Get Help

There are a number of ways to learn more about your product and interact with Oracle and other users.

Get Help in the Applications

Use help icons  to access help in the application. If you don't see any help icons on your page, click your user image or name in the global header and select Show Help Icons.

Get Support

You can get support at [My Oracle Support](#). For accessible support, visit [Oracle Accessibility Learning and Support](#).

Get Training

Increase your knowledge of Oracle Cloud by taking courses at [Oracle University](#).

Join Our Community

Use [Cloud Customer Connect](#) to get information from industry experts at Oracle and in the partner community. You can join forums to connect with other customers, post questions, suggest [ideas](#) for product enhancements, and watch events.

Learn About Accessibility

For information about Oracle's commitment to accessibility, visit the [Oracle Accessibility Program](#). Videos included in this guide are provided as a media alternative for text-based topics also available in this guide.

Share Your Feedback

We welcome your feedback about Oracle Applications user assistance. If you need clarification, find an error, or just want to tell us what you found helpful, we'd like to hear from you.

You can email your feedback to oracle_fusion_applications_help_ww_grp@oracle.com.

Thanks for helping us improve our user assistance!

1 Introduction

Overview of Security Reference

If you are an IT Security Manager, this guide is for you. Use the reference information for implementing security for an offering in Oracle Applications Cloud. Depending on the needs of your enterprise, determine what works best for your offering, and make the required configuration changes.

Broadly, the reference information includes these details:

- Abstract and job roles for an offering
- Duty roles and the role hierarchy for each job role and abstract role
- Privileges that are required to perform duties defined by a duty role
- Data security policies for each job role or abstract role
- Policies that protect personally identifiable information

To know more about the roles, privileges, and policies and to learn how to implement and administer security for your offering, refer to your product security guide.

How to Use This Guide

You can review the information in this guide to decide how to assign roles and privileges to specific users. For each role, you will find these details:

- The role hierarchy that lists the other inherited roles
- A list of duties assigned to that role
- Privileges granted to that role
- Data security policies and their implementation scope

Note: The changes you make to the security reference implementation are preserved during upgrades or maintenance patches.

Common Roles for the Student Management Offering

This guide describes the security reference implementation for the common roles applicable to the Student Management offering.

Apart from these common roles, there is a set of roles that are specific to an offering. For information about these roles, see the *Oracle Fusion Applications Security Reference Guide* for the offering of interest.

Advisory Note on Subscription Impact

Assigning predefined roles and privileges as is to users may impact subscription usage, even if you haven't purchased the subscription. Privileges that are assigned but remain unused can still account for subscription consumption.

Before you assign predefined roles with privileges, evaluate the business needs of your users. Do your users need the entire role and all its privileges in full scope? Or, do they need the role but only a few of its privileges? Evaluating what your users need will help you avoid potential security risks and also keep a check on the subscription consumption.

If you want users to have the predefined role in full scope and have purchased all the impacted cloud services, you can assign the role with privileges as is. For example, only while setting up an application, you may need to assign the predefined Application Implementation Consultant role as is. Once the setup is complete, you can unassign it. Otherwise, Oracle recommends that you make a copy of that predefined role, remove the privileges you don't need, and assign only the required privileges. For a list of all predefined roles with privileges that impact subscription usage, see the spreadsheet [Predefined Roles with Subscription Impact](#). To give you an example, here's an indicative list of the top three roles that impact subscription usage:

- Employee (ORA_PER_EMPLOYEE_ABSTRACT)
- Application Implementation Consultant (ORA_ASM_APPLICATION_IMPLEMENTATION_CONSULTANT_JOB)
- Contingent Worker (ORA_PER_CONTINGENT_WORKER_ABSTRACT)

2 What's New

Overview

This release of the offering includes new job roles, abstract roles, duties, aggregate privileges, or privileges.

New Privileges

This table lists the new privileges for the Student Management offering.

Granted Role	Privilege	Description
Academic Coordinator	View Person Test	Allows viewing of tests selected by a person for individual processes.
Admissions Coordinator	Manage Person Test	Allows management of tests selected by a person for individual processes.
Admissions Coordinator	View Person Test	Allows viewing of tests selected by a person for individual processes.
Bursar	Delete Fees	Allows to delete fees.
Bursar	Maintain Fees	Allows to set up and maintain fees.
Bursar	View Fees	Allows to view fees.
Higher Education Application Administrator	Create And Update Admission Period	Allows creation and editing of admission period.
Higher Education Application Administrator	Create And Update Admission Period Attribute	Allows creation and editing of admission period attribute.
Higher Education Application Administrator	Delete Admission Period	Allows deletion of a specific admission period.
Higher Education Application Administrator	Delete Admission Period Attribute	Allows deletion of a specific admission period attribute.
Higher Education Application Administrator	Maintain Fees	Allows to set up and maintain fees.

Granted Role	Privilege	Description
Higher Education Application Administrator	Manage All Missing Person Contacts	Allows management of all missing person contacts.
Higher Education Application Administrator	Manage Person Test	Allows management of tests selected by a person for individual processes.
Higher Education Application Administrator	Manage Self-Service National Identifier	Allows management of own national identifiers.
Higher Education Application Administrator	Manage Standardized Test Setup	Allows management of standardized test setup for individual processes.
Higher Education Application Administrator	Manage and Publish Student Management Rule Templates	Allows management and publication of student management rule templates.
Higher Education Application Administrator	View Admission Period	Allows viewing of admission periods created.
Higher Education Application Administrator	View Admission Period Attribute	Allows viewing of admission period attributes created.
Higher Education Application Administrator	View All Missing Person Contacts	Allows viewing of all missing person contacts.
Higher Education Application Administrator	View Fees	Allows to view fees.
Higher Education Application Administrator	View Person Test	Allows viewing of tests selected by a person for individual processes.
Higher Education Application Administrator	View Standardized Test Setup	Allows viewing of standardized test setup for individual processes.
Registrar	Manage Person Test	Allows management of tests selected by a person for individual processes.
Registrar	View Person Test	Allows viewing of tests selected by a person for individual processes.
Student	View Person Test	Allows viewing of tests selected by a person for individual processes.
Student Adviser	View Person Test	Allows viewing of tests selected by a person for individual processes.

3 Roles

Academic Coordinator (Job Role)

Individual responsible for managing the academic offerings of a school or department within a university, including: marketing and promoting the program, recruiting students, and creating, approving, and maintaining programs and course offerings, instructor assignments and hiring, and so on.

Role Hierarchy

The Academic Coordinator job role directly and indirectly inherits these roles.

- Academic Coordinator
 - Curriculum Registry Inquiry
 - Customer Payment Instrument Management
 - Student Party Maintenance
 - Student Party View

Duties

This table lists the duties assigned directly and indirectly to the Academic Coordinator job role.

Duty Role	Description
Curriculum Registry Inquiry	Inquiry access to program, course, and section curriculum items.
Customer Payment Instrument Management	Manages customer bank accounts and credit cards and other payment details.
Student Party Maintenance	Reviews and updates the party information of students.
Student Party View	Reviews the party information of students.

Privileges

This table lists privileges granted to duties of the Academic Coordinator job role.

Granted Role	Granted Role Description	Privilege
Academic Coordinator	Individual responsible for managing the academic offerings of a school or department within a university, including: marketing and promoting the program, recruiting students, and creating, approving, and maintaining programs and course offerings, instructor assignments and hiring, and so on. Admissions Coordinator (Job Role)

Individual responsible for coordinating student admissions.

Role Hierarchy

The Admissions Coordinator job role directly and indirectly inherits these roles.

- Admissions Coordinator
 - Customer Payment Instrument Management
 - Download data for Admissions Export
 - FSCM Load Interface Administration
 - Functional Setups User
 - Functional Setups
 - Student Party Maintenance
 - Student Party View
 - Upload data for Admissions Import

Duties

This table lists the duties assigned directly and indirectly to the Admissions Coordinator job role.

Duty Role	Description
Customer Payment Instrument Management	Manages customer bank accounts and credit cards and other payment details.
Download data for Admissions Export	Allows to download data exported from Admissions related data.
FSCM Load Interface Administration	Manages load interface file for import
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.
Student Party Maintenance	Reviews and updates the party information of students.
Student Party View	Reviews the party information of students.
Upload data for Admissions Import	Allows to upload data file to import Admissions related data.

Privileges

This table lists privileges granted to duties of the Admissions Coordinator job role.

Granted Role	Granted Role Description	Privilege
Admissions Coordinator	Individual responsible for coordinating student admissions.	Administer Admissions Application
Admissions Coordinator	Individual responsible for coordinating student admissions.	Administer Customer Accounts
Admissions Coordinator	Individual responsible for coordinating student admissions.	Administer User Registration
Admissions Coordinator	Individual responsible for coordinating student admissions.	Apply Manual Discount
Admissions Coordinator	Individual responsible for coordinating student admissions.	Assign Person Tags
