role: Project Management Duty Privilege: View Trading Community Person (Data) Resource: Trading Community Party
Trading Community Party	A Project Management Duty can view trading community party for all resources in the enterprise	Role: Project Management Duty Privilege: View Trading Community Person (Data) Resource: Trading Community Party
Trading Community Person Address Contact Preference	A Project Management Duty can manage trading community person address contact preference for all trading community contact preferences not of type legal.	Role: Project Management Duty Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Person Address Contact Preference
Trading Community Person Address Phone Contact Preference	A Project Management Duty can manage trading community person address phone contact preference for all trading community contact preferences not of type legal.	Role: Project Management Duty Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Person Address Phone Contact Preference
Trading Community Person Email Contact Preference	A Project Management Duty can manage trading community person email contact preference for all trading community contact preferences not of type legal.	Role: Project Management Duty Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Person Email Contact Preference
Trading Community Person Phone Contact Preference	A Project Management Duty can manage trading community person phone contact preference for all trading community contact preferences not of type legal.	Role: Project Management Duty Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Person Phone Contact Preference
Trading Community Relationship	A Project Management Duty can view trading community relationship for all trading community relationships in the enterprise	Role: Project Management Duty Privilege: View Trading Community Relationship (Data) Resource: Trading Community Relationship

Project Manager (Job Role)

Manages the execution and completion of a single project. Creates budgets, plans, and schedules. Sources and allocates resources such as labor, subcontractors, materials, and equipment. Tracks physical and financial project performance, changes, and issues. Ensures proper billing and cost transfers. Communicates status and project performance to program managers and project executives.

Role Hierarchy

The Project Manager job role directly and indirectly inherits these roles.

- Project Manager
  - FSCM Load Interface Administration
  - Financial Project Plan Inquiry
  - Project Budget Inquiry
  - Project Budget Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Change Order Initiation Assistant
  - Project Change Order Inquiry
  - Project Change Requests Inquiry
  - Project Change Summary Generation Assistant
  - Project Contract Invoice Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Contract Revenue Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Cost Transaction Inquiry
  - Project Costing Transaction Analysis
    - Business Intelligence Authoring
    - Project Transactional Analysis Currency Preference
  - Project Execution
    - Project Requirements Management
    - Project Work Plan Management
    - Projects Folder Reporting
  - Project Foundation Transaction Analysis
    - Business Intelligence Authoring

        - Project Transactional Analysis Currency Preference
    - Project Inquiry
    - Project Management Duty
        - FSCM Load Interface Administration
        - Project Budget Baseline Creation
        - Project Budget Management
        - Project Budget Transaction Analysis
            - Business Intelligence Authoring
            - Project Transactional Analysis Currency Preference
        - Project Change Order Initiation Assistant
        - Project Change Summary Generation Assistant
        - Project Contract Invoice Transaction Analysis
            - Business Intelligence Authoring
            - Project Transactional Analysis Currency Preference
        - Project Contract Revenue Transaction Analysis
            - Business Intelligence Authoring
            - Project Transactional Analysis Currency Preference
        - Project Costing Transaction Analysis
            - Business Intelligence Authoring
            - Project Transactional Analysis Currency Preference
        - Project Definition
        - Project Foundation Transaction Analysis
            - Business Intelligence Authoring
            - Project Transactional Analysis Currency Preference
        - Project Inquiry
        - Project Plan Management
        - Project Proposal Generation Assistant
        - Projects Folder Reporting
        - Projects Reporting Analysis
        - Transaction Entry with Budgetary Control
            - Business Intelligence Consumer
    - Project Performance Insights
    - Project Performance Setup Inquiry
    - Project Proposal Generation Assistant
    - Project foundation setup inquiry
    - Projects Folder Reporting

Duties

This table lists the duties assigned directly and indirectly to the Project Manager job role.

Duty Role	Description
Business Intelligence Authoring	An author of Business Intelligence reports as presented in the web catalog. The role allows authoring within Business Intelligence Applications, Business Intelligence Publisher, Real Time Decisions, Enterprise Performance Management and Business Intelligence Office.
Business Intelligence Consumer	A role required to allow reporting from Business Intelligence Applications, Business Intelligence Publisher, Real Time Decisions, Enterprise Performance Management and Business Intelligence Office. This role allow you to run reports from the web catalog but it will not allow a report to be authored from a subject area.

Transactional Analysis	This duty is used for various generic OTBI security and filtering purposes and is therefore required for all OTBI users.

Privileges

This table lists privileges granted to duties of the Project Manager job role.

Granted Role	Granted Role Description	Privilege	Privilege Description
FSCM Load Interface Administration	Manages load interface file for import	Access FSCM Integration Rest Service	Allow financials and supply chain users to access the methods associated with the Integration Rest Service.
FSCM Load Interface Administration	Manages load interface file for import	Load File to Interface	Allows file data load to interface tables
FSCM Load Interface Administration	Manages load interface file for import	Load Interface File for Import	Allows a user to load interface file for import
FSCM Load Interface Administration	Manages load interface file for import	Manage File Import and Export	Privilege to manage import and export of files.
FSCM Load Interface Administration	Manages load interface file for import	Transfer File	Allows management of file transfer from server
Project Budget Baseline Creation	Allows creation of baseline version of project budget.	Manage Project Budget	Allows access to budget versions created for a project.
Project Budget Baseline Creation	Allows creation of baseline version of project budget.	Manage Project Budget Working Version	Allows access to manage working versions of project budgets. Allows export of working budget version from Excel to Projects. Also, allows submission of working versions for baseline creation and rework of rejected versions.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Lock Project Budget Working Version	Allows locking and unlocking of working budget versions for projects for which the user is authorized.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Budget	Allows access to budget versions created for a project.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Budget Excel Integration	Allows information exchange with a scheduling application, using the integration gateway, for projects for which the user is authorized.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Budget Working Version	Allows access to manage working versions of project budgets. Allows export of working budget version from Excel to Projects. Also, allows submission of working versions for baseline creation and rework of rejected versions.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Burden Schedule	Allows updating of multipliers used to calculate the burdened cost, revenue, and bill amount of each expenditure item.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Manage Project Planning Resource Breakdown Structure Version	Allows updating of project resource breakdown structures for the projects for which the user is authorized.
Project Budget Management	Creates, edits, and deletes working budget versions. Edits versions in Excel. Submits versions for baseline creation.	Run Generate Financial Plan	Allows submission of process to generate budget or forecast versions for projects for which the user is authorized.
Project Definition	Edits project and task attributes.	Manage Project Task Structure for Billable Tasks	Allows creation, update, and deletion of billable project tasks and task attributes.
Project Definition	Edits project and task attributes.	Manage Project Task Structure for Nonbillable Tasks	Allows creation, update, and deletion of project tasks and task attributes that are not billable to a customer.
Project Definition	Edits project and task attributes.	Review Project Definition	Allows viewing of the project definition.
Project Definition	Edits project and task attributes.	Run Change Project and Task Organizations	Allows submission of the program to update organizations for projects and tasks.
Project Definition	Edits project and task attributes.	Update Project Definition	Allows the project definition web service to update the attributes on a project.
Project Definition	Edits project and task attributes.	View Project Definition Basic Information	Allows viewing of project-level basic information.
Project Definition	Edits project and task attributes.	View Project Financial Definition Information	Allows viewing of project-level financial information.
Project Definition	Edits project and task attributes.	View Project Reporting Definition Information	Allows viewing of project-level reporting information.
Project Execution	Identifies the person who manages projects in project management applications and is not assigned the project manager job role.	Access Change Order Using a REST Service	Permits access to change order using REST services

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Execution	Identifies the person who manages projects in project management applications and is not assigned the project manager job role.	Access Product Development Configurations Using a REST Service	Permits access to configure data in Product Development using REST services, including master organization setup.
Project Execution	Identifies the person who manages projects in project management applications and is not assigned the project manager job role.	Access Proposal Using REST Service	Permits access to proposals using REST services
Project Execution	Identifies the person who manages projects in project management applications and is not assigned the project manager job role.	Associate Project to EPS Element	Allows a project manager to update the enterprise project structure element associated to a project.
Project Execution	Identifies the person who manages projects in project management applications and is not assigned the project manager job role.	Create Project Work Plan	Allows creation of a work plan project.
Project Execution	Identifies the person who manages projects in project management applications and is not assigned the project manager job role.	Get Item Class Rest	Allows query access to item Classes through the REST API.
Project Execution	Identifies the person who manages projects in project management applications and is not assigned the project manager job role.	Get Item Rest	Allows query access to items through the REST API.
Project Execution	Identifies the person who manages projects in project management applications and is not assigned the project manager job role.	Manage File Import and Export	Privilege to manage import and export of files.
Project Execution	Identifies the person who manages projects in project management applications and is not assigned the project manager job role.	Manage Project Performance	Allows viewing of the project manager's dashboard.
Project Execution	Identifies the person who manages projects in project management applications and is not assigned the project manager job role.	Run Update Project Performance	Allows submission of the program to update project performance data.
Project Execution	Identifies the person who manages projects in project management applications and is not assigned the project manager job role.	View My Assigned Projects	View My Assigned Projects
Project Management Duty	Manages individual projects and is not assigned the project manager	Allocate Project Expense	Allows expenses to be charged to one or more projects and tasks.

Granted Role	Granted Role Description	Privilege	Privilege Description
	job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.		
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Approve Project Expenditure Item Billing Hold Change	Allows approval of billing hold on project expenditure item.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Approve Project Expenditure Item Billing Status Change	Allows approval of project expenditure item billing status change.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Approve Project Expenditure Item Capitalizable Status Change	Allows approval of project expenditure item capitalizable status change.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Create Reporting Cube	Allows the creation of a multidimensional database to report budgetary control balances.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Edit Project Expenditure Item Billing Hold	Allows placing or removing the billing hold on a project expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Edit Project Expenditure Item Billing Status	Allows updating of billing status of a project expenditure item.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Edit Project Expenditure Item Capitalizable Status	Allows updating of capitalizable status of a project expenditure item.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Edit Project Expenditure Item Intercompany Billing Status	Allows updating of intercompany billing status of a project expenditure item.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Enable Budgetary Control	Allows the configuration to enable budgetary control for ledgers, business units and business functions.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Export Customer Account	Not Available
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion	Export Customer Account Contact	Allows the export of customer account contact information.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Project Foundation and Oracle Fusion Project Management.		
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Export Customer Account Relationship	Allows the export of customer account contact relationship information.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Export Project from Third-Party Scheduling Software	Allows sending project from third-party scheduling software to Projects.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Import Budget Amounts	Allows the submission of a process to import budget from the open budget interface tables.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Import Budgets from Spreadsheet	Allows budget entry and import from a budget spreadsheet.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Import Project into Third-Party Scheduling Software	Allows receiving of project from Projects into third-party scheduling software.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update	Lock Project Forecast Working Version	Allows locking and unlocking of working forecast versions for projects for which the user is authorized.

Granted Role	Granted Role Description	Privilege	Privilege Description
	projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.		
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Maintain Project Set	Maintain Project Sets
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Budget Period Statuses	Allows update of the budget period status.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Budgetary Control Activities	Allows access to a budgetary control work area to manage budgetary control activities.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Control Budgets	Allows the management of control budgets set up for budgetary control.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Burden Schedule	Allows updating of multipliers used to calculate the burdened cost, revenue, and bill amount of each expenditure item.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Capital Assets Service	Allows access to the project assets service to view, create, update, and delete assets and asset assignments in Project Financial
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Contract Bill Transaction	Allows management of project contract bill transactions.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Enterprise Resources Service	Allows access to project enterprise resources interface service for management of project enterprise resources, such as resource assignment to projects and tasks, and as owners of issues, deliverables and resource pools.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Expenditure Item	Allows searching and managing of project expenditure items.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Forecast	Allows access to forecast versions created for a project.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion	Manage Project Forecast Working Version	Allows creation, update, and deletion of working versions of project forecasts. Allows export of working forecast versions from Excel to Projects. Also, allows submission of working versions for approval and rework of rejected versions.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Project Foundation and Oracle Fusion Project Management.		
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Invoices	Allows the user to review invoice details for the project.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Key Performance Indicators Notes	Allows creation, update, and deletion of notes for key performance indicators and key performance indicator categories.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Performance	Allows viewing of the project manager's dashboard.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Performance Service	Allows access to the project performance service to view summarized project data using the service.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Plan Adapter Service	Allows access to the project plan adapter service for exchange of information with the project management applications.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update	Manage Project Proposal	Allows the generation of a project proposal.

Granted Role	Granted Role Description	Privilege	Privilege Description
	projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.		
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Manage Project Work Plan Service	Allows access to the project work plan service for creation of project, addition and organization of tasks, and maintenance of project and task details.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Monitor Budgetary Control Balances	Allows access to a budget dashboard to view and take action on budget spending.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Preview Receivables Invoice	Print Preview a Receivables invoice.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Print Bills	Print Bills
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Provide Item Cost	Allows retrieval of item costs.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Rebuild Budget Calendar Dimension	Creates or rebuilds the budget calendar dimension members and hierarchies for budgetary control balances cubes.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Rebuild Budget Chart of Accounts Dimension	Creates or rebuilds the budget chart of accounts dimension members and hierarchies for a particular budget dimension in the budgetary control balances cubes.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Manages the integration between Oracle Fusion Project Foundation and Oracle Fusion Project Management.	Rebuild Control Budget Dimension	Creates or rebuilds the control budget dimension members and hierarchies for budgetary control balances cubes.
Project Management Duty	Manages individual projects and is not assigned the project manager job role. Performs web service operations to create and update projects, tasks, resources, and associated attributes. Sources and allocates resources such as labor, subcontractors, materials, and equipment. Tracks physical and financial project performance, changes, and issues. Ensures proper billing and cost transfers. Communicates status and project performance to program managers and project executives.	Withdraw Project Schedule of Values Approval	Enables the user to withdraw the requested approval for project schedule of values.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Burden Schedule	Allows updating of multipliers used to calculate the burdened cost, revenue, and bill amount of each expenditure item.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Forecast	Allows access to forecast versions created for a project.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Forecast Excel Integration	Allows access to export working forecast versions to Microsoft Excel.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Forecast Working Version	Allows creation, update, and deletion of working versions of project forecasts. Allows export of working forecast versions from Excel to Projects. Also, allows submission of working versions for approval and rework of rejected versions.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Plan Resource Assignment	Allows access to manage task assignments for projects.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Planning Resource Breakdown Structure Version	Allows updating of project resource breakdown structures for the projects for which the user is authorized.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Progress	Allows access to project progress.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Project Task Structure for Billable Tasks	Allows creation, update, and deletion of billable project tasks and task attributes.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Manage Task E-Mail Notification Service	Allows project users to send notifications while managing project tasks and to-do tasks using a service.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	Run Generate Financial Plan	Allows submission of process to generate budget or forecast versions for projects for which the user is authorized.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	View Project Plan Resource Assignment	Allows access to view task assignments for projects.
Project Plan Management	Creates, edits, and deletes task assignments and views project progress.	View Project Progress	Allows access to view project progress.
Project Requirements Management	Creates, edits, and deletes requirements and allows assignments of sprint, product and product family for requirements.	Customize Project Execution UI	Allows configuration of Project Execution pages
Project Requirements Management	Creates, edits, and deletes requirements and allows assignments of sprint, product and product family for requirements.	Manage Project Requirements	Allows management of requirements including requirement creation and tracking of sprint, product family, and product for a requirement to be delivered by the project."
Project Requirements Management	Creates, edits, and deletes requirements and allows assignments of sprint, product and product family for requirements.	Receive E-Mail Updates Service	Allows project members to view project progress, progress exceptions, project issues and recent tasks, or comments by e-mail.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages	Access Tap Application	Allows access to Tap application.

Granted Role	Granted Role Description	Privilege	Privilege Description
	deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.		
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Approve Project Resource for Project Assignment	Allows the project manager to evaluate and then approve or reject a resource that the resource manager proposed to fulfill a project resource request.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Create Project Work Plan Template	Allows creation of a work plan template from a new or existing project work plan.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Customize Project Execution UI	Allows configuration of Project Execution pages
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Export Project work plan to Third-Party Scheduling Software	Export project work plan to third party scheduling software including task dependencies and task constraints.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Import Project work plan from Third-Party Scheduling Software	Import project work plan from third party scheduling software including task dependencies and task constraints.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage File Import and Export	Privilege to manage import and export of files.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage My Welcome Tab	Allows management of Welcome page.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments,	Manage Project Calendar	Allows creation and update of project calendar and team member

Granted Role	Granted Role Description	Privilege	Privilege Description
	and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.		events. Allows display of tasks, milestones, and deliverables in a calendar format.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage Project Changes	Allows tracking of changes to the scope of a project and facilitation of the approval and implementation process.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage Project Deliverables	Allows management of deliverables and the association to project tasks and requirements to track tangible or intangible objects delivered as part of the project to an internal or external customer.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage Project Issue Action Items	Allows management of action items to track in the resolution of a project issue.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage Project Issues	Allows management of issues including issue creation and tracking, status update, and assignment of owners to resolve problems or questions that are encountered in the execution of a project.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage Project Resource Assignment Changes	Allows management of changes to project resource assignment attributes such as assignment dates and status.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage Project Resource Requests	Allows management of project resource requests to obtain project enterprise labor resources to work on a project.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage Project Tasks	Allows project users to manage and collaborate on project tasks and to-do tasks.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage Project Work Plan	Allows addition and organization of tasks, and maintenance of task dates. Allows management of project task dependencies, task constraints, and project schedule.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage Project Work Plan Baselines	Allows creation or deletion of baselines for a project work plan.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage Project Work Plan Progress	Allows review of project progress and the review and resolution of task schedule exceptions related to task progress.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage Project Work Plan Resource Assignments	Manage resources added to the project, with start and end dates for various project roles on project.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage Reports and Analytics	Allows access to the Reports and Analytics from Navigator Menu.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage Scheduled Processes	Allows management of Scheduled Processes
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Manage Task E-Mail Notification Service	Allows project users to send notifications while managing project tasks and to-do tasks using a service.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Mark Work Plan Template as Public	Allows designation of a work plan template as public to enable project managers to use it for creating project plans.

Granted Role	Granted Role Description	Privilege	Privilege Description
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Publish Project Work Plan Progress	Allows project progress to be published to various project team members or stakeholders.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Receive E-Mail Updates Service	Allows project members to view project progress, progress exceptions, project issues and recent tasks, or comments by e-mail.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Run Denormalize Task Structure Hierarchies for Business Intelligence Process	Allows submission of the process to convert task structure hierarchies into flat lists to enhance performance for Oracle Business Intelligence Applications.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Update Project Attributes	Allows the addition and update of attributes on the project such as product line and organization.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Update Project Enterprise Resource Profile	Allows project enterprise resources to update profile details to support collaboration in the project enterprise.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	Update Project Work Plan Progress	Update Project task progress by resource assigned to task.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	View Negotiation List of Values Using REST Service	Allows access to REST services list of values for supplier negotiations that will be consumed cross pillars.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues.	View Project Enterprise Resource Profile	Allows viewing of resource details by other members of the project enterprise to support project collaboration.

Granted Role	Granted Role Description	Privilege	Privilege Description
	Associates deliverables with requirements, projects, and tasks.		
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	View Project Performance	Allows access to the project manager dashboard to view project progress, progress exceptions, project issues and recent tasks, or comments by team members.
Project Work Plan Management	Creates, edits, and deletes tasks, task resource assignments, and project progress. Manages deliverables and resolves issues. Associates deliverables with requirements, projects, and tasks.	View Schedules by Web Service	Allow viewing schedules by web service.
Projects Reporting Analysis	Access project Business Intelligence Applications data.	View Project Home	Allows viewing of the project home page.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Check Funds	Check whether sufficient funds are available for a transactions
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Reserve Funds	Check whether sufficient funds are available for a transactions, and if so, reserve the funds
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budget Impact	Review the budgetary control results of a transaction and its budget impact
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budget Period Statuses	Allows inquiry on the budget period status.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Review Budgetary Control Balances	Review budget consumption balances
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject	Review Budgetary Control Transactions	Review budget consumption balances by transaction

Granted Role	Granted Role Description	Privilege	Privilege Description
	to budgetary control, such as accounts payable manager.		
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	Transfer Budget Balances to Budget Cubes Continuously	Allows the submission of a process to continuously transfer budget balances to the budgetary control balances reporting multidimensional database.
Transaction Entry with Budgetary Control	Manages the budgetary control tasks by job roles who perform transactions that are subject to budgetary control, such as accounts payable manager.	View Funds Available Balances	Allows access to view the budgetary control validation results.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Project Manager job role.

Business Object	Policy Description	Policy Store Implementation

Project Forecast	A Project Manager can edit project forecast reporting options for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Edit Project Forecast Reporting Options (Data) Resource: Project Forecast
Project Forecast	A Project Manager can manage project forecast for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Forecast (Data) Resource: Project Forecast
Project Forecast Approved Version	A Project Manager can delete project forecast approved version for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Delete Project Forecast Approved Version (Data) Resource: Project Forecast Approved Version
Project Forecast Approved Version	A Project Manager can view project forecast approved version for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: View Project Forecast Approved Version (Data) Resource: Project Forecast Approved Version
Project Forecast Excel Integration	A Project Manager can manage project forecast excel integration for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Forecast Excel Integration (Data) Resource: Project Forecast Excel Integration
Project Forecast Working Version	A Project Manager can approve project forecast working version for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Approve Project Forecast Working Version (Data) Resource: Project Forecast Working Version
Project Forecast Working Version	A Project Manager can manage project forecast working version for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Forecast Working Version (Data) Resource: Project Forecast Working Version
Project Key Performance Area	A Project Manager can analyze project key performance area for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Analyze Project Key Performance Area (Data) Resource: Project Key Performance Area

Business Object	Policy Description	Policy Store Implementation
Project Organization	A Project Manager can edit project organization for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Edit Project Organization (Data) Resource: Project Organization
Project Performance	A Project Manager can analyze project performance for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Analyze Project Performance (Data) Resource: Project Performance
Project Performance	A Project Manager can manage project performance for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Performance (Data) Resource: Project Performance
Project Performance	A Project Manager can review project performance for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Review Project Performance (Data) Resource: Project Performance
Project Performance	A Project Manager can update project performance for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Update Project Performance (Data) Resource: Project Performance
Project Performance Health	A Project Manager can review project performance health for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Review Project Performance Health (Data) Resource: Project Performance Health
Project Plan Resource Assignment	A Project Manager can manage project plan resource assignment for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Plan Resource Assignment (Data) Resource: Project Plan Resource Assignment
Project Progress	A Project Manager can manage project progress for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Progress (Data) Resource: Project Progress
Project Progress	A Project Manager can publish project progress for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Publish Project Progress (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Project Progress
Project Task Structure	A Project Manager can manage project task structure for the projects they are granted the project manager role on.	Role: Project Management Duty Privilege: Manage Project Task Structure (Data) Resource: Project Task Structure
Project Unprocessed Expenditure Item	A Project Manager can manage project unprocessed expenditure item for the business units, or the projects, on which the user is authorized to manage unprocessed expenditure items	Role: Project Management Duty Privilege: Manage Project Unprocessed Expenditure Item (Data) Resource: Project Unprocessed Expenditure Item
Project Unprocessed Expenditure Item	A Project Manager can manage project unprocessed expenditure item for the business units, or the projects, on which the user is authorized to manage unprocessed expenditure items	Role: Projects Reporting Analysis Privilege: Manage Project Unprocessed Expenditure Item (Data) Resource: Project Unprocessed Expenditure Item
Project Unprocessed Expenditure Item	A Project Manager can view project unprocessed expenditure item for the business units, or the projects, on which the user is authorized to manage unprocessed expenditure items	Role: Project Manager Privilege: Manage Project Unprocessed Expenditure Item (Data) Resource: Project Unprocessed Expenditure Item
Project Work Plan	A Project Manager can manage project work plan for the projects they are granted the project manager role on.	Role: Project Execution Privilege: Manage Project Work Plan (Data) Resource: Project Work Plan
Project Work Plan Version	A Project Manager can manage project work plan baselines for the projects they are granted the project manager role on.	Role: Project Execution Privilege: Manage Project Work Plan Baselines (Data) Resource: Project Work Plan Version
Public Person	A Project Manager can choose public person for persons and assignments in their person and assignment security profile	Role: Project Management Duty Privilege: Choose Public Person (Data) Resource: Public Person
Public Person	A Project Manager can choose public person for persons and assignments in their person and assignment security profile	Role: Project Manager Privilege: Choose Public Person (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Public Person
Public Person	A Project Manager can report public person for persons and assignments in their person and assignment security profile	Role: Project Management Duty Privilege: Report Public Person (Data) Resource: Public Person
Public Person	A Project Manager can report public person for persons and assignments in their person and assignment security profile	Role: Projects Reporting Analysis Privilege: Report Public Person (Data) Resource: Public Person
Public Person	A Project Manager can view public person for persons and assignments in their person and assignment security profile	Role: Project Manager Privilege: Report Public Person (Data) Resource: Public Person
Receivables Invoice	A Project Manager can view receivables invoice for all the business units for which they are authorized	Role: Project Manager Privilege: View Receivables Activities (Data) Resource: Receivables Invoice
Subledger Source Transaction	A Project Manager can view subledger source transaction for all the business units for which they are authorized	Role: Project Manager Privilege: Manage Subledger Source Transaction (Data) Resource: Subledger Source Transaction
Trading Community Customer Account	A Project Manager can view customer account for all customer accounts in the enterprise	Role: Project Management Duty Privilege: View Customer Account (Data) Resource: Trading Community Customer Account
Trading Community Customer Account	A Project Manager can view trading community customer account for all customer accounts in the enterprise	Role: Project Manager Privilege: View Customer Account (Data) Resource: Trading Community Customer Account
Trading Community Customer Account Relationship	A Project Manager can view customer account relationship for the reference data sets for which they are authorized	Role: Project Management Duty Privilege: View Customer Account Relationship (Data) Resource: Trading Community Customer Account Relationship

Business Object	Policy Description	Policy Store Implementation
Trading Community Customer Account Relationship	A Project Manager can view trading community customer account relationship for the reference data sets for which they are authorized	Role: Project Manager Privilege: View Customer Account Relationship (Data) Resource: Trading Community Customer Account Relationship
Trading Community Customer Account Site	A Project Manager can view customer account site for the reference data sets for which they are authorized	Role: Project Management Duty Privilege: View Customer Account Site (Data) Resource: Trading Community Customer Account Site
Trading Community Customer Account Site	A Project Manager can view trading community customer account site for the reference data sets for which they are authorized	Role: Project Manager Privilege: View Customer Account Site (Data) Resource: Trading Community Customer Account Site
Trading Community Customer Account Site Use	A Project Manager can view customer account site use for the reference data sets for which they are authorized	Role: Project Management Duty Privilege: View Customer Account Site Use (Data) Resource: Trading Community Customer Account Site Use
Trading Community Customer Account Site Use	A Project Manager can view trading community customer account site use for the reference data sets for which they are authorized	Role: Project Manager Privilege: View Customer Account Site Use (Data) Resource: Trading Community Customer Account Site Use
Trading Community Org Address Email Contact Preference	A Project Manager can manage trading community legal contact preference for all trading community contact preferences not of type legal.	Role: Project Management Duty Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Org Address Email Contact Preference
Trading Community Org Address Email Contact Preference	A Project Manager can manage trading community org address email contact preference for all trading community contact preferences not of type legal.	Role: Project Manager Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Org Address Email Contact Preference

Business Object	Policy Description	Policy Store Implementation
Trading Community Org Address Phone Contact Preference	A Project Manager can manage trading community legal contact preference for all trading community contact preferences not of type legal.	Role: Project Management Duty Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Org Address Phone Contact Preference
Trading Community Org Address Phone Contact Preference	A Project Manager can manage trading community org address phone contact preference for all trading community contact preferences not of type legal.	Role: Project Manager Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Org Address Phone Contact Preference
Trading Community Organization Address Contact Preference	A Project Manager can manage trading community legal contact preference for all trading community contact preferences not of type legal.	Role: Project Management Duty Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Organization Address Contact Preference
Trading Community Organization Address Contact Preference	A Project Manager can manage trading community organization address contact preference for all trading community contact preferences not of type legal.	Role: Project Manager Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Organization Address Contact Preference

Resource Manager (Job Role)

Manages a group of resources who are employees or contingent workers. Monitors the utilization of resources and manages the assignment of resources to work on projects. Collaborates with project managers to find suitable resources to fulfill project resources requests.

Role Hierarchy

The Resource Manager job role directly and indirectly inherits these roles.

- Resource Manager
  - Projects Folder Reporting
  - Use REST Service - Jobs List of Values

Duties

This table lists the duties assigned directly and indirectly to the Resource Manager job role.

Duty Role	Description
Projects Folder Reporting	Grants access to the Projects web catalog folder.

Aggregate Privileges

This table lists aggregate privileges assigned directly and indirectly to the Resource Manager job role.

Aggregate Privilege	Description
Use REST Service - Jobs List of Values	Allows the user to call the GET method associated with the Jobs list of values REST Service.

Privileges

This table lists privileges granted to duties of the Resource Manager job role.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Manager	Manages a group of resources who are employees or contingent workers. Monitors the utilization of resources and manages the assignment of resources to work on projects. Collaborates with project managers to find suitable resources to fulfill project resources requests.	Approve Project Resource Assignment to Project	Allows the resource manager to directly approve the assignment of a resource to fulfill an open project resource request without further approval from the project manager.
Resource Manager	Manages a group of resources who are employees or contingent workers. Monitors the utilization of resources and manages the assignment of resources to work on projects. Collaborates with project managers to find suitable resources to fulfill project resources requests.	Customize Project Execution UI	Allows configuration of Project Execution pages
Resource Manager	Manages a group of resources who are employees or contingent workers. Monitors the utilization of resources and manages the assignment of resources to work on projects. Collaborates with project managers to find suitable resources to fulfill project resources requests.	Fulfill Project Resource Requests	Allows the resource manager to initiate a search and evaluate resources to fulfill open project resource requests.
Resource Manager	Manages a group of resources who are employees or contingent workers. Monitors the utilization of resources and manages the assignment of resources to work on projects. Collaborates with project managers to find suitable resources to fulfill project resources requests.	Manage My Welcome Tab	Allows management of Welcome page.
Resource Manager	Manages a group of resources who are employees or contingent workers. Monitors the utilization of resources and manages the assignment of resources to work on projects. Collaborates with project managers to find suitable resources to fulfill project resources requests.	Manage Project Resource Assignment Changes	Allows management of changes to project resource assignment attributes such as assignment dates and status.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Manager	Manages a group of resources who are employees or contingent workers. Monitors the utilization of resources and manages the assignment of resources to work on projects. Collaborates with project managers to find suitable resources to fulfill project resources requests.	Manage Project Resource Requests	Allows management of project resource requests to obtain project enterprise labor resources to work on a project.
Resource Manager	Manages a group of resources who are employees or contingent workers. Monitors the utilization of resources and manages the assignment of resources to work on projects. Collaborates with project managers to find suitable resources to fulfill project resources requests.	Manage Reports and Analytics	Allows access to the Reports and Analytics from Navigator Menu.
Resource Manager	Manages a group of resources who are employees or contingent workers. Monitors the utilization of resources and manages the assignment of resources to work on projects.
