Release Notes

This document provides release notes for Oracle Communications Digital Business Experience 1.0.

New Features

This release introduces Oracle Communications Digital Business Experience 1.0.

Oracle Communications Digital Business Experience is a pre-integrated, end-to-end, digital solution that supports Concept to Cash to Care business processes for telecommunications service providers.

The solution enables you to:

- Launch rapidly, deliver efficiently, and monetize orders
- Improve business agility with a full-featured, productized, and configurable solution
- Increase operational efficiency with a flexible architecture

Digital Business Experience supports the complete lifecycle of the Concept to Cash to Care business processes, which includes:

- Concept to Market: Commercial and billing product catalog with Oracle Communications Launch Cloud Service
- Order to Cash: Order Lifecycle Management with Oracle Communications Order and Service Management (OSM) and monetization of services with Oracle Communications Billing and Revenue Management (BRM)
- Cash to Care: Advanced customer care with Siebel CRM

The integration of these best-of-breed capabilities helps you grow revenue, deliver hyper-personalized customer experiences, and remain operationally agile and efficient as you explore new market opportunities.

Digital Business Experience provides reference solution, which provides seed data, product models, capability for smoke testing, and capability for automated solution testing. These enable you to validate the deployment of the solution, ensuring that all components are configured correctly and function as expected.

Refer to the following documentation for more information about the solution:

- For information about concepts and the reference solution, see *Oracle Communications Digital Business Experience Concepts*.
- For information about software requirements, see *Oracle Communications Digital Business Experience Compatibility Matrix*.
- For information about deploying the solution, see *Oracle Communications Digital Business Experience Solution Deployment Guide*.
- For information about implementing the design-time business processes, see *Oracle Communications Digital Business Experience Concept to Market Implementation Guide*.
- For information about implementing the run-time business processes, see the following guides:
 - *Oracle Communications Digital Business Experience Order to Cash Implementation Guide*
 - *Oracle Communications Digital Business Experience Cash to Care Implementation Guide*

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.
