## Purpose

This guide is designed to help you to quickly get acquainted with the Oracle Banking Origination. This guide provides an overview of the Certificate of Deposit Account Origination process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a **Individual Retirement Account Certificate of Deposit Origination**.

## Before you begin

Kindly refer to the **Getting Started User Guide** for common elements, including Symbols and Icons, Conventions Definitions, and so forth.

## Module Prerequisite

Specify the **User Name** and **Password**, and login to **Home** screen.

## Audience

This guide provides instructions and information about the Individual Retirement Account Certificate of Deposit product to help various bank users to deliver quick and efficient service to both customer and prospects.

## Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

### Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

## Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to make sure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

## Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## Conventions

The following text conventions are used in this document:

Convention	Meaning
<b>boldface</b>	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which user supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that user enter.

## Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

## Acronyms and Abbreviations

# 1

## Overview

This topic describes about the features of the entire module.

Oracle Banking Origination is a middle office banking solution that offers extensive support for Retail Banking Origination processes. It encompasses a range of products, including Savings Accounts, Current Accounts, Certificate of Deposits, Credit Cards, and various types of loans such as Home Loans, Personal Loans, Education Loans, and Vehicle Loans for individual customers, as well as Term Loans and Business Loans tailored for Small and Medium Business clients.

It enables banks to deliver improved user experience for various bank persons handling defined functions in the life cycle of the various product origination.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business driven, is hosted and architectures by our new platform solution. The random access navigation between data segments within a given stage with appropriate validations, helps enable the business user to capture apt information anytime during the account open process before the Certificate of Deposit Account is created in the Host. The new work-flow also supports capturing of relevant documents, stage wise, and generation of advices and notifications dynamically.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business driven, is hosted and architectures by our new platform solution. The random access navigation between data segments within a given stage with appropriate validations, helps enable the business user to capture apt information anytime during the account open process before the Individual Retirement Account Certificate of Deposit Account is created in the Host. The new work-flow also supports capturing of relevant documents, stage wise, and generation of advices and notifications dynamically.

This user guide explains the reference work-flow for the Individual Retirement Account Certificate of Deposit Account Origination process and further details the data that needs to be captured in the data segment linked to the specific stages.

This process initiates with the receipt of Individual Retirement Account Certificate of Deposit opening form and related documents from a customer for opening of a Individual Retirement Account Certificate of Deposit. The bank verifies the details and documents submitted for opening of Certificate Deposit to ensure completeness and initiates the Individual Retirement Account Certificate of Deposit Origination process by selecting the desired Individual Retirement Account Certificate of Deposit Product from the Product Catalogue.

# 2

## IRA Certificate of Deposit Origination

This topic provides detailed information on the defined stages through which the Individual Retirement Account Certificate of Deposit application has to flow.

As detailed in the **Operations** user manual, all the Product Originations are initiated in the **Application Initiation** stage from the Product Catalogue. The **Cart Operation** in Product Catalogue allows to originate single or Product initiation. Once the Individual Retirement Account Certificate of Deposit product origination process is initiated as a single product origination selection, Process Orchestrator generates the Individual Retirement Account Certificate of Deposit Process Reference Number on submit of the **Application Initiation** stage. Process Orchestrator also updates the record in the **Free Task** process for the **Application Entry** stage also referred as **Task** from orchestrator perspective.

The IRA Certificate of Deposit Account Origination Process flow comprises of the following stages and the detailed information of the same is available in the following topics:

- [Application Entry Stage](#)  
This topic describes the information on the various data segments to capture the required data in the Application Entry stage.
- [Application Documents](#)  
This topic describes the process of the documents that are uploaded related to application.
- [Manual Debit Assessment](#)  
The topic describes the manual debit assessment process.
- [Account Funding Stage](#)  
This topic provides the detailed information about the account funding stage data segments.
- [Global Actions](#)  
This topic provides details on the actions that can be performed in all stages.

### 2.1 Application Entry Stage

This topic describes the information on the various data segments to capture the required data in the Application Entry stage.

Based on the access configuration, user can view the records in **Free Task**. In this stage user can capture the details that are required to open a current account. This stage is automatically submitted on below conditions:

- If the bank level configuration for allowing the full application submission is set as **Yes**.
- If the user captures the required details in all the data segments of the **Application Entry** stage as part of the **Application Initiation** stage on clicking the **Application** button in the **Product Details** data segment.

**To open Current Account Application Entry task:**

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Current Account Application Entry** stage is displayed.

The data segments appears as configured in business process. Refer below sections for detailed information of each data segment.

- [Applicant](#)  
This topic provides the systematic instructions to capture the customer-related information for the application.
- [Account Details](#)  
This topic provides the systematic instructions to capture the account related information for the application.
- [Funding](#)  
This topic provides the systematic instructions to capture the funding details of Individual Retirement Account Certificate of Deposit account.
- [Payout Instructions](#)  
This topic provides the systematic instructions to capture the payout instructions details for Individual Retirement Account Certificate of Deposit Origination.
- [Beneficiary Details](#)  
This topic provides the systematic instructions to capture the details of the beneficiary for the account.
- [Terms and Conditions](#)  
This topic descriptions the terms and conditions that are mandatory to accept in order to proceed with account opening process.
- [Review](#)  
This topic provides the systematic instruction to view the tiles for all the data segments in the Application Entry Process.

## 2.1.1 Applicant

This topic provides the systematic instructions to capture the customer-related information for the application.

The details captured of the customer in the Application Initiate stage appears in this data segment. The user can update further fields for supplementing the customer related information.

- [For Individual Customer Type](#)  
The topic describes the process to capture or edit customer information of Individual type of customer.

### 2.1.1.1 For Individual Customer Type

The topic describes the process to capture or edit customer information of Individual type of customer.

#### To capture applicants details:

1. In the **Individual Retirement Account Certificate of Deposit Application Entry** stage, update the customer details in the Applicants data segment based on the respective customer type.

The **Applicant - Individual** screen displays.

<b>Current Employer</b>	Select whether the applicant currently working in this company. The available options are: <ul style="list-style-type: none"> <li>• <b>Yes</b></li> <li>• <b>No</b></li> </ul>
<b>Working Since</b>	Select the employment start date.
<b>Working Till</b>	Select the employment last date.
<b>Employee ID</b>	Specify the employee ID.
<b>Grade</b>	Specify the grade.
<b>Designation</b>	Specify the designation.

**Table 2-1 (Cont.) Applicant- Individual – Field Description**

Field	Description
<b>Self Employed</b>	<p>Below field appears if the <b>Self Employed</b> option is selected from the <b>Employment Type</b> list.</p> <p>In this section user can capture self-employment or professional details of customer.</p> <p>Below fields appears if self-employment or professional details are already captured.</p> <ul style="list-style-type: none"> <li>• <b>Professional Name</b></li> <li>• <b>Professional Description</b></li> <li>• <b>Professional Email ID</b></li> <li>• <b>Company /Firm Name</b></li> <li>• <b>Registration Number of Company</b></li> <li>• <b>Start Date</b></li> <li>• <b>End Date</b></li> </ul> <p>User can edit, view or delete already added details.</p>
<b>Professional Name</b>	Select the professional name from the drop-down list. Based on the configuration, the options are shown in the drop-down list.
<b>Professional Description</b>	Specify the professional description.
<b>Professional Email ID</b>	Specify the professional email ID.
<b>Company /Firm Name</b>	Specify the company or firm name.
<b>Registration Number of Company</b>	Specify the registration number.
<b>Start Date</b>	Specify or select the start date of company.
<b>End Date</b>	Specify or select the end date of company.
<b>&lt;Added record tile&gt;</b>	<p>In this tile user can view the added employment details.</p> <p>Below details appears in the tile:</p> <ul style="list-style-type: none"> <li>• <b>Employment Type</b></li> <li>• <b>&lt;Current Employer&gt;</b> this flag appears only if <b>Yes</b> option is selected.</li> <li>• <b>Employer Name</b></li> <li>• <b>Working Dates</b></li> </ul> <p>Click <b>Edit</b> to edit the added ID details.</p> <p>Click <b>View</b> to view the added ID details.</p> <p>Click  to delete the added ID details.</p>

If service member option is selected as **Yes**, the service member details section displays.

**Figure 2-2 Service Member Details**

For more information on fields, refer to the field description table below:

**Note**

The fields which are marked as Required are mandatory.

**Table 2-2 Service Member Details**

Fields	Description
<b>Service Member Details</b>	In this section user can capture the service member details, if the customer is service member.
<b>Service Branch</b>	Specify the service branch of the customer. The available options are: <ul style="list-style-type: none"> <li>• <b>Army</b></li> <li>• <b>Marine Corps</b></li> <li>• <b>Navy</b></li> <li>• <b>Air Force</b></li> </ul>
<b>Employee ID</b>	Specify the employee identification code.
<b>Service Obligation End date</b>	Specify the end date of service obligation.
<b>Rank</b>	Select the rank from the drop-down list.
<b>Pay Rate</b>	Specify the pay rate from the drop-down list.
<b>Service Status</b>	Specify the service status from the drop-down list.
<b>Remarks</b>	Specify the remarks.
<b>Unit Name</b>	Specify the unit name of the customer.
<b>Order Number</b>	Specify the order number of the service in which the customer is enrolled.
<b>Active Duty Start Date</b>	Specify the date on which service is active.
<b>Active Duty End Date</b>	Specify the date on which the service is ending.
<b>Notification Date</b>	Specify the date on which the customer notified bank about the enrollment in service. This date cannot be future dated.
<b>Actions</b>	Select the action to perform on the added record. The available actions are: <ul style="list-style-type: none"> <li>• Click  to save the added record.</li> <li>• Click  to edit the added record.</li> <li>• Click  to delete the added record.</li> </ul>

**Advanced Search**

User can perform an advanced search for the party by providing additional information.  
User can perform search on below party types:

- For Individual
  - **First Name**
  - **Middle Name**
  - **Last Name**

- **Date of Birth**
- **Preferred Unique ID**
- **Tax Identification Number**
- **Mobile Number**
- **Email**
- For Non- Individual
  - **Party ID**
  - **Business or Organization Name**
  - **Registration Number**
  - **Registration Date**
  - **Email**
  - **Customer Category**

To search for a party using the advanced search:

- a. Click the **Advanced Search** on the **Applicants** screen. The **Search Party** window displays.

**Figure 2-3 Advanced Search - Individual**

**Figure 2-4 Advance Search - Small Medium Business Products**

- b. On the **Search Party** screen, perform one of the following actions:

- Click **Fetch** to search all the parties.  
All the parties in the system appears in the table.

  - Zip Code / Post Code:** (Empty)
  - Town Name:** (Empty)
  - Town Location Name:** (Empty)
  - Country:** United States
  - Country Sub Division:** California
  - Address Line 1:** (Empty)
  - Address Line 2:** (Empty)

- On the **Upload ID Document** screen, the fields are pre-populated with extracted data. For more information on fields, refer to the field description table below.

**Table 2-4 Verify Information – Field Description**

Field	Description
<b>Document Image</b>	Displays the uploaded document image.
<b>First Name</b>	The information in this field is automatically populated with the extracted data. User can modify the first name of the applicant if required.

Table 2-4 (Cont.) Verify Information – Field Description

Field	Description
<b>Middle Name</b>	The information in this field is automatically populated with the extracted data. User can modify the middle name of the applicant if required.
<b>Last Name</b>	The information in this field is automatically populated with the extracted data. User can modify the last name of the applicant if required.
<b>Date of Birth</b>	The information in this field is automatically populated with the extracted data. User can modify the date of birth of the applicant if required.
<b>Gender</b>	The information in this field is automatically populated with the extracted data. User can modify the gender of the applicant if required.
<b>Unique ID Type</b>	Displays the unique ID type of the applicant based on the document uploaded.
<b>Unique ID Number</b>	The information in this field is automatically populated with the extracted data. User can modify the Unique ID number of the applicant if required.
<b>ID Status</b>	The information in this field is automatically populated with the extracted data. User can modify the ID status of the applicant if required.
<b>Preferred ID</b>	The information in this field is automatically populated with the extracted data. User can modify the preferred ID by clicking <b>Yes</b> or <b>No</b> .
<b>Issue Date</b>	The information in this field is automatically populated with the extracted data. User can modify the issue date of the driving license, if required. This field appears only if the <b>Document Name</b> is selected as <b>Driving License</b> .
<b>Unique Id Expiry Date</b>	The information in this field is automatically populated with the extracted data. User can modify the unique ID expiry date of the applicant if required.
<b>Place Of Issue</b>	The information in this field is automatically populated with the extracted data. User can modify the place of issue of the applicant if required.
<b>Address Type</b>	The information in this field is automatically populated with the extracted data. User can modify the address type from the drop-down list if required. When the user uploads a document, the system retrieves the address type from Common Core maintenance. By default, the address type is set to <b>Communication Address</b> , and the address details are displayed in an unstructured format.
<b>Effective Date</b>	The information in this field is automatically populated with the extracted data. User can modify the date when the applicant start residing at the specified address.
<b>End Date</b>	The information in this field is automatically populated with the extracted data. User can modify the date when the applicant last lived at the specified address.
<b>Make this as preferred address</b>	The information in this field is automatically populated with the extracted data. User can modify the address preference by switch <input type="checkbox"/> for communication.

Table 2-4 (Cont.) Verify Information – Field Description

Field	Description
<b>Search Address</b>	Specify the address to search for the already captured address if required. Based on the configuration, on entering a few letters, the system fetches the related address that is already captured. Based on the selection, the fields are fetched in the address section.
<b>Unstructured Address</b>	The information in this field is automatically populated with the extracted data. System displays the address in unstructured format by default. <ul style="list-style-type: none"> <li>Switch <input checked="" type="checkbox"/> to display the fields for capturing the unstructured address.</li> <li>Switch <input type="checkbox"/> to hide the unstructured address fields.</li> </ul>
<b>Address Line 1</b>	The information in this field is automatically populated with the extracted data. User can modify the building name if required.
<b>Address Line 2</b>	The information in this field is automatically populated with the extracted data. User can modify the street name if required.
<b>Address Line 3</b>	The information in this field is automatically populated with the extracted data. User can modify the city or town name if required.
<b>Address Line 4/Landmark</b>	The information in this field is automatically populated with the extracted data. User can modify the landmark if required.
<b>Country</b>	The information in this field is automatically populated with the extracted data. User can modify the country from the drop-down list if required.
<b>State/Country Sub Division</b>	The information in this field is automatically populated with the extracted data. User can modify the state or country sub-division from the drop-down list if required.
<b>Zip Code/ Pin Code</b>	The information in this field is automatically populated with the extracted data. User can modify the zip or post code of the address if required. <b>Note:</b> The maximum length is 16 characters and allows alphanumeric characters, including spaces.
<b>Zip +4</b>	The information in this field is automatically populated with the extracted data. User can modify the zip extension code of the address if required.
<b>Structured Address</b>	User can add the structured address if required. <ul style="list-style-type: none"> <li>Switch <input checked="" type="checkbox"/> to display the fields for capturing the structured address.</li> <li>Switch <input type="checkbox"/> to hide the structured address fields.</li> </ul>
<b>Department</b>	Specify the name of department.
<b>Sub Department</b>	Specify the name of sub department.
<b>Street Name</b>	Specify the street name.
<b>Building Number</b>	Specify the building number.
<b>Building Name</b>	Specify the name of the building.
<b>Floor</b>	Specify the floor number.
<b>Post Box</b>	Specify the post box number.
<b>Room</b>	Specify the room number.
<b>Zip Code / Post Code</b>	Specify the zip or post code of the address. It allows the alphanumeric characters including space.
<b>Town Name</b>	Specify the name of the city or town where the customer is located.
<b>Town Location Name</b>	Specify the name of sub-location or area within the city or town.

**Table 2-4 (Cont.) Verify Information – Field Description**

Field	Description
<b>District Name</b>	Select the district from the drop-down list.
<b>Country</b>	Select the country from the drop-down list.
<b>Country Sub Division</b>	Select the country sub-division from the drop-down list.
<b>Address Line 1</b>	Specify the address in line 1.
<b>Address Line 2</b>	Specify the address in line 2.

9. Perform one of the following actions on the screen:
  - Click **Save** to save pre-populated the data and return to the **Applicants** screen.
  - Click **OK** to override the data fields with the extracted data.
  - Click **Cancel** to cancel the override action and return to the **Applicants** screen.

## 2.1.2 Account Details

This topic provides the systematic instructions to capture the account related information for the application.

The **Account Details** data segment displays the account details.

1. Click **Next** in previous data segment screen to proceed with the next data segment, after successfully capturing the data.

The **Account Details** screen displays.

Refer below screen shot if the customer type is selected as **Individual**:

<b>Plan Type</b>	Select the plan type from the drop-down list. The available options. <ul style="list-style-type: none"> <li>• <b>Traditional IRA</b></li> <li>• <b>Roth IRA</b></li> <li>• <b>Simplified Employee Pension IRA</b></li> </ul> <b>Note:</b> Simplified Employee Pension IRA account is not allowed for minor primary applicants.

Table 2-5 (Cont.) Account Details

Field Name	Description
<b>Account Address Preference</b>	<p>Select the address which is indicated as account address. The applicant data segment displays the addresses indicated as account addresses for selection. The drop-down list displays the address in the following format:</p> <p>&lt;First Name&gt; - &lt;Applicant Role&gt; - &lt;Address Type&gt; - &lt;Address (Complete address separated by commas ,)&gt;</p> <p>After the account address is selected:</p> <ul style="list-style-type: none"> <li>• If the user deletes an address from the <b>Applicant</b> data segment then the system removes that address from this data segment and the user must then select another address as the account address.</li> <li>• If the <b>Applicant</b> data segment is edited with a new address then the updated address is reflected in this segment.</li> </ul>
<b>Mandate Details</b>	In this section the user can capture the mode of operation for the account.
<b>Mode of Operations</b>	Select the appropriate option from the mode of operations list.
<b>Applicants</b>	In this section, user can set the communication preferences of the applicants involved in an account opening application. The separate tabs appears for each applicants involved in the application.
<b>Banking Channel Preferences</b>	<p>Select the preferences for the banking channel.</p> <p>The channel options appears based on the Business Product Configuration.</p>
<b>Communication Channel Preferences</b>	<p>Select the preference of the communication channel.</p> <p>The channel options appears based on the Business Product Configuration.</p> <p>The available options are:</p> <ul style="list-style-type: none"> <li>• <b>EMAIL</b></li> <li>• <b>POST</b></li> <li>• <b>SMS</b></li> </ul>
<b>Preferred Communication Channel</b>	<p>Select the preferred communication channel.</p> <p>The options in this drop down appears based on the selected options in the <b>Communication Channel Preferences</b> fields.</p>

3. Proceed by clicking **Next** to move to the subsequent data segment once the data has been successfully captured. The system will verify all required data segments and fields. If any essential information is missing, an error message will be shown to prompt the user to address the issue. Users must complete the mandatory data before they can advance to the next segment.

## 2.1.3 Funding

This topic provides the systematic instructions to capture the funding details of Individual Retirement Account Certificate of Deposit account.

In this data segment you can capture the funding details to fund the Individual Retirement Account Certificate of Deposit account.

1. Click **Next** in previous data segment screen to proceed with the next data segment, after successfully capturing the data.

The **Funding** screen displays.

Figure 2-8 Funding

2. In the **Funding** screen, specify the required details.

**Note**

The fields marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 2-6 Funding

Field Name	Description
<b>Funding Amount</b>	Displays the amount to be funded along with the currency.
<b>Fund By</b>	Select the mode from the drop-down list through which fund are collected. The available options are: <ul style="list-style-type: none"> <li>• <b>Account Transfer</b></li> <li>• <b>GL Account</b></li> <li>• <b>Fund Later</b></li> </ul> The options are displayed based on configuration done in the <b>Business Product Preference</b> screen.
<b>Type</b>	Displays the plan type as <b>Contribution</b> . If the <b>Fund By</b> is selected as <b>Fund Later</b> , this field will not be displayed.
<b>Code</b>	Select the contribution code from the drop-down list. If the <b>Funding Mode</b> is selected as <b>Fund Later</b> , this field will not be displayed.
<b>Contribution Year</b>	Select the contribution year from the drop-down list. The available options are: <ul style="list-style-type: none"> <li>• <b>Current</b></li> <li>• <b>Previous</b></li> </ul>
<b>Account</b>	Select the account number from the list. If you select the <b>GL Account</b> or <b>Account Transfer</b> option from the <b>Fund By</b> drop-down list, this field will become visible. The applicants' Savings and GL accounts are the only ones populated for those who are involved in the application process.

Table 2-6 (Cont.) Funding

Field Name	Description
<b>Transaction Reference Number</b>	Specify the transaction reference number. If you select the <b>Cash</b> , <b>Account Transfer</b> , or <b>Other Bank Cheque</b> option from the <b>Fund By</b> drop-down list, this field will become visible.
<b>Value Date</b>	Select the date on which the transaction is performed. By default the current business date is populated.

**Note**

The **GL Account** and **GL Account Description** will be applicable depending on the following scenarios:

Table 2-7 Fund By

Fund By	Fund By Mode (In the Origination Preferences screen)	Applicability
Cash	Automatic	Applicable
Cash	Manual	Applicable
Account Transfer	Host	Applicable
Account Transfer	Manual	Applicable
Cheque	Manual	Applicable

Address Line 3	Specify the building name. <b>Note:</b> The maximum length is 35 characters.

Table 2-10 (Cont.) Beneficiary Details

Field	Description
<b>Country</b>	Select the country from the drop-down list.
<b>State</b>	Select the state from the drop-down list.
<b>Zip Code/Post Code</b>	Specify the zip code or post code of the address.
<b>Contingent Beneficiary Contact Details</b>	This topic displays the contact details of contingent beneficiary.
<b>Add Contact</b>	Click add to add the contact of the guardian.
<b>Communication Mode</b>	Select the communication mode from the drop-down list. The available options are: <ul style="list-style-type: none"> <li>• <b>Mobile Phone</b></li> <li>• <b>Email</b></li> </ul>
<b>Contact Sub type</b>	Select the contact type from the drop-down list. The available options are: <ul style="list-style-type: none"> <li>• <b>Residence</b></li> <li>• <b>Business</b></li> <li>• <b>Mobile</b></li> <li>• <b>Others</b></li> </ul>

- Proceed by clicking **Next** to move to the subsequent data segment once the data has been successfully captured. The system will verify all required data segments and fields. If any essential information is missing, an error message will be shown to prompt the user to address the issue. Users must complete the mandatory data before they can advance to the next segment.

## 2.1.6 Terms and Conditions

This topic descriptions the terms and conditions that are mandatory to accept in order to proceed with account opening process.

In this data segment user can capture term and conditions consents from the applicants. The customer consents are same across products but few term and conditions defer based on the applied products. They appears in questionnaire format based on the configurations. This questionnaire is mapped at product configuration level. It is mandatory to accept all term and condition to proceed with application.

This data segment comprises of below sections:

- **Term and Conditions for all products** - In this section the term and conditions which are applicable for all the products appears in the questionnaire format.
- **Term and Conditions for <Selected Product>** - In this section the term and conditions which are applicable for all the selected product appears in the questionnaire format.
- **Consents and Preferences** - In this section the user capture the consents and preferences of customer as E-Sign, Marketing Communications, and Privacy Information.

### To capture terms and conditions:

- Click **Next** from pervious data segment to proceed with the next data segment, after successfully capturing the data.

The **Term and Conditions** screen appears

Figure 2-12 Term and Conditions

2. Click  to view the term and conditions.
3. Select the toggle button to accept the term and conditions.
4. In the **Consents to receive Marketing Promotional and Sales** section, enter the channel and details.
5. Proceed by clicking **Next** to move to the subsequent data segment once the data has been successfully captured. The system will verify all required data segments and fields. If any essential information is missing, an error message will be shown to prompt the user to address the issue. Users must complete the mandatory data before they can advance to the next segment.

## 2.1.7 Review

This topic provides the systematic instruction to view the tiles for all the data segments in the Application Entry Process.

The **Review** data segment displays the account service preferences details.

1. Click **Next** from the data segment to proceed with the next data segment, after successfully capturing the data.

The **Review** screen displays.

Figure 2-13 Review

The user will have the option to view all the details captured under the given data segment.

**Note**

The fields marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 2-11 Review - Field Description

Data Segment	Description
<b>Applicants</b>	Displays the applicants details.
<b>Account Details</b>	Displays the account details.
<b>Funding</b>	Displays the funding details.
<b>Payout Instruction</b>	Displays the payout instruction.
<b>Beneficiary Details</b>	Displays the beneficiary details.
<b>Terms and Conditions</b>	Displays the term and condition details.

2. Click **Submit** to reach the **Stage Movement Submission** screen, where the overrides, checklist and documents for this stage are verified.

The **Stage Movement Submission** screen displays.

Figure 2-14 Stage Movement Submission

In this screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

3. In case of override, click **Accept Overrides & Proceed** to proceed or click **Proceed**.  
The **Checklist** screen appears.
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed to **Stage Movement Submission** screen.
5. In the **Stage Movement Submission** screen, select appropriate option from the **Outcome** field.
  - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Application Entry** stage for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **LoanApplication Enrichment**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
  - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Enter the remarks in Remarks.
7. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
8. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [Individual Retirement Account Certificate of Deposit Account] to the other stages.

**Note**

This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

## 2.2 Application Documents

This topic describes the process of the documents that are uploaded related to application.

The Application Documents stage provides the view of the outbound documents that are generated and dispatched to the applicants involved in the application.

**To generate and dispatch the outbound documents:**

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Application Documents stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Document Generation](#)  
In this data segment you can generate and dispatch the documents that are configured.
- [Document Acceptance](#)  
In this data segment you can capture the acceptance of the documents that are already generated and dispatched.
- [Summary](#)  
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

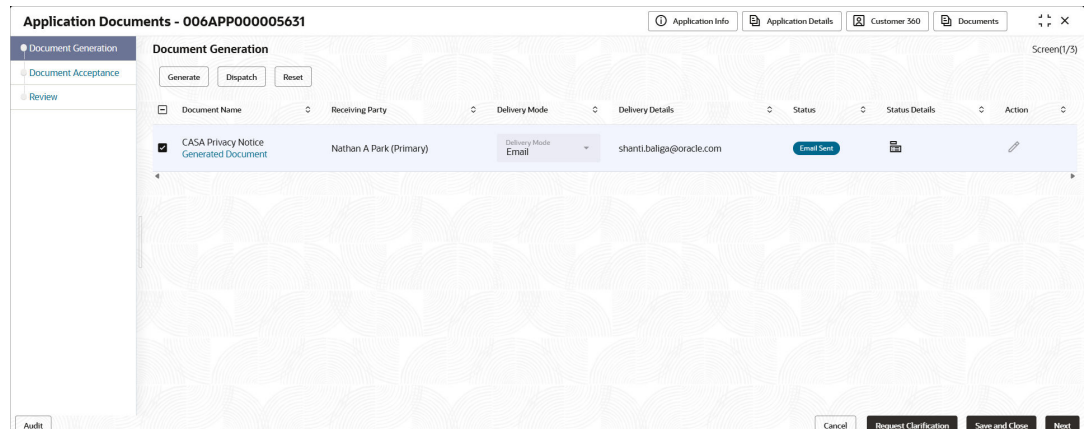

### 2.2.1 Document Generation

In this data segment you can generate and dispatch the documents that are configured.

In the Document Generation data section, a table displays a pre-populated list of documents that are retained within the document generation event and meet the specified rule criteria. The document generation events are established in the **Advice Maintenance** screen.

**To generate and dispatch the document:**

1. On acquiring the **Application Document** task, the **Document Generation** stage is displayed.

**Figure 2-15 Document Generation**

- In the **Document Generation** section, select the check box to select the document from the list. It is mandatory to select atleast one document

You can perform below actions on the selected document:

- Generate:** Click this button to generate the selected document. On clicking this button the system invokes a call to the report generation service which generates a PDF output for the advice configured in the Advice Maintenance screen. Once the output is generated the documents are stored in the document managed service (DMS) along with the reference ID. This reference ID fetches the document on click the Generate Document link in the Document column.
- Dispatch:** Click this button to dispatch the selected generated documents. You can only dispatch those documents which are not already dispatched. On clicking this button the system validates whether the document is already generated. Once the validation is successful the system dispatch the document to the default setting defined in the Advice Maintenance screen.
- Reset:** Click this button to reset the action performed on the document.

For more information on fields, refer to the field description table.

**Table 2-12 Document Generation – Field Description**

Field	Description
<b>Document Name</b>	Displays the name of document. Click the link to fetch the document from the stored service and view the PDF output of the document. This link appears only if the document is generated.
<b>Receiving Party</b>	Displays the name of the applicant along with the role. The document is generated and dispatched to the applicants mentioned in this column. The name appears as captured in the Applicant data segment.
<b>Delivery Mode</b>	Displays the default mode of delivery of the documents. This default mode of delivery is defined in the Advice Maintenance screen. The available options are: <ul style="list-style-type: none"> <li><b>Email</b></li> <li><b>Post</b></li> <li><b>Print</b></li> <li><b>e-Sign Remote</b></li> <li><b>e-Sign In-Person</b></li> </ul>

Table 2-12 (Cont.) Document Generation – Field Description

Field	Description
<b>Delivery Details</b>	<p>Displays the delivery details of the generated documents based on the default delivery mode.</p> <ul style="list-style-type: none"> <li>If the delivery mode is <b>Email</b> or <b>e-Sign Remote</b> then the preferred email address of every recipient is displayed.</li> <li>If the delivery mode is <b>Post</b> then the preferred address of every recipient is displayed.</li> <li>If the delivery mode is <b>e-Sign In-Person</b> then the link is shared with every recipients and in this case the status appears as <b>Pending For Link Generation</b>. Once the dispatch event is executed successfully, the status appears as <b>Link Generated</b>.</li> <li>If the delivery mode is <b>Print</b> then the <b>Not Applicable</b> text appears.</li> </ul>
<b>Status</b>	<p>Displays the status of the documents based on the actions performed on clicking Generate or Dispatch button.</p> <p>Once the dispatch process is initiated for the generated documents, the status appears based on the selected default mode of delivery.</p> <ul style="list-style-type: none"> <li>If the mode of delivery is <b>Email</b> then on the successful trigger the status appears as <b>Email Sent</b>.</li> <li>If the mode of delivery is <b>E-Sign Remote</b> or <b>E-Sign In-Person</b> then on the successful trigger the status appears as <b>E-Signing Initiated</b>.</li> <li>If the mode of delivery is <b>Post</b> then on the successful trigger the status appears as <b>Dispatched</b>.</li> <li>If the mode of delivery is <b>Print</b> then on the successful trigger the status appears as <b>Ready for Print</b>.</li> <li>In case the dispatch process fails due to technical error then the status appears as <b>Failed</b>.</li> </ul>
<b>Status Details</b>	<p>Displays the status details of the document.</p> <p>Click the icon to view the generation and dispatched details of document along with the date and time.</p>
<b>Action</b>	<p>Select the appropriate icon to perform respective action.</p> <ul style="list-style-type: none"> <li>Click  to edit the delivery mode.</li> <li>Click  to save the edited delivery mode. This icon appears once you are edit mode.</li> </ul>

- Proceed by clicking **Next** to move to the subsequent data segment once the data has been successfully captured. The system will verify all required data segments and fields. If any essential information is missing, an error message will be shown to prompt the user to address the issue. Users must complete the mandatory data before they can advance to the next segment.

## 2.2.2 Document Acceptance

In this data segment you can capture the acceptance of the documents that are already generated and dispatched.

The Document Acceptance data segment populates the list of documents that appeared in the **Document Generation** data segment and are mark as **Yes** in the **Acceptance** field in the **Advice Maintenance** screen.

If the document is marked as No in the Acceptance field in the Advice Maintenance screen then the e-sign acceptance process in not required for that document and hence it will not appear in this data segment.

**To accept the document:**

1. Click **Next** in previous data segment screen to proceed with the next data segment, after successfully capturing the data.

The **Document Acceptance** screen appears.

**Figure 2-16 Document Acceptance**

2. In the **Document Acceptance** section, select the check box to select the document from the list and perform appropriate actions.

For more information on fields, refer to the field description table.

**Table 2-13 Document Acceptance – Field Description**

Field	Description
<b>Refresh Status</b>	Click <b>Refresh Status</b> button to refresh the status of the documents.
<b>Document Name</b>	Displays the name of document. Click the link to fetch the document from the stored service and view the PDF output of the document. <ul style="list-style-type: none"> <li>• <b>Generated Document:</b> This link appears only if the document is generated atleast onces.</li> <li>• <b>Accepted Document:</b> This link appears only if the E-Signed document is uploaded.</li> </ul>
<b>Receiving Party</b>	Displays the name of the applicant along with the role. The document is generated and dispatched to the applicants mentioned in this column. The name appears as captured in the Applicant data segment.
<b>Delivery Mode</b>	Displays the default mode of delivery of the documents. This default mode of delivery is defined in the Advice Maintenance screen.The available options are: <ul style="list-style-type: none"> <li>• Email</li> <li>• Post</li> <li>• Print</li> <li>• e-Sign Remote</li> <li>• e-Sign In-Person</li> </ul>

Table 2-13 (Cont.) Document Acceptance – Field Description

Field	Description
<b>Delivery Details</b>	Displays the delivery details of the generated documents based on the default delivery mode. <ul style="list-style-type: none"> <li>If the delivery mode is <b>Email</b> or <b>e-Sign Remote</b> then the preferred email address of every recipient is displayed.</li> <li>If the delivery mode is <b>Post</b> then the preferred address of every recipient is displayed.</li> <li>If the delivery mode is <b>e-Sign In-Person</b> then the link is shared with every recipients and in this case the status appears as <b>Pending For Link Generation</b>. Once the dispatch event is executed successfully, the status appears as <b>Link Generated</b>.</li> <li>If the delivery mode is <b>Print</b> then the <b>Not Applicable</b> text appears.</li> </ul>
<b>Status</b>	Displays the status of the documents based on the actions performed on the document.
<b>Status Details</b>	Displays the status details of the document. Click the icon to view the generation, dispatched and acceptance details of document along with the date and time.
<b>Action</b>	Select the appropriate icon to perform respective action. <ul style="list-style-type: none"> <li><b>View:</b> You can view the documents only if the <b>Delivery Mode</b> is defined as <b>E-Sign Remote</b> or <b>E-Sign In-Person</b>.</li> <li><b>Upload Document:</b> You can upload documents only if the <b>Delivery Mode</b> is defined as <b>Email</b>, <b>Print</b> or <b>Post</b>.</li> <li><b>Delete:</b> You can upload documents only if the <b>Delivery Mode</b> is defined as <b>Email</b>, <b>Print</b> or <b>Post</b>.</li> </ul>
<b>Customer Response</b>	Select the customer response for the documents. The available options are: <ul style="list-style-type: none"> <li><b>Accept:</b> Select to accept the application documents. 2. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.3.2 Manual Decision

The topic describes the manual decision process.

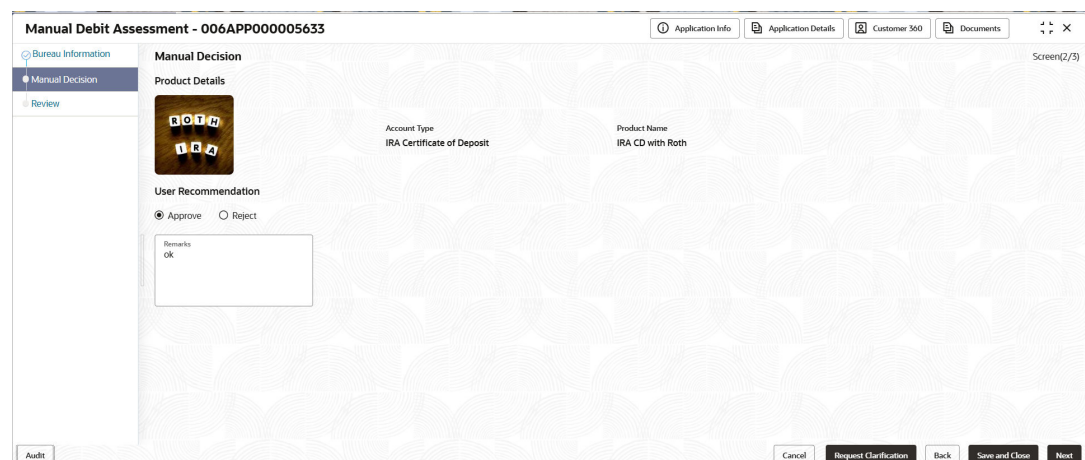

In this data segment user can change the applicant KYC status.

**To perform manual debit assessment:**

1. Click **Next** in previous screen to proceed with the next data segment, after successfully capturing the data.

The **Manual Decision** data segment appears.

**Figure 2-19 Manual Decision**

2. Select appropriate option to proceed for manual decision.

**Table 2-16 Manual Decision**

Field Name	Description
<b>Product Details</b>	In this section displays the product details.
<b>Image</b>	Displays the account type.
<b>Account Type</b>	Displays the type of account.
<b>Product Name</b>	Displays the product name.
<b>User Recommendation</b>	Select the recommended option to change the debit decision manually. The available options are: <ul style="list-style-type: none"> <li>• <b>Approve</b></li> <li>• <b>Reject</b></li> </ul>
<b>Reject Reason</b>	Select the reason for rejection the application.
<b>Remark</b>	Specify the remarks for manual debit decision.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.3.3 Summary

This topic describes summary of all the data segment.

The Summary displays the tiles for all the data segments in the Manual Debit Assessment stage. The tiles display the important details captured in the specified data segment.

**To view the summary and submit the task:**

1. Click **Next** in previous screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen is displayed

**Figure 2-20 Summary-Manual Debit Assessment**

2. The user can view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

**Table 2-17 Summary**

Data Segment	Description
<b>Bureau Information</b>	Displays the bureau information details.
<b>Manual Decision</b>	Displays the manual decision details.

- Proceed by clicking **Next** to move to the subsequent data segment once the data has been successfully captured. The system will verify all required data segments and fields. If any essential information is missing, an error message will be shown to prompt the user to address the issue. Users must complete the mandatory data before they can advance to the next segment.

## 2.4 Account Funding Stage

This topic provides the detailed information about the account funding stage data segments.

Users having functional access to the Account Funding Stage will be able to view the record in the Free Task process.

### To add funding details:

- Scan the records that appears in the **Free Task** list.
- Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Account Funding stage is displayed.

The Account Funding stage has the following data segments in which the user can only view the data:

- Account Details:** - For detailed information, refer the Account Details data segment in the Application Entry stage.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Funding](#)  
This topic provides the systematic instructions to capture the funding details of Individual Retirement Account Certificate of Deposit account.
- [Review](#)  
This topic provides the systematic instruction to view all the data segments in the account funding stage.

### 2.4.1 Funding

This topic provides the systematic instructions to capture the funding details of Individual Retirement Account Certificate of Deposit account.

In this data segment user can capture the funding details to fund the Individual Retirement Account Certificate of Deposit account.

- Click **Next** in previous data segment screen to proceed with the next data segment, after successfully capturing the data.

The **Funding** screen displays.

**Figure 2-21 Funding**

2. In the **Funding** screen, specify the required details.

**Note**  
The fields marked as Required are mandatory.

For more information on fields, refer to the field description table.

**Table 2-18 Funding**

Field Name	Description
<b>Fund By</b>	Displays the mode through which fund are collected.
<b>Funding Amount</b>	Displays the amount to be funded along with the currency.
<b>Value Date</b>	Displays the date on which the transaction is performed. By default the current business date is populated.
<b>Account Number</b>	Displays the account number of the applicant who involved the application process.
<b>Account Name</b>	Displays the name of the applicant.
<b>Transaction Reference Number</b>	Specify the transaction reference number. If user select the <b>Cash</b> , <b>Account Transfer</b> , or <b>Other Bank Cheque</b> option from the <b>Fund By</b> drop-down list, this field will become visible.

essential information is missing, an error message will be shown to prompt the user to address the issue. Users must complete the mandatory data before they can advance to the next segment.

## 2.4.2 Review

This topic provides the systematic instruction to view all the data segments in the account funding stage.

The system displays the summary of each of the data segments in the given stage.

**To view the summary of all the data segments:**

1. Click **Next** from the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Review** screen displays.

**Figure 2-22 Review**

### Note

The fields marked as Required are mandatory.

For more information on fields, refer to the field description table.

**Table 2-19 Summary - Field Description**

Data Segment	Description
<b>Account Details</b>	Displays the account details.
<b>Funding</b>	Displays the initial funding details.

2. Click **Submit** to reach the **Stage Movement Submission** screen, where the overrides, checklist and documents for this stage are verified.

The **Stage Movement Submission** screen displays.

**Figure 2-23 Stage Movement Submission**

**Stage Movement Submission**

**Override**  
No overrides generated for acceptance.

**Checklist**  
No checklists mapped to the current stage.

**Outcome**

Select an Outcome  
Proceed

Remarks

Cancel Submit

In this screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

3. In case of override, click **Accept Overrides & Proceed** to proceed or click **Proceed**.  
The **Checklist** screen appears.
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed to **Stage Movement Submission** screen.
5. In the **Stage Movement Submission** screen, select appropriate option from the **Select to Outcome** field.
  - Select the **Proceed** to proceed with the application. By default this option is selected. By default this option is selected. If the Proceed option is selected, then the application proceeds based on the assessment decision.
  - Select the **Return to Application Entry** Stage to make application entry stage available in free task for edit.

- Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
- 6. Enter the remarks in Remarks.
- 7. Click **Submit** to submit the **Application Enrichment** stage.  
The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
- 8. Click **Close** to close the window.  
OR  
Click **Go to Free Task**.  
After the Host creates the Individual Retirement Account Certificate of Deposit Account successfully, the response is sent back to the Oracle Banking Origination with the Certificate of Deposit Account Number.  
  
The details of all the applications which have logically completed all their stage movements, (Rejected / Account Created) will be made available in Completed tasks for query purpose only.  
  
If the system fails, the Free Task generates the **Handoff Retry** task. With the necessary access rights, the user can pick up such tasks, take the necessary action on the Failure reason, and then resubmit to the Host.

## 2.5 Global Actions

This topic provides details on the actions that can be performed in all stages.

This section appears at the top of the screen and is applicable for all the account opening stage. User can add, edit, view or delete the information from the respective section.

Below is the list of global actions:

- [Application Details](#)  
This topic provide systematic instructions to view the detailed information of an application, such as basic details, application status, applicant details that are involved, clarification details and advices details.
- [Application Info](#)  
In this section you can view the application number along with its product name.
- [Customer 360](#)  
This topic provide systematic instructions to view the list of customers involved in the application.
- [Documents](#)  
This topic provide systematic instructions to view, upload, or modify documents related to the applicant and product required for the application process.
- [Remarks](#)  
This topic provide systematic instructions to view or post the remarks.
- [Advices](#)  
This topic provide systematic instructions to view the generated advices using Advices action.
- [Clarification Details](#)  
This topic describes the detailed information to request for clarifications.

## 2.5.1 Application Details

This topic provide systematic instructions to view the detailed information of an application, such as basic details, application status, applicant details that are involved, clarification details and advices details.

User can also track and launch the respective stage of the application.

**To view the application details:**

1. Click **Application Details** to view the application details.

The **Application Details** screen displays.
