## Brief Description

**Business Process:** 3.3.2 MDM.v2.2Manage Service Agreement (Usage Subscription)  
**Process Type:** Process  
**Parent Process:**  
**Sibling Processes:**

The process described in the document takes place when Service for the Customer should be established or modified and Service Points' usage should be sent to one or more external systems (e.g. Billing system) in order to calculate the charges for the service. Usage Subscription reflects specifics of the agreement between Service Company and Customer. MDM application determines and controls usage calculation and sending process for all the Service Points related to the Usage Subscription.
