Purpose

Welcome to the **Savings Account Origination** user guide for Oracle Banking Origination. This document provides an overview of the Savings Account Origination process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a Savings Account Origination.

Audience

This user manual is intended for the Relationship Managers (RMs) and Sales Officers in-charge of sourcing the Savings Account Products from prospect and customer of the bank. The user manual is also intended for the other bank personas such as Bank Operations Manager, Account Opening Officers or Branch Managers who may handle the specific stages of the lifecycle of the Savings Account Origination process based on the bank's internal operation and policies.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Acronyms and Abbreviations

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

Table 1 Acronyms table

Abbreviation	Description
DS	Data Segment
System	Oracle Banking Origination Module
OBA	Oracle Banking Accounts
OBO	Oracle Banking Origination

Basic Actions

Table 3 Basic Actions

Actions	Functions
Request Clarification	Used to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer. For more information on Request Clarification, refer to the section Request Clarification.
Back	Used to navigate to the previous data segment within a stage.
Next	Used to navigate to the next data segment, after successfully capturing the data. The system validates all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. Users will not be able to proceed to the next data segment, without capturing the mandatory data.

Table 3 (Cont.) Basic Actions

Actions	Functions
Save & Close	Used to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.
Cancel	Used to close the application without saving. This tasks appears in Free Task, once the transaction is canceled.

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1

Overview

This topic describes the information on the various features of the Savings Account Origination module.

Oracle Banking Origination is the middle office banking solution with a comprehensive coverage of Retail Banking Origination processes for Savings Account, Current Account, Term Deposit, Credit Cards and Loans comprising of Home Loan, Personal Loan, Education Loan and Vehicle Loan for Individual customers, and Term Loan and Business Loan for Small and Medium Business customers.

- Saving Account
- Current Account
- Term Deposit Account
- Credit Card Account
- Retail Loans Account

It is a Host-Agnostic solution.

It enables banks to deliver improved user experience for various bank personas such as Sales Officers, Relationship Manager, Account Opening Officers, Branch Supervisor/Managers, Loan Officers, and Credit Officers and so on, handling defined functions in the lifecycle of the various product origination.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business driven, is hosted and architected by our new platform solution. The random access navigation between data segments within a given stage with appropriate validations, helps enable the business user to capture apt information anytime during the account open process before the Savings Account is created in the Host. The new workflow also supports capturing of relevant documents, stage wise, and generation of advices and notifications dynamically.

The initiation request for a Savings Account can be originated by authorized branch users or relationship managers or by approved bank agents, either through the traditional branch channel or through dedicated protocol services made available on digital devices like tablets or mobiles. The initiation of Savings Account request can be made for both new and existing customer types. Also, the system supports processing of the savings account request from the customer which are directly received from the Self-Service Banking Channel (Oracle Banking Digital Experience) through the REST based service APIs.

Note:

Refer to the detailed setup and operation workflows for both asset and liability products initiation made available in the **Operations User Guide**.

2

Savings Account Origination

This topic describes the information on the defined stages through which the Savings Account Application has to flow before it is ready to be sent to the Host for Account Creation.

As detailed in the **Operations User Guide**, all the Product Originations are initiated in the **Application Initiation** stage from the Product Catalogue. The Cart Operation in Product Catalogue allows to originate single or multiple Product initiation. Once the Savings Account Product origination process is initiated either as a single product origination or as part of the multiple product selection, Process Orchestrator generates the Savings Account Process Reference Number on submit of the **Application Initiation** stage. Process Orchestrator also updates the record in the **Free Task** process for the **Application Entry** stage also referred as Task from orchestrator perspective.

The Savings Account Origination Process flow comprises of the following stages and the detailed information of the same is available in the following topics:

- [Application Entry Stage](#)
This topic describes the information on the various data segments to capture the required data in the Application Entry stage.
- [Overdraft Limit Details Stage](#)
This topic describes the information on the various data segments to capture the required data for the Overdraft Limit Details stage.
- [Application Enrichment Stage](#)
This topic describes the information on the various data segments to view and update the required data for the Application Enrichment stage.
- [Account Funding Stage](#)
This topic describes the process of initial funding of an account. In this stage user can provide initial funding details before opening an account.
- [Underwriting Stage](#)
This topic describes the information on the various data segments to access the credit rating and capture the required data for the Underwriting stage.
- [Application Assessment](#)
This topic describes the information on the various data segments to update the required data and assess the application in the Application Assessment stage.
- [Manual Credit Assessment Stage](#)
This topic describes the information on the various data segments to assess the application manually in the Manual Credit Assessment stage.
- [Manual Credit Decision Stage](#)
This topic describes the information on the various data segments to review and approve the application manually in the Manual Credit Decision stage.
- [Account Parameter Setup Stage](#)
This topic describes the information on the various data segments to setup the required account parameters in the Account Parameter Setup stage.
- [Supervisor Application Approval Stage](#)
This topic describes the information on the various data segments to view and approve the price change in the Supervisor Application Approval stage.

- [Offer Issue Stage](#)
This topic describes the information on the various data segments to generate the offer in the Offer Issue stage.
- [Offer Accept / Reject Stage](#)
This topic describes the information on the various data segments to accept / reject the offer in the Offer Accept / Reject stage.
- [Post Offer Amendment Stage](#)
This topic describes the information on the various data segments to request for amendment of overdraft in the Post Offer Amendment stage.
- [Account Approval Stage](#)
This topic describes the information on the various data segments to view the captured details and approve the application in the Account Approval stage
- [Manual Retry Stage](#)
This topic describes the information on the various data segments on the Manual Retry stage.
- [Account Funding](#)
This topic describes the process of initial funding of an account. This stage appears once the account is opened.
- [Global Actions](#)
This topic provides the detailed on the actions that can be performed in all stages.

2.1 Application Entry Stage

This topic describes the information on the various data segments to capture the required data in the Application Entry stage.

Process Orchestrator updates the record in the **Free Task** process for the **Application Entry** stage also referred as Task from orchestrator perspective. The user can **Acquire and Edit** or **Acquire** the task from the **Action** column and the header respectively as per requirement.

The **Application Entry** stage will be automatically submitted, in case the Bank level configuration for allowing full Application submission is set as **Yes** and the user has updated all the data segment of **Application Entry** stage as part of the **Application Initiation** stage itself by clicking on the **Application** button available in the **Product Details** data segment.

After successful submission of **Application Entry** stage, a request for the initial funding transaction is sent to **Teller Module**, if **Fund By** option is selected as **Cash**. The status of the **Teller Transaction** is then validated in the **Initial Funding Details** data segment of **Account Funding** stage.

The **Application Entry** stage has the following reference data segments:

- [Applicant](#)
This topic provides the systematic instructions to capture the customer-related information for the application.
- [Account Details](#)
This topic provides the systematic instructions to view and modify the account details.
- [Stake Holder Details](#)
This topic provides the systematic instructions to capture the stake holder details related information for the business.

- [Financial Details](#)
This topic provides the systematic instructions to capture the financial details of a single customer or multiple customers in case of joint applicants.
- [Collateral Details](#)
This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.
- [NomineeDetails](#)
This topic provides the systematic instructions to capture the details of the nominee for the account.
- [Terms and Conditions](#)
This topic descriptions the terms and conditions that are mandatory to accept for to proceed with account opening process.
- [Summary](#)
This topic provides the systematic instruction to view the tiles for all the data segments in the Application Entry Process.

2.1.1 Applicant

This topic provides the systematic instructions to capture the customer-related information for the application.

The details captured of the customer in the Application Initiate stage appears in this data segment. The user can update further fields for supplementing the customer related information.

- [For Individual Customer Type](#)
The topic describes the process to capture or edit customer information of Individual type of customer.
- [For Small and Medium Business \(SMB\) Customer Type](#)
The topic describes the process to capture or edit customer information of Small and Medium Business type of customers.

2.1.1.1 For Individual Customer Type

The topic describes the process to capture or edit customer information of Individual type of customer.

To capture applicants details:

1. In the Saving Application Entry stage, update the customer details in the Applicants data segment based on the respective customer type.

The **Applicant - Individual** screen displays.

Mobile Number	Specify the mobile number.
Preferred	Select to indicate if the given mobile number is the preferred number.
Action	You can edit or delete the added mobile details.
Email Id	Specify the email ID. This field appears only if you select the Email option as communication mode.
Preferred	Select to indicate if the given email ID is the preferred ID.
Action	You can edit or delete the added email details.

Advanced Search

You can perform an advanced search for the party by providing additional information.

You can perform search on below party types:

For Individual

- First Name
- Middle Name
- Last Name
- Date of Birth
- Unique ID or National ID or SSN ID
- Mobile Number
- Email

For Non- Individual

- Party ID
- Business or Organization Name
- Registration Number
- Registration Date
- Email
- Customer Category

To search for a party using the advanced search:

3. Click the **Advanced Search**.

The Search Party window appears based on the selected party type.

Figure 2-5 Advanced Search - Individual

The screenshot shows the 'Search Party' window with the following search criteria fields:

- First Name
- Middle Name
- Last Name
- Date of Birth
- Unique ID/National ID
- Mobile Number
- Email

Buttons for 'Fetch' and 'Clear' are visible. Below the fields is a table with the following data:

Party ID	CIF	First Name	Middle Name	Last Name	Email	Mobile Number	Date of Birth	Unique ID
233331380		Andrew	Kim	Martin		9090909090	1990-05-24	20231129101121
233331382	006006692	Andrew	Kim	Martin		9090909090	1990-05-24	20231129101158
233341452		Andrew	Kim	Martin		9090909090	1990-05-24	20231130171169
233341458	006011050	Grace	Rose	Smith		9090909090	1985-05-21	20231130171131
233341460	006011051	Grace	Rose	Smith		9090909090	1985-05-21	20231130171148

Below the table is a pagination control showing 'Page 1 of 41 (1 - 10 of 407 items)' and a 'Close' button.

4. Click **Fetch** to search all the parties. All the parties in system appears in the table.

OR

Enter the specific search criteria in the respective field and click **Fetch**. The search result appears based on the search criteria.

5. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data. If the **Customer Dedupe** check is enabled, the application will perform the Dedupe check for the new customer details on clicking **Next** button. For more information, refer the **Customer Dedupe Check** section.

Customer Dedupe Check:

Based on the configuration set in the **Origination Preference** screen, the customer dedupe service is enabled.

If the **Customer Dedupe** service check is enabled, upon capturing the New Customer details, the system compares the same with the existing customers records. If there are any matching hits, the list of Duplicate records which matches to the New Customer Details will be displayed.

The customer details are compared based on a set of attributes configured. (Refer to Oracle Banking Party Documentation for Dedupe attributes configuration).

- Click **Next** to perform the dedupe check and display the result.

The **De-Dupe Result** screen is displayed

Figure 2-6 De-dupe Results

The screenshot shows a window titled "De-Dupe Results" with a close button (X). Below the title bar, it says "Following matching records are found, Please verify". There are two expandable sections, each with a dropdown arrow and a name: "Vikash Kumar" and "Sanjeet Singh".

Under "Vikash Kumar", there is a table with the following data:

CIF Number	PTY Number	First Name	Last Name	Customer Type	DOB	Contact Number	ID/Registration Number	Status
100011		Vikash	Anand	I	03-01-1990	0988098009		COMPLETED

Below the table are "OK" and "Ignore" buttons.

Under "Sanjeet Singh", there is a table with the following data:

CIF Number	PTY Number	First Name	Last Name	Customer Type	DOB	Contact Number	ID/Registration Number	Status
100012		Sanjeet	Kumar	I	10-01-1990	0988056009		IN-PROGRESS

Below the table are "OK" and "Ignore" buttons.

At the bottom right of the window are "Cancel" and "Submit" buttons.

For more information on fields, refer to the field description table below.

Table 2-5 De-Dupe Results – Field Description

Field	Description

Item Name	Specify the item name of the supplier.
Quantity	Specify the quantity of the item.
Supply Frequency	Specify the supply frequency.
Start Date – End Date	Select the start and end date for the supplier.

4. To onboard the New Customers, disable the **Existing Customer** toggle. By Default, the **Existing Customer** is enabled.

The **Customer Onboarding** screen is displayed.

Figure 2-9 Customer Onboarding

5. Select the appropriate option from the Customer Category list.
 - a. If you select **Individual** option to onboard individual type of customer, refer field description table and procedure from **3.1.1.1 For Individual Customer Type of Customer Information** data segment.
 - b. If you select **Small and Medium Business** option to onboard small and medium business type of customer, refer field description table and procedure from **3.1.1.2 For Small and Medium Business Customer Type of Customer Information** data segment.
6. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

On submission of Application Entry stage, Stakeholder Onboarding request gets initiated for the new customers.

The request for New Stakeholder Onboarding is addressed by the underlying API call, which also generates the New Party reference number, thereby circumventing the usual process of generating a Unique Process reference number / Task.

- 7.

2.1.4 Financial Details

This topic provides the systematic instructions to capture the financial details of a single customer or multiple customers in case of joint applicants.

The Financial Details data segment allows to capture the financial details of a single customer or multiple customers. This data segment is mandatory if below condition are opt:

- The **Capture Financial Details** toggle is selected in the **Business Product Preference** data segment while configuring a business product.
- The business product is allowed to opt overdraft.
- The Overdraft Requested toggle is selected in the Account Details data segment.

To add financial details:

1. Click **Next** from the previous screen to proceed with the next data segment, after successfully capturing the data.

The **Financial Details** screen displays.

Figure 2-11 Financial Details - SMB

3. Click **Next**. The system validates the date specified in **Last Update On** with Financial Details Validity Period and, if date specified in **Last Update On** exceeds the date specified in Financial Details Validity Period at Business Product Preferences configurations, the system displays the following error message:
4. Click **Yes** to retain the existing financial details and proceed with the next data segment.
OR
Click **No** to edit financial details and proceed.

2.1.5 Collateral Details

This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.

Collateral details will be sent to the host to be made available under local collateral. The relevant service APIs will be made available for both Push and Pull details of collaterals.

Capturing of Collateral details in Oracle Banking Origination is also enabled with an option to onboard collateral using the Oracle Banking Credit Facility Process Management integration services. In such cases, the collateral details will be sent to the Collateral onboarding systems for performing the Valuation, obtaining the Legal opinion and recording the perfection details. These details will be made available on Oracle Banking Origination in the respective Data segments in read only mode.

The user can acquire the application from Free Tasks list.

To add collaterals details:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
2. Click **Add Collateral** to capture the collateral details.

The **Collateral Details** screen displays.

Figure 2-12 Collateral Details

If the **Collateral Type** is selected as **Term Deposit**, the following **warningmessage** displays when the OD Limit expiry date is more than the Maturity Date of the term deposit. The **Warning Message** popup screen displays.

3. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-9 Collateral Details - Field Description

Field	Description

Mobile Number	Specify the mobile number.
Preferred	Select to indicate if the given mobile number is the preferred number.
Action	You can edit or delete the added mobile details.
Email Id	Specify the email ID. This field appears only if you select the Email option as communication mode.
Preferred	Select to indicate if the given email ID is the preferred ID.
Action	You can edit or delete the added email details.
Add Nominee	Click to add additional nominee for the account.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

Guardian Details

This screen allows to capture details of the guardian of the minor nominee.

To add guardian details:

- Click **Add Guardian Details** on Nominee Details screen.
The **Guardian Details** screen is displayed

Figure 2-14 Guardian Details

The screenshot displays a form titled "Guardian Address Details" and "Guardian Contact Details".

Guardian Address Details:

- Address Type: Residential Address
- Search address: [Text Input]
- Address Line 1: 09 Flat, Sector12
- Address Line 2: Wall Mark colony
- Address Line 3: Times Square
- Country: United States
- State: California
- Zipcode: 78000

Guardian Contact Details:

- + Add Contact
- Communication Mode: Mobile Phone
- Country: US (+1)
- Mobile Number: 560778999
- Preferred: [Checked]
- Icons: [Trash], [Edit]

5. Specify the details in the relevant data fields.
Refer the **Nominee Details** field description table for detailed information on each field.
6. Click **Save** to save the guardian details

2.1.7 Terms and Conditions

This topic descriptions the terms and conditions that are mandatory to accept for to proceed with account opening process.

In this data segment user can capture term and conditions consents from the applicants. The customer consents are same across products but few term and conditions defer based on the applied products. They appears in questionnaire format based on the configurations. This questionnaire is mapped at product configuration level. It is mandatory to accept all term and condition to proceed with application.

This data segment comprises of below sections:

- **Term and Conditions for all products** - In this section the term and conditions which are applicable for all the products appears in the questionnaire format.
- **Term and Conditions for <Selected Product>** - In this section the term and conditions which are applicable for all the selected product appears in the questionnaire format.

To capture terms and conditions:

1. Click **Next** from pervious data segment to proceed with the next data segment, after successfully capturing the data.

The **Term and Conditions** screen appears

Figure 2-15 Term and Conditions

2. Click  to view the term and conditions.
3. Select the toggle button to accept the term and conditions.
4. In the **Consents to receive Marketing Promotional and Sales** section, enter the channel and details.
5. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.1.8 Summary

This topic provides the systematic instruction to view the tiles for all the data segments in the Application Entry Process.

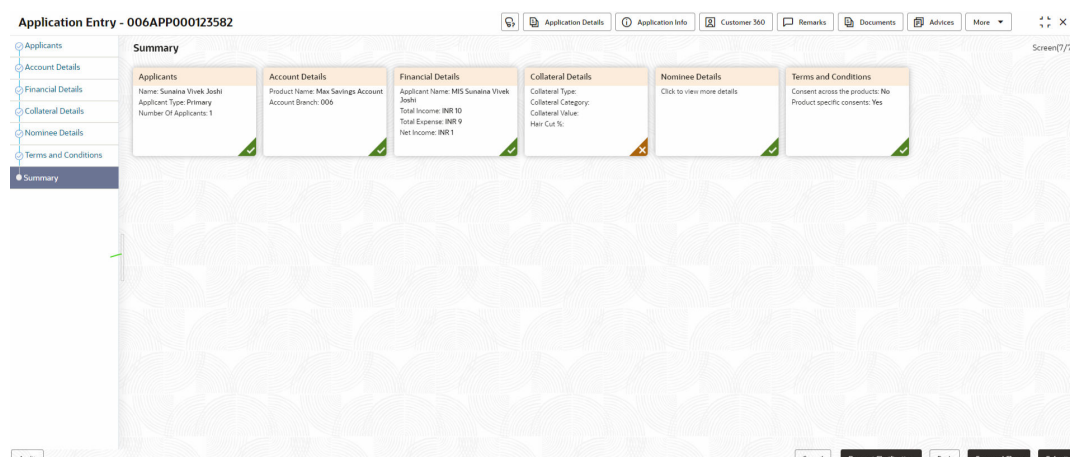

The Summary displays the tiles for all the data segments in the Application Entry stage. The tiles display the important details captured in the specified data segment.

To view the summary of all data segment

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-16 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 2-11 Summary - Application Entry – Field Description

Data Segment	Description
Applicants	Displays the applicants details
Account Details	Displays the account details.
Stake Holder Details	Displays the Stake Holder details This data segment appears only if the Customer Type is selected as Small and Medium Business (SMB) .
Financial Details	Displays the financial details.
Collateral Details	Displays the collateral details.
Nominee Details	Displays the nominee details.
Term and Conditions	Displays the term and conditions.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.

OR

Click **Proceed**. The Checklist screen appears.

4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Application Entry** stage for the saving application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Saving Application Enrichment**. The stage movement is driven by the

business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [Saving Account] to the Application Enrichment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

Application De-Dupe:

Based on the configuration available at the Bank level / Properties Table, the Dedupe service call can be enabled or disabled for the product Origination.

If application dedupe service is enabled, System will check that any application is in progress for same product and customer combination. On Submit, if any duplicate application exists, override will show a message with other in progress application numbers. User can select the override check box and proceed or take appropriate action.

Note:

- If an application is returned to the Application Entry-stage from any other subsequent stages, Oracle Banking Origination will not allow amending details in the Customer Information and Financial Details data segment, once a customer onboarding process has been triggered in the Application Entry Stage and CIF creation is still in progress.
- In case the party amendment request is rejected by Oracle Banking Party, the specified error message is shown to the user while submitting the Application Entry stage. The user has an option to go back and resolve the error or proceed with the stage submission by disregarding the amendment request.
- Unique process reference numbers will be generated and made available in the Free Task grid for the respective Customer Onboarding, Collateral Onboarding requests, which need to be picked up by the concerned users in the Oracle Banking Party / Oracle Banking Credit Facilities Process Management modules.

2.2 Overdraft Limit Details Stage

This topic describes the information on the various data segments to capture the required data for the Overdraft Limit Details stage.

Users having functional access to the Overdraft Limit Details stage will be able to view the record in the Free Task process.

Note:

This stage is not applicable for **SMB Customers**.

The **Overdraft Limit Details** stage has the following reference data segments:

- **Account Limit Details**
This topic provides the systematic instructions to update the overdraft limit requested by the customer.
- **Collateral Details**
This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.
- **Temporary Overdraft Limit**
This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.
- **Advance against Uncollected Funds**
This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.
- **Summary - Overdraft Limit Details**
This topic provides the systematic instruction to view the tiles for all the data segments in the Overdraft Limit Details stage.

2.2.1 Account Limit Details

This topic provides the systematic instructions to update the overdraft limit requested by the customer.

The Account Limit Details allows to update the overdraft limit requested by the customer.

To add account limit details:

1. On acquiring the **Overdraft Limit Details** task, the Account Limit Details data segment appears.

The **Account Limit Details** screen displays.

Figure 2-17 Account Limit Details

Rate Type	<p>Displays the rate type as per the limit type is selected. The available options are:</p> <ul style="list-style-type: none"> • Fixed • Floating
Rate Code	<p>Displays the rate code.</p> <div style="border: 1px solid #ccc; background-color: #e6f2ff; padding: 10px; margin-top: 10px;"> <p> Note:</p> <p>This field displays if the Rate Type is selected as Floating.</p> </div>
Base Rate	<p>Displays the base rate.</p> <div style="border: 1px solid #ccc; background-color: #e6f2ff; padding: 10px; margin-top: 10px;"> <p> Note:</p> <p>This field displays if the Rate Type is selected as Floating.</p> </div>

Table 2-12 (Cont.) Account Limit Details – Field Description

Field	Description
Rate of Interest	Displays the rate of interest.  Note: This field displays if the Rate Type is selected as Fixed .
Variance	Specify the variance.  Note: This field displays if the Rate Type is selected as Fixed .
Margin	Specify the margin.  Note: This field displays if the Rate Type is selected as Floating .
Final Rate	Displays the effective rate calculated and based on the below parameters: <ul style="list-style-type: none"> • Rate Value and the Margin for floating rate type. • Rate of Interest and the Variance for fixed rate type.

4. Click **Add Overdraft** to capture the multiple overdraft limits.

OR

Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.2.2 Collateral Details

This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.

Collateral details will be sent to the host to be made available under local collateral. The relevant service APIs will be made available for both Push and Pull details of collaterals.

Capturing of Collateral details in Oracle Banking Origination is also enabled with an option to onboard collateral using the Oracle Banking Credit Facility Process Management integration services. In such cases, the collateral details will be sent to the Collateral onboarding systems for performing the Valuation, obtaining the Legal opinion and recording the perfection details. These details will be made available on Oracle Banking Origination in the respective Data segments in read only mode.

The user can acquire the application from Free Tasks list.

To add collaterals details:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.

2. Click **Add Collateral** to capture the collateral details.

The **Collateral Details** screen displays.

Figure 2-18 Collateral Details

If the **Collateral Type** is selected as **Term Deposit**, the following **warning message** displays when the OD Limit expiry date is more than the Maturity Date of the term deposit. The **Warning Message** popup screen displays.

3. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-13 Collateral Details - Field Description

Field	Description
Primary Collateral	Specify the primary collateral.
Collateral Type	Select the collateral type. Available options are: <ul style="list-style-type: none"> • Property • Guarantee • Vehicle • Precious Metal • Deposits • Bonds • Stocks • Insurance • Accounts Receivable • Inventory (Stock of Material)

Table 2-13 (Cont.) Collateral Details - Field Description

Field	Description
Category	<p>Select the collateral category. Available options are:</p> <p>If Collateral type is selected as Property</p> <ul style="list-style-type: none"> • Residential Property • Vacant Land • Under Construction <p>If Collateral type is selected as Guarantee</p> <ul style="list-style-type: none"> • Personal Guarantee • Guarantee and Indemnity • Government Guarantee • Family Guarantee <p>If Collateral type is selected as Vehicle</p> <ul style="list-style-type: none"> • Passenger Vehicle • Commercial Vehicle <p>If Collateral type is selected as Precious Metal</p> <ul style="list-style-type: none"> • Precious Metal <p>If Collateral type is selected as Deposits</p> <ul style="list-style-type: none"> • Term Deposit <p>If Collateral type is selected as Bonds</p> <ul style="list-style-type: none"> • Secured Bonds • Unsecured Bonds • Investment Bonds <p>If Collateral type is selected as Stocks</p> <ul style="list-style-type: none"> • Domestic Stock <p>If Collateral type is selected as Insurance</p> <ul style="list-style-type: none"> • Life Insurance <p>If Collateral type is selected as Accounts Receivable</p> <ul style="list-style-type: none"> • Bill Receivable • Trade Receivable <p>If Collateral type is selected as Inventory (Stock of Material)</p> <ul style="list-style-type: none"> • Stock of Raw Materials • Finished Goods • Packaging Materials
Collateral Branch	Displays the branch of the collateral.
Term Deposit Number	<p>Select the Term Deposit Number from the list.</p> <p>The Term Deposit which has crossed the maturity date and the "Allow Collateral Linkage" disabled, will not appear in the list.</p>
Maturity Date	Select the Maturity Date of the term deposit.
Available Linkage Amount	Specify the available linkage amount.
Linked Amount	Specify the linked amount.
Linkage Currency	Displays the linkage currency.
Guarantee Type	<p>Specify the type of guarantee.</p> <p>This field appears only if the collateral type is Guarantee.</p>
Currency	Specify the currency of the collateral value.
Collateral Value	Specify the collateral value.
Collateral Description	Specify the collateral description.
Mark Collateral For Refinance	Specify if an added collateral should be consider for refinance.

Table 2-13 (Cont.) Collateral Details - Field Description

Field	Description
Applicants	This section displays the applicants name and remarks that are involved in the loan application. These applicants are also related to the added collateral.
Guarantor	This section displays the guarantor name.
Purchase Property	Specify whether the collateral property being added is being purchased. This field appears if the Property option is selected from the Collateral Type list.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Collateral Available Date Range	Select the date range of the collateral. The range indicates the date from and date up to, which the collateral is available.
Collateral Value	Specify the value of the collateral.
Hair Cut %	Specify the percentage of Hair Cut.
Collateral Amount To Be Considered	Displays the collateral amount to be considered. Collateral Amount = (Hair Cut % Collateral Value)
Collateral Description	Specify the collateral description.
Property Location	In this section you can enter property address which is added as collateral. This section appears only if you select Property from the Collateral Type list. The fields appears if you select the Property option from the Collateral Type list.
Address	Specify the address to search already captured address. Based on configuration, on entering few letters, the system fetches the related address that are already captured. Based on the selection, the fields are auto populated in the address section.
Address Line 1	Specify the building name.
Address Line 2	Specify the street name.
Address Line 3	Specify the city or town name.
State / Country Sub Division	Specify the state or country sub division.
Country	Select and search the country code.
Zip Code / Post Code	Specify the zip or post code of the address.
Collateral Ownership Details	In this section you specify the ownership details of the collateral property. This section displays all the customers that are involved in the loan application. The fields appears if you select the Property option from the Collateral Type list.
Ownership Type	Select the ownership type of the property. The available options are <ul style="list-style-type: none"> • Single • Joint The fields appears if you select the Property option from the Collateral Type list.

Table 2-13 (Cont.) Collateral Details - Field Description

Field	Description
Select	Select the appropriate customer as owner from the list. The fields appears if you select the Property option from the Collateral Type list.
Customer Name	Displays the customer name along with title. The fields appears if you select the Property option from the Collateral Type list.
Ownership Percentage	Displays the percentage of the ownership of the customer. The fields appears if you select the Property option from the Collateral Type list.
Remark	Displays the remark of the customer. The fields appears if you select the Property option from the Collateral Type list.
Market LTV	Displays the market LTV.
Bank LTV	Displays the bank LTV.
Collateral Description	Displays the description of the collateral.
Collateral Type	Displays the collateral type.
Category	Displays the category of the collateral.
Collateral Value	Displays the collateral value.
Owners	Displays the owner names of the collateral.
<Actions>	Displays the actions that you can perform on the added collateral. <ul style="list-style-type: none">  <ul style="list-style-type: none"> - Click delete to delete the added collateral.  <ul style="list-style-type: none"> - Click down arrow to view the collateral details.
Total Collateral Value	Displays the total value of collateral. This field will be auto updated based on the number of collaterals.
Cover Available	Displays the cover available. This field will be auto updated based on the number of collaterals.

 **Note:**

All the fields are fetched from Oracle Banking Credit Facilities Process Management in read only mode, if integrated with Oracle Banking Credit Facilities Process Management.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

2.2.3 Temporary Overdraft Limit

This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.

The Temporary Overdraft Limit data segment displays the configuration required for temporary overdraft limit to be provided to the account.

To add temporary overdraft limit:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
2. Click **Add TOD Details** to capture the Temporary Overdraft Limit Details.

The **Unsecured Temporary Overdraft Limit Details** screen displays.

Note:

User can move to the next data segment without capturing the Temporary Overdraft Limit Details.

Figure 2-19 Unsecured Temporary Overdraft Limit Details

The screenshot displays the 'Unsecured Temporary Overdraft Limit' configuration screen. The interface includes a top navigation bar with 'Application Info', 'Customer 360', 'Remarks', 'Documents', 'Advices', and 'More'. A left sidebar shows a navigation tree with 'Temporary OD Limit De' selected. The main content area contains the following fields:

- Temporary OD Limit ID: HOD34
- Temporary OD Limit Amount: GBP, 5,000.00
- Limit Date Range: March 30, 20 to March 31, 20
- Renew TOD:
- Renew Period: Days, 10
- Next Renewal Limit: GBP, 1,000.00

At the bottom left is an 'Audit' button, and at the bottom right are 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next' buttons.

Note:

The user can move to the next data segment without capturing the Temporary Overdraft Limit Details.

3. Specify the details in the relevant data fields.

 **Note:**

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-14 Temporary Overdraft Limit – Field Description

Field	Description
Temporary OD Limit ID	Specify the temporary overdraft limit ID.
Temporary Overdraft Limit Amount	Select the currency and specify the temporary overdraft limit amount.
Limit Start Date	Select the limit start date.
Limit End Date	Select the limit expiry date.
Renew TOD	Select to indicate if temporary overdraft limit is to be renewed.
Renew Period	In case of TOD renewal is allowed, select the period from the drop-down list. Available options are: <ul style="list-style-type: none"> • Days • Months • Year
Next Renewal Amount	In case of TOD renewal is allowed, specify the renewal amount.

4. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.2.4 Advance against Uncollected Funds

This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.

The Advance against Uncollected Funds data segment displays the configuration required for advance against uncollected fund to be provided to the account.

To add uncollected funds details:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data
2. Click **Add AUF Details** to capture the Advance Against Uncollected Funds.

The **Advance against Uncollected Funds** screen displays.

Figure 2-20 Advance against Uncollected Funds

3. Specify the details in the relevant data fields.

Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-15 Advance against Uncollected Funds – Field Description

Field	Description
Limit ID	Specify the advance against uncollected funds limit ID.
Limit Amount	Select the currency and specify the AUF limit amount.
Limit Date Range	Select the limit date range.

4. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.2.5 Summary - Overdraft Limit Details

This topic provides the systematic instruction to view the tiles for all the data segments in the Overdraft Limit Details stage.

The Summary displays the tiles for all the data segments in the Overdraft Limit stage. The tiles display the important details captured in the specified data segment.

To view the summary of the stage:

1. Click **Next** in the previous data segment screen to proceed with next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-21 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-16 Summary - Overdraft Limit Details – Field Description

Data Segment	Description
Account Limit Details	Displays the account limit details.
Collateral Details	Displays the collateral details.
Temporary Overdraft Limit	Displays the temporary overdraft limit.
Advance against Uncollected Funds	Displays the advance against uncollected funds.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

3. Click **Proceed Next**. The **Checklist** screen is displayed.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

4. Click **Save & Proceed**. The **Outcome** screen is displayed.

5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.

- Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Overdraft Limit Details** stage for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Application Enrichment**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- Select the **Return to Application Entry** to return to application entry stage. The system generates the Application Entry task that appears in **Free Task** to acquire and edit.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Application Enrichment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

If the **Collateral Type** is selected as **Term Deposit** in **Collateral Details** data segment and the **Fund the account** toggle is OFF in the **Product Details** data segment, the submit of the Application Enrichment stage will move the application into the **Account Parameter Setup** stage

If the selected **Collateral Type** is other than Term Deposit in **Collateral Details** data segment, and the **Fund the account** toggle is OFF in the **Product Details** data segment, the submit of the Application Enrichment stage will move the application into the **Underwriting** stage.

If the **Fund the Account** toggle is ON in the **Product Details** data segment, the submit of the Application Enrichment stage, will move the application to **Account Funding** stage.

2.3 Application Enrichment Stage

This topic describes the information on the various data segments to view and update the required data for the Application Enrichment stage.

Users having functional access to the Application Enrichment stage will be able to view the record in the Free Task process.

To enrich an application:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Application Enrichment** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Interest Details](#)
This topic provides the systematic instructions to view the interest applicable for the account.
- [Advance against Uncollected Funds](#)
This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.
- [Temporary Overdraft Limit](#)
This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.

- [Summary](#)
This topic provides the systematic instructions to view the tiles for all the data segments in the Application Enrichment stage.

2.3.1 Interest Details

This topic provides the systematic instructions to view the interest applicable for the account.

The **Interest Details** data segment displays the interest applicable for the account.

1. On acquiring the Application Enrichment task, the Interest Details data segment appears. The **Interest Details** screen displays.

Figure 2-22 Interest Details

2. Specify the details in the relevant data fields.

Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-17 Interest Details - Field Description

Field	Description
Interest Product Name	Displays the interest product name attached to the host product linked with the business product.
Payout Frequency	Displays the payout frequency of the interest product name attached to the host product linked with the business product.
Interest Rate	Displays the interest rate applicable for the account.
Margin (%)	Select the margin in percentage.
Final Rate	Displays the final rate calculated based on the Interest Rate and the Margin specified.

Table 2-17 (Cont.) Interest Details - Field Description

Field	Description
APY (in %)	Displays the annual percentage yield value in percentage. Below is the formula to calculate the APY, Annual Percentage Yield = (1 + Interest Rate ÷ The number of Compounding in a year) ^ (Number of compounding in a year) – 1 This is applicable for the Credit Interest
APR	Display the annual percentage rate value. This is applicable for debit interest.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.3.2 Advance against Uncollected Funds

This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.

The Advance against Uncollected Funds data segment displays the configuration required for advance against uncollected fund to be provided to the account.

To add uncollected funds details:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data
2. Click **Add AUF Details** to capture the Advance Against Uncollected Funds.

The **Advance against Uncollected Funds** screen displays.

Figure 2-23 Advance against Uncollected Funds

3. Specify the details in the relevant data fields.

 **Note:**

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-18 Advance against Uncollected Funds – Field Description

Field	Description
Limit ID	Specify the advance against uncollected funds limit ID.
Limit Amount	Select the currency and specify the AUF limit amount.
Limit Date Range	Select the limit date range.

4. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.3.3 Temporary Overdraft Limit

This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.

The Temporary Overdraft Limit data segment displays the configuration required for temporary overdraft limit to be provided to the account.

To add temporary overdraft limit:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
2. Click **Add TOD Details** to capture the Temporary Overdraft Limit Details.

The **Unsecured Temporary Overdraft Limit Details** screen displays.

 **Note:**

User can move to the next data segment without capturing the Temporary Overdraft Limit Details.

Figure 2-24 Unsecured Temporary Overdraft Limit Details

Note:

The user can move to the next data segment without capturing the Temporary Overdraft Limit Details.

- Specify the details in the relevant data fields.

Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-19 Temporary Overdraft Limit – Field Description

Field	Description
Temporary OD Limit ID	Specify the temporary overdraft limit ID.
Temporary Overdraft Limit Amount	Select the currency and specify the temporary overdraft limit amount.
Limit Start Date	Select the limit start date.
Limit End Date	Select the limit expiry date.
Renew TOD	Select to indicate if temporary overdraft limit is to be renewed.
Renew Period	In case of TOD renewal is allowed, select the period from the drop-down list. Available options are: <ul style="list-style-type: none"> • Days • Months • Year
Next Renewal Amount	In case of TOD renewal is allowed, specify the renewal amount.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.3.4 Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Application Enrichment stage.

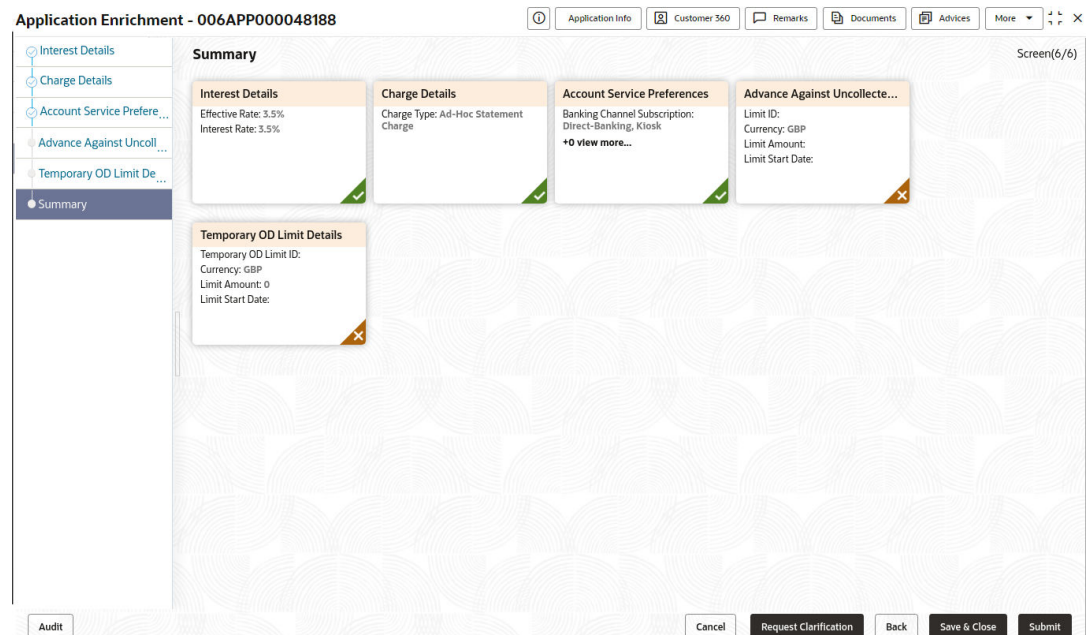

The Summary displays the tiles for all the data segments in the Application Enrichment stage. The tiles display the important details captured in the specified data segment.

To view the summary of all data segment:

- Click Next in the previous data segment to proceed with the next data segment, after successfully capturing the data..

The **Summary** screen displays.

Figure 2-25 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-20 Summary – Field Description

Data Segment	Description
Account Details	Displays the account details.
Customer Information	Displays the customer information details

Table 2-20 (Cont.) Summary – Field Description

Data Segment	Description
Customer Consents and Preference	Displays the customer consents and preferences.
Relationship	Displays the relationships.
Stake Holder Details	Displays the Stake Holder details This data segment appears only if the Customer Type is selected as Small and Medium Business (SMB) .
Mandate Details	Displays the mandate details.
Financial Details	Displays the financial details.
Collateral Details	Displays the collateral details.
Nominee Details	Displays the nominee details.
Term and Conditions	Displays the term and conditions.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides& Proceed** to proceed.

OR

Click **Proceed**. The Checklist screen appears

4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Application Entry** stage for the saving application. The Workflow Orchestrator will automatically move this application to the next processing stage, **SavingApplication Enrichment**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [Saving Account] to the Application Enrichment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

Application De-Dupe:

Based on the configuration available at the Bank level / Properties Table, the Dedupe service call can be enabled or disabled for the product Origination.

If application dedupe service is enabled, System will check that any application is in progress for same product and customer combination. On Submit, if any duplicate application exists, override will show a message with other in progress application numbers. User can select the override check box and proceed or take appropriate action.

 **Note:**

- If an application is returned to the Application Entry-stage from any other subsequent stages, Oracle Banking Origination will not allow amending details in the Customer Information and Financial Details data segment, once a customer onboarding process has been triggered in the Application Entry Stage and CIF creation is still in progress.
- In case the party amendment request is rejected by Oracle Banking Party, the specified error message is shown to the user while submitting the Application Entry stage. The user has an option to go back and resolve the error or proceed with the stage submission by disregarding the amendment request.
- Unique process reference numbers will be generated and made available in the Free Task grid for the respective Customer Onboarding, Collateral Onboarding requests, which need to be picked up by the concerned users in the Oracle Banking Party / Oracle Banking Credit Facilities Process Management modules.

2.4 Account Funding Stage

This topic describes the process of initial funding of an account. In this stage user can provide initial funding details before opening an account.

In this stage user can provide initial funding details before opening an account.

This stage appears only if the **Fund Post Account Opening** toggle is not selected in the **Business Product Preference** data segment of the **Business Product Configuration** screen.

To add funding details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Account Funding** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Initial Funding Details](#)
This topic provides the systematic instructions to view and modify the initial funding details captured in the **Application Entry** stage.
- [Summary](#)
This topic provides the systematic instructions to view the tiles for all the data segments in the Account Funding stage.

2.4.1 Initial Funding Details

This topic provides the systematic instructions to view and modify the initial funding details captured in the **Application Entry** stage.

The Initial Funding Details data segment displays the Initial Funding details captured in the Application Entry stage. The **Transaction Reference Number** and the **Transaction Status** is either auto-populated or has to be manually captured based on the configuration. Automatic option is supported only for the Initial Funding with Cash mode. Manual process is supported for Account Transfer, Other Bank Cheque, and Cash mode of initial funding.

Note:

For more details on the Modes and the Manual/Automatic Process configuration, refer to the **Configurations User Guide**.

To add initial funding details:

1. On acquiring the **Account Funding** task, the **Initial Funding Details** data segment appears.

The **Initial Funding Details** screen displays.

Figure 2-26 Initial Funding Details

The screenshot shows the 'Initial Funding Details' screen for account 006APP00042041. The screen is divided into several sections:

- Account Funding - 006APP00042041**: Title bar at the top.
- Navigation Bar**: Includes 'Application Info', 'Customer 360', 'Remarks', 'Documents', 'Advices', and 'More'.
- Left Sidebar**: Contains 'Account Details', 'Initial Funding Details' (selected), and 'Summary'.
- Main Content Area**:
 - Fund The Account**: A toggle switch.
 - Fund By**: A dropdown menu set to 'Cash'.
 - Amount**: A dropdown menu set to 'GBP' and a text input field containing '5,850.00'.
 - Value Date**: A calendar icon and a text input field containing 'March 30, 2018'.
 - Transaction Reference Number**: A text input field containing '83198'.
 - Teller Transaction Status**: A dropdown menu set to 'Success'.
- Bottom Bar**: Contains 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next' buttons.

2. Specify the fields on **Initial Funding Details** screen.

Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-21 Initial Funding Details – Field Description

Field	Description
Fund the Account	Displays the Fund the Account selected in the Account Details Data Segment in Application Entry stage.
Fund By	Displays the Fund by option selected in the Account Details Data Segment in Application Entry stage.
Amount	Displays the amount of the initial funding updated in the Account Details data segment in Application Entry stage.
Value Date	Displays the value date of the initial funding updated in the Account Details data segment in Application Entry stage.
Account Number	Displays the account number for the initial funding transaction which was selected in the Account Details data segment of the Application Entry stage This field appears only if the Fund By is selected as Account Transfer .
Account Name	Displays the account name for the selected account number. This field appears only if the Fund By is selected as Account Transfer
Cheque Number	Display the cheque number.
Cheque Date	Displays the cheque date.
Bank Name	Displays the bank name. This field is applicable only if the Fund By is selected as “Other Bank Cheque”.
Branch Name	Displays the Branch name. This field is applicable only if the Fund By is selected as “Other Bank Cheque”.
Cheque Routing Number	Displays the cheque routing number. This field is applicable only if the Fund By is selected as “Other Bank Cheque”.
GL Account Number	Displays the GL account number for the initial funding transaction that was triggered off in the Application Entry stage for the Teller module.
GL Account Description	Displays the GL account description for the initial funding transaction that was triggered off in the Application Entry stage for the Teller module.
Teller Transaction Reference Number	Displays the transaction reference number for the initial funding transaction that was triggered off in the Application Entry stage for the Teller module.
Teller Transaction Status	Displays the status of the teller transaction. The status of the teller transaction should be ‘Success’ for the submission of the Account Funding stage.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.4.2 Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Account Funding stage.

The Summary displays the tiles for all the data segments in the Account Funding stage. The tiles display the important details captured in the specified data segment.

1. Click **Next** in **Initial Funding Details** screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-27 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-22 Summary - Account Funding – Field Description

Data Segment	Description
Account Details	Displays the account details.
Initial Funding Details	Displays the initial funding details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, the user can go back and correct the data to make ensure overrides do not arise.

3. Click **Proceed Next**. The **Checklist** screen is displayed.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

4. Select the checkbox to accept the checklist. Click **Save & Proceed**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Account Funding Stage** for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Underwriting**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - Select the **Return to Overdraft Limit Details** to return to overdraft limit details stage, the system generate the Overdraft Limit Details stage that appears in **Free Task** to acquire and edit.
 - Select the **Return to Application Entry** to return to application entry stage. The system generates the Application Entry task that appears in **Free Task** to acquire and edit.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit**. The **Confirmation** screen is displayed.

On successful submission the above pop-up appears and displays the next stage in which the application has moved. Application Reference Number and the Process Reference Number is also displayed.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Underwriting on Host stage. This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application. The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

2.5 Underwriting Stage

This topic describes the information on the various data segments to access the credit rating and capture the required data for the Underwriting stage.

The underwriting process of the lender bank is set to determine if the overdraft application is an acceptable risk. It is a process to assess the borrower's ability to repay the overdraft based on an analysis of their credit, financial capacity, and collateral provided by the borrower.

The Underwriting stage is the next representative stage in the Saving Account Open process. After the Application Enrichment / Account Funding stage is completed successfully, the application can be acquired by the user who has the access rights for the given stage and progress with the data capture.

To add underwriting details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Underwriting** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- **Credit Rating Details**
This topic provides the systematic instructions to view the information on the External Rating Agencies Rating / Scores for the Applicant.
- **Valuation Details**
This topic provides the systematic instructions to capture the information on the asset valuation done by the bank approved valuator.
- **Legal Opinion**
This topic provides the systematic instructions to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.
- **Summary**
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.5.1 Credit Rating Details

This topic provides the systematic instructions to view the information on the External Rating Agencies Rating / Scores for the Applicant.

Credit Rating Details is the first data segment of **Underwriting** stage. The user can acquire the application from Free Tasks list. If the applicants are more than one, accordingly the information against each applicant / borrower will be provided. The interface with external rating agencies will be provided.

Oracle Banking Origination is integrated with Bureau Integration Service to fetch the details of the Rating for the given applicant(s). The Bank will have an option to use this integration service or use the manual process of entering the Bureau score in the Credit Rating DS.

1. Click **Acquire and Edit** in the **Free Tasks** for the application for which Underwriting stage has to be acted upon.

The **Credit Rating Details** screen displays.

Figure 2-28 Credit Rating Details

The screenshot shows the 'Credit Rating Details' screen for application '006APP000043410'. The interface includes a top navigation bar with 'Application Info', 'Customer 360', 'Remarks', 'Documents', 'Advices', and 'More'. A left sidebar contains a menu with 'Credit Rating Details' (selected), 'Valuation Details', 'Legal Opinion', and 'Summary'. The main content area is titled 'Credit Rating Details' and features a profile card for 'DR Samir Feeney'. To the right of the profile card is a table with the following data:

Rating	Remarks
750	

Below the table are two links: 'View More' and 'View Bureau Report'. At the bottom of the screen, there is a navigation bar with buttons for 'Audit', 'Cancel', 'Request Clarification', 'Save & Close', and 'Next'.

2. Specify the fields on **Credit Rating Details** screen.

 **Note:**

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-23 Credit Rating Details – Field Description

Field	Description
Customer Name	Displays the customer name.
Agency Name	Displays the configured agency.
Ratings	Displays the ratings. The system populates the credit rating score from the Bureau Integration Service.
Remarks	Specify the remarks.

3. Click **View More** to view the additional Credit Bureau details.

The **Additional Credit Bureau Details** screen displays.

Additional Credit Bureau Details								
Institution Name	Account Number	Account Type	Loan Amount	Outstanding Balance	Account Opening Date	Installment Amount	Delinquency Bucket	Delinquency Amount
FIRST FEDERAL SAVINGS	0019888010777	Loan	100000	86820	2020-01-07	2162	NIL	NIL
HSBC/CARSN	001901000999	Overdraft	22000	0	2019-06-07	0	NIL	NIL

OK

For more information on fields, refer to the field description table.

Table 2-24 Additional Credit Bureau Details – Field Description

Field	Description
Institution Name	Displays the institution name.
Account Number	Displays the account number of the applicant.
Account Type	Displays the account type.
Loan Amount	Displays the overdraft amount.
Outstanding Balance	Displays the outstanding balance.
Account Opening Date	Displays the account opening date.
Installment Amount	Displays the installment amount.
Delinquency Bucket	Displays the delinquency bucket.
Delinquency Amount	Displays the delinquency amount.

 **Note:**

Oracle Banking Origination has been integrated with Bureau Integration Service which will make a call to the Credit Bureau to get Credit Rating Score and additional details.

4. Click **View Bureau Report** to view and download the bureau report from the external agency.

2.5.2 Valuation Details

This topic provides the systematic instructions to capture the information on the asset valuation done by the bank approved valuator.

Valuation Details is the next data segment of **Underwriting** stage. This segment enables the user to capture the information on the asset valuation done by the bank approved valuator.

1. Click **Next** in the **Credit Rating Details** screen to proceed with the next data segment, after successfully capturing the data.

The **Valuation Details** screen displays.

Figure 2-30 Valuation Details

Liability Description	Displays the Liability description.
Hair Cut %	Displays the Hair cut percentage.
Collateral Amount	Displays the collateral amount.
Valuation Type	Select the type of valuation. Available options are <ul style="list-style-type: none"> • External • Internal
Valuation Amount	Specify the valuation amount of the collateral.
Agency Code	Specify the agency code.
Agency Name	Specify the name of agency.
Valuation Date	Select the valuation date. Date should not be earlier than the Application Date.
Add Valuation	Click Add Valuation to add valuation details. Add the valuation details if you want to evaluate the collateral.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

2.5.3 Legal Opinion

This topic provides the systematic instructions to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.

Legal Opinion is the next data segment of **Underwriting** stage. This segment allows the user to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.

1. Click **Next** from the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Legal Opinion** screen displays.

Figure 2-31 Legal Opinion

- Specify the fields on **Legal Opinion** screen.

Note:

The fields, which mentioned as Required, are mandatory.

If Oracle Banking Origination is integrated with Oracle Banking Credit Facilities Process Management, the Legal Opinion details will be fetched from integration service and the values will be displayed in the respective fields as read only data. In the absence of Oracle Banking Credit Facilities Process Management integration, the user has to capture the Legal Opinion details manually in this data segment.

For more information on fields, refer to the field description table.

Agency Name	Specify the agency name.

Table 2-26 (Cont.) Legal Opinion – Field Description

Field	Description
Legal Remarks	Specify the legal remarks.
Opinion Date	Select the opinion date. Date should not be earlier than the Collateral Valuation Date.
Add Opinion	Click Add Opinion to add the legal opinion received from multiple agencies (both internal and external).

 **Note:**

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

2.5.4 Summary

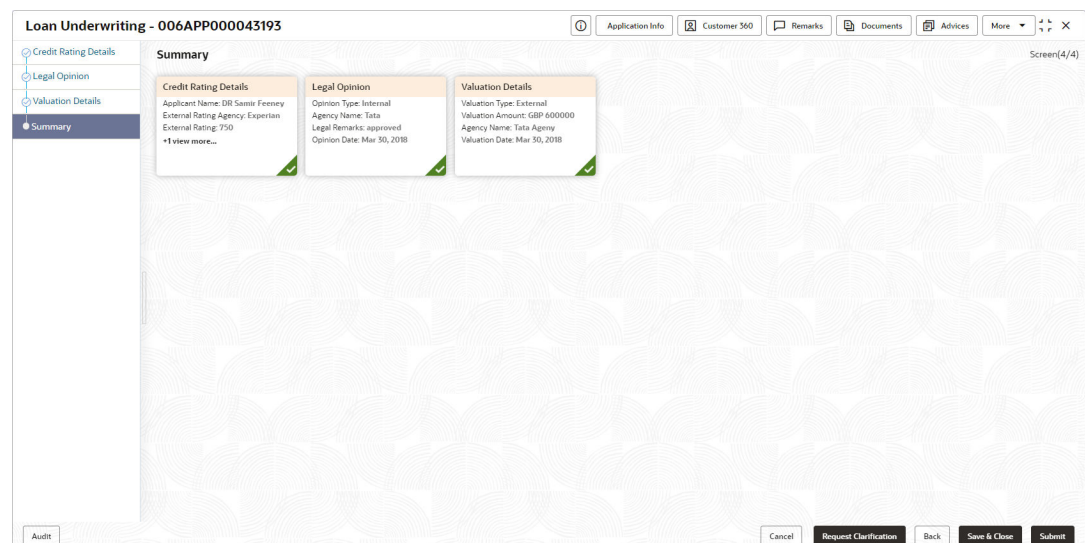

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-32 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-27 Summary - Underwriting – Field Description

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion details.

- Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and the documents for this stage can be validated or verified. The **Overrides** screen is displayed.
- Click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.
- Click **Save&Proceed**. The **Outcome** screen is displayed.

The **Select an Outcome** has following options for this stage:

- Select **Proceed** outcome from the drop-down list. It will logically complete the Underwriting stage for the Application. The Workflow Orchestrator will automatically move this application to the next processing stage, Application Assessment. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code
 - Select the **Return to Initial Funding Stage** to make Account Funding Stage available in free task for edit.
 - Select the **Return to Overdraft Limit Details** to make Overdraft Limit Details stage available in free task.
 - Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.
 - Select the **Reject by bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
- Click **Submit** to submit the **Underwriting** stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 - Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Underwriting on Host stage. This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application. The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

2.6 Application Assessment

This topic describes the information on the various data segments to update the required data and assess the application in the Application Assessment stage.

Users having functional access to the Application Enrichment stage will be able to view the record in the Free Task process.

The Assessment stage enables the bank to assess the Overdraft Limit request of the customer and based on the Assessment Score the User can decide on granting the Overdraft Limit for the Saving Account being originated. System derives the recommendation based on the total weightage score. The total weightage score is calculated based on the parameters configured in the Scorecard Model.

Similarly, the Qualitative Score is calculated based on the answers provided to the questionnaire configured in the Qualitative Scorecard ID.

To assess the saving application:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Application Assessment** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Qualitative Scorecard](#)
This topic provides the systematic instructions to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card.
- [Assessment Details](#)
This topic provides the systematic instructions to view the total weightage score of the Applicant or Applicants, in case of multiple Applicants in the Saving Account with Overdraft.
- [Summary](#)
This topic provides the systematic instructions to view the tiles for all the data segments in the Application Assessment stage.

2.6.1 Qualitative Scorecard

This topic provides the systematic instructions to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card.

The **Qualitative Scorecard** screen enables the user to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card.

The relevant qualitative score card ID is attached to the Savings Account Business Product and thereby the Saving Account inherits the score card attributes for evaluation.

1. Click **Acquire and Edit** in the **Free Tasks** screen of the previous stage for the application for which Application Assessment stage has to be acted upon.

The **Qualitative Scorecard** screen displays.

2. Specify the fields on **Qualitative Scorecard** screen.

 **Note:**

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-28 Qualitative Scorecard – Field Description

Field	Description
Applicant Name	Displays the name of the applicant.
Questionnaire Code	Displays the Questionnaire code.
Questionnaire Description	Displays the description of the Questionnaire code.
Question	Displays the question configured for the Questionnaire code.
Answer	Select the answer from the drop-down values available. The answers are populated based on the Answers configured in the Questionnaire code.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.6.2 Assessment Details

This topic provides the systematic instructions to view the total weightage score of the Applicant or Applicants, in case of multiple Applicants in the Saving Account with Overdraft.

The **Assessment Details** Data Segment displays the total weightage score of the Applicant or Applicants, in case of multiple Applicants in the Saving Account with Overdraft. **Assessment Details** screen enables the user to understand the evaluation and provide the system recommendation based on the following parameters.

- Validation Model
 - Borrowing Capacity
 - Qualitative Score
 - Quantitative Score
 - Decision and Grade
 - Pricing
1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.

The **Assessment Details – Validation Model** screen displays.

Figure 2-33 Assessment Details – Validation Model

The screenshot displays the 'Assessment Details - Validation Model' interface. At the top, it shows the assessment ID '006APP000057626' and navigation options like 'Application Info', 'Customer 360', 'Remarks', 'Documents', 'Advices', and 'More'. The main content area is divided into several sections:

- Requested Amount:** GBP, 50,000.00
- Tenure:** 0 Years 0 Months 1 Days
- Base Rate:** 8.25
- Margin:** 0
- Total Weighted Score:** 88
- Approved Amount:** ----
- Proposed Margin:** 0.50
- Effective Rate:** 8.75
- System Recommendation:** ManualQueueA
- Grade:** B
- APR:** ----

Below these, a summary row shows: Validation Model (PASS), Borrowing Capacity (69000.00), Qualitative Score (64), Quantitative Score (88), Decision & Grade (ManualQueueA, Grade: B), and Pricing (0.5%).

A table below provides details for the Validation Model Code 'LMCA100':

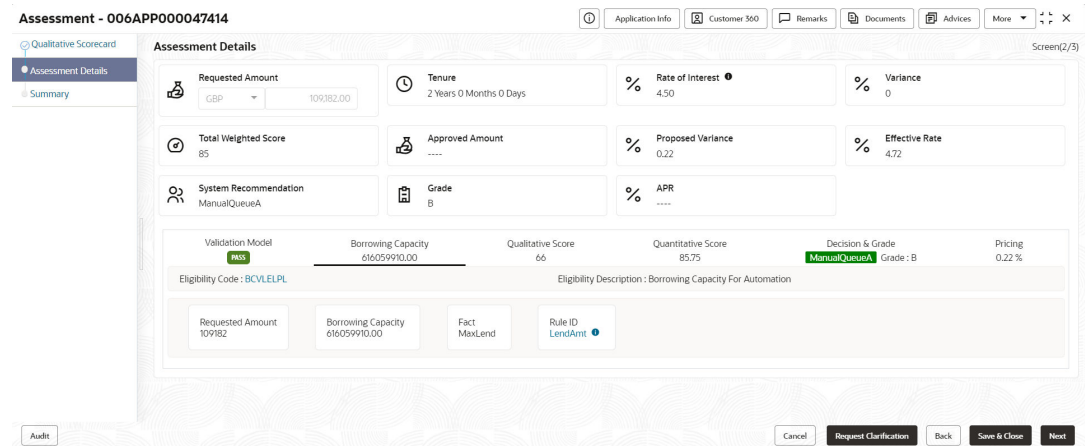

Rule ID	Sequence	Status	Severity

- Select the **Return to Initial Funding Details** to make account funding details stage available in free task.
- Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
- Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.

6. Click **Submit**. The **Confirmation** screen is displayed.

On successful submission the above pop-up appears and displays the next stage in which the application has moved. Application Reference Number and the Process Reference Number is also displayed. Click on '**Close**' to close the pop-up screen. Alternatively click on '**Go to FreeTask**' to launch the **Free Task** menu. If you have access to the next stage, you would be able to view the Application number and take action on it.

7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Manual Credit Assessment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.7 Manual Credit Assessment Stage

This topic describes the information on the various data segments to assess the application manually in the Manual Credit Assessment stage.

The Manual Credit Assessment stage of the saving account (with overdraft) opening process workflow will enable the bank to manually assess the application and provide the recommendation for the approval / rejection of the application. As a reference, the relevant completed data segments will be made available to the Approver before the application can be moved to the next stage. These completed data segments are from Underwriting Stage. The data segments are displayed in view only mode for the Credit Officer to analyze.

To capture manual assessment details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Manual Assessment** stage is displayed.

The Manual Assessment stage has the following data segments in which the user can only view the data:

- **Credit Rating Details**: - For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Underwriting stage.

Refer below chapters for detailed information on data segment that are editable.

- [Manual Assessment](#)
This topic provides the systematic instructions to modify the account details and recommend for the approval / reject the saving account application.
- [Summary](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.7.1 Manual Assessment

This topic provides the systematic instructions to modify the account details and recommend for the approval / reject the saving account application.

Manual Assessment is the data segment which enables the bank user to modify the account details and recommend for the approval / reject the saving account application. The user can acquire the application from Free Tasks list and assess all the View Only data segments.

1. On acquiring the **Manual Credit Assessment Stage** from **Free Tasks** or clicking **Next** from the previous data segment, the **Manual Assessment** screen is displayed.

Figure 2-42 Manual Assessment

The screenshot shows the 'Manual Assessment' screen for application 006APP000055058. The interface includes a sidebar with navigation options: Credit Rating Details, Legal Opinion, Valuation Details, Manual Assessment (selected), and Summary. The main area is titled 'Assessment Details' and contains several data points:

- Requested Amount:** GBP 45,000.00
- Tenure:** 3 Years 0 Months 0 Days
- Rate of Interest:** 5.50%
- Variance:** 0
- Total Weighted Score:** 75
- Approved Amount:** —
- Proposed Variance:** 0.40
- Effective Rate:** 5.90
- Recommended Amount:** GBP 34,500.00
- Final Tenure:** 3 0 0
- Recommendation:** Recommended for Approval
- Comment:** Automation Testing
- System Recommendation:** ManualQueueA
- Grade:** B

Below these fields, there are tabs for Validation Model (PASS), Borrowing Capacity (616059910.00), Qualitative Score (66), Quantitative Score (85.75), Decision & Grade (ManualQueueA Grade: B), and Pricing (0.22%). A table at the bottom shows a single rule:

Rule ID	Sequence	Status	Severity
Rule1001	1	PASS	-

2. Specify the fields on **Manual Assessment** screen.

For more information on fields, refer to the field description table. Refer to **Assessment Details** screen for the detailed explanation of Validation Model, Borrowing Capacity, Qualitative Score, Quantitative Score, Decision & Grade and Pricing tabs.

Table 2-31 Manual Assessment – Field Description

Field	Description
Rate Percentage	Displays the rate percentage.
Requested Amount	Specify the requested overdraft amount.
Tenure	Displays the tenure.
Base Rate	Displays the base type. This field appears if the rate type is Floating .
Rate of Interest	Displays the rate of interest. This field appears if the rate type is Fixed .
Margin	Displays the margin. This field appears if the rate type is Floating .
Variance	Displays the variance. This field appears if the rate type is Fixed .
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the approved overdraft amount.
Proposed Margin	Displays the proposed margin. This field appears only for Floating rate type.
Proposed Variance	Displays the proposed variance. This field appears if the rate type is Fixed .
Effective Rate	Displays the effective rate of interest.
System Recommendation	Displays the system recommendations. Available options are: <ul style="list-style-type: none"> Approved Manual Rejected

Table 2-31 (Cont.) Manual Assessment – Field Description

Field	Description
Grade	Displays the grade of the applicant.
APR	Displays the annual percentage rate value.
Validation Model	This sections displays the validation model details.
Validation Model Code	Displays the validation model code configured for the product.
Description	Displays the description of the configured validation model.
Status	Displays the overall status of the validation model.
Rule ID	Displays the Rule ID configured in the validation model.
Sequence	Displays the sequence of the configured rules.
Status	Displays the status of the configured rule.
Borrowing Capacity	This section displays the borrowing capacity details.
Eligibility Code	Displays the unique eligibility code configured for the product.
Eligibility Description	Displays the description of the configured eligibility.
Requested Amount	Displays the requested card limit. If the calculated Borrowing Capacity is more than the Requested Amount, then Approved Amount is stamped to Requested Amount.
Borrowing Capacity	Displays the calculated borrowing capacity of the applicant.
Fact	Displays the fact configured in the eligibility code.
Rule ID	Displays the rule configured in the eligibility code.
Qualitative Score	This section displays the qualitative score details.
Scoring Model Code	Displays the scoring model code configured for the product.
Description	Displays the description of the scoring model.
Application Score	Displays the overall application score for the applicant(s). The application score also appears in the respective applicant's tab in case of the multiple applicants.
Qualitative Score - Scoring Details	This section displays the qualitative score details.
Question Code	Displays the question code configured for Qualitative Scoring Model
Question	Displays the question configured in question code.
Value	Displays the answers provided by the applicant.
Score	Displays the calculated score based on the answers.
Scoring Model Code	Displays the scoring model code configured for the product.
Description	Displays the description of the scoring model.
Weightage Score	Displays the overall weightage score for the applicant(s). The weightage score also appears in the respective applicant's tab in case of the multiple applicants.
Quantitative Score - Scoring Details	This section displays the Quantitative Score Details.
Feature	Displays the feature configured in the Quantitative Scoring Model.
Value	Displays the value of the application for the configured feature.
Range Type	Displays the range type configured in the Quantitative Scoring Model.
Range	Displays the range for the value of the application.
Weightage %	Displays the weightage percentage configured for the feature.
Score	Displays the score configured for the range.
Weightage Score	Displays the calculated weightage for each feature.
Decision & Grade	This section displays the decision and grade details.

Pricing	This section displays the pricing details.
Pricing Model Code	Displays the pricing model code configured for the product.
Model Description	Displays the description of the pricing model code.
Rate Type	Displays the rate type.
Rate Percentage	Displays the rate percentage.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.7.2 Summary

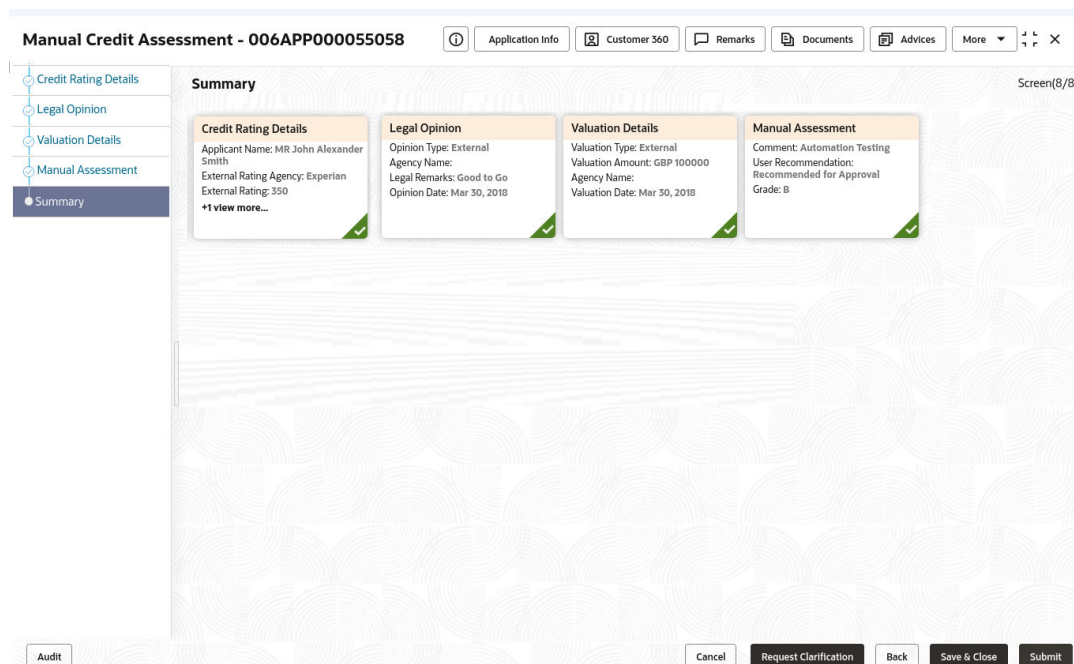

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segments screen to proceed with the next data segment, after successfully capturing the data.

The **Summary Manual Credit Assessment** screen displays.

Figure 2-43 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-32 Summary - Manual Credit Assessment – Field Description

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion.
Manual Assessment	Displays the Manual assessment details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.
3. Click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.
4. Click **Save & Proceed**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
6. Select **Proceed** outcome from the drop-down list.

It will logically complete the **Manual Credit Assessment** stage for the Saving Account (with overdraft) Application. The workflow will automatically move this application to the next processing stage, **Manual Credit Decision** stage.

The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

7. Enter the remarks in **Remarks**.

8. Click **Submit** to submit the manual credit assessment. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
9. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Manual Credit Decision stage. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.8 Manual Credit Decision Stage

This topic describes the information on the various data segments to review and approve the application manually in the Manual Credit Decision stage.

Manual Credit Decision stage of the saving account (with overdraft) opening process workflow will enable the bank to make the decision on whether the recommended overdraft limit can be approved to the applicant.

To capture manual credit decision details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Manual Credit Decision** stage is displayed.

The Manual Credit Decision stage has the following data segments in which the user can only view the data:

- **Account Details** - For detailed information, refer the Account Details data segment in the Application Entry stage.
- **Customer Information** – For detailed information, refer the Customer Information data segment in the Application Entry stage.
- **Financial Details**: - For detailed information, refer the Financial Details data segment in the Application Entry stage.
- **Credit Rating Details**: - For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Underwriting stage.
- **Manual Assessment** – For details information, refer the Assessment Details data segment in the Manual Credit Assessment stage.

Refer below chapters for detailed information on data segment that are editable.

- [Manual Decision](#)
This topic provides the systematic instructions to review and approve the application manually in manual credit decision stage.
- [Summary](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.8.1 Manual Decision

This topic provides the systematic instructions to review and approve the application manually in manual credit decision stage.

Manual Decision is the first data segment of Manual Credit Decision stage. The user can acquire the application from Free Tasks list.

1. Click **Acquire and Edit** in the **Free Tasks** screen of the previous stage – Manual Credit Assessment stage.

The **Manual Decision** screen displays.

Figure 2-44 Manual Decision

2. Specify the fields on **Manual Decision** screen.

For more information on fields, refer to the field description table. Refer to **Assessment Details** screen for the detailed explanation of Validation Model, Borrowing Capacity, Qualitative Score, Quantitative Score, Decision & Grade and Pricing tabs.

Table 2-33 Manual Decision – Field Description

Field	Description
Requested Amount	Displays the requested overdraft amount.
Tenure	Displays the overdraft tenure.
Base Rate	Displays the base rate. This field appears only for Floating rate type.
Margin	Displays the margin. This field appears only for Floating rate type.
Total Weightage Score	Displays the total weightage score.

Table 2-33 (Cont.) Manual Decision – Field Description

Field	Description
Approved Amount	Displays the approved overdraft amount. This field appears blank by default. If the approver selects the recommendation as Approve , then the recommended amount gets defaulted as approved amount.
Proposed Margin	Displays the proposed margin. This field appears only for Floating rate type.
Effective Rate	Displays the effective rate of interest.
Recommended Amount	Displays the recommended overdraft amount.
Final Tenure	Displays the final overdraft tenure.
Manual Recommendation	Displays the manual recommendation.
Comments	Displays the comments.
System Recommendation	Displays the system recommendations.
Recommendation	Select the recommendation. Available options are <ul style="list-style-type: none"> • Approve • Decline If the approver selects the recommendation as Approve , then the recommended amount gets defaulted as approved amount.
Action	Displays the user action based on user recommendation.
Comments	Specify the comment on the user action.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.8.2 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-45 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-34 Summary - Manual Credit Decision – Field Description

Field	Description
Account Details	Displays the account details.
Customer Information	Displays the customer information.
Financial Details	Displays the financial details.
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion.
Manual Assessment	Displays the manual assessment.
Manual Decision	Displays the manual decision.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.
3. Click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.
4. Click **Save & Proceed**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
 - Select the **Proceed** to proceed with the application. It will logically complete the Manual Credit Decision stage for the Saving Account (with overdraft) Application. Upon submit, a Pricing call will be made by Oracle Banking Origination to Decision Service to get the Interest rate. The Workflow Orchestrator will automatically move this application to the next processing stage, Account Parameter Setup stage. The stage

movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.

- Select the **Return to Manual Credit Assessment Stage** to make underwriting stage available in free task.
6. Click **Submit**. The **Confirmation** screen is displayed.
 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Account Parameter Setup stage. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.9 Account Parameter Setup Stage

This topic describes the information on the various data segments to setup the required account parameters in the Account Parameter Setup stage.

The Account Parameter Setup stage is the next representative stage in the Saving Account Open process. After the Application Assessment or Manual Credit Decision stage is completed successfully, the user who has the access rights for the given stage, can acquire the application and progress with the data capture. The user can acquire the application from Free Tasks list.

The **Account Parameter Setup** stage has the following reference data segments:

- **Interest and Charge** – This data segment is editable. For detailed information, refer the Interest and Charge data segment in the Application Enrichment stage.
- **Advance against Uncollected Funds** - This data segment is editable. For detailed information, refer the Advance against Uncollected Funds data segment in the Overdraft Limit stage.
- **Temporary Overdraft Limit**- This data segment is editable. For detailed information, refer Temporary Overdraft Limit data segment in the Overdraft Limit stage.
- **Account Limit Details** - This data segment is ready only. For detailed information, refer Account Limit Details data segment in the Overdraft Limit stage.

All the data segments are carried forward from Application Enrichment stage. If the details are captured in Application Enrichment stage, the same will be fetched automatically. The user can modify the captured details and all the data segments are mandatory to capture the details to move the application to the next stage.

.

2.9.1 Summary - Account Parameter Setup

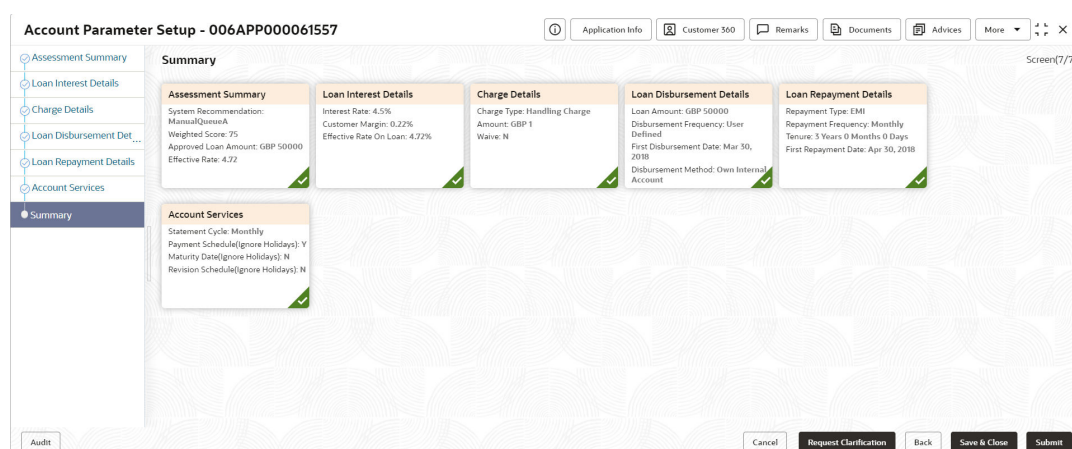

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-46 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-35 Summary – Field Description

Field	Description
Interest Details	Displays the interest details.
Charge Details	Displays the charge details.
Advance against Uncollected Funds Details	Displays the Advance against Uncollected Funds details.
Temporary Overdraft Limit Details	Displays the Temporary Overdraft Limit details.
Account Services Preferences	Displays the account services preferences.
Account Limit Details	Displays the account limit details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and the documents for this stage can be validated or verified. The **Overrides** screen is displayed .
3. Click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.
4. Click **Save & Proceed**. The **Outcome** screen is displayed.

5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
 - Select the **Proceed** to proceed with the application It will logically complete the nextstage for the Saving Account Application. The Workflow Orchestrator will automatically move this application to the next processing stage. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - If there is no change in Interest or Charges details, the workflow will automatically move this application to the **Offer Issue** stage.
 - If there is any change in Interest or Charges details, submit of this stage, will move the application into the **Supervisor Application Approval** stage. Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.
 - Select the **Return to Credit Decision Stage** to make credit decision stage available in free task.
 - Select the **Return to Credit Assessment Stage** to make credit assessment stage available in free task.
 - Select the **Return to Assessment Stage** to make assessment stage available in free task
 - Select the **Return to Initial Funding Stage** to make initial funding stage available in free task.
 - Select the **Return to Overdraft Limit Details Stage** to make overdraft limit details stage available in free task.
 - Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
 - Select the **Return to Application Entry Stage** to make application entry stage available in free task.
 - Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit**.to submit the account parameter setup stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Account Approval stage. This application is will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.10 Supervisor Application Approval Stage

This topic describes the information on the various data segments to view and approve the price change in the Supervisor Application Approval stage.

In this stage supervisor can approve the application.

- **Pricing Change Approval**
This topic provides the systematic instructions to view and approve the pricing change.
- **Summary**
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.10.1 Pricing Change Approval

This topic provides the systematic instructions to view and approve the pricing change.

Pricing Change Approval is the first data segment of Supervisor Application Approval stage. The user can acquire the application from Free Tasks list.

1. Click **Acquire and Edit** in the **Free Tasks** screen of the previous stage – **Account Parameter Setup** stage.

The **Pricing Change Approval** screen displays.

Figure 2-47 Pricing Change Approval

The screenshot displays the 'Account Approval - 006APP000063437' interface. The 'Approval Details' section includes the following fields:

- Applicant Name:** AutoFNN AutoMNN AutoLNN
- Account Type:** Savings Account
- Account Branch:** 006
- Product Code:** INSACT
- Product Name:** Instant Savings Account
- Host Product Code:** RPMSA
- Host Product Description:** RPMSA

Below these fields is a 'User Recommendation' section with 'Approved' and 'Rejected' options, and a 'User Action' field. The bottom of the screen features buttons for 'Audit', 'Cancel', 'Request Clarification', 'Save & Close', and 'Next'.

2. Specify the fields on **Pricing Change Approval** screen.
For more information on fields, refer to the field description table.

Table 2-36 Pricing Change Approval – Field Description

Field	Description
Applicant Name	Displays the applicant name.
Account Type	Displays the account type.
Account Branch	Displays the account branch name.
Product Code	Displays the product code selected for this saving account.
Product Name	Displays the product name selected or this saving account.
Approved Amount	Displays the final approved overdraft amount.
OD Tenure	Displays the final OD tenure for the approved amount.
Existing Values	Displays the existing values.
Rate Type	Displays the rate type.
Base Rate	Displays the rate of interest for the approved overdraft amount.
Margin	Displays the margin.

Table 2-36 (Cont.) Pricing Change Approval – Field Description

Field	Description
Effective Rate	Displays the effective rate.
Handling Charges	Displays the handling charges.
Revised Values	Displays the revised values against the existing values.
Rate Type	Displays the rate type.

User Action	Displays the user action based on user recommendation.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.10.2 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in **Pricing Change Approval** screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-48 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-37 Summary - Pricing Change Approval – Field Description

Data Segment	Description
Pricing Change Approval	Displays the pricing change approval details.

2. Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Overrides** screen is displayed.
3. Click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.
4. Click **Save & Proceed**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the Select to Outcome field.
6. Select **Proceed** outcome from the drop-down list. It will logically complete the **Supervisor Application Approval** stage for the Saving Application. The Workflow Orchestrator will automatically move this application to the next processing stage.

If the Supervisor has approved the price change, submit of this stage, will move the application to **Offer Issue** stage.

If the Supervisor has rejected the price change, the application will be routed back to **Account Parameter Setup** stage.

The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

7. Click **Submit**. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
8. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the **Offer Issue Stage** for Individual Customers. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.11 Offer Issue Stage

This topic describes the information on the various data segments to generate the offer in the Offer Issue stage.

After due diligence and Account Parameter setup, the Application will move to the Offer issue stage where the user will generate the offer letter. As a reference, the relevant completed data segments will be made available to the user before the application can be moved to the next stage. These completed data segments are from the Application Underwrite Stage and Application Assessment Stage. The data segments are displayed in view only mode for the user to browse.

In the Offer Issue stage, provide the required details under each data segment.

The **Offer Issue** stage has the following reference data segments:

- **Credit Rating Details**: - For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.

- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Underwriting stage.

Refer below chapters for detailed information on data segment that are editable.

- [Assessment Summary](#)
This topic provides the systematic instructions to view the assessment summary of the Savings Account application.
- [Offer Issue](#)
This topic provides the systematic instructions to capture the offer issue date and generate the offer letter.
- [Summary - Offer Issue](#)
This topic provide the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.11.1 Assessment Summary

This topic provides the systematic instructions to view the assessment summary of the Savings Account application.

Assessment Summary is the view only data segment of Offer Issue stage.

1. Click **Acquire and Edit** in the **Free Tasks** screen for the application for which Account Approval stage has to be acted upon.

The **Assessment Summary** screen displays.

Figure 2-49 Assessment Summary

The screenshot shows the 'Assessment Summary' screen for application 'Offer Issue - 006APP000055058'. The interface includes a top navigation bar with 'Application Info', 'Customer 360', 'Remarks', 'Documents', 'Advices', and a 'More' dropdown. A left sidebar contains a navigation menu with 'Credit Rating Details', 'Valuation Details', 'Legal Opinion', 'Assessment Summary' (selected), 'Offer Issue', and 'Summary'. The main content area displays a grid of data fields:

Requested Amount G... 45,000.00	Tensure 3 Years 0 Months 0 Days	Rate of Interest 5.50%	Variance 0%
Total Weighted Score 75	Approved Amount G... 34,500.00	Proposed Variance 0.40%	Effective Rate 5.90%
System Recommendation ManualQueueA	Grade B	Manual Decision Approved	

At the bottom of the screen, there are buttons for 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next'.

2. The user can view the details in the relevant data fields.

 **Note:**

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-38 Assessment Summary – Field Description

Field	Description
Requested Amount	Displays the requested overdraft amount.
Tenure	Displays the tenure.
Base Rate	Displays the base rate.
Margin	Displays the variance rate. This field appears only for Floating rate type.
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the final approved overdraft amount.
Proposed Margin	Displays the proposed variance. This field appears only for Floating rate type.
Effective Rate	Displays the effective rate of interest.
System Recommendation	Displays the system recommendations.
Grade	Displays the grade of the applicant.
Manual Decision	Displays the manual decision.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.11.2 Offer Issue

This topic provides the systematic instructions to capture the offer issue date and generate the offer letter.

Offer Issue is the next data segment of Offer Issue stage. **Offer Issue** screen enables the user to capture the Offer Issue date.

1. Click **Next** in the **Assessment Summary** screen to proceed with the next data segment, after successfully capturing the data.

The **Offer Issue** screen displays.

Figure 2-50 Offer Issue

The screenshot shows a web-based form titled "Offer Issue - 006APP000055058". The form is organized into several sections. At the top, there are navigation tabs: "Application Info", "Customer 360", "Remarks", "Documents", "Advices", and "More". Below these, there is a sidebar with a list of tabs: "Credit Rating Details", "Valuation Details", "Legal Opinion", "Assessment Summary", "Offer Issue", and "Summary". The main content area is titled "Offer Issue" and contains the following fields:

- Applicant Name:** MR AutoFNN AutoMNN AutoLNN
- Account Type:** Current Account
- Account Branch:** 006
- Business Product Code:** CURPCA
- Business Product Name:** Premier Checking Account
- Approved Amount:** GBP 50,000.00
- Limit Type:** Unsecured
- Start Date:** March 30, 2018
- End Date:** April 26, 2050
- Limit Currency:** GBP
- Rate Type:** Fixed
- Rate Of Interest:** 15
- Variance:** 0.5
- Effective Rate:** 15.50
- Offer Issue Date:** March 30, 2018

At the bottom of the form, there are buttons for "Cancel", "Request Clarification", "Back", "Save & Close", and "Next".

- All the fields in this screen are prepopulated and not editable. For more information on fields, refer to the field description table.

Table 2-39 Offer Issue – Field Description

Field	Description
Applicant Name	Displays the applicant name.
Account Type	Displays the account type.
Account Branch	Displays the account branch name.
Business Product Code	Displays the business product code.
Business Product Name	Displays the business product name.
Approved Amount	Displays the approved amount.
Limit Type	Displays the limit type.
Start Date	Displays the start date.
End Date	Displays the end date.
Limit Currency	Displays the limit currency.
Rate Type	Displays the rate type.
Interest	Displays the interest amount.
Base Rate	Displays the base rate.
Margin	Displays the margin rate. <div style="border: 1px solid #0070C0; padding: 5px; background-color: #E6F2FF;"> <p> Note: This field displays only for Floating rate type.</p> </div>
Variance	Displays the variance rate. <div style="border: 1px solid #0070C0; padding: 5px; background-color: #E6F2FF;"> <p> Note: This field displays only for Fixed rate type.</p> </div>

Table 2-39 (Cont.) Offer Issue – Field Description

Field	Description
Effective Rate	Displays the effective rate of interest.
Offer Issue Date	Select the offer issue date.
Generate Offer	Click the checkbox to generate the offer letter. A PDF file will be generated with the offer content. Default template for offer issue is used in this reference workflow.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.11.3 Summary - Offer Issue

This topic provide the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in **Offer Issue** screen to proceed with the next data segment, after successfully capturing the data.

The **Summary - Offer Issue** screen displays.

Figure 2-51 Summary

The screenshot shows the 'Offer Issue - 006APP00055058' screen. At the top, there are navigation tabs: Application Info, Customer 360, Remarks, Documents, Advices, and More. A sidebar on the left contains a vertical menu with items: Credit Rating Details, Valuation Details, Legal Opinion, Assessment Summary, Offer Issue, and Summary (which is currently selected). The main content area is titled 'Summary' and contains five summary tiles, each with a green checkmark in the bottom right corner:

- Credit Rating Details:** Applicant Name: MR John Alexander Smith, External Rating Agency: Experian, External Rating: 350, +1 view more...
- Valuation Details:** Valuation Type: External, Valuation Amount: GBP 100000, Agency Name: , Valuation Date: Mar 30, 2018
- Legal Opinion:** Opinion Type: External, Agency Name: , Legal Remarks: Good to Go, Opinion Date: Mar 30, 2018
- Assessment Summary:** System Recommendation: ManualQueueA, Weighted Score: 75, Approved Loan Amount: GBP 34500, Effective Rate: 5.9
- Offer Issue:** Offer Issue Date: Mar 30, 2018, Approved Amount: GBP 34500, Rate of Interest: 5.9%, Installment Amount: GBP 0

At the bottom of the screen, there are several buttons: Audit, Cancel, Request Clarification, Back, Save & Close, and Submit. The top right corner of the screen indicates 'Screen(6/6)'.

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-40 Summary - Offer Issue – Field Description

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion details.
Assessment Summary	Displays the assessment details.
Offer Issue	Displays the offer issue details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and the documents for this stage can be validated or verified. The **Override** screen is displayed.
3. Accept the overrides and click **Proceed Next**. The **Checklist** screen is displayed.
4. Click **Proceed Next**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the Offer Issue stage for the Overdraft Application. The Workflow Orchestrator will automatically move this application to the next processing stage, Offer Accept/Reject. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
 - Select the **Reject Application** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Offer Issue stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Overdraft] to the Application **Offer Accept / Reject** stage.

2.12 Offer Accept / Reject Stage

This topic describes the information on the various data segments to accept / reject the offer in the Offer Accept / Reject stage.

After the Offer Issue stage, the offer letter will be sent or communicated to the borrower or applicant. The **Offer Accept / Reject** stage will enable the user to record the customer response – Accept or Reject as the case may be. Also, the offer made can be amended based on Customer request – viz., change in Principal Amount, Interest Rate or Tenure. The post offer amend can be routed back to the relevant previous completed stages like Application Enrichment stage. If the business wants the Underwriting stage or the Application Assessment stage to be redone, they can be configured accordingly, post which the new offer with the revised terms will be issued to the borrower or applicant for acceptance.

To perform actions on issued offer:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Offer Accept /Reject** stage is displayed.

In the Offer Accept / Reject stage, provide the required details under each data segment.

The **Offer Accept / Reject** stage has the following reference data segments:

- **Offer Issue:** - For detailed information, refer the Offer Issue data segment in the Offer Issue stage.
- **Assessment Summary** - For detailed information, refer the Assessment Summary data segment in the Offer Issue stage.

Refer below chapters for detailed information on data segment that are editable.

- [Offer Accept / Reject](#)
This topic provides the systematic instructions to view the offer letter and record the customer response.
- [Summary - Offer Accept / Reject](#)
This topic provide the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.12.1 Offer Accept / Reject

This topic provides the systematic instructions to view the offer letter and record the customer response.

Offer Accept / Reject data segment is the first data segment of **Offer Accept / Reject** stage. The user can acquire the application from **Free Tasks** list.

1. Click **Acquire and Edit** in the **Free Tasks** screen of the previous stage – **Offer Issue** stage.

The **Offer Accept / Reject** screen displays.

Figure 2-52 Offer Accept / Reject

The screenshot displays the 'Offer Accept/Reject' screen for application ID 006APP000065154. The interface includes a navigation menu on the left with options: Assessment Summary, Offer Issue, Offer Accept/Reject (selected), and Summary. The main area contains a grid of data fields:

- Applicant Name:** MR AutoFIN AutoMNN AutoLNN
- Account Type:** Current Account
- Account Branch:** 006
- Business Product Code:** CURPCA
- Business Product Name:** Premier Checking Account
- Approved Amount:** GSP, 50,000.00
- Limit Type:** Unsecured
- Start Date:** March 30, 2018
- End Date:** April 26, 2050
- Rate Type:** Fixed
- Rate Of Interest:** 15
- Variance:** 0.5
- Effective Rate:** 15.50
- Offer Issue Date:** March 30, 2018
- Offer Expiry Date:** April 3, 2018
- Customer Response:** Customer Response
- Customer Response:** Reject
- Date Of Offer Accept/Reject:** March 30, 2018
- Reason:** (Required field)

At the bottom, there are buttons for 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next'.

2. Specify the details in the relevant data fields.

Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-41 Offer Accept / Reject – Field Description

Field	Description
Customer Response	Select the customer response from the drop-down list. The available options are: <ul style="list-style-type: none"> • Accept • Reject • Amend
Date Of Offer Accept / Reject	Select the date of offer accept or offer reject.
Offer Amend	Offer Amend option will be at the instance of the customer request. This will be taken as a Post Offer amendment and based on the change requested the application will be routed as part of the OUTCOME to the respective earlier stages to incorporate the changes.
Reason	The offer amend will be supported for the following data elements: <ul style="list-style-type: none"> • Overdraft Principal • Overdraft Interest/Margin • Tenure of the Overdraft

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.12.2 Summary - Offer Accept / Reject

This topic provide the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-53 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-42 Summary - Offer Accept / Reject – Field Description

Data Segment	Description
Assessment Summary	Displays the assessment summary.
Offer Issue	Displays the offer issue details.
Offer Accept / Reject	Displays the offer accept / reject details.

2. Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Override** screen is displayed.
3. Accept Overrides and Click **Proceed Next**. The **Checklist** screen is displayed.
4. Click **Save & Proceed Next**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the Offer Issue stage for the Overdraft Application. The Workflow Orchestrator will automatically move this application to the next processing stage, Offer Accept/Reject. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
 - If the Customer Response is selected as Accept in Offer Accept/Reject screen, then submit of this stage, will move the application into the Account Approval stage.
 - If the Customer Response is selected as Reject in Offer Accept/Reject screen, then submit of this stage, will terminate the application.
 - If the Customer Response is selected as Amend in Offer Accept/Reject screen, then submit of this stage, will move the application into the Post Offer Amendment stage.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Offer Accept/Reject stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Overdraft] to the next processing stage on Host. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.13 Post Offer Amendment Stage

This topic describes the information on the various data segments to request for amendment of overdraft in the Post Offer Amendment stage.

Post Offer Amendment stage enables the user to request for amendment of Overdraft components after the Offer is Issued by the bank. This stage will appear only if the **Customer Response** is selected as **Amend** in **Offer Accept/Reject** data segment.

To perform actions on post offer amendment:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Post Offer Amendment stage is displayed

The **Post Offer Amendment** stage has the following data segments: Offer Accept / Reject – View only as available in Offer Accept / Reject stage

- **Account Limit Details** - This data segment is editable. For detailed information, refer Account Limit Details data segment in the Overdraft Limit stage.
- **Offer Issue** – This data segment is read only. For detailed information, refer the Offer Issue data segment in the Offer Issue stage.
- **Offer Accept/ Reject** – This data segment is read only. For detailed information, refer the Offer Accept/ Reject data segment in the Offer Accept/ Reject stage.

Refer below chapters for detailed information on data segment that are editable.

Data Segment	Description
Offer Issue	Displays the offer issue details.
Post Offer Amendment	Displays the post offer amendment details.

2. Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Override** screen is displayed.
3. Accept Overrides and click **Proceed Next**. The **Checklist** screen is displayed.
4. Click **Proceed Next**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the **Post Offer Amend** stage for the Overdraft Application. The Workflow Orchestrator will automatically move this application to the next processing stage. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - If there is any change in **Approved Amount** and/or in **Limit Date Range**, then submit of this stage, will move the application to the **Application Assessment** stage.
 - If the changes are only in the **Rate of Interest** (Pricing), then submit of this stage, will move the application to the **Supervisor Application Approval** stage.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Post Offer Amendment stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.14 Account Approval Stage

This topic describes the information on the various data segments to view the captured details and approve the application in the Account Approval stage

To approve an account opening:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Account Approval stage is displayed.

The Account Approval stage has the following data segments which user can only view:

- **Customer Information** – For detailed information, refer the Customer Information data segment in the Application Entry stage.
- **Account Details** - For detailed information, refer the Account Details data segment in the Application Entry stage.

- **Mandate Details** – For detailed information, refer the Mandate Details data segment in the Application Entry stage.
- **Nominee Details** – For detailed information, refer the Nominee Details data segment in the Application Entry stage.
- **Stake Holder Details** – For detailed information, refer the Stake Holder Details data segment in the Application Entry stage.
- **Financial Details:** - For detailed information, refer the Financial Details data segment in the Application Entry stage.
- **Terms and Conditions** – For detailed information, refer the Terms and Conditions data segment in the Application Entry stage.
- **Interest Details:** For details information, refer the Interest Details data segment in the Application Enrichment stage.
- **Charge Details:** For details information, refer the Charge Details data segment in the Application Enrichment stage.
- **Account Limit Details:** For details information, refer the Account Limit Details data segment in the Overdraft Limit Details stage.
- **Temporary OD Limit Details:** For details information, refer the Temporary OD Limit Details data segment in the Overdraft Limit Details stage.
- **Advance against Uncollected Funds:** For details information, refer the Advance against Uncollected Funds data segment in the Overdraft Limit Details stage.
- **Initial Funding Details:** For details information, refer the Initial Funding Details data segment in the Account Funding stage.
- **Credit Rating Details:** - For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Underwriting stage.
- **Assessment Summary:** For details information, refer the Assessment Summary data segment in the Offer Issue stage.

This topic provides the systematic instructions to view and approve the application.
- [Summary](#)
This topic provides the systematic instructions to view the tiles for all the data segments of the Savings Account Origination Process.

2.14.1 Collateral Perfection Details

This topic provides the systematic instructions to view the collateral perfection details.

Collateral Perfection Details is the first data segment of Account Approval stage.

1. Click **Next** in the **Assessment Summary** screen for the application for which Account Approval stage has to be acted upon.

If the **Customer Type** is selected as **Individuals**,
The **Collateral Perfection Details** screen displays.

Figure 2-56 Collateral Perfection Details

2. Specify the fields on **Collateral Perfection Details** screen.
For more information on fields, refer to the field description table.

Table 2-45 Collateral Perfection Details – Field Description

Field	Description
Applicant Name	Displays the applicant name.
Date of Birth	Displays the applicant's date of birth.
E-mail	Displays the e-mail id of the applicant.
Mobile	Displays the mobile number of the applicant.
Collateral ID	Displays the Collateral ID.
Collateral Description	Displays the description of the collateral.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Registration Authority	Specify the name of the registration authority.
Registration Request Date	Select the date when the registration is requested.
Registration Date	Select the date when the registration is completed.
Confirmation Date	Select the date when the registration is confirmed.
Registration Status	Specify the status of registration.
Registration Reference Number	Specify the registration reference number.

 **Note:**

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are

not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.14.2 Approval Details

This topic provides the systematic instructions to view and approve the application.

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Approval Details** screen displays.

Figure 2-57 Approval Details

2. Specify the details in the relevant data fields.

 **Note:**

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-46 Approval Details - Field Description

Field	Description
Applicant Name	Displays the applicant name.
Account Type	Displays the account type.
Account Branch	Displays the account branch.
Product Code	Displays the product code.
Product Name	Displays the product name.
Account Currency	Displays the account currency.
Host Product Code	Displays the host product code mapped to the business product.

Table 2-46 (Cont.) Approval Details - Field Description

Field	Description
Host Product Description	Displays the host product description mapped to the business product.
Application Details	Displays the applicant details.
OD Amount	Displays the final approved overdraft amount.
OD Tenure	Displays the final tenure for the approved overdraft amount.
Limit Type	Displays the limit type.
Rate Type	Displays the rate type for the approved overdraft amount.
Margin	Displays the margin percentage.
Effective Rate	Displays the effective rate for the approved overdraft amount.
User Recommendation	Select the user recommendation. Available options are: <ul style="list-style-type: none"> • Approved • Rejected
User Action	Displays the user action based on user recommendation.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.14.3 Summary

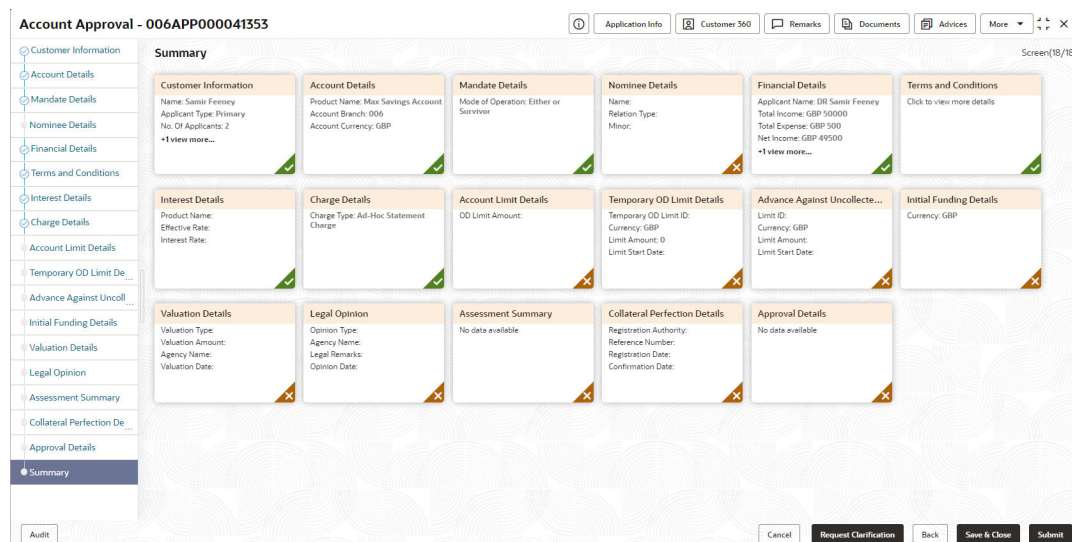

This topic provides the systematic instructions to view the tiles for all the data segments of the Savings Account Origination Process.

The Summary displays the tiles for all the data segments of the Savings Account Origination Process. The Tiles displays the important details captured in the specified data segment. It further allows to click on the specific tile to view the data segment and the details captured. You can additionally click on the data segment from the train on the left hand side to view the details of the data segment.

- Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-58 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-47 Summary - Account Approval - Field Description

Data Segment	Description
Account Details	Displays the account details.
Customer Information	Displays the customer information.
Stake Holder Details	Displays the stake holder details. This data segment appears only if the Customer Type selected as Small and Medium Business (SMB) .
Mandate Details	Displays the mandate details.
Nominee Details	Displays the nominee details.
Financial Details	Displays the financial details.
Interest Details	Displays the interest details.
Charge Details	Displays the charge details.
Account Limit Details	Displays the account limit details.
Temporary Overdraft Limit Details	Displays the Temporary Overdraft Limit details.
Advance against Uncollected Funds Details	Displays the Advance against Uncollected Funds details.
Initial Funding Details	Displays the initial funding details.
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion details.
Assessment Summary	Displays the assessment details.
Collateral Perfection Details	Displays the collateral perfection details.
Approval Details	Displays the approval details.

Supervisor can verify the KYC Verification status of the Customer from the Customer 360 in the Header. Only if the KYC Status is 'Success' will the application be allowed to proceed further. Click **Submit** to submit the Account Approval stage and proceed to submit the Account Opening request to Host.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The Overrides screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, the user can go back and correct the data to ensure overrides do not arise.

3. Click **Proceed Next**. The **Checklist** screen is displayed.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

4. Select the checkbox to accept the checklist.

5. Click **Save & Proceed**. The **Outcome** screen is displayed.

6. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.

- Select the **Proceed** to proceed with the application. By default this option is selected. If the Proceed option is selected, then the application proceeds based on the assessment decision.
- Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.
- Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
- Select the **Return to Overdraft Limit Details** to make overdraft limit details stage available in free task.
- Select the **Return to Initial Funding Details** to make account funding details stage available in free task.
- Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
- Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.

7. Click **Submit**. The **Confirmation** screen is displayed.

On submission of this stage, the Workflow Orchestrator will automatically move this application to the next processing stage, **Account Create on Host** which has been automated. The account will be successfully created in Product Processor, if all the required validation is successful.

In case due to any error the account creation is rejected on Product Processor side, the application moves to the **Manual Retry Stage**

2.15 Manual Retry Stage

This topic describes the information on the various data segments on the Manual Retry stage.

As mentioned earlier, this stage appears in the Free Task only if the Savings Account creation has been rejected by Product Processor and the User has the required access rights for the same.

The Manual Retry Stage comprises of the below data segment:

- Manual Retry Data Segment

Manual Retry Data Segment

Click **Acquire and Edit** in the **Free Tasks** screen for the application for which Manual Retry stage has to be acted upon.

2.16 Account Funding

This topic describes the process of initial funding of an account. This stage appears once the account is opened.

In this stage you can initiate fund for an account post account opening. This stage appears if the **Fund Post Account Opening** toggle is selected in the **Business Product Preference** data segment of the **Business Product Configuration** screen.

To add funding details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Account Funding** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Account Funding Details](#)
This topic provides the systematic instructions to add the funding details post opening account is complete.
- [Summary](#)
This topic provides the systematic instructions to view the tiles for all the data segments in the Account Funding stage

2.16.1 Account Funding Details

This topic provides the systematic instructions to add the funding details post opening account is complete.

In this data segment you can provide funding details to fund already created account. The Account Number and Account Name appears in the respective fields.

To add funding details:

1. On acquiring the **Account Funding** task, the **Account Funding Details** data segment appears
The **Account Funding Details** screen displays.

Figure 2-59 Account Funding Details

2. From the **Funding Mode** list, select the appropriate option. The fields appears based on the selected funding mode.
3. Enter the details in the respective fields.

 **Note:**
The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-48 Account Funding Details – Field Description

Field	Description
Account Number	Displays the generated account number for which the initial funding is credited.
Account Name	Displays the primary account holder name.

Cheque Date	Specify the date on which the cheque is deposited for transfer. This field appears if the Own Internal Account option is selected from the Funding Mode list.
Value Date	Displays the current date on which the transfer is initiated. This field appears if the Own Internal Account option is selected from the Funding Mode list.
Email Address	Displays the preferred communication email address of the primary customer. The finicity URL is send to this email ID for initiating the Finicity process to fetch the external account details. This field appears based on the below conditions: <ul style="list-style-type: none"> • If the External Internal (Finicity) option is selected from the Funding Mode list. • If the Customer Email option is select from the Finicity Mode drop-down list in the Origination Preferences screen.
Send Email To Customer	Click this button to send the Finicity URL to the customer's email address. The customer can login and click on the Finicity URL. Futher the customer must select the desired bank and login using the Netbanking credentials. To initiate call for external account fund transfer cutomer must select the desired account to fetch the account details . If the call is successful then the fields with the external account appears in the External Account Details section. This button appears based on the below conditions: <ul style="list-style-type: none"> • If the External Internal (Finicity) option is selected from the Funding Mode list. • If the Customer Email option is select from the Finicity Mode drop-down list in the Origination Preferences screen.
Initiate Finicity	Click this button to initiate finicity request. If the call is successful, then the finicity URL is generated appears in the field and the user can click the Globe icon Launch Finicity button to initiate the fund transfer Finicity process. The fields with the external account appears in the External Account Details section. This field appears based on the below conditions: <ul style="list-style-type: none"> • If the External Internal (Finicity) option is selected from the Funding Mode list. • If the Branch Visit option is select from the Finicity Mode drop-down list in the Origination Preferences screen.

Table 2-48 (Cont.) Account Funding Details – Field Description

Field	Description
External Account Details	<p>In this section user can view the status response from the Fincity call. If the initiate call Fincity process is successful then below mentioned fields of external account detail appears:</p> <ul style="list-style-type: none"> • Account Holder • Account Type • Bank Name • Routing Number • Account Number • Account Balance <p>This section and fields appears if the External Internal (Fincity) option is selected from the Funding Mode list.</p>
Transaction Status	<p>In this section you can view the status of transaction which is initiated on initiating the fund transfer request.</p>
Status	<p>Displays the fund transfer status of the transaction. To view more information on the transaction status, click</p> 
Rest	<p>Click this button to reset the entered details and reinitiate the fund transfer. This option button appears if the Own Internal Account option is selected from the funding mode list, and only if the transaction fails post initiating the fund transfer request.</p>

4. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message or highlights the mandatory fields for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.16.2 Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Account Funding stage

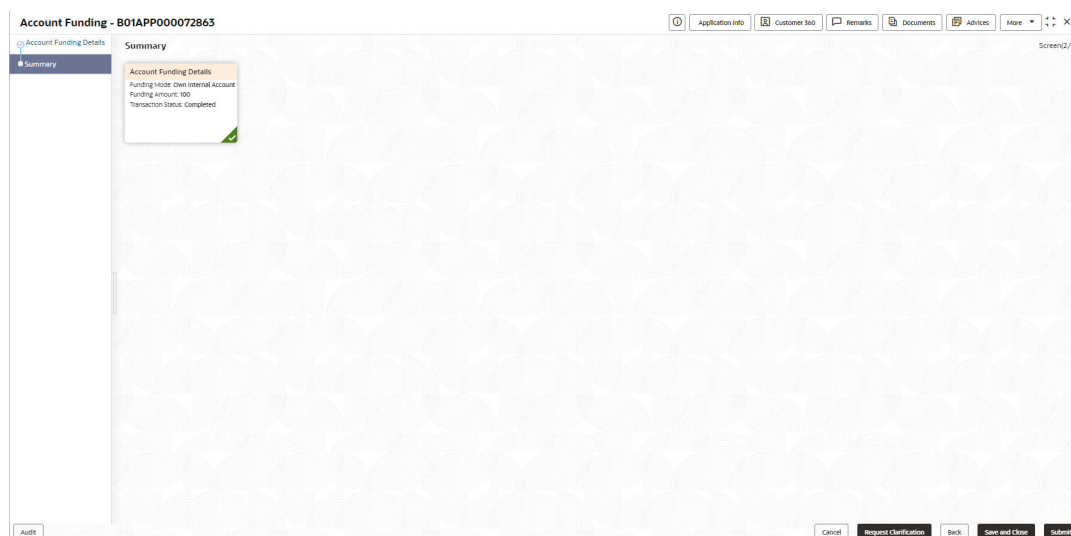

The Summary displays the tiles for all the data segments in the Account Funding stage. The tiles display the important details captured in the specified data segment.

To view the summary of each stage and submit:

1. Click **Next** in **Account Funding Details** screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-60 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-49 Summary

Data Segment	Description
Account Funding Details	Displays the account funding details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, the user can go back and correct the data to make ensure overrides do not arise.

3. Click **Proceed Next**. The **Checklist** screen is displayed.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

4. Click **Proceed**. The **Outcome** screen is displayed.

5. Click **Submit** to submit the application.

On successful submission the above pop-up appears and displays the next stage in which the application has moved. Application Reference Number and the Process Reference Number is also displayed.

2.17 Global Actions

This topic provides the detailed on the actions that can be performed in all stages.

This section appears are the top of the right pane and is applicable for all the account opening stage. You can add, edit, view or delete the information from the respective section.

Below are the list of global actions:

- **Icon**
You view the application number along with its product name.
- **Customer 360**
You can view the customer details such as Name, CIF number and indication whether it is an existing customer.
- **Application Information**
You can view the application information in this section.
- **Remarks**
You can view the remarks.
- **Documents**
You can upload and view the documents that are uploaded.>
- **Advices**
You can view the advices that are shared with customer. Advices are generated post Application Entry stage is submitted.
- **Condition and Convenants**
You capture conditions and convenants details for the loan applications.
- **Solicitor Details**
You can add the solicitor details using this section.
- **Clarification Details**
You raise the clarifications using this section.

2.17.1 Icon

You view the application number along with its product name.

- Click it to view the **Application Number** and the **Business Product** detail.
The **Icon** screen is displayed.

Figure 2-61 Icon

2.17.2 Customer 360

You can view the customer details such as Name, CIF number and indication whether it is an existing customer.

1. Click it to select the **Customer ID** of existing customer, and then view the Mini Customer 360.
The **Customer 360** screen is displayed.

Figure 2-62 Customer 360

- The screen shows the list of Customer IDs in case of Joint Accounts. Select the specific Customer ID to view their Mini Customer 360. The CIF Numbers are populated in the Customer 360 screen only post the CIF number has been keyed in the Customer Information data segment.

2.17.3 Application Information

You can view the application information in this section.

- Click **Application Info** to view the application information.
The **Application Information** screen is displayed.

Drop files here or Click to select	Drag and drop the document or Select the document from the machine.
Upload	Click Upload to upload the document.

 **Note:**

Ensure that mandatory documents are uploaded, as the system will validate the same during the stage submission.

Mandatory documents can only be deleted in the same stage where it is uploaded.

Non-mandatory documents can be deleted in any stage.

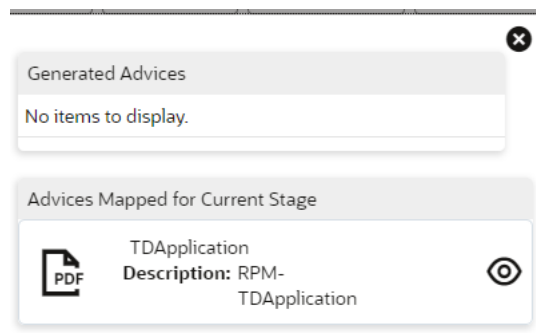

2.17.6 Advices

You can view the advices that are shared with customer. Advices are generated post Application Entry stage is submitted.

- Click **Advices** to view the advice linked for the stage.

The **Advices** screen is displayed.

Figure 2-68 Advices

The system will generate the advice on submission of the stage. For Application Entry stage of Product, no advice is configured.

2.17.7 Condition and Covenants

You capture conditions and covenants details for the loan applications.

In this section you can add, edit and remove the condition and covenant details .

Conditions

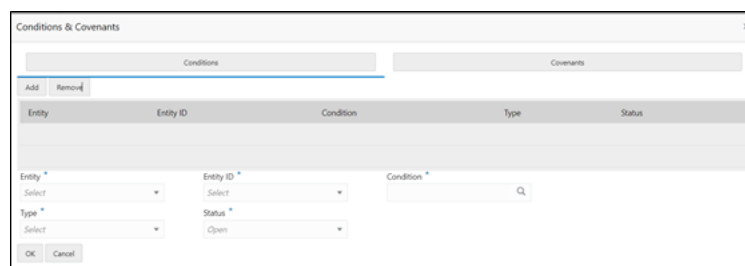

The Conditions are stipulations and constraints recorded in a contract to restrict the usage of funds, in order to ensure proper utilization of funds for the specified purposes and to adhere to a stipulated schedule.

To add conditions:

1. From the **More** option, click the **Conditions & Covenants** to add or remove the conditions details.

The **Conditions & Covenants** page appears.

Figure 2-69 Conditions

2. Click **Add** to add new conditions.
- OR**
- Click **Remove** to remove already added conditions.
3. Enter the relevant details.

Table 2-52 Conditions – Field Description

Field	Description
Entity	Select the entity on which you want to set condition. The available options are <ul style="list-style-type: none"> • Party • Collateral
Entity ID	Select the entity ID from the list. The options in the list appears based on the entity selected in the Entity field.
Condition	Specify the conditions for the selected entity.
Type	Select the type when the conditions must be complied. The available options are <ul style="list-style-type: none"> • Pre Disbursement: If you select this option then the selected conditions have to be complied prior with the account opening and loan disbursement. • Post Disbursement: If you select this option then the selected conditions occur and are supposed to be complied post loan disbursement. This conditions are manually monitored.
Status	Select the status of the condition. The available options are <ul style="list-style-type: none"> • Open • Complied

4. Click **OK**. The conditions are saved.

 **Note:**

All the fields appears with the selected options in tabular format. You can edit the details on clicking the added row.

Convenants

Often there are restrictions on borrowers while extending credit facilities. Sometimes, a borrower promises certain future acts to assure the lender that the conduct of business dealings is fair, healthy and in accordance with the best practices. The purpose of covenant is to assist the lender to ensure the health of loan facilities does not deteriorate suddenly or unexpectedly before maturity.

To add convenants:

5. From the **More** option, click **Conditions & Convenants** to add or remove the convenants details.

The **Conditions & Convenants** page appears.

Figure 2-70 Covenant

6. Click **Add** to add new covenants.
- OR**
- Click **Remove** to remove already added covenants.
7. Enter the relevant details.

Table 2-53 Application Information – Field Description

Field	Description
Entity	Select the entity on which you want to set covenants. The available options are <ul style="list-style-type: none"> • Party • Collateral
Entity ID	Select the entity ID from the list. The options in the list appears based on the entity selected in the Entity field.
Covenants	Specify the covenants for the selected entity.
Type	Select the type when the covenants must be complied. The available options are <ul style="list-style-type: none"> • Financial • Reporting • Undertaking
Status	Select the status of the covenants. The available options are <ul style="list-style-type: none"> • Open • Complied

8. Click **OK**. The covenants are saved.

 **Note:**

All the fields appears with the selected options in tabular format. You can edit the details on clicking the added row.

2.17.8 Solicitor Details

You can add the solicitor details using this section.

A solicitor is a legal practitioner who traditionally deals with most of the legal matters in some jurisdictions. A person must have legally-defined qualifications, which vary from one jurisdiction to another, to be described as a solicitor and enabled to practice there as such.

In this section you can add or remove the solicitor. You can also view the already added solicitor.

To add solicitor details:

1. From the **More** option, click the **Solicitor** to add or remove or edit the already added solicitor.
The **Solicitor Details** page appears.

Figure 2-71 Solicitor

2. Enter the relevant details.

Table 2-54 Solicitor – Field Description

Field	Description
Title	Select the title of the solicitor.
First Name	Specify the first name of the solicitor.
Middle Name	Specify the middle name of the solicitor.
Last Name	Specify the last name of the solicitor.
Gender	Select the gender of the solicitor from the list.
Date of Birth	Select or enter the birth date of the solicitor.
Registration Number	Specify the registration number of the solicitor.
Communication Address	Capture the communication address of the solicitor.
Address Line 1	Specify the building name.
Address Line 2	Specify the street name.
Address Line 3	Specify the city or town name.
State / Country Sub Division	Specify the state or country sub division.
Country	Select and search the country code.
Zip Code / Post Code	Specify the zip or post code of the address.

3. Click **OK** to save the added solicitor.

2.17.9 Clarification Details

You raise the clarifications using this section.

To add the clarification details:

1. Click **Clarification Details** to raise a new customer clarification request or view the existing request.

2. Click **New Clarification** to request new clarification.
The **New Clarification** screen is displayed.

3. Enter the subject and the clarification detail in the New Clarification Pop-up screen. The system also allows you to upload the document for the Clarification being raised.

Figure 2-73 Upload Documents

Upload Document

Document Name: Driving License

Country Of Issue: US

Drop files here or click to select

Cancel

4. Once the details are updated, click **Save**. Clarification Request once raised moves the application to 'Awaiting Customer Clarification' state. The application continues to be assigned to the user who had raised the request. All the applications for which the specified user has requested clarification can be viewed and actioned from the **Awaiting Customer Clarification** sub-menu available under **Task** menu.

Select the Application from the **Awaiting Customer Clarification** sub-menu available under the **Task** menu. Click on the **Clarification Details** from the header.

5. Select the specific clarification to take action on it.

Allowed actions are as following:

- Adding New Conversation
- Withdraw Clarification
- Accept Clarification

Once the Clarification is either withdrawn or accepted, the application moves back to the **My Task** sub-menu available under **Task** menu, post which the user can edit the application and submit the specified stage. Clarification once raised and actioned are available throughout the application processing by the other users working on the other stages of the application by clicking on **Clarification Details** from the header.

3

Simplified Application

This topic describes the concept and process of single stage application.

What is Simplified Application?

The Simplified Application is introduced to open an account in a smooth single process culminating the long account opening process. In this process the user can directly create and application and update details with multiple data segments in a single view.

How to configure Simplified Application for a product?

To enable a simplified account opening process, select the **Simplified Application** flag in the **Business Product Preference** data segment of the **Business Product Configuration** screen.

Once the product is configured for simplified application, the user can configure the business process such as stages, data segments, document checklist and so on, in the **Business Process Configuration** screen.

How to process the simplified application?

After configuring the product and process, the user can initiate a single-stage application by navigating the menu. Below is the detailed process for opening an account using a simplified application.

To open an account using simplified application process:

1. From the **Menu**, select the **Retail Origination**. The Retail Origination menu appears.
2. From the **Retail Origination**, select the **New Application**. The New Application page appears with list of product types which are configured.
3. Select the appropriate product and click **Apply**.
The Application Entry stage appears. The data segments in this stage appears based on the business process configuration.
 - **Applicant** : In this data segment user can capture applicant details such as basic, address, signature, employment, identification. Multiple applicants are allowed with different roles. Refer **Applicant** data segment from the **Application Entry** stage of this guide.
 - **Account Details**: In this data segment user can capture the product details to configure the account. Refer **Account Details** data segment from the **Application Entry** stage of this guide.
 - **Nominee Details**: In this data segment user can capture the nominee details. Refer the **Nominee Details** data segment from the **Application Entry** stage of this guide.
 - **Interest and Charges**: In this data segment user can view the interest and charges that are applicable. Refer the **Interest and Charges** data segment from the **Application Entry** stage of this guide.
 - **Term and Conditions**: In this data segment user can capture the term, conditions and consents of the customer. Refer the **Term and Conditions** data segment from the **Application Entry** stage of this guide.

- **Review:** In this data segment user can review all the details that are captured on clicking on each data segment tile.
4. On submitting the Application Entry stage, next stage is triggered based on the business process configuration.
 5. After completing the Know Your Customer (KYC) process, the account number is generated and application proceed to approval stage. The Account Approval stage is generated. All the data segments of the Application Entry stage appears. The user can only view those stages. The Approval Details data segment is enabled to capture account approval status. For more information refer the **Approval Details** data segment of the **Account Approval** stage in this guide.
 - If the Rejected option is selected in the Approval Details data segment then this application is terminated.
 - If the Approved option is selected in the Approval Details data segment then the application's payload are proceed for account creation.
 6. An account is created on approving the application in the **Account Approval** stage.
 7. Below tasks are aslo generated in this process:
 - If the system fails, the Free Task generates the **Handoff Retry** task. With the necessary access rights, the user can pick up such tasks, take the necessary action on the Failure reason, and then resubmit to the Host.
 - If the business process is configured to include Account Funding, then the **Account Funding** stage is generated after account creation.

4

Instant Savings Account Origination Process

This topic describes the information about Instant Savings Account Origination Process.

Additional Instant Business Process is available wherein various stages in the Reference Flow for Savings Account have been automated.

This allows Instantaneous Account origination from Self-Service Channel such as Oracle Banking Digital Experience for existing Customer who are KYC Compliant and New Customers for whom KYC is completed in Oracle Banking Digital Experience. KYC Type supported for the STP is Identification and Address only and the same has to be configured in Oracle Banking Party Module.

Note:

Refer the **Retail Onboarding User Guide** for more details.

Based on whether the Application is initiated by self-service channel or by a Branch personnel the automatic submission of the stages or skipping of the stages are done by the system.

This process is not applicable for Small and Medium Business customers.

Prerequisite:

- For the automatic submission to work, it is expected that document and checklist are not configured in any of the stages.
- Initial Funding is either not taken for the Account or taken as Account Transfer for which the mode configured has to be **H** which represents that the selected Account will be debited by the Host as part of the Account Opening Process (Allowed for both Self-Service Channel and Branch Initiated Applications) or Initial Funding is taken via External Bank Account Transfer on self-service channel (This mode is not allowed for Branch Initiated Applications).

Note:

For more details, refer to **Initial Funding Configuration** topic in the **Configurations User Guide**.

In the Instant Savings Account Origination Reference Business Process, the stages that are configured are mentioned below.

- **Application Entry Stage:** On successful submission of the Savings Account Application from self-service channel, the system starts the **Application Entry** stage without any manual intervention and completes the data segment level validation. On successful completion of the validation, the system automatically submits the **Application Entry** stage. Similarly, for the Branch initiated Application also this stage is automatically submitted, if the data segment configured for Application Entry stage are updated in the **Application**

Initiate stage itself by clicking the **Application** button in the **Product Details** data segment.

- **Account Funding Stage:** On successful submission of the **Application Entry** stage, system checks if Initial Funding is updated for the Account Opening or not.
 - The initial funding mode allowed for self-service initiated applications are External Bank Account Transfer and Account Transfer.
 - If the Initial Funding has been taken for the Account via the External Bank Account Transfer in the self-service channel, the system starts the **Application Funding Stage** and validates the **Initial Funding Details** data segment and submits the **Application Funding Stage** automatically.
 - For Application where the **Initial Funding** is updated as Account Transfer or where no funding has been taken for the Account, this stage is skipped completely by the system for Application initiated from Self-Service Channel and Branch Initiated Applications.
 - For the Branch Initiated Applications wherein the **Initial Funding** has been taken in Cash or Other Bank Cheque, this stage has to be manually actioned by the Branch User having access permission for this stage.
- **Application Approval Stage:** System skips this stage for self-service initiated application and submits the application directly to the Product Processor for Account Creation. However, for Branch initiated Application considering the 4-eye principle, system expects the application to be approved by a Supervisor. Hence this stage, will have to be picked and actioned by the Supervisor User. Supervisor User can either approve or reject the Application. On submission of this stage by selecting **Approve** outcome, system submits the Application to the Product Processor for Account Creation.
- **Handoff Retry:** Application moves to this stage and appears in the Free Task only if the Savings Account creation has been rejected by Product Processor. The user having the required access rights can pick such task and can retry submission to Host after taking required actions on the Failure reason.

SIGNIFICANT CHANGES

You have advised us that there are no foreseeable significant changes to your circumstances that will affect your ability to meet your contracted repayments. You have advised us that significant changes to your circumstances may occur that could adversely affect your ability to meet your contracted repayments and you have plans in place to ensure that you will be able to continue to make repayments if these circumstances occur.

Privacy Statement

We would like to inform you that:

Purpose of collection

Personal information is information about an identifiable individual and includes facts

or an opinion about you which identifies you or by which your identity can be reasonably determined. The collection of your personal information is essential to enable us to conduct our business of offering and you with our range of financial products and services.

We collect personal information for the purposes of:

identifying and protecting you when you do business with us establishing your requirements and providing the appropriate product or service setting up, administering and managing our products and services assessing and investigating and if accepted, managing a claim made by you under one or more of our product and training and developing our staff and representatives. We may be required by law to collect your personal information. These include, but are not limited to, anti-money laundering and taxation laws.

Consequences if personal information is not provided

If we request personal information about you and you do not provide it, we may not be able to provide you with the financial product or service that you request, or provide you with the full range of services we offer.

Disclosure

We use and disclose your personal information for the purposes we collected it. We may also use and disclose your personal information for a secondary purpose that is related to the purpose for which we collected it. This would happen in cases where you would reasonably expect us to use or disclose your personal information for that secondary purpose. In the case of sensitive information, any secondary purpose, use or disclosure will be directly related to the purpose collection.

When necessary and in connection with purposes of collection, we may disclose your personal information to and/or collect your personal information from:

Other companies within the. Where required or authorized under our relationship with our joint venture companies. Information technology providers, including hardware and software vendors and consultants such as programmers research and development service providers your advisers, agents or representatives our advisers, agents or representatives if required or authorized to do so, regulatory bodies and government agencies financial advisers lenders' mortgage insurers and values credit reporting agencies legal and other professional advisers printers and mail house service providers manufacturers for plastic card production (e.g. debit and credit cards) external dispute resolution schemes.

Disclosure overseas

There are also instances where we may have to send your personal information overseas or collect personal information from overseas. These instances include: sending your personal information to companies in the

group. When you have asked us to do so when we are authorised or required by law to do so when we have outsourced a business activity or function to an overseas service provider with whom we have a contractual arrangement certain electronic transactions or when it is necessary in order to facilitate a transaction on your behalf. We will only send your personal information overseas or collect personal information about you from overseas for the purposes in this statement.
