Purpose

This guide is designed to help acquaint you with the Oracle Banking application. This guide provides answers to specific features and procedures that the user need to be aware of the module to function successfully.

Audience

This document is intended for the following audience:

- Customers
- Partners

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Related Resources

For more information on any related features, refer to the following documents:

- Oracle Banking Digital Experience Installation Manuals
- Oracle Banking Digital Experience Licensing Manuals

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

Acronyms and Abbreviations

The list of the acronyms and abbreviations used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description
OBDX	Oracle Banking Digital Experience

Basic Actions

Most of the screens contain icons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

Table 2 Basic Actions and Descriptions

Action	Description
Back	In case you missed to specify or need to modify the details in the previous segment, click Back to navigate to the previous segment.
Cancel	Click Cancel to cancel the operation input midway without saving any data. You will be alerted that the input data would be lost before confirming the cancellation.
Next	On completion of input of all parameters, click Next to navigate to the next segment.
Save	On completion of input of all parameters, click Save to save the details.
Save & Close	Click Save & Close to save the data captured. The saved data will be available in View Business Product with <i>In Progress</i> status. You can work on it later by picking it from the View Business Product .
Submit	On completing the input of all parameters, click Submit to proceed with executing the transaction.
Reset	Click Reset to clear the data entered.
Refresh	Click Refresh to update the transaction with the recently entered data.
Download	Click Download to download the records in PDF or XLS format.

Symbols and Icons

The following are the symbols/icons you are likely to find in this guide:

	View options
	View records in a card format for better visual representation.
	View records in tabular format for better visual representation.

1

Payments Overview

This topic details the functionality of the payments module, which enables users to transfer funds from their own accounts to other accounts, including those held within the same bank, at other domestic banks, or at international banks.

The digital banking streamlines fund transfers, allowing users to easily move money between accounts or pay to a person or business. The following sections in this document detail all the features offered to users through the payment's module of the digital banking application.

Note

Payment Screens are not supported in the landscape mode of mobile applications and mobile browser.

Features Supported in the Application

Payment features supported in application includes:

- Favourite Transactions
- Payee Setup
- One Time and Recurring Payments
- Multiple Payments
- Demand Draft Issuance
- Inquiries
- Make Payments and Payee screens as per region requirements
- [Payments Regionalization](#)
This topic provides an overview of regionalization within the Payments module.
- [My Payments \(Dashboard\)](#)
This topic describes the **My Payments** dashboard, which provides a user-friendly interface and valuable features for the effective organization and monitoring of payment activities.

1.1 Payments Regionalization

This topic provides an overview of regionalization within the Payments module.

Payment's regionalization enables the system to align with the specific requirements, standards, and regulatory frameworks of different regions. For instance, in the context of domestic payments, regionalization allows configuration of fields such as supported clearing networks (e.g., Faster Payments in the UK or ACH in the US), account types, permitted currencies, charge structures, and processing rules, all of which can vary by region.

By enabling such region-specific configurations, implementation partners can ensure that payment journeys—whether domestic or otherwise—are compliant with local regulations, aligned with banking standards and tailored to customer expectations. This approach improves the accuracy, reliability, and flexibility of payment processing across geographies.

Implementation partners have the flexibility to customize domestic payee and payment fields to meet the specific requirements of each region.

Below are the regions for which configurations are provided out of box:

- India
- SEPA region
- US
- UK

Networks for the above supported regions:

Table 1-1 Networks Supported

Region	Networks
India	<ul style="list-style-type: none"> • RTGS • NEFT • IMPS
SEPA region	<ul style="list-style-type: none"> • SEPA Credit Transfer • SEPA Instant Credit
US	<ul style="list-style-type: none"> • ACH Transfer • Faster ACH Transfer • Domestic Wire Transfer
UK	<ul style="list-style-type: none"> • Faster Payment • CHAPS • BACS • SEPA Credit Transfer • SEPA Instant Credit

1.2 My Payments (Dashboard)

This topic describes the **My Payments** dashboard, which provides a user-friendly interface and valuable features for the effective organization and monitoring of payment activities.

There different widgets are provided to view real-time status of payments and transactions.

The following are the widgets available on the Payments Overview dashboard:

- Quick Payment
- Summary of Payments
- My Initiated Payments
- Favourites
- Recent Payments
- Saved Drafts Toast message
- Quick Actions (Available only in mobile)

The **Quick Payments** widget prioritizes the most frequently used payees, making it effortless for users to make payments to most used payees promptly with minimum clicks.

The **Summary of Payments** widget provides the user quick view of the number of transactions and total amount received or send. User can also see the transactions lying in different stages for Outgoing Payments.

My Initiated Payments widget provides the user the view of recently initiated transactions.

The Favourites feature benefits users who frequently send funds to the same recipients with consistent details, by serving as easy-to-use templates for new transactions. Users can save the transactions as 'Favourites' for quick repeat payments with minimal clicks and data entry. The **Favourites** widget provides easy access to and reuse of these saved transactions for payments or demand drafts.

The transactions successfully completed recently are visible under the **Recent Payments** widget. It allows user to track their outgoing and incoming payments conveniently.

The user can quickly see the saved drafts under **Saved Drafts Toast** message helping the user to start from where the transaction is left.

Quick Actions widget is available only in mobile to help the user to navigate to the most important transactions quickly.

Note

The left swipe and Long Press gesture is implemented on mobile and tablets devices. Swipe gesture - This feature is available on Favourites widget, Recent Payments widget, Incoming and Outgoing Payments Inquiry, Recurring Payments.

Long press gesture - Users can now press and hold down on a screen for an extended duration, which displays additional options or actions. This feature is available on Quick Actions and on payee cards under Manage payees.

Perform anyone of the following navigation to access the **Payments** screen.

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**.
- From the Search bar, type **Payments - Payments** and press **Enter**.

The **Payments Overview** dashboard appears.

Figure 1-1 My Payments

The screenshot displays the 'My Payments' dashboard with the following sections:

- Payments Overview:** Includes 'More Actions' and 'Make Payment' buttons.
- Summary of Payments:** Shows data for 5/1/2024 - 5/13/2024. It includes a dropdown for 'Showing data for xxxxxxxxxxxx0048', a toggle for 'Incoming Payments' (No Payments) and 'Outgoing Payments (8) Multi Currency', and a bar chart showing 'Outgoing Transactions' with a status of 7.
- Quick Payment:** Features five circular icons for different payment types: BANK HDFC, INTERNAL Within Bank, INTLOW Cross Border Bank, JAMMY Domestic Bank, NCC Cross Border Bank, PSK Within Bank, and Smudge Cross Border Bank. A 'View All Beneficiaries' link is present.
- My Initiated Payments:** Shows 5 recent initiated payments. Three are listed:

Date	Payment Type	Amount	Status
6/26/2024	SELF 26007101788	GBP 90.00	Approved
6/26/2024	SELF 2600FC827155	GBP 99.00	Approved
6/25/2024	Columbia Corp 25900E6E5948	EUR 15.62	Approved
- Favorites:** Shows a list of favorite payments under 'Payments' and 'Demand Drafts' tabs.

Payment Type	Beneficiary	Amount	Star	Share
Cross Border	SB BANK	GBP 55.00	★	🔗

Summary of Payments

This widget visually represent incoming and outgoing payments, providing users with a comprehensive overview of their payment's activity briefly. It depicts both incoming and outgoing payments, with number of payments represented in the form of bar graph. This gives users a clear understanding of the volume and status of payments flowing into and out of their account. The Incoming and Outgoing payments transactions can be filtered on account.

Note

1. By default, summary of the payment is displayed for an account selected as Primary/Favourite Account.
2. On Clicking incoming/outgoing transaction it will redirect to Incoming/outgoing payments inquiry screen respectively.
3. The **Multi-Currency** link is displayed in case multiple currencies are present. Individual currency breakup to be shown on click of **Multi Currency** link.
4. On the individual currency breakup, when hovering the mouse over the bar, the status and value of the transaction are displayed. Clicking on the bar will redirect the screen to the **Payments Inquiry** with filtered records.

The status available for user are:

- In Progress: all the transaction which are under process in host payment processor.
- Processed: all the transaction which are completed in host payment processor.
- Future Dated: all the transaction which are marked as future dated in host payment processor.
- Cancelled: all the transaction which are cancelled in host payment processor.
- Reversal Initiated: all transaction which are reversal initiated in host payment processor.

By default, the data is displayed as per the current month with dates from 1st of current month to till date. Click on edit icon to modify the date range.

Quick Payments

The **Quick Payments** widget displays the payees at the top of the dashboard, which help users to save time and avoid the hassle of searching for them each time they need to make a payment. They are listed in the descending order of the number of payments made for that payee. It shows 8 most used payees. Click on the payee, the system redirects to the **Make Payments** screen to make payment to the selected payee.

Below are the details being displays for each payee:

- Photo/Name Initials
- Nickname
- Bank Name

Note

For the Bank Name, displays **Within Bank** in case of **Within Bank Transfer**, and displays name of the bank if transfer is **Domestic** or **Cross Border**.

Click on the **Show All** link to view all the existing payees, the **Payees** screen appears.

Note

The **Show All** link will be displayed only when there are more than 8 Payees.

My Initiated Payments

This widget displays the list of **10** recent initiated payments by the user.

Below are the details displayed on each individual payment record:

- Payee name Initials/Image
- Initiation Date
- Payee Name
- Payee Bank Name
- Reference Number
- Approved Status
- Amount with currency
- Quick Actions- Make Payment, Add as Favourite

Note

- The Gesture feature on scroll for marking the transaction as Favourite or Unfavourite and Pay Again is implemented. Users can now swipe to take these actions. This functionality is only supported on mobile devices and tablets.
- Number of payments shown in mobile/table is 5.

Favourites

This widget helps user to quickly access Favourite transactions and use them as templates to initiate new transactions. This feature is beneficial for users who frequently transfer funds to the same recipients with similar details. Click on the **View All Favourites** link to view all the favourite Payments and Demand Drafts. 5 most used favourites are shown in the widget for both desktop and mobile.

The information available for Payments:

- Payment Type (Within Bank, Domestic, Cross Border)
- Favourites Name
- Payee
- Debit Account Nick Name, Number (In the format as configured for the entity)
- Amount for which favourite is marked.
- Icon to mark the record as Unfavourite, clicking this icon will remove the transaction from the Favourite list.
- Quick Pay icon: make payment with all the data as pre-populated as marked in Favourite.

The information available for Demand Drafts:

- Draft Type (Domestic/Cross Border)
- Favourite Name
- Draft Favouring
- Debit Account Nick Name, Number (In the format as configured for the entity)
- Amount for which favourite is marked.
- Icon to mark the record as Unfavourite, clicking this icon will remove the transaction from the Favourite list.
- Quick Pay icon: issue demand draft with all the data as pre-populated as marked in Favourite.

Note

1. Payments tab is shown only if user has access to either Within Bank /Domestic / Cross Border Payments.
2. Demand Drafts tab is shown only if user has access to Domestic/Cross Border Demand Draft.
3. The Gesture feature on scroll for Remove from Favourite and Pay is available. Users can now swipe to take these actions. This functionality is only supported on mobile devices and tablets.

Recent Payments

This widget displays both incoming and outgoing payments, showing the last 10 recent payments. Clicking on the **View All Payments** link redirects to the Incoming/Outgoing Payments screen. Within the Recent Payments, there are two different tabs available for Incoming Payments and Outgoing Payments. It shows maximum 10 outgoing/incoming recent payments. Click on the **View All Payments** link to view all the outgoing/incoming recent payments. User can select the debit account and based on which the payments will be shown.

The information available for Outgoing Payments:

- Account Number
- Payee name Initials/Image
- Initiation Date
- Payee
- Network Code (For Domestic/Cross Border transfers), Within Bank (For Within Bank transfers)
- Bank Code (Not applicable for Within Bank transfers)
- Host Reference Number
- Amount with currency
- Status badge
- Cancel Payment  icon: click to cancel payment processing, redirects to **Cancel Payment** screen. Cancel payment appears only for transaction for which cancellation is possible. Refer section **Payment Cancellation**.
- Repeat: on click redirects to **Make Payment- New Payee** screen with data pre-populated copying this transaction.

The information available for Incoming Payments:

- Incoming Direction icon
- Payment Date
- Remitter Name
- Sender's Account Details (Bank Code, Number)
- Host Reference Number
- Credited Amount with currency

Note

- The Gesture feature on scroll is implemented, allowing users to press and hold on a screen to trigger additional options or actions such as Repeat Payment and Cancel. This functionality is supported on mobile devices and tablets.
- Number of payments shown in mobile/table is maximum 5 for outgoing/incoming recent payments.

Drafts Toast Message

This feature enables users to view draft messages saved in the system as a toast message, allowing them to resume or view drafts directly from there. On click of the **Resume** option, user is redirected to the Payments screen with data populated from the draft. The **view** option redirects user to the drafts list screen.

Note

1. This will only be displayed if the user has saved any drafts.
2. Resume option will be available if there is only 1 saved draft, for more than 1 saved drafts view option will be available.

Quick Actions (Available only in mobile and tablet)

This widget provides quick actions to the user using which the user can navigate to that transaction quickly. Long press gesture feature is available on the quick actions in addition to single click actions. Below are the actions available.

- Payees
- Make Payment
- Payment Status
- Favourites
- Saved Drafts

2

Payees

This topic describes the feature that enables users to add, view, and delete existing payees.

The online banking application enables customers to save and maintain payees (beneficiaries) towards whom payments are to be made frequently.

The user can view payee's details by selecting the provided option and is also able to edit or delete a payee's record. Moreover, the option to add new account payees or new demand draft payees is also provided on this screen. Payees can be created and maintained for the following types of transfers:

- Bank Account
 - Domestic Bank Account
 - Cross Border Bank Account
- Demand Drafts
 - Domestic Bank Account
 - Cross Border Bank Account

Payee Access Type:

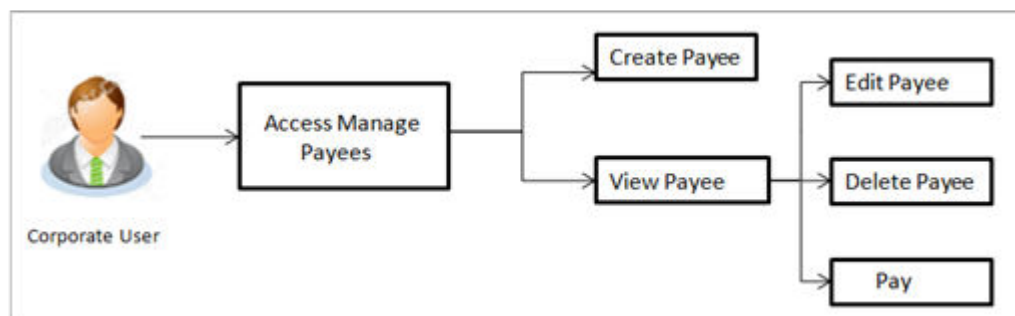

User can specify payee access type while maintaining a payee. Payee access type decides if only creator of a payee or all users of a party can access a payee. Payee access type is categorized as **Private** and **Public**.

- Public: A Payee marked as Public is visible to all the users mapped to the Party ID's for which access is provided by the creator of the payee. These users can use the payee while initiating payments, modify or delete the payee.
- Private: A Payee marked as **Private** is available to only the creator of the payee. Only the creator of the payee can use such payees while initiating payment and modify or delete the private payees.

Pre-requisites

- Transaction access is provided to corporate user.
- Approval rule set up for corporate user to perform the actions.

Figure 2-1 Workflow

Features Supported in the application.

Functions available on Payees are as follows:

- Create Payee
- View Payee
- Edit Payee
- Delete Payee

Note

The Long Press Gesture feature is implemented on Quick Actions for Payees. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like Make Payment, Edit Payee, Delete Payee. This functionality is only supported on mobile devices and tablets.

Perform any one of the following navigation to access the **Manage Payees** screen.

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**. Under **Payments**, click **More Actions**, and then click **Manage Payees**.
- From the Search bar, type **Payees – Manage Payees** and press **Enter**.

The **Manage Payees** screen appears.

- [Payee Summary](#)
This topic provides the systematic instructions to user for viewing the payee summary page, which displays all saved payees categorized as Domestic and Cross Border.
- [Add Account Payee](#)
This topic describes the payee setup process, wherein users are given the option to categorize the payee as either **Domestic Bank** or **Cross Border**.
- [Add Demand Draft Payee](#)
This topic describes the systematic instruction to **Add Account Payee** screen. User can create a domestic draft payee to initiate a request to issue a draft which is payable.
- [Manage Payees](#)
- [Payee User Mapping](#)
This topic describes the Payee User Mapping module, which empowers corporate administrators to restrict payee access to a defined set of users, thereby enabling controlled access to payees for targeted users.

2.1 Payee Summary

This topic provides the systematic instructions to user for viewing the payee summary page, which displays all saved payees categorized as Domestic and Cross Border.

Additional features available are to make payments, edit the payee details, and delete the payee. The payees can be viewed either in a table format or in a list format using a switch option.

The user can also navigate to other payee-related screens from the **More Actions** menu provided on the screen. Additionally, they can add a new payee. The filters are available to

view the payees based on description. The  table and  card view options are provided on

screen to view the payees. In the  table view, the payees are listed in tabular form. Whereas in the  card view payees are listed in card format.

Each card displays details like Payment Type, Payee Photo/Avatar, Payee Name, Payee Nickname, Payee Address, Payee Account Number, options to make a payment, update payee's details, and delete the Payee. Click on the specific card to view further details of each card. A separate tab is provided on the screen to view the **Accounts** payees and **Demand Drafts** payees.

To manage payees:

1. Click on the **Account/Demand Draft** tab, respective **Payees** summary page appears.

All the payees accessible to the logged in user are listed down by their names, photos (if uploaded) and other details defined at the time of payee creation.

Table 2-2 Payees- Filter Criteria - Field Description

Field Name	Description
Filter Criteria (Accounts)	Information specified in below fields are related to Filter Criteria (Accounts)
Payment Type	Search by the type of account to be associated with the payee. All option is provided to filter on all account types.
Nickname	Search the payees by their nick names defined at the time of payee's creation.
Account Name	Search the payees by their account name defined at the time of payee's creation.
Filter Criteria (Demand Drafts)	Information specified in below field is related to Filter Criteria (Demand Drafts)
Nickname	Search the payees by their nick names defined at the time of payee's creation.

- For **Account Payees** - Click **Make Payment** to initiate payment to payee.

The system redirects to Make Payment screen.

For **Demand Draft Payees** - Click **Issue Demand Draft** to issue demand draft to payee.

The system redirects to **Issue Demand Draft** screen.

- Perform one of the following actions:
 - Click the  table view icon to list the payees in the tabular form.
 - Click the  card view icon to list the payees in the card format.

2.2 Add Account Payee

This topic describes the payee setup process, wherein users are given the option to categorize the payee as either **Domestic Bank** or **Cross Border**.

Note

The Long Press Gesture feature is implemented. Users can press and hold down on a screen for an extended duration, which triggers additional options or actions like Add Account Payee, Add Demand Draft Payee, Add P2P Payee. This functionality is only supported on mobile devices and tablets.

This section documents the addition of a payee with transfer type as bank account.

- **Domestic**
- **Cross Border**

To add new payee:

1. Perform anyone of the following navigation to access the **Add Account Payee** screen.
 - From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**.
Under **Payments**, click **More Actions**, and then click **Payees**, then click **Add Account Payee**.
 - From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**.
Under **Payments**, click **More Actions**, and then click **Payees**, then click **Add Account Payee**.
 - From the Search bar, type **Payees – Add Account Payee** and press **Enter**.

The **Add Account Payee** screen appears.

- [Add Account Payee - Domestic Account](#)
This topic describes the systematic instruction to **Add Account Payee - Domestic Account** screen.
- [Add Account Payee - Cross Border Account](#)
This topic describes the systematic instruction to **Add Payee - Cross Border Bank Account** screen.

2.2.1 Add Account Payee - Domestic Account

This topic describes the systematic instruction to **Add Account Payee - Domestic Account** screen.

A domestic account transfer is one which involves the transfer of funds to an account that is held with another bank within the same country or politically united region.

Within Bank transfers enable users to initiate domestic payments without selecting the network manually. The system automatically identifies whether the payee belongs to the same bank using configured rules and APIs, and applies appropriate processing, validation, and UI behavior based on network configuration and grouping.

Note

Bank can configure the network groups through backend as per the requirement of the specific region and based on the available APIs. (For example: if API is available to check on-us payee/bank code. They can configure within bank as part of another network, provided fields required are same for both). Refer the network groups created in case of UK payments.

1. From the **Add Account Payee** screen, select the payee type to specify the details.
 - a. Click **Domestic** to specify the details on domestic payee.
For more information on network group, refer the field description table.

Table 2-3 Add Payee – Domestic - Field Description

Field Name	Description
Payee Type	Select Domestic as Payee Type .
Network Group	Select type payment network group from the list. The options are: <ul style="list-style-type: none"> • Within Bank and FPS • CHAPS • SEPA Note: Network groups are configurable through the backend. This is an example for UK payments.

- b. Click on **Cross Border** to specify the details on cross border payee.
2. Select the **Payee Type** as **Domestic**, and then choose the required network group.
 - a. Click **Within Bank and FPS** from the network group and specify the required details.
The **Add Account Payee_Domestic_Within Bank and FPS** screen is displayed.

3. Perform one of the following actions:
 - a. Click **Cancel** to discard the details.
 - b. Click **Submit** to submit the details.

2.2.2 Add Account Payee - Cross Border Account

This topic describes the systematic instruction to **Add Payee - Cross Border Bank Account** screen.

The Cross Border fund transfer involves the transfer of funds to an account that is maintained outside the country and beyond geographical boundaries. Hence, while adding a payee who holds the cross-border account, the user is required to specify extensive details of the payee's account including the network code to be used to transfer money to the account as well as the details of the bank in which the account is held.

To create a payee for the account transfer:

1. Navigate to the **Add Account Payee** screen.

The **Add Account Payee - Cross Border Account** screen appears.

Email ID	Email address of the payee. Note: This field is provided simply as a base product feature and will be available to send across to the backend Payments Processor during posting a payment. There will be no notifications sent to the payee on this email address by OBDX. Doing any processing of this field would be an implementation time activity.
Country	Specify the country of the payee's is located.
Address	Enter the payee's address. Address Fields are displayed as per the configuration. Refer Chapter: Regulatory Changes for Cross-Border Payments – MT to MX Migration Enhancements.
Additional Details	Information specified in below fields are related to additional details
Access Type	Specify the access type to be assigned to the payee. The options are: <ul style="list-style-type: none"> • Public • Private
Primary Party	The primary party associated to the user. The primary party users will always have access to the payee if it's Public .
Accessible to Parties	Accessible parties associated to the user. During payee creation a corporate user can define the parties within his GCIF to whom this payee will be accessible if the payee is public. The primary party users will always have access to the payee if it's Public .

To create a payee for the within bank account transfer:

2. Fill the details in the respective field.
3. In the **Nickname** field, enter the nickname to be assigned to the payee.

Note

: If, while creating a payee, the user enters an account number or payee nickname that has already been assigned to a registered payee, an error message will appear informing the user that a payee with the specific details already exists and the user will not be able to create the payee.

4. Click **Submit**.

The **Add Payee - Review** screen appears.

5. The **Review** screen appears. Verify the details and click **Confirm**.

- Click **Cancel** to cancel the transaction.
- Click **Back** to navigate back to **Add Payee** screen.

The success message appears along with the transaction reference number and payee details.

6. Below are the available actions on the confirmation page:

- **View Payees** - To view the list of payees. It will navigate to manage payee's screen
- **Payments** - To go to the **My Payment Overview** page.
- **Go to Dashboard** - To go to the main dashboard screen.
- **Make Payment** - To initiate fund transfer to the added payee.
- **Add New Payee** - To add a new payee.

2.3 Add Demand Draft Payee

This topic describes the systematic instruction to **Add Account Payee** screen. User can create a domestic draft payee to initiate a request to issue a draft which is payable.

A Demand Draft is a pre-paid negotiable instrument. The issuing bank undertakes to make payment in full when the instrument is presented by the payee. The demand draft is made payable at a specified centre and can be issued in local currency as well as in (allowed) foreign currencies. A foreign currency demand draft can be requested using Cross Border Demand Draft while a pay order or local currency demand draft can be requested using the Domestic Demand Draft transaction. A Demand Draft, as compared to a cheque is issued by the Bank against the Bank's own funds and hence there is a reduced risk of the cheque not clearing. Users can save the payee details of the draft through payee maintenance. Payees for demand drafts are of two types:

- Domestic Demand Draft
- Cross Border Demand Draft

The feature allows you to create a Domestic Draft payee to initiate a request to issue a draft which is payable at a location within the country. The user provides the payee details, the details of draft to be issued in favour of and the payable location.

Note

The Long Press Gesture feature is implemented. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like Issue Demand Draft, Edit Payee, Delete Payee. This functionality is only supported on mobile devices and tablets.

Perform any one of the following navigation to access the **Add Account Payee** screen.

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**.

Under **Payments**, click **More Actions**, and then click **Payees**, then click **Add Demand Draft Payee**.

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**.

Under **Payments**, click **More Actions**, and then click **Payees**, then click **Add Demand Draft Payee**.

- From the Search bar, type **Payees – Add Demand Draft Payee** and press **Enter**.

To add a new demand draft payee:

- The **Add Demand Draft Payee** screen appears.

Figure 2-12 Add Demand Draft Payee - Domestic

The screenshot displays the 'Add Demand Draft Payee' interface. At the top, there are two tabs: 'Domestic' (selected) and 'Cross Border'. Below the tabs is the 'Demand Draft Details' section, which includes a 'Favouring' field with the value 'Sam Desouza', a 'City' dropdown menu set to 'INDIA', and a 'Deliver to' dropdown menu set to 'Postal Address'. Underneath, the 'Address' is listed as '3 West Boulevard, Century St 9, Near Odessa, Texas, US, 685691'. The 'Personal Details' section features a profile picture icon, a 'Nick Name' field with the value 'Samd', and an 'Email ID' field with the value 'samd@example.com' and a plus sign icon. The 'Additional Details' section shows 'Access type' with radio buttons for 'Private' (selected) and 'Public'. At the bottom, there are 'Submit' and 'Cancel' buttons.

Once a photo is uploaded against the payee, click on the + icon and select Upload/Choose Avatar to update the profile picture.
Nickname	Specify a nickname to be assigned to the specific account of the payee for the purpose of easy identification.
Email ID	<p>Email address of the payee.</p> <p>Note: This field is provided simply as a base product feature and will be available to send across to the backend Payments Processor during posting a payment. There will be no notifications sent to the payee on this email address by OBDX. Doing any processing of this field would be an implementation time activity.</p>
Additional Details	Information specified in below fields are related to additional details
Access Type	<p>Specify the access type to be assigned to the payee. The options are:</p> <ul style="list-style-type: none"> • Public • Private
Primary Party	<p>The primary party associated to the user. The primary party users will always have access to the payee if it's Public.</p>
Accessible to Parties	<p>Accessible parties associated to the user. During payee creation a corporate user can define the parties within his GCIF to whom this payee will be accessible if the payee is public. The primary party users will always have access to the payee if it's Public.</p>

2. Fill the details in the respective field.
3. In the **Nickname** field, enter the nickname to be assigned to the payee.
4. Click **Submit**.

The **Add Payee - Review** screen appears.

5. The **Review** screen appears.

Perform one of the following actions:

- Verify the details and click **Confirm**.
- Click **Cancel** to cancel the transaction.
- Click **Back** to navigate back to **Add Payee** screen.

Note

The success message appears along with the transaction reference number and payee details.

Below are the available actions on the confirmation page:

- **View Payees** - To view the list of payees. It will navigate to manage payee's screen
- **Payments** - To go to the **My Payment Overview** page.
- **Go to Dashboard** - To go to the main dashboard screen.
- **Issue Demand Draft** - To issue demand draft to the added payee.
- **Add New Payee** - To add a new payee.

2.4 Manage Payees

- [Payee Details](#)
This topic provides the systematic instructions to user to view payee details, which presents information such as payment type, payee photo/avatar, name, nickname, address, and account number, along with options to initiate a payment, update payee details, or delete the payee record.
- [Edit Payee Details](#)
This topic describes the functionality that allows users to update the payee details.
- [Delete Payee](#)
This topic provides the systematic instructions to users for deleting the existing payee.

2.4.1 Payee Details

This topic provides the systematic instructions to user to view payee details, which presents information such as payment type, payee photo/avatar, name, nickname, address, and account number, along with options to initiate a payment, update payee details, or delete the payee record.

To view payee details:

1. Navigate to the **Payees** screen.
2. Click on the specific card/row of the Account type payee to view further details of each payee.

The **Payee Details** screen appears.

2.4.3 Delete Payee

This topic provides the systematic instructions to users for deleting the existing payee.

To delete the payee:

1. Navigate to the **Payees** screen.
2. Click the  icon of specific beneficiary card which you wish to delete.

The **Delete Payee** pop up window appears with a warning message prompting the user to confirm the deletion.

Figure 2-20 Delete Payee

- a. Perform one of the following actions:
 - Click **Delete** to proceed with the deletion request.
 - Click **Cancel** to cancel the deletion process.

2.5 Payee User Mapping

This topic describes the Payee User Mapping module, which empowers corporate administrators to restrict payee access to a defined set of users, thereby enabling controlled access to payees for targeted users.

A private payee created by the corporate administrator can be mapped to multiple users. This limits the access of these users to only the mapped payees and these users won't be allowed to perform transactions like Transfer Money, Set Repeat Transfer and Multiple Transfer for other payees, including public payees.

This feature is available only for the corporate administrator.

Note

This feature needs to be used in conjunction with role transaction mapping. To achieve the objective of allowing certain users of the corporate to be able to make payments to only certain payees, the admin will have to operationally remove access to Ad hoc Payments and Payee Management to such users.

Pre-requisites:

- Transaction and account access are provided to corporate user
- Approval rule set up for corporate user to perform the actions

Perform anyone of the following navigation to access the **Payee User Mapping** screen.

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**. Under **Payments**, click **More Actions**, and then click **Payee User Mapping**.
- From the Search bar, type **Payees – Payee User Mapping** and press **Enter**

The **Payee User Mapping** screen appears.

- [Payee User Mapping - Summary](#)
This topic provides the systematic instructions for user to view list all private payees created by the corporate administrator.
- [Payee User Mapping Details](#)
This topic provides the systematic instructions on how users can access detailed payee information by clicking the hyperlink associated with the payee's name on the payee user mapping screen.

2.5.1 Payee User Mapping - Summary

This topic provides the systematic instructions for user to view list all private payees created by the corporate administrator.

A quick search is available on the screen by specifying the payee name. User can also view the details of the payee and to map users to the beneficiary.

Features Supported In the application

Functions available on Payee User Mapping are as follows:

- Map user to a payee
- Edit Mapping

The screen is divided into two sections:

- **Accounts** – Bank Account Payees are listed in this section.
- **Demand Draft** - Payees created for Demand Draft are listed in this section.

To view the payee:

1. In **Search By Payee Name** field, enter the payee name to list all private payees.
2. Click the  icon, all private payees created by the corporate administrator will be displayed.

2.5.3 FAQ

1. **Can I delete payees that I no longer need to make payments to?**
Yes. You can choose to delete the payees that you no longer need.
2. **When can I make the payment to newly added payee?**
After successfully adding a payee, you may proceed to transfer funds immediately or set a future date for the transaction to take place.
3. **Who can access the payees created with access type as 'Private'?**
Private payees can only be accessed by creator of the payee. Only creator of the payee can use such payees while initiating payment.
4. **Who can access the payees created with access type as 'Public'?**
Payee marked as 'Public' are visible to all the users mapped to the Party ID of the user which has been given access. All users of the party will be able to view and use these payees while initiating payments.
5. **If I delete or edit a payee, what will happen to the in-flight transactions?**
Payee modification or deletion will not have any impact on the transactions which are initiated with a same payee and are pending for further processing. In-flight transactions will continue to progress with the data with which the transaction was initiated.

3

Make Payment

This topic describes the **Make Payment** feature, which enables users to initiate online payments between their own accounts or to external payees, whether pre-existing or ad hoc payees for whom the customer must provide complete payee and transfer details.

- Domestic Transfer
- Cross Border Transfer

User selects the specific account or the payee towards which the transfer is to be made. The user is not required to explicitly select the transfer type (Within Bank, Domestic or Cross Border) since this is defined at the time of payee creation.

Note

Payments using only Real Accounts and Virtual Accounts is qualified with Oracle Banking Payments. Payments based on a 'Virtual Identifier + Remittance ID' combination are not qualified out of the box. Recurring Payments, also referred

Recurring Payments, also referred to as Standing Instructions or Standing Orders, are instructions given by a payer (bank account holder) to the bank to transfer a specific amount to another account at regular intervals. Once initiated, these transfers are executed repeatedly till the end date.

The application has simplified the user's task of initiating recurring payments by introducing the selection at the time making the regular payments. Through this feature, users can set an instruction for funds to be transferred at regular intervals towards registered payees or to the user's own accounts. Once initiated, the details of these transfers can be viewed in the **Recurring Payments** screen. The user can also cancel a repeat transfer instruction, if so desired, from the **Recurring Payments summary or details** screen.

Cross Border Low value payments are now enabled as part of Make Payments. User can opt for the low value payment while making the cross-border payment based on the amount and selected bank.

Pre-requisites:

- Transaction and account access is provided to corporate user.
- Approval rule set up for corporate user to perform the actions.
- Payees are maintained.
- Transaction limits are assigned to user to perform the transaction.

Features supported in the application

The **Make Payment** feature enables users to make payments towards:

- Saved Payee – Within Bank, Domestic and Cross Border transfers are supported and are triggered based on the payee and specific payee account selection.
- My Accounts – Users can transfer funds within their own accounts held in the bank.

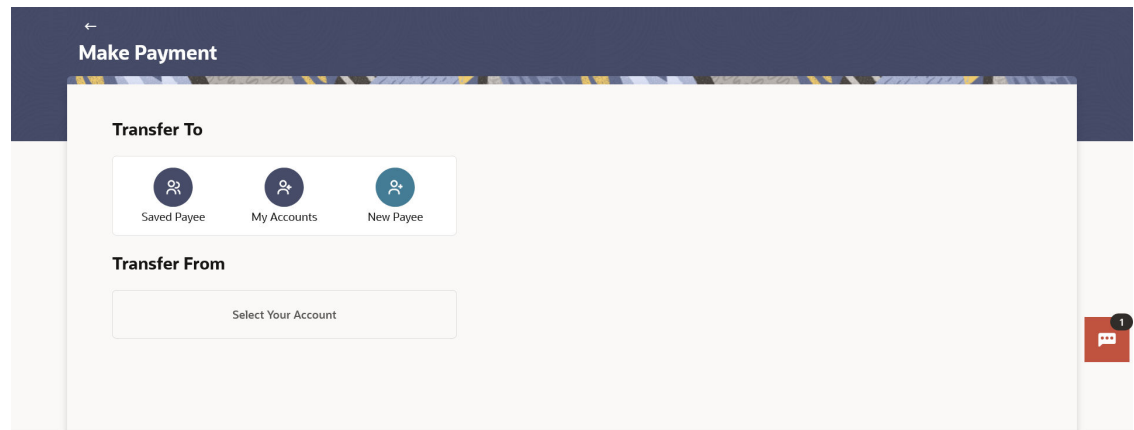

- New Payee – Users are able to transfer funds to towards payees that are not registered with the bank

To make a payment:

1. Perform anyone of the following navigation to access the **Make Payment** screen.
 - From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**.
Under **Payments**, click **Make Payment**.
 - From the Search bar, type **Payments – Make Payment** and press **Enter**

The **Make Payment** screen appears.

Figure 3-1 Make Payment

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 3-1 Make Payment - Field Description

Field Name	Description
Transfer To	Information specified in below fields are related to transfer to.
Saved Payee	Option to select the existing payee to whom you wish to initiate payment. All the payees maintained will be listed for selection.

3.1 Make Payment - Transfer to single user

- [Make Payment - Saved Payee](#)
This topic provides the systematic instructions to user for initiating payments to saved payees.
- [Make Payment - My Accounts](#)
This topic provides the systematic instructions to user for initiating payments to their own accounts, facilitating fund transfers within their accounts held at the bank.
- [Make Payment - New Payee](#)
This topic provides the systematic instructions to user for initiating payment requests to payees who are not registered within the system.

3.1.1 Make Payment - Saved Payee

This topic provides the systematic instructions to user for initiating payments to saved payees.

All payees (Domestic and Cross Border payees) created by the user are listed for selection. Details of the payee are auto populated on the transaction screen once a selection has been made. Based on the payee selection, an account for debiting funds towards the existing payee will get defaulted on the **Transfer From** field and user can change the source account if required.

Note

Payment initiation is restricted based on network-specific currency rules. Only eligible source account currencies are allowed to ensure compliance and prevent invalid transactions.

Payment related details will be populated based on type of payee selected and based on regionalization. Refer section **Regionalization for Domestic Payments** to see region specific payment fields.

To transfer funds to a payee:

1. Perform one of the following actions:
 - Under the **Transfer To** section, click on the **Saved Payee**.
 - The **Transfer To** overlay screen will appear with the **Saved Payee** tab.

Note

- a. Users can also add new payee from the **New Payee** tab.
- b. Users can search the specific payees by typing a few characters (type to search). This can be done in fields such as Payee Type, Nickname, Account Name, Account Number.

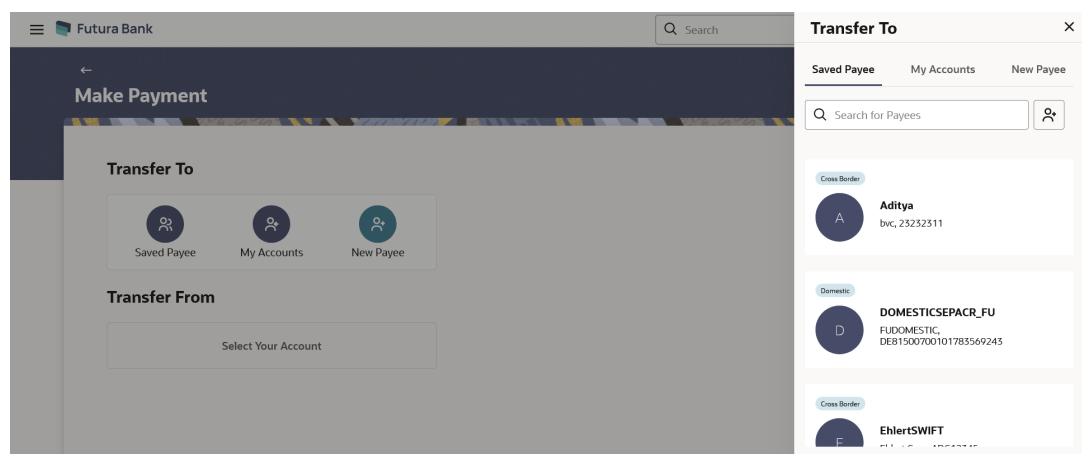

- Click the  icon to add the new payee.
The system redirects to **Add Bank Account Payee** screen.

Figure 3-2 Make Payment - Transfer To overlay screen**Note**

The fields which are marked as **Required** are mandatory.

- Click **Confirm**. A success message is displayed along with the transaction status.

Figure 3-13 Multiple Transfers Status

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 3-10 Multiple Transfers Status - Field Description

Field	Description
Transfer To	The account to which the funds are transferred.
Transfer From	The source account from which the funds are transferred.
Amount	The amount that is transferred towards the payee's account.
Transfer Date	The date of transfer.
Reference Number	A unique number is created once the transaction is finished in the Core Banking system.
Status	The status of the transaction. It could be: <ul style="list-style-type: none"> • Processed • Failed

- Perform one of the following actions:
 - Click the **e-Receipt** link against a particular record for which you want to download the e-receipt.
 - Click (Save as favourite ) icon to save payment as favourite transaction.
 - Click  (Share) icon to share to share payment details.
 - Click  (Check Status) icon to view the status of the payment transaction. System redirects to the **Payment Details** screen.

Figure 3-14 Make Payments - Payment Details

- Click **Download E-receipt** to download the e-receipt. For more information, refer the **e-receipt** section in the **Retail Customer Services** User Manual.
- For more information on the **Payment Details**, refer the **Outgoing Payments - Payment Details** section.
- Click **Payments**, it will navigate to **My Payment** page.
- Click **Go to Dashboard** to go to the **Dashboard** screen.

3.3 Transfer From Selection

This topic provides the systematic instructions to users for choosing a transfer account using the **Transfer From** list.

On click of **Transfer From** card the **Transfer From** drawer will open displaying all the accounts available to the user.

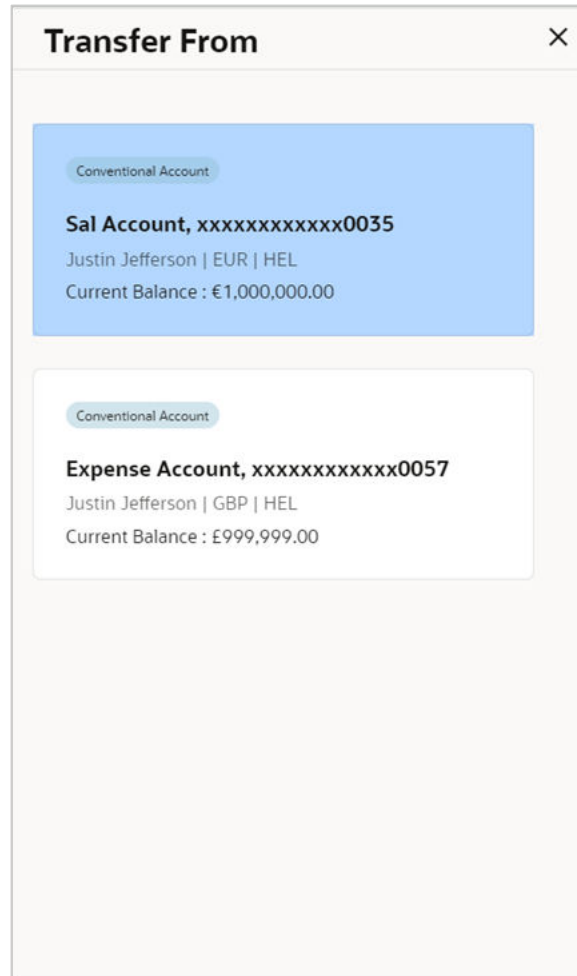

Note

Bank can maintain currencies against each network, and based on the selected network in payments, accounts belonging to only those currencies will be displayed.

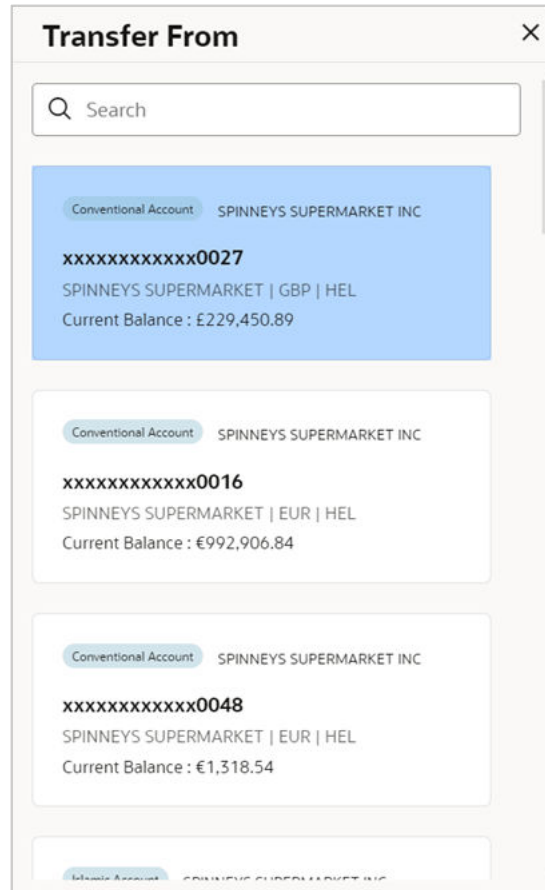

There are 3 types of drawers possible:

- **When number of accounts are less than 10. In that case, the accounts will be listed as shown.**

Figure 3-15 Transfer From Selection

- **When number of accounts are between 10 to 100.**
In this case a search option is provided, to search the by typing in few characters. The search could be on account name, account number, branch, amount or currency.

Figure 3-16 Transfer From Selection

- **When number of accounts are more than 100.**
In this case advanced search option is provided, to search the by using below filters:
 - Party Name
 - Account Number
 - Account Name
 - Account Type

Note

This number 10 & 100 is configurable, and based on the configuration accounts will be displayed.

3.4 Suggestive Credit Value Date

This topic describes how the payment framework provides the functionality to display a suggested credit value date on the payment review screen.

This date is an indicative date only and it gives the end user an idea of when the payment would get credited to the payee's account, before he can confirm the transaction.

The service takes into account parameters like the network of payment, the currency etc. before arriving at the suggestive credit value date.

This service is currently available out of the box integrated only with Oracle Banking Payments. For other product processors a customization would be required.

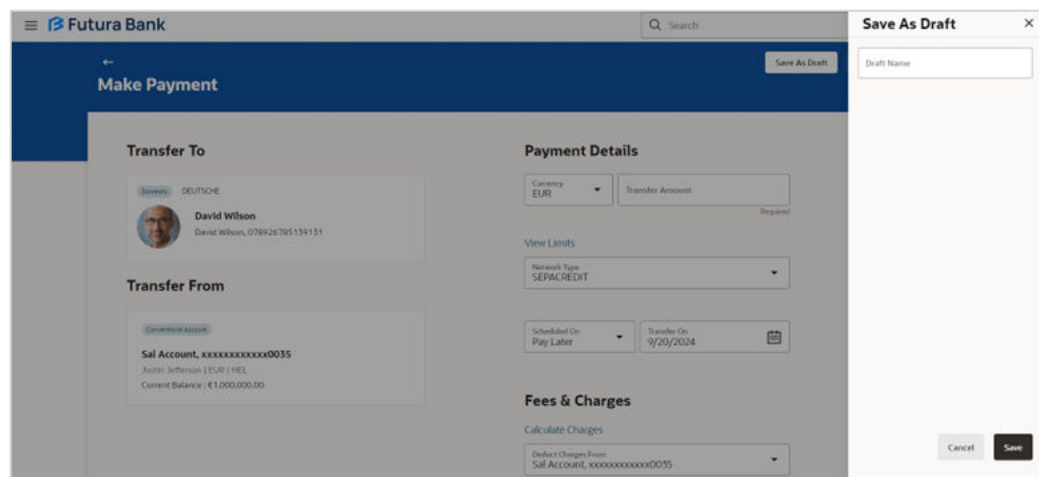

3.5 Save as Draft

This topic provides the systematic instructions to users for saving incomplete transactions as drafts, allowing them to be retrieved and completed at a later time.

User can access the transaction from Saved Drafts screen and complete it.

1. Navigate to **Make Payment** screen.
2. At any stage of transaction, click **Save As Draft** to save the payment record.
3. Assign name to the Draft.

Figure 3-17 Save as Draft

Perform one of the following actions:

- Click **Save** to save the transaction as a draft.
- Click **Cancel** to cancel the transaction.

3.6 Save as Favourite

This topic provides the systematic instructions to user for saving a designate payments as favorites.

User can access the transaction from Favourite screen and initiate the transaction. Once selected, the system presents the transaction details in editable mode. The user can then make any necessary changes and submit the transaction for processing.

1. Navigate to **Make Payment** screen.
2. Initiate the transaction.

The system displays confirmation screen.

Note

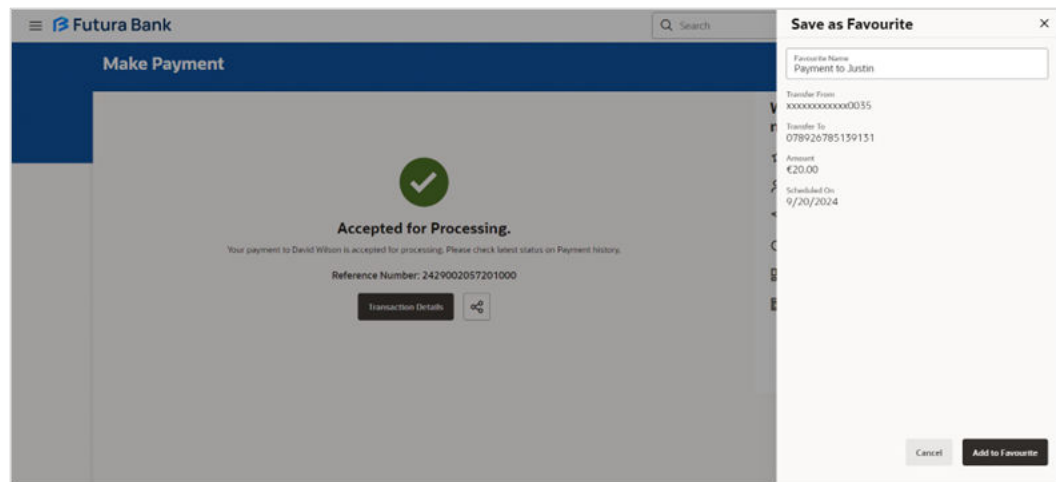

For more information refer **Make Payment** transaction.

3. Click on the **Save As Favourite** link on the confirmation screen to save transaction as a favourite.

The **Save As Favourite** overlay screen appears.

4. Assign name to the transaction which to be marked as favourite.

Figure 3-18 Save as Favourite

Perform one of the following actions:

- Click **Save** to save the transaction as a favourite.
- Click **Cancel** to cancel the transaction.

4 Lookups

This topic describes the available lookups that can be used when providing payee details.

1. Bank Code (BIC/IFSC) Lookup

Inquiries

- [Outgoing Payments](#)
This topic describes the Outgoing Payments transaction, which enables corporate users to review and monitor all their payment activities.
- [Incoming Payments](#)
This topic describes the inquiry transaction that enables users to inquire about inward remittances received in their account.
- [Recurring Payments](#)
This topic describes the functionality that enables users to establish recurring fund transfer instructions, directing funds to registered payees or to the user's own accounts at specified intervals.
- [UETR Status Inquiry](#)
This topic provides the systematic instructions on how users can view the status of a payment based on the record's UETR number.
- [FAQ](#)

7.1 Outgoing Payments

This topic describes the Outgoing Payments transaction, which enables corporate users to review and monitor all their payment activities.

This feature displays details of all payments initiated from the current and savings accounts to which the user has access, irrespective of the channel from which they were initiated. These transactions include Within Bank, Domestic and Cross Border transfers along with transfers made to own accounts.

The Outgoing Payments summary screen lists down payment transactions based on search criteria defined in the provided search fields. The User can repeat payment, cancel or download e-receipts for each payment. The user can view additional details of a payment by selecting the provided reference number link and navigating to the **Outgoing Payments Details** screen. The account filter option is provided at the top. (By default, primary account to be selected) to list outgoing payments. The **Filter** feature is provided to search the payments based on the search criteria.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen.

By clicking on **Manage Columns** option available on the screen, user can

- Rearrange columns.
- Remove/add specific columns.

Note

1. The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
2. The column preferences setup by the user will be saved for future reference i.e., in case the user revisits this screen, the preferred columns will only be displayed in the table.
3. The Long Press Gesture feature is implemented on quick actions of Status Inquiry, users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like Single Payments, Recurring Payments, Incoming Payments. This functionality is only supported on mobile devices and tablets.
4. Swipe gesture is implemented on the Outgoing Payments summary page showing actions -Repeat, Cancel or More actions as applicable. This functionality is only supported on mobile devices and tablets.

Pre-requisites:

Transaction access is provided to the retail user.

Perform anyone of the following navigation to access the **Outgoing Payments** screen.

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**.
Under **Payments**, then click **More Actions**, and then click **Inquiries**, and then click **Outgoing Payments**.
- From the Search bar, type **Payment Inquiries – Outgoing Payments** and press **Enter**.
- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**.
Under **Payments**, then from **My Payments**, from **Recent Payments** widget, and then click **Outgoing** tab, click on the **View All Payments**.

The **Outgoing Payments** screen appears.

- [Outgoing Payments - Summary](#)
This topic provides the systematic instructions for user to view a summarized overview of all outgoing payments processed for their primary account.
- [Outgoing Payments - Details](#)
This topic provides the systematic instructions to user for viewing all payment details, notably the payment status.
- [Payment Cancellation](#)
This topic provides the systematic instructions for users to cancel payments.
- [Payment Cloning](#)
This topic describes the **Repeat** feature, available on the **Outgoing Payments** summary screen, which enables users to create a duplicate of an existing payment.

7.1.1 Outgoing Payments - Summary

This topic provides the systematic instructions for user to view a summarized overview of all outgoing payments processed for their primary account.

To view / search for payment records:

1. Navigate to the **Outgoing Payments** screen.

The system displays a summary of all the outgoing payments for the primary account.

Note

By default, the **Outgoing Payments** screen displays the list of payments for the primary account.

2. Select the account from the drop-down list to view its outgoing payments.

The system displays a summary of all the outgoing payments for the selected account.

Table 7-1 Outgoing Payments - Summary - Field Description

Field Name	Description
Select Account	Specify the CASA (Current Account and Savings Account) account to view all transfers initiated from that specific account.
Search Results	The following fields are displayed for each transaction.
Transaction Date	The date on which the transfer was processed.
Host Reference Number	The reference number assigned to the transaction by the host system.
Transfer To	Displays payee account name or nickname.

Table 7-1 (Cont.) Outgoing Payments - Summary - Field Description

Field Name	Description
Payment Type	The type of payment transfer i.e., Within Bank, Domestic or Cross Border transfer.
Amount	Displays the amount with the currency for the transaction.
Status	The status of the payment transfer record. It could be: <ul style="list-style-type: none"> • In Progress • Processed • Future Dated • Cancelled
Action	The action that can be performed for that transaction by the user. The options are: <ul style="list-style-type: none"> •  (Pay Again)- to make a payment again. •  (Download E-receipt)- to download an e-receipt. •  (More Options) - following actions can be performed through it <ul style="list-style-type: none"> –  Cancel Payment - to cancel a payment through More Options – Amend Payment – to initiate payment amendment request – View MT 103 Message- to view and download the MT103 message <p>Note:</p> <ol style="list-style-type: none"> The Amend options appears only if the transaction Status is "Processed" and the Payment Type is "With In Bank or Cross Border." The View MT103 Message options appears only if the transaction Status is "Processed" and the Payment Type is "Cross Border."
Initiated Date	The date of payment initiation.
Activation Date	The date on which the transfer was activated.
Network Type	Network are displayed based on the region. For example for India – RTGS/NEFT/IMPS will be visible and for SEPA region- SEPA CREDIT and SEPA instant will be visible. Refer section Regionalization for Domestic Payments for exact information.

3. Perform one of the following actions:

- Click on the **Host Reference Number** for the specific payment record to view the details of that payment on the **Outgoing Payment Details** screen.
- Click the  (Pay Again) icon. The **Make Payment** screen will appear with most of the data of the existing payment details prefilled, allowing you to make a payment to an unsaved payee.
- Click the  **Download** against to the specific payment record to download an e-receipt.

- Click the  (More Options) icon and then select **Cancel Payment** to cancel payments.

The user will be redirected to the **Cancel Payment** screen where the cancellation of the respective payment is facilitated. For more information refer **Payment Cancellation** transaction.

- Click the **Amend** to request for the payment amendment.

The user will be redirected to the **Amend Payment** screen.

- Click the **View MT103 Message**, the **MT 103** overlay screen with the MT103 message appears.

It allows user to download message in pdf format.

 **Note**

This option is not available for the transactions with the status as a **Processed**.

4. Click  **Filter** to change filter criteria.

- The **Filter** overlay screen appears.
 - a. Enter the filter criteria.
 - b. Click **Apply** to search the records.

Transaction records appears based on the updated criteria.

- Click on the

icon to download the records in CSV & PDF format.

- Click on the  **Manage Columns** icon to setup a column preference by rearranging or removing columns.

Figure 7-2 Outgoing Payments - Filter Criteria

The screenshot shows the 'Outgoing Payments' interface for account 'XXXXXXXXXXXX0041'. The main table displays 42 records with columns for Initiation Date, Transaction Date, Activation Date, Host Reference, Transfer To, Payment Type, Network, Amount, Status, and Action. The 'Filters' sidebar on the right includes sections for 'By Date' (Initiation and Activation), 'By Transfer Details' (Payee Name, Payment Type, Network, Amount, Status), and 'By Reference Number' (Host and Customer Reference). Buttons for 'Reset' and 'Apply' are at the bottom right of the sidebar.

Figure 7-3 Outgoing Payments - Manage Column setup

The screenshot shows the 'Outgoing Payments' interface for account 'XXXXXXXXXXXX0010'. The main table displays records with columns for Transaction Date, Host Reference, Transfer To, Payment Type, Status, and Amount. The 'Manage Columns' sidebar on the right allows reordering or modifying columns. In this view, 'Transaction Date', 'Transfer To', 'Payment Type', 'Status', and 'Amount' are checked, while 'Host Reference' and 'Actions' are marked as 'Fixed'. 'Reset' and 'Apply' buttons are at the bottom right of the sidebar.

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 7-2 Outgoing Payments - Filter - Field Description

Field Name	Description
Filter Criteria - By Date	Information specified in below fields are related to by date
Initiation Date From	Specify a start date to search for transfer records that have been initiated.
Initiation Date To	Specify an end date to search for transfer records that have been initiated until that specified date.
Filter Criteria - By Transfer Details	Information specified in below fields are related to by transfer details.
Payee Name	Search the transfers based on the payee's name.
Payment Type	Search the transfers based on Payment type. The options are: <ul style="list-style-type: none"> • All • Domestic • Cross Border
Network	Search the transfers based on the network via which the payment was performed. Displayed when Payment Type selected is Domestic .

Bank Details	This field is displayed only if Payment Type is Cross Border Transfer .

- Perform anyone of the following actions:
 - Click **Submit** to cancel the payment.
 - Click **Cancel** to cancel the transaction.

The success message of payment cancellation appears along with the transfer request number.

- Click **Home** to navigate to the **Dashboard**.

7.1.4 Payment Cloning

This topic describes the **Repeat** feature, available on the **Outgoing Payments** summary screen, which enables users to create a duplicate of an existing payment.

This is to make it convenient for the end user to initiate the same payment again, on a different date. The cloning does not intend to stop the user from changing any of the data. Therefore it is just another Ad hoc Payment transaction, and the user will be able to change any fields he wants to.

For a Self-Transfer that was initiated from OBDX and visible in Outgoing Payments, clicking on the Clone button will open up the **Make Payment – New Payee** Within Bank Payment page. This is because, from the bank's perspective both Self Transfer and Within Bank Transfer are payments between accounts within the bank.

The payments screen in **Outgoing Payments** are a combination of all payments posted to the back end payments processor. The payments could have originated from other channels too, or directly from the payments processor itself. And therefore to repeat/copy the same payment at a later time, OBDX makes use of the Ad hoc Payments transaction since the payee information may not be present within OBDX as a payee.

Pre-requisites

- Entitlements to Ad hoc Payments

To clone the payments:

1. Enter the search criteria.
2. Click **Search** to view transactions.

The search result appears on **Payment Status Inquiry** screen based on search criteria entered.

3. Click the  icon to against the payment record which to be cloned.

The user will be redirected to the **Transfers -Adhoc Payee** screen transaction with most of the data of the existing payment copied to the input fields. For more information refer **Transfers - Adhoc Payee** section.

7.2 Incoming Payments

This topic describes the inquiry transaction that enables users to inquire about inward remittances received in their account.

Inward remittance is amount of money received in user's account/s from the various Domestic and Cross Border channels.

Pre-requisites:

- Transaction and account access is provided to corporate user.
- Inward remittances are available under the accounts.

Features supported in application

Following transactions are allowed under Incoming Payments

- View Incoming Payments

Perform anyone of the following navigation to access the **Aggregation Dashboard** screen.

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**.
Under **Payments**, then click **More Actions**, and then click **Inquiries**, and then click **Incoming Payments**.
- From the Search bar, type **Payment Inquiries – Incoming Payments** and press **Enter**.
- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**.
Under **Payments**, then from **My Payments**, from **Recent Payments** widget, and then click **Incoming** tab, click on the **View All Payments**.

The **Incoming Payments** screen appears.

- [Incoming Payments - Summary](#)
This topic provides the systematic instructions for users to view a summary of all inward remittances received in user's primary account.
- [Incoming Payments - Details](#)
This topic provides the systematic instructions to users for viewing incoming payment details.

7.2.1 Incoming Payments - Summary

This topic provides the systematic instructions for users to view a summary of all inward remittances received in user's primary account.

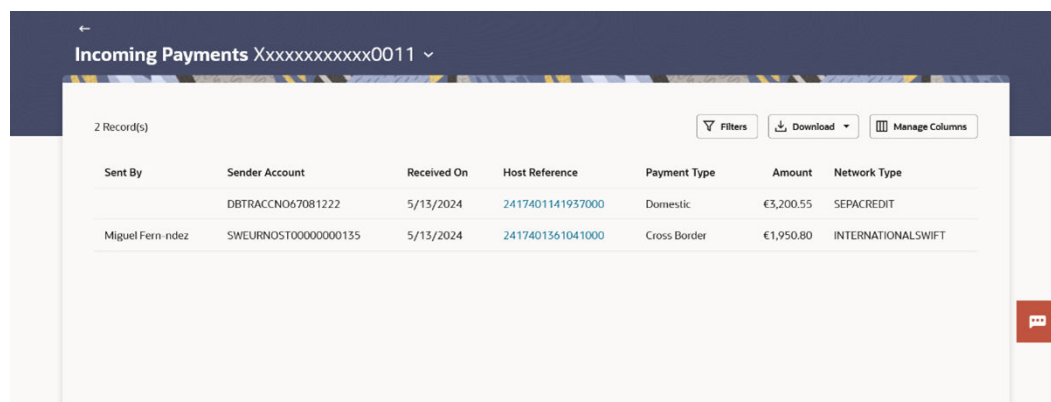

An option is provided to search specific remittance transaction based on various search criteria.

To view incoming payments:

- Navigate to the screen.
- From the **Account Number** list, select the appropriate account number.

The list of inward remittance populates on the screen.

Figure 7-7 Incoming Payments - Summary

The screenshot shows the 'Incoming Payments' summary screen for account 'XXXXXXXXXXXX0011'. It displays a table with 2 records. The table has columns for Sent By, Sender Account, Received On, Host Reference, Payment Type, Amount, and Network Type. The first record is from DBTRACCNO67081222 for a domestic payment of €3,200.55. The second record is from Miguel Fernandez for a cross-border payment of €1,950.80.

Sent By	Sender Account	Received On	Host Reference	Payment Type	Amount	Network Type
	DBTRACCNO67081222	5/13/2024	2417401141937000	Domestic	€3,200.55	SEPACREDIT
Miguel Fernandez	SWEURNOST00000000135	5/13/2024	2417401361041000	Cross Border	€1,950.80	INTERNATIONALSWIFT

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 7-5 Incoming Payments - Summary - Field Description

Field Name	Description

Field Name	Description
Payment Type	The type of payment transfer such as Within Bank, Domestic or Cross Border transfer.
Received On (From- To)	The start date and end date from which the transaction is received by the bank from the channel.
Amount (From- To)	The minimum and maximum amount for inward remittance to be done.

- a. Enter the filter criteria.
- b. Click **Apply** to search the records.

Transaction records appears based on the updated criteria.

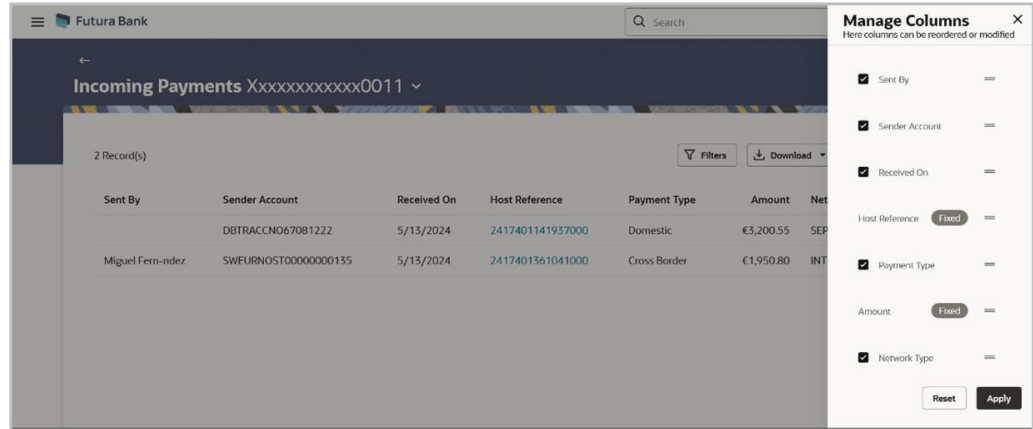

- Click the  **Download** icon to download the records in CSV & PDF format.
- Click on the  **Manage Columns** icon to setup a column preference by rearranging or removing columns.

Figure 7-9 Incoming Payments - Manage Column setup

7.2.2 Incoming Payments - Details

This topic provides the systematic instructions to users for viewing incoming payment details.

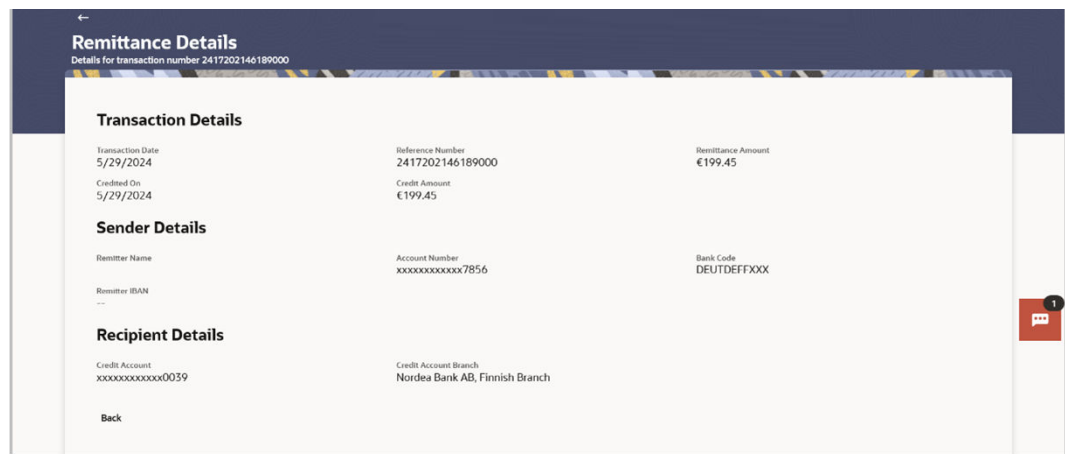

Note

The fields are displayed as per payment type.

To view the inward remittance record details:

1. Navigate to the **Incoming Payments** screen.
2. From the **Account Number** list, select the appropriate account number.
The list of inward remittance populates on the screen.
3. Click on the **Reference Number** of the transaction to view the remittance details.
The **Remittance Details** screen appears.

Figure 7-10 Remittance Details

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 7-7 Remittance Details - Field Description

Field Name	Description
Transaction Details	
Transaction Date	The date on which the transaction is received by the bank from the channel.
Reference Number	The transaction reference number.
Remittance Amount	The amount as remitted by the remitter.
Credited On	The date on which the funds are credited on receiver's account.
Credit Amount	The amount credited to the account.
Purpose of Remittance	The purpose of remittance.
Sender Details	
Remitter Name	The name of the remitter.
Account Number	The account number of the remitter.
Bank Code	The bank details of the remitter.
Remitter IBAN	The intermediary bank through which funds are transferred.
Recipient Details	
Credit Account	The receiver's account number and nickname to which amount has been credited.
Credit Account Branch	The name of the bank and branch of the receiver.

- Click **Back** to go back to the previous screen.

7.3 Recurring Payments

This topic describes the functionality that enables users to establish recurring fund transfer instructions, directing funds to registered payees or to the user's own accounts at specified intervals.

The application has simplified the user's task of initiating repetitive payments by introducing the **Recurring Payments** feature. Once initiated, the details of these transfers can be viewed in the **Recurring Payments** screen. The user can also cancel a repeat transfer instruction, if so desired, from this screen using **Stop Recurring Payment feature**.

The **Recurring Payments** transaction enables users to review and keep track of all their payments set as recurring. This feature displays details of all recurring payments initiated from the current and savings accounts to which the user has access, irrespective of the channel from which they were initiated. These transactions can include Within Bank, domestic and cross border transfers along with transfers made to own accounts.

The **Recurring Payments** summary screen lists down payment transactions based on search criteria defined in the provided search fields. The User can repeat, cancel or download e-receipts and view status for each payment. The user can view additional details of a payment by selecting the provided reference number link and navigating to the **Recurring Payment Details** screen. The account filter option is provided at the top. (By default, primary account to

be selected) to list recurring payments. The **Filter** feature is provided to search the payments based on the search criteria.

The user can view additional details of a recurring payment by selecting the provided reference number link and navigating to the **Recurring Payment Details** screen. Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen. The user can sort the data on each column.

By clicking on **Manage Columns** option available on the screen, user can

- **Rearrange columns**
- **Remove/add specific columns**

① Note

1. The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
2. The column preferences setup by the user will be saved for future reference i.e., in case the user revisits this screen, the preferred columns will only be displayed in the table.
3. Swipe gesture is implemented on the Recurring Payments summary page showing actions -Copy, Stop as applicable. This functionality is only supported on mobile devices and tablets.

Perform anyone of the following navigation to access the **Recurring Payments** screen.

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**.
Under **Payments**, then click **More Actions**, and then click **Inquiries**, and then click **Recurring Payments**.
- From the Search bar, type **Payment Inquiries – Recurring Payments** and press **Enter**.

The **Recurring Payments** screen appears.

- [Recurring Payments – Summary](#)
This topic provides the systematic instructions to user for viewing the summary of recurring payment transactions and their respective statuses.
- [Recurring Payment Details](#)
This topic provides the systematic instructions to user to view the structure of recurring payment details, which are categorized for ease of review based on Execution Details and Payment History.

7.3.1 Recurring Payments – Summary

This topic provides the systematic instructions to user for viewing the summary of recurring payment transactions and their respective statuses.

To view / search for recurring payment records:

1. Navigate to the **Recurring Payments** screen.
The system displays a summary of all the recurring payments for the primary account.

Note

By default, the **Recurring Payments** screen displays the list of recurring payments set for the primary account.

2. Select the account from the drop-down list to view its recurring payments.
The system displays a summary of all the recurring payments in the selected account.
 - a. Click on **Standing Orders** to displays details on standing orders.
The **Recurring Payments - Standing Orders** screen is displayed.

Figure 7-11 Recurring Payments - Standing Orders - Summary

Payee	Search the transfers based on the payee name.
Payment Type	Search the transfers based on the type of payment type i.e. Within Bank, domestic or Cross Border transfer.
Network Type	Search the transfers based on the network via which the payment was performed.
From Amount	Search for transfers that have been initiated with an amount equal to or greater than the specified start amount. The amount in the From Amount field should always be less than the amount in the To Amount field.
To Amount	Search for transfers that have been initiated with an amount less than or equal to the specified end amount.

Table 7-10 (Cont.) Recurring Payments - Manage Column setup - Field Description

Field Name	Description
Status	Payment can be searched based on the status.
Host Reference Number	Search by Host Reference Number. Searching by this field will render all other search criteria ineffective. Other search criteria will be ignored if one searches by this field.

7.3.2 Recurring Payment Details

This topic provides the systematic instructions to user to view the structure of recurring payment details, which are categorized for ease of review based on Execution Details and Payment History.

The user can also stop the repeat transfers through **Stop Recurring Payment** feature.
To view the recurring payment record details:

1. Navigate to the **Recurring Payments** screen.
2. Select the account from the drop-down list to view its recurring payments.

The system displays a summary of all the recurring payments for the selected account.

3. Click on the **Host Reference Number** for the specific payment record to view the instructions set for the transfer.

The **Recurring Payment Details** screen appears with the details.

Figure 7-15 Recurring Payment Details

For more information on fields, refer to the field description table.

Table 7-11 Recurring Payment Details - Field Description

Field Name	Description
Transfer To	Display payee name.
Amount	Display amount with currency.
Transfer From	Display CASA account number from which the transfer is set.
Next Payment	Displays the date on which the next payment is scheduled.

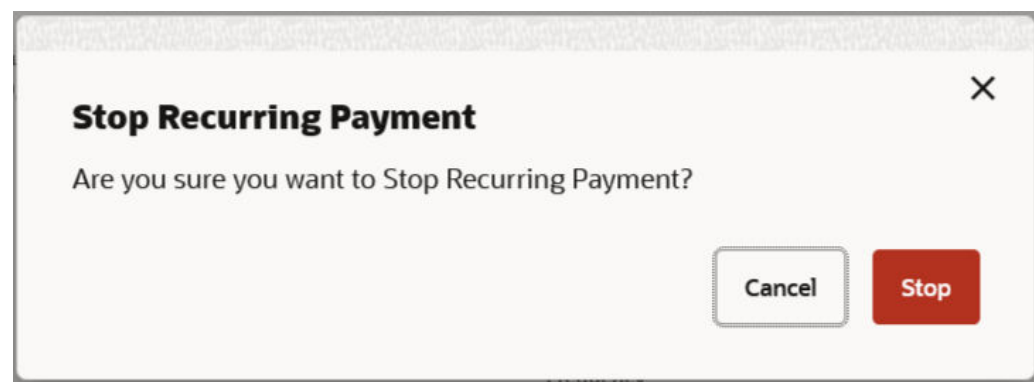

Table 7-11 (Cont.) Recurring Payment Details - Field Description

Field Name	Description
Execution Details	Information specified in below fields are related to execution details
Start Date	Displays the start date of the repeat transfer execution i.e., the date on which the repeat transfer first starts being executed.
End Date	Displays the last date on which repeat transfer instructions are executed.
Instances	Display the number of instances of the recurring payment.
Frequency	Displays the frequency in which the recurring payment is executed.
Number of Payments	Displays the number of payments made.
Payment Details	Displays the unstructured remittance information to the Payment Processor. This appears if the Payment Type is Domestic or Cross Border .
Remarks	Displays the narrative for the transaction.
Payment History	Information specified in below fields are related to payment history
Sr No	Displays the serial number for the transfer record.
Execution Date	The date on which the repeat transfer was executed.
Status	The status of the repeat transfer. The status can be: <ul style="list-style-type: none"> • Active • Failed

4. Additional following actions can be executed from the screen:

- Click the  (Copy) icon, the **Repeat Transfers – Ad hoc Payee** screen will appear with most of the data of the existing payment details prefilled, allowing you to make a payment to an unsaved payee.
- Click the  (Stop) icon to stop the repeat transfers maintained for the account. The **Stop Recurring Payment** confirmation popup appears.

Stop Recurring Payment popup

Perform one of the following actions:

- Click **Stop** to stop the repeat transfers maintained for the account.

The message confirming that the repeat transfer has been stopped/ cancelled appears.

- Click **Cancel** to cancel the transaction.
- Click **Home** to navigate to the dashboard.
- Click **e-Receipt** to generate the electronic receipt of the transaction.

For more information, refer the **e-receipt** section in the **Corporate Customer Services** User Manual.

7.4 UETR Status Inquiry

This topic provides the systematic instructions on how users can view the status of a payment based on the record's UETR number.

For SWIFT Payments, OBDX supports a detailed status screen. One needs to know the UETR number in order to view the status of the payment. The UETR reference number of an outbound payment can be seen in the details screen of Payment Status Inquiry. One can click on the reference number there itself to open up the **UETR Status Inquiry** screen.

For inbound payments though, one needs to visit this screen and enter the UETR reference number manually. The kebab menu is provided to access other payment inquiry related transactions.

To view / search for UETR status records:

1. Perform anyone of the following navigation to access the **UETR Status Inquiry** screen.

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments** .

Under **Payments** , then click **More Actions**, and then click **Inquiries** , and then click **UETR Status Inquiry**.

- From the Search bar, type **Payment Inquiries – UETR Status Inquiry** and press **Enter**.

The **UETR Status Inquiry** screen appears.

2. Enter the search criteria.
 - a. In the **UETR Number** field, enter a UETR transaction reference .
 - b. From the **Account Number** list, select a CASA (Current Account and Savings Account) account.
 - c. From the **Transaction Type** list, select the appropriate transaction type by which records to be searched.

7.5 FAQ

1. **What is an Incoming Payments?**

Incoming Payments is amount of money credited in user's account/s from the various Domestic and Cross Border channels.

2. **Can I view the incoming payments of all accounts under my party?**

You can view the incoming payments received in the accounts mapped to you as primary and linked accounts.

8

Favorites

This topic describes the functionality that allows users to mark payments as favorites, enabling quick access and use as templates for new payments.

This feature is beneficial for users who frequently transfer funds to the same recipients with similar details.

Users can mark a transaction as a favourite by selecting the option provided on the confirmation page of a payment.

The following types of payment transactions can be marked as Favourite transactions.

- Payments made to an account (Make Payment)

After a transaction is marked as a favourite, it appears in the user's favourite transaction list. To access it, the user simply needs to select the desired transaction from the displayed list. Once selected, the system presents the transaction details in editable mode. The user can then make any necessary changes and submit the transaction for processing.

Note

The **Long Press Gesture** feature is implemented. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like to Open Favourites screen. This functionality is only supported on mobile devices and tablets.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen. The user can sort the data on each column.

By clicking on **Manage Columns** option available on the screen, user can

- **Rearrange columns**
- **Remove specific columns**

Note

1. The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
2. The column preferences setup by the user will be saved for future reference i.e. in case the user revisits this screen, the preferred columns will only be displayed in the table.

Pre-requisites:

- Transaction and account access is provided to the corporate user

Features supported in the application

- View Favourite Transaction Details
- Initiate a Payment
- Remove Transaction from Favourite List

Perform anyone of the following navigation to access the **Favourites** screen.

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**.

Under **Payments**, then click **More Actions**, and then click **Favourites and Drafts**, and then click **Favourites**.

- From the Search bar, type **Favourites and Drafts - Favourites** and press **Enter**.

The **Favourites** screen appears.

- [Favorites – Summary](#)

This topic provides the systematic instructions for users to view a summary of all payment transactions marked as favorites.

- [FAQ](#)

8.1 Favorites – Summary

This topic provides the systematic instructions for users to view a summary of all payment transactions marked as favorites.

Users can search for a favourite transaction based on the favourite name or favourites types or debit account. They can view and initiate transactions using these favourite transactions as templates, and they can also delete any transaction from the favourite list.

To view and initiate a favorite transaction:

1. Navigate to the **Favourites** screen.

All the favourite transactions appear as a list on the **Favourites Summary** screen.

Figure 8-1 Favorites – Summary (Payments)

2. Perform one of the following actions:

- Click the  icon against the Favourite record to initiate a transaction towards payee.
- Click the  **Filter** to change filter criteria.

The **Filter** overlay screen appears.

Figure 8-3 Favourites (Payments) - Filter Criteria

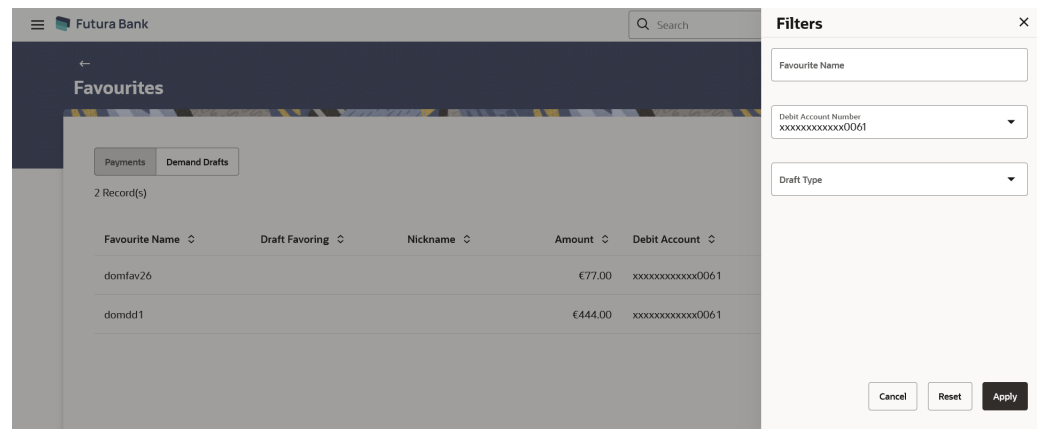

Figure 8-4 Favourites (Demand Draft) - Filter Criteria

- a. Enter the filter criteria.
- b. Click **Apply** to search the records.

Transaction records appears based on the updated criteria.

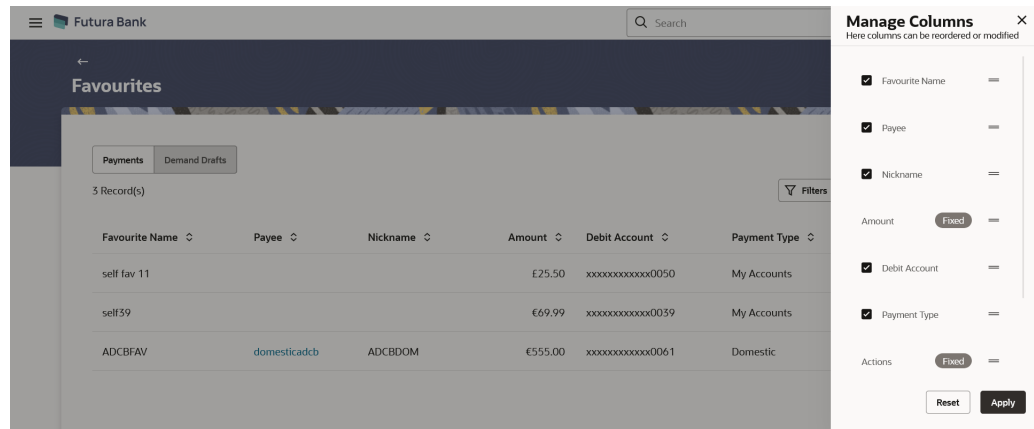

- Click the  **Manage Columns** icon to setup a column preference by rearranging or removing columns.

Figure 8-5 Favourites - Manage Column setup

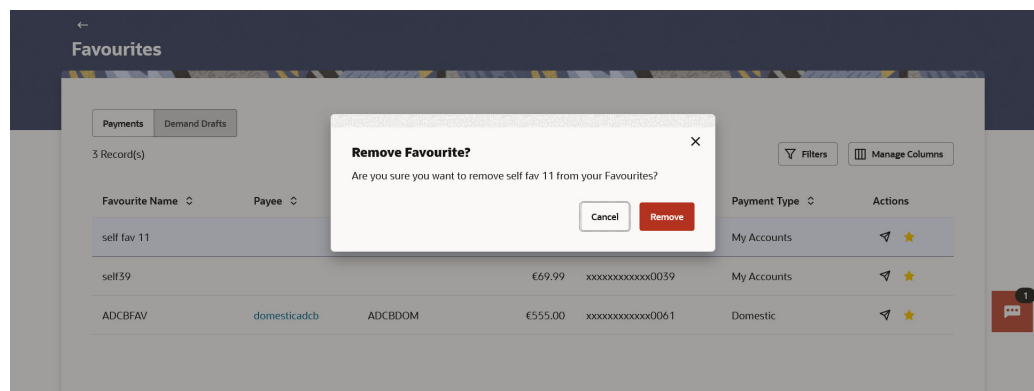

- Click the  icon against specific transaction record to delete it the from the favourites list.

Figure 8-6 Remove Favourites- Confirm

Perform one of the following actions:

- Click **Remove** to proceed with the deletion request.

The message confirming the removal of the transaction from the favourite list appears.

- Click **Cancel** to cancel the deletion process.

8.2 FAQ

1. Post transaction, if I add it to 'Favourites' where will this be reflected and what benefit will I gain from this?

The transaction will be saved in the 'Favourites' list. This transaction can then be used the next time you want to initiate a similar payment.

2. What type of actions user can perform from favourite transaction?

User can perform following actions from favourite transaction:

- View favorite transaction details
- Initiate a payment
- Remove the transaction from favorite list

3. What type of transactions user can perform from favourite transaction?

User can mark the following transactions as favourite:

- Payments done through Transfer Money (Ad hoc Payments are excluded)
- Draft Issuance

And then view / initiate payments and remove transactions from favourites.

4. Can I edit the details if I am reinitiating a transaction from my favourite transaction list?

Yes, you can edit the details and reinitiate a transaction by selecting favourite transaction.

9

Saved Drafts

This topic provides the systematic instructions to users for viewing all transactions that have been saved as drafts and are incomplete.

It also allows user to complete the transaction by redirecting it to the respective transaction screen.

Note

The Long Press Gesture feature is implemented. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like open Saved Drafts. This functionality is only supported on mobile devices and tablets.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen. The user can sort the data on each column.

By clicking on **Manage Columns** option available on the screen, user can

- Rearrange columns
- Remove specific columns.

Note

- a. The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
- b. The column preferences setup by the user will be saved for future reference i.e., in case the user revisits this screen, the preferred columns will only be displayed in the table.

Pre-requisites:

- Transaction and account access is provided to the corporate user

Features supported in the application

- View Saved Payment Drafts
- Initiate a Payment

To view payment drafts:

1. Perform anyone of the following navigation to access the **Saved Drafts** screen.
 - From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**. Under **Payments**, then click **More Actions**, and then click **Favourites and Drafts**, and then click **Saved Drafts**.

- From the Search bar, type **Favourites and Drafts - Saved Drafts** and press **Enter**. The list of all the saved drafts appears on the **Saved Drafts** screen.

Figure 9-1 Saved Drafts - Summary

Multiple Transfers

This topic provides the systematic instructions to users to initiate fund transfers to a group of recipients within a single transaction.

Through this feature, users can initiate transfers towards registered payees of different transfer type's i.e. Within Bank, Domestic and Cross Border transfers, with different transfer dates, all at once from a single screen. The kebab menu is provided to access other payment related transactions.

Note

The fields appearing in the domestic payments for both payee and payment are not regionalisation supported.

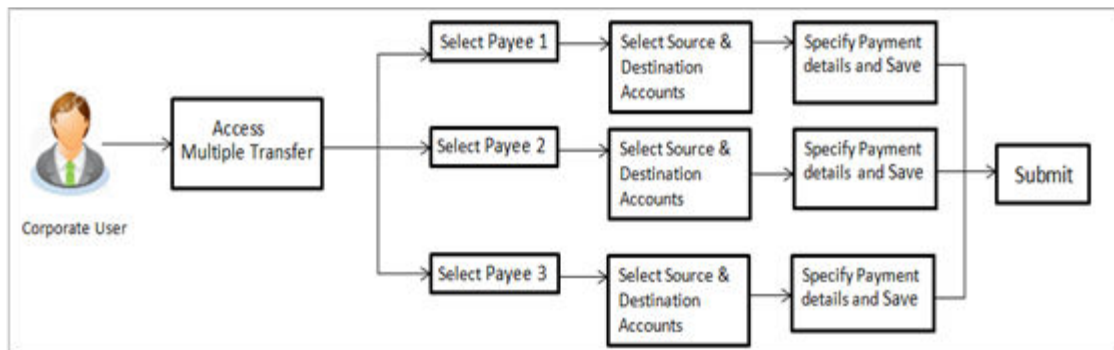

Pre-requisites:

- Transaction and account access are provided to the corporate user
- Approval rule set up for the corporate user to perform the actions
- Payees are maintained
- Transaction limits are assigned to the user to perform the transaction

Features supported in the application

- Multiple transfers allow the user to make payments
- To Existing Payees – by selecting registered payees

Figure 10-1 Multiple Transfers - Workflow

To transfer funds to multiple payees:

1. Perform anyone of the following navigation to access the **Multiple Transfers** screen.
 - From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments** .
Under **Payments** , then click **More Actions**, and then click **Multiple Transfers**.

- From the Search bar, type **Payments - Multiple Transfers** and press **Enter**. The **Multiple Transfers** screen appears.

Figure 10-2 Multiple Transfers

The screenshot displays the 'Multiple Transfers' interface. The main form is titled 'Payee 1' and includes the following fields and options:

- Payee:** Benny4XBordFU
- Account Number:** 47585YSA
- Account Name:** Benny R
- Payee Address:** Ronn Square,Camp Tower 1,Barcelona,ES

Add Payment Details	The link to add more details of the transfer. This field appears only for Cross Border Payee.
Customer Reference Number	The unique customer reference number for the transaction.
Note	Specify a note or remarks against the transfer.
Compliance Questions	The questions appear in compliance popup for regulatory purpose of AML.

2. From the **Payee** list, select the payee towards whom you wish to transfer funds.
The payee details of the selected payee appear.
3. If the Payee type is **Within Bank**.
 - a. From the **Transfer From** account list, select the account from which the transfer needs to be made.
 - b. From the **Pay By** list, select the currency type in which amount is transferred.
 - c. From the **Currency** list, select the appropriate currency.
 - d. In the **Transfer Amount** field, enter the transfer amount.
 - e. In the **Transfer When** field, select the option to indicate when the transfer is to take place.
Perform one of the following actions:
 - If you select the option **Now**, the transfer will be made on the same day.
 - If you select the option **Later**, from the **Transfer When** field, select the appropriate future date for when the transfer is to take place.
 - i. From the **Transfer Date** list, select the date on which the transfer is to take place.
 - f. In the **Charges to be debited from Debit Account** field, choose which debit account to use when paying the charges.

4. If the **Payee type** is **Domestic**;

select the network through which the transfer is to be processed. If the transfer is a domestic (India region) transfer, only those networks that are enabled on the basis of transfer details specified, will be selectable.

5. If the Payee type is **Cross Border**;

- a. From the **Transfer From** account list, select the account from which the transfer needs to be made.
- b. From the **Pay By** list, select the currency type in which amount is transferred.
- c. From the **Currency** list, select the appropriate currency.
- d. In the **Transfer Amount** field, enter the transfer amount.
- e. In the **Transfer When** field, select the option to indicate when the transfer is to take place.

Perform one of the following actions:

- If you select the option **Pay Now**, the transfer will be made on the same day.
- If you select the option **Pay Later**, from the **Transfer When** field, select the appropriate future date for when the transfer is to take place.
 1. From the **Transfer Date** list, select the date on which the transfer is to take place.
 - i. From the **Transfer Date** list, select the date on which the transfer is to take place.
- f. From the **Correspondence Changes** list, select the party by whom transfer charges are to be borne.
- g. In the **Charges to be debited from Debit Account** field, choose which debit account to use when paying the charges.
- h. In the **Transfer via Intermediary Bank** field, select the appropriate option.
- i. If you have selected **Yes** option in the **Transfer via Intermediary Bank** field, select the appropriate network for payment in the **Pay Via** field.

Perform one of the following actions:

- If you select **Swift** option:
 - i. In the **SWIFT code** field, enter the SWIFT code or search and select it from the lookup.
 - ii. Click **Verify** to fetch bank details based on Bank Code (BIC).
- If you select **National Clearing code** option:
 - i. In the **National Clearing code** field, enter the National Clearing code or search and select it from the lookup.
 - ii. Click **Verify** to fetch bank details based on Bank Code (BIC).
- If you select **Bank details** option:
 - i. In the **Bank Name** field, enter the bank name.
 - ii. In the **Bank Address** field, enter the complete address of the bank.
 - iii. From the **Country** list, select the country of the bank.
 - iv. From the **City** list, select the city to which the bank belongs.
- j. In the **Payment Details** field, enter the details of the fund transfer.

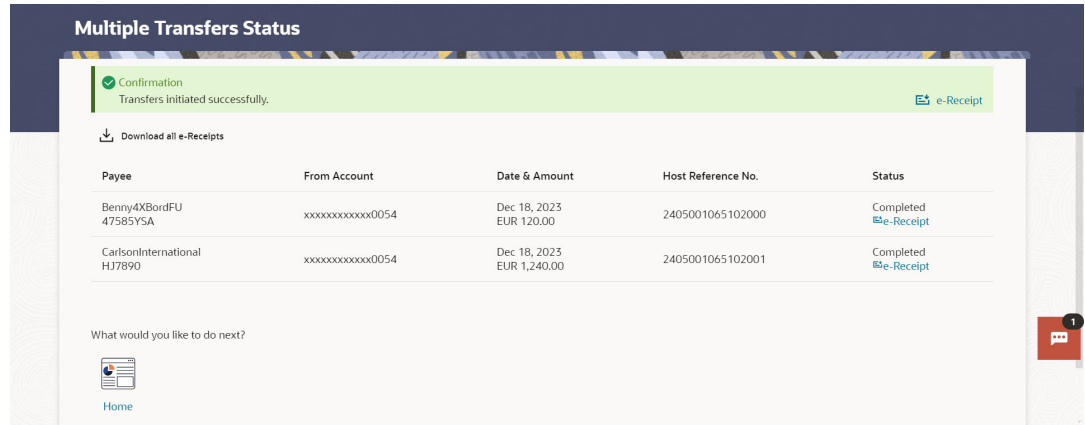

6. In the **Note** field, specify a note or remarks.
7. In the **Customer Reference Number** field, enter the customer reference number for the transaction.
8. Click in the **Compliance Questions** field, the system displays the overlay window.
Add the answer the question and **Submit**. This field is enabled only for **Within Bank & Domestic** payee.
9. Perform one of the following actions:
 - Click **Save** to save the payment record.
 - Click **Make a Copy and Save**, if you want to save a copy of the transaction.
 - Click **Reset fields** to clear the entered data.
10. Perform one of the following actions:
 - Repeat Steps similar steps **Payee 2** based on payee type.
 - Click **Add Another Payment** if you want to add another payment record.
11. Perform one of the following actions:
 - Click the  icon against a saved record to edit the transfer details of that record.
 - Click on the  icon against a record to delete that record.
12. Perform one of the following actions:
 - Click **Submit** to submit all the transfer records to the bank.
The **Review** screen appears.
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate back to the previous page.
13. Perform one of the following actions:
 - Verify the details and click **Confirm**.
The success message appears along with the status of transaction.
 - Click **Expand All** to view the payment details.
Click **Collapse All** to hide the payment details.
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to edit the transfer details.
The **Multiple Transfers** screen with saved fund transfer details appear in editable form.
14. Perform one of the following actions:
 - Click **Home** to navigate to the dashboard.
 - Click **Click Here** to view the status of each transfer.
The **Multiple Transfer - Status** screen appears.

Figure 10-3 Multiple Transfers Status

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 10-2 Multiple Transfers Status - Field Description

Field	Description
Payee	The payee towards whom fund transfer has been initiated. The payee nickname and the payee's account number are displayed.
From Account	The source account from which the funds are transferred.
Date & Amount	The date of transfer along with the amount that is transferred towards the payee's account.
Host Reference Number	The unique number generated on completion of the transaction in the Core Banking application.
Status	The status of the transaction. It could be: <ul style="list-style-type: none"> • Completed • Failed
Action	The link to download the e-receipt of transaction.
Failure Reason	The reason for which a transfer failed is displayed against the specific transfer record.

15. Perform one of the following actions:

- Click the **e-Receipt** link against a particular record for which you want to download the e-receipt.
- Click **Download all e-Receipts** link to download the e-receipts for all the transactions.
- [FAQ](#)

10.1 FAQ

- 1. Is there any limit on the number of payments that can be initiated at a time through multiple transfers?**

Yes, the limit as defined by the bank will be in place. You will be displayed an error message if you try to add another transfer record once this limit has been met.

- 2. What happens if the transaction amount is less than set Transaction Limit?**

If the transaction amount is less than the minimum limit or more than the maximum transaction limit set by the Bank, the user will not be able to initiate the transfer.

11

Issue Demand Drafts

This topic describes the functionality, which enables users to request the issuance of demand drafts payable to either pre-registered or newly added payees.

To initiate a demand draft issue request to the saved payee, the user must first ensure that the payee i.e., the recipient of the demand draft is registered as a demand draft payee through the **Add Demand Draft Payees** feature. Once the payee is registered, the user can initiate a request to the bank to issue a demand draft. The overlay screen on the **Saved Payee** field allows the user to select the payee from the list of saved payees.

Pre-requisites:

- Transaction access is provided to the corporate user.
- Transaction working window is maintained.
- Required payees are maintained.
- Transaction limits are assigned to user to perform the transaction.

Features supported in application

The user can request for two types of demand drafts:

- Domestic Demand Draft – Where the draft is payable within the country.
- Cross Border Demand Draft – Where the draft is payable outside the country.

Figure 11-1 Issue Demand Drafts - Workflow

1. Perform anyone of the following navigation to access the **Issue Demand Drafts** screen.
 - From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**. Under **Payments**, then click **More Actions**, and then click **Issue Demand Drafts**.
 - From the Search bar, type **Payments - Issue Demand Drafts** and press **Enter**.

The **Issue Demand Drafts** screen appears.

- [FAQ](#)

11.1 Demand Draft Issuance to Saved Payee

This topic provides the systematic instructions to users for initiating a request for a demand draft.

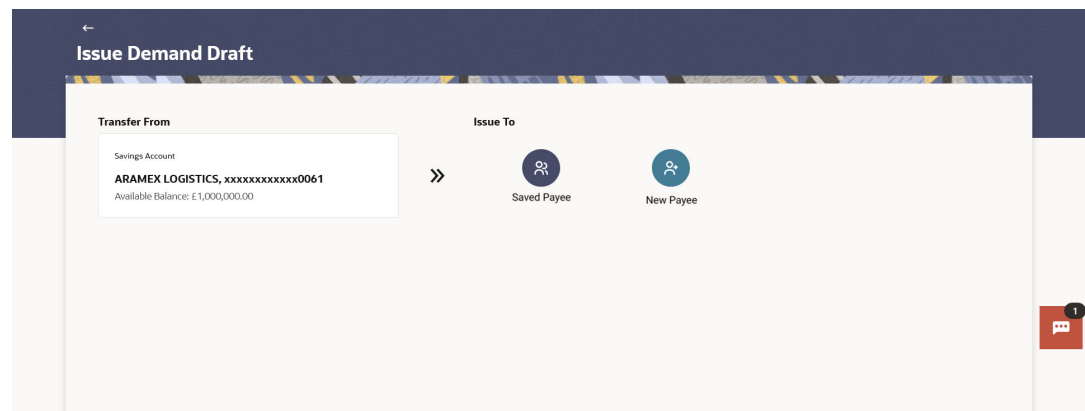

All Demand Draft payees (Domestic and Cross Border Demand Draft payees) created by the user are listed for selection. Details of the payee are auto populated on the transaction screen once a selection has been made. Based on the payee selection, the account for debiting funds towards the issue of the demand draft will get defaulted on the **Transfer From** field and user can change the source account if required. is selected. The user is then required to fill in details such as the amount for which the draft is to be drawn and the date on which the draft is payable, to initiate the demand draft request.

To issue demand draft to registered beneficiary:

1. Navigate to the **Issue Demand Draft** screen.

The **Issue Demand Draft** screen appears.

Figure 11-2 Issue Demand Draft

For more information on fields, refer to the field description table.

Table 11-1 Issue Demand Draft- Field Description

Field Name	Description
Issue To	Information specified in below fields are related to issue to
Saved Payee	Option to select the existing payee to whom you wish to issue the demand draft. All the demand draft payees maintained will be listed for selection.
New Payee	Option to add new payee to whom you wish to issue the demand draft.
Transfer From	Displays the debit account details such as Account Type, Account Nick Name/Account Name, Branch code, Account currency and Available Balance. All the user's own accounts will be listed for selection.

Table 11-1 (Cont.) Issue Demand Draft- Field Description

Field Name	Description
Badge Type	Displays the type of the source account from which the funds are to be debited towards the payee. The options are: <ul style="list-style-type: none"> • Islamic • Conventional
Account Details	Displays details like - nick name, account number, branch, currency, current balance etc. based on configuration for account in day0.
Available Balance	The available balance in the selected source account is displayed against the Transfer From field once an account is selected.

2. Click on the **Transfer From** card.

The **Transfer From** overlay screen will appear with all the user's own accounts.

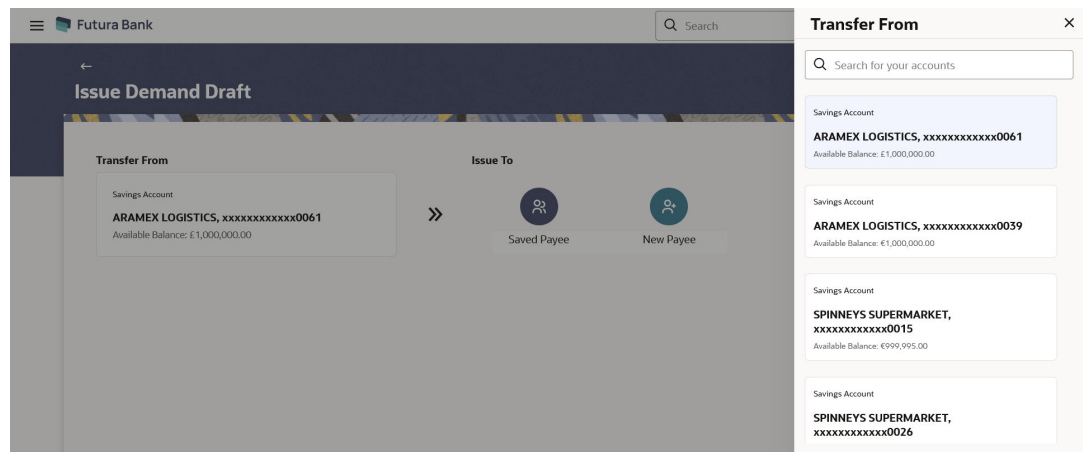

Perform one of the following actions:

- Select the source account from the list from which funds need to be drawn.
- Enter the search criteria and click the  icon to find the accounts.

Note

Users can search for accounts by typing a few characters (type to search). This can be done in fields such as Account Type, Nickname, Account Name, Account Number, Currency, and Branch.

Figure 11-3 Issue Demand Draft - Transfer From overlay screen

For more information on fields, refer to the field description table.

Table 11-2 Issue Demand Draft- Transfer From overlay screen - Field Description

Field Name	Description
Search for you account	Allow user to search own accounts with the Account Type, Nickname, Account Name, Account Number, Currency, and Branch. Note: All the user's own accounts will be listed on the Transfer From overlay screen. Refer Transfer From Drawer section.

3. Perform one of the following actions:

- Under the **Issue To** section, click on the **Saved Payee**.

The **Issue To** overlay screen will appear with the **Saved Payee** tab appears.

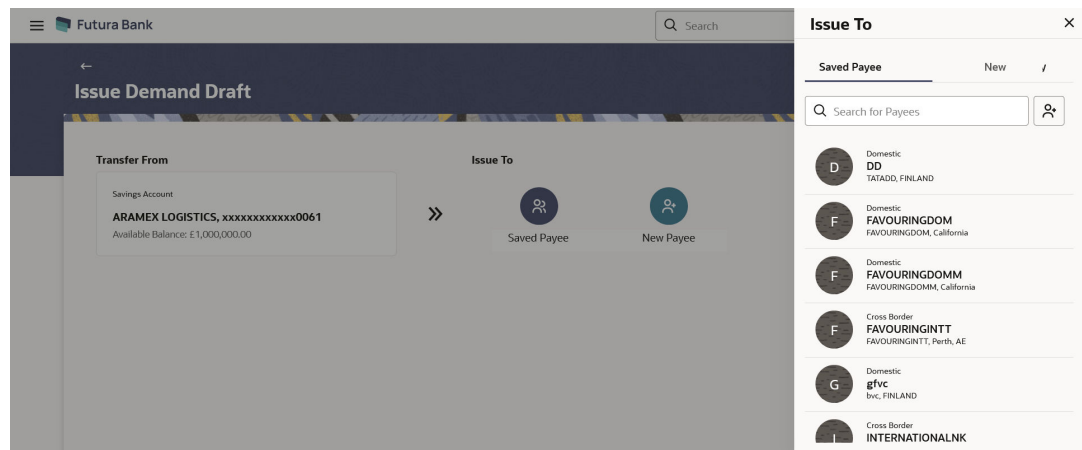

Note

- a. Users can also add new payee from the **New Payee** tab.
- b. Users can search the specific payees by typing a few characters (type to search). This can be done in fields such as Draft Type, Nickname, Favouring, City/Country.

- Click the  icon to add the new payee.

The system redirects to **Add Demand Draft Payee** screen.

Figure 11-4 Issue Demand Draft - Saved Payee

For more information on fields, refer to the field description table.

Table 11-3 Issue Demand Draft- Saved Payee - Field Description

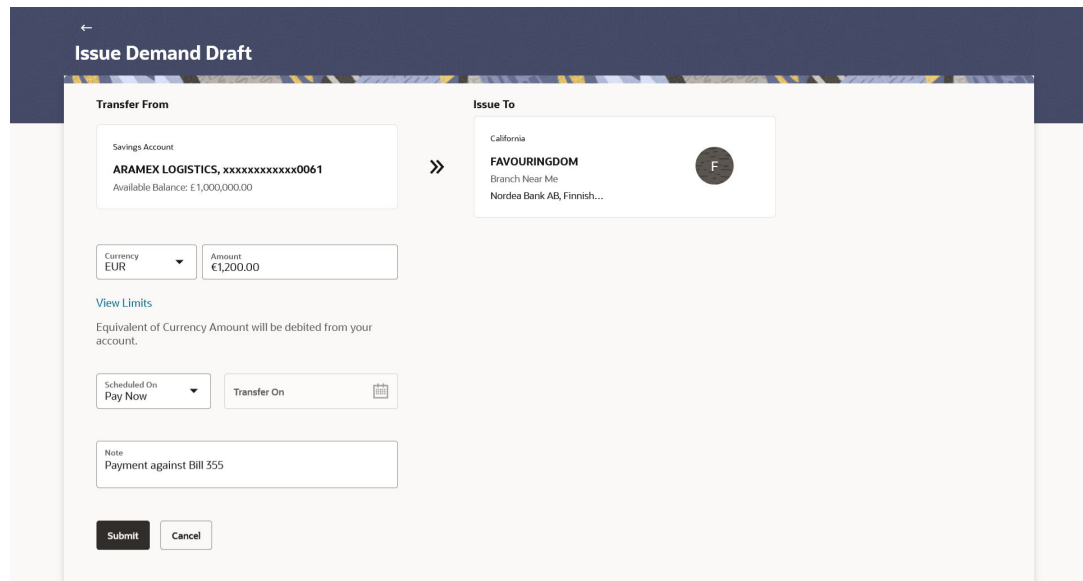

Field Name	Description
Search for payee	Allow user to search payee with the Draft Type, Nickname, Favouring, City/Country. Note: All the saved payees listed on the Saved Payees overlay screen.

Table 11-3 (Cont.) Issue Demand Draft- Saved Payee - Field Description

Field Name	Description
Details of Payee	The following details are displayed for each payee: Payee Photo/Initials, Draft Type, Nick Name, Favoursing.
Payee Photo/Initials	Displays the payee's photo, if uploaded, against each payee name. If the payee's photo is not uploaded, the initials of the payee will be displayed in place of the photo.
Draft Type	Displays the type of draft to be associated with the payee. It could be: <ul style="list-style-type: none"> • Domestic • Cross Border
Payee Nickname	Displays the payee by their nick names defined at the time of payee creation.
Draft Favoursing	Displays the name of the payee i.e., the intended recipient of the funds.

- On selection source account and beneficiary, the screen populates the **Transfer To** and **Payment Details**.

Figure 11-5 Issue Demand Draft

For more information on fields, refer to the field description table.

Table 11-4 Issue Demand Draft - Field Description

Field Name	Description
Transfer From	Select the source account from which the funds are to be debited towards the issue of the demand draft.
Issue To	Select the payee to whom the demand draft is to be issued.

Table 11-4 (Cont.) Issue Demand Draft - Field Description

Field Name	Description
Currency	Select the currency in which the draft is to be issued. In case the draft being issued is a domestic demand draft, the currency will be the local currency of the country.
Amount	Specify the amount for which the draft is to be issued.
View Limits	Link to view the transaction limits. For more information on Limits, refer View Limits section.
Scheduled On	The facility to specify the date on which the demand draft is to be issued. The options are: <ul style="list-style-type: none"> • Pay Now: Select this option if you wish to have the draft drawn on the same day. • Pay Later: Select this option if you wish to have the draft drawn at a future date. If you select this option, you will be required to specify the date on which the draft is to be drawn.
Transfer On	Specify the date on which the draft is to be issued. This field appears if the option Pay Later is selected from the Scheduled On list.
Transfer From	Select the source account from which the funds are to be debited towards the issue of the demand draft.
Note	Specify a note or remarks for the transaction, if required.

- From the **Currency** list, select the preferred currency.
- In the **Amount** field, enter the amount for which the draft needs to be issued.
- In the **Scheduled On** field, select the option to indicate whether the draft is to be issued for the same day or a date in the future.

Perform one of the following actions:

- If you select the **Pay Now** option, the draft will be issued on the same day.
 - If you select the option **Pay Later**, select the date for when the draft is to be drawn.
- In the **Note** field, specify a note or remarks.
 - Perform one of the following actions:
 - Click **Submit** to initiate the request for the issue of the demand draft.
The **Review** screen appears.
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate back to **Add Payee** screen.
 - Perform one of the following actions:
 - Verify the details and click **Confirm**.
The success message appears of request to create a new demand draft along with the reference number, host reference number, status and draft details.
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate back to **Add Payee** screen.
 - Click the **e-Receipt** link to download the e-receipt.

For more information refer the **e-Receipt** section in the **Corporate Customer Services User Manual**.

12. Perform one of the following actions from the confirmation page:
 - Click **Transaction Details** to view the details of the transaction.
 - Click **Go to Dashboard** to go to the **Dashboard** screen.
 - Click **Go to Payments Overview** to go to the Payment Overview page.
 - Click **Issue Another Demand Draft** to issue a new demand draft.

11.2 Demand Draft Issuance to New Payee

This topic provides the systematic instructions to users for initiating requests for demand drafts payable to payees not registered within the system.

Since the demand draft request is for an unregistered payee, the user is required to specify details of the payee along with demand draft details at the time of demand draft request.

Once the request for the demand draft is initiated, the user can register the payee as a payee by selecting the Add Draft Payee option provided on the confirm screen.

Users can initiate both domestic and cross-border requests for demand drafts. A Domestic Draft initiation request is a request to issue a draft that is payable at a location within the same country. Whereas a Cross Border demand draft request is a request to issue a draft that is payable at a location outside the country. To initiate an ad hoc Cross Border demand draft request, the user must specify the payee's details, including the amount and delivery specifications.

To initiate an demand draft request for new beneficiary:

1. Navigate to the **Issue Demand Draft** screen.
2. Click on the **Transfer From** card.

The **Transfer From** overlay screen will appear with all the user's own accounts.

- Select the source account from the list from which funds need to be drawn.
- Enter the search criteria and click the  icon to find the accounts.

Note

Users can search for accounts by typing a few characters (type to search). This can be done in fields such as Account Type, Nickname, Account Name, Account Number, Currency, and Branch.

3. Under the **Issue To** section, click on the **New Beneficiary**..

The **Issue To** overlay screen will appear with **New Beneficiary** tab appears to add new beneficiary.

- a. If you select the **Domestic** option in the **Draft Type** field:

The **Demand Draft Details** appears for the domestic draft.

Figure 11-6 Issue Domestic Demand Draft – New Payee

The screenshot shows the 'Issue Demand Draft' screen in the Futura Bank system. The 'Transfer From' section displays a savings account for ARAMEX LOGISTICS, XXXXXXXXXXXX0061, with an available balance of £1,000,000.00. The 'Issue To' section shows a 'New Payee' being selected. On the right, the 'Issue To' modal is open, showing the 'Draft Type' set to 'Domestic' and 'Demand Draft Details' for a domestic draft. The details include: Favouring Sam Desouza, City FINLANI, Deliver to Postal Address, and Address: 45 West Boulevard, Century St 9, Near Odessa, Texas, US, 685691. 'Cancel' and 'Proceed' buttons are visible at the bottom right of the modal.

- b. If you select the **Cross Border** option in the **Draft Type** field:
The **Demand Draft Details** appears for the cross border draft.

Figure 11-7 Issue Cross Border Demand Draft – New Payee

The screenshot shows the 'Issue Demand Draft' screen in the Futura Bank system, similar to Figure 11-6. The 'Transfer From' section is the same. The 'Issue To' section shows a 'New Payee' being selected. On the right, the 'Issue To' modal is open, showing the 'Draft Type' set to 'Cross Border' and 'Demand Draft Details' for a cross-border draft. The details include: Favouring Sam Desouza, Country United States, City los angeles, Deliver to Postal Address, and Address: 43 West Boulevard, Century St 9, Near Odessa, Texas, US, 685691. 'Cancel' and 'Proceed' buttons are visible at the bottom right of the modal.

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 11-5 Field Description

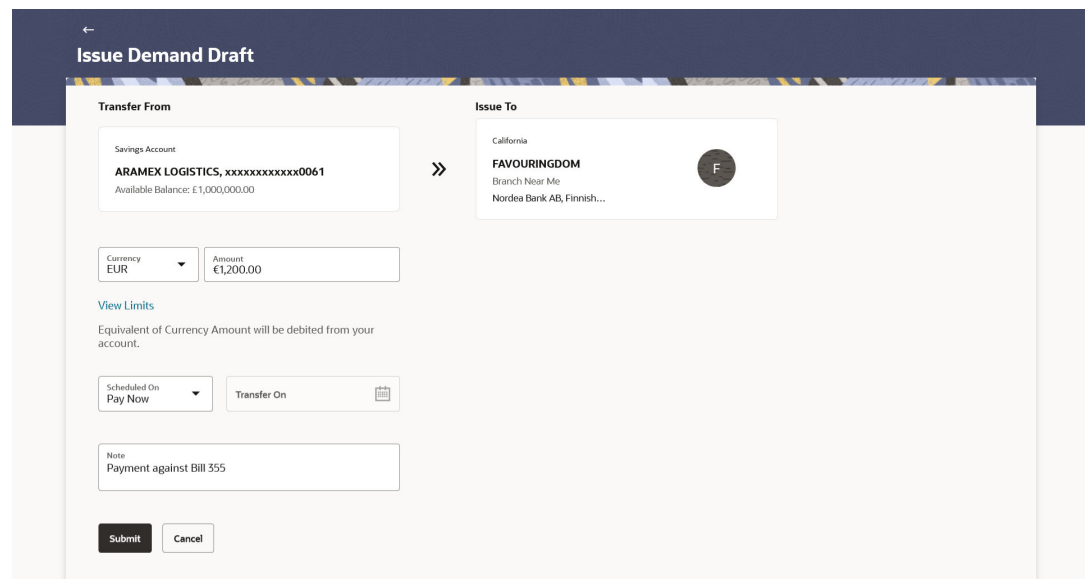

Field Name	Description
Draft Type	Specify the type of draft to be associated with the payee. It could be: <ul style="list-style-type: none"> • Domestic • Cross Border
Demand Draft Details	
Favouring	Specify the name of the payee as it is to be printed on the demand draft.
Country	Specify the country in which the draft is to be payable.
City	Specify the name of the city in which the draft is payable.

- c. In the **Favouring** field, enter the name of the payee as it is to be printed on the draft.
- d. From the **Country** drop-down list, select the country at which the draft is to be payable.

Note
This field is enabled only for the **Cross Border** demand draft type.

- e. From the **City** drop-down list, select the name of the city at which the draft is to be payable.
 - f. Perform one of the following actions:
 - Click **Proceed** to proceed with the details entered.
 - Click **Cancel** to cancel the process.
 - g. From the **Delivery to** drop-down list, select the appropriate draft delivery option.
4. On entering the source account and demand draft details, the screen populates the **Transfer To** and **Payment details**.

The options are: <ul style="list-style-type: none"> • Pay Now: Select this option if you wish to have the draft drawn on the same day. • Pay Later: Select this option if you wish to have the draft drawn at a future date. If you select this option you will be required to specify the date on which the draft is to be drawn.
Transfer On	Specify the date on which the draft is to be issued. This field appears if the option Pay Later is selected from the Scheduled On list.
Transfer From	Select the source account from which the funds are to be debited towards the issue of the demand draft.
Note	Specify a note or remarks for the transaction, if required.

- From the **Currency** list, select the preferred currency.
- In the **Amount** field, enter the amount for which the draft needs to be issued.
- In the **Scheduled On** field, select the option to indicate whether the draft is to be issued for the same day or a date in the future.

Perform one of the following actions:

- If you select the **Pay Now** option, the draft will be issued on the same day.
- If you select the option **Pay Later**, select the date for when the draft is to be drawn.

8. In the **Note** field, specify a note or remarks.
9. Perform one of the following actions:
 - Click **Submit** to initiate the request for the issue of the demand draft.
The **Review** screen appears.
 - Click **Cancel** to cancel the transaction.
10. Perform one of the following actions:
 - Verify the details and click **Confirm**.
The success message appears of request to create a new demand draft along with the reference number, host reference number, status and draft details.
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate back to previous screen.
11. Perform one of the following actions from the confirmation page:
 - Click **Transaction Details** to view the details of the transaction.
 - Click **Go to Dashboard** to go to the Dashboard screen.
 - Click **Go to Payments Overview** to go to the Payment Overview page.
 - Click **Issue Another Demand Draft** to issue a new demand draft.

11.3 FAQ

1. **Can I initiate a future dated demand draft issuance request?**
You can initiate a future dated demand draft issuance request using the Schedule Later option.
2. **What happens if I have set up a future dated draft issuance request, but don't have enough funds in my account on the transaction date for the transfer?**
Balance check will not be performed at the time of transaction initiation with future date. The transaction will get declined in case of insufficient funds in the account on the given transaction date.
3. **What happens if the transaction amount is less than the set Transaction Limit?**
You will not be able to proceed with the initiation of the demand draft issuance if the amount you have specified is less than that of the set minimum transaction limit.

12

MT101 Instruction

This topic provides the systematic instructions for users to perform domestic and international fund transfers using the MT101 module and SWIFT MT101 instructions.

This allows users to debit funds from a single account and credit to multiple domestic and/or international accounts in a single transaction. On the MT101 Instruction screen, all tag option fields will be replaced with channels banking user friendly options. An MT101 Instruction consists of two parts:

- a. **General Information (Sequence A):** This is mandatory and contains debit party information like Sender's Reference, Instructing Party and Requested Execution Date.
- b. **Transaction Details (Sequence B):** This component is repetitive and must be present at least once in the message.

Standard approval flow (Maker → Checker) is supported by the system, however, 'Send To Modify' feature is not supported. Bulk Uploads for MT101 Instructions is also not supported. Please note, this transaction will only be supported on desktop/laptop devices.

Pre-requisites:

- Transaction and account access are provided to the corporate user.
- Approval rule set up for the corporate user to perform the actions.
- Transaction working window is maintained.
- Transaction limits are assigned to the user to perform the transaction.
- External accounts to be added and mapped. Refer to section '16 - External Account'.

To initiate an MT101 instruction:

1. Perform anyone of the following navigation to access the **Create MT101 Instructions** screen.
 - From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**. Under **Payments**, then click **More Actions**, and then select **MT101 Instructions**, then click **Create MT101 Instructions**.
 - From the Search bar, type **MT101 Instructions - Create MT101 Instructions** and press **Enter**.

The **Create MT101 Instructions** screen appears.

Perform one of the following actions:

- If you select **Swift** option;

In the **Swift Code** field, enter the debtor bank details, if the account to be debited belongs to bank other than the receiver bank, and click **Verify**.
- If you select **NCC** option;

In the **NCC** field, enter the national clearing code details of debtor bank, if the account to be debited belongs to bank other than the receiver bank.
- 8. Enter required details in the **Transaction Details (Sequence B)** section;
 - a. In the **F/X Deal Reference** field, enter the foreign exchange contract reference number.
 - b. In the **Transaction Amount** field, enter the amount and currency for the respective transaction.
 - c. In the **Ordered Amount** field, enter the converted ordering amount and currency.
 - d. In the **Exchange Rate** field, enter the exchange rate while converting the transaction amount to ordering amount.
 - e. Click the setting  icon to enter further details of the entry of **Transaction Details (Sequence B)**.

The **Transaction Entry -1:Other Details** overlay screen appears.

- i. Enter all the required details.
- ii. Perform one of the following actions:
 - Click **Save** to save the details.
 - Click **Reset Details** to clear all entered details.
 - Click **Cancel** to navigate back to previous screen.

Note

Perform one of the following actions:

- Click **+Add Row** to add new row in the **Transaction Details (Sequence B)** section.
- Click  icon to delete the respective row.

9. Perform one of the following actions:
 - Click on the **Request** to initiate the MT101 instruction.
The **Review** screen appears.
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate back to previous page.
10. Perform one of the following actions:
 - Verify the details, and click **Confirm**.
The success message appears, along with the reference number.
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate back to previous page.
11. Perform one of the following actions:
 - Click **Home** to go to the Dashboard screen.
 - Click **Click View Other Transaction** to view the entered other details for transaction.
 - Click **Request New MT101 Instruction** to initiate new MT101 instrucon.
 - [MT101 Instructions Inquiry](#)
This topic describes the MT101 Instructions Inquiry screen, which enables users to view all MT101 instructions that have been raised.
 - [External Account](#)
This topic describes external accounts as those belonging to customers who are initiating MT101 instructions.
 - [MT101 Bilateral Agreement](#)
This topic describes the MT101 module, which facilitates the transfer of funds, both domestically and internationally, through the transmission of SWIFT MT101 instructions to the user's bank.

12.1 MT101 Instructions Inquiry

This topic describes the MT101 Instructions Inquiry screen, which enables users to view all MT101 instructions that have been raised.

This screen lists down instructions based on search criteria defined in the provided search fields. Users can search for a record based on the BIC Code used to initiate the instruction, the reference number generated by the host or even by defining the execution date range. The number of transactions that are displayed on the Payment Status Inquiry summary screen by default, depends on the configuration set by the bank.

User can view additional details by clicking on the hyperlink provided on the host reference number. On clicking the eye icon, the system generated MT101 message will be displayed in a pop-up, which can be downloaded in PDF format.

Perform on of the following navigation to access the **View MT101 Instructions** screen.

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments** . Under **Payments** , then click **More Actions**, and then select **MT101 Instructions**, then click **View MT101 Instructions**.
- From the Search bar, type **MT101 Instructions - View MT101 Instructions** and press **Enter**.

The **View MT101 Instructions** screen appears.

- [MT101 Instructions Inquiry - Summary](#)
This topic provides the systematic instructions to user for viewing and searching MT101 instruction records.
- [MT101 Instruction Inquiry Details](#)
This topic provides the systematic instructions to user to view comprehensive details for a selected MT101 instruction, specifically the General Information (Sequence A) and Transaction Entries (Sequence B) associated with a given MT101 instruction.

12.1.1 MT101 Instructions Inquiry - Summary

This topic provides the systematic instructions to user for viewing and searching MT101 instruction records.

To view / search for MT101 instruction records:

1. In the **MT101 Instructions Inquiry** screen, enter one or more search criteria as follows:
 - a. In the **Receiver BIC Code** field, enter the receiver's BIC code to search based on the BIC code of the recipient bank.
 - b. In the **Host Reference Number** field, enter a transaction reference number of a instruction initiated to search for a MT101 record on the basis of transaction reference number.
 - c. In the **Customer Reference Number** field, enter a customer reference number assigned by the user of a instruction initiated to search for a MT101 record.
 - d. In the **Execution Date Range** fields, enter the range in the Execution From Date and Execution To Date to fetch MT101 instructions with execution date within the mentioned date range.
 - e. Perform one of the following actions:
 - Click **Search**.
The search results appear; user can filter records based on the search criteria.
 - Click **Reset** to reset the search criteria.
 - Click **Cancel** to go to the Dashboard.

[Download](#)

Perform one of the following actions:

- Click the  **Download** download message in the pdf format.
- Click on the **Host Reference Number** link to view the MT101 Instructions Inquiry details.

The **MT Instruction Details** screen appears.

12.1.2 MT101 Instruction Inquiry Details

This topic provides the systematic instructions to user to view comprehensive details for a selected MT101 instruction, specifically the General Information (Sequence A) and Transaction Entries (Sequence B) associated with a given MT101 instruction.

This screen can be accessed through the MT101 Instructions Inquiry Summary screen by clicking on the transaction reference number hyperlink of a specific instruction record.

To view details of a MT101 instruction:

1. In the **MT101 Instructions Inquiry** screen, enter one or more search criteria as follows:
2. Click **Search**.

The system lists all the MT101 Instructions raised.

3. Click on the **Host Reference Number** link of the specific MT101 instruction record whose details you wish to view.

The **MT101 Instruction Details** screen appears with all the details of the MT101 Instruction.

Figure 12-8 MT101 Instruction Details

Note
The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 12-5 MT101 Instruction Details - Field Description

Field Name	Description
General Information (Sequence A)	
Receiver Bank Code	The BIC code of the receiver's bank. Click the ⓘ icon to view additional bank details.
Reference Number	The reference to the entire message assigned by the user.
Requested Execution Date	The date on which the MT101 Instruction is scheduled to execute.
Ordering BIC	The ordering BIC code of the receiver's bank. Click the ⓘ icon to view additional bank details.

Table 12-5 (Cont.) MT101 Instruction Details - Field Description

Field Name	Description
Account Service Institution (Swift)	Option provided if the account to be debited belongs to bank other than the receiver bank.
Transaction Entries (Sequence B)	This section displays the transaction entries as fetched from the host system. Following details are displayed for each transaction:
Reference Number	The reference number assigned to the transaction by the host system.
Credit Account Number	The creditor's account number
Debit Account Number	The debtor's account number
Transfer Amount	The currency and amount of the transaction. Click the ⓘ icon to view the F/X details.
Initiated On	The date on which the transaction has been initiated.
Correspondence Charges	Any charges that were involved in the transfer.
	Click > icon adjacent to transaction to view the details of the specific transaction. The following field appears when expanding the transaction.
Beneficiary Address	Displays the payee address.
Pay Via Swift	Displays the BIC code of the creditor's bank. Click the ⓘ icon to view bank details.
Payment Details	The specific details about the transaction.
Instruction Code	The instructions used between the ordering customer and the account servicer.
Regulatory Reporting Code	User to select BENEFRES , to enter Residence of the payee customer. Whereas, ORDERRES is to be selected to enter Residence of the ordering customer.
Regulatory Reporting Country	The address of payee or ordering customer based on the code selected.
Regulatory Reporting Information	Displays the Regulatory Reporting Information.

12.2 External Account

This topic describes external accounts as those belonging to customers who are initiating MT101 instructions.

These accounts are held and serviced at the financial institution who receives the MT101 request from our bank or at the final account servicing institution. These accounts could also be owned by the ordering customer which the instructing customer has explicit authority to debit, for example, a subsidiary account.

- [Add External Account](#)
This topic provides the systematic instructions to users for adding multiple external accounts for the purpose of ordering MT101 instructions.

- [List External Account](#)
This topic provides the systematic instructions to users for listing all added external accounts.

12.2.1 Add External Account

This topic provides the systematic instructions to users for adding multiple external accounts for the purpose of ordering MT101 instructions.

To add an external account:

1. Perform anyone of the following navigation to access the **Add External Account** screen.
 - From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments** .
Under **Payments** , then click **More Actions**, and then select **External Account** , then click **Add External Account**.
 - From the Search bar, type **External Account - Add External Account** and press **Enter**.

The **Add External Account** screen appears.

Figure 12-9 Add External Account

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 12-6 Add External Account - Field Description

Field Name	Description
Party ID	Displays the party ID of the user.
Party Name	Displays the party name of the user.
Bank Code / Swift Code	Enter debtor bank details, if the account to be debited belongs to bank other than the receiver bank.

Table 12-6 (Cont.) Add External Account - Field Description

Field Name	Description
Lookup SWIFT Code	Select this option to search the SWIFT code. For information, refer Lookups section. <div style="border: 1px solid #ccc; padding: 10px; margin: 10px 0;"> <p>Note</p> <p>Click Reset to clear the data entered.</p> </div>
Bank Details	Displays the BIC Code and Bank Details for Domestic type of payment type or the SWIFT Code and Bank Details for Cross Border type of payment type.
Company ID	Party ID of the company where the account is maintained.
Account Number	Account number for the applicable company ID.
Account Name	Account name for the applicable company ID.
Currency	Currency of the maintained account for the party.
IBAN	The International bank account number (IBAN) of the debtor.

2. In the **Swift Code** field, enter the debtor bank details, if the account to be debited belongs to bank other than the receiver bank, and click **Verify**.
3. In the **Company ID** field, enter the company id for the external account.
4. In the **Account Number** field, enter the account number for the applicable company id.
5. In the **Account Name** field, enter the account name for the applicable company id.
6. From the **Currency** drop-down list, select the applicable currency in which the account is maintained.
7. In the **IBAN** field, enter the IBAN number maintained for the account.

Note

Perform one of the following actions:

- Click **+Add Row** to add a new row.
- Click the  to delete the respective row.

8. Perform one of the following actions:
 - Click **Submit** to save the changes.
The **Review** screen appears.
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate back to previous screen.
9. Perform one of the following actions:
 - Verify the details and click **Confirm**.

The success message of Add External Account successfully appears along with the transaction reference number, and Status.

- Click **Cancel** to cancel the transaction.
10. Click **Home** to navigate to the dashboard.
- The request for external accounts gets submitted to the payment processor. Out of the box this is qualified with Oracle Banking Payments (OBPM).

12.2.2 List External Account

This topic provides the systematic instructions to users for listing all added external accounts.

To list an external account:

1. Perform anyone of the following navigation to access the **List External Account** screen.
 - From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments** . Under **Payments** , then click **More Actions**, and then select **External Account** , then click **List External Account**.
 - From the Search bar, type **External Account - List External Account** and press **Enter**.

The **List External Account** screen appears.

BOMLAEADXXX	MASHREQBANK PSC_AL GHURAIR CITY 33B-C,	ETRE	43543543	DGDFG

The 'Filter' overlay includes the following fields:

- BIC Code: BOMLAEADXXX
- Company ID
- Account Number
- Account Name
- Currency (dropdown menu)
- IBAN
- Search button
- Reset button

- Click the  icon to enter new criteria in Filter overlay screen.

Based on the defined criteria you can view the details.

Perform one of the following actions:

- Click **Search** to search with the new criteria.
- Click **Reset** to clear the entered data.

12.3 MT101 Bilateral Agreement

This topic describes the MT101 module, which facilitates the transfer of funds, both domestically and internationally, through the transmission of SWIFT MT101 instructions to the user's bank.

A bank can play one of 2 possible roles in an MT101 instruction:

- Executing Bank
- Forwarding Bank

Executing Bank Agreement

In this role, the MT101 instruction ends at the bank and it in turn leads the bank to initiate a payment (either a SWIFT or a local payment or an Within Bank transfer).

For this case, the bank needs to have an agreement in place with the sender bank.

- [Inbound Agreement](#)
This topic provides the systematic instructions to user to specify the debit accounts covered by an agreement, as well as the sender banks from which payment instructions will be accepted.
- [Outbound Agreement](#)
This topic provides the systematic instructions to user for defining the bilateral agreement applicable to the outward leg of an MT101 instruction when the bank acts as the forwarding bank.
- [Inbound Agreement Inquiry](#)
This topic provides the systematic instructions to users for listing the existing inbound agreements.

- [Outbound Agreement Inquiry](#)
This topic provides the systematic instructions to user for listing existing outbound agreements.

12.3.1 Inbound Agreement

This topic provides the systematic instructions to user to specify the debit accounts covered by an agreement, as well as the sender banks from which payment instructions will be accepted.

The agreement will have a time period defined during which it will be treated as a valid agreement.

The agreements initiated from OBDX will be stored in OBPM and therefore will be effective for incoming MT101 transactions that hit OBPM for the executing bank scenario.

To define inbound agreement:

1. Perform anyone of the following navigation to access the **Inbound Agreement** screen.
 - From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments** .
Under **Payments** , then click **More Actions**, and then select **MT101 Instructions**, then click **Inbound Agreement**.
 - From the Search bar, type **MT101 Instructions - Inbound Agreement** and press **Enter**.

The **Inbound Agreement** screen appears.

Table 12-8 Inbound Agreement - Field Description

Field Name	Description
Party ID	Displays the party ID of the user.
Party Name	Displays the party name of the user.
Start Date	The Start Date of the agreement.
End Date	The End Date of the agreement.
Cut Off Hour	Provide the Cutoff hour for the agreement.
Cut Off Minute	Provide the Cutoff minute for the agreement.
Allowed Accounts	Select all the accounts for which Inbound agreement is applicable.
Account Number	Displays all the accounts applicable to the party. User can select the accounts for which Inbound Agreement is required.
Currency	Displays currency for each account.
Limit	Displays limit maintained (if any) for each account
Allowed Senders	
Institution Code	The BIC code of the allowed sending institution.
Institution Name	Displays the institution name of the sender.

2. From the **Start Date** date picker list, select the start Date of the agreement.
3. From the **End Date** date picker list, select the end Date of the agreement.
4. In the **Cut Off Hour** field, enter the cut off hour.
5. In the **Cut Off Minute** field, enter the cut off minute.
6. Under the **Account Number** column, select the checkbox(es) against the accounts for which **Inbound Agreement** is required.
7. In the **Institution Code** field, enter the BIC code of the allowed sending institution, and click on the icon.

The system displays the **Search Swift Code** popup window, where user can search by **BIC Code & Country** or **Bank Name & Country**. Click **Search**, system displays the institution name of the sender.

 **Note**

- a. Click the  icon to search Institution code.
- b. Click on the **+ Add Row** to add a new detail record.
- c. Click the  icon to delete the record.

8. Perform one of the following actions:
 - Click **Submit** to submit all the transfer records to the bank.
The **Review** screen appears.
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate back to the previous page.
9. Perform one of the following actions:
 - Verify the details and click **Confirm**.

The success message inbound agreement creation appears along with the transfer reference number, and Status.

- Click **Cancel** to cancel the transaction.
- Click **Back** to navigate back to the previous screen.

10. Click **OK** .

12.3.2 Outbound Agreement

This topic provides the systematic instructions to user for defining the bilateral agreement applicable to the outward leg of an MT101 instruction when the bank acts as the forwarding bank.

To define outbound agreement:

1. Perform anyone of the following navigation to access the **Outbound Agreement** screen.

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments** .

Under **Payments** , then click **More Actions**, and then select **MT101 Instructions**, then click **Outbound Agreement** .

- From the Search bar, type **MT101 Instructions - Outbound Agreement** and press **Enter**.

The **Outbound Agreement** screen appears.

Figure 12-14 Outbound Agreement

The screenshot shows the 'MT101 Outbound Agreement' form. The fields are as follows:

- Party ID: ***980
- Party Name: Aramex Logistics Corporation
- Start Date: Apr 12, 2024
- End Date: Apr 18, 2030
- Receiver Code: BOMLAEADXXX
- Receiver Name: MASHREQBANK PSC

Positive Pay

This topic describes Positive Pay, an electronic authentication system that enables users to transmit cheque details to the bank prior to processing.

Positive Pay is a process to deter cheque fraud. A person issuing cheques enters details of the cheques into the system. The details get verified when the issued cheque circles back to the issuer's bank for clearing. Any discrepancy in the data cheque data entered on the system and the actual cheque received will result in payment being declined.

Pre-requisites:

Transaction access is provided to the corporate user.

Note

Positive Pay is out of the box available for India region only.

- [Add Positive Pay](#)
This topic provides the systematic instructions to users for creating Positive Pay requests for cheques that have been issued.
- [List Positive Pay](#)
This topic provides the systematic instructions to user for listing all the Positive Pay requests.

Direct Debits

This topic describes the information about the Direct Debits screen.

Users can view and manage their Direct Debit instructions, including the ability to cancel active or paused mandates. It provides a consolidated view of Standing Orders within the Recurring Payments inquiry screen, with separate tabs for each.

Users can view key details such as reference, payee, amount, frequency, start date, next collection date, and status. They can also filter records, download data, and access detailed views of individual instructions. The Cancel action is available for Active and Paused Direct Debits, subject to user permissions.

The feature supports both desktop and mobile views, including swipe actions on mobile for quick cancellation. Access is controlled based on user privileges, and an empty state message is displayed when no Direct Debit instructions are available.

By clicking on **Manage Columns** option available on the screen, user can.

- **Rearrange columns**
- **Remove/add specific columns**

① Note

1. Direct Debits are available out-of-the-box for the UK region.
2. Direct Debits are access-driven for both view and manage functionalities. Screen actions will be enabled based on user role and access management.
3. Fields on the summary and details pages are configurable through the regional configurator.
4. Direct Debits are not qualified with OBPM.

① Note

1. The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
2. The column preferences setup by the user will be saved for future reference i.e., in case the user revisits this screen, the preferred columns will only be displayed in the table.
3. Swipe gesture is implemented on the Recurring Payments summary page showing actions -Copy, Stop as applicable. This functionality is only supported on mobile devices and tablets.

Navigation Path:

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**. Under **Payments**, then click **More Actions**, and then click **Inquiries**, and then click **Recurring Payments**. Under **Recurring Payments** click **Direct Debits**.
- From the Search bar, type **Payment Inquiries – Recurring Payments** and press **Enter**. Under **Recurring Payments** click **Direct Debits**.

View Limits

This topic provides the systematic instructions to user for viewing their transaction initiation limits.

1. Click the **View Limits** link to check the transfer limit.
From the **Channel** list, select the appropriate channel to view its limits.

The utilized amount and the available limit appears.

Figure 15-1 View Limits

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 15-1 View Limits - Field Description

Field Name	Description
Channel	Channel for which the user wants to view the limits. This will be defaulted to the user logged in channel.
Available Limits	
Amount	An amount range between the transactions can be initiated from the selected channel.

16

Forex Deal

This topic enables users to buy or sell foreign currency at agreed exchange rates for payments, conversions, or hedging purposes.

A Forex Deal in OBDX allows corporate users to buy or sell foreign currency for supported currency pairs at predefined exchange rates. It is primarily used for cross-border payments, currency conversion, and hedging foreign exchange risk.

The system supports different deal types such as Spot (immediate settlement), Forward (future-dated settlement), and Swap (combination of buy and sell deals). Users can book deals, view details, and utilize them in payment transactions.

Each forex deal is defined by key attributes like deal type, currency pair, buy/sell indicator, amount, exchange rate, and value date. Once confirmed, the system generates a deal reference number, and the deal can be linked to relevant transactions.

Note

1. Approval is not applicable to FX deal booking transactions.
2. Limits are not applicable for FX deal booking transactions.

Navigation Path

1. From the Dashboard, click **Toggle menu**, click **Menu**, then click **Forex Deal**. Under **Forex Deal**, click **Book Deal**.
 2. From the Search bar, type **Forex Deal - Book Deal** and press **Enter**.
- [Book Forex Deal](#)
This topic describes the systematic instructions to buy or sell foreign currency at a selected exchange rate for immediate or future transactions.
 - [View Forex Deal](#)
This topic provides information of booked forex deals, including rates, amounts, and status.

16.1 Book Forex Deal

This topic describes the systematic instructions to buy or sell foreign currency at a selected exchange rate for immediate or future transactions.

1. Navigate to the Forex Deal screen.
2. Click **Book Deal** to initiate and book a forex deal for the selected currency pair and amount.

The **Book Forex Deal** screen is displayed.

Figure 16-1 Book Forex Deal

The screenshot shows the 'Book Forex Deal' interface. At the top, there is a back arrow and the title 'Book Forex Deal'. Below the title, there are two dropdown menus: 'Party' with 'Aramex Logistics Corporation' selected and 'Settlement Account' with 'xxxxxxxxxxxx0039' selected. Under the 'Deal Details' section, there are three radio buttons for 'Deal Type': 'Spot' (selected), 'Forward', and 'Swap'. Below that is a 'Duration' dropdown menu with 'CASH' selected. The 'Currency Pair' dropdown menu has 'EUR-CAD' selected. Under 'Transaction Type', there are two radio buttons: 'BUY' (selected) and 'SELL'. A 'Buy Amount' text input field is present with a 'Required' label below it. At the bottom, there are three buttons: 'Get Quote' (highlighted in black), 'Cancel', and 'Back'.

3. Specify the fields on **Book Forex Deal** screen.

For more information on fields, refer to the field and description table.

Table 16-1 Book Forex Deal - Field Description

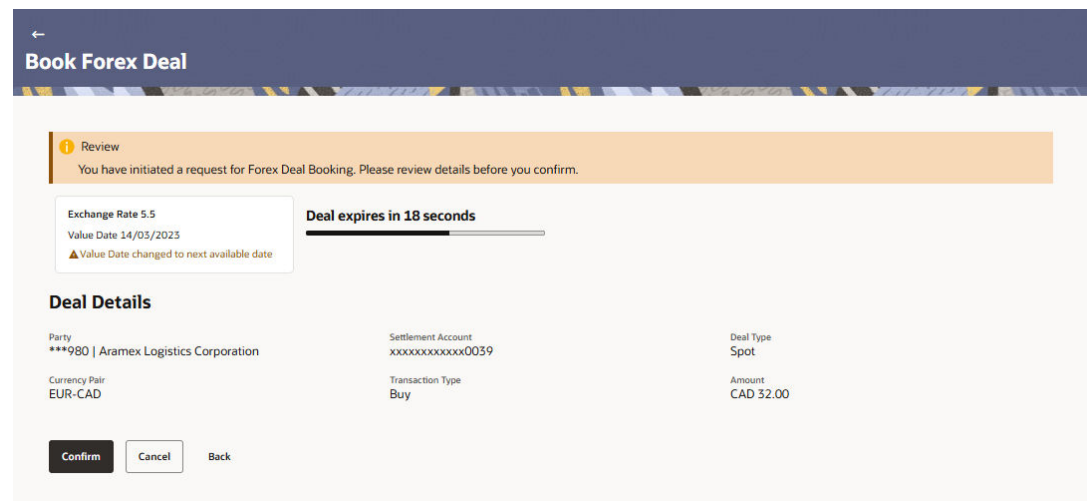

Field Name	Description
Fields can be configured using the regional configurator.	
Party	Select the corporate entity for which the forex deal is being booked.
Settlement Account	Select the account that will be used to settle the forex transaction.
Deal Type	Select the Deal Type : <ul style="list-style-type: none"> • Spot – Immediate settlement • Forward – Future dated settlement • Swap – Combination of buy and sell deals Note: Out of the box Spot is qualified with OBTR.
Duration	Select the deal duration based on settlement requirements and deal type. Durations are configured as per requirement using regional configurator.
Swap	Select the swap type from the drop-down list. The available options are: <ul style="list-style-type: none"> • Spot-Forward • Forward-Forward This field will be displayed only after the Deal Type is selected as Swap .
Currency Pair	Select the currency pair for the forex deal. Currency pair is fetched from Common core.

Table 16-1 (Cont.) Book Forex Deal - Field Description

Field Name	Description
Transaction Type	Select the transaction type: The available options are: <ul style="list-style-type: none"> • Buy • Sell This field is displayed only after a Currency Pair is selected.
Amount	Specify the amount to be purchased or sold for the selected currency pair.
Get Quote	Click Get Quote to fetch the applicable exchange rate.
Cancel	Click Cancel to abort the forex deal booking process.
Back	Click Back to navigate to the previous screen.

4. Click **Get Quote** to fetch the applicable exchange rate.

The exchange rate is retrieved from the host system (OBTR) and displayed on the screen. If the value date is changed, the updated date is also reflected on the screen. A timer is displayed within which the user must confirm the deal. If the deal is not confirmed within this time, the Confirm button is disabled, and the user must fetch the exchange rate again.

Figure 16-2 Book Forex Deal - Quote

5. Perform one of the following actions.
 - a. Click **Confirm** to validate the entered details and proceed with booking the forex deal.
 - b. Click **Cancel** to abort the forex deal booking process.
 - c. Click **Back** to navigate to the previous screen.

16.2 View Forex Deal

This topic provides information of booked forex deals, including rates, amounts, and status.

1. Navigate to the **Forex Deal** screen.
2. Click **View Forex Deal** to view a forex deal for the selected currency pair and amount.

The **View Forex Deal** screen is displayed.

Regulatory Changes for Cross-Border Payments – MT to MX Migration Enhancements

This topic describes the information about **Regulatory Changes for Cross-Border Payments – MT to MX Migration Enhancements** workflow.

This section provides guidance for retail users about the enhancements introduced as part of the MT to MX migration for cross-border payments in Oracle Banking Digital Experience (OBDX). The focus is on improved flexibility, address format support, structured remittance capabilities, and compliance with ISO20022 standards.

- [Address Types Enhancement](#)
This topic describes the information about **Address Types Enhancement** workflow.
- [Remittance Information Enhancement](#)
This topic describes the information about **Remittance Information Enhancement** workflow.
- [Extended Character Set Enhancement](#)
This topic describes the information about **Extended Character Set Enhancement** workflow.
- [Verification of Payee Enhancement](#)
This section provides detailed instructions for configuring the bank's payee verification feature.
- [Purpose of Payment](#)
This topic describes the information about **Purpose of Payment** workflow.

17.1 Address Types Enhancement

This topic describes the information about **Address Types Enhancement** workflow.

Users can now enter payee addresses in one of three types:

- **Structured**
- **Hybrid**
- **Unstructured**

The availability of these types depends on backend configurations by the bank. Bank can also configure the fields under each address type.

Table 17-1 Payee Addressess

Field	Description
Structured	14 detailed fields supported: Country, Department, Sub-Department, Street Name, Building Number, Building Name, Floor, P.O. Box, Room, Post Code, Town Name, Town Location Name, District Name, Country Subdivision

Table 17-1 (Cont.) Payee Adressess

Field	Description
Hybrid	All Structured fields + Address Line 1 & Address Line 2
Unstructured	Address Line 1, Address Line 2, Address Line 3 (City + Country Code)

- When Multiple Types are Enabled by the bank: Users will choose the address type while entering payee details.
- When Single Types is Enabled: Address input fields will auto-load as per the bank-configured address type.
- Fields under each type will be displayed as per the bank configuration.
- Entering Payee addresses are supported on below screens:
 - **Add Account Payee – International**
 - **Tranfers Adhoc Payment – International**

Navigation Path

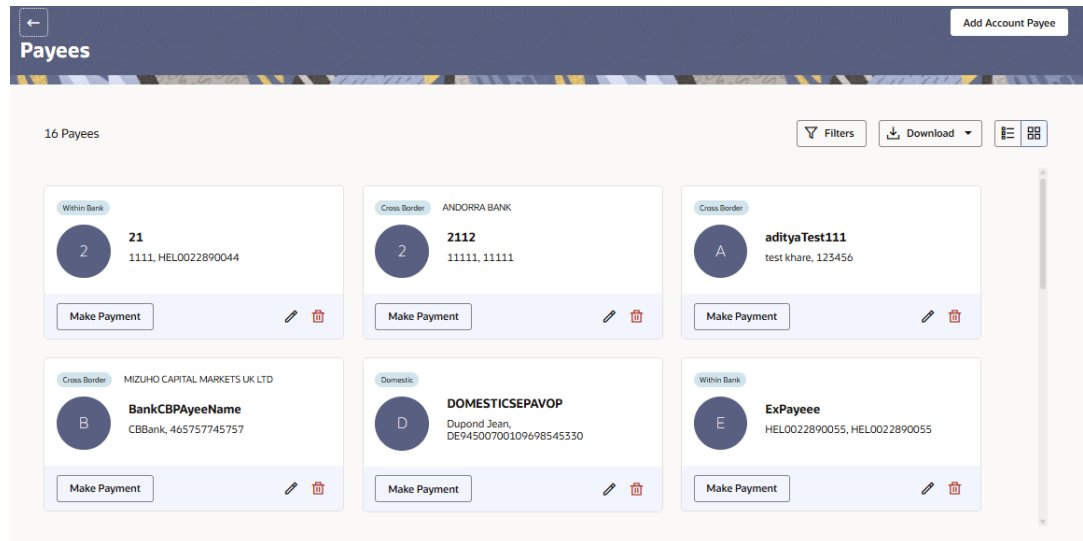

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Transfers & Bill Payments**. Under **Transfers & Bill Payments**, then click **Payments**, click **More Actions**, and then click **Manage Payees**.
- From the Search bar, type **Payees – Manage Payees** and press **Enter**.
- [Add Account Payee](#)
This topic provides information on adding an payee account.
- [Transfer Adhoc Payee](#)
This topic provides information on transfer an adhoc payee.

17.1.1 Add Account Payee

This topic provides information on adding an payee account.

1. From **My Payments** screen, click **More Actions**, and then click **Payees** and then click **Manage Payees**.

The **Payees** screen is displayed.

Figure 17-1 Payees

- On **Payee** screen, click **Add Account Payee**.
The **Add Account Payee** screen is displayed.

Figure 17-2 Add Account Payee

The screenshot shows the 'Add Account Payee' screen with a header bar containing a back arrow, the title 'Add Account Payee', and 'Cancel' and 'Submit' buttons. Below the header, there are three tabs: 'Within Bank', 'Domestic', and 'Cross Border'. The 'Cross Border' tab is selected. The form is divided into two sections: 'Account Details' and 'Personal Details'. Each field is marked as 'Required'.

Account Details

- Account Number (Required)
- Confirm Account Number (Required)
- Account Name (Required)

Personal Details

- Nick Name (Required)
- Email ID (+)

- On **Add Account Payee** screen, click **Cross Border**.
The **Add Account Payee - Cross Border Details** are displayed.

Figure 17-3 Add Account Payee - Cross Border Details
Note

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 17-2 Add Account Payee - Cross Border Details

Field	Description
Account Details	This section capturing the beneficiary's bank account-related information
Account Number	Specifies the beneficiary's bank account number.
Confirm Account Number	Re-enter the account number to validate accuracy.
Account Name	Displays or captures the name of the account holder.
Lei Code	Legal Entity Identifier (LEI) code that uniquely identifies a financial entity
Bank Details	Section capturing beneficiary's bank and routing information
Select Bank	Allows the user to select the beneficiary's bank from the available list

Table 17-2 (Cont.) Add Account Payee - Cross Border Details

Field	Description
NCC	National Clearing Code used for domestic routing within the country
SWIFT	International routing code identifying the beneficiary's bank for cross-border transfers
National Clearing Code	Alternative or full form of NCC, used for identifying domestic bank routing
Lookup	Enables searching for bank details based on account or routing information
Intermediary Bank	Specifies a correspondent bank used when the beneficiary's bank cannot receive the transfer directly
Transfer Via Intermediary Bank	Option to route payment through an intermediary/correspondent bank if required
Personal Details	Section capturing beneficiary's personal profile information
Nickname	Specify the user-defined recognizable name for the beneficiary
Email	Email address of the beneficiary for communication or notification purposes
Country	Specifies the country of the beneficiary.

4. On **Personal Details** section, select the **Country** to specify the address.

The available options under address are:

- **Simple Address**
- **Detailed Address**
- **Compact Address**

Figure 17-4 Simple Address

The screenshot shows a web form titled "Add Account Payee". At the top right, there are "Cancel" and "Submit" buttons. The form contains the following fields:

- Address:** A dropdown menu currently showing "Simple Address".
- Department:** A text input field.
- Sub-department:** A text input field.
- Address Line 1:** A text input field with a "Required" label below it.
- Address Line 2:** A text input field with a "Required" label below it.

17.3 Extended Character Set Enhancement

This topic describes the information about **Extended Character Set Enhancement** workflow.

Users can now enter payee and payment information using extended characters supported by the MX standard when making international payments. This enhancement applies to all transaction types, including saved and adhoc payees, low value payments, and standing instructions (SI). Existing configuration retained for banks not transitioning to MX.

17.4 Verification of Payee Enhancement

This section provides detailed instructions for configuring the bank's payee verification feature.

The configuration allows bank user to enable or disable the payee verification and selecting the type of verification- VoP (Verification of Payee) & CoP (Confirmation of Payee).

When enabled, the system will initiate a payee verification request during transactions and display the resulting status or message to the end user. The type (VoP or CoP) is selected in the backend configuration by the bank user. Based on the verification type verification service will be invoked and on successful verification, the result appears on the transaction screen on saving the payee.

Note

CoP is applicable only for UK regions.

When disabled, the system will skip payee verification during transactions. No verification request is sent, and no verification messages or results will be displayed to the user.

Based on the verification response, the messages are displayed on the screen with below actions possible.

1. When Account Name is matched.

Figure 17-20 Account Name Matched

The screenshot displays the 'Add Account Payee' interface. At the top, there are navigation arrows and 'Cancel' and 'Submit' buttons. Below the title, there are three tabs: 'Within Bank', 'Domestic', and 'Cross Border'. The 'Account Details' section includes fields for IBAN (masked with asterisks), Confirm IBAN (DE94500700109698545330), Account Name (Aakash J Jain), and LeI Code. Below this, the BIC Code (DEUTDEFFXXX) and Bank Address (DEUTSCHE) are displayed. An 'Edit Payee Details' button is present. The 'Verification Status' section shows a green checkmark and the text 'Verified' with a sub-message: 'The payee name matches the account holder name.' The 'Personal Details' section features a profile icon with initials 'A.A.', a 'Nickname' field (marked as 'Required'), an 'Email' field with an add button '+', and a 'Country' dropdown menu set to 'Select'.

2. When Account Name is closely matched.

Figure 17-21 Account Name Closely Matched

The screenshot displays the 'Review Edit Account Payee' interface. At the top, there is a navigation bar with a back arrow, the title 'Review Edit Account Payee', and buttons for 'Back', 'Cancel', and 'Confirm'. Below the navigation bar, the 'Payee Type' is listed as 'Domestic'. The 'Account Details' section includes the following information: IBAN Number (DE94500700109698545330), Account Name (Dupond Jean), LeI Code (12340094942115080012), and BIC Code (DEUTDEFFXXX). A 'Verification Status' box contains an error message: 'Error, Proceeded with Risk' and a sub-message: 'There was an error during payee verification, however you have opted to proceed with risk.' The 'Personal Details' section shows a circular profile picture with the letter 'D' and a nickname 'DOMESTICSEPAVOP'.

3. When Account Name does not matched.

Figure 17-22 Account Name not Matched

The screenshot displays the 'Review Edit Account Payee' interface. At the top, there is a navigation bar with a back arrow, the title 'Review Edit Account Payee', and buttons for 'Back', 'Cancel', and 'Confirm'. Below the navigation bar, the 'Payee Type' is listed as 'Domestic'. The 'Account Details' section includes the following information: IBAN Number (DE94500700109698545330), Account Name (Dupond Jean), LeI Code (12340094942115080012), and BIC Code (DEUTDEFFXXX). A 'Verification Status' box contains an error message: 'Error, Proceeded with Risk' and a sub-message: 'There was an error during payee verification, however you have opted to proceed with risk.' The 'Personal Details' section shows a circular profile picture with the letter 'D' and a nickname 'DOMESTICSEPAVOP'.

4. When there is an error in retrieving the Account Name.

Figure 17-23 Error in Retrieve

The screenshot shows the 'Edit Account Payee' interface. At the top, there are tabs for 'Within Bank', 'Domestic', and 'Cross Border'. Below this is the 'Account Details' section with the following information:

- IBAN Number: DE94500700109698545330
- Account Name: Dupond, Jean
- LeI Code: 12540094942115080012
- BIC Code: DEUTDEFFXXX

There is an 'Edit Payee Details' button. Below that is the 'Verification Status' section, which displays a red error message: 'Unable to verify'. The message text reads: 'Unable to verify the payee at the moment. Please try again later or continue with the risk.' Below the message are two buttons: 'Proceed with risk' and 'Retry Verification'.

The 'Personal Details' section includes:

- A profile icon with the letter 'D'.
- Nickname: DOMESTICSEPAVOP
- Email: (empty field with a '+' button)
- Country: Select (dropdown menu)

At the top right of the form, there are 'Cancel' and 'Submit' buttons.

17.5 Purpose of Payment

This topic describes the information about **Purpose of Payment** workflow.

Banks can now maintain purpose codes from the backend for international payments. Users can select a purpose code from a new dropdown Purpose - displaying both the purpose code and the description - when making international payments from below screens –

- **Transfers – Existing Payee**
- **Transfers – Adhoc Payee**
- **Repeat Transfers – Existing Payee**
- **International Low Value Payment**
- **Multiple Transfers**

Figure 17-24 Purpose of Payment

The screenshot displays the 'Make Payment' screen with the following sections:

- Header:** Includes navigation arrows, 'Save As Draft', 'Cancel', and 'Proceed to Pay' buttons.
- Account Selection:** Shows 'NCCPAYEE' (NCCPAYEE, 500700) with a 'Change' button.
- Transfer From:** Lists 'Conventional Account' with details: 'xxxxxxxxxx0011', 'Montero L Hill | EUR | HEL | Active | Saving | Conventional', and 'Current Balance : €1,093,806.45'.
- Transfer Details:** Includes 'Transfer Currency' (CHZ), 'Scheduled On Pay Now', and 'Transfer On 11/24/2025'.
- Fees & Charges:** Features 'Calculate Charges' and 'Correspondence Charges' dropdowns. A 'Deduct Charges From' dropdown is set to 'xxxxxxxxxx0011' with a 'Current Balance : €1,093,806.45' indicator.
- Additional Details:** Contains a 'Payment Purpose' dropdown menu with options: 'Select', 'CCRD-CreditCardPayment', 'AEMP-ActiveEmploymentPolicy', 'CORT-Trade Settlement Payment', 'CBFF-CapitalBuilding', 'ADVA-AdvancePayment', 'FEES-Fees', and 'COMM-Commission'. Below this are two text input fields for 'What is the business's trading name?' and 'What is the full registered business name?', each with a 'Compliance Questions' link.
- Navigation:** A 'Next' button is located at the bottom right.

Note

Purpose code maintenance has also been extended to domestic payments, enabling banks to customize domestic payment screens to include the purpose of payment field when required.
