This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Overview

This document provides administrators the details for the configurations—including browsers—that were tested and verified to work on your desktop or laptop. The document covers the client system requirements for the current version of Unifier cloud deployments.

Note

All platforms and technologies certified with a base Unifier version are also supported with the latest patch set of the platform or technology for that major release (unless specified).

For information on certified platforms for Oracle and other third-party technologies, refer to the certification matrix of the respective technology and select the platform compatible with your Primavera applications and the respective technology.

Oracle has tested the following configurations and certifies this version to work with these technologies. Customers may choose to use non-certified technologies but do so at their own risk. If any problems are found with non-certified technologies, these may take longer to investigate and resolve by Oracle. Oracle will only test and have access to tested platforms and configurations. In addition, the resolution for any issues with non-tested configurations could be a recommendation that to resolve the issue you will need to use a tested technology. If it is still decided to use a non-certified technology, it is strongly recommended to fully test the product and non-certified platform in a test environment.

For specific and complete Oracle Support terms and conditions, refer to the following link:

What Has Changed

Review the table to learn about updates to this document.

Change Record

Date	Change Reference
April 2026	Client and Browser The minimum supported iOS version for Unifier Mobile App is 16.0.
December 2025	Client and Browser Integrations and Third-Party Applications Other Primavera Applications
October 2025	Integrations and Third-Party Applications
December 2024	Client and Browser
October 2024	Client and Browser; Other Primavera Applications
July 2024	Client and Browser
May 2024	Client and Browser
April 2024	Client and Browser; JRE Vendor Version: JRE 1.8.0_401
January 2024	Other Primavera Applications
December 2023	Client and Browser
May 2023	Integrations and 3rd Party Applications; Client and Browser; Other Primavera Applications
August 2022	JRE Vendor Version: JRE 1.8.0_331
March 2022	Integrations and 3rd Party Applications
February 2022	JRE Vendor Version: JRE 1.8.0_321

3

Client and Browser

This document covers the client system requirements for Unifier cloud deployments.

Client and Browser Support

Client OS/Email Clients	Client OS 32/64 bit	Supported Browsers	Exceptions and Additional Information
Windows 11	64 bit	Chrome 140+ Firefox 145+ Firefox 140+ (ESR) Microsoft Edge 142+	Not applicable
Mac OS 15 (Sequoia)	64 bit	Chrome 140+ Safari 18+	Not applicable
iOS 16.x (iPad and iPhone) The minimum supported iOS version for Unifier Mobile App is 16.0.	Not applicable	Not applicable	• Only supported for Unifier Mobile Native iOS App. • The Unifier Mobile App supports Unifier version 20 or later.
Android Marshmallow 6.0 Android Nougat 7.x Android Oreo 8.x Android Pie 9.x Android 10 Android 11 Android 12 and 12L Android 13 Android 14 The minimum supported Android OS version for Unifier Mobile App is 5.0.	Not applicable	Not applicable	• Only supported for Unifier Mobile Native Android App. • The Unifier Mobile App supports Unifier version 20 or later.

JRE Vendor Version

A Java Runtime Edition (JRE) is required for AutoVue; it is not required by Unifier itself. The certified version is **JRE 17.0.17+**.

4

Integrations and 3rd Party Applications

This document covers the client system requirements for Unifier cloud deployments.

Category	Product	Version	Exceptions and Additional Information
Microsoft Office	Microsoft Excel	2016	(Required) Used to create XLSX files.
Schedule Developer & Schedule Management	Microsoft Project Standard	2016, 2021, 2024	Used to create a schedule file, which can be imported into a schedule sheet and an activity sheet. Note The Schedule Manager feature was deprecated starting with version 23.5. Starting with version 25.10, the feature no longer supports the creation of Schedule Attribute forms, Schedule Resource Attribute forms, and Schedule Sheets. To ensure that existing customers can continue to view and update existing information, some functionality with existing forms and sheets is retained. For example, you can continue to use templates to update existing projects and shells, however, you cannot create a new project or shell that contains Schedule Sheets, even if the template contains an existing Schedule Sheet. Additionally, the Create permission for Schedule Sheets is automatically changed to Modify after you install version 25.10.

5

Other Primavera Applications

This document covers the client system requirements for Unifier cloud deployments.

Product*	Exceptions and Additional Information
Oracle Primavera Cloud Version 25	Cash Flow Integration
Primavera P6 25	None
Primavera Gateway 22	None

Primavera Data Warehouse and Primavera Analytics

Product*	Release Version	Oracle Analytics Server Version	Exceptions and Additional Information
Primavera Data Warehouse	Version 25	2025 (8.2)	None
Primavera Analytics	Version 25	2025 (8.2)	None

***Product** - Refer to the Primavera P6 24 and Primavera Gateway 22 *Client System Requirements* for more information.
