1 Introduction

2 Virtual Accounts Overview

3 Virtual Entity

3.1	Create Virtual Entity	1
3.2	View Virtual Entity	11
3.3	Edit Virtual Entity	19
3.4	Close Virtual Entity	26
3.5	Inter- Entity Position	27

4 Virtual Account

4.1	Create Virtual Account	1
	To create Virtual Account using Templates:	10
4.2	View Virtual Account	12
4.3	Edit Virtual Account	25
4.4	Close Virtual Account	31

4.5	Track Virtual Account Closure	37
4.6	Reopen Virtual Account	41

5 Virtual Accounts Structure

5.1	Create Virtual Accounts Structure	1
5.2	View Virtual Accounts Structure	10
5.3	Edit Virtual Accounts Structure	18
5.4	Close Virtual Accounts Structure	27

6 Remittance ID

6.1	Create Remittance ID	1
6.2	View Remittance ID	4
6.3	Edit Remittance ID	8
6.4	Close Remittance ID	12
6.5	Reopen Remittance ID	13
6.6	Virtual Identifier Transaction Inquiry	14

7 Virtual Multi-Currency Account

7.1	Create Virtual Multi-Currency Account	1
7.2	View Virtual Multi-Currency Account	4
7.3	Edit Virtual Multi-Currency Account	6
7.4	Close Virtual Multi-Currency Account	8

8 Internal Credit Line

8.1	Create Internal Credit Line	1
8.2	View Internal Credit Line	3
8.3	Edit Internal Credit Line	8
8.4	Close Internal Credit line	10

9 Internal Credit Line Linkage

9.1	Create Internal Credit Line Linkage	1
9.2	View Internal Credit Line Linked Virtual Accounts	3
9.3	Edit Internal Credit Line Linked Virtual Accounts	5
9.4	Delink Internal Credit Line Linked Virtual Accounts	7

10	Special Rate Maintenance	
10.1	View Special Rates	1
10.2	Edit Special rates	5
10.3	Add Special Rates	6
11	General Rate Maintenance	
11.1	View General Rates	1
11.2	Edit General Rate	4
11.3	Add General Rates	5
12	Payments Using Virtual Accounts	
12.1	Move Money	1
13	Statements	
13.1	Transaction Inquiry	1
13.2	Pre-Generated Statement	6
13.3	Ad hoc Statement	10
13.4	Charges Inquiry	13
14	Access Management	
15	Send-to-Modify	
16	Mobile Touch Point	
17	FAQs

Purpose

This guide is designed to help acquaint you with the Oracle Banking Digital Experience application. This guide provides answers to specific features and procedures that the user need to be aware of the module to function successfully.

Audience

This document is intended for the following audience:

- Customers
- Partners

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Resources

For more information on any related features, refer to the following documents:

- Oracle Banking Digital Experience Installation Manuals
- Oracle Banking Digital Experience Licensing Manuals

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

Acronyms and Abbreviations

The list of the acronyms and abbreviations used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description
OBDX	Oracle Banking Digital Experience

Basic Actions

Most of the screens contain icons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

Table 2 Basic Actions and Descriptions

Action	Description
Back	In case you missed to specify or need to modify the details in the previous segment, click Back to navigate to the previous segment.
Cancel	Click Cancel to cancel the operation input midway without saving any data. You will be alerted that the input data would be lost before confirming the cancellation.
Next	On completion of input of all parameters, click Next to navigate to the next segment.
Save	On completion of input of all parameters, click Save to save the details.
Save & Close	Click Save & Close to save the data captured. The saved data will be available in View Business Product with <i>In Progress</i> status. You can work on it later by picking it from the View Business Product .
Submit	On completing the input of all parameters, click Submit to proceed with executing the transaction.
Reset	Click Reset to clear the data entered.
Refresh	Click Refresh to update the transaction with the recently entered data.
Download	Click Download to download the records in PDF or XLS format.

Symbols and Icons

The following are the symbols/icons you are likely to find in this guide:

Table 3 Symbols and Icons

Symbols and Icons	Description
	Add data segment
	Close

Table 3 (Cont.) Symbols and Icons

Symbols and Icons	Description
	Maximize
	Minimize
	Open a list
	Open calendar
	Perform search
	View options
	View records in a card format for better visual representation.
	View records in tabular format for better visual representation.

1

Introduction

Virtual Accounts Management platform is a solution to reduce the complexity of money management for corporates. Virtual accounts help the large corporates to reduce the number of real accounts needed and its associated costs, provides ease of reconciliation and gives better collection, visibility and deployment of money.

Using this module, a corporate can create and manage multiple virtual entities, accounts and structures via self-service channel. The user gets the benefit of an exclusive dashboard view of account information and an option to create Virtual Accounts structure to get better visibility of his cash positions.

Following features are built for the corporate user in Virtual Account Management:

- Virtual Entities – Notional entities representing the real entities
- Virtual Accounts – Notional accounts that are either linked to a real account directly or via a Virtual Accounts Structure
- Remittance ID List – Short Identifier/ Corporate Identifier based Virtual Accounts

Pre-requisites

The user must be having a valid corporate account.

Given below are different scenarios / use cases in which Virtual Account management plays a crucial role, minimizing the various overheads.

Note

These are the generic use cases where Virtual Accounts management is applied. Refer the section (Features Supported in Application) to understand OBDX product offerings

Scenario 1

Figure 1-1 Receivable and Payable Management

Receivable and Payable Management

Scenario 1

- “ABC Industries.” has more than 500 Dealers across India.
- All the dealers usually take vehicles on credit terms and after a specified time period, pay to a single current account held by “ABC Inc.”.
- The dealers have been specifically told to mention the “Dealer ID Number” in the remarks while paying to the current account. However, lot of dealers make mistake in providing the correct dealer ID. Few of the dealers forget to mention the dealer ID occasionally.
- This leads to lesser automated reconciliation and increases the sales outstanding.

Proposed Solution

- Creation of multiple virtual accounts and assigning one virtual account for each dealer
- Each dealer pays through the virtual account assigned to him
- This setup facilitates easy tracking of receivables from each dealer as virtual accounts are tagged to dealers
- This enables auto-reconciliation of receivables and reduces sales outstanding
- Reduces un-necessary follow-ups for receivables

Scenario 2

Figure 1-2 Third Party Fund Management

Third Party Fund Management

Scenario 2

- “ABC Portfolio Management Service ” has more than 3000 customers who deposits their money on regular basis for investment purpose.
- The customers invests their money in various schemes of ABC are paid dividend as and when declared by the company..
- The customers are also required to Pay their monthly SIP's or investments on regular intervals.
- There is a need for ABC to pay interest/dividend as and when profits are declared.
- Also Keeping track of due amount from investor and calculating interests has become a massive task for ABC.

Proposed Solution

- Creation of multiple virtual accounts and assigning one virtual account for each investor
- A virtual account assigned to an investor is credited when the dividend deposits declared on profits of the corporate.
- A virtual account assigned to an investor is debited for his investments – lump sum or SIP during the month end and due date.

Scenario 3

Figure 1-3 Virtual Identifiers

VIRTUAL IDENTIFIERS

Scenario 3

- “Ascend International school” has more than 15000 students in 20 school branches across India.
- All the students usually pay to a single current account through multiple modes like check deposits, cash payments, online fund transfers and demand drafts.
- The students have been specifically told to mention the “student enrollment Number” in the remarks while paying to the current account. However, lot of students make mistake in providing the correct enrollment number. Few of the students forget to mention the enrollment number occasionally.
- This leads to lesser automated reconciliation, increase in the fee outstanding and results in a lot of confusion and unnecessary follow-ups.

Proposed Solution

- Assigning one “Virtual Identifier” per each of the 20 school branches.
- Linking the “Virtual Identifiers” to the real current account of the school.
- Setting up the account number validation logic for the school.
- The school can assign dynamic identifier based account numbers to each of it's students which may include the student enrollment number as part of the account number.
- Each student pays to the respective virtual account assigned to him/her.
- Reconciliation of fee receipt can be automated as a different account is assigned to each student. Branch wise fee collections can also be tracked.

Features Supported In the Application

Virtual Account Management module supports the following features:

- Overview
- Virtual Entity
- Virtual Account
- Virtual Accounts Structure
- Remittance ID
- Virtual Multi-Currency Account
- Payments Using Virtual Accounts
- Move Money
- Internal Credit Line
- Transaction Inquiry
- Pre-Generated Statement
- Adhoc Statement
- Charges Inquiry
- Special Rate Maintenance
- General Rate Maintenance

2

Virtual Accounts Overview

Virtual account management dashboard provides various information and eases the complex data and provides the user a simplified view of current performance. It provides an overall view of all the corporate's cash positions, balance trends and crucial account information on Real Accounts, Virtual Accounts and Virtual Accounts structures, depending upon the access and role provided to the user. Below widgets are available in Virtual Accounts Management Overview:

- Accounts and Balances
- Virtual Entity Summary
- Position By Currency
- Balance Trends of Virtual Accounts
- Top 5 Virtual Account Balances
- Cash Positions - Overall
- Virtual Accounts Structure
- Move Money
- Quick Links

Note

Information displayed in each widget (columns, links, graphs, charts, etc.) depends on the access to Real Accounts and Virtual Accounts for which the user has access.

Below explanation gives an idea how data in all the widgets will be shown when Access Management is applied:

- Real Accounts:
A user will see information & will be able to transact in only those Virtual Accounts Management enabled real accounts that he has appropriate access to
- Virtual Entities:
A user will be able to see all the virtual entities that belong to the party id in context
- Virtual Accounts:
A user will see information & be able to transact in only those Virtual Accounts that he has appropriate access to
- Virtual Accounts Structures:
A user will see the full list & count of the accessible Virtual Accounts structures of the party ID in context. User can further click on the link to view the structure details.

Table 2-1 Overview

dashboard icon	Click this icon to go to the dashboard.
	Click this icon to go to the dashboard
	Click this icon to go to the Mailbox screen.
	Click this icon to search the transactions.
	Click this icon to view the welcome note with last log-in details, change entity, logged in user's profile, or log out from the application.
	Click this icon to search and select the Party name and ID from the drop-down list. The widget displays the data for the selected party.
	Click the toggle menu to access the transaction.
	Click this icon to close the toggle menu. This icon appears if the toggle menu is open.

① Note

1. Only accessible parties are displayed to the user.
2. On page load, the widget displays the data of the mapped primary party to the logged-in user.
3. All the widgets that are based on Real Account balance, these widgets should be disabled operationally during implementation if the DDA Integration is not available.
4. All the widgets on the Dashboard that show the count and balances of Virtual Accounts also include data from Expired Virtual Accounts.

Accounts & Balances

This widget gives an overall summary about Virtual Accounts Management enabled accessible Real and Virtual Multi-Currency Accounts and how they are linked to different Virtual Accounts and Virtual Accounts Structures. You can select the type of Account (Real or Virtual Multi-Currency Account) and click the link under Virtual Accounts and Linked Structures column to

view more details. Total count includes both the accessible and non-accessible virtual accounts.

Virtual Entity Summary

Displays the Entity wise summary and mapped Virtual Accounts to that particular entity. You can click the Entity to view the details. You can also use the quick links to create entity or accounts.

Note

The widget displays the data based on the below logic:

1. Sorting is performed according to the number of Virtual Accounts linked with a virtual Entity.

For example, if VE 1 has 15 Virtual accounts and VE 2 has 20 Virtual accounts linked, then VE 2 will be displayed first in the widget. The virtual Entity with the highest number of linked virtual accounts will appear at the top of the list, followed by others in descending order.

2. The user can view the Virtual Entities to which they have access.

Position By Currency

Allows you to view the Balances across all Virtual Accounts and its break-up in different currencies. User can view this information by selecting either Virtual Entity ID or Virtual Entity Name under which all linked Virtual Accounts and their currency wise position will be displayed.

Note

1. The widget displays the data based on the below logic:

Virtual entities are sorted alphabetically and then first entity is defaulted in the virtual entity drop-down.

2. The user can view only those Virtual Entities for which he has access to.

Balance Trends of Virtual Accounts

Displays the Balance trends of Virtual accounts in graphical formats. You can select the Virtual Entity ID or Virtual Entity Name, and Currency to view the trend line of Top 5 Virtual Accounts.

Note

The widget displays the default data based on the below logic:

1. Virtual Entity with the most Virtual Accounts is defaulted.
2. With the defaulted Virtual Entity, the currency with the most Virtual Accounts is defaulted.

Only accessible Virtual Accounts are displayed to the user.

Top 5 Virtual Account Balances

Displays the Top five Virtual Account balances in graphical format by selecting Virtual Entity ID or Virtual Entity Name and currency. You can also hover the cursor to view the balance under a particular account.

Note

The widget displays the default data based on the below logic:

1. Virtual Entity with the most Virtual Accounts is defaulted.
2. With the defaulted Virtual Entity, the currency with the most Virtual Accounts is defaulted.
3. Only accessible Virtual Accounts are displayed to the user.

Cash Positions - Overall

Displays the overall cash position with total number of Virtual Accounts in various balance range and date wise transactions for selected accounts. You can view the Virtual Accounts within a particular balance group range by selecting a Virtual Entity ID or Virtual Entity Name and currency.

Note

The widget displays the default data based on the below logic:

1. Virtual Entity with the most Virtual Accounts is defaulted.
2. With the defaulted Virtual Entity, the currency with the most Virtual Accounts is defaulted.

Virtual Accounts Structure

Displays the contribution between Virtual Accounts and child accounts and overall balances in the form of tree. The tree displays the parent account and its immediate child account, you can view the details by clicking the expand icon.

You can select the structure code from the list to view the balance against it. You can also click

 to expand the widget and get a bigger view.

Note

The first structure in the drop down is defaulted in the widget.

Move Money

This widget allows user to transfer money from one Virtual Account to another Virtual Account that are mapped to same real account.

Note

Click **Search** icon and select the Virtual Accounts to transfer money.

Quick Links

This widget provides the quick links to navigate the most frequently used transactions. The following transactions are available in this widget:

- Ad hoc Statement
- Pre-Generated Statement
- Transaction Inquiry
- Add Special Rates
- Add General Rates
- File Upload

3

Virtual Entity

Virtual Entities are the notional entities representing the real entities. This feature allows a user to conveniently create and manage virtual entities and further create numerous Virtual Accounts under it for other transactions. Below features are supporting for managing virtual entities.

Features Supported In the Application

The virtual entity module of the OBDX application supports the following features:

- [Create Virtual Entity](#)
- [View Virtual Entity](#)
This topic provides systematic instructions to view the virtual entity.
- [Edit Virtual Entity](#)
This topic provides systematic instructions to edit the virtual entity.
- [Close Virtual Entity](#)
This topic provides systematic instructions to close the virtual entity.
- [Inter- Entity Position](#)

3.1 Create Virtual Entity

This topic provides systematic instructions to create the virtual entity.

To create Virtual Entity:

1. Perform any one of the following action to access the screen
 - From **Toggle Menu**, click **Virtual Account Management**, Click **Virtual Entity**, and then Click **Create Entity**
 - From **Toggle Menu**, click **Virtual Account Management**. Under **Overview**, Click **Entity Summary**, then click **Create Entity**.
2. In the '**Party Name**' field, select the party name and ID from the drop-down list.
3. From the **Virtual Entity Type Field**, select the corporate or Individual against which you want to create a virtual entity.
4. If you select the **Virtual Entity Type** as **Corporate**:
 - a. In the **Virtual Entity ID** field, specify the virtual entity ID.
 - b. In the **Virtual Entity Name** field, specify the name of the virtual entity.
 - c. From the **Corporate Type** list, select the type of corporate entity.
 - d. From the **Date of Incorporation** list, select the incorporation date.
 - e. From the **Country of Incorporation** list, select the country of incorporation.
 - f. In the **Landline** field, enter the landline phone number.

Note

- i. Click  **Add Land-line** link to add more land-line phone numbers.
- ii. Click  **Delete** icon to delete the land-line phone number.

- g. In the **Mobile Number** field, enter the mobile number.
 - h. In the **Email ID** field, enter the email address.
 - i. From the **Preferred Mode** field, select an appropriate option.
 - j. To keep **Registered Address** same as **Real Entity**, select the **Copy from Real Entity** check box.
 - k. If the **Registered Address** is not same as **Real Entity**:
 - i. In the **Address Line 1 to 4** field, specify the first line of the correspondence address.
 - ii. From the **Country** list, select the country of residence.
 - iii. In the **Post Code** field, enter the postal code.
 - l. To keep **Correspondence Address** same as **Registered Address**, select the **Copy from Registered Address** check box.
 - m. If the **Correspondence Address** is not same as correspondence address:
 - i. In the **Address Line 1 to 4** field, specify the first line of the mailing address.
 - ii. From the **Country** list, select the country of residence.
 - iii. In the **Post Code** field, enter the postal code.
 - n. Specify the required information in **Structured Address** section.
5. If you select the **Virtual Entity Type** as **Individual**:
- a. In the **Virtual Entity ID** field, specify the virtual entity ID.
 - b. In the **Virtual Entity Name** field, specify the name of the virtual entity.
 - c. In the **First Name** field, specify the first name of the individual.
 - d. In the **Last Name** field, specify the last name of the individual.
 - e. From the **Date of Birth** list, select the date of birth of the individual.
 - f. From the **Gender** list, select the gender of the individual.
 - g. From the **Nationality** list, select the nationality of the individual.
 - h. In the **National ID** field, enter the national identification code.
 - i. In the **Home Phone** field, enter the residence phone number.
 - j. In the **Work Phone** field, enter the work phone number.
 - k. In the **Mobile Number** field, enter the mobile number.
 - l. In the **Email ID** field, enter the email address.
 - m. In the **Preferred Mode** field, select an appropriate option.
 - n. To keep **Registered Address** same as **Real Entity**, select the **Copy from Real Entity** check box.

- o. If the **Registered Address** is not same as **Real Entity**:
 - i. In the **Address Line 1 to 4** field, enter the first line of the correspondence address.
 - ii. From the **Country** list, select the country of residence.
 - iii. In the **Post Code** field, enter the postal code.
- p. Specify the required information in **Structured Address** section.

Note

It is configurable and can be set to **Y** or **N** based on system configuration. Out of the 14 fields of structured address, **Post Code**, **Town Name**, **Country** are the mandatory fields if structure address configured to **Y** as per WTR regulations.

Table 3-1 Create Virtual Entity - Entity Information

Field Name	Description
Party Name	Select the party name and ID from the dropdown list in which the Virtual Entity must be created. By default, the primary party of the logged-in user is selected.
Virtual Entity Details	Information specified in below fields are related to Virtual Entity details
Virtual Entity Type	Select the type of the entity. The options are: • Individual • Corporate
Virtual Entity ID	Specify the unique ID assigned to each virtual entity.
Virtual Entity Name	Specify the name of the virtual entity corresponding to the entity ID.
Corporate Type related fields	This section appears if the customer selects Corporate option in the Virtual Entity Type field.
Corporate Type	Select the corporate type from the drop-down list. The options are: • Corporation • Co-operative • Partnership • Sole Proprietorship
Date of Incorporation	Select the date of incorporation of the corporate.
Country of Incorporation	Select the country name of the incorporation.
Landline Code	Specify the landline code of the corporate virtual entity holder.
Landline Number	Specify the landline number of the corporate virtual entity holder.
Alternate Landline Code	Specify the landline code of the corporate virtual entity holder. This field appears only if the user clicks on Add icon to add alternate landline number.
Alternate Landline Number	Specify the landline number of the corporate virtual entity holder. This field appears only if the user clicks on Add icon to add alternate landline number.
Mobile Code	Specify the mobile code of the corporate virtual entity holder.
Mobile Number	Specify the mobile number of the corporate virtual entity holder.
Email ID	Specify the email address of the corporate virtual entity holder.
Preferred Mode	Select the preferred mode of the corporate virtual entity holder. The options are: • Mobile • Email
BIC	Specify the BIC of the Corporate Virtual Entity Holder.
Registered Address	These fields are blank and by selecting the Copy from Real Entity function the fields get auto populated from real entity in editable format. The user can clear the fields by de-selecting the Copy from Real Entity check box.
Address Line 1	Specify the first line of correspondence address of the corporate virtual entity holder.
Address Line 2	Specify the second line of correspondence address of the corporate virtual entity holder.
Country	Select the country name of the corporate virtual entity holder.
Post Code	Specify the post code of the corporate virtual entity holder.

Table 3-1 (Cont.) Create Virtual Entity - Entity Information

Field Name	Description
Correspondence Address	These fields are blank and by selecting the Copy from Registered Address function the fields of correspondence address get auto-populated from registered address in editable format. The user can clear the fields by de-selecting the Copy from Registered Address check box.
Address Line 1	Specify the first line of mailing address of the corporate virtual entity holder.
Address Line 2	Specify the second line of mailing address of the corporate virtual entity holder.
Address Line 3	Specify the third line of mailing address of the corporate virtual entity holder.
Address Line 4	Specify the fourth line of mailing address of the corporate virtual entity holder.
Country	Select the country name of the corporate virtual entity holder.
Post Code	Specify the post code of the corporate virtual entity holder.
Structured /Hybrid Address	This section displays the structured/hybrid address.
Address Line 1	Specify the first line of mailing address of the corporate virtual entity holder.
Address Line 2	Specify the second line of mailing address of the corporate virtual entity holder.
Department	Specify the department of the virtual entity holder.
Sub-Department	Specify the sub-department of the virtual entity holder.
Street Name	Specify the street name of the corporate virtual entity holder.
Building Number	Specify the building number of the virtual entity holder.
Building Name	Specify the building name of the virtual entity holder.
Floor	Specify the floor number of the corporate virtual entity holder.
Post Box	Specify the post box number of the virtual entity holder.
Room	Specify the room number of the corporate virtual entity holder.
Post Code	Specify the post code of the virtual entity holder.
Town Name	Specify the town name of the corporate virtual entity holder.
Town Location Name	Specify the town location name of the corporate virtual entity holder.
District Name	Specify the district name of the corporate virtual entity holder.
Country Subdivision	Specify the country subdivision of the corporate virtual entity holder.
Country	Select the country name of the corporate virtual entity holder.
Individual related fields	This section appears if the customer selects Individual option in the Virtual Entity Type field.
First Name	Specify the first name of the virtual entity holder.
Last Name	Specify the last name of the virtual entity holder.
Date of Birth	Select the date of the birth of the virtual entity holder.
Gender	Select the gender of the virtual entity holder. The options are: • Male • Female • Other • Prefer Not to Disclose
Nationality	Specify the nationality of the virtual entity holder.

Table 3-1 (Cont.) Create Virtual Entity - Entity Information

Field Name	Description
National ID	Specify the national ID of the virtual entity holder.
Home Phone Code	Specify the home phone code of the virtual entity holder.
Home Phone Number	Specify the home phone number of the virtual entity holder.
Work Phone Code	Specify the work phone code of the virtual entity holder.
Work Phone Number	Specify the work phone Number of the virtual entity holder.
Mobile Code	Specify the mobile code of the virtual entity holder.
Mobile Number	Specify the mobile number of the virtual entity holder.
Email ID	Specify the email address of the virtual entity holder.
Preferred Mode	Select the preferred mode of the virtual entity holder. The options are: • Mobile • Email
Registered Address	These fields are blank and by selecting the Copy from Real Entity function the fields get auto populated from real entity in editable format. The user can clear the fields by de-selecting the Copy from Real Entity check box.
Address Line 1	Specify the first line of correspondence address of the corporate virtual entity holder.
Address Line 2	Specify the second line of mailing address of the virtual entity holder.
Address Line 3	Specify the third line of mailing address of the virtual entity holder.
Address Line 4	Specify the fourth line of mailing address of the virtual entity holder.
Country	Select the country name of the virtual entity holder.
Post Code	Specify the post code of the virtual entity holder.
Structured Address / Hybrid Address	This section displays the structured address.
Address Line 1	Specify the first line of correspondence address of the corporate virtual entity holder.
Address Line 2	Specify the second line of mailing address of the virtual entity holder.
Department	Specify the department of the virtual entity holder.
Sub-Department	Specify the sub-department of the virtual entity holder.
Street Name	Specify the street name of the corporate virtual entity holder.
Building Number	Specify the building number of the virtual entity holder.
Building Name	Specify the building name of the virtual entity holder.
Floor	Specify the floor number of the corporate virtual entity holder.
Post Box	Specify the post box number of the virtual entity holder.
Room	Specify the room number of the corporate virtual entity holder.
Post Code	Specify the post code of the virtual entity holder.
Town Name	Specify the town name of the corporate virtual entity holder.
Town Location Name	Specify the town location name of the corporate virtual entity holder.
District Name	Specify the district name of the corporate virtual entity holder.
Country Subdivision	Specify the country subdivision of the corporate virtual entity holder.
Country	Select the country name of the corporate virtual entity holder.

6. User can perform any one of the following action: click **Next** to navigate to the **Other Details** section.
- Click **Next** to navigate to the **Other Details** section.

- Click **Cancel** to cancel the transaction.
7. From the **Identification Type** list, select the identification type.

Note

The drop-down list are now available as part of Local Enumeration.

8. In the **Identification Number** field, specify the identification number corresponding to the identification type.
9. In the **Tax Identification Number** field, enter the tax identification number.
10. Select Statement preferences to get Virtual Accounts statement at consolidated or Account level.

The **Create Virtual Entity - Other Details** screen appears.

Table 3-4 Virtual Entity - View

Field Name	Description
Party Name	Displays the party name and ID mapped to the selected Virtual Entity.
Virtual Entity Name	Displays the name of the virtual entity with the status.
Virtual Entity ID	Displays the unique ID assigned to each virtual entity.
Virtual Entity Type	Displays the type of the entity, whether the entity is Individual or Corporate.
Party Name	Displays the party name and ID mapped to the selected Virtual Entity.
Virtual Entity Details	This section appears if the you select Virtual Entity Type as Corporate .
Virtual Entity Name	Displays the name of the virtual entity corresponding to the entity ID.
Corporate Type	Displays the corporate type. The options are: • Corporation • Co-operative • Partnership • Sole Proprietorship
Date of Incorporation	Displays the date of incorporation of the corporate.
Country of Incorporation	Displays the country name of the incorporation.
Landline	Displays the landline number of the corporate virtual entity holder. Note: This field will not appear if landline number is not given while creation.
Alternate Landline	Displays the alternate landline number of the corporate virtual entity holder. Note: This field will not appear if alternate landline number is not given while creation.
Mobile Number	Displays the mobile number of the virtual entity holder. Note: This field will not appear if mobile number is not given while creation.
Email ID	Displays the email address of the virtual entity holder. Note: This field will not appear if email id is not given while creation.
Preferred Mode	Displays the preferred mode of the virtual entity holder. The options are: • Mobile • Email
Mapped Virtual Accounts	Displays the count of all the child accounts mapped to the virtual entity.
BIC	Displays the BIC of the Corporate Virtual Entity Holder.
Registered Address	This section displays the registered address of Virtual Entity Holder.
Address Line 1	Displays the correspondence address line 1 of the virtual entity holder.
Address Line 2	Displays the correspondence address line 2 of the virtual entity holder.
Address Line 3	Displays the correspondence address line 3 of the virtual entity holder.

Table 3-4 (Cont.) Virtual Entity - View

Field Name	Description
Address Line 4	Displays the correspondence address line 4 of the virtual entity holder.
Country	Displays the country name of the virtual entity holder.
Post Code	Displays the post code of the virtual entity holder.
Correspondence Address	This section displays the correspondence address of Virtual Entity Holder.
Address Line 1	Displays the first line of mailing address of the corporate virtual entity holder.
Address Line 2	Displays the second line of mailing address of the corporate virtual entity holder.
Address Line 3	Displays the third line of mailing address of the corporate virtual entity holder.
Address Line 4	Displays the fourth line of mailing address of the corporate virtual entity holder.
Country	Displays the country name of the corporate virtual entity holder. This field is editable.
Post Code	Displays the post code of the corporate virtual entity holder. This field is editable.
Structured/Hybrid Address	This section displays the structured/hybrid address of Virtual Entity Holder.
Address Line 1	Displays the one line of mailing address of the corporate virtual entity holder.
Address Line 2	Displays the second line of mailing address of the corporate virtual entity holder.
Department	Displays the department of the virtual entity holder.
Sub-Department	Displays the sub-department of the virtual entity holder.
Street Name	Displays the street name of the corporate virtual entity holder.
Building Number	Displays the building number of the virtual entity holder.
Building Name	Displays the building name of the virtual entity holder.
Floor	Displays the floor number of the corporate virtual entity holder.
Post Box	Displays the post box number of the virtual entity holder.
Room	Displays the room number of the corporate virtual entity holder.
Post Code	Displays the post code of the virtual entity holder.
Town Name	Displays the town name of the corporate virtual entity holder.
Town Location Name	Displays the town location name of the corporate virtual entity holder.
District Name	Displays the district name of the corporate virtual entity holder.
Country Subdivision	Displays the country subdivision of the corporate virtual entity holder.
Country	Displays the country name of the corporate virtual entity holder.
Virtual Entity Details	This section appears if the you select Virtual Entity Type as Individual .
Virtual Entity Name	Displays the name of the virtual entity with the status.
First Name	Displays the first name of the virtual entity holder.
Last Name	Displays the last name of the virtual entity holder.
Date of Birth	Displays the date of the birth of the virtual entity holder.
Gender	Displays the gender of the virtual entity holder.
Nationality	Displays the nationality of the virtual entity holder.

Table 3-4 (Cont.) Virtual Entity - View

Field Name	Description
National ID	Displays the national ID of the virtual entity holder.
Home Phone	Displays the home phone number of the virtual entity holder.
Work Phone	Displays the work phone number of the virtual entity holder.
Mobile Number	Displays the mobile number of the virtual entity holder.
Email ID	Displays the email address of the virtual entity holder.
Preferred Mode	Displays the preferred mode of the virtual entity holder. The options are: • Mobile • Email
Mapped Virtual Accounts	Displays the count of all the child accounts mapped to the virtual entity.
Registered Address	This section displays the registered address of Virtual Entity Holder.
Address Line 1	Displays the correspondence address line 1 of the virtual entity holder.
Address Line 2	Displays the correspondence address line 2 of the virtual entity holder.
Address Line 3	Displays the correspondence address line 3 of the virtual entity holder.
Address Line 4	Displays the correspondence address line 4 of the virtual entity holder.
Country	Displays the country name of the virtual entity holder.
Post Code	Displays the post code of the virtual entity holder.
Structured/Hybrid Address	This section displays the structured/hybrid address of Virtual Entity Holder.
Address Line 1	Displays the first line of mailing address of the corporate virtual entity holder.
Address Line 2	Displays the second line of mailing address of the corporate virtual entity holder.
Department	Displays the department of the virtual entity holder.
Sub-Department	Displays the sub-department of the virtual entity holder.
Street Name	Displays the street name of the corporate virtual entity holder.
Building Number	Displays the building number of the virtual entity holder.
Building Name	Displays the building name of the virtual entity holder.
Floor	Displays the floor number of the corporate virtual entity holder.
Post Box	Displays the post box number of the virtual entity holder.
Room	Displays the room number of the corporate virtual entity holder.
Post Code	Displays the post code of the virtual entity holder.
Town Name	Displays the town name of the corporate virtual entity holder.
Town Location Name	Displays the town location name of the corporate virtual entity holder.
District Name	Displays the district name of the corporate virtual entity holder.
Country Subdivision	Displays the country subdivision of the corporate virtual entity holder.
Country	Displays the country name of the corporate virtual entity holder.
Identification Details	This section displays the identification details of Virtual Entity Holder.
Identification Type	Displays the identification type of the virtual entity holder.
Identification Number	Displays the identification number corresponding to the identification type.

Table 3-4 (Cont.) Virtual Entity - View

Field Name	Description
Tax Identification Number	Displays the tax identification number of the virtual entity holder.
PDF Statement Preferences	This section displays the PDF statement preferences.
Generate PDF	Displays the generate PDF if enabled.
Statement Type	Displays the account level Statement of each Virtual account mapped to the Virtual Entity.
Consolidated	Displays the consolidated statement of all the Virtual Accounts mapped to the Virtual Entity.
Frequency	Displays the frequency of the statement.
Due On	Displays the due day/date/month/quarter/year required for the Virtual Account statement. The available options based on the frequency selected are: • Daily - This field is not applicable and will not appear for Daily frequency. • Weekly - Displays the day when the account statement needs to be generated for the week. • Monthly - Displays the day of the month when the account statement needs to be generated for the month. Example: If Due On is selected as "31" and the current month has only 28 days, this will be considered as the last day of the month and the account statements will be generated on the last day for all the months. • Quarterly - Displays the end month of quarter when the account statement needs to be generated. Statement will always be generated on the last day of the month selected. Example: If Due On is selected as "March (3)", the account statement will be generated on the last day of the month (31st March) for the period of 1st January to 31st March. • Yearly - Displays the month when the account statement needs to be generated for the year. Statement will always be generated on the last day of the month selected.
SWIFT Statement Preferences	This section displays the MT statement preferences.
Generate MT940	Displays the preference to download the statement in MT940 format.
Generate MT950	Displays the preference to download the statement in MT950 format.
Generate MT942	Displays the preference to download the statement in MT942 format.
Generate Message Only on Movement	Displays the generate message only on movement.
Report Transactions Since	Displays the since when the statement to be generated.
Generation Time	Displays the time when the statement is needed.
Display IBAN	Displays the preference for IBAN which will be applicable for the all the Virtual Accounts linked under this entity.
ISO Statement Preferences	This section displays the ISO statement preferences.
Generate CAMT.053	Displays the preference to download the statement in CAMT.053 format.
Generate CAMT.052	Displays the preference to download the statement in CAMT.052 format.
Generate Message Only on Movement	Displays the preference for generating message only on movement.
Report Transactions Since	Displays the report transactions.

Field Name	Description
Generation Time	Displays the time when the statement is needed.

7. User can perform any one of the following action
 - Click **Edit** to modify and update the virtual entity.
 - Click **Close** to close the virtual entity.
 - Click **Back** to navigate back to previous screen.

3.3 Edit Virtual Entity

This topic provides systematic instructions to edit the virtual entity.

Note

The user can view only those Virtual Entities for which he has access to.

To edit virtual entity:

1. Navigate to the **View Virtual Entity** screen.
2. In the **Party Name** field, select the party name and ID from the dropdown list.
3. In the **Virtual Entity ID** field, enter the unique ID of the virtual entity whose details you want to edit. User can also Perform the following action:
 - In the **Virtual Entity Name** field, enter the name of the virtual entity whose details you want to edit.
 - Click the desired record under the **Virtual Entity ID & Name** column. The record details appears.
4. User can perform any one of the following action:
 - Click **Search** to view virtual entities.
 - Click **Clear** to reset the entered data.
 - Click **Cancel** to cancel the Parent Account selection.
5. Click the **Virtual Entity ID & Name** link.
The **Virtual Entity - View** screen appears.
6. Click **Edit**.
The **Edit Virtual Entity - Virtual Entity Information** screen appears.

Generation Time	Select the time when the statement is needed. This field is enabled if you click the Generate CAMT.052 toggle.

8. Click **Submit**.

User can also perform any one of the following action:

- Click **Cancel** to cancel the transaction.

- Click **Back** to navigate to the previous screen.
9. The **Review** screen appears. Verify the details and click **Confirm**.
User can also perform any one of the following action:
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate to the previous screen. The user is directed to **Other Details** screen with values in editable form.
 10. The success message of **Virtual Entity** update appears along with the reference number.
User can also perform any one of the following action:
 - Click **Go To Dashboard** to navigate to the dashboard.
 - Click **Go To Overview** to navigate to the Virtual Account management dashboard.
 - Click **Create Virtual Entities** to create more virtual entities.
 - Click **Create Virtual Accounts** to create Virtual Accounts.

3.4 Close Virtual Entity

This topic provides systematic instructions to close the virtual entity.

Note

The user can view only those Virtual Entities for which he has access to.

1. Perform any one of the following navigation to access View Virtual Entity Screen.
 - From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **Virtual Entity**. Under **Virtual Entity**, click **View Entity**
 - From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **Overview**, and then click **Entity Summary**. Under **Entity Summary**, click **View Entity**
2. In the **Virtual Entity ID** field, enter the unique ID of the virtual entity whose details you want to edit. User can also Perform any one of the following action:
 - In the **Virtual Entity Name** field, enter the name of the virtual entity whose details you want to edit.
 - Click the desired record under the **Virtual Entity ID & Name** column. The record details appears.
3. User can perform any one of the following action:
 - Click **Search** to view virtual entities.
 - Click **Clear** to reset the entered data.
 - Click **Cancel** to cancel the Parent Account selection.
4. Click the **Virtual Entity ID & Name** link.
The **Virtual Entity - View** screen appears.
5. Click **Close** to close the virtual entity.
The message appears prompting for record closing.

Figure 3-8 Close Virtual Entity**Note**

You can close an entity, only if all the Virtual Accounts are closed.

6. User can Perform any one of the following action:
 - Click **Yes** to close the virtual entity. The success message of Virtual Entity deletion appears along with the reference number.
 - Click **No** if you do not wish to close the **Virtual Entity**.
7. Click **Go to Dashboard** to navigate to the dashboard screen.

3.5 Inter- Entity Position

User can view the positions between the two entities of the associated parties for a day or for a given period.

Note

The user can view the Virtual Entities to which they have access.

To Inter entity Position:

1. From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **Virtual Entity**. Under **Virtual Entity**, click **Inter Entity Position**.
2. In the **Party Name** field, select the party name and ID from the drop-down list.
3. In the **From Virtual Entity** field, select the virtual entity from the drop-down list from which the inter-entity position details have to be fetched.
4. In the **To Virtual Entity** field, select the virtual entity from the drop-down list to which the inter-entity position details have to be fetched.
5. From the **Date Range** list, select the **From** and **To** date from the calendar.

This field is enabled only when the user selects the **Select Date Range** check box.

6. User can perform any one of the following action:
- Click **Search** to view virtual entities.
 - Click **Clear** to reset the entered data.

Note

By default, the Inter-Entity Position data for today will appear for the different virtual entities.

The **Inter-Entity Position - Today** screen appears.

4

Virtual Account

Virtual accounts are notional accounts, which represents real accounts, and they are linked either to a real account directly or linked via Virtual Accounts structure. These accounts are series of dummy accounts used to make and receive payments on behalf of one physical account. Virtual accounts also offer corporates the ability to reconcile payments in real time.

Features Supported In the Application

The virtual account module of the OBDX application supports the following features:

- [Create Virtual Account](#)
- [View Virtual Account](#)
- [Edit Virtual Account](#)
- [Close Virtual Account](#)
- [Reopen Virtual Account](#)
- [Create Virtual Account](#)
This topic provides systematic instructions to create the virtual account.
- [View Virtual Account](#)
This topic provides systematic instructions to view the virtual account.
- [Edit Virtual Account](#)
This topic provides systematic instructions to edit the virtual account.
- [Close Virtual Account](#)
This topic provides systematic instructions to close the virtual account.
- [Track Virtual Account Closure](#)
- [Reopen Virtual Account](#)

4.1 Create Virtual Account

This topic provides systematic instructions to create the virtual account.

Note

The user can view only those Virtual Entities for which he has access to.

To create a virtual account:

1. Perform any one of the following navigation to access the screen.
 - From the **Dashboard**, click **Toggle menu**, click **Virtual Account Management**, then click **Virtual Account**. Under **Virtual Account**, click **Create Virtual Account**.
 - From the **Dashboard**, click **Toggle menu**, click **Virtual Account Management**, then click **Overview**, and then click **Virtual Entity Summary**. Under **Virtual Entity Summary**, click **Create Virtual Account**.

The **Create Virtual Account** screen appears.

For more information on fields, refer to the field description table.

Note

The fields marked as **Required** are mandatory.

Table 4-1 Create a Virtual Account - Field Description

Field	Description
Party Name	Select the party name and ID from the drop-down list in which the Virtual Account must be created. By default, the primary party of the logged-in user is selected.
Account Details	Information specified in below fields are related to Virtual account details.
Virtual Entity ID & Name	Select the virtual entity ID and name under which the Virtual Accounts are created.
Branch Name	Select the Branch Name where Virtual Account is to be created. Note: The user can view the branch names for which he has access to.
Product	Select the Virtual Account Product
Virtual Account Name	Specify the name of the Virtual Account holder. Note: Based on the product selection, if the Virtual account name change is permitted at product level, then Virtual Account name will be defaulted from Virtual Entity name and the user will be allowed to change the description as per his choice during the flow. If the Virtual account name change is not permitted at product level, then Virtual Account name will be defaulted from Virtual Entity Name (Read Only) and user will not be allowed to change the Virtual Account name and the field will remain non editable.
Purpose	Specify the purpose of the creating a Virtual Account.
Currency	Select the currency for Virtual Account.
Linkage	Select the linkage type. The options are: • Structure • Real Account
Structure Name	Select the structure name to which the Virtual Account has to be added. This field is displayed if Structure is selected as Linkage preference.
Parent Account Number	Select the Parent account number to which the Virtual Account has to be linked. This field is displayed if Structure is selected as Linkage preference.
Search Parent Account	This section displays the fields related to Search Parent Account .
Structure Code	Displays the structure code.
Structure Name	Displays the name of the structure
Virtual Account Number	Specify the Virtual account number

Table 4-1 (Cont.) Create a Virtual Account - Field Description

Field	Description
Search Result	This section displays the search results. Note: User can view only the configured number of Virtual Account Number in the search results. If the search result count exceeds the configured count, an error message appears to refine the search criteria.
Virtual Account No. & Name	Displays the Virtual Account number and name.
Branch Name	Displays the branch of the account.
Real Account Number	Select the Real account number to which the Virtual Account has to be linked. This field is displayed if Structure is selected as Linkage preference.
Interest Calculation Required	Move the Slider to display the applicable Interest Rates for the selected Virtual Account. Note Interest Calculation Required gets automatically enabled, if it is supported for the selected product. It can be disabled if the user does not require it. If the Interest Calculation is not supported for the selected product and it will be in disabled mode, then the user cannot change it.
Interest Rates	Interest rates link is displayed for only those products where the interest calculation required is supported and toggle is enabled. If the user has not selected the Product, Branch & Currency fields, the appropriate error message will appear.
Interest Rates Overlay Figure 4-2 Interest Rates  For more information on fields, refer to the field description table.	On selection of Virtual Account product, the application displays the interest rates maintained for the product. Note: The Interest Rates pop-up screen appears only if the user selects Product, Currency, and Branch Name.
Interest Product	Displays the name of the interest product for which the interest rates are maintained.
Rate Description	Displays the description of the interest rate.
Effective Date	Displays the date from which the interest rate is effective.
Currency	Displays the name of the currency name under which the Virtual Account is to be opened.
Rate	Displays the interest rate maintained for the product.
Rate Code	Displays the rate code maintained for the product.

Table 4-1 (Cont.) Create a Virtual Account - Field Description

Field	Description
Account Expiry date	Select the future date to set Expiry date for the virtual account. Note: If no date is set, it will indicate that there will be no Expiry date for the Virtual Account in context.
Correspondence Address	These fields are blank and by selecting the Copy from Virtual Entity function the fields get auto populated from Virtual entity address in editable format. The user can clear the fields by de-selecting the Copy from Virtual Entity check box.
Address Line 1	Specify the first line of correspondence address of the corporate Virtual Account holder.
Address Line 2	Specify the second line of mailing address of the Virtual Account holder.
Country	Select the country name of the Virtual Account holder.
Post Code	Specify the post code of the Virtual Account holder.
Structured Address / Hybrid Address	This section displays the structured address. These fields are blank and by selecting the Copy from Virtual Entity function the fields of structured address get auto populated from Virtual entity address in editable format. The user can clear the fields by de-selecting the Copy from Virtual Entity check box.
Address Line 1	Specify the first line of address of the corporate virtual entity holder.
Address Line 2	Specify the second line of address of the virtual entity holder.
Department	Specify the department of the Virtual Account holder.
Sub-Department	Specify the sub-department of the Virtual Account holder.
Street Name	Specify the street name of the corporate Virtual Account holder.
Building Number	Specify the building number of the Virtual Account holder.
Building Name	Specify the building name of the Virtual Account holder.
Floor	Specify the floor number of the corporate Virtual Account holder.
Post Box	Specify the post box number of the Virtual Account holder.
Room	Specify the room number of the corporate Virtual Account holder.
Post Code	Specify the post code of the Virtual Account holder.
Town Name	Specify the town name of the corporate Virtual Account holder.
Town Location Name	Specify the town location name of the corporate Virtual Account holder.
District Name	Specify the district name of the corporate Virtual Account holder.
Country Subdivision	Specify the country subdivision of the corporate Virtual Account holder.
Country	Select the country name of the corporate Virtual Account holder.
Preferences	This section displays the Preferences related fields. Note: Preferences will be defaulted as per product selected by the user. If preferences are defaulted as No , same cannot be changed later.
IBAN Required	Move the slider to avail IBAN. <i>i</i> Note If the IBAN required is selected as No during Virtual Account creation, the same cannot be modified later.

Table 4-1 (Cont.) Create a Virtual Account - Field Description

Field	Description
Balance Check For Debits	Move the slider to avail balance check while debiting the account.
Balance Availability Option	Select the balance availability preference in the Virtual Account. The options are: • Own + Child • Total Pool • Own + Child + Fixed Amount from Pool
Fixed Amount In Pool Currency	Specify the fixed amount to be used from the pool. This field is displayed if you select Fixed Amount In Pool Balance option from the Balance Availability Option list.
Debit Transaction Allowed	Move the Slider to avail debit transaction preference on the Virtual Account.
Credit Transaction Allowed	Move the Slider to avail credit transaction preference on the Virtual Account.
Overdraft Allowed	Move the Slider to avail overdraft preference on the Virtual Account.
Overdraft Amount	Specify the fixed amount as overdraft on the Virtual Account. This field is displayed if you select Overdraft Allowed preference.
Available in Liquidity Management	Move the slider to avail the Virtual Account to create Liquidity Management structure

2. Click either of following action to create One or multiple Virtual Account creation
 - **Single Virtual Account Creation**
 - **Bulk File Upload**
3. In the **Party Name** field, select the party name and ID from the drop-down list.
4. In the **Virtual Entity ID & Name** field, enter the virtual Entity ID or Name, and click **Search** icon.
5. From the **Branch Name** list, select the branch where Virtual Account is to be opened.
6. From the **Product** list, select the Virtual Account product.
7. In the **Virtual Account Name** field, values will get defaulted as per selected Virtual Entity Name. Defaulted Virtual Account Name is allowed to be updated only if name change is allowed for the selected product.
8. In the **Purpose** field, enter the purpose of account opening.
9. From the **Currency** list, select the Virtual Account currency.
10. In the **Linkage** type, select the linkage type as Structure or Real Account.
11. If you select **Structure** option, select the structure name and parent account number from the respective list.
12. In the **Parent Account** field, click **Search** icon to search the parent account number.
The **Search Parent Account** overlay appears.

13. In the Search Parent Account overlay screen, select the required filter criteria in the respective fields.
14. User can perform any one of the following action:
 - Click **Search** to search the parent account based on search criteria.
 - Click **Clear** to reset the entered data.
 - Click **Cancel** to cancel the Parent Account selection.
15. Search and select the parent account number from the list.
16. If you select **Real Account** option, select the real account number and name from the **Real Account Number** list.
17. Move the **Interest Calculation Required** to calculate interest on the Virtual Account.

Note

The application displays the Interest Rates link for the product where the interest rates are maintained. Click on the link to view the details of interest rates maintained for the selected Virtual Account product.

18. In the **Account Expiry Date** field, Select the future date to set the expiry for Virtual account.

Note: The application displays the Interest Rates link for the product where the interest rates are maintained. Click on the link to view the details of interest rates maintained for the selected Virtual Account product.

19. To keep **Correspondence Address** as Virtual Entity address, select the **Copy from Virtual Entity** check box.
20. If the **Correspondence Address** is not same as entity address:
 - a. In the **Address Line 1** field, enter the first line of the correspondence address.
 - b. In the **Address Line 2** field, enter the second line of the correspondence address.
 - c. In the **Address Line 3** field, enter the third line of the correspondence address.
 - d. In the **Address Line 2** field, enter the fourth line of the correspondence address.
 - e. From the **Country** list, select the country.
 - f. In the **Post Code** field, enter the postal code.
21. User can perform any one of the following actions:
 - To keep **Structured Address** same as Virtual Entity address, select the **Copy from Virtual Entity** check box.
 - Enter the required information in **Structured Address** fields.
22. Move the **IBAN Required** slider to avail the IBAN.
23. Move the **Balance Check for Debits** slider to check the account balance while debiting the account.
24. Select the appropriate option from the **Balance Availability Option** list.
 - If you select **Fixed Amount In Pool** option from the **Balance Availability Option** list, enter the amount in the **Fixed Amount In Pool** field.
25. Move the **Debit Transaction Allowed** slider to debit the Virtual Account.
26. Move the **Credit Transaction Allowed** slider to credit the Virtual Account.
27. Move the **Overdraft Allowed slider** to avail the overdraft facility on the Virtual Account.
 - If you select **Overdraft Allowed** option, enter the fixed overdraft amount in the **Overdraft Amount** field.
28. Move the **Available in Liquidity Management** slider to enable the Virtual Account for creating Liquidity Management structure.
29. Click **Submit**.

User can also perform any one of the following action:

 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate to the previous screen.
30. The **Review** screen appears. Verify the details and click **Confirm**.

User can also perform any one of the following action:

 - Click **Cancel**to cancel the transaction.
 - Click **Back**to navigate to the previous screen.
31. The success message of **Virtual Account** creation appears along with the reference number and status of the transaction.

User can also perform any one of the following action:

 - Click **Save As Template** to save the account details with the template name.
 - Click **Go To Dashboard** to navigate to the dashboard.

- Click **Go To Overview** to navigate to the Virtual Account management dashboard.
- Click **Create More Accounts** to create Virtual Accounts.
- Click **Create Structure** to create structure.

To create Virtual Account using Templates:

1. In the **Party Name** field, select the party name and ID from the drop-down list.
2. In the **Create Virtual Account** screen, click **Templates** tab. Create Virtual Account - Templates

The screenshot shows the 'Virtual Account' management interface. At the top, there's a header with 'Virtual Account' and 'ABZ Solutions | ***462'. Below this, there are two tabs: 'New Virtual Account' and 'Templates'. The 'Templates' tab is active. A search bar is located on the right. The main area displays a grid of 12 template cards. Each card contains the following information:

- Template Name:** Trunk15, Mar 23 VA Template 1, Template VA 01 17 Feb 23, test12, StructTemplate, vamTemplate, test0123, Trunk14, Feb VA Template 01, test0001, January Template 0001 VA, TestVATemplate01.
- Created On:** 4/28/23, 3/1/23, 2/17/23, 2/7/23, 2/7/23, 2/6/23, 2/6/23, 2/4/23, 2/3/23, 2/1/23, 1/28/23, 1/24/23.

Table 4-2 Create a Virtual Account - Field Description

Field	Description
Party Name	Select the party name and ID from the drop-down list in which the Virtual Account must be created. By default, the primary party of the logged-in user is selected.
Template Name	Displays the name of the template
Created on	Displays the date when the template is created
Virtual Entity	Displays the Virtual Entity to which the Virtual Account is linked.
Currency	Displays the currency of the Virtual Account.

3. In the Search field, specify and search the required template name.
4. From the Templates list, select the required template.
The Create Virtual Account screen is displayed with the details pre-populated.
5. Modify the Virtual Account details, if required.

Note:

Virtual Account Name gets defaulted from Virtual Entity Name.

Based on the product selection, if the Virtual account name change is permitted at product level, then the user will be allowed to change the description as per his choice during the flow.

If the Virtual account name change is not permitted at product level, then the user will not be allowed to change the Virtual Account name and the field will remain non editable.

6. User can also perform any one of the following action:
 - Click **Submit**.
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate to the previous screen.
7. The **Review** screen appears. Verify the details and click **Confirm**.

User can also perform any one of the following action:

- Click **Cancel** to cancel the transaction.
- Click **Back** to navigate to the previous screen.

8. The success message of **Virtual Account** creation appears along with the reference number and status of the transaction.

User can also perform any one of the following action:

- Click **Save As Template** to save the account details with the template name.
- Click **Go To Dashboard** to navigate to the dashboard.
- Click **Go To Overview** to navigate to the Virtual Account management dashboard.
- Click **Create More Accounts** to create Virtual Accounts.
- Click **Create Structure** to create structure.

9. Click **Save As Template** on the success message of Virtual Account creation screen. The Save Template pop-up appears

The image shows a 'Save Template' pop-up dialog box. It has a title bar with a close button (X). The main content area contains a label 'Template Name' above a text input field. Below the input field is a hint text: 'Enter 1 to 40 characters.' At the bottom right, there are two buttons: 'Save' (dark grey) and 'Cancel' (light grey).

10. In **Template Name** field, specify the template name.
11. User can perform any one of the following actions:
 - Click **Save** to save the Virtual Account template.
 - Click **Cancel** to cancel the transaction.

Note

On saving an existing template (with or without modifications), it will always be saved as a new template.

User is not allowed to save a template with an existing name.

Please note that Virtual Account number is not generated in OBDX, auto generation should be enabled at OBVAM side for VA creation.

4.2 View Virtual Account

This topic provides systematic instructions to view the virtual account.

Note

The user can view the Virtual Entities to which they have access.

User can search and view the virtual accounts by entering the search criteria. Only accessible virtual accounts are displayed for the user.

To view Virtual Account:

1. Perform the following navigation to access the screen.
 - From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **Virtual Account**. Under **Virtual Account**, click **View/Edit Virtual Account**.
2. In the **Party Name** field, select the party name and ID from the drop-down list.
3. Perform the following action to View Virtual account.
 - In the **Virtual Account Number** field, enter the Virtual Account Number.
 - In the **Virtual Account Name** field, enter the Virtual Account name.
 - From the **Virtual Entity ID and Name** field, select the virtual entity Id or name.
 - In the **IBAN** field, enter the IBAN Number.
 - From the **Branch Name** field, select the Branch name of the Virtual Account.
 - From the **Currency** field, select the currency of the Virtual Account.
 - From the **Status** field, select the status.

Note

It is mandatory to specify any one of the above parameters to get the search result.

4. User can perform any one of the following action:
 - Click **Search** to search to view Virtual Account.
 - Click **Clear** to reset the entered data.
 - Click **Cancel** to cancel the Parent Account selection.

The **View Virtual Account** screen appears.

Virtual Account No. & Name	IBAN	Virtual Entity ID & Name	Branch Name	Currency	Status

Table 4-13 Edit Virtual Account - Field Description

Field	Description
Party Name	Displays the party name and ID mapped to the selected Virtual Account.
Virtual Account Name	Displays the Virtual Account Name as maintained.
Virtual Account Number	Displays the Virtual Account Number.
Available Balance	Displays the balance details of Virtual account and related child accounts. Note On clicking the link, the users can view the balance for particular Virtual Account only including child contributions. Refer to the View Virtual Account section for the detailed explanation.
Account Details	This section displays the account details.
Virtual Account Name	Specify the name of the Virtual Account Holder. Note: User can modify the Virtual Account name only if the same is permitted at product level.
Virtual Entity ID & Name	Displays the Name & ID of the virtual entity corresponding to the Virtual Accounts.
Branch Name	Displays the Branch Name of the Virtual Account.
Product	Displays the product name under which the Virtual Account is opened.
Purpose	Specify the purpose of the Virtual Account.
Currency	Displays the currency under which the Virtual Account is to be opened.
Linkage	Displays the linkage type of the Virtual Account to Structure or Real Account.
Structure Name	Displays the name of the structure to which the Virtual Account is added. This field appears only if the Linkage type is selected as Structure .
Parent Account Number	Displays the parent account number to which the Virtual Account is linked. This field appears only if the Linkage type is selected as Structure .
Real Account Number	Specify the Real account number to which the Virtual Account is linked. This field appears only if the Linkage type is selected as Structure .
Interest Calculation Required	Toggle to display the applicable Interest Rates for the selected Virtual Account.
Interest Rates	Interest rates link is displayed for only those products where the interest calculation required is supported and toggle is enabled.
Creation Date	Displays the account creation date.

Table 4-13 (Cont.) Edit Virtual Account - Field Description

Field	Description
Interest Rates pop-up	On selection of Virtual Account product, application displays the interest rates maintained for the product. Note The Interest Rates pop up appears only if the user selects Product, Currency, and Branch Name. Below mentioned field appears.
Interest Product	Displays the name of the interest product for which the interest rates are maintained.
Rate Description	Displays the description of the interest rate.
Effective Date	Displays the date from which the interest rate is effective.
Currency	Displays the name of the currency name under which the Virtual Account is to be opened.
Rate	Displays the interest rate maintained for the product.
Rate Code	Displays the rate code maintained for the product.
Interest Rates	Interest rates link is displayed for only those products where the interest calculation required is supported and toggle is enabled.
Creation Date	Select the Virtual Account creation date.
Account Expiry Date	Displays the expiry date of the virtual account. This field is editable and user can specify the new Expiry date Note: If no date is set, it will indicate that there will be no Expirydate for the Virtual Account in context.
Expired	Displays the expiry status of virtual account Note: If an account is expired, User will be allowed to • Modify Virtual Account details including expiry date • Generate and view expired Virtual Accounts Statements • Modify access rights for an expired Virtual Account.
Correspondence Address	These fields are editable and by selecting the Copy from Virtual Entity function, the fields of correspondence address gets auto populated from Virtual entity address in editable format. The user can clear the fields by deselecting the Copy from Virtual Entity check box.
Address Line 1	Specify the correspondence address line 1 of the Virtual Account holder.
Address Line 2	Specify the second line of mailing address of the corporate Virtual Account holder.
Country	Specify the country name of the corporate Virtual Account holder.
Post Code	Specify the post code of the corporate Virtual Account holder.
Structured Address / Hybrid Address	These fields are editable and by selecting the Copy from Virtual Entity function the fields of structured address get auto populated from Virtual entity address in editable format. The user can clear the fields by deselecting the Copy from Virtual Entity check box.
Address Line 1	Specify the first line of address of the corporate virtual entity holder.
Address Line 2	Specify the second line of address of the virtual entity holder.

Table 4-13 (Cont.) Edit Virtual Account - Field Description

Field	Description
Department	Specify the department of the Virtual Account holder.
Sub-Department	Specify the sub-department of the Virtual Account holder.
Street Name	Specify the street name of the corporate Virtual Account holder.
Building Number	Specify the building number of the Virtual Account holder.
Building Name	Specify the building name of the Virtual Account holder.
Floor	Specify the floor number of the corporate Virtual Account holder.
Post Box	Specify the post box number of the Virtual Account holder.
Room	Specify the room number of the corporate Virtual Account holder.
Post Code	Specify the post code of the Virtual Account holder.
Town Name	Specify the town name of the corporate Virtual Account holder.
Town Location Name	Specify the town location name of the corporate Virtual Account holder.
District Name	Specify the district name of the corporate Virtual Account holder.
Country Subdivision	Specify the country subdivision of the corporate Virtual Account holder.
Country	Specify the country name of the corporate Virtual Account holder.
Preferences	The Preferences are defaulted as per product selected by the user. If preferences are defaulted as No , the same cannot be modified.
IBAN Required	Displays the IBAN Required preference set on Virtual Account creation.  Note This field is non-editable.
Balance Check for Debits	Toggle to check the balance while debiting the account.
Balance Availability Options	Toggle to avail balance availability preference in the account. The options are: • Own Balance • Pool Balance • Fixed Amount In Pool Balance
Fixed Amount In Pool	Specify the fixed amount to be used from the pool. This field appears if you select Fixed Amount In Pool Balance option from the Balance Availability Option list.
Debit Transaction Allowed	Toggle to avail debit transaction preference on the Virtual Account.
Credit Transaction Allowed	Toggle to avail credit transaction preference on the Virtual Account.
Account Frozen	Toggle to freeze the Virtual Account.
Overdraft Allowed	Toggle to avail overdraft preference on the Virtual Account.
Overdraft Amount	Specify the fixed amount as overdraft on the Virtual Account. This field is displayed if you select Overdraft Allowed preference.

6. Edit the values in the fields, if required.

7. Click  to view the account balance details.

The Account Balance overlay screen appears.

Table 4-19 Track Virtual Account Closure

Field	Description
Party Name	Select the party name and ID from the drop-down list to view the applicable Virtual Accounts. By default, the primary party of the logged-in user is selected. Note: Based on the party name selection, the mapped Virtual Accounts are displayed.
Virtual Account Number	Specify the Virtual Account Number to track closure.
Virtual Account Name	Specify the name of the Virtual Account to track closure.
IBAN	Specify the IBAN number of the Virtual Account.
Structure List	Information Specified in below fields are related to structure lists.

Table 4-19 (Cont.) Track Virtual Account Closure

Field	Description
From Date – To Date	Select the date range up to which you want to view the search results.
StatusVirtual Account Closure Status	Select the status of the Virtual Account. Note: User can view only the configured number of Virtual Account Number in the search results. If the search result count exceeds the configured count, an error message appears to refine the search criteria.
Virtual Account No. & Name	Displays the account number and name corresponding to the search criteria selected for closure.
IBAN	Displays the IBAN number of the Virtual Account.
Closure Initiated Date	Displays the date on which closure initiation request is initiated.
Closure Request Status	Displays the status of the closure request. Following are the possible statuses of a Virtual Account closure request • Closure Initiated – Once user initiates Virtual Account closure, the status of the request would be "Closure Initiated". • Completed: On successful closure of the Virtual Account, the status will be marked as "Completed" • Terminated: The status of the closure request will be marked as "Terminated", whenever a user terminates a closure request before the account is closed. User can terminate a closure request by clicking on the "Terminate" Button • Failed: The status of the closure request will be marked as "Failed" if any of the above listed stages fail. User can also retry the closure request by clicking on "Retry" button.

- Click Manage Columns to reorder or modify or save column preferences in virtual account screen.

- Click the Closure Request Status link to view the Virtual Account closure status details. The Virtual Account closure status screen appears. Refer below matrix to understand when Terminate /Retry buttons are displayed.

Table 4-20 Closure Request Status

Field	Description
Party Name	Displays the party name and ID mapped to the selected Virtual Account.
Closure Request Status	Specify the Virtual Account Number to track closure.
Closure Request Status	Information Specified in below fields are related to Closure request status
Virtual Account Number	Displays the Virtual Account Number.
Virtual Account Name	Displays the Virtual Account Name.
IBAN	Displays the IBAN number of the Virtual Account.
Structure List	Information Specified in below fields are related to Structure details.
Closure Initiated Date	Displays the date on which closure initiation request is initiated.
Status	Displays the status of the closure request.
Train stop	Displays the different stages of closure request.

9. User can perform any one of the following action.
- Click **Terminate** to terminate the request.
 - Click **Retry** to retry the request.

- Click **Back** to navigate to the previous screen.

4.6 Reopen Virtual Account

This feature allows the corporate user to reopen Virtual Accounts.

Note

The user can view the Virtual Entities to which they have access.

To reopen Virtual Account(s):

1. From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **Virtual Account**. Under **Virtual Account**, click **View/Edit Virtual Account**.
2. In the **Party Name** field, select the party name and ID from the drop-down list.
3. Perform any one of the following actions:
 - In the **Virtual Account Number** field, enter the Virtual Account whose details you want to edit
 - In the **Virtual Account Name** field, enter the name of the Virtual Account whose details you want to reopen.
4. Click **Show more** option and search the Virtual Account by specifying the other parameters such as **Virtual Entity**, **IBAN**, **Branch Name**, **Currency**, **Linkage** type, and **Status**.
5. Perform any one of the following actions.
 - Click **Search**
 - Click **Clear** to reset the search parameters.
 - Click **Cancel** to cancel the transaction.
6. Click the **Virtual Account Number & Name** link to reopen the virtual account.
The **View Virtual Account - Closed** screen appears

7. User can perform any one of the following action:
 - Click **Reopen** to reopen the Virtual Account. The message is displayed prompting for reopening the Virtual Account.
 - Click **Back** to navigate back to previous screen.

Figure 4-9 Reopen Virtual Account

8. User can Perform any one of the following action: Click **Yes** to reopen the Virtual Account.
 - Click **Yes** to reopen the Virtual Account.
 - Click **No** if you do not wish to reopen the Virtual Account.
9. User can perform any one of the following action when the success message of Virtual Account Reopen appears along with the reference number.
 - Click **Go To Dashboard** to navigate to the dashboard screen.
 - Click **Go To Overview** to navigate to the Virtual Account management dashboard.

5

Virtual Accounts Structure

The implementation of Virtual Accounts structure provides corporates better visibility and greater control over cash. It allows corporate the ability to re-examine funds allocation quickly and look for opportunities to implement a payment or collection.

You can create and view the Virtual Accounts structure in both tabular as well as map view.

Features Supported In the Application

The virtual account module of the OBDX application supports the following features:

- [Create Virtual Accounts Structure](#)
This topic provides the systematic instructions to create the Virtual Account Structure.
- [View Virtual Accounts Structure](#)
This topic provides the systematic instructions to view the Virtual Account Structure.
- [Edit Virtual Accounts Structure](#)
This topic provides systematic instructions to edit the virtual account structure.
- [Close Virtual Accounts Structure](#)

5.1 Create Virtual Accounts Structure

This topic provides the systematic instructions to create the Virtual Account Structure.

① Note

The user can view the Virtual Entities to which they have access.

To create a virtual account atructure:

Figure 5-1 Create Virtual Account Structure

1. Perform the following navigation to access the screen.
 - From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **Virtual Accounts Structure**. Under **Virtual Accounts Structure**, click **Create Structure**
 - From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **Overview**, and then click **Virtual Accounts Structure**. Under **Virtual Accounts Structure**, click **Create Structure**.

The **Create Virtual Account Structure** screen appears

2. Click **Create Structure** to create the Virtual Accounts Structure in Tree/Tabular view.

3. In the **Party Name** field, select the party name and ID from the drop-down list.
4. In the **Structure Code** field, enter the structure code.
5. In the **Structure Name** field, enter the name of the structure.
6. From the **Real/Virtual Multi-Currency Account** list, select the appropriate account number.
7. In the **Header Account** field, click **Search** icon to search the header account number. The **Header Account** overlay appears.

Table 5-2 Virtual Accounts Structure - Field Description

Field	Description
Structure Code	Displays the structure code.
Structure Name	Displays the structure name corresponding to the structure code.
Real/ Virtual Multi-Currency Account	Displays the Real/Multi-Currency account number under which the structure is to be created.
Header Account	Displays the Header account number, which is the topmost Virtual Account in the structure.
Charge Account	Displays the charge account number from which the charges will be collected. Create Structure functionality is available in both Tree and Table view. Below fields are available / applicable for both the views.
Virtual Account Name	Displays the Virtual Account name corresponding to the Virtual Account Number.
Virtual Account Number	Displays the Virtual Account Number. Note The user will be able to view only the Virtual Accounts which he has access to.
Currency	Displays the currency of the Virtual Account.
Account Linked	Displays the number of linked child accounts to the parent account. This field appears as column in Tabular view. This field Link icon appears directly in the Virtual Account node in Tree view.

Table 5-2 (Cont.) Virtual Accounts Structure - Field Description

Field	Description
Action	Click three-dots icon to view the account details or undo link the Virtual Accounts in Tree/Tabular view. Note Undo link appears for newly added accounts only.
Link	Click Link icon to link the child accounts under Virtual Account Number in Tree/Tabular view. On clicking this icon, Link Accounts Overlay appears from which the user selects the Virtual Accounts to link. Note The user will be able to view only the Virtual Accounts which he has access to.
Expand/ Collapse	Click to expand or collapse list in the table structure. This button appears only in Tabular view. Click on the node to expands its immediate child accounts and collapses all other expanded nodes. This option is applicable only for Tree view.
Link Accounts Overlay	Information specified in below fields are related to Link Accounts Overlay screen.
Virtual Account Number	Specify the Virtual Account Number.
Virtual Account Name	Specify the Virtual account name.
Virtual Entity	Select the virtual entity from the list. Note: The drop-down includes only those entities which are accessible to the user.
Branch Name	Select the Branch of the account from the list.
Currency	Select the currency of the account from the list.
Search Result	This section displays the search results. Note: User can view only the configured number of Virtual Account Number in the search results. If the search result count exceeds the configured count, an error message appears to refine the search criteria.
Select All	Select the checkbox on the header row to select all the available virtual account number.
Virtual Account No. & Name	Displays the Virtual Account number and name.
Branch Name	Displays the Branch of the account.
Currency	Displays the currency of the account.

Table 5-2 (Cont.) Virtual Accounts Structure - Field Description

Field	Description
Virtual Account Number	Displays the Virtual Account Number. <i>Note</i> The user will be able to view only the Virtual Accounts which he has access to.
Currency	Displays the currency of the Virtual Account.

Note

In Tree view,

- a. Header Node is displayed in different colour and selected node is highlighted.
- b. Click 1,2,3 to navigate between pages to view all the linked accounts. Count of nodes to be visible at a single level in a Virtual Accounts Structure will be as maintained in system configuration post which all the nodes appear in horizontal pagination.

14. Click  icon to view the account details, and undo link the Virtual Account.

- If you click **Account Details**, the **Account Details** screen appears.
- If you click **Undo Link**, a message confirming removal of selected account appears. Click **OK**.

The selected account along with the child accounts are de-linked from the parent account.

15. Click **Link** icon to link the Virtual Account.

The **Link Accounts** screen appears.

16. Select the appropriate account number and click **Link**.

The selected Virtual Account Number is linked to the parent Virtual Account.

17. Perform any of the following actions:

- Click  icon to view the account structure in tree view.

The **Linked Accounts** appears in Tree view.

- Click  icon to view the account structure in table view.

The **Linked Accounts** appears in Tabular view.

Table 5-3 Virtual Accounts Structure - Table View - Field Description

Field	Description
Virtual Account Number	Displays the Virtual account number.
Virtual Account Name	Displays the name of the Virtual account
IBAN	Displays the IBAN number of the Virtual Account
Virtual Entity Name	Displays the name of the virtual entity corresponding to the Virtual Accounts
Branch Name	Displays the branch name of the account
Expired	Displays the blocked amount of the linked child Virtual Accounts.
Account Expiry Date	Displays the Expiry date of the virtual account
Creation Date	Displays the structure creation date.
Status	Displays the status of the structure
Available Balance	Displays the available balance in the Virtual account.

Table 5-8 (Cont.) Virtual Accounts Structure - Account Details - Field Description

Field	Description
Product	Displays the product name under which the Virtual Account is opened
Real Account Linkage	Displays whether the Virtual Account is linked to the Real Account

8. In **Tree** view, click  icon to view the **Account Details**.

User can also perform the following action:

In **Tabular** view, click **Account Details**.

The **Account Balance Details** screen appears.

Note: This button appears only for the Virtual Accounts which the user has access.

9. Click on the header node to view the accounts linked under the Virtual Account. User can also perform any of the following action:
- Click  icon to view the account structure in a tree view. You can click on each account widget to view the account balance details.
 - Click  icon to view the account structure in tabular view. You can click **View More** link to view the account balance details.
 - Click **Download** to download the Virtual Accounts Structure in .csv format.

 Note

This option will not appear for the closed Virtual Accounts Structure.

10. User can also Perform any of the following action :
- Click **Edit** to modify and update the Virtual Accounts Structure.
 - Click **Close Structure** to close the Virtual Accounts structure.
 - Click **Back** to navigate back to previous screen.

5.3 Edit Virtual Accounts Structure

This topic provides systematic instructions to edit the virtual account structure.

 Note

The user can view the Virtual Entities to which they have access.

The **Edit Virtual Accounts Structure** allows the user to edit the Virtual Accounts structure. The user can add a child account as well as remove the child account as required.

Navigation Path:

Note

Delink option is available only for a node which does not have any child accounts. The user can delink the node from the structure only if its own balance is Zero. It will only delink a Virtual Account from the structure and not close the Virtual Account.

To edit Virtual Accounts Structure:

1. Perform any one of the following navigation:
 - a. From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **Virtual Accounts Structure**. Under **Virtual Accounts Structure**, click **View/Edit Virtual Account Structure**.
 - b. From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **Overview**, and then click **Virtual Accounts Structure**. Under **Virtual Accounts Structure**, click **View/Edit Virtual Account Structure**.
2. Navigate to the **View Virtual Accounts Structure** and in the **StructureCode** field, enter the Virtual Accounts structure code whose details you want to edit.
3. In the **StructureName** field, enter the name of the Virtual Accounts Structure whose details you want to edit.
4. Perform any one of the following action:
 - a. Click **Search**. The search result corresponding to the search criteria appears.
 - b. Click **Clear** to reset the search parameters.
 - c. Click **Cancel** to cancel the transaction.
5. Click the link under the **Structure Code & Name** column.
The Structure Code details appears.
6. Click **Edit**.
The **Edit Virtual Accounts Structure** screen appears.

The screenshot displays the 'Edit Virtual Accounts Structure' interface. At the top, there's a header with the Futura Bank logo and a search bar. Below the header, the title 'Virtual Accounts Structure' is shown with a sub-header 'ABZ Solutions | ***462'. The main form contains several input fields: 'Party Name' (ABZ Solutions | ***462), 'Structure Code' (TreeStruc14AUTOR39), 'Structure Name' (Tree Struc14 AUTOR39), 'Real/Virtual Multi-Currency Account' (xxxxxxxxxxxx0024 - Account 04 | GBP | HEL), 'Header Account' (xxxxxxxxxxxx02151 - test | GBP | HEL), and 'Charge Account' (xxxxxxxxxxxx0013 - Account 05 | GBP | HEL). There is also a checkbox for 'Interest Calculation Required' which is currently unchecked. At the bottom of the form, there are three buttons: 'Build Structure', 'Cancel', and 'Back'. The footer of the page contains a copyright notice: 'Copyright © 2006, 2023, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Table 5-9 Virtual Accounts Structure - Edit - Field Description

Field	Description
Party Name	Displays the party name and ID mapped to the selected Virtual Accounts Structure.
Structure Code	Displays the structure code.
Structure Name	Displays the structure name corresponding to the structure code.
Real/Multi-Currency Account	Select the Real/Multi-Currency account number under which the structure is to be updated. Note The user cannot change the Real/VMCA account number in a structure until all linked Virtual accounts are zeroed and removed.
Balance	Displays the current balance in the selected Real/Multi-Currency account. Note This field appears only for the Real/Multi-Currency Accounts which the user has access.
Header Account	Displays the Header account number under which the structure is to be updated.
Interest Calculation Required	Indicates whether interest calculation is required ta structure level.
Charge Account	Select the charge account number from which the charges can be collected.

7. Modify the **Structure Name**, **Interest Calculation Required** toggle, and **Charge Account**, if required.
8. Click **Build Structure**.

The **Edit Virtual Accounts Structure – Tree View** screen appears.

 - d. Click **Delink**.
A message confirming removal of the existing accounts appears.
 - e. Click **OK**.
 - f. Click **Undo Delink** to undo the removed virtual account from the parent account.
10. User can perform any one of the following action. .
 - Click **Submit** .
 - Click **Cancel** to discard the changes.
 - Click **Back** to navigate to the previous screen.
11. The **Review** screen appears only with the updated details. Verify the updated details and click **Review Structure**.

User can also perform any of the following action:

- Click **Cancel** to cancel the transaction.
- Click **Back** to navigate back to the previous screen.

12. Verify the details and click **Confirm**.

The success message of **Virtual Accounts Structure** update appears along with the reference number.

User can also perform any of the following action:

- Click **Cancel** to cancel the transaction.
- Click **Back** to navigate back to the previous screen.

13. The Review screen appears only with the updated details. Verify the updated details and click Review Structure.

User can also perform any of the following action:

- Click Cancel to cancel the transaction.
- Click Back to navigate to the previous screen.

14. Click Confirm to update the Virtual Accounts Structure. The success message of Virtual Accounts Structure update appears along with the reference number.

User can also perform any of the following action:

- Click Cancel to cancel the transaction.
- Click Cancel to cancel the transaction.

15. Click **Home** to navigate to the dashboard screen.

User can also perform the following action:

Click **Create More Structure** to create virtual structure.

5.4 Close Virtual Accounts Structure

1. Perform any one of the following navigation to access the screen:

- Navigate to the View Virtual Accounts Structure and in the Structure Code field, enter the Virtual Accounts Structure code whose details you want to close.
- In the Structure Name field, enter the name of the Virtual Accounts Structure whose details you want to edit.

The **Virtual Accounts Structure** screen appears.

2. User can perform any one of the following action:

- Click **Search** . The search results appear based on the search parameters defined.
- Click **Clear** to reset the entered data.
- Click **Cancel** to cancel the transaction.

3. Click the link under the **Structure Code & Name** column. The structure code details are displayed..

4. Click **Close**. A message is displayed prompting for record closure.

Figure 5-15 Close Virtual Accounts Structure

**Note**

- Virtual Accounts structure can only be closed if
1. User has the access to the header account of the structure.
 2. All the child account balances are zero.

5. Click **Yes** to close the Virtual Accounts Structure.

The success message of Virtual Accounts Structure deletion appears along with the reference number.

User can also perform the following action:

Click **No** if you do not wish to close the Virtual Accounts Structure.

Note

Once the Virtual Accounts Structure is closed, Virtual Accounts are delinked and can be added to another Virtual Accounts Structure.

6. Click **Home** to navigate to the application dashboard screen.

6

Remittance ID

Remittance IDs are the Virtual Accounts that do not have account balances of their own but act like pipelines to the real accounts and help to keep track of Emitters.

This feature allows below features:

- [Create Remittance ID](#)
- [View Remittance ID](#)
- [Edit Remittance ID](#)
- [Close Remittance ID](#)
- [Reopen Remittance ID](#)
- [Virtual Identifier Transaction Inquiry](#)

6.1 Create Remittance ID

1. Perform the following navigation to access the screen:

- From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **Remittance ID**. Under **Remittance ID**, click **Create Remittance ID**.

The Remittance ID Creation screen displays.

Figure 6-1 Remittance ID Creation

screen appears.

2. Perform any one of the following actions:
- Click **Create Single Remittance ID** to create one Remittance ID at a time.
 - Click **Bulk File Upload** to create multiple Remittance ID through Bulk File Upload.
- The **Remittance ID** screen appears.

Figure 6-2 Create Remittance ID

Table 6-1 Remittance ID - Field Description

Field	Description
Party Name	Select the party name and ID from the drop-down list in which the Remittance ID must be created. By default, the primary party of the logged-in user is selected.
Remittance ID Details	Information Specified in below fields are related to Remittance ID details.
Virtual Identifier	Select the Virtual Identifier from the drop-down list. <i>Note</i> The user can view the Virtual Identifiers for which he has access to.
Remittance List ID & Name	Displays the Remittance List ID and Name.
Branch Name	Displays the branch name of the selected Virtual Identifier.

Table 6-1 (Cont.) Remittance ID - Field Description

Field	Description
Real/Virtual Multi-Currency Account	Displays the Real/Virtual Multi-Currency Account Number along with the available balance. This field appears only if the user has access to Real/Virtual Multi-Currency Account Number .
Remittance ID	Specify the Remittance ID.
Valid From	Select the Remittance ID validity start date.
Valid To	Select the Remittance ID validity end date.
Validate Exact Amount	Switch on the toggle to validate the exact remittance amount.
Currency	Select the currency for the amount validation. This field appears if Validate Exact Amount option is enabled.
Amount	Specify the exact amount for validation. This field appears if Validate Exact Amount option is enabled.
Reconciliation Information	Specify the reconciliation information of the Remittance.
Additional Information	Specify the additional information about the Remittance.
IBAN Required	Move the toggle to enable the IBAN for the Remittance ID.

To create single Remittance ID:

3. In the **Party Name** field, select the party name and ID from the drop-down list.
4. From the **Virtual Identifier** list, select the Virtual Identifier.
5. In the **Remittance ID** field, enter the Remittance ID.
6. From the **Valid From** list select the validity start date of the Remittance ID.
7. From the **Valid To** list select the validity end date of the Remittance ID.
8. Switch on the **Validate Exact Amount** toggle to validate the exact remittance amount
9. If **Validate Exact Amount** option is enabled:
 - a. Select the currency from the **Currency** drop-down list.
 - b. Specify the amount in the **Amount** field.
10. In the **Reconciliation Information** field, enter the reconciliation details.
11. In the **Additional Information** field, enter the additional details.
12. Move the **IBAN Required** toggle to enable the IBAN for the Remittance ID.

Create Remittance ID screen

13. Perform any one of the following action: Click **Submit** to create the Virtual Accounts Structure.
 - Click **Cancel** to cancel the transaction.
 - Click **Cancel** to cancel the transaction.
14. The **Review** screen appears. User can also perform any one of the following action:
 - Verify the details and click **Confirm**.
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate to the previous screen.

The user is directed to **Other Details** screen with values in editable form.

15. User can also perform any one of the following action:

- Click **Home** to navigate to the application dashboard screen.
- Click **Create More Remittance ID** to create Remittance ID.

6.2 View Remittance ID

This feature allows the corporate user to view Remittance ID.

To view Remittance ID:

1. From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **Remittance ID**. Under **Remittance ID**, click **View/Edit Remittance ID**.

The **Remittance ID** screen appears.

2. In the **Party Name** field, select the party name and ID from the drop-down list.
3. From the **Virtual Identifier** list, select the Virtual Identifier.
4. In the **Status** field, select the status of the Remittance ID.
5. In the **Virtual Account Number** field, enter the Virtual Account Number.
6. In the **Remittance ID** field, enter the Remittance ID.
7. Click on **Show more** options and search the **Remittance ID** by specifying the below parameters.
8. In the **Reconciliation Information** field, enter the Reconciliation Information.
9. In the **Additional Information** field, enter the Additional Information.
10. In the **IBAN** field, enter the IBAN number.

Note

It is mandatory to select the Virtual Identifier, Status and any one of the other parameters to get the search result.

11. Perform any one of the following actions:
 - Click **Search** to view Remittance ID.
The search result corresponding to the search criteria are displayed.
 - Click **Clear** to clear the search criteria.
 - Click **Cancel** to cancel the transaction.

Virtual Multi-Currency Account

Virtual Multi-Currency Account is a group of Virtual Accounts Management enabled real accounts bundled under a Virtual Multi-Currency Account Number. In a situation where bank offers only single currency real accounts, VMCA helps in achieving support for multi-currency transactions in a Virtual Accounts structure.

The user creates a Virtual Account by grouping Virtual Accounts Management enabled single currency real accounts of which maximum one account of each currency can be selected.

This feature allows below features:

- Create Virtual Multi-Currency Account
- View Virtual Multi-Currency Account
- Edit Virtual Multi-Currency Account
- Close Virtual Multi-Currency Account
- [Create Virtual Multi-Currency Account](#)
- [View Virtual Multi-Currency Account](#)
- [Edit Virtual Multi-Currency Account](#)
- [Close Virtual Multi-Currency Account](#)

7.1 Create Virtual Multi-Currency Account

From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **Virtual Multi-Currency Account**. Under **Virtual Multi-Currency Account**, click **Create Virtual Multi-Currency Account**.

1. Perform the following navigation to access the screen.

From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **Virtual Multi-Currency Account**. Under **Virtual Multi-Currency Account**, click **Create Virtual Multi-Currency Account**.

The **Virtual Multi-Currency Account** screen appears.

Internal Credit Line

Internal Credit Line enables corporate user to define internal credit limits for its subsidiaries and track usage. Often a corporate with cash surplus creates a credit line internally for one of its group companies to utilize. This is to avoid higher bank lending rates and to better utilize internal funds.

Using this option corporate user can

- Create Internal Credit Line
- View Internal Credit Line
- Edit Internal Credit Line
- Close Internal Credit Line
- [Create Internal Credit Line](#)
- [View Internal Credit Line](#)
- [Edit Internal Credit Line](#)
- [Close Internal Credit line](#)

8.1 Create Internal Credit Line

Corporate user can initiate request to create internal credit line linkage. On linking of Virtual Accounts, its subsidiaries can start utilizing the credit line.

To link Virtual Account(s) to a credit line:

1. Perform any one of the following navigation to access the Special Rate Maintenance screen.
 - From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **Internal Credit Line**. From the **Internal Credit Line**, click **Create Internal Credit Line**.
2. In the **Party Name** field, select the party name and ID from the dropdown list.
3. In the **Line ID** field, enter the unique id for the internal credit line.
4. From the **Line Branch** list, select the branch name, click to search required branch name.
5. In the **Line Name** field, enter the unique name for the internal credit line.
6. From the **Line Currency** list, select the currency for the internal credit line to be created.
7. In the **Line Amount** field, enter the line amount for the internal credit line.
8. From the **Line Start Date** list, select the start date for the internal credit line.
9. From the **Line End Date** list, select the end date for the internal credit line.
10. From the **Available for Utilization** field, select the appropriate option to decide the whether the credit line is available for utilization or not.

Figure 8-1 Create Internal Credit Line

The screenshot shows the 'Create Internal Credit Line' form in the Futura Bank Virtual Account Management interface. The form is titled 'Internal Credit Line' and is for 'ABZ Solutions | ***462'. It contains several required fields: Party Name (dropdown), Line ID, Line Branch, Line Name, Line Currency, Line Amount, Line Start Date, and Line End Date. There is also an 'Available for Utilization' toggle switch. At the bottom are 'Submit', 'Cancel', and 'Back' buttons.

 - Click **Yes** to delink Virtual Account.
 - Click **No** to cancel the deletion.

10

Special Rate Maintenance

There are use cases like Third Party Fund Management or POBO-COBO where Virtual Accounts when used also earn interest income. The rate of interest for these Virtual Accounts is set by the corporate itself. There will be a default or **General Rate** set up that applies to all the Virtual Accounts that have interest income. However, there could be instances where for a few select Virtual Accounts a different rate is applicable. This rate is called "Special Rate" and corporate user will be able to select Virtual Accounts one at a time and set the special rates.

Prerequisite

Oracle Banking Virtual Account Management and Oracle Banking Interest and Charges integration is available and the necessary linking of Oracle Banking Virtual Account Management Product to Interest Groups in Oracle Banking Interest and Charges is done.

Using this option corporate user can:

- View Special Rates
- Edit Special Rates
- Add Special Rates
- [View Special Rates](#)
- [Edit Special rates](#)
- [Add Special Rates](#)

User can also perform any one of the following action:

- Click **Home** to navigate to the dashboard.
- Click **Go To Overview** to navigate to the Virtual Account management dashboard.

11

General Rate Maintenance

There are use cases like Third Party Fund Management or POBO-COBO where Virtual Accounts when used also earn interest income. The rate of interest for these Virtual Accounts is set by the corporate itself. There will be a default or **General Rate** set up that applies to all the Virtual Accounts that have interest income.

Prerequisite

Oracle Banking Virtual Account Management and Oracle Banking Interest and Charges integration is available and the necessary linking of Oracle Banking Virtual Account Management Product to Interest Groups in Oracle Banking Interest and Charges is done

Using this option corporate user can:

- [View General Rates](#)
- [Edit General Rate](#)
- [Add General Rates](#)

11.1 View General Rates

To view General Rates for Virtual Account:

1. From the Dashboard, click Toggle menu, click Virtual Account Management, then click Interest Rate. From the Interest Rate, click View/Edit General rates.
2. In the **Party Name** field, select the party name and ID from the drop-down list.
3. In the **Product** field, enter or select the Virtual Account product from the list, click Search
4. From the **Effective Date** list, select the From and To date from the calendar.
5. From the **Branch list**Branch list, select the Virtual Account branch.
6. From the **Currency list**Branch list, select the Virtual Account currency.
7. User can perform any of the following action:
 - Click **Search**. Based on search criteria the list of general rates maintained appears. Product, Branch Name, and Currency is mandatory to get search results
 - Click **Clear** to clear search criteria.
 - Click **Cancel** to cancel the transaction.

13.2 Pre-Generated Statement

Pre-Generated statement provides the details of the transactions of the Virtual Accounts for a given period. The user selects the Virtual Account Number or Name for which the available statements are fetched. The business user can choose the statement format as MT940, MT942, MT950, CAMT.052, CAMT.053, and PDF.

Note

- At System configuration, the maximum date range to request the statements are configured.
- The user can view only those Virtual Entities for which he has access to.

To generate the Pre-Generated statement:

- Perform any one of the following navigation to access the screen.
 - From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **statements**. From the **Statements**, click **Pre-Generated Statements**.
 - From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **overview**. From the **overview**, click **Quick links** then click **Pre-Generated Statements**.
- In the **Party Name** field, select the party name and ID from the dropdown list.
- From the Statement Type list, select the appropriate type in which format you wish to search the statement.

Note

If the Statement Type is selected as PDF, system validates the Statement Type selected under PDF Statement Preferences for the selected Virtual Entity.

4. In the Virtual Entity field, select the Virtual Entity ID or name from the dropdown list.
5. In the Virtual Account field, click Search icon to search the Virtual account number.

Figure 13-6 Pre-Generated Statement

The screenshot shows the 'Pre-Generated Statement' form in the Futura Bank interface. At the top, there's a search bar and a notification icon. The form title is 'Pre-Generated Statement' with a sub-header 'ABZ Solutions | ***462'. The form contains several fields: 'Party Name' (ABZ Solutions | ***462), 'Statement Type' (Required), 'Virtual Entity' (MAINT16 - Corp MAINT16), 'Virtual Account' (Required), 'From Date' (Required), and 'To Date' (Required). There are 'Search', 'Reset', and 'Cancel' buttons. A note at the bottom states: 'Difference between From Date and To Date should not be greater than 30 days.' The footer contains copyright information: 'Copyright © 2006, 2023, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Note

Fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.
The **Virtual Account Lookup** overlay appears.

Figure 13-7 Pre-Generated - Virtual Account Lookup

The screenshot shows the 'Virtual Account Lookup' overlay on the Futura Bank interface. The background shows the 'Pre-Generated Statement' screen with fields for Party Name, Statement Type, Virtual Account, From Date, and To Date. The overlay has the following fields:

- Virtual Entity: SDCVE01
- Virtual Account Number: [Text Input]
- Virtual Account Name: SDCVE
- IBAN: [Text Input]
- Branch Name: [Dropdown Menu]
- Currency: [Dropdown Menu]
- Search: [Button]
- Clear: [Button]

The results table shows the following data:

Virtual Account No. & Name	Branch Name	Currency
xxxxxxxxxxxx9724 Corp SDCVE01	HEL FC UNIVERSAL BANK	GBP
xxxxxxxxxxxx5428 Corp SDCVE01	HEL FC UNIVERSAL BANK	GBP
xxxxxxxxxxxx5594 Corp SDCVE01	HEL FC UNIVERSAL BANK	GBP

Buttons at the bottom of the overlay: Search, Reset, Cancel.

Note

This field displays only if the **Virtual Entity** ID is selected from the list.

For more information on fields, refer to the field description table.

6. In the Virtual Account Lookup overlay screen, select the required filter criteria in the respective fields.
7. User can perform any of the following action:
 - Click **Search** to search the virtual account based on search criteria.
 - Click **Clear** to reset the entered data.
 - Click **Cancel** to cancel the transaction.
8. Search and select the Virtual Account Number or name from the list.
9. In the From Date field, select the date from which statement is needed from the calendar.
10. In the To Date field, select the date to which statement is needed from the calendar.
11. Click **Search** to search the statements based on search criteria. Statement Type, Virtual Entity, Virtual Account, From Date, and To Date are mandatory to get search results. User can also perform the following action:
 - Click **Reset** to reset the entered data. OR.
 - Click **Cancel** to cancel the transaction.

Note**PDF Statements:**

- In the scenario, when the statement preference is set to the **Virtual Entity** Level (consolidated), Users can generate a PDF statement for a Virtual Entity only if they have been granted appropriate access to all the Virtual accounts linked to that Entity.
- Users can download the PDF statement only if they have maintained appropriate access to the Virtual Account, given that the preference level for statements is set at the Account Level.
- On downloading the statement in both PDF & CSV, user can view the structured address as maintained during creation.

MT/CAMT Statements:

- The Virtual Account in context must be granted appropriate access for users to download MT/CAMT statements.

Table 13-4 Pre-Generated Statement

Field	Description
Party Name	Select the party name and ID from the drop-down list to view the special rates of the applicable Virtual Accounts. By default, the primary party of the logged-in user is selected.
Statement Type	Select the statement type format you wish to search the statement generated.
Virtual Entity	Select the Virtual Entity for which the statements are to be searched. Note: The drop-down includes only those entities which are accessible to the user.
Virtual Account	Click Search icon and select the Virtual Account Number or name for which the statements are to be searched.
From Date	Select the date from which statement is required. This field is displayed only if the Statement Type is selected as PDF .
To Date	Select the date to which statement is required. This field is displayed only if the Statement Type is selected as PDF .

Pre-Generated Statement – Virtual Account Lookup

Field	Description
Virtual Entity	Displays the selected Virtual Entity.
Virtual Account Number	Specify the Virtual Account Number to filter the Virtual Accounts.
Virtual Account Name	Specify the Virtual Account name.
IBAN	Specify the IBAN for which the statements are to be searched.
Branch Name	Select the branch name to filter the Virtual Accounts.
Currency	Select the currency of the account.

Available Statements

Displays the list of statements based on search criteria along with the date and time generated.

12. Click on icon to download the respective statement.

Note

User cannot customize the list of transactions in the generated statements as it comes directly from Oracle Banking Virtual Account Management.

Available Statements

Figure 13-8 Available Statements

13.3 Ad hoc Statement

Ad hoc statement provides the details of Virtual Accounts transactions for a given period on Ad hoc basis. The user has to select the Virtual Account Number or Name for which the statement has to be generated. The business user can choose the statement format as MT942, CAMT.052, and PDF.

Note

1. At System configuration, the maximum date range to request the statements is configured.
2. On downloading the statement in both PDF & CSV, user can view the structured address as maintained during creation.
3. The user can view only those Virtual Entities for which he has access to.

To generate the Ad hoc statement:

1. User Can Perform any of the following navigation to access the screen:
 - From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **statements**. From the **Statements**, click **Ad hoc Statement**.

- From the Dashboard, click **Toggle menu**, click **Virtual Account Management**, then click **overview**. From the **overview**, click **Quick links** then click **Ad hoc Statement**.

- Click **Apply** to apply the modified columns preferences.
 - Click **Reset** to reset the columns preferences.
 - 9. Click Download and select the option PDF or CSV from the drop-down list.
- The **Select Columns** overlay screen appears.

Figure 13-14 Charges List – Select Columns

- 10. Click Download to download the transaction summary in PDF or CSV format with selected columns.

Access Management

Access to Virtual Account functionalities and information displayed on screen is dependent on how the management has been set up. At present a user's access to Virtual Accounts Management functionalities can be determined by:

- Access to Real Accounts that participate in Virtual Accounts Management
- Access to Virtual Accounts and
- Access to Virtual Identifier

Note

For more details on how to set up access management for Virtual Accounts Management please to refer **Access Management** section in **User Manual Oracle Banking Digital Experience Core**.

Access management & Virtual Accounts Management widgets

Following is a broad guideline as to how access management rights of a user impacts the Virtual Account widgets and other Virtual Accounts Management screens

Dashboard Widgets

- **Real Accounts:** A user will see information and be able to transact in only those Virtual Accounts Management enabled real accounts that he has appropriate access to
- **Virtual Entities:** A user will be able to see all the virtual entities that belong to the party id in context
- **Virtual Accounts:** A user will see information and be able to transact in only those Virtual Accounts that he has appropriate access to
- **Virtual Accounts Structure:** A user will see the full list and count of the accessible Virtual Accounts structure of the party ID in context. User can further click on the link to view the structure details.

Other Virtual Accounts Management screens

The same principle explained above applies to the Virtual Accounts Management screens. Information displayed in various search screens, lists and details screens function depends on the access to real and Virtual Accounts user has access to. For example, Virtual Entity may have 500 Virtual Accounts mapped, but what a user will see is only those accounts that he has access to – could be all 500 or less.

Note

If the user does not have access to underlying Real Account, the user will still be able to view and transact on virtual account structure.

Send-to-Modify

Send-to-Modify functionality enables the approver to send the application back to the maker for the further modification.

The below transactions are eligible for Send-to-Modify functionality:

- Virtual Account - Close
- General Rate - Create
- General Rate - Edit
- Special Rate - Create
- Special Rate - Edit

16

Mobile Touch Point

This functionality allows a corporate user to perform and view Oracle Banking Digital Experience – Corporate File Upload Virtual Account Management transactions on the mobile screen.

Note

Functionality and Information displayed in each widget (columns, links, Graphs, charts etc) depends on the access to Real Accounts and Virtual Accounts user has and is consistent with what is available on Desktop

The below screen gives an idea how the data in widget will be shown on mobile screen:

FAQs

1. Can I create multiple Virtual Entities?

Yes, you can create numerous Virtual Entities under a Real Entity. There is no upper limit to it.

2. Is it necessary to create a Virtual entity in order to create a Virtual Account?

Yes, for creating a Virtual Account, it is mandatory to first create a Virtual Entity & then create Virtual Accounts under it. You may choose to open a single or multiple Virtual Accounts under a single Virtual entity.

3. Can I create multiple Virtual Accounts in a single request?

Yes, you can create numerous Virtual accounts using Bulk file upload option. There is no upper limit to it. You may also create multiple Virtual Accounts via menu option; however, this is limited to one Virtual Account at a time.

4. Can I close a Virtual Entity or a Virtual Account even if there is any balance in it?

No, you cannot close a virtual Account if there is any balance in it. Similarly, you cannot close a Virtual Entity until all the linked Virtual accounts under it are zeroed and closed.

5. How do I create a Virtual Accounts Structure?

You need to first select a real account under which you want to create a structure. In the structure there will be a Virtual Account, which sits on the top as a Header Account under which you can start linking child accounts. You can create one structure at a time however there is no upper limit of adding child accounts to a parent account.

6. Can I create a Virtual Accounts Structure in different views?

Yes, you can create a Virtual Accounts Structure in tree view or in tabular view. You can also switch the view anytime during the creation to one way or the other.

7. Can I edit a Virtual Accounts Structure in different views?

No, you can only create, view & close a Virtual Accounts Structure in both table & tree format. Edit Structure in Tree view is currently not supported and can only be performed in Table view.

8. Will I be able to access Virtual Accounts structure on all the browsers?

No, virtual Accounts structure is not supported on any version of Internet Explorer.
