### 1.1 Purpose

This guide is designed to help the user to quickly get acquainted with the Customer Standard Instructions maintenance process.

### 1.2 Before You Begin

Kindly refer to our getting started user guide for common elements, including Symbols and Icons, Conventions Definitions, and so forth.

### 1.3 Prerequisite

Specify the **User ID** and **Password**, and login to **Home** screen.

### 1.4 Acronyms and Abbreviations

The list of the acronyms and abbreviations used in this guide are as follows:

**Table 1-1 Acronyms and Abbreviations**

Abbreviation	Description
System	Core Maintenance Module
NLP	Natural Language Processing

Table 1-1 (Cont.) Acronyms and Abbreviations

Abbreviation	Description
REST	Representational State Transfer

## 1.5 Audience

This guide is intended for the central administrator of the Bank who controls the system and application parameters and ensures smooth functionality and flexibility of the banking application.

## 1.6 Basic Actions

Table 1-2 Basic Actions

Action	Description
<b>Approve</b>	Used to approve the initiated report. This button is displayed, once the user click <b>Authorize</b> .
<b>Audit</b>	Used to view the maker details, checker details, and report status.
<b>Authorize</b>	Used to authorize the report created. A maker of the screen is not allowed to authorize the report. Only a checker can authorize a report, created by a maker.
<b>Close</b>	Used to close a record. This action is available only when a record is created.
<b>Confirm</b>	Used to confirm the performed action.
<b>Cancel</b>	Used to cancel the performed action.
<b>Compare</b>	Used to view the comparison through the field values of old record and the current record. This button is displayed in the widget, once the user click <b>Authorize</b> .
<b>Collapse All</b>	Used to hide the details in the sections. This button is displayed, once the user click <b>Compare</b> .
<b>Expand All</b>	Used to expand and view all the details in the sections. This button is displayed, once the user click <b>Compare</b> .
<b>New</b>	Used to add a new record. When the user click <b>New</b> , the system displays a new record enabling to specify the required data.
<b>OK</b>	Used to confirm the details in the screen.
<b>Save</b>	Used to save the details entered or selected in the screen.
<b>View</b>	Used to view the report details in a particular modification stage. This button is displayed in the widget, once the user click <b>Authorize</b> .
<b>View Difference only</b>	Used to view a comparison through the field element values of old record and the current record, which has undergone changes. This button is displayed, once the user click <b>Compare</b> .
<b>Unlock</b>	Used to update the details of an existing record. System displays an existing record in editable mode.

## 1.7 Conventions

The following text conventions are used in this document:

Convention	Meaning
<b>boldface</b>	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

## 1.8 Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance.

## 1.9 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## 1.10 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

### Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

## Banking Arrangement

This topic describes the systematic instructions to Create Banking Arrangement.

The Banking Arrangement functionality enables banks to define and manage how the Drawing Power is calculated for a facility or a group of facilities extended to a customer. For each customer, multiple banking arrangements can be created to accommodate different lending structures, such as sole or multiple banking relationships. Within each banking arrangement, users can configure specific parameters, including the inclusion or exclusion of variables in the drawing power calculation, applicable margins on individual variables, and the validity period for each arrangement. These configurable options allow banks to monitor and calculate drawing power effectively, ensuring that lending practices align with agreed-upon terms and regulatory requirements.

1. On **Home screen**, click **Drawing Power**. Under Drawing Power, click **Banking Arrangements**.
2. Under Banking Arrangements, click **Create Banking Arrangements**.

The **Banking Arrangement** screen displays.

**Figure 2-1 Banking Arrangement**

The screenshot shows the 'Banking Arrangement' screen with the following sections:

- Customer Details:** Selected Customer (00010811), Party Id (000009560).
- Facility Details:** A table with columns Facility ID, Facility Description, Allocation %, and Action. It lists two facilities: F2382970 (50%) and F2382975 (50%).
- Bank Arrangement Details:** Bank Arrangement Id (BANKAUTOMATIONSF-4B), Bank Arrangement Name (bankArrangementName), Banking Method (Select), Total Fund Based Limit (10000), and Own Bank Share (%) (1000%).

## Drawing Power Summary

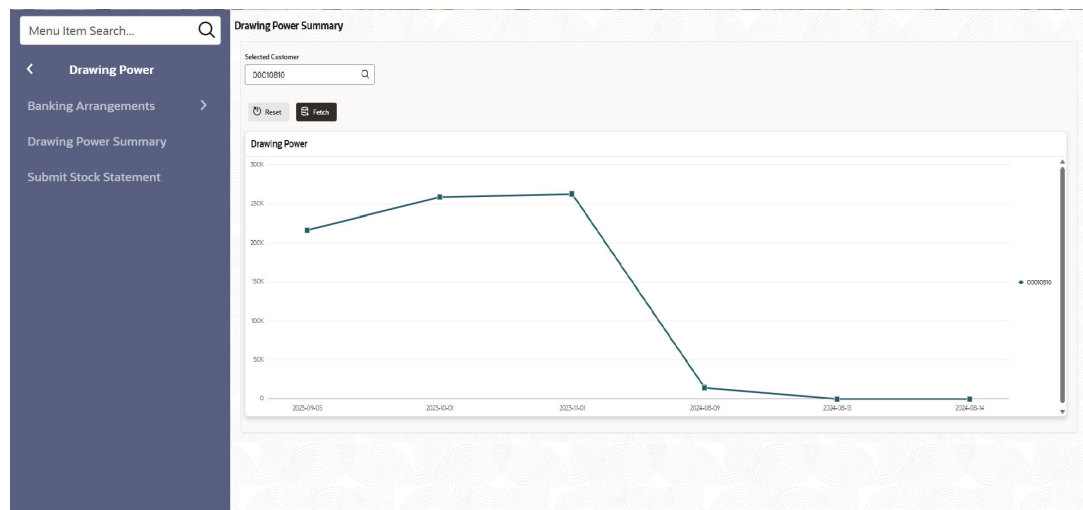

This topic describes about the Drawing Power Summary.

The Drawing Power Summary provides bank users with a comprehensive overview of a customer's facilities that are based on drawing power. Through this summary page, users can retrieve customer details at any time and analyze how the drawing power for each facility has varied over a specified period. This visibility enables effective monitoring of each facility, ensuring that drawing power calculations remain appropriate for the customer's financial profile. Additionally, the summary helps users determine if any adjustments to the facility structure are required to better align with the customer's needs or risk profile.

- On **Home screen**, click **Drawing Power**. Under Drawing Power, click **Drawing Power Summary**.

## Submit Stock Statement

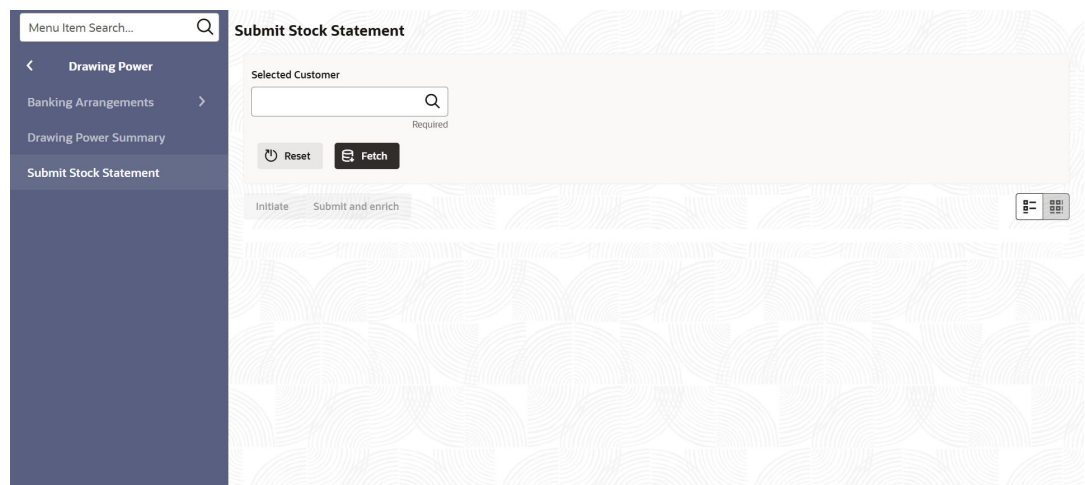

This topic describes the systematic instructions to Submit Stock Statement.

The Submit Stock Statement process enables bankers to periodically upload stock statements or other relevant documents to update the drawing power for customer facilities. Through this process, users can review historical drawing power values and submit new documents in the prescribed format, upon which the system will automatically compute and update the drawing power. The system provides a fast, transparent experience by displaying details of the calculation, including the variables included and excluded, the applied margins, and the underlying methodology. After recalculating the drawing power, the revised collateral values are also presented, and both facility and collateral details are seamlessly forwarded to the back-office system for further processing. This streamlined approach ensures accurate, timely updates and enhances operational efficiency in managing customer facilities.

1. On **Home screen**, click **Drawing Power**. Under Drawing Power, click **Submit Stock Statement**.
