This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

- [Diversity and Inclusion](#)
- [Conventions](#)
- [Related Resources](#)

Purpose

This guide helps you to familiarize yourself with the Oracle Banking Branch application. It gives an overview of the module and explains all the maintenances required for its smooth functioning. It also takes you through the different types of transactions that can be handled through this module.

Audience

This guide is intended for the WebLogic admin or ops-web team who are responsible for installing the banking products of Oracle Financial Services Software Limited. For more information on the audience, refer to the table below:

Table User Roles - Description

Role	Description
Implementation Team	Implementation of Oracle Banking Branch
Presales Team	Install Oracle Banking Branch for demo purpose
Bank Personnel	Who installs Oracle Banking Branch

The users of this guide are expected to have a basic understanding of the following application servers:

- Oracle Weblogic
- IBM Websphere
- Oracle Database

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Installation Index

The installation of the Oracle Banking Branch needs to be performed in a specified order using the respective installation guides.

Security Guidelines

The user needs to ensure security guidelines for this release of Oracle Banking Branch are adhered to as mentioned in the **Security Guide**. This is a pre-requisite before proceeding further.

Installation Index

This section helps you get an outline of the installation guides and provides a summary of each guide. You can identify the chapters containing the details of each activity that you will perform during the installation of the Oracle Banking Branch.

Table 1-1 Installation Index

Setup/Installation	Description of Guide
Environment Setup	The installation guides are organized as follows: Prerequisites (Pre-Installation Guide) This guide describes the prerequisites required for installing Oracle Banking Branch. Application Server Setup (Configuration and Deployment Guide) This guide describes various configurations required to set up the WebLogic server including LDAP setup.
Oracle Banking Microservices Platform Foundation Installation	Oracle Banking Microservices Platform Foundation Installation Guide This guide describes the steps to install Oracle Banking Microservices Platform Foundation services in the designated environment.
Security Management System Services Installation	Security Management System Services Installation Guide This guide describes the steps to install SMS core services in the designated environment.
Common Core Services Installation	Common Core Services Installation Guide This guide describes the steps to install common core services in the designated environment.
Party Services Installation	Party Services Installation Guide This guide describes the steps to install party services in the designated environment.
Oracle Banking Branch Services Installation	Installation Guide and Initial Setup Guide This guide describes the steps to install Oracle Banking Branch services in the designated environment, and initial setup scripts to create required maintenances for Oracle Banking Branch.

Table 1-1 (Cont.) Installation Index

Setup/Installation	Description of Guide
SSL Configurations Setup	SSL Configurations Setup Guide This guide describes the steps to set up SSL configurations required for Oracle Banking Branch.
Troubleshooting	Configuration and Deployment Guide This guide provides resolution details for some of the known flyway-related issues faced during service deployments.
