Preface

- [Purpose](#)
- [Audience](#)
This document is intended for the following audience:
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Structure](#)
This manual is organized into the following chapters:
- [Conventions](#)
- [Related Documents](#)
- [Screenshot Disclaimer](#)
- [Acronyms and Abbreviations](#)
- [Basic Actions](#)
- [Symbols and Icons](#)

Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service **Drawing Under Transfer LC - Islamic** process.

Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description
OBTFPM	Oracle Banking Trade Finance Process Management
LC	Letter of Credit
BC	Bankers Cheque
FX	Foreign Exchange
CCY	Currency

1

Oracle Banking Trade Finance Process Management Cloud Service

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service process.

Welcome to the Oracle Banking Trade Finance Process Management Cloud Service User Guide. This guide provides an overview on the OBTFPMCS application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPMCS:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

Oracle Banking Trade Finance Process Management Cloud Service is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. Oracle Banking Trade Finance Process Management Cloud Service enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

Oracle Banking Trade Finance Process Management Cloud Service helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPMCS allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

2

Drawing Under Transfer LC - Islamic

This process illustrates the Drawing Under Transfer LC handled in Oracle Banking Trade Finance Process Management Cloud Service.

This process is triggered when Documents Under the Transferred LC are received at first Beneficiary Bank to the Second Beneficiary Bank.

The various stages involved for Drawing Under Transferred LC are:

1. Receive and verify documents and Input Drawing details
2. Upload of related mandatory and non-mandatory documents.
3. Verify/capture details and check documents for Discrepancies-Scrutiny Stage
4. Input/Modify details of Drawing - Data Enrichment stage
5. Check for limit availability if applicable.
6. Check balance availability for amount block
7. Check for sanctions & KYC status Earmark limits/Create amount block for cash margin/charges if applicable
8. Capture remarks for other users to check and act
9. Hand off request to back office

The Islamic Drawing Under Transferred LC process flow is similar to that of conventional Drawing Under Transferred LC process flow.

This topic contains following subtopics:

- [Common Initiation Stage](#)
This topic provides the systematic instructions to initiate the new **Drawing under transferred LC - Islamic** request.
- [Registration](#)
This topic provides the systematic instructions to initiate the Registration stage of Drawing under transferred LC - Islamic request.
- [Scrutiny](#)
This topic provides the systematic instructions to initiate the Scrutiny stage of Drawings under Transferred LC Islamic request.
- [Data Enrichment](#)
This topic provides the systematic instructions to initiate the Data Enrichment stage of Drawings Under Transferred LC Islamic request.
- [Exceptions](#)
This topic helps you quickly get acquainted with the Exceptions process.
- [Multi Level Approval](#)
This topic helps you quickly get acquainted with the Multi Level Approval process.

2.1 Common Initiation Stage

This topic provides the systematic instructions to initiate the new **Drawing under transferred LC - Islamic** request.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Initiate Task**.
The **Initiate Task** screen appears.

Figure 2-1 Initiate Task

2. On **Initiate Task** screen, specify the fields.

Note

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

Table 2-1 Initiate Task - Field Description

Field	Description
Process Name	Select a process name from the drop-down list.
Branch	Select the required branch code from the drop-down list.

For more information on action buttons, refer to the field description table below.

Table 2-2 Action Buttons - Field Description

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	Click to clear the contents update and enter the values again.

3. Click **Proceed** to proceed to the next step.

2.2 Registration

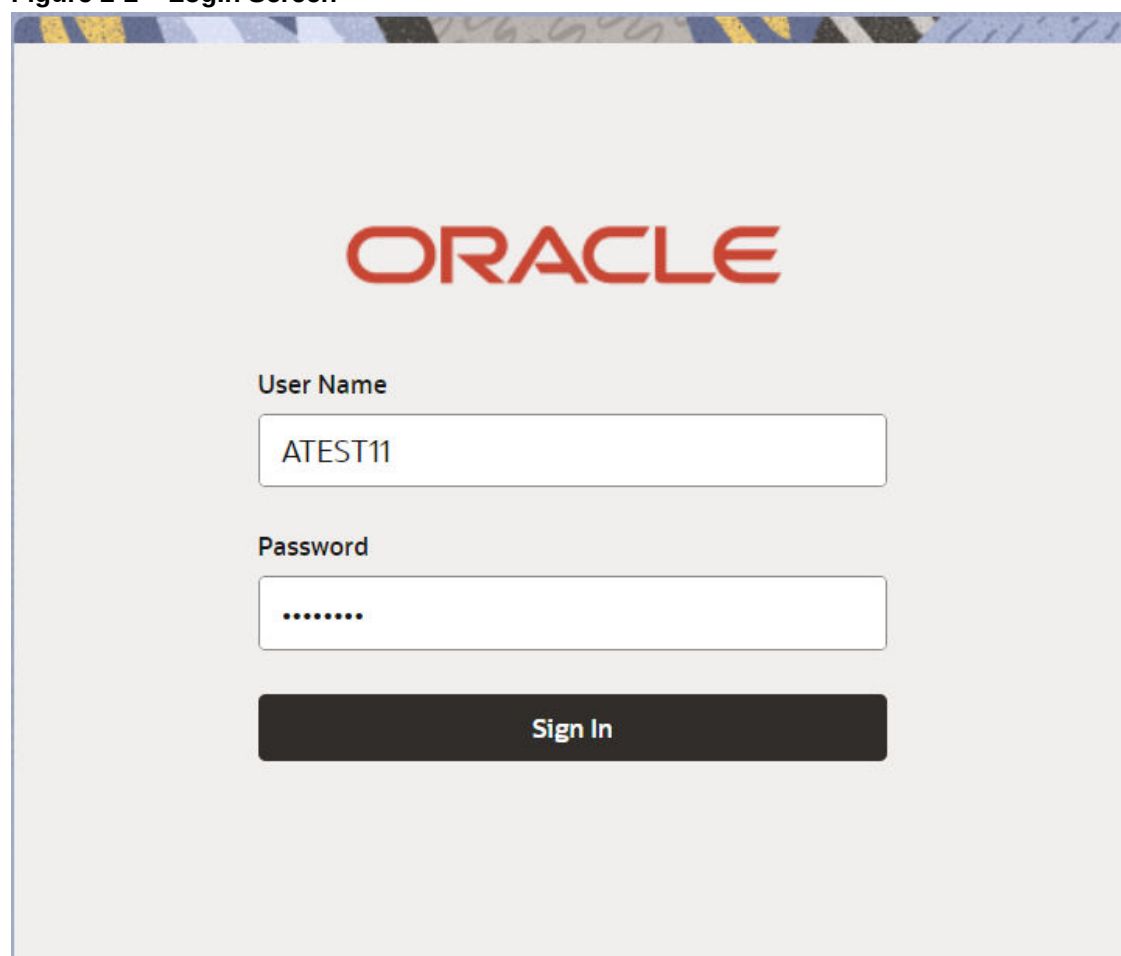

This topic provides the systematic instructions to initiate the Registration stage of Drawing under transferred LC - Islamic request.

The process starts from Registration stage, the user can register request for an Islamic Drawings under Transferred LC at the front desk.

During Registration stage, user can capture the basic details and upload the related documents received from presenting bank. It also enables the user to capture some additional product related details as an option. On submit of the request the request will be available for an LC expert to handle the request in the next stage.

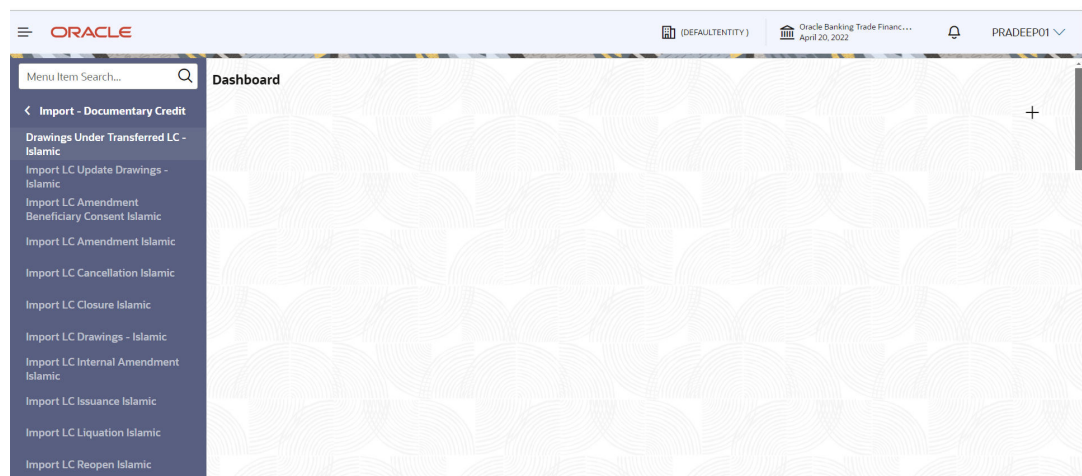

Specify **User ID** and **Password**, and login to **Home** screen.

Figure 2-2 Login Screen

The image shows the Oracle login screen. At the top, the Oracle logo is displayed in red. Below the logo, there are two input fields. The first is labeled "User Name" and contains the text "ATEST11". The second is labeled "Password" and contains seven dots. Below these fields is a dark grey button with the text "Sign In" in white.

1. On **Home** screen, click **Trade Finance - Islamic**. Under **Trade Finance - Islamic**, click **Import Documentary Credit**.
2. Under **Import Documentary Credit**, click **Drawings Under Transferred LC - Islamic**.

Figure 2-3 Drawings Under Transferred LC - Islamic

Let's look at the details for Scrutiny stage. User can enter/update the following fields. Some of the fields that are already having value from registration/SWIFT (MT 750) may not be editable.

The Scrutiny stage has the following hops for data capture:

- [Main Details](#)
This topic provides the systematic instructions to initiate the Main Details of Scrutiny stage of Drawings under Transferred LC Islamic request.
- [Document Details](#)
This topic provides the systematic instructions to capture the details of the documents received.
- [Shipment Details](#)
This topic provides the systematic instructions to capture the shipment details.
- [Additional Conditions](#)
This topic provides the systematic instructions to capture the additional condition details.
- [Discrepancy Details](#)
This topic provides the systematic instructions to capture the discrepancy details.
- [Maturity Details](#)
This topic provides the systematic instructions to capture the maturity details.
- [Additional Details](#)
This topic provides the systematic instructions to capture the additional details.
- [Summary](#)
This topic provides the systematic instructions to view the summary of Drawing Under Transferred LC Islamic.

2.3.1 Main Details

This topic provides the systematic instructions to initiate the Main Details of Scrutiny stage of Drawings under Transferred LC Islamic request.

Main details section has two sub section as follows:

- Application Details

- LC Drawing Details.

Application Details

This section provides a quick snapshot of details of LC. This section is collapsible.

1. On **Scrutiny - Main Details** screen, specify the fields that were not entered at Registration stage.

Note

The fields which are marked as **Required** are mandatory.

Figure 2-7 Scrutiny - Main Details

The screenshot displays the 'Islamic Drawings Under Transfer LC Scrutiny :: Application' screen. The title bar includes 'Oracle Banking Trade Finance' and 'April 20, 2022'. The main content area is divided into two sections: 'Application Details' and 'LC Drawing Details'. The 'Application Details' section includes fields for Transfer LC Reference Number (TFIU221100009001), Priority (Medium), Presenting Bank Reference Number, First Beneficiary (001044 GOODCAR), Branch (PK2-Oracle Banking Trade Fina), Process Reference Number (PK2IDRT000009085), Submission Mode (Desk), Drawing Date (April 20, 2022), Presenting Bank (8476406 CIF85092), and Document Received Date (April 20, 2022). The 'LC Drawing Details' section includes fields for Tenor Type (Usance), Outstanding LC Value (GBP £33,000.00), Drawing Reference Number (IDUA221100031502), User Reference Number (IDUA221100031502), Drawing Amount (GE £33,000.00), and Additional Amount (AE). The screen also features a sidebar with navigation options and a bottom bar with action buttons like 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', and 'Next'.

Table 2-6 Scrutiny - Main Details - Field Description

Field	Description
Transfer LC Reference Number	Read only field. System displays the LC Reference Number to be transferred as selected in the Registration stage.
First Beneficiary	Read only field. System displays the First Beneficiary details.
Branch	Read only field. System displays the branch details.

Table 2-6 (Cont.) Scrutiny - Main Details - Field Description

Field	Description
Process Reference Number	Read only field. Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.
Priority	System will populate the priority of the customer based on priority maintenance. If priority is not maintained for the customer, system will populate 'Medium' as the default priority. User can change the priority populated.
Submission Mode	Read only field. System displays the selected submission mode.
Drawing Date	Read only field. System displays the branch's current date.
Presenting Bank	System displays the Presenting Bank name and address as per presenting bank ID selected. The user can change the presenting bank.
Presenting Bank Reference Number	Specify the presenting bank reference number.
Document Received Date	Read only field. System displays the branch's current date.
Allow Substitution Of Document	Read only field. If enabled, allows the bank to substitute the Export Documents received from Transferee with the documents from Beneficiary during Drawing.

LC Drawing Details

The fields listed under this section are same as the fields listed under the LC Drawing Details section in Registration stage. During Registration, if user has not captured input, then user can capture the details in this section.

Figure 2-8 LC Drawing Details

The screenshot shows the 'LC Drawing Details' form. On the left, a sidebar contains links: 'Additional Conditions', 'Discrepancy Details', 'Maturity Details', 'Additional Details', and 'Summary'. The main form area is titled 'LC Drawing Details' and contains the following fields and controls:

- Tenor Type:** A dropdown menu with 'Usance' selected.
- Outstanding LC Value:** A field with 'GBP' as the currency and '£33,000.00' as the value.
- Drawing Reference Number:** A field with the value 'IDUA22100031502'.
- Additional Amount:** A field with 'AE' as the currency and an empty value field.
- Documents Received:** A dropdown menu with 'Yes' selected.
- Product Code:** A field with the value 'IDUA' and a search icon.
- User Reference Number:** A field with the value 'IDUA22100031502'.
- Limits/Collateral Required:** A checkbox that is currently unchecked.
- Document Set:** A dropdown menu with 'First' selected.
- Product Description:** A field with the value 'INCOMING DOCUMENTARY USANCE'.
- Drawing Amount:** A field with 'GE' as the currency and '£33,000.00' as the value.
- Duplicate:** A checkbox that is currently unchecked.
- Operation Type:** A field with the value 'ACC'.
- Amount in Local Currency:** A field with an empty value.

At the bottom of the form, there is a bar with the following buttons: 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', and 'Next'.

Provide the details for the fields based on the description in the following table:

Note

The fields which are marked as **Required** are mandatory.

Table 2-7 LC Drawing Details

Field	Description
Tenor Type	Select the tenor type. <ul style="list-style-type: none"> • Sight • Usance • Multi Tenor
Documents Received	Select the document received status from the drop-down. <ul style="list-style-type: none"> • Yes • No
Documents Set	Select the number of sets of documents received from the drop-down. <ul style="list-style-type: none"> • First • Second • Both
Duplicate	If documents received are duplicate and if the drawing is already completed, user can mark this as duplicate and submit.
Outstanding LC Value	Read only field. This field displays the value as per the latest LC details.
Product Code	Select the product code for the drawing. Only the products that are allowed for Bills under Transfer LC should be displayed in the look up list.

If more than one signature is required, system should display all the signatures
Request Clarification	Click this button to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Cancel	Cancel the Scrutiny stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.

Table 2-9 (Cont.) Main Details - Action Buttons - Field Description

Field	Description
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes are:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others <p>Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.</p>
Refer	<p>Select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes are:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others
Next	<p>On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>

2.3.2 Document Details

This topic provides the systematic instructions to capture the details of the documents received.

As part of Data Enrichment user verifies and enter the basic document details for Islamic Drawing Under Transferred LC.

1. On **Document Details** screen, specify the fields.

Figure 2-9 Scrutiny - Document Details

Islamic Drawings Under Transfer LC Scrutiny :: Application
No:- PK2IDRT000009085

Document Details

Document Details - As per LC

Document Code	Document Reference Number	Document Date	Copy	Original	Description	First Mail Received Original	First Mail Received Copy	Second Mail Received Original	Second Mail Received Copy
PACKINGLIST					PACKINGLIST				
INVDOC					Invoice				
MARDOC					Sea Way				
OTHERDOC					OTHERDOC				
AIRDOC					Air Way				

Page 1 of 2 (1-5 of 7 items)

For more information on fields, refer to the field description table below.

Table 2-10 Document Details - Field Description

Field	Description
Document Details - As per LC	This table will fetches the document details as maintained in the underlying LC in the back office system. User can modify the details only which are fetched from underlying LC. User can not add or delete any document details. Once bill drawing is authorized and if update drawing is processed, details of this table will be fetched from underlying bill drawing.
Document Code	Document code is auto-populated from the latest LC.
Document Reference Number	Specify the document reference number available in the documents.
Document Date	Displays the document date. The user can change the date. <div> <i>Note</i> If "Document date" is more than "Shipment Date" system displays an override alert. </div>
Copy	Number of duplicate copies of documents as required in LC.
Original	Number of documents in original as required in LC.
Description	Description of the document required as per LC. Click the link to view the description of the document.
First Mail Received Original	Specify the number of originals of documents received from first mail.
First Mail Received Copy	Specify the number of duplicate copies of documents received from first mail.
Second Mail Received Original	Specify the number of originals of documents received from second mail.
Second Mail Received Copy	Specify the number of duplicate copies of documents received from second mail.

Table 2-10 (Cont.) Document Details - Field Description

Field	Description
Document Clause	Displays the document clause of the documents. Click the link to view the description of the document clause.
Received Description	Defaults the description of the documents received from presenting bank. The user can edit the description.
Discrepant	System marks the discrepant toggle as 'Yes' if there is difference between number of documents required and number of documents received. If enabled allows the user to make the changes, if any discrepancy identified in the document.
Discrepancy Code	Click Search to search and select the discrepancy code based on the discrepancy identified. This field is enabled if Discrepant option is enabled.
Discrepancy Description	This field displays the description based on the discrepancy code.
Action	Click Edit icon to edit the document code.
Additional documents presented	This table fetches document details as maintained for the specific bill drawing product in the back office system. Here user can add/modify/delete additional document received, if any, during bill drawing. Once bill drawing is authorized, details from this table will be fetched in update drawing operation also. The user can click + to add multiple document details.
Document Code	Click Search to search and select the document code for the additional documents presented. User can add or delete the code by deleting the line on the grid. <div>Note The User is not allowed to add any document code which is already existing in any of the two tables.</div>
Document Reference Number	Specify the reference number of the documents linked.
Document Date	Specify the document date of the underlying document. <div>Note If "Document date" is more than "Shipment Date" system displays an override alert.</div>
Description	Displays the description of the additional documents based on the document code selected. Click the link to view the description of the document.
First Mail Received Original	Specify the number of originals of documents received from first mail.
First Mail Received Copy	Specify the number of duplicate copies of documents received from first mail.
Second Mail Received Original	Specify the number of originals of documents received from second mail.

Table 2-10 (Cont.) Document Details - Field Description

Field	Description
Second Mail Received Copy	Specify the number of duplicate copies of documents received from second mail.
Action	Edit: Click Edit icon to edit the document code. Delete: Click Delete to delete the document code.

2. Click **Next**.

The task will move to next data segment.

For more information on action buttons, refer to the field description table below.

Back	On click of Back, system moves the task back to previous data segment.
Next	On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

2.3.5 Discrepancy Details

This topic provides the systematic instructions to capture the discrepancy details.

This section displays the list of discrepancies captured.

As part of DE user scrutinize the discrepancies details for Islamic Drawing Under Transferred LC. User can add/update/review the discrepancies identified in the section.

1. On **Discrepancy Details** screen, specify the fields, if any.

Figure 2-12 Discrepancy Details

For more information on fields, refer to the field description table below.

Table 2-16 Discrepancy Detials - Field Description

Field	Description
Discrepancy Details	The user can click + to add multiple discrepancy details.
Discrepancy Code	Click Search to search and select the discrepancy code based on the discrepancy identified.
Discrepancy Description	This field displays the description based on the discrepancy code.
	Click the edit icon to edit the discrepancy description.
Discrepancy Resolved	Enable this option, if discrepancy is resolved.
Resolved Date	Set the date when discrepancy is resolved.
Received Date	Select the discrepancy received date.
Resolved Remarks	Specify the remarks for discrepancy resolution.
	Click the edit icon to edit the discrepancy remarks.
Action	Click Edit icon to edit the discrepancy details. Click Delete icon to delete the discrepancy details.
Pay Msg Date	Specify or select the pay message date.
Non Pay Msg Date	Specify or select the non pay message date.
Acceptance Message Date	Specify or select the acceptance message date.
Non Acceptance Message Date	Specify or select the non acceptance message date.
Discrepancies Approval Date	Specify the date of discrepancies approval.

2. Click **Next**.

The task will move to next data segments.
For more information on action buttons, refer to the field description table below.

Table 2-17 Discrepancy Details - Action Buttons - Field Description

Field	Description
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.
Documents	Click to View/Upload the required document. Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application
Remarks	Specify any additional information regarding the drawing under transferred LC. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.
Overrides	Click to view the overrides accepted by the user.
Customer Instruction	Click to view/ input the following <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.
View LC	Click View LC button to view the details of the LC.
View Events	Click this button to view all the Undertaking events under the LC Issued till date
Signatures	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures
Request Clarification	Click this button to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.

Table 2-17 (Cont.) Discrepancy Details - Action Buttons - Field Description

Field	Description
Hold	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>

Let's look at the details for Data Enrichment stage. User can enter/update basic details of the incoming request. Do the following steps to acquire a task at Data Enrichment stage. The Data Enrichment stage has the following hops for data capture:

- [Main Details](#)
This topic provides the systematic instructions to initiate the Data Enrichment stage of Drawings Under Transferred LC Islamic request.
- [Document Details](#)
This topic provides the systematic instructions to capture the details of the documents received.
- [Shipment Details](#)
This topic provides the systematic instructions to capture the shipment details.
- [Additional Conditions](#)
This topic provides the systematic instructions to capture the additional condition details.
- [Discrepancy Details](#)
This topic provides the systematic instructions to capture the discrepancy details.
- [Maturity Details](#)
This topic provides the systematic instructions to capture the maturity details.
- [Advices](#)
This topic provides the systematic instructions to capture the advices details.
- [Additional Details](#)
This topic provides the systematic instructions to capture the additional details.
- [Settlement Details](#)
This topic provides the systematic instructions to capture the settlement details of Drawing Under Transferred LC Islamic request.
- [Summary](#)
This topic provides the systematic instructions to view the summary of Drawing Under Transferred LC Islamic request.

2.4.1 Main Details

This topic provides the systematic instructions to initiate the Data Enrichment stage of Drawings Under Transferred LC Islamic request.

Main details section has two sub section as follows:

- Application Details
- LC Drawing Details.

Application Details

All fields displayed under main details section, is same as **Application Details** of **Scrutiny** stage.

1. On **Data Enrichment - Main Details** screen, specify the fields that were not entered at Registration stage.

For more information on fields, refer to the field description table below.

Note

The fields which are marked as **Required** are mandatory.

Figure 2-19 Data Enrichment - Main Details

Islamic Drawings Under Transfer LC DataEnrichment :: Application No:- PK2IDRT000009085

Field	Description
Transfer LC Reference Number	Read only field. System displays the LC Reference Number to be transferred as selected in the Registration stage.
First Beneficiary	Read only field. System displays the First Beneficiary details.
Branch	Read only field. System displays the branch details.
Process Reference Number	Read only field. Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.
Priority	System will populate the priority of the customer based on priority maintenance. If priority is not maintained for the customer, system will populate 'Medium' as the default priority. User can change the priority populated.
Submission Mode	Read only field. System displays the selected submission mode.
Drawing Date	Read only field. System displays the branch's current date.

Field	Description
Presenting Bank	System displays the Presenting Bank name and address as per presenting bank ID selected. The usser can change the presneting bank.
Presenting Bank Reference Number	Read only field. System displays the Presenting Bank reference number.
Document Received Date	Read only field. System displays the branch's current date.
Allow Substitution Of Document	Read only field. If enabled, allows the bank to substitute the Export Documents received from Transferee with the documents from Beneficiary during Drawing.

LC Drawing Details

Figure 2-20 LC Drawing Details

For more information on fields, refer to the field description table below.

Note

The fields which are marked as **Required** are mandatory.

Table 2-23 LC Drawing Details

Field	Description
Tenor Type	Read only field. Displays the tenor type.

Table 2-23 (Cont.) LC Drawing Details

Field	Description
Documents Received	Read only field. Displays the document received status. The document received status can be: <ul style="list-style-type: none"> • Yes • No
Documents Set	Read only field. Displays the number of sets of documents received .
Duplicate	Read only field. Displays whether the documents received are duplicate and if the drawing is already completed, user can mark this as duplicate and submit.
Outstanding LC Value	Read only field. This field displays the value as per the latest LC details.
Product Code	Read only field. Product code for the drawing. Only the products that are allowed for Bills under Transfer LC is displayed.
Product Description	Read only field. This field displays the description of the product as per the product code.
Operation Type	Read only field. The operation type can be: <ul style="list-style-type: none"> • ACC • DIS • undefined
Drawing Reference Number	This is auto generated by the back end system.
User Reference Number	User reference number is defaulted based on the selected LC. User can change the value.
Drawing Amount	Select the currency and specify the drawing amount under the LC for which documents have been submitted.
Amount In Local Currency	Read only field. System fetches the local currency equivalent value for the LC amount from back office (with decimal places).
Additional Amount	Read only field. This field can have value only if an MT 750 has been processed for this drawing earlier.
Limits/ Collateral Required	Enable the option, if limit check is applicable. Disable the option, if limit check is not applicable.

2. Click **Next**.

The task will move to next data segment.

For more information on Action Buttons, refer [Table 2-6](#) .

2.4.2 Document Details

This topic provides the systematic instructions to capture the details of the documents received.

As part of DE user verifies and enter the basic document details for Islamic Drawing Under Transferred LC.

1. On **Document Details** screen, specify the fields.

2.4.4 Additional Conditions

This topic provides the systematic instructions to capture the additional condition details.

Enables the user to check the whether the documents received comply with the additional conditions mentioned in LC.

1. On **Data Enrichment - Additional Conditions** screen, specify the fields.

Figure 2-23 Additional Conditions

The screenshot shows the Oracle Islamic Drawings Under Transfer LC DataEnrichment application. The top navigation bar includes the Oracle logo, user information (PRADEEP02), and application details (Oracle Banking Trade Finance, April 20, 2022). The main header displays the application title and the application number PK2IDRT000009085. The left sidebar contains a navigation menu with options: Main Details, Document Details, Shipment Details, Additional Conditions (selected), Discrepancy Details, Maturity Details, Advices, Additional Details, Settlement Details, and Summary. The main content area is titled 'Additional Conditions' and shows a table with columns: FFT Code, FFT Description, Discrepant, Discrepant Code, Discrepant Description, and Action. The table is currently empty, displaying 'No data to display.' and 'Page 1 (0 of 0 items)'. At the bottom, there are buttons for 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'.

For more information on fields, refer to the field description table of [Table 2-14](#) in Scrutiny stage.

2. Click **Next**.

The task will move to next data segment.

For more information on action buttons, refer to the field description **Action Buttons** of [Table 2-15](#) in Scrutiny stage.

2.4.5 Discrepancy Details

This topic provides the systematic instructions to capture the discrepancy details.

This section displays the list of discrepancies captured. User can add/update/review the discrepancies identified in the section.

1. On **Discrepancy Details** screen, specify the fields, if any.

Figure 2-24 Discrepancy Details

The screenshot shows the Oracle Islamic Drawings Under Transfer LC DataEnrichment application, specifically the Discrepancy Details screen. The top navigation bar and header are identical to the previous screenshot. The left sidebar shows the 'Discrepancy Details' option selected. The main content area is titled 'Discrepancy Details' and shows a table with columns: Discrepancy Code, Discrepancy Description, Discrepancy Resolved, Resolved Date, Received Date, Resolved Remarks, and Action. The table contains one row with the following data: Discrepancy Code 'BOL', Discrepancy Description 'BILL OF LADING NOT', Discrepancy Resolved 'No', Resolved Date 'July 17, 2022', and Action buttons. Below the table, there are fields for 'Pay Msg Date', 'Non Pay Msg Date', 'Acceptance Message Date', and 'Non Acceptance Message Date'. At the bottom, there are buttons for 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'.

For more information on fields, refer to the field description table of [Table 2-16](#) in Scrutiny stage.

2. Click **Next**.

The task will move to next data segment.

Table 2-27 (Cont.) Cash Collateral Details - Field Description

Field	Description
Collateral Amount to be Collected	Read only field. This field displays the collateral amount yet to be collected as part of the collateral split.
Sequence Number	Read only field. The sequence number is auto populated with the value, generated by the system.
Collateral Split %	Specify the collateral split% to be collected against the selected settlement account.
Collateral Contribution Amount	Collateral contribution amount will get defaulted in this field. The collateral % maintained for the customer is defaulted into the Collateral Details screen. If collateral % is not maintained for the customer, then system should default the collateral % maintained for the product. User can modify the defaulted collateral percentage, in which case system should display a override message "Defaulted Collateral Percentage modified.
Settlement Account	Click Search to search and select the settlement account for the collateral.
Settlement Account Currency	Read only field. This field displays the settlement account currency and will be auto-populated based on the Settlement Account selection.
Exchange Rate	Read only field. This field displays the exchange rate, if the settlement account currency is different from the collateral currency.
Contribution Amount in Account Currency	Read only field. This field displays the contribution amount in the settlement account currency as defaulted by the system.
Account Available Amount	Read only field. System populates the account available amount on clicking the Verify button.
Response	Read only field. System populates the response on clicking the Verify button.
Response Message	Read only field. System populates the response message on clicking the Verify button.
Verify	Click to verify the account balance of the Settlement Account.
Save & Close	Click to to save and close the record.
Cancel	Click to cancel the entry.
Cash Collateral Details - Grid	Below fields appear in the Cash Collateral Details grid along with the above fields.
Collateral %	Specify the percentage of collateral to be linked to this transaction. If the value is more than 100% system will display an alert message. The collateral % maintained for the customer is defaulted into the Collateral Details screen. If collateral % is not maintained for the customer, then system should default the collateral % maintained for the product. User can modify the defaulted collateral percentage, in which case system should display a override message "Defaulted Collateral Percentage modified.

Table 2-27 (Cont.) Cash Collateral Details - Field Description

Field	Description
Contribution Amount	This field displays the collateral contribution amount. The collateral % maintained for the customer is defaulted into the Collateral Details screen. If collateral % is not maintained for the customer, then system should default the collateral % maintained for the product. User can modify the defaulted collateral percentage, in which case system should display a override message "Defaulted Collateral Percentage modified."
Account Balance Check Response	This field displays the account balance check response.
Edit	Click edit link to edit the collateral details.

3. Click **Save and Close** to save the details and close the screen.

Charge Details

This section displays charge details.

The screenshot shows a web application interface for 'Cash Collateral Details'. At the top, there are 'Recalculate' and 'Redefault' buttons. Below this, there are three expandable sections: 'Commission Details', 'Charge Details', and 'Tax Details'.

Commission Details: A table with columns: Component, Rate, Mod. Rate, Currency, Amount, Modified, Defer, Waive, Charge Party, Settl. Acct, and Amendable. The table is currently empty, displaying 'No data to display.' Below the table is a pagination bar showing 'Page 1 (0 of 0 items)' and navigation arrows.

Charge Details: A table with columns: Component, Tag currency, Tag Amount, Currency, Amount, Modified, Billing, Defer, Waive, Charge Party, and Settlement Account. One row is displayed with Component 'LICANCHG', Tag currency 'AED', Tag Amount '1000', Currency 'GBP', Amount '£50.00', and Settlement Account 'PK20010440017'. The 'Billing', 'Defer', and 'Waive' columns have toggle switches. Below the table is a pagination bar showing 'Page 1 of 1 (1 of 1 items)' and navigation arrows.

Tax Details: A table with columns: Component, Type, Value Date, Ccy, Amount, Billing, Defer, and Settl. Acct. The table is currently empty, displaying 'No data to display.'

At the bottom right of the screen, there are 'Save & Close' and 'Close' buttons.

For more information on fields, refer [Table 2-20](#).

4. Click **Save and Close** to save the details and close the screen.

Table 2-29 FX Linkage - Field Description

Field	Description
FX Linkage	Click + to add multiple FX Details .
FX Reference Number	<p>Click Search to search and select the FX contract reference number. On select and save and close, system defaults the available amount, bot currency, sold currency and rate. Forward FX Linkage available for selection at bill would be as follows,</p> <ul style="list-style-type: none"> Counterparty of the FX contract should be the counterparty of the Bill contract. Active Forward FX transactions authorized not marked for auto liquidation. <p>Bill contract currency should be BOT currency of the FX transaction in case of an export Bill or the SOLD currency in case of an Import Bill.</p>
Currency	This field displays the FX SOLD currency from the linked FX contract.
Contract Amount	This field displays the FX SOLD currency and Amount. The user can change the currency.
Available FX Contract Amount	<p>This field displays the available FX contract amount. The value is from the "Available Amount" in FXDLINKG screen in OBTR.</p> <p>Available Amount SOLD currency and Amount is displayed.</p>

Table 2-29 (Cont.) FX Linkage - Field Description

Field	Description
Linkage Amount	This field displays the amount available for linkage. The Linkage amount should default the LC Contract Currency and allowed to change the linkage amount alone. The validation "Sum of Linked amount will not be greater than contract amount" or "Linkage amount will not be greater than the available amount for linkage" should be triggered on save of the FX linkage screen when trying to link the single FX or multiple FX.
Rate	This field displays the rate at which the contract is booked.
FX Amount in Local Currency	This field displays the FX amount in local currency. The value is defaulted as FX BOT currency and Amount from FXDTRONL
FX Expiry Date	This field displays the expiry date from the linked FX contract.
FX Delivery Period - From	This field displays the date from which the contract is valid for utilization.
FX Delivery Period - To	This field displays the date to which the contract is valid for utilization.
FX Linkage grid	Below fields appear in the FX linkage grid along with the above fields.
Bought Currency	This field displays the currency from the linked FX contract.
Sold Currency	This field displays the currency from the linked FX contract.
Available Contract Amount	Available amount will be FX contract amount minus the linked amount. Available amount for linkage should be greater than Zero.
Linked Amount	Sum of Linked amount will not be greater than LC contract amount. Linked amount will not be greater than the available amount for linkage.
Total Utilized Amount	This field displays the total amount utilized against the corresponding linked FX. On query, both Utilized and Total Utilized amount holds the amount of latest version. The value is Total Utilized Amount SOLD currency and Amount for Import LC/Guarantee Issuance from FXDLINKG .
Average FX Rate	Multiple forward FX contract could be linked, and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. This will be populated in the Average FX Rate.
Action	Click Edit icon to edit the FX details. Click Delete icon to delete the FX details.

6. Click **Save and Close** to save the details and close the screen.

Finance Preferences

This section enables the user to request for a finance to liquidate the bill. This section will be enabled based on the product code selected.

For more information on fields, refer to the field description table below.

Table 2-30 Finance Preferences - Field Description

Field	Description
Loan Preferences	Specify the Loan Preferences details.
Drawing/Collection Ref	This field is defaulted from the underlying task. User cannot change the value.
Bill Currency-Amount	Outstanding drawing/ collection currency and amount is defaulted from the underlying task. User cannot change the value.
Customer Id	This field is defaulted from the underlying task. User cannot change the value.
Customer Name	Applicant/ Drawee Name is defaulted from the underlying task. User cannot change the value.
Product Code	This field is defaulted from the underlying Collection/ Drawing Product maintenance. User cannot change the value.
Finance Currency-Amount	Loan currency is defaulted from the bill currency. User can change this to Finance Currency. System should display an error message on tab out if the currency selected is not a Bill currency or Local Currency. System displays the loan account based on the outstanding drawing/ Collection amount less the collateral amount. User cannot change the Loan amount.
Original Exchange Rate	This field displays the Original Exchange rate.
Exchange Rate	Specify the exchange rate applicable for local currency. System validates the exchange rate is within the allowed range.
Finance Tenor Units	This field displays the period of finance. User can change the value. The numerical value for Days or months or Years is applicable.

Table 2-30 (Cont.) Finance Preferences - Field Description

Field	Description
Tenor Type	The value of the tenor type is defaulted by the system. User can change the value. Values are Days, Months and Years. The numerical value for Days or months or Years is applicable.
Rate Type	This field displays the rate type.
Rate Code	This field displays the rate code.
Loan/Finance Value Date	This field displays the current branch date as Value date. User cannot change the value.
Loan Maturity Date	Loan maturity date as default based on Tenor type and Tenor units. User cannot change the value.
Liquidate Charge/Comm On LC	Enable this option to include the outstanding Commission/charge to be included as part of Liquidation.
Finance Profit/UDE Details	Specify the Loan Interest/UDE Details.
User Defined Element ID	System populates the UDE Element ID as part of simulation. User can change the selection through lookup.
UDE Description	System populates the UDE description as part of simulation. If a user changes the UDE ID, system should populate the description.
Rate Code	System populates the rate code as part of simulation.
Usage	System populates the usage details as part of simulation.
UDE Value	System populates the UDE value as part of simulation.
Limits	Specify the limit details.
Serial Number	This field displays the serial number defaulted by the system. User cannot change the value.
Linkage Type	System defaults the linkage type as "Facility" from back office.
Linkage Reference Number	System defaults the Linkage reference as part of simulation. User can change the value. Linkages available for the customer should be displayed for selection.
Linked Percentage	Specify the value for linked percentage. Maximum value that can be entered is 100. User cannot enter negative values.
Limit Amount	System defaults the value. System should populate the value based on the contribution percentage.

7. Click **Save and Close** to save the details and close the screen.

Preview Messages

User can view the draft preview of the advise. User can preview the MT999 messages for the applicable MT7XX messages generated by the Back office system in the Preview Message.

For more information on fields, refer to the field description table below.

Field	Description
Preview SWIFT Message	Displays the preview of SWIFT Messages.
Language	Read only field. The language to preview the draft guarantee details. English is set as default language for the preview.
Message Type	Select the message type from the drop-down. User can choose to see preview of different message like MT 700, MT 740 and MT 701.
Message Status	Read only field. Displays the message status of the draft message.
Repair Reason	Read only field. Displays the reason of repair.
Preview Message	This field displays a preview of the draft message. Based on the guarantee text captured in the previous screen, guarantee draft is generated in the back office and is displayed in this screen.
Preview Mail Advice	The preview message-mail advice is simulated from the back office and the user can view the message.
Language	Read only field. The language for the advice message. English is set as default language for the preview.
Advice Type	Select the advice type.
Message Status	Read only field. Displays the message status of the mail advice.
Repair Reason	Read only field. Displays the reason of repair.
Preview Message	This field displays a preview of advice.

8. Click Next.

The task will move to next data segment.

2. Click **Submit**.

The task will move to next logical stage.

For more information on Action Buttons, refer [Table 2-22](#)

2.5 Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

As per regulatory requirement, all tasks are scrutinized for KYC, Compliance and Sanctions. The checks to external system/internal system is initiated after the Data Enrichment stage.

Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create an amount block. On hand-off, system will debit the blocked account to the extent earmark and credit charges/ commission account in case of charges block or credit the amount in suspense account for earmarks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPMCS application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of updated available fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block Reference Number" to release the Amount Block done in the mid office (OBTFPMCS) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

Amount Block Exception

This section will display the amount block exception details.

If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.
Back	Task moves to previous logical step.

2.6 Multi Level Approval

This topic helps you quickly get acquainted with the Multi Level Approval process.

Approver user can approve the Drawings under Transferred LC Islamic transaction under the LC. The Approval summary screen displays the summary tiles. The tiles displays a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

In case of Incoming SWIFT MT 750 processing and in case of discrepant documents received under LC, the drawings task will directly land in approval queue once submitted from scrutiny stage.

In case of documents received without discrepancies and without MT 750, the task will move from DE stage to approval.

1. Log in into OBTFPMCS application and acquire the task available in the approval stage in free task queue. Authorization User can acquire the task for approving.

Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFPMCS displays the Handoff failure error during the Approval of the task.

Authorization Re-Key (Non-Online Channel)

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Note

Rekey is not applicable in case of processing Drawing of Incoming SWIFT MT 750. System will display the approval screens directly as the details have been auto populated from incoming SWIFT message.

2. Open the task and specify (re-key) some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.
 - Drawing Currency
 - Drawing Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

- [Reject Approval](#)
This topic helps you quickly get acquainted with the Reject Approval process.

2.6.1 Reject Approval

This topic helps you quickly get acquainted with the Reject Approval process.

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Drawing Under Transferred LC in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The tile containing the screen from where the reject was triggered will be highlighted in red.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

Summary

The screen up to which data was captured before reject will be available for the user to view in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view the application details and LC details.
- Party Details - User can view the party details like beneficiary, advising bank etc.
- Beneficiary Response - User can view beneficiary response details.
- Discrepancy Details - User can view the discrepancy details of the drawing.
- Maturity Details - User can view the maturity details.
- Limits and Collaterals - User can view limits and collateral details.
- Charges - User can view charge details.
- Revolving Details - User can view revolving details on revolving LC.
- Payment Details - User can view the payment details.
- Settlement Details - User can view the settlement details.
- Loan Preferences - User can view set loan preferences.
- FX Linkage - User can view the details of FX Linkage.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks..

1. Click **Reject Approve** to reject the transaction.

For more information on Action Buttons, refer to the field description table below.

Table 2-39 Action Buttons - Field Description

Field	Description
Reject Approve	On click of Reject Approve, the transaction is rejected.
Reject Decline	On click of Reject Decline, the task moves back to the stage where it was rejected. User can update the reason for reject decline in remarks.
Hold	User can put the transaction on 'Hold'. Task will remain in Pending state.
Cancel	Cancel the Reject Approval.
