1 Goals Center Questions and Answers

What's the maximum number of characters for the goal name?

The goal name can be up to 400 characters.

Can I add goals directly to a performance document?

No, you can't add goals directly to a performance document.

You need to add the goal to a goal plan in your Goals Center. The goal will automatically be included in the relevant performance documents.

Can I update my goals even after they are included in performance documents?

Yes, you can if any of the evaluation tasks such as worker self-evaluation, manager evaluation, or participant feedback, for the performance document aren't complete.

If the evaluation tasks aren't complete, the changes you make to your goal will reflect immediately in the performance documents in which it's included. But if any of the evaluation task is complete, the goals in the performance document are frozen and won't show the updates made in the Goals Center.

Can I view the goal progress and comments in performance documents?

Yes, click **Show goal info** in the performance document to view details such as the basic information, progress notes, measurements, tasks, and target outcomes.

How can I identify the persons with whom I have shared a goal?

View the goal details to see who you've shared a goal with.

You can see the people with whom you have shared the goal with in the **Shared with** section.

How can I remove the shared goals that I've already added to my goal plan from the Explore tab of my Goals Center?

You need to select the **Ignore** action for removing the shared performance goals that you've added to your goal plan.

1. Go to the **Explore** tab of your Goals Center.
2. Apply the **Shared** and **Performance** filters.
3. Locate the goal that you've already added to your goal plan.
4. On the goal card, select the **Ignore** action.

Results:

The shared goal will also be removed from the Shared with section of the goal shared by the manager, HR specialist, or colleague.

Where can I view the goals shared with me?

You can view the goals shared with you on these pages of your Goals Center:

- Explore tab
- Suggested goals panel of the New Goal page

As an employee, how can I find goals that are relevant to me?

Use the Explore tab in your Goals Center to find library goals, organization goals, and goals that others have shared with you.

How do I add learning tasks for a development goal?

Here's how you add learning tasks for a development goal:

1. Edit or create a development goal.
2. In the **Tasks** section, click **Add > Learning Item**.
3. Search for and select the learning course.
4. Enter a name for the task.
5. Click **Save**.

Why am I not able to add a private goal to my goal plan?

You can't add private goals when your goal plan already has the maximum number of goals that's specified.

Why is the Align option for performance goals disabled for me?

You can see the **Align** option for performance goals only when some conditions are met:

- Your role needs to be granted the Align Performance Goals (HRG_ALIGN_PERFORMANCE_GOALS_PRIV) privilege.
- Others should have shared goals with you.

How do I move my goal to another assignment?

Use the **Move** action to move your goal to another assignment.

1. Go to **Me > Career and Performance > Goals Center**.
2. Find the goal that you want to move.
3. Select the **Move** action.
4. In the Move to panel, select these values:
 - Assignment to which you want to move the goal
 - Review period
 - Goal plan
5. Click **Move**.

How to add multiple measurements to a goal?

In Redwood Goal Management, measurements are part of tasks. You can add multiple tasks and include measurements for each task.

Who can see the notes added for a goal?

Both employee and the managers in the hierarchy of their manager can view the goal progress notes.

But only the author of the note can edit or delete the progress note.

Can I see goal notes in Anytime Feedback?

No, you can view goal notes only when you open the goal.

How can I delete a goal that has already been submitted for approval?

You need to withdraw the goal approval request first. Then you can delete the draft goal.

Why are employees not able to copy goals from a previous review period?

Ensure that the category of the performance goals in the previous review period hasn't been made inactive.

Why are workers not assigned goals immediately after their manager assigns a goal or their HR specialist mass assigns goals?

When manager assigns a goal to their direct reports or an HR specialist creates a mass assignment process, a scheduled process is created for goal assignment. Administrators need to schedule this process.

They need to go to **My Client Groups > Scheduled Process for Goals**. This table lists the parameters that the administrator can use to schedule the process.

Process Type	Process Name
Mass assign or share goals	The name of the mass assignment process that needs to be scheduled.
Assign goal plans	The name of the goal plan that includes the goals to be assigned.

The goals will be assigned to the direct reports after the process completes. Administrators need to review the process log and check if the goal is assigned. Sometimes the goals aren't assigned to a worker because the maximum goal limit for the goal plan is reached or if no goal plan is assigned to the worker.

How does generative AI generate a goal?

Generative AI generates content by passing the appropriate context to the large language model (LLM).

The performance or development goal is generated based on the goal name entered, the employee's business title, and department. These fields are populated in the generated goal:

- Goal name
- Description
- Success criteria

You can review these fields and either accept or modify their content.

As a new manager of an employee, can I see the goals assigned by the previous manager of the employee?

Yes, you can see the goals assigned by the previous manager of the employee.

As a manager, how can I explore goals of a team member?

You can use the **Goals Center** quick action in My Team or go to your Team Goals Center page.

Click the team member's name to view the Goals page of that team member. Click the **Explore Goals** button in the Performance or Development tab of your team member's Goals page to explore performance or development goals for that team member.

As a manager, can I delete the performance goal that my team member has added?

No, you can't delete a performance goal that was added by your team member. But you can cancel it.

How to access indirect reports on my Team Goals Center?

On your Team Goals Center, click **Switch Team** to switch to the team of a direct report who's a manager.

How do I move a goal of my team member to their new assignment?

You can move goals on the Goals page of your team member.

1. From your Team Goals Center, go to the Goals page of the team member whose goal you want to move.
2. Find the goal that you want to move.
3. Select the **Move** action.
4. In the Move to panel, select these values:
 - Assignment to which you want to move the goal
 - Review period
 - Goal plan
5. Click **Move**.

How can I view goals of a team member in the Team Activity Center?

Use the **Goals Center** action for the employee in your Team Activity Center.

How do I delegate my goal management tasks for a specific period?

Use the **Roles and Delegations** task under **Me** to delegate your tasks as a line manager.

You can delegate your role for a specific period.

Related Topics

- [Role Delegation](#)

How can I act on my delegated goal management tasks?

Use the **Goals Center** quick action in **My Team**. In the **Reports** filter, select **Others and delegated** to view your delegated reports.

You can do actions such as creating goals and updating goals for your delegated reports.

How to cascade goals from the top level down to managers and then to their direct reports?

As a manager, if you have the required privilege, you can share goals with all people in your organization.

Before you start

- Your administrator needs to enable creating organization goals.
- You need to have the Manage Performance Goal for Organization (HRG_MANAGE_PERFORMANCE_GOAL_FOR_ORGANIZATION_PRIV) privilege.
- You need to have the Executive Manager role

Share a goal with your organization

1. Create a performance goal or edit your existing goal.
2. Set the **Publish this goal for your organization** switch to **On** state.
3. Add or update the goal.

Results:

Employees in your organization can see the goal you shared on the **Explore** tab of their Goals Center. They can perform any of these actions on the published organization goals:

- Create a new goal based on the published goal. The new goal is aligned to the published goal.
- Align the published goal with one of their goals.

How can I assign different goals to manager and employees under one goal plan?

You can assign different goals to manager and employees under one goal plan.

1. Add the common goals to a goal plan, say FY2025 Goal Plan.
2. Assign this goal plan to all eligible employees and managers.
3. Create a new eligibility profile for only managers with **Job** or **Position** criteria as **Manager** role.
4. Set up a mass assign goal process, say FY2025 Mass Assign Goals for Managers, and select the same goal plan (FY2025 Goal Plan). In the **Goals** section, add the additional goals that need to be assigned only to managers. Add the created eligibility profile for managers.
5. Run the mass assign goal process created in Step 4.

Results:

After the process completes, employees can see only the common goals while managers can view additional goals in the goal plan.

How to remove a person whose employment is terminated from an assigned goal plan?

As HR specialists, you need to use the **Manage Assignees** action to remove persons whose employment is terminated.

1. On the **Goal Plans** page, select the goal plan from which the terminated person needs to be removed.
2. Select the **Manage Assignees** action.
3. On the **Assignees** page, search for and select the employee who needs to be removed from the goal plan.
4. Click **Delete**.
5. Click **Remove** to confirm the employee's removal.

Can HR specialists add organization goals for employees?

No, HR specialists by default can't add organization goals.

How can we enable creating organization goals?

To enable persons to create organization goals, you need to do these actions:

- Assign the Manage Performance Goal for Organization (HRG_MANAGE_PERFORMANCE_GOAL_FOR_ORGANIZATION_PRIV) privilege to these persons.
- Ensure that they have the Executive Manager role.

How to delete a primary goal plan?

Remove all assignees for the primary goal plan and make it inactive.

You can also delete the primary goal plan using HCM Data Loader.

How to retrieve goals from a deleted goal plan?

Goals can't be recovered from a deleted goal plan.

How can I ensure that employees add a specified minimum number of goals to their goal plan?

On the goal plan page, use the **Minimum Goals for this Goal Plan** field to specify the minimum number of goals that a goal plan can have.

When the goal plan has less than the specified minimum number of goals, then the employees and their managers can see a banner on the Performance tab of the Goals Center that indicates the minimum number of goals for the goal plan.

How do I ensure that employees can't add or delete goals in a goal plan?

On the goal plan page, select **HR and Manager Only** or **HR Only** in the **Allow Updates to Goals By** list.

How can I ensure that employees can't delete or cancel goals while the goal plan is pending approval?

Update the **Goal Level Approval Enabled (ORA_HRG_PERF_GOAL_LVL_APPROVL)** profile option value to **N**.

How do I prevent managers and employees from updating goals in goal plans of previous review periods?

On the Goal Plans page, edit the goal plan that you want to restrict managers and employees from updating and select **HR specialist** in the **Allow Updates to Goals By** list.

How can I add a goal for an employee when the employee has no goals in their goal plan?

You can add goals for people who you can access on your Goals Center page.

1. Use the **Goals Center** quick action under My Client Groups to view your **Goals Center** page.
2. Search for the specific employee or apply filters to view persons matching the criteria applied. Click the name of a person to view their **Goals** page. Here you can view their performance and development goals.
3. On the **Performance** tab, select the review period and goal plan to which you want to add the goal.
4. Click **Add** to add a goal.

How to create a goal plan that can be updated only by HR specialists?

When you create the goal plan, select **HR specialist** in the **Allow Updates to Goals By** list.

How to restrict library goals access to the employee's department or business unit?

In Redwood Goals Center, employees and managers can only view library goals that are relevant to the employee's legal entity, business unit, job family, and department by default.

You don't need to enable any profile option for this.

Why can't employees see the Weight field even after it's enabled in Visual Builder Studio?

Check if weights are enabled for the goal plan in the goal plan details. Goal weight isn't controlled only by the Visual Builder Studio property.

How to assign a goal plan to employees in bulk using HDL?

Use the **MassRequest** discriminator to load goal plan mass request records using HCM Data Loader.

The **Mass Request** component holds attributes of the mass request object associated with the goal plan. It's referenced by sub-components that collectively define the employee population or organization to assign the goal plan to.

The **Mass Request Assignment** component holds information about an organization to associate the goal plan with. Use the **MassRequestAssignment** discriminator to load mass request assignment records for a mass request within a goal plan using HCM Data Loader.

This example **GoalPlan.dat** file creates a goal plan with a mass request assignment for the mass request.

```
METADATA|GoalPlan|GoalPlanExternalId|GoalPlanName|GoalPlanTypeCode|GoalPlanActiveFlag|EnableWeightingFlag|
StartDate|EndDate|EnforceGoalWeightFlag|GoalAccessLevelCode|IncludeInPerfdocFlag|ReviewPeriodName
```

```
MERGE|GoalPlan|GP_001_05|GP_001_05|Performance|A|Y|2025/01/01|2025/12/31|Y|HR specialist and manager|N|
Default Review Period - Vision Corporation Enterprise
METADATA|MassRequest|GoalPlanExternalId|ReqSubmittedByPersonNumber
MERGE|MassRequest|GP_001_05|8153756
METADATA|MassRequestAssignment|OrganizationName|GoalPlanExternalId
MERGE|MassRequestAssignment|Vision Corporation Enterprise|GP_001_05
```

This example **GoalPlan.dat** file creates a mass request assignment for a goal plan and mass request that already exist. This file uses the user keys attributes to identify the existing goal plan and organization, but you can also use source keys instead.

```
METADATA|MassRequestAssignment|OrganizationName|GoalPlanExternalId
MERGE|MassRequestAssignment|Vision Air|GP_001_05
```

How do I ensure that performance goals of a goal plan are visible in performance documents?

You need to configure both performance documents and the goal plan to automatically add goals to the performance document.

Set Up Performance Documents for Synchronization

Add a **Performance Goals** type section in the performance template. Remember to enable ratings and comments so that managers, employees, and participants can select a rating for the section and provide comments.

In the **Performance Goals** section, select these checkboxes:

- **Populate with Worker Performance Goals:** To add goals from goal plans in Goal Management to the performance document.
- **Allow update goals action to update goal weights from goal management business process:** To update goals in performance documents with weights that are revised in Goal Management.

Set Up Goal Plans for Synchronization

The **Evaluation Type** attribute of goal plans is used to sync performance goals in Goal Management with specific evaluation topics in performance documents.

When an HR specialist creates a performance document, these goal plans are automatically added as evaluation topics:

- Those that have the same review period as the performance document
- Those that have the same evaluation type as performance goal sections defined in the performance template

How do I exclude employees whose hire date falls within the last 6 months from the goal plan assignment?

You can use eligibility profiles to indicate who should be included in the goal plan assignment.

1. Create an eligibility profile with a **Length of Service** derived factor set to **One Year Service**.
2. Add this eligibility profile to the goal plan assignment.

How to transfer performance goals from one assignment to another assignment using HCM Data Loader?

You can transfer only the performance goals or both the performance goals and the performance documents in which the goals are included.

Transfer both Performance Goals and Performance Documents

You can transfer all performance goals and performance documents from one assignment to another assignment using the `Performance Documents and Goals Assignment Transfer (PerfDocUpdate.dat)` HCM Data Loader (HDL) business object. It enables the transfer of performance documents and goals from an inactive worker assignment to the new, active assignment after a rehire or change of legal employer.

Transfer only Performance Goals Without Performance Documents

You can transfer only performance goals from one assignment to another anytime by updating the `AssignmentId` attribute using the `Goal (Goal.dat)` HDL business object and then moving the goal plan assignment from the old assignment to the new one using the `Goal Plan (GoalPlan.dat)` business object with the `GoalPlanAssignment` discriminator .

Can we report on a specific goal plan in Oracle Transactional Business Intelligence?

Yes, create an analysis using the Workforce Goals - Goal Plan Assignments Real Time subject area

Why is an employee not able to view goals on the Development tab of their Goals Center?

To enable an employee to view and manage goals on the Development tab of their Goals Center, configure their custom role.

- Assign the View Development Goal function security policy.
- Assign the Manage Development Goal by Worker (ORA_HRG_MANAGE_DEVELOPMENT_GOAL_BY_WORKER) aggregate privilege.

How do I ensure that some employees can't share performance goals?

You need to create a custom role and assign it to employees who shouldn't share their performance goals.

The delivered employee role has the Share Performance Goals (HRG_SHARE_PERFORMANCE_GOALS_PRIV) privilege by default. You need to create a custom employee role and ensure that this role doesn't have this privilege. Grant this custom role to the employees who you don't want to share performance goals.

How do I enable adding target outcomes for performance goals?

Here's how you enable adding target outcomes for performance goals:

1. Configure relevant content sections in Enhanced Talent Profiles and define goal target outcomes using the **Goals** subscriber code. Remember that you can use only these content templates for target outcomes of performance goals:
 - Certifications
 - Competencies
 - Education
 - Honors
 - Languages
 - Memberships
 - Special Projects
 - Skills
2. Enable the HRG_ENABLE_OUTCOMES profile option.
3. Edit the **New Goal** and goal details page in Visual Builder Studio and set the **Show Target outcomes Section for Performance Goals** page property to **true**.

How do I hide specific goal actions for some employees?

You need to create a custom employee role and ensure that this role doesn't have the privilege corresponding to the goal action.

Grant this role to the employees for whom you want to hide the actions.

Privileges for Actions of Performance Goals

Action	Privilege Code	Privilege Name
Copy	HRG_COPY_PERFORMANCE_GOALS_PRIV	Copy Performance Goals
Share	HRG_SHARE_PERFORMANCE_GOALS_PRIV	Share Performance Goals
Align	HRG_ALIGN_PERFORMANCE_GOALS_PRIV	Align Performance Goals
Extend	HRG_EXTEND_PERFORMANCE_GOALS_PRIV	Extend Performance Goals
Move	HRG_MOVE_PERFORMANCE_GOALS_PRIV	Move Performance Goals
Cancel	HRG_CANCEL_PERFORMANCE_GOALS_PRIV	Cancel Performance Goals
Assign	HRG_ASSIGN_PERFORMANCE_GOALS_PRIV	Assign Performance Goals
Delete	HRG_DELETE_PERFORMANCE_GOALS_PRIV	Delete Performance Goals

Note: The privileges for the delete and cancel actions take precedence over the goal plan settings that allow workers and managers to delete or cancel HR-assigned goals. These actions will be available to the employees based on the privileges that they have.

Privileges for Actions of Development Goals

Action	Privilege Code	Privilege Name
Copy	HRG_COPY_DEVELOPMENT_GOALS_PRIV	Copy Development Goals
Share	HRG_SHARE_DEVELOPMENT_GOALS_PRIV	Share Development Goals
Assign	HRG_ASSIGN_DEVELOPMENT_GOALS_PRIV	Assign Development Goals
Delete	HRG_DELETE_DEVELOPMENT_GOALS_PRIV	Delete Development Goals

How to check if a goal plan is assigned to a specific employee?

On the Goal Plans page, use the **Manage Assignees** action for the goal plan.

On the Assignees page, search for the employee or apply filters to locate the employee.

How can an administrator delete multiple goals?

Here's how an HR Specialist can delete multiple goals.

1. Go to **My Client Groups > Goals**.
2. Apply filters.
3. Select goals that you want to delete in the search result.
4. From the **Actions** menu, click **Delete**.

How to enable target outcomes for development goals?

Do these steps to enable adding target outcomes for development goals:

1. Go to **My Client Groups > Profiles > Profile Types** and select the **Person** profile type. Configure relevant content sections and define goal target outcomes using the **Career Development** subscriber code. Remember that you can use only these content templates for target outcomes of development goals:
 - Certifications
 - Competencies
 - Education
 - Honors
 - Languages
 - Memberships
 - Special Projects
 - Skills
2. Edit the New goal and goal details page in Visual Builder Studio and set the **Show Target outcomes Section for Development Goals** page property to **true**.

How can we hide the context value of descriptive flexfields on the goal details page?

Use Visual Builder Studio to hide the context value of descriptive flexfields on the goal details page.

1. Edit the New Goal or goal details page in Visual Builder Studio.
2. Select a project.
3. In Express mode, click the **Configure Fields and Region** button.
4. Expand the Form Rules region.
5. Add or edit a **Regular** form rule and give a suitable name and description.

6. Ensure that the rule is active.
7. In the Regions and Fields section, expand Goal Details.
8. Expand the performanceGoalsV2 resource.
9. Locate the descriptive flexfield field that you want to hide.
10. Set the **Hidden** property of the context value to **Hidden**.
11. Preview your changes and publish.

What privileges do I need to assign to users to allow them to manage goal lookups?

Assign these privileges to users who need to manage goal lookups:

- **Worker Goal Setting Lookups** task: Manage Application Set-Enabled Lookup (FND_APP_MANAGE_SET_ENABLED_LOOKUP_PRIV, Manage Application Standard Lookup (FND_APP_MANAGE_STANDARD_LOOKUP_PRIV))
- **Manage Common Lookups** task: Manage Application Common Lookup (FND_APP_MANAGE_COMMON_LOOKUP_PRIV)

How can I ensure that the line manager's team is notified when the line manager publishes an organization goal?

You need to enable the **Worker notified after organization owner publishes a goal** template.

1. Use the Alerts Composer tool.
2. Search for the **Performance Goals Alerts** event.
3. Enable the **Worker notified after organization owner publishes a goal** template.

If I delegate goal plan approval, will the delegated manager be able to view the other details such as compensation information of the employee?

No, when you delegate approval for a goal plan, the delegated manager gets access only to approve the goals in the goal plan. They can't see other details of the employee.

Access to other data will depend on the security profiles added to the role that the manager has.

How do I ensure that FYI notifications are sent for goal approvals?

To ensure that FYI notifications are sent for goal approvals set these profile option values to **TRUE**:

Profile Options for Goal Approval Notifications

Profile Option Code	Profile Display Name
BIP_EMAIL_NOTIFICATION_HCM	BI Publisher Notifications Enabled for Human Capital Management
BIP_EMAIL_NOTIFICATION_HCM_TALENT	BI Publisher Notifications Enabled for Talent Management
BIP_ONLINE_NOTIFICATION_HCM	BI Publisher Worklist Notifications Enabled for Human Capital Management
BIP_ONLINE_NOTIFICATION_HCM_TALENT	BI Publisher Worklist Notifications Enabled for Talent Management
Note: This profile option isn't delivered. You need to create this and set it to TRUE .	
BIP_ONLINE_NOTIFICATION_HCM_GOALS	BI Publisher Worklist Notifications Enabled for Goals and Career Management
Note: This profile option isn't delivered. You need to create this and set it to TRUE .	

How to configure approvals based on goal plan name?

When you create approval rules, use Attribute1 or Attribute8 for goal plan name or Attribute22 for goal plan ID.

How to configure approval rules so that goals added by the CEO are autoapproved?

Configure autoapproval and manual approval rules as indicated.

CEO Rule - Autoapproved

```
((transactionApprovalRequest.Requestor == "User.CEO") AND (transactionApprovalRequest.attribute25 == "Y") AND  
(transactionApprovalRequest.attribute10 != "") AND (Performance Goals != null))
```

Auto Approval Rule

```
((transactionApprovalRequest.Requestor != "User.CEO") AND (transactionApprovalRequest.attribute25 ==  
"Y") AND (transactionApprovalRequest.attribute10 != "") AND (Performance Goals != null) AND (Performance  
Goals.Goal Version Type Code == "PENDING_APPROVAL") AND (Performance Goals.Goal Updated Flag != "Y") AND  
(Performance Goals.Legacy Key Attribute Updated != "Y"))
```

Manual Approval Rule

```
((transactionApprovalRequest.Requestor != "User.CEO") AND (transactionApprovalRequest.attribute25 ==  
"Y") AND (transactionApprovalRequest.attribute10 != "") AND (Performance Goals != null) AND (Performance  
Goals.Goal Version Type Code == "PENDING_APPROVAL") AND ((Performance Goals.Goal Updated Flag == "Y") OR  
(Performance Goals.Legacy Key Attribute Updated != "Y")))
```

How to enforce minimum or maximum weights for a goal within a goal plan?

You need to create validation rules in Visual Builder Studio for both the **New Goal** or **Goal Details** page and the **My Goal** page.

New Goal or Edit Goal Page

1. Select a goal plan that has weights enabled.
2. Edit an existing goal or add a goal.
3. Edit the page in Visual Builder Studio.
4. Select a project.
5. In Express mode, click **Validate Field Values**.
6. Add a validation rule.
7. In the Create Validation dialog, do these steps:
 - a. Select the rule type as **Regular**.
 - b. Add a label and optionally a description.
 - c. Click **Create**.
8. Ensure that the rule is active.
9. Click **Edit**.
10. Add a condition.
11. Select the **Weight** field.
12. Select the operator:
 - o To enforce maximum weight, select the **greater than** operator.
 - o To enforce minimum weight, select the **less than** operator.
13. Enter the maximum or minimum value.
14. Add a message.
15. Enter the text in the **Summary** and **Detail** fields.
16. Select the severity as **Error**.
17. Click **Done**.

My Goals Page

1. Go to the My Goals page of your Goals Center.
2. Ensure that you are on the **Performance** tab.
3. Edit the page in Visual Builder Studio.
4. Select a project.
5. In Express mode, click **Validate Field Values**.
6. Add a validation rule.
7. In the Create Validation dialog, do these steps:
 - a. Select the rule type as **Regular**.
 - b. Add a label and optionally a description.
 - c. Click **Create**.
8. Ensure that the rule is active.
9. Click **Edit**.
10. Add a condition.
11. Select the **Weight** field.
12. Select the operator:
 - o To enforce maximum weight, select the **greater than** operator.
 - o To enforce minimum weight, select the **less than** operator.
13. Enter the maximum or minimum value.
14. Add a message.
15. Enter the text in the **Summary** and **Detail** fields.
16. Select the severity as **Error**.
17. Click **Done**.
