Purpose

This guide is designed to help acquaint you with the Oracle Banking Digital Experience application. This guide provides answers to specific features and procedures that the user needs to be aware of the module to function successfully.

Before you Begin

Kindly refer to our **Getting Started User Guide** for common elements, including Symbols and Icons, Conventions Definitions, and so forth.

Pre-requisites

Specify **User ID** and **Password**, and login to **Home** screen.

Audience

This document is intended for the following audience:

- Customers
- Partners

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Related Resources

For more information on any related features, refer to the following documents:

- Installation Guides
- License Guides

Conventions

The following text conventions are used in this document:

| Convention | Meaning |
|-----------------|--|
| boldface | Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary. |
| <i>italic</i> | Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values. |

| Convention | Meaning |
|------------|--|
| monospace | Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter. |

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

Acronyms and Abbreviations

The list of the acronyms and abbreviations used in this guide are as follows:

Table 1 Acronyms and Abbreviations

| Abbreviation | Description |
|--------------|-----------------------------------|
| OBDX | Oracle Banking Digital Experience |

Basic Actions

Most of the screens contain icons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

Table 2 Basic Actions and Descriptions

| Action | Description |
|-------------------------|--|
| Back | In case you missed to specify or need to modify the details in the previous segment, click Back to navigate to the previous segment. |
| Cancel | Click Cancel to cancel the operation input midway without saving any data. You will be alerted that the input data would be lost before confirming the cancellation. |
| Next | On completion of input of all parameters, click Next to navigate to the next segment. |
| Save | On completion of input of all parameters, click Save to save the details. |
| Save & Close | Click Save & Close to save the data captured. The saved data will be available in View Business Product with <i>In Progress</i> status. You can work on it later by picking it from the View Business Product . |
| Submit | On completing the input of all parameters, click Submit to proceed with executing the transaction. |
| Reset | Click Reset to clear the data entered. |
| Refresh | Click Refresh to update the transaction with the recently entered data. |
| Download | Click Download to download the records in PDF or XLS format. |

Symbols and Icons

The following are the symbols/icons you are likely to find in this guide:

Table 3 Symbols and Icons

| Symbols and Icons | Description |
|---|--|
|  | Add data segment |
|  | Close |
|  | Maximize |
|  | Minimize |
|  | Open a list |
|  | Open calendar |
|  | Perform search |
|  | View options |
|  | View records in a card format for better visual representation. |
|  | View records in tabular format for better visual representation. |

Post-requisites

After finishing all the requirements, please log out from the **Home** screen.

1

Electronic Bill Presentment and Payment

Electronic bill presentment and payment (EBPP) is a process that enables the billers to create, and present the bills / invoices online to their customers. This feature also enables the customers/ users to pay the bills online. The EBPP services are widely used in many areas like utility bill payment, fund transfer through net banking against various purchases of utility products and services by the users, payment to service providers, mobile/ DTH bill payment etc.

The main advantage of electronic bill presentment and payment is that users/ customers can pay their bills anytime quickly and conveniently, which saves lots of time and paper work.

Note

In application

1. Account searchable drop-down will allow user to search the account number basis on the Account Number, Account Name, Account Currency, and Branch Code.
2. Bank can configure the fields to be shown as additional values in the accounts drop-down.

2

Bill Payment Overview

This topic describes the Overview widget, which displays the registered billers and option to add new billers as well as quick links to access the bill related transactions.

The Overview page provides you a snapshot of your bills at a given point of time.

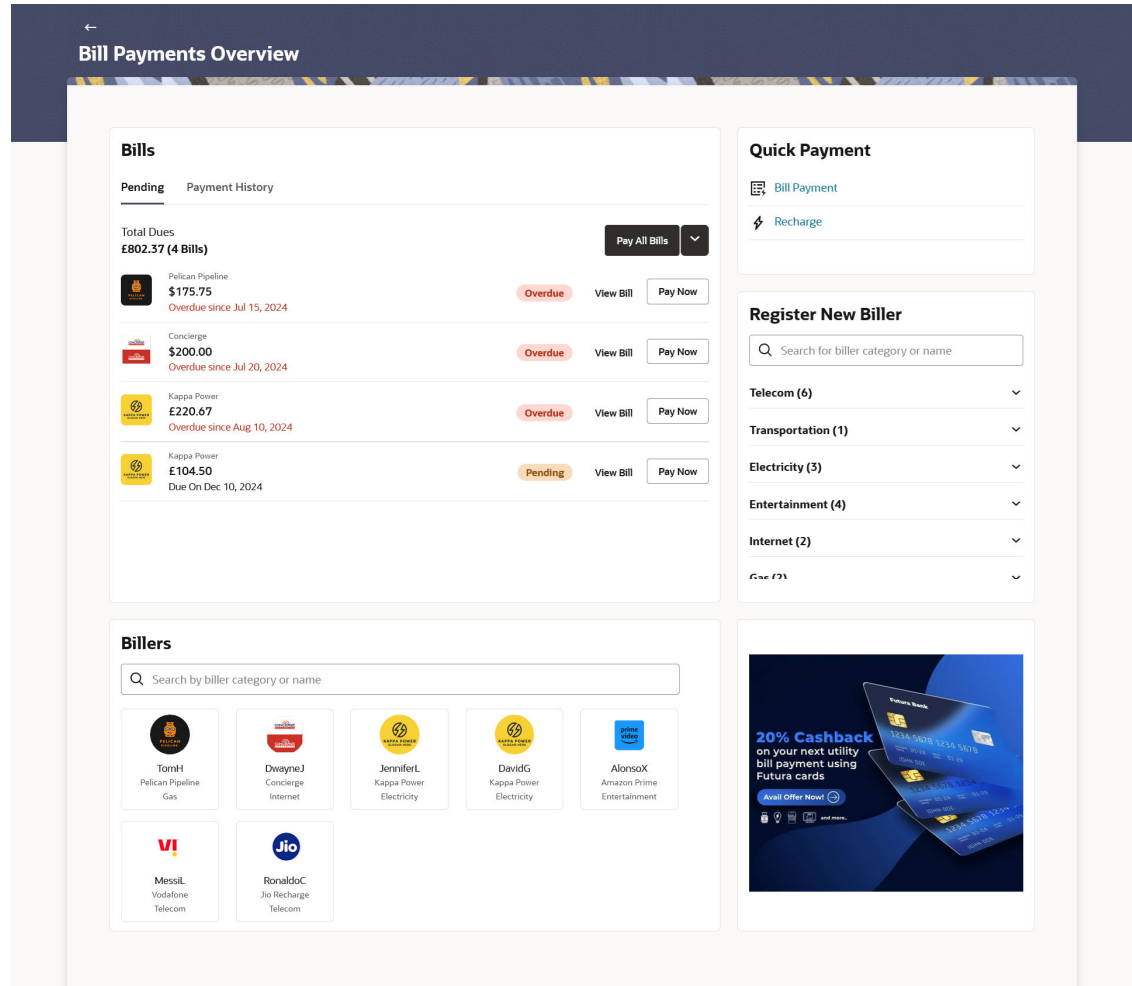

The Bills Overview dashboard enables the Retail user to access the bill payment transactions. All glimpse of registered billers and option to add new billers as well as quick links to access the bill related transactions. The bills, that are due to be paid are listed in this, users can pay their bills easily and quickly.

Perform anyone of the following navigation to access the **Bill Payments Overview** screen.

- From the Dashboard, click **Toggle menu**, click **Menu**, click **Transfers & Bill Payments** . Under **Transfers & Bill Payments**, then click **Bill Payments**.
- From the Search bar, type **Bill Payments- Bill Payments**and press **Enter**
- From the Dashboard, click **Bills** widget, click on the **View All**link.

The **Bill Payments Overview** screen appears.

Figure 2-1 Bill Payments Overview

3

Retail Servicing - Bill Payments Widget - Bills

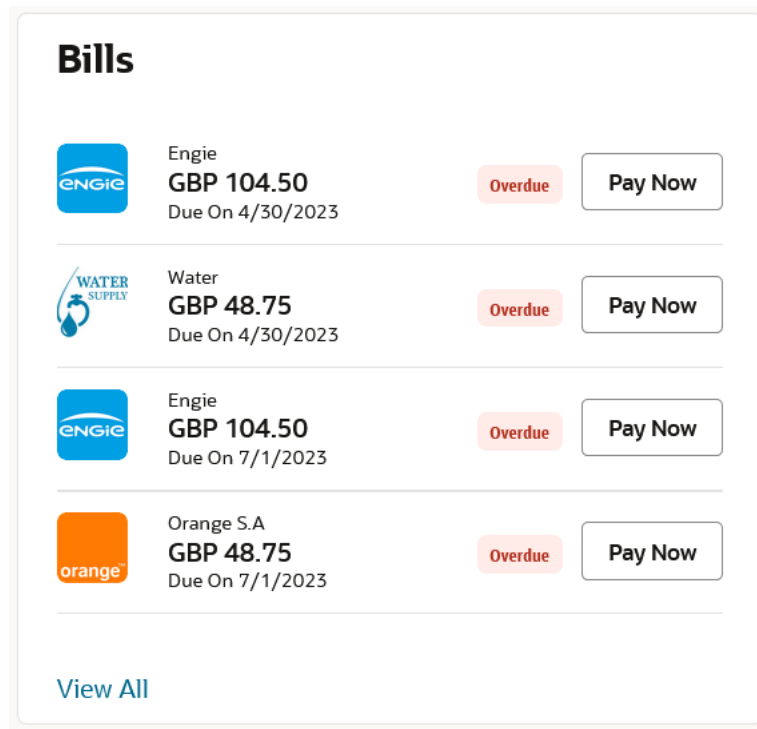

This topic describes the Bills widget and bill-related transactions.

The Bills' widget present on the Retail user dashboard enables the user to access the bill payment transactions. All the bills, that are due to be paid and overdued are listed in this widget, users can pay their bills easily and quickly.

Note

The left swipe and Long Press gesture is implemented on mobile and tablets devices. Swipe gesture - This feature is available on the widget which triggers Edit Biller Details, De-register Biller functionalities.

Figure 3-1 Bill Payments Widget

Biller Icon

The image associated with the biller.

Biller Details

The following information of the biller is displayed under this column:

Biller Name – The name of the biller as maintained in the administrator biller maintenance is displayed.

Bill Amount along with currency

Bill Due Date - The date on which the bill is payable will be displayed if the bill has been generated and not paid yet.

Status- The status of bill payment i.e. whether a bill is overdue or pending or new.

Pay Now

This feature enables users to pay utility bills towards various types of billers like 'payment', 'payment and presentment, recharge.

View All

This feature enables users to view all the registered billers.

4

Register Biller

This topic provides the systematic instructions to users to add billers within specific categories for the purpose of electronic bill payments and prepaid recharges.

Following types of billers are added.

- **Presentment type:** Billers presents the bill or invoice to the customer/ user online before paying the bill
- **Payment type:** Biller does not present bills. Biller allows the users to pay their bills anytime using their current and savings or credit card account that is credited to the billers account
- **Presentment and Payment type:** Billers has features similar to both Presentment as well as Payment type of billers. The bills/ invoice can be presented to the users for bill payment or the users can pay bills without the invoice
- **Recharge type:** Billers allows users to do **Recharge** their prepaid services like Mobile, DTH or Internet

Users can add billers by specifying the Nickname of the biller(nickname should be unique), biller specific single /multiple unique customer IDs e.g. Relationship no, Account number etc., and other Biller labels as maintained in the Biller Maintenance administration screen. Multiple but unique registrations with the same biller are allowed.

When a channel customer does a “Register Biller” transaction, he is essentially registering with the biller to make online bill payments. At this stage some billers may want to validate that the customer is a genuine customer. The behaviour is based on how customer validation has been set up when biller got on-boarded.

Auto: When a biller is of Customer Validation type as “Auto”, customers who add this biller do not need any validation from biller and their registrations are auto-approved and they can initiate online bill payments to this biller

Offline: When a biller is on boarded with Validation type as “Offline”, for Retail or corporate customers who add this biller, their registration status will be “Pending”. This means that the biller will have to do an offline validation of these registrations and can approve or reject them. OBDX does not provide any OOTB (Out of the box) mechanism for downloading the “Pending” registrations and changing their status by banker or biller.

Online: When a biller is on boarded with Validation type as “Online”, for Retail or corporate customers who add this biller, their registrations need to be validated by biller online. The online validation could be a redirect to the biller’s website where he can do the validation through REST type web service through which validation happens. OBDX does not provide for OOTB implementation of the online validation.

Pre-requisites:

- Transaction access is provided to the Retail user
- Billers are maintained in OBDX by administrator
- Admin Biller Category maintenance is done

Features supported in the application

- Add Biller

To register a biller:

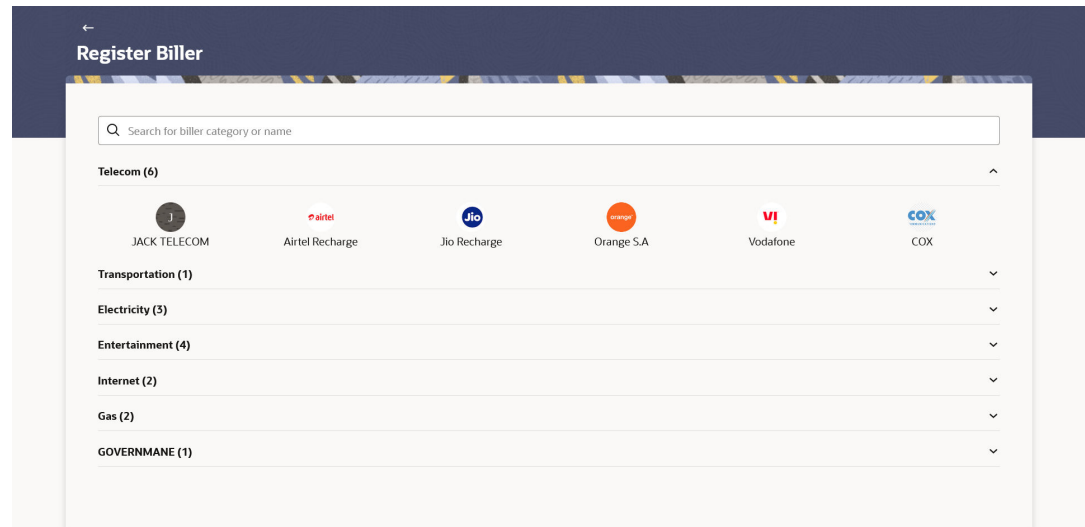

1. Perform any one of the following navigation to access the **Register Biller** screen.
 - From the Dashboard, click **Toggle menu**, click **Menu**, click **Transfers & Bill Payments** . Under **Transfers & Bill Payments**, then click **Bill Payments**, and then click **Register New Biller** widget, then select the biller category, and then Select the biller.

 - Click **View Bills** to view past bill payment history.
 - Click **Transaction Details** to view the details of the transaction.

- [Show Limits](#)
This topic describes the transfer limit for the selected channels.

4.1 Show Limits

This topic describes the transfer limit for the selected channels.

1. Click on the **Show Limits** link to view the transaction limits.
The **Show Limits** overlay screen appears.
 - a. From the **Channel** list, select a channel to view its limits.

Figure 4-3 Show Limits

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 4-3 Show Limits - Field Description

| Field Name | Description |
|----------------|---|
| Channel | Select a channel to view the limits applicable for bills paid through that channel. This will be defaulted to the user logged in channel. |
| Amount | The amount range i.e. the minimum and maximum amounts between which a bill payment can be initiated through the specific channel. |
| Count | The maximum number of bills that can be paid on a daily basis through the specific channel. |

5

Billers

This topic describes the functionality of this screen, which lists all registered billers associated with the customer.

This screen lists down all the registered billers of the user.

Billers are maintained in OBDX either manually using Biller Maintenance functionality or through a bulk file upload. All the registered billers (of all types) and bills are displayed on the screen. The billers can be of 'Presentment', 'Payment', 'Presentment and Payment' and 'Recharge' type.

Pre-requisites:

- Transaction access is provided to the retail user
- Transaction working window is maintained
- Billers are maintained
- Transaction limits are assigned to the user to perform the transaction

Features supported in application

- Bill Payment
1. Perform anyone of the following navigation to access the **Billers** screen.
 - From the Dashboard, click **Toggle menu**, click **Menu**, click **Transfers & Bill Payments** . Under **Transfers & Bill Payments**, then click **Bill Payments** and then click **Billers** widget, click on the **View All** link.
 - From the Search bar, type **Bill Payments- Billers** and press **Enter**.

The **Billers** screen appears.

- [Billers - Summary](#)
This topic provides the systematic instructions to user to list the all registered billers associated with the customer.
- [Bill Payment](#)
This topic describes the information about the bill payment process.

5.1 Billers - Summary

This topic provides the systematic instructions to user to list the all registered billers associated with the customer.

All the registered billers of the user are listed on this page. Users can initiate bill payments towards those billers against which bills are due. Apart from paying bills, the user can also view the details of each biller and can edit or delete a biller record by selecting the provided option. The user can select multiple presented bills for payment from the same screen. Further, user will be able to specify payment details for each record.

The  list and  card view options are provided on screen to view the billers. In the  list view, the billers are listed in tabular form. Whereas in  card view billers are listed in card

format. Each card displays details like Bill Status, Pending Bill/ Paid Bill Information, Biller Avatar/ Logo, Biller Nickname, Biller name along with the category, Biller Type, Instructions, Edit/ Delete icons, and Pay Bill button (shown only in case of Pending/Overdue Bills). Click on the specific card to view further details of each card.

Note

- a. The left swipe and Long Press gesture is implemented on mobile and tablets devices.
- b. Swipe gesture - This feature is available on the list view which triggers Edit Biller Details, De-register Biller, Pay Bill (if applicable) functionalities.
Long press gesture - Users can now press and hold down on a screen for an extended duration, which displays additional options or actions. This feature is available on the card view which triggers Edit Biller Details, De-register Biller, Pay Bill (if applicable) functionalities.

The **Show Limits** overlay screen appears. For more information, refer the **Show Limits** section under the **Register Biller** transaction.

6. In the **Pay** field, select the option to indicate when the bill payment will be processed. Perform one of the following actions:
 - If you select the option **Pay Now**,
The bill payment will be processed on the same day.
 - If you select the option **Pay Later**,
Select the date on which you want to process the bill, from the **Scheduled Date** field.
7. In the **Do you have any attachments?** field, drag and drop or click  icon to browse and attach a document against one bill payment record if you wish to attach a document against the bill record.

 **Note**

Click  icon against attached zip file to remove it.

8. Perform one of the following actions:
 - Click **Submit**.
The **Review** screen appears.
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate back to the previous screen.
9. Perform one of the following actions:
 - Verify the details and click **Confirm**.
The success message for the bill payment request initiation for biller appears along with the reference number.
 - Click **Back** to navigate back to the previous screen.
 - Click **Cancel** to cancel the transaction.
10. Perform one of the following actions:
 - Click **Register Biller** to add this biller.
 - Click **View Bill Payment History** to the past bill payment transactions.
 - Click **Go to Dashboard** to go to the Dashboard screen.
 - Click **Transaction Details** to view the details of the transaction.
 - Click **View Bills** to view past bill payment history.

5.2.2 Bill Payment – Presentment Type

This topic provides the systematic instructions of the bill payment process for presented bills, which enables customers to make bill payments either immediately/on the same business date or at a designated future date.

Presentment type of billers presents the bill or invoice to the customer/ user online before paying the bill. Bill payment feature enables users to pay their utility bills online. Through this feature, users are able to pay their bills immediately/ same business date or at some future date. The future date should be before the bill due date. The users can pay their bills from their

current and savings account, Credit Cards or Debit Cards. The payment methods available for each biller is maintained as part of biller maintenance by bank administrator. The user can also partly pay or pay their bills in excess (if allowed by biller, as maintained by bank administrator). User can choose specific bill, multiple bills or all presented bills, and initiate the payment at once.

To pay a bill:

1. Navigate to the **Bill Payments Overview** screen.
The **Bill Payments Overview** screen appears.

Figure 5-4 Bill Payment – Presentment Type

The screenshot shows a mobile application interface for paying a bill. At the top, there's a header 'Bill Payment' with 'Cancel' and 'Submit' buttons. Below that, the biller information is displayed: 'Kappa Power Electricity' with a logo, 'Billing Amount: £220.67', 'City/Area: London', and 'Bill Type: Presentment'. The 'Consumer Information' section lists 'Customer Name: Jennifer Lawrence', 'Customer ID: 45764546', and 'Mobile No: 6453435636'. Under 'Payment Details', there are dropdown menus for 'Payment Mode' (set to 'Debit Card') and 'Debit Card Number' (set to 'XXXXXXXX5001'). There's a 'Show Limits' section with a 'Pay Now' dropdown. An 'Upload Here' section prompts the user to select a file or drop one here, with a note: 'Please upload files in PDF, PNG, JPG, JPEG, ZIP, TXT and DOC formats. (Make sure your file is not more than 5MB)'. Below this, an 'Uploaded Files' section shows a file named 'billinvoice.png' with a trash icon.

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

 - Click **View Bills** to view past bill payment history.

5.2.3 Bill Payment- Payment and Presentment Type

This topic provides the systematic instructions of the bill payment process, wherein customers may be presented with a bill/invoice or may remit payment without an invoice.

A Presentment and Payment type of biller has features similar to both Presentment as well as Payment type of billers. The bills/ invoice can be presented to the users for bill payment or bills can be paid by the users without the invoice. In the system when the biller presents a bill he will appear in the presentment section of the Bills screen and when there is no bill presented he will appear in the Payment section of the screen. This way user can be the biller when there is a bill presented or even otherwise when there is no bill presented.

The user has can pay the bills immediately or can schedule the payment. The users can set up a recurring payment or auto payment. Both auto pay and recurring pay (scheduled payment) cannot be active at the same time.

To pay a bill:

1. Navigate to the **Bill Payments** screen.

The **Bill Payments** screen appears.

Figure 5-5 Bill Payment- Payment and Presentment Type

The screenshot displays the 'Bill Payment' interface for Pelican Pipeline Gas. At the top, there are 'Cancel' and 'Submit' buttons. The main content area includes:

- Biller Information:** Pelican Pipeline Gas, Billing Amount: \$175.75, City/Area: TEXAS, Bill Type: Presentment and Payment.
- Consumer Information:** Customer Name: Tom Hanks, Mobile Number: 6545678987, Customer ID: 675765.
- Payment Details:** Payment Mode: Credit Card, Credit Card Number: My Primary Card, xxxxxxxxxxxx0001, Expiry Month: 01, Expiry Year: 2024.
- Show Limits:** Pay Later, Pay On: 8/30/2024.
- Attachments:** A section titled 'Do you have any attachments?' with an 'Upload Here' button and instructions: 'Please upload files in PDF, PNG, JPG, JPEG, ZIP, TXT and DOC formats. (Make sure your file is not more than 5MB)'. Below this, an 'Uploaded Files' section shows a file named 'billinvoice.png'.

 - Click **View Bill Payment History** to the past bill payment transactions.
 - Click **Go to Dashboard** to go to the Dashboard screen.
 - Click **Transaction Details** to view the details of the transaction.

- Click **View Bills** to view past bill payment history.

5.2.4 Bill Payment- Recharge Type

This topic provides the systematic instructions of the bill payment process for recharge-type billers, which enable customers to replenish their prepaid services, such as mobile, DTH, or internet.

Recharge type biller allows users to do **Recharge** their prepaid services like Mobile, DTH or Internet. The user can re-charge by selecting a **plan** offered by the biller or top –up/add money to an existing plan.

To pay a bill:

1. Navigate to the **Bill Payments Overview** screen.

Figure 5-6 Bill Payment- Recharge Type

The screenshot shows a web form titled "Bill Payment" for "Amazo Prime Entertainment". The form is divided into several sections:

- Consumer Information:** Customer Name (Xabi Alonso), Amazon ID (566657778), and Membership Plan (1499 Yearly Premium).
- Payment Details:** Payment Mode (Credit Card), Credit Card Number (My Primary Card, xxxxxxxxxxxx0001), Expiry Month (01), and Expiry Year (2024).
- Show Limits:** Plan (New Freedom 149 Per Second Plan f...) and Recharge Amount (₹149.00).
- Do you have any attachments?:** An "Upload Here" button with a file icon and the text "Select a file or drop one here". Below it, a note states: "Please upload files in PDF, PNG, JPG, JPEG, ZIP, TXT and DOC formats. (Make sure your file is not more than 5MB)".
- Uploaded Files:** A list containing one file named "billinvoice.png" with a trash icon next to it.

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 5-5 Bill Payment- Recharge Type - Field Description

| Field Name | Description |
|--|---|
| Biller Photo | Displays the biller's photo, if uploaded, against each biller name. If the biller's photo is not uploaded, the initials of the biller will be displayed in place of the photo. |
| Biller Name | Displays the biller details as following: <ul style="list-style-type: none"> • Biller Name • Biller Category • Biller Sub-Category (if maintained) |

- Click **Register Biller** to add this biller.
- Click **View Bill Payment History** to the past bill payment transactions.
- Click **Go to Dashboard** to go to the Dashboard screen.
- Click **Transaction Details** to view the details of the transaction.
- Click **View Bills** to view past bill payment history.

6

Bulk Bill Payment

This topic provides the systematic instructions to users to pay pending and overdue multiple utility bills online in a single transaction.

The Bulk Bill Payment feature allows users to pay pending and overdue multiple utility bills online in a single transaction. Billers can fall under various categories such as **Presentment, Payment, Presentment and Payment, or Recharge**. Users can make payments from their Current and Savings Accounts, Credit Cards, or Debit Cards. The available payment methods for each biller are determined by the bank administrator as part of the biller maintenance process. Users have the flexibility to select specific bills or pay all presented bills simultaneously and initiate the payment at once.

Click **Pay Selected Bills** to initiate multiple bill payments of all the selected presented bills at once. If you select multiple or all presented bills, the system displays the summary of all the selected bills along with an option to specify payment details.

Note

For **Auto Pay** billers, a warning message that auto pay option is set for the biller appears, if the user clicks the **Pay** button.

Pre-requisites:

- Transaction access is provided to the Retail user
- Transaction working window is maintained
- Billers are maintained
- Transaction limits are assigned to the user to perform the transaction

Features supported in application

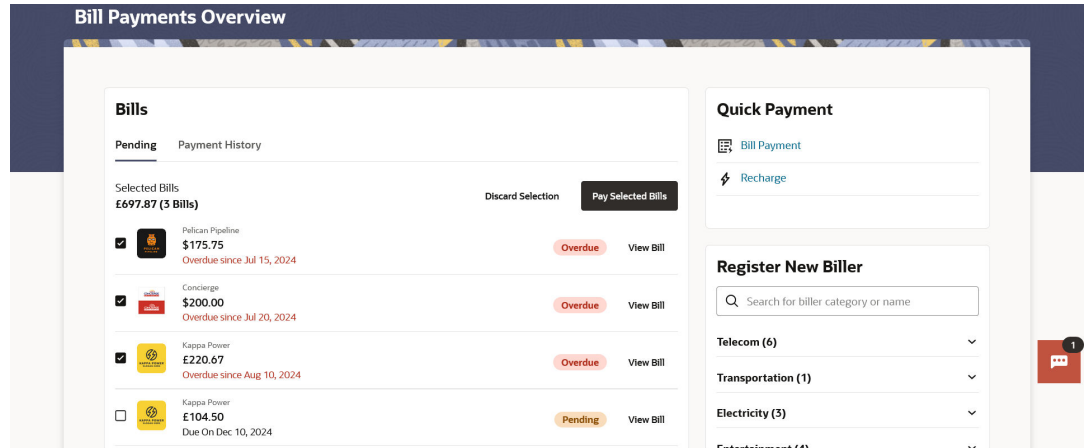

- Bill Payment

To do bill payment to multiple billers:

1. Perform anyone of the following navigation to access the **Bill Payment Overview** screen.
 - From the Dashboard, click **Toggle menu**, click **Menu**, click **Transfers & Bill Payments** . Under **Transfers & Bill Payments**, click **Bill Payments** , then click **Bills** widget.
 - From the Search bar, type **Bill Payments- Bill Payments** and press **Enter**, click **Bills** widget.

The **Bill Payment Overview** screen appears.

Figure 6-1 Bill Payment Overview

For more information refer **Field Description: Bill Payments Overview - Bills** widget screen.

2. Under the **Pending** tab in the **Bills** widget:

- If you wish to pay all or multiple presented bills, Perform one of the following actions:
 - Click on the **Pay All Bills** to initiate bill payment for all pending & overdue bills at once.

The system displays the count and total amount due for the selected bills along with an option to specify payment details at the top and redirects to the **Bulk Bill Payment** screen appears.

Note

For '**Auto Pay**' billers, a warning message that auto pay option is set for the biller appears, if the user clicks the **Pay** button.

- Click on the **V** icon, and then select **Pay Overdue Bills** to choose and pay only the overdue bills.

Note

The system allows the user to deselect the checkbox(es) for the bills they do not wish to pay.

- Click **Discard Selection** to de-select the selected bills.

Figure 6-2 Bulk Bill Payment

The screenshot shows a 'Bulk Bill Payment' interface. At the top, there are 'Cancel' and 'Submit' buttons. The main content area is titled 'Bulk Bill Payment' and displays 'Bill Details: £697.87 (3 Bills)'. Below this, three bill cards are shown: 'Polican Pipeline (Gas)' for TomH (#978, \$175.75), 'Concierge (Internet)' for DwayneJ (#976, \$200.00), and 'Kappa Power (Electricity)' for JenniferL (#2, £220.67). Each card includes a biller logo and a 'View Details' link. Under 'Payment Details', there are dropdown menus for 'Payment Mode' (set to 'Credit Card'), 'Credit Card Number' (set to 'My Primary Card, xxxxxxxxxxxx0001'), 'Expiry Month' (set to '01'), and 'Expiry Year' (set to '2024'). A 'Show Limits' link is also present. Below this is a section 'Do you have any attachments?' with an 'Upload Here' button and instructions: 'Please upload files in PDF, PNG, JPG, JPEG, ZIP, TXT and DOC formats. (Make sure your file is not more than 5MB)'. An 'Uploaded Files' section shows a file named 'billinvoice.png' with a 'Please Select' dropdown and a trash icon.

Note
The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 6-1 Bulk Bill Payment - Field Description

| Field Name | Description |
|--|---|

11

Bill Payment History

This topic provides the systematic instructions to users to review and track all payment transactions completed within a specified timeframe.

Payment history allows the users to review and keep track to all the payment transactions done in a given period. The user can search and view the past bill payment transactions done for both registered and un-registered billers. A user can search transactions based on category and biller nickname.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen.

By clicking on **Manage Columns** option available on the screen, user can

- Rearrange columns
- Remove specific columns.

Note

- a. The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
- b. The column preferences setup by the user will be saved for future reference i.e. in case the user revisits this screen, the preferred columns will only be displayed in the table.

The user can view the following details of past bill payment transactions in the 'Payment History' screen.

- Date of bill payment
- Name of the biller (nick name for registered billers and official name for unregistered billers)
- Category of the biller
- Bill Amount
- Reference number of the payment transaction
- Status of the bill payment transaction
- Attached Documents

Pre-requisites:

- Transaction access is provided to the Retail user
- Transaction working window is maintained
- Billers are maintained
- Transaction limits are assigned to the user to perform the transaction

Features supported in application

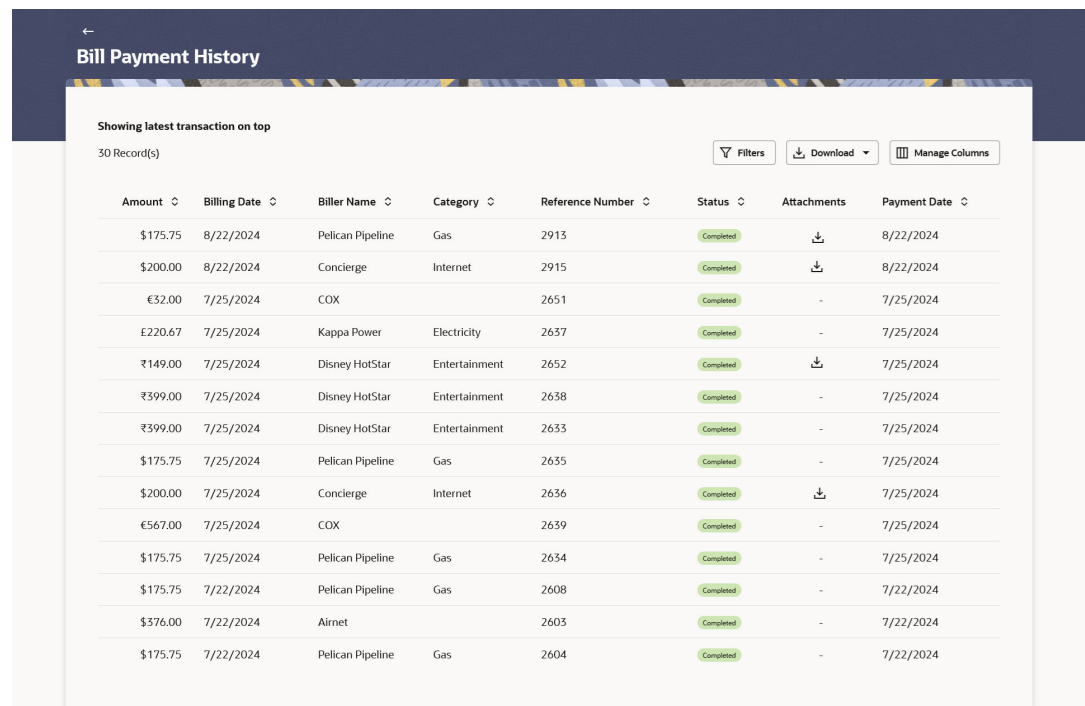

- Payment History

To view the bill payment records:

1. Perform any of the following navigation to access the **Bill Payment History** screen.
 - From the Dashboard, click **Toggle menu**, click **Menu**, click **Transfers & Bill Payments**. Under **Transfers & Bill Payments**, click **Bill Payments**, then click **Bill Payment History**.
 - From the Search bar, type **Bill Payments – Bill Payment History** and press **Enter**.
 - Access through the kebab menu of transactions available under the Bill Payments module.

The **Bill Payment History** screen appears.

FAQ

- 1. Can I delete billers that I no longer need to make payments to?**
Yes, you can choose to delete the billers that you no longer need.
- 2. When can I make the payment to newly added biller?**
After successfully adding a biller, you may proceed to pay bills towards the specific biller immediately. However, some billers need to validate your registration in which case you can start paying the biller after a successful validation.
- 3. If I delete or edit a biller, what will happen to the in-flight transactions?**
Biller modification or deletion will not have any impact on the transactions which are initiated towards the payee and that are pending further processing.
- 4. What is Electronic Bill Presentment and Payment (EBPP)?**
Electronic Bill Presentment and Payment, the process by which companies send their bills to the customers and receive payments electronically. Users can pay their bills using current and savings account/ credit card or debit card.
- 5. Can I initiate future dated bill payments?**
Yes, you can initiate future dated bill payments by using the "Pay Later" option under bill payment. Availability of this feature depends on whether the biller allows such payments.
- 6. Can I make a part payment or exceed the bill amount while making a payment to the biller?**
Part payment and excess payment can be done only if it is allowed by biller, as maintained by bank administrator in Biller Maintenance screen.
- 7. Can I make a payment towards a biller who is currently not registered in my biller list?**
Yes, using "Quick Bill Pay" functionality you can pay a bill without registering the biller provided the biller allows such payments.
- 8. Can I set an option to auto pay the bill amount of already generated bills?**
Yes, you can set up auto pay for any bill that is presented and is not yet paid.
- 9. What is the use of "Quick Bill Pay"?**
Quick bill payment allows you to pay the bills quickly, securely and conveniently without registering the billers.
- 10. Is payment through "Quick Bill Pay" secure?**
Yes, the bill payments through quick bill pay is completely secure.
- 11. Is there any limit to the number of bills you can pay using the "Quick Bill Pay" feature?**
There is no limit to the numbers of bills you can pay through the "Quick Bill Pay" feature.
- 12. Can I initiate a payment towards any biller using the "Quick Bill Pay"?**
No, using this transaction, you can make payment only to the 'Payment' and 'Presentment and Payment' type' of billers.
- 13. How can I use Quick Recharge"?**
You can use quick recharge to pay the bills of only 'Recharge' type of billers that allows quick recharge.
- 14. Can I set up recurring payments using "Quick Recharge"?**

Yes, there is an option 'Pay Later - Recurring' to set the recurring payment of your recharge.
