This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

1.1 Purpose

This guide is designed to help the user to quickly get acquainted with the Customer Standard Instructions maintenance process.

1.2 Audience

This guide is intended for the central administrator of the Bank who controls the system and application parameters and ensures smooth functionality and flexibility of the banking application.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

1.4 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners,

we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.5 Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance.

1.6 Related Resources

For more information on any related features, refer to the following documents

- *Oracle Banking Security Management System User Guide*
- *Routing Hub Configuration User Guide*
- *Oracle Banking Getting Started User Guide*

1.7 Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.8 Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1.9 Acronyms and Abbreviations

The list of the acronyms and abbreviations used in this guide are as follows:

Table 1-1 Acronyms and Abbreviations

Abbreviation	Description
System	Core Maintenance Module
NLP	Natural Language Processing
REST	Representational State Transfer

1.10 Basic Actions

Table 1-2 Basic Actions

Action	Description
Approve	Used to approve the initiated report. This button is displayed, once the user click Authorize .
Audit	Used to view the maker details, checker details, and report status.
Authorize	Used to authorize the report created. A maker of the screen is not allowed to authorize the report. Only a checker can authorize a report, created by a maker.
Close	Used to close a record. This action is available only when a record is created.
Confirm	Used to confirm the performed action.
Cancel	Used to cancel the performed action.
Compare	Used to view the comparison through the field values of old record and the current record. This button is displayed in the widget, once the user click Authorize .
Collapse All	Used to hide the details in the sections. This button is displayed, once the user click Compare .
Expand All	Used to expand and view all the details in the sections. This button is displayed, once the user click Compare .
New	Used to add a new record. When the user click New , the system displays a new record enabling to specify the required data.
OK	Used to confirm the details in the screen.
Save	Used to save the details entered or selected in the screen.
View	Used to view the report details in a particular modification stage. This button is displayed in the widget, once the user click Authorize .
View Difference only	Used to view a comparison through the field element values of old record and the current record, which has undergone changes. This button is displayed, once the user click Compare .
Unlock	Used to update the details of an existing record. System displays an existing record in editable mode.

1.11 Symbols and Icons

2

Overview

This topic describe about the Linkage Covenants and Conditions.

Linking Covenants and Conditions

Covenants and Conditions can be linked to a customer, facility, and collateral. This is presently done through the Covenant Details and Condition Details screens under different data segments of various stages of the Credit Proposal (CP) processes or through the Standalone collateral processes.

- [Covenant Tracking](#)
This topic describes the systematic instructions for Covenant Tracking.
- [Terms and Conditions Tracking](#)
This topic describes the systematic instructions for Terms and Conditions Tracking.

2.1 Covenant Tracking

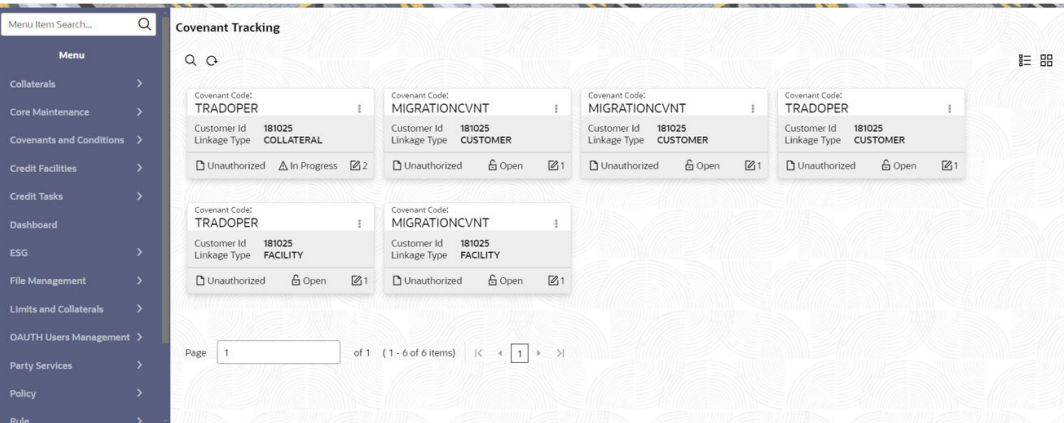

This topic describes the systematic instructions for Covenant Tracking.

The authorization status and record status of the Covenant tracking record is displayed as **Unauthorized** and **Open** initially. Once the checker authorizes the record, the authorization status is changed to **Authorized**.

1. On **Home** screen, click **Covenants and Conditions** under **Covenants and Conditions**, click on **Covenant Tracking**.

The **Covenant Tracking** screen displays.

Figure 2-1 Covenant Tracking

For more information on fields, refer to the field description table.

Table 2-1 Covenant Tracking - Field Description

Field	Description
Covenant Code	Displays the Covenant Codes .
Customer Id	Displays the Customer Id .
Linkage Type	Displays the entity type to which the covenant is linked.
Authorization Status	Displays the authorization status of the record. The options are: <ul style="list-style-type: none"> • Authorized • Unauthorized
Record Status	Displays the status of the record. The options are: <ul style="list-style-type: none"> • Open • Closed
Modification Number	Displays the number of modification performed on the record.

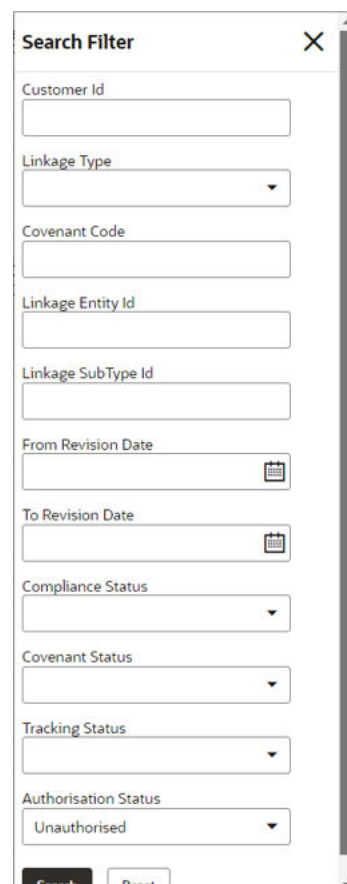

2. On **Covenant Tracking** screen, click  icon.
The Covenant Tracking - Search Filter screen displays.

Figure 2-2 Covenant Tracking - Search Filter

3. On The **Covenant Tracking - Search** screen, specify the **Search Filter** to fetch the required covenant tracking.

For more information on fields, refer to the field description table.

Table 2-2 Covenant Tracking - Search – Field Description

Field	Description
Customer Id	Specify the Customer Id .
Linkage Type	Specify the Linkage Type . The allowed values are <ul style="list-style-type: none"> • Customer • Facility • Collateral This field will be populated based on the Linkage Entity ID.
Covenant Code	Specify the linked covenant code.
Linkage Entity Id	Specify the Linkage Entry Id to which the covenant is linked. Note: <ul style="list-style-type: none"> • For the linkage type Facility, the Facility ID must be specified in the Linkage Entity Id field. • For the linkage type Collateral, the Collateral ID is to be specified in the Linkage Entity Id field.
Linkage Sud Type Id	Specify the Linkage Sub Entity ID. Note: Applicable only for Collateral linkage.
From Revision Date	Specify the From Revision Date.
To Revision Date	Specify the To Revision Date.
Compliance Status	Specify the Compliance Status. The available options are: <ul style="list-style-type: none"> • Met • Breached
Covenant Status	Specify the Covenant Status. The available options are: <ul style="list-style-type: none"> • Waive • Waive all
Tracking Status	Specify the Tracking Status. The available options are: <ul style="list-style-type: none"> • In Progress • Completed
Authorization Status	Specify the Authorization Status. The available options are: <ul style="list-style-type: none"> • Unauthorized • Authorized

- Click **Search** to display the required Covenant Tracking.

- On Covenant Tracking screen, click  icon to Unlock, Delete, Authorize or View the Covenant Tracking.
- Click **Unlock** to modify the Covenant Tracking.

The **Covenant Tracking - Covenant linkage details** screen displays.

Figure 2-3 Covenant Tracking - Covenant linkage details

The screenshot displays the Oracle Covenant Tracking application interface. The main window is titled 'Covenant Tracking' and contains a sidebar on the left with a tree view showing 'Covenant linkage details', 'Covenant details', and 'Covenant tracking details'. The 'Covenant linkage details' section is active, showing a form with the following fields: Customer Id (181025), Customer Name (ACME Corporation), Linkage Type (COLLATERAL), Covenant Linkage Id (LHK23291480), Linkage Entity Id (COL232914809), Linkage Sub Type (PIPT), and Linkage Subtype Id (a833b3be-07b4-460f-acc5-0644ac0c). On the right, there is an 'Update Covenant' panel with fields for Result Value (5), Compliance Status (Breach), Compliance date (July 7, 2018), Covenant Status (Select Waiver Status), Recommendation (Reduce the Facility), and Remarks. At the bottom right of the 'Update Covenant' panel are buttons for 'Cancel', 'Save and Close', and 'Next'.

For more information on fields, refer to the field description table.

Table 2-3 Covenant Tracking - Covenant linkage details Field Description

Fields	Description
Customer Id	Displays the customer Id
Customer Name	Displays the Customer Name.
Linkage Type	Displays the Linkage Type. The allowed values are <ul style="list-style-type: none"> • Customer • Facility • Collateral This field will be populated based on the Linkage Entity ID.
Covenant Linkage Id	Displays the Covenant Linkage Id.
Linkage Entity Id	Displays the Linkage Entry Id to which the covenant is linked. Note: <ul style="list-style-type: none"> • For the linkage type Facility, the facility line number must be specified in the Linkage Entity Id field. • For the linkage type Collateral, the Collateral ID is to be specified in the Linkage Entity Id field.
Linkage Sub Type	Displays the Linkage Sub Type, which signifies the Covenant's linkage to a child collateral.
Linkage Subtype Id	Displays the Linkage Sub Entity ID of the child collateral for a Collateral linkage type.
Result Value	Specify the Result value.
Compliance Status	Specify the Compliance Status. The available options are: <ul style="list-style-type: none"> • Met • Breached
Compliance Date	Specify the Compliance Date.
