Purpose

This guide is designed to help you to quickly get acquainted with the Oracle Banking Originations Cloud Service system. This document provides an overview of the Certificate of Deposit Origination process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a Certificate of Deposit Origination.

Before you begin

Kindly refer to the **Getting Started User Guide** for common elements, including Symbols and Icons, Conventions Definitions, and so forth.

Module Prerequisite

Specify the **User Name** and **Password**, and login to **Home** screen.

Audience

This guide provides instructions and information about the Certificate of Deposit product to help various bank users to deliver quick and efficient service to both customer and prospects.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

1

Overview

This topic describes about the features of the entire module.

Oracle Banking Originations Cloud Service is the middle office banking solution with a comprehensive coverage of Retail Banking Origination processes for Savings Account, Current Account, Certificate of Deposit, and Loans comprising of Home Loan, Personal Loan, Education Loan and Vehicle Loan. It is a Host-Agnostic solution.

It enables banks to deliver improved user experience for various bank persons handling defined functions in the life cycle of the various product origination.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business driven, is hosted and architectures by our new platform solution. The random access navigation between data segments within a given stage with appropriate validations, helps enable the business user to capture apt information anytime during the account open process before the Certificate of Deposit Account is created in the Host. The new work-flow also supports capturing of relevant documents, stage wise, and generation of advices and notifications dynamically.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business driven, is hosted and architectures by our new platform solution. The random access navigation between data segments within a given stage with appropriate validations, helps enable the business user to capture apt information anytime during the account open process before the Certificate of Deposit Account is created in the Host. The new work-flow also supports capturing of relevant documents, stage wise, and generation of advices and notifications dynamically.

This user guide explains the reference work-flow for the Certificate of Deposit Account Origination process and further details the data that needs to be captured in the data segment linked to the specific stages.

This process initiates with the receipt of Certificate of Deposit opening form and related documents from a customer for opening of a Certificate of Deposit. The bank verifies the details and documents submitted for opening of Certificate Deposit to ensure completeness and initiates the Certificate of Deposit Origination process by selecting the desired Certificate of Deposit Product from the Product Catalogue.

2

Certificate of Deposit Origination

This topic provides detailed information on the defined stages through which the Certificate of Deposit application has to flow.

As detailed in the **Operations** user manual, all the Product Originations are initiated in the **Application Initiation** stage from the Product Catalogue. The **Cart Operation** in Product Catalogue allows to originate single or multiple Product initiation. Once the Certificate of Deposit Account product origination process is initiated either as a single product origination or as part of the multiple product selection, Process Orchestrator generates the Certificate of Deposit Account Process Reference Number on submit of the **Application Initiation** stage. Process Orchestrator also updates the record in the **Free Task** process for the **Application Entry** stage also referred as **Task** from orchestrator perspective.

The Certificate of Deposit Account Origination Process flow comprises of the following stages and the detailed information of the same is available in the following topics:

- [Application Entry](#)
This topic provides the detailed information about the application entry stage.
- [Application Documents](#)
This topic describes the process of the documents that are uploaded related to application.
- [Debit Assessment](#)
The topic describes the debit assessment process.
- [Manual Debit Assessment](#)
The topic describes the manual debit assessment process.
- [Account Funding Stage](#)
This topic provides the detailed information about the account funding stage data segments.
- [Global Actions](#)
This topic provides the detailed on the actions that can be performed in all stages.

2.1 Application Entry

This topic provides the detailed information about the application entry stage.

Based on the access configuration, user can view the records in Free Task. In this stage user can capture the details that are required to open a certificate of deposit account. This stage is automatically submitted on below conditions:

- If the bank level configuration for allowing the full application submission is set as **Yes**.
- If the user captures the required details in all the data segments of the Application Entry stage as part of the Application Initiation stage on clicking the Application button in the Product Details data segment.

To acquire and edit respective stage:

1. On **Home** screen, click **Tasks**.
2. Under **Tasks**, click **Free Tasks**.

Backup Withholding Code	Select the option from the drop-down list. The available options are: • Missing TIN (A Type) • Invalid Tin (B Type) • IRS Induced (C Type) • Customer Induced (D Type) • W-8 Expired Note: This field is mandatory, if TIN is not certified.
Valid Since	Specify the date from which the form is valid.
Employment Details	In this section user can capture the employment details of the applicant.

Table 2-1 (Cont.) Applicant- Individual – Field Description

Field	Description
Employment Type	Select the employment type. The available options are: • Salaried • Self Employed
Salaried	Below field appears if the Salaried option is selected from the Employment Type list. In this section user can capture salaried employment details. The below fields appears if salaried employment details are already captured. • Employer Code • Employer Name • Employer Description • Employer Address • Employee Type • Industry Type • Organization Category • Demographics • Current Employer • Working Since • Working Till • Employee ID • Designation • Level or Grade User can edit, view, or delete already added details.
Employer Code	Specify the employer code. OR Click to search the employer code. The pop-up appears to fetch the employer code. Specify Employer Code or Employer Name to fetch the details.
Employer Name	Displays the employer name of the selected employee code.
Employer Description	Specify the employer description.
Employer Address	Specify the employer address.
Employee Type	Select the employee type from the drop-down list. The available options are: • Full Time • Part Time • Contract • Permanent Note: This field is optional.

Table 2-1 (Cont.) Applicant- Individual – Field Description

Field	Description
Industry Type	Select the industry type from the drop-down list. The available options are: • IT • Bank • Services • Manufacturing • Legal • Medical • Engineering • School/College • Others
Organization Category	Select the organization type from the drop-down list. The available options are: • Government • NGO • Private Limited
Demographics	Select the demographics from the drop-down list. The available options are: • Global • Domestic
Current Employer	Select whether the applicant works currently in this role. The available options are: • Yes • No
Working Since	Select the employment start date.
Working Till	Select the employment last date.
Employee ID	Specify the employee ID.
Grade	Specify the grade.
Designation	Specify the designation.
Self Employed	Below field appears if the Self Employed option is selected from the Employment Type list. In this section user can capture self-employment or professional details of customer. Below fields appears if self-employment or professional details are already captured. • Professional Name • Professional Description • Professional Email ID • Company /Firm Name • Registration Number of Company • Start Date • End Date User can edit, view or delete already added details.
Professional Name	Specify the professional name.
Professional Description	Displays the professional description.
Professional Email ID	Specify the professional email ID.
Company /Firm Name	Specify the company or firm name.

Table 2-1 (Cont.) Applicant- Individual – Field Description

Field	Description
Registration Number of Company	Specify the registration number.
Start Date	Specify or select the start date of company.
End Date	Specify or select the end date of company.
<Added record tile>	In this tile user can view the added employment details. Below details appears in the tile: • Employment Type • <Current Employer> this flag appears only if Yes option is selected. • Employer Name • Working Dates Click  to edit the added ID details. Click  to view the added ID details. Click  to delete the added ID details.

Advanced Search

User can perform an advanced search for the party by providing additional information.

User can perform search on below party types:

For Individual

- **First Name**
- **Middle Name**
- **Last Name**
- **Date of Birth**
- **Preferred Unique ID**
- **Tax Identification Number**
- **Mobile Number**
- **Email**

For Non- Individual

- **Party ID**
- **Business or Organization Name**
- **Registration Number**
- **Registration Date**
- **Email**
- **Customer Category**

To search for a party using the advanced search:

- Click the **Advanced Search**. The Search Party window appears based on the selected party type.
Below screenshot refers the

Figure 2-3 Advanced Search - Individual
Figure 2-4 Advance Search -Small Medium Business Products

- b. Click **Fetch** to search all the parties. All the parties in system appears in the table.
OR

Enter the specific search criteria in the respective field and click **Fetch**. The search result appears based on the search criteria.

3. Click **Save**. The applicant details tile appears with the captured data.

The tile comprises of below fields:

- <Applicant Role>
- <KYC Status>
- <Applicant Photo>
- <First Name, Middle Name, Last Name>
- <Title>
- **CIF Number**
- **Date of Birth**
- **Initiate**: This button appears if the **Early KYC** is selected while configuring the product in the **Business Product Configuration** screen.

4. Click **Initiate** to initiate the Know Your Customer (KYC) process of the added applicant. It is mandatory to complete the KYC process successfully to proceed.

2.1.1.2 For Small and Medium Business (SMB) Customer Type

The topic describes the process to capture or edit customer information of Small and Medium Business type of customers.

To capture applicants details

1. In the **Current Application Entry** stage, update the customer details in the Applicants data segment based on the respective customer type.

The **Applicants - Small and Medium Business (SMB)** screen is displayed.

Figure 2-5 Applicants – Small and Medium Business (SMB)

2. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-2 Small and Medium Business – Field Description

Field	Description
Customer Type	Displays the customer type based on the product selected.
Doing Business As	Displays the business name of the SMB customer.
Registration Number	Displays the registration number of the business.
Date of Registration	Displays the registration date of the business.
Edit	Click Edit to modify the existing customer details and address details. Click Save to save the modified details and click Cancel to cancel the modifications. The Edit appears only for existing customers.
Existing Customer	Select to indicate if customer is existing customer.
CIF Number	Search and select the CIF number.

Table 2-2 (Cont.) Small and Medium Business – Field Description

Field	Description
Advance Search	Click this button to perform party using advance parameters. For more information on advance search, refer the Advanced Serach section below.
Doing Business As	Specify the name of the business.
Registration Number	Specify the registration number of the business.
Date of Registration	Select the registration date of the business.
Country of Registration	Search and select the country code where the business is registered.
SMB Classification	Select the SMB Classification from the dropdown list. Available options are: • Micro • Small • Medium
Customer Category	Search and select the customer category.
SMB Registration Number	Specify the SMB registration number.
Tax Identification Number	Specify the tax identification number of the SMB customer.
Goods and Service Tax ID	Specify the goods and service tax ID.
Business License	Specify the business license.
Preferred Language	Select the preferred language.
Preferred Currency	Select the preferred currency.
Relationship Manager ID	Specify the relationship manager ID.
Upload Logo	Click Upload Logo button to upload the logo for the business.
Address	This section displays the added address of the applicant. It is mandatory to add communication address of the applicant.  Click to add address details.  Click to perform below actions on the added address details, • To view the address details, click View. • To edit the address details, click Edit. • To delete the address details, click Delete.
Address Type	Select the address type for the applicant from the drop-down list. • Residential Address • Communication Address
Location	Select and search the location.
Current Address	Select to indicate if the user wants to mark entered address as current address type.
Preferred Address	Select to indicate if the user wants the selected address type as preferred address type.
Address Since	Select the date when the applicant began residing at the specified address.
Address From	Select the date when the applicant began residing at the specified address. This field appears if the No option is selected in the Current Address field.

Table 2-2 (Cont.) Small and Medium Business – Field Description

Field	Description
Address To	Select the date when the applicant last lived at the specified address. This field appears if the No option is selected in the Current Address field.
Address	Specify the address to search for the already captured address. Based on the configuration, on entering a few letters, the system fetches the related address that is already captured. Based on the selection, the fields are fetched in the address section.
Address Line 1	Specify the building name.
Address Line 2	Specify the street name.
Address Line 3	Specify the city or town name.
Country	Select and search the country code.
State / Country Sub Division	Specify the state or country sub division. This field appears based on the selected country code.
Zip Code / Post Code	Specify the zip or post code of the address.
Contact Details	In this section, user can provide digital contact details. Click add contact button to add new contact details.
<Communication Mode>	Select the communication mode from the drop-down list. The available options are: • Mobile Phone • Email
Country	Select the country along with international subscriber dialing code of the mobile phone from the drop-down list. The drop-down list option consist of country code, country name and subscriber dialing code. This field appears only if user selects the Mobile Phone option as communication mode.
Mobile Number	Specify the mobile number.
Preferred	Select to indicate if the given mobile number is the preferred number.
Action	User can edit or delete the added mobile details.
Email Id	Specify the email ID. This field appears only if user selects the Email option as communication mode.
Preferred	Select to indicate if the given email ID is the preferred ID.
Action	User can edit or delete the added email details.

Advanced Search

User can perform an advanced search for the party by providing additional information.

Refer above **Advanced Search** section for more details.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data. If the **Customer Dedupe** check is enabled, the application will perform the Dedupe check for the new customer details on clicking **Next** button. For more information, refer the **Customer Dedupe Check** section.

Customer Dedupe Check:

Based on the configuration set in the **Origination Preference** screen, the customer dedupe service is enabled.

If the **Customer Dedupe** service check is enabled, upon capturing the New Customer details, the system compares the same with the existing customers records. If there are any matching hits, the list of Duplicate records which matches to the New Customer Details will be displayed.

The customer details are compared based on a set of attributes configured. (Refer to Oracle Banking Party Documentation for Dedupe attributes configuration).

- Click **Next** to perform the dedupe check and display the result.

The **Dedupe Result** screen is displayed

Figure 2-6 Dedupe Results

The screenshot shows a window titled "De-Dupe Results" with a close button (X). Below the title bar, it says "Following matching records are found, Please verify". There are two sections, each with a header and a table of customer details.

Vikash Kumar

CIF Number	PTY Number	First Name	Last Name	Customer Type	DOB	Contact Number	ID/Registration Number	Status

If the Yes option is selected in the Staff field of the Applicant data segment, this field will appear. By default, the Yes option is selected in the Staff field.
Account Address Preference	Select the address which is indicated as account address. The applicant data segment displays the addresses indicated as account addresses for selection. The drop-down list displays the address in the following format: <First Name> - <Applicant Role> - <Address Type> - <Address (Complete address sepearted by ,)> After the account address is selected: • If the user deletes an address from the Applicant data segment then the system removes that address from this data segment and the user must then select another address as the account address. • If the Applicant data segment is edited with a new address then the updated address is reflected in this segment.
Mandate Details	In this section the user can capture the mode of operation for the account.
Mode of Operations	Select the appropriate option from the mode of operations list.
Mandate Details Section	In the Mandate Details section, below fields appear if the application is initiated with the customer type as Small and Medium Business. Click  to add the operations as per mandate.
Currency	Displays the account currency.

Table 2-4 (Cont.) Account Details

Field Name	Description
Amount From	Specify the amount from which the applicant is allowed to operate.
Amount To	Specify the amount till which the applicant is allowed to operate.
Signatories	Specify the applicants as signatory. You can select multiple applicants. All the applicants that are involved in the application appears for selection.
Required No. of Signatory	Specify the priority of the signatory for this mandate operation. The priority can be changed based on the number of applicants added in the application.
Remark	Specify the remarks.
Action	Select the option to perform actions on the added record. The available options are:  - to edit the added record.  - To delete the added record.
Applicants	In this section you can set the communication preferences of the applicants involved in an account opening application. The separate tabs appear for each applicant involved in the application.
Banking Channel Preferences	Select the preferences for the banking channel. The channel options appear based on the Business Product Configuration.
Communication Channel Preferences	Select the preference of the communication channel. The channel options appear based on the Business Product Configuration. The available options are: EMAIL POST SMS
Preferred Communication Channel	Select the preferred communication channel. The options in this drop down appear based on the selected options in the Communication Channel Preferences fields.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The user is required to provide all mandatory data segments and data fields for the system to validate. If any mandatory details are missing, the system displays an error message for the user to correct the information. Users must capture the mandatory data before they can proceed to the next data segment.

2.1.3 Funding

This topic provides the systematic instructions to capture the funding details of Certificate of Deposit account.

In this data segment you can capture the funding details to fund the Certificate of Deposit account.

- Click **Next** in previous data segment screen to proceed with the next data segment, after successfully capturing the data.

The **Funding** screen displays.

Figure 2-9 Funding

2. In the **Funding** screen, specify the required details.

Note

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-5 Funding

Field Name	Description
Funding Account	Displays the amount to be funded along with the currency.
Fund By	Select the mode from the drop-down list through which fund are collected. The available options are: Account Transfer GL Account
Transaction Reference Number	Specify the transaction reference number. If you select the , Account Transfer , or GL Account option from the Fund By drop-down list, this field will become visible.
Value Date	Select the date on which the transaction is performed. By default the current business date is populated.
Account	Select the account number from the list. If you select the GL Account or Account Transfer option from the Fund By drop-down list, this field will become visible. The applicants' Savings and GL accounts are the only ones populated for those who are involved in the application process.

Note

The **GL Account** and **GL Account Description** will be applicable depending on the following scenarios:

Table 2-6 Fund By

Fund By	Fund By Mode (In the Origination Preferences screen)	Applicability
Account Transfer	Host	Applicable
Account Transfer	Manual	Applicable

In Origination Preference, under Funding Parameters configuration for Certificate of Deposit, if the **Fund by** option is set to anything other than "Manual," the account funding stage in the Certificate of Deposit business process will be skipped, and the application will directly proceed to the Account Approval stage.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The user is required to provide all mandatory data segments and data fields for the system to validate. If any mandatory details are missing, the system displays an error message for the user to correct the information. Users must capture the mandatory data before they can proceed to the next data segment.

2.1.4 Payout Instructions

This topic provides the systematic instructions to capture the payout instructions details for Certificate of Deposit account.

In this data segment you can capture the payout instructions after the maturity of the Certificate of Deposit account.

To capture the payout instructions:

- Click **Next** in previous data segment screen to proceed with the next data segment, after successfully capturing the data.

The **Payout Instructions** screen appears.

If the **Yes** option is selected from the **Cumulative** field in the **Account Details** data segment.

If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

On submission of Application Entry stage, Stakeholder Onboarding request gets initiated for the new customers.

The request for New Stakeholder Onboarding is addressed by the underlying API call, which also generates the New Party reference number, thereby circumventing the usual process of generating a Unique Process reference number/Task.

2.1.6 Beneficiary Details

This topic provides the systematic instructions to capture the nominee details related information for the application.

The Beneficiary Details is a non-mandatory data segment. If required, It allows capturing multiple nominees for the account. Beneficiary can be a minor, in that case, it is mandatory to provide details of the guardian. For SMB Customer, Beneficiary Details are allowed only for Proprietary type of Business Accounts.

To add beneficiary details:

1. Click **Next** from the previous screen to proceed with next data segment, after successfully capturing the data.

The **Beneficiary Details** screen displays.

Figure 2-14 Beneficiary Details

- Specify the fields on **Beneficiary Details** screen.

Table 2-10 Details - Field Description

Field	Description
Title	Select the title of the applicant.
First Name	Specify the first name of the applicant.
Middle Name	Specify the middle name of the applicant.
Last Name	Specify the last name of the applicant.
Relationship Type	Select the relationship type of the beneficiary with the applicant.
Date of Birth	Select the applicant's date of birth.
Minor	Select to indicate if beneficiary is minor.
Add Guardian	Click the Add Guardian link to add the guardian details. The link appears if the Minor field is enabled. This field is conditional mandatory.
Percentage	Specify the percentage to be considered for distribution of the account balance in case of uneventful death of the applicant.
Address	This section displays the added address of the applicant. It is mandatory to add communication address of the applicant. Click  to add address details. Click  to perform below actions on the added address details, - To view the address details, click View. - To edit the address details, click Edit. - To delete the address details, click Delete.
Address Type	Select the address type for the applicant from the drop-down list. Residential Address Communication Address

Table 2-10 (Cont.) Details - Field Description

Field	Description
Location	Select and search the location.
Current Address	Select to indicate if you want to mark entered address as current address type.
Preferred Address	Select to indicate if you want the selected address type as preferred address type.
Address From	Select the date from when you are connected with the given address.
Address To	Select the date till when you were connected with the given address.
Address	Specify the address to search for the already captured address. Based on the configuration, on entering a few letters, the system fetches the related address that is already captured. Based on the selection, the fields are fetched in the address section.
Address Line 1	Specify the building name.
Address Line 2	Specify the street name.
Address Line 3	Specify the city or town name.
Country	Select and search the country code.
State / Country Sub Division	Specify the state or country sub division. This field appears based on the selected country code.
Zip Code / Post Code	Specify the zip or post code of the address.
Addition Info	In this section you can provide addition information.
Sub Department	Specify the sub department.
Department	Specify the department.
Building Number	Specify the building number.
Post Box	Specify the post box code.
District Name	Specify the district name.
Floor	Specify the floor number.
Room	Specify the room number.
Locality	Specify the locality.
Landmark	Specify the landmark.
Contact Name / Narrative	Specify the name of the contact person.
Contact Details	In this section you can provide digital contact details.
<Communication Mode>	Select the communication mode from the drop-down list. The available options are: • Mobile Phone • Email
Country	Select the country along with international subscriber dialing code of the mobile phone from the drop-down list. The drop-down list option consist of country code, country name and subscriber dialing code. This field appears only if you select the Mobile Phone option as communication mode.
Mobile Number	Specify the mobile number.
Preferred	Select to indicate if the given mobile number is the preferred number.
Action	You can edit or delete the added mobile details.
Email Id	Specify the email ID. This field appears only if you select the Email option as communication mode.

Table 2-10 (Cont.) Details - Field Description

Field	Description
Preferred	Select to indicate if the given email ID is the preferred ID.
Action	You can edit or delete the added email details.
Add Beneficiary	Click to add additional beneficiary for the account.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

Guardian Details

This screen allows to capture details of the guardian of the minor beneficiary.

To add guardian details:

- Click **Add Guardian Details** on Beneficiary Details screen.

The **Guardian Details** screen is displayed

Figure 2-15 Guardian Details

- Specify the details in the relevant data fields.
Refer the **Beneficiary Details** field description table for detailed information on each field.
- Click **Save** to save the guardian details

2.1.7 Terms and Conditions

This topic describes the terms and conditions that are mandatory to accept in order to proceed with account opening process.

In this data segment user can capture term and conditions consents from the applicants. The customer consents are same across products but few term and conditions defer based on the applied products. They appear in questionnaire format based on the configurations. This questionnaire is mapped at product configuration level. It is mandatory to accept all term and condition to proceed with application.

This data segment comprises of below sections:

- Term and Conditions for all products** - In this section the term and conditions which are applicable for all the products appears in the questionnaire format.
- Term and Conditions for <Selected Product>** - In this section the term and conditions which are applicable for all the selected product appears in the questionnaire format.
- Consents and Preferences** - In this section the user capture the consents and preferences of customer as E-Sign, Marketing Communications, and Privacy Information.

To capture terms and conditions:

1. Click **Next** from previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Term and Conditions** screen appears

Figure 2-16 Term and Conditions

2. Click  to view the term and conditions.
3. Select the toggle button to accept the term and conditions.
4. In the **Consents to receive Marketing Promotional and Sales** section, enter the channel and details.
5. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.1.8 Review

This topic provides the systematic instruction to view all the data segments in the Application Entry Process.

The system displays the summary of each of the data segments in the given stage.

To view the summary of all the data segments:

1. Click **Next** from the data segment to proceed with the next data segment, after successfully capturing the data.

The **Review** screen displays.

Outcome

Select an Outcome
Proceed

Remarks

Cancel Submit

In this screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

3. In case of override, click **Accept Overrides & Proceed** to proceed or click **Proceed**.
The **Checklist** screen appears.
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed to **Stage Movement Submission** screen.
5. In the **Stage Movement Submission** screen, select appropriate option from the **Select to Outcome** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Application Entry** stage for the Certificate of Deposit application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Application Documents**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [Certificate of Deposit Account] to the other stages. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

Application De-Dupe:

Based on the configuration set in the **Origination Preference** screen, the application dedupe service is enabled.

If application dedupe service is enabled, System will check that any application is in progress for same product and customer combination. On Submit, if any duplicate application exists, override will show a message with other in progress application numbers. User can select the override check box and proceed or take appropriate action.

Note

- If an application is returned back to Application Entry stage from any other subsequent stages, Oracle Banking Originations Cloud Service will not allow amending details in the Customer Information and Financial Details data segment, once a customer onboarding process has been triggered in the Application Entry Stage and CIF creation is still in progress.
- In case party amendment request is rejected by Oracle Banking Party, the specified error message is shown to the user while submitting Application Entry stage. User has an option to go back and resolve the error or proceed with the stage submission by disregarding the amendment request.

2.2 Application Documents

This topic describes the process of the documents that are uploaded related to application.

The Application Documents stage provides the view of the outbound documents that are generated and dispatched to the applicants involved in the application.

To generate and dispatch the outbound documents:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Application Documents stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Document Generation](#)

In this data segment you can generate and dispatch the documents that are configured.

- [Document Acceptance](#)
In this data segment you can capture the acceptance of the documents that are already generated and dispatched.
- [Review](#)
This topic provides the systematic instructions to view the summary of each data segment in the Application Documents stage.

2.2.1 Document Generation

In this data segment you can generate and dispatch the documents that are configured.

In the Document Generation data segment, the list of documents that are maintained within the document generation event and fulfills the rule criteria are pre-populated in the tabular format. This document generation events are defined in the **Advice Maintenance** screen. Each documents appears separately to generate and dispatch.

To generate and dispatch the document:

1. On acquiring the **Application Document** task, the **Document Generation** stage is displayed.

Figure 2-19 Document Generation

2. In the **Document Generation** section, select the check box to select the document from the list. It is mandatory to select atleast one document

You can perform below actions on the selected document:

- **Generate:** Click this button to generate the selected document. On clicking this button the system invokes a call to the report generation service which generates a PDF output for the advice onfigured in the Advice Maintenance screen. Once the output is generated the documents are stored in the document managed service (DMS) along with the reference ID. This reference ID fetches the document on click the Generate Document link in the Documen column.
- **Dispatch:** Click this button to dispatch the selected generated documents. You can only dispatch those documents which are not already disptached. On clicking this button the system validates whether the document is already generated. Once the validation is successful the system dispatch the document to the default setting defined in the Advice Maintenance screen.
- **Reset:** Click this button to reset the action performed on the document.

For more information on fields, refer to the field description table.

Table 2-12 Document Generation – Field Description

Field	Description
Document Name	Displays the name of document. Click the link to fetch the document from the stored service and view the PDF output of the document. This link appears only if the document is generated.
Receiving Party	Displays the name of the applicant along with the role. The document is generated and dispatched to the applicants mentioned in this column. The name appears as captured in the Applicant data segment.
Delivery Mode	Displays the default mode of delivery of the documents. This default mode of delivery is defined in the Advice Maintenance screen.
Delivery Details	Displays the delivery details of the generated documents based on the default delivery mode. • If the delivery mode is Email or e-Sign Remote then the preferred email address of every recipient is displayed. • If the delivery mode is Post then the preferred address of every recipient is displayed. • If the delivery mode is e-Sign In-Person then the link is shared with every recipients and in this case the status appears as Pending For Link Generation. Once the dispatch event is executed successfully, the status appears as Link Generated. • If the delivery mode is Print then the Not Applicable text appears.
Status	Displays the status of the documents based on the actions performed on clicking Generate or Dispatch button. Once the dispatch process is initiated for the generated documents, the status appears based on the selected default mode of delivery. • If the mode of delivery is Email then on the successful trigger the status appears as Email Sent. • If the mode of delivery is E-Sign Remote or E-Sign In-Person then on the successful trigger the status appears as E-Signing Initiated. • If the mode of delivery is Post then on the successful trigger the status appears as Dispatched. • If the mode of delivery is Print then on the successful trigger the status appears as Ready for Print. • In case the dispatch process fails due to technical error then the status appears as Failed.
Status Details	Displays the status details of the document. Click the icon to view the generation and dispatched details of document along with the date and time.
Action	Select the appropriate icon to perform respective action. • Click  to edit the delivery mode. • Click  to save the edited delivery mode. This icon appears once you are edit mode.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.2.2 Document Acceptance

In this data segment you can capture the acceptance of the documents that are already generated and dispatched.

The Document Acceptance data segment populates the list of documents that appeared in the **Document Generation** data segment and are mark as **Yes** in the **Acceptance** field in the **Advice Maintenance** screen.

If the document is marked as No in the Acceptance field in the Advice Maintenance screen then the e-sign acceptance process is not required for that document and hence it will not appear in this data segment.

To accept the document:

1. Click **Next** in previous data segment screen to proceed with the next data segment, after successfully capturing the data.

The **Document Acceptance** screen appears.

Figure 2-20 Document Acceptance

2. In the **Document Acceptance** section, select the check box to select the document from the list and perform appropriate actions.

For more information on fields, refer to the field description table.

Table 2-13 Document Acceptance – Field Description

Field	Description
Refresh Status	Click the refresh status to refresh the existing documents.
Document Name	Displays the name of document. Click the link to fetch the document from the stored service and view the PDF output of the document. • Generated Document: This link appears only if the document is generated atleast onces. • Accepted Document: This link appears only if the E-Signed document is uploaded.

Table 2-13 (Cont.) Document Acceptance – Field Description

Field	Description
Receiving Party	Displays the name of the applicant along with the role. The document is generated and dispatched to the applicants mentioned in this column. The name appears as captured in the Applicant data segment.

The **Manual Decision** screen displays.

Figure 2-27 Manual Decision

The screenshot displays the 'Manual Decision' screen for application 006APP000006337. The interface includes a top navigation bar with tabs for Application Info, Application Details, Customer 360, and Documents. A left sidebar shows a tree view with 'Bureau Information', 'Manual Decision' (selected), and 'Review'. The main content area is titled 'Manual Decision' and contains a 'Product Details' section with a 'Deposits' icon, 'Account Type' (Certificate of Deposit Account), and 'Product Name' (US Simplified TD). Below this is a 'User Recommendation' section with radio buttons for 'Approve' (selected) and 'Reject'. A 'Remarks' text area contains the text 'Recommended for Approval'. At the bottom, there is an 'Audit' button on the left and a row of buttons on the right: 'Cancel', 'Request Clarification', 'Back', 'Save and Close', and 'Next'.

2. Specify the fields on **Manual Decision** screen.

For more information on fields, refer to the field description table. Refer to **Assessment Details** screen for the detailed explanation of Validation Model, Borrowing Capacity, Qualitative Score, Quantitative Score, Decision & Grade and Pricing tabs.

Table 2-18 Manual Decision - Field and Description

Field	Description
Product Details	Displays the product details.
Account Type	Displays the Account type.
Product Name	Displays the name of the selected product.
User Recommendation	Select the user recommendation. The available options are: • Approve • Reject

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.4.3 Review

This topic provides the systematic instructions to view the summary of each data segment in the Manual Debit Assessment stage.

The system shows the summary of each data segment in the given stage.

To view the summary of all the data segments:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Review** screen displays.

Remarks

Cancel Submit

In this screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

3. In case of override, click **Accept Overrides & Proceed** to proceed or click **Proceed**.
The **Checklist** screen appears.
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed to **Stage Movement Submission** screen.
5. In the **Stage Movement Submission** screen, select appropriate option from the **Select to Outcome** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Manual Debit Assessment** stage for the Certificate of Deposit application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Account Funding**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the customer with a rejection advice.
6. Click **Submit** to submit the **Application Documents** stage.
The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.
OR
Click **Go to Free Task**.
The system successfully moves the Application Reference Number along with the process reference numbers [Certificate of Deposit] to the Account Funding stage.

Note

This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.5 Account Funding Stage

This topic provides the detailed information about the account funding stage data segments.

Users having functional access to the Account Funding Stage will be able to view the record in the Free Task process.

To add funding details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Account Funding stage is displayed.

The Account Funding stage has the following data segments in which the user can only view the data:

- **Account Details:** - For detailed information, refer the Account Details data segment in the Application Entry stage.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Funding](#)
This topic provides the systematic instruction to view the details captured for the Funding in the Account Funding stage.
- [Review](#)
This topic provides the systematic instruction to view all the data segments in the Account Funding stage.

2.5.1 Funding

This topic provides the systematic instruction to view the details captured for the Funding in the Account Funding stage.

In the **Application Entry** stage, we capture the **Funding** details and display them in the **Funding Details** data segment. The Transaction Reference Number and the Transaction Status is either auto-populated or has to be manually captured based on the configuration. Manual processes are available for **Transfer by Account** and **GL Account** for funding.

Note

For more details on the Modes and the Manual/Automatic Process configuration, refer to the **Configurations Guide**.

During the **Application Entry** stage, the initial funding transaction triggers a teller transaction reference number and its status.

1. User can acquire the Account Funding task from the FREE task screen.

The **Funding** screen displays.

 - Select the **Proceed** to proceed with the application. By default this option is selected. By default this option is selected. If the Proceed option is selected, then the application proceeds based on the assessment decision.
 - Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.

- Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the **Application Enrichment** stage.
The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.
OR
Click **Go to Free Task**.
After the Host creates the Certificate of Deposit Account successfully, the response is sent back to the Oracle Banking Originations Cloud Service with the Certificate of Deposit Account Number.

The details of all the applications which have logically completed all their stage movements, (Rejected/Account Created) will be made available in Completed tasks for query purpose only.

If the system fails, the Free Task generates the **Handoff Retry** task. With the necessary access rights, the user can pick up such tasks, take the necessary action on the Failure reason, and then resubmit to the Host.

2.6 Global Actions

This topic provides the detailed on the actions that can be performed in all stages.

This section appears are the top of the right pane and is applicable for all the account opening stage. You can add, edit, view or delete the information from the respective section.

Below are the list of global actions:

- [Application Details](#)
In this section, user can view the detailed information of an application, such as basic details, application status, applicant details that are involved, clarification details and advices details.
- [Application Info](#)
In this section you can view the application number along with its product name.
- [Customer 360](#)
In this section you can view the list of customers involved in the application.
- [Remarks](#)
In this section you can view or the post the remarks.
- [Documents](#)
In this section you can upload the document and also view the already uploaded documents.
- [Advices](#)
You can view the advices that are shared with customer. Advices are generated post Application Entry stage is submitted.
- [Conditions and Covenants](#)
This topic provides the systematic instructions to add or edit conditions and covenants details for the loan applications.
- [Clarification Details](#)
This topic describes the detailed information to request for clarifications.

- [Solicitor Details](#)
You can add the solicitor details using this section.

2.6.1 Application Details

In this section, user can view the detailed information of an application, such as basic details, application status, applicant details that are involved, clarification details and advices details.

User can also track and launch the respective stage of the application.
To view the application details:

1. Click **Application Details** to view the application details.
The **Application Details** screen displays.

The **Application Details** screen displays separate cards for various products initiated as part of the single application. For more information on fields, refer to the field description table below.

Note

The fields marked as **Required** are mandatory.

Table 2-22 Application Details – Field Description

Field	Description
Application Number	Displays the application number.
Application Date	Displays the date and time on which the application was initiated.
Channel	Displays the channel name.
Source By	Displays the name of the user who has sourced the application.
Priority	Displays the priority of the application. • High • Medium • Low
Refresh	Click  to retrieve recent changes or updates made to the application.
<Product Name>	Displays the product name. In case on multiple product, different tabs appears with the respective product name. User can click the product names to view the respective application details.
Stage Details	In this section, all account opening stages appears with the status name and it's chronological order of the stage in the process.
Action	To perform below actions on the appeared stages, click the number of specific stage and select an option from the Action drop-down list: • Acquire & Edit Task : Select this option to acquire and edit the selected stage. • Acquire Task: Select this option to acquire the selected stage and it can be edited later. • View Stage Details: Select this option to view the stage details.
User ID Assigned	Displays the User ID of the user currently working on the product process. The label of this field changes dynamically based on whether the selected stage is In Progress or Completed . • When user selects a In Progress stage, the label will display as Assigned To. • When user selects a Completed stage, the label will display as Submitted By. If the task was auto submitted, then the value for such Completed stages will be displayed as Auto Submitted. • For Pending and skipped stages, this field will be hidden. Note: This field appears blank if the product process task is not acquired by any user.
Stage Start Date	Displays the start date of the current stage. It also display time in hours, minutes and seconds.
Time spent	Displays the days, hours and minutes spent on the current selected stage.

Table 2-22 (Cont.) Application Details – Field Description

Field	Description
<Application Tile>	In this tile, user can view the application specific details. Below field appears in this tile with respective details: • <Status of the Application>: Displays the current stage of the application • Expected Account Opening Date: Displays the date on which the account is opened. This field appears once the account opening process is completed. • Account Number: Displays the account number. This field appears once the account opening process is completed. • Expected Account Opening Date: Displays the date on which the account will be opened. • <Amount>: Displays the value based on the product. For example: – For the loan account opening application, the label of this field appears as Loan Amount. – For the saving, certificate of deposit, and checking account opening application. The label of this field appears as Initial Funding Amount. • Total Time Spent: Displays the total time spent on the application from the first to last stage.
<Applicant Details Tile>	In this tile, user can view the applicant details. Separate tiles appears for all the applicants that are involved in the application. Below field appears with the respective applicant details: • Role of the Applicant • Applicant Image • Applicant Name • Title • Customer 360 : Click this link to view the 360 degrees view of the customer information. The Customer 360 screen appears with the details. Based on the customer type, refer to the Retail 360 User Guide and Corporate 360 User Guide from the party section. • Date of Birth • Mobile Number • Email ID • CIF Number

Table 2-22 (Cont.) Application Details – Field Description

Field	Description
View Clarification Details	In this section, the user can view the clarification history. Below fields appear with the details: • ID • Subject • Raised By • Date • Status: User can view status based on user action done in Clarification screen. – Requested – Responded – Accepted – Withdrawn • Status updated on • Request Subject • Actions: User can View or Download the attached documents. On the click of the respective record the user can view the clarification content.
Advices	In this section, the user view the advices generated in the process of account opening. Below fields appear with the details: • Advice Name • Event: Displays the stage name on which the advice is generated. • Recipients • Mode of Delivery • Delivery Details • Status Details • Actions: User can View or Download the attached advices.
Related Task	In this section, user can view the stages involved in process of application. The below fields are appear with details: • Product Processor: Displays the product which integrated with Oracle Banking Party. • Process Name • Process Reference Number • Stage • Status

Post saving the record you must delete the record to remove the document. Below actions are perform on the uploaded document - You can preview already uploaded document. - You can download already uploaded document.
Actions	You can perform below actions on the added record: - Click to save the record. - Click to delete the record.

Note

Ensure that mandatory documents are uploaded, as the system will validate the same during the stage submission.

Mandatory documents can only be deleted in the same stage where it is uploaded.

Non-mandatory documents can be deleted in any stage.

2.6.6 Advices

You can view the advices that are shared with customer. Advices are generated post Application Entry stage is submitted.

- Click **Advices** to view the advice linked for the stage.
The **Advices** screen is displayed.

Figure 2-38 Advices

The system will generate the advice on submission of the stage. For Application Entry stage of Product, no advice is configured.

2.6.7 Conditions and Covenants

This topic provides the systematic instructions to add or edit conditions and covenants details for the loan applications.

Conditions

The Conditions are stipulations and constraints recorded in a contract to restrict the usage of funds, in order to ensure proper utilization of funds for the specified purposes and to adhere to a stipulated schedule.

Covenants

Often there are restrictions on borrowers while extending credit facilities. Sometimes, a borrower promises certain future acts to assure the lender that the conduct of business dealings is fair, healthy and in accordance with the best practices. The purpose of covenant is to assist the lender to ensure the health of loan facilities does not deteriorate suddenly or unexpectedly before maturity.

To add conditions:

1. From the **More** option, click the **Conditions & Covenants** to add or remove the conditions details.

The **Conditions & Covenants** page appears.

Figure 2-39 Conditions

2. Perform the following actions:
 - Click **Add Condition** to add new conditions.
 - Click **Remove** to remove already added conditions.
3. Enter the relevant details.

Table 2-24 Conditions – Field Description

Field	Description
Entity	Select the entity on which user wants to set condition. The available options are • Party • Collateral • Account

- Once the details are updated, click **Save**.

Clarification Request once raised moves the application to **Awaiting Customer Clarification** state. The application continues to be assigned to the user who had raised the request. All the applications for which the specified user has requested clarification can be viewed and actioned from the **Awaiting Customer Clarification** sub-menu available under **Task** menu.

- Select the application from the **Awaiting Customer Clarification** sub-menu available under the **Task** menu.
- Click the **Clarification Details** from the header.
- Select the specific clarification to take action on it.

Allowed actions are as following:

- Respond**
- Accept Clarification**
- Withdraw Clarification**

Once the Clarification is either withdrawn or accepted, the application moves back to the **My Task** sub-menu available under **Task** menu, post which the user can edit the application and submit the specified stage. Clarification once raised and actioned are available throughout the application processing by the other users working on the other stages of the application by clicking on **Clarification Details** from the header.

2.6.9 Solicitor Details

You can add the solicitor details using this section.

A solicitor is a legal practitioner who traditionally deals with most of the legal matters in some jurisdictions. A person must have legally-defined qualifications, which vary from one jurisdiction to another, to be described as a solicitor and enabled to practice there as such.

In this section, user can add or remove the solicitor and also view the already added solicitor.

To add solicitor details:

- From the **More** option, click the **Solicitor** to add or remove or edit the already added solicitor.

The **Solicitor Details** page displays.

Simplified Application

This topic describes the concept and process of single stage application.

What is Simplified Application?

The Simplified Application is introduced to open an account in a smooth single process culminating the long account opening process. In this process the user can directly create and application and update details with multiple data segments in a single view.

How to configure Simplified Application for a product?

To enable a simplified account opening process, select the **Simplified Application** flag in the **Business Product Preference** data segment of the **Business Product Configuration** screen.

Once the product is configured for simplified application, the user can configure the business process such as stages, data segments, document checklist and so on, in the **Business Process Configuration** screen.

In the process of Simplified Application, the **Initiate** stage is bypassed and the **Application Entry** stage appears for capturing details.

How to process the simplified application?

After configuring the product and process, the user can initiate a single-stage application by navigating the menu. Below is the detailed process for opening an account using a simplified application.

To open an account using simplified application process:

1. From the **Menu**, select the **Retail Origination**. The Retail Origination menu appears.
2. From the **Retail Origination**, select the **New Application**. The New Application page appears with list of product types which are configured.
3. Select the appropriate product and click **Apply**.
The Application Entry stage appears. The data segments in this stage appears based on the business process configuration.
 - **Applicant** : In this data segment user can capture applicant details such as basic, address, signature, employment, identification. Multiple applicants are allowed with different roles. Refer **Applicant** data segment from the **Application Entry** stage of this guide.
 - **Account Details**: In this data segment user can capture the product details to configure the account. Refer **Account Details** data segment from the **Application Entry** stage of this guide.
 - **Funding**: In this data segment user can capture the funding details to configure the account. Refer **Funding** data segment from the **Application Entry** stage of this guide.
 - **Payout Instruction**: In this data segment user can capture the payout instructions of the maturity amount to configure the account. Refer **Payout Instruction** data segment from the **Application Entry** stage of this guide.

- **Nominee Details:** In this data segment user can capture the nominee details. Refer the **Nominee Details** data segment from the **Application Entry** stage of this guide.
 - **Term and Conditions:** In this data segment user can capture the term, conditions and consents of the customer. Refer the **Term and Conditions** data segment from the **Application Entry** stage of this guide.
 - **Review:** In this data segment user can review all the details that are captured on clicking on each data segment tile.
4. On submitting the Application Entry stage, next stage is triggered based on the business process configuration.
Below are the stages are auto-generated if the Know Your Customer (KYC) process is not successfully completed:
- **Debit Assessment:** If the applicants involved in a simplified application have not completed the Know Your Customer (KYC) process, then the **Debit Assessment** stage appears in the application process. The user having the required access rights can pick this task and can retry submission after taking required actions on the KYC non-compliance. Refer the **Debit Assessment** stage of this guide.
 - **Manual Debit Assessment:** If the bureau status of any applicant is marked as **Referred** then this stage appears in an account opening process. Refer the **Manual Debit Assessment** stage of this guide.
5. After completing the Know Your Customer (KYC) process, the Account Approval stage is generated. All the data segments of the Application Entry stage appears. The user can only view those stages. The Approval Details data segment is enabled to capture account approval status. For more information refer the **Approval Details** data segment of the **Account Approval** stage in this guide.
- If the Rejected option is selected in the Approval Details data segment then this application is terminated.
 - If the Approved option is selected in the Approval Details data segment then the application's payload are proceed for account creation.
6. An account is created on approving the application in the **Account Approval** stage.
7. Below tasks are also generated in this process:
- If the system fails, the Free Task generates the **Handoff Retry** task. With the necessary access rights, the user can pick up such tasks, take the necessary action on the Failure reason, and then resubmit to the Host.
