Purpose

Welcome to the **Retail Loans Origination** user guide for Oracle Banking Origination. This document provides an overview of the Retail Loan Origination process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a Retail Loan Origination.

Audience

This user manual is intended for the Relationship Managers (RMs), other loan executive staff- member in-charge of maintenance for the loan accounts in the bank, and sales officer in-charge of sourcing the Retail Loan Origination products from prospect and customer of the bank. This user manual is also intended for the other bank personas such as bank operations manager, account opening officers or branch managers who may handle the specific stages of the lifecycle of the Retail Loans Origination process based on the bank's internal operation and policies.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Resource

The related documents are as follows:

- *Operations User Guide*
- *Configuration User Guide*
- *Alerts and Dashboard User Guide*

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

Basic Actions

Table 3 Basic Actions

Actions	Functions
Request Clarification	Used to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer. For more information on Request Clarification, refer to the section Request Clarification.
Back	Used to navigate to the previous data segment within a stage.
Next	Used to navigate to the next data segment, after successfully capturing the data. The system validates all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. Users will not be able to proceed to the next data segment, without capturing the mandatory data.
Save & Close	Used to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.
Cancel	Used to close the application without saving. This tasks appears in Free Task, once the transaction is canceled.

1

Overview

Oracle Banking Origination is the middle office banking solution with a comprehensive coverage of account opening processes of the below product for both Individual as well as Small and Medium Business type of customers:

- Saving Account
- Current Account
- Term Deposit Account
- Credit Card Account
- Retail Loans Account

It is a Host-Agnostic solution.

It enables banks to deliver the improved user experience for various bank persons such as Sales Officers, Relationship Manager, Account Opening Officers, Branch Supervisor/Managers, Loan Officers, and Credit Officers and more, handling defined functions in the lifecycle of the various product origination.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business-driven, is hosted and architecture by our new platform solution. The random access navigation between data segments within a given stage are with appropriate validations helps to enable the business user to capture apt information anytime during the account open process before created account in the Host. The new workflow supports capturing relevant documents, stage-wise, and the generation of advice and notifications dynamically.

The account opening request is initiated by authorized branch user or relationship managers or by approved bank agents, either through the traditional branch channel or through dedicated protocol services. These services are available on digital devices like tablets or mobiles. The account opening request can be initiated for both both new and existing customer types. Also, the system supports the processing of the account opening request from the customer directly received from the Self-Service Banking Channel (Oracle Banking Digital Experience) through the REST-based service APIs.

2

Retail Loans Account Origination Process

This topic describes about the Retail Loans Account Origination Process.

This document provides an overview of the retail account open process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a retail loan account open process.

The document is designed to help you create the following types of retail loan:

- Individual customers
 - Housing Loan
 - Personal Loan
 - Vehicle Loan
 - Education Loan
- Small and Medium Business customers
 - Business Loan
 - Term Loan

Retail loan account open process enables the bank to leverage on the state of the art technology used for business modelling, help extend the boundaries of potential markets, provide for Banking at Doorstep and ensure the convenience of banking with primary focus on customer service.

We shall look at the reference workflows of the retail loan account process before understanding how the configuration and capture of data can be done. These stages are mandatory or non-mandatory based on the business process configurations. The process management flow is basically routed through various stages to capture relevant data before it is ready to be sent to the host for account creation.

- [Retail Loan Account](#)
This topic describes information about retail loan account.
- [Application Entry Stage](#)
This topic describes the systematic instructions to initiate the loan application entry stage.
- [Application Enrichment Stage](#)
This topic describes the systematic instructions to move the loan application to enrichment stage.
- [Loan Underwriting](#)
This topic describes the systematic instructions to move the loan application to underwriting stage.
- [Loan Assessment Stage](#)
This topic describes the systematic instructions to move the loan application to assessment stage.
- [Manual Credit Assessment](#)
This topic describes the systematic instructions to move the loan application to manual credit assessment stage.

2.1 Retail Loan Account

This topic describes information about retail loan account.

The initial request for a loan can be made through any of the following:

- Authorized branch users
- Relationship managers
- Authorized bank agents
- Traditional branch channel
- Specialized protocol services available on digital devices such as tablets or mobiles

The initiation of loan request can be made for both new and existing customer types. Also, the platform supports the processing of the loan request from the customer which is directly received from the Self-Service Banking Channel (Oracle Banking Digital Experience) through the REST based service APIs.

The selection of the relevant loan product on which the loan is required can be initiated using this process, provided the user has the required access rights.

Please refer to the detailed setup and operation workflows for both asset and liability products initiation made available in the Operations user guide.

To acquire and edit the task:

1. From **Home** screen, click **Tasks**. Under **Tasks**, click **Free Tasks**.

2.2 Application Entry Stage

This topic describes the systematic instructions to initiate the loan application entry stage.

Based on the access configuration, user can view the records in Free Task. In this stage user can capture the details that are required to open a current account. This stage is automatically submitted on below conditions:

- If the bank level configuration for allowing the full application submission is set as **Yes**.
- If the user captures the required details in all the data segments of the **Application Entry** stage as part of the **Application Initiation** stage on clicking the Application button in the **Product Details** data segment.

To open retail loan application entry task:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Application Entry** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Customer Information](#)
In this data segment you can view and edit the customer information which is captured while initiating an loan account application.
- [Relationship](#)
This topics describes the relationship details of parties that are involved in loan account opening application.
- [Customer Consent and Preference](#)
This topic describes the consent and preferences of customers that are captured in account opening process.
- [Loan Details](#)
This topic describes the systematic instructions to configure the loan product.
- [Admission Details](#)
This topic describes systematic instructions to configure admission details.
- [Stake Holder Details](#)
This topic provides the systematic instructions to capture the stake holder details related information for the application.
- [Mandate Details](#)
This topic provides the systematic instructions to capture the mandate details related information for the application.
- [Financial Details](#)
This topic provides the systematic instructions to capture the financial details of a single customer or multiple customers in case of joint applicants.
- [Collateral Details](#)
This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.
- [Terms and Conditions](#)
(Required) This topic descriptions the terms and conditions that are mandatory to accept for to proceed with account opening process.

- [Summary](#)
This topic provides instruction to view the tiles for all the data segments in the Loan Application Entry Process.

2.2.1 Customer Information

In this data segment you can view and edit the customer information which is captured while initiating an loan account application.

The **Customer Information** data segment displays the details captured for the customer in the Application Initiate stage and allows to update further for supplementing the customer related information. The user can capture data for both new as well existing customer. If the existing customer is selected the system fetches store data and populates in the respective fields. The user can edit the fetched data.

- [For Individual Customer Type](#)
The topic describes the process to capture or edit customer information of Individual type of customer.
- [For Small and Medium Business \(SMB\) Customer Type](#)
The topic describes the process to capture or edit customer information of Small and Medium Business type of customers.

2.2.1.1 For Individual Customer Type

The topic describes the process to capture or edit customer information of Individual type of customer.

To capture customer information details:

1. In the Current Application Entry stage, update the customer details in the Customer Information data segment based on the respective customer type.

 **Note:**

The fields in the screen appears based on the region specific configuration. Refer Regional Configuration section below to understand regionalization impact on this data segment.

The **Customer Information - Individual** screen displays.

Total Collateral Value	Displays the total value of collateral. This field will be auto updated based on the number of collaterals.
Cover Available	Displays the cover available. This field will be auto updated based on the number of collaterals.

 **Note:**

All the fields are fetched from Oracle Banking Credit Facilities Process Management in read only mode, if integrated with Oracle Banking Credit Facilities Process Management.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory

details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

2.2.10 Terms and Conditions

(Required) This topic descriptions the terms and conditions that are mandatory to accept for to proceed with account opening process.

In this data segment user can capture term and conditions consents from the applicants. The customer consents are same across products but few term and conditions defer based on the applied products. They appears in questionnaire format based on the configurations. This questionnaire is mapped at product configuration level. It is mandatory to accept all term and condition to proceed with application.

To capture terms and conditions:

1. Click **Next** from pervious data segment to proceed with the next data segment, after successfully capturing the data.

The **Term and Conditions** screen appears

Figure 2-17 Term and Conditions

2. Click

to view the term and conditions.

3. In the **Customer Consent across Products** section, select to capture the customer consents.
4. In the **Term and Conditions for Lending Application** section, select to accept the product level term and conditions.
5. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.2.11 Summary

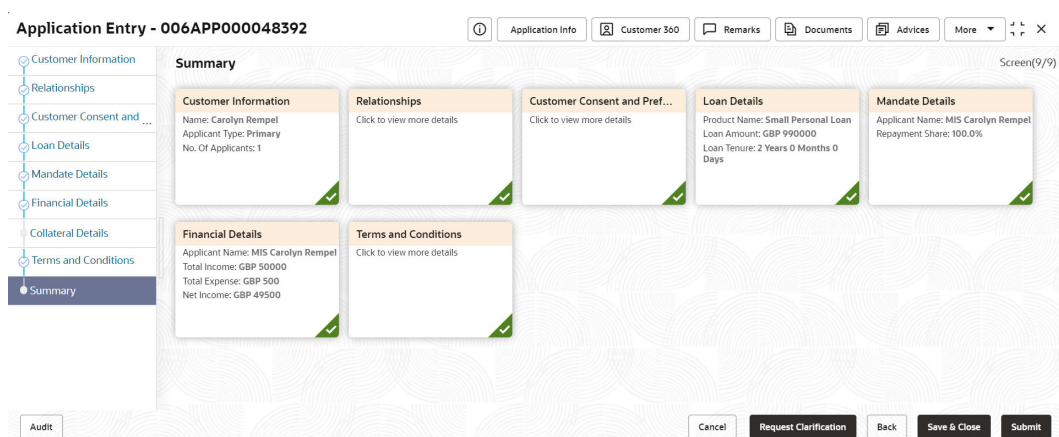

This topic provides instruction to view the tiles for all the data segments in the Loan Application Entry Process.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** from pervious data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-18 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-19 Summary – Field Description

Data Segment	Description
Customer Information	Displays the customer information details
Relationship	Displays the relationship details.
Customer Consents and Preferences	Displays the customer consent and preference details.
Loan Details	Displays the loan details.
Mandate Details	Displays the mandate details.
Financial Details	Displays the financial details.
Collateral Details	Displays the collateral summary details.
Guarantor Details	Displays the guarantor summary details.
Terms and Conditions	Displays the term and conditions.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.

3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed. OR Click **Proceed**. The Checklist screen appears
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Application Entry** stage for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Loan Application Enrichment**. The stage movement is driven by the business configuration for a given combination of **Process Code, Life Cycle** and **Business Product Code**.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [Credit Card Account] to the Credit Card Application Underwriting stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

Application De-Dupe:

Based on the configuration available at the Bank level / Properties Table, the Dedupe service call can be enabled or disabled for the product Origination.

If application dedupe service is enabled, System will check that any application is in progress for same product and customer combination. On Submit, if any duplicate application exists, override will show a message with other in progress application numbers. User can select the override check box and proceed or take appropriate action.

 **Note:**

- If an application is returned to the Application Entry-stage from any other subsequent stages, Oracle Banking Origination will not allow amending details in the Customer Information and Financial Details data segment, once a customer onboarding process has been triggered in the Application Entry Stage and CIF creation is still in progress.
- In case the party amendment request is rejected by Oracle Banking Party, the specified error message is shown to the user while submitting the Application Entry stage. The user has an option to go back and resolve the error or proceed with the stage submission by disregarding the amendment request.
- Unique process reference numbers will be generated and made available in the Free Task grid for the respective Customer Onboarding, Collateral Onboarding requests, which need to be picked up by the concerned users in the Oracle Banking Party / Oracle Banking Credit Facilities Process Management modules.

2.3 Application Enrichment Stage

This topic describes the systematic instructions to move the loan application to enrichment stage.

The **Loan Application Enrichment** stage is the next representative and optional stage in the Retail Loan Account Open process. Effectively, the user can move the application to the **Loan Underwriting** stage without capturing the details in any of the data segments of **Loan Application Enrichment** stage. After the **Loan Application Entry** stage is completed successfully, the application can be acquired by the user who has the access rights for the given stage and progress with the data capture. The user can acquire the application from **Free Tasks** list.

Users having functional access to the **Application Enrichment** stage will be able to view the record in the Free Task process.

To enrich an application:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Application Enrichment** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Loan Interest Details](#)
This topic describes systematic instructions to configure loan interest details.
- [Mortgage Insurance](#)
This topic describes the systematic instructions to configure the mortgage insurance.
- [Charge Details](#)
This topic describes systematic instructions to enable the user to display the charges applicable / levied for this loan application.
- [Loan Disbursement Details](#)
This topic describes systematic instructions to configure loan disbursement details.

- [Loan Repayment Details](#)
This topic describes systematic instructions to enables the user to capture the loan repayment details.
- [Account Services](#)
This topic describes systematic instructions to enables the user to capture the statement preference and the holiday preferences.
- [Summary](#)
This topic provides the systematic instruction to view the tiles for all the data segments in the Loan Application Enrichment Process.

2.3.1 Loan Interest Details

This topic describes systematic instructions to configure loan interest details.

The **Interest Details** data segment displays the interest applicable for the account .

To add interest details:

1. On acquiring the **Application Enrichment** task, the **Interest Details** data segment appears

Figure 2-19 Loan Interest Details

2. Specify the fields on **Loan Interest Details** screen.
For more information on fields, refer to the field description table.

Table 2-20 Loan Interest Details – Field Description

Field	Description
Interest Rate (In %)	Specify the interest rate. Interest Rate is fetched from host back end product to which this loan account is mapped via the Business Product configuration.
Rate Type	The system fetches the rate type from host back end product to which this loan account is mapped via the Business Product configuration.

Table 2-20 (Cont.) Loan Interest Details – Field Description

Field	Description
Margin (In %)	Specify the margin in percentage. This field displays if the Rate Type is selected as Floating . This field is editable if the Margin Allowed toggle is ON at the product level
Variance (In %)	Specify the variance in percentage. This field displays if the Rate Type is selected as Fixed . This field is editable if the Margin Allowed toggle is ON at the product level.
Effective Rate (In %)	Displays the effective rate for the loan calculated as Interest Rate + or – Margin/Variance .
APR	Displays the annual percentage rate value for each applicable interest .

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.3.2 Mortgage Insurance

This topic describes the systematic instructions to configure the mortgage insurance.

In this data segment, you can capture mortgage insurance details. This data segment appears based on the following conditions

- If the LMI rule is selected while configuring the product
- If the rule outcome determines the mortgage insurance need.

To add mortgage insurance details:

- Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

Figure 2-20 Mortgage Insurance

The screenshot displays the 'Mortgage Insurance' configuration page. Key fields include:

- Insured Amount:** GBP 34,500.00
- Insurance Provider:** QBE
- Insurance Premium:** GBP 4,982.00
- Insurance ID:** 12617
- Lender Stamp Duty:** GBP 18.00
- Borrower Stamp Duty:** GBP 15.00
- Lender GST:** GBP 4.50
- Borrower GST:** GBP 3
- Total Lender Premium:** GBP 18.00
- Total Borrower Premium:** GBP 4,982.00
- Borrower Premium:** GBP 4,979.00

Table 2-21 Mortgage Insurance – Field Description

Field	Description
Insured Amount	Displays the mortgage amount that is insured
Insurance Provider	Displays the name of insurance provider.
Insurance Premium	Displays the premium amount of the insurance.
Insurance Provider	Specify the name of the insurance provider.
Insurance ID	Specify the identification number of the insurance policy which is taken against your mortgage.
Insurance Amount	Specify the amount that is insured.
Insurance Quote/ Premium	Specify the insurance premium.
Lender Stamp Duty	Specify the stamp duty amount which lender pays.
Lender GST	Specify the good and services tax amount which lender pays.
Total Lender Premium	Displays the total amount of premium. The system populates the value based on following formula, Total Lender Premium = Lender Stamp Duty + Lender GST.
Borrower Stamp Duty	Specify the stamp duty amount which borrower pays.
Borrower GST	Specify the good and services tax amount which borrower pays.
Borrower Premium	Displays the premium amount that borrower pays. The system populates the value based on following formula, Borrower Premium = Insurance Quote/Premium – Total Lender Premium – Borrower Stamp Duty – Borrower GST
Total Borrower Premium	Displays the total premium amount of the borrower. The system populates the value based on the following formula: Total Borrower Premium = Borrower Premium + Borrower Stamp Duty + Borrower GST

2. Enter the relevant details.
3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.3.3 Charge Details

This topic describes systematic instructions to enables the user to display the charges applicable / levied for this loan application.

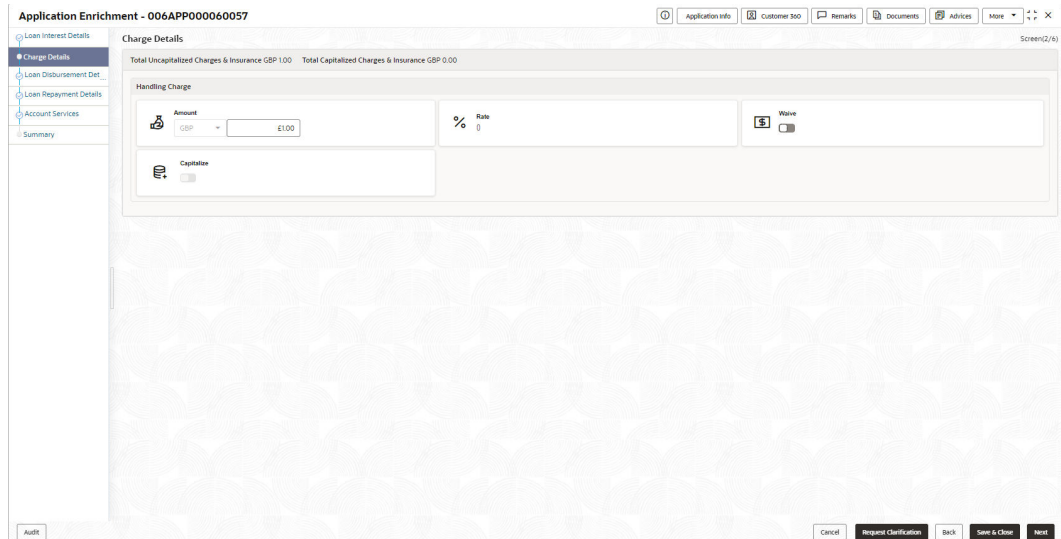

The Charge Details data segment will enable the user to display the charges applicable / levied for this loan application. These charge details are fetched from the Host (APIs – Pull).

All the mortgage loan related charges will appear as defined in the product configuration.

To add charge details:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Charge Details** screen displays.

- Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-22 Charge Details – Field Description

Field	Description
Charge Details	Displays the type of charges. The system also displays the total values of uncapitalized and capitalized charges and insurance.
Amount	Displays the amount.
Rate	Displays the rate for the charge component.
Waive	The user will have the option to waive all charges or selectively waive a particular type of charge.
Capitalize	Select if you want to capitalize the fees. The charges cannot be capitalized if the same are waived in this case this field appears disabled. This option is enabled only for the fees that are set to capitalize while configuring product.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.3.4 Loan Disbursement Details

This topic describes systematic instructions to configure loan disbursement details.

The **Loan Disbursement Details** are pushed into the host as a part of account open process data share – API's are provided for the same. The **Loan Disbursement Details** enables the user to capture the various disbursement methods.

To add loan disbursement details:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

If **Account Type** is selected as **Own Internal Account** in **Loan Details** data segment.

The **Loan Disbursement Details - Own Internal Account** screen displays.

Figure 2-21 Loan Disbursement Details - Own Internal Account

The screenshot shows the 'Loan Disbursement Details' screen for an 'Own Internal Account'. The interface includes a sidebar with navigation options like 'Loan Interest Details', 'Charge Details', 'Loan Disbursement Det.', 'Loan Repayment Details', 'Account Services', and 'Summary'. The main content area contains several input fields: 'Settlement Required' (checkbox), 'Requested Loan Amount' (GBP 50,000.00), 'Loan Account' (GBP 50,000.00), 'Number of Disbursement' (1), 'First Disbursement Date' (March 30, 2018), 'Disbursement Mode' (Own Internal Account), 'Customer Account' (100600000001441), and 'Branch Code' (005). At the bottom, there are buttons for 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next'.

If **Account Type** is selected as **Other Internal Account** in **Loan Details** data segment

The **Loan Disbursement Details - Other Internal Account** screen displays.

Figure 2-22 Loan Disbursement Details – Other Internal Account

The screenshot shows the 'Loan Disbursement Details' screen for an 'Other Internal Account'. The interface is similar to Figure 2-21, but the 'Disbursement Mode' is set to 'Other Internal Account'. The 'Customer Account' field is 100600000000723, the 'Account Name' is Phillip J Coulton, and the 'Branch Code' is 005. The same sidebar and bottom navigation buttons are present.

If **Account Type** is selected as **External Account** in **Loan Details** data segment

The **Loan Disbursement Details - External Account** screen displays.

Figure 2-23 Loan Disbursement Details – External Account

The screenshot shows the 'Loan Disbursement Details' form for application 006APP00060057. The 'Disbursement Mode' is set to 'External Account'. The form includes fields for 'Requested Loan Amount' (GBP 50,000.00), 'Loan Amount' (GBP 50,000.00), 'Number of Disbursement' (1), 'First Disbursement Date' (March 30, 2018), and 'Total Disbursement' (GBP 50,000.00). The 'External Account Transfer' section contains fields for 'BIC code' (BKENG22XXX), 'Bank' (BANK OF ENGLAND), 'Branch' (LONDON), and 'External Account Number' (56798222). The 'Beneficiary Name' is 'John Smith'. The form has a sidebar with navigation options and a bottom bar with buttons for 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next'.

If **Account Type** is selected as **GL Account** in **Loan Details** data segment.

Figure 2-24 Loan Disbursement Details – GL Account

The screenshot shows the 'Loan Disbursement Details' form for application 006APP00060057. The 'Disbursement Mode' is set to 'GL Account'. The form includes fields for 'Requested Loan Amount' (GBP 50,000.00), 'Loan Amount' (GBP 50,000.00), 'Number of Disbursement' (1), 'First Disbursement Date' (March 30, 2018), and 'Total Disbursement' (GBP 50,000.00). The 'GL Account Details' section contains fields for 'GL Account Number' and 'GL Account Description'. The form has a sidebar with navigation options and a bottom bar with buttons for 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next'.

- Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-23 Loan Disbursement Details – Field Description

Field	Description
Settlement Required	Select the toggle to indicate whether the settlement required. By default, this toggle is ON . The user can turn OFF the toggle to move forward without entering the disbursement related details.

Table 2-23 (Cont.) Loan Disbursement Details – Field Description

Field	Description
Requested Loan Amount	<p>Displays the requested loan amount from the Product Details Data Segment.</p> <p>Click  icon to view the breakup of the requested loan amount. The icon displays Loan Amount, Capitalized Charges and Total Loan Amount. This icon appears if the charges are capitalized.</p>
Loan Amount	<p>Displays the requested/approved loan amount.</p> <ul style="list-style-type: none"> This field displays the requested loan amount from the Product Details Data Segment in Application Enrichment stage. This field displays the approved loan amount from the Decision service in Account Parameter Setup stage. <p>Click icon to view the breakup of the requested loan amount. The icon displays Loan Amount, Capitalized Charges and Total Loan Amount. This icon appears if the charges are capitalized.</p>
First Disbursement Date	Select the first disbursement date.
Multiple	Select the toggle to indicate if the multiple disbursement is required.
Frequency Based	Select the toggle to enable the frequency-based loan disbursement. This field displays if the Multiple disbursement toggle is ON .
Disbursement Frequency	<p>Select the frequency based on which the disbursement dates are updated. Available options are:</p> <ul style="list-style-type: none"> Monthly Weekly Fortnightly Quarterly Half Yearly Yearly <p>This field is read-only and defaulted to User Defined if the Frequency Based toggle is OFF.</p>
Number of Disbursement	Select the number of disbursements.
Disbursement Schedule	<p>The below fields in Table grid displays only if the Multiple disbursement toggle is ON.</p> <ul style="list-style-type: none"> Stage Date Amount Of Disbursement Total Disbursement
Stage	Specify the stage name when the specified amount must be disbursed.
Date	Select the date when the specified amount must be disbursed. This field is in read-only if the Frequency Based toggle is ON .
Amount Of Disbursement	Specify the amount disbursed on the schedule.
Total Disbursement	Displays the total disbursement.

Table 2-23 (Cont.) Loan Disbursement Details – Field Description

Field	Description
Disbursement Mode	<p>Select the disbursement mode from the drop-down list. Available options are:</p> <ul style="list-style-type: none"> • Own Internal Account • Other Internal Account • External Account • GL Account <p>If Disbursement Mode is selected as Own Internal Account, then the system displays the following additional fields:</p> <ul style="list-style-type: none"> • Customer Account • Branch Code <p>If Disbursement Mode is selected as Other Internal Account, then the system displays the following additional fields:</p> <ul style="list-style-type: none"> • Customer Account • Account Name • Branch Code <p>If Disbursement Mode is selected as External Account, then the system displays the following additional fields:</p> <ul style="list-style-type: none"> • BIC Code • Bank • Branch • External Account Number • Beneficiary Name <p>If Disbursement Mode is selected as GL Account, then the system displays the following additional fields:</p> <ul style="list-style-type: none"> • GL Account Number • GL Account Description
Customer Account	<p>Search and select the customer account number.</p> <p>This field appears if the Disbursement Mode is selected as Own Internal Account and Other Internal Account.</p> <p>Note: The disbursement account currency can be different than that of the loan account currency.</p>

Customer ID	Specify the Customer ID.

Table 2-24 (Cont.) Customer Account – Field Description

Field	Description
Customer Account	Specify the Customer Account.

5. Click **Fetch** to fetch the customer account details.

The Table grid displays the below fields.

For more information on fields, refer to the field description table.

Table 2-25 Customer Account – Field Description

Field	Description
Customer ID	Displays the customer ID.
Name	Displays the customer name.
Branch Code	Displays the branch code.
Customer Account	Displays the customer account number.
Currency	Displays the currency of the customer account.

2.3.5 Loan Repayment Details

This topic describes systematic instructions to enables the user to capture the loan repayment details.

Loan Repayment Details will enable the user to capture the repayment details.

To capture the loan repayment details:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

If **Account Type** is selected as **Own Internal Account** in **Loan Details** data segment.

The **Loan Repayment Details - Own Internal Account** screen displays.

Figure 2-26 Loan Repayment Details – Own Internal Account

If **Account Type** is selected as **External Account** in **Loan Details** data segment.

The **Loan Repayment Details - External Account** screen displays.

Figure 2-27 Loan Repayment Details – External Account

If **Account Type** is selected as **Capture Later** in **Loan Details** data segment.
The **Loan Repayment Details - Capture Later** screen displays.

Figure 2-28 Loan Repayment Details – Capture Later

- Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-26 Loan Repayment Details – Field Description

Field	Description
Type of Repayment	Select the type of repayment. All type of repayment methods supported in the Host will be available in the drop-down list.

Table 2-26 (Cont.) Loan Repayment Details – Field Description

Field	Description
Repayment Frequency	Select the repayment frequency from the drop-down list. The available options are: <ul style="list-style-type: none"> • Daily • Weekly • Bi-Monthly • Monthly • Quarterly • Half Yearly • Yearly
First Repayment Date	Displays the first repayment date defaulted from the Loan Details screen of Loan Application Entry stage.
Loan Tenure	The system calculated based on First Repayment Date and Loan Tenure .
Maturity Date	The system calculated based on First Repayment Date and Loan Tenure .
Repayment Mode	User can select repayment mode from the drop-down list. The available options are: <ul style="list-style-type: none"> • Own Internal Account- If the mode selected as Internal Account, then the system enables the fields for Customer Account and Branch. By default, the system populates the internal account selected in Disbursement data segment. However, if user wishes to have a different account, he/she can select another customer account of the CIF and account branch displays in the branch field. • External Account - If the mode selected is external account, the system creates a Periodic Instruction Maintenance, at host as a part of Loan Account opening process. • Capture Later - If the mode selected is Capture Later, the system will allow to proceed with the loan origination flow without capturing the repayment details. <div style="border: 1px solid #0070C0; padding: 5px; margin-top: 10px;"> <p> Note:</p> <p>The system defaults to the GL account in the absence of the repayment account.</p> </div>
Moratorium Period (in months)	Specify the moratorium period. It will be enabled when Moratorium is selected in Business Product .
Customer Account	Click Search icon and select the customer account number. This field displays if Repayment Mode is selected as Internal Account .
Branch Code	Specify the branch code associated with customer account number. This field displays if Repayment Mode is selected as Internal Account .

Table 2-26 (Cont.) Loan Repayment Details – Field Description

Field	Description
BIC Code	Specify the BIC Code. This field displays if Repayment Mode is selected as External Account .
Bank	Specify the bank name. This field displays if Repayment Mode is selected as External Account .
Branch	Specify the branch name. This field displays if Repayment Mode is selected as External Account .
External Account Number	Specify the external account number. This field displays if Repayment Mode is selected as External Account .
Beneficiary Name	Specify the beneficiary name. This field displays if Repayment Mode is selected as External Account .
Show Repayment Schedule	This link enables to user to generate the repayment schedule which displays the details of installment amount with the principal and interest break up for the given tenure. If moratorium period is provided, then the system generates repayment schedule based on the moratorium period.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.
 - [Repayment Schedule](#)
(Required) This topic describes the loan repayment schedule.

2.3.5.1 Repayment Schedule

(Required) This topic describes the loan repayment schedule.

The repayment details are pushed into the Host – APIs are provided – to ensure the seamless workflow in the lifecycle of the loan account at the Host.

To view the repayment schedule:

- Click **Show Repayment Schedule**
If the **Moratorium Period** is not specified in Repayment Schedule screen.
The **Repayment Schedule** screen is displayed.

Figure 2-29 Repayment Schedule

Repayment Schedule

2.3.6 Account Services

This topic describes systematic instructions to enables the user to capture the statement preference and the holiday preferences.

This segment will enable the user to capture the statement preference and the holiday preferences. Account services data will be pushed to the Host – APIs will be provided – to enable generation of account statements and processing of repayments based on Holiday treatment during the life cycle of the loan account.

To add account services:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Account Services** screen displays.

Figure 2-31 Account Service

The screenshot shows the 'Account Services' configuration screen. It is divided into several sections:

- Statement Preferences:** Includes 'Statement Cycle' (set to 'Monthly') and 'Start Date' (set to 'April 30, 2018').
- Statement Type:** Set to 'Detailed'.
- Holiday Preferences:** This section is repeated for three different schedules: Payment Schedules, Maturity Date, and Revision Schedule. Each sub-section includes:
 - 'Ignore Holidays': A toggle switch.
 - 'Holiday Check': A dropdown menu.
 - 'Move Across Month': A toggle switch.
 - 'Cascade Schedules': A checkbox.
 - 'Move Forward' and 'Move Backward': Radio buttons.

2. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-28 Account Services – Field Description

Field	Description
Statement Preferences	Specify the statement preferences details.
Statement Cycle	Select the statement cycle from the drop-down list. The available options are: <ul style="list-style-type: none"> • Monthly • Quarterly • Half Yearly • Yearly
Start Date	Select the statement start date.
Statement Type	Select the statement type from the drop-down list. The available options are: <ul style="list-style-type: none"> • Detailed • Summary
Holiday Preferences	Specify the holiday preferences details for Payment Schedules, Maturity Date, and Revision schedule.
Payment Schedules	Specify the payment schedules details.
Ignore Holidays	Select it to indicate if holidays will be ignored for payment schedules.

Table 2-28 (Cont.) Account Services – Field Description

Field	Description
Holiday Check	Select the holiday check for payment schedule from the drop-down list to apply holidays based on the available options. The available options are: <ul style="list-style-type: none"> • Local • Currency • Both
Cascade Schedules	Select it to indicate if movement cascades to other schedules as well.
Move Forward	Select Move Forward to indicate if payment schedule date should move forward to next working day of the following month.
Move Backward	Select Move Backward to indicate if payment schedule should move backward to the previous working day or the current scheduled month.
Move Across Month	Select it to indicate if movement across the month is allowed or not.
Maturity Date	Specify the maturity date details.
Ignore Holidays	Select it to indicate if holidays will be ignored for maturity date.
Holiday Check	Select the holiday check for payment schedule from the drop-down list to apply holidays based on the available options. The available options are: <ul style="list-style-type: none"> • Local • Currency • Both
Cascade Schedules	Select it to indicate if movement cascades to other schedules as well.
Move Forward	Select Move Forward to indicate if maturity date should move forward to next working day of the following month.
Move Backward	Select Move Backward to indicate if maturity date should move backward to the previous working day or the current scheduled month.
Move Across Month	Select it to indicate if movement of maturity date across the month is allowed or not.
Revision Schedules	Specify the Revision schedule details.
Ignore Holidays	Select it to indicate if holidays will be ignored for revision schedule.
Holiday Check	Select the holiday check for revision schedule from the drop-down list to apply holidays based on the available options. The available options are: <ul style="list-style-type: none"> • Local • Currency • Both
Cascade Schedules	Select it to indicate if movement cascades to other schedules as well.
Move Forward	Select Move Forward to indicate if payment schedule date should move forward to next working day of the following month.
Move Backward	Select Move Backward to indicate if payment schedule should move backward to the previous working day or the current scheduled month.

Table 2-28 (Cont.) Account Services – Field Description

Field	Description
Move Across Month	Select it to indicate if movement of revision schedule across the month is allowed or not.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

2.3.7 Summary

This topic provides the systematic instruction to view the tiles for all the data segments in the Loan Application Enrichment Process.

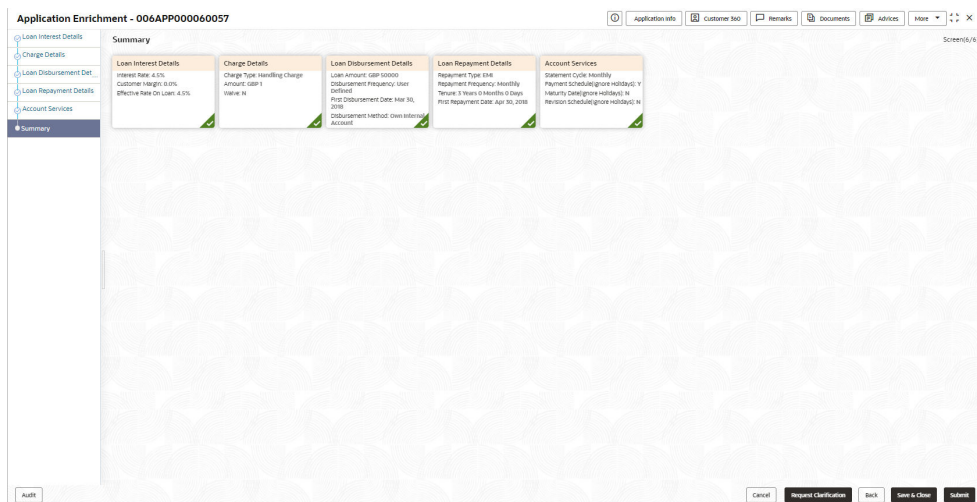

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary of all the data segments:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-32 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on data segments, refer to the field description table below

Table 2-29 Summary Application Enrichment – Field Description

Data Segment	Description
Loan Interest Details	Displays the loan details.
Loan Disbursement Details	Displays the asset details.
Loan Repayment Details	Displays the mandate details.
Charge Details	Displays the collateral summary details.
Account Service	Displays the account services details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.

OR
Click **Proceed**. The Checklist screen appears.
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Application Enrichment** stage for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Loan Underwriting Stage**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - Select the **Return to Application Entry** to return to application entry stage. The system generates the Application Entry task that appears in **Free Task** to acquire and edit.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Loan Application Underwriting stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

If the **Collateral Type** is selected as **Term Deposit** in **Collateral Details** data segment, then submit of the Loan Application Enrichment stage, will move the application into the Account Parameter Setup stage.

If the selected **Collateral Type** is other than **Deposits** in **Collateral Details** data segment, then submit of the **Loan Application Enrichment** stage, will move the application into the **Loan Underwriting** stage.

2.4 Loan Underwriting

This topic describes the systematic instructions to move the loan application to underwriting stage.

The underwriting process of the lender bank is set to determine if a borrower's loan application is an acceptable risk. It is a process to assess the borrower's ability to repay the Loan based on an analysis of their credit, financial capacity, and collateral provided by the borrower.

The **Loan Underwriting** stage is the next representative stage in the Retail Loan Account Open process. After the **Loan Application Enrichment** stage is completed successfully, the application can be acquired by the user who has the access rights for the given stage and progress with the data capture.

To add underwriting details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Underwriting** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Credit Rating Details](#)
This topic provides the systematic instructions to view the information on the External Rating Agencies Rating / Scores for the Applicant.
- [Valuation Details](#)
This topic provides the systematic instructions to capture the information on the asset valuation done by the bank approved valuator.
- [Legal Opinion](#)
This topic provides the systematic instructions to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.
- [Summary](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.4.1 Credit Rating Details

This topic provides the systematic instructions to view the information on the External Rating Agencies Rating / Scores for the Applicant.

Credit Rating Details is the first data segment of **Loan Underwriting** stage. The user can acquire the application from Free Tasks list. This data segment will provide the information on the External Rating Agencies Rating / Scores for the Loan Applicant. If the applicants are more than one, accordingly the information against each applicant / borrower will be provided. The interface with external rating agencies will be provided.

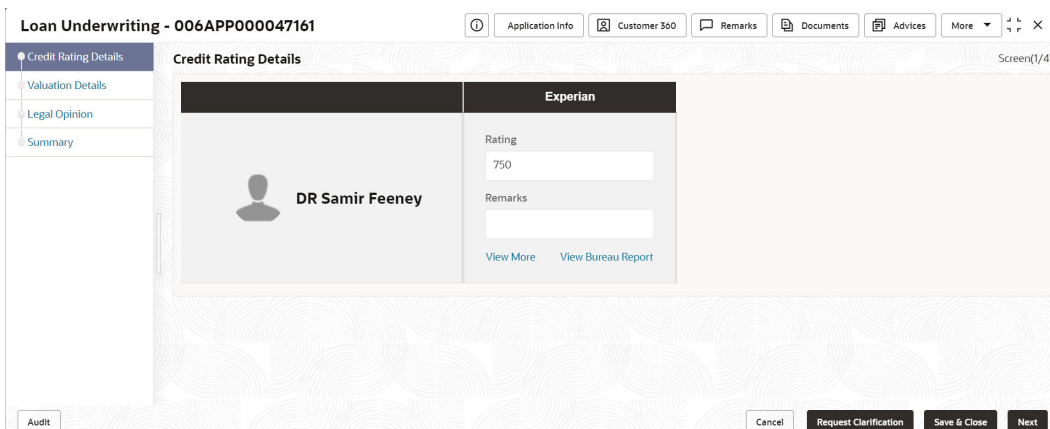

Oracle Banking Origination is now integrated with Bureau Integration Service to fetch the details of the Rating for the given applicant(s). The Bank will have an option to use

this integration service or use the manual process of entering the Bureau score in the Credit Rating DS.

To view the credit rating details of loan:

1. On acquiring the **Underwriting** task, the **Credit Rating Details** data segment appears.

Figure 2-33 Credit Rating Details

2. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below

Table 2-30 Credit Rating Details – Field Description

Field	Description
<Customer Name along with image>	Displays the customer name along with image.
Agency Name	Displays the configured agency.
Ratings	Displays the ratings. The system populates the credit rating score from the Bureau Integration Service.
Remarks	Specify the remarks.

3. Click **View More** to view the additional Credit Bureau details.
The **Additional Credit Bureau Details** screen is displayed.

Figure 2-34 Additional Credit Bureau Details

Institution Name	Account Number	Account Type	Loan Amount	Outstanding Balance	Account Opening Date	Installment Amount	Delinquency Bucket	Delinquency Amount
FIRST FEDERAL SAVINGS	0019888010777	Loan	100000	86820	2020-01-07	2162	NIL	NIL
HSBC/CARSN	001901000999	Overdraft	22000	0	2019-06-07	0	NIL	NIL

- For more information on fields, refer to the field description table below.

Table 2-31 Additional Credit Bureau Details – Field Description

Field	Description
Institution Name	Displays the institution name.
Account Number	Displays the account number of the applicant.
Account Type	Displays the account type.
Loan Amount	Displays the overdraft amount.
Outstanding Balance	Displays the outstanding balance.
Account Opening Date	Displays the account opening date.
Installment Amount	Displays the installment amount.
Delinquency Bucket	Displays the delinquency bucket.
Delinquency Amount	Displays the delinquency amount.

 **Note:**

Oracle Banking Origination has been integrated with Bureau Integration Service which will make a call to the Credit Bureau to get Credit Rating Score and additional details.

- Click **View Bureau Report** to view and download the bureau report from the external agency.
- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

2.4.2 Valuation Details

This topic provides the systematic instructions to capture the information on the asset valuation done by the bank approved valuator.

Valuation Details is the next data segment of Loan Underwriting stage. This segment enables the user to capture the information on the asset valuation done by the bank approved valuator.

To capture the valuation details:

- Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Valuation Details** screen displays.

Figure 2-35 Valuation Details

- Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

If Oracle Banking Origination is integrated with Oracle Banking Credit Facilities Process Management, the valuation details will be fetched from integration service and the values will be displayed in the respective fields as read only data. In the absence of Oracle Banking Credit Facilities Process Management integration, the user has to capture the valuation details manually in this data segment.

Table 2-32 Valuation Details – Field Description

Field	Description
Collateral Description	Displays the collateral description which is added.
Collateral Type	Displays the collateral type which is added.
Category	Displays the category of the collateral which is added.
Collateral Value	Displays the value of the collateral which is added.
Owners	Displays the owners name of the collateral.
Collateral ID	Displays the Collateral ID.
Collateral Description	Displays the description of the collateral.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Hair Cut %	Displays the Hair cut percentage.
Collateral Amount	Displays the collateral amount.
Valuation Type	Select the type of valuation. Available options are <ul style="list-style-type: none"> • External • Internal
Valuation Amount	Specify the valuation amount of the collateral.
Agency Code	Specify the agency code.
Agency Name	Specify the name of agency.
Valuation Date	Select the valuation date. Date should not be earlier than the Loan Application Date .

Table 2-32 (Cont.) Valuation Details – Field Description

Field	Description
Add Valuation	Click Add Valuation to add valuation details. Add the valuation details if you want to evaluate the collateral.

 **Note:**

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

2.4.3 Legal Opinion

This topic provides the systematic instructions to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.

Legal Opinion is the next data segment of **Loan Underwriting** stage. This segment allows the user to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.

To add legal opinion:

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Legal Opinion** screen displays.

Figure 2-36 Legal Opinion

- Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

If Oracle Banking Origination is integrated with Oracle Banking Credit Facilities Process Management, the Legal Opinion details will be fetched from integration service and the values will be displayed in the respective fields as read only data. In the absence of Oracle Banking Credit Facilities Process Management integration, the user has to capture the Legal Opinion details manually in this data segment.

Table 2-33 Legal Opinion – Field Description

Field	Description
Collateral Description	Displays the collateral description which is added.
Collateral type	Displays the collateral type which is added.
Category	Displays the category of the collateral which is added.
Collateral Value	Displays the value of the collateral which is added.
Owners	Displays the owners name of the collateral.
Collateral ID	Displays the Collateral ID.
Collateral Description	Displays the description of the collateral.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Opinion Type	Select the opinion type. Available options are: <ul style="list-style-type: none"> • External • Internal
Agency Code	Specify the agency code.
Agency Name	Specify the agency name.
Legal Remarks	Specify the legal remarks.
Opinion Date	Select the opinion date. Date should not be earlier than the Collateral Valuation Date .
Add Opinion	Click Add Opinion to add the legal opinion received from multiple agencies (both internal and external).

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

2.4.4 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

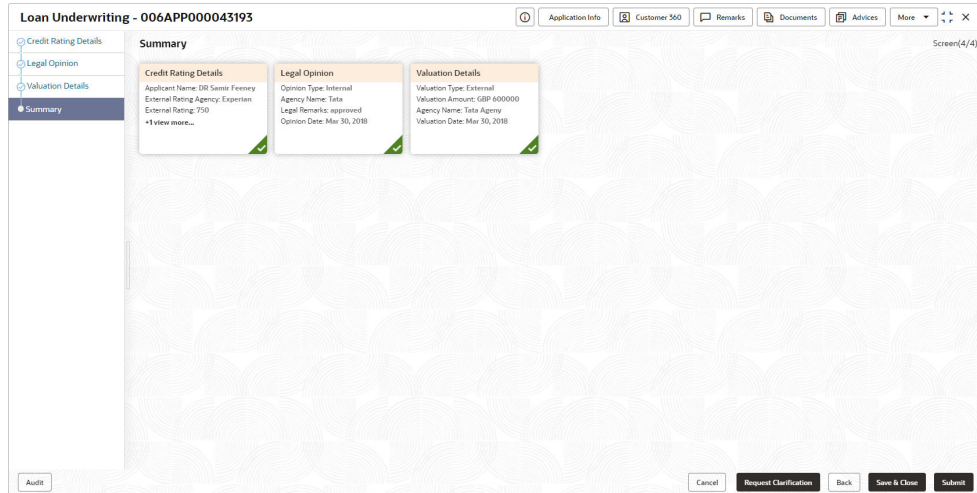

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary:

- Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-37 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-34 Summary - Loan Underwriting – Field Description

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The Overrides screen is displayed.
3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.

OR

Click **Proceed**. The Checklist screen appears.

4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Loan Underwriting Stage** for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Loan Assessment Stage**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- Select the **Return to Application Entry** to return to application entry stage. The system generates the Application Entry task that appears in **Free Task** to acquire and edit.
 - Select the **Return to Application Enrichment** to return to application enrichment stage. The system generates the Application Enrichment task that appears in **Free Task** to acquire and edit.
 - Select the **Reject by Bank** to reject the submission of this application.
6. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Loan Assessment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.5 Loan Assessment Stage

This topic describes the systematic instructions to move the loan application to assessment stage.

After the application entry, enrichment and underwriting data segment details are captured and verified, Oracle Banking Origination receives the assessment details from Decision Service.

Consequent to the Decision Service integration, the **Assessment Details** data segment screen displays the System recommended decision, Total Weighted score, Grade, recommended Pricing (based on the approval recommendation) for the Loan application, which is fetched real-time from Decision Service. Also, the detailed weightage score on the respective facts along with the Scoring model matrix is made available applicant wise for scrutiny and further action by the credit officer.

To assess the loan application:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Loan Assessment** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Qualitative Scorecard](#)
This topic provides the systematic instructions to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card.
- [Assessment Details](#)
This topic provides the systematic instructions to view the total weightage score of the Applicant or Applicants, in case of multiple Applicants in the Loan Account with Overdraft.
- [Summary](#)
This topic provides the systematic instructions to view the tiles for all the data segments in the Loan Assessment stage.

2.5.1 Qualitative Scorecard

This topic provides the systematic instructions to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card.

Qualitative Scorecard Details is the first data segment of Loan Assessment stage. The user can acquire the application from Free Tasks list.

The Qualitative score card screen enables the user to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card. The relevant qualitative score card ID is attached to the Loan Business Product and thereby the Loan Account which uses this Business product inherits the score card attributes for evaluation.

To capture the qualitative scorecard details:

1. On acquiring the **Loan Assessment** task from the **Free Task**, the Qualitative Scorecard screen appears.

Figure 2-38 Qualitative Scorecard

2. Specify the fields on **Qualitative Scorecard** screen.

For more information on fields, refer to the field description table.

Table 2-35 Qualitative Scorecard – Field Description

Field	Description
Applicant Name	Displays the name of the applicant.
Questionnaire Code	Displays the Questionnaire code.
Questionnaire Description	Displays the description of the Questionnaire code.
Question	Displays the question configured for the Questionnaire code.
Answer	Select the answer from the drop-down values available. The answers are populated based on the Answers configured in the Questionnaire code.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The user cannot proceed to the next data segment, without capturing the mandatory data.

2.5.2 Assessment Details

This topic provides the systematic instructions to view the total weightage score of the Applicant or Applicants, in case of multiple Applicants in the Loan Account with Overdraft.

Assessment Details is the next data segment of Loan Assessment stage. The user can acquire the application from FREE TASK. **Assessment Details** screen enables the user to understand the evaluation and provide the system recommendation based on the following parameters.

- **Validation Model**
- **Borrowing Capacity**
- **Qualitative Score**
- **Quantitative Score**
- **Decision and Grade**
- **Pricing**

To view assessment details:

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Assessment Details – Validation Model** screen displays.

Figure 2-39 Assessment Details – Validation Model

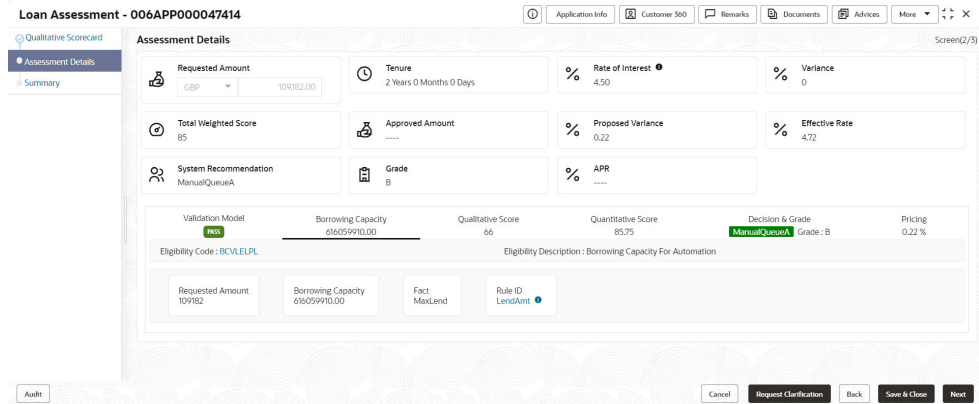

The screenshot displays the 'Assessment Details' screen for loan application 006APP00047414. The 'Validation Model' tab is active, showing a 'PASS' status. Key metrics include a Total Weighted Score of 85, a Quantitative Score of 85.75, and a Decision & Grade of 'ManualQueueA' with a Grade of 'B'. A table below lists validation rules, with one rule (Rule1001) showing a 'PASS' status.

Rule ID	Sequence	Status	Severity
Rule1001	1	PASS	-

2. Click **Borrowing Capacity** tab under **Assessment Details** screen to view the borrowing capacity of the applicant.

The **Assessment Details – Borrowing Capacity** screen displays.

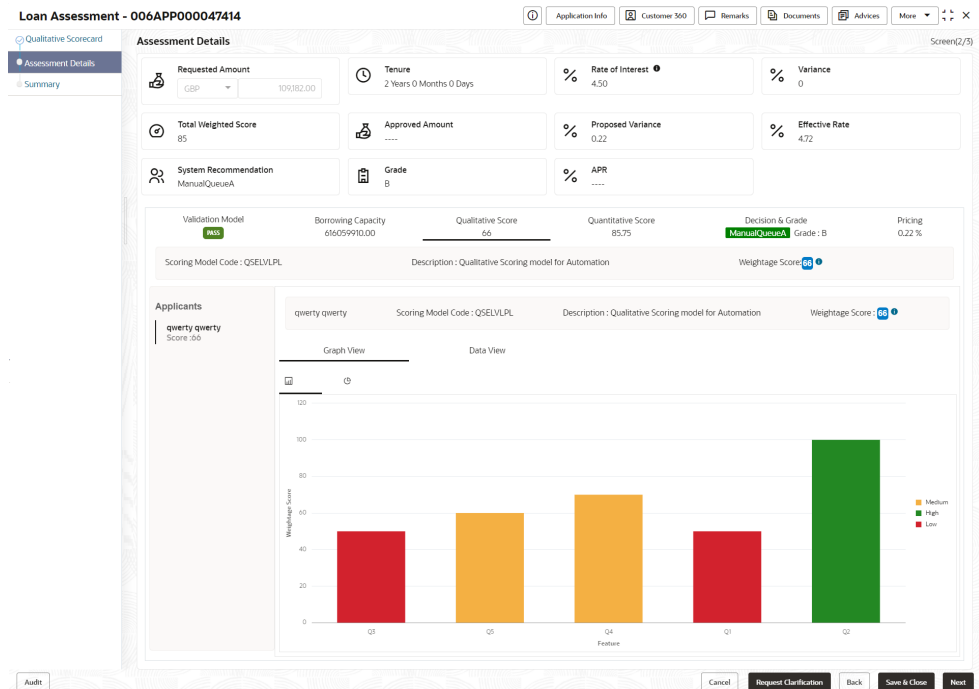

Figure 2-40 Assessment Details – Borrowing Capacity

3. Click **Qualitative Score** tab under **Assessment Details** screen to view the qualitative score for the applicant.

The **Assessment Details – Qualitative Score – Graph View** screen displays.

Figure 2-41 Assessment Details – Qualitative Score – Graph View

4. Click **Data View** tab under **Qualitative Score** screen to view the qualitative scoring data of the applicant.

The **Assessment Details – Qualitative Score – Data View** screen displays.

Requested Amount	Specify the requested overdraft amount.
Tenure	Displays the tenure.
Base Rate	Displays the interest rate without including margin/variance.
Rate Type	Displays the rate type.
Margin	Displays the customer margin in percentage. This field displays if the Rate Type is selected as Floating .
Variance	Displays the variance in percentage. This field displays if the Rate Type is selected as Fixed .
Total Weightage Score	Displays the total weightage score.
Approved Amount	.Displays the approved loan amount. If the System Recommendation is Approved . This field appears blank if the System Recommendation is Manual and Rejected .
Proposed Margin	Displays the margin proposed by Decision service in percentage. This field displays if the Rate Type is selected as Floating .
Proposed Variance	Displays the variance proposed by Decision service in percentage. This field displays if the Rate Type is selected as Fixed .

Table 2-36 (Cont.) Assessment Details – Field Description

Field	Description
Effective Rate	Displays the effective rate of interest.
System Recommendation	Displays the system recommendations. The available options are: <ul style="list-style-type: none"> • Approved • Manual • Rejected
Grade	Displays the grade of the applicant.
APR	Displays the annual percentage rate value
Validation Model	Displays the field details related to Validation Model.
Validation Model Code	Displays the validation model code configured for the product.
Description	Displays the description of the configured validation model.
Status	Displays the overall status of the validation model.
Rule ID	Displays the Rule ID configured in the validation model.
Sequence	Displays the sequence of the configured rules.
Status	Displays the status of the configured rule.
Borrowing Capacity	Displays the field details related to Borrowing Capacity.
Eligibility Code	Displays the unique eligibility code configured for the product.
Eligibility Description	Displays the description of the configured eligibility.
Requested Amount	Displays the requested card limit. If the calculated Borrowing Capacity is more than the Requested Amount, then Approved Amount is stamped to Requested Amount.
Borrowing Capacity	Displays the calculated borrowing capacity of the applicant.
Fact	Displays the fact configured in the eligibility code.
Rule ID	Displays the rule configured in the eligibility code.
Qualitative Score	Displays the field details related to Qualitative Score.
Scoring Model Code	Displays the scoring model code configured for the product.
Description	Displays the description of the scoring model.
Weightage Score	Displays the overall weightage score for the applicant(s). The weightage score also displays in the respective applicant's tab in case of the multiple applicants.
Qualitative Score - Scoring Details	Displays the scoring details related to Qualitative Score.
Question Code	Displays the question code configured for Qualitative Scoring Model.
Question	Displays the question configured in question code.
Value	Displays the answers provided by the applicant.
Score	Displays the calculated score based on the answers.
Quantitative Score	Displays the field details related to Quantitative Score.
Scoring Model Code	Displays the scoring model code configured for the product.
Description	Displays the description of the scoring model.
Weightage Score	Displays the overall weightage score for the applicant(s). The weightage score also displays in the respective applicant's tab in case of the multiple applicants.
Quantitative Score - Scoring Details	Displays the scoring details related to Quantitative Score.

Table 2-36 (Cont.) Assessment Details – Field Description

Field	Description
Feature	Displays the feature configured in the Quantitative Scoring Model.
Value	Displays the value of the application for the configured feature.
Range Type	Displays the range type configured in the Quantitative Scoring Model.
Range	Displays the range for the value of the application.
Weightage %	Displays the weightage percentage configured for the feature.
Score	Displays the score configured for the range.
Weightage Score	Displays the calculated weightage for each feature.
Decision and Grade	Displays the field details related to Decision and Grade.
Model Code	Displays the model code configured for the product.
Model Description	Displays the description of the model code.
Decision	Displays the recommended decision for the application.
Grade	Displays the recommended grade for the application
Decision and Grade – Decision	Displays the field details related to Decision.
Quantitative Score	Displays the overall quantitative score of the application.
Quantitative Score Range	Displays the range for the quantitative score.
Decision	Displays the decision configured for the quantitative score.
Decision and Grade – Grade	Displays the field details related to Grade.
Quantitative Score	Displays the overall quantitative score of the application.
Quantitative Score Range	Displays the range for the quantitative score.
Grade	Displays the grade configured for the quantitative score.
Pricing	Displays the field details related to Pricing.
Pricing Model Code	Displays the pricing model code configured for the product.
Model Description	Displays the description of the pricing model code.
Rate Type	Displays the rate type.
Rate Percentage	Displays the rate percentage.
Loan Amount	Displays the loan amount.
Loan Tenure	Displays the loan tenure.
Loan Amount Range	Displays the range for the loan amount.
Loan Tenure Range	Displays the range for the loan tenure.
Rate %	Displays the rate of interest configured for the range.

 **Note:**

Based on the range of qualitative and quantitative scores, the system provides a suggestive recommendation and the overdraft amount which can be sanctioned.

9. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The user cannot proceed to the next data segment, without capturing the mandatory data.

2.5.3 Summary

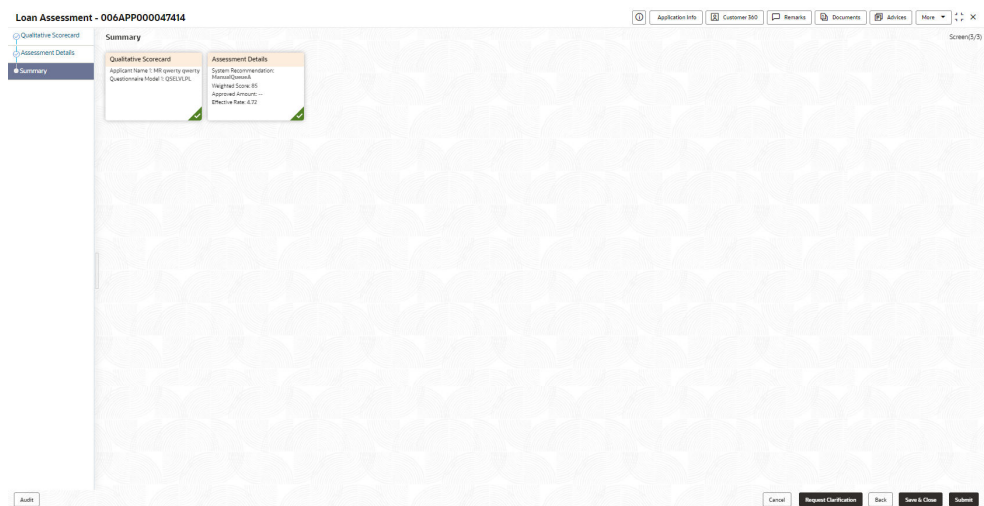

This topic provides the systematic instructions to view the tiles for all the data segments in the Loan Assessment stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-47 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-37 Summary - Assessment – Field Description

Data Segment	Description
Qualitative Scorecard Details	Displays the qualitative scorecard details.
Assessment Details	Displays the assessment details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.

OR

Click **Proceed**. The Checklist screen appears.

4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The Outcome screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. If the Proceed option is selected, then the application proceeds based on the assessment decision.
 - It will logically complete the **Loan Assessment** stage for the loan application if the system recommendation is **Approved**. The Workflow Orchestrator will automatically move this application to the **Account Parameter Setup** stage.
 - If the system recommendation is **Manual** then, the Manual Credit Assessment stage is generated for this loan application.
 - If the system recommendation is **Rejected** then the application is terminated. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
 - Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.
 - Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
 - Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
 - Select the **Reject Application** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Loan Assessment stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Manual Credit Assessment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.6 Manual Credit Assessment

This topic describes the systematic instructions to move the loan application to manual credit assessment stage.

The Manual Credit Assessment stage of the retail loan account open process work-flow is enabled the bank to manually assess the application and provide the recommendation for the approval / rejection of the application. As a reference, the relevant completed data segments will be made available to the Approver before the application can be moved to the next stage. These completed data segments are from the Application Entry Stage, Application Underwrite Stage and Application Assessment Stage. The data segments are displayed in view only mode for the Credit Officer to analyze.

To capture manual credit assessment details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Manual Credit Assessment** stage is displayed

The Manual Credit Assessment stage has the following data segments in which the user can only view the data:

- **Loan Details** - For detailed information, refer the Loan Details data segment in the Application Entry stage.
- **Customer Information** – For detailed information, refer the Customer Information data segment in the Application Entry stage.
- **Financial Details:** - For detailed information, refer the Financial Details data segment in the Application Entry stage.
- **Credit Rating Details:** - For detailed information, refer the Credit Rating Details data segment in the Loan Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Loan Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Loan Underwriting stage.

Refer below chapters for detailed information on data segment that are editable.

- [Manual Assessment](#)
This topic provides the systematic instructions to modify the account details and recommend for the approval / reject the loan application.
- [Summary](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.6.1 Manual Assessment

This topic provides the systematic instructions to modify the account details and recommend for the approval / reject the loan application.

Manual Assessment is the data segment which enables the bank user to modify the loan details and recommend for the approval / reject the loan application. The user can acquire the application from Free Tasks list and assess all the View Only data segments.

To capture manual assessment:

1. On acquiring the **Manual Credit Assessment** task from the Free Task, the Manual Assessment appears.

Figure 2-48 Manual Credit Assessment

The screenshot shows the 'Manual Credit Assessment' interface for application 006APP00005508. The 'Assessment Details' section contains the following fields:

- Requested Amount:** GBP 45,000.00
- Tenure:** 3 Years 0 Months 0 Days
- Rate of Interest:** 5.50%
- Variance:** 0%
- Total Weighted Score:** 75
- Approved Amount:** (blank)
- Proposed Variance:** 0.40%
- Effective Rate:** 5.90%
- Recommended Amount:** G... 34,500.00
- Final Tenure:** 3 0 0
- Recommendation:** Recommended for Approval
- Comment:** Automation Testing
- System Recommendation:** ManualQueueA
- Grade:** B

Below these fields, a summary row shows:

- Validation Model:** PASS
- Borrowing Capacity:** 616059910.00
- Qualitative Score:** 66
- Quantitative Score:** 85.75
- Decision & Grade:** ManualQueueA Grade: B
- Pricing:** 0.22%

A table below the summary row shows rule details:

Rule ID	Sequence	Status	Severity
Rule1001	1	PASS	-

2. Specify the fields on **Manual Assessment** screen.

For more information on fields, refer to the field description table. Refer to **Assessment Details** screen for the detailed explanation of **Validation Model**, **Borrowing Capacity**, **Qualitative Score**, **Quantitative Score**, **Decision & Grade**, and **Pricing** tabs.

Table 2-38 Manual Assessment – Field Description

Field	Description
Requested Amount	Displays the requested overdraft amount.
Tenure	Displays the overdraft tenure.
Base Rate	Displays the interest rate without including margin/variance.
Rate of Interest	Displays the rate of interest. Click  to view the rate type.
Margin	Displays the customer margin in percentage. This field displays if the Rate Type is selected as Floating .
Variance	Displays the variance in percentage. This field displays if the Rate Type is selected as Fixed .
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the approved overdraft amount. This field will be blank for Manual Assessment.
Proposed Margin (In %)	Displays the margin proposed by Decision service in percentage. This field displays if the Rate Type is selected as Floating .
Proposed Variance	Displays the variance proposed by Decision service in percentage. This field displays if the Rate Type is selected as Fixed .
Effective Rate	Displays the effective rate of interest.
Recommended Amount	Specify the recommended overdraft amount.
Final Tenure	Specify the final overdraft tenure.

Table 2-38 (Cont.) Manual Assessment – Field Description

Field	Description
Recommendation	Select the recommendations. Available options are: <ul style="list-style-type: none"> Recommended for Approval Reject
Comments	Specify the comment for the recommendation.
System Recommendation	Displays the system recommendations.
Grade	Displays the grade of the applicant.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.6.2 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

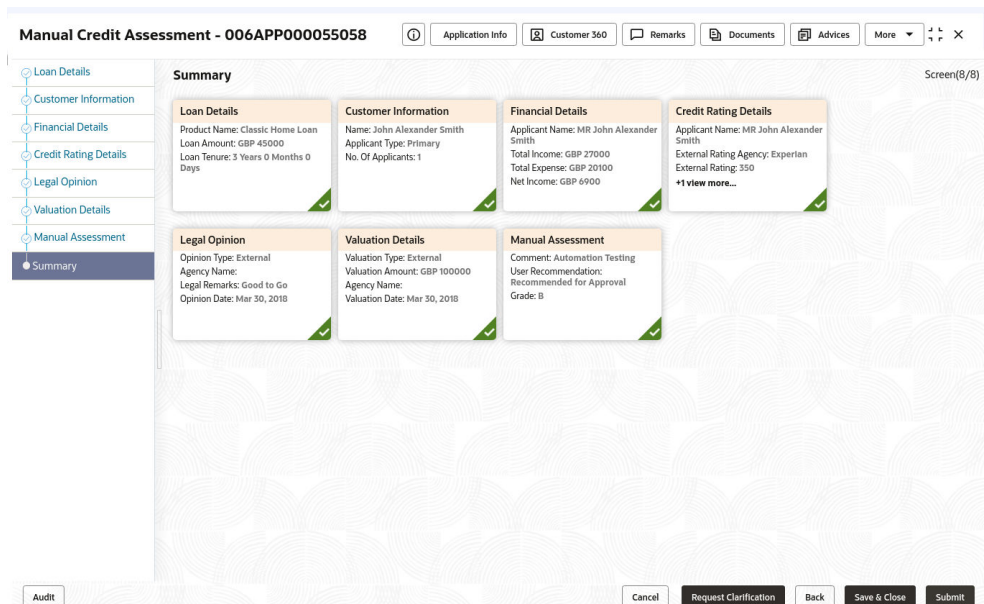

The system displays the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary details:

- Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary - Manual Credit Assessment** screen displays.

Figure 2-49 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-39 Summary - Manual Credit Assessment – Field Description

Data Segment	Description
Customer Information	Displays the customer information.
Loan Details	Displays the loan details.
Financial Details	Displays the financial details.
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion.
Assessment Details	Displays the assessment details.
Manual Assessment Details	Displays the manual assessment details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
4. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
5. Select **Proceed** outcome from the drop-down list.

It will logically complete the **Manual Credit Assessment** stage for the Loan Application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Manual Credit Decision** stage.

The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

6. Click **Submit** to submit the Manual Credit Assessment stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Manual Credit Decision stage. This application will be available in the **FREE TASKS** list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.7 Manual Credit Decision

This topic describes the systematic instructions to move the loan application to manual credit decision stage.

The **Manual Credit Decision** stage of the retail loan account open process work-flow enables the bank to make the decision on whether the recommended loan amount can be approved to the loan applicant / borrower.

To capture manual credit decision details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the Action column of the appropriate record. The Manual Credit Decision stage is displayed.

The Manual Credit Decision stage has the following data segments in which the user can only view the data:

- **Loan Details** - For detailed information, refer the Loan Details data segment in the Application Entry stage.
- **Customer Information** – For detailed information, refer the Customer Information data segment in the Application Entry stage.
- **Financial Details:** - For detailed information, refer the Financial Details data segment in the Application Entry stage.
- **Credit Rating Details:** - For detailed information, refer the Credit Rating Details data segment in the Loan Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Loan Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Loan Underwriting stage.
- **Manual Assessment** – For details information, refer the Assessment Details data segment in the Manual Credit Assessment stage.

Refer below chapters for detailed information on data segment that are editable.

- [Manual Decision](#)
This topic provides the systematic instructions to review and approve the application manually in manual credit decision stage.
- [Summary](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.7.1 Manual Decision

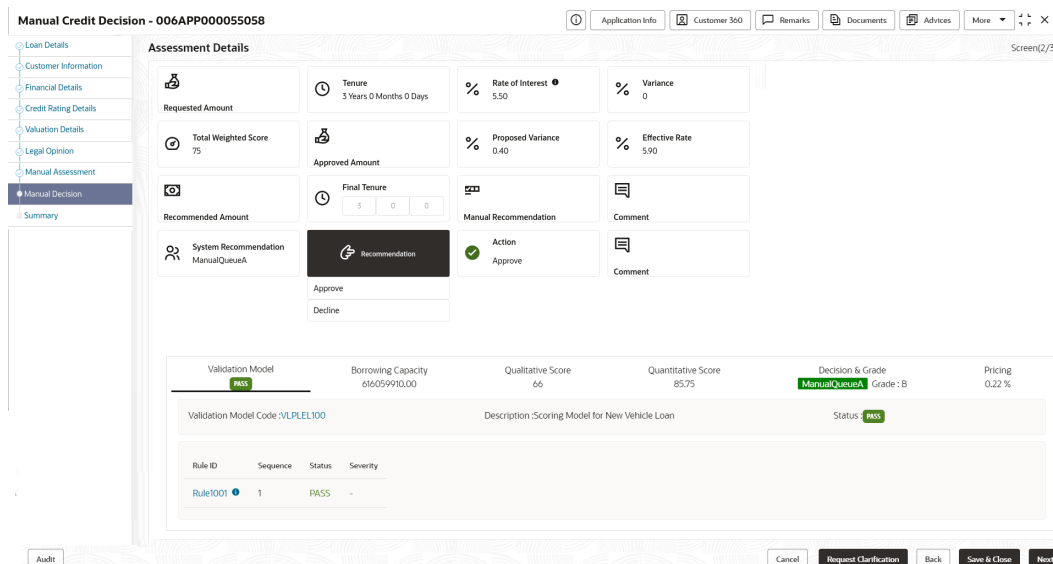

This topic provides the systematic instructions to review and approve the application manually in manual credit decision stage.

Manual Decision is the first data segment of Manual Credit Decision stage. The user can acquire the application from Free Tasks list.

To capture manual decision:

1. On acquiring the Manual Credit Decision task from the Free Task, the Manual Decision appears.

Figure 2-50 Manual Decision

- Specify the fields on **Manual Decision** screen.

For more information on fields, refer to the field description table. Refer to **Assessment Details** screen for the detailed explanation of **Validation Model**, **Borrowing Capacity**, **Qualitative Score**, **Quantitative Score**, **Decision & Grade**, and **Pricing** tabs.

Table 2-40 Manual Decision – Field Description

Field	Description
Requested Amount	Displays the requested overdraft amount.
Tenure	Displays the overdraft tenure.
Base Rate	Displays the interest rate without including margin/variance.
Rate of Interest	Displays the rate of interest. Click  to view the rate type.
Margin	Displays the customer margin in percentage.  Note: This field displays if the Rate Type is selected as Floating .

Table 2-40 (Cont.) Manual Decision – Field Description

Field	Description
Variance	<p>Displays the variance in percentage.</p> <p> Note: This field displays if the Rate Type is selected as Fixed.</p>
Total Weightage Score	Displays the total weightage score.
Approved Amount	<p>Displays the approved overdraft amount. This field appears blank by default.</p> <p>If the user selects the recommendation as Approve, then the recommended amount gets defaulted as approved amount.</p>
Proposed Margin	<p>Displays the margin proposed by Decision service in percentage.</p> <p> Note: This field displays if the Rate Type is selected as Floating.</p>
Proposed Variance	<p>Displays the variance proposed by Decision service in percentage.</p> <p> Note: This field displays if the Rate Type is selected as Fixed.</p>
Effective Rate	Displays the effective rate of interest.
Recommended Amount	Displays the recommended overdraft amount.
Final Tenure	Displays the final overdraft tenure.
Manual Recommendation	Displays the manual recommendation.
Comments	Displays the comments for the manual recommendation.
System Recommendation	Displays the system recommendations.
Recommendation	<p>Select the recommendation. Available options are:</p> <ul style="list-style-type: none"> • Approve • Decline <p>If the user selects the recommendation as Approve, then the recommended amount gets defaulted as approved amount.</p>
Action	Displays the user action based on user recommendation.
Comments	Specify the comment on the user action.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.7.2 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary:

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-51 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-41 Summary - Manual Credit Decision – Field Description

Field	Description
Manual Decision	Displays the manual decision.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. Click **Accept Overrides & Proceed**. The **Checklist** screen appears.
4. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
6. Select **Proceed** outcome from the drop-down list.

It will logically complete the **Manual Credit Decision** stage for the Loan Application. Upon submit, a Pricing call will be made by Oracle Banking Origination to Decision Service to get the Interest rate. The Workflow Orchestrator will automatically move this application to the next processing stage, **Account Parameter Setup** stage.

The stage movement is driven by the business configuration for a given combination of **Process Code, Life Cycle** and **Business Product Code**.

7. Click **Submit** to submit the Manual Credit Decision stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
8. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Account Parameter Setup stage. This application will be available in the **FREE TASKS** list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.8 Account Parameter Setup

This topic describes the systematic instructions to move the loan application to account parameter setup stage.

The **Account Parameter Setup** stage is the next representative stage in the Retail Loan Account Open process. After the **Loan Assessment / Manual Credit Decision** is completed successfully, the application can be acquired by the user who has the access rights for the given stage and progress with the data capture. The user can acquire the application from **Free Tasks** list.

The **Account Parameter Setup** stage has the following reference data segments:

- **Assessment Details** - For detailed information, refer the Manual Assessment data segment in the Manual Credit Assessment stage.
- **Loan Interest Details** - For detailed information, refer the Loan Interest Details data segment in the Application Enrichment stage.
- **Mortgage Insurance** – For detailed information, refer the Mortgage Insurance data segment in the Application Enrichment stage.
- **Charge Details** - For detailed information, refer the Charge Details data segment in the Application Enrichment stage.
- **Loan Disbursement** - For detailed information, refer the Loan Disbursement data segment in the Application Enrichment stage.
- **Loan Repayment** - For detailed information, refer the Loan Repayment data segment in the Application Enrichment stage.
- **Account Services** - For detailed information, refer the Account Services data segment in the Application Enrichment stage.

All the data segments are carried forward from **Application Enrichment**. If the details are captured in **Application Enrichment**, the same will be fetched automatically. The user can modify the captured details and all the data segments are mandatory to capture the details to move the application to the next stage.

If there is any change in the price (interest), the application will be redirected to the **Supervisor Approval**, otherwise submitting this step will move the application to the next reference stage which is the **Offer Issue**.

 **Note:**

Please refer to the **Application Enrichment Stage** for the detailed explanation.

- **Summary**
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.8.1 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

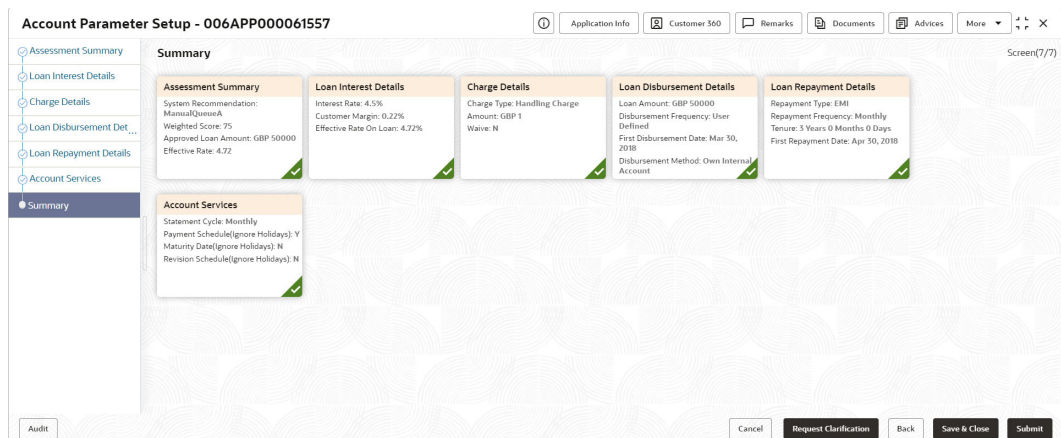

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary:

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-52 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-42 Summary - Account Parameter Setup - Field Description

Data Segment	Description
Assessment Details	Displays the assessment details.
Loan Interest Details	Displays the loan interest details.
Mortgage Insurance	Displays the mortgage insurance details.
Charge Details	Displays the charge details.
Loan Disbursement Details	Displays the loan disbursement details.
Loan Repayment Details	Displays the loan repayment details
Account Services Details	Displays the account services details.

 **Note:**

Charges Data segment and Mortgage Insurance premium data segment is available in edit mode to amend or change the capitalization amounts which need to be considered as part of the Approved Loan amount even in this stage. Accordingly, it impacts the Approved Loan Amount. The inclusion or exclusion of such capitalization amounts is validated to ensure that the Approved Loan Amount is not breached.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. Click **Accept Overrides & Proceed**. The **Checklist** screen appears.
4. Click **Save & Proceed** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
6. Select **Proceed** outcome from the drop-down list.

It will logically complete the **Account Parameter Setup** stage for the Loan Application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Supervisor Approval / Offer Issue** stage.

The application will be directly moved to Offer Issue stage if there is no change in Loan Interest data segment.

The application will be moved to Supervisor Approval stage if there is any change in Price (Interest) in Loan Interest data segment.

The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

7. Click **Submit** to submit the Account Parameter Setup stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number
8. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Loan Account] to the Supervisor Approval / Offer Issue stage. This application is available in the **FREE TASK** list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.9 Supervisor Application Approval Stage

This topic describes the information on the various data segments to view and approve the price change in the Supervisor Application Approval stage.

The **Supervisor Application Approval** stage has the following data segments in which the user can only view the data:

- **Assessment Details** - For detailed information, refer the Manual Assessment data segment in the Manual Credit Assessment stage.

- [Approval Details](#)
This topic provides the systematic instructions to view and approve the application.
- [Summary - Supervisor Approval](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.9.1 Approval Details

This topic provides the systematic instructions to view and approve the application.

The **Approval Details** is the first data segment of **Supervisor Approval** stage. The user can acquire the application from **Free Tasks** list.

1. On acquiring the **Supervisor Approval** stage the **Approval Details** data segment appears

The **Approval Details** screen displays.

Figure 2-53 Approval Details

2. Specify the fields on **Approval Details** screen.

Note:

The fields, which are marked with an asterisk, are mandatory.

For more information on fields, refer to the field description table.

Table 2-43 Approval Details – Field Description

Field	Description
Applicant Name	Displays the applicant name.
Account Type	Displays the account type.
Account Branch	Displays the account branch name.
Product Code	Displays the product code selected for this loan account.
Product Name	Displays the product name selected or this loan account.

Table 2-43 (Cont.) Approval Details – Field Description

Field	Description
Existing Values	Displays the existing values.
Approved Loan Amount	Displays the final loan approved amount.
Loan Tenure	Displays the final loan tenure for the approved amount.

3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.
OR
Click **Proceed**. The Checklist screen appears.
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The Outcome screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Supervisor Approval** stage for the Loan Application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Offer Issue**. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code
 - Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.
 - Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.

- Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
 - Select the **Reject Application** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the supervisor approval stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Loan Account] to the Offer Issue on Host stage. This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application. The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

2.10 Offer Issue Stage

This topic describes the information on the various data segments to generate the offer in the Offer Issue stage.

After due diligence and Assessment approval, the Application will move to the Offer issue stage where the Approver will generate the offer letter. As a reference, the relevant completed data segments will be made available to the Approver before the application can be moved to the next stage. These completed data segments are from the Application Underwrite Stage and Application Assessment Stage. The data segments are displayed in view only mode for the Approver to browse.

To perform actions on issued offer:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Offer Issue** stage is displayed.

In the Offer Issue stage, provide the required details under each data segment. The Offer issue stage has the following reference data segments:

- **Credit Rating Details**: - For detailed information, refer the Credit Rating Details data segment in the Loan Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Loan Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Loan Underwriting stage.

Refer below chapters for detailed information on data segment that are editable.

- [Assessment Summary](#)
This topic provides the systematic instructions to view the assessment summary of the Savings Account application.

- [Offer Issue](#)
This topic provides the systematic instructions to capture the offer issue date and generate the offer letter.
- [Summary](#)
This topic describes systematic instructions to view all the details of offer issue.

2.10.1 Assessment Summary

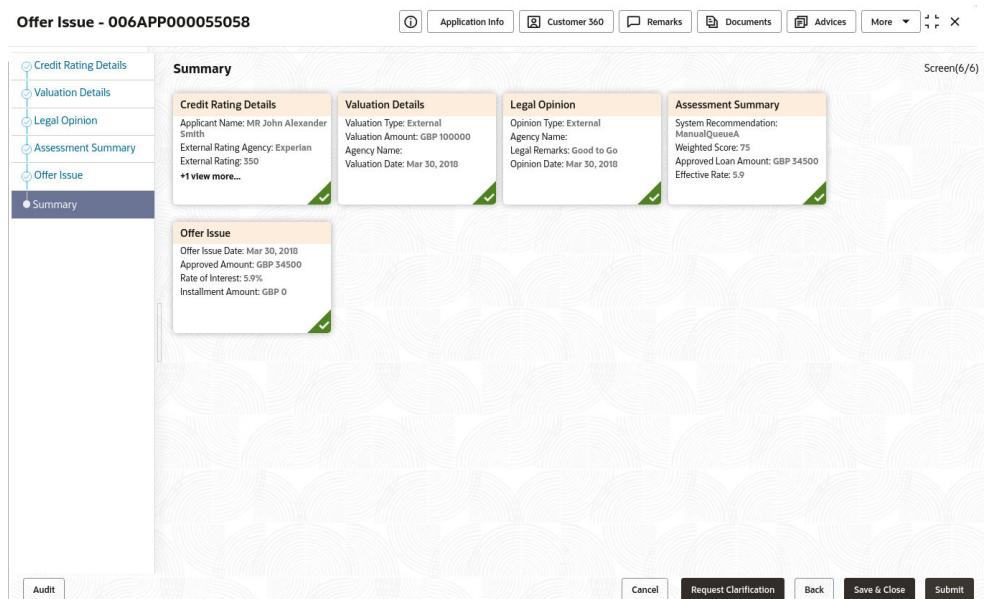

This topic provides the systematic instructions to view the assessment summary of the Savings Account application.

Assessment Summary is the view only data segment of Offer Issue stage.

To view the assessment summary:

1. On acquiring the Offer Issue stage the **Assessment Summary** screen is displayed.

Figure 2-55 Summary

2. Specify the fields on **Assessment Summary** screen.
For more information on fields, refer to the field description table.

Table 2-45 Assessment Summary – Field Description

Field	Description
Requested Amount	Displays the requested overdraft amount.
Tenure	Displays the tenure.
Base Rate	Displays the interest rate without including margin / variance.

Table 2-45 (Cont.) Assessment Summary – Field Description

Field	Description
Rate of Interest	Displays the rate of interest. Click  to view the rate type.
Margin	Displays the approved margin. This field displays if the Rate Type is selected as Floating .
Variance	Displays the approved variance. This field displays if the Rate Type is selected as Fixed .
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the final approved loan amount.
Proposed Margin	Displays the proposed margin from Decision Service. This field displays if the Rate Type is selected as Floating .
Proposed Variance	Displays the proposed variance from Decision Service. This field displays if the Rate Type is selected as Fixed .
Effective Rate	Displays the effective rate of interest.
System Recommendation	Displays the system recommendations.
Grade	Displays the grade of the applicant.
Manual Decision	Displays the manual decision.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.10.2 Offer Issue

This topic provides the systematic instructions to capture the offer issue date and generate the offer letter.

Offer Issue is the next data segment of Offer Issue stage.

To generate the offer issued:

- Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Offer Issue** screen displays.

Figure 2-56 Offer Issue

Offer Issue screen enables the approver to capture the Offer Issue date. The other data elements available in the screen are prepopulated and not editable. For more information on fields, refer to the field description table.

Table 2-46 Offer Issue – Field Description

Field	Description
Applicant Name	Displays the applicant name.
Approved Loan Amount	Displays the approved loan amount.
Loan Tenure	Displays the loan tenure.
Rate of Interest	Displays the rate of interest.
Installment Type	Displays the installment type.
Installment Frequency	Displays the installment frequency.
Installment Amount	Displays the instalment amount.
Principal	Displays the principal amount.
Interest	Displays the interest amount.
Charges	Displays the charge amount.
APR	Displays the annual percentage rate value.
Offer Issue Date	Select the offer issue date.
Offer Expiry Date	Displays the date based on the expiry period configuration done at the Business Product level which is used for this Loan Account.

Table 2-46 (Cont.) Offer Issue – Field Description

Field	Description
Generate Offer	Select the checkbox to indicate if offer letter to the borrower with all the terms and conditions which the borrower or applicant may accept or reject is to be sent. Also, the generate offer can be done with repayment schedule or without repayment schedule. The available options are: <ul style="list-style-type: none">• With Schedule• Without Schedule A PDF file will be generated with the offer content. The system generates the repayment schedule, if not generated earlier. Default template for offer issue is used in this reference workflow.

2. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.10.3 Summary

This topic describes systematic instructions to view all the details of offer issue.

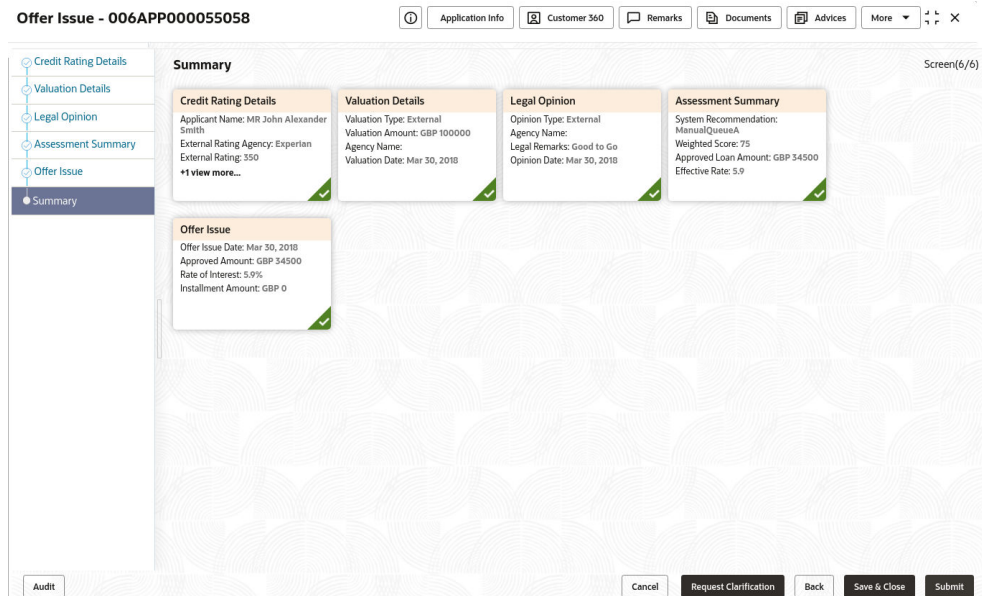

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary - Offer Issue** screen displays.

Figure 2-57 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-47 Summary - Offer Issue – Field Description

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Valuation of Asset	Displays the valuation of asset details.
Legal Opinion Details	Displays the legal opinion details.
Assessment Summary	Displays the assessment details.
Offer Issue Details	Displays the offer issue details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and the documents for this stage can be validated or verified. The **Overrides** screen is displayed.
3. In the Override screen, click **Proceed Next**. The **Checklist** screen is displayed.
4. In the Checklist screen, click **Proceed Next**. The **Outcome** screen is displayed.
5. In the Outcome screen, select appropriate option from the **Select to Outcome** field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the **Offer Issue** stage for the Loan Application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Offer Accept/Reject**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - Select the **Return to Application Entry** Stage to make application entry stage available in free task for edit.

- Select the **Return to Application Enrichment** Stage to make enrichment stage available in free task.
 - Select the **Return to Application Underwriting** Stage to make underwriting stage available in free task.
 - Select the **Reject Application** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit supervisor approval stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Loan Account] to the Application Offer Accept / Reject stage. This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

2.11 Offer Accept / Reject Stage

This topic describes the information on the various data segments to accept / reject the offer in the Offer Accept / Reject stage.

After the **Offer Issue** stage, the offer letter will be sent or communicated to the borrower or applicant. The **Offer Accept / Reject** stage will enable the user to record the customer response – Accept or Reject as the case may be. Also, the offer made can be amended based on Customer request – viz., change in Principal Amount, Interest Rate, Margin or Tenure. The post offer amend can be routed back to the relevant previous completed stages like Application Entry / Loan Application Enrichment. If the business wants the Loan Underwriting stage or the Loan Assessment stage to be redone, they can be configured accordingly, post which the new offer with the revised terms will be issued to the borrower or applicant for acceptance.

To perform actions on issued offer:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Offer Accept /Reject** stage is displayed.

In the **Offer Accept / Reject** stage, provide the required details under each data segment. The Offer Accept / Reject stage has the following data segments which user can only view.

- **Offer Issue:** - For detailed information, refer the Offer Issue data segment in the Offer Issue stage.
- **Assessment Summary** - For detailed information, refer the Assessment Summary data segment in the Offer Issue stage.

Refer below chapters for detailed information on data segment that are editable.

- [Offer Accept / Reject](#)
This topic provides the systematic instructions to view the offer letter and record the customer response.
- [Summary](#)
This topic provide the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.11.1 Offer Accept / Reject

This topic provides the systematic instructions to view the offer letter and record the customer response.

Offer Accept / Reject data segment is the first data segment of **Offer Accept / Reject** stage.

To capture customer response:

1. On acquiring the Offer Accept / Reject task the **Offer Accept/Reject** screen is displayed.

Figure 2-58 Offer Accept / Reject

The screenshot shows the 'Offer Accept/Reject' screen for application 006APP000043302. The interface includes a navigation menu on the left with options like 'Offer Issue', 'Assessment Summary', 'Offer Accept/Reject', and 'Summary'. The main area contains several data segments:

- Applicant Name:** DR Samir Feeney
- Loan Tenure:** GBP, 50,000.00
- Loan Tenure (Calendar):** 3 Years 0 Months 0 Days
- Rate Of Interest:** 3.52%
- Instalment Type:** EMI
- Instalment Frequency:** Monthly
- Instalment Amount:** GBP, 1,310.53
- Principal:** GBP, 50,000.00
- Interest:** GBP, 4,379.04
- Charges:** GBP, 1.00
- Offer Issue Date:** 2018-03-30
- Offer Expiry Date:** 2018-04-29
- Customer Response:** A dropdown menu currently set to 'Accept'.
- Date Of Offer Accept/Reject:** April 23, 2018

 At the bottom, there are buttons for 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next'.

2. Specify the fields on **Offer Accept / Reject** screen.
For more information on fields, refer to the field description table.

Table 2-48 Nomenclature Fields

Field	Description
Applicant Name	Displays the applicant name.
Approved Loan Amount	Displays the approved loan amount.
Loan Tenure	Displays the loan tenure.
Rate of Interest	Displays the rate of interest.
Instalment Type	Displays the instalment type.
Instalment Frequency	Displays the instalment frequency.
Instalment Amount	Displays the instalment amount.

Table 2-48 (Cont.) Nomenclature Fields

Field	Description
Principal	Displays the principal amount.
Interest	Displays the interest amount.
Charges	Displays the charge amount.
APR	Displays the annual percentage rate value.
Offer Issue Date	Select the offer issue date.
Offer Expiry Date	Displays the date based on the expiry period configuration done at the Business Product level which is used for this Loan Account.
Customer Response	Select the customer response from the drop-down list. Available options are: <ul style="list-style-type: none"> • Accept • Reject • Amend
Date Of Offer Accept/Reject	Select the date of offer accept or offer reject.
Reason	Specify the reason of rejecting this offer. This field appears only if you select the Reject option from the Customer Response list.
Offer Amend	Offer Amend option will be at the instance of the customer request. This will be taken as a Post Offer amendment and based on the change requested the application will be routed as part of the OUTCOME to the respective earlier stages to incorporate the changes.
Post Offer Amend	The post offer amend will be supported for the following data elements: <ul style="list-style-type: none"> • Loan Principal • Loan Interest • Customer Margin • Tenure of the Loan

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.11.2 Summary

This topic provide the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

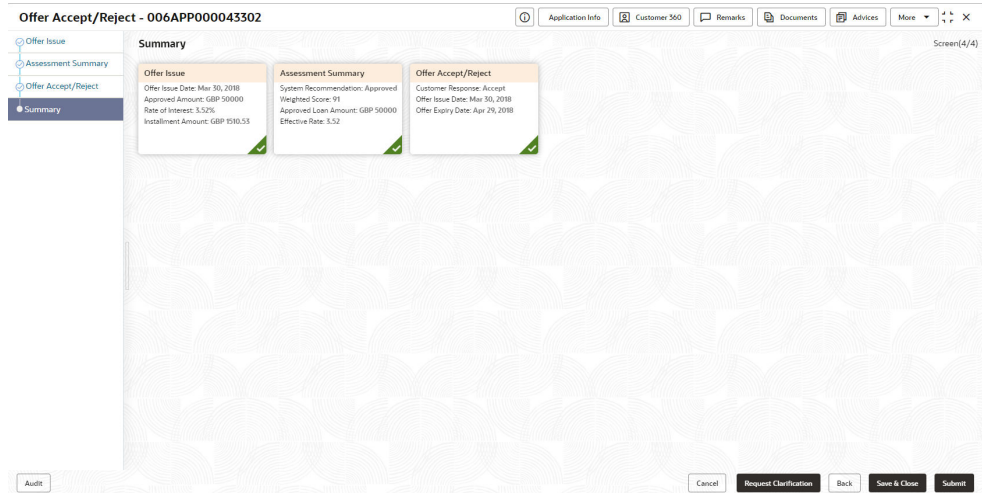

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary - Offer Accept / Reject** screen displays.

Figure 2-59 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-49 Summary - Offer Accept / Reject – Field Description

Data Segment	Description
Assessment Summary	Displays the assessment summary.
Offer Issue Details	Displays the offer issue details.
Offer Accept / Reject Details	Displays the offer issue details.

2. Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Overrides** screen is displayed.
3. In the Override screen, click **Proceed Next**. The **Checklist** screen is displayed.
4. In the Checklist screen, click **Proceed Next**. The **Outcome** screen is displayed.
5. In the Outcome screen, select appropriate option from the **Select to Outcome** field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the Offer Accept/Reject stage for the Loan Application. The Workflow Orchestrator will automatically move this application to the next processing stage, Account Approval on Host. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
 - If the **Customer Response** is selected as **Accept** in Offer Accept/Reject screen, then submit of this stage, will move the application into the Account Approval stage.
 - If the **Customer Response** is selected as **Reject** in Offer Accept/Reject screen, then submit of this stage, will terminate the application.

- If the **Customer Response** is selected as **Amend** in Offer Accept/Reject screen, then submit of this stage, will move the application into the Post Offer Amendment stage.
 - Select the **Return to Application Entry** Stage to make application entry stage available in free task for edit.
 - Select the **Return to Application Enrichment** Stage to make enrichment stage available in free task.
 - Select the **Return to Application Underwriting** Stage to make underwriting stage available in free task.
 - Select the **Return to Assessment** stage to make assessment stage available in free task.
 - Select the **Reject Application** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Offer Accept/ Reject stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Loan Account] to the Account Approval on Host stage. This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

If account creation process is set to be as automatic workflow, then there will not be an Account Creation stage configured at the Business Process level. In this case, when the user submits the Offer Accept/Reject stage, Loan Account creation request will be triggered from Oracle Banking Origination - Account Open Process Management workflow to the HOST.

However, if there is an error encountered while submitting to the host, a new wait task is created and user once acquire the task, BackOffice Error data segment will be displayed with the host errors.

Figure 2-60 Back Office

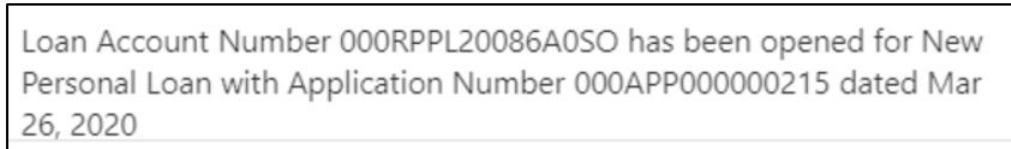

This stage will have the following outcomes:

- Retry
- Return

Select the option Retry, for any technical errors. And, select the option Return, if user wants to correct any values, wherein the application will move to the Application Entry stage.

The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

Figure 2-61 Loan Account Statement

Loan Account Number 000RPPL20086A0SO has been opened for New Personal Loan with Application Number 000APP000000215 dated Mar 26, 2020

2.12 Post Offer Amendment Stage

This topic describes the information on the various data segments to request for amendment of loan application in the Post Offer Amendment stage.

Post Offer Amendment stage enables the user to request for amendment of Loan components after the Offer is Issued by the bank. This stage will appear only if the **Customer Response** is selected as **Amend** in **Offer Accept/Reject** data segment.

To perform actions on post offer amendment:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Post Offer Amendment stage is displayed.

The **Post Offer Amendment** stage has the following data segments which user can only view:

- **Offer Issue:** - For detailed information, refer the Offer Issue data segment in the Offer Issue stage.

Refer below chapters for detailed information on data segment that are editable.

- [Post Offer Amendment](#)
This topic provides the systematic instructions to request for amendment of loan components after the Offer is Issued by the bank.
- [Loan Disbursement Details](#)
This topic describes systematic instructions to configure loan disbursement post offer amendment details.
- [Loan Repayment Details](#)
This topic describes systematic instructions to enables the user to capture the loan repayment details.
- [Summary](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.12.1 Post Offer Amendment

This topic provides the systematic instructions to request for amendment of loan components after the Offer is Issued by the bank.

Post Offer Amendment data segment is the first data segment of Post Offer Amendment stage. The user can acquire the application from Free Tasks list.

Only if Customer Response is selected as Amend in **Offer Accept/Reject** data segment.

To perform actions on post offer amendment:

1. On acquiring the post offer amendment stage, the **Post Offer Amendment** screen appears.

Figure 2-62 Post Offer Amendment

2. Specify the fields on **Post Offer Amendment** screen.
For more information on fields, refer to the field description table.

Table 2-50 Post Offer Amendment – Field Description

Field	Description
Applicant Name	Displays the applicant name.
Offer Issue Date	Displays the date of offer issued.
Offer Expiry Date	Displays the date based on the expiry period configuration done at the Business Product level which is used for this Overdraft.
Offer Amend Date	Displays the date of offer amend.
Approved Loan Amount	Specify the amended approved loan amount.
Loan Tenure	Specify the amended loan tenure.
Installment Type	Displays the installment type.
Rate of Interest	Displays the rate of interest.

Table 2-50 (Cont.) Post Offer Amendment – Field Description

Field	Description
Margin	Specify the amended Margin. This field appears only for Floating rate type.
Variance	Specify the amended Variance. This field appears only for Fixed rate type.
Effective Rate	Displays the amended effective rate. Effective Rate = Rate of Interest + Margin/Variance.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.12.2 Loan Disbursement Details

This topic describes systematic instructions to configure loan disbursement post offer amendment details.

The **Loan Disbursement Details** are pushed into the host as a part of account open process data share – API's are provided for the same. The **Loan Disbursement Details** enables the user to capture the various disbursement methods.

To add loan disbursement details:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

If **Account Type** is selected as **Own Internal Account** in **Loan Details** data segment.

The **Loan Disbursement Details - Own Internal Account** screen displays.

Figure 2-63 Loan Disbursement Details – Own Internal Account

The screenshot displays the 'Loan Disbursement Details' form for an 'Own Internal Account'. The form is titled 'Post Offer Amendment - 006APP000042918'. It includes a navigation menu on the left with options like 'Assessment Summary', 'Post Offer Amendment', 'Loan Disbursement Det.', 'Loan Repayment Details', and 'Summary'. The main form area contains several input fields and controls:

- Settlement Required:** A toggle switch that is currently turned on.
- Requested Loan Amount:** A field with a currency dropdown set to 'GBP' and a value of '45,000.00'.
- Loan Amount:** A field with a currency dropdown set to 'GBP' and a value of '45,000.00'.
- Multiple:** A toggle switch that is currently turned off.
- Number Of Disbursement:** A dropdown menu showing '1'.
- First Disbursement Date:** A date picker field showing 'March 30, 2018'.
- Total Disbursement:** A field with a currency dropdown set to 'GBP' and a value of '45,000.00'.
- Disbursement Mode:** A dropdown menu showing 'Own Internal Account'.
- Customer Account:** A search field containing '100600000003032'.
- Branch Code:** A text field containing '006'.

At the bottom of the screen, there are buttons for 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next'.

If **Account Type** is selected as **Other Internal Account** in **Loan Details** data segment
The **Loan Disbursement Details - Other Internal Account** screen displays.

2.12.4 Summary

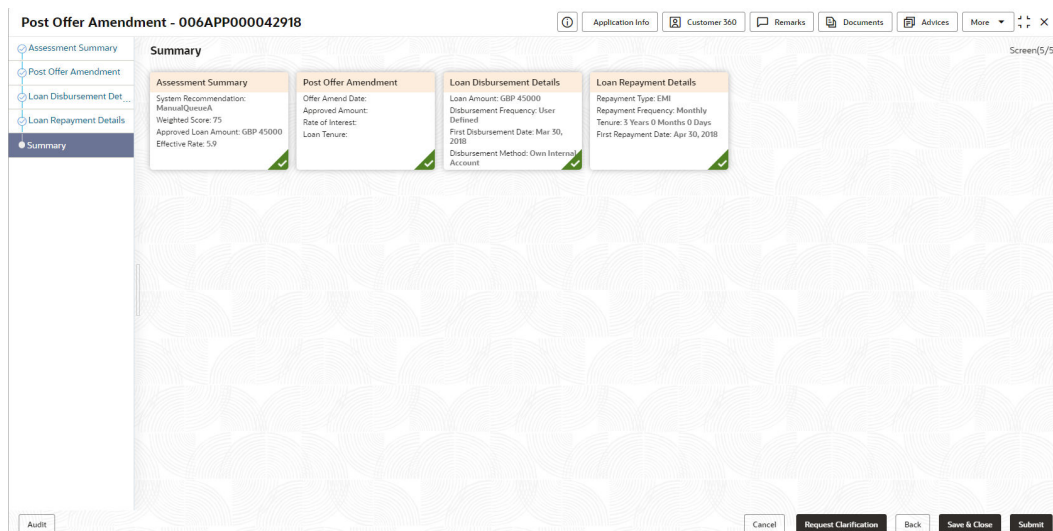

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary:

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.
The **Summary** screen displays.

Figure 2-73 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-56 Summary - Post Offer Amendment – Field Description

Data Segment	Description
Assessment Details	Displays the assessment details.
Post Offer Amendment Details	Displays the post offer amendment details.
Loan Disbursement Details	Displays the loan disbursement details.
Loan Repayment Details	Displays the loan repayment details.

2. Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Overrides** screen is displayed.
3. In the Override screen, click **Proceed Next**. The **Checklist** screen is displayed.
4. In the Checklist screen, click **Proceed Next**. The **Outcome** screen is displayed.
5. In the Outcome screen, select appropriate option from the **Select to Outcome** field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the Post Offer Amend stage for the Loan Application. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
 - If there is change in Approved Amount or Loan Tenure, then submit of this stage will move the application to Loan Assessment Stage.

- If there is change in Rate of Interest, then submit of this stage will move the application to Supervisor Approval Stage.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Post Offer Amendment stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Account Approval stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.13 Account Approval Stage

This topic describes the information on the various data segments to view the captured details and approve the application in the Account Approval stage

To approve an account opening:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Account Approval stage is displayed.

The Account Approval stage has the following data segments which user can only view:

- **Customer Information** – For detailed information, refer the Customer Information data segment in the Application Entry stage.
- **Loan Details** - For detailed information, refer the Loan Details data segment in the Application Entry stage.
- **Mandate Details** – For detailed information, refer the Mandate Details data segment in the Application Entry stage.
- **Financial Details**: - For detailed information, refer the Financial Details data segment in the Application Entry stage.
- **Collateral Details** – For detailed information, refer the Collateral Details data segment in the Application Entry stage.
- **Terms and Conditions** – For detailed information, refer the Terms and Conditions data segment in the Application Entry stage.
- **Mortgage Insurance**: For details information, refer the Mortgage Insurance data segment in the Application Enrichment stage.
- **Credit Rating Details**: - For detailed information, refer the Credit Rating Details data segment in the Loan Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Loan Underwriting stage.

- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Loan Underwriting stage.
- **Assessment Summary**: For details information, refer the Assessment Summary data segment in the Offer Issue stage.
- **Offer Issue**: For details information, refer the Offer Issue data segment in the Offer Issue stage.
- **Offer Accept/Reject**: For details information, refer the Offer Accept/Reject data segment in the Offer Accept/Reject stage.

Refer below chapters for detailed information on data segment that are editable.

- [Collateral Perfection Details](#)
This topic provides the systematic instructions to view the collateral perfection details.

2. Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Overrides** screen is displayed.
3. In the Override screen, click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.
4. In the Checklist screen, click **Save & Proceed**. The **Outcome** screen is displayed.
5. In the Outcome screen, select appropriate option from the **Select to Outcome** field.
 - SSelect **Proceed** option from the drop-down list. It will logically complete the Post Offer Amend stage for the Loan Application. The stage movement is driven by the

business configuration for a given combination of Process Code, Life Cycle and Business Product Code.

- Select the **Return to Post Offer Amendment** stage to make assessment stage available in free task.
6. Click **Submit** to submit the Account Approval stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.

 **Note:**

Collateral will be linked to Loan Account while sending to the Host.

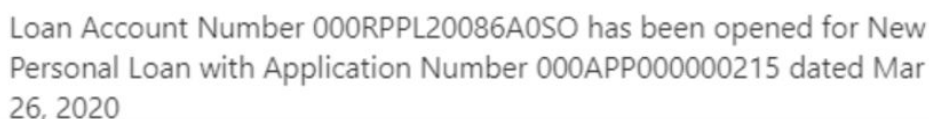

7. Click **Close** to close the window.

OR

Click **Go to Free Task**.

The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

Figure 2-77 Loan Account Statement

Loan Account Number 000RPPL20086A0SO has been opened for New Personal Loan with Application Number 000APP000000215 dated Mar 26, 2020

Reject Application will terminate the application and no further action will be allowed on this reference number.

After the Host creates the Loan Account successfully, the response is sent back to Oracle Banking Origination with the Loan Account Number.

The details of all the applications which have logically completed all their stage movements, (Rejected / Account Created) will be made available in Completed tasks for query purpose only.

2.14 Global Actions

This topic provides the detailed on the actions that can be performed in all stages.

This section appears are the top of the right pane and is applicable for all the account opening stage. You can add, edit, view or delete the information from the respective section.

Below are the list of global actions:

- **Icon**
You view the application number along with its product name.

- [Customer 360](#)
You can view the customer details such as Name, CIF number and indication whether it is an existing customer.
- [Application Information](#)
You can view the application information in this section.
- [Remarks](#)
You can view the remarks.
- [Documents](#)
You can upload and view the documents that are uploaded.>
- [Advices](#)
You can view the advices that are shared with customer. Advices are generated post Application Entry stage is submitted.
- [Condition and Convenants](#)
You capture conditions and convenants details for the loan applications.
- [Solicitor Details](#)
You can add the solicitor details using this section.
- [Clarification Details](#)
You raise the clarifications using this section.

2.14.1 Icon

You view the application number along with its product name.

- Click it to view the **Application Number** and the **Business Product** detail.
The **Icon** screen is displayed.

Figure 2-78 Icon

2.14.2 Customer 360

You can view the customer details such as Name, CIF number and indication whether it is an existing customer.

1. Click it to select the **Customer ID** of existing customer, and then view the Mini Customer 360.
The **Customer 360** screen is displayed.

Figure 2-79 Customer 360

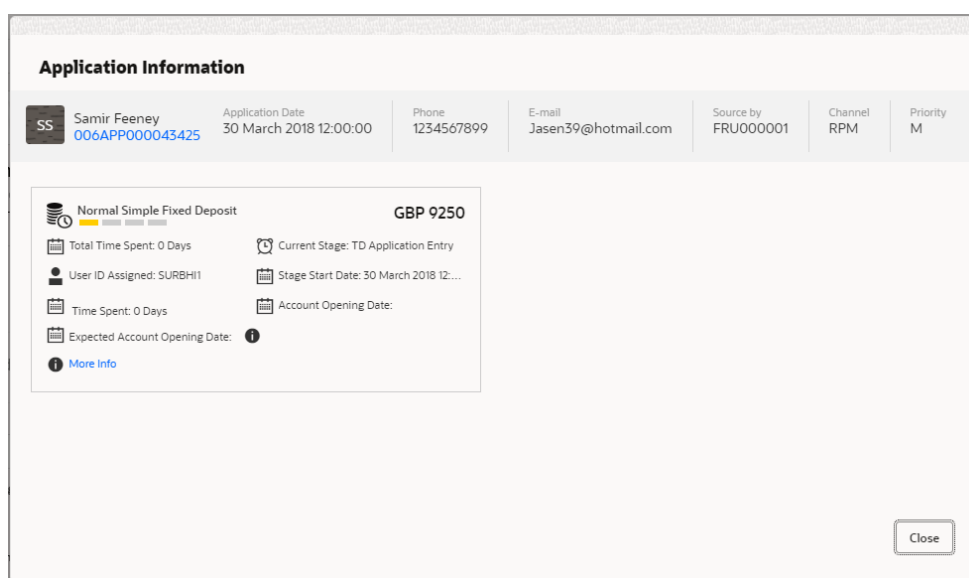

- The screen shows the list of Customer IDs in case of Joint Accounts. Select the specific Customer ID to view their Mini Customer 360. The CIF Numbers are populated in the Customer 360 screen only post the CIF number has been keyed in the Customer Information data segment.

2.14.3 Application Information

You can view the application information in this section.

- Click **Application Info** to view the application information.
The **Application Information** screen is displayed.

Table 2-61 Upload Document – Field Description

Field	Description
Document Type	Select the document type.
Document Code	Select the document code.
Document Title	Specify the document title.
Document Description	Specify the description for the document.
Remarks	Specify the remarks for the document.
Document Expiry Date	Select the document expiry date.

Table 2-61 (Cont.) Upload Document – Field Description

Field	Description
Drop files here or Click to select	Drag and drop the document or Select the document from the machine.
Upload	Click Upload to upload the document.

 **Note:**

Ensure that mandatory documents are uploaded, as the system will validate the same during the stage submission.

Mandatory documents can only be deleted in the same stage where it is uploaded.

Non-mandatory documents can be deleted in any stage.

2.14.6 Advices

You can view the advices that are shared with customer. Advices are generated post Application Entry stage is submitted.

- Click **Advices** to view the advice linked for the stage.
The **Advices** screen is displayed.

Figure 2-86 Advices

The system will generate the advice on submission of the stage. For Application Entry stage of Current Product, no advice is configured.

2.14.7 Condition and Convenants

You capture conditions and convenants details for the loan applications.

In this section you can add, edit and remove the condition and covenant details .

Conditions

The Conditions are stipulations and constraints recorded in a contract to restrict the usage of funds, in order to ensure proper utilization of funds for the specified purposes and to adhere to a stipulated schedule.

To add conditions:

1. From the **More** option, click the **Conditions & Covenants** to add or remove the conditions details.

The **Conditions & Covenants** page appears.

Figure 2-87 Conditions

2. Click **Add** to add new conditions.

OR

Click **Remove** to remove already added conditions.

3. Enter the relevant details.

Table 2-62 Conditions – Field Description

Field	Description
Entity	Select the entity on which you want to set condition. The available options are <ul style="list-style-type: none"> • Party • Collateral
Entity ID	Select the entity ID from the list. The options in the list appears based on the entity selected in the Entity field.
Condition	Specify the conditions for the selected entity.
Type	Select the type when the conditions must be complied. The available options are <ul style="list-style-type: none"> • Pre Disbursement: If you select this option then the selected conditions have to be complied prior with the account opening and loan disbursement. • Post Disbursement: If you select this option then the selected conditions occur and are supposed to be complied post loan disbursement. This conditions are manually monitored.
Status	Select the status of the condition. The available options are <ul style="list-style-type: none"> • Open • Complied

4. Click **OK**. The conditions are saved.

 **Note:**

All the fields appears with the selected options in tabular format. You can edit the details on clicking the added row.

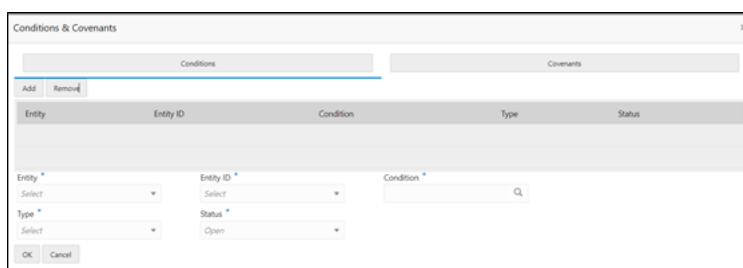

Convenants

Often there are restrictions on borrowers while extending credit facilities. Sometimes, a borrower promises certain future acts to assure the lender that the conduct of business dealings is fair, healthy and in accordance with the best practices. The purpose of covenant is to assist the lender to ensure the health of loan facilities does not deteriorate suddenly or unexpectedly before maturity.

To add convenants:

- From the **More** option, click **Conditions & Convenants** to add or remove the convenants details.

The **Conditions & Convenants** page appears.

Figure 2-88 Covenant

- Click **Add** to add new convenants.

OR

Click **Remove** to remove already added convenants.

- Enter the relevant details.

2.14.8 Solicitor Details

You can add the solicitor details using this section.

A solicitor is a legal practitioner who traditionally deals with most of the legal matters in some jurisdictions. A person must have legally-defined qualifications, which vary from one jurisdiction to another, to be described as a solicitor and enabled to practice there as such.

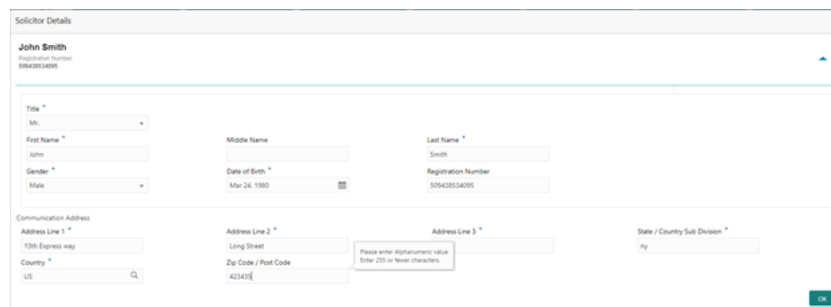

In this section you can add or remove the solicitor. You can also view the already added solicitor.

To add solicitor details:

1. From the **More** option, click the **Solicitor** to add or remove or edit the already added solicitor.

he **Solicitor Details** page appears.

Figure 2-89 Solicitor

2. Enter the relevant details.

Table 2-64 Solicitor – Field Description

Field	Description
Title	Select the title of the solicitor.
First Name	Specify the first name of the solicitor.
Middle Name	Specify the middle name of the solicitor.
Last Name	Specify the last name of the solicitor.
Gender	Select the gender of the solicitor from the list.
Date of Birth	Select or enter the birth date of the solicitor.
Registration Number	Specify the registration number of the solicitor.
Communication Address	Capture the communication address of the solicitor.
Address Line 1	Specify the building name.
Address Line 2	Specify the street name.
Address Line 3	Specify the city or town name.
State / Country Sub Division	Specify the state or country sub division.
Country	Select and search the country code.
Zip Code / Post Code	Specify the zip or post code of the address.

3. Click **OK** to save the added solicitor.

2.14.9 Clarification Details

You raise the clarifications using this section.

To add the clarification details:

1. Click **Clarification Details** to raise a new customer clarification request or view the existing request.
2. Click **New Clarification** to request new clarification.

The **New Clarification** screen is displayed.

Figure 2-90 New Clarification

3. Enter the subject and the clarification detail in the New Clarification Pop-up screen. The system also allows you to upload the document for the Clarification being raised.

Figure 2-91 Upload Documents

▼ Upload Document

Document Name: Driving License ▼

Country Of Issue: US ▼

Drop files here or click to select

Cancel

4. Once the details are updated, click **Save**. Clarification Request once raised moves the application to 'Awaiting Customer Clarification' state. The application continues to be assigned to the user who had raised the request. All the applications for which the specified user has requested clarification can be viewed and actioned from the **Awaiting Customer Clarification** sub-menu available under **Task** menu.

Select the Application from the **Awaiting Customer Clarification** sub-menu available under the **Task** menu. Click on the **Clarification Details** from the header.

5. Select the specific clarification to take action on it.

Allowed actions are as following:

- Adding New Conversation
- Withdraw Clarification
- Accept Clarification

Once the Clarification is either withdrawn or accepted, the application moves back to the **My Task** sub-menu available under **Task** menu, post which the user can edit the application and submit the specified stage. Clarification once raised and actioned are available throughout the application processing by the other users working on the other stages of the application by clicking on **Clarification Details** from the header.

3

Instant Retail Loan Account Opening Process

This topic describes the instant account opening process of retail loan product.

Instant personal loan account opening flow is applicable only for the Individual type of customer. The reference origination flow has been optimized to ensure that the loan request is processed with minimal manual intervention.

This personal loan request can be triggered from the Self- Service Channel such as Oracle Banking Digital Experience for both new and KYC compliant existing customers For the Assisted Channel, this loan request can be triggered only for KYC compliant existing customer.

In case of new customer, the self-service channel uses the automatic flow to verify or provide KYC compliance to customer. This automatic flow is indicated as Video KYC in OBDX. The necessary KYC types for compliance verification is configured in Oracle Banking Party Module. Please refer the **Retail Onboarding User Guide** for more details.

Below configuration are set for Instant Personal Loan product in the **Business Product** configuration screen.

- In the **Business Product Details** data segment, the **Application Submission is Mandatory** toggle is selected to capture application details in initiate stage.

Below configurations are set for Instant Personal Loan product in the **Business Process** screen.

- Document and checklist verification is set as non mandatory
- The Offer Issue Advices are configured

Account Opening Process Flow

The Instant Personal Loan account opening process is described below:

1. Application Entry Stage:

- In case the application is initiated through Self-Service Channel, the system automatically triggers the Application Entry stage without any manual intervention and completes the data segment level validation. On successful completion of the validation, the system automatically submits the Application Entry Stage.
OR
- In case the application is initiated through Branch, this stage is automatically submitted, if the application details are captured by clicking the **Application** button from the **Product Details** data segment. On submission of Application Entry Stage, system will perform an Assessment and if the system decision is Approved then the application process in the Offer Accept / Reject stage.

2. The Assessment and Offer issue stage automatically handled and hence the stage are not generated:

- If the offer is successfully generated, then offer letter is communicated to an applicant on email.

- If the automatic offer issue workflow fails, then the **Offer Issue** task is generated to perform manual action on loan application.
 - If the assessment is Auto Rejected, then an application is terminated automatically and an email communication along with the rejection advice is sent to the applicant. As an exceptional case for Insta personal loan, Assessment recommendations which are Manual are also handled.
- 3. Manual Credit Assessment stage:**
- If the Assessment Decision is Manual Queue A or Manual Queue B, then the system proceeds application to the Manual Credit Assessment stage to assess manually.
 - If the application is approved, then the system proceeds and the Manual Credit Decision stage is generated.
 - If the application is rejected, then the application is terminated, and a rejection advice is mailed to the borrowing applicant.
- 4. Manual Credit Decision stage:** On submitting the Manual Credit Assessment stage, the system generates the Manual Credit Decision task to assess the loan application. In this task the assessment officer can either Reject or Approve the application manually.
- If the application is approved, then Offer Issue is automatically trigger and an email with the attached offer letter is communicate to an applicant. The application proceeds with the next logical referenced stage.
 - If the application is rejected, then the system terminates the application and a rejection advice is sent to the applicant.
- 5. Offer Accept /Reject:** Once the offer is issued successfully, the applications proceeds with the next task which is generated based on action selected in the previous stage.
- If the application is initiated through branch channel then you can capture the applicant's response. If the application is initiated through the self-service channel, the applicant's response is received from OBDX. In both the cases, once the offer is accepted OBO initiates call and shares data to the host for creation of Instant Personal Loan Account.
 - If the customer response is reject, then the application is rejected.by selecting the **Reject** option from the Outcome screen while submitting the stage. The rejection advice is sent to the applicant through email.
 - If the bank reject the application, then the application is rejected.by selecting the **Reject By Bank** option from the Outcome screen while submitting the stage. The rejection advice is sent to the applicant through email.
- 6. Handoff Retry:** Application moves to this stage and appears in the Free Task only if the Instant Personal Loan Account creation has been rejected by Product Processor. The users with the necessary access rights can pick such task and can retry submission to Host after taking required actions on the Failure reason.

4

Regional Configuration

This library describes the regional configuration.

Oracle Banking Origination (OBO) has an ability to configure different geography requirements across varied implementation. Using the regional configurator feature, users are configured and enabled for a given Entity ID such as Default and Region Code.

The region specific configurations helps to ensure the workflows adhere to the geography practices, in terms of data capture and visualizations of the application screens. This model supports a framework which is used across OBMA domains to achieve specific end user experience.

Following region specific configuration are implemented:

- Ability to set non-mandatory field to mandatory
- Ability to set a field mandatory based on another field
- Hiding a field
- Capability to maintain LOV by geography
- Capability to maintain default value in LOV for a given geography

This chapter describes US region specific configuration which are implemented in OBO.

The fields in below table are defaulted to the respective value from backend. These fields hidden on UI.

Table 4-1 Defaulted Values and Hidden on UI

Field	Description
Preferred Currency	Defaulted to USD. Appears in the Customer Information data segment of the Application Entry stage.
Account Currency	Defaulted to USD. Appears in the Account Details data segment of the Application Entry stage.
Customer Type	Defaulted to Individual customer type. Appears in the Customer Information data segment of the Application Entry stage.
Phone Banking	Defaulted to No. From the Account Service Preferences data segment of the Application Enrichment stage.
Direct Banking	Defaulted to No. From the Account Service Preferences data segment of the Application Enrichment stage.

Table 4-1 (Cont.) Defaulted Values and Hidden on UI

Field	Description
Kisok Banking	Defaulted to No. From the Account Service Preferences data segment of the Application Enrichment stage.
Passbook	Defaulted to No. From the Account Service Preferences data segment of the Application Enrichment stage.

The fields in below table are not applicable for US region.

Table 4-2 Not Applicable

Field	Description
Name in Local Language	From in the Customer Information data segment of the Application Entry stage.
Citizenship By	From the Customer Information data segment of the Application Entry stage.
Marital Status	From the Customer Information data segment of the Application Entry stage.
Details Of Special Need	From the Customer Information data segment of the Application Entry stage.
Remark for Special Need	From the Customer Information data segment of the Application Entry stage.
Relationship Manager ID	From the Customer Information data segment of the Application Entry stage.
Additional Info	From all the Address section where applicable.

The fields in below table are used with US nomenclature in the respective screen.

Table 4-3 Nomenclature Fields

Field	Description
State/ Country Sub Division	The label is changed to State. Appears in the below stages: <ul style="list-style-type: none"> In the Address Details sections of the Customer Information data segment in the Application Entry stage. In the Address Details sections of the Nominee Details data segment in the Application Entry stage.
Cheque	The label appears as Check. Appears in the Account Details data segment of the Application Entry stage. Appears in the Account Service Preferences data segment of the Application Enrichment stage.

SIGNIFICANT CHANGES

You have advised us that there are no foreseeable significant changes to your circumstances that will affect your ability to meet your contracted repayments.

You have advised us that significant changes to your circumstances may occur that could adversely affect your ability to meet your contracted repayments and you have plans in place to ensure that you will be able to continue to make repayments if these circumstances occur.

We would like to inform you that:

Purpose of collection

Personal information is information about an identifiable individual and includes facts or an opinion about you which identifies you or by which your identity can be reasonably determined. The collection of your personal information is essential to enable us to conduct our business of offering and you with our range of financial products and services.

We collect personal information for the purposes of identifying and protecting you when you do business with us establishing your requirements and providing the appropriate product or service setting up, administering and managing our products and services assessing and investigating and if accepted, managing a claim made by you under one or more of our product and training and developing our staff and representatives. We may be required by law to collect your personal information. These include, but are not limited to, anti-money laundering and taxation laws.

Consequences if personal information is not provided.

If we request personal information about you and you do not provide it, we may not be able to provide you with the financial product or service that you request, or provide you with the full range of services we offer.

Disclosure

We use and disclose your personal information for the purposes we collected it. We may also use and disclose your personal information for a secondary purpose that is related to the purpose for which we collected it. This would happen in cases where you would reasonably expect us to use or disclose your personal information for that secondary purpose. In the case of sensitive information, any secondary purpose, use or disclosure will be directly related to the purpose collection.

When necessary and in connection with purposes of collection, we may disclose your personal information to and/or collect your personal information from:

Other companies within the OBVAM UNIVERSAL BANK. Where required or authorized under our relationship with our joint venture companies. Information

technology providers, including hardware and software vendors and consultants such as programmers research and development service providers your advisers, agents or representatives our advisers, agents or representatives if required or authorized to do so, regulatory bodies and government agencies financial advisers lenders' mortgage insurers and values credit reporting agencies legal and other professional advisers printers and mail house service providers manufacturers for plastic card production (e.g. debit and credit cards) external dispute resolution schemes.

Disclosure overseas

There are also instances where we may have to send your personal information overseas or collect personal information from overseas. These instances include: sending your personal information to companies in the OBVAM UNIVERSAL BANK group. When you have asked us to do so when we are authorized or required by law to do so when we have outsourced a business activity or function to an overseas service provider with whom we have a contractual arrangement certain electronic transactions or when it is necessary in order to facilitate a transaction on your behalf. We will only send your personal information overseas or collect personal information about you from overseas for the purposes in this statement.

Access

You can request access to the personal information we hold about you by contacting us. In some circumstances, we are able to deny your request for access to personal information. If we deny your request for access, we will tell you why. If accessing your personal information will take an extended period of time, we will inform you of the likely delay. For more detailed requests for access to personal information, for example, access to information held in archives, a fee may be charged to cover the associated cost of retrieval and supplying this information.

Marketing

We would like to use and disclose your personal information to keep you up to date with the range of products and services available from OBVAM UNIVERSAL BANK. Generally, our companies in the OBVAM UNIVERSAL BANK group will use and disclose your personal information for OBVAM UNIVERSAL BANK's marketing purposes. If you do not want us to use and disclose your personal information for the purpose of marketing products and services to you, you should contact us and tell us.

Contact

Please contact us to:

Change your mind at any time about receiving marketing material request access to the personal information we hold about you or obtain more information about our privacy practices by asking for a copy of our Privacy Policy You can contact us by calling 13 75 or contacting us at OBVAM UNIVERSAL BANK.com.au or by visiting any of our branches. Our Privacy Policy can also be found on our website at OBVAM UNIVERSAL BANK.com.au at the bottom of the page by clicking on Privacy.

Authority to obtain credit information I/We understand that by signing this application, consent is given to OBVAM UNIVERSAL BANK to:

Disclose to a credit reporting agency certain personal information about me/us including: identity particulars, amount of credit applied for in this application, payments which may become more than 60 days overdue any serious credit infringement which OBVAM UNIVERSAL BANK believes I/we have committed, advice that payments are no longer overdue and/or that credit provided to me/us has been discharged. Obtain from a credit reporting agency a report containing personal credit information about me/us and, a report containing information about my/our commercial activities or commercial credit worthiness, to

enable OBVAM UNIVERSAL BANK to assess this application for credit. I/We further consent to and acknowledge that OBVAM UNIVERSAL BANK may at its discretion obtain second and/ or subsequent credit reports prior to funding (settlement) or withdrawal of this application, in order to reassess my/our application for credit. Give and obtain from any credit provider(s) that may be named in this application or in a report held by a credit reporting agency information about my/our credit arrangements, including information about my/our credit worthiness, credit standing, credit history, credit capacity for the purpose of assessing an application for credit, notifying any default by me/us.

Confirm my employment details from my employer, accountant or tax agent named in this application.

Confirm my income received on an investment property from any nominated real estate agent.

Acknowledgments & Declarations

By signing below, I/we agree that I/we, have read and understood this application declare that all information provided in this application is true and correct authorize OBVAM UNIVERSAL BANK to make any enquiries it considers necessary to verify the information provided in this application and in support of this application agree to OBVAM UNIVERSAL BANK, in accordance with the Privacy Statement included in this application and the OBVAM UNIVERSAL BANK Privacy Policy consent to the disclosures set out in the Authority to Obtain Credit Information consent to OBVAM UNIVERSAL BANK disclosing information about my/our application, credit report, loan balance from time to time and associated information relevant to the calculation of commission to the agent nominated in this application and to any organization under which the agent may operate or by whom the agent is employed agree to OBVAM UNIVERSAL BANK transmitting my/our personal information by electronic means.
