# Purpose

Welcome to the **Savings Account Origination** user guide for Oracle Banking Origination. This document provides an overview of the Savings Account Origination process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a Savings Account Origination.

# **Audience**

This user manual is intended for the Relationship Managers (RMs) and Sales Officers in-charge of sourcing the Savings Account Products from prospect and customer of the bank. The user manual is also intended for the other bank personas such as Bank Operations Manager, Account Opening Officers or Branch Managers who may handle the specific stages of the lifecycle of the Savings Account Origination process based on the bank's internal operation and policies.

# **Documentation Accessibility**

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

#### **Access to Oracle Support**

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

# **Diversity and Inclusion**

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

# Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

# Acronyms and Abbreviations

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

# **Basic Actions**

**Table 3 Basic Actions** 

Actions	Functions
Request Clarification	Used to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer. For more information on Request Clarification, refer to the section Request Clarification.
Back	Used to navigate to the previous data segment within a stage.

Table 3 (Cont.) Basic Actions

Actions	Functions
Next	Used to navigate to the next data segment, after successfully capturing the data. The system validates all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. Users will not be able to proceed to the next data segment, without capturing the mandatory data.
Save & Close	Used to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.
Cancel	Used to close the application without saving. This tasks appears in Free Task, once the transaction is canceled.

# Overview

This topic describes the information on the various features of the Savings Account Origination module.

Oracle Banking Origination is the middle office banking solution with a comprehensive coverage of Retail Banking Origination processes for Savings Account, Current Account, Term Deposit, Credit Cards and Loans comprising of Home Loan, Personal Loan, Education Loan and Vehicle Loan for Individual customers, and Term Loan and Business Loan for Small and Medium Business customers.

- Saving Account
- Current Account
- Term Deposit Account
- Credit Card Account
- Retail Loans Account

It is a Host-Agnostic solution.

It enables banks to deliver improved user experience for various bank personas such as Sales Officers, Relationship Manager, Account Opening Officers, Branch Supervisor/ Managers, Loan Officers, and Credit Officers and so on, handling defined functions in the lifecycle of the various product origination.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business driven, is hosted and architectured by our new platform solution. The random access navigation between data segments within a given stage with appropriate validations, helps enable the business user to capture apt information anytime during the account open process before the Savings Account is created in the Host. The new workflow also supports capturing of relevant documents, stage wise, and generation of advices and notifications dynamically.

The initiation request for a Savings Account can be originated by authorized branch users or relationship managers or by approved bank agents, either through the traditional branch channel or through dedicated protocol services made available on digital devices like tablets or mobiles. The initiation of Savings Account request can be made for both new and existing customer types. Also, the system supports processing of the savings account request from the customer which are directly received from the Self-Service Banking Channel (Oracle Banking Digital Experience) through the REST based service APIs.

Refer to the detailed setup and operation workflows for both asset and liability products initiation made available in the **Operations User Guide**.

# Savings Account Origination

This topic describes the information on the defined stages through which the Savings Account Application has to flow before it is ready to be sent to the Host for Account Creation.

As detailed in the **Operations User Guide**, all the Product Originations are initiated in the **Application Initiation** stage from the Product Catalogue. The Cart Operation in Product Catalogue allows to originate single or multiple Product initiation. Once the Savings Account Product origination process is initiated either as a single product origination or as part of the multiple product selection, Process Orchestrator generates the Savings Account Process Reference Number on submit of the **Application Initiation** stage. Process Orchestrator also updates the record in the **Free Task** process for the **Application Entry** stage also referred as Task from orchestrator perspective.

The Savings Account Origination Process flow comprises of the following stages and the detailed information of the same is available in the following topics:

## Application Entry Stage

This topic describes the information on the various data segments to capture the required data in the Application Entry stage.

#### Debit Assessment

The topic describes the debit assessment process.

#### Manual Debit Assessment

The topic describes the manual debit assessment process.

## Overdraft Limit Details Stage

This topic describes the information on the various data segments to capture the required data for the Overdraft Limit Details stage.

#### Application Enrichment Stage

This topic describes the information on the various data segments to view and update the required data for the Application Enrichment stage.

#### Account Funding Stage

This topic describes the process of initial funding of an account. In this stage user can provide initial funding details before opening an account.

## Underwriting Stage

This topic describes the information on the various data segments to access the credit rating and capture the required data for the Underwriting stage.

#### Application Assessment

This topic describes the information on the various data segments to update the required data and assess the application in the Application Assessment stage.

#### Manual Credit Assessment Stage

This topic describes the information on the various data segments to assess the application manually in the Manual Credit Assessment stage.

#### Manual Credit Decision Stage

This topic describes the information on the various data segments to review and approve the application manually in the Manual Credit Decision stage.

#### Account Parameter Setup Stage

This topic describes the information on the various data segments to setup the required account parameters in the Account Parameter Setup stage.

#### Supervisor Application Approval Stage

This topic describes the information on the various data segments to view and approve the price change in the Supervisor Application Approval stage.

#### Offer Issue Stage

This topic describes the information on the various data segments to generate the offer in the Offer Issue stage.

#### Offer Accept / Reject Stage

This topic describes the information on the various data segments to accept / reject the offer in the Offer Accept / Reject stage.

#### Post Offer Amendment Stage

This topic describes the information on the various data segments to request for amendment of overdraft in the Post Offer Amendment stage.

#### Account Approval Stage

This topic describes the information on the various data segments to view the captured details and approve the application in the Account Approval stage

#### Manual Retry Stage

This topic describes the information on the various data segments on the Manual Retry stage.

## Account Funding

This topic describes the process of initial funding of an account. This stage appears once the account is opened.

## Global Actions

This topic provides the detailed on the actions that can be performed in all stages.

# 2.1 Application Entry Stage

This topic describes the information on the various data segments to capture the required data in the Application Entry stage.

Process Orchestrator updates the record in the **Free Task** process for the **Application Entry** stage also referred as Task from orchestrator perspective. The user can **Acquire and Edit** or **Acquire** the task from the **Action** column and the header respectively as per requirement.

The **Application Entry** stage will be automatically submitted, in case the Bank level configuration for allowing full Application submission is set as **Yes** and the user has updated all the data segment of **Application Entry** stage as part of the **Application Initiation** stage itself by clicking on the **Application** button available in the **Product Details** data segment.

After successful submission of **Application Entry** stage, a request for the initial funding transaction is sent to **Teller Module**, if **Fund By** option is selected as **Cash**. The status of the **Teller Transaction** is then validated in the **Initial Funding Details** data segment of **Account Funding** stage.

The **Application Entry** stage has the following reference data segments:

#### Customer Information

This topic provides the systematic instructions to capture the customer-related information for the application.

#### Customer Consent and Preference

This topic describes the consent and preferences of customers that are captured in account opening process.

#### Account Details

This topic provides the systematic instructions to view and modify the account details.

#### · Stake Holder Details

This topic provides the systematic instructions to capture the stake holder details related information for the business.

#### Mandate Details

This topic provides the systematic instructions to capture the mode of operation for the account.

#### Financial Details

This topic provides the systematic instructions to capture the financial details of a single customer or multiple customers in case of joint applicants.

#### Collateral Details

This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.

#### Nominee Details

This topic provides the systematic instructions to capture the details of the nominee for the account.

#### Terms and Conditions

(Required) This topic descriptions the terms and conditions that are mandatory to accept for to proceed with account opening process.

#### Account Service Preferences

This topic provides the systematic instructions to capture the account service preferences.

#### Summary

This topic provides the systematic instruction to view the tiles for all the data segments in the Application Entry Process.

## 2.1.1 Customer Information

This topic provides the systematic instructions to capture the customer-related information for the application.

The **Customer Information** data segment displays the details captured for the customer in the Application Initiate stage and allows updating further fields for supplementing the customer related information.

## For Individual Customer Type

The topic describes the process to capture or edit customer information of Individual type of customer.

## For Small and Medium Business (SMB) Customer Type

The topic describes the process to capture or edit customer information of Small and Medium Business type of customers.

# 2.1.1.1 For Individual Customer Type

The topic describes the process to capture or edit customer information of Individual type of customer.

## To capture customer information details:

1. In the Saving Application Entry stage, update the customer details in the Customer Information data segment based on the respective customer type.

The fields in the screen appears based on the region specific configuration. Refer Regional Configuration section below to understand regionalization impact on this data segment.

The Customer Information - Individual screen displays.

2. Specify the relevant details in data fields. The fields which are marked with asterisk are mandatory. For more information on fields, refer to the field description table below:

For more information on the fields, refer to the field description table below:

Table 2-1 Customer Information - Individual - Field Description

Field	Description
Customer Type	Displays the customer type based on the product selected.

Table 2-1 (Cont.) Customer Information - Individual - Field Description

Field	Description
Number of Applicants	Displays the number of applicants added for the account. It gets auto calculated based on the number of applicants that are added by <b>Add applicant</b> .
Applicant Name <role></role>	Displays the name of the applicant. The applicant role is displayed adjacent to this field.
Date of Birth	Displays the date of birth of the applicant.
E-mail	Displays the e-mail ID of the applicant.
Mobile Number	Displays the mobile number of the applicant.
Edit	Click <b>Edit</b> to modify the existing customer details and address details.
	Click <b>Save</b> to save the modified details and click <b>Cancel</b> to cancel the modifications.
Add Customer	Click <b>Add Customer</b> to add another customer other than primary applicant.
Existing Customer	Select to indicate if customer is existing customer.
Role	Displays the applicant role.
	The first customer which is added while initiating an application is considered as primary applicant.
	By default the <b>Primary Applicant</b> option appears in this field.
	This field is enabled if you add customer other than the primary customer.
	The options that are selected in the Allowed Applicants Roles field of the Business Product Preferences data segment in the Business Product screen appear for selection.
	The avaliable options are:
	Joint Applicant
	Guarantor     Guarantian
	Guardian     Custodian
CIF Number	Search and select the CIF number.
On Hambon	This field appears for only existing customers.
	Once the CIF number is selected, the system identifies whether the entered CIF number matches the Office of Foreign Assets Control (OFAC) list. If response is positive then an error appears stating the selected CIF is of an <b>Invalid Customer Status</b> . The account opening process is not initiated with that customer.
Advanced Search	Click this button to perform party using advance parameters. For more information on advance search, refer the <b>Advanced Search</b> section below.
Title	Select the title of the applicant from the drop-down list.
First Name	Specify the first name of the applicant.
Middle Name	Specify the middle name of the applicant.
Last Name	Specify the last name of the applicant.
Suffix	Specify the suffix for the applicant. This options in this list appears based on the configured entity code in the Oracle Banking Party product.
Gender	Specify the Gender of the applicant from the drop-down list.

Table 2-1 (Cont.) Customer Information - Individual - Field Description

Field	Description
Date of Birth	Select the date of birth of the applicant.
Resident Status	Select the residential status of the applicant from the drop-down list. Available options are:  Non-Resident Alien Resident Alien
	• Citizen
County of Residence	Search and select the country code of which the applicant is a resident.
Birth Place	Specify the birth place where the applicant has born.
Nationality	Search and select the country code where the applicant has nationality.
Citizenship By	Search and select the country code for which applicant has citizenship.
Marital Status	Select the marital status of the customer from the drop-down list. Available options are:  Married  Unmarried  Legally Separated  Widow
Customer Segment	Select the segment of the customer. Available options are:  Emerging Affluent  High Net worth Individuals  Mass Affluent  Ultra HNI
Customer Category	Select the category of the customer.
Preferred Language	Select the preferred language.
Preferred Currency	Select the preferred currency.
Details Of Special Need	Select the special need details. Available options are:  Blindness Cerebral Palsy Low vision Locomotor disability Leprosy-cured Mental retardation Mental illness Hearing Impairment
Remarks For Special Need	Specify the remarks for the special need selected.
Relationship Manager ID	Search and select the Relationship Manager ID for the applicant.
Staff	Select the toggle to indicate if the customer is employee of the bank.
Profession	Select the profession of the customer.
Politically Exposed Person	Select to indicate if the customer are politically exposed person.
Insider	Select to indicate if he customer is insider.

## **Advanced Search**

You can perform an advanced search for the party by providing additional information.

You can perform search on below party types:

## For Individual

- First Name
- Middle Name
- Last Name
- Date of Birth
- Unique ID or National ID or SSN ID
- Mobile Number

Email

For Non-Individual

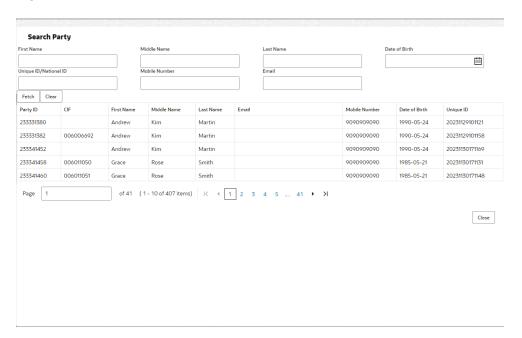

- Party ID
- Business or Organization Name
- Registration Number
- Registration Date
- Email
- Customer Category

## To search for a party using the advanced search:

3. Click the Advanced Search.

The Search Party window appears based on the selected party type.

Figure 2-5 Advanced Search - Individual

4. Click **Fetch** to search all the parties. All the parties in system appears in the table.

OR

Enter the specific search criteria in the respective field and click **Fetch**. The search result appears based on the search criteria.

5. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data. If the Customer Dedupe check is enabled, the application will perform the Dedupe check for the new customer details on clicking Next button. For more information, refer the Customer Dedupe Check section.

## **Customer Dedupe Check:**

Based on the configuration set in the **Origination Preference** screen, the customer dedupe serivce is enabled.

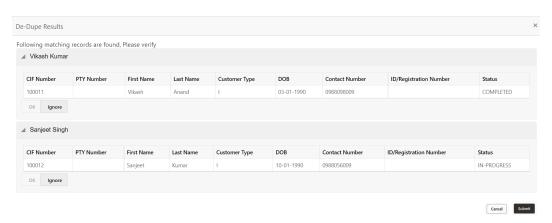

If the **Customer Dedupe** service check is enabled, upon capturing the New Customer details, the system compares the same with the existing customers records. If there are any matching hits, the list of Duplicate records which matches to the New Customer Details will be displayed.

The customer details are compared based on a set of attributes configured. (Refer to Oracle Banking Party Documentation for Dedupe attributes configuration).

6. Click **Next** to perform the dedupe check and display the result.

The **De-Dupe Result** screen is displayed

Figure 2-6 De-dupe Results

For more information on fields, refer to the field description table below.

Table 2-5 De-Dupe Results – Field Description

Field	Description
CIF Number	Displays the CIF Number.
PTY Number	Displays the PTY Number.
First Name	Displays the First Name.
Last Name	Displays the Last Name.
Customer Type	Displays the Customer Type.
DOB	Displays the Date of Birth.
Contact Number	Displays the Contact Number.
ID/Registration Number	Displays the Registration number.
Status	Displays the <b>Status</b> of the De-Dupe check.

## 2.1.2 Customer Consent and Preference

This topic describes the consent and preferences of customers that are captured in account opening process.

Consent and preference data segments captures, specific customer consent and preferences for communication and data sharing. Customer consent and preferences are used to comply with various regulatory and bank compliance policies and processes.

This data segment is applicable only for Individual type of customer.

Questionnaire is created in the Decision Service and later mapped to the relevant regulations and product types are part of seed data configuration.

#### To add customer consent and preference

 Click Next in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The Customer Consent and Preference screen appears.

to view the term and conditions.

- In the Customer Consent across Products section, select to capture the customer consents.
- 4. In the **Term and Conditions for Lending Application** section, select to accept the product level term and conditions.
- 5. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

# 2.1.10 Account Service Preferences

This topic provides the systematic instructions to capture the account service preferences.

The Account Service Preferences data segment allows to capture account service preferences.

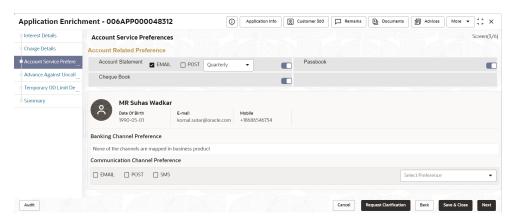

## To set account service preference:

 Click Next in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The Account Service Preferences screen displays.

Figure 2-18 Account Service Preference

2. Specify the details in the relevant data fields.

For more information on fields, refer to the field description table.

Table 2-13 Account Service Preferences - Field Description

Field	Description
Account Related Preferences	Select preferences for account statement.
Account Statement	Select to indicate if account statement is the preference.
	Available options are:
	E-mail
	• Post
	In case of joint applicant involved in an application, if the any of an applicant has opted for e-sign options then the system by default select the <b>EMAIL</b> option.
	Select the frequency from the drop-down list. Available options are:
	Monthly
	Quarterly
	Bi-Annual
	Annual
Cheque Book	Select to indicate if cheque book is required.
Passbook	Select to indicate if passbook is required.
<customer business<br="">Name along with image&gt;</customer>	Displays the name of the customer or business in the header along with the image
Date Of Birth	Displays the date of birth of the customer in the header.
	This field appears only if the <b>Customer Type</b> is selected as <b>Individual.</b>

Table 2-13 (Cont.) Account Service Preferences - Field Description

Field	Description
Date of Incorporation	Displays the date of incorporation of the business.
	This field appears only if the <b>Customer Type</b> is selected as <b>Small and Medium Business (SMB).</b>
E-mail	Displays the e-mail id of the customer in the header.
Mobile	Displays the mobile number of the customer in the header.
Banking Channel	Select the specified preferences for Banking Channel.
Preferences	The channel options appears based on the Business Product configuration.
Phone Banking	Select to indicate if phone banking subscription is required.
Direct Banking	Select to indicate if direct banking subscription is required.
Kiosk Banking	Select to indicate if Kiosk banking subscription is required.
Debit Card	Select to indicate if debit card is required.
Communication Channel Preferences	Select the specified preferences for Communication Channel.
E-mail	Select to indicate if e-mail is the communication channel subscription.
Post	Select to indicate if post is the communication channel subscription.
SMS	Select to indicate if SMS is the communication channel subscription.
Select Preference	Select the communication channel from the drop-down to specify your preferred option among the selected options.

The Banking Channel Preferences and Communication Channel Preferences are to be updated for all the Applicants of the account.

3. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

The Banking Channel Preferences and Communication Channel Preferences are to be updated for all the Applicants of the account.

# 2.1.11 Summary

This topic provides the systematic instruction to view the tiles for all the data segments in the Application Entry Process.

The Summary displays the tiles for all the data segments in the Application Entry stage. The tiles display the important details captured in the specified data segment.

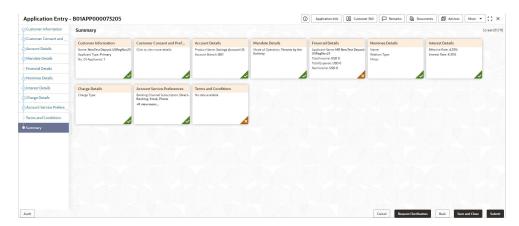

### To view the summary of all data segment

 Click Next in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-19 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 2-14 Summary - Application Entry - Field Description

Data Segment	Description
Account Details	Displays the account details.
Customer Information	Displays the customer information details
Customer Consents and Preference	Displays the customer consents and preferences.
Stake Holder Details	Displays the Stake Holder details
	This data segment appears only if the <b>Customer Type</b> is selected as <b>Small and Medium Business (SMB)</b> .
Mandate Details	Displays the mandate details.
Financial Details	Displays the financial details.
Collateral Details	Displays the collateral details.
Nominee Details	Displays the nominee details.
Term and Conditions	Displays the term and conditions.

- Click Submit to reach the OUTCOME, where the overrides, checklist and documents for this stage are verified. The Overrides screen is displayed.
- 3. In the Override screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click Accept Overrides& Proceed to proceed.

OR

Click **Proceed**. The Checklist screen appears.

4. In the Checklist screen the system displays the error message if document checklist is not verified. Click Proceed Next to proceed. The Outcome screen appears.

- 5. In the Outcome screen, select appropriate option from the Select to Proceed field.
  - Select the Proceed to proceed with the application. By default this option is selected.
     It will logically complete the Application Entry stage for the saving application. The
     Workflow Orchestrator will automatically move this application to the next processing
     stage, SavingApplication Enrichment. The stage movement is driven by the
     business configuration for a given combination of Process Code, Life Cycle and
     Business Product Code.
  - Select the Reject by Bank to reject the submission of this application. The
    application is terminated, and an email is sent to the borrower or customer with a
    rejection advice.
- Click Submit to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
- Click Close to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [Saving Account] to the Application Enrichment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

## **Application De-Dupe:**

Based on the configuration available at the Bank level / Properties Table, the Dedupe service call can be enabled or disabled for the product Origination.

If application dedupe service is enabled, System will check that any application is in progress for same product and customer combination. On Submit, if any duplicate application exists, override will show a message with other in progress application numbers. User can select the override check box and proceed or take appropriate action.

## Note:

- If an application is returned to the Application Entry-stage from any other subsequent stages, Oracle Banking Origination will not allow amending details in the Customer Information and Financial Details data segment, once a customer onboarding process has been triggered in the Application Entry Stage and CIF creation is still in progress.
- In case the party amendment request is rejected by Oracle Banking Party, the specified error message is shown to the user while submitting the Application Entry stage. The user has an option to go back and resolve the error or proceed with the stage submission by disregarding the amendment request.
- Unique process reference numbers will be generated and made available in the Free Task grid for the respective Customer Onboarding, Collateral Onboarding requests, which need to picked up by the concerned users in the Oracle Banking Party / Oracle Banking Credit Facilities Process Management modules.

# 2.2 Debit Assessment

The topic describes the debit assessment process.

In the process of account opening of saving product this stage appears if the Know Your Customer (KYC) is not completed for the applicants involved in the applications.

This stage appears in following conditions:

- The applicant is new.
- Existing customer but the KYC stage is not completed.
- Existing customer but the KYC stage is Referred.

### To open Debit Assessment task:

- Scan the records that appears in the Free Task list.
- Click Acquire and Edit or Acquire from the Action column of the appropriate record. The Debit Assessment stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

Bureau Information

This topic describes the bureau information details.

Summary

This topic describes summary of all the data segment.

## 2.2.1 Bureau Information

This topic describes the bureau information details.

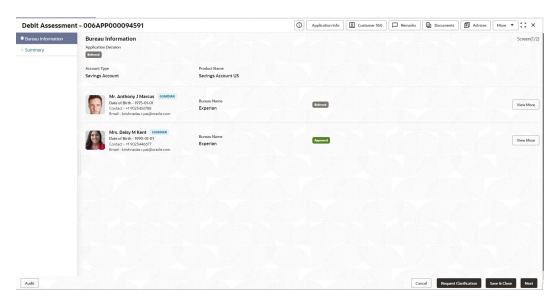

In this data segment user can view the bureau information of application and status of all the applicants that are involved in the application.

 On acquiring the Debit Assessment task, the Bureau Information data segment appears and call to bureau service is initiated for display the bureau information related to application and applicants.

The **Bureau Information** screen appears.

Figure 2-20 Bureau Information

**Table 2-15 Abbreviation** 

Field Name	Description
Application Decision	Displays the application decision status.
	This status appears based on the debit assessment of the applicants as below:
	<ul> <li>Referred – If KYC status of any applicant is Referred.</li> <li>Approved: - If KYC status of all the applicants are Approved.</li> <li>Declined: - If KYC status of any applicant is Declined</li> <li>Not Initiated: If KYC status of any applicants is KYC Non Compliant. This status appears for new applicants.</li> </ul>
Account Type	Displays the account type.
Product Name	Displays the product name of the account.
Applicants tile	In this section below fields appear with the captured information in the <b>Application Entry</b> stage:
	<ul> <li><name applicant="" of=""></name></li> <li><role></role></li> <li>Date of Birth <yyyy dd="" mm=""></yyyy></li> <li>Mobile Number, Email ID and Phone Number as Contact details</li> <li>Bureau Name</li> <li>Decision as Approved, Referred or Declined</li> <li>Reason for the decision</li> </ul>

User Recommendation	Select the recommended option to change the debit decision manually.  The available options are:  Approve  Reject
Remark	Specify the remarks for manual debit decision.

# 2.3.3 Summary

This topic describes summary of all the data segment.

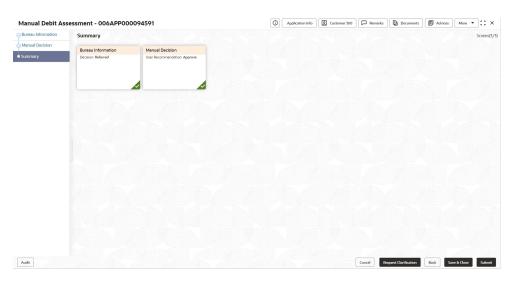

The Summary displays the tiles for all the data segments in the Manual Debit Assessment stage. The tiles display the important details captured in the specified data segment.

## To view the summary and submit the task:

1. Click **Next** in previous screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen is displayed

2. Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 2-19 Summary

Data Segment	Description
Bureau Information	Displays the bureau information details.
Manual Decision	Displays the manual decision details.

3. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

# 2.4 Overdraft Limit Details Stage

This topic describes the information on the various data segments to capture the required data for the Overdraft Limit Details stage.

Users having functional access to the Overdraft Limit Details stage will be able to view the record in the Free Task process.

This stage is not applicable for **SMB Customers**.

The **Overdraft Limit Details** stage has the following reference data segments:

Account Limit Details

This topic provides the systematic instructions to update the overdraft limit requested by the customer.

Collateral Details

This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.

Temporary Overdraft Limit

This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.

Advance against Uncollected Funds

This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.

Summary - Overdraft Limit Details

This topic provides the systematic instruction to view the tiles for all the data segments in the Overdraft Limit Details stage.

## 2.4.1 Account Limit Details

This topic provides the systematic instructions to update the overdraft limit requested by the customer.

The Account Limit Details allows to update the overdraft limit requested by the customer.

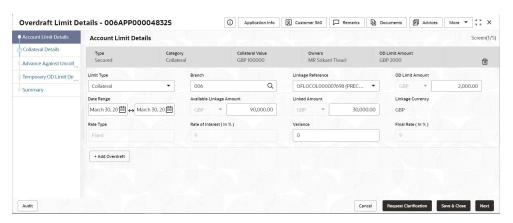

#### To add account limit details:

 On acquiring the Overdraft Limit Details task, the Account Limit Details data segment appears.

The Account Limit Details screen displays.

Figure 2-25 Account Limit Details

- Click Add Overdraft to capture the overdraft limits.
- Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-20 Account Limit Details - Field Description

Field	Description
Limit Type	Select the limit type from the drop-down list.
	Note:  System defaults the same limit type for the subsequent overdraft details added.
Branch	Specify the branch code where the account limit is configured.
Linkage Reference	Select the linkage reference number from the dropdown list.
OD Limit Amount	Select the currency and specify the overdraft limit amount for the account.
Date Range	Select the date range within when the account limit is valid.
Available Linkage Amount	Specify the available linkage amount of the collateral.
Linked Amount	Select the currency and specify the linked amount.
Linkage Currency	Displays the linkage currency.
Rate Type	Displays the rate type as per the limit type is selected. The available options are: Fixed Floating

Table 2-20 (Cont.) Account Limit Details – Field Description

Field	Description
Rate Code	Displays the rate code.
	Note:  This field displays if the Rate Type is selected as Floating.
Base Rate	Displays the base rate.
	Note:  This field displays if the Rate Type is selected as Floating.
Rate of Interest	Displays the rate of interest.
	Note:  This field displays if the Rate Type is selected as Fixed.
Variance	Specify the variance.
	Note:  This field displays if the Rate Type is selected as Fixed.
Margin	Specify the margin.
	Note:  This field displays if the Rate Type is selected as Floating.
Final Rate	Displays the effective rate calculated and based on the below parameters:  Rate Value and the Margin for floating rate type.  Rate of Interest and the Variance for fixed rate type.

4. Click Add Overdraft to capture the multiple overdraft limits.

OR

## 2.4.2 Collateral Details

This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.

Collateral details will be sent to the host to be made available under local collateral. The relevant service APIs will be made available for both Push and Pull details of collaterals.

Capturing of Collateral details in Oracle Banking Origination is also enabled with an option to onboard collateral using the Oracle Banking Credit Facility Process Management integration services. In such cases, the collateral details will be sent to the Collateral onboarding systems for performing the Valuation, obtaining the Legal opinion and recording the perfection details. These details will be made available on Oracle Banking Origination in the respective Data segments in read only mode.

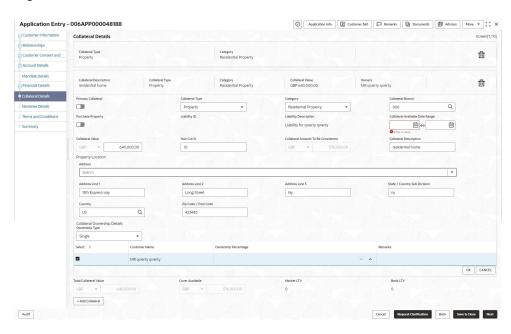

The user can acquire the application from Free Tasks list.

#### To add collaterals details:

- Click Next in the previous data segment to proceed with next data segment, after successfully capturing the data.
- Click Add Collateral to capture the collateral details.

The **Collateral Details** screen displays.

Figure 2-26 Collateral Details

If the **Collateral Type** is selected as **Term Deposit**, the following **warningmessage** displays when the OD Limit expiry date is more than the Maturity Date of the term deposit.

The **Warning Message** popup screen displays.

**3.** Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-21 Collateral Details - Field Description

	This field will be auto updated based on the number of collaterals.

All the fields are fetched from Oracle Banking Credit Facilities Process Management in read only mode, if integrated with Oracle Banking Credit Facilities Process Management.

4. Click Next to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

# 2.4.3 Temporary Overdraft Limit

This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.

The Temporary Overdraft Limit data segment displays the configuration required for temporary overdraft limit to be provided to the account.

#### To add temporary overdraft limit:

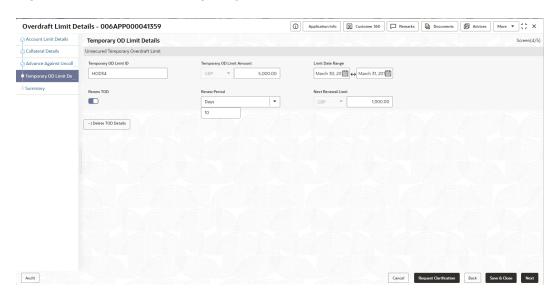

- Click Next in the previous data segment to proceed with next data segment, after successfully capturing the data.
- 2. Click Add TOD Details to capture the Temporary Overdraft Limit Details.

The Unsecured Temporary Overdraft Limit Details screen displays.

User can move to the next data segment without capturing the Temporary Overdraft Limit Details.

Figure 2-27 Unsecured Temporary Overdraft Limit Details

Note:

The user can move to the next data segment without capturing the Temporary Overdraft Limit Details.

3. Specify the details in the relevant data fields.

Note:

The fields, which are marked with an asterisk, are mandatory.

For more information on fields, refer to the field description table.

**Table 2-22 Temporary Overdraft Limit – Field Description** 

Field	Description
Temporary OD Limit ID	Specify the temporary overdraft limit ID.
Temporary Overdraft Limit Amount	Select the currency and specify the temporary overdraft limit amount.
Limit Start Date	Select the limit start date.
Limit End Date	Select the limit expiry date.
Renew TOD	Select to indicate if temporary overdraft limit is to be renewed.
Renew Period	In case of TOD renewal is allowed, select the period from the drop-down list. Available options are:
	Days
	• Months
	Year
Next Renewal Amount	In case of TOD renewal is allowed, specify the renewal amount.

4. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

### 2.4.4 Advance against Uncollected Funds

This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.

The Advance against Uncollected Funds data segment displays the configuration required for advance against uncollected fund to be provided to the account.

#### To add uncollected funds details:

- Click Next in the previous data segment to proceed with next data segment, after successfully capturing the data
- 2. Click **Add AUF Details** to capture the Advance Against Uncollected Funds.

The Advance against Uncollected Funds screen displays.

If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.4.5 Summary - Overdraft Limit Details

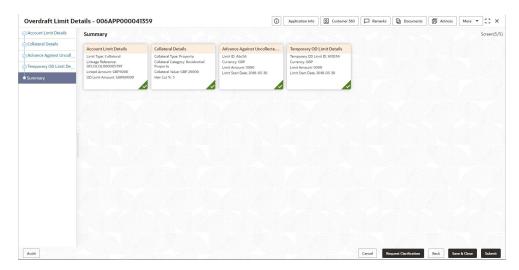

This topic provides the systematic instruction to view the tiles for all the data segments in the Overdraft Limit Details stage.

The Summary displays the tiles for all the data segments in the Overdraft Limit stage. The tiles display the important details captured in the specified data segment.

#### To view the summary of the stage:

 Click Next in the previous data segment screen to proceed with next data segment, after successfully capturing the data. The **Summary** screen displays.

Figure 2-29 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-24 Summary - Overdraft Limit Details - Field Description

Data Segment	Description
Account Limit Details	Displays the account limit details.
Collateral Details	Displays the collateral details.
Temporary Overdraft Limit	Displays the temporary overdraft limit.
Advance against Uncollected Funds	Displays the advance against uncollected funds.

Click Submit to reach the OUTCOME, where the overrides, checklist and documents for this stage can be validated or verified. The Overrides screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

3. Click **Proceed Next**. The **Checklist** screen is displayed.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

- 4. Click **Save & Proceed**. The **Outcome** screen is displayed.
- In the Outcome screen, select appropriate option from the Select to Proceed field.
  - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Overdraft Limit Details** stage for the loan application. The Workflow Orchestrator will automatically move this

application to the next processing stage, **Application Enrichment.** The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- Select the Return to Application Entry to return to application entry stage. The system generates the Application Entry task that appears in Free Task to acquire and edit.
- Select the Reject by Bank to reject the submission of this application. The
  application is terminated, and an email is sent to the borrower or customer with a
  rejection advice.
- Click Submit to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
- 7. Click Close to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Application Enrichment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

If the **Collateral Type** is selected as **Term Deposit** in **Collateral Details** data segment and the **Fund the account** toggle is OFF in the **Product Details** data segment, the submit of the Application Enrichment stage will move the application into the **Account Parameter Setup** stage

If the selected **Collateral Type** is other than Term Deposit in **Collateral Details** data segment, and the **Fund the account** toggle is OFF in the **Product Details** data segment, the submit of the Application Enrichment stage will move the application into the **Underwriting** stage.

If the **Fund the Account** toggle is ON in the **Product Details** data segment, the submit of the Application Enrichment stage, will move the application to **Account Funding** stage.

# 2.5 Application Enrichment Stage

This topic describes the information on the various data segments to view and update the required data for the Application Enrichment stage.

Users having functional access to the Application Enrichment stage will be able to view the record in the Free Task process.

#### To enrich an application:

- 1. Scan the records that appears in the **Free Task** list.
- Click Acquire and Edit or Acquire from the Action column of the appropriate record.
   The Application Enrichment stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

Interest Details

This topic provides the systematic instructions to view the interest applicable for the account.

#### Charge Details

This topic provides the systematic instructions to view the details of the charges applicable for the account.

#### Advance against Uncollected Funds

This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.

#### Temporary Overdraft Limit

This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.

#### Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Application Enrichment stage.

### 2.5.1 Interest Details

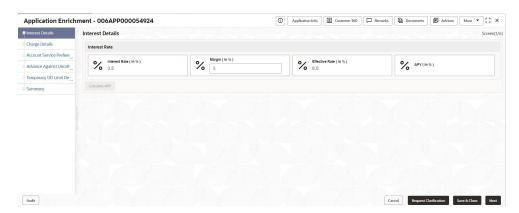

This topic provides the systematic instructions to view the interest applicable for the account.

The Interest Details data segment displays the interest applicable for the account.

1. On acquiring the Application Enrichment task, the Interest Details data segment appears.

The Interest Details screen displays.

Figure 2-30 Interest Details

2. Specify the details in the relevant data fields.

The fields, which are marked with an asterisk, are mandatory.

For more information on fields, refer to the field description table.

Table 2-25 Interest Details - Field Description

Field	Description
Interest Product Name	Displays the interest product name attached to the host product linked with the business product.
Payout Frequency	Displays the payout frequency of the interest product name attached to the host product linked with the business product.
Interest Rate	Displays the interest rate applicable for the account.
Margin (%)	Select the margin in percentage.
Final Rate	Displays the final rate calculated based on the <b>Interest Rate</b> and the <b>Margin</b> specified.
APY (in %)	Displays the annual percentage yield value in percentage. Below is the formula to calculate the APY,
	Annual Percentage Yield = (1 + Interest Rate ÷ The number of Compounding in a year) ^ (Number of compounding in a year) - 1
	This is applicable for the Credit Interest
APR	Display the annual percentage rate value.
	This is applicable for debit interest.

3. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

# 2.5.2 Charge Details

This topic provides the systematic instructions to view the details of the charges applicable for the account.

The Charge Details data segment displays the details of the charges applicable for the account.

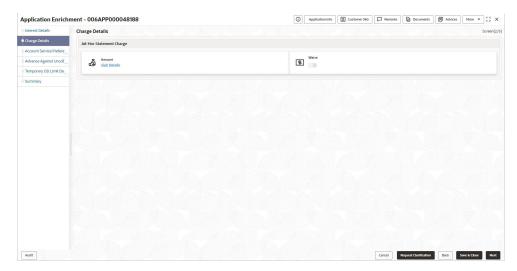

#### To view charge details:

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The Charge Details screen displays.

Figure 2-31 Charge Details

2. Specify the details in the relevant data fields.

The fields, which are marked with an asterisk, are mandatory.

For more information on fields, refer to the field description table.

Table 2-26 Charge Details - Field Description

Field	Description
Charge Types	Displays the charge types.
Amount	Displays the charge amount.
Waive	Select the toggle to enable the waiving charges.

- 3. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.
- 4. Click Slab Details to view the slab details.

The Slab Details screen displays.

#### Figure 2-32 Slab Details

**5.** For more information on fields, refer to the field description table.

Table 2-27 Slab Details - Field Description

Field	Description
Slab Amount	Displays the slab amount.

Table 2-27 (Cont.) Slab Details - Field Description

Field	Description
Charge Amount	Displays the charge amount.
Charge Rate	Displays the charge rate.

## 2.5.3 Advance against Uncollected Funds

This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.

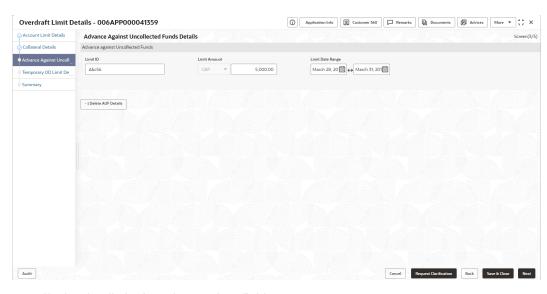

The Advance against Uncollected Funds data segment displays the configuration required for advance against uncollected fund to be provided to the account.

#### To add uncollected funds details:

- Click Next in the previous data segment to proceed with next data segment, after successfully capturing the data
- 2. Click **Add AUF Details** to capture the Advance Against Uncollected Funds.

The Advance against Uncollected Funds screen displays.

Figure 2-33 Advance against Uncollected Funds

Specify the details in the relevant data fields.

For more information on fields, refer to the field description table.

Table 2-28 Advance against Uncollected Funds – Field Description

Field	Description
Limit ID	Specify the advance against uncollected funds limit ID.
Limit Amount	Select the currency and specify the AUF limit amount.
Limit Date Range	Select the limit date range.

4. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.5.4 Temporary Overdraft Limit

This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.

The Temporary Overdraft Limit data segment displays the configuration required for temporary overdraft limit to be provided to the account.

#### To add temporary overdraft limit:

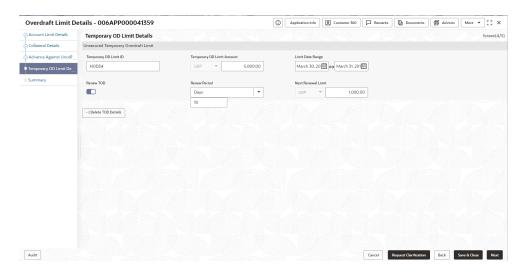

- Click Next in the previous data segment to proceed with next data segment, after successfully capturing the data.
- 2. Click **Add TOD Details** to capture the Temporary Overdraft Limit Details.

The Unsecured Temporary Overdraft Limit Details screen displays.

User can move to the next data segment without capturing the Temporary Overdraft Limit Details.

Figure 2-34 Unsecured Temporary Overdraft Limit Details

Note:

The user can move to the next data segment without capturing the Temporary Overdraft Limit Details.

3. Specify the details in the relevant data fields.

Note:

The fields, which are marked with an asterisk, are mandatory.

For more information on fields, refer to the field description table.

Table 2-29 Temporary Overdraft Limit – Field Description

Field	Description
Temporary OD Limit ID	Specify the temporary overdraft limit ID.
Temporary Overdraft Limit Amount	Select the currency and specify the temporary overdraft limit amount.
Limit Start Date	Select the limit start date.
Limit End Date	Select the limit expiry date.
Renew TOD	Select to indicate if temporary overdraft limit is to be renewed.
Renew Period	In case of TOD renewal is allowed, select the period from the drop-down list. Available options are:
	Days
	Months
	Year
Next Renewal Amount	In case of TOD renewal is allowed, specify the renewal amount.

4. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

### 2.5.5 Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Application Enrichment stage.

The Summary displays the tiles for all the data segments in the Application Enrichment stage. The tiles display the important details captured in the specified data segment.

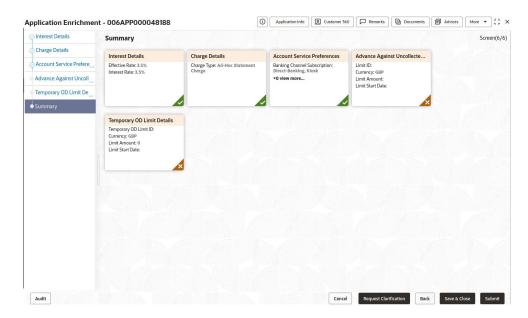

#### To view the summary of all data segment:

1. Click Next in the previous data segment to proceed with the next data segment, after successfully capturing the data..

The **Summary** screen displays.

Figure 2-35 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-30 Summary - Field Description

Data Segment	Description
Account Details	Displays the account details.
<b>Customer Information</b>	Displays the customer information details
Customer Consents and Preference	Displays the customer consents and preferences.
Relationship	Displays the relationships.
Stake Holder Details	Displays the Stake Holder details
	This data segment appears only if the <b>Customer Type</b> is selected as <b>Small and Medium Business (SMB)</b> .
Mandate Details	Displays the mandate details.
Financial Details	Displays the financial details.
Collateral Details	Displays the collateral details.
Nominee Details	Displays the nominee details.
Term and Conditions	Displays the term and conditions.

- Click Submit to reach the OUTCOME, where the overrides, checklist and documents for this stage are verified. The Overrides screen is displayed.
- 3. In the Override screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click Accept Overrides& Proceed to proceed.

OR

Click **Proceed**. The Checklist screen appears

- 4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
- 5. In the Outcome screen, select appropriate option from the Select to Proceed field.
  - Select the Proceed to proceed with the application. By default this option is selected.
    It will logically complete the Application Entry stage for the saving application. The
    Workflow Orchestrator will automatically move this application to the next processing
    stage, SavingApplication Enrichment. The stage movement is driven by the
    business configuration for a given combination of Process Code, Life Cycle and
    Business Product Code.
  - Select the Reject by Bank to reject the submission of this application. The
    application is terminated, and an email is sent to the borrower or customer with a
    rejection advice.
- Click Submit to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
- 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [Saving Account] to the Application Enrichment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

#### **Application De-Dupe:**

Based on the configuration available at the Bank level / Properties Table, the Dedupe service call can be enabled or disabled for the product Origination.

If application dedupe service is enabled, System will check that any application is in progress for same product and customer combination. On Submit, if any duplicate application exists, override will show a message with other in progress application numbers. User can select the override check box and proceed or take appropriate action.

#### Note:

- If an application is returned to the Application Entry-stage from any other subsequent stages, Oracle Banking Origination will not allow amending details in the Customer Information and Financial Details data segment, once a customer onboarding process has been triggered in the Application Entry Stage and CIF creation is still in progress.
- In case the party amendment request is rejected by Oracle Banking Party, the specified error message is shown to the user while submitting the Application Entry stage. The user has an option to go back and resolve the error or proceed with the stage submission by disregarding the amendment request.
- Unique process reference numbers will be generated and made available in the Free Task grid for the respective Customer Onboarding, Collateral Onboarding requests, which need to picked up by the concerned users in the Oracle Banking Party / Oracle Banking Credit Facilities Process Management modules.

# 2.6 Account Funding Stage

This topic describes the process of initial funding of an account. In this stage user can provide initial funding details before opening an account.

In this stage user can provide initial funding details before opening an account.

This stage appears only if the **Fund Post Account Opening** toggle is not selected in the **Business Product Preference** data segment of the **Business Product Configuration** screen.

#### To add funding details:

- 1. Scan the records that appears in the Free Task list.
- Click Acquire and Edit or Acquire from the Action column of the appropriate record. The Account Funding stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

#### Initial Funding Details

This topic provides the systematic instructions to view and modify the initial funding details captured in the **Application Entry** stage.

#### Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Account Funding stage.

## 2.6.1 Initial Funding Details

This topic provides the systematic instructions to view and modify the initial funding details captured in the **Application Entry** stage.

The Initial Funding Details data segment displays the Initial Funding details captured in the Application Entry stage. The **Transaction Reference Number** and the **Transaction Status** is either auto-populated or has to be manually captured based on the configuration. Automatic option is supported only for the Initial Funding with Cash mode. Manual process is supported for Account Transfer, Other Bank Cheque, and Cash mode of initial funding.

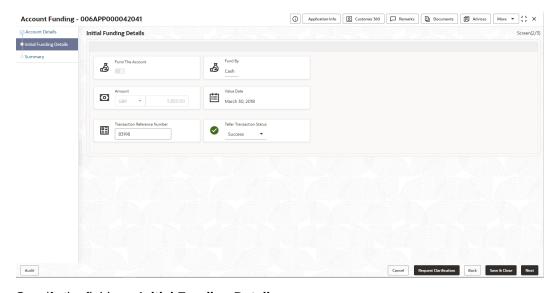

For more details on the Modes and the Manual/Automatic Process configuration, refer to the **Configurations User Guide**.

#### To add initial funding details:

1. On acquiring the **Account Funding** task, the **Initial Funding Details** data segment appears.

The Initial Funding Details screen displays.

Figure 2-36 Initial Funding Details

2. Specify the fields on **Initial Funding Details** screen.

The fields, which are marked with an asterisk, are mandatory.

For more information on fields, refer to the field description table.

**Table 2-31 Initial Funding Details – Field Description** 

Field	Description
Fund the Account	Displays the Fund the Account selected in the Account Details Data Segment in Application Entry stage.
Fund By	Displays the Fund by option selected in the Account Details Data Segment in Application Entry stage.
Amount	Displays the amount of the initial funding updated in the Account Details data segment in Application Entry stage.
Value Date	Displays the value date of the initial funding updated in the Account Details data segment in Application Entry stage.
Account Number	Displays the account number for the initial funding transaction which was selected in the <b>Account Details</b> data segment of the <b>Application Entry</b> stage
	This field appears only if the <b>Fund By</b> is selected as <b>Account Transfer</b> .
Account Name	Displays the account name for the selected account number.
	This field appears only if the <b>Fund By</b> is selected as <b>Account Transfer</b>
Cheque Number	Display the cheque number.
Cheque Date	Displays the cheque date.
Bank Name	Displays the bank name.
	This field is applicable only if the <b>Fund By</b> is selected as "Other Bank Cheque".
Branch Name	Displays the Branch name.
	This field is applicable only if the <b>Fund By</b> is selected as "Other Bank Cheque".
Cheque Routing	Displays the cheque routing number.
Number	This field is applicable only if the <b>Fund By</b> is selected as "Other Bank Cheque".
<b>GL Account Number</b>	Displays the GL account number for the initial funding transaction that was triggered off in the Application Entry stage for the Teller module.
GL Account Description	Displays the GL account description for the initial funding transaction that was triggered off in the Application Entry stage for the Teller module.
Teller Transaction Reference Number	Displays the transaction reference number for the initial funding transaction that was triggered off in the Application Entry stage for the Teller module.
Teller Transaction	Displays the status of the teller transaction.
Status	The status of the teller transaction should be 'Success' for the submission of the Account Funding stage.

3. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

### 2.6.2 Summary

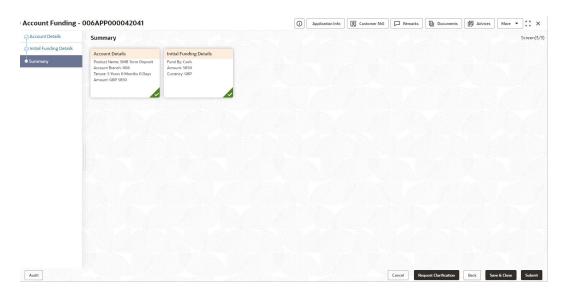

This topic provides the systematic instructions to view the tiles for all the data segments in the Account Funding stage.

The Summary displays the tiles for all the data segments in the Account Funding stage. The tiles display the important details captured in the specified data segment.

1. Click **Next** in **Initial Funding Details** screen to proceed with the next data segment, after successfully capturing the data.

The Summary screen displays.

Figure 2-37 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-32 Summary - Account Funding - Field Description

Data Segment	Description
Account Details	Displays the account details.
Initial Funding Details	Displays the initial funding details.

Click Submit to reach the OUTCOME, where the overrides, checklist and documents for this stage can be validated or verified. The Overrides screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, the user can go back and correct the data to make ensure overrides do not arise.

3. Click Proceed Next. The Checklist screen is displayed.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

- **4.** Select the checkbox to accept the checklist. Click **Save & Proceed**. The **Outcome** screen is displayed.
- In the Outcome screen, select appropriate option from the Select to Proceed field.
  - Select the Proceed to proceed with the application. By default this option is selected. It will logically complete the Account Funding Stage for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, Underwriting. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
  - Select the Return to Overdraft Limit Details to return to overdraft limit details stage, the system generate the Overdraft Limit Details stage that appears in Free Task to acquire and edit.
  - Select the Return to Application Entry to return to application entry stage.
     The system generates the Application Entry task that appears in Free Task to acquire and edit.
  - Select the Reject by Bank to reject the submission of this application. The
    application is terminated, and an email is sent to the borrower or customer
    with a rejection advice.
- 6. Click **Submit**. The **Confirmation** screen is displayed.

On successful submission the above pop-up appears and displays the next stage in which the application has moved. Application Reference Number and the Process Reference Number is also displayed.

7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Underwriting on Host stage. This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application. The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

# 2.7 Underwriting Stage

This topic describes the information on the various data segments to access the credit rating and capture the required data for the Underwriting stage.

The underwriting process of the lender bank is set to determine if the overdraft application is an acceptable risk. It is a process to assess the borrower's ability to repay the overdraft based on an analysis of their credit, financial capacity, and collateral provided by the borrower.

The Underwriting stage is the next representative stage in the Saving Account Open process. After the Application Enrichment / Account Funding stage is completed successfully, the application can be acquired by the user who has the access rights for the given stage and progress with the data capture.

#### To add underwriting details:

1. Scan the records that appears in the **Free Task** list.

2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Underwriting** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

#### Credit Rating Details

This topic provides the systematic instructions to view the information on the External Rating Agencies Rating / Scores for the Applicant.

#### Valuation Details

This topic provides the systematic instructions to capture the information on the asset valuation done by the bank approved valuator.

#### Legal Opinion

This topic provides the systematic instructions to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.

#### Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

### 2.7.1 Credit Rating Details

This topic provides the systematic instructions to view the information on the External Rating Agencies Rating / Scores for the Applicant.

Credit Rating Details is the first data segment of **Underwriting** stage. The user can acquire the application from Free Tasks list. If the applicants are more than one, accordingly the information against each applicant / borrower will be provided. The interface with external rating agencies will be provided.

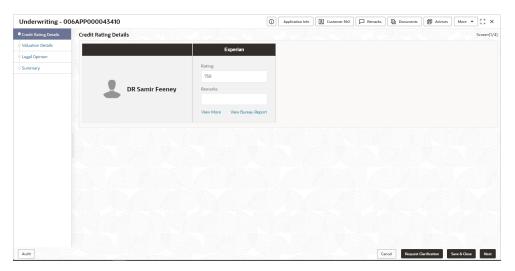

Oracle Banking Origination is integrated with Bureau Integration Service to fetch the details of the Rating for the given applicant(s). The Bank will have an option to use this integration service or use the manual process of entering the Bureau score in the Credit Rating DS.

1. Click **Acquire and Edit** in the **Free Tasks** for the application for which Underwriting stage has to be acted upon.

The Credit Rating Details screen displays.

Figure 2-38 Credit Rating Details

2. Specify the fields on **Credit Rating Details** screen.

The fields, which are marked with an asterisk, are mandatory.

For more information on fields, refer to the field description table.

Table 2-33 Credit Rating Details - Field Description

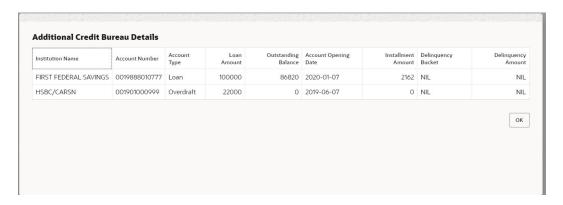

Field	Description
<b>Customer Name</b>	Displays the customer name.
Agency Name	Displays the configured agency.
Ratings	Displays the ratings. The system populates the credit rating score from the Bureau Integration Service.
Remarks	Specify the remarks.

3. Click **View More** to view the additional Credit Bureau details.

The Additional Credit Bureau Details screen displays.

Figure 2-39 Additional Credit Bureau Details

For more information on fields, refer to the field description table.

Table 2-34 Additional Credit Bureau Details – Field Description

Field	Description
Institution Name	Displays the institution name.
Account Number	Displays the account number of the applicant.
Account Type	Displays the account type.
Loan Amount	Displays the overdraft amount.
Outstanding Balance	Displays the outstanding balance.
Account Opening Date	Displays the account opening date.
Installment Amount	Displays the installment amount.
Delinquency Bucket	Displays the delinquency bucket.
Delinquency Amount	Displays the delinquency amount.

Oracle Banking Origination has been integrated with Bureau Integration Service which will make a call to the Credit Bureau to get Credit Rating Score and additional details.

Click View Bureau Report to view and download the bureau report from the external agency.

### 2.7.2 Valuation Details

This topic provides the systematic instructions to capture the information on the asset valuation done by the bank approved valuator.

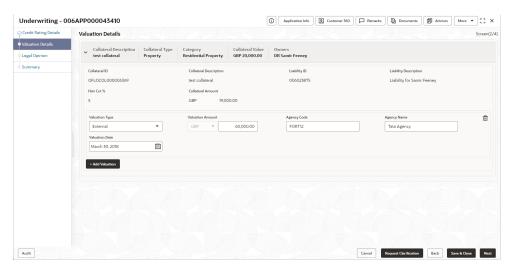

Valuation Details is the next data segment of **Underwriting** stage. This segment enables the user to capture the information on the asset valuation done by the bank approved valuator.

1. Click **Next** in the **Credit Rating Details** screen to proceed with the next data segment, after successfully capturing the data.

The Valuation Details screen displays.

Figure 2-40 Valuation Details

2. Specify the fields on Valuation Details screen.

The fields, which are marked with an asterisk, are mandatory.

If Oracle Banking Origination is integrated with Oracle Banking Credit Facilities Process Management, the valuation details will be fetched from integration service and the values will be displayed in the respective fields as read only data. In the absence of Oracle Banking Credit Facilities Process Management integration, the user has to capture the valuation details manually in this data segment.

For more information on fields, refer to the field description table.

Table 2-35 Valuation Details - Field Description

Field	Description
Collateral Description	Displays the collateral description which is added.
Collateral Type	Displays the collateral type which is added.
Category	Displays the category of the collateral which is added.
Collateral Value	Displays the value of the collateral which is added.
Owners	Displays the owner's name of the collateral.
Collateral ID	Displays the Collateral ID.
Collateral Description	Displays the description of the collateral.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Hair Cut %	Displays the Hair cut percentage.
Collateral Amount	Displays the collateral amount.
Valuation Type	Select the type of valuation. Available options are
	External
	Internal
Valuation Amount	Specify the valuation amount of the collateral.

Table 2-35 (Cont.) Valuation Details – Field Description

Field	Description
Agency Code	Specify the agency code.
Agency Name	Specify the name of agency.
Valuation Date	Select the valuation date. Date should not be earlier than the Application Date.
Add Valuation	Click <b>Add Valuation</b> to add valuation details. Add the valuation details if you want to evaluate the collateral.

3. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

# 2.7.3 Legal Opinion

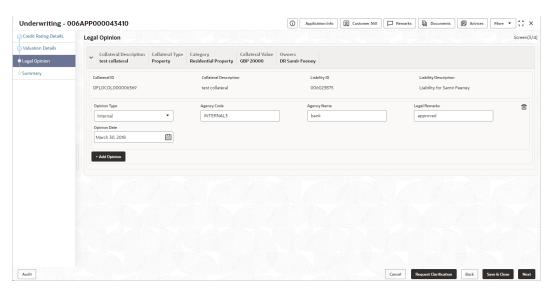

This topic provides the systematic instructions to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.

Legal Opinion is the next data segment of **Underwriting** stage. This segment allows the user to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.

 Click Next from the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Legal Opinion** screen displays.

Figure 2-41 Legal Opinion

2. Specify the fields on **Legal Opinion** screen.

The fields, which are marked with an asterisk, are mandatory.

If Oracle Banking Origination is integrated with Oracle Banking Credit Facilities Process Management, the Legal Opinion details will be fetched from integration service and the values will be displayed in the respective fields as read only data. In the absence of Oracle Banking Credit Facilities Process Management integration, the user has to capture the Legal Opinion details manually in this data segment.

For more information on fields, refer to the field description table.

**Table 2-36 Legal Opinion – Field Description** 

Field	Description
Collateral Description	Displays the collateral description which is added.
Collateral Type	Displays the collateral type which is added.
Category	Displays the category of the collateral which is added.
Collateral Value	Displays the value of the collateral which is added.
Owners	Displays the owner's name of the collateral.
Collateral ID	Displays the Collateral ID.
Collateral Description	Displays the description of the collateral.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Opinion Type	Select the opinion type. Available options are:
	External
	Internal
Agency Code	Specify the agency code.
Agency Name	Specify the agency name.
Legal Remarks	Specify the legal remarks.
Opinion Date	Select the opinion date. Date should not be earlier than the Collateral Valuation Date.
Add Opinion	Click Add Opinion to add the legal opinion received from multiple agencies (both internal and external).

Note:

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

3. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

## 2.7.4 Summary

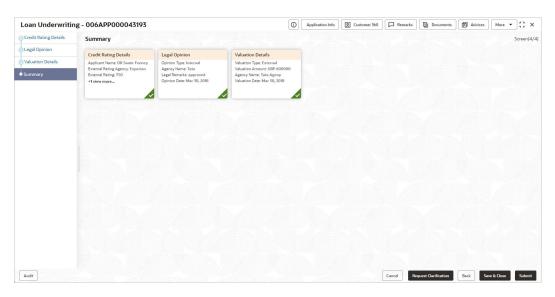

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-37 Summary - Underwriting - Field Description

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion details.

- 2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and the documents for this stage can be validated or verified. The **Overrides** screen is displayed.
- 3. Click Accept Overrides & Proceed. The Checklist screen is displayed.
- Click Save&Proceed. The Outcome screen is displayed.

The **Select an Outcome** has following options for this stage:

- Select Proceed outcome from the drop-down list. It will logically complete the
  Underwriting stage for the Application. The Workflow Orchestrator will
  automatically move this application to the next processing stage, Application
  Assessment. The stage movement is driven by the business configuration for
  a given combination of Process Code, Life Cycle and Business Product Code
- Select the Return to Initial Funding Stage to make Account Funding Stage available in free task for edit.
- Select the Return to Overdraft Limit Details to make Overdraft Limit Details stage available in free task.
- Select the Return to Application Entry Stage to make application entry stage available in free task for edit.
- Select the Reject by bank to reject the submission of this application. The
  application is terminated, and an email is sent to the borrower or customer
  with a rejection advice.
- Click Submit to submit the Underwriting stage. The confirmation screen appears
  with the submission status, the Application Reference Number and the Process
  Application Reference Number.
- 6. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Underwriting on Host stage. This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application. The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

# 2.8 Application Assessment

This topic describes the information on the various data segments to update the required data and assess the application in the Application Assessment stage.

Users having functional access to the Application Enrichment stage will be able to view the record in the Free Task process.

The Assessment stage enables the bank to assess the Overdraft Limit request of the customer and based on the Assessment Score the User can decide on granting the Overdraft Limit for the Saving Account being originated. System derives the recommendation based on the total weightage score. The total weightage score is calculated based on the parameters configured in the Scorecard Model.

Similarly, the Qualitative Score is calculated based on the answers provided to the questionnaire configured in the Qualitative Scorecard ID.

#### To assess the saving application:

- Scan the records that appears in the Free Task list.
- Click Acquire and Edit or Acquire from the Action column of the appropriate record. The Application Assessment stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

#### Qualitative Scorecard

This topic provides the systematic instructions to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card.

#### Assessment Details

This topic provides the systematic instructions to view the total weightage score of the Applicant or Applicants, in case of multiple Applicants in the Saving Account with Overdraft.

#### Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Application Assessment stage.

### 2.8.1 Qualitative Scorecard

This topic provides the systematic instructions to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card.

The **Qualitative Scorecard** screen enables the user to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card.

The relevant qualitative score card ID is attached to the Savings Account Business Product and thereby the Current Account inherits the score card attributes for evaluation.

 Click Acquire and Edit in the Free Tasks screen of the previous stage for the application for which Application Assessment stage has to be acted upon.

The Qualitative Scorecard screen displays.

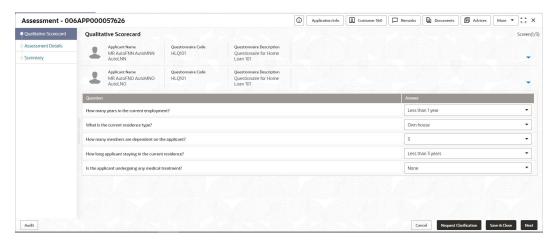

Figure 2-43 Qualitative Scorecard

2. Specify the fields on Qualitative Scorecard screen.

Note:

The fields, which are marked with an asterisk, are mandatory.

For more information on fields, refer to the field description table.

Table 2-38 Qualitative Scorecard - Field Description

Field	Description
Applicant Name	Displays the name of the applicant.
Questionnaire Code	Displays the Questionnaire code.
Questionnaire Description	Displays the description of the Questionnaire code.
Question	Displays the question configured for the Questionnaire code.
Answer	Select the answer from the drop-down values available. The answers are populated based on the Answers configured in the Questionnaire code.

3. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

### 2.8.2 Assessment Details

This topic provides the systematic instructions to view the total weightage score of the Applicant or Applicants, in case of multiple Applicants in the Saving Account with Overdraft.

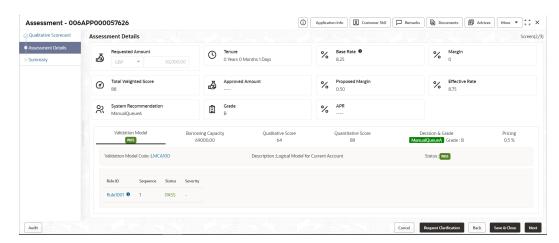

The **Assessment Details** Data Segment displays the total weightage score of the Applicant or Applicants, in case of multiple Applicants in the Saving Account with Overdraft. **Assessment Details** screen enables the user to understand the evaluation and provide the system recommendation based on the following parameters.

- Validation Model
- Borrowing Capacity
- Qualitative Score
- Quantitative Score
- Decision and Grade
- Pricing
- Click Next in the previous data segment to proceed with next data segment, after successfully capturing the data.

The Assessment Details – Validation Model screen displays.

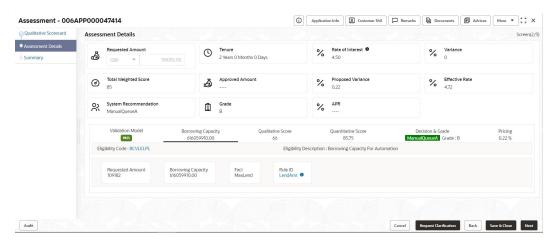

Figure 2-44 Assessment Details – Validation Model

Click Borrowing Capacity tab under Assessment Details screen to view the borrowing capacity of the applicant.

The Assessment Details - Borrowing Capacity screen displays.

Figure 2-45 Assessment Details - Borrowing Capacity

3. Click **Qualitative Score** tab under **Assessment Details** screen to view the qualitative score for the applicant.

The Assessment Details – Qualitative Score – Graph View screen displays.

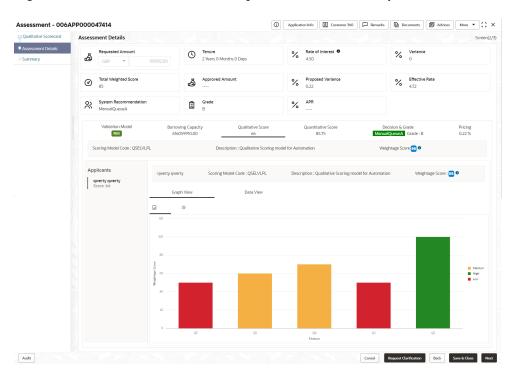

Figure 2-46 Assessment Details - Qualitative Score - Graph View

4. Click **Data View** tab under **Qualitative Score** screen to view the qualitative scoring data of the applicant.

The Assessment Details – Qualitative Score – Data View screen displays.

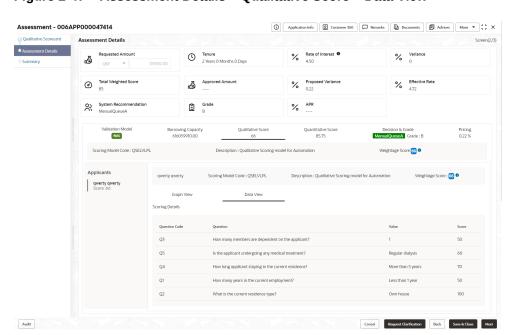

Figure 2-47 Assessment Details - Qualitative Score - Data View

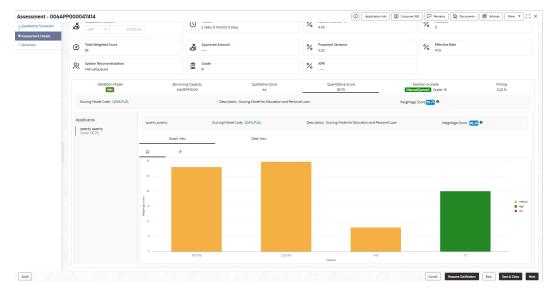

### Note:

For multi borrower applications, the user can view the Qualitative details of individual borrowers by clicking on each borrower's name.

5. Click **Quantitative Score** tab under **Assessment Details** screen to view the quantitative score for the application.

The Assessment Details - Quantitative Score - Graph View screen displays.

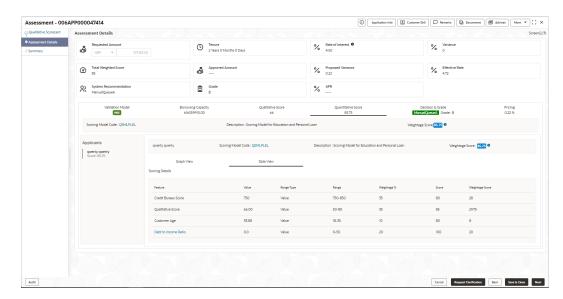

Figure 2-48 Assessment Details – Quantitative Score – Graph View

6. Click **Data View** tab under **Quantitative Score** screen to view the quantitative scoring data of the applicant.

The Assessment Details - Quantitative Score - Data View screen displays.

Figure 2-49 Assessment Details - Quantitative Score - Data View

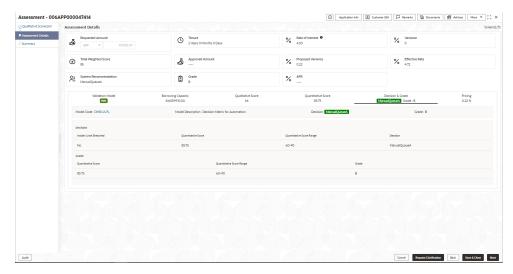

For multi borrower applications, the user can view the Quantitative details of individual borrowers by clicking on each borrower's name.

7. Click **Decision and Grade** tab under Assessment Details screen to view the decision and grade for the application.

The Assessment Details - Decision and Grade screen displays.

Figure 2-50 Assessment Details - Decision & Grade

8. Click **Pricing** tab under **Assessment Details** screen to view the pricing for the application.

The Assessment Details - Pricing screen displays.

Figure 2-51 Assessment Details - Pricing

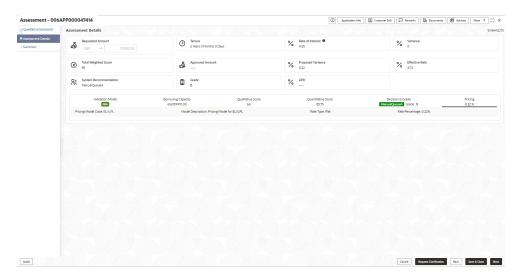

Table 2-39 Assessment Details - Field Description

Field	Description
Rate Percentage	Displays the rate percentage.
Requested Amount	Specify the requested overdraft amount.
Tenure	Displays the tenure.
Base Rate	Displays the base type.
	This field appears if the rate type is <b>Floating</b> .
Rate of Interest	Displays the rate of interest.
	This field appears if the rate type is <b>Fixed</b> .
Margin	Displays the margin.
	This field appears if the rate type is <b>Floating</b> .
Variance	Displays the variance.
	This field appears if the rate type is <b>Fixed</b> .
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the approved overdraft amount.
Proposed Margin	Displays the proposed margin.
	This field appears only for <b>Floating</b> rate type.
Proposed Variance	Displays the proposed variance.
	This field appears if the rate type is <b>Fixed</b> .
Effective Rate	Displays the effective rate of interest.
System Recommendation	Displays the system recommendations.
	Available options are:
	Approved
	• Manual
	Rejected
Grade	Displays the grade of the applicant.
APR	Displays the annual percentage rate value.
Validation Model	This sections displays the validation model details.
Validation Model Code	Displays the validation model code configured for the product.
Description	Displays the description of the configured validation model.
Status	Displays the overall status of the validation model.
Rule ID	Displays the Rule ID configured in the validation model.
Sequence	Displays the sequence of the configured rules.
Status	Displays the status of the configured rule.
Borrowing Capacity	This section displays the borrowing capacity details.
Eligibility Code	Displays the unique eligibility code configured for the product.
Eligibility Description	Displays the description of the configured eligibility.
Requested Amount	Displays the requested card limit.
	If the calculated Borrowing Capacity is more than the Requested Amount, then Approved Amount is stamped to Requested Amount.
Borrowing Capacity	Displays the calculated borrowing capacity of the applicant.
Fact	Displays the fact configured in the eligibility code.
Rule ID	Displays the rule configured in the eligibility code.

Table 2-39 (Cont.) Assessment Details – Field Description

Field	Description
Qualitative Score	This section displays the qualitative score details.
Scoring Model Code	Displays the scoring model code configured for the product.
Description	Displays the description of the scoring model.
Application Score	Displays the overall application score for the applicant(s).
	The application score also appears in the respective applicant's tab in case of the multiple applicants.
Qualitative Score - Scoring Details	This section displays the qualitative score details.
Question Code	Displays the question code configured for Qualitative Scoring Model
Question	Displays the question configured in question code.
Value	Displays the answers provided by the applicant.
Score	Displays the calculated score based on the answers.
Scoring Model Code	Displays the scoring model code configured for the product.
Description	Displays the description of the scoring model.
Weightage Score	Displays the overall weightage score for the applicant(s).
	The weightage score also appears in the respective applicant's tab in case of the multiple applicants.
Quantitative Score - Scoring Details	This section displays the Quantitative Score Details.
Feature	Displays the feature configured in the Quantitative Scoring Model.
Value	Displays the value of the application for the configured feature.
Range Type	Displays the range type configured in the Quantitative Scoring Model.
Range	Displays the range for the value of the application.
Weightage %	Displays the weightage percentage configured for the feature.
Score	Displays the score configured for the range.
Weightage Score	Displays the calculated weightage for each feature.
Decision & Grade	This section displays the decision and grade details.
Model Code	Displays the model code configured for the product.
Model Description	Displays the description of the model code.
Decision	Displays the recommended decision for the application.
Grade	Displays the recommended grade for the application
Decision & Grade – Decision	This section displays the decision and grade details.
Quantitative Score	Displays the overall quantitative score of the application.
Quantitative Score Range	Displays the range for the quantitative score.
Decision	Displays the decision configured for the quantitative score.
Decision & Grade – Grade	This section displays the decision and grade details.
Quantitative Score	Displays the overall quantitative score of the application.
Quantitative Score Range	Displays the range for the quantitative score.
Grade	Displays the grade configured for the quantitative score.
Pricing	This section displays the pricing details.
Pricing Model Code	Displays the pricing model code configured for the product.
Model Description	Displays the description of the pricing model code.

Table 2-39 (Cont.) Assessment Details – Field Description

Field	Description
Rate Type	Displays the rate type.
Rate Percentage	Displays the rate percentage.

Based on the range of qualitative and quantitative scores, the system provides a suggestive recommendation and the overdraft amount which can be sanctioned.

## 2.8.3 Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Application Assessment stage.

The Summary displays the tiles for all the data segments in the Application Assessment stage. The tiles display the important details captured in the specified data segment.

#### To view the captured details:

 Click Next in Assessment Details screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-52 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

Table 2-40 Summary - Application Assessment - Field Description

Data Segment	Description
Qualitative Scorecard Details	Displays the qualitative scorecard details.
Assessment Details	Displays the assessment details.

Click Submit to reach the OUTCOME, where the overrides, checklist and documents for this stage can be validated or verified. The Overrides screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

- 3. Click Proceed Next. The Checklist screen is displayed.
  - Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.
- Select the checkbox to accept the checklist. Click Save & Proceed. The Outcome screen is displayed.
- In the Outcome screen, select appropriate option from the Select to Proceed field.
  - Select the **Proceed** to proceed with the application. By default this option is selected. If the Proceed option is selected, then the application proceeds based on the assessment decision.
    - It will logically complete the Application Assessment stage for the saving application if the system recommendation is Approved. The Workflow Orchestrator will automatically move this application to the Account Parameter Setup stage.
    - If the system recommendation is Manual then, the Manual Credit Assessment stage is generated for this saving application.
    - If the system recommendation is Rejected then the application is terminated. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
  - Select the Return to Application Entry Stage to make application entry stage available in free task for edit.
  - Select the Return to Application Enrichment Stage to make enrichment stage available in free task.
  - Select the Return to Overdraft Limit Details to make overdraft limit details stage available in free task.
  - Select the Return to Initial Funding Details to make account funding details stage available in free task.
  - Select the Return to Application Underwriting Stage to make underwriting stage available in free task.
  - Select the Reject by Bank to reject the submission of this application. The
    application is terminated, and an email is sent to the borrower or customer
    with a rejection advice.
- 6. Click **Submit**. The **Confirmation** screen is displayed.

On successful submission the above pop-up appears and displays the next stage in which the application has moved. Application Reference Number and the Process Reference Number is also displayed. Click on 'Close' to close the pop-up screen. Alternatively click on 'Go to FreeTask' to launch the Free Task menu. If you have access to the next stage, you would be able to view the Application number and take action on it.

7. Click Close to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Manual Credit Assessment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

# 2.9 Manual Credit Assessment Stage

This topic describes the information on the various data segments to assess the application manually in the Manual Credit Assessment stage.

The Manual Credit Assessment stage of the saving account (with overdraft) opening process workflow will enable the bank to manually assess the application and provide the recommendation for the approval / rejection of the application. As a reference, the relevant completed data segments will be made available to the Approver before the application can be moved to the next stage. These completed data segments are from Underwriting Stage. The data segments are displayed in view only mode for the Credit Officer to analyze.

#### To capture manual assessment details:

- 1. Scan the records that appears in the **Free Task** list.
- 2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Manual Assessment** stage is displayed.

The Manual Assessment stage has the following data segments in which the user can only view the data:

- **Credit Rating Details**: For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- **Legal Opinion** For detailed information, refer the Legal Opinion data segment in the Underwriting stage.
- Valuation Details For detailed information, refer the Valuation Details data segment in the Underwriting stage.

Refer below chapters for detailed information on data segment that are editable.

#### Manual Assessment

This topic provides the systematic instructions to modify the account details and recommend for the approval / reject the saving account application.

#### Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

### 2.9.1 Manual Assessment

This topic provides the systematic instructions to modify the account details and recommend for the approval / reject the saving account application.

Manual Assessment is the data segment which enables the bank user to modify the account details and recommend for the approval / reject the saving account application. The user can acquire the application from Free Tasks list and assess all the View Only data segments.

 On acquiring the Manual Credit Assessment Stage from Free Tasks or clicking Next from the previosu data segment, the Manual Assessment screen is displayed.

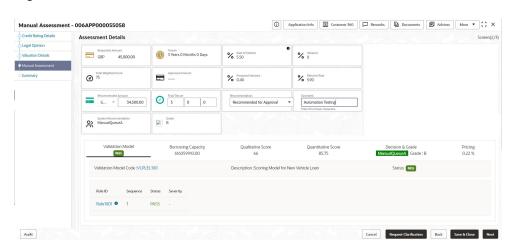

Figure 2-53 Manual Assessment

2. Specify the fields on Manual Assessment screen.

For more information on fields, refer to the field description table. Refer to **Assessment Details** screen for the detailed explanation of Validation Model, Borrowing Capacity, Qualitative Score, Quantitative Score, Decision & Grade and Pricing tabs.

Table 2-41 Manual Assessment – Field Description

Field	Description
Rate Percentage	Displays the rate percentage.
Requested Amount	Specify the requested overdraft amount.
Tenure	Displays the tenure.
Base Rate	Displays the base type.
	This field appears if the rate type is <b>Floating</b> .
Rate of Interest	Displays the rate of interest.
	This field appears if the rate type is <b>Fixed</b> .
Margin	Displays the margin.
	This field appears if the rate type is <b>Floating</b> .

Table 2-41 (Cont.) Manual Assessment – Field Description

Field	Description
Variance	Displays the variance.
	This field appears if the rate type is <b>Fixed</b> .
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the approved overdraft amount.
Proposed Margin	Displays the proposed margin.
	This field appears only for <b>Floating</b> rate type.
Proposed Variance	Displays the proposed variance.
	This field appears if the rate type is <b>Fixed</b> .
Effective Rate	Displays the effective rate of interest.
System	Displays the system recommendations.
Recommendation	Available options are:
	Approved
	• Manual
	Rejected
Grade	Displays the grade of the applicant.
APR	Displays the annual percentage rate value.
Validation Model	This sections displays the validation model details.
Validation Model Code	Displays the validation model code configured for the product.
Description	Displays the description of the configured validation model.
Status	Displays the overall status of the validation model.
Rule ID	Displays the Rule ID configured in the validation model.
Sequence	Displays the sequence of the configured rules.
Status	Displays the status of the configured rule.
Borrowing Capacity	This section displays the borrowing capacity details.
Eligibility Code	Displays the unique eligibility code configured for the product.
Eligibility Description	Displays the description of the configured eligibility.
Requested Amount	Displays the requested card limit.
	If the calculated Borrowing Capacity is more than the Requested Amount, then Approved Amount is stamped to Requested Amount.
Borrowing Capacity	Displays the calculated borrowing capacity of the applicant.
Fact	Displays the fact configured in the eligibility code.
Rule ID	Displays the rule configured in the eligibility code.
Qualitative Score	This section displays the qualitative score details.
Scoring Model Code	Displays the scoring model code configured for the product.
Description	Displays the description of the scoring model.
Application Score	Displays the overall application score for the applicant(s).
	The application score also appears in the respective applicant's tab in case of the multiple applicants.
Qualitative Score - Scoring Details	This section displays the qualitative score details.
Question Code	Displays the question code configured for Qualitative Scoring Model
Question	Displays the question configured in question code.

Table 2-41 (Cont.) Manual Assessment – Field Description

Field	Description
Value	Displays the answers provided by the applicant.
Score	Displays the calculated score based on the answers.
Scoring Model Code	Displays the scoring model code configured for the product.
Description	Displays the description of the scoring model.
Weightage Score	Displays the overall weightage score for the applicant(s).
	The weightage score also appears in the respective applicant's tab in case of the multiple applicants.
Quantitative Score - Scoring Details	This section displays the Quantitative Score Details.
Feature	Displays the feature configured in the Quantitative Scoring Model.
Value	Displays the value of the application for the configured feature.
Range Type	Displays the range type configured in the Quantitative Scoring Model.
Range	Displays the range for the value of the application.
Weightage %	Displays the weightage percentage configured for the feature.
Score	Displays the score configured for the range.
Weightage Score	Displays the calculated weightage for each feature.
Decision & Grade	This section displays the decision and grade details.
Model Code	Displays the model code configured for the product.
Model Description	Displays the description of the model code.
Decision	Displays the recommended decision for the application.
Grade	Displays the recommended grade for the application

Model Description	Displays the description of the pricing model code.
Rate Type	Displays the rate type.
Rate Percentage	Displays the rate percentage.

3. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.9.2 Summary

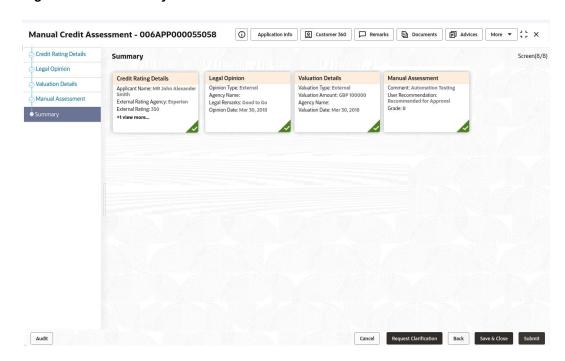

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segmentscreen to proceed with the next data segment, after successfully capturing the data.

The Summary Manual Credit Assessment screen displays.

Figure 2-54 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-42 Summary - Manual Credit Assessment - Field Description

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion.
Manual Assessment	Displays the Manual assessment details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.

- 3. Click Accept Overrides & Proceed. The Checklist screen is displayed.
- 4. Click Save & Proceed. The Outcome screen is displayed.
- In the Outcome screen, select appropriate option from the Select to Outcome field.
- **6.** Select **Proceed** outcome from the drop-down list.

It will logically complete the **Manual Credit Assessment** stage for the Saving Account (with overdraft) Application. The workflow will automatically move this application to the next processing stage, **Manual Credit Decision** stage.

The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- 7. Enter the remarks in Remarks.
- 8. Click **Submit** to submit the manual credit assessment. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
- 9. Click Close to close the window.

OR

Click **Go to Free Task.** The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Manual Credit Decision stage. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

# 2.10 Manual Credit Decision Stage

This topic describes the information on the various data segments to review and approve the application manually in the Manual Credit Decision stage.

Manual Credit Decision stage of the saving account (with overdraft) opening process workflow will enable the bank to make the decision on whether the recommended overdraft limit can be approved to the applicant.

#### To capture manual credit decision details:

- 1. Scan the records that appears in the Free Task list.
- Click Acquire and Edit or Acquire from the Action column of the appropriate record. The Manual Credit Decision stage is displayed.

The Manual Credit Decision stage has the following data segments in which the user can only view the data:

- Account Details For detailed information, refer the Account Details data segment in the Application Entry stage.
- **Customer Information** For detailed information, refer the Customer Information data segment in the Application Entry stage.
- Financial Details: For detailed information, refer the Financial Details data segment in the Application Entry stage.
- Credit Rating Details: For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.

- Valuation Details For detailed information, refer the Valuation Details data segment in the Underwriting stage.
- Legal Opinion For detailed information, refer the Legal Opinion data segment in the Underwriting stage.
- Manual Assessment For details information, refer the Assessment Details data segment in the Manual Credit Assessment stage.

Refer below chapters for detailed information on data segment that are editable.

#### Manual Decision

This topic provides the systematic instructions to review and approve the application manually in manual credit decision stage.

#### Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

### 2.10.1 Manual Decision

This topic provides the systematic instructions to review and approve the application manually in manual credit decision stage.

Manual Decision is the first data segment of Manual Credit Decision stage. The user can acquire the application from Free Tasks list.

 Click Acquire and Edit in the Free Tasks screen of the previous stage – Manual Credit Assessment stage.

The Manual Decision screen displays.

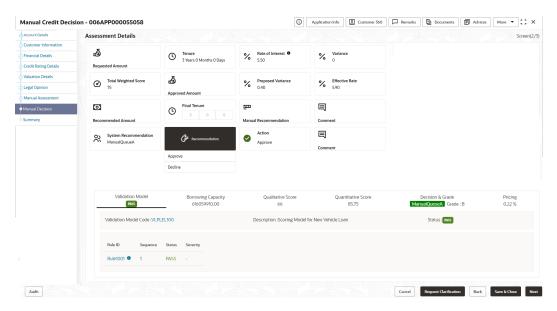

Figure 2-55 Manual Decision

2. Specify the fields on Manual Decision screen.

For more information on fields, refer to the field description table. Refer to **Assessment Details** screen for the detailed explanation of Validation Model, Borrowing Capacity, Qualitative Score, Quantitative Score, Decision & Grade and Pricing tabs.

**Table 2-43 Manual Decision – Field Description** 

Field	Description
Requested Amount	Displays the requested overdraft amount.
Tenure	Displays the overdraft tenure.
Base Rate	Displays the base rate.
	This field appears only for <b>Floating</b> rate type.
Margin	Displays the margin.
	This field appears only for <b>Floating</b> rate type.
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the approved overdraft amount.
	This field appears blank by default.
	If the approver selects the recommendation as <b>Approve</b> , then the recommended amount gets defaulted as approved amount.
Proposed Margin	Displays the proposed margin.
	This field appears only for <b>Floating</b> rate type.
Effective Rate	Displays the effective rate of interest.
Recommended Amount	Displays the recommended overdraft amount.
Final Tenure	Displays the final overdraft tenure.
Manual Recommendation	Displays the manual recommendation.
Comments	Displays the comments.
System Recommendation	Displays the system recommendations.
Recommendation	Select the recommendation. Available options are
	Approve     Decline
	If the approver selects the recommendation as <b>Approve</b> , then the recommended amount gets defaulted as approved amount.
Action	Displays the user action based on user recommendation.
Comments	Specify the comment on the user action.

3. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

# 2.10.2 Summary

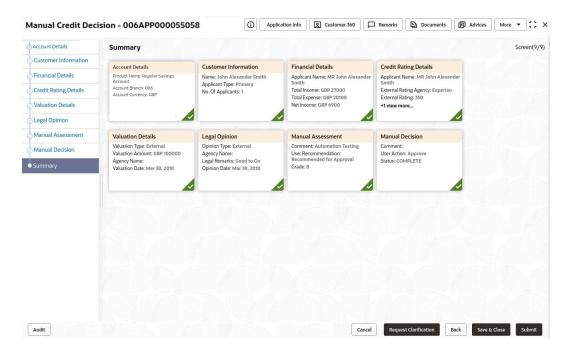

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-56 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

Table 2-44 Summary - Manual Credit Decision - Field Description

Field	Bassintian
Field	Description
Account Details	Displays the account details.
Customer Information	Displays the customer information.
Financial Details	Displays the financial details.
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion.
Manual Assessment	Displays the manual assessment.
Manual Decision	Displays the manual decision.

- Click Submit to reach the OUTCOME, where the overrides, checklist and documents for this stage can be validated or verified. The Overrides screen is displayed.
- 3. Click Accept Overrides & Proceed. The Checklist screen is displayed.
- 4. Click Save & Proceed. The Outcome screen is displayed.
- 5. In the Outcome screen, select appropriate option from the Select to Outcome field.
  - Select the **Proceed** to proceed with the application. It will logically complete the Manual Credit Decision stage for the Saving Account (with overdraft) Application. Upon submit, a Pricing call will be made by Oracle Banking Origination to Decision

Service to get the Interest rate. The Workflow Orchestrator will automatically move this application to the next processing stage, Account Parameter Setup stage. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.

- Select the Return to Manual Credit Assessment Stage to make underwriting stage available in free task.
- 6. Click **Submit**. The **Confirmation** screen is displayed.
- 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Account Parameter Setup stage. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

## 2.11 Account Parameter Setup Stage

This topic describes the information on the various data segments to setup the required account parameters in the Account Parameter Setup stage.

The Account Parameter Setup stage is the next representative stage in the Saving Account Open process. After the Application Assessment or Manual Credit Decision stage is completed successfully, the user who has the access rights for the given stage, can acquire the application and progress with the data capture. The user can acquire the application from Free Tasks list.

The **Account Parameter Setup** stage has the following reference data segments:

- **Interest Details** This data segment is editable. For detailed information, refer the Interest Details data segment in the Application Enrichment stage.
- **Charge Details** This data segment is editable. For detailed information, refer the Charge Details data segment in the Application Enrichment stage.
- Advance against Uncollected Funds This data segment is editable. For detailed information, refer the Advance against Uncollected Funds data segment in the Overdraft Limit stage.
- Temporary Overdraft Limit- This data segment is editable. For detailed information, refer Temporary Overdraft Limit data segment in the Overdraft Limit stage.
- Account Service Preferences This data segment is editable. For detailed information, refer Account Service Preference data segment in the Overdraft Limit stage.
- Account Limit Details This data segment is ready only. For detailed information, refer Account Limit Details data segment in the Overdraft Limit stage.

All the data segments are carried forward from Application Enrichment stage. If the details are captured in Application Enrichment stage, the same will be fetched automatically. The user can modify the captured details and all the data segments are mandatory to capture the details to move the application to the next stage.

Summary - Account Parameter Setup

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

## 2.11.1 Summary - Account Parameter Setup

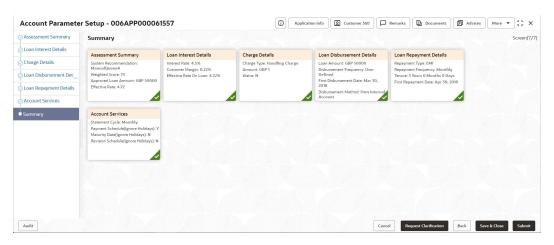

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

 Click Next in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The Summary screen displays.

Figure 2-57 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-45 Summary – Field Description

Field	Description
Interest Details	Displays the interest details.
Charge Details	Displays the charge details.
Advance against Uncollected Funds Details	Displays the Advance against Uncollected Funds details.
Temporary Overdraft Limit Details	Displays the Temporary Overdraft Limit details.
Account Services Preferences	Displays the account services preferences.
Account Limit Details	Displays the account limit details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and the documents for this stage can be validated or verified. The **Overrides** screen is displayed.

- 3. Click Accept Overrides & Proceed. The Checklist screen is displayed.
- 4. Click **Save & Proceed**. The **Outcome** screen is displayed.
- In the Outcome screen, select appropriate option from the Select to Outcome field.
  - Select the Proceed to proceed with the application It will logically complete the
    nextstage for the Saving Account Application. The Workflow Orchestrator will
    automatically move this application to the next processing stage. The stage
    movement is driven by the business configuration for a given combination of
    Process Code, Life Cycle and Business Product Code.
    - If there is no change in Interest or Charges details, the workflow will automatically move this application to the **Offer Issue** stage.
    - If there is any change in Interest or Charges details, submit of this stage, will move the application into the Supervisor Application Approval stage. Select the Return to Application Entry Stage to make application entry stage available in free task for edit.
  - Select the Return to Credit Decision Stage to make credit decision stage available in free task.
  - Select the Return to Credit Assessment Stage to make credit assessment stage available in free task.
  - Select the Return to Assessment Stage to make assessment stage available in free task
  - Select the Return to Initial Funding Stage to make initial funding stage available in free task.
  - Select the **Return to Overdraft Limit Details Stage** to make overdraft limit details stage available in free task.
  - Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
  - Select the **Return to Application Entry Stage** to make application entry stage available in free task.
  - Select the Return to Application Underwriting Stage to make underwriting stage available in free task.
  - Select the Reject by Bank toreject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
- Click Submit.to submit the account parameter setup stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
- 7. Click Close to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Account Approval stage. This application is will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

# 2.12 Supervisor Application Approval Stage

This topic describes the information on the various data segments to view and approve the price change in the Supervisor Application Approval stage.

In this stage supervisor can approve the application.

- Pricing Change Approval
  - This topic provides the systematic instructions to view and approve the pricing change.
- Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

### 2.12.1 Pricing Change Approval

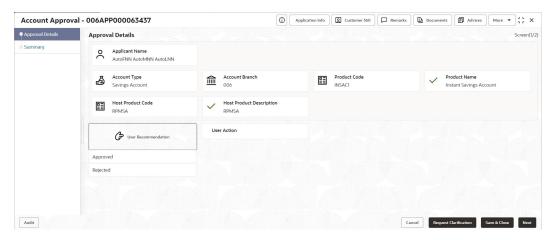

This topic provides the systematic instructions to view and approve the pricing change.

Pricing Change Approval is the first data segment of Supervisor Application Approval stage. The user can acquire the application from Free Tasks list.

 Click Acquire and Edit in the Free Tasks screen of the previous stage – Account Parameter Setup stage.

The Pricing Change Approval screen displays.

Figure 2-58 Pricing Change Approval

2. Specify the fields on **Pricing Change Approval** screen.

**Table 2-46 Pricing Change Approval – Field Description** 

Field	Description
Applicant Name	Displays the applicant name.
Account Type	Displays the account type.
Account Branch	Displays the account branch name.

Field Description **Product Code** Displays the product code selected for this saving account. **Product Name** Displays the product name selected or this saving account. **Approved Amount** Displays the final approved overdraft amount. **OD Tenure** Displays the final OD tenure for the approved amount. **Existing Values** Displays the existing values. Displays the rate type. Rate Type **Base Rate** Displays the rate of interest for the approved overdraft amount. Margin Displays the margin. **Effective Rate** Displays the effective rate. **Handling Charges** Displays the handling charges. **Revised Values** Displays the revised values against the existing values. Rate Type Displays the rate type. **Base Rate** Displays the rate of interest for the approved overdraft amount. Margin Displays the margin. **Effective Rate** Displays the effective rate. **Handling Charges** Displays the handling charges. User Recommendation Select the user recommendation. Available options are: **Approved** Rejected **User Action** 

Displays the user action based on user recommendation.

Table 2-46 (Cont.) Pricing Change Approval – Field Description

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

### **2.12.2 Summary**

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

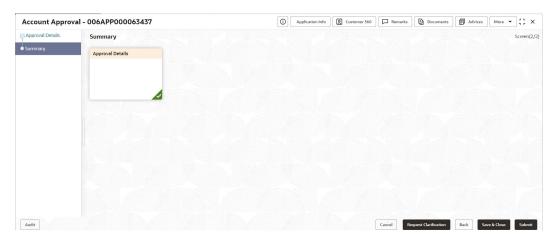

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click Next in Pricing Change Approval screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-59 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-47 Summary - Pricing Change Approval – Field Description

Data Segment	Description
Pricing Change Approval	Displays the pricing change approval details.

- Click Submit to reach the OUTCOME, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The Overrides screen is displayed.
- 3. Click Accept Overrides & Proceed. The Checklist screen is displayed.
- 4. Click Save & Proceed. The Outcome screen is displayed.
- 5. In the **Outcome** screen, select appropriate option from the Select to Outcome field.
- 6. Select **Proceed** outcome from the drop-down list. It will logically complete the **Supervisor Application Approval** stage for the Saving Application. The Workflow Orchestrator will automatically move this application to the next processing stage.

If the Supervisor has approved the price change, submit of this stage, will move the application to **Offer Issue** stage.

If the Supervisor has rejected the price change, the application will be routed back to **Account Parameter Setup** stage.

The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- Click Submit. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
- 8. Click Close to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the **Offer Issue Stage** for Individual Customers. This application will be available in the FREE

TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

# 2.13 Offer Issue Stage

This topic describes the information on the various data segments to generate the offer in the Offer Issue stage.

After due diligence and Account Parameter setup, the Application will move to the Offer issue stage where the user will generate the offer letter. As a reference, the relevant completed data segments will be made available to the user before the application can be moved to the next stage. These completed data segments are from the Application Underwrite Stage and Application Assessment Stage. The data segments are displayed in view only mode for the user to browse.

In the Offer Issue stage, provide the required details under each data segment.

The **Offer Issue** stage has the following reference data segments:

- Credit Rating Details: For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- Valuation Details For detailed information, refer the Valuation Details data segment in the Underwriting stage.
- **Legal Opinion** For detailed information, refer the Legal Opinion data segment in the Underwriting stage.

Refer below chapters for detailed information on data segment that are editable.

#### Assessment Summary

This topic provides the systematic instructions to view the assessment summary of the Savings Account application.

#### Offer Issue

This topic provides the systematic instructions to capture the offer issue date and generate the offer letter.

#### Summary - Offer Issue

This topic provide the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

### 2.13.1 Assessment Summary

This topic provides the systematic instructions to view the assessment summary of the Savings Account application.

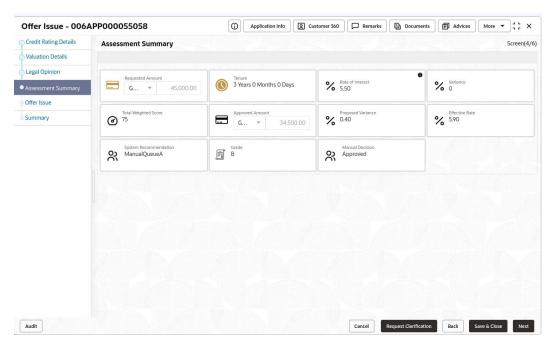

Assessment Summary is the view only data segment of Offer Issue stage.

 Click Acquire and Edit in the Free Tasks screen for the application for which Account Approval stage has to be acted upon.

The **Assessment Summary** screen displays.

Figure 2-60 Assessment Summary

2. The user can view the details in the relevant data fields.

Note:

The fields, which are marked with an asterisk, are mandatory.

For more information on fields, refer to the field description table.

Table 2-48 Assessment Summary – Field Description

Field	Description
Requested Amount	Displays the requested overdraft amount.
Tenure	Displays the tenure.
Base Rate	Displays the base rate.
Margin	Displays the variance rate.
	This field appears only for <b>Floating</b> rate type.
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the final approved overdraft amount.
Proposed Margin	Displays the proposed variance.
	This field appears only for <b>Floating</b> rate type.
Effective Rate	Displays the effective rate of interest.
System Recommendation	Displays the system recommendations.
Grade	Displays the grade of the applicant.
Manual Decision	Displays the manual decision.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory

details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

### 2.13.2 Offer Issue

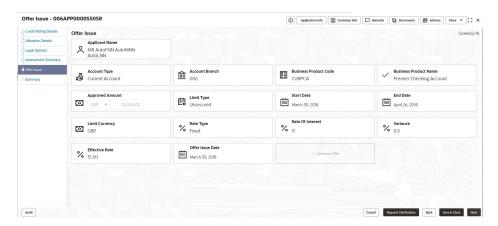

This topic provides the systematic instructions to capture the offer issue date and generate the offer letter.

Offer Issue is the next data segment of Offer Issue stage. **Offer Issue** screen enables the user to capture the Offer Issue date.

1. Click **Next** in the **Assessment Summary** screen to proceed with the next data segment, after successfully capturing the data.

The Offer Issue screen displays.

Figure 2-61 Offer Issue

2. All the fields are in this screen are prepopulated and not editable. For more information on fields, refer to the field description table.

Table 2-49 Offer Issue - Field Description

Field	Description
Applicant Name	Displays the applicant name.
Account Type	Displays the account type.
Account Branch	Displays the account branch name.
<b>Business Product Code</b>	Displays the business product code.
<b>Business Product Name</b>	Displays the business product name.
Approved Amount	Displays the approved amount.
Limit Type	Displays the limit type.
Start Date	Displays the start date.
End Date	Displays the end date.
Limit Currency	Displays the limit currency.
Rate Type	Displays the rate type.
Interest	Displays the interest amount.

Table 2-49 (Cont.) Offer Issue – Field Description

Field	Description
Base Rate	Displays the base rate.
Margin	Displays the margin rate.  Note:
	This field displays only for <b>Floating</b> rate type.
Variance	Displays the variance rate.
	Note:  This field displays only for <b>Fixed</b> rate type.
Effective Rate	Displays the effective rate of interest.
Offer Issue Date	Select the offer issue date.
Generate Offer	Click the checkbox to generate the offer letter.  A PDF file will be generated with the offer content. Default template for offer issue is used in this reference workflow.

3. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.13.3 Summary - Offer Issue

This topic provide the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

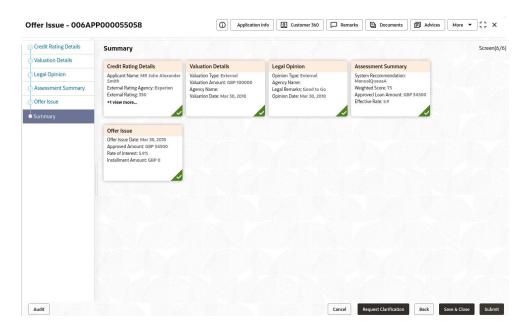

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in **Offer Issue** screen to proceed with the next data segment, after successfully capturing the data.

The **Summary - Offer Issue** screen displays.

Figure 2-62 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-50 Summary - Offer Issue - Field Description

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion details.
Assessment Summary	Displays the assessment details.
Offer Issue	Displays the offer issue details.

- Click Submit to reach the OUTCOME, where the overrides, checklist and the documents for this stage can be validated or verified. The Override screen is displayed.
- 3. Accept the overrides and click **Proceed Next**. The **Checklist** screen is displayed.
- 4. Click **Proceed Next**. The **Outcome** screen is displayed.
- In the Outcome screen, select appropriate option from the Select to Outcome field.
  - Select Proceed outcome from the drop-down list. It will logically complete the
    Offer Issue stage for the Overdraft Application. The Workflow Orchestrator will
    automatically move this application to the next processing stage, Offer Accept/
    Reject. The stage movement is driven by the business configuration for a
    given combination of Process Code, Life Cycle and Business Product Code.
  - Select the Reject Application to reject the submission of this application. The
    application is terminated, and an email is sent to the borrower or customer
    with a rejection advice.

- Click Submit to submit the Offer Issue stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
- Click Close to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Overdraft] to the Application **Offer Accept / Reject** stage.

# 2.14 Offer Accept / Reject Stage

This topic describes the information on the various data segments to accept / reject the offer in the Offer Accept / Reject stage.

After the Offer Issue stage, the offer letter will be sent or communicated to the borrower or applicant. The **Offer Accept / Reject** stage will enable the user to record the customer response – Accept or Reject as the case may be. Also, the offer made can be amended based on Customer request – viz., change in Principal Amount, Interest Rate or Tenure. The post offer amend can be routed back to the relevant previous completed stages like Application Enrichment stage. If the business wants the Underwriting stage or the Application Assessment stage to be redone, they can be configured accordingly, post which the new offer with the revised terms will be issued to the borrower or applicant for acceptance.

#### To perform actions on issued offer:

- 1. Scan the records that appears in the Free Task list.
- Click Acquire and Edit or Acquire from the Action column of the appropriate record. The Offer Accept /Reject stage is displayed.

In the Offer Accept / Reject stage, provide the required details under each data segment.

The **Offer Accept / Reject** stage has the following reference data segments:

- Offer Issue: For detailed information, refer the Offer Issue data segment in the Offer Issue stage.
- **Assessment Summary** For detailed information, refer the Assessment Summary data segment in the Offer Issue stage.

Refer below chapters for detailed information on data segment that are editable.

- Offer Accept / Reject
   This topic provides the systematic instructions to view the offer letter and record the customer response.
- Summary Offer Accept / Reject
  This topic provide the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

### 2.14.1 Offer Accept / Reject

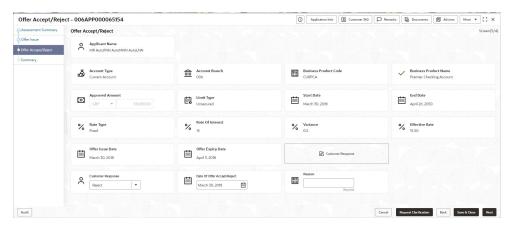

This topic provides the systematic instructions to view the offer letter and record the customer response.

Offer Accept / Reject data segment is the first data segment of **Offer Accept / Reject** stage. The user can acquire the application from **Free Tasks** list.

 Click Acquire and Edit in the Free Tasks screen of the previous stage – Offer Issue stage.

The Offer Accept / Reject screen displays.

Figure 2-63 Offer Accept / Reject

2. Specify the details in the relevant data fields.

Note:

The fields, which are marked with an asterisk, are mandatory.

For more information on fields, refer to the field description table.

Table 2-51 Offer Accept / Reject – Field Description

Field	Description
Customer Response	Select the customer response from the drop-down list. The available options are:
Date Of Offer Accept / Reject	Select the date of offer accept or offer reject.
Offer Amend	Offer Amend option will be at the instance of the customer request.  This will be taken as a Post Offer amendment and based on the change requested the application will be routed as part of the OUTCOME to the respective earlier stages to incorporate the changes.
Reason	The offer amend will be supported for the following data elements:  Overdraft Principal  Overdraft Interest/Margin  Tenure of the Overdraft

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If

mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.14.2 Summary - Offer Accept / Reject

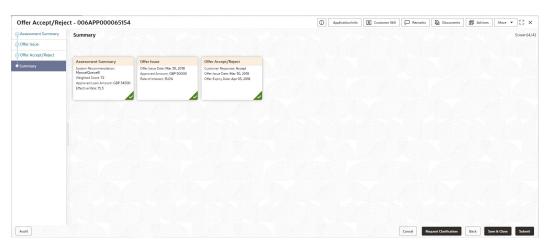

This topic provide the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

 Click Next in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The Summary screen displays.

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-52 Summary - Offer Accept / Reject - Field Description

Data Segment	Description
Assessment Summary	Displays the assessment summary.
Offer Issue	Displays the offer issue details.
Offer Accept / Reject	Displays the offer accept / reject details.

- Click Submit to reach the OUTCOME, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The Override screen is displayed.
- 3. Accept Overrides and Click Proceed Next. The Checklist screen is displayed.
- 4. Click Save & Proceed Next. The Outcome screen is displayed.
- 5. In the Outcome screen, select appropriate option from the Select to Outcome field.

- Select Proceed outcome from the drop-down list. It will logically complete the
  Offer Issue stage for the Overdraft Application. The Workflow Orchestrator will
  automatically move this application to the next processing stage, Offer Accept/
  Reject. The stage movement is driven by the business configuration for a
  given combination of Process Code, Life Cycle and Business Product Code.
  - If the Customer Response is selected as Accept in Offer Accept/Reject screen, then submit of this stage, will move the application into the Account Approval stage.
  - If the Customer Response is selected as Reject in Offer Accept/Reject screen, then submit of this stage, will terminate the application.
  - If the Customer Response is selected as Amend in Offer Accept/Reject screen, then submit of this stage, will move the application into the Post Offer Amendment stage.
- Select the Reject by Bank to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
- Click Submit to submit the Offer Accept/Reject stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
- 7. Click Close to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Overdraft] to the next processing stage on Host. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

# 2.15 Post Offer Amendment Stage

This topic describes the information on the various data segments to request for amendment of overdraft in the Post Offer Amendment stage.

Post Offer Amendment stage enables the user to request for amendment of Overdraft components after the Offer is Issued by the bank. This stage will appear only if the **Customer Response** is selected as **Amend** in **Offer Accept/Reject** data segment.

#### To perform actions on post offer amendment:

- 1. Scan the records that appears in the Free Task list.
- Click Acquire and Edit or Acquire from the Action column of the appropriate record. The Post Offer Amendment stage is displayed

The **Post Offer Amendment** stage has the following data segments:Offer Accept / Reject –View only as available in Offer Accept / Reject stage

- Account Limit Details This data segment is editable. For detailed information, refer Account Limit Details data segment in the Overdraft Limit stage.
- Offer Issue This data segment is read only. For detailed information, refer the Offer Issue data segment in the Offer Issue stage.
- Offer Accept/ Reject This data segment is read only. For detailed information, refer the Offer Accept/ Reject data segment in the Offer Accept/ Reject stage.

Refer below chapters for detailed information on data segment that are editable.

Post Offer Amendment

This topic provides the systematic instructions to request for amendment of Overdraft components after the Offer is Issued by the bank.

Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

### 2.15.1 Post Offer Amendment

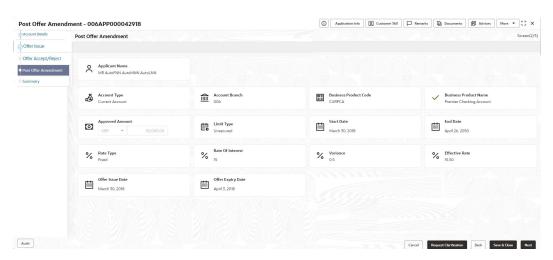

This topic provides the systematic instructions to request for amendment of Overdraft components after the Offer is Issued by the bank.

Post Offer Amendment data segment is the first data segment of Post Offer Amendment stage. The user can acquire the application from Free Tasks list.

 Click Acquire and Edit in the Free Tasks screen of the previous stage – Offer Accept / Reject stage.

The Post Offer Amendment screen displays.

Figure 2-65 Post Offer Amendment

2. Specify the fields on **Post Offer Amendment** screen.

Table 2-53 Post Offer Amendment – Field Description

Field	Description
Applicant Name	Displays the applicant name.
Account Type	Displays the account type.
Account Branch	Displays the account branch name.
<b>Business Product Code</b>	Displays the business product code selected for this saving account.
<b>Business Product Name</b>	Displays the business product name selected for this saving account.

Table 2-53 (Cont.) Post Offer Amendment – Field Description

Field	Description
Offer Issue Date	Displays the date of offer issued.
Offer Expiry Date	Displays the date based on the expiry period configuration done at the Business Product level which is used for this Overdraft.
Offer Amend Date	Displays the date of offer amend.
Limit Currency	Displays the limit currency.
Approved Amount	Displays the revised Overdraft amount for approval.
Limit Type	Displays the limit type.
Start Date	Select the start date.
End Date	Select the end date.
Rate Type	Displays the rate type.
Base Rate	Displays the base rate.
Margin	Specify the amended Margin.  Note:  This field appears only for Floating rate type.
Variance	Specify the amended Variance.  Note:  This field appears only for Fixed rate type.
Effective Rate	Displays the amended effective rate.  Effective Rate = Rate of Interest + Margin/Variance.

3. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

### 2.15.2 Summary

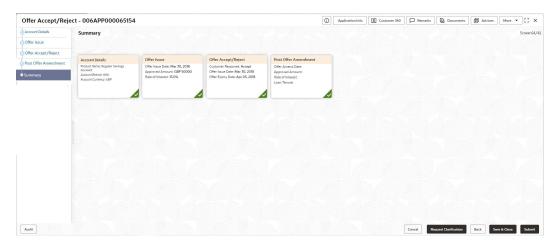

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in **Post Offer Amendment** screen to proceed with the next data segment, after successfully capturing the data.

The Summary screen displays.

Figure 2-66 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-54 Summary - Post Offer Amendment - Field Description

Data Segment	Description
Offer Issue	Displays the offer issue details.
Post Offer Amendment	Displays the post offer amendment details.

- Click Submit to reach the OUTCOME, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The Override screen is displayed.
- 3. Accept Overrides and click Proceed Next. The Checklist screen is displayed.
- 4. Click **Proceed Next.** The **Outcome** screen is displayed.
- 5. In the Outcome screen, select appropriate option from the Select to Outcome field.
  - Select Proceed outcome from the drop-down list. It will logically complete the Post
    Offer Amend stage for the Overdraft Application. The Workflow Orchestrator will
    automatically move this application to the next processing stage. The stage
    movement is driven by the business configuration for a given combination of Process
    Code, Life Cycle and Business Product Code.
    - If there is any change in Approved Amount and/or in Limit Date Range, then submit of this stage, will move the application to the Application Assessment stage.
    - If the changes are only in the Rate of Interest (Pricing), then submit of this stage, will move the application to the Supervisor Application Approval stage.
  - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
- 6. Click Submit to submit the Post Offer Amendment stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.

7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

# 2.16 Account Approval Stage

This topic describes the information on the various data segments to view the captured details and approve the application in the Account Approval stage

#### To approve an account opening:

- 1. Scan the records that appears in the Free Task list.
- Click Acquire and Edit or Acquire from the Action column of the appropriate record. The Account Approval stage is displayed.

The Account Approval stage has the following data segments which user can only view:

- **Customer Information** For detailed information, refer the Customer Information data segment in the Application Entry stage.
- Account Details For detailed information, refer the Account Details data segment in the Application Entry stage.
- Mandate Details For detailed information, refer the Mandate Details data segment in the Application Entry stage.
- **Nominee Details** For detailed information, refer the Nominee Details data segment in the Application Entry stage.
- Stake Holder Details For detailed information, refer the Stake Holder Details data segment in the Application Entry stage.
- **Financial Details**: For detailed information, refer the Financial Details data segment in the Application Entry stage.
- **Terms and Conditions** For detailed information, refer the Terms and Conditions data segment in the Application Entry stage.
- Interest Details: For details information, refer the Interest Details data segment in the Application Enrichment stage.
- **Charge Details**: For details information, refer the Charge Details data segment in the Application Enrichment stage.
- Account Limit Details: For details information, refer the Account Limit Details data segment in the Overdraft Limit Details stage.
- **Temporary OD Limit Details:** For details information, refer the Temporary OD Limit Details data segment in the Overdraft Limit Details stage.
- Advance against Uncollected Funds: For details information, refer the Advance against Uncollected Funds data segment in the Overdraft Limit Details stage.
- **Initial Funding Details:** For details information, refer the Initial Funding Details data segment in the Account Funding stage.

- Credit Rating Details: For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- Valuation Details For detailed information, refer the Valuation Details data segment in the Underwriting stage.
- **Legal Opinion** For detailed information, refer the Legal Opinion data segment in the Underwriting stage.
- Assessment Summary: For details information, refer the Assessment Summary data segment in the Offer Issue stage.

Refer below chapters for detailed information on data segment that are editable.

- Collateral Perfection Details
   This topic provides the systematic instructions to view the collateral perfection details.
- Approval Details
   This topic provides the systematic instructions to view and approve the application.
- Summary
   This topic provides the systematic instructions to view the tiles for all the data segments of the Savings Account Origination Process.

### 2.16.1 Collateral Perfection Details

This topic provides the systematic instructions to view the collateral perfection details.

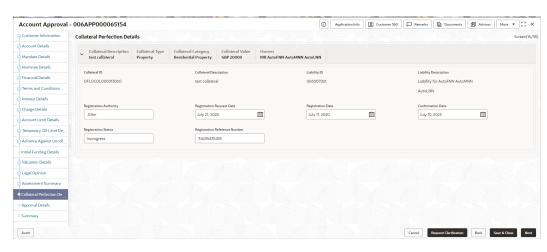

Collateral Perfection Details is the first data segment of Account Approval stage.

1. Click **Next** in the **Assessment Summary** screen for the application for which Account Approval stage has to be acted upon.

If the **Customer Type** is selected as **Individuals**,

The Collateral Perfection Details screen displays.

Figure 2-67 Collateral Perfection Details

2. Specify the fields on Collateral Perfection Details screen.

Table 2-55 Collateral Perfection Details – Field Description

Field	Description
Applicant Name	Displays the applicant name.
Date of Birth	Displays the applicant's date of birth.
E-mail	Displays the e-mail id of the applicant.
Mobile	Displays the mobile number of the applicant.
Collateral ID	Displays the Collateral ID.
Collateral Description	Displays the description of the collateral.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Registration Authority	Specify the name of the registration authority.
Registration Request Date	Select the date when the registration is requested.
Registration Date	Select the date when the registration is completed.
Confirmation Date	Select the date when the registration is confirmed.
Registration Status	Specify the status of registration.
Registration Reference Number	Specify the registration reference number.

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

3. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

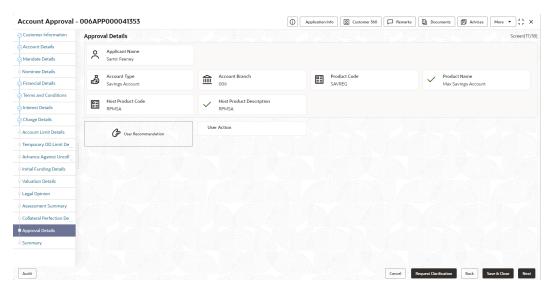

## 2.16.2 Approval Details

This topic provides the systematic instructions to view and approve the application.

 Click Next in previosu data segment to proceed with the next data segment, after successfully capturing the data.

The **Approval Details** screen displays.

Figure 2-68 Approval Details

2. Specify the details in the relevant data fields.

Note:

The fields, which are marked with an asterisk, are mandatory.

Table 2-56 Approval Details - Field Description

Field	Description
Applicant Name	Displays the applicant name.
Account Type	Displays the account type.
Account Branch	Displays the account branch.
Product Code	Displays the product code.
Product Name	Displays the product name.
Account Currency	Displays the account currency.
Host Product Code	Displays the host product code mapped to the business product.
Host Product Description	Displays the host product description mapped to the business product.
Application Details	Displays the applicant details.
OD Amount	Displays the final approved overdraft amount.
OD Tenure	Displays the final tenure for the approved overdraft amount.
Limit Type	Displays the limit type.
Rate Type	Displays the rate type for the approved overdraft amount.
Margin	Displays the margin percentage.
Effective Rate	Displays the effective rate for the approved overdraft amount.

Table 2-56 (Cont.) Approval Details - Field Description

Field	Description
User Recommendation	Select the user recommendation. Available options are: Approved Rejected
User Action	Displays the user action based on user recommendation.

3. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

### 2.16.3 Summary

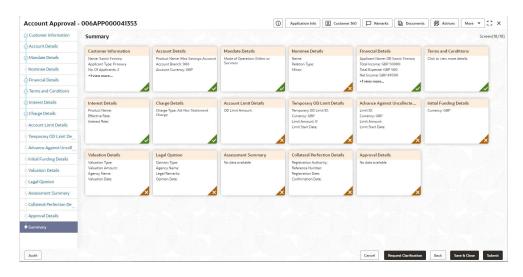

This topic provides the systematic instructions to view the tiles for all the data segments of the Savings Account Origination Process.

The Summary displays the tiles for all the data segments of the Savings Account Origination Process. The Tiles displays the important details captured in the specified data segment. It further allows to click on the specific tile to view the data segment and the details captured. You can additionally click on the data segment from the train on the left hand side to view the details of the data segment.

 Click Next in previous data segment to proceed with the next data segment, after successfully capturing the data.

The Summary screen displays.

Figure 2-69 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

Table 2-57 Summary - Account Approval - Field Description

Data Segment	Description
Account Details	Displays the account details.
Customer Information	Displays the customer information.
Stake Holder Details	Displays the stake holder details. This data segment appears only if the <b>Customer Type</b> selected as <b>Small and Medium Business (SMB)</b> .
Mandate Details	Displays the mandate details.
Nominee Details	Displays the nominee details.
Financial Details	Displays the financial details.
Interest Details	Displays the interest details.
Charge Details	Displays the charge details.
Account Limit Details	Displays the account limit details.
Temporary Overdraft Limit Details	Displays the Temporary Overdraft Limit details.
Advance against Uncollected Funds Details	Displays the Advance against Uncollected Funds details.
Initial Funding Details	Displays the initial funding details.
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion details.
Assessment Summary	Displays the assessment details.
Collateral Perfection Details	Displays the collateral perfection details.
Approval Details	Displays the approval details.

Supervisor can verify the KYC Verification status of the Customer from the Customer 360 in the Header. Only if the KYC Status is 'Success' will the application be allowed to proceed further. Click **Submit** to submit the Account Approval stage and proceed to submit the Account Opening request to Host.

Click Submit to reach the OUTCOME, where the overrides, checklist and documents for this stage can be validated or verified. The Overrides screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, the user can go back and correct the data to ensure overrides do not arise.

3. Click **Proceed Next**. The **Checklist** screen is displayed.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

- 4. Select the checkbox to accept the checklist.
- 5. Click Save & Proceed. The Outcome screen is displayed.
- 6. In the Outcome screen, select appropriate option from the Select to Proceed field.
  - Select the Proceed to proceed with the application. By default this option is selected.
    If the Proceed option is selected, then the application proceeds based on the
    assessment decision.
  - Select the Return to Application Entry Stage to make application entry stage available in free task for edit.

- Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
- Select the Return to Overdraft Limit Details to make overdraft limit details stage available in free task.
- Select the Return to Initial Funding Details to make account funding details stage available in free task.
- Select the Return to Application Underwriting Stage to make underwriting stage available in free task.
- Select the Reject by Bank to reject the submission of this application. The
  application is terminated, and an email is sent to the borrower or customer
  with a rejection advice.
- 7. Click **Submit**. The **Confirmation** screen is displayed.

On submission of this stage, the Workflow Orchestrator will automatically move this application to the next processing stage, **Account Create on Host** which has been automated. The account will be successfully created in Product Processer, if all the required validation is successful.

In case due to any error the account creation is rejected on Product Processer side, the application moves to the **Manual Retry Stage** 

# 2.17 Manual Retry Stage

This topic describes the information on the various data segments on the Manual Retry stage.

As mentioned earlier, this stage appears in the Free Task only if the Savings Account creation has been rejected by Product Processor and the User has the required access rights for the same.

The Manual Retry Stage comprises of the below data segment:

Manual Retry Data Segment

### **Manual Retry Data Segment**

Click **Acquire and Edit** in the **Free Tasks** screen for the application for which Manual Retry stage has to be acted upon.

# 2.18 Account Funding

This topic describes the process of initial funding of an account. This stage appears once the account is opened.

In this stage you can initiate fund for an account post account opening. This stage appears if the **Fund Post Account Opening** toggle is selected in the **Business Product Preference** data segment of the **Business Product Configuration** screen.

### To add funding details:

- 1. Scan the records that appears in the Free Task list.
- 2. Click **Acquire** and **Edit** or **Acquire** from the **Action** column of the appropriate record. The **Account Funding** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

Account Funding Details

This topic provides the systematic instructions to add the funding details post opening account is complete.

Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Account Funding stage

# 2.18.1 Account Funding Details

This topic provides the systematic instructions to add the funding details post opening account is complete.

In this data segment you can provide funding details to fund already created account. The Account Number and Account Name appears in the repective fields.

4. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message or highlights the mandatory fields for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

# 2.18.2 Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Account Funding stage

The Summary displays the tiles for all the data segments in the Account Funding stage. The tiles display the important details captured in the specified data segment. To view the summary of each stage and submit:

 Click Next in Account Funding Details screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-71 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-59 Summary

Data Segment	Description
Account Funding Details	Displays the account funding details.

Click Submit to reach the OUTCOME, where the overrides, checklist and documents for this stage can be validated or verified. The Overrides screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, the user can go back and correct the data to make ensure overrides do not arise.

Click Proceed Next. The Checklist screen is displayed.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

- 4. Click **Proceed**. The **Outcome** screen is displayed.
- 5. Click **Submit** to submit the application.

On successful submission the above pop-up appears and displays the next stage in which the application has moved. Application Reference Number and the Process Reference Number is also displayed.

# 2.19 Global Actions

This topic provides the detailed on the actions that can be performed in all stages.

This section appears are the top of the right pane and is applicable for all the account opening stage. You can add, edit, view or delete the information from the respective section.

Below are the list of global actions:

Icon

You view the application number along with its product name.

Customer 360

You can view the customer details such as Name, CIF number and indication whether it is an existing customer.

Application Information

You can view the application information in this section.

Remarks

You can view the remarks.

Documents

You can upload and view the documents that are uploaded.>

Advices

You can view the advices that are shared with customer. Advices are generated post Application Entry stage is submitted.

Condition and Convenants

You capture conditions and convenants details for the loan applications.

Solicitor Details

You can add the solicitor details using this section.

Clarification Details

You raise the clarifications using this section.

## 2.19.1 Icon

You view the application number along with its product name.

Click it to view the Application Number and the Business Product detail.

The **Icon** screen is displayed.

Figure 2-72 Icon

## 2.19.2 Customer 360

You can view the customer details such as Name, CIF number and indication whether it is an existing customer.

 Click it to select the Customer ID of existing customer, and then view the Mini Customer 360.

The Customer 360 screen is displayed.

Figure 2-73 Customer 360

 The screen shows the list of Customer IDs in case of Joint Accounts. Select the specific Customer ID to view their Mini Customer 360. The CIF Numbers are populated in the Customer 360 screen only post the CIF number has been keyed in the Customer Information data segment.

# 2.19.3 Application Information

You can view the application information in this section.

1. Click **Application Info** to view the application information.

The **Application Information** screen is displayed.

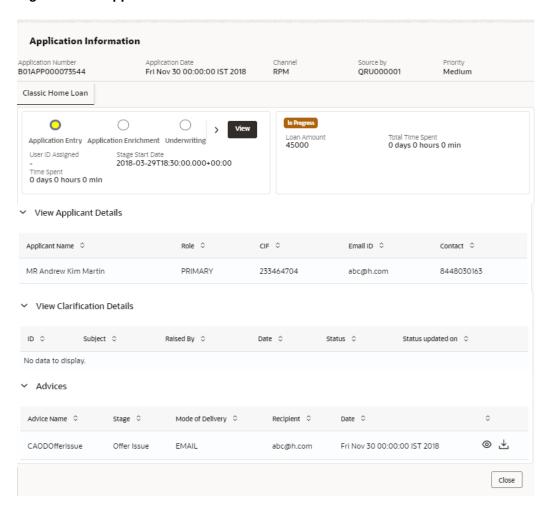

Figure 2-74 Application Information

The **Application Information** screen displays separate cards for various products initiated as part of the application. For more information on fields, refer to the field description table below.

Table 2-60 Application Information – Field Description

Field	Description
Application Number	Displays the application number.
Application Date	Displays the application date.
Source By	Displays the name of the user who has sourced the application.
Channel	Displays the channel name.
Priority	Displays the priority of the application.
	High
	Medium
	• Low
<product name=""></product>	Displays the product name.
<account opening<br="">Stages&gt;</account>	Displays the account opening stages in the train stop format along with the status of the respective stage.

Table 2-60 (Cont.) Application Information – Field Description

Field	Description
User ID Assigned	Displays the <b>User ID</b> of the user currently working on the product process.
	<b>NOTE:</b> This is blank, in case the product process task is not acquired by any user.
Time spent	Displays the days spent in the current phase/stage.
Stage Start Date	Displays the start date of the current stage. It also display time in hours, mins and seconds.
View	Click the <b>View</b> button to view the data segment of the respective stage. The overview of the data segments appears in tile. Click on the tile to view futher details of that data segment.
<status application="" of="" the=""></status>	Display the status of the application.
Account Opening Date	Displays the date on which the account is opened. This field appears once the account opening process is completed.
Account Number	Displays the account number. This field appears once the account opening process is completed.
<relavant amount=""></relavant>	Displays the value based on the product. For example,
	<ul> <li>For the loan account opening application, the label of this field appears as Loan Amount.</li> <li>For the saving account optning application, the lable of this field</li> </ul>
	appears as Initial Funding Amount.
View Applicant Details	In this section you can view the applicant details of all the applicants involved in the application.  Below field appears with the respective applicant details:  Applicant Name  Role  CIF  Email ID  Contact Number
View Clarification Details	In this section you can view the clarification history.
	Below fields appear with the details:  ID  Subject Raised By Date Status Status  Status updated on On the click of the respective record the user can view the clarifiation content.
Advices	In this section you view the advices generated in the process of account opening.  Below fields appear with the details:  Advice Name  Stage  Mode of Delivery  Recipent  Date  You can View and Download on clicking the respective icons.

2. Click Close to close window.

## 2.19.4 Remarks

You can view the remarks.

 Click Remarks to update any remarks that you want to post for the application that you are working on.

The **Remarks** screen is displayed.

Figure 2-75 Remarks

Remarks posted are updated with your User ID, Date, and are available to view in the next stages for the users working on that application.

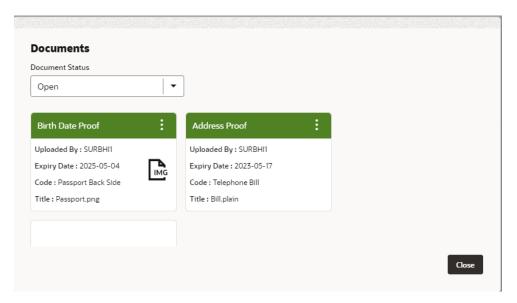

## 2.19.5 Documents

You can upload and view the documents that are uploaded.>

1. Click **Documents** to upload the documents linked for the stage.

The **Documents** screen is displayed.

Figure 2-76 Documents

- 2. Select the document status to filter the document based on the status. The available options are All, Open and Deleted.
- 3. Click

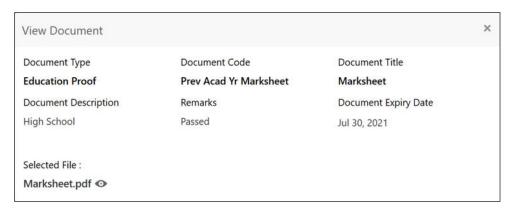

on the Document tile to view, download and delete the document.

4. Click **View** to view the document.

The View Document is displayed.

Figure 2-77 View Document

- Click **Download** to download the document.
- 6. Click **Delete** to delete the document.

Deleted Documents is displayed as Icon, but the user cannot view the document.

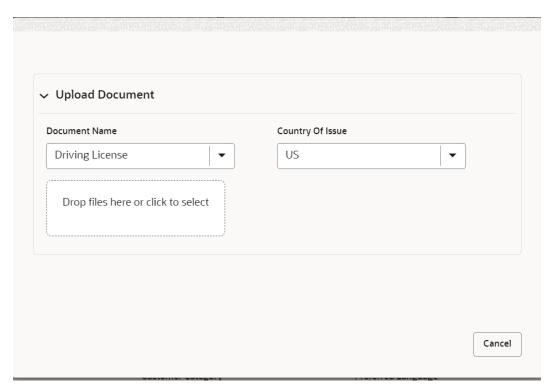

7. Click

to upload the new document to the application.

The **Upload Document** screen is displayed.

Figure 2-78 Upload Document

8. Specify the details in the relevant data fields. For more information on fields, refer to the Upload Document – Field Description.

Table 2-61 Upload Document - Field Description

Field	Description
Document Type	Select the document type.
Document Code	Select the document code.
Document Title	Specify the document title.
Document Description	Specify the description for the document.
Remarks	Specify the remarks for the document.

Table 2-61 (Cont.) Upload Document – Field Description

Field	Description
Document Expiry Date	Select the document expiry date.
Drop files here or Click to select	Drag and drop the document or
	Select the document from the machine.
Upload	Click <b>Upload</b> to upload the document.

## Note:

Ensure that mandatory documents are uploaded, as the system will validate the same during the stage submission.

Mandatory documents can only be deleted in the same stage where it is uploaded.

Non-mandatory documents can be deleted in any stage.

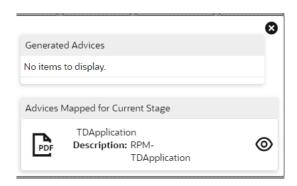

## 2.19.6 Advices

You can view the advices that are shared with customer. Advices are generated post Application Entry stage is submitted.

Click Advices to view the advice linked for the stage.

The Advices screen is displayed.

Figure 2-79 Advices

The system will generate the advice on submission of the stage. For Application Entry stage of Current Product, no advice is configured.

## 2.19.7 Condition and Convenants

You capture conditions and convenants details for the loan applications.

In this section you can add, edit and remove the condition and convenant details .

**Conditions** 

The Conditions are stipulations and constraints recorded in a contract to restrict the usage of funds, in order to ensure proper utilization of funds for the specified purposes and to adhere to a stipulated schedule.

### To add conditions:

 From the More option, click the Conditions & Covenants to add or remove the conditions details.

The **Conditions & Covenants** page appears.

Figure 2-80 Conditions

2. Click Add to add new conditions.

#### OR

Click **Remove** to remove already added conditions.

3. Enter the relevant details.

**Table 2-62 Conditions – Field Description** 

Field	Description
Entity	Select the entity on which you want to set condition.
	The available options are
	• Party
	Collateral
Entity ID	Select the entity ID from the list. The options in the list appears based on the entity selected in the <b>Entity</b> field.
Condition	Specify the conditions for the selected entity.
Туре	Select the type when the conditions must be complied.
	The available options are
	Pre Disbursement: If you select this option then the selected conditions have to be complied prior with the account opening and loan disbursement.
	Post Disbursement: If you select this option then the selected conditions occur and are supposed to be complied post loan disbursement. This conditions are manually monitored.
Status	Select the status of the condition.
	The available options are
	• Open
	Complied

4. Click **OK**. The conditions are saved.

All the fields appears with the selected options in tabular format. You can edit the details on clicking the added row.

### **Convenants**

Often there are restrictions on borrowers while extending credit facilities. Sometimes, a borrower promises certain future acts to assure the lender that the conduct of business dealings is fair, healthy and in accordance with the best practices. The purpose of covenant is to assist the lender to ensure the health of loan facilities does not deteriorate suddenly or unexpectedly before maturity.

## To add convenants:

**5.** From the **More** option, click **Conditions & Covenants** to add or remove the covenants details.

The Conditions & Covenants page appears.

Figure 2-81 Convenant

6. Click Add to add new convenants.

### OR

Click **Remove** to remove already added convenants.

7. Enter the relevant details.

**Table 2-63 Application Information – Field Description** 

Field	Description
Entity	Select the entity on which you want to set convenants.  The available options are
	Party     Collateral
Entity ID	Select the entity ID from the list. The options in the list appears based on the entity selected in the <b>Entity</b> field.
Convenants	Specify the convenants for the selected entity.
Туре	Select the type when the convenants must be complied.  The available options are  Financial Reporting Undertaking

Table 2-63 (Cont.) Application Information – Field Description

Field	Description
Status	Select the status of the convenants.  The available options are
	<ul><li>Open</li><li>Complied</li></ul>

8. Click **OK**. The covenants are saved.

All the fields appears with the selected options in tabular format. You can edit the details on clicking the added row.

## 2.19.8 Solicitor Details

You can add the solicitor details using this section.

A solicitor is a legal practitioner who traditionally deals with most of the legal matters in some jurisdictions. A person must have legally-defined qualifications, which vary from one jurisdiction to another, to be described as a solicitor and enabled to practice there as such.

In this section you can add or remove the solicitor. You can also view the already added solicitor.

## To add solicitor details:

 From the More option, click the Solicitor to add or remove or edit the already added solicitor.

he Solicitor Details page appears.

Figure 2-82 Solicitor

2. Enter the relevant details.

Table 2-64 Solicitor - Field Description

Field	Description
Title	Select the title of the solicitor.

Table 2-64 (Cont.) Solicitor – Field Description

Field	Description
First Name	Specify the first name of the solicitor.
Middle Name	Specify the middle name of the solicitor.
Last Name	Specify the last name of the solicitor.
Gender	Select the gender of the solicitor from the list.
Date of Birth	Select or enter the birth date of the solicitor.
Registration Number	Specify the registration number of the solicitor.
Communication Address	Capture the communication address of the solicitor.
Address Line 1	Specify the building name.
Address Line 2	Specify the street name.
Address Line 3	Specify the city or town name.
State / Country Sub Division	Specify the state or country sub division.
Country	Select and search the country code.
Zip Code / Post Code	Specify the zip or post code of the address.

3. Click **OK** to save the added solicitor.

# 2.19.9 Clarification Details

You raise the clarifications using this section.

### To add the clarification details:

- Click Clarification Details to raise a new customer clarification request or view the existing request.
- 2. Click **New Clarification** to request new clarification.

The **New Clarification** screen is displayed.

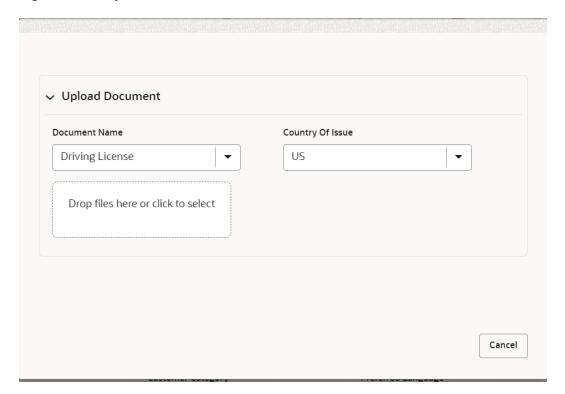

Figure 2-83 New Clarification

Enter the subject and the clarification detail in the New Clarification Pop-up screen. The system also allows you to upload the document for the Clarification being raised.

Figure 2-84 Upload Documents

4. Once the details are updated, click Save. Clarification Request once raised moves the application to 'Awaiting Customer Clarification' state. The application continues to be assigned to the user who had raised the request. All the applications for which the specified user has requested clarification can be viewed and actioned from the Awaiting Customer Clarification sub-menu available under Task menu.

Select the Application from the **Awaiting Customer Clarification** sub-menu available under the **Task** menu. Click on the **Clarification Details** from the header.

5. Select the specific clarification to take action on it.

Allowed actions are as following:

- Adding New Conversation
- Withdraw Clarification
- Accept Clarification

Once the Clarification is either withdrawn or accepted, the application moves back to the **My Task** sub-menu available under **Task** menu, post which the user can edit the application and submit the specified stage. Clarification once raised and actioned are available throughout the application processing by the other users working on the other stages of the application by clicking on **Clarification Details** from the header.

3

# Instant Savings Account Origination Process

This topic describes the information about Instant Savings Account Origination Process.

Additional Instant Business Process is available wherein various stages in the Reference Flow for Savings Account have been automated.

This allows Instantaneous Account origination from Self-Service Channel such as Oracle Banking Digital Experience for existing Customer who are KYC Compliant and New Customers for whom KYC is completed in Oracle Banking Digital Experience. KYC Type supported for the STP is Identification and Address only and the same has to be configured in Oracle Banking Party Module.

Refer the **Retail Onboarding User Guide** for more details.

Based on whether the Application is initiated by self-service channel or by a Branch personnel the automatic submission of the stages or skipping of the stages are done by the system.

This process is not applicable for Small and Medium Business customers.

### Prerequisite:

- For the automatic submission to work, it is expected that document and checklist are not configured in any of the stages.
- Initial Funding is either not taken for the Account or taken as Account Transfer for which
  the mode configured has to be H which represents that the selected Account will be
  debited by the Host as part of the Account Opening Process (Allowed for both SelfService Channel and Branch Initiated Applications) or Initial Funding is taken via External
  Bank Account Transfer on self-service channel (This mode is not allowed for Branch
  Initiated Applications).

For more details, refer to **Initial Funding Configuration** topic in the **Configurations User Guide**.

In the Instant Savings Account Origination Reference Business Process, the stages that are configured are mentioned below.

 Application Entry Stage: On successful submission of the Savings Account Application from self-service channel, the system starts the Application Entry stage without any manual intervention and completes the data segment level validation. On successful completion of the validation, the system automatically submits the Application Entry stage. Similarly, for the Branch initiated Application also this stage is automatically submitted, if the data segment configured for Application Entry stage are updated in the **Application Initiate** stage itself by clicking the **Application** button in the **Product Details** data segment.

- Account Funding Stage: On successful submission of the Application Entry stage, system checks if Initial Funding is updated for the Account Opening or not.
  - The initial funding mode allowed for self-service initiated applications are External Bank Account Transfer and Account Transfer.
  - If the Initial Funding has been taken for the Account via the External Bank Account Transfer in the self-service channel, the system starts the Application Funding Stage and validates the Initial Funding Details data segment and submits the Application Funding Stage automatically.
  - For Application where the **Initial Funding** is updated as Account Transfer or where no funding has been taken for the Account, this stage is skipped completely by the system for Application initiated from Self-Service Channel and Branch Initiated Applications.
  - For the Branch Initiated Applications wherein the Initial Funding has been taken in Cash or Other Bank Cheque, this stage has to be manually actioned by the Branch User having access permission for this stage.
- Application Approval Stage: System skips this stage for self-service initiated application and submits the application directly to the Product Processor for Account Creation.
  - However, for Branch initiated Application considering the 4-eye principle, system expects the application to be approved by a Supervisor. Hence this stage, will have to be picked and actioned by the Supervisor User. Supervisor User can either approve or reject the Application. On submission of this stage by selecting **Approve** outcome, system submits the Application to the Product Processor for Account Creation.
- Handoff Retry: Application moves to this stage and appears in the Free Task only
  if the Savings Account creation has been rejected by Product Processor. The user
  having the required access rights can pick such task and can retry submission to
  Host after taking required actions on the Failure reason.

4

# Regional Configuration

This library describes the regional configuration.

Oracle Banking Origination (OBO) has an ability to configure different geography requirements across varied implementation. Using the regional configurator feature, users are configured and enabled for a given Entity ID such as Default and Region Code.

The region specific configurations helps to ensure the workflows adhere to the geography practices, in terms of data capture and visualizations of the application screens. This model supports a framework which is used across OBMA domains to achieve specific end user experience.

Following region specific configuration are implemented:

- Ability to set non-mandatory field to mandatory
- Ability to set a field mandatory based on another field
- Hiding a field
- Capability to maintain LOV by geography
- Capability to maintain default value in LOV for a given geography

This chapter describes US region specific configuration which are implemented in OBO.

The fields in below table are defaulted to the respective value from backend. These fields hidden on UI.

Table 4-1 Defaulted Values and Hidden on UI

Field	Description
Preferred Currency	Defaulted to USD.
	Appears in the Customer Information data segment of the Application Entry stage.
Account Currency	Defaulted to USD.
	Appears in the Account Details data segment of the Application Entry stage.
Customer Category	Defaulted to Individual customer type.
	Appears in the Customer Information data segment of the Application Entry stage.
Country of Residence	Defaulted to US.
	Appears in the Customer Information data segment of the Application Entry stage.
Phone Banking	Defaulted to No.
	From the Account Service Preferences data segment.
Direct Banking	Defaulted to No.
	From the Account Service Preferences data segment.

Table 4-1 (Cont.) Defaulted Values and Hidden on UI

Field	Description
Kisok Banking	Defaulted to No.
	From the Account Service Preferences data segment.
Passbook	Defaulted to No.
	From the Account Service Preferences data segment.

The fields in below table are not applicable for US region.

**Table 4-2 Not Applicable** 

Field	Description
Name in Local Language	From in the Customer Information data segment of the Application Entry stage.
Citizenship By	From the Customer Information data segment of the Application Entry stage.
Birth Country	From the Customer Information data segment of the Application Entry stage.
Nationality	From the Customer Information data segment of the Application Entry stage.
Preferred Languauge	From the Customer Information data segment of the Application Entry stage.
Details Of Special Need	From the Customer Information data segment of the Application Entry stage.
Remark for Special Need	From the Customer Information data segment of the Application Entry stage.
Relationship Manager ID	From the Customer Information data segment of the Application Entry stage.
Additional Info	From all the Address section where applicable.
APY (in %)	From the Interest Details data segment.

The fields in below table are used with US nomenclature in the respective screen.

**Table 4-3 Nomenclature** 

Field	Description
State/ Country Sub	The label is changed to State.
Division	Appears in the below stages:
	In the Address Details sections of the Customer Information data segment in the Application Entry stage.
	In the Address Details sections of the Beneficiary Details data segment in the Application Entry stage.
Cheque	The label appears as Check.
	Appears in the Account Details data segment of the Application Entry stage.
	Appears in the Account Service Preferences data segment.

Table 4-3 (Cont.) Nomenclature

Field	Description
Checking Account	Current Account product name appears as Checking Account. Appears as mentioned below: In maintenance process Core Maintenance - Process Code screen Retail Maintenance - Business Process Configuration and Business Product Configuration In onboarding process Product Catalogue - while initiating and selecting product for an account opening application Value of Account Type field - Impacted data segment appears in the respective stage as per configured. In Account Details or Product Details tile of the Summary data segment of the respective stage. Notification Messages Warning Messages Frocess Name in the Free Task screen. Global Actions - Application Info and Application Tracker Dashboard widget of the respective product Email Communication All the Advices
National ID	The label appears as SSN. Appears in the Customer Information data segment of the Application Entry stage. Appears in the Customer Information data segment.
Resident Status	The lable appears as Citizenship Status. The Citizen option also appears for selection in the drop-down list. Appears in the Customer Information data segment of the Application Entry stage. Appears in the Customer Information data segment.
Nominee Details	The lable appears as Beneficiary Details. This data segment appears in the Application Entry stage.

The fields in the below table are applicable for US region only.

Table 4-4 Region Specific

Field	Description
Payable on Death / Transferable on Death	Specify whether the amount is payable or transferable on the death of the applicant to the added nominee.
Tax Declaration	In this section you can update the tax declaration details. This section appears at below location  Customer Information data segment  While onboarding customer

Table 4-4 (Cont.) Region Specific

Field	Description
Form Type	Specify the form type for tax declaration.  If the <b>Non Resident Alien</b> option is selected from the <b>Citizenship Status</b> drop-down list then the <b>Form Type</b> is defaulted to <b>W8-BEN</b> and disable.
	If the Citizen or Resident Alien option is selected from the Citizenship Status drop-down list then the Form Type is defaulted to W9 and disable.
Valid From	Specify the date from which the form is valid.
Valid Till	Specify the date on which the document is expired.
Remarks	Specify the remarks.

SIGNIFICANT CHANGES

You have advised us that there are no foreseeable significant changes to your circumstances that will affect

your ability to meet your contracted repayments. You have advised us that significant changes to your circumstances may

occur that could adversely affect your ability to meet your contracted repayments and you have plans in place to ensure that  $\frac{1}{2} \int_{-\infty}^{\infty} \frac{1}{2} \left( \frac{1}{2} \int_{-\infty}^{\infty} \frac{1}{2} \left$ 

you will be able to continue to make repayments if these circumstances occur.

Privacy Statement

We would like to inform you that:

Purpose of collection

Personal information is information about an identifiable individual and includes facts or an opinion about  $\[$ 

you which identifies you or by which your identity can be reasonably determined. The collection of your

personal information is essential to enable us to conduct our business of offering and you with our range of  $\,$ 

financial products and services.

We collect personal information for the purposes of:

identifying and protecting you when you do business with us establishing your requirements and providing the  $\ensuremath{\mathsf{N}}$ 

appropriate product or service setting up, administering and managing our products and services assessing and

investigating and if accepted, managing a claim made by you under one or more of our product and training and

developing our staff and representatives. We may be required by law to collect your personal information.

These include, but are not limited to, anti-money laundering and taxation laws.

Consequences if personal information is not provided

If we request personal information about you and you do not provide it, we may not be able to provide you with

the financial product or service that you request, or provide you with the full range of services we offer.

#### Disclosure

We use and disclose your personal information for the purposes we collected it. We may also use and disclose

your personal information for a secondary purpose that is related to the purpose for which we collected it.

This would happen in cases where you would reasonably expect us to use or disclose your personal information

for that secondary purpose. In the case of sensitive information, any secondary purpose, use or disclosure

will be directly related to the purpose collection.

When necessary and in connection with purposes of collection, we may disclose your personal information to  $\,$ 

and/or collect your personal information from:

Other companies within the. Where required or authorized under our relationship with our joint venture

companies. Information technology providers, including hardware and software vendors and consultants such

as programmers research and development service providers your advisers, agents or representatives our

advisers, agents or representatives if required or authorized to do so, regulatory bodies and government

agencies financial advisers lenders' mortgage insurers and values credit reporting agencies legal and other

professional advisers printers and mail house service providers manufacturers for plastic card production

(e.g. debit and credit cards) external dispute resolution schemes.

### Disclosure overseas

There are also instances where we may have to send your personal information overseas or collect personal  $\,$ 

information from overseas. These instances include: sending your personal information to companies in the

group. When you have asked us to do so when we are authorised or required by law to do so when we have

outsourced a business activity or function to an overseas service provider with whom we have a contractual  $\ensuremath{\mathsf{N}}$ 

arrangement certain electronic transactions or when it is necessary in order to facilitate a transaction  $\$ 

on your behalf. We will only send your personal information overseas or collect personal information about  ${\bf v}$ 

you from overseas for the purposes in this statement.

### Access

You can request access to the personal information we hold about you by contacting us. In some circumstances,

we are able to deny your request for access to personal information. If we deny your request for access, we

will tell you why. If accessing your personal information will take an extended period of time, we will inform

you of the likely delay. For more detailed requests for access to personal information, for example, access to

information held in archives, a fee may be charged to cover the associated cost of retrieval and supplying this information.

### Marketing

We would like to use and disclose your personal information to keep you up to date with the range of products

and services available from. Generally, our companies in the group will use and disclose your personal

information for  $\prime$ s marketing purposes. If you do not want us to use and disclose your personal information

for the purpose of marketing products and services to you, you should contact us and tell us.

#### Contact.

#### Please contact us to:
