1
Security Management System Initial Setup

Use this topic to setting up initial configuration of Security Management System (SMS).

After completing this you would be creating two users with default role. It is recommended to delete created user during this process and create your own user using valid role.

Prerequisites

Ensure to complete SMS Core service installation before you start SMS initial setup.

SMS Initial Setup

Collect INC mentioned in From-Path section in the below table and compile to respective schema. During compile it will prompt a window asking UserId followed by UserName , enter UserId and UserName.

> **✎ Note:**
>
> Ensure provided user present in LDAP server.

Table 1-1   SMS Initial Setup

Script Name	From-Path	Compile To	Purpose
sms_initial_set up.sql	{Unzip OSDC}/ OBCLPM_14.x.0.0.0/ OBCLPM_INITIAL_ SETUP	SMS Schema	To create SMS roles and default users.
obclpm_initial_ setup.sql	{Unzip OSDC}/ OBCLPM_14.x.0.0.0/ OBCLPM_INITIAL_ SETUP	SMS Schema	To create default roles for loans.

2

Common Core Initial Setup

Use this topic to setup the initial configuration for Common Core.

After completing this you would be creating one Branch called '000', one Bank called 0000, System date '13-APR-18'. It is recommended to delete created data during this process and create your own user using valid data

Prerequisite

Ensure to complete Common Core service installation before you start Common Core initial setup.
