Fungible Rules Maintenance is maintained as a separate data segment for each process flow. Rules are defined using key attributes to determine eligibility for fungibility.

Rules are maintained against a selected customer from the Customer LOV. The Customer LOV displays the party selected in the breadcrumb, along with its joint parties and allowed customers. Users can select a customer from the LOV and define fungible rules accordingly.

Key Attributes for Rule Maintenance: Fungibility rules are configured based on the following key attributes

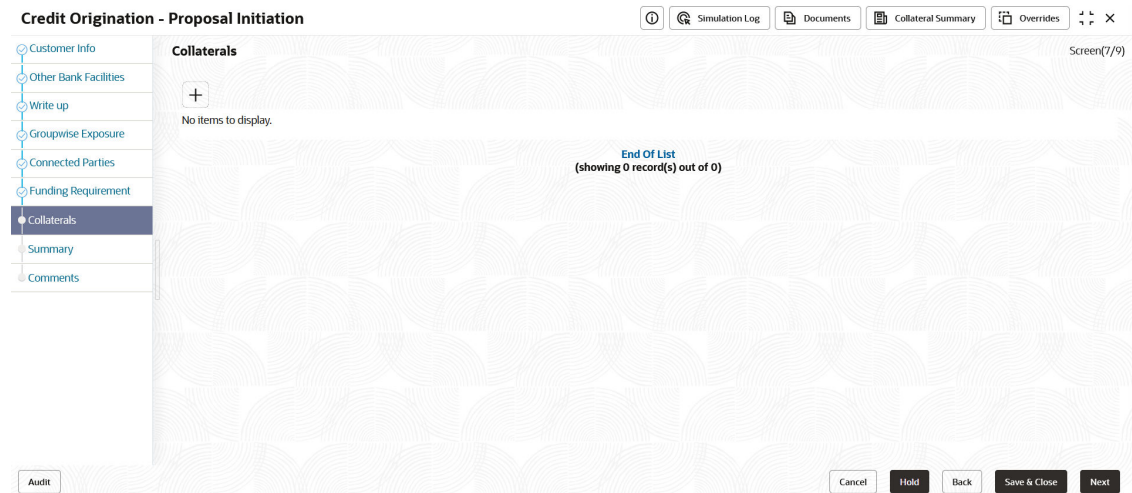

- Revolving to Non-revolving
- Revolving to Intra-day revolving
- Non-revolving to Revolving
- Non-revolving to Intra-day revolving
- Intra-day revolving to Revolving
- Intra-day revolving to Non-revolving
- Funded to Non-funded
- Non-funded to Funded
- Comitted to Non-committed
- Non-committed to Comitted
- Secured to Unsecured
- Unsecured to Secured
- Cross Category Allowed

When the configured conditions are satisfied, the respective line becomes eligible to transfer the fungible amount during the utilization process in Enterprise Limits and Collateral Management.

Proposal Review

This is a **Checker** stage in the work flow. In this stage, the senior member of the credit team reviews the application and verifies if it is as per the banks policies. The user will have the option to send the application back to the previous stages in case any additional information is required or if the proposal needs any modification. If all the conditions are satisfied, the proposal is sent to the approving authority for approval.

The following table provides high level overview about the **Proposal Review** stage.

Proposal review process is similar to the proposal structuring process. Refer **Proposal Structuring** chapter for step-by-step instructions on reviewing the proposal.

9

Proposal Approval

In this stage, members of the approving authority team review the application in its entirety, evaluates the recommendations given by the business and credit teams, and then finally makes a judgment on the proposal. The approving authority may refer the proposal back to the previous stages for any modification or reject the proposal. If all the conditions are satisfied, the proposal is approved.

Proposal Handoff

- [Handoff to Back Office System](#)
- [Handoff - Manual Retry](#)

13.1 Handoff to Back Office System

The proposal is automatically handed off to the back office system for creation of party as well as liability, facility, collateral and covenants, if the outcome of the previous stage is Proceed. If the automatic handoff fails, the proposal is sent to the **Handoff - Manual Retry** stage.

Refer [Handoff - Manual Retry](#) section for information on the manual retry stage.

13.2 Handoff - Manual Retry

To manually Handoff the proposal to the Back Office System, perform the following steps:

1. In **OBCFPM**, navigate to **Tasks > Free Tasks**.

The **Free Tasks** page is displayed.

Document Upload and Checklist

This topic provides systematic instructions about the Document Upload and Checklist stage in the Simplified Credit Amendment Process.

In **Oracle Banking Credit Facilities Process Management**, supporting documents such as financial statements and collateral documents can be uploaded in any stage of credit proposal process. Supporting documents help the senior officers in bank to accurately evaluate the credit worthiness of the party and approve the proposal. Documents added for the proposal can be removed whenever the document becomes invalid.

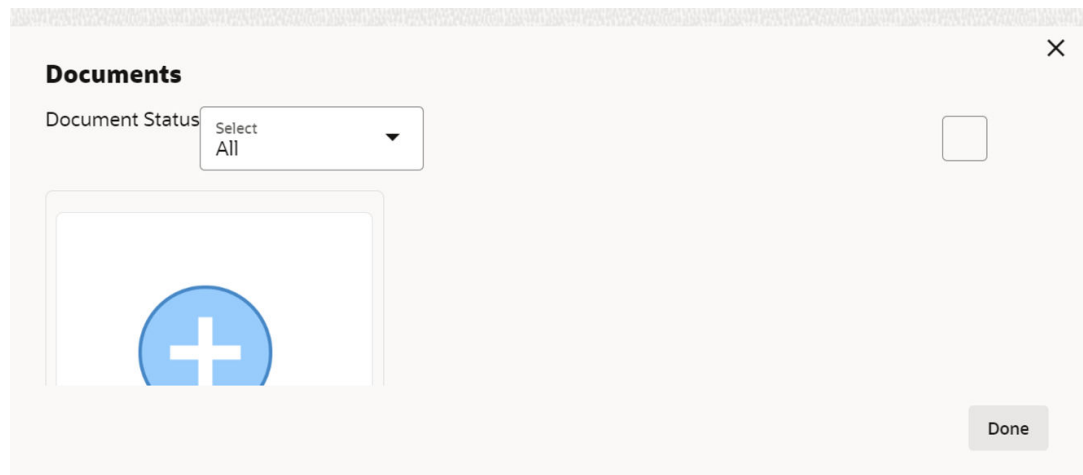

1. Click **Documents** Icon at the top right corner of any page.

Figure 14-1 Documents

The **Documents** window is displayed.

Figure 14-2 Documents

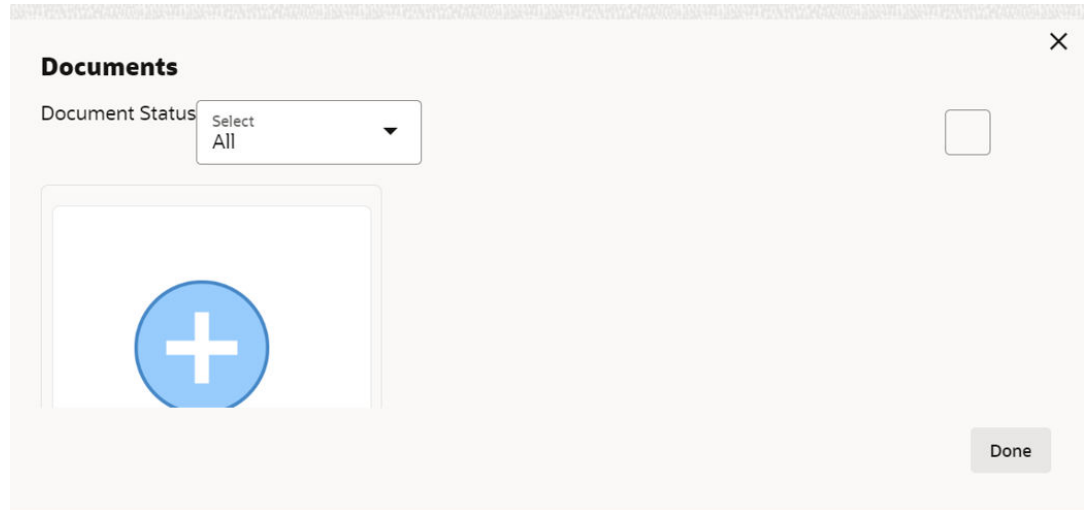

If the document list is configured in **Business Process Maintenance**, the same appears in the above window. You can also click the **Add** icon to upload other documents.

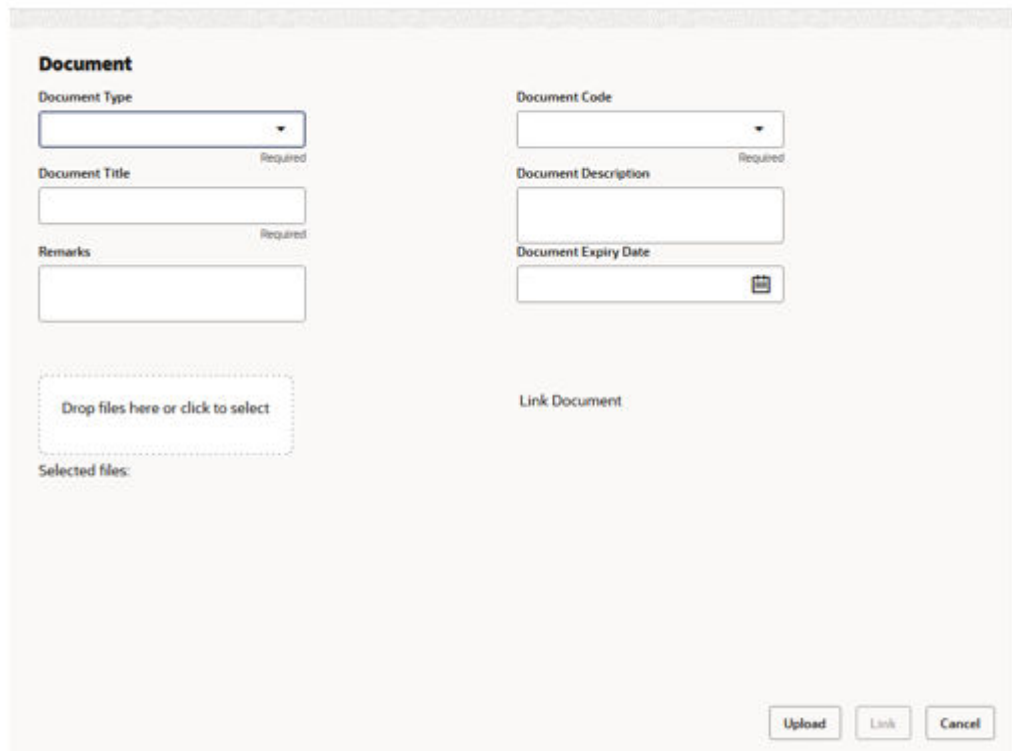

In case the mandatory document is not uploaded, the system prompts an alert. You need to upload the necessary documents and proceed further.

2. To change the table view to the list view, click the list icon at the top right corner. The **Documents** window appears as shown below.

The **Documents** window is displayed.

3. Click **Add** icon. The **Document Details** window is displayed.

Figure 14-4 Document WindowThe screenshot shows a "Document" window with several input fields. On the left side, there is a "Document Type" dropdown menu, a "Document Title" text box (marked "Required"), a "Remarks" text box, and a "Drop files here or click to select" area. Below this area is a "Selected files:" label. On the right side, there is a "Document Code" dropdown menu (marked "Required"), a "Document Description" text box, and a "Document Expiry Date" date picker. Below these fields is a "Link Document" label. At the bottom right of the window are three buttons: "Upload", "Link", and "Cancel".

For more information on the fields, refer to the fields description table below.

Table 14-1 Document Details

Fields	Description
Document Type	<p>Select the document to be uploaded. The options listed in this field depend on the domain being used. For example, if a finance is being processed, then finance-related options will appear. Similarly, if an application form is being processed, then onboarding-process-related options will appear.</p> <p>Note: This is a mandatory field. The system validates the value selected in this field, against the value selected in Document Type, to ensure that only the permissible value has been sent in the payload. In other words, user will not be allowed to enter their own values in this field. User can only select from the available options.</p>
Document Code	<p>Select the required document-specific code, which identifies the document. The values listed in this field, depend on the value selected in the Document Type field. For example, if shipping-related documents are being uploaded, then the code could be a delivery note, or a warehouse bill. Or, if application/onboarding-related documents are being uploaded, then the code could be identity proof, or the application-form itself.</p> <p>Note: This is a mandatory field. The system validates the value selected in this field, against the value selected in 'Document Type', to ensure that only the permissible value has been sent in the payload. In other words, user will not be allowed to enter their own values in this field. User can only select from the available options.</p>
Document Title	<p>Enter Document Title of the document.</p> <p>Note: A maximum of 22 characters are allowed. Only alpha-numeric characters and spaces are allowed. Special characters are not allowed.</p>
Document Description	<p>Enter a brief description about the document in the Document Description field.</p>
Remarks	<p>Enter Remarks, if any.</p> <p>Note: A maximum of 1000 characters are allowed. Only alpha-numeric characters and spaces are allowed.</p>
Document Expiry Date	<p>Click Calendar icon and select Document Expiry Date.</p> <p>Note: The document expiry date should be greater than current business date.</p>
Drop files here or click to select	<p>Either drag and drop the document being uploaded. Or click, to browse and select the document from the local machine. Once a document is dragged and dropped, or clicked and selected, the name of the document appears beside selected files.</p> <p>Note:To upload multiple supporting documents at the same time, drag and drop or click and select all the documents.</p>
Link Document	<p>Click this link, to view all the documents uploaded for the corporate customer. On clicking the link a Link Document window pops up, where all the uploaded documents can be viewed, and specific documents can also be searched.</p>

4. Click **Link Document** window.

Business Overrides

The system generates overrides to alert the user whenever there is a discrepancy in the requested, proposed and approved amounts based on configuration. The user authorized to approve the override must acquire the task and then view and accept the overrides in order to proceed further with the process.

Business Overrides can be viewed before or during submitting the task.

1. Click **Overrides** at the top right corner to view the business overrides after capturing the limit amounts.

Figure 15-1 Business Overrides

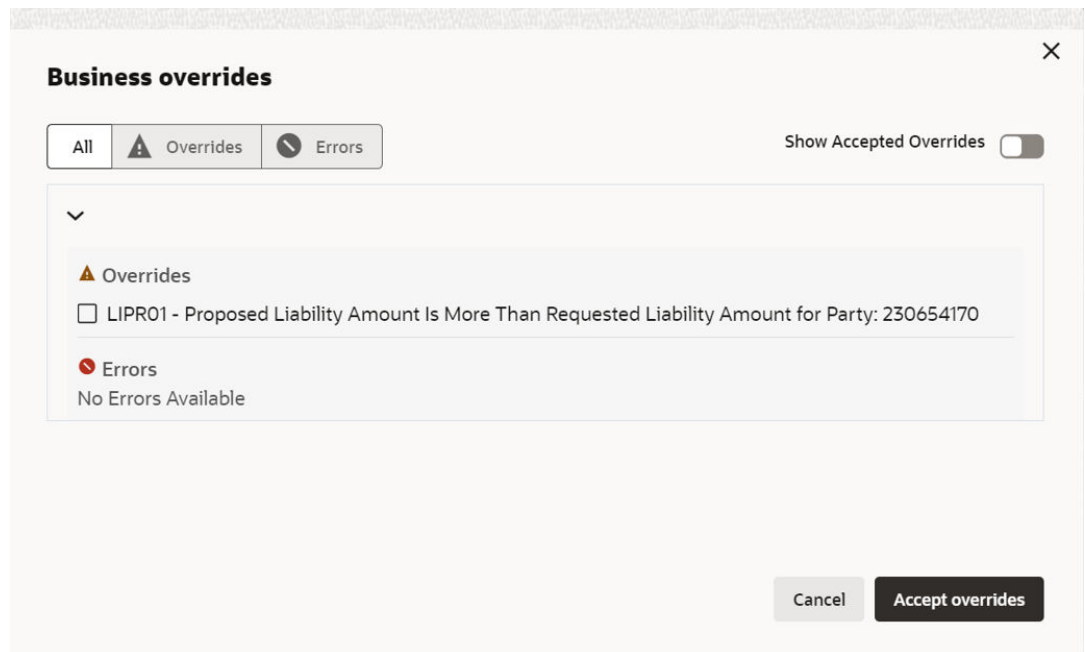

Figure 15-2 Business Overrides

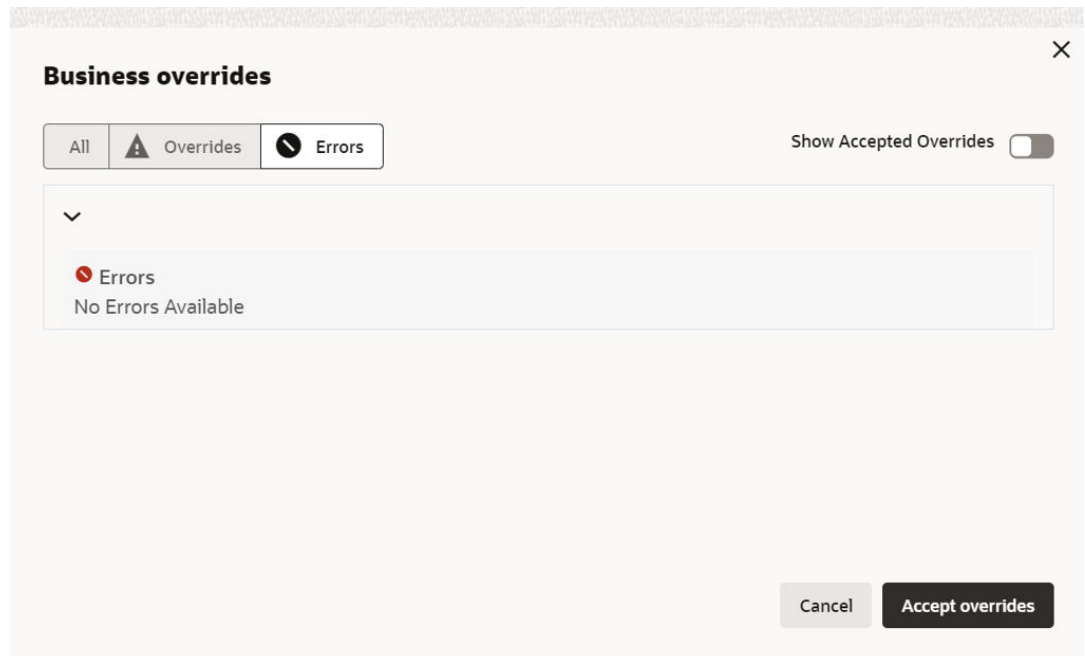

Figure 15-3 Business Overrides

2. Click **Submit** and navigate to the **Business** data segment to view the business overrides in the **Submit** window.

Figure 15-4 Submit

After the authorized user accepts the overrides, the override status is changed to **Accepted Overrides** as shown in the above screenshot.

If the business override is generated in the **Approval** stage, the other user authorization is not required. The approver can directly accept the overrides and proceed with the application.
