# Preface

- Purpose
- Audience
  This document is intended for the following audience:
- Documentation Accessibility
- Critical Patches
- Diversity and Inclusion
- Conventions
- Structure
  This manual is organized into the following chapters:
- Related Documents
- Screenshot Disclaimer
- Acronyms and Abbreviations
- Basic Actions
- Symbols and Icons

## Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service **Import LC Drawings - Islamic** process.

## Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

## Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

**Access to Oracle Support**

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Copyright © 2022, 2025, Oracle and/or its affiliates.

# Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and BulletinsCritical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security AssuranceOracle Software Security Assurance.

# Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

# Conventions

The following text conventions are used in this document:

| Convention | Meaning |
|---|---|
| **boldface** | Boldface type indicates graphical user interface elements associated with an action, or terms defined in text. |
| *italic* | Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values. |
| `monospace` | Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter. |

# Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

# Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

Copyright © 2022, 2025, Oracle and/or its affiliates.

# Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

# Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

**Table 1 Acronyms and Abbreviations**

| Abbreviation | Description |
|---|---|
| OBTFPM | Oracle Banking Trade Finance Process Management |
| LC | Letter of Credit |
| BC | Bankers Cheque |
| FX | Foreign Exchange |
| CCY | Currency |
| LCY | Local Currency |
| FCY | Foreign Currency |
| LOV | List of Values |
| CIF | Customer Information File |
| UDF | User Defined Fields |
| FFT | Free Format Text |
| SBLC | Standby Letter of Credit |

# Basic Actions

# Oracle Banking Trade Finance Process Management Cloud Service

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service process.

Welcome to the Oracle Banking Trade Finance Process Management Cloud Service User Guide. This guide provides an overview on the OBTFPMCS application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPMCS:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

**Overview**

Oracle Banking Trade Finance Process Management Cloud Service is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. Oracle Banking Trade Finance Process Management Cloud Service enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

**Benefits**

Oracle Banking Trade Finance Process Management Cloud Service helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPMCS allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

**Key Features**

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank’s existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

# Import LC Drawings - Islamic

Under an import LC, the beneficiary of the LC after exporting the goods under LC submits the documents under the LC to the nominated bank.

The nominated bank scrutinizes/negotiates and forwards the document to the Issuing bank. Issuing bank will lodge the same under import LC Drawing of Islamic process in OBTFPM.

The various stages involved for Islamic Import LC Drawing are:

- Receive and verify documents
- Input Import Drawing details
- Upload of related mandatory and non-mandatory documents.
- Verify/capture details and check documents for Discrepancies-Scrutiny Stage
- Input/Modify details of Import Drawing - Data Enrichment stage
- Check for limit availability if applicable.
- Check balance availability for amount block
- Check for sanctions & KYC status
- Earmark limits/Create amount block for cash margin/charges if applicable
- Capture remarks for other users to check and act
- Hand off request to back office
- Receipt of documents under LC from the presenting bank where an MT 750 has not been sent already.

The Islamic Import LC Drawing process flow is similar to that of conventional Import LC Drawing process flow.

- Common Initiation Stage
  This topic provides the systematic instructions to initiate the new **Import LC Drawing Islamic** request.
- Registration
  This topic provides the systematic instructions to initiate the Registration stage of **Import LC Drawings Islamic** request.
- Scrutiny
  This topic provides the systematic instructions to initiate the Scrutiny stage of import LC drawings Islamic request.
- Data Enrichment
  This topic provides the systematic instructions to initiate the Data Enrichment stage of import lc Drawings Islamic request.
- Exceptions
  This topic helps you quickly get acquainted with the Exceptions process.
- Multi Level Approval
  This topic helps you quickly get acquainted with the Multi Level Approval process.

**Table 2-9 (Cont.) Main Details - Action Buttons - Field Description**

| Field | Description |
|---|---|
| **Reject** | On click of Reject, user must select a Reject Reason from a list displayed by the system.<br>Reject Codes are:<br>• R1- Documents missing<br>• R2- Signature Missing<br>• R3- Input Error<br>• R4- Insufficient Balance/Limits<br>• R5 - Others<br>Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process. |
| **Refer** | Select a Refer Reason from the values displayed by the system.<br>Refer Codes are:<br>• R1- Documents missing<br>• R2- Signature Missing<br>• R3- Input Error<br>• R4- Insufficient Balance/Limits<br>• R5 - Others |
| **Hold** | The details provided will be saved and status will be on hold.User must update the remarks on the reason for holding the task.<br>This option is used, if there are any pending information yet to be received from applicant. |
| **Cancel** | Cancel the Scrutiny stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue. |
| **Save & Close** | Save the details provided and holds the task in ‘My Task’ queue for further update. This option will not submit the request. |
| **Next** | On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment. |

## 2.3.2 Document Details

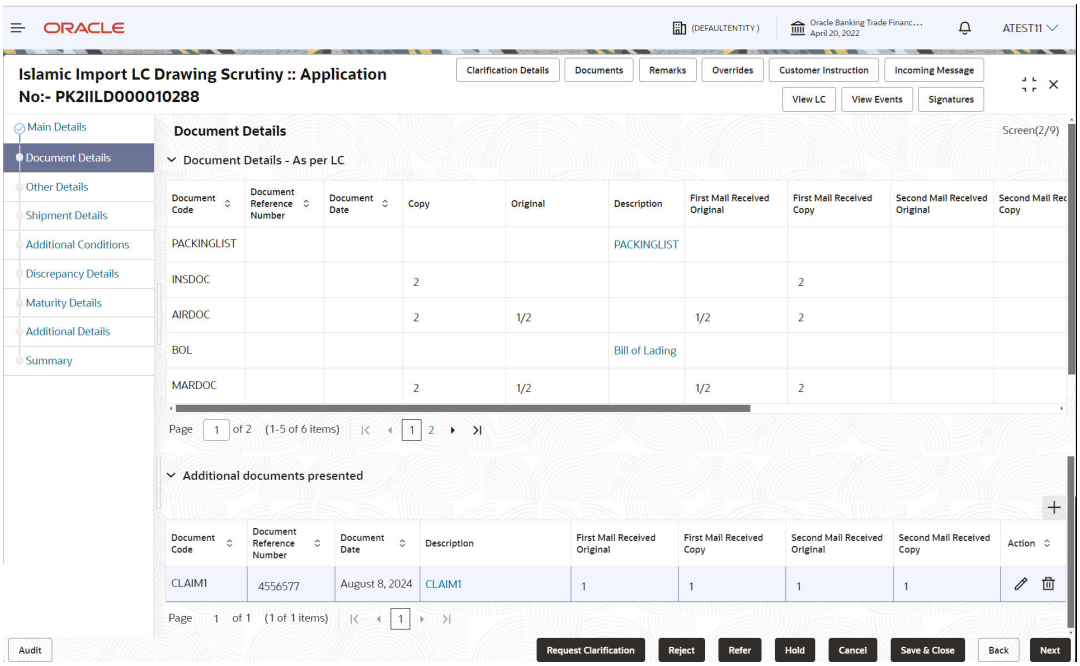
This topic provides the systematic instructions to capture the details of the documents received.

User can verify the documents received and identify discrepancies, if any. User can compare the document received with the required documents and identify the discrepancies, if any.

1. On **Document Details** screen, specify the fields.

**Figure 2-9 Scrutiny - Document Details**

Copyright © 2022, 2025, Oracle and/or its affiliates.



For more information on fields, refer to the field description table below.

**Table 2-10 Document Details - Field Description**

| Field | Description |
|---|---|
| **Document Details - As per LC** | This table will fetches the document details as maintained in the underlying LC(LCDTRONL). User can modify the details only which are fetched from underlying LC. User can not add or delete any document details. Once bill drawing is authorized and if update drawing is processed, details of this table will be fetched from underlying bill drawing. |
| **Document Reference Number** | Specify the reference number available in the documents. |
| **Document Code** | Document code is auto-populated from the latest LC. |
| **Document Date** | Displays the document date.<br>The user can change the date.<br><br>**Note**<br>If “Document date” is more than “Shipment Date” system displays an override alert. |
| **Copy** | Number of duplicate copies of documents as required in LC. |
| **Original** | Number of documents in original as required in LC. |
| **Description** | Displays the description of the document required as per LC.<br>Click the link to view the description of the document. |
| **First Mail Received Original** | Specify the number of originals of documents received from first mail. |

Copyright © 2022, 2025, Oracle and/or its affiliates.

**Table 2-10 (Cont.) Document Details - Field Description**

| Field | Description |
|---|---|
| **First Mail Received Copy** | Specify the number of duplicate copies of documents received from first mail. |
| **Second Mail Received Original** | Specify the number of originals of documents received from second mail. |
| **Second Mail Received Copy** | Specify the number of duplicate copies of documents received from second mail. |
| **Document Clause** | Displays the document clause.<br>Click the link to view the document clause. |
| **Received Description** | Defaults the description of the documents received from presenting bank.<br>The user can edit the description. |
| **Discrepant** | System marks the discrepant toggle as 'Yes' if there is difference between number of documents required and number of documents received.<br>The user to change, if any discrepancy is identified in the document. |
| **Discrepancy Code** | Click **Search** to search and select the discrepancy code based on the discrepancy identified.<br>This field is enabled if **Discrepant** option is enabled. |
| **Discrepancy Description** | This field displays the description based on the discrepancy code. |
| **Action** | Click Edit icon to edit the document code. |
| **Additional documents presented** | This table fetches document details as maintained for the specific bill drawing product (BCDPRMNT). Here user can add/modify/delete additional document received, if any, during bill drawing. Once bill drawing is authorized, details from this table will be fetched in update drawing operation also.<br>The user can click **+** to add multiple document details. |
| **Document Code** | Document code is auto-populated from the latest LC.<br>User can click plus **+** icon and click **Search** to search and select the document code for the additional documents presented.<br>User can add or delete the code by deleting the line on the grid.<br>**Note**<br>The User is not allowed to add any document code which is already existing in any of the two tables. |
| **Document Reference Number** | Specify the document reference number of the documents linked. |
| **Document Date** | Provide the document date of the underlying document.<br>**Note**<br>If "Document date" is more than "Shipment Date" system displays an override alert. |

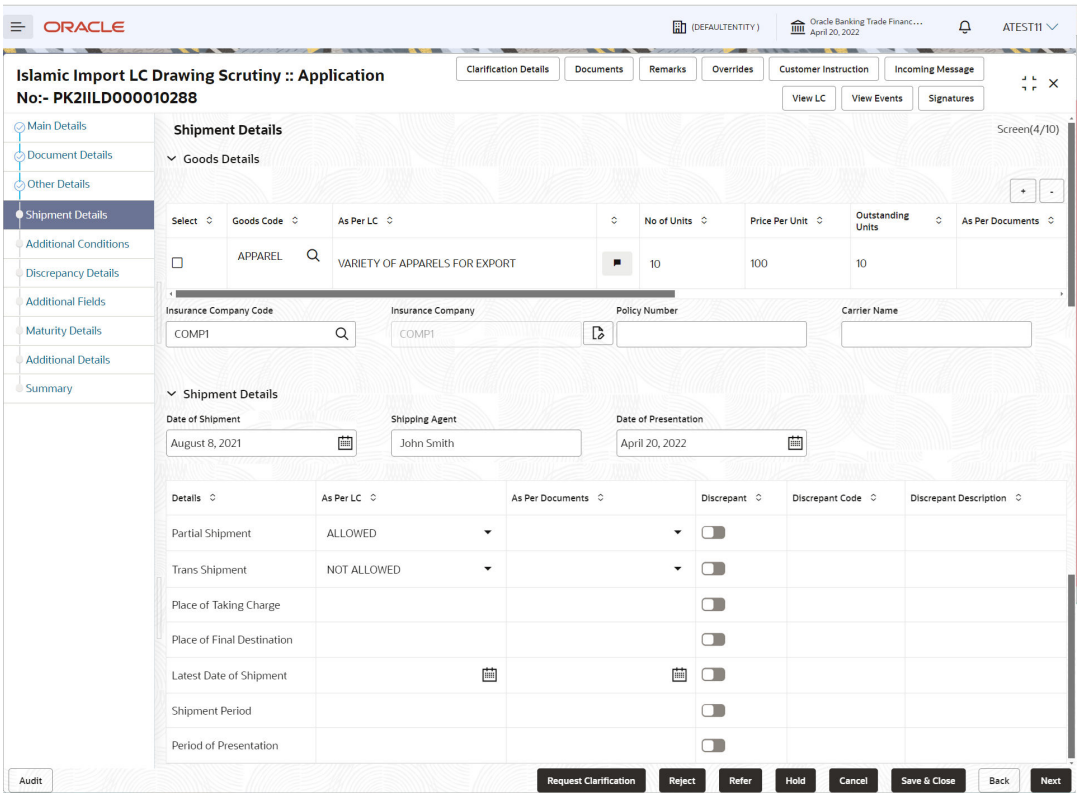
## 2.3.4 Shipment Details

This topic provides the systematic instructions to capture the shipment details.

Scrutiny user scrutinize the Availability & Shipment request for Islamic Import LC Drawing. User must check whether the received documents of goods and shipment matches the requirement in LC.

1. On **Shipment Details** screen, specify the fields.

**Figure 2-11 Shipment Detials**



For more information on fields, refer to the field description table below.

Copyright © 2022, 2025, Oracle and/or its affiliates.

**Table 2-14 Shipment Detials - Field Description**

| Field | Description |
|---|---|
| **Goods Details** | Specify the goods details.<br>Click + sign to add multiple good details. |
| **Select** | Check box to select the record. |
| **Goods Code** | This field displays goods code as per latest LC.<br>Click **Search** to search and select the goods code for adding a new good details. |
| **As per LC** | This field displays description of the goods as per the latest LC. |
| **No of Units** | Specify the number of units being imported or exported. |
| **Price per Unit** | Indicates the value for price per unit. |
| **Outstanding Units** | Indicates the value for Outstanding Units. |
| **As per Documents** | Specify the description of goods as per the documents. |
| | Click the edit icon to edit the description of goods. |
| **Discrepant** | Enable the option, if there is difference between LC requirement and documents received. |
| **Discrepant Code** | Click **Search** to search and select the discrepancy code based on the discrepancy identified.<br>This field is enabled if **Discrepant** option is enabled. |
| **Discrepant Description** | This field displays the description based on the discrepancy code. |
| | Click the edit icon to edit the Discrepant description. |
| **Insurance Company Code** | Click **Search** to search and select the insurance company code. |
| **Insurance Company** | The details of insurance company is populated as per the selected Insurance Company Code. |
| **Policy Number** | Specify the policy number of the insurance. |
| **Carrier Name** | Specify the details of the carrier as per the documents received, if the goods got shipped via multiple carriers. |
| **Shipment Details**. | Specify the Shipment Details.<br>As part of amendment, user can change the values available in the fields based on the description in the following table. |
| **Date Of Shipment** | Select the date of shipment as per the documents received. |
| **Shipping Agent** | Specify the shipping agent details based on the document received. |
| **Date of Presentation** | The date of presentation is auto-populated based on the system date.<br>User can change the date. |
| **Details** | The details represent the fields in latest LC. |
| **As per LC** | Specify or select the description of the fields as per the latest LC. |
| **As per Documents** | Specify or select the description of the fields as per the documents. |
| **Discrepant** | Enable the option, if there is difference between LC terms and documents received. |
| **Discrepant Code** | Click **Search** to search and select the discrepancy code based on the discrepancy identified.<br>This field is enabled if **Discrepant** option is enabled. |

# 2.4 Data Enrichment

This topic provides the systematic instructions to initiate the Data Enrichment stage of import lc Drawings Islamic request.

On successful completion of Registration of an Import LC Drawing Islamic, the task moves to Data Enrichment stage. As part of Data Enrichment, user can enter/update basic details of the drawing request and can verify if the request can be progressed further.

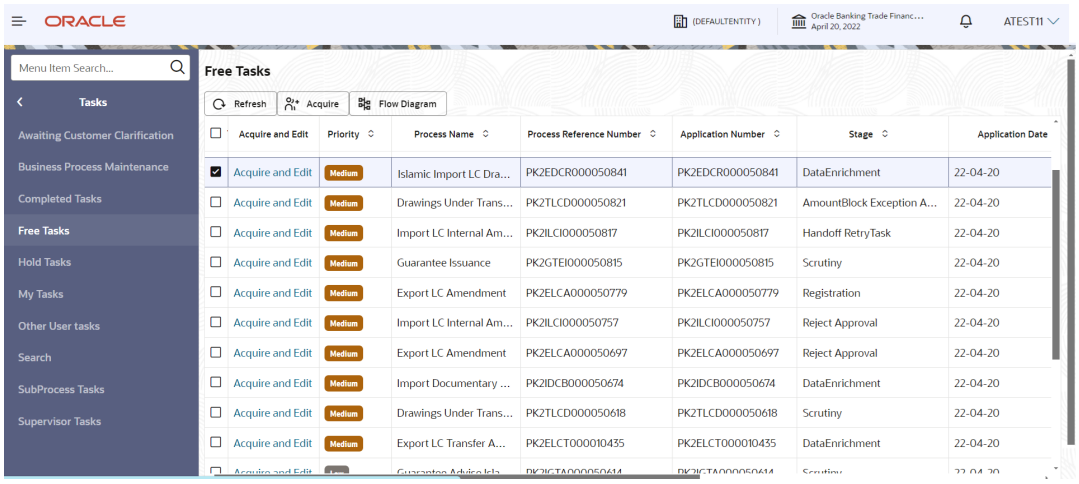
> **Note**
>
> For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Do the following steps to acquire a task currently at Data Enrichment stage:

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click, **Tasks**.
2. Under **Tasks**, click **Free Tasks**.

**Figure 2-21 Free Tasks**

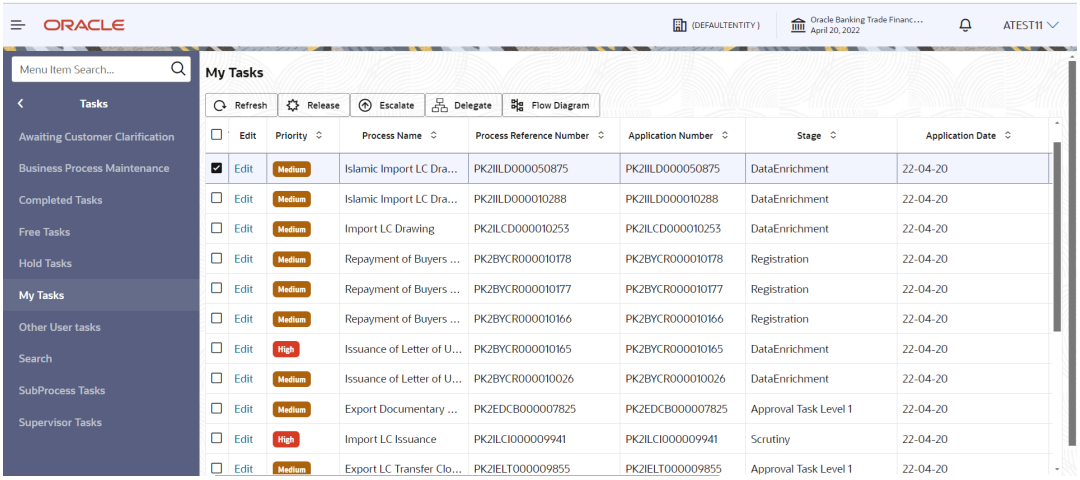


The **Free Task** screen displays.

3. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.
4. The acquired task will be available in **My Tasks** tab. Click **Edit** to scrutinize the registered task.

Copyright © 2022, 2025, Oracle and/or its affiliates.

**Figure 2-22 My Tasks**



Let's look at the details for Data Enrichment stage. User can enter/update basic details of the incoming request. Do the following steps to acquire a task at Data Enrichment stage. The Data Enrichment stage has the following hops for data capture:

- Main Details
  This topic provides the systematic instructions to initiate the Data Enrichment stage of Import LC Drawing Islamic request.
- Document Details
  This topic provides the systematic instructions to capture the details of the documents received.
- Other Details
  This topic provides the systematic instructions to capture the other details like Shipping Guarantee reference, Credit Value Date, Debit Value Date, Other Bank charges etc.
- Shipment Details
  This topic provides the systematic instructions to capture the shipment details.
- Additional Conditions
  This topic provides the systematic instructions to capture the details of additional conditions.
- Discrepancy Details
  This topic provides the systematic instructions to capture the discrepancy details.
- Maturity Details
  This topic provides the systematic instructions to capture the maturity details.
- Advices
  This topic provides the systematic instructions to capture the advices details.
- Additional Details
  This topic provides the systematic instructions to capture the additional details.
- Settlement Details
  This topic provides the systematic instructions to capture the settlement details of **Import LC Drawing Islamic** request.
- Summary
  This topic provides the systematic instructions to view the summary of **Import LC Drawing Islamic** request.

# 2.4.1 Main Details

This topic provides the systematic instructions to initiate the Data Enrichment stage of Import LC Drawing Islamic request.

Main details section has two sub section as follows:

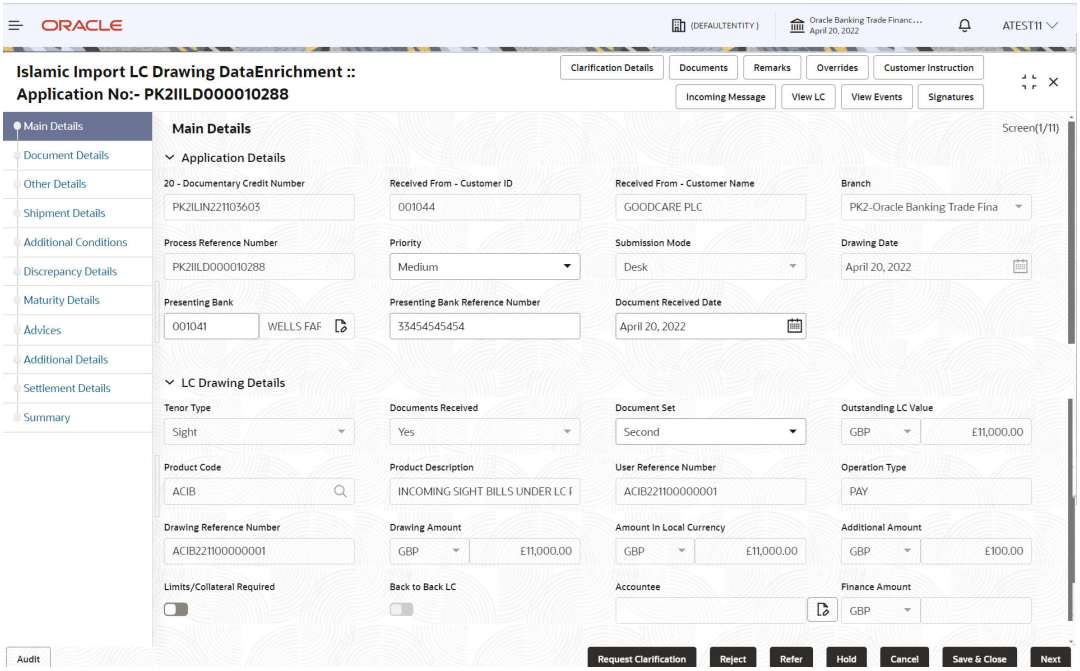
- Application Details
- LC Drawing Details.

**Application Details**

All fields displayed under main details section are same as 'Application Details' section of **Scrutiny** stage.

1. On **Data Enrichment - Main Details** screen, specify the fields that were not entered at Registration stage.

**Figure 2-23 Data Enrichment - Main Details**

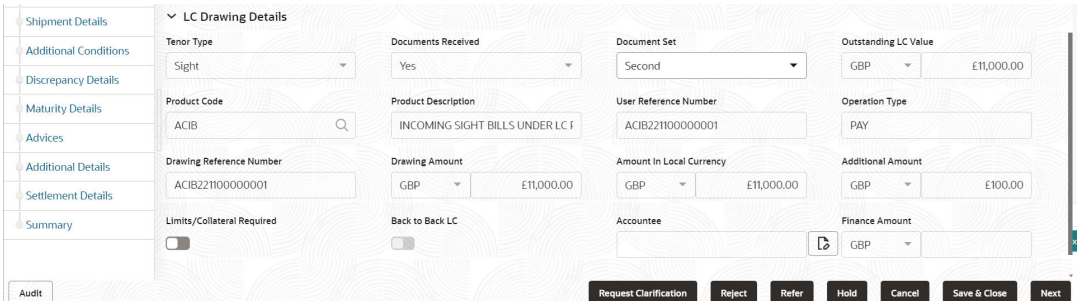


For more information on the fields, refer Table 2-6 of **Scrutiny** stage.

**LC Drawing Details**
The fields listed under this section are read only fields.

**Figure 2-24**

Copyright © 2022, 2025, Oracle and/or its affiliates.



For more information on the fields, refer Table 2-7 of **Scrutiny** stage.

2. Click **Next**.

   The task will move to next data segment.
   For more information on Action Buttons, refer to the Table 2-9 of **Scrutiny** stage.

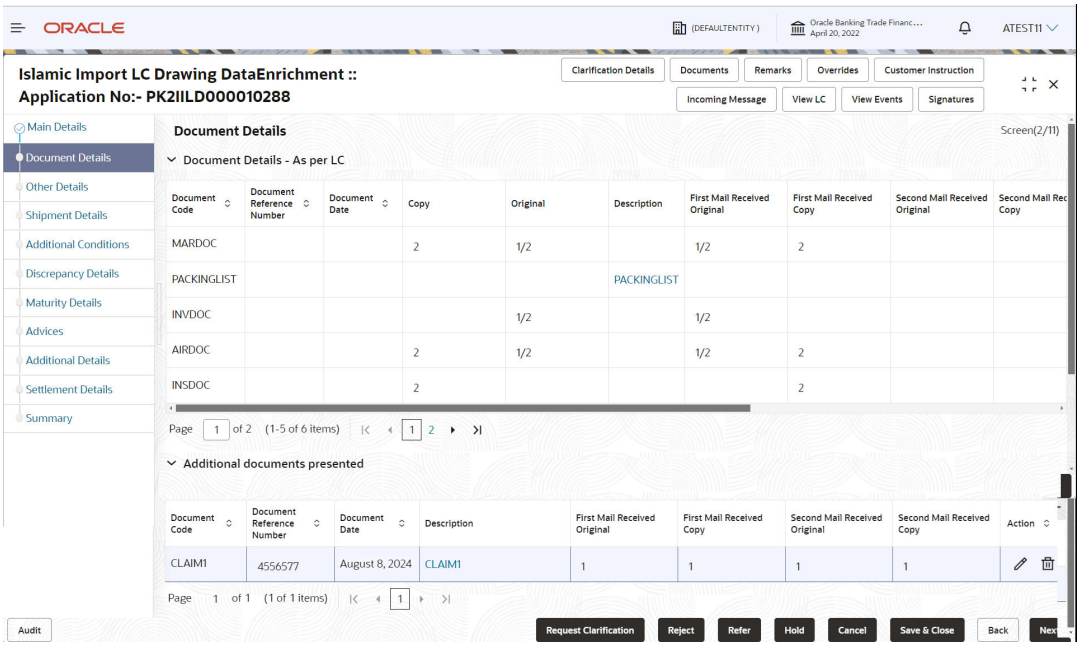
## 2.4.2 Document Details

This topic provides the systematic instructions to capture the details of the documents received.

User can verify the documents received and identify discrepancies, if any. User can compare the document received with the required documents and identify the discrepancies, if any.

1. On **Document Details** screen, specify the fields.

**Figure 2-25 Data Enrichment - Document Details**



For more information on the fields, refer Table 2-10 of **Scrutiny** stage.

Copyright © 2022, 2025, Oracle and/or its affiliates.

2. Click **Next**.

   The task will move to next data segment.
   For more information on Action Buttons, refer to the Table 2-11 table of **Scrutiny** stage.

## 2.4.3 Other Details

This topic provides the systematic instructions to capture the other details like Shipping Guarantee reference, Credit Value Date, Debit Value Date, Other Bank charges etc.

1. On **Other Details** screen, specify the fields that were not entered at Registration stage.

**Figure 2-26 Other Details**

   For more information on fields, refer to the Table 2-12 table of **Scrutiny** stage.

2. Click **Next**.

   The task will move to next data segment.
   For more information on Action Buttons, refer to the Table 2-13 table of **Scrutiny** stage.

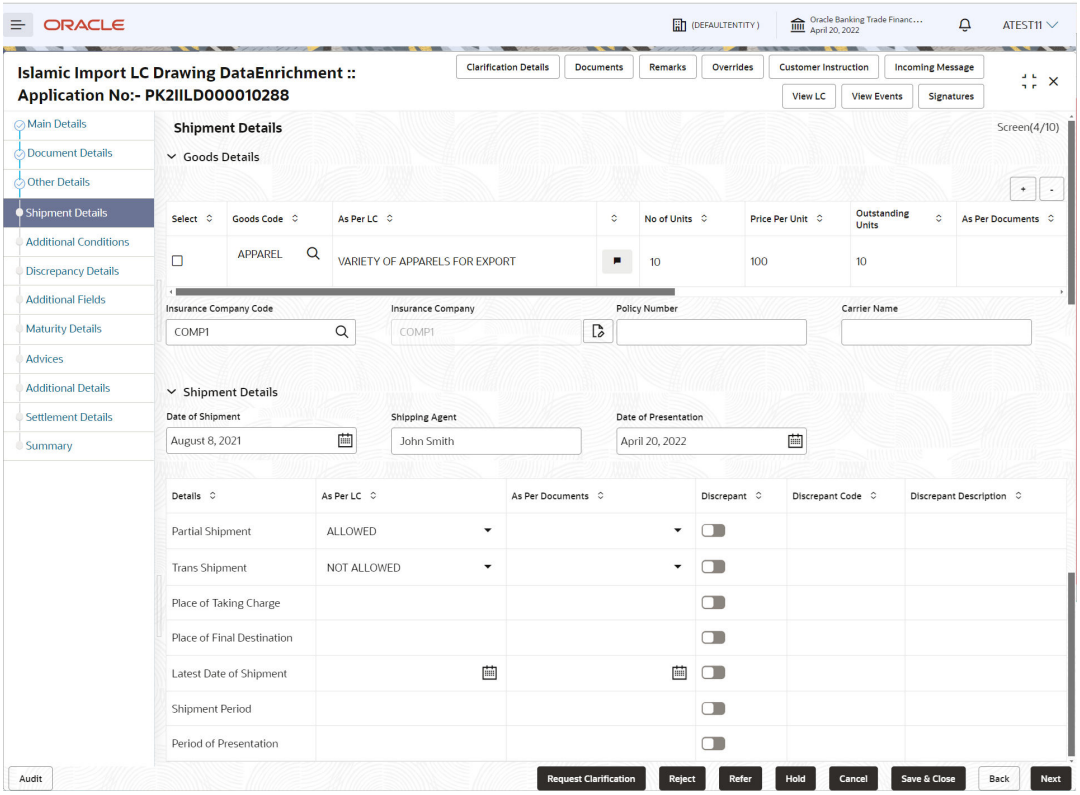
## 2.4.4 Shipment Details

This topic provides the systematic instructions to capture the shipment details.

User must check whether the received documents of goods and shipment matches the requirement in LC.

1. On **Shipment Details** screen, specify the fields.

**Figure 2-27 Shipment Detials**



For more information on fields, refer to the Table 2-14 table of **Scrutiny** stage.

2. Click **Next**.

The task will move to next data segment.
For more information on Action Buttons, refer to the Table 2-15 table of **Scrutiny** stage.

## 2.4.5 Additional Conditions

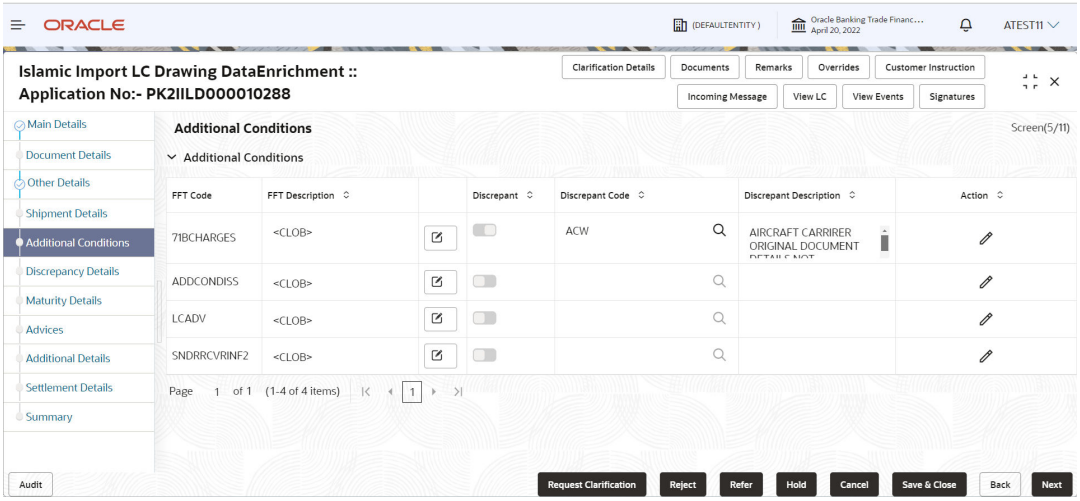
This topic provides the systematic instructions to capture the details of additional conditions.

This section displays the list of additional conditions as per LC.

1. On **Additional Conditions** screen, specify the fields.

**Figure 2-28 Additional Conditions**

Copyright © 2022, 2025, Oracle and/or its affiliates.



For more information on fields, refer to the Table 2-16 table of **Scrutiny** stage.

2. Click **Next**.

   The task will move to next data segment.
   For more information on Action Buttons, refer to the Table 2-17 table of **Scrutiny** stage.

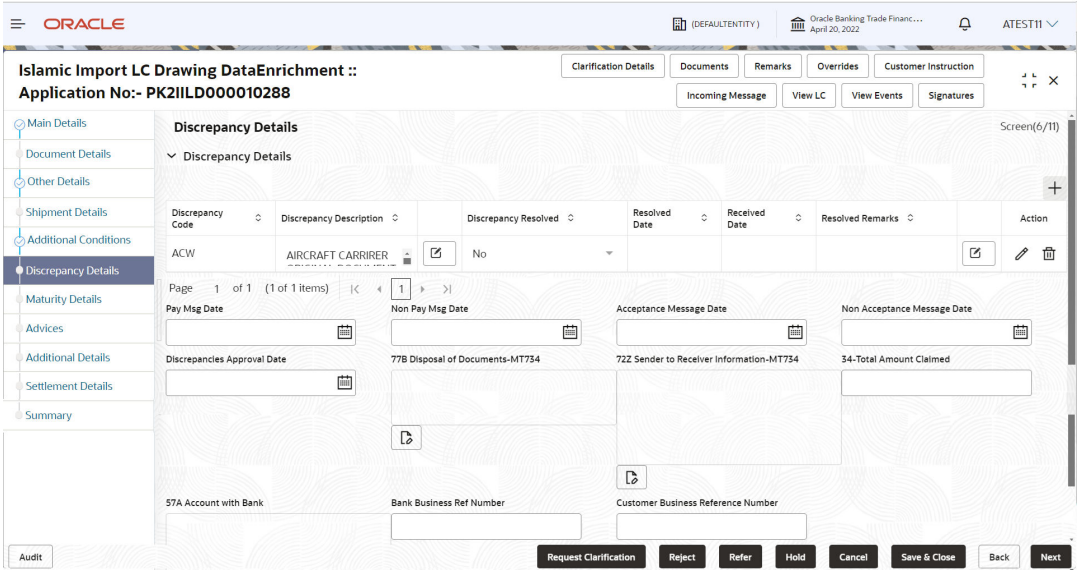
## 2.4.6 Discrepancy Details

This topic provides the systematic instructions to capture the discrepancy details.

This section displays the list of discrepancies captured. User can add/update/review the discrepancies identified in the section.

1. On **Discrepancy Details** screen, specify the fields, if any.

**Figure 2-29 Discrepancy Details**



Copyright © 2022, 2025, Oracle and/or its affiliates.

For more information on fields, refer to the Table 2-18 table of **Scrutiny** stage.

2. Click **Next**.

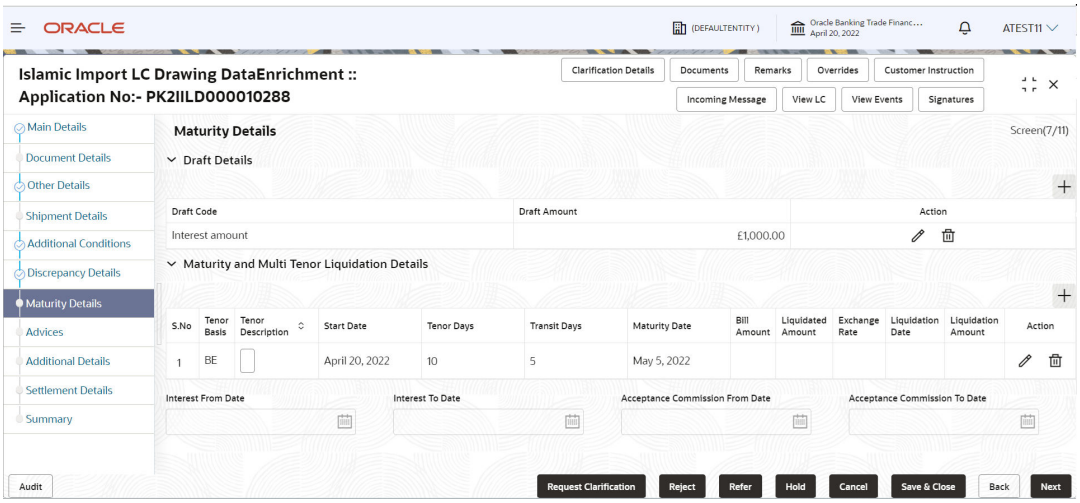
The task will move to next data segment.
For more information on Action Buttons, refer to the Table 2-19 table of **Scrutiny** stage.

## 2.4.7 Maturity Details

This topic provides the systematic instructions to capture the maturity details.

1. On **Maturity Details** screen, specify the fields.

**Figure 2-30 Maturity Details**



For more information on fields, refer to the Table 2-20 table of **Scrutiny** stage.

2. Click **Next**.

The task will move to next data segment.
For more information on Action Buttons, refer to the Table 2-21 table of **Scrutiny** stage.

## 2.4.8 Advices

This topic provides the systematic instructions to capture the advices details.

Advices menu displays the advices available under a product code from the back office as tiles. User can edit the fields in the tile, if required. User can suppress the advice, if required.

1. On **Advices** screen, c click ⋮ on any advice tile to view the advice details.

**Figure 2-31 Advices**

# 2.5 Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

As per regulatory requirement, all tasks are scrutinized for KYC, Compliance and Sanctions. The checks to external system/internal system is initiated after the Data Enrichment stage.

The amount Block Earmark and Limit Earmarks, if applicable are also initiated after the Data Enrichment stage.

If a negative response is received for any of the checks, the task lands in respective exceptional queue which require further manual handling/approval.

**Exception - Amount Block**

As part of amount block validation, application will check if sufficient balance is available in the account to create an amount block. On hand-off, system will debit the blocked account to the extent earmark and credit charges/ commission account in case of charges block or credit the amount in suspense account for earmarks created for collateral.

Copyright © 2022, 2025, Oracle and/or its affiliates.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPMCS application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of updated available fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the “Amount Block Reference Number “to the back office.

On successful handoff, back office will make use of these “Amount Block Reference Number” to release the Amount Block done in the mid office (OBTFPMCS) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

**Amount Bock Exception**

This section will display the amount block exception details.

**Summary**

# 2.6 Multi Level Approval

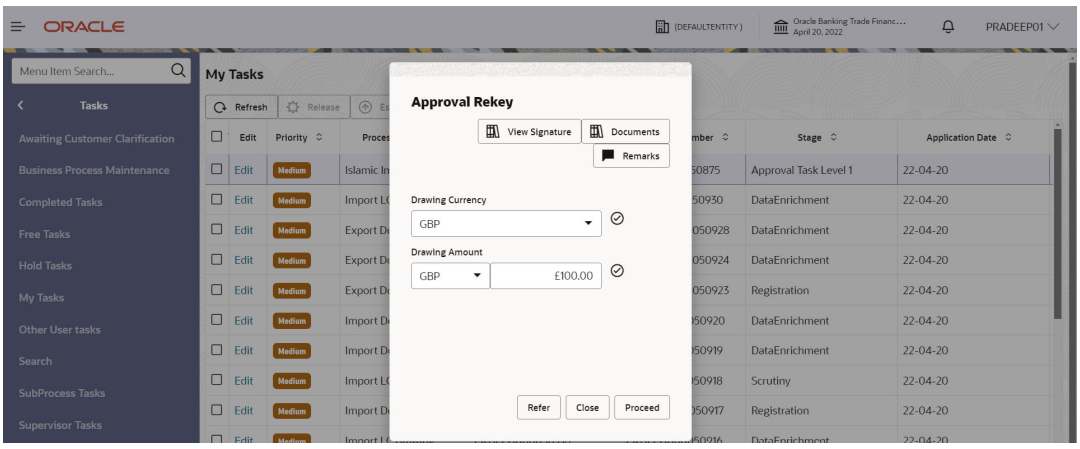
This topic helps you quickly get acquainted with the Multi Level Approval process.

The Approval user can approve a Import LC Drawing Islamic transaction.
The Approval summary screen displays the summary tiles. The tiles displays a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

1. Log in into OBTFPMCS application and on **Home** screen, click, **Task**.
2. Under **Task**, click **Free Task**.
3. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.
4. The acquired task will be available in **My Tasks** tab. Click **Edit** to approve the task.

   The **Approval Re-Key** pop-up screen appears.

**Figure 2-40 Approval Re-Key**



For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key

Copyright © 2022, 2025, Oracle and/or its affiliates.

values are different from the values captured, then application will display an error message.

5. Open the task and re-key some of the critical field values from the request in the **Approval Re-Key** screen.

   Some of the fields below will dynamically be available for re-key.:

   - Drawing Currency
   - Drawing Amount

   Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

6. Click **Proceed** to proceed for the approval.

   The **Approval Summary** screen appears. The user can view the Summary tiles which displays list of important fields with values.

7. Click each tile to drill down from summary tiles into respective data segments to verify the details of all fields under the data segment.

> **Note**
>
> The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.
