This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Purpose

This guide is designed to help you to quickly get acquainted with the Oracle Banking Originations Cloud Service system. It provides an overview of the current account Origination process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a current account Origination.

Before you begin

Kindly refer to the **Getting Started User Guide** for common elements, including Symbols and Icons, Conventions Definitions, and so forth.

Module Prerequisite

Specify the **User Name** and **Password**, and login to **Home** screen.

Audience

This guide provides instructions and information about the current account product to help various bank users to deliver quick and efficient service to both customer and prospects.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

Table Acronyms and Abbreviations

Abbreviation	Description
DS	Data Segment
System	Oracle Banking Origination Module
OBA	Oracle Banking Accounts
OBOCS	Oracle Banking Originations Cloud Service

1

Overview

This topic describes the information on the various features of the current account origination process.

Product Introduction

Oracle Banking Originations Cloud Service is the middle office banking solution with a comprehensive coverage of account opening processes of the below product for both Individual as well as Small and Medium Business type of customers:

- Saving Account
- Current Account
- Term Deposit Account
- Retail Loans Account

It is a Host-Agnostic solution

It enables banks to deliver the improved user experience for various bank persons such as Sales Officers, Relationship Manager, Account Opening Officers, Branch Supervisor/Managers, Loan Officers, and Credit Officers and more, handling defined functions in the lifecycle of the various product origination.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business-driven, is hosted and architected by our new platform solution. The random access navigation between data segments within a given stage are with appropriate validations helps to enable the business user to capture apt information anytime during the account open process before created account in the Host. The new workflow supports capturing relevant documents, stage-wise, and the generation of advice and notifications dynamically.

The account opening request is initiated by authorized branch user or relationship managers or by approved bank agents, either through the traditional branch channel or through dedicated protocol services. These services are available on digital devices like tablets or mobiles. The account opening request can be initiated for both new and existing customer types. Also, the system supports the processing of the account opening request from the customer directly received from the Self-Service Banking Channel (Oracle Banking Digital Experience) through the REST-based service APIs.

This user guide explains the workflow for the current account Origination process and further details the data that needs to capture in the data segment linked to the specific stages.

2

Initiating current account Opening Process

This topic describes the information on the defined stages through which the current account Application has to flow before it is ready to be sent to the Host for Account Creation.

As detailed in the **Operations User Guide**, the account opening applications of all product are initiated in the application initiation stage from the Product Catalogue. The Cart Operation in Product Catalogue allows to originate, Single or Multiple Product initiation. Once the current account product origination process is initiated either by a single product origination or multiple product selection, the process orchestrator generates the current account process reference number on submit of application initiation stage. The process orchestrator updates the record in the free task process for the 'Application Entry' stage and is referred to as task from the orchestrator perspective.

To acquire and edit respective stage:

1. From **Home** screen, click **Tasks**. Under **Tasks**, click **Free Tasks**. The **Free Tasks** screen is displayed.

Figure 2-1 Free Tasks

Actions	Priority	Process Name	Process Reference Number	Application Number	Stage	Application Date	Branch	Customer Number

2. Click **Acquire & Edit** from the Actions column against the stage which user wants to update.

The current account Origination Process flow comprises of the below stages and the detailed information of the same is available in the below sections:

- [Application Entry Stage](#)
This topic describes the information on the various data segments to capture the required data in the Application Entry stage.
- [Overdraft Limit Details Stage](#)
This topic describes the information on the various data segments to capture the required data for the Overdraft Limit Details stage.
- [Application Enrichment Stage](#)
This topic describes the information on the various data segments to view and update the required data for the Application Enrichment stage.

- [Account Funding Stage](#)
This topic describes the process of initial funding of an account. In this stage user can provide initial funding details before opening an account.
- [Underwriting Stage](#)
This topic describes the information on the various data segments to access the credit rating and capture the required data for the Underwriting stage.
- [Application Assessment](#)
This topic describes the information on the various data segments to update the required data and assess the application in the Application Assessment stage.
- [Manual Credit Assessment Stage](#)
This topic describes the information on the various data segments to assess the application manually in the Manual Credit Assessment stage.
- [Manual Credit Decision Stage](#)
This topic describes the information on the various data segments to review and approve the application manually in the Manual Credit Decision stage.
- [Account Parameter Setup Stage](#)
This topic describes the information on the various data segments to setup the required account parameters in the Account Parameter Setup stage.
- [Supervisor Application Approval Stage](#)
This topic describes the information on the various data segments to view and approve the price change in the Supervisor Application Approval stage.
- [Offer Issue Stage](#)
This topic describes the information on the various data segments to generate the offer in the Offer Issue stage.
- [Offer Accept / Reject Stage](#)
This topic describes the information on the various data segments to accept / reject the offer in the Offer Accept / Reject stage.
- [Post Offer Amendment Stage](#)
This topic describes the information on the various data segments to request for amendment of overdraft in the Post Offer Amendment stage.
- [Application Approval Stage](#)
This topic describes the information on the various data segments to view the captured details and approve the application in the Application Approval stage.
- [Manual Retry Stage](#)
This topic describes the information on the various data segments on the Manual Retry stage.
- [Account Funding](#)
This topic describes the process of initial funding of an account. This stage appears once the account is opened.
- [Global Actions](#)
This topic provides the detailed on the actions that can be performed in all stages.

2.1 Application Entry Stage

This topic describes the information on the various data segments to capture the required data in the Application Entry stage.

Based on the access configuration, user can view the records in **Free Task**. In this stage user can capture the details that are required to open a current account. This stage is automatically submitted on below conditions:

- If the bank level configuration for allowing the full application submission is set as **Yes**.
- If the user captures the required details in all the data segments of the **Application Entry** stage as part of the **Application Initiation** stage on clicking the **Application** button in the **Product Details** data segment.

To open current account Application Entry task:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **current account Application Entry** stage is displayed.

The data segments appears as configured in business process. Refer below sections for detailed information of each data segment.

- [Applicant](#)
This topic provides the systematic instructions to capture the customer-related information for the application.
- [Account Details](#)
This topic provides the systematic instructions to view and modify the account details.
- [Stake Holder Details](#)
This topic provides the systematic instructions to capture the stake holder details related information for the business.
- [Financial Details](#)
This topic provides the systematic instructions to capture the financial details of a single customer or multiple customers in case of joint applicants.
- [Collateral Details](#)
This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.
- [Nominee Details](#)
This topic provides the systematic instructions to capture the details of the nominee for the account.
- [Terms and Conditions](#)
This topic descriptions the terms and conditions that are mandatory to accept for to proceed with account opening process.
- [Review](#)
This topic provides the systematic instruction to view the tiles for all the data segments in the Application Entry Process.

2.1.1 Applicant

This topic provides the systematic instructions to capture the customer-related information for the application.

The **Applicant** data segment displays the details captured for the customer in the Application Initiate stage and allows updating further fields for supplementing the customer related information.

- [For Individual Customer Type](#)
The topic describes the process to capture or edit customer information of Individual type of customer.

- [For Small and Medium Business \(SMB\) Customer Type](#)
The topic describes the process to capture or edit customer information of Small and Medium Business type of customers.

2.1.1.1 For Individual Customer Type

The topic describes the process to capture or edit customer information of Individual type of customer.

To capture applicant details:

1. In the current account Application Entry stage, update the customer details in the Applicant data segment based on the respective customer type.

The **Applicant - Individual** screen displays.

2. Specify the relevant details in data fields. The fields which are marked as **Required** are mandatory.

For more information on the fields, refer to the field description table below:

Table 2-1 Applicant- Individual – Field Description

Field	Description
Applicant Role	Displays the applicant role. By default the Primary role appears in this field. Select the applicant role (Joint, Guardian, Custodian, Guarantor, etc) in case user add multiple applicant in single application.
Add Applicant By	Select the mode from which the user need to add new applicant. The available options are: • Upload Documents - Using this option user can upload identification documents of the application to extract the details. • Search Existing Customer - This option is used if the applicant is an existing customer of the bank. On selecting the existing customer, the details appears in the respective sections which are already stored. • Enter Manually - This option is used if user wants to enter all the applicant details manually.
Upload ID	Select the document which is used from extracting applicant details. The available options are: • State Issued Drivers License • Passport This field appears if the Upload ID option is selected.
Country of Issue	Select the country in which the document is issued. This field appears if the Upload ID option is selected.
Select and Drop here	Drag and drop the document file or click on Select or drop files here to browse and upload the document from the local system. PNG and JPEG file formats are supported. 10MB maximum file size is allowed. This field appears if the Upload ID option is selected.
CIF Number	Search and select the CIF number. This field appears if the Search Existing Customer option is selected.
Advanced Search	Click this button to perform party search using advance parameters. For more information on advance search, refer the Advanced Search section below. This field appears if the Search Existing Customer option is selected.
Basic Details	In this section the user can manually capture the basic details of applicant. This section appears if the Enter Manually option is selected from the Add Applicant By drop down list.
Salutation	Select the salutation of the applicant from the drop-down list.
First Name	Specify the first name of the applicant.
Middle Name	Specify the middle name of the applicant.
Last Name	Specify the last name of the applicant.
Suffix	Specify the suffix for the applicant. This options in this list appears based on the configured entity code in the Oracle Banking Party product.
Name In Local Language	Specify the applicant's name in their local language.
Gender	Specify the Gender of the applicant from the drop-down list.
Date of Birth	Select the date of birth of the applicant.

Table 2-1 (Cont.) Applicant- Individual – Field Description

Field	Description
National ID	Specify the national identification code of the applicant.
Resident Status	Select the residential status of the applicant from the drop-down list. Available options are: • Resident Alien • Non-Resident Alien • Citizen
Country of Residence	Search and select the country code of which the applicant is a resident.
Birth Country	Specify the birth country of the applicant.
Birth Place	Specify the birth place where the applicant has born.
Nationality	Search and select the country code where the applicant has nationality.
Citizenship By	Search and select the country code for which applicant has citizenship.
Marital Status	Select the marital status of the customer from the drop-down list. Available options are: • Married • Unmarried • Legally Separated • Widow This field appears mandatory based on the product configuration.
Customer Segment	Select the segment of the customer. Available options are: • Emerging Affluent • High Net worth Individuals • Mass Affluent • Ultra HNI
Customer Category	Select the category of the customer.
Preferred Language	Select the preferred language.
Preferred Currency	Select the preferred currency.
Details Of Special Need	Select the special need details. Available options are: • Blindness • Cerebral Palsy • Low vision • Locomotor disability • Leprosy-cured • Mental retardation • Mental illness • Hearing Impairment
Remarks For Special Need	Specify the remarks for the special need selected.
Relationship Manager ID	Search and select the Relationship Manager ID for the applicant.
Staff	Select the toggle to indicate if the customer is employee of the bank.
Profession	Select the profession of the customer.
Politically Exposed Person	Select to indicate if the customer are politically exposed person.
Profile Photo	Drag and drop the document file or click on Select or drop files here to browse and upload the document from the local system. PNG and JPEG file formats are supported. 10MB maximum file size is allowed.

Table 2-1 (Cont.) Applicant- Individual – Field Description

Field	Description
Signatures	In this section, user can add new signature and view the already added signature of the customer. Click the Add Signature button to select the file to upload signature. Click Cancel button to discard the added details. On Submit , signature will be handed off to Oracle Banking Party.
Upload Signature	Drag and drop the signature file or click on Select or drop files here to browse and upload the signature from the local system. PNG and JPEG file formats are supported. 10MB maximum file size is allowed.
Uploaded Signature	Displays the uploaded signature.
Remarks	Specify the remarks related to the signature. Click Save to save the uploaded file.
Signature ID	Displays the Signature ID for the added signature along with the image and remark.
Action	Click  to edit the added signatures Click  to delete the added signatures.
Address	This section displays the added address of the applicant. It is mandatory to add communication address of the applicant. Click Add Address to add address details. Click  to perform below actions on the added address details, - Click View to view the address details. - Click Edit to edit the address details. - Click Delete to delete the address details.
Address Type	Select the address type for the applicant from the drop-down list. Residential Address Communication Address
Location	Select and search the location.
Current Address	Select to indicate if user want to mark entered address as current address type.
Preferred Address	Select to indicate if user want the selected address type as preferred address type. This field is non editable if the No option is selected in the Current Address field.
Address Since	Select the date when the applicant start residing at the specified address.
Address From	Select the date when the applicant start residing at the specified address. This field appears if the No option is selected in the Current Address field.
Address To	Select the date when the applicant last lived at the specified address. This field appears if the No option is selected in the Current Address field.

Table 2-1 (Cont.) Applicant- Individual – Field Description

Field	Description
Address	Specify the address to search for the already captured address. Based on the configuration, on entering a few letters, the system fetches the related address that is already captured. Based on the selection, the fields are fetched in the address section.
Address Line 1	Specify the building name. Note: The maximum length is 35 characters.
Address Line 2	Specify the street name. Note: The maximum length is 35 characters.
Address Line 3	Specify the city or town name. Note: The maximum length is 35 characters.
Country	Select and search the country code.
State / Country Sub Division	Specify the state or country sub division. This field appears based on the selected country code.
Zip Code / Post Code	Specify the zip or post code of the address.
Addition Info	In this section, user can provide addition information.
Sub Department	Specify the sub department.
Department	Specify the department.
Building Number	Specify the building number.
Post Box	Specify the post box code.
District Name	Specify the district name.
Floor	Specify the floor number.
Room	Specify the room number.
Locality	Specify the locality.
Landmark	Specify the landmark.
Contact Name / Narrative	Specify the name of the contact person.
<Added record tile>	In this tile, user can view the added address details. Below details appears in the tile: • <Current status> this flag appears only if Yes option is selected. • <Preferred ID status> this flag appears only if Yes option is selected. • Address Type • Address dates • Address line 1,2,3 • Country • State Click the Edit to edit the added address details. Click the View to view the added address details. Click  to delete the added address details.
Contact Details	In this section, user can provide digital contact details.
Communication Mode	Select the communication mode from the drop-down list. The available options are: • Mobile Phone • Email

Table 2-1 (Cont.) Applicant- Individual – Field Description

Field	Description
Country	Select the country along with international subscriber dialing code of the mobile phone from the drop-down list. The drop-down list option consist of Country Code, Country Name and Subscriber Dialing Code. This field appears only if the Mobile Phone option is selected as communication mode.
Mobile Number	Specify the mobile number.
Contact Sub Type	Select the contact type from the drop-down list. The available options are: • Residence • Business • Mobile • Others Note: The contact preferred flag, which was previously captured as a contact sub type.
Email Id	Specify the email ID. This field appears only if the Email option is selected as communication mode.
Preferred	Select to indicate if the given record is the preferred one.
Action	User can edit or delete the added mobile details.
Identification Details	User can add, view and edit the identification details in this section. Click the Add ID button to add Identification details.
ID Type	Specify the ID type. The available options are: • Military ID • Birth Certificate • SIN • Permanent Resident Card • SIN • Passport • SSN
ID Status	Specify the status of the selected ID type. The available options are: • Verification Pending • Applied For • Available • Notice Received
Unique ID	Specify the unique identification code of the selected type. User can enter the unique ID only if the ID Status is Available .
Place Of Issue	Specify the place where the ID is issued to the user.
Issue Date	Specify the date from which the ID is valid.
Expiry Date	Specify the date till which the ID is valid.
Preferred	Select to indicate whether added ID details are preferred among all others. In case of multiple ID details, it is mandatory to mark any one of the ID details as Preferred.
Remark	Specify the remark. Click the Save button to save the entered ID details.

Table 2-1 (Cont.) Applicant- Individual – Field Description

Field	Description
<Added record tile>	In this tile, user can view the added ID details. Below details appears in the tile: - ID Status <Preferred ID status> this flag appears only if Yes option is selected. - ID Type - Unique ID Click  to edit the added ID details. Click  to view the added ID details. Click  to delete the added ID details.
Supporting Document	This section displays the status of the supporting documents that customer provides to get onboard. User can view, Document Name Document Number Document Issue Date Document Expiry Date Attached Files In case of exiting party, already captured documents fetched in this section. OR
Click **No** to edit financial details and proceed.

2.1.5 Collateral Details

This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.

Collateral details is a data segment to capture the collateral which is offered by the customer as security for Overdraft limit. Collateral details will be sent to the host to be made available under local collateral. The relevant service APIs will be made available for both Push and Pull details of collaterals.

Capturing of Collateral details in Oracle Banking Originations Cloud Service is also enabled with an option to onboard collateral using the Oracle Banking Credit Facility Process Management integration services. In such cases, the collateral details will be sent to the Collateral onboarding systems for performing the Valuation, obtaining the Legal opinion and recording the perfection details. These details will be made available on Oracle Banking Originations Cloud Service in the respective Data segments in read only mode.

To add the collateral details:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
2. Click **Add Collateral** to capture the collateral details.

The **Collateral Details** screen displays.

Figure 2-12 Collateral Details

3. If the **Collateral Type** is selected as **Term Deposit**, the following **warning message** displays when the OD Limit expiry date is more than the Maturity Date of the term deposit.
The **Warning Message** popup screen displays.
4. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-7 Collateral Details - Field Description

Field	Description
Add	Select the collateral. The available option are: • New Collateral • Existing Collateral Note: When Oracle Banking Retail Lending Servicing is the host, the system supports secured loan origination using existing collateral. The existing collateral details of the customer are fetched from the collateral product processor. If sufficient unutilized collateral balance is available, it can be used for a new loan for the customer(s).
Applicant	Select the applicant from the drop-down list to fetch existing collateral details. This field appears when the Existing Collateral option is selected.
Primary Collateral	Select the primary collateral. The available option are: • Yes • No

Table 2-7 (Cont.) Collateral Details - Field Description

Field	Description
Collateral Type	Select the collateral type. Available options are: • Property • Guarantee • Vehicle • Precious Metal • Deposits • Bonds • Stocks • Insurance • Accounts Receivable • Inventory (Stock of Material) The above options displays based on the initial setup.
Category	Select the collateral category. Available options are: If Collateral type is selected as Property • Residential Property • Vacant Land • Under Construction If Collateral type is selected as Guarantee • Personal Guarantee • Guarantee and Indemnity • Government Guarantee • Family Guarantee If Collateral type is selected as Vehicle • Passenger Vehicle • Commercial Vehicle If Collateral type is selected as Precious Metal • Precious Metal If Collateral type is selected as Deposits • Term Deposit If Collateral type is selected as Bonds • Secured Bonds • Unsecured Bonds • Investment Bonds If Collateral type is selected as Stocks • Domestic Stock If Collateral type is selected as Insurance • Life Insurance If Collateral type is selected as Accounts Receivable • Bill Receivable • Trade Receivable If Collateral type is selected as Inventory (Stock of Material) • Stock of Raw Materials • Finished Goods • Packaging Materials The above options displays based on the initial setup.
Collateral Branch	Displays the branch of the collateral.

Table 2-7 (Cont.) Collateral Details - Field Description

Field	Description
Term Deposit Number	Select the Term Deposit Number from the list. The Term Deposit which has crossed the maturity date and the Allow Collateral Linkage disabled, will not appear in the list.
Maturity Date	Select the Maturity Date of the term deposit.
Available Linkage Amount	Specify the available linkage amount.
Linked Amount	Specify the linked amount.
Linkage Currency	Displays the linkage currency.
Guarantee Type	Specify the type of guarantee. This field appears only if the collateral type is Guarantee .
Currency	Specify the currency of the collateral value.
Collateral Value	Specify the collateral value.
Collateral Description	Specify the collateral description.
Mark Collateral For Refinance	Specify if an added collateral should be consider for refinance.
Applicants	This section displays the applicants name and remarks that are involved in the loan application. These applicants are also related to the added collateral.
Guarantor	This section displays the guarantor name.
Purchase Property	Specify whether the collateral property being added is being purchased. This field appears if the Property option is selected from the Collateral Type list.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Collateral Available Date Range	Select the date range of the collateral. The range indicates the date from and date up to, which the collateral is available.
Collateral Value	Specify the value of the collateral.
Hair Cut %	Specify the percentage of Hair Cut.
Collateral Amount To Be Considered	Displays the collateral amount to be considered. Collateral Amount = (Hair Cut % Collateral Value)
Collateral Description	Specify the collateral description.
Property Location	In this section, user can enter property address which is added as collateral. This section appears only if user select Property from the Collateral Type list. The fields appears if user select the Property option from the Collateral Type list.
Address	Specify the address to search already captured address. Based on configuration, on entering few letters, the system fetches the related address that are already captured. Based on the selection, the fields are auto populated in the address section.
Address Line 1	Specify the building name.
Address Line 2	Specify the street name.
Address Line 3	Specify the city or town name.
State / Country Sub Division	Specify the state or country sub division.

Table 2-7 (Cont.) Collateral Details - Field Description

Field	Description
Country	Select and search the country code.
Zip Code / Post Code	Specify the zip or post code of the address.
Collateral Ownership Details	In this section, specify the ownership details of the collateral property. This section displays all the customers that are involved in the loan application. The fields appears if user select the Property option from the Collateral Type list.
<Added record tile>	In this tile, user can view the added details. Click Add to add the applicant collateral ownership details. Click Edit to edit the added collateral ownership details.  Click  to delete the collateral ownership details.
Ownership Type	Select the ownership type of the property. The available options are • Single • Joint The fields appears if user select the Property option from the Collateral Type list.
Select	Select the appropriate customer as owner from the list. The fields appears if user select the Property option from the Collateral Type list.
Customer Name	Displays the customer name along with title. The fields appears if user select the Property option from the Collateral Type list.
Ownership Percentage	Displays the percentage of the ownership of the customer. The fields appears if user select the Property option from the Collateral Type list.
Remark	Displays the remark of the customer. The fields appears if user select the Property option from the Collateral Type list.

Market LTV	Displays the market LTV.
Bank LTV	Displays the bank LTV.
Collateral Description	Displays the description of the collateral.
Collateral Type	Displays the collateral type.
Category	Displays the category of the collateral.
Collateral Value	Displays the collateral value.
Owners	Displays the owner names of the collateral.
<Actions>	Perform the below action on the added collateral. •  - Click delete to delete the added collateral. •  - Click down arrow to view the collateral details.

Table 2-7 (Cont.) Collateral Details - Field Description

Field	Description
Total Collateral Value	Displays the total value of collateral. This field will be auto updated based on the number of collaterals.
Cover Available	Displays the cover available. This field will be auto updated based on the number of collaterals.

Note

All the fields are fetched from Oracle Banking Credit Facilities Process Management in read only mode, if integrated with Oracle Banking Credit Facilities Process Management.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

2.1.6 Nominee Details

This topic provides the systematic instructions to capture the details of the nominee for the account.

The **Nominee Details** is a non-mandatory data segment. If required, It allows capturing multiple nominees for the account. Nominee can be a minor, in that case, it is mandatory to provide details of the guardian. For SMB Customer, Nominee Details are allowed only for Proprietary type of Business Accounts.

To add the nominee details:

- Click **Next** in from the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Nominee Details** screen displays.

Figure 2-13 Nominee Details

- Specify the fields on **Nominee Details** screen.

Table 2-8 Details - Field Description

Field	Description
Title	Select the title of the applicant.
First Name	Specify the first name of the applicant.
Middle Name	Specify the middle name of the applicant.
Last Name	Specify the last name of the applicant.
Relationship Type	Select the relationship type of the nominee with the applicant.
Date of Birth	Select the applicant's date of birth.
Minor	Select to indicate if nominee is minor.
Add Guardian	Click the Add Guardian link to add the guardian details. The link appears if the Minor field is enabled. This field is conditional mandatory.
Percentage	Specify the percentage to be considered for distribution of the account balance in case of uneventful death of the applicant.
Address	This section displays the added address of the applicant. It is mandatory to add communication address of the applicant. Click  to add address details. Click  to perform below actions on the added address details, - To view the address details, click View. - To edit the address details, click Edit. - To delete the address details, click Delete.
Address Type	Select the address type for the applicant from the drop-down list. Residential Address Communication Address
Location	Select and search the location.

Table 2-8 (Cont.) Details - Field Description

Field	Description
Current Address	Select to indicate if you want to mark entered address as current address type.
Preferred Address	Select to indicate if you want the selected address type as preferred address type.
Address From	Select the date from when you are connected with the given address.
Address To	Select the date till when you were connected with the given address.
Address	Specify the address to search for the already captured address. Based on the configuration, on entering a few letters, the system fetches the related address that is already captured. Based on the selection, the fields are fetched in the address section.
Address Line 1	Specify the building name.
Address Line 2	Specify the street name.
Address Line 3	Specify the city or town name.
Country	Select and search the country code.
State / Country Sub Division	Specify the state or country sub division. This field appears based on the selected country code.
Zip Code / Post Code	Specify the zip or post code of the address.
Addition Info	In this section you can provide addition information.
Sub Department	Specify the sub department.
Department	Specify the department.
Building Number	Specify the building number.
Post Box	Specify the post box code.
District Name	Specify the district name.
Floor	Specify the floor number.
Room	Specify the room number.
Locality	Specify the locality.
Landmark	Specify the landmark.
Contact Name / Narrative	Specify the name of the contact person.
Contact Details	In this section you can provide digital contact details.
<Communication Mode>	Select the communication mode from the drop-down list. The available options are: • Mobile Phone • Email
Country	Select the country along with international subscriber dialing code of the mobile phone from the drop-down list. The drop-down list option consist of country code, country name and subscriber dialing code. This field appears only if you select the Mobile Phone option as communication mode.
Mobile Number	Specify the mobile number.
Preferred	Select to indicate if the given mobile number is the preferred number.
Action	You can edit or delete the added mobile details.
Email Id	Specify the email ID. This field appears only if you select the Email option as communication mode.
Preferred	Select to indicate if the given email ID is the preferred ID.

Table 2-8 (Cont.) Details - Field Description

Field	Description
Action	You can edit or delete the added email details.
Add Nominee	Click to add additional nominee for the account.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

Guardian Details

This screen allows to capture details of the guardian of the minor nominee.

To add guardian details:

- Click **Add Guardian Details** on Nominee Details screen.

The **Guardian Details** screen is displayed

Figure 2-14 Guardian Details

- Specify the details in the relevant data fields.
Refer the **Nominee Details** field description table for detailed information on each field.
- Click **Save** to save the guardian details

2.1.7 Terms and Conditions

This topic descriptions the terms and conditions that are mandatory to accept for to proceed with account opening process.

In this data segment user can capture term and conditions consents from the applicants. The customer consents are same across products but few term and conditions defer based on the applied products. They appears in questionnaire format based on the configurations. This questionnaire is mapped at product configuration level. It is mandatory to accept all term and condition to proceed with application.

This data segment comprises of below sections:

- Term and Conditions for all products** - In this section the term and conditions which are applicable for all the products appears in the questionnaire format.
- Term and Conditions for <Selected Product>** - In this section the term and conditions which are applicable for all the selected product appears in the questionnaire format.

To capture terms and conditions:

1. Click **Next** from previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Term and Conditions** screen appears

Figure 2-15 Terms and Conditions

2. Click  to view the term and conditions.
3. Select the toggle button to accept the term and conditions.
4. In the **Consents to receive Marketing Promotional and Sales** section, enter the channel and details.
5. Click **Add Channel** to add the relevant details.

The below fields contain channel data:

- Channel
 - Contact Value
 - Preferred Time
 - Time Zone
 - Actions
6. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.1.8 Review

This topic provides the systematic instruction to view the tiles for all the data segments in the Application Entry Process.

The Summary displays the tiles for all the data segments in the Application Entry stage. The tiles display the important details captured in the specified data segment.

To view the summary of all data segment

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Table 2-9 Summary - Application Entry – Field Description

Data Segment	Description
Applicants	Displays the applicants details
Account Details	Displays the account details.
Stake Holder Details	Displays the Stake Holder details This data segment appears only if the Customer Type is selected as Small and Medium Business (SMB) .
Financial Details	Displays the financial details.
Collateral Details	Displays the collateral details.
Nominee Details	Displays the nominee details.
Term and Conditions	Displays the term and conditions.

- Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
- In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.

OR

Click **Proceed**. The Checklist screen appears.

4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field:
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Application Entry** stage for the saving application. The Workflow Orchestrator will automatically move this application to the next processing stage, **SavingApplication Enrichment**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - If the **Overdraft Requested** toggle is OFF then, submit of this stage, will move the application into the **Application Enrichment** stage.
 - If the **Overdraft Requested** toggle is ON then, submit of this stage, will move the application into the **Overdraft Limit** Stage.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [current account] to the Application Enrichment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

Application De-Dupe:

Based on the configuration set in the Origination Preference screen, the application dedupe service is enabled.

If application dedupe service is enabled, System will check that any application is in progress for same product and customer combination. On Submit, if any duplicate application exists, override will show a message with other in progress application numbers. User can select the override check box and proceed or take appropriate action.

Note

- If an application is returned to the Application Entry-stage from any other subsequent stages, Oracle Banking Originations Cloud Service will not allow amending details in the Customer Information and Financial Details data segment, once a customer onboarding process has been triggered in the Application Entry Stage and CIF creation is still in progress.
- In case the party amendment request is rejected by Oracle Banking Party, the specified error message is shown to the user while submitting the Application Entry stage. The user has an option to go back and resolve the error or proceed with the stage submission by disregarding the amendment request.

2.2 Overdraft Limit Details Stage

This topic describes the information on the various data segments to capture the required data for the Overdraft Limit Details stage.

Users having functional access to the Overdraft Limit Details stage will be able to view the record in the Free Task process.

To add overdraft limits:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Overdraft Limit Details** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Account Limit Details](#)
This topic provides the systematic instructions to update the overdraft limit requested by the customer.
- [Collateral Details](#)
This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.
- [Advance against Uncollected Funds](#)
This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.
- [Temporary Overdraft Limit](#)
This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.
- [Review](#)
This topic provides the systematic instruction to view all the data segments in the Overdraft Limit Details stage.

2.2.1 Account Limit Details

This topic provides the systematic instructions to update the overdraft limit requested by the customer.

The Account Limit Details allows to update the overdraft limit requested by the customer.

To add account limit details:

1. On acquiring the **Overdraft Limit Details** task, the Account Limit Details data segment appears.

The **Account Limit Details** screen displays.

Figure 2-17 Account Limit Details

2. Click **Add Overdraft** to capture the overdraft limits.
3. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-10 Account Limit Details – Field Description

Field	Description
Limit Type	Select the limit type from the drop-down list. <i>Note</i> System defaults the same limit type for the subsequent overdraft details added.
Branch	Specify the branch code where the account limit is configured.
Linkage Reference	Select the linkage reference number from the dropdown list.
OD Limit Amount	Select the currency and specify the overdraft limit amount for the account.
Date Range	Select the date range within when the account limit is valid.
Available Linkage Amount	Specify the available linkage amount of the collateral.
Linked Amount	Select the currency and specify the linked amount.
Linkage Currency	Displays the linkage currency.
Rate Type	Displays the rate type as per the limit type is selected. The available options are: - Fixed - Floating
Rate Code	Displays the rate code. <i>Note</i> This field displays if the Rate Type is selected as Floating.

Table 2-10 (Cont.) Account Limit Details – Field Description

Field	Description
Base Rate	Displays the base rate. <i>Note</i> This field displays if the Rate Type is selected as Floating.
Rate of Interest	Displays the rate of interest. <i>Note</i> This field displays if the Rate Type is selected as Fixed.
Variance	Specify the variance. <i>Note</i> This field displays if the Rate Type is selected as Fixed.
Margin	Specify the margin. <i>Note</i> This field displays if the Rate Type is selected as Floating.
Final Rate	Displays the effective rate calculated and based on the below parameters: • Rate Value and the Margin for floating rate type. • Rate of Interest and the Variance for fixed rate type.

4. Click **Add Overdraft** to capture the multiple overdraft limits.

OR

Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.2.2 Collateral Details

This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.

Collateral details is a data segment to capture the collateral which is offered by the customer as security for Overdraft limit. Collateral details will be sent to the host to be made available under local collateral. The relevant service APIs will be made available for both Push and Pull details of collaterals.

Capturing of Collateral details in Oracle Banking Originations Cloud Service is also enabled with an option to onboard collateral using the Oracle Banking Credit Facility Process Management integration services. In such cases, the collateral details will be sent to the Collateral onboarding systems for performing the Valuation, obtaining the Legal opinion and recording the perfection details. These details will be made available on Oracle Banking Originations Cloud Service in the respective Data segments in read only mode.

To add the collateral details:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
2. Click **Add Collateral** to capture the collateral details.

The **Collateral Details** screen displays.

2.2.3 Advance against Uncollected Funds

This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.

The Advance against Uncollected Funds data segment displays the configuration required for advance against uncollected fund to be provided to the account.

To add uncollected funds details:

- Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data
- Click **Add AUF Details** to capture the Advance Against Uncollected Funds.

The **Advance against Uncollected Funds** screen displays.

Figure 2-19 Advance against Uncollected Funds

The screenshot shows the 'Advance Against Uncollected Funds Details' screen. The title bar indicates 'Application Enrichment - 006APP000161139'. The left sidebar has options: 'Interest and Charges', 'Advance Against Uncollected Funds' (selected), 'Temporary OD Limit Details', and 'Review'. The main area contains a form with the following fields: 'Limit ID' (Required), 'Limit Amount' (Required), 'Limit Start Date' (Required), and 'Limit End Date' (Required). There is a 'Delete AUF Details' button below the form. At the bottom right, there are buttons for 'Cancel', 'Request Clarification', 'Back', 'Save and Close', and 'Next'.

- Specify the details in the relevant data fields.

Note

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-12 Advance against Uncollected Funds – Field Description

Field	Description
Limit ID	Specify the advance against uncollected funds limit ID.
Limit Amount	Select the currency and specify the AUF limit amount.
Limit Date Range	Select the limit date range.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.2.4 Temporary Overdraft Limit

This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.

The Temporary Overdraft Limit data segment displays the configuration required for temporary overdraft limit to be provided to the account.

To add temporary overdraft limit:

- Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
- Click **Add TOD Details** to capture the Temporary Overdraft Limit Details.

The **Unsecured Temporary Overdraft Limit Details** screen displays.

Note

User can move to the next data segment without capturing the Temporary Overdraft Limit Details.

Figure 2-20 Unsecured Temporary Overdraft Limit Details

The screenshot displays the 'Unsecured Temporary Overdraft Limit Details' screen. The header shows 'Application Enrichment - 006APP000161139'. The left sidebar has a 'Temporary OD Limit De' menu item. The main form area contains the following fields:

- Temporary OD Limit ID: H0D235
- Temporary OD Limit Amount: USD 5,000.00
- Limit Start Date: March 31, 2018
- Limit End Date: October 6, 2025
- Next Renewal Limit: USD 1,000.00
- Renew TOD: A toggle switch is currently turned off.
- Renew Period: A dropdown menu is set to 'Month'.

At the bottom left of the form area, there is a button labeled 'Delete TOD Details'. At the bottom right, there are navigation buttons: 'Cancel', 'Request Clarification', 'Back', 'Save and Close', and 'Next'.

Note

The user can move to the next data segment without capturing the Temporary Overdraft Limit Details.

- Specify the details in the relevant data fields.

Note

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-13 Temporary Overdraft Limit – Field Description

Field	Description
Temporary OD Limit ID	Specify the temporary overdraft limit ID.
Temporary Overdraft Limit Amount	Select the currency and specify the temporary overdraft limit amount.
Limit Start Date	Select the limit start date.
Limit End Date	Select the limit expiry date.
Renew TOD	Select to indicate if temporary overdraft limit is to be renewed.
Renew Period	In case of TOD renewal is allowed, select the period from the drop-down list. Available options are: • Days • Months • Year
Next Renewal Amount	In case of TOD renewal is allowed, specify the renewal amount.

4. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.2.5 Review

This topic provides the systematic instruction to view all the data segments in the Overdraft Limit Details stage.

The system displays the summary of each of the data segments in the given stage.

To view the summary of all the data segments:

1. Click **Next** in the previous data segment screen to proceed with next data segment, after successfully capturing the data.

The **Review** screen displays.

Temporary Overdraft Limit	Displays the temporary overdraft limit.
Advance against Uncollected Funds	Displays the advance against uncollected funds.

2.
- Click **Submit** to reach the **Stage Movement Submission** screen, where the overrides, checklist and documents for this stage are verified.

The **Stage Movement Submission** screen displays.

Figure 2-22 Stage Movement Submission

Stage Movement Submission

Override
No overrides generated for acceptance.

Checklist
No checklists mapped to the current stage.

Outcome

Select an Outcome
Proceed

Remarks

Cancel Submit

In this screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

3. Click **Proceed Next**. The **Checklist** screen is displayed.
Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed to **Stage Movement Submission** screen.
5. In the **Stage Movement Submission** screen, select appropriate option from the **Select to Outcome** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Overdraft Limit Details** stage for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Application Enrichment**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- Select the **Return to Application Entry** to return to application entry stage. The system generates the Application Entry task that appears in **Free Task** to acquire and edit.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Enter the remarks in **Remarks**.
 7. Click **Submit** to submit the Overdraft Limit Details stage.

The confirmation screen appears with the successful submission status and displays the next stage in which the application has moved along with Application Reference Number and the Process Application Reference Number.
 8. Click **Close** to close the window.

OR

Click **Go to Free Task**.

The system successfully moves the Application Reference Number along with the process reference numbers to the Application Enrichment stage.

Note

This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.3 Application Enrichment Stage

This topic describes the information on the various data segments to view and update the required data for the Application Enrichment stage.

Users having functional access to the Application Enrichment stage will be able to view the record in the Free Task process.

To enrich an application:

1. Scan the records that appears in the Free Task list.
2. Click **Acquire and Edit** or **Acquire** from the Action column of the appropriate record. The Application Enrichment stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Interest and Charge](#)
This topic provides the systematic instructions to view the interest applicable for the account.
- [Advance against Uncollected Funds](#)
This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.
- [Temporary Overdraft Limit](#)
This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.

- [Review](#)
This topic provides the systematic instructions to view the tiles for all the data segments in the Application Enrichment stage.

2.3.1 Interest and Charge

This topic provides the systematic instructions to view the interest applicable for the account.

The **Interest and Charge** data segment displays the interest applicable for the account.

1. On acquiring the Application Enrichment task, the Interest and Charge data segment appears.

The **Interest and Charge** screen displays.

Figure 2-23 Interest and Charge

2. Specify the details in the relevant data fields.

Note

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-15 Interest Details - Field Description

Field	Description
Interest Product Name	Displays the interest product name attached to the host product linked with the business product.
Payout Frequency	Displays the payout frequency of the interest product name attached to the host product linked with the business product.
Interest Rate	Displays the interest rate applicable for the account.
Margin (%)	Select the margin in percentage.
Final Rate	Displays the final rate calculated based on the Interest Rate and the Margin specified.

Table 2-15 (Cont.) Interest Details - Field Description

Field	Description
APY (in %)	Displays the annual percentage yield value in percentage. Below is the formula to calculate the APY, Annual Percentage Yield = $(1 + \text{Interest Rate} \div \text{The number of Compounding in a year})^{\text{Number of compounding in a year}} - 1$ This is applicable for the Credit Interest
APR	Display the annual percentage rate value. This is applicable for debit interest.
Charge Description	Displays the charge description.
Amount/Rate	Displays the charge amount.
Waive	Select the toggle to enable the waiving charges.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.3.2 Advance against Uncollected Funds

This topic provides the systematic instructions to view the configuration required for advance against uncollected fund to be provided to the account.

The Advance against Uncollected Funds data segment displays the configuration required for advance against uncollected fund to be provided to the account.

To add uncollected funds details:

- Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data
- Click **Add AUF Details** to capture the Advance Against Uncollected Funds.

The **Advance against Uncollected Funds** screen displays.

Figure 2-24 Advance against Uncollected Funds

The screenshot displays the 'Advance Against Uncollected Funds Details' form within the Oracle Application Enrichment system. The form includes the following fields:

- Limit ID**: Required field.
- Limit Amount**: Required field.
- Limit Start Date**: Required field.
- Limit End Date**: Required field.

A button labeled 'Delete AUF Details' is located below the form fields. The interface also features a top navigation bar with the title 'Application Enrichment - 006APP000161139' and tabs for 'Application Details', 'Application Info', 'Customer 500', and 'Documents'. A left sidebar provides navigation options: 'Interest and Charges', 'Advance Against Uncollected Funds', 'Temporary OD Limit De...', and 'Review'. At the bottom, there are buttons for 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save and Close', and 'Next'.

3. Specify the details in the relevant data fields.

Note

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-16 Advance against Uncollected Funds – Field Description

Field	Description
Limit ID	Specify the advance against uncollected funds limit ID.
Limit Amount	Select the currency and specify the AUF limit amount.
Limit Date Range	Select the limit date range.

4. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.3.3 Temporary Overdraft Limit

This topic provides the systematic instructions to view the configuration required for temporary overdraft limit to be provided to the account.

The Temporary Overdraft Limit data segment displays the configuration required for temporary overdraft limit to be provided to the account.

To add temporary overdraft limit:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
2. Click **Add TOD Details** to capture the Temporary Overdraft Limit Details.

The **Unsecured Temporary Overdraft Limit Details** screen displays.

Note

User can move to the next data segment without capturing the Temporary Overdraft Limit Details.

Figure 2-25 Unsecured Temporary Overdraft Limit Details

Note

The user can move to the next data segment without capturing the Temporary Overdraft Limit Details.

- Specify the details in the relevant data fields.

Note

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-17 Temporary Overdraft Limit – Field Description

Field	Description
Temporary OD Limit ID	Specify the temporary overdraft limit ID.
Temporary Overdraft Limit Amount	Select the currency and specify the temporary overdraft limit amount.
Limit Start Date	Select the limit start date.
Limit End Date	Select the limit expiry date.
Renew TOD	Select to indicate if temporary overdraft limit is to be renewed.
Renew Period	In case of TOD renewal is allowed, select the period from the drop-down list. Available options are: - Days - Months - Year
Next Renewal Amount	In case of TOD renewal is allowed, specify the renewal amount.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.3.4 Review

This topic provides the systematic instructions to view the tiles for all the data segments in the Application Enrichment stage.

The tiles display the important details captured in the specified data segment.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data..

The **Review** screen displays.

In this screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

3. Click **Proceed Next**.

The **Stage Movement Submission - Checklist** screen displays. Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

4. Select the checkbox to accept the checklist.

5. Click **Save and Proceed**.

The **Stage Movement Submission - Outcome** screen displays. For more information on fields, refer to the field description table.

Table 2-19 Stage Movement Submission - Outcome – Field Description

Field	Description
Select an Outcome	Select the option from the drop-down list. The available options are: • Proceed • Return to Overdraft Limit Details • Return to Application Entry • Reject By Bank
Remarks	Specify the remarks, if any.

Outcomes configured in the Workflow Orchestrator for the business process is available in the drop-down list.

6. Click **Submit**.

The **Confirmation** screen displays.

Figure 2-28 Confirmation

If the **Collateral Type** is selected as **Term Deposit** in **Collateral Details** data segment and the **Fund the account** toggle is OFF in the **Product Details** data segment, the submit of the Application Enrichment stage will move the application into the **Account Parameter Setup** stage.

If the selected **Collateral Type** is other than Term Deposit in **Collateral Details** data segment, and the **Fund the account** toggle is OFF in the **Product Details** data segment, the submit of the Application Enrichment stage will move the application into the **Underwriting** stage.

If the **Fund the Account** toggle is ON in the **Product Details** data segment, the submit of the Application Enrichment stage, will move the application to **Account Funding** stage.

On successful submission, the above pop-up appears and displays the next stage in which the application has moved. **Application Reference Number** and the **Process Reference Number** is displayed.

7. Click **Close** to close the window.

OR

Click **Go to Free Task**.

The system successfully moves the application reference number along with the process reference numbers to the Application Enrichment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.4 Account Funding Stage

This topic describes the process of initial funding of an account. In this stage user can provide initial funding details before opening an account.

In this stage user can provide initial funding details before opening an account.

This stage appears only if the **Fund Post Account Opening** toggle is not selected in the **Business Product Preference** data segment of the **Business Product Configuration** screen.

To add funding details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Account Funding** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Initial Funding Details](#)
This topic provides the systematic instructions to view and modify the initial funding details captured in the **Application Entry** stage.
- [Review](#)
This topic provides the systematic instructions to view all the data segments in the Initial Funding stage.

2.4.1 Initial Funding Details

This topic provides the systematic instructions to view and modify the initial funding details captured in the **Application Entry** stage.

The Initial Funding Details data segment displays the Initial Funding details captured in the Application Entry stage. The **Transaction Reference Number** and the **Transaction Status** is either auto-populated or has to be manually captured based on the configuration. Automatic option is supported only for the Initial Funding with Cash mode. Manual process is supported for Account Transfer, Other Bank Check, and Cash mode of initial funding.

Note

For more details on the Modes and the Manual/Automatic Process configuration, refer to the **Configurations User Guide**.

To add initial funding details:

1. On acquiring the **Account Funding** task, the **Initial Funding Details** data segment appears.

The **Initial Funding Details** screen displays.

In this screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

3. Click **Proceed Next**. The **Checklist** screen is displayed.
Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed to **Stage Movement Submission** screen.
5. In the **Stage Movement Submission** screen, select appropriate option from the **Select to Outcome** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Account Funding Stage** for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Underwriting**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- Select the **Return to Overdraft Limit Details** to return to overdraft limit details stage, the system generate the Overdraft Limit Details stage that appears in **Free Task** to acquire and edit.
 - Select the **Return to Application Entry** to return to application entry stage. The system generates the Application Entry task that appears in **Free Task** to acquire and edit.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Enter the remarks in **Remarks**.
 7. Click **Submit** to submit the Initial Funding stage.

The confirmation screen appears with the successful submission status and displays the next stage in which the application has moved along with Application Reference Number and the Process Application Reference Number.
 8. Click **Close** to close the window.

OR

Click **Go to Free Task**.

The system successfully moves the Application Reference Number along with the process reference numbers to the Underwriting stage.

Note

This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.5 Underwriting Stage

This topic describes the information on the various data segments to access the credit rating and capture the required data for the Underwriting stage.

The underwriting process of the lender bank is set to determine if the overdraft application is an acceptable risk. It is a process to assess the borrower's ability to repay the overdraft based on an analysis of their credit, financial capacity, and collateral provided by the borrower.

The Underwriting stage is the next representative stage in the Current Account Open process. After the Application Enrichment / Account Funding stage is completed successfully, the application can be acquired by the user who has the access rights for the given stage and progress with the data capture.

To add underwriting details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Underwriting** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Credit Rating Details](#)

This topic provides the systematic instructions to view the information on the External Rating Agencies Rating / Scores for the Applicant.

- [Valuation Details](#)
This topic provides the systematic instructions to capture the information on the asset valuation done by the bank approved valuator.
- [Legal Opinion](#)
This topic provides the systematic instructions to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.
- [Review](#)
This topic provides the systematic instructions to view the summary of each of the data segments in the Underwriting Stage.

2.5.1 Credit Rating Details

This topic provides the systematic instructions to view the information on the External Rating Agencies Rating / Scores for the Applicant.

Credit Rating Details is the first data segment of **Underwriting** stage. The user can acquire the application from Free Tasks list. If the applicants are more than one, accordingly the information against each applicant / borrower will be provided. The interface with external rating agencies will be provided.

Oracle Banking Originations Cloud Service is now integrated with Bureau Integration Service to fetch the details of the Rating for the given applicant(s). The Bank will have an option to use this integration service or use the manual process of entering the Bureau score in the Credit Rating DS.

1. Click **Acquire and Edit** in the **Free Tasks** for the application for which Underwriting stage has to be acted upon.

The **Credit Rating Details** screen displays.

The fields, which mentioned as Required, are mandatory.

If Oracle Banking Originations Cloud Service is integrated with Oracle Banking Credit Facilities Process Management, the valuation details will be fetched from integration

service and the values will be displayed in the respective fields as read only data. In the absence of Oracle Banking Credit Facilities Process Management integration, the user has to capture the valuation details manually in this data segment.

For more information on fields, refer to the field description table.

Table 2-24 Valuation Details – Field Description

Field	Description
Collateral Description	Displays the collateral description which is added.
Collateral Type	Displays the collateral type which is added.
Category	Displays the category of the collateral which is added.
Collateral Value	Displays the value of the collateral which is added.
Owners	Displays the owner's name of the collateral.
Collateral ID	Displays the Collateral ID.
Collateral Description	Displays the description of the collateral.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Hair Cut %	Displays the Hair cut percentage.
Collateral Amount	Displays the collateral amount.
Valuation Type	Select the type of valuation. Available options are • External • Internal
Valuation Amount	Specify the valuation amount of the collateral.
Agency Code	Specify the agency code.
Agency Name	Specify the name of agency.
Valuation Date	Select the valuation date. Date should not be earlier than the Application Date.
Add Valuation	Click Add Valuation to add valuation details. Add the valuation details if you want to evaluate the collateral.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

2.5.3 Legal Opinion

This topic provides the systematic instructions to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.

Legal Opinion is the next data segment of **Underwriting** stage.

- Click **Next** from the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Legal Opinion** screen displays.

Figure 2-35 Legal Opinion

Legal Remarks	Specify the legal remarks.

Table 2-25 (Cont.) Legal Opinion – Field Description

Field	Description
Opinion Date	Select the opinion date. Date should not be earlier than the Collateral Valuation Date.
Add Opinion	Click Add Opinion to add the legal opinion received from multiple agencies (both internal and external).

Note

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

2.5.4 Review

This topic provides the systematic instructions to view the summary of each of the data segments in the Underwriting Stage.

The system displays the summary of each of the data segments in the given stage.

To view the summary of all the data segments:

- Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Review** screen displays.

Figure 2-36 Review - Underwriting

The screenshot displays the 'Underwriting - 006APP000161169' review screen. The interface includes a top navigation bar with tabs for Application Details, Application Info, Customer 360, Documents, and More. A left sidebar lists navigation options: Credit Rating Details, Valuation Details, Legal Opinion, and Review (which is currently selected). The main content area is divided into three sections: 'Credit Rating Details' for Mrs. Donna J Dalton JR, 'Valuation Details' for Residential Property, and 'Legal Opinion' for Residential Property. Each section contains a table of data points.

Credit Rating Details				
Mrs. Donna J Dalton JR (Primary)				
External Rating Agency	Experian			
External Rating	750			
Equifax	750			

Valuation Details				
Residential Property (Primary)				
Valuation Type	Valuation Amount	Agency Code	Agency Name	Valuation Date
Internal	USD 46,000.00	JPM4545	JP Morgan	March 30, 2018

Legal Opinion				
Residential Property (Primary)				
Opinion Type	Agency Code	Agency Name	Legal Remarks	Opinion Date
Internal	TCS234	JP Morgan	Approved	March 30, 2018

At the bottom of the screen, there are buttons for 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save and Close', and 'Submit'.

For more information on fields, refer to the field description table.

Table 2-26 Review - Underwriting – Field Description

Remarks

Cancel Submit

In this screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

- In case of override, click **Accept Overrides & Proceed** to proceed or click **Proceed**.

The **Checklist** screen appears.

4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed to **Stage Movement Submission** screen.
5. In the **Stage Movement Submission** screen, select appropriate option from the **Select to Outcome** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Underwriting** stage for the application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Assessment**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - Select the **Return to Initial Funding Stage** to make Account Funding Stage available in free task for edit.
 - Select the **Return to Overdraft Limit Details** to make Overdraft Limit Details stage available in free task.
 - Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.
 - Select the **Reject by bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the **Loan Underwriting** stage.

The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**.

The system successfully moves the Application Reference Number along with the process reference numbers to the **Assessment** stage.

Note

This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.6 Application Assessment

This topic describes the information on the various data segments to update the required data and assess the application in the Application Assessment stage.

Users having functional access to the Application Enrichment stage will be able to view the record in the Free Task process.

The Assessment stage enables the bank to assess the Overdraft Limit request of the customer and based on the Assessment Score the User can decide on granting the Overdraft Limit for the Current Account being originated. System derives the recommendation based on the total weightage score. The total weightage score is calculated based on the parameters configured in the Scorecard Model.

Similarly, the Qualitative Score is calculated based on the answers provided to the questionnaire configured in the Qualitative Scorecard ID.

To assess the application details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Application Assessment** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Qualitative Scorecard](#)
This topic provides the systematic instructions to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question/Answer configuration provided for this type of score card.
- [Assessment Details](#)
This topic provides the systematic instructions to view the total weightage score of the Applicant or Applicants, in case of multiple Applicants in the Current Account with Overdraft.
- [Summary](#)
This topic provides the systematic instructions to view the tiles for all the data segments in the Application Assessment stage.

2.6.1 Qualitative Scorecard

This topic provides the systematic instructions to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question/Answer configuration provided for this type of score card.

The relevant qualitative score card ID is attached to the Current Account Business Product and thereby the Current Account inherits the score card attributes for evaluation.

The **Qualitative Scorecard** screen enables the user to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card.

The relevant qualitative score card ID is attached to the Savings Account Business Product and thereby the Current Account inherits the score card attributes for evaluation.

1. On acquiring the **Assessment** task from the Free Task, the **Qualitative Scorecard** screen appears.

The **Qualitative Scorecard** screen displays.

Based on the range of qualitative and quantitative scores, the system provides a suggestive recommendation and the overdraft amount which can be sanctioned.

2.6.3 Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Application Assessment stage.

The Summary displays the tiles for all the data segments in the Application Assessment stage. The tiles display the important details captured in the specified data segment.

To view the captured details:

1. Click **Next in Assessment Details** screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-47 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-29 Summary - Application Assessment – Field Description

Data Segment	Description
Qualitative Scorecard Details	Displays the qualitative scorecard details.
Assessment Details	Displays the assessment details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The Overrides screen is displayed.
 Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.
3. Click **Proceed Next**. The **Checklist** screen is displayed.
 Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.
4. Select the checkbox to accept the checklist. Click **Save & Proceed**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. If the Proceed option is selected, then the application proceeds based on the assessment decision.
 - It will logically complete the **Application Assessment** stage for the saving application if the system recommendation is **Approved**. The Workflow Orchestrator will automatically move this application to the **Account Parameter Setup** stage.
 - If the system recommendation is **Manual** then, the Manual Credit Assessment stage is generated for this saving application.

- If the system recommendation is **Rejected** then the application is terminated. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
 - Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.
 - Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
 - Select the **Return to Overdraft Limit Details** to make overdraft limit details stage available in free task.
 - Select the **Return to Initial Funding Details** to make account funding details stage available in free task.
 - Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
 - Select the **Reject Application** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Enter the remarks in **Remarks**.
 7. Click **Submit**. The **Confirmation** screen is displayed.
On successful submission the above pop-up appears and displays the next stage in which the application has moved. Application Reference Number and the Process Reference Number is also displayed. Click on '**Close**' to close the pop-up screen. Alternatively click on '**Go to FreeTask**' to launch the **Free Task** menu. If you have access to the next stage, you would be able to view the Application number and take action on it.
 8. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Manual Credit Assessment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.7 Manual Credit Assessment Stage

This topic describes the information on the various data segments to assess the application manually in the Manual Credit Assessment stage.

The Manual Credit Assessment stage of the Current Account (with overdraft) opening process workflow will enable the bank to manually assess the application and provide the recommendation for the approval / rejection of the application. As a reference, the relevant completed data segments will be made available to the Approver before the application can be moved to the next stage. These completed data segments are from Underwriting Stage. The data segments are displayed in view only mode for the Credit Officer to analyze.

To capture manual assessment details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Manual Assessment** stage is displayed.

The Manual Assessment stage has the following data segments in which the user can only view the data:

- **Credit Rating Details:** - For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Underwriting stage.

Refer below chapters for detailed information on data segment that are editable.

- [Manual Assessment](#)
This topic provides the systematic instructions to modify the account details and recommend for the approval / reject the Current Account application.
- [Summary](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.7.1 Manual Assessment

This topic provides the systematic instructions to modify the account details and recommend for the approval / reject the Current Account application.

Manual Assessment is the data segment which enables the bank user to modify the account details and recommend for the approval / reject the saving account application. The user can acquire the application from Free Tasks list and assess all the View Only data segments.

1. On acquiring the **Manual Credit Assessment Stage** from **Free Tasks** or clicking **Next** from the previous data segment, the **Manual Assessment** screen is displayed.

Figure 2-48 Manual Assessment

2. Specify the fields on **Manual Assessment** screen.

For more information on fields, refer to the field description table. Refer to **Assessment Details** screen for the detailed explanation of Validation Model, Borrowing Capacity, Qualitative Score, Quantitative Score, Decision & Grade and Pricing tabs.

- Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.
- Click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.
- Click **Save & Proceed**. The **Outcome** screen is displayed.
- In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.

6. Select **Proceed** outcome from the drop-down list.

It will logically complete the **Manual Credit Assessment** stage for the Saving Account (with overdraft) Application. The workflow will automatically move this application to the next processing stage, **Manual Credit Decision** stage.

The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

7. Enter the remarks in **Remarks**.
8. Click **Submit** to submit the manual credit assessment. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
9. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Current Account] to the Manual Credit Decision stage. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.8 Manual Credit Decision Stage

This topic describes the information on the various data segments to review and approve the application manually in the Manual Credit Decision stage.

Manual Credit Decision stage of the current account (with overdraft) opening process workflow will enable the bank to make the decision on whether the recommended overdraft limit can be approved to the applicant.

To capture manual credit decision details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Manual Credit Decision** stage is displayed.

The Manual Credit Decision stage has the following data segments in which the user can only view the data:

- **Account Details** - For detailed information, refer the Account Details data segment in the Application Entry stage.
- **Customer Information** – For detailed information, refer the Customer Information data segment in the Application Entry stage.
- **Financial Details**: - For detailed information, refer the Financial Details data segment in the Application Entry stage.
- **Credit Rating Details**: - For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Underwriting stage.
- **Manual Assessment** – For details information, refer the Assessment Details data segment in the Manual Credit Assessment stage.

Refer below chapters for detailed information on data segment that are editable.

- [Manual Decision](#)
This topic provides the systematic instructions to review and approve the application manually in Manual Credit Decision stage.

Cancel Submit

In this screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

3. In case of override, click **Accept Overrides & Proceed** to proceed or click **Proceed**.
The **Checklist** screen appears.
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed to **Stage Movement Submission** screen.
5. In the **Stage Movement Submission** screen, select appropriate option from the **Select to Outcome** field.
 - Select the **Proceed** to proceed with the application. It will logically complete the Manual Credit Decision stage for the Saving Account (with overdraft) Application. Upon submit, a Pricing call will be made by Oracle Banking Originations Cloud Service

to Decision Service to get the Interest rate. The Workflow Orchestrator will automatically move this application to the next processing stage, Account Parameter Setup stage. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.

- Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.
 - Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
 - Select the **Return to Assessment** to make overdraft limit details stage available in free task.
 - Select the **Return to Initial Funding Details** to make account funding details stage available in free task
 - Select the **Return to Overdraft Limit Details** to make overdraft limit details stage available in free task.
 - Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
 - Select the **Return to Manual Credit Assessment Stage** to make underwriting stage available in free task. It will logically complete the **Manual Credit Assessment** stage for the Current Account (with overdraft) Application. The workflow will automatically move this application to the next processing stage, **Manual Credit Decision** stage.
6. Click **Submit** to submit the **Manual Credit Decision** stage.
- The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**.

The system successfully moves the Application Reference Number along with the process reference numbers to the Account Parameter Setup stage.

Note

This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.9 Account Parameter Setup Stage

This topic describes the information on the various data segments to setup the required account parameters in the Account Parameter Setup stage.

The Account Parameter Setup stage is the next representative stage in the Saving Account Open process. After the Application Assessment or Manual Credit Decision stage is completed successfully, the user who has the access rights for the given stage, can acquire the application and progress with the data capture. The user can acquire the application from Free Tasks list.

The **Account Parameter Setup** stage has the following reference data segments:

- **Interest and Charge** – This data segment is editable. For detailed information, refer the Interest Details data segment in the Application Enrichment stage.
- **Advance against Uncollected Funds** - This data segment is editable. For detailed information, refer the Advance against Uncollected Funds data segment in the Overdraft Limit stage.
- **Temporary Overdraft Limit**- This data segment is editable. For detailed information, refer Temporary Overdraft Limit data segment in the Overdraft Limit stage.
- **Account Limit Details** - This data segment is ready only. For detailed information, refer Account Limit Details data segment in the Overdraft Limit stage.

All the data segments are carried forward from Application Enrichment stage. If the details are captured in Application Enrichment stage, the same will be fetched automatically. The user can modify the captured details and all the data segments are mandatory to capture the details to move the application to the next stage.

- [Review](#)

This topic provides the systematic instruction to view all the data segments in the Account Parameter Setup stage.

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-36 Summary - Pricing Change Approval – Field Description

Data Segment	Description
Pricing Change Approval	Displays the pricing change approval details.

- Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Overrides** screen is displayed.
- Click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.
- Click **Save & Proceed**. The **Outcome** screen is displayed.
- In the **Outcome** screen, select appropriate option from the Select to Outcome field.
- Select **Proceed** outcome from the drop-down list. It will logically complete the **Supervisor Application Approval** stage for the Saving Application. The Workflow Orchestrator will automatically move this application to the next processing stage.

If the Supervisor has approved the price change, submit of this stage, will move the application to **Offer Issue** stage.

If the Supervisor has rejected the price change, the application will be routed back to **Account Parameter Setup** stage.

The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

7. Click **Submit**. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
8. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the **Offer Issue Stage** for Individual Customers. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.11 Offer Issue Stage

This topic describes the information on the various data segments to generate the offer in the Offer Issue stage.

After due diligence and Account Parameter setup, the Application will move to the Offer issue stage where the user will generate the offer letter. As a reference, the relevant completed data segments will be made available to the user before the application can be moved to the next stage. These completed data segments are from the Application Underwrite Stage and Application Assessment Stage. The data segments are displayed in view only mode for the user to browse.

In the Offer Issue stage, provide the required details under each data segment. The Offer issue stage has the following reference data segments:

- **Credit Rating Details:** - For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Underwriting stage.

Refer below chapters for detailed information on data segment that are editable.

- [Assessment Summary](#)
This topic provides the systematic instructions to view the assessment summary of the Savings Account application.
- [Document Generation](#)
In this data segment, user can generate and dispatch the documents that are configured.
- [Review - Offer Issue](#)
This topic describes systematic instructions to view all the details of offer issue.

2.11.1 Assessment Summary

This topic provides the systematic instructions to view the assessment summary of the Savings Account application.

Assessment Summary is the view only data segment of Offer Issue stage.

1. Click **Acquire and Edit** in the **Free Tasks** screen for the application for which Account Approval stage has to be acted upon.

The **Assessment Summary** screen displays.

Figure 2-57 Assessment Summary

Offer Issue - 006APP000161169

Application Details

Requested Amount: USD 40,000.00

Tenure: 7 Years 6 Months 15 Days

Interest Rate

Interest Description	Interest Rate (%)	Rate Type	Margin / Variance (%)	Effective Rate (%)
Collateral	8.25	Floating	1.35	9.6

Auto Decision Details

Approved Amount: USD 40,000.00

System Recommendation: Approved

Total Weighted Score: 96.08

Manual Decision: -

Grade: A

Buttons: Cancel, Request Clarification, Back, Save and Close, Next

- The user can view the details in the relevant data fields.

Note

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-37 Assessment Summary – Field Description

Field	Description
Requested Amount	Displays the requested overdraft amount.
Tenure	Displays the tenure.
Base Rate	Displays the base rate.
Margin	Displays the variance rate. This field appears only for Floating rate type.
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the final approved overdraft amount.
Proposed Margin	Displays the proposed variance. This field appears only for Floating rate type.
Effective Rate	Displays the effective rate of interest.
System Recommendation	Displays the system recommendations.
Grade	Displays the grade of the applicant.
Manual Decision	Displays the manual decision.

Note

Before generating the offer letter, the system fetches the most recent interest rate and updates in the **Interest and Charges** data segment accordingly. This ensures that the offer letter and the overdraft application reflect accurate information.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.11.2 Document Generation

In this data segment, user can generate and dispatch the documents that are configured.

In the Document Generation data segment, the list of documents that are maintained within the document generation event and fulfills the rule criteria are pre-populated in the tabular format. This document generation events are defined in the **Advice Maintenance** screen. Each documents appears separately to generate and dispatch.

To generate and dispatch the document:

- On acquiring the **Offer Issue** task from the FREE task.

The **Document Generation** screen displays.

Figure 2-58 Document Generation

- In the **Document Generation** section, select the check box to select the document from the list. It is mandatory to select at least one document

Perform the below actions on the selected document:

- Generate:** User can click this button to generate the selected document. On clicking this button the system invokes a call to the report generation service which generates a PDF output for the advice configured in the **Advice Maintenance** screen. Once the output is generated the documents are stored in the document managed service (DMS) along with the reference ID. This reference ID fetches the document on click the Generate Document link in the Document column.
- Dispatch:** User can click this button to dispatch the selected generated documents. User can only dispatch those documents which are not already dispatched. On clicking this button the system validates whether the document is already generated. Once the validation is successful the system dispatch the document to the default setting defined in the **Advice Maintenance** screen.
- Reset:** Click this button to reset the action performed on the document.

For more information on fields, refer to the field description table.

Table 2-38 Document Generation – Field Description

Field	Description
Document Name	Displays the name of document. Click the link to fetch the document from the stored service and view the PDF output of the document. This link appears only if the document is generated.
Receiving Party	Displays the name of the applicant along with the role. The document is generated and dispatched to the applicants mentioned in this column. The name appears as captured in the Applicant data segment. If the primary or joint applicant is minor, the guardian or custodian name will display as the receiving party associated with the minor applicant.
Delivery Mode	Displays the default mode of delivery of the documents. This default mode of delivery is defined in the Advice Maintenance screen.
Delivery Details	Displays the delivery details of the generated documents based on the default delivery mode. - If the delivery mode is Email or e-Sign Remote then the preferred email address of every recipient is displayed. - If the delivery mode is Post then the preferred address of every recipient is displayed. - If the delivery mode is e-Sign In-Person then the link is shared with every recipients and in this case the status appears as Pending For Link Generation. Once the dispatch event is executed successfully, the status appears as Link Generated. - If the delivery mode is Print then the Not Applicable text appears.
Status	Displays the status of the documents based on the actions performed on clicking Generate or Dispatch button. Once the dispatch process is initiated for the generated documents, the status appears based on the selected default mode of delivery. - If the mode of delivery is Email then on the successful trigger the status appears as Email Sent. - If the mode of delivery is E-Sign Remote or E-Sign In-Person then on the successful trigger the status appears as E-Signing Initiated. - If the mode of delivery is Post then on the successful trigger the status appears as Dispatched. - If the mode of delivery is Print then on the successful trigger the status appears as Ready for Print. - In case the dispatch process fails due to technical error then the status appears as Failed.
Status Details	Displays the status details of the document. Click the icon to view the generation and dispatched details of document along with the date and time.
Action	Select the appropriate icon to perform respective action. - Click  to edit the delivery mode. - Click  to save the edited delivery mode. This icon appears once user are edit mode.

Note

The generated offer letter displays the latest interest and charge rates that align with the overdraft application.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.11.3 Review - Offer Issue

This topic describes systematic instructions to view all the details of offer issue.

The system will display the summary of each of the data segments in as many sections as the number of data segments in the given stage.

To view the summary of all data segments:

- Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Review - Offer Issue** screen displays.

Figure 2-59 Review - Offer Issue

For more information on fields, refer to the field description table.

No overrides generated for acceptance.

Checklist
No checklists mapped to the current stage.

Outcome

Select an Outcome
Proceed

Remarks

Cancel Submit

In this screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

- In case of override, click **Accept Overrides & Proceed** to proceed or click **Proceed**.

The **Checklist** screen appears.

4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed to **Stage Movement Submission** screen.
5. In the **Stage Movement Submission** screen, select appropriate option from the **Select to Outcome** field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the Offer Issue stage for the Overdraft Application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Offer Accept/Reject**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - Select the **Return to Application Entry** Stage to make application entry stage available in free task for edit.
 - Select the **Return to Application Enrichment** Stage to make enrichment stage available in free task.
 - Select the **Return to Application Underwriting** Stage to make underwriting stage available in free task.
 - Select the **Reject Application** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit offer issue stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Overdraft] to the Application **Offer Accept / Reject** stage.

Note

This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.12 Offer Accept / Reject Stage

This topic describes the information on the various data segments to accept / reject the offer in the Offer Accept / Reject stage.

After the Offer Issue stage, the offer letter will be sent or communicated to the borrower or applicant. The **Offer Accept / Reject** stage will enable the user to record the customer response – Accept or Reject as the case may be. Also, the offer made can be amended based on Customer request – viz., change in Principal Amount, Interest Rate or Tenure. The post offer amend can be routed back to the relevant previous completed stages like Application Enrichment stage. If the business wants the Underwriting stage or the Application Assessment stage to be redone, they can be configured accordingly, post which the new offer with the revised terms will be issued to the borrower or applicant for acceptance.

To perform actions on issued offer:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Offer Accept /Reject** stage is displayed.

In the Offer Accept / Reject stage, provide the required details under each data segment. The Offer Accept / Reject stage has the following data segments which user can only view:

- **Offer Issue** - For detailed information, refer the Offer Issue data segment in the Offer Issue stage.
- **Assessment Summary** - For detailed information, refer the Assessment Summary data segment in the Offer Issue stage.

Refer below chapters for detailed information on data segment that are editable.

- [Document Acceptance](#)
In this data segment you can capture the acceptance of the documents that are already generated and dispatched.
- [Review - Offer Accept / Reject](#)
This topic provide the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.12.1 Document Acceptance

In this data segment you can capture the acceptance of the documents that are already generated and dispatched.

The Document Acceptance data segment populates the list of documents that appeared in the **Document Generation** data segment and are mark as **Yes** in the **Acceptance** field in the **Advice Maintenance** screen.

If the document is marked as **No** in the Acceptance field in the **Advice Maintenance** screen then the e-sign acceptance process in not required for that document and hence it will not appear in this data segment.

To accept the document:

1. Click **Next** in previous data segment screen to proceed with the next data segment, after successfully capturing the data.

The **Document Acceptance** screen appears.

Figure 2-61 Document Acceptance

The screenshot shows the 'Document Acceptance' screen for Offer ID 006APP000161169. The screen has a sidebar with 'Assessment Summary', 'Document Acceptance' (selected), and 'Review'. The main area displays a table of documents for acceptance.

Document Name	Receiving Party	Delivery Mode	Delivery Details	Status	Status Details	Action
RPM-CADD Offer Issue Generated Document	Donna J Dalton	Primary	Email	krishnadass.r.pai@oracle.com	Pending for Acceptance	[Icon]

User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.13.2 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in **Post Offer Amendment** screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-65 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-43 Summary - Post Offer Amendment – Field Description

Data Segment	Description
Offer Issue	Displays the offer issue details.
Post Offer Amendment	Displays the post offer amendment details.

2. Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Override** screen is displayed.
3. Accept Overrides and click **Proceed Next**. The **Checklist** screen is displayed.
4. Click **Proceed Next**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the **Post Offer Amend** stage for the Overdraft Application. The Workflow Orchestrator will automatically move this application to the next processing stage. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- If there is any change in **Approved Amount** and/or in **Limit Date Range**, then submit of this stage, will move the application to the **Application Assessment** stage.
 - If the changes are only in the **Rate of Interest** (Pricing), then submit of this stage, will move the application to the **Supervisor Application Approval** stage.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Enter the remarks in **Remarks**.
 7. Click **Submit** to submit the Post Offer Amendment stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 8. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.14 Application Approval Stage

This topic describes the information on the various data segments to view the captured details and approve the application in the Application Approval stage

Users having functional access to the Account Approval Stage will be able to view the record in the Free Task process.

The Account Approval Stage comprises of all the data segment of the previous stages. Since the data segment are in view only mode and have been completed in the previous stages, the Account Approval stage is launched with Collateral Perfection Details data segment.

To approve an account opening:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Account Approval stage is displayed.

The Account Approval stage has the following data segments which user can only view:

- **Applicants** – For detailed information, refer the Applicants data segment in the Application Entry stage.
- **Account Details** - For detailed information, refer the Account Details data segment in the Application Entry stage.
- **Mandate Details** – For detailed information, refer the Mandate Details data segment in the Application Entry stage.
- **Nominee Details** – For detailed information, refer the Nominee Details data segment in the Application Entry stage.
- **Stake Holder Details** – For detailed information, refer the Stake Holder Details data segment in the Application Entry stage.
- **Financial Details**: - For detailed information, refer the Financial Details data segment in the Application Entry stage.

- **Terms and Conditions** – For detailed information, refer the Terms and Conditions data segment in the Application Entry stage.
- **Interest and Charges**: For details information, refer the Interest and Charges data segment in the Application Enrichment stage.
- **Account Limit Details**: For details information, refer the Account Limit Details data segment in the Overdraft Limit Details stage.
- **Temporary OD Limit Details**: For details information, refer the Temporary OD Limit Details data segment in the Overdraft Limit Details stage.
- **Advance against Uncollected Funds**: For details information, refer the Advance against Uncollected Funds data segment in the Overdraft Limit Details stage.

Supervisor can verify the KYC Verification status of the Customer from the Customer 360 in the Header. Only if the KYC Status is **Success** will the application be allowed to proceed further. Click **Submit** to submit the **Account Approval** stage and proceed to submit the Account Opening request to Host.

- Click **Submit** to reach the **Stage Movement Submission** screen, where the overrides, checklist and documents for this stage are verified.

The **Stage Movement Submission** screen displays.

Figure 2-69 Stage Movement Submission

Stage Movement Submission

Override
No overrides generated for acceptance.

Checklist
No checklists mapped to the current stage.

Outcome

Select an Outcome
Proceed

Remarks

Cancel Submit

In this screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

3. In case of override, click **Accept Overrides & Proceed** to proceed or click **Proceed**.
The **Checklist** screen appears.
4. Select the checkbox to accept the checklist.
5. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed to **Stage Movement Submission** screen.
6. In the **Stage Movement Submission** screen, select appropriate option from the **Select to Outcome** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. If the Proceed option is selected, then the application proceeds based on the assessment decision.
 - Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.

- Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
 - Select the **Return to Overdraft Limit Details** to make overdraft limit details stage available in free task.
 - Select the **Return to Initial Funding Details** to make account funding details stage available in free task.
 - Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
7. Enter the remarks in **Remarks**.
 8. Click **Submit** to submit the **Account Approval** stage.

Note

Collateral will be linked to loan account while sending to the Host.

The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number. the Workflow Orchestrator will automatically move this application to the next processing stage, **Account Create on Host** which has been automated. The account will be successfully created in Product Processor, if all the required validation is successful.

In case due to any error the account creation is rejected on Product Processor side, the application moves to the **Manual Retry Stage**

2.15 Manual Retry Stage

This topic describes the information on the various data segments on the Manual Retry stage.

As mentioned earlier, this stage appears in the Free Task only if the Savings Account creation has been rejected by Product Processor and the User has the required access rights for the same.

The Manual Retry Stage comprises of the below data segment:

- Manual Retry Data Segment

Manual Retry Data Segment

Click **Acquire and Edit** in the **Free Tasks** screen for the application for which Manual Retry stage has to be acted upon.

2.16 Account Funding

This topic describes the process of initial funding of an account. This stage appears once the account is opened.

In this stage you can initiate fund for an account post account opening. This stage appears if the **Fund Post Account Opening** toggle is selected in the **Business Product Preference** data segment of the **Business Product Configuration** screen.

To add funding details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire** and **Edit** or **Acquire** from the **Action** column of the appropriate record. The **Account Funding** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Account Funding Details](#)
This topic provides the systematic instructions to add the funding details post opening account is complete.
- [Summary](#)
This topic provides the systematic instructions to view the tiles for all the data segments in the Account Funding stage

2.16.1 Account Funding Details

This topic provides the systematic instructions to add the funding details post opening account is complete.

In this data segment you can provide funding details to fund already created account. The Account Number and Account Name appears in the respective fields.

To add funding details:

1. On acquiring the **Account Funding** task, the **Account Funding Details** data segment appears

The **Account Funding Details** screen displays.

Figure 2-70 Account Funding

The screenshot shows the 'Account Funding Details' screen. The title bar indicates the application is 'Account Funding - 006APP000005365'. The main window has a sidebar with 'Account Funding Details' and 'Review'. The main area displays 'Account Funding Details' with 'Account' 0060000003570 - MR Matt Chappell. A 'Funding Mode' dropdown menu is set to 'Fund Later'. The bottom of the screen has buttons: 'Audit', 'Cancel', 'Request Clarification', 'Save and Close', and 'Next'. The top right corner shows 'Screen(1/2)'.

2. From the **Funding Mode** list, select the appropriate option.

The fields appears based on the selected funding mode.

Figure 2-71 Account Funding Details with All Fields

The screenshot shows the 'Account Funding Details' screen. At the top, there's a title bar with 'Account Funding - 006APP000012648'. Below it, a navigation bar includes 'Application Details', 'Application Info', 'Customer 360', 'Documents', and a 'More' dropdown. The main area is divided into two sections: 'Account Funding Details' and 'Review'. The 'Account Funding Details' section contains the following fields: 'Account' (006000007269 - MRS Donna M Wills), 'Funding Mode' (Own Internal Account), 'Value Date' (March 30, 2018), and 'Funding Amount' (USD 100.00). There is an 'Initiate Transfer' button. The 'Review' section is currently empty. At the bottom, there are buttons for 'Cancel', 'Request Clarification', 'Save and Close', and 'Next'.

These fields does not appear if the **Funding Mode** is selected as **Fund Later**.

- Specify the details below in the respective fields.

Note

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-47 Account Funding Details – Field Description

Field	Description
Account	Displays the generated account number for which the initial funding is credited along with the primary account holder name.
Funding Mode	Specify the funding mode from the drop-down list. The available options are: • Own Internal Account • Fund Later • External Account (Finicity) The options in this list appears based on Business Product Configuration screen.

2.17.7 Conditions and Covenants

This topic provides the systematic instructions to add or edit conditions and covenants details for the loan applications.

Conditions

The Conditions are stipulations and constraints recorded in a contract to restrict the usage of funds, in order to ensure proper utilization of funds for the specified purposes and to adhere to a stipulated schedule.

Covenants

Often there are restrictions on borrowers while extending credit facilities. Sometimes, a borrower promises certain future acts to assure the lender that the conduct of business dealings is fair, healthy and in accordance with the best practices. The purpose of covenant is to assist the lender to ensure the health of loan facilities does not deteriorate suddenly or unexpectedly before maturity.

To add conditions:

1. From the **More** option, click the **Conditions & Covenants** to add or remove the conditions details.

The **Conditions & Covenants** page appears.

Table 2-51 (Cont.) Conditions – Field Description

Field	Description
Status	Select the status of the condition. The available options are • Open • Complied
Actions	User can perform below actions on the added record: • Click  to save the record. • Click  to delete the record.

- Click **OK**. The conditions are saved.

 Note

All the fields appears with the selected options in tabular format. User can edit the details on clicking the added row.

- Perform the following actions:
 - Click **Add Condition** to add new conditions.
 - Click **Remove** to remove already added conditions.
- Enter the relevant details.

Table 2-52 Covenants – Field Description

Field	Description
Entity	Select the entity on which user wants to set covenants. The available options are • Party • Collateral • Account
Entity ID	Select the entity ID from the list. The options in the list appears based on the entity selected in the Entity field.
Covenants	Specify the covenants for the selected entity.
Type	Select the type when the covenants must be complied. The available options are • Financial • Reporting • Undertaking
Status	Select the status of the covenants. The available options are • Open • Complied
Monitoring Type	Select the monitoring type for the covenant. The available options are: • Fixed • Periodic • Ongoing

Table 2-52 (Cont.) Covenants – Field Description

Field	Description
Actions	User can perform below actions on the added record: - Click  to save the record. - Click  to delete the record.

- Click **OK**. The covenants are saved.

 Note

All the fields appears with the selected options in tabular format. User can edit the details on clicking the added row.

- Click  to close the screen.

2.17.8 Clarification Details

This topic describes the detailed information to request for clarifications.

To add the clarification details:

- Click **Clarification Details** to raise a new customer clarification request or view the existing request.

The **Clarification** screen appears.

Figure 2-80 Clarification

- Click **Request Clarification** button to request new clarification.

The **Request Clarification** screen appears.

Figure 2-81 Request Clarification

3. In the **Request Clarification** screen, specify the subject and description.
4. Click **Add Document** button to upload the document which supports the clarification request.
5. Specify the details in the relevant data fields while adding documents. For more information on fields, refer to the field description table.

Table 2-53 Upload Document – Field Description

Field	Description
Type	Select the document type.
Code	Select the document code.
Title	Specify the document title.
Description	Specify the description for the document.
Remarks	Specify the remarks for the document.
Expiry Date	Select the document expiry date.
Details	Click the details icon to view below details of the documents: • Uploaded Time: Displays the uploaded date and time of the document in hours and minutes. • Uploaded By: Displays the user name who uploaded the document. • Stage Uploaded: Displays the stage name on which the document is uploaded.
Document	Click  to select the document from machine to upload. User can remove the uploaded document before saving the record from the Action column. Post saving the record, user must delete the record to remove the document. Below actions are perform on the uploaded document • Click Preview to view already uploaded document. • Click Download to download already uploaded document.

Table 2-53 (Cont.) Upload Document – Field Description

Field	Description
Actions	User can perform below actions on the added record: - Click  to save the record. - Click  to delete the record.

6. Once the details are updated, click **Save**.

Clarification Request once raised moves the application to **Awaiting Customer Clarification** state. The application continues to be assigned to the user who had raised the request. All the applications for which the specified user has requested clarification can be viewed and actioned from the **Awaiting Customer Clarification** sub-menu available under **Task** menu.

7. Select the application from the **Awaiting Customer Clarification** sub-menu available under the **Task** menu.
8. Click the **Clarification Details** from the header.
9. Select the specific clarification to take action on it.

Allowed actions are as following:

- **Respond**
- **Accept Clarification**
- **Withdraw Clarification**

Once the Clarification is either withdrawn or accepted, the application moves back to the **My Task** sub-menu available under **Task** menu, post which the user can edit the application and submit the specified stage. Clarification once raised and actioned are available throughout the application processing by the other users working on the other stages of the application by clicking on **Clarification Details** from the header.

2.17.9 Solicitor Details

You can add the solicitor details using this section.

A solicitor is a legal practitioner who traditionally deals with most of the legal matters in some jurisdictions. A person must have legally-defined qualifications, which vary from one jurisdiction to another, to be described as a solicitor and enabled to practice there as such.

In this section, user can add or remove the solicitor and also view the already added solicitor.

To add solicitor details:

1. From the **More** option, click the **Solicitor** to add or remove or edit the already added solicitor.

The **Solicitor Details** page displays.

Simplified Application

This topic describes the concept and process of single stage application.

What is Simplified Application?

The Simplified Application is introduced to open an account in a smooth single process culminating the long account opening process. In this process the user can directly create and application and update details with multiple data segments in a single view.

How to configure Simplified Application for a product?

To enable a simplified account opening process, select the **Simplified Application** flag in the **Business Product Preference** data segment of the **Business Product Configuration** screen.

Once the product is configured for simplified application, the user can configure the business process such as stages, data segments, document checklist and so on, in the **Business Process Configuration** screen.

How to process the simplified application?

After configuring the product and process, the user can initiate a single-stage application by navigating the menu. Below is the detailed process for opening an account using a simplified application.

To open an account using simplified application process:

1. From the **Menu**, select the **Retail Origination**. The Retail Origination menu appears.
2. From the **Retail Origination**, select the **New Application**. The New Application page appears with list of product types which are configured.
3. Select the appropriate product and click **Apply**.
The Application Entry stage appears. The data segments in this stage appears based on the business process configuration.
 - **Applicant:** In this data segment user can capture applicant details such as basic, address, signature, employment, identification. Multiple applicants are allowed with different roles. Refer to the **Applicant** data segment from the **Application Entry** stage of this guide.
 - **Account Details:** In this data segment user can capture the product details to configure the account. Refer to the **Account Details** data segment from the **Application Entry** stage of this guide.
 - **Nominee Details:** In this data segment user can capture the nominee details. Refer to the **Nominee Details** data segment from the **Application Entry** stage of this guide.
 - **Interest and Charges:** In this data segment user can view the interest and charges that are applicable. Refer the **Interest and Charges** data segment from the **Application Entry** stage of this guide.
 - **Term and Conditions:** In this data segment user can capture the term, conditions and consents of the customer. Refer the **Term and Conditions** data segment from the **Application Entry** stage of this guide.

- **Review:** In this data segment user can review all the details that are captured on clicking on each data segment tile.
4. On submitting the Application Entry stage, next stage is triggered based on the business process configuration.
 5. After completing the Know Your Customer (KYC) process, the account number is generated and application proceed to approval stage. The Account Approval stage is generated. All the data segments of the Application Entry stage appears. The user can only view those stages. The Approval Details data segment is enabled to capture account approval status. For more information refer the **Approval Details** data segment of the **Account Approval** stage in this guide.
 - If the Rejected option is selected in the Approval Details data segment then this application is terminated.
 - If the Approved option is selected in the Approval Details data segment then the application's payload are proceed for account creation.
 6. An account is created on approving the application in the **Account Approval** stage.
 7. Below tasks are also generated in this process:
 - If the system fails, the Free Task generates the **Handoff Retry** task. With the necessary access rights, the user can pick up such tasks, take the necessary action on the Failure reason, and then resubmit to the Host.
 - If the business process is configured to include Account Funding, then the **Account Funding** stage is generated after account creation.

Instant current account Origination Process

This topic describes the information about Instant current account Origination Process.

Additional Instant Business Process is available wherein various stages in the Reference Flow for current account have been automated.

This allows Instantaneous Account origination from Self-Service Channel such as Oracle Banking Digital Experience for existing Customer who are KYC Compliant and New Customers for whom KYC is completed in Oracle Banking Digital Experience. KYC Type supported for the STP is Identification and Address only and the same has to be configured in Oracle Banking Party Module.

Note

Refer the **Retail Onboarding User Guide** for more details.

Based on whether the Application has been initiated by self-service channel or by a Branch personnel the automatic submission of the stages or skipping of the stages are done by the system.

This process is not applicable for Small and Medium Business customers.

Prerequisite:

- For the automatic submission to work, it is expected that document and checklist are not configured in any of the stages.
- Initial Funding is either not taken for the Account or taken as Account Transfer for which the mode configured has to be **H** which represents that the selected Account will be debited by the Host as part of the Account Opening Process (Allowed for both Self-Service Channel and Branch Initiated Applications) or Initial Funding is taken through External Bank Account Transfer on self-service channel (This mode is not allowed for Branch Initiated Applications).

Note

For more details, refer to **Initial Funding Configuration** topic in the **Configurations User Guide**.

In the Instant current account Origination Reference Business Process, the stages that have been configured are mentioned below.

- **Application Entry Stage:** On successful submission of the current account Application from self-service channel, the system starts the **Application Entry** stage without any manual intervention and completes the Data Segment level validation. On successful completion of the validation, the system automatically submits the **Application Entry** Stage. Similarly, for the Branch initiated Application also this stage is automatically submitted, if the data segment configured for Application Entry stage are updated in the **Application**

Initiate Stage itself by clicking the **Application** button in the **Product Details** data segment.

- **Account Funding Stage:** On successful submission of the **Application Entry** Stage, system checks if initial funding has been updated for the Account Opening or not.
 - The initial funding mode allowed for self-service initiated applications are External Bank Account Transfer and Account Transfer.
 - If the Initial Funding has been taken for the Account through the External Bank Account Transfer in the self-service channel, the system starts the **Application Funding** Stage and validates the **Initial Funding Details** data segment and submits the **Application Funding Stage** automatically.
 - For Application where the **Initial Funding** is updated as Account Transfer or where no funding has been taken for the Account, this stage is skipped completely by the system for Application initiated from Self-Service Channel and Branch Initiated Applications.
 - For the Branch Initiated Applications wherein the Initial Funding has been taken in Cash or Other Bank Cheque, this stage has to be manually actioned by the Branch User having access permission for this stage.
- **Handoff Retry:** Application moves to this stage and appears in the Free Task only if the current account creation has been rejected by Product Processor. User having the required access rights can pick such task and can retry submission to Host after taking required actions on the Failure reason.
