This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Preface

- [Purpose](#)
- [Audience](#)
This document is intended for the following audience:
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Structure](#)
This manual is organized into the following chapters:
- [Related Documents](#)
- [Conventions](#)
- [Screenshot Disclaimer](#)
- [Acronyms and Abbreviations](#)
- [Basic Actions](#)
- [Symbols and Icons](#)

Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service **Guarantee SBLC Advised - Claim Settlement** process.

Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

- [Access to Oracle Support](#)

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.

Convention	Meaning
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description
OBTFPM	Oracle Banking Trade Finance Process Management
LC	Letter of Credit
BC	Bankers Cheque
FX	Foreign Exchange
CCY	Currency
LCY	Local Currency
FCY	Foreign Currency

Oracle Banking Trade Finance Process Management Cloud Service

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service process.

Welcome to the Oracle Banking Trade Finance Process Management Cloud Service User Guide. This guide provides an overview on the OBTFPMCS application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPMCS:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

Oracle Banking Trade Finance Process Management Cloud Service is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. Oracle Banking Trade Finance Process Management Cloud Service enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

Oracle Banking Trade Finance Process Management Cloud Service helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPMCS allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

2

Guarantee SBLC Advised - Claim Settlement

This User Manual describes the various stages of Guarantee SBLC Advised - Claim Settlement process.

As a part of Guarantee SBLC Advised - Claim Settlement process, the user can initiate Settlement of Claim under a Guarantee/SBLC Advise.

This topic contains following subtopics:

- [Common Initiation Stage](#)
This topic provides the systematic instructions to initiate the new **Guarantee SBLC Advised - Claim Settlement** request.
- [Registration](#)
This topic provides the systematic instructions to initiate the Registration stage of **Guarantee SBLC Advised - Claim Settlement** request.
- [Data Enrichment](#)
This topic provides the systematic instructions to initiate the Data Enrichment stage of Guarantee SBLC Advised - Claim Settlement request.
- [Multi Level Approval](#)
This topic helps you quickly get acquainted with the Multi Level Approval process.

2.1 Common Initiation Stage

This topic provides the systematic instructions to initiate the new **Guarantee SBLC Advised - Claim Settlement** request.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Initiate Task**.
The **Initiate Task** screen appears.

Figure 2-1 Initiate Task

The screenshot displays the Oracle 'Initiate Task' interface. On the left, a sidebar menu lists various options under 'Trade Finance', with 'Initiate Task' at the bottom. The main area is titled 'Initiate Task' and contains a 'Registration' section. This section includes two dropdown menus: 'Process Name' (set to 'Guarantee Advise claim settlm') and 'Branch' (set to 'PK2-Oracle Banking Trade Finz'). At the bottom right of the form are 'Proceed' and 'Clear' buttons. The top of the page shows the Oracle logo, user information (ADMIN01), and a date (April 20, 2022).

2. On **Initiate Task** screen, specify the fields.

Note

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

Table 2-1 Initiate Task - Field Description

Field	Description
Process Name	Select a process name from the drop-down list.
Branch	Select the required branch code from the drop-down list.

For more information on action buttons, refer to the field description table below.

Table 2-2 Action Buttons - Field Description

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	Click to clear the contents update and enter the values again.

3. Click **Proceed** to proceed to the next step.

2.2 Registration

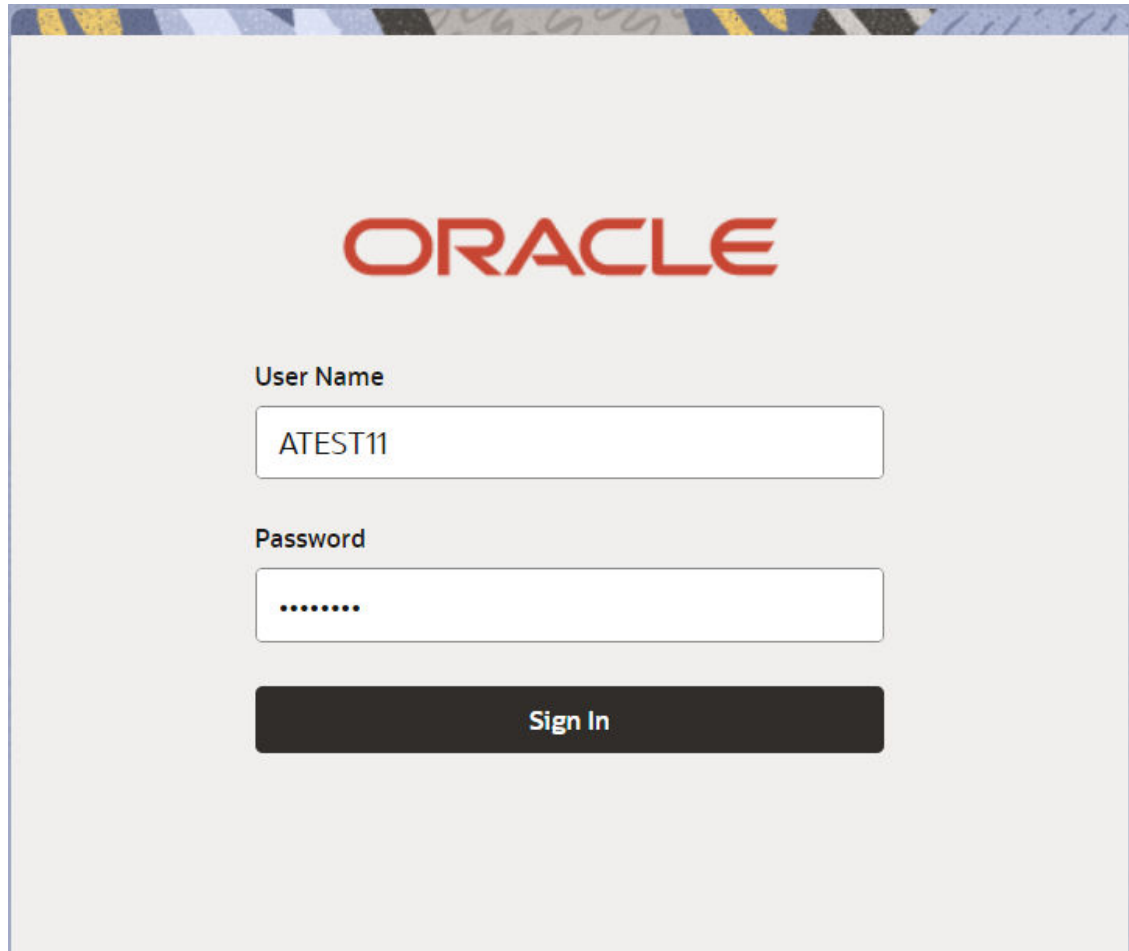

This topic provides the systematic instructions to initiate the Registration stage of **Guarantee SBLC Advised - Claim Settlement** request.

During the Registration stage, the user can register settlement of claim under a Guarantee SBLC Advised.

In this stage the user can initiate Settlement of Claim under a Guarantee SBLC Advised. The OBTFPMCS user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPMCS verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

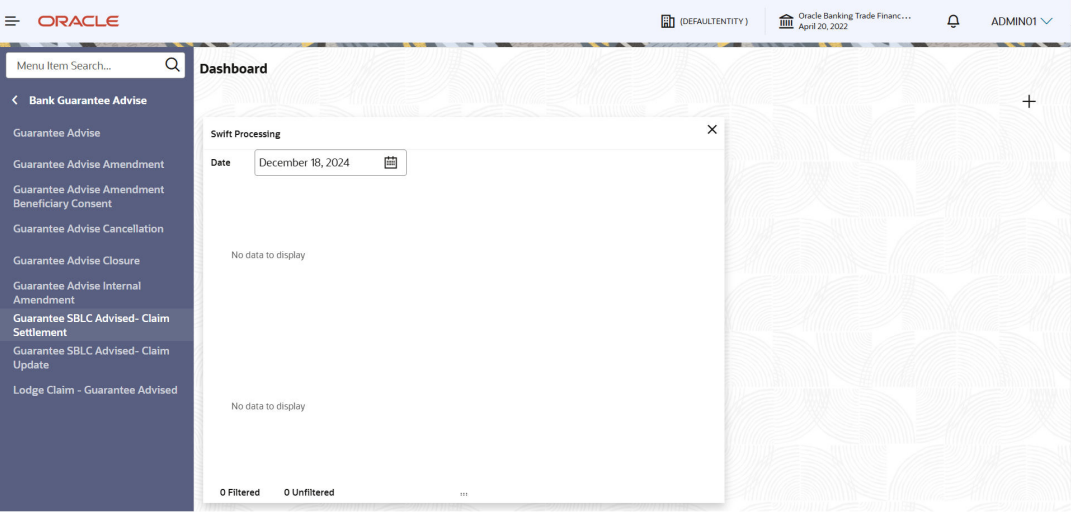

The OBTFPMCS user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

Specify **User ID** and **Password**, and login to **Home** screen.

Figure 2-2 LogIn ScreenThe image shows the Oracle login screen. At the top, the Oracle logo is displayed in red. Below the logo, there are two input fields. The first is labeled "User Name" and contains the text "ATEST11". The second is labeled "Password" and contains a series of dots, indicating a masked password. Below these fields is a dark gray button with the text "Sign In" in white. The background of the login area is light gray, and the top of the screen has a decorative header with a pattern of blue, yellow, and black.

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Bank Guarantee Advise**.
2. Under **Bank Guarantee Advise**, click **Guarantee SBLC Advised- Claim Settlement**.

Figure 2-3 Guarantee SBLC Advised- Claim Settlement

The **Guarantee SBLC Advised- Claim Settlement** screen appears. The Guarantee SBLC Advised- Claim Settlement - Registration stage has two sections Application Details and Guarantee Details. Let's look at the details of Registration screens below:

2.3 Data Enrichment

This topic provides the systematic instructions to initiate the Data Enrichment stage of Guarantee SBLC Advised - Claim Settlement request.

On successful completion of Registration of an Guarantee SBLC Advised - Claim Settlement request, the request moves to Data Enrichment stage. At this stage the bank user can update the various claim fields. The user can input the transaction details. At this stage the gathered information during Registration stage and claim settlement request are scrutinized and enter the data as required.

Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Do the following steps to acquire a task currently at Data Enrichment stage:

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Task**.
2. Under **Task**, click **Free Task**.

Let's look at the details for Data Enrichment stage. User can enter/update the following fields as part of settlement of claim under Guarantee/SBLC - Data Enrichment Stage. The Data Enrichment stage has the following hops for data capture:

- [Main Details](#)
This topic provides the systematic instructions to initiate the main details of Data Enrichment stage of Guarantee SBLC Advised Claim Settlement request.
- [Advices](#)
This topic provides the systematic instructions to capture the advices details of Guarantee SBLC Advised - Claim Settlement process.
- [Additional Details](#)
This topic provides the systematic instructions to capture the additional details in Data Enrichment stage of Guarantee SBLC Advised - Claim Settlement process.
- [Settlement Details](#)
This topic provides the systematic instructions to capture the settlement details of Guarantee SBLC Issuance - Claim Settlement request.
- [Summary](#)
This topic provides the systematic instructions to view the summary details in Data Enrichment stage of Guarantee SBLC Advised - Claim Settlement process.

2.3.1 Main Details

This topic provides the systematic instructions to initiate the main details of Data Enrichment stage of Guarantee SBLC Advised Claim Settlement request.

Main details section has two sub section as follows:

- Application Details
- Guarantee Details.

Application Details

1. On **Data Enrichment - Main** screen, specify the fields that were not entered at Registration stage.

Table 2-6 Main - Application Details - Field Description

Field	Description
Guarantee/SBLC Number	Read only field. System defaults the value from Registration stage.
Claim Serial Number	Read only field. System defaults the claim serial number from Guarantee/SBLC advise.
Beneficiary ID/Name	Read only field. System defaults the customer ID/ Name from Guarantee/SBLC claim.

Table 2-6 (Cont.) Main - Application Details - Field Description

Field	Description
Branch	Read only field. System defaults the branch name from Guarantee /SBLC advised.
Process Reference Number	Read only field. Unique OBTFPMCS task reference number for the transaction. This is auto generated by the system based on process name and branch code.
Priority	Priority maintained will be populated as either 'Essential/ Critical /Low /Medium /High'. If priority is not maintained for a customer, 'Medium' priority will be defaulted. User can change the priority.
Submission Mode	System defaults the submission mode of Guarantee Advised Claim Settlement request. By default the submission mode will have the value as 'Desk'. <ul style="list-style-type: none"> • Desk - Request received through Desk • Fax- Request received through Fax • Email- Request received through Email The user can change the submission mode.
Claim Settlement Date	Read only field. By default, the application will display branch's current date for the claim settlement date.
Beneficiary Reference Number	Specify the Beneficiary Reference Number.
Issuing Bank	Read only field. System defaults the Issuing Bank name from Guarantee/ SBLC advise.
Issuing Bank Reference Number	Read only field. System defaults the Issuing Bank Reference Number from Guarantee/ SBLC advise.
Version	Read only field. System defaults the version number.
User Reference Number	Read only field. System defaults the User Reference Number from Guarantee/ SBLC advise.

Main - Guarantee Details

The fields listed under this section are same as the fields listed under the **Guarantee Details** section in Registration stage. For more information on the fields, refer to

Guarantee Details of **Registration** stage. During registration, if user has not captured input, then user can capture the details in this section.

Figure 2-8 Main - Guarantee Details

For more information on fields, refer to the field description table below.

Table 2-7 Main - Guarantee Details - Field Description

Field	Description
Guarantee Type	Read only field. Guarantee type defaults from Guarantee/ Standby Advised.
Date of Issue	Read only field. System defaults the date of issue from Guarantee /SBLC Advised.
Purpose of Message	Read only field. System defaults the purpose of message from Guarantee/ Standby Advised.
Expiry Type	Read only field. System defaults the expiry type from Guarantee/ SBLC Advised.
Date of Expiry	Read only field. Expiry date of the Guarantee Advise. System defaults the expiry date from Guarantee/ SBLC Advised.
Claim Date	Read only field. System defaults the claim date from Guarantee/ SBLC Advised.
Claim Expiry Date	Read only field. System defaults the claim expiry date from Guarantee/ SBLC Advised.
Outstanding Currency/ Amount	Read only field. System defaults outstanding currency and amount from Guarantee/ Standby Advised.

Table 2-7 (Cont.) Main - Guarantee Details - Field Description

Field	Description
Applicable Rules	Read only field. System defaults the value from Guarantee Advised details.
Applicant Bank	Read only field. This system defaults the applicant bank details available in Guarantee.
Applicant	Read only field. System defaults the applicant from Guarantee/ SBLC Advised.
Beneficiary	Read only field. System defaults the beneficiary as in Guarantee/ SBLC Advised.
Advising Bank	Read only field. System defaults the advising bank if available.
Advising Through Bank	Read only field. System defaults the advising through bank if available in Guarantee Advise.
Counter Guarantee Issuing Bank	Read only field. System defaults the counter guarantee issuing through bank, if available in Guarantee Advise.
Local Guarantee Issuing Bank	Read only field. System defaults the local guarantee issuing bank, if available in Guarantee Advise.
Accountee	Read only field. System defaults the accountee name, if available in Guarantee.
Claim Amount	Read only field. System defaults the claim amount from the Guarantee Claim.
Claim Payment Amount	System defaults the claim amount and currency from the Guarantee Claim. The user can change the claim payment amount and currency.
Unlinked FX rate	Read only field. If claim currency is different from local currency system displays the unlinked FX rate.
Status	This field displays the status of the Guarantee advised claim settlement.
Narrative - MT799	Specify or click search icon to search and select the narrative.

For more information on fields, refer to the field description table below.

Table 2-12 Charge Details - Field Description

Field	Description
Commission Details	The commission details. All charges, commission and margin are collected from the counter-party by default.
Component	This field displays the commission component.

Table 2-12 (Cont.) Charge Details - Field Description

Field	Description
Rate	This field displays the rate that is defaulted from product. The commission rate, if available in Back Office defaults in OBTFPMCS. The user is able to change the rate. If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.
Mod. Rate	From the default value, if the rate is changed the value gets updated in this field.
Currency	This field displays the currency in which the commission have to be collected.
Amount	This field displays the amount that is maintained under the product code. The commission rate, if available in Back Office defaults in OBTFPMCS. The user is able to change the rate, but not the commission amount directly. The amount gets modified based on the rate changed and the new amount is calculated in back office based on the new rate and is populated in OBTFPMCS. If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.
Modified	From the default value, if the amount is changed, the value gets updated in the modified amount field.
Defer	If enabled, charges/commissions has to be deferred and collected at any future step.
Waive	Based on the customer maintenance, the charges/commission can be marked for Billing or Defer. If the defaulted Commission is changed to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' place holder.
Charge Party	Charge party is 'Applicant' by default. User can change the value to Beneficiary.
Settl. Account	The settlement account.
Amendable	Displays if the field is amendable or not.
Charge Details	Displays the charge details.
Component	This field displays the charge component type.
Tag Currency	This field displays the tag currency in which the charges have to be collected.
Tag Amount	This field displays the tag amount that is maintained under the product code.
Currency	This field displays the currency in which the charges have to be collected.
Amount	This field displays the amount that is maintained under the product code.
Modified	From the default value, if the rate is changed or the amount is changed, the value gets updated in the modified amount field.

Table 2-12 (Cont.) Charge Details - Field Description

Field	Description
Billing	<p>If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is 'Billing' enabled, 'Billing' toggle for that component should be automatically enabled in OBTFPMCS.</p> <p>The user can not enable/disable the option, if it is de-selected by default.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>
Defer	<p>If charges have to be deferred and collected at any future step, this check box has to be selected.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is AR-AP tracking enabled, 'Defer' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can enable/disable the option the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.</p>
Waive	<p>Enable the toggle, if charges has to be waived.</p> <p>Based on the customer maintenance, the charges should be marked for Billing or for Defer.</p> <p>This field is disabled, if Defer toggle is enabled.</p>
Charge Party	Charge party is applicant by default. User can change the value to beneficiary.
Settlement Account	<p>Settlement account is defaulted by the system.</p> <p>The user can change the settlement account.</p>
Tax Details	<p>Displays the tax details.</p> <p>The tax component is calculated based on the commission and defaults if maintained at product level. Refer Close Proceed

The application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to

open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message and user will not be able to approve the task.

5. Open the task and re-key some of the critical field values from the request in the **Approval Re-Key** screen.

Some of the fields below will dynamically be available for re-key.:

- Claim Amount
- Currency

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

6. Click **Proceed** to proceed for the approval.

The **Approval Summary** screen appears. The user can view the Summary tiles which displays list of important fields with values.

7. Click each tile to drill down from summary tiles into respective data segments to verify the details of all fields under the data segment.
