Purpose

This topics describes the current account opening process.

Welcome to the **Current Account Origination** user guide for Oracle Banking Origination. This document provides an overview of the Current Account Origination process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a Current Account Origination.

Audience

This user guide is intended for the Relationship Managers (RMs) and Sales Officers in-charge of sourcing the Current Account Products from prospect and customer of the bank. This user guide is also intended for the other bank personas such as Bank Operations Manager, Account Opening Officers or Branch Managers who may handle the specific stages of the lifecycle of the Current Account Origination process based on the bank's internal operation and policies.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to

build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Acronyms and Abbreviations

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

Table Acronyms table

Abbreviation	Description
DS	Data Segment
System	Oracle Banking Origination Module
OBA	Oracle Banking Accounts
OBO	Oracle Banking Origination

	Alerts

Basic Actions

Table Basic Actions

Actions	Functions
Request Clarification	Used to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer. For more information on Request Clarification, refer to the section Request Clarification.
Back	Used to navigate to the previous data segment within a stage.
Next	Used to navigate to the next data segment, after successfully capturing the data. The system validates all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. Users will not be able to proceed to the next data segment, without capturing the mandatory data.
Save & Close	Used to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.

Table (Cont.) Basic Actions

Actions	Functions
Cancel	Used to close the application without saving. This task appears in Free Task, once the transaction is canceled.

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1

Overview

This topic describes the information on the various features of the current account origination process.

Product Introduction

Oracle Banking Origination is the middle office banking solution with a comprehensive coverage of account opening processes of the below product for both Individual as well as Small and Medium Business type of customers:

- Saving Account
- Current Account
- Term Deposit Account
- Credit Card Account
- Retail Loans Account

It is a Host-Agnostic solution

It enables banks to deliver the improved user experience for various bank persons such as Sales Officers, Relationship Manager, Account Opening Officers, Branch Supervisor/Managers, Loan Officers, and Credit Officers and more, handling defined functions in the lifecycle of the various product origination.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business-driven, is hosted and architected by our new platform solution. The random access navigation between data segments within a given stage are with appropriate validations helps to enable the business user to capture apt information anytime during the account open process before created account in the Host. The new workflow supports capturing relevant documents, stage-wise, and the generation of advice and notifications dynamically.

The account opening request is initiated by authorized branch user or relationship managers or by approved bank agents, either through the traditional branch channel or through dedicated protocol services. These services are available on digital devices like tablets or mobiles. The account opening request can be initiated for both both new and existing customer types. Also, the system supports the processing of the account opening request from the customer directly received from the Self-Service Banking Channel (Oracle Banking Digital Experience) through the REST-based service APIs.

This user guide explains the workflow for the Current Account Origination process and further details the data that needs to capture in the data segment linked to the specific stages.

Initiating Current Account Opening Process

This topic describes the information on the defined stages through which the Current Account Application has to flow before it is ready to be sent to the Host for Account Creation.

As detailed in the **Operations User Guide**, the account opening applications of all product are initiated in the application initiation stage from the Product Catalogue. The Cart Operation in Product Catalogue allows to originate, Single or Multiple Product initiation. Once the current account product origination process is initiated either by a single product origination or multiple product selection, the process orchestrator generates the current account process reference number on submit of application initiation stage. The process orchestrator updates the record in the free task process for the 'Application Entry' stage and is referred to as task from the orchestrator perspective.

To acquire and edit respective stage:

1. From **Home** screen, click **Tasks**. Under **Tasks**, click **Free Tasks**. The **Free Tasks** screen is displayed.

2. Click **Acquire & Edit** from the Actions column against the stage which user wants to update.

The Current Account Origination Process flow comprises of the below stages and the detailed information of the same is available in the below sections:

- [Application Entry Stage](#)
This topic describes the information on the various data segments to capture the required data in the Application Entry stage.
- [Overdraft Limit Details Stage](#)
This topic describes the information on the various data segments to capture the required data for the Overdraft Limit Details stage.
- [Application Enrichment Stage](#)
This topic describes the information on the various data segments to view and update the required data for the Application Enrichment stage.

- [Account Funding](#)
This topic describes the process of initial funding of an account. This stage appears once the account is opened.
- [Underwriting Stage](#)
This topic describes the information on the various data segments to access the credit rating and capture the required data for the Underwriting stage.
- [Application Assessment](#)
This topic describes the information on the various data segments to update the required data and assess the application in the Application Assessment stage.
- [Manual Credit Assessment Stage](#)
This topic describes the information on the various data segments to assess the application manually in the Manual Credit Assessment stage.
- [Manual Credit Decision Stage](#)
This topic describes the information on the various data segments to review and approve the application manually in the Manual Credit Decision stage.
- [Account Parameter Setup Stage](#)
This topic describes the information on the various data segments to setup the required account parameters in the Account Parameter Setup stage.
- [Supervisor Application Approval Stage](#)
This topic describes the information on the various data segments to view and approve the price change in the Supervisor Application Approval stage.
- [Offer Issue Stage](#)
This topic describes the information on the various data segments to generate the offer in the Offer Issue stage.
- [Offer Accept / Reject Stage](#)
This topic describes the information on the various data segments to accept / reject the offer in the Offer Accept / Reject stage.
- [Post Offer Amendment Stage](#)
This topic describes the information on the various data segments to request for amendment of overdraft in the Post Offer Amendment stage.
- [Application Approval Stage](#)
This topic describes the information on the various data segments to view the captured details and approve the application in the Application Approval stage.
- [Manual Retry Stage](#)
This topic describes the information on the various data segments on the Manual Retry stage.
- [Account Funding](#)
This topic describes the process of initial funding of an account. This stage appears once the account is opened.
- [Global Actions](#)
This topic provides the detailed on the actions that can be performed in all stages.

2.1 Application Entry Stage

This topic describes the information on the various data segments to capture the required data in the Application Entry stage.

Based on the access configuration, user can view the records in **Free Task**. In this stage user can capture the details that are required to open a current account. This stage is automatically submitted on below conditions:

- If the bank level configuration for allowing the full application submission is set as **Yes**.
- If the user captures the required details in all the data segments of the **Application Entry** stage as part of the **Application Initiation** stage on clicking the **Application** button in the **Product Details** data segment.

To open Current Account Application Entry task:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Current Account Application Entry** stage is displayed.

The data segments appears as configured in business process. Refer below sections for detailed information of each data segment.

- [Applicant](#)
This topic provides the systematic instructions to capture the customer-related information for the application.
- [Account Details](#)
This topic provides the systematic instructions to view and modify the account details.
- [Stake Holder Details](#)
This topic provides the systematic instructions to capture the stake holder details related information for the business.
- [Financial Details](#)
This topic provides the systematic instructions to capture the financial details of a single customer or multiple customers in case of joint applicants.
- [Collateral Details](#)
This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.
- [Nominee Details](#)
This topic provides the systematic instructions to capture the details of the nominee for the account.
- [Summary](#)
This topic provides the systematic instruction to view the tiles for all the data segments in the Application Entry Process.

2.1.1 Applicant

This topic provides the systematic instructions to capture the customer-related information for the application.

The **Applicant** data segment displays the details captured for the customer in the Application Initiate stage and allows updating further fields for supplementing the customer related information.

- [For Individual Customer Type](#)
The topic describes the process to capture or edit customer information of Individual type of customer.
- [For Small and Medium Business \(SMB\) Customer Type](#)
The topic describes the process to capture or edit customer information of Small and Medium Business type of customers.

2.1.1.1 For Individual Customer Type

The topic describes the process to capture or edit customer information of Individual type of customer.

To capture applicant details:

1. In the Current Application Entry stage, update the customer details in the Applicant data segment based on the respective customer type.

The **Applicant - Individual** screen displays.

- Specify the relevant details in data fields. The fields which are marked as **Required** are mandatory. For more information on fields, refer to the field description table below:

For more information on the fields, refer to the field description table below:

Table 2-1 Applicant- Individual – Field Description

Field	Description
Applicant Role	Displays the applicant role. By default the Primary role appears in this field. Select the applicant role incase user add multiple applicant in single application.
Add Applicant By	Select the mode from which the user need to add new applicant. The available options are: • Upload ID - Using this option user can upload identification document of the applicant to extract the details. • Search Existing Customer - This option is used if the applicant is an existing customer of the bank. On selecting the existing customer, the details appears in the respective sections which are already stored. • Enter Manually - This option is used if user wish to enter all the applicant details manually.
Document Name	Select the document which is used from extracting applicant details. The available options are: • State Issued Drivers License • Passport This field appears if the Upload ID option is selected from the Add Applicant By drop down list.
Country of Issue	Select the country in which the document is issued. This field appears if the Upload ID option is selected from the Add Applicant By drop down list.
Select and Drop here	Drag and drop the document file or click on Select or drop files here to browse and upload the document from the local system. PNG & JPEG file formats are supported. 10MB maximum file size is allowed. This field appears if the Upload ID option is selected from the Add Applicant By drop down list.
CIF Number	Search and select the CIF number. This field appears if the Search Existing Customer option is selected from the Add Applicant By drop down list. Once the CIF number is selected, the system identifies whether the entered CIF number matches the Office of Foreign Assets Control (OFAC) list. If response is positive then an error appears stating the selected CIF is of an Invalid Customer Status . The account opening process is not initiated with that customer.
Advanced Search	Click this button to perform party using advance parameters. For more information on advance search, refer the Advanced Search section below. This field appears if the Search Existing Customer option is selected from the Add Applicant By drop down list.
Basic Details	In this section the user can manually capture the basic details of applicant. This section appears if the Enter Manually option is selected from the Add Applicant By drop down list.
Title	Select the title of the applicant from the drop-down list.
First Name	Specify the first name of the applicant.
Middle Name	Specify the middle name of the applicant.
Last Name	Specify the last name of the applicant.

Table 2-1 (Cont.) Applicant- Individual – Field Description

Field	Description
Suffix	Specify the suffix for the applicant. This options in this list appears based on the configured entity code in the Oracle Banking Party product.
Name In Local Language	Specify the applicant's name in their local language.
Gender	Specify the Gender of the applicant from the drop-down list.
Date of Birth	Select the date of birth of the applicant.
National ID	Specify the national identification code of the applicant.
SSN	Specify the SSN code of the applicant.
Resident Status	Select the residential status of the applicant from the drop-down list. Available options are: • Non-Resident Alien • Resident Alien • Citizen
Citizenship Status	Select the citizenship status of the applicant from the drop-down list. Available options are: • Non-Resident Alien • Resident Alien • Citizen
County of Residence	Search and select the country code of which the applicant is a resident.
Birth Country	Specify the birth country of the applicant.
Birth Place	Specify the birth place where the applicant has born.
Nationality	Search and select the country code where the applicant has nationality.
Citizenship By	Search and select the country code for which applicant has citizenship.
Marital Status	Select the marital status of the customer from the drop-down list. Available options are: • Married • Unmarried • Legally Separated • Widow • Registered Domestic Partnerships This field appears mandatory based on the product configuration.
Customer Segment	Select the segment of the customer. Available options are: • Emerging Affluent • High Net worth Individuals • Mass Affluent • Ultra HNI • Very HNI
Customer Category	Select the category of the customer.
Preferred Language	Select the preferred language.
Preferred Currency	Select the preferred currency.

Table 2-1 (Cont.) Applicant- Individual – Field Description

Field	Description
Details Of Special Need	Select the special need details. Available options are: • Blindness • Cerebral Palsy • Low vision • Locomotor disability • Leprosy-cured • Mental retardation • Mental illness • Hearing Impairment
Remarks For Special Need	Specify the remarks for the special need selected.
Relationship Manager ID	Search and select the Relationship Manager ID for the applicant.
Staff	Select the toggle to indicate if the customer is employee of the bank.
Profession	Select the profession of the customer.
Politically Exposed Person	Select to indicate if the customer are politically exposed person.
Profile Photo	Drag and drop the document file or click on Select or drop files here to browse and upload the document from the local system. PNG & JPEG file formats are supported. 10MB maximum file size is allowed.
Signatures	In this section you can add new signature and view the already added signature of the customer. Click the Add Signature button to select the file to upload signature. Click Cancel button to discard the added details. On Submit , signature will be handed off to Oracle Banking Party.
Upload Signature	Drag and drop the signature file or click on Select or drop files here to browse and upload the signature from the local system. PNG & JPEG file formats are supported. 10MB maximum file size is allowed.
Uploaded Signature	Displays the uploaded signature.
Remarks	Specify the remarks related to the signature. Click Save to save the uploaded file.
Signature ID	Displays the Signature ID for the added signature along with the image and remark.
Action	Click Edit to edit the added signatures  Click  to delete the added signatures.
Address	This section displays the added address of the applicant. It is mandatory to add communication address of the applicant. Click the Add Address button to add address details.  Click  to perform below actions on the added address details, • To view the address details, click View. • To edit the address details, click Edit. • To delete the address details, click Delete.
Address Type	Select the address type for the applicant from the drop-down list. • Residential Address • Communication Address

Table 2-1 (Cont.) Applicant- Individual – Field Description

Field	Description
Location	Select and search the location.
Current Address	Select to indicate if you want to mark entered address as current address type.
Preferred Address	Select to indicate if you want the selected address type as preferred address type. This field is non editable if the No option is selected in the Current Address field.
Address Since	Select the date from when you are connected with the given address.
Address Till	Select the date till when you were connected with the given address. This field appears if the No option is selected in the Current Address field.
Address	Specify the address to search for the already captured address. Based on the configuration, on entering a few letters, the system fetches the related address that is already captured. Based on the selection, the fields are fetched in the address section.

Click **No** to edit financial details and proceed.

2.1.5 Collateral Details

This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.

Collateral details is a data segment to capture the collateral which is offered by the customer as security for Overdraft limit. Collateral details will be sent to the host to be made available under local collateral. The relevant service APIs will be made available for both Push and Pull details of collaterals.

Capturing of Collateral details in Oracle Banking Origination is also enabled with an option to onboard collateral using the Oracle Banking Credit Facility Process Management integration services. In such cases, the collateral details will be sent to the Collateral onboarding systems for performing the Valuation, obtaining the Legal opinion and recording the perfection details. These details will be made available on Oracle Banking Origination in the respective Data segments in read only mode.

To add the collateral details:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
2. Click **Add Collateral** to capture the collateral details.

The **Collateral Details** screen displays.

Figure 2-15 Collateral Details

The screenshot displays the 'Collateral Details' screen in the Oracle Banking Origination system. The screen is titled 'Application Entry - 006APP000048188'. The left sidebar contains a navigation menu with options: Customer Information, Relationships, Customer Consent and..., Mandate Details, Financial Details, Collateral Details (selected), Nominee Details, Terms and Conditions, and Summary. The main area is divided into several sections:

- Collateral Details Header:** Includes 'Collateral Type' (Property) and 'Category' (Residential Property).
- Collateral Description:** Includes 'Collateral Description' (residential home), 'Collateral Type' (Property), 'Category' (Residential Property), 'Collateral Value' (GBP 640,000.00), and 'Owners' (MR query query).
- Primary Collateral:** Includes 'Collateral Type' (Property), 'Category' (Residential Property), 'Collateral Branch' (006), 'Liability Description' (MR query query), and 'Collateral Amount To Be Considered' (GBP 576,000.00).
- Property Location:** Includes 'Address' (18th Express way, Long Street, Ny, ny), 'Country' (US), and 'Zip Code / Post Code' (423435).
- Collateral Ownership Details:** Includes 'Ownership Type' (Single) and a table with columns: Select, Customer Name, Ownership Percentage, and Remarks.
- Summary:** Includes 'Total Collateral Value' (GBP 640,000.00), 'Cover Available' (GBP 576,000.00), 'Market LTV' (0), and 'Bank LTV' (0).

At the bottom, there are buttons for 'Add Collateral', 'Audit', 'Cancel', 'Request Classification', 'Back', 'Save & Close', and 'Next'.

If the **Collateral Type** is selected as **Term Deposit**, the following **warningmessage** displays when the OD Limit expiry date is more than the Maturity Date of the term deposit. The **Warning Message** popup screen displays.

3. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-11 Collateral Details - Field Description

Field	Description
Primary Collateral	Specify the primary collateral.
Collateral Type	Select the collateral type. Available options are: • Property • Guarantee • Vehicle • Precious Metal • Deposits • Bonds • Stocks • Insurance • Accounts Receivable • Inventory (Stock of Material)
Category	Select the collateral category. Available options are: If Collateral type is selected as Property • Residential Property • Vacant Land • Under Construction If Collateral type is selected as Guarantee • Personal Guarantee • Guarantee and Indemnity • Government Guarantee • Family Guarantee If Collateral type is selected as Vehicle • Passenger Vehicle • Commercial Vehicle If Collateral type is selected as Precious Metal • Precious Metal If Collateral type is selected as Deposits • Term Deposit If Collateral type is selected as Bonds • Secured Bonds • Unsecured Bonds • Investment Bonds If Collateral type is selected as Stocks • Domestic Stock If Collateral type is selected as Insurance • Life Insurance If Collateral type is selected as Accounts Receivable • Bill Receivable • Trade Receivable If Collateral type is selected as Inventory (Stock of Material) • Stock of Raw Materials • Finished Goods • Packaging Materials
Collateral Branch	Displays the branch of the collateral.
Term Deposit Number	Select the Term Deposit Number from the list. The Term Deposit which has crossed the maturity date and the “Allow Collateral Linkage” disabled, will not appear in the list.

Table 2-11 (Cont.) Collateral Details - Field Description

Field	Description
Maturity Date	Select the Maturity Date of the term deposit.
Available Linkage Amount	Specify the available linkage amount.
Linked Amount	Specify the linked amount.
Linkage Currency	Displays the linkage currency.
Guarantee Type	Specify the type of guarantee. This field appears only if the collateral type is Guarantee .
Currency	Specify the currency of the collateral value.
Collateral Value	Specify the collateral value.
Collateral Description	Specify the collateral description.
Mark Collateral For Refinance	Specify if an added collateral should be consider for refinance.
Applicants	This section displays the applicants name and remarks that are involved in the loan application. These applicants are also related to the added collateral.
Guarantor	This section displays the guarantor name.
Purchase Property	Specify whether the collateral property being added is being purchased. This field appears if the Property option is selected from the Collateral Type list.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Collateral Available Date Range	Select the date range of the collateral. The range indicates the date from and date up to, which the collateral is available.
Collateral Value	Specify the value of the collateral.
Hair Cut %	Specify the percentage of Hair Cut.
Collateral Amount To Be Considered	Displays the collateral amount to be considered. Collateral Amount = (Hair Cut % Collateral Value)
Collateral Description	Specify the collateral description.
Property Location	In this section you can enter property address which is added as collateral. This section appears only if you select Property from the Collateral Type list. The fields appears if you select the Property option from the Collateral Type list.
Address	Specify the address to search already captured address. Based on configuration, on entering few letters, the system fetches the related address that are already captured. Based on the selection, the fields are auto populated in the address section.
Address Line 1	Specify the building name.
Address Line 2	Specify the street name.
Address Line 3	Specify the city or town name.
State / Country Sub Division	Specify the state or country sub division.
Country	Select and search the country code.
Zip Code / Post Code	Specify the zip or post code of the address.

Table 2-11 (Cont.) Collateral Details - Field Description

Field	Description
Collateral Ownership Details	In this section you specify the ownership details of the collateral property. This section displays all the customers that are involved in the loan application. The fields appears if you select the Property option from the Collateral Type list.
Ownership Type	Select the ownership type of the property. The available options are • Single • Joint The fields appears if you select the Property option from the Collateral Type list.
Select	Select the appropriate customer as owner from the list. The fields appears if you select the Property option from the Collateral Type list.
Customer Name	Displays the customer name along with title. The fields appears if you select the Property option from the Collateral Type list.
Ownership Percentage	Displays the percentage of the ownership of the customer. The fields appears if you select the Property option from the Collateral Type list.
Remark	Displays the remark of the customer. The fields appears if you select the Property option from the Collateral Type list.
Market LTV	Displays the market LTV.
Bank LTV	Displays the bank LTV.
Collateral Description	Displays the description of the collateral.
Collateral Type	Displays the collateral type.
Category	Displays the category of the collateral.
Collateral Value	Displays the collateral value.
Owners	Displays the owner names of the collateral.
<Actions>	Displays the actions that you can perform on the added collateral. •  - Click delete to delete the added collateral. •  - Click down arrow to view the collateral details.
Total Collateral Value	Displays the total value of collateral. This field will be auto updated based on the number of collaterals.
Cover Available	Displays the cover available. This field will be auto updated based on the number of collaterals.

 Note:

All the fields are fetched from Oracle Banking Credit Facilities Process Management in read only mode, if integrated with Oracle Banking Credit Facilities Process Management.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

2.1.6 Nominee Details

This topic provides the systematic instructions to capture the details of the nominee for the account.

The **Nominee Details** is a non-mandatory data segment. If required, It allows capturing multiple nominees for the account. Nominee can be a minor, in that case, it is mandatory to provide details of the guardian. For SMB Customer, Nominee Details are allowed only for Proprietary type of Business Accounts.

To add the nominee details:

- Click **Next** in from the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Nominee Details** screen displays.

Figure 2-16 Nominee Details

- Specify the fields on **Nominee Details** screen.

Table 2-12 Nominee Details - Field Description

Field	Description
Title	Select the title of the nominee.

Table 2-12 (Cont.) Nominee Details - Field Description

Field	Description
First Name	Specify the first name of the nominee.
Middle Name	Specify the middle name of the nominee.
Last Name	Specify the last name of the nominee.
Relationship Type	Select the relationship type of the nominee with the applicant.
Date of Birth	Select the nominee's date of birth.
Minor	Select to indicate if nominee is minor.
Add Guardian	Click the Add Guardian link to add the guardian details. The link appears if the Minor field is enabled. This field is conditional mandatory.
Percentage	Specify the percentage to be considered for distribution of the account balance in case of uneventful death of the applicant.
Address	This section displays the added address of the applicant. It is mandatory to add communication address of the applicant. Click  to add address details. Click  to perform below actions on the added address details, - To view the address details, click View. - To edit the address details, click Edit. - To delete the address details, click Delete.
Address Type	Select the address type for the applicant from the drop-down list. Residential Address Communication Address
Location	Select and search the location.
Current Address	Select to indicate if you want to mark entered address as current address type.
Preferred Address	Select to indicate if you want the selected address type as preferred address type.
Address From	Select the date from when you are connected with the given address.
Address To	Select the date till when you were connected with the given address.
Address	Specify the address to search for the already captured address. Based on the configuration, on entering a few letters, the system fetches the related address that is already captured. Based on the selection, the fields are fetched in the address section.
Address Line 1	Specify the building name.
Address Line 2	Specify the street name.
Address Line 3	Specify the city or town name.
Country	Select and search the country code.
State / Country Sub Division	Specify the state or country sub division. This field appears based on the selected country code.

Table 2-12 (Cont.) Nominee Details - Field Description

Field	Description
Zip Code / Post Code	Specify the zip or post code of the address.
Addition Info	In this section you can provide addition information.
Sub Department	Specify the sub department.
Department	Specify the department.
Building Number	Specify the building number.
Post Box	Specify the post box code.
District Name	Specify the district name.
Floor	Specify the floor number.
Room	Specify the room number.
Locality	Specify the locality.
Landmark	Specify the landmark.
Contact Name / Narrative	Specify the name of the contact person.
Contact Details	In this section you can provide digital contact details.
<Communication Mode>	Select the communication mode from the drop-down list. The available options are: • Mobile Phone • Email
Country	Select the country along with international subscriber dialing code of the mobile phone from the drop-down list. The drop-down list option consist of countrycode, country name and subscriber dialing code. This field appears only if you select the Mobile Phone option as communication mode.
Mobile Number	Specify the mobile number.
Preferred	Select to indicate if the given mobile number is the preferred number.
Action	You can edit or delete the added mobile details.
Email Id	Specify the email ID. This field appears only if you select the Email option as communication mode.
Preferred	Select to indicate if the given email ID is the preferred ID.
Action	You can edit or delete the added email details.
Add Nominee	Click to add additional nominee for the account.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

Guardian Details

This screen allows to capture details of the guardian of the minor nominee.

To add guardian details:

- Click **Add Guardian Details** on Nominee Details screen.

The **Guardian Details** screen is displayed

Figure 2-17 Guardian Details

5. Specify the details in the relevant data fields.
Refer the Nominee Details field description table for detailed information on each field.
6. Click **Save** to save the guardian details

2.1.7 Summary

This topic provides the systematic instruction to view the tiles for all the data segments in the Application Entry Process.

The tiles displays the important details captured in the specified data segment.

- 1.
2. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-18 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 2-13 Summary - Application Entry – Field Description

Data Segment	Description
Account Details	Displays the account details.
Customer Information	Displays the customer information details
Customer Consents and Preference	Displays the customer consents and preferences.
Stake Holder Details	Displays the Stake Holder details This data segment appears only if the Customer Type is selected as Small and Medium Business (SMB) .
Mandate Details	Displays the mandate details.
Financial Details	Displays the financial details.
Collateral Details	Displays the collateral details.
Nominee Details	Displays the nominee details.
Term and Conditions	Displays the term and conditions.

3. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
4. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides& Proceed** to proceed.

OR

Click **Proceed**. The Checklist screen appears.

5. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
6. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field:
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Application Entry** stage for the saving application. The Workflow Orchestrator will automatically move this application to the next processing stage, **SavingApplication Enrichment**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - If the **Overdraft Requested** toggle is OFF then, submit of this stage, will move the application into the **Application Enrichment** stage.
 - If the **Overdraft Requested** toggle is ON then, submit of this stage, will move the application into the **Overdraft Limit** Stage.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
7. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
8. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [Current Account] to the Application Enrichment stage. This application will be available in the FREE TASKS list. The user who has the

access rights will be able to acquire and proceed with the next processing stage of the application.

Application De-Dupe:

Based on the configuration available at the Bank level / Properties Table, the Dedupe service call can be enabled or disabled for the product Origination.

If application dedupe service is enabled, System will check that any application is in progress for same product and customer combination. On Submit, if any duplicate application exists, override will show a message with other in progress application numbers. User can select the override check box and proceed or take appropriate action.

Note:

- If an application is returned to the Application Entry-stage from any other subsequent stages, Oracle Banking Origination will not allow amending details in the Customer Information and Financial Details data segment, once a customer onboarding process has been triggered in the Application Entry Stage and CIF creation is still in progress.
- In case the party amendment request is rejected by Oracle Banking Party, the specified error message is shown to the user while submitting the Application Entry stage. The user has an option to go back and resolve the error or proceed with the stage submission by disregarding the amendment request.

9.

2.2 Overdraft Limit Details Stage

This topic describes the information on the various data segments to capture the required data for the Overdraft Limit Details stage.

Users having functional access to the Overdraft Limit Details stage will be able to view the record in the Free Task process.

To add overdraft limits:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Overdraft Limit Details** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Account Limit Details](#)
This topic provides the systematic instructions to update the overdraft limit requested by the customer.
- [Collateral Details](#)
This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.
- [Advance against Uncollected Funds](#)
This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.

- [Temporary Overdraft Limit](#)
This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.
- [Summary](#)
This topic provides the systematic instruction to view the tiles for all the data segments in the Overdraft Limit Details stage.

2.2.1 Account Limit Details

This topic provides the systematic instructions to update the overdraft limit requested by the customer.

The Account Limit Details allows to update the overdraft limit requested by the customer.

To add account limit details:

1. On acquiring the **Overdraft Limit Details** task, the Account Limit Details data segment appears.

The **Account Limit Details** screen displays.

Figure 2-19 Account Limit Details

2. Click **Add Overdraft** to capture the overdraft limits.
3. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-14 Account Limit Details – Field Description

Field	Description
Limit Type	Select the limit type from the drop-down list. Note: System defaults the same limit type for the subsequent overdraft details added.
Branch	Specify the branch code where the account limit is configured.

Table 2-14 (Cont.) Account Limit Details – Field Description

Field	Description
Linkage Reference	Select the linkage reference number from the dropdown list.
OD Limit Amount	Select the currency and specify the overdraft limit amount for the account.
Date Range	Select the date range within when the account limit is valid.
Available Linkage Amount	Specify the available linkage amount of the collateral.
Linked Amount	Select the currency and specify the linked amount.
Linkage Currency	Displays the linkage currency.
Rate Type	Displays the rate type as per the limit type is selected. The available options are: • Fixed • Floating
Rate Code	Displays the rate code.  Note: This field displays if the Rate Type is selected as Floating .
Base Rate	Displays the base rate.  Note: This field displays if the Rate Type is selected as Floating .
Rate of Interest	Displays the rate of interest.  Note: This field displays if the Rate Type is selected as Fixed .
Variance	Specify the variance.  Note: This field displays if the Rate Type is selected as Fixed .

Table 2-14 (Cont.) Account Limit Details – Field Description

Field	Description
Margin	Specify the margin.  Note: This field displays if the Rate Type is selected as Floating.
Final Rate	Displays the effective rate calculated and based on the below parameters: • Rate Value and the Margin for floating rate type. • Rate of Interest and the Variance for fixed rate type.

4. Click **Add Overdraft** to capture the multiple overdraft limits.

OR

Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.2.2 Collateral Details

This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.

Collateral details is a data segment to capture the collateral which is offered by the customer as security for Overdraft limit. Collateral details will be sent to the host to be made available under local collateral. The relevant service APIs will be made available for both Push and Pull details of collaterals.

Capturing of Collateral details in Oracle Banking Origination is also enabled with an option to onboard collateral using the Oracle Banking Credit Facility Process Management integration services. In such cases, the collateral details will be sent to the Collateral onboarding systems for performing the Valuation, obtaining the Legal opinion and recording the perfection details. These details will be made available on Oracle Banking Origination in the respective Data segments in read only mode.

To add the collateral details:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
2. Click **Add Collateral** to capture the collateral details.

The **Collateral Details** screen displays.

Figure 2-20 Collateral Details

If the **Collateral Type** is selected as **Term Deposit**, the following **warningmessage** displays when the OD Limit expiry date is more than the Maturity Date of the term deposit. The **Warning Message** popup screen displays.

- Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-15 Collateral Details - Field Description

Field	Description
Primary Collateral	Specify the primary collateral.
Collateral Type	Select the collateral type. Available options are: - Property - Guarantee - Vehicle - Precious Metal - Deposits - Bonds - Stocks - Insurance - Accounts Receivable - Inventory (Stock of Material)

Table 2-15 (Cont.) Collateral Details - Field Description

Field	Description
Category	Select the collateral category. Available options are: If Collateral type is selected as Property • Residential Property • Vacant Land • Under Construction If Collateral type is selected as Guarantee • Personal Guarantee • Guarantee and Indemnity • Government Guarantee • Family Guarantee If Collateral type is selected as Vehicle • Passenger Vehicle • Commercial Vehicle If Collateral type is selected as Precious Metal • Precious Metal If Collateral type is selected as Deposits • Term Deposit If Collateral type is selected as Bonds • Secured Bonds • Unsecured Bonds • Investment Bonds If Collateral type is selected as Stocks • Domestic Stock If Collateral type is selected as Insurance • Life Insurance If Collateral type is selected as Accounts Receivable • Bill Receivable • Trade Receivable If Collateral type is selected as Inventory (Stock of Material) • Stock of Raw Materials • Finished Goods • Packaging Materials
Collateral Branch	Displays the branch of the collateral.
Term Deposit Number	Select the Term Deposit Number from the list. The Term Deposit which has crossed the maturity date and the "Allow Collateral Linkage" disabled, will not appear in the list.
Maturity Date	Select the Maturity Date of the term deposit.
Available Linkage Amount	Specify the available linkage amount.
Linked Amount	Specify the linked amount.
Linkage Currency	Displays the linkage currency.
Guarantee Type	Specify the type of guarantee. This field appears only if the collateral type is Guarantee.
Currency	Specify the currency of the collateral value.
Collateral Value	Specify the collateral value.
Collateral Description	Specify the collateral description.
Mark Collateral For Refinance	Specify if an added collateral should be consider for refinance.

Table 2-15 (Cont.) Collateral Details - Field Description

Field	Description
Applicants	This section displays the applicants name and remarks that are involved in the loan application. These applicants are also related to the added collateral.
Guarantor	This section displays the guarantor name.
Purchase Property	Specify whether the collateral property being added is being purchased. This field appears if the Property option is selected from the Collateral Type list.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Collateral Available Date Range	Select the date range of the collateral. The range indicates the date from and date up to, which the collateral is available.
Collateral Value	Specify the value of the collateral.
Hair Cut %	Specify the percentage of Hair Cut.
Collateral Amount To Be Considered	Displays the collateral amount to be considered. Collateral Amount = (Hair Cut % Collateral Value)
Collateral Description	Specify the collateral description.
Property Location	In this section you can enter property address which is added as collateral. This section appears only if you select Property from the Collateral Type list. The fields appears if you select the Property option from the Collateral Type list.
Address	Specify the address to search already captured address. Based on configuration, on entering few letters, the system fetches the related address that are already captured. Based on the selection, the fields are auto populated in the address section.
Address Line 1	Specify the building name.
Address Line 2	Specify the street name.
Address Line 3	Specify the city or town name.
State / Country Sub Division	Specify the state or country sub division.
Country	Select and search the country code.
Zip Code / Post Code	Specify the zip or post code of the address.
Collateral Ownership Details	In this section you specify the ownership details of the collateral property. This section displays all the customers that are involved in the loan application. The fields appears if you select the Property option from the Collateral Type list.
Ownership Type	Select the ownership type of the property. The available options are • Single • Joint The fields appears if you select the Property option from the Collateral Type list.

Table 2-15 (Cont.) Collateral Details - Field Description

Field	Description
Select	Select the appropriate customer as owner from the list. The fields appears if you select the Property option from the Collateral Type list.
Customer Name	Displays the customer name along with title. The fields appears if you select the Property option from the Collateral Type list.
Ownership Percentage	Displays the percentage of the ownership of the customer. The fields appears if you select the Property option from the Collateral Type list.
Remark	Displays the remark of the customer. The fields appears if you select the Property option from the Collateral Type list.
Market LTV	Displays the market LTV.
Bank LTV	Displays the bank LTV.
Collateral Description	Displays the description of the collateral.
Collateral Type	Displays the collateral type.
Category	Displays the category of the collateral.
Collateral Value	Displays the collateral value.
Owners	Displays the owner names of the collateral.
<Actions>	Displays the actions that you can perform on the added collateral.  - Click delete to delete the added collateral.  - Click down arrow to view the collateral details.
Total Collateral Value	Displays the total value of collateral. This field will be auto updated based on the number of collaterals.
Cover Available	Displays the cover available. This field will be auto updated based on the number of collaterals.

 Note:

All the fields are fetched from Oracle Banking Credit Facilities Process Management in read only mode, if integrated with Oracle Banking Credit Facilities Process Management.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

2.2.3 Advance against Uncollected Funds

This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.

The Advance against Uncollected Funds data segment displays the configuration required for advance against uncollected fund to be provided to the account.

To add uncollected funds details:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data
2. Click **Add AUF Details** to capture the Advance Against Uncollected Funds.

The **Advance against Uncollected Funds** screen displays.

Figure 2-21 Advance against Uncollected Funds

3. Specify the details in the relevant data fields.

 Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-16 Advance against Uncollected Funds – Field Description

Field	Description
Limit ID	Specify the advance against uncollected funds limit ID.
Limit Amount	Select the currency and specify the AUF limit amount.
Limit Date Range	Select the limit date range.

4. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are

not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.2.4 Temporary Overdraft Limit

This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.

The Temporary Overdraft Limit data segment displays the configuration required for temporary overdraft limit to be provided to the account.

To add temporary overdraft limit:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
2. Click **Add TOD Details** to capture the Temporary Overdraft Limit Details.

The **Unsecured Temporary Overdraft Limit Details** screen displays.

Note:

User can move to the next data segment without capturing the Temporary Overdraft Limit Details.

Figure 2-22 Unsecured Temporary Overdraft Limit Details

The screenshot displays the 'Unsecured Temporary Overdraft Limit Details' form. The form includes the following fields and controls:

- Temporary OD Limit ID:** HOD54
- Temporary OD Limit Amount:** GBP, 5,000.00
- Limit Date Range:** March 30, 20 to March 31, 20
- Renew TOD:** Checked (toggle)
- Renew Period:** Days, 10
- Next Renewal Limit:** GBP, 1,000.00
- Buttons:** Audit, Cancel, Request Clarification, Back, Save & Close, Next

Note:

The user can move to the next data segment without capturing the Temporary Overdraft Limit Details.

3. Specify the details in the relevant data fields.

 Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-17 Temporary Overdraft Limit – Field Description

Field	Description
Temporary OD Limit ID	Specify the temporary overdraft limit ID.
Temporary Overdraft Limit Amount	Select the currency and specify the temporary overdraft limit amount.
Limit Start Date	Select the limit start date.
Limit End Date	Select the limit expiry date.
Renew TOD	Select to indicate if temporary overdraft limit is to be renewed.
Renew Period	In case of TOD renewal is allowed, select the period from the drop-down list. Available options are: • Days • Months • Year
Next Renewal Amount	In case of TOD renewal is allowed, specify the renewal amount.

4. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.2.5 Summary

This topic provides the systematic instruction to view the tiles for all the data segments in the Overdraft Limit Details stage.

The Summary displays the tiles for all the data segments in the Overdraft Limit stage. The tiles display the important details captured in the specified data segment.

To view the summary of the stage:

1. Click **Next** in the previous data segment screen to proceed with next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-23 Summary

- Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

- Click **Proceed Next**. The **Checklist** screen is displayed.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

- Click **Save & Proceed**. The **Outcome** screen is displayed.

- In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.

- Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Overdraft Limit Details** stage for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Application Enrichment**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- Select the **Return to Application Entry** to return to application entry stage. The system generates the Application Entry task that appears in **Free Task** to acquire and edit.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Enter the remarks in **Remarks**.
 7. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 8. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Application Enrichment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.3 Application Enrichment Stage

This topic describes the information on the various data segments to view and update the required data for the Application Enrichment stage.

Users having functional access to the Application Enrichment stage will be able to view the record in the Free Task process.

To enrich an application:

1. Scan the records that appears in the Free Task list.
2. Click **Acquire and Edit** or **Acquire** from the Action column of the appropriate record. The Application Enrichment stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Interest and Charge](#)
This topic provides the systematic instructions to view the interest applicable for the account.
- [Advance against Uncollected Funds](#)
This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.
- [Temporary Overdraft Limit](#)
This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.
- [Summary](#)
This topic provides the systematic instructions to view the tiles for all the data segments in the Application Enrichment stage.

2.3.1 Interest and Charge

This topic provides the systematic instructions to view the interest applicable for the account.

The **Interest and Charged** data segment displays the interest applicable for the account.

1. On acquiring the Application Enrichment task, the Interest and Charge data segment appears.

The **Interest and Charge** screen displays.

Figure 2-24 Interest and Charge

Application Enrichment - 006APP000123582

Interest and Charges

Interest Details

Interest Description	Interest Rate %	Margin %	Effective Rate %	APY %
Interest Rate	4.35	0	4.35	4.42

Charge Description

Charge Description	Amount / Rate	Waive
No data to display		

Audit Cancel Request Clarification Save and Close No

2. Specify the details in the relevant data fields.

Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-19 Interest Details - Field Description

Field	Description
Interest Product Name	Displays the interest product name attached to the host product linked with the business product.
Payout Frequency	Displays the payout frequency of the interest product name attached to the host product linked with the business product.
Interest Rate	Displays the interest rate applicable for the account.
Margin (%)	Select the margin in percentage.
Final Rate	Displays the final rate calculated based on the Interest Rate and the Margin specified.
APY (in %)	Displays the annual percentage yield value in percentage. Below is the formula to calculate the APY, Annual Percentage Yield = (1 + Interest Rate ÷ The number of Compounding in a year) ^ (Number of compounding in a year) – 1 This is applicable for the Credit Interest
APR	Display the annual percentage rate value. This is applicable for debit interest.
Charge Description	Displays the charge description.
Amount/Rate	Displays the charge amount.

Table 2-19 (Cont.) Interest Details - Field Description

Field	Description
Waive	Select the toggle to enable the waiving charges.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.3.2 Advance against Uncollected Funds

This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.

The Advance against Uncollected Funds data segment displays the configuration required for advance against uncollected fund to be provided to the account.

To add uncollected funds details:

- Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data
- Click **Add AUF Details** to capture the Advance Against Uncollected Funds.

The **Advance against Uncollected Funds** screen displays.

Figure 2-25 Advance against Uncollected Funds

- Specify the details in the relevant data fields.

Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-20 Advance against Uncollected Funds – Field Description

Field	Description
Limit ID	Specify the advance against uncollected funds limit ID.
Limit Amount	Select the currency and specify the AUF limit amount.
Limit Date Range	Select the limit date range.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.3.3 Temporary Overdraft Limit

This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.

The Temporary Overdraft Limit data segment displays the configuration required for temporary overdraft limit to be provided to the account.

To add temporary overdraft limit:

- Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
- Click **Add TOD Details** to capture the Temporary Overdraft Limit Details.

The **Unsecured Temporary Overdraft Limit Details** screen displays.

Note:

User can move to the next data segment without capturing the Temporary Overdraft Limit Details.

Figure 2-26 Unsecured Temporary Overdraft Limit Details

 Note:

The user can move to the next data segment without capturing the Temporary Overdraft Limit Details.

3. Specify the details in the relevant data fields.

 Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-21 Temporary Overdraft Limit – Field Description

Field	Description
Temporary OD Limit ID	Specify the temporary overdraft limit ID.
Temporary Overdraft Limit Amount	Select the currency and specify the temporary overdraft limit amount.
Limit Start Date	Select the limit start date.
Limit End Date	Select the limit expiry date.
Renew TOD	Select to indicate if temporary overdraft limit is to be renewed.
Renew Period	In case of TOD renewal is allowed, select the period from the drop-down list. Available options are: • Days • Months • Year
Next Renewal Amount	In case of TOD renewal is allowed, specify the renewal amount.

4. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.3.4 Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Application Enrichment stage.

The tiles display the important details captured in the specified data segment.

1. Click **Next** in **Account Service Preferences** screen to proceed with the next data segment, after successfully capturing the data.

The **Summary - Application Enrichment** screen displays.

Figure 2-27 Summary - Application Enrichment

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-22 Summary - Application Enrichment – Field Description

Data Segment	Description
Interest Details	Displays the interest details.
Charge Details	Displays the charge details.
Temporary Overdraft Limit	Displays the temporary overdraft limit.
Advance against Uncollected Funds	Displays the advance against uncollected funds.

- Click **Request Clarification** to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer. For more information on **Request Clarification**, refer to the section **Request Clarification**.
- Click **Back** to navigate to the previous data segment within a stage.
- Click **Save and Close** to save the data captured. The captured data is available in the **My Task** list for the user to continue later.
- Click **Cancel** to terminate the application and the status of the application. Such applications cannot be revived later by the user.
- Click **Submit** to reach the **OUTCOME**, where the overrides, checklist, and documents for this stage can be validated or verified.

The **Stage Movement Submission - Override** screen displays.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, the user can go back and correct the data to ensure overrides do not arise.

- Click **Proceed Next**.

The **Stage Movement Submission - Checklist** screen displays.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

- Select the checkbox to accept the checklist.
- Click **Save and Proceed**.

The **Stage Movement Submission - Outcome** screen displays.

For more information on fields, refer to the field description table.

Table 2-23 Stage Movement Submission - Outcome – Field Description

Field	Description
Select an Outcome	Select the option from the drop-down list. The available options are: • Proceed • Return to Overdraft Limit Details • Return to Application Entry • Reject By Bank
Remarks	Specify the remarks, if any.

Outcomes configured in the Workflow Orchestrator for the business process is available in the drop-down list.

10. Click **Submit**.

The **Confirmation** screen displays.

Figure 2-28 Confirmation

If the **Collateral Type** is selected as **Term Deposit** in **Collateral Details** data segment and the **Fund the account** toggle is OFF in the **Product Details** data segment, the submit of the Application Enrichment stage will move the application into the **Account Parameter Setup** stage.

If the selected **Collateral Type** is other than Term Deposit in **Collateral Details** data segment, and the **Fund the account** toggle is OFF in the **Product Details** data segment, the submit of the Application Enrichment stage will move the application into the **Underwriting** stage.

If the **Fund the Account** toggle is ON in the **Product Details** data segment, the submit of the Application Enrichment stage, will move the application to **Account Funding** stage.

On successful submission, the above pop-up appears and displays the next stage in which the application has moved. **Application Reference Number** and the **Process Reference Number** is displayed. Click **Close** to close the pop-up screen. Alternatively click **Go to Free Task** to launch the **Free Task** menu. If you have access to the next stage, you would be able to view the Application number and take action on it.

11. Click **Go to Free Task**.

The **Free Tasks** screen displays.

2.4 Account Funding

This topic describes the process of initial funding of an account. This stage appears once the account is opened.

In this stage you can initiate fund for an account post account opening. This stage appears if the **Fund Post Account Opening** toggle is selected in the **Business Product Preference** data segment of the **Business Product Configuration** screen.

To add funding details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire** and **Edit** or **Acquire** from the **Action** column of the appropriate record. The **Account Funding** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Account Funding Details](#)
This topic provides the systematic instructions to add the funding details post opening account is complete.
- [Summary](#)
This topic provides the systematic instructions to view the tiles for all the data segments in the Account Funding stage

- [Account Funding Details](#)
This topic provides the systematic instructions to add the funding details post opening account is complete.
- [Summary](#)
This topic provides the systematic instructions to view the tiles for all the data segments in the Account Funding stage

2.4.1 Account Funding Details

This topic provides the systematic instructions to add the funding details post opening account is complete.

In this data segment you can provide funding details to fund already created account. The Account Number and Account Name appears in the respective fields.

To add funding details:

1. On acquiring the **Account Funding** task, the **Account Funding Details** data segment appears

The **Account Funding Details** screen displays.

Figure 2-29 Account Funding Details

2. From the **Funding Mode** list, select the appropriate option. The fields appears based on the selected funding mode.
3. Enter the details in the respective fields.

Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-24 Account Funding Details – Field Description

Field	Description
Account Number	Displays the generated account number for which the initial funding is credited.
Account Name	Displays the primary account holder name.
Funding Mode	Specify the funding mode from the drop-down list. The available options are: • Own Internal Account • External Account (Finicity) • Fund Later
Funding Amount	Specify the amount to be debited from the internal account to fund the newly generated account. The Minimum Amount Value maintained in the Business Product Preference data segment of the Business Product Details screen appears by default. The user can modify the auto populated amount. The modified amount must be within the range set in the Initial Funding Threshold Preferences section of the Business Product Details screen.
Account Number	Specify or select the account number which is debited for transferring the funds to newly opened account. The internal current or saving accounts of the respective customer appears for selection. This field appears if the Own Internal Account option is selected from the Funding Mode list.
Account Name	Displays the primary account holder name of the selected account. This field appears if the Own Internal Account option is selected from the Funding Mode list.
Cheque Number	Specify the cheque number of the account from which the transfer is to be initiated. This field appears if the Own Internal Account option is selected from the Funding Mode list.
Cheque Date	Specify the date on which the cheque is deposited for transfer. This field appears if the Own Internal Account option is selected from the Funding Mode list.
Value Date	Displays the current date on which the transfer is initiated. This field appears if the Own Internal Account option is selected from the Funding Mode list.
Email Address	Displays the preferred communication email address of the primary customer. The finicity URL is send to this email ID for initiating the Finicity process to fetch the external account details. This field appears based on the below conditions: • If the External Internal (Finicity) option is selected from the Funding Mode list. • If the Customer Email option is select from the Finicity Mode drop-down list in the Origination Preferences screen.

Table 2-24 (Cont.) Account Funding Details – Field Description

Field	Description
Send Email To Customer	Click this button to send the Finicity URL to the customer's email address. The customer can login and click on the Finicity URL. Further the customer must select the desired bank and login using the Netbanking credentials. To initiate call for external account fund transfer customer must select the desired account to fetch the account details. If the call is successful then the fields with the external account appears in the External Account Details section. This button appears based on the below conditions: • If the External Internal (Finicity) option is selected from the Funding Mode list. • If the Customer Email option is select from the Finicity Mode drop-down list in the Origination Preferences screen.
Initiate Finicity	Click this button to initiate finicity request. If the call is successful, then the finicity URL is generated appears in the field and the user can click the Globe icon Launch Finicity button to initiate the fund transfer Finicity process. The fields with the external account appears in the External Account Details section. This field appears based on the below conditions: • If the External Internal (Finicity) option is selected from the Funding Mode list. • If the Branch Visit option is select from the Finicity Mode drop-down list in the Origination Preferences screen.
External Account Details	In this section user can view the status response from the Finicity call. If the initiate call Finicity process is successful then below mentioned fields of external account detail appears: • Account Holder • Account Type • Bank Name • Routing Number • Account Number • Account Balance This section and fields appears if the External Internal (Finicity) option is selected from the Funding Mode list.
Transaction Status	In this section you can view the status of transaction which is initiated on initiating the fund transfer request.
Status	Displays the fund transfer status of the transaction. To view more information on the transaction status, click 
Rest	Click this button to reset the entered details and reinitiate the fund transfer. This option button appears if the Own Internal Account option is selected from the funding mode list, and only if the transaction fails post initiating the fund transfer request.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message or highlights the mandatory fields for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.4.2 Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Account Funding stage

The Summary displays the tiles for all the data segments in the Account Funding stage. The tiles display the important details captured in the specified data segment.

To view the summary of each stage and submit:

1. Click **Next** in **Account Funding Details** screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-30 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-25 Summary

Data Segment	Description
Account Funding Details	Displays the account funding details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, the user can go back and correct the data to make ensure overrides do not arise.

3. Click **Proceed Next**. The **Checklist** screen is displayed.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

4. Click **Proceed**. The **Outcome** screen is displayed.
5. Click **Submit** to submit the application.

On successful submission the above pop-up appears and displays the next stage in which the application has moved. Application Reference Number and the Process Reference Number is also displayed.

2.5 Underwriting Stage

This topic describes the information on the various data segments to access the credit rating and capture the required data for the Underwriting stage.

The underwriting process of the lender bank is set to determine if the overdraft application is an acceptable risk. It is a process to assess the borrower's ability to repay the overdraft based on an analysis of their credit, financial capacity, and collateral provided by the borrower.

The Underwriting stage is the next representative stage in the Current Account Open process. After the Application Enrichment / Account Funding stage is completed successfully, the application can be acquired by the user who has the access rights for the given stage and progress with the data capture.

To add underwriting details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Underwriting** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Credit Rating Details](#)
This topic provides the systematic instructions to view the information on the External Rating Agencies Rating / Scores for the Applicant.
- [Valuation Details](#)
This topic provides the systematic instructions to capture the information on the asset valuation done by the bank approved valuator.
- [Legal Opinion](#)
This topic provides the systematic instructions to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.
- [Summary](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.5.1 Credit Rating Details

This topic provides the systematic instructions to view the information on the External Rating Agencies Rating / Scores for the Applicant.

Credit Rating Details is the first data segment of **Underwriting** stage. The user can acquire the application from Free Tasks list. If the applicants are more than one, accordingly the information against each applicant / borrower will be provided. The interface with external rating agencies will be provided.

Oracle Banking Origination is now integrated with Bureau Integration Service to fetch the details of the Rating for the given applicant(s). The Bank will have an option to use this

integration service or use the manual process of entering the Bureau score in the Credit Rating DS.

1. Click **Acquire and Edit** in the **Free Tasks** for the application for which Underwriting stage has to be acted upon.

The **Credit Rating Details** screen displays.

Figure 2-31 Credit Rating Details

2. Specify the fields on **Credit Rating Details** screen.

 Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-26 Credit Rating Details – Field Description

Field	Description
Customer Name	Displays the customer name.
Agency Name	Displays the configured agency.
Ratings	Displays the ratings. The system populates the credit rating score from the Bureau Integration Service.
Remarks	Specify the remarks.

3. Click **View More** to view the additional Credit Bureau details.

The **Additional Credit Bureau Details** screen displays.

Figure 2-32 Additional Credit Bureau Details

Additional Credit Bureau Details								
Institution Name	Account Number	Account Type	Loan Amount	Outstanding Balance	Account Opening Date	Installment Amount	Delinquency Bucket	Delinquency Amount
FIRST FEDERAL SAVINGS	0019888010777	Loan	100000	86820	2020-01-07	2162	NIL	NIL
HSBC/CARSN	001901000999	Overdraft	22000	0	2019-06-07	0	NIL	NIL

OK

For more information on fields, refer to the field description table.

Table 2-27 Additional Credit Bureau Details – Field Description

Field	Description
Institution Name	Displays the institution name.
Account Number	Displays the account number of the applicant.
Account Type	Displays the account type.
Loan Amount	Displays the overdraft amount.
Outstanding Balance	Displays the outstanding balance.
Account Opening Date	Displays the account opening date.
Installment Amount	Displays the installment amount.
Delinquency Bucket	Displays the delinquency bucket.
Delinquency Amount	Displays the delinquency amount.

 Note:

Oracle Banking Origination has been integrated with Bureau Integration Service which will make a call to the Credit Bureau to get Credit Rating Score and additional details.

4. Click **View Bureau Report** to view and download the bureau report from the external agency.

2.5.2 Valuation Details

This topic provides the systematic instructions to capture the information on the asset valuation done by the bank approved valuator.

Valuation Details is the next data segment of **Underwriting** stage.

1. Click **Next** in the **Credit Rating Details** screen to proceed with the next data segment, after successfully capturing the data.

The **Valuation Details** screen displays.

Figure 2-33 Valuation Details

- Specify the fields on **Valuation Details** screen.

 Note:

The fields, which mentioned as Required, are mandatory.

If Oracle Banking Origination is integrated with Oracle Banking Credit Facilities Process Management, the valuation details will be fetched from integration service and the values will be displayed in the respective fields as read only data. In the absence of Oracle Banking Credit Facilities Process Management integration, the user has to capture the valuation details manually in this data segment.

For more information on fields, refer to the field description table.

Table 2-28 Valuation Details – Field Description

Field	Description
Collateral Description	Displays the collateral description which is added.
Collateral Type	Displays the collateral type which is added.
Category	Displays the category of the collateral which is added.
Collateral Value	Displays the value of the collateral which is added.
Owners	Displays the owner's name of the collateral.
Collateral ID	Displays the Collateral ID.
Collateral Description	Displays the description of the collateral.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Hair Cut %	Displays the Hair cut percentage.
Collateral Amount	Displays the collateral amount.
Valuation Type	Select the type of valuation. Available options are External Internal

Table 2-28 (Cont.) Valuation Details – Field Description

Field	Description
Valuation Amount	Specify the valuation amount of the collateral.
Agency Code	Specify the agency code.
Agency Name	Specify the name of agency.
Valuation Date	Select the valuation date. Date should not be earlier than the Application Date.
Add Valuation	Click Add Valuation to add valuation details. Add the valuation details if you want to evaluate the collateral.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

2.5.3 Legal Opinion

This topic provides the systematic instructions to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.

Legal Opinion is the next data segment of **Underwriting** stage.

- Click **Next** from the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Legal Opinion** screen displays.

Figure 2-34 Legal Opinion

The screenshot displays the 'Legal Opinion' screen within the Oracle Banking Credit Facilities Process Management system. The interface includes a top navigation bar with tabs for 'Application Info', 'Customer 360', 'Remarks', 'Documents', 'Advices', and 'More'. A left sidebar shows a navigation menu with 'Credit Rating Details', 'Valuation Details', 'Legal Opinion' (selected), and 'Summary'. The main content area is titled 'Legal Opinion' and contains a form with the following fields:

- Collateral ID:** OFLOCOL000006369
- Collateral Description:** test collateral
- Liability ID:** 006023875
- Liability Description:** Liability for Samir Feeney
- Opinion Type:** Internal (dropdown menu)
- Agency Code:** INTERNAL3
- Agency Name:** bank
- Legal Remarks:** approved
- Opinion Date:** March 30, 2018

At the bottom of the form, there is an 'Add Opinion' button. The bottom of the screen features a navigation bar with buttons for 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next'.

- Specify the fields on **Legal Opinion** screen.

 Note:

The fields, which mentioned as Required, are mandatory.

If Oracle Banking Origination is integrated with Oracle Banking Credit Facilities Process Management, the Legal Opinion details will be fetched from integration service and the values will be displayed in the respective fields as read only data. In the absence of Oracle Banking Credit Facilities Process Management integration, the user has to capture the Legal Opinion details manually in this data segment.

For more information on fields, refer to the field description table.

Table 2-29 Legal Opinion – Field Description

Field	Description
Collateral Description	Displays the collateral description which is added.
Collateral Type	Displays the collateral type which is added.
Category	Displays the category of the collateral which is added.
Collateral Value	Displays the value of the collateral which is added.
Owners	Displays the owner's name of the collateral.
Collateral ID	Displays the Collateral ID.
Collateral Description	Displays the description of the collateral.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Opinion Type	Select the opinion type. Available options are: • External • Internal
Agency Code	Specify the agency code.
Agency Name	Specify the agency name.
Legal Remarks	Specify the legal remarks.
Opinion Date	Select the opinion date. Date should not be earlier than the Collateral Valuation Date.
Add Opinion	Click Add Opinion to add the legal opinion received from multiple agencies (both internal and external).

 Note:

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

2.5.4 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-35 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-30 Summary - Underwriting – Field Description

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and the documents for this stage can be validated or verified. The **Overrides** screen is displayed.
3. Click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.
4. Click **Save&Proceed**. The **Outcome** screen is displayed.

The **Select an Outcome** has following options for this stage:

- Select **Proceed** outcome from the drop-down list. It will logically complete the Underwriting stage for the Application. The Workflow Orchestrator will automatically

move this application to the next processing stage, Application Assessment. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code

- Select the **Return to Initial Funding Stage** to make Account Funding Stage available in free task for edit.
 - Select the **Return to Overdraft Limit Details** to make Overdraft Limit Details stage available in free task.
 - Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.
 - Select the **Reject by bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
5. Click **Submit** to submit the **Underwriting** stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 6. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Underwriting on Host stage. This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application. The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

2.6 Application Assessment

This topic describes the information on the various data segments to update the required data and assess the application in the Application Assessment stage.

Users having functional access to the Application Enrichment stage will be able to view the record in the Free Task process.

The Assessment stage enables the bank to assess the Overdraft Limit request of the customer and based on the Assessment Score the User can decide on granting the Overdraft Limit for the Current Account being originated. System derives the recommendation based on the total weightage score. The total weightage score is calculated based on the parameters configured in the Scorecard Model.

Similarly, the Qualitative Score is calculated based on the answers provided to the questionnaire configured in the Qualitative Scorecard ID.

To assess the application details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Application Assessment** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- **Qualitative Scorecard**
This topic provides the systematic instructions to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card.
- **Assessment Details**
This topic provides the systematic instructions to view the total weightage score of the Applicant or Applicants, in case of multiple Applicants in the Current Account with Overdraft.
- **Summary**
This topic provides the systematic instructions to view the tiles for all the data segments in the Application Assessment stage.

2.6.1 Qualitative Scorecard

This topic provides the systematic instructions to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card.

The relevant qualitative score card ID is attached to the Current Account Business Product and thereby the Current Account inherits the score card attributes for evaluation.

The **Qualitative Scorecard** screen enables the user to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card.

The relevant qualitative score card ID is attached to the Savings Account Business Product and thereby the Current Account inherits the score card attributes for evaluation.

1. Click **Acquire and Edit** in the **Free Tasks** screen of the previous stage for the application for which Application Assessment stage has to be acted upon.

The **Qualitative Scorecard** screen displays.

Figure 2-36 Qualitative Scorecard

The screenshot displays the 'Qualitative Scorecard' screen for Assessment - 006APP000057626. The interface includes a top navigation bar with tabs for Application Info, Customer 360, Remarks, Documents, and Advises. The main content area is divided into two sections: 'Qualitative Scorecard' and 'Assessment Details'. The 'Qualitative Scorecard' section shows a table with applicant details and a list of questions with corresponding answers.

Applicant Name	Questionnaire Code	Questionnaire Description
MR AutoFNN AutoMNN AutoLNN	HLQ101	Questionnaire for Home Loan 101
MR AutoFNO AutoMNO AutoLNO	HLQ101	Questionnaire for Home Loan 101

Question	Answer
How many years in the current employment?	Less than 1 year
What is the current residence type?	Own house
How many members are dependent on the applicant?	3
How long applicant staying in the current residence?	Less than 3 years
Is the applicant undergoing any medical treatment?	None

The bottom of the screen features an 'Audit' button on the left and 'Cancel', 'Request Clarification', 'Save & Close', and 'Next' buttons on the right.

2. Specify the fields on **Qualitative Scorecard** screen.

Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-31 Qualitative Scorecard – Field Description

Field	Description
Applicant Name	Displays the name of the applicant.
Questionnaire Code	Displays the Questionnaire code.
Questionnaire Description	Displays the description of the Questionnaire code.
Question	Displays the question configured for the Questionnaire code.
Answer	Select the answer from the drop-down values available. The answers are populated based on the Answers configured in the Questionnaire code.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.6.2 Assessment Details

This topic provides the systematic instructions to view the total weightage score of the Applicant or Applicants, in case of multiple Applicants in the Current Account with Overdraft.

The **Assessment Details** screen enables the user to understand the evaluation and provide the system recommendation based on the following parameters.

- Validation Model
 - Borrowing Capacity
 - Qualitative Score
 - Quantitative Score
 - Decision and Grade
 - Pricing
1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.

The **Assessment Details – Validation Model** screen displays.

Figure 2-37 Assessment Details – Validation Model

The screenshot shows the 'Assessment Details' screen for Assessment ID 006APP000057626. The left sidebar has tabs for 'Qualitative Scorecard', 'Assessment Details' (selected), and 'Summary'. The main area displays various assessment metrics in a grid:

- Requested Amount:** GBP, 50,000.00
- Tenure:** 0 Years 0 Months 1 Days
- Base Rate:** 8.25
- Margin:** 0
- Total Weighted Score:** 88
- Approved Amount:** ----
- Proposed Margin:** 0.50
- Effective Rate:** 8.75
- System Recommendation:** ManualQueueA
- Grade:** B
- APR:** ----

Below the grid, a summary bar shows:

- Validation Model:** **PASS**
- Borrowing Capacity:** 69000.00
- Qualitative Score:** 64
- Quantitative Score:** 88
- Decision & Grade:** **ManualQueueA** Grade: B
- Pricing:** 0.5 %

The 'Validation Model Code' is LMCAT00, and the 'Description' is 'Logical Model for Current Account'. The 'Status' is **PASS**. Below this is a table of rules:

Rule ID	Sequence	Status	Severity
Rule1001	1	PASS	-

At the bottom are buttons for 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next'.

- Click **Borrowing Capacity** tab under **Assessment Details** screen to view the borrowing capacity of the applicant.

The **Assessment Details – Borrowing Capacity** screen displays.

Figure 2-38 Assessment Details – Borrowing Capacity

The screenshot shows the 'Assessment Details' screen for Assessment ID 006APP000047414. The left sidebar has tabs for 'Qualitative Scorecard', 'Assessment Details' (selected), and 'Summary'. The main area displays various assessment metrics in a grid:

- Requested Amount:** GBP, 109782.00
- Tenure:** 2 Years 0 Months 0 Days
- Rate of Interest:** 4.50
- Variance:** 0
- Total Weighted Score:** 85
- Approved Amount:** ----
- Proposed Variance:** 0.22
- Effective Rate:** 4.72
- System Recommendation:** ManualQueueA
- Grade:** B
- APR:** ----

Below the grid, a summary bar shows:

- Validation Model:** **PASS**
- Borrowing Capacity:** 616059910.00
- Qualitative Score:** 66
- Quantitative Score:** 85.75
- Decision & Grade:** **ManualQueueA** Grade: B
- Pricing:** 0.22 %

The 'Eligibility Code' is BCVLELPL, and the 'Eligibility Description' is 'Borrowing Capacity For Automation'. Below this is a table of rules:

Requested Amount	Borrowing Capacity	Fact	Rule ID
109782	616059910.00	MaxLend	LendAmt

At the bottom are buttons for 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next'.

- Click **Qualitative Score** tab under **Assessment Details** screen to view the qualitative score for the applicant.

The **Assessment Details – Qualitative Score – Graph View** screen displays.

Decision & Grade – Grade	This section displays the decision and grade details.
Quantitative Score	Displays the overall quantitative score of the application.
Quantitative Score Range	Displays the range for the quantitative score.
Grade	Displays the grade configured for the quantitative score.
Pricing	This section displays the pricing details.
Pricing Model Code	Displays the pricing model code configured for the product.
Model Description	Displays the description of the pricing model code.
Rate Type	Displays the rate type.
Rate Percentage	Displays the rate percentage.

Note:

Based on the range of qualitative and quantitative scores, the system provides a suggestive recommendation and the overdraft amount which can be sanctioned.

2.6.3 Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Application Assessment stage.

The Summary displays the tiles for all the data segments in the Application Assessment stage. The tiles display the important details captured in the specified data segment.

To view the captured details:

1. Click **Next** in **Assessment Details** screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-45 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-33 Summary - Application Assessment – Field Description

Data Segment	Description
Qualitative Scorecard Details	Displays the qualitative scorecard details.
Assessment Details	Displays the assessment details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The Overrides screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

3. Click **Proceed Next**. The **Checklist** screen is displayed.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

4. Select the checkbox to accept the checklist. Click **Save & Proceed**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. If the Proceed option is selected, then the application proceeds based on the assessment decision.
 - It will logically complete the **Application Assessment** stage for the saving application if the system recommendation is **Approved**. The Workflow Orchestrator will automatically move this application to the **Account Parameter Setup** stage.
 - If the system recommendation is **Manual** then, the Manual Credit Assessment stage is generated for this saving application.
 - If the system recommendation is **Rejected** then the application is terminated. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
 - Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.
 - Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
 - Select the **Return to Overdraft Limit Details** to make overdraft limit details stage available in free task.
 - Select the **Return to Initial Funding Details** to make account funding details stage available in free task.
 - Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
 - Select the **Reject Application** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Enter the remarks in **Remarks**.
7. Click **Submit**. The **Confirmation** screen is displayed.

On successful submission the above pop-up appears and displays the next stage in which the application has moved. Application Reference Number and the Process Reference Number is also displayed. Click on '**Close**' to close the pop-up screen. Alternatively click on '**Go to FreeTask**' to launch the **Free Task** menu. If you have access to the next stage, you would be able to view the Application number and take action on it.

8. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Manual Credit Assessment stage. This

application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.7 Manual Credit Assessment Stage

This topic describes the information on the various data segments to assess the application manually in the Manual Credit Assessment stage.

The Manual Credit Assessment stage of the Current Account (with overdraft) opening process workflow will enable the bank to manually assess the application and provide the recommendation for the approval / rejection of the application. As a reference, the relevant completed data segments will be made available to the Approver before the application can be moved to the next stage. These completed data segments are from Underwriting Stage. The data segments are displayed in view only mode for the Credit Officer to analyze.

To capture manual assessment details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Manual Assessment** stage is displayed.

The Manual Assessment stage has the following data segments in which the user can only view the data:

- **Credit Rating Details**: - For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Underwriting stage.

Refer below chapters for detailed information on data segment that are editable.

- [Manual Assessment](#)
This topic provides the systematic instructions to modify the account details and recommend for the approval / reject the Current Account application.
- [Summary](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.7.1 Manual Assessment

This topic provides the systematic instructions to modify the account details and recommend for the approval / reject the Current Account application.

Manual Assessment is the data segment which enables the bank user to modify the account details and recommend for the approval / reject the saving account application. The user can acquire the application from Free Tasks list and assess all the View Only data segments.

1. On acquiring the **Manual Credit Assessment Stage** from **Free Tasks** or clicking **Next** from the previous data segment, the **Manual Assessment** screen is displayed.

Figure 2-46 Manual Assessment

The screenshot displays the 'Manual Assessment' screen for application 006APP000055058. The interface includes a sidebar with navigation options: Credit Rating Details, Legal Opinion, Valuation Details, Manual Assessment (selected), and Summary. The main area is titled 'Assessment Details' and contains several sections:

- Requested Amount:** GBP 45,000.00
- Tenure:** 3 Years 0 Months 0 Days
- Rate of Interest:** 5.50%
- Variance:** 0%
- Total Weighted Score:** 75
- Approved Amount:** —
- Proposed Variance:** 0.40%
- Effective Rate:** 5.90%
- Recommended Amount:** GBP 54,500.00
- Total Tenure:** 3 0 0
- Recommendation:** Recommended for Approval
- Comment:** Automation Testing
- System Recommendation:** ManualQueueA
- Grade:** B

Below these fields, there is a section for 'Validation Model' (PASS) and 'Borrowing Capacity' (616059910.00). It also displays 'Qualitative Score' (66), 'Quantitative Score' (85.75), 'Decision & Grade' (ManualQueueA Grade: B), and 'Pricing' (0.22%). A 'Validation Model Code' of 3VLPLEL100 is shown, along with a description: 'Scoring Model for New Vehicle Loan'. A table at the bottom lists rules, with one rule (Rule1001) in a 'PASS' status.

2. Specify the fields on **Manual Assessment** screen.

For more information on fields, refer to the field description table. Refer to **Assessment Details** screen for the detailed explanation of Validation Model, Borrowing Capacity, Qualitative Score, Quantitative Score, Decision & Grade and Pricing tabs.

Table 2-35 Summary - Manual Credit Assessment – Field Description

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion.
Manual Assessment	Displays the Manual assessment details.

- Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.
- Click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.
- Click **Save & Proceed**. The **Outcome** screen is displayed.
- In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
- Select **Proceed** outcome from the drop-down list.

It will logically complete the **Manual Credit Assessment** stage for the Saving Account (with overdraft) Application. The workflow will automatically move this application to the next processing stage, **Manual Credit Decision** stage.

The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- Enter the remarks in **Remarks**.

8. Click **Submit** to submit the manual credit assessment. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
9. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Current Account] to the Manual Credit Decision stage. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.8 Manual Credit Decision Stage

This topic describes the information on the various data segments to review and approve the application manually in the Manual Credit Decision stage.

Manual Credit Decision stage of the current account (with overdraft) opening process workflow will enable the bank to make the decision on whether the recommended overdraft limit can be approved to the applicant.

To capture manual credit decision details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Manual Credit Decision** stage is displayed.

The Manual Credit Decision stage has the following data segments in which the user can only view the data:

- **Account Details** - For detailed information, refer the Account Details data segment in the Application Entry stage.
- **Customer Information** – For detailed information, refer the Customer Information data segment in the Application Entry stage.
- **Financial Details:** - For detailed information, refer the Financial Details data segment in the Application Entry stage.
- **Credit Rating Details:** - For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Underwriting stage.
- **Manual Assessment** – For details information, refer the Assessment Details data segment in the Manual Credit Assessment stage.

Refer below chapters for detailed information on data segment that are editable.

Total Weightage Score	Displays the total weightage score.

Table 2-36 (Cont.) Manual Decision – Field Description

Field	Description
Approved Amount	Displays the approved overdraft amount. This field appears blank by default. If the approver selects the recommendation as Approve , then the recommended amount gets defaulted as approved amount.
Proposed Margin	Displays the proposed margin. This field appears only for Floating rate type.
Effective Rate	Displays the effective rate of interest.
Recommended Amount	Displays the recommended overdraft amount.
Final Tenure	Displays the final overdraft tenure.
Manual Recommendation	Displays the manual recommendation.
Comments	Displays the comments.
System Recommendation	Displays the system recommendations.
Recommendation	Select the recommendation. Available options are • Approve • Decline If the approver selects the recommendation as Approve , then the recommended amount gets defaulted as approved amount.
Action	Displays the user action based on user recommendation.
Comments	Specify the comment on the user action.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.8.2 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

- Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-49 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-37 Summary - Manual Credit Decision – Field Description

Field	Description
Account Details	Displays the account details.
Customer Information	Displays the customer information.
Financial Details	Displays the financial details.
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion.
Manual Assessment	Displays the manual assessment.
Manual Decision	Displays the manual decision.

- Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.
- Click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.
- Click **Save & Proceed**. The **Outcome** screen is displayed.
- In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
 - Select the **Proceed** to proceed with the application. It will logically complete the Manual Credit Decision stage for the Saving Account (with overdraft) Application. Upon submit, a Pricing call will be made by Oracle Banking Origination to Decision Service to get the Interest rate. The Workflow Orchestrator will automatically move this application to the next processing stage, Account Parameter Setup stage. The stage

movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.

- Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.
 - Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
 - Select the **Return to Assessment** to make overdraft limit details stage available in free task.
 - Select the **Return to Initial Funding Details** to make account funding details stage available in free task
 - Select the **Return to Overdraft Limit Details** to make overdraft limit details stage available in free task.
 - Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
 - Select the **Return to Manual Credit Assessment Stage** to make underwriting stage available in free task. It will logically complete the **Manual Credit Assessment** stage for the Current Account (with overdraft) Application. The workflow will automatically move this application to the next processing stage, **Manual Credit Decision** stage.
6. Enter the remarks in **Remarks**.
 7. Click **Submit**. The **Confirmation** screen is displayed.
 8. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Current Account] to the Account Parameter Setup stage. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.9 Account Parameter Setup Stage

This topic describes the information on the various data segments to setup the required account parameters in the Account Parameter Setup stage.

The Account Parameter Setup stage is the next representative stage in the Saving Account Open process. After the Application Assessment or Manual Credit Decision stage is completed successfully, the user who has the access rights for the given stage, can acquire the application and progress with the data capture. The user can acquire the application from Free Tasks list.

The **Account Parameter Setup** stage has the following reference data segments:

- **Interest Details** – This data segment is editable. For detailed information, refer the Interest Details data segment in the Application Enrichment stage.
- **Charge Details** - This data segment is editable. For detailed information, refer the Charge Details data segment in the Application Enrichment stage.

- **Advance against Uncollected Funds** - This data segment is editable. For detailed information, refer the Advance against Uncollected Funds data segment in the Overdraft Limit stage.
- **Temporary Overdraft Limit**- This data segment is editable. For detailed information, refer Temporary Overdraft Limit data segment in the Overdraft Limit stage.
- **Account Service Preferences** - This data segment is editable. For detailed information, refer Account Service Preference data segment in the Overdraft Limit stage.
- **Account Limit Details** - This data segment is ready only. For detailed information, refer Account Limit Details data segment in the Overdraft Limit stage.

All the data segments are carried forward from Application Enrichment stage. If the details are captured in Application Enrichment stage, the same will be fetched automatically. The user can modify the captured details and all the data segments are mandatory to capture the details to move the application to the next stage.

- **Summary**

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.9.1 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

 - Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
 - Select the **Return to Application Entry Stage** to make application entry stage available in free task.
 - Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Enter the remarks in **Remarks**.

- Click **Submit** to submit the account parameter setup stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
- Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Current Account] to the Account Approval stage. This application is will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.10 Supervisor Application Approval Stage

This topic describes the information on the various data segments to view and approve the price change in the Supervisor Application Approval stage.

The **Supervisor Application Approval** stage has the following reference data segments:

- [Pricing Change Approval](#)
This topic provides the systematic instructions to view and approve the pricing change.
- [Summary](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.10.1 Pricing Change Approval

This topic provides the systematic instructions to view and approve the pricing change.

Pricing Change Approval is the first data segment of Supervisor Application Approval stage. The user can acquire the application from Free Tasks list.

- Click **Acquire and Edit** in the **Free Tasks** screen of the previous stage – **Account Parameter Setup** stage.

The **Pricing Change Approval** screen displays.

Figure 2-51 Pricing Change Approval

The screenshot displays the 'Account Approval - 006APP000063437' interface. The top navigation bar includes tabs for 'Application Info', 'Customer 360', 'Remarks', 'Documents', 'Advices', and a 'More' dropdown. The main content area is titled 'Approval Details' and shows a summary of the application. The summary includes the following fields:

- Applicant Name:** AutoFNN AutoMNN AutoLNN
- Account Type:** Savings Account
- Account Branch:** 006
- Product Code:** INSACT
- Product Name:** Instant Savings Account
- Host Product Code:** RPM5A
- Host Product Description:** RPM5A

Below the summary, there is a 'User Recommendation' section with a 'User Action' dropdown. The 'User Action' dropdown is currently set to 'Approved'. At the bottom of the screen, there are buttons for 'Audit', 'Cancel', 'Request Clarification', 'Save & Close', and 'Next'.

- Specify the fields on **Pricing Change Approval** screen.

For more information on fields, refer to the field description table.

Table 2-39 Pricing Change Approval – Field Description

Field	Description
Applicant Name	Displays the applicant name.
Account Type	Displays the account type.
Account Branch	Displays the account branch name.
Product Code	Displays the product code selected for this saving account.
Product Name	Displays the product name selected or this saving account.
Approved Amount	Displays the final approved overdraft amount.
OD Tenure	Displays the final OD tenure for the approved amount.
Existing Values	Displays the existing values.
Rate Type	Displays the rate type.
Base Rate	Displays the rate of interest for the approved overdraft amount.
Margin	Displays the margin.
Effective Rate	Displays the effective rate.
Handling Charges	Displays the handling charges.
Revised Values	Displays the revised values against the existing values.
Rate Type	Displays the rate type.
Base Rate	Displays the rate of interest for the approved overdraft amount.
Margin	Displays the margin.
Effective Rate	Displays the effective rate.
Handling Charges	Displays the handling charges.
User Recommendation	Select the user recommendation. Available options are: • Approved • Rejected
User Action	Displays the user action based on user recommendation.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.10.2 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in **Pricing Change Approval** screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-40 Summary - Pricing Change Approval – Field Description

Data Segment	Description
Pricing Change Approval	Displays the pricing change approval details.

- Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Overrides** screen is displayed.
- Click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.
- Click **Save & Proceed**. The **Outcome** screen is displayed.
- In the **Outcome** screen, select appropriate option from the Select to Outcome field.
- Select **Proceed** outcome from the drop-down list. It will logically complete the **Supervisor Application Approval** stage for the Saving Application. The Workflow Orchestrator will automatically move this application to the next processing stage.

If the Supervisor has approved the price change, submit of this stage, will move the application to **Offer Issue** stage.

If the Supervisor has rejected the price change, the application will be routed back to **Account Parameter Setup** stage.

The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- Click **Submit**. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
- Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the **Offer Issue Stage** for Individual Customers. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.11 Offer Issue Stage

This topic describes the information on the various data segments to generate the offer in the Offer Issue stage.

After due diligence and Account Parameter setup, the Application will move to the Offer issue stage where the user will generate the offer letter. As a reference, the relevant completed data segments will be made available to the user before the application can be moved to the next stage. These completed data segments are from the Application Underwrite Stage and Application Assessment Stage. The data segments are displayed in view only mode for the user to browse.

In the Offer Issue stage, provide the required details under each data segment. The Offer issue stage has the following reference data segments:

- **Credit Rating Details:** - For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Underwriting stage.

Refer below chapters for detailed information on data segment that are editable.

- [Assessment Summary](#)
This topic provides the systematic instructions to view the assessment summary of the Savings Account application.

Assessment Summary	Displays the assessment details.
Offer Issue	Displays the offer issue details.

- Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and the documents for this stage can be validated or verified. The **Override** screen is displayed.
- Accept the overrides and click **Proceed Next**. The **Checklist** screen is displayed.
- Click **Proceed Next**. The **Outcome** screen is displayed.
- In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the Offer Issue stage for the Overdraft Application. The Workflow Orchestrator will automatically move this application to the next processing stage, Offer Accept/Reject. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
 - Select the **Reject Application** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.

6. Click **Submit** to submit the Offer Issue stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.

7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Overdraft] to the Application **Offer Accept / Reject** stage.

2.12 Offer Accept / Reject Stage

This topic describes the information on the various data segments to accept / reject the offer in the Offer Accept / Reject stage.

After the Offer Issue stage, the offer letter will be sent or communicated to the borrower or applicant. The **Offer Accept / Reject** stage will enable the user to record the customer response – Accept or Reject as the case may be. Also, the offer made can be amended based on Customer request – viz., change in Principal Amount, Interest Rate or Tenure. The post offer amend can be routed back to the relevant previous completed stages like Application Enrichment stage. If the business wants the Underwriting stage or the Application Assessment stage to be redone, they can be configured accordingly, post which the new offer with the revised terms will be issued to the borrower or applicant for acceptance.

To perform actions on issued offer:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Offer Accept /Reject** stage is displayed.

In the Offer Accept / Reject stage, provide the required details under each data segment. The Offer Accept / Reject stage has the following data segments which user can only view:

- **Offer Issue** - For detailed information, refer the Offer Issue data segment in the Offer Issue stage.
- **Assessment Summary** - For detailed information, refer the Assessment Summary data segment in the Offer Issue stage.

Refer below chapters for detailed information on data segment that are editable.

4. Click **Save & Proceed Next**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the Offer Issue stage for the Overdraft Application. The Workflow Orchestrator will automatically move this application to the next processing stage, Offer Accept/Reject. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.

- If the Customer Response is selected as Accept in Offer Accept/Reject screen, then submit of this stage, will move the application into the Account Approval stage.
 - If the Customer Response is selected as Reject in Offer Accept/Reject screen, then submit of this stage, will terminate the application.
 - If the Customer Response is selected as Amend in Offer Accept/Reject screen, then submit of this stage, will move the application into the Post Offer Amendment stage.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Offer Accept/Reject stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Overdraft] to the next processing stage on Host. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.13 Post Offer Amendment Stage

This topic describes the information on the various data segments to request for amendment of overdraft in the Post Offer Amendment stage.

Post Offer Amendment stage enables the user to request for amendment of Overdraft components after the Offer is Issued by the bank. This stage will appear only if the **Customer Response** is selected as **Amend in Offer Accept/Reject** data segment.

To perform actions on post offer amendment:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Post Offer Amendment stage is displayed.

The **Post Offer Amendment** stage has the following reference data segments:

- **Account Limit Details** - This data segment is editable. For detailed information, refer Account Limit Details data segment in the Overdraft Limit stage.
- **Offer Issue** – This data segment is read only. For detailed information, refer the Offer Issue data segment in the Offer Issue stage.
- **Offer Accept/ Reject** – This data segment is read only. For detailed information, refer the Offer Accept/ Reject data segment in the Offer Accept/ Reject stage.

Refer below chapters for detailed information on data segment that are editable.

- [Post Offer Amendment](#)
This topic provides the systematic instructions to request for amendment of Overdraft components after the Offer is Issued by the bank.

- **Summary**
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.13.1 Post Offer Amendment

This topic provides the systematic instructions to request for amendment of Overdraft components after the Offer is Issued by the bank.

Post Offer Amendment data segment is the first data segment of Post Offer Amendment stage. The user can acquire the application from Free Tasks list.

1. Click **Acquire and Edit** in the **Free Tasks** screen of the previous stage – **Offer Accept / Reject** stage.

The **Post Offer Amendment** screen displays.

Figure 2-58 Post Offer Amendment

The screenshot displays the 'Post Offer Amendment' screen for application 006APP000042918. The interface includes a top navigation bar with tabs like 'Application Info', 'Customer 360', 'Remarks', 'Documents', 'Advises', and 'More'. A left sidebar shows a navigation menu with options: 'Account Details', 'Offer Issue', 'Offer Accept/Reject', 'Post Offer Amendment' (selected), and 'Summary'. The main content area is titled 'Post Offer Amendment' and contains a grid of fields:

- Applicant Name:** MR AutoFNN AutoMNN AutoLNN
- Account Type:** Current Account
- Account Branch:** 000
- Business Product Code:** CURPCA
- Business Product Name:** Premier Checking Account
- Approved Amount:** GBP, 50,000.00
- Limit Type:** Unsecured
- Start Date:** March 30, 2018
- End Date:** April 26, 2020
- Rate Type:** Fixed
- Rate Of Interest:** 15
- Variance:** 0.5
- Effective Rate:** 15.50
- Offer Issue Date:** March 30, 2018
- Offer Expiry Date:** April 3, 2018

At the bottom, there are buttons for 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next'.

2. Specify the fields on **Post Offer Amendment** screen.
For more information on fields, refer to the field description table.

Table 2-46 Post Offer Amendment – Field Description

Field	Description
Applicant Name	Displays the applicant name.
Account Type	Displays the account type.
Account Branch	Displays the account branch name.
Business Product Code	Displays the business product code selected for this saving account.
Business Product Name	Displays the business product name selected for this saving account.
Offer Issue Date	Displays the date of offer issued.
Offer Expiry Date	Displays the date based on the expiry period configuration done at the Business Product level which is used for this Overdraft.
Offer Amend Date	Displays the date of offer amend.
Limit Currency	Displays the limit currency.
Approved Amount	Displays the revised Overdraft amount for approval.
Limit Type	Displays the limit type.

Table 2-46 (Cont.) Post Offer Amendment – Field Description

Field	Description
Start Date	Select the start date.
End Date	Select the end date.
Rate Type	Displays the rate type.
Base Rate	Displays the base rate.
Margin	Specify the amended Margin.  Note: This field appears only for Floating rate type.
Variance	Specify the amended Variance.  Note: This field appears only for Fixed rate type.
Effective Rate	Displays the amended effective rate. Effective Rate = Rate of Interest + Margin/Variance.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.13.2 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in **Post Offer Amendment** screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-59 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-47 Summary - Post Offer Amendment – Field Description

Data Segment	Description
Offer Issue	Displays the offer issue details.
Post Offer Amendment	Displays the post offer amendment details.

2. Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Override** screen is displayed.
3. Accept Overrides and click **Proceed Next**. The **Checklist** screen is displayed.
4. Click **Proceed Next**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the **Post Offer Amend** stage for the Overdraft Application. The Workflow Orchestrator will automatically move this application to the next processing stage. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - If there is any change in **Approved Amount** and/or in **Limit Date Range**, then submit of this stage, will move the application to the **Application Assessment** stage.
 - If the changes are only in the **Rate of Interest** (Pricing), then submit of this stage, will move the application to the **Supervisor Application Approval** stage.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Enter the remarks in **Remarks**.
7. Click **Submit** to submit the Post Offer Amendment stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
8. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.14 Application Approval Stage

This topic describes the information on the various data segments to view the captured details and approve the application in the Application Approval stage

Users having functional access to the Account Approval Stage will be able to view the record in the Free Task process.

The Account Approval Stage comprises of all the data segment of the previous stages. Since the data segment are in view only mode and have been completed in the previous stages, the Account Approval stage is launched with Collateral Perfection Details data segment.

To approve an account opening:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Account Approval stage is displayed.

The Account Approval stage has the following data segments which user can only view:

Time spent	Displays the days spent in the current phase/stage.
Stage Start Date	Displays the start date of the current stage. It also display time in hours, mins and seconds.
View	Click the View button to view the data segment of the respective stage. The overview of the data segments appears in tile. Click on the tile to view futher details of that data segment.
<Status of the Application>	Display the status of the application.
Account Opening Date	Displays the date on which the account is opened. This field appears once the account opening process is completed.
Account Number	Displays the account number. This field appears once the account opening process is completed.
<Relavant Amount>	Displays the value based on the product. For example, • For the loan account opening application, the label of this field appears as Loan Amount. • For the saving account optning application. the lable of this field appears as Initial Funding Amount.
View Applicant Details	In this section you can view the applicant details of all the applicants involved in the application. Below field appears with the respective applicant details: • Applicant Name • Role • CIF • Email ID • Contact Number

Table 2-53 (Cont.) Application Information – Field Description

Field	Description
View Clarification Details	In this section you can view the clarification history. Below fields appear with the details: • ID • Subject • Raised By • Date • Status • Status updated on On the click of the respective record the user can view the clarification content.
Advices	In this section you view the advices generated in the process of account opening. Below fields appear with the details: • Advice Name • Stage • Mode of Delivery • Recipient • Date You can View and Download on clicking the respective icons.

2. Click **Close** to close window.

2.17.4 Remarks

You can view the remarks.

- Click **Remarks** to update any remarks that you want to post for the application that you are working on.

The **Remarks** screen is displayed.

Figure 2-68 Remarks

The screenshot shows a web-based text input interface. At the top, there is a horizontal toolbar with icons for undo, redo, bold (B), italic (I), underline (U), strikethrough (ABC), and text color (A). Below the toolbar is a large text area with the placeholder text "Enter text here...". In the bottom right corner of the text area, there are two small square icons for expanding or collapsing the text area. Below the text area is a button labeled "Post". The entire interface is enclosed in a light gray border with a close button (X) in the top right corner.

Remarks posted are updated with your User ID, Date, and are available to view in the next stages for the users working on that application.

2.17.5 Documents

You can upload and view the documents that are uploaded.>

1. Click **Documents** to upload the documents linked for the stage.
The **Documents** screen is displayed.

Figure 2-69 Documents

2. Select the document status to filter the document based on the status. The available options are All, Open and Deleted.
3. Click

on the Document tile to view, download and delete the document.

4. Click **View** to view the document.
The **View Document** is displayed.

8. Specify the details in the relevant data fields. For more information on fields, refer to the **Upload Document – Field Description**.

Table 2-54 Upload Document – Field Description

Field	Description
Document Type	Select the document type.
Document Code	Select the document code.
Document Title	Specify the document title.
Document Description	Specify the description for the document.
Remarks	Specify the remarks for the document.
Document Expiry Date	Select the document expiry date.
Drop files here or Click to select	Drag and drop the document or Select the document from the machine.
Upload	Click Upload to upload the document.

 Note:

Ensure that mandatory documents are uploaded, as the system will validate the same during the stage submission.

Mandatory documents can only be deleted in the same stage where it is uploaded.

Non-mandatory documents can be deleted in any stage.

2.17.6 Advices

You can view the advices that are shared with customer. Advices are generated post Application Entry stage is submitted.

- Click **Advices** to view the advice linked for the stage.

The **Advices** screen is displayed.

Figure 2-72 Advices

The system will generate the advice on submission of the stage. For Application Entry stage of Current Product, no advice is configured.

2.17.7 Condition and Convenants

You capture conditions and convenants details for the loan applications.

In this section you can add, edit and remove the condition and covenant details .

Conditions

The Conditions are stipulations and constraints recorded in a contract to restrict the usage of funds, in order to ensure proper utilization of funds for the specified purposes and to adhere to a stipulated schedule.

To add conditions:

- From the **More** option, click the **Conditions & Convenants** to add or remove the conditions details.

The **Conditions & Convenants** page appears.

Figure 2-73 Conditions

2. Click **Add** to add new conditions.
OR
Click **Remove** to remove already added conditions.
3. Enter the relevant details.

Table 2-55 Conditions – Field Description

Field	Description
Entity	Select the entity on which you want to set condition. The available options are • Party • Collateral
Entity ID	Select the entity ID from the list. The options in the list appears based on the entity selected in the Entity field.
Condition	Specify the conditions for the selected entity.
Type	Select the type when the conditions must be complied. The available options are • Pre Disbursement: If you select this option then the selected conditions have to be complied prior with the account opening and loan disbursement. • Post Disbursement: If you select this option then the selected conditions occur and are supposed to be complied post loan disbursement. This conditions are manually monitored.
Status	Select the status of the condition. The available options are • Open • Complied

4. Click **OK**. The conditions are saved.

 Note:

All the fields appears with the selected options in tabular format. You can edit the details on clicking the added row.

Convenants

Often there are restrictions on borrowers while extending credit facilities. Sometimes, a borrower promises certain future acts to assure the lender that the conduct of business dealings is fair, healthy and in accordance with the best practices. The purpose of covenant is to assist the lender to ensure the health of loan facilities does not deteriorate suddenly or unexpectedly before maturity.

To add convenants:

5. From the **More** option, click **Conditions & Convenants** to add or remove the convenants details.

The **Conditions & Convenants** page appears.

Figure 2-74 Covenant

6. Click **Add** to add new covenants.
- OR**
Click **Remove** to remove already added covenants.
7. Enter the relevant details.

Table 2-56 Application Information – Field Description

Field	Description
Entity	Select the entity on which you want to set covenants. The available options are • Party • Collateral
Entity ID	Select the entity ID from the list. The options in the list appears based on the entity selected in the Entity field.
Covenants	Specify the covenants for the selected entity.
Type	Select the type when the covenants must be complied. The available options are • Financial • Reporting • Undertaking
Status	Select the status of the covenants. The available options are • Open • Complied

8. Click **OK**. The covenants are saved.

 Note:

All the fields appears with the selected options in tabular format. You can edit the details on clicking the added row.

2.17.8 Solicitor Details

You can add the solicitor details using this section.

A solicitor is a legal practitioner who traditionally deals with most of the legal matters in some jurisdictions. A person must have legally-defined qualifications, which vary from one jurisdiction to another, to be described as a solicitor and enabled to practice there as such.

In this section you can add or remove the solicitor. You can also view the already added solicitor.

To add solicitor details:

1. From the **More** option, click the **Solicitor** to add or remove or edit the already added solicitor.

he **Solicitor Details** page appears.

Figure 2-75 Solicitor

2. Enter the relevant details.

Table 2-57 Solicitor – Field Description

Field	Description
Title	Select the title of the solicitor.
First Name	Specify the first name of the solicitor.
Middle Name	Specify the middle name of the solicitor.
Last Name	Specify the last name of the solicitor.
Gender	Select the gender of the solicitor from the list.
Date of Birth	Select or enter the birth date of the solicitor.
Registration Number	Specify the registration number of the solicitor.
Communication Address	Capture the communication address of the solicitor.
Address Line 1	Specify the building name.
Address Line 2	Specify the street name.
Address Line 3	Specify the city or town name.
State / Country Sub Division	Specify the state or country sub division.
Country	Select and search the country code.
Zip Code / Post Code	Specify the zip or post code of the address.

3. Click **OK** to save the added solicitor.

2.17.9 Clarification Details

You raise the clarifications using this section.

To add the clarification details:

1. Click **Clarification Details** to raise a new customer clarification request or view the existing request.

2. Click **New Clarification** to request new clarification.
The **New Clarification** screen is displayed.

Figure 2-76 New Clarification

3. Enter the subject and the clarification detail in the New Clarification Pop-up screen. The system also allows you to upload the document for the Clarification being raised.

Figure 2-77 Upload Documents

4. Once the details are updated, click **Save**. Clarification Request once raised moves the application to 'Awaiting Customer Clarification' state. The application continues to be assigned to the user who had raised the request. All the applications for which the specified user has requested clarification can be viewed and actioned from the **Awaiting Customer Clarification** sub-menu available under **Task** menu.

Select the Application from the **Awaiting Customer Clarification** sub-menu available under the **Task** menu. Click on the **Clarification Details** from the header.

5. Select the specific clarification to take action on it.

Allowed actions are as following:

- Adding New Conversation
- Withdraw Clarification
- Accept Clarification

Once the Clarification is either withdrawn or accepted, the application moves back to the **My Task** sub-menu available under **Task** menu, post which the user can edit the application and submit the specified stage. Clarification once raised and actioned are available throughout the application processing by the other users working on the other stages of the application by clicking on **Clarification Details** from the header.

3

Simplified Application

This topic describes the concept and process of single stage application.

What is Simplified Application?

The Simplified Application is introduced to open an account in a smooth single process culminating the long account opening process. In this process the user can directly create and application and update details with multiple data segments in a single view.

How to configure Simplified Application for a product?

To enable a simplified account opening process, select the **Simplified Application** flag in the **Business Product Preference** data segment of the **Business Product Configuration** screen.

Once the product is configured for simplified application, the user can configure the business process such as stages, data segments, document checklist and so on, in the **Business Process Configuration** screen.

How to process the simplified application?

After configuring the product and process, the user can initiate a single-stage application by navigating the menu. Below is the detailed process for opening an account using a simplified application.

To open an account using simplified application process:

1. From the **Menu**, select the **Retail Origination**. The Retail Origination menu appears.
2. From the **Retail Origination**, select the **New Application**. The New Application page appears with list of product types which are configured.
3. Select the appropriate product and click **Apply**.
The Application Entry stage appears. The data segments in this stage appears based on the business process configuration.
 - **Applicant** : In this data segment user can capture applicant details such as basic, address, signature, employment, identification. Multiple applicants are allowed with different roles. Refer **Applicant** data segment from the **Application Entry** stage of this guide.
 - **Account Details**: In this data segment user can capture the product details to configure the account. Refer **Account Details** data segment from the **Application Entry** stage of this guide.
 - **Nominee Details**: In this data segment user can capture the nominee details. Refer the **Nominee Details** data segment from the **Application Entry** stage of this guide.
 - **Interest and Charges**: In this data segment user can view the interest and charges that are applicable. Refer the **Interest and Charges** data segment from the **Application Entry** stage of this guide.
 - **Term and Conditions**: In this data segment user can capture the term, conditions and consents of the customer. Refer the **Term and Conditions** data segment from the **Application Entry** stage of this guide.

- **Review:** In this data segment user can review all the details that are captured on clicking on each data segment tile.
4. On submitting the Application Entry stage, next stage is triggered based on the business process configuration.
Below are the stages are autogenerated if the Know Your Customer (KYC) process is not successfully completed:
 - **Debit Assessment:** If the applicants involved in a single-stage application have not completed the Know Your Customer (KYC) process, then the **Debit Assessment** stage appears in an account opening process. The user having the required access rights can pick this task and can retry submission after taking required actions on the KYC non-compliance. Refer the **Debit Assessment** stage of this guide.
 - **Manual Debit Assessment:** If the bureau status of any applicant is marked as **Referred** then this stage appears in an account opening process. Refer the **Manual Debit Assessment** stage of this guide.
 5. On completing the Know Your Customer (KYC) process, the account number is generated and application proceed to approval stage. The Account Approval stage is generated. All the data segments of the Application Entry stage appears. The user can only view those stages. The Approval Details data segment is enabled to capture account approval status. For more information refer the **Approval Details** data segment of the **Account Approval** stage in this guide.
 - If the Rejected option is selected in the Approval Details data segment then this application is terminated.
 - If the Approved option is selected in the Approval Details data segment then the application's payload are proceed for account creation.
 6. An account is created on approving the application in the **Account Approval** stage.
 7. Below tasks are aslo generated in this process:
 - In case of system failure, the **Handoff Retry** task is generated in the Free Task. The user having the required access rights can pick such task and can retry submission to Host after taking required actions on the Failure reason.
 - In case Account Funding is configured in business process then post account creation the Account funding stage is generated. For more information refer the **Account Funding** stage in this guide.

Instant Current Account Origination Process

This topic describes the information about Instant Current Account Origination Process.

Additional Instant Business Process is available wherein various stages in the Reference Flow for Current Account have been automated.

This allows Instantaneous Account origination from Self-Service Channel such as Oracle Banking Digital Experience for existing Customer who are KYC Compliant and New Customers for whom KYC is completed in Oracle Banking Digital Experience. KYC Type supported for the STP is Identification and Address only and the same has to be configured in Oracle Banking Party Module.

Note:

Refer the **Retail Onboarding User Guide** for more details.

Based on whether the Application has been initiated by self-service channel or by a Branch personnel the automatic submission of the stages or skipping of the stages are done by the system.

This process is not applicable for Small and Medium Business customers.

Prerequisite:

- For the automatic submission to work, it is expected that document and checklist are not configured in any of the stages.
- Initial Funding is either not taken for the Account or taken as Account Transfer for which the mode configured has to be 'H' which represents that the selected Account will be debited by the Host as part of the Account Opening Process (Allowed for both Self-Service Channel and Branch Initiated Applications) or Initial Funding is taken via External Bank Account Transfer on self-service channel (This mode is not allowed for Branch Initiated Applications). For more details refer **Initial Funding Configuration** in the **Configurations User Guide**.

In the Instant Current Account Origination Reference Business Process, the stages that have been configured are mentioned below.

- **Application Entry Stage:** On successful submission of the Current Account Application from self-service channel, the system starts the Application Entry stage without any manual intervention and completes the Data Segment level validation. On successful completion of the validation, the system automatically submits the Application Entry Stage. Similarly, for the Branch initiated Application also this stage is automatically submitted, if the data segment configured for Application Entry stage are updated in the Application Initiate Stage itself by clicking the 'Application' button in the Product Details Data Segment.
- **Account Funding Stage:** On successful submission of the Application Entry Stage, system checks if Initial Funding has been updated for the Account Opening or not.
 - The initial funding mode allowed for self-service initiated applications are External Bank Account Transfer and Account Transfer.

- In case Initial Funding has been taken for the Account via the External Bank Account Transfer in the self-service channel, system starts the Application Funding Stage and validates the Initial Funding Details Data Segment and submits the Application Funding Stage automatically.
- For Application where the Initial Funding is updated as Account Transfer or where no funding has been taken for the Account, this stage is skipped completely by the system for Application initiated from Self-Service Channel and Branch Initiated Applications.
- For the Branch Initiated Applications wherein the Initial Funding has been taken in Cash or Other Bank Cheque, this stage has to be manually actioned by the Branch User having access permission for this stage.
- **Account Approval Stage:** System skips this stage for self-service initiated application and submits the application directly to the Product Processor for Account Creation. However, for Branch initiated Application considering the 4-eye principle, system expects the application to be approved by a Supervisor. Hence this stage, will have to be picked and actioned by the Supervisor User. Supervisor User can either approve or reject the Application. On submission of this stage by selecting 'approve' outcome, system submits the Application to the Product Processor for Account Creation.
- **Handoff Retry:** Application moves to this stage and appears in the Free Task only if the Current Account creation has been rejected by Product Processor. User having the required access rights can pick such task and can retry submission to Host after taking required actions on the Failure reason.

SIGNIFICANT CHANGES

You have advised us that there are no foreseeable significant changes to your circumstances that will affect your ability to meet your contracted repayments.
You have advised us that significant changes to your circumstances may occur that could adversely affect your ability to meet your contracted repayments and you have plans in place to ensure that you will be able to continue to make repayments if these circumstances occur.

Privacy Statement

We would like to inform you that:

Purpose of collection

Personal information is information about an identifiable individual and includes facts or an opinion about you which identifies you or by which your identity can be reasonably determined. The collection of your personal information is essential to enable us to conduct our business of offering and you with our range of financial products and services.

We collect personal information for the purposes of:

identifying and protecting you when you do business with us establishing your requirements and providing the appropriate product or service setting up, administering and managing our products and services assessing and investigating and if accepted, managing a claim made by you under one or more of our product and training and developing our staff and representatives. We may be required by law to collect your personal information.

These include, but are not limited to, anti-money laundering and taxation laws.

Consequences if personal information is not provided

If we request personal information about you and you do not provide it, we may not be able to provide you with the financial product or service that you request, or provide you with the full range of services we offer.

Disclosure

We use and disclose your personal information for the purposes we collected it. We may also use and disclose your personal information for a secondary purpose that is related to the purpose for which we collected it. This would happen in cases where you would reasonably expect us to use or disclose your personal information for that secondary purpose. In the case of sensitive information, any secondary purpose, use or disclosure will be directly related to the purpose collection.

When necessary and in connection with purposes of collection, we may disclose your personal information to and/or collect your personal information from:

Other companies within the. Where required or authorized under our relationship with our joint venture companies. Information technology providers, including hardware and software vendors and consultants such as programmers research and development service providers your advisers, agents or representatives our advisers, agents or representatives if required or authorized to do so, regulatory bodies and government agencies financial advisers lenders' mortgage insurers and values credit reporting agencies legal and other professional advisers printers and mail house service providers manufacturers for plastic card production (e.g. debit and credit cards) external dispute resolution schemes.

Disclosure overseas

There are also instances where we may have to send your personal information overseas or collect personal information from overseas. These instances include: sending your personal information to companies in the group. When you have asked us to do so when we are authorised or required by law to do so when we have outsourced a business activity or function to an overseas service provider with whom we have a contractual arrangement certain electronic transactions or when it is necessary in order to facilitate a transaction on your behalf. We will only send your personal information overseas or collect personal information about you from overseas for the purposes in this statement.

Access

You can request access to the personal information we hold about you by contacting us. In some circumstances, we are able to deny your request for access to personal information. If we deny your request for access, we will tell you why. If accessing your personal information will take an extended period

of time, we will inform you of the likely delay. For more detailed requests for access to personal information, for example, access to information held in archives, a fee may be charged to cover the associated cost of retrieval and supplying this information.

Marketing

We would like to use and disclose your personal information to keep you up to date with the range of products and services available from. Generally, our companies in the group will use and disclose your personal information for 's marketing purposes. If you do not want us to use and disclose your personal information for the purpose of marketing products and services to you, you should contact us and tell us.

Contact

Please contact us to:

change your mind at any time about receiving marketing material request access to the personal information we hold about you or obtain more information about our privacy practices by asking for a copy of our Privacy Policy You can contact us by calling 13 ** 75 or contacting us at .com.au or by visiting any of our branches.
