This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

|     | 3.1.12                   | Audit                  | 3-26 |
|     | 3.1.13                   | Status                 | 3-28 |
|     | 3.1.14                   | Documents              | 3-29 |
|     | 3.1.15                   | Signatories            | 3-29 |
| 3.2 | Acco                     | unting Enquiry         | 3-30 |
| 3.3 | Αποι                     | Int Block Enquiry      | 3-34 |
| 3.4 | Balar                    | nce Enquiry            | 3-37 |
| 3.5 | Stop Payment Enquiry 3-3 |                        | 3-38 |

## 4 Corporate Account Services

| 4.1 Account Address Update              | 4-1  |
|---|------|
| 4.1.1 Account Address Update            | 4-2  |
| 4.2 Account Amendment                   | 4-5  |
| 4.2.1 Account Amendment                 | 4-5  |
| 4.3 Account Closure                     | 4-8  |
| 4.3.1 Account Closure                   | 4-8  |
| 4.4 Account Creation                    | 4-11 |
| 4.4.1 Account Creation                  | 4-11 |
| 4.5 Account Creation for New Customer   | 4-31 |
| 4.5.1 Account Creation for New Customer | 4-31 |
| 4.6 Account Limits Update               | 4-35 |
| 4.6.1 Account Limits Update             | 4-35 |
| 4.7 Account Statement                   | 4-39 |
| 4.7.1 Account Statement Request         | 4-39 |
| 4.8 Check Book                          | 4-40 |
| 4.8.1 Check Book Request                | 4-41 |
| 4.8.2 Check Book Status Update          | 4-43 |

# 5 Corporate Account Transactions

| 5.1 Journal Transactions          | 5-1  |
|-----------------------------------|------|
| 5.1.1 Create Journal Transactions | 5-1  |
| 5.2 Legal Block                   | 5-10 |
| 5.2.1 Create Legal Block          | 5-11 |
| 5.2.2 Amend Legal Block           | 5-16 |
| 5.2.3 Close Legal Block           | 5-20 |
| 5.3 Post Processing Manual Retry  | 5-24 |

| í | 5.4 Refe | rral Queue                       | 5-25 |
|---|----------|----------------------------------|------|
|   | 5.4.1    | Referral Queue                   | 5-25 |
| í | 5.5 Stop | Payments                         | 5-29 |
|   | 5.5.1    | Create Stop Payments             | 5-30 |
|   | 5.5.2    | Amend Stop Payments              | 5-34 |
|   | 5.5.3    | Close Stop Payments              | 5-37 |
| í | 5.6 Unco | ollected Funds Manual Release    | 5-39 |
|   | 5.6.1    | Uncollected Funds Manual Release | 5-40 |
|   |          |                                  |      |

# Purpose

The **Corporate Accounts User Guide** helps to understand the functionality of **Oracle Banking Corporate Accounts Cloud Service**. It provides an overview of the product and instructions for creating and maintaining a corporate account.

# Audience

This user guide is intended for the following end Users / User Roles in the Bank.

| Table 1 | User | Roles |
|---------|------|-------|
|---------|------|-------|

| User Role                                 | Function  |
|---|---|
| Back office clerk                         | Input functions for contracts                   |
| Back office managers/<br>officers         | Authorization functions                         |
| Product Managers                          | Product definition and authorization            |
| End of Day operators                      | Processing during End of Day / Beginning of Day |
| Financial Controller/<br>Product Managers | Generation of reports                           |

# **Documentation Accessibility**

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

#### Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

# **Diversity and Inclusion**

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## Conventions

| Convention | Meaning  |
|------------|--|
| boldface   | Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.         |
| italic     | Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.                          |
| monospace  | Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter. |

The following text conventions are used in this document:

# **Related Documents**

# **Basic Actions**

This basic actions that can be performed on a screen are described in the following table.

| Table 2 Basic Actions |  |
|-----------------------|--|
|-----------------------|--|

| Action               | Description  |
|----------------------|--|
| Approve              | Approve the initiated record. This option displays when the user clicks <b>Authorize</b> .   |
| Audit                | View the maker details, checker details, and record status.  |
| Authorize            | Authorize the record created. A maker of the screen is not allowed to authorize the record. Only a checker can authorize a record, created by a maker.                                 |
| Cancel               | Cancel the performed action.   |
| Close                | Close a record. This action is available only when a record is created.  |
| Collapse All         | Hide the details in the sections. This option displays when the user clicks <b>Compare</b> .   |
| Compare              | View the comparison through the field values of old record and the current record. This option displays in a widget when the user clicks <b>Authorize</b> .                            |
| Confirm              | Confirm the performed action.  |
| Expand All           | Expand and view all the details in a section. This option displays when the user clicks <b>Compare</b> .   |
| New                  | Add a new record. When the user clicks <b>New</b> , the system displays a new record to specify the required data.   |
| ок                   | Confirm the details on the screen.   |
| Reject               | Reject the record created. A maker of the screen is not allowed to reject the record. Only a checker can reject a record, created by a maker.  |
| Save                 | Save the details entered or selected in the screen.  |
| Unlock               | Update the details of an existing record. System displays an existing record in the editable mode.   |
| View                 | View the record details in a particular modification stage. This option displays in the widget when the user clicks <b>Authorize</b> . This option is also displayed in the Tile menu. |
| View Difference only | View a comparison through the field element values of old record and the current record, which has undergone changes. This option is displayed when the user clicks <b>Compare</b> .   |

## Note:

The user must specify values for all the mandatory fields and they are marked as **Required** in the User Interface.

# Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows.

| Abbreviation | Definition                        |
|--------------|-----------------------------------|
| AUF          | Advance Against Uncollected Funds |
| DDA          | Demand Deposit Account            |
| КҮС          | Know Your Customer                |
| EAC          | External Account Check            |
| ECA          | External Credit Approval          |
| LOV          | List of Values                    |
| EOD          | End of Day                        |
| IBAN         | International Bank Account Number |
| BBAN         | Basic Bank Account Number         |
| NPA          | Non Performing Asset              |

# **Screenshot Disclaimer**

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

# Symbols and Icons

This guide has the following list of symbols and icons.

| Table 4 | Symbols and Icons - Common |

# 1 Introduction

Oracle Banking Corporate Accounts Cloud Service provides best-in-class corporate banking capabilities. It offers an integrated solution built on a cloud-native microservices architecture and offers comprehensive account creation and life cycle capability essential for Corporate Accounts.

The Oracle Banking Corporate Accounts user guide describes the processes and procedures to create various demand deposit accounts, namely Savings and Checking or Current Accounts. It details all account operations and activities allowed in a corporate account. The guide includes the Corporate Account configurations and a detailed view of the various account activities, such as Enquiry Services and Transactions supported for the account.

# 2 Corporate Account Configurations

Before creating Corporate Customer Accounts, use Corporate Account Configurations to configure Interest and Charges and Account Class. These configurations are a prerequisite to creating Corporate Accounts.

This topic contains the following Configurations as subtopics:

Interest and Charges

This topic provides information about various maintenance's used to calculate the Interest and charges in the system.

#### Account Class

Account classes help classify and categorize bank customer accounts into different groups based on specific attributes and features. You can assign an identification code to each account class. Account classes mitigate the process of account management and reporting in the Corporate Account application.

# 2.1 Interest and Charges

This topic provides information about various maintenance's used to calculate the Interest and charges in the system.

Interest is computed and applied on accounts having balances. The system uses the Interest component to calculate the interest accrued on such accounts. Setting up the Interest component is a one-time activity.

The system auto-computes the interest it applies to all the balance type accounts. Interest is calculated using the interest rules defined by the user to suit the requirements of the bank.

For more information, refer to the Interest and Charges User Guide.

# 2.2 Account Class

Account classes help classify and categorize bank customer accounts into different groups based on specific attributes and features. You can assign an identification code to each account class. Account classes mitigate the process of account management and reporting in the Corporate Account application.

For example, you can define groups called *CORCUR* for corporate current accounts, *CORMCU* for corporate multi-currency current accounts, and *INDLSB* for local currency savings accounts held by individuals.

Each group is called an Account Class and maintained using the Account Class screen. Account class contains attributes common to all the accounts in the class, such as the General Ledger lines to which the accounts in this class report and facilities given to the account holders (Checkbook, ATM, limits, and similar attributes).

Before you create an Account Class, you must complete the following configurations:

 Configure the various Status Codes applicable to the accounts in the account class. For more information, see the topic Status Code in the Account Configuration User Guide.

- Configure Rules and Facts so that the required rules to determine the status of an account are available when the option Automatic Account Status Update is enabled. For more information, see the topic Rules Framework in the Oracle Banking Common Core User Guide.
- Configure the Customer GLs to account for the debit and credit balances of the accounts based on the Account Status. For more information, see the topic Customer GL in the Account Configuration User Guide.
- Configure the MIS Group and MIS Class to which the Accounts under the Account Class should belong. For more information, see the topic **MIS Code** in the *Oracle Banking Common Core User Guide*.
- Configure the Interest and Charge Products and related configurations to link to the Account Class and default to the Accounts in the Account Class. For more information, see the *Interest and Charges User Guide*.
- Configure the Source Code. For more information, see the topic **Source Code** in the Account Configuration User Guide.
- Configure Non-Financial Activity Code for an external source code if non-financial activity determines the dormancy state of accounts in the account class. For more information, see the topic **Non-Financial Activity Code** in the *Account Configuration User Guide*.

## Note:

Non-Financial Activity codes are factory shipped for the Oracle Banking Accounts source code.

The definitions and features of an Account class are captured in the following subscreens.

- Basic Details
- Features
- Preferences
- Limits
- Interest
- MIS Details
- GL Reporting Details
- Statement Preferences
- Status Rule Definition

This topic contains the following subtopics:

- Create Account Class
   This topic describes the systematic instructions to create an account class. The
   maintenance screen allows the user to configure account class parameters.
- View Account Class This topic describes the systematic instructions to view the list of configured account classes.

## 2.2.1 Create Account Class

This topic describes the systematic instructions to create an account class. The maintenance screen allows the user to configure account class parameters.

- 1. Click Corporate Account Configurations, under Corporate Account Configurations, click Account Class.
- 2. Under Account Class, click Create.

The **Create** page displays the **Basic Details** screen.

| Create        |          |             |                               |          |             |                      | Errors and Override   | s 1. X                 |

Figure 2-1 Create Account Class - Basic Details

3. Specify the fields on the **Basic Details** screen.

| Table 2-1 | <b>Basic Details- Field Description</b> |
|-----------|---|
|-----------|---|

| Field         | Description   |
|---------------|---|
| Account Class | Specify an identification code for the account class. Use the identification code to specify this class during the creation of a corporate account. |
| Description   | Provide a brief description of the account class.   |

| Field        | Description   |
|--------------|---|
| Account Type | Specify the type of the account from the following: <ul> <li>Savings</li> <li>Current</li> </ul>  |
| Account Code | Specify the account code consisting of up to <b>four</b> characters.<br>Banks determine the assignment of account classes to various account codes.   |
|              | The customer account mask can contain an account class<br>or an account code. If the customer account mask is<br>configured with an account code, it replaces the value in<br>the account number. |
| Validity     | Specify the validity period of the account class by entering the start and end dates. The end date is optional.   |

|                      |          |             |                        |            |             |                          |                       |                        |
|                      |          |             |                        |            |             |                          |                       |                        |
|                      |          |             |                        |            |             |                          |                       |                        |
|                      |          |             |                        |            |             |                          |                       |                        |
|                      |          |             |                        |            |             | Car                      | ncel Back Save        | and Close Next         |

5. Specify the account features to enable in this account class.

By default, all the features are switched  ${\sf OFF}$ . To enable a feature toggle the switch on a feature field to  ${\sf ON}$ .

| Field                            | Description  |  |  |  |
|----------------------------------|--|--|--|--|
| Limit Check Required             | Enable this feature to specify that a limit check is<br>performed to ensure sufficient funds are available in the<br>account.  |  |  |  |
| Available Balance Check Required | Enable this feature to allow the system to check for funds<br>availability before posting a debit entry to customer<br>accounts.   |  |  |  |
| Referral Required                | Enable this feature to specify whether a referral check is<br>performed for accounts belonging to the account class.<br>Therefore, the system checks the available balance<br>(instead of the current balance) when performing referral<br>checks for all transactions involving the account. When an<br>account transaction results in an overdraft, the account<br>and transaction details are sent to the referral queue. |  |  |  |
| Enable RTL                       | Enable this feature to enable Real Time Liquidity ( <b>RTL</b> ) for the account.  |  |  |  |
|                                  | Note:<br>If RTL is enabled then the features Defer the<br>Balance Update for Debit and Defer the<br>Balance Update for Credit cannot be<br>enabled.  |  |  |  |
| Defer Balance Update For Debit   | Enable this feature to defer the balance update. When <b>Defer the Balance Update for Debit</b> is selected, the balance after debit transactions is updated at the end of the day (EOD).  |  |  |  |
|                                  | Note:<br>If Defer the Balance Update for Debit is<br>enabled then the RTL feature cannot be<br>enabled.  |  |  |  |
| Defer Balance Update For Credit  | Enable this feature to defer the balance update for credit transactions. If <b>Defer the Balance Update For Credit</b> is selected, the balance after credit transactions is updated at the EOD.   |  |  |  |
|                                  | Note:<br>If Defer the Balance Update for Credit is<br>enabled then the RTL feature cannot be<br>enabled.   |  |  |  |
| IBAN Required                    | Enable this feature if the accounts in this class require an International Bank Account Number ( <b>IBAN</b> ).  |  |  |  |

## Table 2-2 Features- Field Description

| Field                  | Description  |
|------------------------|--|
| Multi-Currency Allowed | Enable this feature to allow an account to transact in multiple currencies. The allowed currencies are predefined.   |
| Currencies             | Select the permitted currencies for a multi-currency<br>account class. Select the required currency from the drop-<br>down list. Alternatively, type to narrow the listed items and<br>select the required currency. |
|                        | Note:<br>This field displays only when Multi-Currency<br>Allowed is enabled.   |

7. Specify the preferences for accounts in this account class.

## Table 2-3Preferences- Field Description

| Field               | Description   |
|---------------------|---|
| ATM Required        | Enable ATM facility on the accounts belonging to this account class.        |
| Check Book Required | Enable Check Book facility on the accounts belonging to this account class. |

| Field                      | Description  |
|----------------------------|--|
| Auto-Reorder of Check Book | Enable this preference to replenish check book<br>automatically when a few check leaves are left.<br>This preference appears when <b>Check Book</b><br><b>Required</b> is enabled.   |
| Reorder Level              | Specify the number of leaves remaining when a check book is auto-reordered.  |
| Reorder Number of Leaves   | Specify the number of leaves required in the issued check book.  |
| Direct Banking Required    | <ul> <li>Enable this preference to allow direct banking facility to the accounts belonging to this class. When enabled, a new table is added with the following columns to capture channel details:</li> <li>Banking Channel- Channels include Internet Banking, Interactive Voice Response, Mobile, ATM, Credit Card, and so on.</li> <li>Channel Name- This field displays the name of the banking channel. For example, Internet Banking is a direct banking channel that allows users to directly perform their banking transactions.</li> <li>Remarks – Provide any remarks about the banking channel.</li> </ul> |

Table 2-3 (Cont.) Preferences- Field Description

- 8. Add a Direct Banking Channel, if **Direct Banking Required** is enabled.
  - a. Click + to add a direct banking channel. A new row is added.
  - b. Double click the Banking Channel column to activate the row.
  - c. Click **Fetch** and select the required direct banking channel in the **Banking Channel** dialog.
  - d. The Channel Name is auto-populated.
  - e. Add any remarks on the banking channel in the **Remarks** column.
- 9. Click Next.

The Create Page displays the Limits screen.

Figure 2-4 Create Account Class- Limits

**10.** Specify the fields on the **Limits** screen.

 Table 2-4
 Limits- Field Description

| Field                           | Description  |
|---------------------------------|--|
| OD Facility Required            | Enable the OD (overdraft) facility to the accounts belonging to<br>this account class. This facility is disabled by default.   |
|                                 | Note:<br>The rest of the fields in this table display when the<br>OD facility is enabled.  |
| Uncollected Funds<br>Margin (%) | Specify the margin in terms of the percentage to be held in the uncollected funds when the AUF (Advance against Uncollected Funds) limit is offered to an account. AUF margin should be between 0 to 100.  |
|                                 | Note:<br>Decimal values with up to two decimal digits are<br>allowed.  |
| Daylight Limit                  | Enable Daylight limit for accounts with OD facility in this<br>account class. It is disabled by default.<br>Daylight limit primarily applies to intraday consumption. It is<br>the limit up to which an overdraft is allowed for that business<br>day. The daylight limit is added to a temporary overdraft to<br>calculate the available balance when EOD is not in progress.<br>Daylight limit is not considered during the EOD. |

| Field                        | Description   |
|------------------------------|---|
| Fund Utilization<br>Sequence | <ul> <li>Specify the fund utilization sequence for accounts belonging to this account class in the table. The table contains the following columns:</li> <li>Source Code- This field specifies the source through which the transaction can be sent to an account.</li> <li>Sequence- Specify one of two available values, <i>BDATL</i> and <i>BDATLV</i>. The letters in the sequence represent the following: <ul> <li>B (Balance)- Balance refers to clear balance available for debits at account.</li> <li>D (Daylight Limit)- Daylight Limit is primarily meant for intraday consumption. Only one active limit is allowed at any point in time.</li> <li>A - AUF Limit granted against uncollected funds available in the account. Only one active limit allowed at any point in time.</li> <li>T (Temporary)- Temporary OD granted at the account.</li> <li>L (Local)- Local Limit Facility refers to the local facility. Limits captured under the Line Linkage Details section.</li> <li>V (Overline)- Refers to the overline utilization.</li> </ul> </li> </ul> |

Table 2-4 (Cont.) Limits- Field Description

- **11.** Add a sequence if **Fund Utilization Sequence** is enabled.
  - a. Click +. A new row is added.
  - **b.** Double-click the **Source Code**.
  - c. Select the required Source Code.
  - d. Select the required sequence from the drop-down list.
  - e. The Description field is auto-populated based on the specified sequence.
- 12. Click Next.

The Interest screen displays.

Figure 2-5 Create Account Class- Interest

13. Specify the fields on Interest Screen.

Note:

For more information on the fields, see the field description table below.

Select the interest product codes that apply to accounts based on this account class. Multiple interest product codes can be applied to the accounts. Each interest product code is associated with an interest rule. The interest rule encapsulates the logic to calculate interest. When an interest product code is applied to an account, interest is calculated according to the interest rule definition. The accounting rule can be general conditions or specific conditions.

An example of a general condition rule can be to pay credit interest on the balance of a current account and charge debit interest when the account lapses into a debit balance. To achieve this, use two product codes (one for credit interest and one for debit interest).

Select the product(s) that applies to the account for which you are defining special conditions. Special conditions for an account can be defined only if the account class of the account has general conditions defined for the product. Therefore, a pick list that selects products that define special conditions includes products that meet any of the following conditions:

- A General Condition is defined for the product and account class combination.
- The product is defined as a special-conditions-only product.

For example, special conditions could be a different set of debit interest rates for the first 15 days of a month and the remaining days of the month.

## Table 2-5 Interest- Field Description

| Field             | Description   |
|-------------------|---|
| Interest Required | Enable this option to apply interest products on the accounts belonging to this account class. It is disabled by default. Enabling this option displays the Interest selection table. |

- **14.** Add an interest product code, if **Interest Required** is enabled.
  - a. Click +.

A new row is added with the below columns.

- **Product Code** Specify the interest product code you want to apply to the accounts in the account class.
- Currency Code- Specify the currency to which the interest product code applies.
- **Open** Enable to activate the Product Code.
- **b.** Double-click the **Product Code**. The row is activated.
- c. Click Fetch and select the product code from the Product Code dialog.
- d. Click Fetch and select the currency code from the Currency Code dialog.
- e. Toggle the **Open** switch to ON and enable the interest product.
- 15. Click Next.

The **MIS Details** tab displays.

**18.** Specify the fields on the **GL Reporting Details** tab.

## Note:

All balances of the specified account class are reported to the General Ledger (GL) identified as the Natural GL. Depending on the account balance's nature, you have the option to designate whether the balances should be recorded in the **Debit GL** or the **Credit GL**. For example, in the case of an accounting class related to overdrafts, the usual balance is a debit, while current accounts typically do not maintain a debit balance.

| Field       | Description  |  |
|-------------|--|--|
| Natural GL  | The following values are available:  Debit Credit                          |  |
| Status      | Specify the status.  |  |
|             | Note:<br>At least one GL Line with the status Normal<br>must be specified. |  |
| Description | This field is auto-populated with a description of the status specified.   |  |
| Credit GL   | Specifies the GL to which the account credit balance belongs.              |  |
| Debit GL    | Specify the GL to which the account debit balance belongs.                 |  |

Table 2-7 GL Reporting Details - Field Description

To add a new GL Line:

a. Click +.

The Add GL Lines dialog displays.

- **b.** Specify the **Status** of the GL Line. Click **Fetch** and select the required status from the **Status** dialog.
- c. Specify the **Credit GL** and **Debit GL** lines. Click **Fetch** and select the required GL from the **Status** dialog.
- d. Click Add.

A new tile is added and displays the GL Details.

## Note:

Use the More Options menu on the top right of a tile to View, Edit, or Delete the GL Details.

19. Click Next.

The Statement Preferences tab displays.

22. Enable automatic status change and specify the rule definitions.

## Note:

Enable this option to perform an automatic status change of accounts that use this account class. Automatic status change will require setting up the rule definitions to check the state of the account.

a. Toggle the Automatic Status Change to On.

The **Rule Definition** section displays.

**b.** Click **+** in the Rule Definition section.

The Add Rule Definition dialog displays.

## Figure 2-10 Add Rule Definition

#### 23. Set up the Dormancy Configurations.

### Note:

A bank can mark an account manually as dormant. To automatically mark an account as dormant, specify the rules that govern the account dormancy.

Specify the dormancy details:

## Field Description **Dormancy Application** Indicate if the dormancy status for accounts belonging to the specified account class should be applied manually or automatically. Note: To automatically monitor and apply the dormancy state of the account, provide the remaining details in the table. **Dormancy Days** Specify the number of days an account can remain inactive before it is marked as dormant. **Consider Non-financial Activity** Indicate if the application should consider nonfinancial activities to determine the dormant status of an account. Note: For example, a check book request is a non-financial activity but is considered an

| Table 2-11 | Dormancy | Configuration- Field Description |
|------------|----------|----------------------------------|
|------------|----------|----------------------------------|

account activity and prevents the account

from becoming dormant.

| Field                 | Description   |
|-----------------------|---|
| Activation Parameters | <ul> <li>Specify if a dormant account is activated manually or automatically. To automatically activate a dormant account, specify the activation parameters to monitor account activity. The following activation parameters are available for selection:</li> <li>Debit Financial Transactions- Any Debit transaction on the account makes the status of the account active.</li> <li>Credit Financial Transactions- Any Credit transaction on the account makes the status of the account active.</li> </ul> |
|                       | • <b>Non-financial transactions</b> - Any non-financial transaction on the account makes the account active.  |

Table 2-11 (Cont.) Dormancy Configuration- Field Description

- 24. Specify the activation parameters to be monitored.
  - a. Specify the activation parameters to be monitored.
    - i. Click the multi-select drop-down field to display the available options. Alternatively, you can start typing to list the required value and select it.
    - ii. Select the required option.
    - iii. Perform the above steps to add more values.
  - **b.** Specify the Non-financial transaction activities, if **Non-financial transactions** is specified.
  - c. Click +.

Adds a new row to the table

d. Double-click the Source Code.

Activates the row and enables edit mode.

e. Click Fetch in the Source Code field and select the required Source Code.

The Description of the source code selected is auto-populated.

f. Click the Non-financial Activity field and select the required non-financial activities.

The non-financial activities that are configured on the system specified in the Source Code field should be considered in the source system before placing the account in a dormant state.

25. Click Save & Close to complete the steps or click Cancel to exit without saving.

The Account Class is created.

## 2.2.2 View Account Class

This topic describes the systematic instructions to view the list of configured account classes.

- 1. Click Corporate Account Configurations, under Corporate Account Configurations, click Account Class.
- 2. Under Account Class, click View.

The View page displays the Account Classes in the Tile view.

Figure 2-13 View an Account Class Details

## Note:

Click the expand button at the top right of a tile or the > icon on details in a tile to display more information.

b. Click the **Expand** button, if present, in a data screen tile.

The corresponding dialog displays all the information present in the data screen.

c. Click >, if present for a detail, listed in a data screen tile.

A corresponding dialog displays all the information present in the data screen.

# 3 Corporate Account Enquiries

This topic contains the following **Enquiries** as subtopics:

Account Search

Search for Corporate accounts and view the account details by following the instructions provided in this topic. It provides a snapshot view of the account.

- Accounting Enquiry The accounting enquiry page displays the details of the internal transactions booked on an account. List the accounting enquiry by following the instructions provided in this topic.
- Amount Block Enquiry Enquire about the External Credit Approval (ECA) and legal blocks on an account by following the instructions provided in this topic.
- Balance Enquiry
   Retrieve the account balance details by following the instructions provided in this topic.
- Stop Payment Enquiry Enquire about the stop payment instructions issued on an account.

# 3.1 Account Search

Search for Corporate accounts and view the account details by following the instructions provided in this topic. It provides a snapshot view of the account.

1. Click Corporate Account Enquiries, and under Corporate Account Enquiries, click Account Search.

The Account Search page displays.

2. Click the Search icon at the top left of the page.

The Search Filter dialog displays.

|                |                                   | (DEFAULTENTITY) | Oracle Bar<br>July 28, 20 | Search Filter        | × |

 Table 3-2
 Account Tile Details- Field Description

| Field          | Description                        |
|----------------|------------------------------------|
| Account Number | Displays the account number.       |
| Account Name   | Displays the name of the account.  |
| Status         | Displays the status of the record. |

The following table describes the action items in the More Options (a) menu and the action items on the page.

| Action Item          | Description   |
|----------------------|---|
| Unlock               | Unlock a record and make amendments.  |
| Close                | Close a record to prevent it from being unlocked and amended.   |
| View                 | View the details of a record.   |
| Delete               | Delete a record.  Note: Once deleted, the record can no longer be used to define an entity. But entities already defined using the record can continue to use it. |
| Reopen               | Reopen a closed record.   |
| Authorize            | Authorize a record to make it active and available to define entities.  |
|                      | Note:<br>Creator of a record cannot authorize the<br>component. Another user with authorize<br>permissions can.   |
| Audit                | Select to view the Maker, Checker, Status, and Modification Number of the record.   |
| Errors and Overrides | Select to view all existing errors or warnings on the page.   |

### Table 3-3 Action Items Description

The actions you can perform depend on your role and the record status.

5. To view an Account details, click and select View.

The Account View provides a comprehensive 360 degree of the Account details in different tiles also referred to as widgets. The basic details of the account are visible at the top of the page. The Widgets that display in the Account View depend on your user permissions.

Figure 3-3 Account Record Tile - View

You can perform the following actions on each tile:

- Position the tiles on the page. Click and hold ":::" at the bottom of a tile, then drag and drop the tile to the required position.
- Click [] on a tile to view the field details in a pop-up dialog.
- Click the Scroll buttons to the left (<) and right (>) of a tile to scroll through the details.
- Hover over linked field values (blue text) or fields with the > icon and click the Hand icon that appears to view the field details in a pop-up dialog.

### Note:

Actions available on a tile are context sensitive and not all actions are available on all tiles.

- 6. Add or Remove a tile from the page.
  - a. Click X at the top right of a tile.

The tile is removed from the page.

**b.** Click **+** at the top right of the page.

A dialog displays the tiles that are not present on the screen.

| Statement Preferences<br>Statement Preferences |  |

c. Click the required tile.

The tile is added to the page.

The following sub-topics describe each tile in more detail.

Balance Details

View the account balance details by following the instructions provided in this topic.

Address Details

View the address details of an account by following the instructions provided in this topic.

- Statements
   View the statement details of an account by following the instructions provided in this topic.
- Statement Preferences View the statement preferences of an account by following the instructions provided in this topic.
- Check Details View the check details of an account by following the instructions provided in this topic.
- Account Limits
   View the limit details of an account by following the instructions provided in this topic.
- Preferences
   View the preference details of an account by following the instructions provided in this topic.
- Multi Currency Details
   View the Multi Currency account details by following the instructions provided in
   this topic.
- Interest Configuration
   View the interest configuration details of an account by following the instructions provided in this topic.
- MIS Details View the MIS details of an account by following the instructions provided in this topic.
- Uncollected Funds
   View the uncollected funds in an account by following the instructions provided in this topic.

Audit

View the audit details of the account creation and modification by following the instructions provided in this topic.

- Status View the account status details by following the instructions provided in this topic.
- Documents
   View the documents provided during the corporate account creation by following the instructions provided in this topic.
- Signatories

View the Signatories of an account by following the instructions provided in this topic.

### 3.1.1 Balance Details

View the account balance details by following the instructions provided in this topic.

Search for the required account and open the 360 view of the account. To find and view the account, see Account Search.

The Balance Details tile displays the balance information of the account. For a multi-currency account, it displays the balance details of the sub-accounts. You can scroll the different sub-accounts by clicking the page view dot icons on the tile as shown in the image below.

Figure 3-5 Balance Details Tile

| Balance Details     | ×                 |
|---------------------|-------------------|
| Account Number      | Currency          |

Figure 3-9 Balance Details- Accruals

Table 3-7 Accrual Details

| Column Name   | Description   |
|---------------|---|
| Product Name  | Name of the product associated with the account.  |
| Debit Amount  | Displays the accrued debit amount for the<br>specific product. For example, load interest<br>amount accrued till date.    |
| Credit Amount | Displays the accrued credit amount for the specific product. For example, interest on corporate deposit accrued till date |

# 3.1.2 Address Details

View the address details of an account by following the instructions provided in this topic.

Search for the required account and open the 360 view of the account. To find and view the account, see Account Search.

The Address Details tile displays different addresses associated with the account.

### Figure 3-10 Address Details Tile

| Address Details | × |
|-----------------|---|
| Head Office     | > |
| Branch Office   | > |
|                 |   |
|                 |   |
|                 |   |

- **1.** View the address details of a listed address.
  - a. Click a named address field in the Address Details tile. For example, Head Office.

The **<Named Address>** (for example, **Branch Office**) dialog displays the **Swift** address for SWIFT messages.

### Figure 3-11 Address Details

| Swift   | Fax | Email | Mail |
|---------|-----|-------|------|
| Address |     |       |      |
| MT950   |     |       |      |
| Advices |     |       |      |
| ALL     |     |       |      |

**b.** Click the **Fax** tab.

The **Fax** tab displays the Fax number.

c. Click the Email tab.

The **Email** tab displays the Email address.

d. Click the Mail tab.

The **Mail** tab displays the mailing address.

2. Click **Close** to close the **<Named Address>** dialog.

## 3.1.3 Statements

View the statement details of an account by following the instructions provided in this topic.

Search for the required account and open the 360 view of the account. To find and view the account, see Account Search.

The **Statements** tile displays the account statements. For a multi-currency account, it displays the statements of the sub-accounts. You can scroll the different sub-accounts by clicking the Dots on the tile as shown in the image below. The statements presented are based on the preferences set in the **Statement Preferences** data entry screen during the account creation. For more information on adhoc statement requests, see Account Statement **Request**. For more information on setting statement preferences for the account, see **Step 10** in Account Creation.

#### Figure 3-12 Statement Tile

| Statements                            | ×               |
|---------------------------------------|-----------------|
| Account Number<br>B01CORP100000198USD | Currency<br>USD |

### Figure 3-13 Primary Statements

Table 3-8Statement Details- Column Description of the PrimaryStatement Details table

| Field / Tab Name           | Description   |
|----------------------------|---|
| Statement Type             | Displays the statement format.  |
| Address Type<br>Media Type | Displays type of the address from the<br>following:<br>• HOA- Head Office Address<br>• ROA- Registered Office Address<br>• BOA- Branch Office Address<br>• COA- Communication Address<br>Displays the address type to deliver the<br>enterment from the following: Email Mail |
|                            | statement from the following: <b>Email</b> , <b>Mail</b> , <b>Fax</b> , or <b>Swift</b> .   |
| Statement Date             | Displays the date on which the statement was generated.   |
| From Date                  | Displays the start date of the generated statement.   |
| To Date                    | Displays the end date of the generated statement.   |
| Action                     | Click ⊚ to open and view the generated statement.   |

**b.** Click  $\odot$  in the **Action** column.

The View Document dialog displays the statement in a new browser window or tab.

Note:

You can download the statements from the browser window.

2. Click the Adhoc tab.

The adhoc statements display.

### Note:

The column descriptions of the table are the same as shown in Step 1.a.

3. Click the **Secondary** tab.

The secondary statements are generated as per the setting in the statement preferences.

### Note:

The column descriptions of the table are the same as shown in Step 1.a.

### 4. Click the Tertiary tab

The tertiary statements are generated as per the setting in the statement preferences.

### Note:

The column descriptions of the table are the same as shown in Step 1.a.

### 3.1.4 Statement Preferences

View the statement preferences of an account by following the instructions provided in this topic.

Search for the required account and open the 360 view of the account. To find and view the account, see Account Search.

The **Statement Preferences** tile displays the primary, secondary, and tertiary statement types. The statement preferences are configured in the **Statement Preferences** data entry screen during the account creation. For more information on setting statement preferences, see **Step 10** in Account Creation.

### Figure 3-14 Statement Preferences Tile

| Statement Preferences    |         | × |
|--------------------------|---------|---|
| Primary Statement Type   | Summary | > |
| Secondary Statement Type | Summary | > |
| Tertiary Statement Type  | Summary | > |
|                          |         |   |

- **1.** View the account **Statement Preferences**.
  - Click the required primary, secondary, or tertiary statement type field in the **Statement Preferences** tile.

The corresponding dialog displays the Primary, Secondary, or Tertiary Statement Preference details.

### Figure 3-15 Statement Preference Details - Primary Statement

| Primary Statement Type | Detailed         |
|------------------------|------------------|
| Primary Cycle          | Swift            |
| Daily                  | Yes              |
| SO Statement Required  | ISO Message Type |
| fes                    | CAMT053          |

### Note:

For more information on the fields in the Statement Preferences dialog, see **Step 10** in the Account Creation topic.

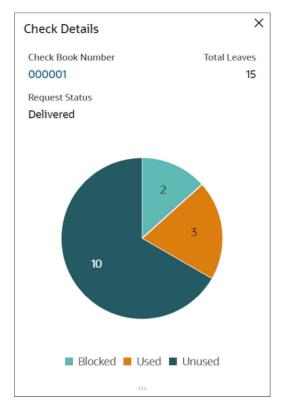

2. Click Close.

# 3.1.5 Check Details

View the check details of an account by following the instructions provided in this topic.

Search for the required account and open the 360 view of the account. To find and view the account, see Account Search.

The **Check Details** tile displays the details of the check books currently issued. The tile displays the **Check Book Number**, **Total Leaves**, and **Request Status** of a check book. It also displays a pie chart showing the **Blocked**, **Used**, and **Unused** check leaves. You can scroll the different check books, by clicking the **Next** (>) icon to the right of the tile as shown in the image below. For more information on setting check details, see **Step 6** in Account Creation.

#### Figure 3-16 Check Details Tile

- **1.** View check details.
  - a. Click the Check Book Number field in the Check Details tile.

### Note:

Alternatively, you can click on a slice in the Pie chart to view more details of specific check leaves.

The Check Book Details dialog displays the details of each check leaf.

### Figure 3-17 Check Book Details

| Check  |      | 000001              |  |

#### Table 3-9 Check Book Details - Field Description

| Field / Tab Name  | Description  |
|-------------------|--|
| Check Book Number | Displays the check book number.  |
| Check Number      | Displays the number of the check leaves in the check book.             |
| Status            | Displays the status of the check leaf.                                 |
| Amount            | Displays the amount of the check.                                      |
| Remarks           | Displays the remarks, if any logged for the specific check transaction |

b. Scroll through the checks using the **Scroll** bar at the bottom of the list.

2. Click Close.

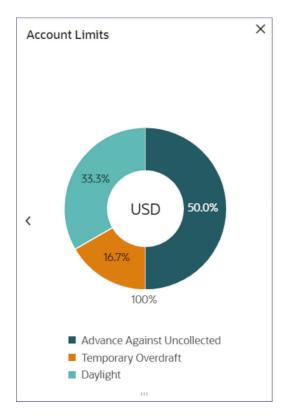

## 3.1.6 Account Limits

View the limit details of an account by following the instructions provided in this topic.

Search for the required account and open the 360 view of the account. To find and view the account, see Account Search.

The **Account Limits** tile displays the limit details. For a multi-currency account, it displays the limits placed on the sub-accounts for each supported currency. You can scroll the different sub-accounts by clicking Next (>) to the right or Previous (<) to the left of the tile as shown in the image below. The limits presented are configured for each currency in the **Limits** data entry screen during the account creation. For more information on setting limits, see **Step 8** in Account Creation.

### Figure 3-18 Account Limits Tile

- **1**. View the account **Limits**.
  - Click the pie chart in the **Account Limits** tile.

The **Limit Details - <Currency Name>** dialog displays the limits placed on the account.

| Jncollected                             | inst                         | Temporary Overdraf                            | t                     |

Figure 3-19 Limit Details

### Note:

For more information on the fields in the Limit Details dialog, see **Step 8** in the Account Creation topic.

2. Click Close.

## 3.1.7 Preferences

View the preference details of an account by following the instructions provided in this topic.

Search for the required account and open the 360 view of the account. To find and view the account, see Account Search.

The **Preferences** tile displays the account preference details for ATMs, check books, and direct banking facilities. The account preferences are configured during account creation in the **Preferences** data entry screen. For more information on setting account preferences, see **Step 5** in Account Creation.

### Figure 3-20 Preferences Tile

| Preferences    | ×     |
|----------------|-------|
| ATM            | No    |
| Cheque Book    | Yes > |
| Direct Banking | No    |
|                |       |

- 1. View the account **Preferences** details.
  - Click the required preferences field in the **Preferences** tile.

A corresponding dialog displays the preference details. For example, clicking the Check Book field displays the **Check Book** dialog.

Figure 3-21 Check Book Preferences

Figure 3-23 Multi Currency Sub-account Details

### Note:

The Primary account has a primary operating currency, but it still creates a sub-account for the primary currency.

2. Click Close.

## 3.1.9 Interest Configuration

View the interest configuration details of an account by following the instructions provided in this topic.

Search for the required account and open the 360 view of the account. To find and view the account, see Account Search.

The **Interest Configuration** tile displays the interest details configured on the account. The account class defines the interest product and related interest details. The Interest Details are added to the account from the account class during the account enrichment stage of account creation. For more information on setting the interest details, see **Step 15** in Account Creation and **Step 10** in Create Account Class.

**1.** Click a date tab to view more details of uncollected funds.

The **Uncollected Funds** for that day displays.

2. Click Close.

### 3.1.12 Audit

View the audit details of the account creation and modification by following the instructions provided in this topic.

Search for the required account and open the 360 view of the account. To find and view the account, see Account Search.

The Audit tile displays account creation and modification information recorded for audit trail purposes. The tile displays details of the **Maker** and **Checker**, including their corresponding **Date and Time**, along with the **Action** taken.

### Figure 3-29 Audit Tile

The Audit modification dialog displays the modification details of an account.

2. Click Close.

## 3.1.13 Status

View the account status details by following the instructions provided in this topic.

Search for the required account and open the 360 view of the account. To know how to find and view the required account, see Account Search.

The **Status** tile displays the account status details like dormancy, Stop Payments, No Credits, and No Debits. The Status data entry screen captures the account status details during the enrichment stage of account creation or the account amendment. For more information on setting the account status, see *Step 18* in Create Account Class topic.

|                         |              |

### Note:

For more information on the fields in the **Status** dialog, see **Step 18** in the Account Creation topic.

2. Click Close.

### 3.1.14 Documents

View the documents provided during the corporate account creation by following the instructions provided in this topic.

Search for the required account and open the 360 view of the account. To know how to find and view the required account, see Account Search.

The **Documents** tile displays the documents provided during the corporate account creation. These documents could be Certificates of Incorporation, Business Registration Certificates, Proof of Business Address, Identification documents of individuals responsible for managing the corporate accounts, and other necessary documents to open a corporate account. You can scroll the attached documents by using the scroll buttons on the left and right sides of the tile.

Figure 3-33 Documents Tile

| Documents        |            | × |
|------------------|------------|---|
| Title            | Code       |   |

Figure 3-37 Accounting Enquiry - Transaction Details

### Table 3-12 Transaction Details - Field Description

| Field Name            | Description  |
|-----------------------|--|
| Accounting Reference  | Displays the accounting reference number for the transaction in the internal system.                             |
| EA Reference          | Displays the accounting reference number for the transaction in the external system.                             |
| Transaction Reference | Displays the transaction reference number.   |
| Source                | Displays the DDA source system for the transaction.  |
| Transaction Amount    | Displays the transaction amount in the original transaction currency.  |
| Exchange Rate         | Displays the exchange rate to convert the original currency to the currency of the local branch.                 |
| LCY Amount            | Displays the amount in the currency of the local branch.   |
| Debit/Credit          | Displays the type of transaction: Debit or Credit.   |
| Reversal              | Displays if the transaction is a reversal transaction.   |
| Instrument Number     | Displays the instrument number used for the transaction. For example, the check number for a credit transaction. |
| Value Date            | Displays the value date of the credit or debit transaction.  |
| GL Posting Date       | Displays the posting date of the transaction in the GL.  |

| Field Name              | Description  |
|-------------------------|--|
| Transaction Status      | Displays the status of the transaction. For example, an <b>Unauthorized</b> transaction. |
| Write Back              | Displays if a reversal of the transaction is allowed.                                    |
| Transaction Code        | Displays the transaction code used when posting the transaction.                         |
| Transaction Description | Displays the description provided for the transaction.                                   |
| Statement Narrative     | Displays the statement remarks provided for the transaction.                             |
| Force Post              | Displays if the transaction was force posted.  |
| RTL Allowed             | Displays if a real-time limit is allowed on a debit transaction.                         |

# 4 Corporate Account Services

This topic contains the following Services as subtopics:

Account Address Update

Use the **Account Address Update** service to add or modify the address information of an existing account.

- Account Amendment Use the Account Amendment service to change specific details of an existing customer account, such as preferences, features, account status, and other account details.
- Account Closure
   Use the Account closure service to close an existing account.
- Account Creation

Use the **Account Creation** service to create accounts for an existing Corporate Customer. The process generates a unique identity for the Corporate account known as the Account Number. The Account Number can be a combination of the CIF Number, the Account Class, the Currency, and any other alphabet(s) or number(s) of the account or currency as defined.

Account Creation for New Customer

Use the **Account Creation for New Customer** service to create a new account for an new customer. You have to onboard the new customer before you can create accounts for the customer.

Account Limits Update

Use the **Account Limits Update** service to add new limits or modify existing limits of an account.

Account Statement

Use the **Account Statement Request** service to request and generate account statements based on a given date range or a selected period as requested by the account holder.

Check Book
 Use the Check Book option to request a check book or update a check book status.

# 4.1 Account Address Update

Use the **Account Address Update** service to add or modify the address information of an existing account.

Use the Account Address Update option to add or modify address information of an existing account. Address details allow communication on different media channels like Postal, Email, and SWIFT (Society for Worldwide Interbank Financial Telecommunications). A media channel can have multiple addresses.

This topic contains the following subtopics:

Account Address Update

This topic describes the systematic instructions to update the address for an existing account.

## 4.1.1 Account Address Update

This topic describes the systematic instructions to update the address for an existing account.

1. Click Corporate Account Services, and under Corporate Account Services, click Account Address Update.

The Account Address Update screen displays.

| tomer Number          | Customer Name          |                                   | Account Category | Description |

Figure 4-1 Account Address Update

2. Specify one or more fields in the Account Search section.

Table 4-1 Account Search- Field Description

| Field                | Description   |
|----------------------|---|
| Customer Number      | Specify the CIF number of the customer owning the account.          |
| Customer Name        | The name of the selected customer is auto-<br>populated.            |
| Account Category     | Specify the account category to which the account belongs.          |
| Description          | The description of the selected account category is auto-populated. |
| Currency             | Specify the operating currency of the account.                      |
| Currency Description | The description of the operating currency is auto-<br>populated.    |
| Account Number       | Specify the required Account number.                                |

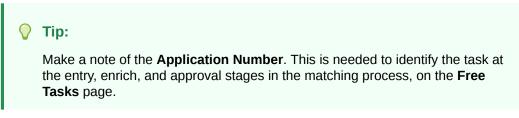

3. Click Search.

The Account Selection section displays the accounts matching the search filters.

4. Click to select the required account tile, then click **Initiate**.

The Address Update Entry- < Application Number> page displays the Account Basic Details screen.

5. Verify the details are for the required account you want to update and click Next.

The Address Update Entry- < Application Number> screen displays the Account Address screen.

Figure 4-3 Add New Address

7. Select the address type and provide the address details for each communication channel: Mail, Swift, Email, and Fax.

For more information on the editing process and the field descriptions on the data entry screens, see the **Account Address** data entry step in the Account Creation topic.

If you are editing an existing address, you cannot change the **Address Type** field. The rest of the fields in all the address channels can be modified. The process and steps remain the same when adding a new address or editing an existing one.

8. Click Add to add the new address details. Or click Save to save the modified address.

The new or updated address is added or saved, and the **Account Address** screen displays.

9. Click Next.

The Summary screen displays the edited or new tiles with a checkmark in green on the bottom right of the tile.

#### Note:

Click a address tile to view more details.

10. Click Submit.

The Stage Movement Submission dialog displays the Overrides stage.

- **11.** Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click **Proceed Next**.

The Checklist stage fetches and displays checklists mapped to this stage.

b. Confirm the checklist items and then click Proceed Next.

The **Outcome** stage displays.

c. Select **PROCEED** from the drop-down list and click **Submit**.

The **Stage Movement Submission** process creates the **Approve Address Update** task.

- 12. Complete the Approve Address Update task.
  - a. Click Tasks, and under Tasks, click Free Tasks.

The Free Tasks page displays.

- b. Search the listed tasks with these column values. The Process Name column contains Address Amendment, the Stage column contains Approve Address Update, and the Application Number column has the number noted in Step 4.
- c. Click Acquire and Edit.

The Approve Address Update- < Application Number> page displays.

d. Review the address updates and click **Submit** from the Summary page.

The address update is approved.

- **13.** Confirm that all stages of the Account Creation process are complete.
  - a. Click Tasks, and under Tasks, click Completed Tasks.
  - b. The **Completed Tasks** page should display the **Entry** and **Approve** stages.

To view the new address details in the account, see Address Details.

## 4.2 Account Amendment

Use the **Account Amendment** service to change specific details of an existing customer account, such as preferences, features, account status, and other account details.

This topic contains the following subtopics:

Account Amendment

This topic describes the systematic instructions to amend an account.

### 4.2.1 Account Amendment

This topic describes the systematic instructions to amend an account.

1. Click Corporate Account Services, and under Corporate Account Services, click Account Amendment.

The Account Amendment page displays.

Figure 4-4 Account Amendment Page

2. Specify one or more fields in the **Account Search** section.

Table 4-2 Account Search- Field Description

| Field                | Description  |
|----------------------|--|
| Customer Number      | Specify the CIF number of the customer to update the associated account details. |
| Customer Name        | The name of the selected customer is auto-<br>populated.                         |
| Account Category     | Specify the account category to which the account belongs.                       |
| Description          | The description of the selected account category is auto-populated.              |
| Currency             | Specify the operating currency of the account.                                   |
| Currency Description | The description of the operating currency is auto-<br>populated.                 |
| Account Number       | Specify the required account number.   |

3. Click Search.

The **Account Selection** section displays the accounts matching the search filters. See the image in **Step 1**.

4. Click and select the required account tile, then click **Initiate**.

The Account Amendment Update Entry- < Application Number> page displays.

🔷 Tip:

Make a note of the **Application Number**. This is needed to identify the task at the entry, enrich, and approval stages in the matching process, on the **Free Tasks** page.

#### Figure 4-5 Account Amendment Entry Page

5. Click the required data entry tile from the Summary screen or the data entry tabs on the left of the page.

The data entry screen displays.

#### Note:

For more details about the data segments, see the Account Creation topic.

6. Update the required information in the data entry screens.

For more information on the editing process and the field descriptions on the data entry screens, see the **Account Address** data entry step in the Account Creation topic.

7. When the required updates are complete, click the **Summary** tab on the left of the page.

The Summary screen displays all the data entry screen tiles.

8. Click Submit.

The Stage Movement Submission dialog displays the Overrides stage.

- 9. Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click Proceed Next.

The Checklist stage fetches and displays checklists mapped to this stage.

b. Confirm the checklist items and then click Proceed Next.

The **Outcome** stage displays.

c. Select **PROCEED** from the drop-down list and click **Submit**.

The Stage Movement Submission process creates the Approve Address Update task.

- 10. Complete the Approve Account Amendment task.
  - a. Click Tasks, and under Tasks, click Free Tasks.

The Free Tasks page displays.

- b. Search the listed tasks with these column values. Process Name column contains ACCOUNT AMEND, the Stage column contains Approve Account Amendment, and the Application Number column has the number noted in Step 4.
- c. Click Acquire and Edit.

The Approve Account Amendment- < Application Number> page displays.

d. Review the amendments made and click **Submit** from the Summary page.

The amendments to the account are approved.

- **11.** Confirm that the two stages of the Account Amendment process are complete.
  - a. Click Tasks, and under Tasks, click Completed Tasks.
  - **b.** The **Completed Tasks** page should display entries for the **Entry**, and **Approve** stages.

To view the amended account details, see Account Search.

# 4.3 Account Closure

Use the Account closure service to close an existing account.

When you close an account, the system performs the following before closing the account:

- Closes the account checkbooks
- Settles interest owed by or to the account
- Completes account maintenance in the product processor

This topic contains the following subtopics:

```
• Account Closure
This topic describes the systematic instructions to search and close an account.
```

### 4.3.1 Account Closure

This topic describes the systematic instructions to search and close an account.

1. Click Corporate Account Services, and under Corporate Account Services, click Account Closure.

The Account Closure page displays.

|                        |                                |                              |                                      |             |
|                        |                                |                              |                                      |             |
|                        |                                |                              |                                      |             |
|                        |                                |                              |                                      |             |
|                        |                                |                              |                                      |             |
|                        |                                |                              | Cancel Save and                      | Close Next  |

5. Review the account details on each tab and click Next.

The Multi Currency Account page displays.

6. Select the sub-accounts to close and click Next.

The **Summary** page displays.

7. Click Submit from the Summary screen.

The **Stage Movement Submission** dialog displays the **Overrides** stage.

- 8. Complete the Stage Movement Submission process.
  - Accept any Overrides generated and click Proceed Next.
     The Checklist stage fetches and displays checklists mapped to this stage.
  - b. Confirm the checklist items and then click **Proceed Next**.

The Outcome stage displays.

- c. Select **PROCEED** from the drop-down list and click **Submit**. The account closure is approved.
- 9. Confirm that all stages of the Account Creation process are complete.
  - a. Click Tasks, and under Tasks, click Completed Tasks.
  - **b.** The **Completed Tasks** page should display the **Approve** stage.

# 4.4 Account Creation

Use the **Account Creation** service to create accounts for an existing Corporate Customer. The process generates a unique identity for the Corporate account known as the Account Number. The Account Number can be a combination of the CIF Number, the Account Class, the Currency, and any other alphabet(s) or number(s) of the account or currency as defined.

During account creation, you specify other parameters such as the Account category, primary currency of the account, Customer name, and more.

Authorization is required to activate the new account. When you create or modify an account, the system generates a notification message for the new or modified record.

Account Number - A single customer can have any number of accounts. The structure of the account number is defined in the customer account mask, maintained as an Account Parameter under **Branch Parameters**. The Account Number can be a combination of some or all of the following: customer code (CIF number), serial number, Account Class, and Currency, as defined in the Customer Account mask. The last part of the account number is always a system-generated alphanumeric check digit. You cannot change the relative position of the customer account constituent (defined in the mask) while maintaining the actual customer account.

**Customer Number** - You require the customer's CIF code to create an account. If the CIF number is part of the account mask, the system automatically defaults the customer CIF code in the appropriate field. If the CIF number is not part of the account mask, manually specify the customer CIF code. All valid customer codes are displayed in the adjoining option list. You can select the required one.

**Customer Name** - The customer name is displayed based on the customer CIF code specified.

**Primary Currency** - Specify the operating currency of the customer account. A list of all the currencies in the system appears in the available list. Select the applicable transaction currency for the account.

This topic contains the following subtopics:

Account Creation

This topic describes the systematic instructions to create an account for an existing customer.

### 4.4.1 Account Creation

This topic describes the systematic instructions to create an account for an existing customer.

- 1. Search and Initiate an existing customer.
  - a. Click Corporate Account Services, and under Corporate Account Services, click Account Creation.

The Account Creation page displays.

| Account Category         Description         Customer Number         Custom           MNCCUR         Q         Multi Currency Account for MNC         CUSTOMER1         Q         CUSTO |        |

#### Figure 4-9 Account Basic Details

#### **Tip**:

Make a note of the **Application Number**. This is needed to identify the task at the entry, enrich, and approval stages in the matching process, in the **Free Tasks** page.

#### Note:

The account creation entry stage involves manually capturing the required details in the following data entry screens.

- Account Basic Details
- Account Address
- Account Features
- Account Signatory
- Provision Reporting (GL Reporting)
- Account Features
- Account Status
- Statement Preferences
- Summary
- 2. Provide the Account Basic Details.
  - a. Specify the Account Class Code for the account.

#### Note:

The Account Class provides the Interest Details, Account Status, GL Reporting Details, and Account MIS details. Select the appropriate account class that supports the features you require in the account. For example, to include interests and charges in the account, ensure that the account class supports the interest and charges feature.

b. Click Generate.

The Generate Account Number dialog displays.

#### Figure 4-10 Generate Account Number

| Account Mask   | b | b | b | а | а | а | а | n | n | n | n | n | n | n | n | n |
|----------------|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Account Number | в | 0 | 1 |   |   |   |   |   |   |   |   |   |   |   |   |   |

#### Note:

The columns masked with **L** represent the account class (may or may not be present and is decided by the banking organization), the columns masked with **b** represent the branch code, the columns masked with **a** represent the alphabets to be provided, and the columns masked with **n** represent the number to be provided. Together they represent a unique Corporate account number.

c. Double-click the first column masked by a.

The cells become editable.

- d. Enter the required alphabets and numbers for the account number. Press the **Tab** key to move to the next cell.
- e. Press Verify.

The number is verified and generated. The **Account Basic Details** screen displays the **Account Number** field populated with the new account number.

f. Click Next.

The Account Address page displays.

#### Figure 4-11 Account Address

- 3. Provide the details on the **Account Address** page.
  - a. To use an existing CIF Address, expand and select a **Defaulted CIF Address** and click **Use Address**.
  - b. To add a new address, Click +.

Note: Add as many addresses as needed.

The Add Address dialog displays.

c. Specify the Address Type.

Select the required address type from the following:

- HOA- Head Office Address
- ROA- Registered Office Address
- BOA- Branch Office Address
- COA- Communication Address
- d. Provide the address details described in the following table:

#### Table 4-5 Field Description

| Field           | Description   |
|-----------------|---|
| Language        | Specify the language of the address details.  |
| Department      | Specify the department which identifies a division of a large organization or building. |
| Sub Department  | Specify the sub-division of a large organization or building.                           |
| Street Name     | Specify the street or thoroughfare name.  |
| Building Name   | Specify the building name.  |
| Building Number | Specify the building number.  |

| Field                | Description  |
|----------------------|--|
| Floor                | Specify the floor or story within a building.  |
| Post Box             | Specify the numbered box in a post office assigned to a person or organization.                          |
| Room                 | Specify the room number in the building.   |
| Post Code            | Specify the code consisting of a group of letters or numbers added to a postal address to sort the mail. |
| Town Name            | Specify the name of a built-up area with defined boundaries and a local government.                      |
| Town Location Name   | Specify the specific Location name within the town.  |
| District Name        | Specify a subdivision within a country sub-division.   |
| Country Sub Division | Specify a subdivision of a country such as a state, region, or county.                                   |
| Country              | Specify the nation with a government.  |

Table 4-5 (Cont.) Field Description

- e. Click the **Mobile** tab and specify the mobile number in the **Media Address** field.
- f. Click the Swift tab and specify the BIC (Bank Identifier Code) in the Media Address field. BIC uses eight to eleven-digit characters that identify the country, city, bank, and branch.
- g. Click the Email tab and specify the Email address in the Media Address field.
- h. Click the Fax tab and specify the Fax number in the Media Address field.
- i. Click Add.

Adds a new account address row in the Account Address dialog.

- j. To add more addresses, repeat the above steps.
- k. Click Next.

The Account Features page displays.

c. Specify the limit details on the Advance Against Uncollected Funds tab described in the following table.

#### Table 4-10 Field Description

| Field         | Description   |
|---------------|---|
| Limit         | Specify the limit amount on an AUF (Advance Against Uncollected Funds). |
| Start Date    | The start date from when the limit is valid.                            |
| End Date      | The end date of the limit validity.                                     |
| AUF Margin(%) | The percentage of AUF allowed.  |

d. Click the **Temporary Overdraft** tab and specify the fields described in the following table.

Table 4-11 Field Description

| Field      | Description   |
|------------|---|
| Limit      | Specify the limit amount.   |
| Start Date | The limit start date.   |
| End Date   | The end date after which the limit is no longer available.                                    |
| Auto Renew | Turn this option <b>On</b> to automatically renew the temporary overdraft after the end date. |
| Frequency  | Select the limit renewal frequency from the following values:<br>Daily, Monthly, and Yearly.  |
| Unit       | The number of limit renewals in the frequency interval  |
| Amount     | The temporary overdraft amount allowed.   |

- e. Click the **Daylight** tab and specify the daylight limit amount allowed during business hours.
- f. Click the **Account Linkage** tab and specify the details described in the following table.

#### Table 4-12 Field Description

| Field             | Description   |
|-------------------|---|
| Linkage Reference | Specify the reference number of the linked liability account.                 |
| Liability Number  | The liability number is auto-populated from the Linkage Reference.            |
| Effective Date    | The date on which the account linkage is active.                              |
| Limit Amount      | Specify the limit amount that is available from the linked liability account. |

g. Specify the Utilization Sequence of the limit amounts.

You can select from the following:

- BDATL Balance, Daylight Limit, AUF Limit, Temporary OD, and Limits
- **BDATLV** Balance, Daylight Limit, AUF Limit, Temporary OD, Limits and Overline.
- h. Click Next.

Figure 4-17 Multi-currency Account

9. Create the sub-accounts for the required currencies in the **Multi Currency Account** screen.

The **Multi Currency Account** page displays the primary currency of the account and allows the addition of sub-accounts for other supported currencies.

#### Note:

This screen is disabled for single currency account. To create a multicurrency account, select an appropriate account class that supports multiple currencies in **Step 2. a**. (Account Basic Details).

#### a. Click + under Multi Currency Account Detail.

The Sub-accounts table displays a new row.

- b. Double-click the **Currency Code** column to activate the row.
- c. Specify the currency code.

The Account Mask column is auto-populated.

d. Click the Sub Account Number column.

The Generate Account Number dialog displays.

#### Note:

The columns masked with **L** represent the account class (may or may not be present and is decided by the banking organization), the columns masked with **b** represent the branch code, the columns masked with **a** represent the alphabets to be provided, the columns masked with **n** represent the number to be provided and the columns masked with **\$** represent the currency code. Together they represent a unique Corporate sub-account number.

e. Double-click the first column masked by a.

The cells become editable.

- f. Enter the required alphabet and numbers for the sub-account number. Press the **Tab** key to move to the next cell.
- g. Click Verify.

The account number is verified and generated, and the new account number is populated in the **Sub Account Number** column.

- **h.** Repeat the above steps to generate the sub-account number for more supported currencies.
- i. Click Next.

The Statement Preferences screen displays.

- **10.** Provide the details on the **Statement Preferences** page.
  - a. Specify the fields described in the following table.

Table 4-13 Field Description

| Field  | Description   |
|--|---|
| Display IBAN on Advices                        | Toggle the switch <b>On</b> to display IBAN on advices.   |
| Exclude Same Day<br>Reversal From<br>Statement | Toggle the switch <b>On</b> to exclude the same day reversed transactions.  |
| Account Statement<br>Parameters                | Provide the statement parameter details for the following<br>statement types:<br>Primary<br>Secondary<br>Tertiary |

| Field                  | Description  |
|------------------------|--|
| Statement Type         | Select one of the following: <ul> <li>None</li> <li>Detailed</li> <li>Summary</li> </ul>   |
|                        | Note:<br>The remaining fields in the table are common for<br>these three statement types.  |
| Cycle                  | <ul> <li>Specify the frequency of the statement generated. Click the Calendar icon and specify one of the following:</li> <li>Daily: Statements are generated every day.</li> <li>Weekly: Select the day of the week to generate the weekly statement.</li> <li>Fortnightly: Select the day of the week to generate the fortnightly statement.</li> <li>Monthly: Select the day of the month to generate the monthly statement.</li> </ul> |
| Statement Format       | Specify the format of the statement generated.   |
| SWIFT Required         | Toggle this option On to generate statements in the SWIFT format. This field is available only when the <b>Statement Type</b> is <b>Summary</b> or <b>Detailed</b> .   |
| Swift message Type     | Specify the SWIFT message type to generate. The supported Swift message type currently is MT950. This field is available only when <b>SWIFT Required</b> is <b>Yes</b> .   |
| ISO Statement Required | Toggle this option On to generate statements in the ISO format.<br>This field is available only when the <b>Statement Type</b> is <b>Summary</b> or <b>Detailed</b> .  |
| ISO Message Type       | Specify the SWIFT message type to generate. The supported ISO message type currently is CAMT053. This field is available only when <b>ISO Statement Required</b> is <b>Yes</b> .   |

#### Table 4-13 (Cont.) Field Description

b. Click Next.

The **Summary Screen** displays the data entry screen tiles.

11. Click Submit.

The Stage Movement Submission dialog displays the Overrides stage.

- **12.** Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click **Proceed Next**.

The Checklist stage fetches and displays checklists mapped to this stage.

b. Confirm the checklist items and then click **Proceed Next**.

The **Outcome** stage displays.

c. Select **PROCEED** from the drop-down list and click **Submit**.

The **Stage Movement Submission** process creates the **Account Creation Enrich** task.

- **13.** Acquire and edit the **Account Creation Enrich** page.
  - a. Select Tasks, and under Tasks, click Free Tasks.

The Free Tasks page displays.

- b. Search the listed tasks with these column values. Process Name column contains Account Opening Existing Customer, the Stage column contains Account Creation Enrich, and the Application Number column contains the number noted in Step 1. c.
- c. Click Acquire and Edit.

The Account Creation Enrich - < Application Number> page displays.

14. Ensure that the GL Reporting Details, Account MIS, Account Status, and Interest Details screens are visible and populated with appropriate data from the Account Class specified in Step 2. a (Account Basic Details).

### Note:

A feature screen is not populated if the account class does not support it. For example, the **Interest Details** screen is blank if the selected account class does not support the **Interests and Charges** feature.

- **15.** Review and enrich the **Interest Details**.
  - a. Click the Interest Details tab.

The Interest Details screen displays.

Figure 4-20 Add Interest Products

d. Specify the interest product details fields described in the following table.

#### Table 4-15Field Description

| Field                  | Description   |
|------------------------|---|
| Product Code           | Specify the interest product's code.  |
| UDE Currency           | Specify the currency of the UDE product.  |
| Waive Interest         | Toggle the option <b>On</b> to enable interest waiver.  |
| Effective Date and UDE | Specify the effective date from which the interest product is active on the account. Specify the User Data Elements (UDE) of Interests and Charges.   |
|                        | <ul> <li>Note:</li> <li>The interest product calculates interest using an interest rule. The interest rule has two components:</li> <li>A method to calculate the interest or charge</li> <li>User Data Elements to be specified</li> </ul> |

e. Click + under Effective Date and UDE section.

A blank date field displays.

- f. Click the date field and specify the date from which the interest product is active on the product.
- g. Click + under UDE.

A blank row displays.

**h.** Double-click the **UDE Element ID** column to activate the row and specify the UDE details described in the following table.

#### Table 4-16 Column Description

| Field          | Description   |
|----------------|---|
| UDE Element ID | Specify the ID of the Interest and Charges UDE element.<br>The ID of the UDE. |
| UDE Value      | Specify the interest or charge rate to be applied.                            |
| Rate Code      | Select the Rate code to which the UDE Value is applied.                       |
| Variance       | Specify the variance of the <b>UDE Value</b> that is allowed.                 |

i. Click Add.

The Interest Details page displays the new product details tile.

- j. Click Next.
- **16.** Review and enrich the GL Reporting Details.
  - a. Click the GL Reporting Details tab.

The GL Reporting Details screen displays the Reporting Lines as tiles.

b. Review and update the Account Status details if required.

Note:

For more information on the fields, see *Step 18* in Create Account Class topic.

**19.** Review and Enrich the remaining data entry screens.

#### Note:

For more information on the data entry screens, see the steps from *Step 2* to *Step 10* above.

20. Click Submit from the Summary screen.

The Stage Movement Submission dialog displays.

- **21.** Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click **Proceed Next**.

The Checklist stage fetches and displays checklists mapped to this stage.

b. Confirm the checklist items and then click Proceed Next.

The Outcome stage displays.

c. Select **PROCEED** from the drop-down list and click **Submit**.

The Stage Movement Submission process creates the Scrutinize Account Creation task.

- 22. Complete the Scrutinize Account Creation tasks.
  - a. Click Tasks, and under Tasks, click Free Tasks.

The Free Tasks page displays.

- b. Search the listed tasks with these column values. The Process Name column contains Account Opening Existing Customer, the Stage column contains Scrutinize Account Creation, and the Application Number column has the number noted in Step 1. c.
- c. Click Acquire and Edit.

The Account Creation Scrutinize- < Application Number> page displays.

- d. Scrutinize and ensure that all the data entry screens are correct.
- e. Click Submit from the Summary screen.

The Stage Movement Submission dialog displays.

- 23. Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click **Proceed Next**.

The Checklist stage fetches and displays checklists mapped to this stage.

b. Confirm the checklist items and then click **Proceed Next**.

The **Outcome** stage displays.

c. Select **PROCEED** from the drop-down list and click **Submit**.

The **Stage Movement Submission** process creates the **Approve Account Creation** task, and the **Free Tasks** page displays.

- 24. Complete the Approve Account Creation task.
  - a. Search the listed tasks with these column values. Process Name column contains Account Opening Existing Customer, the Stage column contains Approve Account Creation, and the Application Number column has the number noted in Step 1. c.
  - b. Click Acquire and Edit.

The Account Creation Approve- < Application Number> page displays.

- c. Review and ensure that all the data entry screens are correct.
- d. Click Submit from the Summary screen.

The Stage Movement Submission dialog displays.

- 25. Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click **Proceed Next**.

The Checklist stage fetches and displays checklists mapped to this stage.

b. Confirm the checklist items and then click Proceed Next.

The Outcome stage displays.

c. Select PROCEED from the drop-down list and click Submit.

The account creation is complete.

- **26.** Confirm that all stages of the Account Creation process are complete.
  - a. Click Tasks, and under Tasks, click Completed Tasks.
  - **b.** The **Completed Tasks** page should display all four stages of the Account Creation process: **Entry**, **Enrich**, **Scrutinize**, and **Approve**.

# 4.5 Account Creation for New Customer

Use the **Account Creation for New Customer** service to create a new account for an new customer. You have to onboard the new customer before you can create accounts for the customer.

This topic contains the following subtopics:

Account Creation for New Customer This topic describes the systematic instructions to create an account for a new customer.

### 4.5.1 Account Creation for New Customer

This topic describes the systematic instructions to create an account for a new customer.

1. Click Corporate Account Services, and under Corporate Account Services, click Account Creation for New Customer.

The Account Creation for New Customer page displays.

#### Figure 4-27 New Customer Account Creation Enrich - Account Details

8. Update the data entry screens to create the new customer account.

At this point, the steps to create the new customer account are similar to the steps in the account creation for existing customers. Follow the instructions in Account Creation.

# 4.6 Account Limits Update

Use the **Account Limits Update** service to add new limits or modify existing limits of an account.

**Customer Number**- The system displays the customer number based on the customer account number selected. It cannot be modified.

Account Category- The system displays the account category based on the customer account number selected.

Currency- The system displays the customer account's currency.

**Account Number**- Specify the customer account number. The adjoining list displays all valid accounts maintained in the selected transaction branch. You can choose the appropriate account number.

This topic contains the following subtopics:

Account Limits Update

This topic describes the systematic instructions to update the transaction limits of an account.

### 4.6.1 Account Limits Update

This topic describes the systematic instructions to update the transaction limits of an account.

 Click Corporate Account Services, and under Corporate Account Services, click Account Limits Update.

The Account Limits Update screen displays.

Figure 4-28 Account Limits Update

2. Specify one or more fields in the **Account Search** section.

 Table 4-19
 Account Search - Field Description

| Field                | Description   |
|----------------------|---|
| Customer Number      | Specify the CIF number of the customer owning the required account. |
| Customer Name        | The name of the selected customer is auto-<br>populated.            |
| Account Category     | Specify the account category to which the account belongs.          |
| Description          | The description of the selected account category is auto-populated. |
| Currency             | Specify the operating currency of the account.                      |
| Currency Description | The description of the operating currency is auto-<br>populated.    |
| Account Number       | Specify the required account number.S                               |

3. Click Search.

The **Account Selection** section displays the accounts matching the search filters.

4. Click to select the required account tile, then click **Initiate**.

The Entry of Limits Update Details- < Application Number> page displays the Account Basic Details screen.

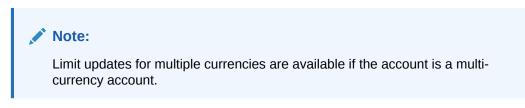

🚫 Tip:

Make a note of the **Application Number**. This is needed to identify the task at the entry, enrich, and approval stages in the matching process, on the **Free Tasks** page.

5. Verify the Account Basic Details are for the required account and click Next.

The Limits screen displays.

6. Apply the Limits update for the required currencies.

- To add new limits, click I under Limits and fetch the required currency from the Currency dialog.
- To edit an existing limit, expand the currency node.

The Limit details on the currency display.

### Figure 4-29 Entry of Limits Update Details

7. Click on each tab under the Limits section and update the limit details.

For more information on the editing process and the field descriptions, see the **Limits** data entry step in the Account Creation topic.

### Note:

When adding new limits, currencies that apply to the multi-currency account are available for selection, not all currencies.

8. Click Next.

The Summary screen displays the updated **Limits** tile and the **Account Basic Details** tile.

9. Click Submit.

The Stage Movement Submission dialog displays the Overrides stage.

- **10.** Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click **Proceed Next**.

The Checklist stage fetches and displays checklists mapped to this stage.

b. Confirm the checklist items and then click **Proceed Next**.

The Outcome stage displays.

c. Select **PROCEED** from the drop-down list and click **Submit**.

The Stage Movement Submission process creates the Approval Limits Update task and opens the Free Tasks page.

- 11. Complete the Approval Limits Update task.
  - a. Select Tasks, and under Tasks, click Free Tasks.

The Free Tasks page displays.

- b. Search the listed tasks with these column values. Process Name column contains Limits Update, the Stage column contains Approval Limits Update, and the Application Number column contains the number noted in Step 4.
- c. Click Acquire and Edit.

The Approval Limits Update - < Application Number> page displays.

**12.** Review the updated limit details and click **Submit** from the **Summary** page.

The Stage Movement Submission dialog displays the Overrides stage.

- **13**. Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click Proceed Next.

The Checklist stage fetches and displays checklists mapped to this stage.

b. Confirm the checklist items and then click **Proceed Next**.

The **Outcome** stage displays.

c. Select **PROCEED** from the drop-down list and click **Submit**.

The limits update process is complete.

- **14.** Confirm that all stages of the Limits Update process are complete.
  - a. Click Tasks, and under Tasks, click Completed Tasks.
  - **b.** The **Completed Tasks** page should display the two stages of the Limits Update process: **Entry** and **Approve**.

To view the updated limit details in the account, see Account Limits.

# 4.7 Account Statement

Use the **Account Statement Request** service to request and generate account statements based on a given date range or a selected period as requested by the account holder.

A statement records the account transactions and balances over a specific period. It displays the debits and credits of the account in this period.

A detailed statement provides more details about each transactions, including the order of the transaction, ultimate beneficiary, payment methods, and more.

A Summary statement displays all the transactions with limited details about individual transactions, such as the reference number, date, and amount with a debit or credit indicator.

This topic contains the following subtopics:

Account Statement Request

This topic describes the systematic instructions to request and generate an account statement.

### 4.7.1 Account Statement Request

This topic describes the systematic instructions to request and generate an account statement.

1. Click Corporate Account Services, and under Corporate Account Services, click Account Statement Request.

The Account Statement Request page displays.

#### Figure 4-30 Account Statement Request

| ccount Number    |   | Sub Account Number    | Currency | Date Range                 |
|------------------|---|-----------------------|----------|----------------------------|
| B01CORP100000181 | Q | B01CORP100000198USD - | USD      | June 29, 2(∰ ↔ June 29, 2( |
|                  |   |                       |          |                            |
|                  |   |                       |          |                            |
|                  |   |                       |          | Ge                         |

2. Specify the fields on the screen.

#### Table 4-20 Account Statement Request- Field Description

| Field          | Description                          |

|                    | Note:<br>This field is available only if the account is a<br>multi-currency account.                 |
| Date Range         | Specify the <b>From</b> date and <b>To</b> date to generate the account statement in the date range. |
|                    | Note:<br>The From date is mandatory, and the To date cannot be less than the From date.              |
|                    |  |

### Table 4-20 (Cont.) Account Statement Request- Field Description

3. Click Generate.

The **SUCCESS** dialog displays.

### Figure 4-31 Success Dialog

### Note:

The generated statements are available for download from the Account's 360 View. For more information on viewing the account details and downloading the statement see, Statements.

# 4.8 Check Book

Use the **Check Book** option to request a check book or update a check book status.

A check instructs a bank to pay a certain amount from an individual's account to another person.

A checkbook contains consecutively numbered check leaves that the account holder can use as a bill of exchange. Checkbooks are available in predefined booklet sizes, and customers can request new checkbooks when they run out of checks.

This topic contains the following subtopics:

- Check Book Request This topic describes the systematic instructions to request a check book.
- Check Book Status Update This topic describes the systematic instructions to update the delivery status of a check book request.

### 4.8.1 Check Book Request

This topic describes the systematic instructions to request a check book.

- 1. Click Corporate Account Services, and under Corporate Account Services, click Check Book.
- 2. Under Check Book, click Request.

The **Request** page displays.

| Request   |                      |                  |             |          |

7. Specify the check book details.

For more information on the editing process and the field descriptions, see the **Check Book** data entry step in the Account Creation topic.

8. Click Next.

The **Summary** screen displays the **Account Basic Details** tile and the updated **Check Book** tile.

9. Click Submit.

The Stage Movement Submission dialog displays the Overrides stage.

- 10. Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click **Proceed Next**.

The Checklist stage fetches and displays checklists mapped to this stage.

b. Confirm the checklist items and then click **Proceed Next**.

The Outcome stage displays.

c. Select **PROCEED** from the drop-down list and click **Submit**.

The Stage Movement Submission process creates an Approve Checkbook Request task.

- **11.** Complete the **Approve Checkbook Request** task.
  - a. From the left navigation menu, select Tasks. Under Tasks click Free Tasks.

The Free Tasks page displays.

- b. Search the listed tasks with these column values. The Process Name column contains Checkbook Request, the Stage column contains Approve Check book Request, and the Application Number column contains the number noted in Step 4.
- c. Click Acquire and Edit.

The Approve Check book Request - < Application Number> page displays.

d. Review the check book request details and click **Submit** from the Summary page.

The check book request is approved.

- **12.** Confirm that all stages of the Check Book Request process are complete.
  - a. Click Tasks, and under Tasks, click Completed Tasks.
  - **b.** The **Completed Tasks** page should display the **Entry** and **Approve** stages of the Check Book Request process.

To view the checkbook request details, see Check Details.

### 4.8.2 Check Book Status Update

This topic describes the systematic instructions to update the delivery status of a check book request.

- 1. Click Corporate Account Services, and under Corporate Account Services, click Check Book.
- 2. Under Check Book, click Request.

The Status Update page displays.

| Check Book Search                                   |                                |  |

🚫 Tip:

Make a note of the **Application Number**. This is needed to identify the task at the entry, enrich, and approval stages in the matching process, on the **Free Tasks** page.

6. Update the Check Book Status field.

You can select from the following:

- Delivered:
- Destroyed:
- 7. Click Next.

The Summary screen displays the Check Book tile.

8. Click Submit.

The Stage Movement Submission dialog displays the Overrides stage.

- 9. Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click **Proceed Next**.

The Checklist stage fetches and displays checklists mapped to this stage.

b. Confirm the checklist items and then click **Proceed Next**.

The **Outcome** stage displays.

c. Select **PROCEED** from the drop-down list and click **Submit**.

The Stage Movement Submission process creates the Approve Status Update of Check Book task.

- 10. Complete the Approve Status Update of Check Book task.
  - a. Click Tasks, and under Tasks, click Free Tasks.

The Free Tasks page displays.

- b. Search the listed tasks with these column values. The Process Name column contains Checkbook Status Update, the Stage column contains Approve Status Update of Checkbook, and the Application Number column contains the number noted in Step 4.
- c. Click Acquire and Edit.

The **Approve Status Update of Check Book- <Application Number>** page displays.

- d. Review the check book status details and click **Submit** from the Summary page. The check book status is updated.
- **11**. Confirm that all stages of the Check Book Status Update process are complete.
  - a. Click Tasks, and under Tasks, click Completed Tasks.
  - **b.** The **Completed Tasks** page should display the **Entry** and **Approve** stages of the Check Book Status Update process.

To view the updated checkbook status, see Check Details.

### Note:

The Check book status should be 'delivered' before it can be used for any transactions.

# 5 Corporate Account Transactions

This topic contains the following Transactions as subtopics:

- Journal Transactions
   A journal transaction refers to the recording of a financial transaction in a bank journal.
- Legal Block
   A Legal Block is a portion of the account balance a customer reserves for a specific purpose.
- Post Processing Manual Retry This topic describes the systematic instructions to retry post processing manually.
- Referral Queue

As part of **Transactions**, the **Referral Queue** option allows the user to view all available referral queue.

Stop Payments

A Stop Payment is a request made by account holder to his/her bank, instructing the bank not to honor or process a specific check for any transaction.

• Uncollected Funds Manual Release

The **Uncollected Funds Manual Release** option allows the user to manually release all the uncollected funds.

# **5.1 Journal Transactions**

A journal transaction refers to the recording of a financial transaction in a bank journal.

### Some Common Use Cases -

- 1. Post adjustment entries to clear suspense and post to the actual account.
- 2. Perform operational adjustments such as interest adjustment entries for an account.
- **3.** Use as a fallback for accounting services. For example, invoke a transaction posting service.

This topic contains the following subtopics:

Create Journal Transactions
 This topic describes the systematic instructions to create journal transactions.

### 5.1.1 Create Journal Transactions

This topic describes the systematic instructions to create journal transactions.

1. Click Corporate Account Transactions, under Corporate Account Transactions, click Journal Transactions, then click Create.

The Create screen displays.

| Branch Code<br>B01   | Original Source Code                        | Description                     | Transaction Reference Number |

Figure 5-3 Journal Entry Details

- 6. Specify the fields in the **Entries** section.
  - a. Turn on the **Balanced Entry** option to record the transaction entry as a balanced accounting.
  - b. Specify the fields listed under the **Entries** section described in the table below.

| Field                         | Description   |
|-------------------------------|---|
| Entry Type                    | Specify whether the journal transaction entry is a Credit or a Debit entry.   |
| Posting Into                  | Select the account type to post. The available options are <b>Account</b> , <b>Suspense</b> , and <b>Intersystem Bridge</b> . |
| Original Transaction Currency | Specify the currency of the transaction.  |
| Original Transaction Amount   | Specify the transaction amount in the transaction currency.   |
| Account Number                | Specify the account number to post the transaction entry.   |
| Account Branch                | Displays the code of the branch holding the account receiving the transaction entry. This field is auto-populated.            |

 Table 5-2
 Transaction Journal Entry- Field Description

| Field                    | Description  |
|--------------------------|--|
| Account Currency         | Displays the primary currency of the account. This field is auto-populated.  |
| Account Currency Amount  | Specify the transaction amount in the primary currency of the account.   |
| Exchange Rate            | Specify the exchange rate when the transaction currency differs from the branch's local currency.  |
| Branch Currency Amount   | Specify the transaction amount in the branch currency.   |
| Value Date               | Specify the value date of the transaction.   |
| Transaction Code         | Specify the transaction code required to post the transaction.   |
| Description              | Description of the transaction code. This field is auto-<br>populated.   |
| Block Reference Number   | Specify the unique identifier assigned to an account block.  |
| Availability Information | <ul> <li>Specify the availability. The available values are -</li> <li>Value Date</li> <li>Immediate</li> <li>Available in 'n' days</li> </ul> |
| Instrument Code          | Specify the instrument number used for the transaction<br>It could be a check number or any other identifier<br>associated with the payment.   |
|                          | Note:<br>The instrument code is valid for transactions<br>that are unauthorized and related to debit<br>transactions.                          |
| Auto Release             | Turn on this option to release funds automatically on the availability date.   |
|                          | Note:<br>Auto-release is valid for transactions that are<br>unauthorized and related to debit<br>transactions.                                 |

### Table 5-2 (Cont.) Transaction Journal Entry- Field Description

| Field                         | Description   |  |  |  |  |
|-------------------------------|---|--|--|--|--|
| Force Post                    | Turn on this option to process and approve the transaction even if it fails to meet requirements or encounters errors during the usual processing flow. |  |  |  |  |
|                               | Note:<br>It is valid only for unauthorized debit<br>transactions.   |  |  |  |  |
| Limit Required                | Turn on this option to ensure the transaction does not exceed a predetermined limit.  |  |  |  |  |
|                               | Note:<br>It is valid only for unauthorized debit<br>transactions.   |  |  |  |  |
| Reversal                      | Turn on this option to indicate that this transaction reverses or cancels a previous transaction entry.   |  |  |  |  |
| Reversal Accounting Reference | Specify the accounting reference number of a previous transaction you want to reverse.  |  |  |  |  |
| Real Time Liquidity           | Turn on this option to ensure instant fund availability for the transaction.  |  |  |  |  |
|                               | Note:<br>RTL is valid only for unauthorized debit<br>transactions.  |  |  |  |  |
| Remarks                       | Provide details on the remarks that should be included when posting the transaction.  |  |  |  |  |

### Table 5-2 (Cont.) Transaction Journal Entry- Field Description

7. Click **Next** to continue.

The Summary screen displays the Transaction Journal Entry tile.

8. Click the Transaction Journal Entry tile.

The Transaction Journal Entry summary dialog displays.

- 9. Review and Close the Transaction Journal Entry dialog.
- 10. Click Submit.

The Stage Movement Submission dialog displays the overrides on the Entry stage.

- **11.** Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click **Proceed Next**.

The Checklist stage fetches and displays checklists mapped to this stage.

b. Confirm the checklist items and then click **Proceed Next**.

The **Outcome** stage displays.

- c. Select **PROCEED** from the drop-down list.
- d. Click Submit.

The Stage Movement Submission process creates the Approval of Journal Transaction Entry task.

**12.** (Optional) View the account balance and verify that the unauthorized transaction amount reflects in the account balance.

**Note:** To view balance details of an account, see Balance Details.

The Account Balance details dialog shows the unauthorized credit amount of \$999.00 created by the unauthorized credit transaction entry for the account in **Step 5**.

| Account Num                     |              |             | Currency                          |

Figure 5-4 Balance Details - Balances tab

**13.** Acquire and edit the **Approval of Journal Transaction Entry** task.

### Note:

This and the remaining steps are performed by the back office accounting department personnel with the appropriate authority to approve the transaction.

a. Click Tasks, under Tasks, click Free Tasks.

The Free Tasks page displays.

- b. Search the listed tasks with these column values. Process Name column contains Transaction Journal Creation, the Stage column contains Approval of Journal Transaction, and the Application Number column has the number noted in Step 3.
- c. Click Acquire and Edit.

The Approval of Journal Transaction - < Application Number> page displays.

| Approval of Journa<br>B01TXNJRN212090 |   | 0                    | Application Info              | Remarks             | Documents   | Advices | Errors and Overrides               | ::×       |

#### Figure 5-5 Approval of Journal Transaction

- 14. Scrutinize and ensure that the transaction journal entry is correct.
- **15.** Click **Submit** from the **Summary** screen. The **Stage Movement Submission** dialog displays.
- 16. Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click **Proceed Next**.

The Checklist stage fetches and displays checklists mapped to this stage.

b. Confirm the checklist items and then click Proceed Next.

The Outcome stage displays.

- c. Select PROCEED from the drop-down list.
- d. Click Submit.

The transaction journal entry is approved, and the transaction executed.

- **17.** Confirm that the unauthorized transaction entry is approved.
  - a. Click Tasks, and under Tasks, click Completed Tasks.

The **Completed Tasks** page should display the two stages of the Journal Transaction entry: **Entry** and **Approval**.

b. View the account balance details in the 360 view.

Confirm that the current balance includes the unauthorized transaction amount. For more information on viewing Balance details, see Balance Details.

18. View the account balance details.

Check that the current balance includes the unauthorized transaction amount.

# 5.2 Legal Block

A Legal Block is a portion of the account balance a customer reserves for a specific purpose.

Customers or banks can place Legal Blocks on accounts for a fixed period or indefinitely. On expiry, the system removes the legal block.

The available balance in a blocked account is the current balance minus the blocked amount. Customers require an override to withdraw from the legal block portion. The system requests an override when a debit transaction amount exceeds the available balance.

For example, if the account balance is 1000 currency units and the legal block is 500, a customer can only withdraw 500 units and requires an override to withdraw more than 500 units. When the customer withdraws more than 500, the system places the override request.

This topic contains the following subtopics:

- Create Legal Block This topic describes the systematic instructions to create legal blocks.
- Amend Legal Block This topic describes the systematic instructions to amend legal blocks.
- Close Legal Block
   This topic describes the systematic instructions to close legal blocks.

### 5.2.1 Create Legal Block

This topic describes the systematic instructions to create legal blocks.

- 1. Search and select the required account and initiate legal block creation.
  - a. Click Corporate Account Transactions, and under Corporate Account Transactions, click Legal Block.
  - b. Under Legal Block, click Create.

The Create page displays.

| ustomer Number                                       | Customer Name        | Account Category    | Description |

|                                     |                  |   |                  |      |                   | Cancel | Back Save and Close     | Next       |

4. Specify the fields on the screen.

| Field           | Description  |
|-----------------|--|
| Account Number  | Displays the account number selected. Change the account number if required. |
| Branch Code     | Displays the code of the branch holding the specified account.               |
| Customer Number | Displays the number of the customer holding the account.                     |
| Currency        | Displays the account currency.   |
| Amount          | Specify the amount to block.   |
| Effective Date  | The date from which the legal block would become active.                     |
| Expiry Date     | The date when the legal block expires.                                       |
| Hold Code       | Specify the hold code that applies to this legal block.                      |
| Remarks         | Provide remarks about the legal block or any other remarks.                  |

Table 5-4 Create Legal Block - Field Description

5. Click Next.

The Summary screen displays.

6. Click Submit.

The **Stage Movement Submission** dialog for the **Create Legal Block Entry** stage displays the **Overrides** present in this stage.

- 7. Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click **Proceed Next**.

The Checklist stage fetches and displays checklists mapped to the Create process.

b. Confirm the checklist items and then click **Proceed Next**.

The **Outcome** stage displays.

- c. Select **PROCEED** from the drop-down list.
- d. Click Submit.

The Approve Legal Block Creation task is created.

- 8. Acquire and edit the Approve Legal Block Creation page.
  - a. Click Tasks, and under Tasks, click Free Tasks.

The Free Tasks page displays.

- b. Search the listed tasks with these column values. Process Name column contains Create Legal Block, the Stage column contains Approve Legal Block Creation and the Application Number column contains the number noted in Step 1.d.
- c. Click Acquire and Edit.

The Approve Legal Block Creation - < Application Number> page displays.

  - a. Click Tasks, and under Tasks, click Completed Tasks.

The **Completed Tasks** page should display the two stages of the legal block closure process: **Entry** and **Approval**.

**b.** View the account balance details in the 360 view. The **Balances** tab should not reflect the closed Legal Block amount.

For more information on viewing Balance details, see Balance Details.

# 5.3 Post Processing Manual Retry

This topic describes the systematic instructions to retry post processing manually.

Post-processing signifies the various steps or activities completed by the system after the initial transaction posting. The system validates whether Post processing is complete for all transactions entries processed with the GL posting date as the branch date. If a post processing fails, the system retries post processing until the maximum retry count is reached. Once the maximum retry count has been reached, the post processing continues for other transactions. However, when the user initiates an action, the retry count is reset and the system does not trigger post processing.

1. Click Corporate Account Transactions, and under Corporate Account Transactions, click Post Processing Manual Retry.

The Post Processing Manual Retry page displays.

| Acco | unt Number              | Q                 | Leg Reference<br>EACr | Number                   |                |          |            | Sear                              |

- 2. Specify one or both of the following fields on the screen.
  - Account Number- The account number of the post processing transaction that requires a manual retry.
  - Leg Reference Number- The reference number of the Debit leg or Credit leg of the transaction.

3. Click Search.

The transactions requiring manual retry display in the table.

| Field                 | Description   |
|-----------------------|---|
| Leg Reference Number  | The reference number for the credit or debit leg of the failed transaction. |
| Branch Code           | The branch where the transaction failed.                                    |
| Account Number        | The account number of the transaction.                                      |
| Transaction Init Date | The date on which the transaction was initiated.                            |
| Debit / Credit        | Specifies the transaction type: Debit or Credit.                            |
| Amount                | The amount of the transaction.  |
| Currency              | The currency of the transaction.  |
| Failure Reason        | The reason for the transaction failure.                                     |

Table 5-7 Post Processing Manual Retry- Field Description

- 4. Click the check box on the rows containing the required transactions for a manual retry.
- 5. Click **Process**.

A toast message confirms the success or failure of the manual retry. The successfully processed transactions are cleared from the table.

# 5.4 Referral Queue

As part of **Transactions**, the **Referral Queue** option allows the user to view all available referral queue.

*Referral* is the process of handling a customer transaction that causes the account involved in such transaction to exceed its overdraft limit. Examples of typical transactions that cause an account to move to overdraft include Standing Instructions or Clearing transactions.

Referral checks can be enabled for accounts that belong to account classes that have referrals enabled. When referral check is enabled for an account, the system will check the available balance (not the current balance) for all transactions involving that account. If a transaction involving the account results in the account being overdrawn, the account and transaction details will be sent to the Referral Queue. Transactions in the referral queue are not posted until the supevisor manually approves them. The supervisor has the option to decline the referral, in which case the transaction will not be executed. Note that charges, fees or interest debited or charged to the customer's account are not referred to the Referral Queue.

This topic contains the following subtopics:

Referral Queue

This topic describes the systematic instructions to view all transactions entries and exception details in the referral queue.

### 5.4.1 Referral Queue

This topic describes the systematic instructions to view all transactions entries and exception details in the referral queue.

# 1. Click Corporate Account Transactions, and under Corporate Account Transactions, click Referral Queue.

The **Referral Queue** screen displays the internal and external balances of transactions in the referral queue.

| All Internal Exte    | rnal          |                     |                                  |                          |                      |

|                      |               |                     |                                  |                          |                      |

Figure 5-19 Referral Queue

- 2. Click **All**, **Internal**, or **External** tab to view the transactions in the corresponding referral queues.
- **3.** Verify the fields on the screen.

### Table 5-8 Referral Queue - Field Description

| Field                         | Description   |
|-------------------------------|---|
| Entry Reference Number        | The transaction entry reference number  |
| Entry Type                    | Displays the type of the entry: Internal or External.   |
| Transaction Type              | Whether the exception appears as part of EA / ECA is displayed.                                       |
| Exception Time & Date         | The Date and Time stamp when the transaction processing exception occurred.                           |
| Entries & Exceptions (Button) | The button displays the number of entries for the transaction and number of exceptions that occurred. |
| Exception Codes               | Displays a comma separated list of unique error codes (referable) across all transactions.            |

4. Click Entries & Exceptions link to open the referral queue.

The **Referral Queue** screen displays the transaction entry tiles in the **Entries** section and the list of approver tiles in the **Approvers** section.

#### Table 5-9 Entries & Exceptions- Field Description

| Field | Description  |
|-------|--|
|       | The exception number is added as the title in the tile header. It does not have a field label. |

| Field          | Description  |
|----------------|--|
| System Name    | The system that sent this entry to Corporate Accounts is displayed.  |
| Account Number | The account number displays.   |
| Debit/Credit   | Displays if entry is for credit or debit transaction.  |
| Amount         | The transaction amount to be blocked and the currency displays.  |
| Check Balance  | Click to display the account balances. When you click, the system calls the Account Balance Query service and retrieves account balance details. |

### Table 5-9 (Cont.) Entries & Exceptions- Field Description

### Note:

- Each entry is displayed in a tile. The tile header displays the **Entry Reference Number** and the number of exceptions for the entry. You can scroll the listed tiles.
- In case you decide to approve the exception then you can enter the remarks for each exception code and click the approve button to approve the entry.
- Similarly Reject and Cancel button are also available to reject the entry or cancel the approval.
- 5. Click the required tile to select it.
- 6. Verify the balances in the account, click **Check Balance**.

The Balances dialog displays.

| ntries 12 Entries -   | 1 Exceptions                       |                                  |   |              |

| DDA-TBS-BALP-01<br>nsufficient Balance. Need 4500.0 |  |                        |                              |                              |                              | Close Reject Approve |
| Remarks   |  |                        |                              |                              |                              |                      |

- 8. Enter any observations in the Remarks field.
- 9. Click Approve.

The referral is approved.

### Note:

- Referrals can be rejected or closed.
- Depending on the queue and approval level, the **Approvers** section displays the approval details for the entry in a tile having one tile for each level of approval. The tile displays the Approval Role, the User-name, and the time-stamp of approval. In case a particular level approval is completed, then the tile status displays if the approval is "Complete", else "In Progress".
- When you click the approve button for an entry, the system validates that user rights to approve the entry (based on role) for the approval level, and that they have not authorized any of the preceding levels for the same entry.
- When all the entries and level of approval is performed, then the approval for the entry is said to be complete and it can be removed from the Referral Queue.

## 5.5 Stop Payments

A Stop Payment is a request made by account holder to his/her bank, instructing the bank not to honor or process a specific check for any transaction.

This instruction can be based on any of the following:

- A single Check number
- A range of Check numbers
- The amount for which a Check is drawn

When a stop payment is affected, the stop payment status in the 'Customer Accounts Maintenance' table is updated to reflect the existence of a stop payment instruction for the customer account. Each time a data entry initiates a Check based transaction, the system validates if a stop payment instruction exists against it. If yes, then payment against that Check is stopped.

Stop payment for a Check can be specified for a defined period of time. You can also maintain a stop payment with no expiry date, that is, the instruction remains effective until revoked.

When a stop payment instruction (check or money) is issued to an account number, the system automatically selects the **Stop Payment** check box. If the stop payment instruction is withdrawn, the status is updated accordingly. If a customer requests to stop payment of multiple checks, the 'Stop Payment' option remains active until the last request is canceled. If the last stop payment instruction is canceled, the option is updated (disabled) immediately.

Here you define the following:

- Account number on which you are enforcing a stop payment
- · Whether stop payment is being defined against Checks or an amount
- If stop payment is based on Check then the start and end Check numbers
- If stop payment is based on amount then the Check amount
- Amount for which the stop payment has been enforced

- Period for which this stop payment should remain effective
- Any reason applicable to this stop payment. It could be the purpose for which it has been enforced

Any number of stop payment instructions can be maintained for an account. With every stop payment instruction on an account, the system displays the stop payment number. This number denotes the number of current stop payment records being maintained for this account.

This topic contains the following subtopics:

- Create Stop Payments This topic describes the systematic instructions to create stop payments.
- Amend Stop Payments This topic describes the systematic instructions to amend stop payments.
- Close Stop Payments This topic describes the systematic instructions to close stop payments.

### 5.5.1 Create Stop Payments

This topic describes the systematic instructions to create stop payments.

- 1. Search and select the required account and initiate stop payment creation.
  - a. Click Corporate Account Transactions, under Corporate Account Transactions, click Stop Payments.
  - b. Under Stop Payments, click Create.

The **Create** page displays.

#### Figure 5-22 Create Stop Payment

| Confirmed                               | Toggle the switch <b>On</b> if the stop payment is confirmed.   |

### Table 5-11 Create Stop Payments Entry - Field Description

3. Click Next.

The **Summary** screen displays.

4. Click Submit.

The **Stage Movement Submission** dialog for the **Create Stop Payment Entry** stage displays the **Overrides** present on this stage.

- 5. Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click **Proceed Next**.

The Checklist stage fetches and displays checklists mapped to the Create process.

b. Confirm the checklist items and then click **Proceed Next**.

The **Outcome** stage displays.

- c. Select **PROCEED** from the drop-down list.
- d. Click Submit.

The Approve Stop Payment Entry task is created.

- 6. Acquire and edit the Approve Stop Payment Entry page.
  - a. Click Tasks, and under Tasks, click Free Tasks.

The Free Tasks page displays.

- b. Search the listed tasks with these column values. Process Name column contains Create Stop Payment Entry, the Stage column contains Approve Stop Payment Entry and the Application Number column contains the number noted in Step 1.d.
- c. Click Acquire and Edit.

The Approval of Stop Payment Creation - < Application Number> page displays.

7. Review the stop payment entry and click Submit from the Summary screen.

The **Stage Movement Submission** dialog for the **Approve Stop Payment Entry** stage displays the **Overrides** present on this stage.

- 8. Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click Proceed Next.

The Checklist stage fetches and displays checklists mapped to the Approve stage.

b. Confirm the checklist items and then click Proceed Next.

The **Outcome** stage displays.

- c. Select **PROCEED** from the drop-down list.
- d. Click Submit.

The Stop Payment is created.

- 9. Confirm that the Stop Payment entries are created.
  - a. Click Tasks, and under Tasks, click Completed Tasks.

The **Completed Tasks** page should display the two stages of the Create Stop Payment process: **Entry** and **Approval**.

**b.** View the check details in the 360 view. The **Check Details** tile should reflect the blocked payments.

For more information on viewing Check details, see Check Details.

### 5.5.2 Amend Stop Payments

This topic describes the systematic instructions to amend stop payments.

- **1**. Search and select the required account and initiate amend stop payment.
  - a. Click Corporate Account Transactions, and under Corporate Account Transactions, click Stop Payments.
  - b. Under Stop Payments, click Amend.

The Amend screen displays.

| top Payments Searc  | h  |                                   |                 |   |               |      |

|                             |                                       |   |                                 |
|                             |                                       |   |                                 |

7. Review the stop payment amendment and click **Submit** from the **Summary** screen.

The Stage Movement Submission dialog for the Approve Amendment of Stop Payment stage displays the Overrides present on this stage.

- 8. Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click Proceed Next.

The Checklist stage fetches and displays checklists mapped to the Approve stage.

b. Confirm the checklist items and then click **Proceed Next**.

The Outcome stage displays.

- c. Select **PROCEED** from the drop-down list.
- d. Click Submit.
- 9. Confirm that the Stop Payment amendment is created.
  - a. Click Tasks, and under Tasks, click Completed Tasks.

The **Completed Tasks** page should display the two stages of the Stop Payment Amendment process: **Entry** and **Approval**.

**b.** View the check details in the 360 view. The **Check Details** tile should reflect the amendments to the stop payments.

For more information on viewing check details, see Check Details.

### 5.5.3 Close Stop Payments

This topic describes the systematic instructions to close stop payments.

- **1**. Search and select the required account and initiate amend stop payment.
  - a. Click Corporate Account Transactions, and under Corporate Account Transactions, click Stop Payments, then click Close.

The **Close** screen displays.

Figure 5-29 Approve Closure of Stop Payment

7. Review the stop payment amendment and click **Submit** from the **Summary** screen.

The **Stage Movement Submission** dialog for the **Approve Closure of Stop Payment** stage displays the **Overrides** present on this stage.

- 8. Complete the Stage Movement Submission process.
  - a. Accept any Overrides generated and click **Proceed Next**.

The Checklist stage fetches and displays checklists mapped to the Approve stage.

b. Confirm the checklist items and then click Proceed Next.

The Outcome stage displays.

- c. Select PROCEED from the drop-down list.
- d. Click Submit.
- 9. Confirm that the Stop Payment is closed.
  - a. Click Tasks, and under Tasks, click Completed Tasks.

The **Completed Tasks** page should display the two stages of the Stop Payment Closure process: **Entry** and **Approval**.

**b.** View the check details in the 360 view. The **Check Details** tile should not show the stop payments.

For more information on viewing Check details, see Check Details.

## 5.6 Uncollected Funds Manual Release

The **Uncollected Funds Manual Release** option allows the user to manually release all the uncollected funds.

Uncollected funds are funds that become available to the customer for withdrawal after a specified time interval.

The availability information is maintained by the bank for every type of transaction and that is represented by a transaction code. At the customer's request, the Bank may release uncollected funds before the value date is reached. This screen provides an overview of all uncollected funds, available dates, and the cumulative amounts held in the customer's account.

This topic contains the following subtopics:

Uncollected Funds Manual Release

This topic describes the systematic instructions to manually release uncollected funds.

### 5.6.1 Uncollected Funds Manual Release

This topic describes the systematic instructions to manually release uncollected funds.

Uncollected funds in a credit transaction refer to the portion of the payment that has not yet been cleared or collected. Similarly, the funds may be held until a float period or until they require manual release. Releasing uncollected funds in such cases can help ensure that the payment is completed smoothly and without any issues.

The **Uncollected Funds Manual Release** screen allows you to choose whether to release the uncollected funds for credit transactions requiring manual release, or for credit transactions with a float period. Funds can be released before the available date is reached.

1. Click Corporate Account Services, and under Corporate Account Services, click Uncollected Funds Manual Release.

The Uncollected Funds Manual Release page displays.

#### Figure 5-30 Uncollected Funds Manual Release

|                  |   | Currency | Available Date |   |
|------------------|---|----------|----------------|---|
| 301CORP110010571 | Q | USD      | 2021-06-30     | Q |
|                  | ~ | 000      | 2021 00 50     | ~ |

2. Specify the fields on the screen.

#### Table 5-14 Uncollected Funds Manual Release - Field Description

| Field          | Description  |
|----------------|--|
| Account Number | Enter the <b>Account Number</b> containing uncollected funds.        |
| Currency       | Auto-populates the operating currency of the account.                |
| Available Date | Specify the date the uncollected funds are scheduled to be released. |

### 3. Click Release.

A toast message confirms the successful release of the uncollected fund.

# A Functional Activity Codes

# B Error Codes and Messages

This topic contains error codes and messages found while using Oracle Banking Accounts Cloud Service.

| Error Code      | Error Message  |
|-----------------|--|
| CAPM-COM-001    | Record does not exist  |
| CAPM-COM-002    | Unable to parse JSON   |
| CAPM-COM-003    | Application Number cannot be blank or "null".                  |
| CAPM-COM-004    | Process Ref Number cannot be blank or "null".                  |
| CAPM-COM-005    | Error saving the datasegment                                   |
| CAPM-COM-006    | Unexpected error occurred during runtime                       |
| CAPM-COM-007    | Application Initiated Successfully                             |
| CAPM-DEL-001    | Record deleted successfully                                    |
| CAPM-DEL-002    | Record(s) deleted successfully                                 |
| CAPM-DEL-003    | Failed to Delete the record                                    |
