## Purpose

This guide helps to get started with Oracle Banking applications. It explains the basic design of Oracle and the common operations that can follow while using it. The guide must be used as a supplement and read in conjunction with Common Core, Security Management System, and other application user guides.

## Audience

This guide is intended for the Customer Service Representatives (CSR) and staff responsible for setting up the new products in the bank.

## Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

### **Access to Oracle Support**

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

## Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry

---

standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## Related Resources

The related documents are as follows:

- Oracle Banking Common Core User Guide
- Oracle Banking Security Management System User Guide
- Collections User Guide
- Cashflow Forecasting User Guide
- Receivables and Payables User Guide
- Netting User Guide

## Conventions

The following text conventions are used in this document:

Convention	Meaning
<b>boldface</b>	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
<code>monospace</code>	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

## Screenshot Disclaimer

Information used in the interface or documents are dummy, it does not exist in real world, and its only for reference purpose.

# 1

## Access Application

The user can access any application using the link provided by the administrator. Please contact the administrator for URL and the login credentials.

For more information on Users and Roles, refer to ***Oracle Banking Security Management System User Guide***.

- [Sign In](#)  
This topic describes the systematic instruction to sign in to the application.
- [Sign Out](#)  
This topic describes the systematic instruction to log out from the application.

### 1.1 Sign In

This topic describes the systematic instruction to sign in to the application.

Make sure that the valid user name and password is created for the user.

1. Specify the URL in the browser address and press **Enter**.

The **Sign In** screen displays.

Figure 1-1 Sign In

2. Specify the required fields on **Sign In** screen.  
For more information on fields, refer to the field description table.

Table 1-1 Sign In – Field Description

Field	Description
User Name	Specify the user name provided by the administrator.
Password	Specify the password provided by the administrator.

3. Click **Sign In** to login to the application.  
The **Home** screen displays.

## 1.2 Sign Out

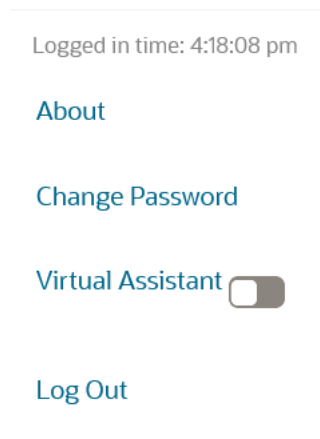

This topic describes the systematic instruction to log out from the application.

Make sure that all the fields are entered and saved.

1. In the selected application, navigate to toolbar.
2. From toolbar, click on the user name logged into the application.

The **User Profile** fly-out screen displays.

**Figure 1-2 User Profile**

3. Click **Log Out** to sign out from the application.  
The application logs out.

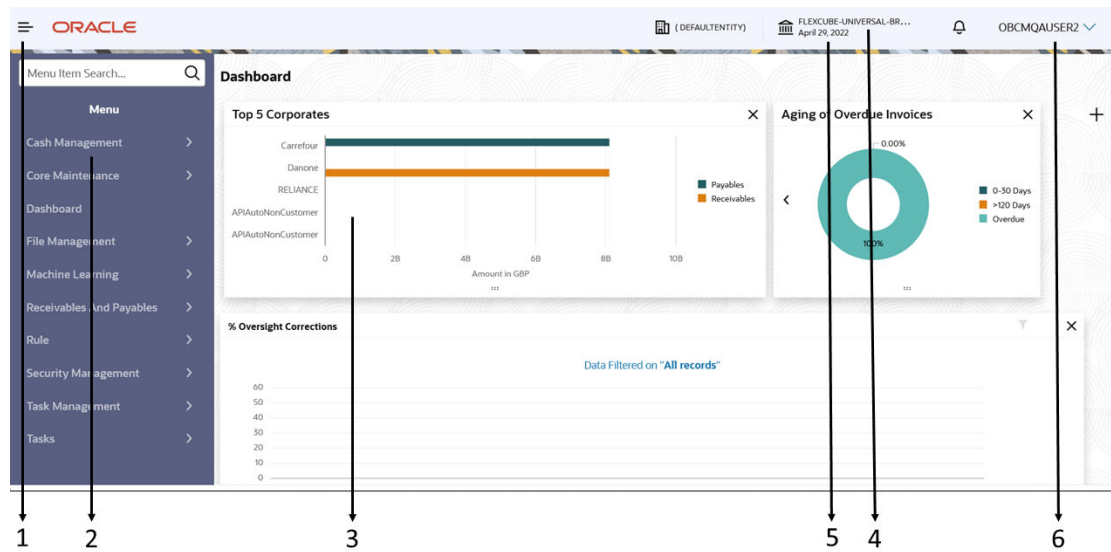

# 2

## Application Environment

This topic describes about the various fields available in the application environment.

On successful login, the application environment screen appears depending on the user privileges.

**Figure 2-1 Application Environment**

For more information on fields, refer to the field description table.

**Table 2-1 Application Environment – Field Description**

Field	Description
<b>Hamburger Menu</b>	Click to expand/collapse the menu.
<b>Menu</b>	Click to navigate/open the screens associated with the application.
<b>Sub-Menu</b>	Click to navigate/open the screens associated with the application. These screens are associated with the menu depending on the user privileges.
<b>Display Grid</b>	Displays the screens/dashboards.

Table 2-1 (Cont.) Application Environment – Field Description

Field	Description
<b>Bank Name</b>	<p>Displays the name of the bank and its branch code. Click to select the branches associated with the logged in user.</p> <div data-bbox="906 432 1458 634"> <b>Note:</b> Depending on the logged in user and the branches associated, the user can switch between branches and view the records.</div>
<b>Application Date</b>	Displays the last performed application date of branch's EOD.
<b>User Profile</b>	Displays the user profile related options and actions.

# 3

## How to's

This topic describes about the different types of actions that the user can perform.

As a new user, the user need to perform a set of tasks that are similar in all the screens such as view, edit, delete existing records, and more.

When the user is working with records, it is important to remember that any records that user create, view, edit, delete, and more are determined by administrator settings such as user profile or permission set. Work with the administrator to ensure that the user have access to the records and data.

Now, you have learned how to work with your records, you might want to explore more advanced features.

- [View the Records](#)  
This topic describes about the various formats to view the records.
- [Search the Records](#)  
This topic describes the systematic instruction to search the records.
- [Access the Records](#)  
This topic describes the systematic instruction to access the records.
- [Refresh the Records](#)  
This topic describes the systematic instruction to refresh the records.
- [Create / Configure the Records](#)  
This topic describes the systematic instruction to create / configure the records.
- [Copy the Records](#)  
This topic describes the systematic instruction to copy the record.
- [Unlock the Records](#)  
This topic describes the systematic instruction to unlock the record.
- [Reopen the Records](#)  
This topic describes the systematic instruction to reopen the record.
- [Delete the Records](#)  
This topic describes the systematic instruction to delete the record.
- [Print the Records](#)  
This topic describes the systematic instruction to print the record.
- [Authorize the Records](#)  
This topic describes the systematic instruction to authorize the record.
- [Minimize and Maximize the Records](#)  
This topic describes the systematic instruction to minimize and maximize the records.
- [Close the Records](#)  
This topic describes the systematic instruction to close the record.
- [Audit the Records](#)  
This topic describes the systematic instruction to audit the record.

## 3.1 View the Records

This topic describes about the various formats to view the records.

The user can view the summary of all configured records in the selected summary screen. This helps you to find the required record faster.

The various formats to view the records are as follows:

- [Tile View](#)  
This topic describes the information to view the records in tile view.
- [Tile View with Context Menu](#)  
This topic describes the information to view the records in tile view with context menu.
- [List View](#)  
This topic describes the systematic instruction to view the configured records in list format.

### 3.1.1 Tile View

This topic describes the information to view the records in tile view.

The default summary view of the records are tile view. Displays the configured records in a tile format with few key fields that are associated with the screen. The user can click a tile to open a record in a full screen and view the details.

**Figure 3-1 Tile View**

### 3.1.2 Tile View with Context Menu

This topic describes the information to view the records in tile view with context menu.

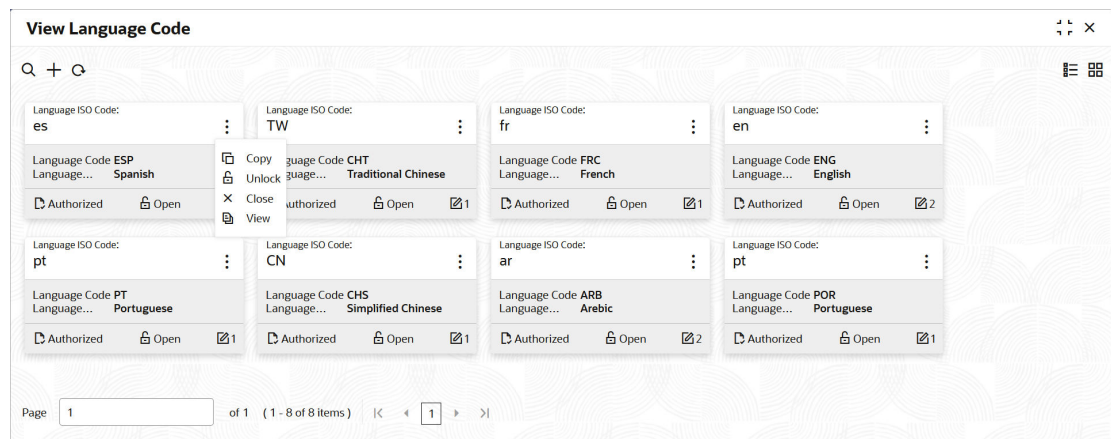

Tile view with context menu is similar to any tile view summary record. The context menu allows the user to perform any actions that are associated with the records.

The content menu is available for:

- View Accounting Role

- View Entry Code
- View Accounting Entries
- View Internal Account Mapping
- View Arrangement Definition
- View Arrangement Decisioning
- View Corporate Enrichment
- View Charge Code
- View Charge Rule
- View Charge Decisioning
- View Charge Preferential Pricing
- View Cash Denomination
- View Courier Setup
- View Location
- View Location Cluster
- View Product Definition
- View Alert Contact Details
- View Alert Definition
- View Alert Decisioning

**Figure 3-2 Tile View with Context Menu**

For more information on fields, refer to the field description table.

**Table 3-1 Tile View with Context Menu - Field Description**

Field	Description
<b>Context Menu</b>	This button appears only to a select the number of screens. The context menu allows the user to perform actions that are associated with the record.
<b>Context Menu Flyout</b>	A list of all actions appears. The list of actions depend on the status of the record.

### 3.1.3 List View

This topic describes the systematic instruction to view the configured records in list format.

1. Navigate to **View** screen.
2. Click **List View** on the action toolbar to view the details.

The **List View** screen displays with the details.

**Figure 3-3 List View**

## 3.2 Search the Records

This topic describes the systematic instruction to search the records.

1. Navigate to **Summary - Maintenance** screen.
2. Click **Search** button.

The fields associated with the screen displays.

Figure 3-4 Search - Maintenance

Record Status

For more information on fields, refer to the field description table.

Table 3-2 Search - Field Description

Field	Description
<Specific Search Parameters>	Specify the applicable search parameters for the respective summary screen.
Authorization Status	Select the authorization status to filter the records. The available options are: <ul style="list-style-type: none"><li>• <b>Authorized</b></li><li>• <b>Unauthorized</b></li><li>• <b>Rejected</b></li></ul>
Record Status	Select the record status to filter the records. The available options are: <ul style="list-style-type: none"><li>• <b>Open</b></li><li>• <b>In Progress</b></li><li>• <b>Closed</b></li></ul>

3. Specify the required fields.
4. Click **Search**.  
The requested record displays.

## 3.3 Access the Records

This topic describes the systematic instruction to access the records.

The user can access the screens on the permissions/rights provided for the user.

Specify **User ID** and **Password**, and login to **Home** screen.

1. Navigate to the hamburger menu.  
By default, the hamburger menu is expanded.
2. Click <sub-menu>, and click <name of the screen>.  
The screens associated with the sub-menu displays.
3. Click Create <name of the screen>.  
The Create <name of the screen> screen displays. The user can create/configure the new records.
4. Click View <name of the screen>.  
The View <name of the screen> screen displays. The user can view the configured records.

## 3.4 Refresh the Records

This topic describes the systematic instruction to refresh the records.

1. Navigate to **Summary** screen.
2. Click **Refresh** button.  
The records associated with the screen is updated with the latest details.

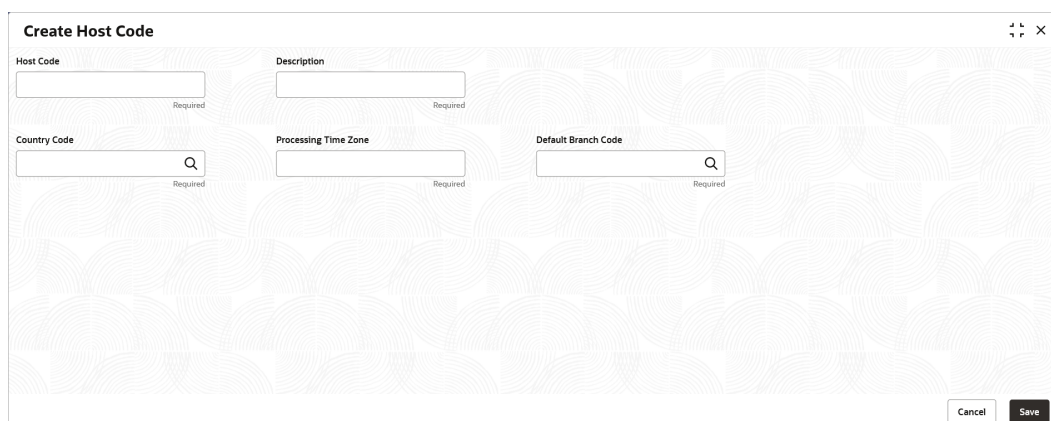

## 3.5 Create / Configure the Records

This topic describes the systematic instruction to create / configure the records.

The user can create / configure records in any of the two ways:

1. In the selected **Summary** screen, click **Add** to create / configure a record.
2. On the **menu**, select a **sub-menu** and click <Create name of the screen>.  
The **Create Host Code** screen shown for reference.

Figure 3-5 Create Host Code

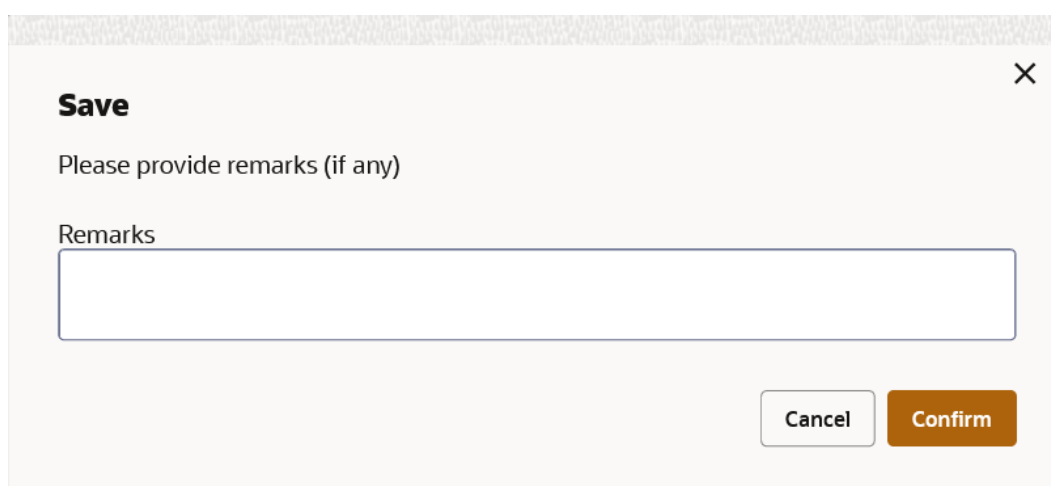

The screenshot shows a web form titled "Create Host Code". It features five input fields, each with a search icon and a "Required" label below it. The fields are: "Host Code", "Description", "Country Code", "Processing Time Zone", and "Default Branch Code". At the bottom right of the form, there are two buttons: "Cancel" and "Save".

3. Specify the required details in the respective fields.
4. Click **Save**.

The **Save - Confirmation Message** popup screen displays.

Figure 3-6 Save - Confirmation Message

The screenshot shows a "Save" confirmation message popup. It has a title bar with "Save" and a close button. The main content area contains the text "Please provide remarks (if any)" and a "Remarks" label above a large text input field. At the bottom right, there are two buttons: "Cancel" and "Confirm".

5. Specify the remarks on the **Remarks** field.
6. Click **Confirm** to save the details.  
The record is created and the maker remarks can be viewed in **Audit** screen. Refer [Audit the Records](#) topic for the detailed explanation.
7. Click **Cancel** to discard the changes.

## 3.6 Copy the Records

This topic describes the systematic instruction to copy the record.

1. Navigate to **Summary** screen.
2. Click the record that need to copy.

3. Click **Copy** to copy the selected record details and do the required changes to the record.
4. Click **Save**.  
The modified record is saved.

## 3.7 Unlock the Records

This topic describes the systematic instruction to unlock the record.

1. Navigate to **Summary** screen.
2. Click the record that need to unlock.
3. Click **Unlock** to unlock the selected record details and do the required changes to the record.
4. Click **Save**.  
The modified record is saved.

## 3.8 Reopen the Records

This topic describes the systematic instruction to reopen the record.

1. Navigate to **Summary** screen.
2. Click on the record that need to reopen.
3. Click **Reopen**.  
The **Confirmation** screen displays.
4. Specify a remark.
5. Click **Confirm** to reopen the record.

## 3.9 Delete the Records

This topic describes the systematic instruction to delete the record.

### Note:

Make sure that the user have privileges and know the guidelines to delete the records.

1. Navigate to **Summary** screen.
2. Click the record that needs to be deleted.
3. Click **Delete**.  
The selected record is deleted.

## 3.10 Print the Records

This topic describes the systematic instruction to print the record.

1. Navigate to **Summary** screen.
2. Click the record that needs to be printed.
3. Click **Print** to view the record in a print format.  
The selected record is printed.

## 3.11 Authorize the Records

This topic describes the systematic instruction to authorize the record.

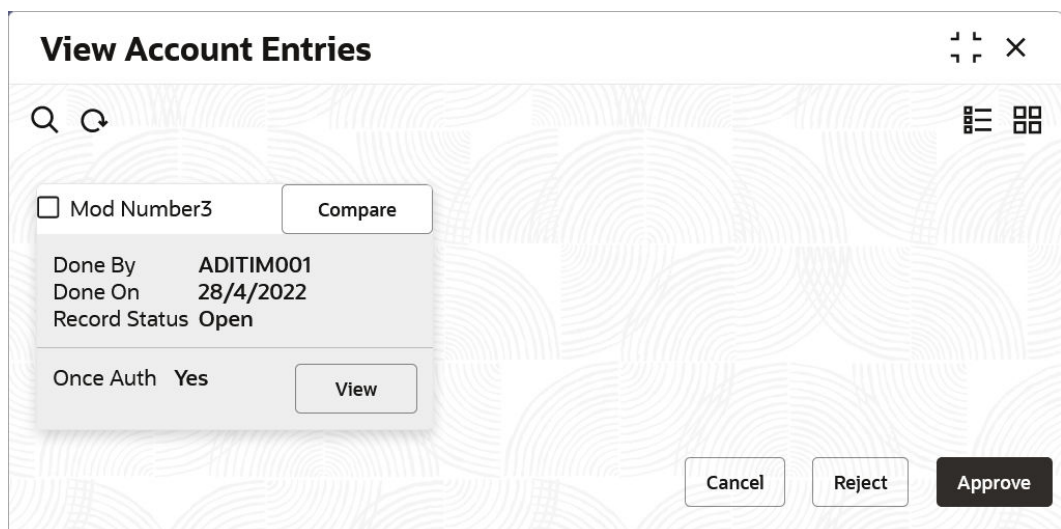

1. Navigate to **Summary - Maintenance** screen.
2. Click  icon on the unauthorized record which needs to be actioned.
3. Click **Authorize**.  
The **Authorization** screen displays.

Figure 3-7 Authorization

Are you sure you want to approve? Please confirm

Remarks

8. Specify the approval remarks in the **Remarks** field.

9. Click **Confirm** to approve the record.

The selected record is approved and the approval remarks can be viewed in **Audit** screen. Refer [Audit the Records](#) topic for the detailed explanation.

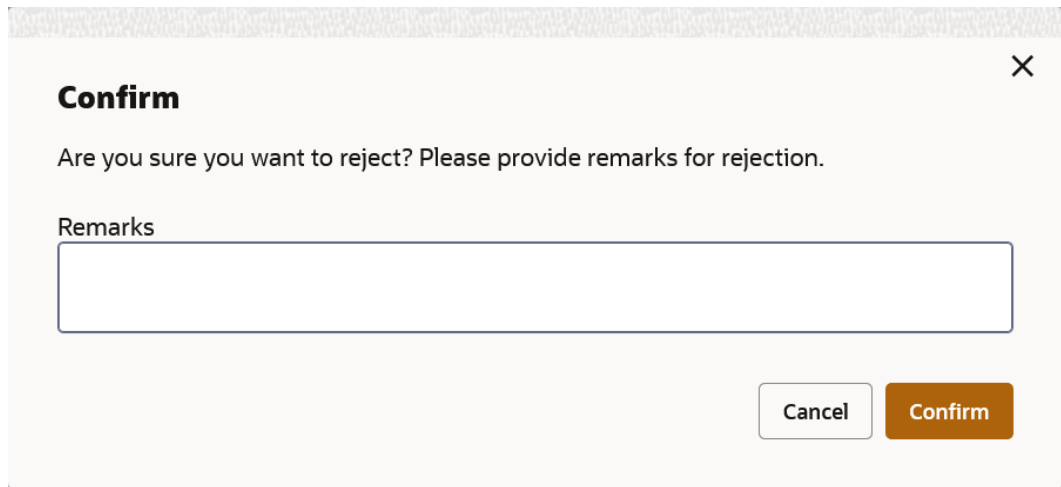

10. Click **Cancel** to discard the approval.

**To reject the record:**

11. Click **Reject** to reject the record.

The **Rejection Confirmation** popup screen displays.

**Figure 3-9 Rejection Confirmation**

**Confirm** ✕

Are you sure you want to reject? Please provide remarks for rejection.

Remarks

12. Specify the rejection remarks in the **Remarks** field.

 **Note:**

The **Remarks** is mandatory while rejecting the record.

13. Click **Confirm** to reject the record.  
The selected record is rejected and the rejection remarks can be viewed in **Audit** screen. Refer [Audit the Records](#) topic for the detailed explanation.
14. Click **Cancel** to discard the rejection.

## 3.12 Minimize and Maximize the Records

This topic describes the systematic instruction to minimize and maximize the records.

1. Navigate to **Summary** screen.
2. Click **Collapse** to minimize the screen.  
The minimized screen displays at the bottom left corner of the screen.
3. Click **Maximize** button to maximize the screen.  
The screen is maximized.

## 3.13 Close the Records

This topic describes the systematic instruction to close the record.

1. Navigate to **Summary** screen.
2. Click **Remove** button to close the record.  
The selected record is closed.

 **Note:**

If the user is in the middle of creating/modifying the records, an error/warning message appears prompting to save the changes.

## 3.14 Audit the Records

This topic describes the systematic instruction to audit the record.

1. Navigate to **Summary** screen.
2. Click  icon and click **Unlock** or **View** button to modify/view the record.
3. On **Maintenance** screen, click **Audit** to view the change history of the record.  
The **Audit** detail popup screen displays.

## Screen / Dashboard

This topic describes about the various components in Screen / Dashboard.

- [Pagination](#)  
This topic describes about the pagination details in the screen.
- [Mandatory and Optional Fields](#)  
This topic describes about the mandatory and optional fields in the screen.
- [Remove Tile](#)  
This topic describes the systematic instruction to remove the dashboard tile.
- [Reorder Tile](#)  
This topic describes the systematic instruction to reorder the dashboard tile.
- [Expand Tile](#)  
This topic describes the systematic instruction to expand the dashboard tile.
- [Add Tile](#)  
This topic describes the systematic instruction to add the dashboard tile.

### 4.1 Pagination

This topic describes about the pagination details in the screen.

The pagination displays the number of records on the bottom left corner of the selected view screen. The number of pages appears depending on the records available. The user can navigate to the first page, last page, previous page, or next page using the numbers options.

### 4.2 Mandatory and Optional Fields

This topic describes about the mandatory and optional fields in the screen.

There are mandatory and optional fields available for any screen. The user can identify the mandatory field with the **Required** text. Once the value is captured, the **Required** text will disappear. If the user tries to save the record without providing all the mandatory fields, the fields are highlighted with the error message at the bottom.

### 4.3 Remove Tile

This topic describes the systematic instruction to remove the dashboard tile.

- On the **Dashboard** screen, click **Remove** to remove the dashboard widget from the landing page.  
The removed widgets are available under the **Add Tiles** option.

## 4.4 Reorder Tile

This topic describes the systematic instruction to reorder the dashboard tile.

- Select and drag the **Drag to Reorder** to drop the dashboard widget at the desired place.  
The page is automatically refreshed and displays the updated order.

## 4.5 Expand Tile

This topic describes the systematic instruction to expand the dashboard tile.

- On the **Dashboard** screen, click **Expand Tile** to view all the information of the dashboard widget.  
The expanded widget appears on a complete row to view more information.

## 4.6 Add Tile

This topic describes the systematic instruction to add the dashboard tile.

1. Click **Add Tiles to Dashboard** to add more available dashboard widget to the dashboard landing page.  
The **Click on tiles to add them** screen displays.

**Figure 4-1** Click on tiles to add them

2. Click on the dashboard that the user wants to add to the dashboard-landing page.  
The page is automatically refreshed and displays the added dashboard widget.

# 5

## Common Fields

This topic provides the information about all the common fields used in the application.

The list of common fields are described as follows.

**Table 5-1 Common Fields**

Field	Description
<b>Branch Code</b>	The user can select a configured branch code which the user wants to associate with the selected screen.
<b>Maker</b>	Displays the name of the logged in user who created the record.
<b>Customer Number</b>	The user can select a configured customer number which the user wants to associate with the selected screen. The user can configure the customer number using the <b>Create External Customer</b> screen.
<b>Account Number</b>	The user can select a configured account number which the user wants to associate with the selected screen. The user can configure the account number using the <b>Create External Customer Account</b> screen.
<b>Source System</b>	The user can select a configured source system which the user wants to associate with the selected screen. The user can configure the source system using the <b>Create Upload Source</b> screen.
<b>Host Code</b>	The user can select a configured host code which the user wants to associate with the selected screen. The user can configure the host code using the <b>Create Host Code</b> screen.
<b>Currency</b>	The user can select a configured currency which the user wants to associate with the selected screen. The user can configure the currency using the <b>Create Currency Definition</b> screen.
<b>Status</b>	Displays the status of the record. <ul style="list-style-type: none"><li>• <b>Authorized:</b> The record is verified and authorized.</li><li>• <b>Unauthorized:</b> The record is not verified.</li><li>• <b>Rejected:</b> The record is rejected.</li><li>• <b>Open:</b> The record is open and waiting for verification.</li><li>• <b>Locked:</b> The record is locked.</li><li>• <b>Closed:</b> The record is closed.</li></ul>

# 6

## Common Buttons/Icons

This topic provides the information about all the common buttons/icons used in the application.

The list of common buttons and icons are described as follows.

**Table 6-1 List of Buttons**

Button	Description
<b>New</b>	Creates a new record for the selected screen.
<b>Query</b>	View all the configured records for the selected screen.
<b>Unlock</b>	Unlock the configured record for the selected screen.
<b>Search</b>	Search the configured record and select the required record for the selected screen.
<b>Copy</b>	Copy the configured record, modify the details, and save with a different name for the record.
<b>Delete</b>	Remove the configured record for the selected screen.
<b>Reopen</b>	Reopens a closed record for the selected screen.
<b>Close</b>	Closes the configured record for the selected screen.
<b>Print</b>	Prints the configured record for the selected screen.
<b>Authorize</b>	Authorizes the configured record for the selected screen.
<b>Reject</b>	Rejects the configured record for the selected screen.
<b>Collapse</b>	Minimises the opened screen to the bottom left corner of the screen.
<b>Remove</b>	Closes the opened screen.
<b>Audit</b>	Check the history of the configured records for the selected screen.
