Purpose

This guide is designed to help acquaint you with the Oracle Banking application. This guide provides answers to specific features and procedures that the user need to be aware of the module to function successfully.

Before you Begin

Kindly refer to our **Getting Started User Guide** for common elements, including Symbols and Icons, Conventions Definitions, and so forth.

Pre-requisites

Specify User ID and Password, and login to Home screen.

Audience

This document is intended for the following audience:

- Customers
- Partners

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at <u>Critical Patches</u>, <u>Security Alerts and Bulletins</u>. All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by <u>Oracle Software Security Assurance</u>.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Related Resources

For more information on any related features, refer to the following documents:

- Oracle Banking Digital Experience Installation Manuals
- Oracle Banking Digital Experience Licensing Manuals

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.

Convention	Meaning
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

Acronyms and Abbreviations

The list of the acronyms and abbreviations used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description
OBDX	Oracle Banking Digital Experience

Basic Actions

Most of the screens contain icons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

Table 2 Basic Actions and Descriptions

Action	Description
Back	In case you missed to specify or need to modify the details in the previous segment, click Back to navigate to the previous segment.
Cancel	Click Cancel to cancel the operation input midway without saving any data. You will be alerted that the input data would be lost before confirming the cancellation.
Next	On completion of input of all parameters, click Next to navigate to the next segment.
Save	On completion of input of all parameters, click Save to save the details.
Save & Close	Click Save & Close to save the data captured. The saved data will be available in View Business Product with <i>In Progress</i> status. You can work on it later by picking it from the View Business Product .
Submit	On completing the input of all parameters, click Submit to proceed with executing the transaction.
Reset	Click Reset to clear the data entered.
Refresh	Click Refresh to update the transaction with the recently entered data.
Download	Click Download to download the records in PDF or XLS format.

Symbols and Icons

The following are the symbols/icons you are likely to find in this guide:

Table 3 Symbols and Icons

Symbols and Icons	Description
•	Add data segment

=	View records in tabular format for better visual representation.

Post-requisites

After finishing all the requirements, please log out from the **Home** screen.

Wealth Management

This topic describes the information about Wealth Management.

Wealth Management or Investment Management is an important offering in a bank's product bundle. Wealth management services offered by banks usually involve risk profiling a client and recommending investments that suit the risk profile. Investments could be in multiple instruments like Mutual Funds, Equity shares, Bonds, and so on. Performance of these investments are regularly tracked.

OBDX Wealth Management functionality supports the opening of an investment account, risk profiling, mutual fund order placement and tracking of their performance.

(i) Note

- 1. OBDX fully depends on integration with the mutual fund processor to provide data for all the functionality such as, fund information, order capture, order processing, funds and portfolio performance, and so on.
- In application Account search able drop-down will allow user to search the account number basis on the Account Number, Account Name, Account Currency or Branch Code.

Features Supported In the Application

The Wealth Management module of the application supports the following features:

- Open Investment Account
- Risk Profiling
- Purchase Mutual Funds
- Redeem Mutual Funds
- Switch Mutual Funds
- Order Status
- Investment Details
- Transaction Report
- Capital Gain Report
- Dividend Report
- Overview Widget

This topic describes the information about **Overview Widget** screen.

Start Investing

This topic describes the information about **Start Investing**. This module allows the user to start investments using their CASA balances.

This module includes following transactions:

- Open Investments Account
- Risk Profiling
- Open Investments Account
 This topic describes the systematic instruction to Open Investments Account screen.
- Risk Profiling
 This topic describes the systematic instruction to Risk Profiling screen.

3.1 Open Investments Account

This topic describes the systematic instruction to **Open Investments Account** screen.

Investment Accounts are the placeholders for mutual fund investments of a bank customer. They are internal to the bank and unlike current & savings accounts have no real significance outside the bank Opening of the investment account is a mandatory for user to start transacting in mutual funds in OBDX. Currently OBDX supports opening of investment accounts in **Single** holding mode only.

The investment account involves transaction of financial assets, mutual funds etc.

Following are the steps involved as part of opening of investment account:

- Personal details of the user
- Contact details of the user
- Specifying the nominations for mutual fund investments made through the investment account.
- Specifying the Foreign Account Tax Compliance Act (FATCA) related details
- Additional Details

Note

The maximum number of investment accounts a user can open is configurable. If user tries to open investment account beyond the maximum allowed limit he will get a message "You already have the maximum number of investment account allowed. Please visit our branch or talk to your relationship manager for further queries." on the Open Investment Account screen.

Pre-requisites

Transaction access is provided to the Retail User.

To open an investment account:

- Perform anyone of the following navigation to access the Open Investments Account screen.
 - From the Dashboard, click Toggle menu, and then click Menu, then click Financial Management, click Wealth Management. Under Wealth Management, and then click Start Investing, click Open Investments Account.
 - From the Dashboard, click on kebab menu of Portfolio Summary widget, and then click Open Another Investments Account.

The **Open Investments Account** screen appears.

Figure 3-1 Open Investments Account

 - Click Purchase Mutual Fund link to purchase a fund.
 - Click Wealth Dashboard to go to the Wealth Management Dashboard screen.

3.2 Risk Profiling

This topic describes the systematic instruction to **Risk Profiling** screen.

Banks/ investment advisers have a practice of doing a Risk Profile of the prospective investor. A risk profile is an evaluation of an investor's attitude and ability to take risks. Risk profiling involves the assessment of investor psychological level with the volatility of capital markets. A risk profile is important to determine which asset should be allocated to an investor's portfolio.

A risk profiling involves the series of questionnaire and based on the answers assign a risk profile to the investor. The tolerance to risk is reflected in the Asset Allocation that the bank recommends to the investor. Aggressive investors who have high tolerance to equity usually have a high percentage of Equity in their allocation, conservative investors tend to have more

of debt. The MF portfolio that the investor invests has to match his/ her asset allocation, which is based on risk profile.

The risk profile questionnaire, recommended asset allocation will be fetched from mutual fund processor. OBDX will display the questionnaire, capture the answers and pass them on to the mutual fund processor. Further, the computation of risk profile based on user provided answers will happen at mutual fund processors and will be communicated to OBDX which will display it to the user.

Pre-requisites

Transaction access is provided to the Retail User.

Features Supported In Application

The module supports the following features:

- Risk Profile Assessment
- · Edit Risk Profile

Navigation Path:

Perform the following navigation to access the Risk Profiling screen.

From the Dashboard, click **Toggle menu**, and then click **Menu**. From the **Menu**, then click **Financial Management**, and click **Wealth Management**. Under **Wealth Management**, and then click **Start Investing**, click **Risk Profiling**.

To calculate risk profile of a user:

 - Click Agree, if you agree with the risk profile.
 - Click **Disagree**, if you disagree with the risk profile. A pop up screen with options allowing the user to edit the risk profile or take the assessment again appears.
 - Click Cancel to cancel the transaction.
- 11. The Risk Profile Confirmation screen with success message appears.
 - Click **Ok** to complete the transaction.
 - Click Back to Wealth Overview to go to the Wealth Management Overview screen.
 - Click Go To Dashboard to go to the Dashboard screen.
- Edit Risk Profile

This topic describes the systematic instruction to **Edit Risk Profile** screen. This option allows the user to edit his risk profile, as evaluated by the application.

3.2.1 Edit Risk Profile

This topic describes the systematic instruction to **Edit Risk Profile** screen. This option allows the user to edit his risk profile, as evaluated by the application.

The risk profile user wants to choose as an alternate to the one assigned to him after answering risk profile questionnaire. Could be same as the one assigned or different as the user chooses.

To edit the risk profile:

Navigate to the above path.

The Risk Profile - Assessment screen appears.

2. Click Disagree.

A pop up screen with options allowing the user to edit the risk profile or take the assessment again appears.

Figure 3-16 Risk Profile

3. Select the Choose your risk profile type option.

The Edit Risk Profile screen appears.

Figure 3-17 Edit Risk Profile

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 3-11 Edit Risk Profile - Field Description

Field Name	Description
Select your risk profile	The option to select an alternate risk profile for the user, to the one
	assigned to him after answering risk profile questionnaire.

- From the **Select your risk profile** list, select your risk profile.
- 5. Perform anyone of the following actions:
 - Click Save.
 - Click Cancel to cancel the transaction.
 - Click **Back** to navigate back to the previous screen.

The success message of submitting the request appears.

6. Click **Ok** to complete the transaction.

Place Orders

This topic describes the information about **Place orders**. This option allows user to place orders related to their investments.

This module allows the investor/ retail user to place orders related to their investments. Investor can purchase mutual funds, redeem mutual funds, switch between two different schemes and can view the statuses of their orders.

This module includes following transactions:

- Purchase Mutual funds
- Redeem Mutual funds
- Switch Mutual funds
- Order Status
- Purchase Mutual Funds

This topic describes the information about **Purchase Mutual Funds**. User can purchase single or multiple mutual funds with this option.

Redeem Mutual Funds

This topic describes the information about **Redeem Mutual Funds**.

Switch Mutual Funds

This topic describes the information about **Switch Mutual Funds**. Switch Mutual Funds screen allows the user to switch out the funds either at one time, systematic order plan or Purchase + systematic order plan methods.

Order Status

This topic describes the information about **Order Status**. User can search and view mutual funds orders in various statuses with this option.

4.1 Purchase Mutual Funds

This topic describes the information about **Purchase Mutual Funds**. User can purchase single or multiple mutual funds with this option.

Mutual Funds (MFs) are investment instruments fund collects money from investors and invests the money on their behalf. It is one of the top investment choices for retail investors that allows the investors to view and manage the professionally managed portfolios of instruments like equity shares, bonds, insurance etc. Some mutual funds are also traded in stock exchanges - these are called Exchange Traded Funds (ETFs). Mutual Funds are managed by a fund manager. The investor share of investment is called as **Units** that represents the ownership of the investor in the scheme.

The investor make the purchase of Mutual fund units, or shares, based on the fund's current market value of the fund's investment portfolio which is termed as net asset value (NAV) per share/ NAVPS. A fund's NAV is derived by dividing the total value of the securities in the portfolio by the total amount of shares outstanding.

The investor (retail user) can purchase single or multiple mutual funds in one go and can place orders to be executed same day or at any future date. Further customer can place one time

lump sum order or a recurring order called Systematic Investment. The investor can buy mutual funds from their existing schemes as well as invest on new schemes. The OBDX allows the user (investor) to view the list of recommended funds and top purchase funds so that he can take a decision of buying the funds.

Pre-requisites

Transaction access is provided to the Retail User.

Features Supported In Application

The module supports the following features:

- Purchase Funds New
- Purchase Funds Existing

Navigation Path:

Perform the following navigation to access the Purchase Mutual Funds screen.

- From the Dashboard, click Toggle menu, and then click Menu. From the Menu, then click Financial Management, and click Wealth Management. Under Wealth Management, and then click Place Orders, click Purchase Mutual Funds.
- On the Dashboard, click Overview Widget, and then click Mutual Funds. From the Mutual Funds, click Investments Account kebab menu, and then click Purchase Mutual Funds.
- Access through kebab menu of the Place Orders transactions.

The Purchase Mutual Funds screen appears.

Purchase Funds - New

This topic describes the systematic instruction to **Purchase Funds - New** screen. This option allows user to place purchase orders either one time or Systematic Investment Plan (SIP) or Standing Instruction (SI) type .

Purchase Funds - Existing

This topic describes the information about **Purchase Funds - Existing** screen. User can place purchase orders either one time or Systematic Investment Plan (SIP) or Standing Instruction (SI) type with this option.

4.1.1 Purchase Funds - New

This topic describes the systematic instruction to **Purchase Funds - New** screen. This option allows user to place purchase orders either one time or Systematic Investment Plan (SIP) or Standing Instruction (SI) type .

This option allows the retail investor/ user to place purchase orders either one time or Systematic Investment Plan (SIP) or Standing Instruction (SI) type for buying one or more mutual fund schemes. In SIP the dates of investment and frequencies are pre-decided by the fund house therefore an SIP is a one-time instruction to the fund house to place recurring orders. SI on the other hand is a feature provided by the bank to mimic the SIP but with dates & frequency chosen by the investor. Here the order is not a one-time instruction/order but multiple orders placed one time by investor.

To purchase the new mutual funds:

Navigate to one of the above paths.

The **Purchase Mutual Funds** screen appears.

2. In the Search for new mutual fund to purchase or pick one of your existing funds field, select the New option.

Figure 4-1 Purchase Mutual Funds – New Funds

4.2 Redeem Mutual Funds

This topic describes the information about **Redeem Mutual Funds**.

Mutual Funds (MFs) can be redeemed or sold any time by the investors. Open ended funds usually can be sold at any point of time compared to closed ended funds that have a fixed investment period.

Customers can specify any of the following for redeeming the funds:

- Whether the redemption is for a specific number of units & if so the number of units to be redeemed (or)
- Whether the redemption is for all units currently held (the user can view the balance units held) (or)
- Whether the redemption is for a specific amount & if so the amount to be redeemed (or)
- Whether the order is for a systematic withdrawal plan.

Pre-requisites

Transaction access is provided to the Retail User.

Features Supported In Application

The module supports the following features:

- Search Funds to be Redeemed
- Search Funds to Redeem SWP

Navigation Path:

Perform one of the following navigation to access the Redeem Mutual Funds screen.

- From the Dashboard, click Toggle menu, and then click Menu. From the Menu, then click Financial Management, and click Wealth Management. Under Wealth Management, and then click Place Orders, click Redeem Mutual Funds.
- On the Dashboard, click Overview widget, click Mutual Funds, click Investments
 Account kebab menu, then click Redeem Mutual Funds.
- Access through kebab menu of the Place Orders transactions.

The **Redeem Mutual Funds** screen appears.

<u>Search Funds to Redeem</u>
 This topic describes the systematic instruction to **Search Funds to Redeem**. The user can search the mutual funds from the specific account to redeem with this option..

4.2.1 Search Funds to Redeem

This topic describes the systematic instruction to **Search Funds to Redeem**. The user can search the mutual funds from the specific account to redeem with this option..

This option allows the retail investor/ user to search the mutual funds from the specific account to redeem. The user can search the mutual fund scheme name by selecting the search criteria like investment account number, name of the fund house, or scheme name.

To search the mutual funds:

Navigate to one of the above paths.

The **Redeem Mutual Funds** screen appears.

Figure 4-6 Select Fund - Search Funds to Redeem

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 4-6 Select Fund - Search Funds to Redeem - Field Description

Field Name	Description
Fund Details	Information specified in below fields are related to fund details.
Investment Account	The account number from which the user wants to select the fund for redemption.
Fund House	The Fund house from which user intends to redeem the fund for current redemption order.
Scheme Name	Name of the fund/ scheme which user intends to redeem the fund for current redemption order.
Search Results	Select Funds to Redeem .
Scheme Name	Name of the scheme matching search criteria.
Folio	Folio number of the scheme currently held.
Avg. Purchase NAV	The expected return in terms of percent that a investor will get on selling the particular fund (recommended / top purchased) over a period of time.
Total Units	Total units currently held in the folio.
Redeemable Units	Number of units that can be redeemed currently.
Current Market Value	Current Market Value of the entire holdings in the folio.
Action	The available action buttons against the scheme name are displayed. The action button can be:
	 Redeem- Link to initiate one time redemption SWP- Link to initiate systematic withdrawal plan

- d. If you select SWP option, go to step e-ii below.
- **e.** In the **When** field, select the appropriate date for order execution.
 - Select the future date from the **Purchase Date** list, if you select **Later** option.

Figure 4-8 Order Details - SWP

The fields which are marked as Required are mandatory.

Table 4-8 Order Details - SWP - Field Description

Field Name	Description
Scheme Name	Name of the scheme selected for current redemption order.
Scheme Rating	Rating of the scheme selected for current redemption order.
Latest Price	The latest NAV/ Price per unit the scheme chosen for current redemption order. The value below the Latest Price field is the Amount change over previous value of the NAV/ Price per unit the scheme chosen for current redemption order and the percentage change over previous value of the NAV/Price per unit the scheme chosen for current redemption order.
Fund House	The Fund house to which the fund house in context belongs.
Scheme Suitability	Displays whether the scheme is suitable for user to invest in provided by MF processor. The system displays Yes if it is suitable and No , if the scheme is not suitable.
No. of units Held	Number of units held in the current redemption order.
Market Value	Current market value of the entire holdings.
Redeem By	Whether to redeem by Units/ All Units/ Amount/ SWP. The options are: • Units - On selecting this option, user has to specify the number of units to be redeemed in the current redemption order • All Units - On selecting this option, user can redeem all the units in the current redemption order • Amount - On selecting this option, user has to specify the amount to be redeemed in the current redemption order • SWP- On selecting this option, user has to set the systematic withdrawal plan for the redemption
SWP Amount	The order amount per installment of the current SWP order.
Min. Amount	The minimum SWP order amount per installment as set by the fund house for the scheme.
Frequency	The SWP frequencies specified by fund house. The options are: Daily Weekly Monthly
Start Date	The SWP start date.
No. of Redemption	Number of SWP installments for redemption.
End Date	The end date of SWP based on start date, frequency & installment number.

- i. In the **Redeem By** field, select the **SWP** option.
 - In the **Scheme Details** section, click the **View More** link, if you want to view more details of the scheme selected for current redemption order.
- ii. Enter the installment amount to be redeemed in the SWP Amount field.
- iii. From the **Frequency** list, select the SWP frequency.
- iv. From the Start Date list, select the appropriate SWP start date.
- v. From the **No. of Redemption** list, select the appropriate option.

- vi. In the **Dividend** field, select the appropriate dividend type.
- vii. In the Transaction section, enter the order amount of the purchase order in the Order Amount field.
- viii. In the Start Date field, select the appropriate start date for SIP/SI.
- ix. From the **Frequency** list, select the SIP/ SI frequency.
- x. From the **Installments** list, select the SIP/ SI installments.
- xi. In the End Date field, select the appropriate end date for SIP/SI.
- 7. Click Save.

The **Redeem orders placed** section displaying No. of orders placed, Total Order Amount, Folio Number, Scheme Name, Order Amount appears.

Click icon to delete the selected fund.

- Select the I agree to the Terms and Conditions check box to continue to purchase the funds.
 - Click the Terms and Conditions link to view the terms and conditions.
 - Click the Redeem Another Fund link, if you want to redeem another fund.
 - The Redeem Fund Select Fund screen appears.
- 9. Perform anyone of the following actions:
 - Click Submit.
 - Click Cancel to cancel the transaction.
 - Click Back to navigate back to the previous screen.
 - Click Back to Wealth Overview to navigate to the Wealth Management Overview screen.
- 10. The **Review** screen appears. Verify the details, and click **Confirm**.
 - Click Cancel to cancel the transaction.
 - Click Back to navigate back to the previous screen.
 - Click Back to Wealth Overview to navigate to the Wealth Management Overview screen.

The **Verification** screen appears if the transaction is configured for Two Factor Authentication. The user has to pass the 2factor authentication, before he can proceed. 2 factor authentication (OTP/ Security question/ Soft Token) will be as per the setup done by system administrator.

The success message along with the host reference number and status of the order appears.

- 11. Perform anyone of the following actions:
 - Click Redeem Fund to redeem another fund.
 - Click Back to Wealth Overview to navigate to the Wealth Management Overview screen.
 - Click Switch Fund to go to the Switch Mutual Funds screen.

Click **Go to Dashboard** link to navigate to the dashboard.

4.3 Switch Mutual Funds

This topic describes the information about **Switch Mutual Funds**. Switch Mutual Funds screen allows the user to switch out the funds either at one time, systematic order plan or Purchase + systematic order plan methods.

Switching of funds means moving the money from an investment scheme to another investment scheme. Investor can switch between two different schemes i.e. money is taken out of fund A (a sell order) and invested in fund B (a purchase order). This way a switch, order results in two transactions a purchase & a sale. Fund A & Fund B in the above example could be from the same fund house or from different fund houses.

Pre-requisites

Transaction access is provided to the Retail User.

Features Supported In Application

The module supports the following features:

- Switch Funds One Time
- Switch Funds STP
- Switch Funds PSTP

Navigation Path:

Perform anyone of the following navigation to access the **Switch Mutual Funds**.

- From the Dashboard, click Toggle menu, and then click Menu. From the Menu, then click Financial Management, and click Wealth Management. Under Wealth Management, and then click Switch Mutual Funds.
- On the Dashboard, click Overview Widget, and then click Mutual Funds. From the Mutual Funds, click Investments Account kebab menu, then click Switch Mutual Funds.
- Access through kebab menu of the Place Orders transactions.

The Switch Mutual Funds screen appears.

- Switch Funds One Time
 - This topic describes the systematic instruction to **Switch Funds One Time** screen. This option allows user to place the one time lump sum switch order.
- Switch Funds STP (Systematic Transfer Plan)
 This topic describes the systematic instruction to Switch Funds STP (Systematic Transfer Plan) screen.
- Switch Funds PSTP (Purchase Systematic Transfer Plan)
 This topic describes the systematic instruction to Switch Funds PSTP (Purchase Systematic Transfer Plan) screen.

4.3.1 Switch Funds - One Time

This topic describes the systematic instruction to **Switch Funds - One Time** screen. This option allows user to place the one time lump sum switch order.

This option allows the retail investor/ user to place the one time lump sum switch order. The user can specify whether the order is for Now i.e. same business day or for later that is a future date.  - Click Switch Another Fund to switch another fund.
 - Click Redeem Fund to redeem another fund.
 - Click Back to Wealth Overview to navigate to the Wealth Management Overview screen.

4.3.2 Switch Funds - STP (Systematic Transfer Plan)

This topic describes the systematic instruction to **Switch Funds - STP (Systematic Transfer Plan)** screen.

This option allows the retail investor/ user to place a systematic transfer plan (STP) for the switch order. In Systematic Transfer Plan, investor places a onetime instruction to switch funds - a specified some of money is switched from source scheme to destination scheme at a set interval. Typically in financial plans money in debt funds is switched into an equity fund regularly to mimic an SIP.

In STP the user needs to specify the source and destination schemes belonging to the same fund house, source and destination folios (can ask for a new folio for destination scheme), start date of switches, no. of installments & frequency, end date of switches to be derived by the system and displayed and Amount/ units to be switched per installment.

To switch the mutual funds:

1. Navigate to one of the above paths.

The Switch Mutual Funds screen appears.

 - Click the View Current NAV link to view the latest NAV/ price per unit of the selected scheme.
- 9. From the **Folio** list, select the appropriate option.
- In the Set Instructions section, select the appropriate frequency from the Frequency list field.
- **11.** In the **Switch By** field, select the appropriate switch option.
 - a. If you select **Units** option, enter the number of units to be switched in the **Units** field.
 - b. If you select Amount option, enter the amount to be switched in the Amount field.
- 12. In the Start Date field, select the appropriate start date for STP.
- 13. From the Installments list, select the STP installments.
- 14. Repeat steps 10 to 14 of Switch Out Funds One Time section.

4.3.3 Switch Funds – PSTP (Purchase – Systematic Transfer Plan)

This topic describes the systematic instruction to **Switch Funds – PSTP (Purchase – Systematic Transfer Plan)** screen.

This option allows the retail investor/ user to place a purchase - systematic transfer plan for the switch order. In Purchase- Systematic Transfer Plan or PSTP, investor purchases a debt (usually) fund and also gives instructions switch the debt fund purchased into an equity fund. PSTPs are variations offered by banks/ investment advisers and hence fund houses treat them as two different orders – Purchase order and a switch order.

In PSTP the user can place a purchase order for a fund and simultaneously place a switch order with the fund being purchased as the source fund and a different fund being the destination fund.

To switch the mutual funds:

Navigate to one of the above paths.

The **Switch Mutual Funds** screen appears.

Figure 4-13 Switch Funds - PSTP

Note

The fields which are marked as Required are mandatory.

Table 4-13 Switch Funds - PSTP - Field Description

Field Name	Description
Fund Details	Information specified in below fields are related to fund details.
Investment Account	The account number to which the current switch order belongs.

Transactions Report

This topic describes the systematic instruction to **Transaction Report** screen. A summary of the mutual fund transactions is provide with this screen.

6.1 Capital Gains Report

This topic describes the systematic instruction to Capital Gains Report screen.

The profits or losses that an investor gets when he/she sells Mutual Fund units are called **Capital Gains/ Losses**. There are two types of capital gains – short term & long term. For example, In India gains /losses any equity investment sold within 12 months of purchase are treated as short-term gains/ losses. If the gap between purchase and sale is more than 12 months it's called Long term capital gains/ losses. Short term gains tax rates tend to be higher compared to long-term capital gains taxes.

The retail user/ investor holding the mutual funds can download the Capital Gain report for the mutual funds that the user had transacted in for the current and past financial years.

The user can search the transactions and download the report.

Pre-Requisites
