Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management **Export LC Advise - Islamic** process.

Audience

This user guide is intended for the central administrator of the Bank who controls the system and application parameters and ensures smooth functionality and flexibility of the banking application.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Related Documents

Formore information on any related features, you can refer to the following documents:

- Oracle Banking SecurityManagement System User Guide
- GettingStarted User Guide

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description
OBTFPM	Oracle Banking Trade Finance Process Management
LC	Letter of Credit
BC	Bankers Cheque
FX	Foreign Exchange
CCY	Currency
LCY	Local Currency
FCY	Foreign Currency
LOV	List of Values
CIF	Customer Information File
UDF	User Defined Fields
FFT	Free Format Text
SBLC	Standby Letter of Credit

Basic Actions

Most of the screens contain Action Buttons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

Table 2 Common Action Buttons and its Definitions

Action Buttons	Description
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes are: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.
Refer	Select a Refer Reason from the values displayed by the system. Refer Codes are: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others

Table 2 (Cont.) Common Action Buttons and its Definitions

Action Buttons	Description
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.
Cancel	Click Cancel to cancel the transaction input midway without saving any data.
Save & Close	Click Save & Close to save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Next	Click Next , system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.
Submit	Click Submit to complete the transaction after you specify all the input parameters for a particular process. The task will get moved to next logical stage of the process. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.

Symbols and Icons

Oracle Banking Trade Finance Process Management

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management process.

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

2

Export LC Advise - Islamic

This chapter is documented to get familiar with the Export LC Advise - Islamic process of Oracle Banking Trade Finance Process Management.

As part of Conventional Export LC Advise, the advising bank will receive the LC through MT700, 701. The LC can be advise directly to the beneficiary if Advice Through Bank(ATB) is not applicable.

If ATB is applicable, then the LC is routed to the ATB by advising bank via MT 710, 711 and the ATB will advise the LC to the beneficiary. The various stages involved for Advise of an Islamic Export Letter of Credit are:

- Receive and verify documents (Non Online Channel) - Registration stage
- Input application details
- Upload of related mandatory and non-mandatory documents.
- Verify /capture details (SWIFT/Non Online Channels)- Scrutiny stage
- Input/Modify details of LC - Data Enrichment stage
- Check for limit availability if applicable.
- Check balance availability for amount block
- Check for sanctions & KYC status
- Earmark limits/Create amount block for cash margin/charges if applicable
- Capture remarks for other users to check and act
- Hand off request to back office

The design, development and functionality of the Islamic Export LC Advise process flow is similar to that of conventional Export LC Advise process flow. In the following sections, let's look at the details for Export LC Advising - Islamic process:

This topic contains following subtopics:

- [Common Initiation Stage](#)
This topic provides the systematic instructions to initiate the **Export LC Advise - Islamic** request.
- [Registration](#)
This topic provides the systematic instructions to initiate the Registration stage of Export LC Advise - Islamic request.
- [Scrutiny](#)
This topic provides the systematic instructions to initiate the Scrutiny stage of Export LC Advise - Islamic request.
- [Data Enrichment](#)
This topic provides the systematic instructions to initiate the Data Enrichment stage of Export LC Advise - Islamic request.
- [Exceptions](#)
This topic helps you quickly get acquainted with the Exceptions process.

- [Multi Level Approval](#)
This topic helps you quickly get acquainted with the Multi Level Approval process.
- [Reject Approval](#)
This topic helps you quickly get acquainted with the Reject Approval process in Export LC Advise - Islamic.

2.1 Common Initiation Stage

This topic provides the systematic instructions to initiate the **Export LC Advise - Islamic** request.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Initiate Task**.

The **Initiate Task** screen appears.

Figure 2-1 Initiate Task

2. On **Initiate Task** screen, specify the fields.

Note

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

Table 2-1 Initiate Task - Field Description

Field	Description
Process Name	Select a process name from the drop-down list.
Customer Id	Click Search to search and select the customer id of the applicant or applicant's bank from the look-up.
Branch	Select the required branch code from the drop-down list.

For more information on action buttons, refer to the field description table below.

Table 2-2 Action Buttons - Field Description

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	Click to clear the contents update and enter the values again.

3. Click **Proceed** to proceed to the next step.

2.2 Registration

This topic provides the systematic instructions to initiate the Registration stage of Export LC Advise - Islamic request.

A user can register a request for an Islamic Export LC Advise - Islamic received by mail/ Courier at the front desk. During registration, user captures the basic details of the request, check the signature of authorized signatory of the issuing bank, and then upload related documents. On submit of the request, the task should be available for an LC expert to handle in the next stage.

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

Specify **User ID** and **Password**, and login to **Home** screen.

Figure 2-2 Login Screen

The image shows the Oracle login screen. At the top, the Oracle logo is displayed in red. Below the logo, there are two input fields. The first is labeled "User Name" and contains the text "ATEST11". The second is labeled "Password" and contains a series of dots. Below these fields is a dark gray button with the text "Sign In" in white. The background of the login area is light gray, and there is a decorative header with a pattern of blue, yellow, and black stripes.

1. On **Home** screen, click **Trade Finance - Islamic**. Under **Trade Finance - Islamic**, click **Export Documentary Credit**.
2. Under **Export Documentary Credi**, click **Export LC Advise - Islamic**.

Figure 2-3 Export LC Advise - Islamic

The **Export LC Advise - Islamic - Registration** screen is displayed. The Export LC Advise - Islamic - Registration stage has two sections Application Details and LC Details. Let's look at the details of Registration screens below:

Figure 2-4 Export LC Advise - Islamic - Registration - Application Details

The registration screen is divided into two main sections:

- Application Details**:
 - MT 720 - Transfer LC: ☐
 - Submission Mode:
 - Issuing Bank:
 - Beneficiary:
 - Branch:
 - Process Reference Number:
 - Priority:
 - 32B - Currency Code, Amount:
 - Advising Date:
- LC Details**:
 - LC Type:
 - 40A - Form of Documentary Credit:
 - User Reference Number:
 - Date of Expiry:
 - 39A - Percentage Credit Amount Tolerance:
 - Advising Bank:
 - Form of Documentary Credit Details:
 - 31D - Place of Expiry:
 - Limits/Collateral Required: ☐
 - Closure Date:
 - Product Code:
 - 20 - Documentary Credit Number:
 - 31C - Date of Issue:
 - 31A - Applicant Bank:
 - 39C - Additional Amount Covered:
 - Product Description:
 - Contract Reference Number:
 - 40E - Applicable Rules:
 - Applicant:
 - Amount in Local Currency:

Buttons at the bottom: Hold, Cancel, Save & Close, Submit.

- On **Export LC Advise - Islamic - Registration - Application Details** screen, specify the fields.

Note

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

Table 2-3 Export LC Advise - Islamic - Registration - Application Details - Field Description

Field	Description
MT 720 – Transfer LC	Switch to  , if it is an Export LC Transfer Advise request. Switch to  , if it is an Export LC Advise request.
Beneficiary	If MT 720 – Transfer LC toggle is disabled, click Search to search and select the beneficiary customer from the look-up. If beneficiary is a customer of the bank, system will check for valid KYC status. If KYC status is not valid, system will display alert message. Note For SWIFT processing of incoming MT 700, the user can edit the Party ID and or Name populated by the system to reflect the actual beneficiary details available in incoming MT 700. If MT 720 – Transfer LC toggle is enabled, this field will be renamed as Second Beneficiary.
Branch	Displays the customer's home branch based on the customer ID and it can be changed, if required. Note Once the request is submitted, Branch field is non-editable.
Priority	System populates the priority of the customer based on priority maintenance, also enables the user to change the priority as per the requirement. Set the priority of the Export LC Advise request as: • Essential • Critical • High • Medium • Low If priority is not maintained for a customer, 'Medium' priority will be defaulted.

Table 2-3 (Cont.) Export LC Advise - Islamic - Registration - Application Details - Field Description

Field	Description
Submission Mode	System populates the submission mode of Export LC Advise request. By default the submission mode will have the value as 'Desk'. The user can change the submission mode. The options are: • Courier - Request received through Courier • Desk - Request received through Desk • SWIFT-Non STP - Request received through SWIFT-Non STP to register the task for the failed STP messages (MT798 and other MT Messages)
Currency Code, Amount	Select the currency code. Specify the value of LC (with decimal places) as per currency type.
Process Reference Number	Read only field. Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.
Advising Date	Read only field. By default, the application will display branch's current date.
Issuing Bank/OLD Advising Bank	Click Search to search and select the issuing bank from look-up. Party type with banks will only be displayed in the look-up. The system displays the: • SWIFT code (if available) • Name and address of the bank On selection of the record if SWIFT code is available then SWIFT code will be populated, if SWIFT code is not available then the bank's name and address will be populated. If MT 720 – Transfer LC toggle is enabled, this field will be renamed as OLD Advising Bank. Click Search to search and select the old advising bank from look-up based on Party ID/Party name. Note If the KYC non-compliant party is selected then the system immediately gives instant alert as "Customer ID - (CIF ID) is not KYC compliant."

LC Details

Registration user can provide LC details in this section. Alternately, details can be provided by Scrutiny user.

4. On **Export LC Advise - Islamic - LC Details** screen, specify the fields.

Note

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

Table 2-4 Export LC Advise - Islamic - Registration - LC Details - Field Description

Field	Description
LC Type	Select the applicable LC from the drop-down list. The options are: Sight Usance
Advising Bank	Click Search to search and select the old advising bank from the look-up based on Party ID/Party name.
Product Code	Click Search to search and select the product code from the look-up. Alternatively, specify the product code and on tab out system will validate and populate the selected product description.
Product Description	Read only field. This field displays the description of the product as per the selected product code.
40A/B - Form of Documentary Credit	Select the form of LC documentary credit as per the requirement. Default LC type is Irrevocable. The options are: Irrevocable Irrevocable Transferrable If MT 720 – Transfer LC toggle is enabled, this field will be read-only.
Form of Documentary Credit Details	Specify the form of documentary credit details. If MT 720 – Transfer LC toggle is enabled, this field will be read-only.
20 - Documentary Credit Number	Specify the documentary credit number. If MT 720 – Transfer LC toggle is enabled, this field will be renamed as 21 - Documentary Credit Number .
20 - Transferring Bank's Reference	Specify the transferring bank's reference number. This field gets displayed, if MT 720 – Transfer LC toggle is enabled.

Table 2-4 (Cont.) Export LC Advise - Islamic - Registration - LC Details - Field Description

Field	Description
Contract Reference Number	Read only field. Contract reference number will be defaulted by the system based on selected product code.
User Reference Number	System defaults the user reference number based on the product code. The user can change the user reference number.
Reference to Pre-Advice	Specify the details of pre-advice, if issued by the bank. This field gets displayed, if MT 720 – Transfer LC toggle is disabled.
Date of Issue	System defaults the date of issue. The user can change the date of issue. Future dates are not allowed.
Applicable Rules	System defaults the applicable rule as UCP Latest Version . The user can change the applicable rule.
Date of Expiry	Specify the expiry date. The expiry date can be equal or greater than the issue date. If the expiry date is earlier than the issue date, system will provide an error and if the expiry date is equal to the issue date, system will provide a alert message.
Place of Expiry	Specify the place of expiry of LC.
Applicant Bank	Click Search to search and select the applicant bank from the look-up. This field gets displayed, if MT 720 – Transfer LC toggle is disabled.
Applicant /First Beneficiary	Click Search to search and select the applicant, if applicant is a customer of the bank. If applicant is a walk in customer, provide the details. If MT 720 – Transfer LC toggle is enabled, this field will be renamed as First Beneficiary .
Percentage Credit Amount Tolerance	Specify the tolerance (+/-) on the total LC value. Tolerance value must be either one or two digit value. If Tolerance is more than 10%, alert message will be displayed.
Limits/Collateral Required	Switch to  , if limit check is required. Switch to  , if limit check is not required.
Additional Amount Covered	Specify any additional amount to be processed under this LC drawing.
Amount In Local Currency	Read only field. System fetches the local currency equivalent value for the LC amount from back office (with decimal places).
50B - Non-Bank Issuer of the Original Documentary Credit	Click Search to search and select the non-bank issuer of the original documentary credit from the look-up. This field gets displayed, if MT 720 – Transfer LC toggle is enabled.

Table 2-4 (Cont.) Export LC Advise - Islamic - Registration - LC Details - Field Description

Field	Description
52A - Issuing Bank of the Original Documentary Credit	Click Search to search and select the issuing bank of the original documentary credit from the look-up. This field gets displayed, if MT 720 – Transfer LC toggle is enabled.
Auto Close	Switch to , if Auto close is required for the transactions. Switch to , if Auto close is not required for the transactions.
Closure Date	System default the “Closure Date” with the value “Expiry Date” + No of Closure days maintained in the respective Product in which the contract has been created. System automatically close the contract on the specified “Closure Date” if “Auto Close” is selected as “Yes” for the specific contract. User can modify the system defaulted “Closure Date” and system should validate the same for the below conditions, • Closure Date must be after the Issue Date. • Closure Date must be after the Expiry Date. • Closure Date cannot be blank, when the “Auto Close” is checked.

5. Click **Submit**.

The task will move to next logical stage of Export LC Advise - Islamic.
For more information on action buttons, refer to the field description table below.

Table 2-5 Export LC Advise - Islamic - Registration - Action Buttons - Field Description

Field	Description
Signatures	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures.
Documents	Upload the documents received under the Export LC Advise - Islamic.
Remarks	Specify any additional information regarding the Export LC Advise - Islamic. This information can be viewed by other users handling the request.

Table 2-5 (Cont.) Export LC Advise - Islamic - Registration - Action Buttons - Field Description

Field	Description
Customer Instruction	Click to view/ input the following. • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.
Cancel	Cancels the Export LC Advise - Islamic task. Details entered will not be saved and the task will be removed
Save & Close	Save the information provided and holds the task in 'My Task' queue for working later. This option will not submit the request.
Submit	The task will move to next logical stage of Export LC Advise - Islamic. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.
Checklist	On Submit , system will trigger acknowledgment to the customer and give confirmation message for successful submission. Task will get moved to next logical stage of Export LC Advise -Islamic. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.

2.3 Scrutiny

This topic provides the systematic instructions to initiate the Scrutiny stage of Export LC Advise - Islamic request.

On successful completion of Registration of an Export LC Advise - Islamic request, the request moves to Scrutiny stage. At this stage the gathered information during Registration are scrutinized.

As part of scrutiny, the user can enter/update basic details of the Islamic LC request and can verify if the request can be progressed further. The task initiated from the online channel (SWIFT MT700, 701/MT710, 711 parsing) should be created in the Scrutiny stage directly as in conventional process flow.

MT700, 701 Parsing-Conventional and Islamic Trade finance is applicable

When parsing the MT700, 701, OBTFPM should read the SWIFT message,

- If 57A tag (ATB) value is available in the message, the task should be created in the Conventional Export LC process.
- If 57A tag (ATB) value is not available in the message and if the beneficiary is not a customer of the bank, the task should be created in the Conventional Export LC process.

- If 57A tag (ATB) value is not available in the message and if the beneficiary is a customer of the bank and if beneficiary is an Islamic customer, the task should be created in the Islamic Export LC process.
- If 57A tag (ATB) value is not available in the message and if the beneficiary is a customer of the bank and if beneficiary is not an Islamic customer, the task should be created in the Conventional Export LC process.

MT710, 711 Parsing-Conventional and Islamic Trade finance is applicable

When parsing the MT710, 711, OBTFPM should read the SWIFT message,

- If the beneficiary is not a customer of the bank, the task should be created in the Conventional Export LC process.
- If the beneficiary is a customer of the bank and if beneficiary is an Islamic customer, the task should be created in the Islamic Export LC process.
- If the beneficiary is a customer of the bank and if beneficiary is not an Islamic customer, the task should be created in the Conventional Export LC process.

MT720, 721 Parsing-Conventional and Islamic Trade finance is applicable

When parsing the MT720, 721, OBTFPM should read the SWIFT message,

- If the beneficiary is not a customer of the bank, the task should be created in the Conventional Export LC process.
- If the beneficiary is a customer of the bank and if beneficiary is an Islamic customer, the task should be created in the Islamic Export LC process.
- If the beneficiary is a customer of the bank and if beneficiary is not an Islamic customer, the task should be created in the Conventional Export LC process.

MT700, 701 Parsing-where Islamic Trade finance is only applicable

When parsing the MT700, 701, OBTFPM should read the SWIFT message and all the tasks should be created in the Islamic Export LC process.

MT710, 711 Parsing-where Islamic Trade finance is only applicable

When parsing the MT710, 711, OBTFPM should read the SWIFT message and all the tasks should be created in the Islamic Export LC process.

MT720, 721 Parsing-where Islamic Trade finance is only applicable

When parsing the MT720, 721, OBTFPM should read the SWIFT message and all the tasks should be created in the Islamic Export LC process.

Do the following steps to acquire a task currently at Scrutiny stage:

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Tasks**.
2. Under **Tasks**, click **Free Tasks**.

Sender to Receiver Information	Read only field. Displays the additional information to receiver.
Instructions to Intermediary Bank	Click Search to search and select the Instructions to Intermediary Bank details.

2. Click **Next**.

The task will move to next data segment.

Table 2-13 Payment Details - Action Buttons - Field Description

Field	Description
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.
Documents	Upload the required documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.
Remarks	Specify any additional information regarding the Export LC Advise - Islamic. This information can be viewed by other users handling the request. Content from Remarks field should be handed off to Remarks field in Backend application.
Overrides	Click to view the overrides accepted by the user.
Customer Instruction	Click to view/ input the following. • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTfPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.
Incoming Message	This button displays the multiple messages (MT760 + up to 7 MT761). In case of MT798, the User can click and view the MT798 message(770,700/701). In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task. In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.
Signatures	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures.
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.

Table 2-13 (Cont.) Payment Details - Action Buttons - Field Description

Field	Description
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes are: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.
Refer	Select a Refer Reason from the values displayed by the system. Refer Codes are: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.
Cancel	Cancel the Scrutiny stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Back	On click of Back, task moves to previous logical step.
Next	On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

2.3.4 Additional Fields

This topic provides the systematic instructions to capture the additional fields.

Banks can configure these additional fields during implementation.

1. On **Additional Fields** screen, specify the fields, if any.

Figure 2-11 Scrutiny - Additional Fields

2. Click **Next**.

The task will move to next data segment.

For more information on action buttons, refer to the field description table below.

Amount	Displays the amount of split settlement.
Split Settlement Details	This section displays the Split Settlement details. Split Settlement details section appears from Back office, when the user clicks on the Recalculate button.
Sequence	Displays the sequence number is auto populated with the value, generated by the system.
Component	Displays the split component type eligible for Split.
Amount	The system splits the respective Charge/Commission amount automatically between counter party and third party with 50% value by default. The bank user can modify the amount. More than two splits are not allowed.
Customer	Indicates the ID of the Customer in Split Settlement Details section.
GL Account	The system defaults the GL account.
Account	The system defaults the Settlement account. User can modify the settlement account. System initiates a call to common core tables within OBTFPM to select the account.
Account Currency	This field defaults the currency of the account.
Branch	Indicates the branch of the customer where transaction is getting processed.

Table 2-17 (Cont.) Commission, Charges and Taxes Details - Field Description

Field	Description
Percentage	The system splits the respective Charge/Commission percentage automatically between counter party and third party with 50% value by default. More than two splits are not allowed. The bank user can modify the amount. The system should validate that the total percentage of each component doesn't exceed 100 and the total amount of each component doesn't exceed total component amount.
Exchange Rate	System populates the exchange rate maintained.
Original Exchange Rate	Displays the Original Exchange Rate as simulated in split settlement details section.
Party Type	Displays the party type in split settlement details section.
Negotiation Reference	Specify the negotiation reference number.
AR-AP Tracking	Indicates to defer the charge/ commission in Split Settlement Details section. The user can modify the AR-AP Tracking flag as per the requirements.
Loan/Finance Account	Displays the loan account.
Negotiation Rate	Displays the negotiation rate.
Negotiation Reference	Displays the negotiation reference.

- Click **Save and Close** to save the details and close the screen.

FX Linkage

This section enables the user to link the existing FX contract(s) to the LC transactions. User can link multiple forward FX contracts.

FX contract linkage with the Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the Bill.

The screenshot shows the 'FX Linkage' window. It contains a table with the following columns: FX Reference Number, Bought Currency, SOLD Currency, Available Contract Amount, Rate, Linked Amount, Total Utilized Amount, FX Expiry Date, and Action. The table has one row with the following data: FX Reference Number: 000FNDF20076A9W9, Bought Currency: (empty), SOLD Currency: (empty), Available Contract Amount: £4,000.00, Rate: 1.35, Linked Amount: £4,000.00, Total Utilized Amount: (empty), FX Expiry Date: March 19, 2020, and Action: (edit and delete icons). Below the table, there is a 'Page 1 of 1 (1 of 1 items)' indicator and a 'Average FX Rate' input field with the value '0'. At the bottom right, there are 'Save & Close' and 'Cancel' buttons.

For more information on fields, refer to the field description table below.

Table 2-18 FX Linkage - Field Description

Field	Description
FX Linkage	Click + to add multiple FX Details . Below fields are displayed on the FX Linkage pop-up screen, if the user clicks the plus icon.
FX Reference Number	Click Search to search and select the FX contract reference number. On select and save and close, system defaults the available amount, bot currency, sold currency and rate. Forward FX Linkage available for selection at bill would be as follows, - Counterparty of the FX contract should be the counterparty of the Bill contract. - Active Forward FX transactions authorized not marked for auto liquidation. Bill contract currency should be BOT currency of the FX transaction in case of an export Bill or the SOLD currency in case of an Import Bill.
Currency	Read only field. This field displays the FX BOT currency from the linked FX contract.
Contract Amount	This field displays the FX BOT currency and Amount. The user can change the currency.

Table 2-18 (Cont.) FX Linkage - Field Description

Field	Description
Available FX Contract Amount	Read only field. This field displays the available FX contract amount. The value is from the "Available Amount" in FXDLINKG screen in OBTR. Available Amount BOT currency and Amount is displayed.
Linkage Amount	System defaults the amount available for linkage. The Linkage amount should default the LC Contract Currency and allowed to change the linkage amount alone. The validation "Sum of Linked amount will not be greater than contract amount" or "Linkage amount will not be greater than the available amount for linkage" should be triggered on save of the FX linkage screen when trying to link the single FX or multiple FX.
Rate	Read only field. This field displays the rate at which the contract is booked.
FX Amount in Local Currency	Read only field. This field displays the FX amount in local currency. The value is defaulted as FX BOT currency and Amount from FXDTRONL
FX Expiry Date	Read only field. This field displays the expiry date from the linked FX contract.
FX Delivery Period - From	Read only field. This field displays the date from which the contract is valid for utilization.
FX Delivery Period - To	Read only field. This field displays the date to which the contract is valid for utilization.
FX Linkage grid	Below fields appear in the FX linkage grid along with the above fields.
Bought Currency	Read only field. This field displays the currency from the linked FX contract.
Sold Currency	Read only field. This field displays the currency from the linked FX contract.
Available Contract Amount	Read only field. Available amount will be FX contract amount minus the linked amount. Available amount for linkage should be greater than Zero.
Linked Amount	Sum of Linked amount will not be greater than LC contract amount. Linked amount will not be greater than the available amount for linkage.
Total Utilized Amount	Read only field. This field displays the total amount utilized against the corresponding linked FX. On query, both Utilized and Total Utilized amount holds the amount of latest version. The value is Total Utilized Amount BOT currency and Amount for Import LC/Guarantee Issuance from FXDLINKG .

Table 2-18 (Cont.) FX Linkage - Field Description

Field	Description
Average FX Rate	Read only field. Multiple forward FX contract could be linked, and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. This will be populated in the Average FX Rate.
Action	Click Edit icon to edit the FX details. Click Delete icon to delete the FX details.

4. Click **Save and Close** to save the details and close the screen.
5. Click **Next**.

The task will move to next data segment.

For more information on action buttons, refer to the field description table below.

Table 2-19 Additional Details - Action Buttons - Field Description

Field	Description
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.
Documents	Upload the required documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.
Remarks	Specify any additional information regarding the Export LC Advise. This information can be viewed by other users handling the request. Content from Remarks field should be handed off to Remarks field in Backend application.
Overrides	Click to view the overrides accepted by the user.
Customer Instruction	Click to view/ input the following. • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.

Table 2-19 (Cont.) Additional Details - Action Buttons - Field Description

Field	Description
Incoming Message	This button displays the multiple messages (MT760 + up to 7 MT761). In case of MT798, the User can click and view the MT798 message(770,700/701). In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task. In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.
Signatures	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures.
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes are: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.
Refer	Select a Refer Reason from the values displayed by the system. Refer Codes are: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.

Table 2-19 (Cont.) Additional Details - Action Buttons - Field Description

Field	Description
Cancel	Cancel the Scrutiny stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Back	On click of Back, task moves to previous logical step.
Next	On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

2.3.6 Summary

This topic provides the systematic instructions to view the summary details in Scrutiny stage of Export LC Advise - Islamic request.

User can review the summary of details updated in Scrutiny stage of Export LC Advise - Islamic request.

The Summary tiles display a list of important fields with values. User can drill down from Summary tiles into respective data segments.

1. On **Summary** screen, click  on any tile to view the details.

Audit

Reject Refer Hold Approve Next

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral. Amount block check will be done for all the parties related to the LC.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM Application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

- Approve:
 - Settlement amount will be funded (outside of this process)
 - Allow account to be overdrawn during hand-off
- Refer:
 - Refer Refer back to DE providing alternate settlement account to be used for block.
 - Different collateral to be mapped or utilize lines in place of collateral.
- Reject: Reject the transaction due to non-availability of sufficient balance in settlement account

Amount Bock Exception

This section will display the amount block exception details.

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

5. Open the task and re-key some of the critical field values from the request in the **Approval Re-Key** screen.

Some of the fields below will dynamically be available for re-key.:

- Currency

- Contract Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able to see the summary tiles and the details in the screen by drill down from tiles.

6. Click **Proceed** to proceed for the approval.

The **Approval Summary** screen appears. The user can view the Summary tiles which displays list of important fields with values.

7. Click each tile to drill down from summary tiles into respective data segments to verify the details of all fields under the data segment.

Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.
