This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

# Preface

- [Purpose](#)
- [Audience](#)  
This document is intended for the following audience:
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Structure](#)  
This manual is organized into the following chapters:
- [Conventions](#)
- [Related Documents](#)
- [Screenshot Disclaimer](#)
- [Acronyms and Abbreviations](#)
- [Basic Actions](#)
- [Symbols and Icons](#)

## Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service **Guarantee SBLC Issuance Claim Settlement Islamic** process.

## Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

## Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

- [Access to Oracle Support](#)

## Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

## Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

## Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## Structure

This manual is organized into the following chapters:

- Preface: Preface gives information on the intended audience, structure, and related documents for this User Manual.
- Chapters: The subsequent chapters provide an overview to the module.
- Screen Shot Disclaimer - The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; information used in the interface or documents are dummy, it does not exist in real world, and its only for reference purpose.

## Conventions

The following text conventions are used in this document:

Convention	Meaning
<b>boldface</b>	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

## Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

## Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

## Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

**Table 1 Acronyms and Abbreviations**

Abbreviation	Description
OBTFPM	Oracle Banking Trade Finance Process Management
LC	Letter of Credit

## Oracle Banking Trade Finance Process Management Cloud Service

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service process.

Welcome to the Oracle Banking Trade Finance Process Management Cloud Service User Guide. This guide provides an overview on the OBTFPMCS application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPMCS:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

### Overview

Oracle Banking Trade Finance Process Management Cloud Service is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. Oracle Banking Trade Finance Process Management Cloud Service enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

### Benefits

Oracle Banking Trade Finance Process Management Cloud Service helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPMCS allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

### Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

## Guarantee SBLC Issuance Claim Settlement

This User Manual describes the various stages of Guarantee SBLC Issuance Claim Settlement Islamic process.

The claim requested for Guarantee/SBLC can be settled through the Settlement Process.

The various stages involved for Claim Settlement of Guarantee Issued are:

- Receive and verify documents (Non Online Channel) - Registration stage
- Input application details
- Upload of related mandatory and non-mandatory documents
- Verify documents and capture details (Online/Non Online Channels) - Data Enrichment stage
- Check balance availability for amount block
- Check for sanctions & KYC status
- Create amount block for charges
- Capture remarks for other users to check and act
- Hand off request to back office

The design, development and functionality of the Islamic Guarantee Issuance Claim Settlement process flow is similar to that of conventional Guarantee issuance process flow.

This topic contains following subtopics:

- [Common Initiation Stage](#)  
This topic provides the systematic instructions to initiate the new Guarantee Issuance Claim Settlement Islamic request.
- [Registration](#)  
This topic provides the systematic instructions to initiate the Registration stage of Guarantee SBLC Issuance - Claim Settlement Islamic request.
- [Data Enrichment](#)  
This topic provides the systematic instructions to initiate the Data Enrichment stage of Guarantee SBLC Issuance - Claim Settlement Islamic request.
- [Exceptions](#)  
This topic helps you quickly get acquainted with the Exceptions process.
- [Multi Level Approval](#)  
This topic helps you quickly get acquainted with the Multi Level Approval process.

### 2.1 Common Initiation Stage

The Data Enrichment stage has the following hops for data capture:

- [Main](#)
- [Advices](#)
- [Additional Details](#)

- [Settlement Details](#)
- [Summary](#)

Let's look at the details for Data Enrichment stage. User can enter/update the following fields as part of settlement of claim under Islamic Guarantee/SBLC - Data Enrichment Stage.

- [Main](#)  
This topic provides the systematic instructions to initiate the main details of Data Enrichment stage of Guarantee Issuance Claim Settlement Islamic request.
- [Advices](#)  
This topic provides the systematic instructions to capture the advices details of Guarantee SBLC Issuance - Claim Settlement Islamic process.
- [Additional Details](#)  
This topic provides the systematic instructions to capture the additional details in Data Enrichment stage of Guarantee SBLC Issuance - Claim Settlement Islamic process.
- [Settlement Details](#)  
This topic provides the systematic instructions to capture the settlement details of Guarantee SBLC Issuance - Claim Settlement Islamic request.
- [Summary](#)  
This topic provides the systematic instructions to view the summary details in Data Enrichment stage of Guarantee SBLC Issuance - Claim Settlement Islamic process.

## 2.3.1 Main

This topic provides the systematic instructions to initiate the main details of Data Enrichment stage of Guarantee Issuance Claim Settlement Islamic request.

Main details section has two sub section as follows:

- Application Details
- Guarantee Details.

### Application Details

1. On **Data Enrichment - Main** screen, specify the fields that were not entered at Registration stage.

For more information on fields, refer to the field description table below.

Table 2-6 Main - Application Details - Field Description

Field	Description
<b>Guarantee/SBLC Number</b>	Read only field. System defaults the value from Registration stage.
<b>Claim Serial Number</b>	Read only field. System defaults the claim serial number from Guarantee/ SBLC claim.
<b>Beneficiary ID/Name</b>	Read only field. System defaults the customer ID/ Name from Guarantee/ SBLC claim.
<b>Branch</b>	Read only field. System defaults the branch name from Guarantee /SBLC issuance.

Table 2-6 (Cont.) Main - Application Details - Field Description

Field	Description
<b>Process Reference Number</b>	Read only field.  Unique Oracle Banking Trade Finance Process Management Cloud Service task reference number for the transaction.  This is auto generated by the system based on process name and branch code.
<b>Priority</b>	Priority maintained will be populated as either 'Low or Medium or High or Essential or Critical'. If priority is not maintained for a customer, 'Medium' priority will be defaulted. User can change the priority.
<b>Submission Mode</b>	System defaults the submission mode of Lodge Claim Guarantee Issued request.  By default the submission mode will have the value as 'Desk'. <ul style="list-style-type: none"> <li>• <b>Desk</b> - Request received through Desk</li> <li>• <b>Fax</b> - Request received through Fax</li> <li>• <b>Email</b> - Request received through Email</li> <li>• <b>Courier</b> - Request received through Courier</li> </ul> The user can change the submission mode.
<b>Claim Settlement Date</b>	Read only field.  By default, the application will display branch's current date for the claim settlement date.
<b>Beneficiary Reference Number</b>	Specify the Beneficiary Reference Number.
<b>Issuing Bank</b>	Read only field.  System defaults the Issuing Bank name from Guarantee/ SBLC claim.
<b>Issuing Bank Reference Number</b>	Read only field.  System defaults the Issuing Bank Reference Number from Guarantee/ SBLC claim.
<b>Version</b>	Read only field.  System defaults the version number.

**Main - Guarantee Details**

The fields listed under this section are same as the fields listed under the **Guarantee Details** section in Registration stage. For more information on the fields, refer to **Guarantee Details** of [Registration](#) stage. During registration, if user has not captured input, then user can capture the details in this section.

**Figure 2-8 Main - Guarantee Details**

For more information on fields, refer to the field description table below.

**Table 2-7 Main - Guarantee Details - Field Description**

Field	Description
<b>Guarantee Type</b>	Read only field. Guarantee type defaults from Guarantee/ Standby Issuance.
<b>Date of Issue</b>	Read only field. System defaults the date of issue from Guarantee /SBLC issuance.
<b>Purpose of Message</b>	Read only field. System defaults the purpose of message from Guarantee/ Standby Issuance.
<b>Expiry Type</b>	Read only field. System defaults the expiry type from Guarantee/ SBLC Issuance.
<b>Date of Expiry</b>	Read only field. Expiry date of the Guarantee Issuance. System defaults the expiry date from Guarantee/ SBLC Issuance.
<b>Claim Date</b>	Read only field. System defaults the claim date from Guarantee/ SBLC Issuance.
<b>Claim Expiry Date</b>	Read only field. System defaults the claim expiry date from Guarantee/ SBLC Issuance.
<b>Outstanding Currency/ Amount</b>	Read only field. System defaults outstanding currency and amount from Guarantee/ Standby Issuance.
<b>Applicable Rules</b>	Read only field. System defaults the value from Guarantee issuance details.
<b>Applicant Bank</b>	Read only field. This system defaults the applicant bank details available in Guarantee.

Table 2-7 (Cont.) Main - Guarantee Details - Field Description

Field	Description
<b>Applicant</b>	Read only field. System defaults the applicant from Guarantee/ SBLC Issuance.
<b>Beneficiary</b>	Read only field. System defaults the beneficiary as in Guarantee/ SBLC Issuance.
<b>Advising Bank</b>	Read only field. System defaults the advising bank if available.
<b>Advising Through Bank</b>	Read only field. System defaults the advising through bank if available in issuance.
<b>Counter Guarantee Issuing Bank</b>	Read only field. System defaults the counter guarantee issuing through bank, if available in issuance.
<b>Local Guarantee Issuing Bank</b>	Read only field. System defaults the local guarantee issuing bank, if available in issuance.
<b>Accountee</b>	Read only field. System defaults the accountee name, if available in Guarantee.
<b>Claim Amount</b>	Read only field. System defaults the claim amount from the Guarantee Claim.
<b>Claim Payment Amount</b>	System defaults the claim amount from the Guarantee Claim.
<b>Unlinked FX rate</b>	Read only field. If claim currency is different from local currency system displays the unlinked FX rate.

<b>Deal Reference Number</b>	The exchange deal reference number.

5. Click **Save and Close** to save the details and close the screen.

**FX Linkage**

This section enables the user to link the existing FX contract(s) to the Guarantee/SBLC Claim Settlement. FX Linkage call should be triggered on DE-submit.

The screenshot shows the 'FX Linkage' window. At the top, there's a dropdown menu for 'FX Linkage' and a '+' icon. Below is a table with the following columns: FX Reference Number, Bought Currency, SOLD Currency, Available Contract Amount, Rate, Linked Amount, Total Utilized Amount, FX Expiry Date, and Action. The table contains one row with the following values: 000FNDF20076A9N9, (empty), (empty), £4,000.00, 1.35, £4,000.00, (empty), March 19, 2020, and edit/delete icons. Below the table, there's a pagination bar showing 'Page 1 of 1 (1 of 1 items)' and navigation icons. Underneath is a section for 'Average FX Rate' with a text input field containing '0'. At the bottom right, there are 'Save & Close' and 'Cancel' buttons.

**Figure 2-12 FX Linkage Details**

The screenshot shows the 'FX Linkage' details form. It has two columns of input fields. The left column includes: 'FX Reference Number' (text input with search icon, value: 000FNDF20076A9N9), 'Contract Amount' (dropdown with 'USD' and text input with '\$4,000.00'), 'Linkage Amount' (dropdown with 'USD' and text input with '\$4,000.00'), 'FX Amount in Local Currency' (dropdown with '£2,962.96'), and 'FX Delivery Period From' (calendar icon). The right column includes: 'Currency' (text input with 'USD'), 'Available FX Contract Amount' (dropdown with 'USD' and text input with '\$4,000.00'), 'Rate' (text input with '1.35'), 'FX Expiry Date' (calendar icon with 'March 19, 2020'), and 'FX Delivery Period To' (calendar icon). At the bottom right, there are 'Save & Close' and 'Close' buttons.

For more information on fields, refer to the field description table below.

**Table 2-16 FX Linkage - Field Description**

Field	Description
The user can click + to add multiple <b>FX Details</b> .	
<b>FX Reference Number</b>	Click <b>Search</b> to search and select the FX contract reference number. On select and save and close, system defaults the available amount, bot currency, sold currency and rate. Forward FX Linkage available for selection at bill would be as follows, <ul style="list-style-type: none"> <li>Counterparty of the FX contract should be the counterparty of the Bill contract.</li> <li>Active Forward FX transactions authorized not marked for auto liquidation.</li> </ul> Bill contract currency should be BOT currency of the FX transaction in case of an export Bill or the SOLD currency in case of an Import Bill.
<b>Bought Currency</b>	This field displays the currency from the linked FX contract.
<b>Sold Currency</b>	This field displays the currency from the linked FX contract.
<b>Available Contract Amount</b>	Available amount will be FX contract amount minus the linked amount. Available amount for linkage should be greater than Zero.
<b>Rate</b>	This field displays the rate at which the contract is booked.
<b>Linked Amount</b>	Sum of Linked amount will not be greater than LC contract amount. Linked amount will not be greater than the available amount for linkage.
<b>Current Utilized amount</b>	This field displays the liquidated /purchased /discounted /negotiated amount of BC contract. It cannot go beyond the linked FX amount.
<b>Total Utilized Amount</b>	This field displays the total amount utilized against the corresponding linked FX. On query, both Utilized and Total Utilized amount holds the amount of latest version.
<b>Amount in Contract Currency</b>	This field displays the amount in contract currency converted from FX currency.
<b>FX Expiry Date</b>	This field displays the expiry date from the linked FX contract.
<b>FX Delivery Period - From</b>	This field displays the date from which the contract is valid for utilization.
<b>FX Delivery Period - To</b>	This field displays the date to which the contract is valid for utilization.
<b>Action</b>	Click Edit icon to edit the FX details.  Click Delete icon to delete the FX details.
<b>Average FX Rate</b>	Multiple forward FX contract could be linked, and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. This will be populated in the Average FX Rate.

6. Click **Save and Close** to save the details and close the screen.
7. Click **Next**.

The task will move to next data segment.

For more information on action buttons, refer to the field description table below.

Table 2-17 Additional Details - Action Buttons - Field Description

Field	Description
<b>Clarification Details</b>	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.
<b>Documents</b>	Click to View/Upload the required document.  Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application
<b>Remarks</b>	Specify any additional information regarding the Guarantee Issuance Claim Settlement. This information can be viewed by other users processing the request.  Content from Remarks field should be handed off to Remarks field in Backend application.
<b>Overrides</b>	Click to view the overrides accepted by the user.

This reject reason will be available in the remarks window throughout the process.
<b>Refer</b>	Select a Refer Reason from the values displayed by the system.  Refer Codes are: <ul style="list-style-type: none"> <li>R1- Documents missing</li> <li>R2- Signature Missing</li> <li>R3- Input Error</li> <li>R4- Insufficient Balance/Limits</li> <li>R5 - Others</li> </ul>
<b>Hold</b>	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.  This option is used, if there are any pending information yet to be received from applicant.
<b>Cancel</b>	Cancel the Scrutiny stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.

**Table 2-23 (Cont.) Summary - Action Buttons - Field Description**

Field	Description
<b>Save &amp; Close</b>	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
<b>Back</b>	Clicking on Back button, takes the user to the previous screen.
<b>Submit</b>	Task will get moved to next logical stage of Guarantee /Standby Claim settlement Islamic. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided. In case of duplicate documents' system will terminate the process after handing off the details to back office.

## 2.4 Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

The Guarantee /Standby Claim settlement request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

### Amount Block Exception Approval

User can review the amount block exception for Trade Finance requests that failed to create Amount Block in backend system.

Log in into Trade Mid Office (TMO) system amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue.

Log in into Trade Mid Office (TMO) system amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue.

Open the task to view the summary tiles. The tiles should display a list of important fields with values.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block Reference Number" to release the Amount Block done in the mid office (Oracle Banking Trade Finance Process Management Cloud Service) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

- Approve:
  - Settlement amount will be funded (outside of this process)
  - Allow account to be overdrawn during hand-off

- Refer:
  - Refer Refer back to DE providing alternate settlement account to be used for block.
  - Different collateral to be mapped or utilize lines in place of collateral.
- Reject: Reject the transaction due to non-availability of sufficient balance in settlement account Amount Bock Exception This section will display the amount block exception details.

All fields displayed under Application details section, would be read only.

## 2.5 Multi Level Approval

This topic helps you quickly get acquainted with the Multi Level Approval process.

This stage allows the approver user to approve a Claim settlement under Guarantee Issued Islamic transaction. The user can view the Summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary tiles into respective data segments to verify the details of all fields under the data segment.

1. Log in into Oracle Banking Trade Finance Process Management Cloud Service application and on **Home** screen, click, **Task**.
2. Under **Task**, click **Free Task**.
3. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.
4. The acquired task will be available in **My Tasks** tab. Click **Edit** to approve the task.

The **Approval Re-Key** pop-up screen appears.

**Figure 2-16 Approval Re-Key**

**Approval Rekey**

View Signature Documents Remarks

**Claim Amount**

GBP £10,000.00

**Currency**

GBP

Refer Close Proceed

The application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message and user will not be able to approve the task.

5. Open the task and re-key some of the critical field values from the request in the **Approval Re-Key** screen.

Some of the fields below will dynamically be available for re-key.:

- Applicant Name
- Beneficiary Name
- Undertaking Currency
- Undertaking Amount
- Expiry Date

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

6. Click **Proceed** to proceed for the approval.

The **Approval Summary** screen appears. The user can view the Summary tiles which displays list of important fields with values.

7. Click each tile to drill down from summary tiles into respective data segments to verify the details of all fields under the data segment.
