

Oracle® Banking Digital Experience Setup Reference Guide

Release 25.1.1.0.0
G42993-02
October 2025

ORACLE®

Copyright © 2015, 2025, Oracle and/or its affiliates.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

- [Post-requisites](#)

Purpose

This guide is designed to help acquaint you with the Oracle Banking application. This guide provides answers to specific features and procedures that the user need to be aware of the module to function successfully.

Before you Begin

Kindly refer to our **Getting Started User Guide** for common elements, including Symbols and Icons, Conventions Definitions, and so forth.

Pre-requisites

Specify **User ID** and **Password**, and login to **Home** screen.

Audience

This document is intended for the following audience:

- Customers
- Partners

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Related Resources

For more information on any related features, refer to the following documents:

- Oracle Banking Digital Experience Installation Manuals
- Oracle Banking Digital Experience Licensing Manuals

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.

Convention	Meaning
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

Acronyms and Abbreviations

The list of the acronyms and abbreviations used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description
OBDX	Oracle Banking Digital Experience

Post-requisites

After finishing all the requirements, please log out from the **Home** screen.

1

Some currency symbols not displaying properly

- [Symptoms](#)
This topic describes the systematic instruction to **Symptoms** option.
- [Cause](#)
This topic provides information on **Cause**.
- [Solution Prerequisites](#)
This topic provides information on **Solution Prerequisites**.
- [Solution](#)
This topic provides information on **Solution**.

1.1 Symptoms

This topic describes the systematic instruction to **Symptoms** option.

Downloaded PDF contains characters such as “?” or “□” or some other such unreadable character

Account Name / No.	Account Type	Holding Pattern	Net Balance
xxxxxxxxxxxx0116	Current	Single	■496,427.82
xxxxxxxxxxxx0116	Current	Single	€ 19.021,04
xxxxxxxxxxxx0012	Current	Single	■2,500,188.67

1.2 Cause

This topic provides information on **Cause**.

The currency codes mandate use of custom fonts. Due to lack of glyphs in the fonts used in PDF, the symbols are replaced by holder characters.

1.3 Solution Prerequisites

This topic provides information on **Solution Prerequisites**.

1. Minimum patch-set required is 19.1.0.1.0
2. Ensure that the content publisher for application/pdf media type is set to com.ofss.digx.appx.writer.content.PDFContentPublisher. To confirm, check the PUBLISHER_CLASS_NAME column in the table DIGX_FW_CONFIG_CONTENT_PUB_B where the column MEDIA_TYPE has the value application/pdf.

⚙ MEDIA_TYPE	⚙ PUBLISHER_CLASS_NAME	⚙ CREATED_BY	⚙ LAST_UPDATED_BY	⚙ CREATION_DATE	⚙ LAST_UPDATED
1 application/pdf	com.ofss.digx.appx.writer.content.PDFContentPublisher	obdxuser	obdxuser	17-04-19 01:05:40.000000000 PM	17-04-19 01:05:40.

1.4 Solution

This topic provides information on **Solution**.

1. Download the appropriate fonts that support the currencies you need to support. Ensure that you have acquired appropriate licenses for the use of the fonts.
2. Check if the file fop.xconf exists at the location <OBDX_INSTALL_DIR>/config. If the file exists, continue to step 4 else continue to step 3.
3. Create a new file with the name fop.xconf.
4. Paste the below content into the fop.xconf file.

```
<fop version="1.0">
  <!-- Strict user configuration -->
  <strict-configuration>true</strict-configuration>

  <!-- Strict FO validation -->
  <strict-validation>false</strict-validation>

  <!-- Base URL for resolving relative URLs -->
  <base>./</base>

  <!-- Font Base URL for resolving relative font URLs -->
  <font-base>./fonts</font-base>

  <!-- Source resolution in dpi (dots/pixels per inch) for determining the size of pixels in SVG
  and bitmap images, default: 72dpi -->
  <source-resolution>72</source-resolution>
  <!-- Target resolution in dpi (dots/pixels per inch) for specifying the target resolution for
  generated bitmaps, default: 72dpi -->
  <target-resolution>72</target-resolution>

  <!-- default page-height and page-width, in case value is specified as auto -->
  <default-page-settings height="29.7cm" width="21cm"/>

  <renderers>
    <renderer mime="application/pdf">
      <fonts>
        <font kerning="yes" embed-url="<Regular Font Filename>.ttf">
          <font-triplet name="<Font Name>" style="normal" weight="normal"/>
        </font>
        <font kerning="yes" embed-url="<Bold Font Filename>.ttf">
          <font-triplet name="<Font Name>" style="normal" weight="bold"/>
        </font>
        <font kerning="yes" embed-url="<Italic Font Filename>.ttf">
          <font-triplet name="<Font Name>" style="italic" weight="normal"/>
        </font>
        <font kerning="yes" embed-url="<Bold Italic Font Filename>.ttf">
          <font-triplet name="<Font Name>" style="italic" weight="bold"/>
        </font>
      </font>
    </renderer>
  </renderers>
</fop>
```

5. Replace the and <* Font Filename> place holders with the correct font name and file names of the fonts respectively.
6. Modify all XSLs available in subdirectories of "<OBDX_INSTALL_DIR>/config/resources" to replace font-family="Helvetica" with font-family="".
7. Restart all managed servers in the cluster and retest.

Note

Ensure that you replace and <* Font Filename> appropriately in the fop.xconf and all XSL files.

2

Pre-generated Statements not showing characters correctly

- [Symptoms](#)
This topic provides information on **Symptoms**.
- [Cause](#)
This topic provides information on **Cause**.
- [Solution Prerequisites](#)
This topic provides information on **Solution Prerequisites**.
- [Solution](#)
This topic provides information on **Solution**.

2.1 Symptoms

This topic provides information on **Symptoms**.

Downloaded PDF contains characters such as “?” or “α” or some other such unreadable character

DIST 1	?????	?????	????	???
ACC NO	?????	????? ???	?????	????

2.2 Cause

This topic provides information on **Cause**.

The PDF being downloaded contains characters that cannot be represented using the standard “Courier” font family.

2.3 Solution Prerequisites

This topic provides information on **Solution Prerequisites**.

1. Minimum patch-set required is 19.1.0.1.0
2. Ensure that the content publisher for application/pdf media type is set to com.ofss.digx.appx.writer.content.PDFContentPublisher. To confirm, check the PUBLISHER_CLASS_NAME column in the table DIGX_FW_CONFIG_CONTENT_PUB_B where the column MEDIA_TYPE has the value application/pdf.

MEDIA_TYPE	PUBLISHER_CLASS_NAME	CREATED_BY	LAST_UPDATED_BY	CREATION_DATE	LAST_UPDATED
1 application/pdf	com.ofss.digx.appx.writer.content.PDFContentPublisher	obdxuser	obdxuser	17-04-19 01:05:40.000000000	PM 17-04-19 01:05:40

2.4 Solution

This topic provides information on **Solution**.

1. Download the appropriate fonts that support the currencies you need to support. Ensure that you have acquired appropriate licenses for the use of the fonts.
2. Check if the file fop.xconf exists at the location <OBDX_INSTALL_DIR>/config. If the file exists, continue to step 4 else continue to step 3.
3. Create a new file with the name fop.xconf.
4. Paste the below content into the fop.xconf file.

```
<fop version="1.0">
  <!-- Strict user configuration -->
  <strict-configuration>true</strict-configuration>

  <!-- Strict FO validation -->
  <strict-validation>false</strict-validation>

  <!-- Base URL for resolving relative URLs -->
  <base>./</base>

  <!-- Font Base URL for resolving relative font URLs -->
  <font-base>./fonts</font-base>

  <!-- Source resolution in dpi (dots/pixels per inch) for determining the size of pixels in SVG
  and bitmap images, default: 72dpi -->
  <source-resolution>72</source-resolution>
  <!-- Target resolution in dpi (dots/pixels per inch) for specifying the target resolution for
  generated bitmaps, default: 72dpi -->
  <target-resolution>72</target-resolution>

  <!-- default page-height and page-width, in case value is specified as auto -->
  <default-page-settings height="29.7cm" width="21cm"/>

  <renderers>
    <renderer mime="application/pdf">
      <font>
        <font kerning="yes" embed-url="<Regular Font Filename>.ttf">
          <font-triplet name="<Font Name>" style="normal" weight="normal"/>
        </font>
        <font kerning="yes" embed-url="<Bold Font Filename>.ttf">
          <font-triplet name="<Font Name>" style="normal" weight="bold"/>
        </font>
        <font kerning="yes" embed-url="<Italic Font Filename>.ttf">
          <font-triplet name="<Font Name>" style="italic" weight="normal"/>
        </font>
        <font kerning="yes" embed-url="<Bold Italic Font Filename>.ttf">
          <font-triplet name="<Font Name>" style="italic" weight="bold"/>
        </font>
      </font>
    </renderer>
  </renderers>
</fop>
```

5. Replace the and <* Font Filename> place holders with the correct font name and file names of the fonts respectively.
6. Modify all XSLs available in subdirectories of "<OBDX_INSTALL_DIR>/config/resources" to replace font-family="Courier" with font-family=""
7. Restart all managed servers in the cluster and retest.

Note

Courier font family is used primarily for its monospace characteristics. You might want to replace the font with another monospace font family.
