# Preface

- [Introduction](#)
- [Audience](#)  
This document is intended for the following audience:
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Structure](#)  
This manual is organized into the following chapters:
- [Conventions](#)
- [Related Documents](#)
- [Acronyms and Abbreviations](#)
- [Screenshot Disclaimer](#)
- [Symbols and Icons](#)
- [Basic Actions](#)
- [Introduction](#)

## Introduction

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service **Import LC Closure- Islamic** process.

## Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

## Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

## Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

## Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance [Oracle Software Security Assurance](#).

## Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

## Conventions

The following text conventions are used in this document:

Convention	Meaning
<b>boldface</b>	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

## Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

## Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

**Table 1 Acronyms and Abbreviations**

Abbreviation	Description
OBTFCM	Oracle Banking Trade Finance Process Management
LC	Letter of Credit
BC	Bankers Cheque
FX	Foreign Exchange
CCY	Currency
LCY	Local Currency

## Basic Actions

Most of the screens contain Action Buttons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

**Table 4 Common Action Buttons and its Definitions**

Action Buttons	Description
<b>Reject</b>	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes are:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others</li> </ul> <p>Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.</p>

Table 4 (Cont.) Common Action Buttons and its Definitions

Action Buttons	Description
<b>Refer</b>	<p>Select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes are:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others</li> </ul>
<b>Hold</b>	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>
<b>Cancel</b>	Click <b>Cancel</b> to cancel the transaction input midway without saving any data.
<b>Save &amp; Close</b>	Click <b>Save &amp; Close</b> to save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
<b>Next</b>	Click <b>Next</b> , system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.
<b>Submit</b>	Click <b>Submit</b> to complete the transaction after you specify all the input parameters for a particular process. The task will get moved to next logical stage of the process. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.

## Introduction

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service **Import LC Closure- Islamic** process.

# 1

## Oracle Banking Trade Finance Process Management Cloud Service

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service process.

Welcome to the Oracle Banking Trade Finance Process Management Cloud Service User Guide. This guide provides an overview on the OBTFPMCS application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPMCS:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

### Overview

Oracle Banking Trade Finance Process Management Cloud Service is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. Oracle Banking Trade Finance Process Management Cloud Service enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

### Benefits

Oracle Banking Trade Finance Process Management Cloud Service helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPMCS allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

### Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

# 2

## Import LC Closure - Islamic

This process illustrates the update to an Import LC Closure - Islamic handled in Oracle Banking Trade Finance Process Management (OBTfPM).

As part of Conventional Import LC Close, System enables the user to close the LC which had been already issued.

The various stages involved for Import LC Close are:

- Receive and verify documents and input basic details (Non Online Channel)- Registration stage
- Upload of related mandatory and non-mandatory documents
- Input/Modify details of Close of LC - Data Enrichment stage
- Capture remarks for other users to check and act
- Hand off request to back office

The design, development and functionality of the Islamic Import LC Close process flow is similar to that of conventional Import LC Close process flow.

This topic contains following subtopics:

- [Common Initiation Stage](#)  
This topic provides the systematic instructions to initiate the new **Import LC Closure - Islamic** request.
- [Registration](#)  
This topic provides the systematic instructions to initiate the Registration stage of Import LC Closure - Islamic request.
- [Data Enrichment](#)  
This topic provides the systematic instructions to initiate the Data Enrichment stage of import LC Closure Islamic request.
- [Multi Level Approval](#)  
This topic helps you quickly get acquainted with the Multi Level Approval process.

### 2.1 Common Initiation Stage

This topic provides the systematic instructions to initiate the new **Import LC Closure - Islamic** request.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Initiate Task**.  
The **Initiate Task** screen appears.

**Figure 2-1 Initiate Task**

- On **Initiate Task** screen, specify the fields.

**Note**

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

**Table 2-1 Initiate Task - Field Description**

Field	Description
<b>Process Name</b>	Select a process name from the drop-down list.
<b>LC Reference Number</b>	Click <b>Search</b> to search and select the LC Reference Number.
<b>Branch</b>	Select the required branch code from the drop-down list.

For more information on action buttons, refer to the field description table below.

**Table 2-2 Action Buttons - Field Description**

Field	Description
<b>Proceed</b>	Task will get initiated to next logical stage.
<b>Clear</b>	Click to clear the contents update and enter the values again.

- Click **Proceed** to proceed to the next step.

## 2.2 Registration

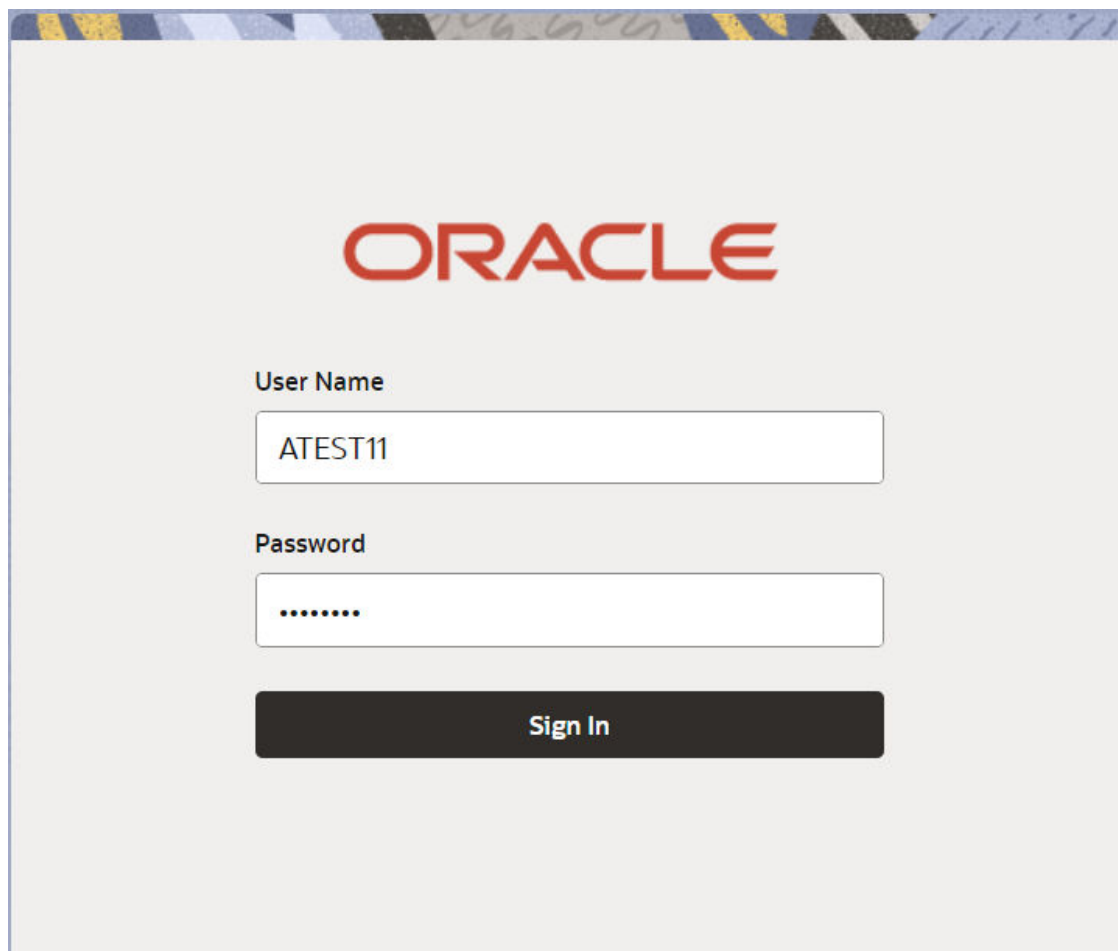

This topic provides the systematic instructions to initiate the Registration stage of Import LC Closure - Islamic request.

During the Registration stage, the user can register a request for an Islamic Import LC Closure received at the front desk (as an application received physically/received by mail/fax).

User can capture the basic details of the response, check the signature of the signatory from the advising bank and upload the related documents. On submit of the request, the customer should be notified with acknowledgment and the request should be available for an LC close expert to handle in the next stage.

Specify **User ID** and **Password**, and login to **Home** screen.

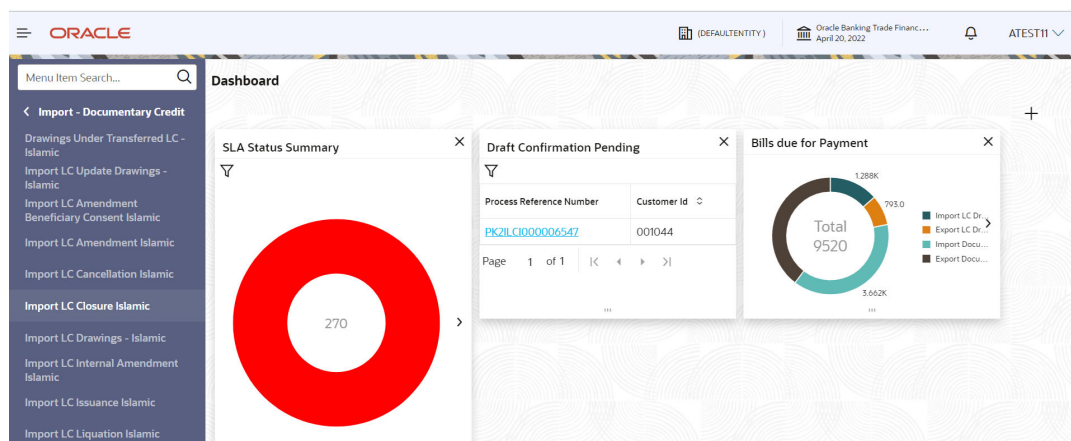

**Figure 2-2 Login Screen**

The login screen features the Oracle logo at the top center. Below it, there are two input fields: 'User Name' with the text 'ATEST11' and 'Password' with masked characters. A 'Sign In' button is located at the bottom.

1. On **Home** screen, click **Trade Finance - Islamic**. Under **Trade Finance - Islamic**, click **Import Documentary Credit**.
2. Under **Import Documentary Credit**, click **Import LC Closure - Islamic**.

**Figure 2-3 Import LC Closure - Islamic**

The **Import LC Closure - Islamic** screen appears.

The Import LC Closure - Islamic - Registration stage has two sections Application Details and LC Details. Let's look at the details of Registration screens below:

**Figure 2-4 Registration - Application Details**

- On **Import LC Closure - Islamic - Registration - Application Details** screen, specify the fields.

**Note**

The fields which are marked as **Required** are mandatory.

**Table 2-3 Registration - Application Details - Field Description**

Field	Description
<b>Documentary Credit Number</b>	<p>Specify the documentary credit number.</p> <p>Alternatively, click <b>Search</b> icon to search and select the documentary credit number from the lookup.</p> <p>In lookup search/advanced lookup search, user can input DCN Reference Number, Applicant, Currency, Amount and User Reference to fetch the LC details.</p> <p>Based on the search result, select the applicable LC to be closed.</p>

Table 2-3 (Cont.) Registration - Application Details - Field Description

Field	Description
<b>Customer ID</b>	Read only field. Customer ID will be auto-populated based on the selected LC.
<b>Customer Name</b>	Read only field. Customer Name will be auto-populated based on the selected LC.
<b>Branch</b>	Read only field. Branch details will be auto-populated based on the selected LC from the lookup.
<b>Process Reference Number</b>	Read only field. Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.

Let's look at the details for Data Enrichment stage. User can enter/update the following fields.

Do the following steps to acquire a task at Data Enrichment stage. The Data Enrichment stage has the following hops for data capture:

- [Main Details](#)  
This topic provides the systematic instructions to initiate the Data Enrichment stage of Import LC Closure Islamic request.
- [Additional Fields](#)  
This topic provides the systematic instructions to capture the additional fields.

- [Advices](#)  
This topic provides the systematic instructions to capture the advices details.
- [Additional Details](#)  
This topic provides the systematic instructions to capture the additional details.
- [Settlement Details](#)  
This topic provides the systematic instructions to capture the settlement details of import LC Closure Islamic request.
- [Summary](#)  
This topic provides the systematic instructions to view the summary of **Import LC Closure Islamic** request.

## 2.3.1 Main Details

This topic provides the systematic instructions to initiate the Data Enrichment stage of Import LC Closure Islamic request.

Main details section has two sub section as follows:

- Application Details
- LC Details.

### Application Details

All fields displayed under main details section, would be same as Registration stage. For more information on fields, refer 'Application Details' section of **Registration** stage.

1. On **Data Enrichment - Main Details** screen, specify the fields if any, that were not entered at Registration stage.

**Figure 2-7 Main Details**

The screenshot displays the 'Main Details' screen for 'Import LC Closure Islamic DataEnrichment'. The application number is PK2IICL000008967. The form is organized into two primary sections: 'Application Details' and 'LC Details'. The 'Application Details' section contains fields for Documentary Credit Number (PK2IILN2210ADW3), Customer Id (001044), Customer Name (GOODCARE PLC), Branch (PK2-Oracle Banking Trade Fina), Process Reference Number (PK2IICL000008967), Priority (Medium), Submission Mode (Desk), Transaction Date (April 20, 2022), Customer Reference Number (REFERENCE TC01), and User Reference Number (PK2IILN2210ADW3). The 'LC Details' section includes LC Type (Sight), Product Code (ILIN), Product Description (Islamic Import LC - Sight Non Revolv), Advising Bank (001041 WELLS FAF), Form of Documentary Credit (IRREVOCABLE), Date of Issue (April 20, 2022), Applicable Rules (UCP LATEST VERSION), Date of Expiry (December 28, 2022), Place of Expiry (NEW YORK), Applicant Bank, Applicant (001044 GOODCARI), Beneficiary (001043 MARKS AN), Currency Code & Amount (GBP £100.00), Amount in Local Currency (GBP £100.00), Percentage Credit Amount, Additional Amount Covered, Shipping Guarantee Reference, Auto Close (toggle), and Closure Date (January 27, 2023). The bottom of the screen features a navigation bar with buttons for Reject, Refer, Hold, Cancel, Save & Close, and Next.

For more information on fields, refer to the field description table below:

**Note**

The fields which are marked as Required are mandatory.

Field	Description
<b>Documentary Credit Number</b>	Read only field. The documentary reference number as selected in the Registration stage.
<b>Customer ID</b>	Read only field. Displayed as available from earlier stage.
<b>Customer Name</b>	Read only field. Displayed as available from earlier stage.
<b>Branch</b>	Read only field. Displayed as available from earlier stage.
<b>Priority</b>	Read only field. System will populate the priority of the customer based on priority maintenance. If priority is not maintained for the customer, system will populate 'Medium' as the default priority.
<b>Submission Mode</b>	Read only field. Displayed as available from earlier stage.
<b>Process Reference Number</b>	Read only field. Displayed as available from earlier stage.
<b>Reopen Date</b>	Read only field. Displayed as available from earlier stage.
<b>Closure Date</b>	Read only field. Displayed as available from earlier stage.
<b>User Reference Number</b>	Read only field. Displayed as available from earlier stage.
<b>Customer Reference Number</b>	Read only field. Displayed as available from earlier stage.

### LC Details

The fields listed under this section are same as the fields listed under the **LC Details** section in Registration. All fields displayed in LC details section are read only fields.

**Figure 2-8 LC Details**
**Table 2-6 Main Details - Liquidation Details - Field Description**

Field	Description
<b>LC Type</b>	Read only field. LC type will be populated based selected LC using documentary credit number.
<b>Product Code</b>	Read only field. This field displays the product code of the selected LC.
<b>Product Description</b>	Read only field. This field displays the description of the product as per the product code.
<b>Advising Bank</b>	Read only field. This field displays the advising bank details (if provided) of the selected LC.
<b>Form of Documentary Credit</b>	Read only field. This field displays the form of documentary credit details of the selected LC.
<b>Date of Issue</b>	Read only field. This field displays the LC issuance date.
<b>Applicable Rules</b>	Read only field. This field displays the applicable rule of the selected LC.
<b>Date of Expiry</b>	Read only field. This field displays the expiry date of the selected LC.
<b>Place of Expiry</b>	Read only field. This field displays the place of expiry of the selected LC.
<b>Applicant Bank</b>	Read only field. This field displays the applicant bank details of the selected LC.
<b>Applicant</b>	Read only field. This field displays the details of the applicant of the selected LC.
<b>Beneficiary</b>	Read only field. This field displays the beneficiary details of the selected LC.
<b>Currency Code, Amount</b>	Read only field. This field displays the value of LC along with the currency details of the selected LC.

**Table 2-6 (Cont.) Main Details - Liquidation Details - Field Description**

Field	Description
<b>Amount In Local Currency</b>	Read only field. This field displays the amount of LC along in local currency.
<b>Percentage Credit Amount Tolerance</b>	Read only field. This field displays the percentage credit amount tolerance details of the selected LC.
<b>Additional Amount Covered</b>	Read only field. This field displays the details of additional amount covered of the selected LC.
<b>Shipping Guarantee Reference</b>	Read only field. This field displays the details of shipping guarantee reference.
<b>Auto Close</b>	Read only field. System default the value from the previous versions of the contracts.
<b>Closure Date</b>	Read only field. System default the value from the previous versions of the contracts.

2. Click **Next**.

The task will move to next data segment.

### FX Linkage

This section enables the user to link the existing FX contract(s) to the LC transactions. User can link multiple forward FX contracts.

FX contract linkage with the Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the Bill.

System should default Counter party for FX linkage. However option to be provided to user to select contracts of Accountee, if Accountee is other than counter party.

Table 2-15 FX Linkage - Field Description

Field	Description
<b>FX Linkage</b>	Click + to add multiple <b>FX Details</b> .
<b>FX Reference Number</b>	<p>Click <b>Search</b> to search and select the FX contract reference number. On select and save and close, system defaults the available amount, bot currency, sold currency and rate. Forward FX Linkage available for selection at bill would be as follows,</p> <ul style="list-style-type: none"> <li>Counterparty of the FX contract should be the counterparty of the Bill contract.</li> <li>Active Forward FX transactions authorized not marked for auto liquidation.</li> </ul> <p>Bill contract currency should be BOT currency of the FX transaction in case of an export Bill or the SOLD currency in case of an Import Bill.</p>
<b>Currency</b>	This field displays the FX SOLD currency from the linked FX contract.
<b>Contract Amount</b>	TTThis field displays the FX SOLD currency and Amount. The user can change the currency.

Table 2-15 (Cont.) FX Linkage - Field Description

Field	Description
<b>Available FX Contract Amount</b>	This field displays the available FX contract amount. The value is from the "Available Amount" in FXDLINKG screen in OBTR. Available Amount SOLD currency and Amount is displayed.
<b>Linkage Amount</b>	This field displays the amount available for linkage. The Linkage amount should default the LC Contract Currency and allowed to change the linkage amount alone. The validation "Sum of Linked amount will not be greater than contract amount" or "Linkage amount will not be greater than the available amount for linkage" should be triggered on save of the FX linkage screen when trying to link the single FX or multiple FX.
<b>Rate</b>	This field displays the rate at which the contract is booked.
<b>FX Amount in Local Currency</b>	This field displays the FX amount in local currency. The value is defaulted as FX BOT currency and Amount from FXDTRONL
<b>FX Expiry Date</b>	This field displays the expiry date from the linked FX contract.
<b>FX Delivery Period - From</b>	This field displays the date from which the contract is valid for utilization.
<b>FX Delivery Period - To</b>	This field displays the date to which the contract is valid for utilization.
<b>FX Linkage grid</b>	Below fields appear in the FX linkage grid along with the above fields.
<b>Bought Currency</b>	This field displays the currency from the linked FX contract.
<b>Sold Currency</b>	This field displays the currency from the linked FX contract.
<b>Available Contract Amount</b>	Available amount will be FX contract amount minus the linked amount. Available amount for linkage should be greater than Zero.
<b>Linked Amount</b>	Sum of Linked amount will not be greater than LC contract amount. Linked amount will not be greater than the available amount for linkage.
<b>Total Utilized Amount</b>	This field displays the total amount utilized against the corresponding linked FX. On query, both Utilized and Total Utilized amount holds the amount of latest version. The value is Total Utilized Amount SOLD currency and Amount for Import LC/Guarantee Issuance from FXDLINKG .
<b>Average FX Rate</b>	Multiple forward FX contract could be linked, and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. This will be populated in the Average FX Rate.
<b>Action</b>	Click Edit icon to edit the FX details.  Click Delete icon to delete the FX details.

6. Click **Save and Close** to save the details and close the screen.

### Preview Messages

The bank user can view a preview of the message and advice simulated from back office which is based on the details captured in the previous screen.

The screenshot displays a web interface for previewing messages. It is divided into two main sections: 'Preview - SWIFT Message' and 'Preview - Mail Advice'. Each section contains several input fields: a 'Language' dropdown menu (currently set to 'English'), a 'Message Type' dropdown menu, a 'Message Status' text box, and a 'Repair Reason' text box. Below these fields is a large 'Preview Message' text area. At the bottom right of the interface, there are two buttons: 'Save & Close' and 'Cancel'.

For more information on fields, refer to the field description table below.

Field	Description
<b>Preview SWIFT Message</b>	Displays the preview of SWIFT Messages.
<b>Language</b>	Read only field. The language to preview the draft guarantee details. English is set as default language for the preview.
<b>Message Type</b>	Select the message type from the drop-down.
<b>Message Status</b>	Read only field. Displays the message status of the draft message.
<b>Repair Reason</b>	Read only field. Displays the reason of repair.
<b>Preview Message</b>	This field displays a preview of the draft message.  Based on the guarantee text captured in the previous screen, guarantee draft is generated in the back office and is displayed in this screen.
<b>Preview Mail Device</b>	Based on the guarantee amendment captured in the previous screen, the preview message-mail advice is simulated from the back office and the user can view the message.
<b>Language</b>	Read only field.  The language for the advice message.  English is set as default language for the preview.
<b>Advice Type</b>	Select the advice type.
<b>Message Status</b>	Read only field. Displays the message status of the mail advice.
<b>Repair Reason</b>	Read only field. Displays the reason of repair.
<b>Preview Message</b>	This field displays a preview of advice.

7. Click **Save and Close** to save the details and close the screen.
8. Click **Next**.

The task will move to next data segment.

For more information on action buttons, refer to the field description table below.

If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided. In case of duplicate documents' system will terminate the process after handing off the details to back office.
<b>Checklist</b>	Click to view the list of items that needs to be completed and acknowledge. If mandatory checklist items are not selected, system will display an error on submit.

On submit of DE Stage, if Limits Earmark or Amount block fails, system should park the task in Limit Exception stage or Amount Block exception stage as required.

## 2.4 Multi Level Approval

This topic helps you quickly get acquainted with the Multi Level Approval process.

The Approval user can approve a Import LC Closure Islamic transaction.

1. Log in into OBTFPMCS application and on **Home** screen, click, **Task**.

2. Under **Task**, click **Free Task**.
3. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.
4. The acquired task will be available in **My Tasks** tab. Click **Edit** to approve the task.  
The **Approval Re-Key** pop-up screen appears.

**Figure 2-18 Approval Re-Key**

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

5. Open the task and re-key some of the critical field values from the request in the **Approval Re-Key** screen.

Some of the fields below will dynamically be available for re-key.:

- Currency
- Contract Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

6. Click **Proceed** to proceed for the approval.

The **Approval Summary** screen appears. The user can view the Summary tiles which displays list of important fields with values.

7. Click each tile to drill down from summary tiles into respective data segments to verify the details of all fields under the data segment.

#### **Note**

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

### **Approval Summary**

#### Tiles Displayed in Summary:

- Main Details - User can view the application and LC details.
- Advices - User can view the Advices details.
- Accounting Details - User can view the accounting entries generated in back office.

#### Note

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message “Value Date is different from Transaction Date for one or more Accounting entries.

- Commission, Charges and Taxes: User can see details provided for commission, charges and taxes.
- Preview Messages: User can view the preview of the simulated messages to remitting bank.
- Additional Fields - User can view the details of additional fields.

This topic helps you quickly get acquainted with the Reject Approval process.

## 2.4.1 Reject Approval

This topic helps you quickly get acquainted with the Reject Approval process.

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

1. Log in into OBTFPM application and on **Home** screen, click, **Task**.
2. Under **Task**, click **Free Task**.
3. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.
4. The acquired task will be available in **My Tasks** tab. Click **Edit**.  
The **Summary** screen appears. The user can view the Summary tiles which displays list of important fields with values.
5. Click each tile to drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

### Reject Approval Summary

The data captured during handling of the transaction until the stage when reject is given will be available in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view the application and LC details.
- Commission, Charges and Taxes: User can see details provided for commission, charges and taxes.
- Preview Messages: User can view the preview of the simulated messages to remitting bank.
- Accounting Details - User can view the accounting entries generated in back office.

**Note**

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message "Value Date is different from Transaction Date for one or more Accounting entries."

- Linked Finance Details - User can view the linked finance details.
- Additional Fields - User can view the details of additional fields.
- Exception (Approval) - User can view the Exception (Approval) details.
- Advices - User can view the Advices details.
- FX Linkage - User can view the FX linkage details.

For more information on Action Buttons, refer to the field description table below.

**Table 2-24 Reject Approval Summary - Action Buttons - Field Description**
